Assessing ELL Students in the Primary, Middle, and Secondary Grade Levels

Developed by the Limited English Proficient State Collaborative on Assessment and Student Standards (LEPSCASS) of the Council of Chief State School Officers (CCSSO) and Measurement Incorporated (MI)
Introduction

This presentation contains general information about the English Language Development Assessment (ELDA) and specific information about administering the Reading, Writing, Listening and Speaking English Language Development Assessments for grades 3-12.

Before administering this assessment, please review this information to familiarize yourself with the assessment administration procedures.
Security Concerns and Procedures

- District and State procedures must be followed at all times
- Ensure the security of test booklets as well as all other materials
- During assessment administration, a test administrator must be present at all times
- Testing Ratios
Security Concerns and Procedures

Student-Teacher Ratio

During each assessment administration, a test administrator must be in the room at all times.

Reading, Writing, and Listening*

20 : 1

Speaking (scored live)

1 : 1

If more students are tested than the recommended ratio, additional proctor(s) must be present.
Who can administer the ELDA?

- Individual currently licensed by the Arkansas Department of Education as a teacher or administrator
- Proctors may be classroom aides who assist a test administrator with test administration.
  - If test materials are present in any testing situation, an individual licensed in the state of Arkansas by the Arkansas Department of Education as a teacher or administrator must be present in the room.
  - Under no circumstances should unlicensed school personnel handle testing materials or administer any part of a state test, such as the English Language Development Assessment (ELDA).
Assessment Schedule

- Districts may set their own testing schedule in conformance with the state testing window.
- ELDA is not a timed test.
- Make-ups for absentees are permitted.
- Local flexibility in sequencing is permitted.
- Language domain subtests can be broken into separate testing periods.
Breaks

- Test Administrator’s discretion.
  - A short break between Parts 2 and 3 of the Reading test and between Parts 1 and 2 of the Writing test is recommended.
  - One 10-minute break between Parts 3 and 4 of the Listening assessment is recommended.

- Stop points are built into the assessment so sub-tests may be administered in more than one sitting.

- The Speaking assessment will take less than 30 minutes, so no break is recommended.

DTC Procedures for Distributing and Returning Materials

Receiving the order

- Confirm that your shipment contains a District Coordinator Manual, return shipping label(s), and boxes for each of your schools listed on your packing list.

- Open and inventory the contents of each school’s materials and verify that all materials are included.

- Reseal and send each school its respective box.
Returning materials after testing

- After testing, schools shall return all materials to the district in the same box in which they were delivered.
- DTC shall ensure that all boxes are taped securely.
- DTC is to use the supplied return shipping label(s) to send all testing materials back to MI. Follow the instructions on the back of the shipping labels to arrange for a pick-up of the materials. Please follow these instructions explicitly to arrange for ground pick-up. Air/Express drivers are unable to accept packages for ground pick-up. Do not use another shipping method or your own shipping labels.
- Ship all materials to the MI Coldwater KS office on or before Friday May 16, 2008.
- Refer all questions about packing and shipping to the ELDA helpline 888-612-0180 or elda@measinc.com
STC Collection And Return Of Student Assessment Materials

- When students have completed the assessment, they should raise their hands so that you can collect their booklets.
- Students must remain seated quietly at their desks and may not have access to any personal items or materials for the remainder of the testing period.
- After testing is completed, gather all the answer folders for students that you have tested into a stack. Place the pre-printed header sheet on top of this stack of student answer folders. All headers and student answer folders should then be placed back into the box.
- All materials (used and unused) should be returned to your School Test Coordinator directly after the assessment is completed.
The School Test Coordinator(s) should account for and pack all materials before returning the boxes to the District Test Coordinator.

The materials should be packed for return in the original shipping boxes in the following manner:

- Unused test booklets and answer folders in the bottom of the box
- Prompt cassettes or CDs, Speaking Scoring Guides, Administration Manuals, and any extra forms or headers should be placed above the unused materials
- Used test booklets should be placed above the administration materials
- The stack(s) of used answer folders, with corresponding headers ON TOP, should be placed in the top of the box

When the School Test Coordinator has accounted for and packed all testing materials, all materials (used and unused) should be returned to the District Test Coordinator.
Preparing the Answer Document for Use

Applying the Pre-Id Barcode label:

- Each Answer Document should have a Pre-Id barcode label applied to the upper left-hand corner of the sheet. There is a sample barcode printed on the answer document to demonstrate correct placement of the Pre-Id barcode label. Place the Pre-Id barcode label over the sample.

- If you DO have a Pre-Id barcode label for your student, you do not need to fill in any of the identification and demographic information on the sheet.

- If you do NOT have a Pre-Id barcode label for a particular student, you must use a generic label. PLEASE do not use a Pre-Id barcode label belonging to a different student who is not going to take the test. Your student’s results will be misattributed. A supply of generic labels will be provided with your testing materials.
Do not apply ANY barcodes or labels except those shipped along with the testing materials. Application of any other barcodes or labels will delay or prevent scoring of your Answer Document.
