School districts seeking to employ educators to teach out of field (not in the field in which the educator is currently licensed) will use the Additional Licensure Plan (ALP) to meet that need. School districts may use the ALP process to address unusual emergency situations when licensed educators are asked to teach in areas/levels in which they are not licensed. School districts may not exceed the six semester limit without possible penalty.

Eligibility Guidelines: Educators must meet the following conditions:

- possess a standard Arkansas educator license,
- seek to add this area, and
- be assigned to teach in this area rather than the one for which they are currently licensed.

For information on adding additional licensure areas by testing out or through a program of study and testing, please refer to the Department of Education website at www.arkansased.org and click on Educator Licensure, then Add Licensure Area to License.

Required Assessments:

- The employing school district understands that an educator working under this ALP shall make adequate yearly progress (as specified in the Rules Governing Educator Licensure) each school year that the educator is employed in the out-of-area assignment.
- The employing school district understands that an educator will have no more than six consecutive semesters from the first date he/she was employed in the out-of-area assignment by any district to meet full licensure requirements for the additional licensure or endorsement being sought. A waiver request must be submitted each school year the educator is employed out-of-area.
