- 12oz. bottles of G2 Gatorade were sold through a la carte sales to grades 6-9. Per USDA Smart Snack regulations, when mixed grades are in the same building, and all students have access to all venues in the school, the items available for sale to the students (beverages) must meet the requirements for the youngest school standards.
- General Area: Food Safety and Storage
 - Foods must be labeled and dated in storage (dry storage, coolers, and freezers) to ensure adherence to food safety standards in Arkansas State Board of Health Food Code 3-501.17. When received, all foods should be dated to ensure proper use and safety of food supply (FIFO -first in-first out inventory procedures). Please see attached HACCP Standard Operating Procedure, Date Marking Ready-to-Eat, and Potentially Hazardous Food.
 - Foods must be stored at least 6 inches above the floor in adherence to the food safety standards in Arkansas State Board of Health Food Code 3-305.11. On the day of the review, several boxes were observed sitting on the floor in the freezer.
 - In accordance with 7 CFR 210.21(d) and USDA Policy Memo SP 38-2017 a school food authority must purchase to the maximum extent practicable, domestic commodities or products. At the time of the review, several non-domestic products were found in storage which did not have a Buy American justification forms.
