

# FEATURES & ELECTIVE ADD-ONS

## A SYSTEM TO SUPPORT STUDENT SUCCESS

### State-funded system components.

#### **Kuder Navigator®**

In 20 minutes or less, students can complete career interests, skills confidence, and work values assessments within Navigator to uncover amazing insights. But that's just the beginning: they'll also create multi-year education plans and begin to set and achieve their future goals. Companion curriculum, *Direct Your Future™*, is also included to help teachers connect college and career planning to the classroom and implement Navigator.

#### **Graduation Planning & Progress Tracker**

Navigator also helps districts meet requirements of Act 930 by providing a framework to support the development of student success plans, exploration of education and careers, and preparation for life after high school.

#### **College Access Package**

For college-bound students, Navigator features a suite of resources and activities including test preparation and practice resources, a quick and easy college match and admissions likelihood tool, the ability to track college and scholarship applications, and, for districts who have agreements with Parchment, the ability to request transcripts.

#### **Kuder Administrative Database Management System®**

The ADMS for teachers, counselors, and other administrators can be summed up in two simple words: virtual dashboard. The ADMS dashboard will support graduation planning and provide access to individual and group data and robust reporting.

#### **Single Sign-On and Account Provisioning**

Through Kuder's integration with Clever, both single sign on (SSO) and account provisioning from a district's SIS is provided. This means when a student goes to the Kuder system via Clever SSO, they are automatically logged in using school credentials.

#### **Free Webinar Training**

Kuder is offering proactive training so system users gain an understanding of the ACCPS. Throughout the life of the contract, Arkansas educators can participate in one-hour customized webinars, and also have unlimited access to standard webinars and online trainings.

#### **FREE Access for Students in Grades 6 & 7**

The ADE covers licensing fees for students in grades 8-12. *Kuder will provide system access for students in grades 6 and 7 at no additional cost!*

## Arkansas-Specific Features & Customizations

Kuder's college and career planning system is designed to meet the specific needs of Arkansas students, families, and educators. Within the ACCPS you'll find:

- ✔ Graduation planning tool to support Student Success Plans.
- ✔ Connection to course lists for participating districts.
- ✔ A surveying tool.
- ✔ State-specific labor market data and information.
- ✔ Unique system branding.
- ✔ The ability to export data for ADE Research & Technology.

## AVAILABLE ADD-ONS

### Professional Development

The Kuder Career Advisor Training® (CAT) program equips practitioners with meaningful learning opportunities, techniques, and resources they can immediately implement. As an International Association of Career Advisors Certified Course Provider, we hold our curricula to the highest standard.

CAT is offered at two levels to provide the best understanding and guidance. Ask us about CAT Essentials™ and CAT Advanced™, available online or face-to-face to fit every budget and schedule.

### System Training

An addition to free Arkansas-specific webinars, districts may purchase on-site, face-to-face training for \$2,000/day. This includes two, three-hour sessions. Additional, consecutive days of training after the first day are \$1,000/day.

The most successful teachers, counselors, and career coaches never stop learning. Kuder's professional development courses the latest evidence-based strategies, trends, and best practices in your choice of an e-learning or blended learning environment.

### Kuder Galaxy®

Kuder Galaxy is an online career awareness system for students in grades Pre-K through 5 that makes learning about the world of work fun by igniting the playful spirit of young learners through a series of educational games, activities, and experiences. Ask about the best option for your district or school, and ensure a full Pre-K through 12 career development experience for your students.

"Kuder has earned a strong reputation for customizing our platform to meet local needs. We're thrilled to continue to bring our technology to Arkansas, where we've been helping students dream big and plan accordingly since 2002."

**John Milroy**
