

With the effects of the COVID-19 outbreak being felt more each day, XAP is making every effort to support educators, parents, and students.

We are hosting several free webinars on topics such as teaching career planning and college exploration virtually over the next few weeks.

- **Webinar schedule**

Additionally, we have released:

- **New videos** showcasing tools that **educators** can use any time but especially for online learning
- **New videos** specifically for **students and parents** as they use Choices360 at home.

Our online services and customer services will, as always, be available to support your efforts and these unique challenges.
