Findings: 1) While reviewing the meal count procedures at the elementary school, the preschool meal count was reported to be taken from morning breakfast attendance records and entered in before lunch meal service because of preschool students eating in the classroom and not coming into the cafeteria. Entering in meals sold after the time of service is an acceptable way of tracking what students receive a meal based off roster cards that are received after the preschool has breakfast in the classroom. However, entering in meal counts based from attendance rosters before the meal is served to the student is an unacceptable way of determining meal count [7 CFR 210.2 and 7 CFR 210.7(c)(1)(iii)]. Therefore, the 1,005 lunch meals entered into the POS before lunch serving time are disallowed meals.
