Findings:				
1) Production records were not completed accurately in accordance with 7CFR 210.10(a)(3) Production and menu records. Schools or school food authorities, as applicable, must keep production and menu records for the meals they produce. These records must show how the meals offered contribute to the required food components and food quantities for each age/grade group every day. Accurate production records may require updated Standardized Recipes to ensure all items used in the recipe contribute to the 2013 revision of the meal pattern.
