Child Nutrition Waivers

Below is the list of child nutrition waivers the U.S. Department of Agriculture granted to the Arkansas Department of Education’s Division of Elementary and Secondary Education. These waivers give flexibility in providing meals to students during school closures related to COVID-19.

These waivers are granted to the state. In order for schools to operate under these waivers, school districts must submit an application to DESE’s Child Nutrition Unit and receive approval. Depending on the delivery of meals, schools may need multiple waivers from the list below. For more information, contact your local school district or the DESE Child Nutrition Unit at (501) 324-9502.
