ARKANSAS DIVISION OF ELEMENTARY AND SECONDARY EDUCATION

CHARTER AUTHORIZING PANEL JULY 14, 2020

(Via Zoom/Livestream due to Covid-19)

APPEARANCES

PANEL MEMBERS:

DR. IVY PFEFFER Chairperson/DESE Deputy Commissioner

MR. GREG ROGERS DESE Asst. Commissioner -

Fiscal and Admin. Services

MS. TOYCE NEWTON Past State Board of Ed. Member DR. NACCAMAN WILLIAMS Past State Board of Ed. Member

MR. PHIL BALDWIN CEO, Citizens Bank DR. ANGELA KREMERS Deputy Director -

CTE/Ark. Dept. of Career Ed.

ADE LEGAL COUNSEL:

MS. MARY CLAIRE HYATT DESE Attorney

ALSO APPEARING:

MS. TRACY WEBB DESE Coordinator of Monitoring and Systems Support

TIME: 9:05 a.m. - 11:13 a.m.

1	PROCEEDINGS
2	CHAIRMAN PFEFFER: All right. So we will go
3	ahead and call the meeting of the July 14th Charter
4	Authorizing Panel to order. I'd like to welcome all
5	of you. Thank you for being with us today. We will
6	have
7	Oh, I think Ms it looks like we're having
8	Ms. Newton joins us, so I'm going to pause for just a
9	second.
10	Ms. Newton, let us know if you can hear us.
11	Good morning, Ms. Newton. Can you hear us?
12	(MOMENT OF SILENCE)
13	CHAIRMAN PFEFFER: If you can un-mute and we'll
14	do a sound-check that would be great.
15	(MOMENT OF SILENCE)
16	CHAIRMAN PFEFFER: Ms. Newton?
17	(MOMENT OF SILENCE)
18	CHAIRMAN PFEFFER: Ms. Webb, can
19	Toyce, can you hear us?
20	(MOMENT OF SILENCE)
21	CHAIRMAN PFEFFER: Ms. Webb, do you have someone
22	who can try to do a sound-check with Ms. Newton and
23	get in touch with her?
24	Ms. Webb, you're muted.
25	MS. WEBB: I'm sorry. I un-muted her, so she

- July 14, 2020 4 1 should be able to hear you. CHAIRMAN PFEFFER: Ms. Newton, can you hear me? 2 3 (MOMENT OF SILENCE) She's un-muted, so it may be an issue 4 MS. WEBB: with her computer. I'll give her a call on the 5 6 phone. 7 CHAIRMAN PFEFFER: Okay. Well, we'll go ahead and get started with the meeting this morning. 8 Just -- Panel Members, we appreciate you being here with 9 10 Guests, we appreciate you as well. Just check your microphones and let's stay muted until time to 11 12 talk, and we'll just all be patient with each other as we try to go through. And we have three of us 13 here in the board room, so we're going to try to be 14 15 able to respond to questions as well and hopefully we 16 will have a productive meeting. 17 So we'll see if we can get Ms. Newton with us here in just a second. 18 CONSENT AGENDA 19 20 CHAIRMAN PFEFFER: Okay. So let's go ahead and get started with the Consent Agenda. And on the 21 22 Consent Agenda we had minutes from the May Charter 23 Authorizing Panel meeting. If you've had a chance to

Sharon K. Hill, CCR (501) 680-0888

the minutes or make revisions.

24

25

review those, we will entertain a motion to accept

	5
1	DR. KREMERS: I move to approve.
2	MR. BALDWIN: So moved. This is Phil.
3	CHAIRMAN PFEFFER: Okay. I have a move to
4	approve the minutes from Mr. Baldwin.
5	DR. KREMERS: Second.
6	CHAIRMAN PFEFFER: And a second from Dr.
7	Kremers.
8	All those in favor please say "aye."
9	(UNANIMOUS CHORUS OF AYES)
10	CHAIRMAN PFEFFER: Okay. The motion is
11	approved.
12	A-1: CONSIDERATION OF DISTRICT CONVERSION CHARTER SCHOOL
13	AMENDMENT REQUEST - FAYETTEVILLE VIRTUAL ACADEMY
14	CHAIRMAN PFEFFER: And we will move on to the
15	action agenda, and our first action agenda item is a
16	request from the Fayetteville Virtual Academy. Ms.
17	Webb, can you present this item to us, please?
18	MS. WEBB: Yes, ma'am. And Ms. Newton, I think,
19	is getting tech support so that she so that we can
20	hear her; so they're working on that.
21	CHAIRMAN PFEFFER: Okay.
22	MS. WEBB: The charter for Fayetteville Virtual
23	Academy was authorized in November of 2015. The
24	school serves students in grades 4-12 with a maximum
25	enrollment of 500 students. Assistant Superintendent

1	Dr. Megan Slocum is here today requesting an
2	amendment to add grades K-3 and to increase the
3	enrollment cap.
4	CHAIRMAN PFEFFER: Okay. And who do we have
5	here speaking on behalf of Fayetteville? I have Dr.
6	Megan Slocum; is that correct?
7	MS. WEBB: That is correct.
8	CHAIRMAN PFEFFER: Is there anyone in addition
9	to Dr. Slocum who would be speaking?
10	MS. WEBB: I don't think so.
11	CHAIRMAN PFEFFER: Okay. Dr. Slocum, I need to
12	swear you in. Are you ready?
13	DR. SLOCUM: Yes, ma'am.
14	CHAIRMAN PFEFFER: Okay. Do you swear or affirm
15	that the testimony you're about to give shall be the
16	truth, the whole truth and nothing but the truth?
17	DR. SLOCUM: Yes, ma'am.
18	CHAIRMAN PFEFFER: Okay. Thank you. And you
19	will have 20 minutes, if you need that, in order to
20	make your presentation.
21	DR. SLOCUM: Thank you, Madam Chair. And thank
22	you, Board Members, for joining us and being here and
23	allowing us to join via Zoom. This for us in
24	northwest Arkansas is an amazing time-saver, so we
25	really appreciate that.

I am sure that you have heard and will continue to hear that there are new and changing approaches happening with Covid-19, and we are trying to meet that change, be ready for that change, and accept whatever education is going to look like. We're ready for the challenge.

And so one of those deficiencies that we quickly saw was from surveying parents, talking with parents, meeting with groups -- and as you know, for Ready to Learn they've required that we have a committee in place, and we had put that committee in place prior to Ready for Learning requiring that. And in that committee, the outcomes that we heard consistently was we need some more options; we need some other things for our children to be able to access education.

And so in this effort to try to truly provide a personalized experience we quickly saw, when we were looking at the survey data and then we were comparing that survey data with what was there, that the numbers that we had were simply not enough. Our enrollment is roughly 10,500 and the enrollment cap that we have in place is not enough. We also see that we need to serve students larger than grades 4-12.

1 So as the times have changed, as the pandemic has helped to refine what our understanding is, our 2 request to the Panel is to allow us to increase that 3 cap to 5,000, which is roughly half of our 4 population, and in addition allowing us to serve 5 grades K-12. 6 7 CHAIRMAN PFEFFER: Okay. Are you ready for questions, Dr. Slocum? 8 9 DR. SLOCUM: Yes, ma'am. 10 CHAIRMAN PFEFFER: All right. I'll go ahead and start with panel members who are here in the 11 auditorium. 12 13 Dr. Kremers, do you have questions? DR. KREMERS: I do. 14 I would like to know a little bit more about 15 16 your survey data and the responses you received back 17 from the survey. 18 DR. SLOCUM: Yes. So at this point we've only 19

DR. SLOCUM: Yes. So at this point we've only had about 44% to respond. And in that percentage we are anticipating a potential virtual impact of about 25% of our students, of those that have responded. And our concern is -- and as you know, any time you do a survey 100% would be amazing. We are trying to get this survey information out in multiple forms, in multiple ways to make sure we reach all parents. The

20

21

22

23

24

25

difficulty is some parents are not checking their email, some parents are not engaged in school at this time. It's that kind of understanding of summer, and so I think that's been one limitation to the survey. So our next step is to make home calls and to try to reach students directly. The difficulty with that is some of our student population their numbers change frequently. And so the number we may have had on file, which may have been correct in May, in July is no longer correct; and the same thing with addresses. So we're trying to work through on a case-by-case basis to make sure we reach our students.

We are providing devices to students and we've allowed them to keep those through the summer so that they have enrichment opportunities. We're trying to provide some other options for them based on our AMI process that we ended the year with.

And so our next step is trying to reach all of those parents. But our primary data tells us that we need some additional solutions in place.

DR. KREMERS: And as you met with your parent groups or your Ready for Learning community group, what was the main rationale for wanting to do this as a charter versus just offering this as blended learning, as a part of what, you know, all districts

are going to do within their own regular LEA versus doing it as a district conversion?

DR. SLOCUM: That's a great question.

I think one of the things that sets Fayetteville Virtual Academy apart -- Ms. Lieber [ps] started the process for Fayetteville Virtual Academy and she kind of passed the baton over to Ms. Kim Cook. And in that process what I think you'll see, if you look at the data that's there, is this excellence in education. I think that it has -- since its inception has done incredibly well academically. So parents who desire someone who has experience with virtual teaching, someone who has experience with virtual learning may prefer that option. We are going to provide as many options as we can to parents and we feel like this one needs at least the ability to serve all students K-12.

DR. KREMERS: Thank you. And I'll just share right off the bat I'm very concerned about the cap, with such a significant increase to 20,000 from 5,000. So I think your survey results -- you know, if you look at 44% responding, still that's 25%; you know, that's an increase of, if I calculated that right, about 125 new students possible. And, again, that's taking the blended learning and assuming that

1	needs to be a part of district conversion charters.
2	So I do have multiple concerns on this one, both
3	that, you know, the strategy is to put this within
4	the charter for blended learning and then also the
5	cap number. So I just would like to share that with
6	the Panel.
7	DR. SLOCUM: Yes, ma'am. And just to make sure
8	I think I may have been unclear. Our current cap
9	is 500 and we're asking to increase that to 5,000.
10	DR. KREMERS: Oh, excuse me. I apologize. 500
11	to 5,000, yes, and that number is a significant
12	increase
13	DR. SLOCUM: Yes.
14	DR. KREMERS: from where it is existing.
15	DR. SLOCUM: Yes, ma'am.
16	CHAIRMAN PFEFFER: Mr. Rogers, no questions?
17	MR. ROGERS: (Shaking head from side to side.)
18	CHAIRMAN PFEFFER: Okay. Mr. Baldwin, do you
19	have questions?
20	MR. BALDWIN: Yes. Thank you.
21	So the really, two questions.
22	The proposed cap of 5,000, that's a large
23	increase from 500. Is that a just a big number
24	that would cover any potential increase in students?
25	And I guess the question is how did you arrive at

2

3

4

5

6

22

23

24

25

that number? And then on the change in grade levels describe your thoughts on the new grades that you'll have, which I guess would be K-3, as far as attendance and curriculum?

DR. SLOCUM: Yes, sir. So the first question of the enrollment increase, the number at that 50% is if we have about half of our surveys in and about half of that number is interested in virtual learning. We're just trying to prepare ourselves, particularly for the people we have not heard from yet for whatever reason. And we're going to allow parents to make that choice all the way up until school starts; so at that point we want to make sure that we have an available seat. If there isn't an available seat that's needed, obviously we may have the cap and we may not use all of the cap that's there. would like the flexibility to be able to have that at about -- it's a little less than half of our total percentage of student population. So if parents want to choose it, we'd like to offer it.

The second prong for K-3 is we feel like we have some good data on our side from our elementary schools that exist right now. And so moving those into a virtual environment with virtual teachers -- we've heard from many teachers who may have some

	13
1	precluding health impairments that will not allow
2	them to return to campus for whatever reason. And so
3	our plan was to hopefully transition them into some
4	of those potential teaching spots as we actually
5	determine the particular numbers that we have at each
6	grade level K-12.
7	MR. BALDWIN: Thank you.
8	DR. SLOCUM: Yes, sir.
9	CHAIRMAN PFEFFER: Dr. Williams, do you have
10	questions?
11	DR. WILLIAMS: Yes.
12	I'm tracking along with the others here. The
13	current enrollment that I see listed here in the
14	support documents is 221. What is the current
15	enrollment at Fayetteville School District?
16	DR. SLOCUM: Roughly, 10,500.
17	DR. WILLIAMS: Okay. So you all are requesting
18	an increase to 5,000. And do you all really expect
19	that or are you just I guess what are you basing
20	this off of?
21	DR. SLOCUM: Well, we're basing it off our
22	total population, but we're also basing this off of
23	we have not had great response from parents yet.
24	DR. WILLIAMS: Okay.
25	DR. SLOCUM: And I think that it may be the fact

that we're sitting in July and parents just aren't in 1 that mind-frame yet. And so in terms of by the time 2 we get to, now, August 24th we just want to make sure 3 that if a parent is requesting it that we can 4 actually enroll and place a child in the program. 5 We also don't know the level of interest that will come 6 7 across for K-12, but we're seeing that parents have that level of interest. And as we continue to 8 transition the traditional, we anticipate that our 9 traditional is not going to look like our normal 10 traditional; our traditional is going to look like a 11 12 varied approach where we're going to have some days 13 where students attend and some days where students attend virtually -- and that may not be a good option 14 15 for all parents. So what we anticipate happening is even the respondents of the initial survey may come 16 back and say, "Well, if this is how it's going to 17 18 look, then I would prefer to be virtual." But we're trying to adhere to what the CDC and what ADH is 19 recommending in terms of social distancing. 20 21 not going to be able to build a building in the next 22 six weeks, and so we're trying to navigate these new 23 waters and just be as prepared as possible in the 24 midst of this pandemic to serve kids and families in 25 the best way possible.

so this request is truly about just flexibility in trying to answer requests that we've had from parents. And, thankfully, we have had FVA. It does have a great track record. It had great leadership in the beginning, and it continues to have great leadership; so that definitely is on our side. And because of that it has had a lot of interest and we want to be able to say "yes, we will educate you."

We do know that there are also students who may be interested that aren't served currently by Fayetteville that might choose Fayetteville, and we want to be able to do that as well.

So ultimately those are our reasonings. We are kind of in uncharted waters in terms of school, but we've referred to it as this is all going to be our first year of teaching. If you go back to the first year of teaching, that's exactly what this year is going to be like for everybody. We just don't know what those things are around the corner, and it's very difficult or has been very difficult for us since March and I would say for most districts to plan for something. And this is actually one thing that we could plan for, based on feedback, to go, "Okay, at least the Charter Authorizing Panel would support this; the State Board would support this.

1	And if you would like a seat in this placement, if
2	this fits your family best, then we're able to do it.
3	DR. WILLIAMS: Okay. Great answers.
4	You also answered my other question I had and
5	that's just whether if you all expect all the seats
6	to be taken up by Fayetteville students or are you
7	going to open it up to other students. And I think I
8	heard you say that there may be other students who
9	are not part of the Fayetteville district that may
10	want to take advantage of this, which I think is a
11	great thing, if that's the case.
12	DR. SLOCUM: Yes, sir. Yes, sir.
13	DR. WILLIAMS: Thank you.
14	DR. SLOCUM: Thank you.
15	CHAIRMAN PFEFFER: Ms. Newton, I know you're
16	you were struggling with some of your tech issues.
17	Are you able to communicate with us yet?
18	(MOMENT OF SILENCE)
19	CHAIRMAN PFEFFER: Okay. She may
20	Ms. Webb, is she still having some issues?
21	MS. WEBB: She is. She's trying to call in, so
22	I've given her the meeting ID and the call-in number.
23	CHAIRMAN PFEFFER: Okay. All right.
24	MS. WEBB: But I don't hear her yet.
25	CHAIRMAN PFEFFER: It may be a few more minutes

	- -
1	before she can ask questions. Could she type her
2	questions into the chat box?
3	MS. WEBB: Yes. I think she's been putting
4	stuff in chat, but she should be able to do that.
5	CHAIRMAN PFEFFER: Okay. So, Ms. Newton, if
6	you're struggling with your sound, if you want to
7	type in a question in the chat box then I can read
8	that for everybody, if that would be okay.
9	Ms. Hyatt, is that an acceptable solution?
10	MS. HYATT: I'm sorry; I was having trouble
11	hearing you. Did you say for her to put her
12	questions on in the chat box, is that an okay
13	solution?
14	CHAIRMAN PFEFFER: Yes.
15	MS. HYATT: Yes, that's fine.
16	CHAIRMAN PFEFFER: Okay. All right. So we'll
17	work with her to do that.
18	Dr. Slocum
19	DR. SLOCUM: Yes, ma'am.
20	CHAIRMAN PFEFFER: could you
21	DR. SLOCUM: I'll hang tight until you're ready
22	for me.
23	CHAIRMAN PFEFFER: Okay. Could you one of my
24	questions I'm thinking back to when this charter
25	was approved, and one of the things that I remember

	18
1	it being was flexible options for parents, even
2	within the charter. So some students would be all
3	virtual all the time, some students might be virtual
4	part of the time but coming onsite part of the time,
5	and then there might be cases
6	DR. SLOCUM: Right.
7	CHAIRMAN PFEFFER: where there are students
8	who might come to the Fayetteville Virtual Academy
9	every day.
10	DR. SLOCUM: Yes.
11	CHAIRMAN PFEFFER: So describe for us please,
12	now in thinking about the Ready for Learning model
13	that Fayetteville will employ, what's going to be
14	different about your Fayetteville Virtual Academy and
15	what you're doing for all students? And is it
16	necessary for students to actually move into an
17	entirely different LEA or will they have that option
18	already available to them?
19	DR. SLOCUM: Absolutely. That is [inaudible,
20	sound becomes jumbled]
21	MS. NEWTON: Can you hear me now?
22	MS. WEBB: Ms. Newton, we can hear you.
23	MS. NEWTON: Okay.
24	CHAIRMAN PFEFFER: Okay. We're getting some
25	feedback though, so I think that line is going to

	19
1	need to be muted.
2	DR. SLOCUM: Dr. Pfeffer [inaudible, sound is
3	jumbled]
4	CHAIRMAN PFEFFER: I'm sorry, Dr. Slocum.
5	DR. SLOCUM: Yes, ma'am. I'm asking if I might
6	need to wait or proceed?
7	CHAIRMAN PFEFFER: Hang on just a moment.
8	DR. SLOCUM: Yes, ma'am.
9	MR. DAN DAVIS: (inaudible, speaking from sound
10	booth)
11	CHAIRMAN PFEFFER: Okay. Ms. Newton, we're
12	getting such bad feedback that may be better now.
13	Okay. Dr. Slocum, see if you can go ahead,
14	please.
15	DR. SLOCUM: Yes, ma'am. So I think your to
16	your point is one of the beginning tenants of
17	Fayetteville Virtual Academy was this idea of
18	flexibility. And so, one of our concerns is we may
19	be offering some AP courses or some specialized
20	courses online only. And because of this new
21	flexible schedule that we've not done before, we've
22	not had it in place before, we are anticipating that,
23	as usual, we'll have several FHS students who enroll
24	in FVA classes, and so we want to make sure that
25	those options are still on the table; however, when a

student does that that is counted as a seat, if you 1 will -- a virtual seat on the Fayetteville Virtual 2 side if a student wants to access that. So we need 3 to make sure that we, you know, balance that 4 enrollment. So in -- one of the outcomes of our 5 Ready for Learning process was parents still want 6 7 options. Although we're going through a pandemic, they still want as many offerings as possible, and 8 9 Fayetteville Virtual Academy does that in an 10 extraordinary way to provide as many options as possible for kids. And so this request again goes 11 12 back to the case of us not actually knowing what is 13 coming toward us and trying to poise our-self to be in the best position possible once we actually do 14 15 hear from parents and we have the requests, so that if they make that request we can say, "Absolutely, 16 17 here's your choices; you can do this, you can do 18 this, you can do this." And we anticipate a lot of meetings and we think that those are probably going 19 to happen probably right before August 24th for 20 21 parents that come to us finally. Maybe we've tried 22 to reach them in multiple ways and we can't get them 23 by email or a phone call or mailed letter or home 24 It will allow us to contact -- get in touch visit. 25 with them so that they can tell us what their

	21
1	preference is and we can get their child enrolled in
2	the best fit for them.
3	CHAIRMAN PFEFFER: Okay. Thank you.
4	DR. SLOCUM: Thank you.
5	CHAIRMAN PFEFFER: Okay. Panel Members, do you
6	have any additional questions?
7	MS. HYATT: Dr. Pfeffer, this is Mary Claire. I
8	wanted to clarify something. I apologize; I was
9	having some trouble hearing the Zoom. But district
10	conversion charters are limited to enrolling students
11	that are within their school district. They're not
12	open-enrollment charters, so they're not permitted to
13	enroll students that are not residents of their
14	school district. And I just wanted to make sure that
15	that was clear.
16	DR. SLOCUM: Sorry. Correct. Yes.
17	CHAIRMAN PFEFFER: Okay. Any additional
18	questions?
19	DR. KREMERS: I have a question.
20	CHAIRMAN PFEFFER: Dr. Kremers.
21	DR. KREMERS: When is the district conversion up
22	for renewal?
23	DR. SLOCUM: We will be coming back to you this
24	year for our five-year renewal.
25	DR. KREMERS: So just kind of what I'm thinking

is, you know, the numbers are still not fully known.

And it's such a large increase it almost seems like

it might be a better approach to do a reasonable

increase and then, you know, if the numbers are

showing greater need then that can be brought back

forward as a request with the renewal, when there's a

better idea of numbers.

DR. SLOCUM: And one of the things that we discussed on our end is the question of that waiting, but the pandemic kind of changed us in a different direction. We are just making sure that we are as prepared as possible. Our goal is not to have 100% in FVA; however, if parents have that desire, we just want to be able to say yes if that's the best option for their family. So we're, again, trying to brace ourselves for whatever is coming toward us and making sure that we are as prepared as possible. And so that is again the reason for, one, the grade configuration change, and also the enrollment increase request.

CHAIRMAN PFEFFER: Okay. Are there any other questions from panel members?

MS. NEWTON: Good morning. Can you hear me now?

CHAIRMAN PFEFFER: We can. How are you this

25 morning?

	23
1	MS. NEWTON: Hello?
2	CHAIRMAN PFEFFER: Good morning, Ms. Newton.
3	MS. NEWTON: Good morning. I'm sorry for the
4	problem and the reverberation causing you guys not to
5	be able to communicate while I'm on the phone.
6	CHAIRMAN PFEFFER: Ms. Newton, do you have any
7	questions?
8	MS. NEWTON: No, I don't.
9	CHAIRMAN PFEFFER: Okay. Panel, is there
10	does anybody want to make a motion regarding the
11	request?
12	DR. WILLIAMS: I move to approve the amendment
13	request.
14	MR. ROGERS: Second.
15	CHAIRMAN PFEFFER: Okay. I have a motion to
16	approve the amendment request and a second.
17	Is there any discussion?
18	DR. KREMERS: I'd like to see us consider a
19	decreased enrollment number for approval decrease
20	the cap for consideration.
21	CHAIRMAN PFEFFER: Okay. So Dr. Kremers has
22	asked the Panel she would like to see a decreased
23	enrollment cap. Is there do you have a number in
24	mind as far as the decrease request?
25	DR. KREMERS: I mean their survey results so far

would add another 125. And of course, to their point, they don't know. But then even if you double it you're at 1,000 versus 5,000. So I just -- I think the 5,000 cap is really too much. Half of the population of the school district I think is excessive.

DR. WILLIAMS: And just a comment on that, my understanding -- and correct me if I'm off-base -- when y'all are talking there in the auditorium there there's a huge echo around it, so I'm missing some things here and there. But my understanding is the reason for the 5,000 is to allow the district the flexibility to be able to offer basically up to half their students by virtual in order to meet the -- I'm just going to call it the Covid guidelines. So I don't know whether we should take away that flexibility during these times. So that's just my thoughts.

MR. ROGERS: I agree. Under normal circumstances, Dr. Kremers, I would agree with you. But right now with Fayetteville not knowing how many students may under these times want to look at different options, and since they did -- and that was a good question about when they come up for renewal. I think since they come up for renewal very soon,

once we allow school to start and we see how many students have elected to go to that would give the Charter Panel an opportunity to review and see if that cap is maybe a little too high. But right now with the situation that we have everything in, I think if they're asking for flexibility to make sure that they're providing everything they can for their students and the parents of their students, then I'm hesitant to say that we need to change that cap right now.

MR. BALDWIN: Let me ask a question. I think I would support the flexibility too, given the extenuating circumstances we're all dealing with. If we approve the 5,000, does that approval -- is that a permanent approval or is that a temporary approval during Covid, that we would reconsider at the point in time things get back to a more normal position?

MS. HYATT: This is Mary Claire. I think I can answer that for you. If you approve it, I believe that you wouldn't review it until their renewal hearing. But they are up for renewal this year, so I think that's December.

Is that correct, Tracy?

MS. WEBB: That is correct.

MS. HYATT: So you will have an opportunity to

	26
1	review the enrollment cap at their renewal hearing in
2	December.
3	DR. WILLIAMS: That's good to know. I think
4	that's a good option there to review it in December
5	to see exactly what their enrollment looks like.
6	CHAIRMAN PFEFFER: Okay. So we have a motion to
7	approve the amendment request, and a second.
8	All of those in favor say "aye."
9	(MAJORITY CHORUS OF AYES)
10	CHAIRMAN PFEFFER: Okay. Let's do a roll-call
11	vote because I'm not sure that I'm hearing everybody.
12	So I'm going to go
13	So, Mr. Rogers.
14	MR. ROGERS: Aye.
15	CHAIRMAN PFEFFER: Dr. Kremers.
16	DR. KREMERS: Nay.
17	CHAIRMAN PFEFFER: Dr. Williams.
18	DR. WILLIAMS: Aye.
19	CHAIRMAN PFEFFER: Mr. Baldwin.
20	MR. BALDWIN: Aye.
21	CHAIRMAN PFEFFER: Ms. Newton.
22	MS. NEWTON: Aye.
23	CHAIRMAN PFEFFER: Okay. The motion has been
24	approved. Congratulations. And we will, I guess,
25	see you all in December then. Is that correct?

1	DR. SLOCUM: Thank you, Dr. Pfeffer. And thank
2	you, Panel Members. We appreciate your support as we
3	enter this new territory. And thanks for your time.
4	CHAIRMAN PFEFFER: Thank you for being here.
5	A-2: CONSIDERATION OF OPEN-ENROLLMENT CHARTER SCHOOL AMENDMENT
6	REQUEST - ARKANSAS VIRTUAL ACADEMY
7	CHAIRMAN PFEFFER: Okay. So we're going to go
8	ahead and move on to item number 2, which is for the
9	an amendment request for Arkansas Virtual Academy.
10	And, Ms. Webb, can you present that for us?
11	MS. WEBB: The Arkansas Virtual Academy charter
12	was authorized in October of 2003. The charter
13	expires in 2025. The school serves students in
14	grades K-12 with a maximum enrollment of 3,000
15	students. Superintendent Amy Johnson is here today
16	requesting an amendment to increase the enrollment
17	cap.
18	CHAIRMAN PFEFFER: Okay. We have Amy Johnson.
19	And is there anyone else that will also be speaking?
20	MS. WEBB: Amy, is Kristin Allen also present,
21	your assistant superintendent?
22	SUPT. JOHNSON: Yes, she is.
23	CHAIRMAN PFEFFER: Okay. I'm trying to find
24	both of you just because I'm going to need to swear
25	you in and I'm going to need to make sure that I'm

talking to the right people. Okay. There we are,

Amy and Kristin.

All right. If you'll raise your right hand -do you swear or affirm that the testimony you're
about to give shall be the truth, the whole truth and
nothing but the truth?

SUPT. JOHNSON: I do.

CHAIRMAN PFEFFER: Ms. Allen?

MS. ALLEN: I do.

CHAIRMAN PFEFFER: Okay. Thank you.

All right. You have 20 minutes, if you need that much time to present your request.

SUPT. JOHNSON: Thank you. And I'm going to share my screen real quickly. There we go.

Madam Chair, Members of the Panel, thank you so much for the opportunity to be with you today, to voice this request. I saw you not very long ago.

Last December, we presented to you for ARVA's renewal and we really talked with you all about owning the academic outcomes, the direction that we had set for our students. And in that process one of the things that we talked about was being committed to not necessarily what's easy, but what is right for our students. And I don't think any of us, when we were together in December, could have imagined what our

spring would look like. I don't think we could've dreamt that up in our wildest dreams. But we were blessed in that our longevity as a virtual school in the state of Arkansas did allow us to continue to focus on what is right for students and we were able to continue our students' education through the school year. We did not stop our services for students; school was not canceled at ARVA. And so we were able to make some gains in the areas that we did outline for you in December academically.

So we are coming today asking for an enrollment increase of 1,000 students. This would move our cap to 4,000 total. And while Covid is definitely the instigator for this, I think all of us have learned in this time that we definitely need to have an opportunity to be prepared for things that we can't expect. And this cap increase not only allows us to do that, to nuance what might be ahead that we can't even predict with this current Covid environment, but also allows us to continue to provide a consistent virtual -- an experienced virtual education for the students of Arkansas.

So we based this need on our current enrollment, and right now -- we actually pulled these numbers as of this morning. So we have 2,931 students who are

2

3

4

5

6

7

8

9

10

11

12

13

15

16

17

18

19

20

21

22

23

24

25

currently active enrolled students with ARVA. now also we have 918 applications that are sitting, what we call, in the hopper; they're sitting in cues, students that are interested in coming to school with us in the fall. Now normally, if we can think back to a normal time -- it's hard for all of us, I think, right now -- but on a typical enrollment season families like to shop us, much like you would shop They might put an application with us, online. they're thinking about coming to us, and very much like we might put something in our shopping cart and then not come back, not all of our applications become actively enrolled students. Now in years past this sort of transfer rate or this take rate from application to active student has been around 40%. What we've seen through the month of June is that this transfer rate is at 76%. So people are not just shopping, they're choosing and they're looking for that trusted virtual option for their students.

So if you take that same assumption of 76% and you apply it to the applications that we have in cue, if we could sort of magically process all the applications today without the 3,000 cap that would give us an estimated current enrollment today of 3,628 students. This is also keeping in mind that

20

21

22

23

24

25

July and August are our highest yield enrollment months and we feel like this is definitely going to be the case this year as families and students are making those choices.

So I also want to make sure that I update you on our current academic progress because I'm very excited to share some of the pieces that we've been able to accomplish, even just since we were with you in December.

So because we were able to finish the school year, we did do end-of-year testing for our students. We utilized STAR 360 for beginning, middle, and endof-year assessments for our students, and we were able to perform that test -- have our students take part in that test at the end of the school year. one of our first goals with our students -- our first academic goals we put out in front of our staff and our team -- was that we wanted to insure that our students were making a minimum of one years' growth. That's our due diligence. That's, you know, a base expectation for every single school. We know that, and shared with you in December, that 62% of our students come to us in the bottom two levels of the ACT Aspire. And so we know we have more than a years' growth that we need to gain, but this was our

2

16

17

18

19

20

21

22

23

24

25

starting spot for really honing in and focusing on our academics. We created -- or we maintained a 22% improvement year-over-year for our students, making a minimum of one year -- one years' growth. And so while we're not at 100%, we definitely are going to continue to move towards that goal. But we finished with 70% of our students making a minimum of one years' growth. And I actually dove into this a little bit more even yesterday because I wanted to see what is the percentage of our students that made more than one years' growth, because we have that 62% that comes to us off grade level. That datapoint is 64% of our students in ELA and 65% of our students in math made more than one years' growth. definitely feel the changes that we have made and the different steps and directions that we shared with the Panel back in December have made a positive difference.

The other portion of this datapoint that I'm also particularly proud of is that all of our demographic groups -- race, ethnicity, free-and-reduced lunch -- all the different ways that we can slice-and-dice this data all had the same growth scores. There was only 2% variance in any of our demographic categories. So we are getting these

results consistently across the board for our students.

20

21

22

23

24

25

We have continued participation success in our testing and 96% total participation for all of our online assessments last year, with 99% in grades K-5. And I point that out because we know it's very important to insure that that foundation is there.

You might ask yourself, well, if it's an online assessment how come it's not 100%? They just have to go to the computer and log in and take the test. actually monitor and proctor our tests via Zoom. We have agreements with our parents that they can be in the room just long enough to insure that their students, especially our elementary students, have logged in and successfully accessed the assessment, and then they're required to leave the room. Students test with their cameras on, with their microphones on, and if there's any concern we also ask them to share their screen as they complete the So these are scheduled test times and we assessment. do, you know, ask those students to come in and fulfill that responsibility. Covid did impact us a little bit with trying to get folks in -- students in so they'd be able to complete those assessments. Face-to-face assessments have been on average the

21

22

23

24

25

last several years 99% participation or better. So we feel like we are establishing a culture of assessment and accountability with our students.

One of the other things we talked about in December was really increasing teacher efficiency, effectiveness, and partnering in a more accurate and accountable way with our teachers and our families. So I'm happy to report teacher satisfaction continues to climb. Our teachers reported this spring 80% teacher satisfaction. And while, again, that might seem like an interesting statistic that it's not higher, this is a 7-point scale survey, and in order to be counted in this 80% teachers have to score us at a 6 or 7. So truly what we're saying here is that this is 80% of our teachers that are highly satisfied with their employment and experience at ARVA. is up from 76% last year, which was my first spring as Head of School, and then up from 56% the year We have a successful teacher return rate; prior. 97.7% of our teachers are returning. And as I know you're aware, the more experience teachers have, especially in a virtual environment, the better return we have on student growth.

And then, additionally, family satisfaction is also rising. This is the same seven-point scale

2

3

4

5

6

7

8

9

10

11

12

14

15

16

17

18

19

20

21

22

23

24

25

survey. We have to score a 6 or 7 to be counted as satisfied as a family with our -- their experience. And that's up from 76% last year and 75% the year before.

I also wanted to take just a quick moment to highlight our continued partnerships. something we shared with the Panel last December and something that you all spoke very positively about that we are making efforts toward. The minute that Covid hit and started to really impact education, our teachers sort of really without even any request started reaching out to hold Zoom training sessions for their peers. We're very used to Zoom. It was interesting for me to log in to a panel meeting today and not be in person with you and see you all and what we lovingly call the Hollywood Squares, because that's sort of our environment. And so our teachers reached out and began to hold Zoom sessions with other teachers, not only in our state but across the We held Zoom sessions for teachers in New country. York and California, and helped teachers understand the nuance of Zoom, how to engage students through Zoom, and all the different tips and tricks through the platform. We've also collaborated with different portions of the ADE for how to move particular pieces

2

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

virtually. We had a reach-out from Yvonne Greene in special education, really asking about how do we hold IEPs virtually, how do we assess students, how do we fill the gap for therapies when we can't see students face-to-face. And then, most recently, our district testing coordinator sort of had an open-door policy with the Department for how we virtually monitor and proctor assessments, how we do that with fidelity and validity.

We're currently partnering with some districts for back-to-school training. Jacksonville North is one that we have in the works right now to really pair our teachers. We really want to be there for teachers. Virtual instruction is hard work, it's very different work, students attack virtual education differently; and so we really want to help nuance that with teachers. We're not doing any platform training, anything like that. Our platforms are totally different. But what we are doing is pairing our teachers and administrators to be able to have grassroots sort of granular conversations about what works and what doesn't. We're in an agreement with UALR to house some of their clinical and field service observations, their student teachers. only do they need a situation where their teachers

2

16

17

18

19

20

21

22

23

24

25

can consistently complete those requirements for 10 weeks or more, but they also are recognizing the importance of their students understanding virtual education. And what we really tried to do is just be open to even any one-off opportunities, collaborations, opportunities to talk about how we nuance virtual for the success of students. One of the things that I think is very important for the Panel to know is that we do this for any school, any student in the state. We're looking at Arkansas students as our students, whether they're sitting in This is an interesting time and we our seat or not. want to do everything we can as one of the longeststanding virtuals, the legacy that we have in this environment to really be able to positively impact any student across the state, whether they're sitting in our school or whether they're sitting in their brick-and-mortar district.

So, finally, just a quick reminder -- the ask here is 1,000 students to a total cap of 4,000.

Again, we want to be able to house students that are coming to us in this current environment, but also make sure that we have the ability to stay ahead of anything that might be coming that we can't predict.

And I will honestly tell you because we can't predict

2

3

4

24

25

this, I don't know, you may see me again in the fall. We don't know how this is going to go. But we do want to make sure that we step it out wisely and carefully, that we're strongly prepared for the students that are coming to us to insure continued academic success.

So if you all have questions --

CHAIRMAN PFEFFER: Okay. Yes, we will proceed on to questions. So I'll start with Dr. Kremers again.

Thank you. DR. KREMERS: I think the cap increase request is, you know, more reasonable based on the numbers you've run, the surveys you've done, the applications you already have in the cue. that part is -- so I think my only remaining thing would be, you know, the student performance. glad that you presented the data on some of the STAR 360 assessments that you've done that is showing some growth, because that was my main concern of increasing the cap when there is a, you know, report card that is not where it should be on student performance. And so can you just share just a little bit -- I know that that's your current assessments that you're receiving. But just in general, is there anything you -- also that you're implementing for

2

3

4

5

6

7

8

9

10

11

12

13

15

16

17

18

19

20

21

22

23

24

25

student performance with this? What changes will you have? You're going to increase the enrollment cap.

Does this increase, of course, the number of teachers and kind of the services that will also expand to support the students coming in in larger numbers?

MS. ALLEN: Absolutely. So in light of the increase, what our plan is is basically we're going to sort of in triage fashion, if you will, each week just look at the enrollments; how they're coming in, what grade levels they're coming in I think is also something that we're very keenly aware of right now. We have a higher enrollment right now at the elementary level than we do at the middle school and high school level, which is a little bit unusual for And so one of the things to your point, Dr. Kremers, is what we understand about our elementary students is that we're not just teaching our elementary students; we're also training their learning coaches. And so we have increased the preparation and the week-by-week training and partnership with our learning coaches to be prepared.

Rolling out staff, we will continue to maintain the exact same student/teacher ratios that we did last year; so this will require adding staff as the enrollments come in. Our goal is to add those

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

systematically as we see those ratios sort of shift and add. What we don't want to do is add, you know, 50 new teachers all today and sort of overwhelm, you know, everyone. So we want to roll that out systematically as our enrollments begin to uptake. And then what we'll do is continue to create that cycle of training for our new teachers, partnering them with our experienced teachers.

Academically -- and I just had this conversation with our admin team this last week -- our expectation is that there will only be the same growth and better for the coming year, even with more students in tow. And so several things that we're doing and creating and continuing to innovate, we're utilizing cross content PBL. We're starting that in each building So we'll have cross content PBL built out -project based learning built out in grades kindergarten, 3, 6 and 9 for the coming year. then we'll start to consistently roll those to those next grade levels throughout the course of the next three years. We're doing a more fine-tuned -- we started this last year -- Circle-Up with our teachers. Our teachers actually meet with their principals quarterly to review their data, to review their progress, to set goals for the next quarter.

So it's a tight observation. Our administrators did -- completed over 1200 observations of our staff last year. That's spread out about -- over about five administrators. So we are consistently in classrooms, consistently looking at what's happening in those classrooms. Our teachers have a tight spiral of looking at student data. We started PLC's last year and it was highly successful for teachers to be able to come in and look at their data; compare their common assessment data in the same courses and grade levels; try to figure out where the gaps are, if one teacher's students are doing slightly better than the other.

And then we're also creating a tight spiral of intervention for our students where we see that they're not mastering. We're also introducing our families this fall through an app -- believe it or not, we've created an app that houses each grade levels' standards and I Can statements. And we're releasing this app to our parents and students and they're going to be able to give us feedback on how they -- how comfortable they feel with their mastery of their standards. And this is going to be starting again a three-year progression to rollout to more standards-based feedback and grading for our students

so that we know where our students are in their mastery at all times.

So I could talk to you a very long time about some of the things that we're doing, because we're excited about it. But we're very fine-tuned on the academic success of our students, even with the increase of 1,000. Thank you.

CHAIRMAN PFEFFER: Dr. Johnson, I want to follow-up then. So you're anticipating quite a large enrollment increase in the elementary grades. Is that what I heard you say?

SUPT. JOHNSON: Uh-huh. Yes. So we're at 900 in the elementary right now, which is -- for us it's one of the highest elementary enrollments that we've seen. We don't really know how to estimate whether that's going to sort of plateau out if our elementary parents were more eager and making decisions earlier. But it is something that we're definitely gauging ourselves for and supporting --

CHAIRMAN PFEFFER: So in your description of all of your instruction and planning I didn't hear you talk about your curriculum alignment to the Science of Reading and the assurance that you're fully prepared for an increase in a number of elementary students; that, you know, if moving to a virtual

environment is going to be a new thing for them that there will need to be a lot of additional supports. So I just wanted to get some affirmation that that is something that you all are preparing for if your data are showing an increase in elementary; so just something very brief about that.

SUPT. JOHNSON: Yes. So you were breaking up just a little bit, but I think I got the gist of the question; so if I don't hit on all the elements, please circle me back.

So we are completing all of our training for Science of Reading. We're actually utilizing Brain Spring and Phonics First training for -- we found that to be highly successful with our dyslexic students. And so we're using their Structures to not only satisfy some of our Science of Reading pieces, but also to train teachers that have a more minimal requirement for Science of Reading. We found that the Structures training has been very helpful all the way up into even our upper levels, and so definitely we are completing that.

Kristin, do you want to add anything?

Kristin oversees our Science of Reading. She's
a former elementary principal, so she is all about
our Science of Reading.

1 Do you want to add any detail about those trainings and the things that are happening in the 2 3 summer? MS. ALLEN: Our teachers will fall in Pathway 4 "D" and all of them are finishing up their training 5 again this summer so that they're prepared. 6 7 I'm currently going through the assessor training and just completed the first phase of the 8 9 assessor training and working -- I already have the 10 second phase scheduled. So we're getting everybody 11 up-to-speed. We have a RISE trainer in our district who's 12 13 also working as we get new teachers who are coming onboard who may not have the preparation prior. 14 15 we really have seen, just like Ms. Johnson said, just 16 high success with Structures and Phonics First that 17 Brain Spring provides, and so we are training our 18 teachers through that. And then also the upper levels who have students 19 who are struggling with reading, trying to really 20 21 identify what those gaps are and fill them based on 22 those needs. 23 CHAIRMAN PFEFFER: Okay. Thank you. 24 Mr. Rogers, do you have questions? 25 MR. ROGERS: No, ma'am.

	46
1	CHAIRMAN PFEFFER: Okay. I don't think I heard
2	all of I'm going to do a roll-call because I don't
3	think I heard from everybody.
4	And can we do a stop-sharing on the screen,
5	because it helps me to be able to see more of the
6	panelists.
7	SUPT. JOHNSON: Yes.
8	CHAIRMAN PFEFFER: We're still seeing the
9	presentation.
10	SUPT. JOHNSON: I'm sorry.
11	CHAIRMAN PFEFFER: Thank you. That's helpful.
12	Okay. I'm going to go through and make sure.
13	Mr. Rogers.
14	MR. ROGERS: Aye.
15	CHAIRMAN PFEFFER: Ms. Newton.
16	MS. NEWTON: Aye.
17	CHAIRMAN PFEFFER: Dr. Kremers.
18	DR. KREMERS: Aye.
19	CHAIRMAN PFEFFER: Dr. Williams.
20	DR. WILLIAMS: Aye.
21	CHAIRMAN PFEFFER: Mr. Baldwin.
22	MR. BALDWIN: Aye.
23	CHAIRMAN PFEFFER: Okay. Thank you. The motion
24	passes. And congratulations. Thank you for giving
25	us your time today and for your presentation.

	4,
1	A-3: CONSIDERATION OF DISTRICT CONVERSION CHARTER SCHOOL
2	AMENDMENT REQUEST - DON TYSON SCHOOL OF INNOVATION (SPRINGDALE
3	SCHOOL DISTRICT)
4	CHAIRMAN PFEFFER: Okay. We're going to go head
5	and move on to item number 3 on the action agenda,
6	which is a request for the Don Tyson School of
7	Innovation. Ms. Webb, will you present this item to
8	us?
9	MS. WEBB: Yes, ma'am.
10	Don Tyson School of Innovation is a district
11	conversion charter that was authorized in November of
12	2015. The current charter expires in June of 2021.
13	Currently, the school serves students in grades 6-12
14	with a maximum enrollment of 2,000 students.
15	Springdale School District attorney Kendra Clay
16	is here today requesting an amendment increase of the
17	enrollment cap.
18	CHAIRMAN PFEFFER: Okay. Good morning, Ms.
19	Clay. Are you going to be our only speaker on for
20	this petition today?
21	(BRIEF MOMENT OF SILENCE)
22	CHAIRMAN PFEFFER: Let's see. Ms. Clay, can we
23	do a sound-check?
24	MS. CLAY: I'm here. Thank you all. It's good
25	to be here.

	48
1	CHAIRMAN PFEFFER: Okay.
2	MS. CLAY: As Ms. Webb mentioned, I'm Kendra
3	Clay; I'm general counsel for the district and I'll
4	be presenting most of the presentation. I do have a
5	couple others here if questions come up and I need
6	their assistance.
7	CHAIRMAN PFEFFER: Okay. Do we need to be
8	swearing in people who are going to be additional
9	speakers, Ms. Hyatt?
10	MS. HYATT: You don't need to swear in Kendra
11	since she's an attorney.
12	CHAIRMAN PFEFFER: Right.
13	MS. HYATT: But if there are going to be other
14	people speaking or answering questions it would be my
15	preference if you would just go ahead and swear them
16	in.
17	CHAIRMAN PFEFFER: Okay. So, Ms. Clay, if you
18	think you'll have additional help there, can we
19	identify those people and swear them in?
20	MS. CLAY: We can do it either way. I don't
21	anticipate really needing help. But if you want to
22	go ahead and swear the people who are here with me,
23	that is not a problem either.
24	I have Dr. Marsha Smith here beside me in
25	person, and then Dr. Shay Hopper is out there in

1 Zoom-land as well.

CHAIRMAN PFEFFER: Okay. Let's do it just in case and that way we don't have to stop in the middle of the presentation. Okay?

So, Dr. Smith and Ms. Hopper, if you would raise your right hand -- do you swear or affirm that the testimony you're about to give will be the truth, the whole truth, and nothing but the truth?

DR. SMITH: Yes.

CHAIRMAN PFEFFER: Dr. Hopper, I don't think -- I think you're muted.

DR. HOPPER: I do. Yes.

CHAIRMAN PFEFFER: Okay. And I think we heard Dr. Smith as well. All right. Thank you.

And, Ms. Clay, you may begin your presentation.

MS. CLAY: Okay. I have a very brief slide that I'd like to share with you just to kind of guide some of our conversation. I'm here today to ask for an amendment request for the Don Tyson School of Innovation. Normally when the district comes to present anything about DTSOI we like to show off the amazing things that are happening there, and eventually we would like to do that with this group again. We're opening Phase 2 of construction that will allow the brick-and-mortar DTSOI to serve a

25

larger number of students this fall in person. But the purpose of the request today is really just to accommodate virtual students.

You'll see in your packet that the district initially asked for the enrollment cap to be increased to 23,000. I'm sure some people may have thought that was a typo. It was not. When we initially submitted our information we were, like most school districts, still trying to figure out just where we stand as far as serving students during the Covid-19 pandemic. That 23,000 number basically represented the ability to serve all of our students one-hundred percent virtually if the need came to that. We don't think that that need will be there where a hundred-percent of our approximately 22,000 students would want one-hundred percent virtual instruction. So the ask today would instead be to increase the enrollment cap to 8,000.

I do want to share this graphic with you. I think it will guide some of your thinking on how Springdale School District intends to serve its students under the Ready for Learning model this fall. And this graphic is a district approach; this is not specific to Don Tyson School of Innovation, but I'll show you where DTSOI fits into this graphic.

So you'll see on the left that the district will be open for onsite instruction at all of its 31 buildings, beginning on August 24th. That means just what you would think it means: students are coming to school, learning is taking place onsite. The middle column represents what we are calling our version of blended learning. Under the blended model parents will have the opportunity to choose whether their students attend onsite instruction on Monday, Wednesday and Friday or on Tuesday and Thursday. on the days that those students who are not onsite -when they are not onsite they will be doing remote learning at home on their days of choice. But we are leaving that to parent choice. But we know with both of those onsite and blended models that if closure happens due to Covid-19 -- so if you'll kind of walk down the chart with me with that blue bar -- both the onsite and the blended model will shift to remote teaching and learning in the district. So that is the plan that will be implemented at what we call our traditional schools -- so every school in the district, except for Don Tyson School of Innovation.

And then that brings us to the right-hand column, where students would be served one-hundred percent virtually. DTSOI has been offering virtual

instruction for grades 6-12 well before the Covid-19 pandemic. So when the need began to present itself that the virtual instruction would need to be more widespread and need to encompass all grades, rather than just grades 6-12, DTSOI was the natural fit to fill that need within the district. So you'll see in the virtual column those students will attend school one-hundred percent virtually and their teaching and learning will not change regardless of any closures due to Covid-19.

So, just some brief information before I'll answer questions -- with the Phase 2 of construction DTSOI will be serving approximately 2,000 students in person. So even if the Covid-19 pandemic had not occurred we would have been back in front of you asking for an increase of enrollment cap just to accommodate the in-person students that the new phase of construction is able to serve. For historical purposes, last year VIA, which is the Virtual Innovation Academy -- so that's the one-hundred percent virtual program housed at DTSOI -- served approximately 200 students. And so far this year we have approximately 500 students who have shown interest in having one-hundred percent virtual instruction through VIA.

Now I will say, just based on some conversation that you had earlier with Fayetteville, we have not surveyed our parents yet. A couple of reasons for that: we want to make sure that we're able to get out the most complete information that we can to our families, in all languages that reaches all of our families. And so that has been an additional challenge that we're working through. We also know that with -- several weeks before school starts families may not be able to -- may not be quite ready to make that determination. So we don't have solid -- a solid projection of what the enrollment will be. But we do want to have the increase in enrollment so that any of our Springdale families that want to have their students attend school one-hundred percent virtually would have that option.

One thing I think it's important to -- although the 8,000 enrollment cap seems high, again 2,000 of those students are actually in-person brick-and-mortar students who will attend Don Tyson School of Innovation in person. And also, like Fayetteville, our charter is up for renewal this year; so this is basically a one-year request that allows us an opportunity to serve our students how their families choose. The school choice deadline has already

passed, so now we're just dealing with students who are already Springdale students and making sure that we're able to have the flexibility that we believe the State has asked us to in serving our families. So, again, the request would be to increase the enrollment cap to 8,000. And I'll be happy to answer any questions that you have. CHAIRMAN PFEFFER: Okay. Thank you, Ms. Clay, and appreciate the presentation. And I think -- I know whenever I had looked at the original application I had -- I did have some questions. looking -- getting to see your entire plan I think is very helpful for all of us. And I think in a lot of ways your district has already taken the step with this School of Innovation and learned a lot about what blended learning already is. So I think that the journey you've already been on is going to help serve you well when looking at your district as a whole. So that's going to be helpful. I'll start with Mr. Baldwin to see if there are questions.

The 8,000 enrollment cap, is that only for virtual or

I have no questions.

DR. WILLIAMS: Yeah, just one point of clarity.

CHAIRMAN PFEFFER: Dr. Williams?

MR. BALDWIN:

is that for the school itself?

MS. CLAY: That is for the school itself. So that would be the combination of virtual and inperson. So if you take out the approximate 2,000 that will be in-person that leaves about 6,000 virtual. But we believe that an 8,000 dollar -- 8,000 dollar -- 8,000 person enrollment cap would allow us the flexibility to move between in-person and virtual. I will say the building with Phase 2 has a capacity -- not enrollment cap capacity, but just building capacity -- of about 2200. So that will give you some idea of what a maximum in-person and virtual ratio would be.

DR. WILLIAMS: Uh-huh. And do you all plan on
-- now the virtual students don't necessarily have to
attend -- be at the building itself; that's correct?

DR. WILLIAMS: Okay. So are you all just allowing students to transfer from, you know, Springdale High or Har-Ber High to the School of Innovation? How does that movement work?

MS. CLAY: That's correct.

MS. CLAY: Sure. So we asked them to complete an intent-to-enroll form, and then it's relatively easy to transfer. We do ask students to commit to a semester, and we have done this for pre-Covid as

well, just because once a student is doing work virtually it's not always seamless to transition back to a traditional school environment in the middle of a semester.

DR. WILLIAMS: Okay. Thank you.

CHAIRMAN PFEFFER: Ms. Newton, do you have any questions?

MS. NEWTON: I'm sorry; did you say me? CHAIRMAN PFEFFER: Yes, ma'am.

MS. NEWTON: Okay. No questions other than I'm trying to understand again the initial proposed cap of 23,000. What was that -- how did you explain that before?

MS. CLAY: Yes, ma'am. We initially put that enrollment cap because that would have allowed any of our almost 23,000 students to attend one-hundred percent virtually. So the district has a little over 22,000 students enrolled, and so it would have -- it would have taken care of everyone, if needed.

CHAIRMAN PFEFFER: And, Ms. Newton, I may can help with that. Because I think that prior to districts receiving all the additional details that have come out regarding Arkansas's plan for Ready for Learning I think that there were some unknowns early on. And districts like Springdale that already had

	3 ,
1	models implemented with the availability for virtual
2	learning, they were thinking ahead. And I think
3	now that there have been more and more things that
4	have been established with Arkansas Ready for
5	Learning and the flexibility that districts are going
6	to have to be able to provide virtual learning as a
7	component to their overall blended learning, I think
8	that has changed a little bit and maybe affected the
9	way Springdale now needs to plan.
10	Is that correct, Ms. Clay?
11	MS. CLAY: That is a good way to describe it.
12	Yes.
13	CHAIRMAN PFEFFER: Okay. So
14	MS. NEWTON: Okay. Thank you.
15	CHAIRMAN PFEFFER: Mr. Rogers, do you have any
16	questions?
17	MR. ROGERS: No, ma'am.
18	CHAIRMAN PFEFFER: Dr. Kremers?
19	DR. KREMERS: No questions.
20	CHAIRMAN PFEFFER: No questions, okay.
21	Panel, any other thoughts or discussion before
22	we make a motion?
23	DR. WILLIAMS: Yes, just one quick point of
24	clarity. In the waiver document, there's 23,000
25	still listed there on the I believe on the

	30
1	amendment request. So we are looking at this being
2	approved for 8,000. Is that correct?
3	CHAIRMAN PFEFFER: That is correct. But I will
4	let Ms. Hyatt respond as far as if there's anything
5	that would need to be done differently.
6	MS. HYATT: No. As long as excuse me as
7	long as Kendra has said on the record that they wish
8	to change their amendment request from the 23,000 to
9	I believe she said 8,000 but maybe I have that
10	wrong, I'm sorry but it'll be fine if you approve
11	it as amended during the hearing today.
12	DR. WILLIAMS: Okay. Well, if we're ready for a
13	motion, I'd make the motion to approve the amendment
14	to increase to 8,000.
15	MS. NEWTON: Second.
16	CHAIRMAN PFEFFER: I'm sorry. There was a
17	motion to approve the amendment request for an
18	enrollment cap increase to 8,000. And is there a
19	second?
20	MS. NEWTON: Second.
21	CHAIRMAN PFEFFER: Okay. Motion by Dr.
22	Williams, second by Ms. Newton.
23	All those in favor no, we'll do a roll-call
24	so I don't have to back-up.
25	All right. Dr. Williams.

	59
1	DR. WILLIAMS: Aye.
2	CHAIRMAN PFEFFER: Okay. Mr. Rogers.
3	MR. ROGERS: Aye.
4	CHAIRMAN PFEFFER: Mr. Baldwin.
5	MR. BALDWIN: Aye.
6	CHAIRMAN PFEFFER: Ms. Newton.
7	MS. NEWTON: Aye.
8	CHAIRMAN PFEFFER: And Dr. Kremers.
9	DR. KREMERS: Aye.
10	CHAIRMAN PFEFFER: Okay. Congratulations. The
11	motion has passed. Thank you for being with us and
12	we appreciate everyone for hanging in with us.
13	MS. CLAY: Thank you.
14	CHAIRMAN PFEFFER: Okay. Are we Panel
15	Members, are you all okay to move on to the next
16	agenda item or do you need a short break?
17	I think I'm getting
18	MS. NEWTON: Yes, I'm okay.
19	DR. WILLIAMS: I'm good.
20	MR. ROGERS: I'm good.
21	A-4: CONSIDERATION OF OPEN-ENROLLMENT CHARTER SCHOOL AMENDMENT
22	REQUEST - NORTHWEST ARKANSAS CLASSICAL ACADEMY
23	CHAIRMAN PFEFFER: All right. Well, we're going
24	to go ahead and move to the next agenda item, and
25	this is a request for Northwest Arkansas Classical

Academy. Ms. Webb, will you --

MS. WEBB: The Northwest Arkansas Classical Academy is an open-enrollment charter that was authorized in 2012. The school currently serves students in grades K-12 with a maximum enrollment of 1500 students. The current charter will expire in 2028.

Superintendent Steven Gast, as well as Suan
[sic] Provenza, the Director of Classical Education,
and Dennis Felton, Director of Innovation and
Expansion, are here to present the request and answer
any questions.

CHAIRMAN PFEFFER: Okay. I'm checking to see -do we have everyone on the Zoom with us that's going
to be speaking for Northwest Arkansas Classical
Academy?

SUPT. GAST: Yes. In fact, I'd like to add a couple of other names, just in case there is a question that they want to go ahead and answer. I'd like to include Mr. Curtis Shack, Ms. Rhonda
Bradford, Ms. Katie Stephens, and Ms. Marla Pearson to answer any specific questions that the Panel may have.

CHAIRMAN PFEFFER: Okay. So will all representatives and anyone speaking in opposition

	61
1	please stand well, it says "stand to receive the
2	oath" Ms. Hyatt, do we need to have everybody
3	stand up that's there to
4	MS. HYATT: I think they can do it seated. I'm
5	sure that's fine.
6	CHAIRMAN PFEFFER: Okay. I just I didn't
7	think we'd been having everyone stand up. But if you
8	will, raise your right hand. Do you swear or affirm
9	that the testimony you're about to give shall be the
10	truth, the whole truth, and nothing but the truth?
11	(ALL SPEAKERS ANSWERED AFFIRMATIVELY)
12	CHAIRMAN PFEFFER: Are we good on the record,
13	Ms. Hyatt?
14	MS. HYATT: I think that there are four people
15	in one room and I only heard one "I do" from that
16	group. So maybe if you guys could say "I do"
17	separately so we can hear it.
18	(COURT REPORTER'S NOTE: Each of the five people
19	in the room said "I do;" Supt. Gast said, "And I
20	did.")
21	MS. HYATT: Thank you. I appreciate it.
22	SUPT. GAST: All right. I did. I thought you
23	were just going to make us all stand up to exercise a
24	little bit.
25	CHAIRMAN PFEFFER: Well, it you were the

first group that I saw in a room and that just, you 1 know, threw me for just a minute here. So this is 2 3 not exactly easy to do remotely when you have several people --4 SUPT. GAST: Well, and I do appreciate it. 5 Again, my name is Steve Gast; I'm the superintendent 6 7 for Responsive Education, as well as for Northwest 8 Arkansas Classical Academy. And what I'd like to do 9 is just very briefly introduce the individuals that are present today and their title so that the Panel 10 11 has an idea of who exactly is representing our 12 leadership team today. We're going to have Ms. Susan Provenza who will 13 be doing the majority of the presenting for the 14 15 She is our Director of Classical Education, campus. 16 as well as the Campus Director for Northwest Arkansas Classical Academy; 17 18 Mr. Curtis Shack is our Executive Director of 19 Operations; 20 Mr. Dennis Felton is our Director of Expansion 21 and Innovation and the State Director for our Premier 22 High Schools; 23 Ms. Rhonda Bradford is our Federal Programs 24 Director and Director of Leadership and Staff 25 Development;

1	Ms. Katie Stephens is our Director of Finance;
2	And Ms. Marla Pearson is our Director of Special
3	Programs and Special Education.
4	So we have all of them available and present in
5	case there are specific questions that the Panel will
6	have after our presentation.
7	So at this time I would like to turn the
8	presentation over to Susan Provenza, and she is going
9	to share her screen and talk a little bit more about
10	our amendment and some of the information about
11	Northwest Classical Academy. We are excited to have
12	this opportunity to speak in front of you. This is a
13	very highly successful campus. And based on, you
14	know, this part of our state to want to replicate
15	very high-performing campuses we feel this is a
16	wonderful opportunity to meet the demand that we have
17	for this particular brand of school in Northwest
18	Arkansas.
19	So, Ms. Provenza, I'm going to turn it over to
20	you.
21	MS. PROVENZA: Thank you so much. Can everybody
22	hear me okay, first of all? Hopefully so.
23	CHAIRMAN PFEFFER: Yes.
24	MS. PROVENZA: Okay. Thank you very much for
25	hearing us today. I want to just talk to you a

little bit about our expansion plan.

A brief history of our campus -- we opened in 2013 with K-8. We're the only classical academy that is tuition free, open-enrollment, and a public classical charter school here in Arkansas. were created as a result of collaboration between ResponsiveEd and Hillsdale College Barney Charter School Initiative. We've grown over the years to be K-12, and this past year we had over 840 students in our K-12 program. We have had three graduating classes so far, and we have had fantastic results with those students. They have gone on to do great things -- a hundred percent college acceptance for This past year we had 17 seniors who all of them. earned over 1.5 million dollars in merit-based scholarships. We had two National Merit Semi-Finalists that both went on to be National Merit Finalists. We've been an achieving school and district since we opened. We have "A" report cards. We've been recognized by OEP for Outstanding School in Multiple Areas. And because we are classical and we believe in the whole child, we've had some amazing athletic achievements as well. We currently have the 1A Triple Jump State Champion at our school, and we've also had All-State Choir members. So, a lot of great achievements that we have had so far.

Our current enrollment -- you can see here with this chart for the 19-20 school year we had 846 students. And so we were at capacity in all of our grade levels in K-7, and then we were under that just a little bit in 8-12. Our waiting list in May for the 19-20 school year was still at 610 students. So even at the end of the year we still had families who were applying and wanted to be a part of what we're doing here at Northwest Arkansas Classical Academy.

For the 20-21 school year we've got -- we had an open application period that last December and And during that time we just were flooded January. with applications for families who want to be a part of this. You can see that chart there for the different grade levels and how many applications were -- we were receiving during that time. We had 848 students who applied for 87 available openings for our 20-21 school year, just during that open application period. We have had additional families apply, even after the application period, and so they have been added to the wait-list as well. So we have a huge demand here in Northwest Arkansas from families who appreciate what we're doing, who want to be a part of what we're doing, and that's really why

we're coming to you today. Our current wait-list for the 20-21 school year is at 810 students. We have a wait-list in K-6 at all of those grade levels for students who want to be a part of it.

So what do we want to do? You know, we have done some remodeling here at our campus; we've expanded into an adjacent building right here on the property, as well. But we really do not have the room to accommodate all the families who want to do what we're doing here. And so our goal is we would like to open a K-8 campus in Rogers. We would then like to convert our current Northwest Arkansas Classical Academy to a K-8 at the existing location, with doing some renovations. And then we'd like to open a 9-12 campus on the Rogers property in which both the K-8 in Bentonville and the Rogers K-8 can feed into.

So in terms of looking at, you know, kind of what we're thinking there with the campus configurations for Bentonville, for 20 through 24 stay at our current location. But then as we are able to we would like to turn it into a K-8 campus, and then transition that 9-12 over to the high school on the Rogers property. In Rogers what we would like to do is purchase land and build a K-8 campus,

complete with a gym area as well, and then open that K-8 building. And then we've got kind of two plans going here: we've got a conservative plan where we would pay attention to our enrollment numbers, increase those 7th and 8th grade sections so that we can fully fill up that high school and then open the 9-12 in 24-25. The aggressive plan would be, if we've already got all of those enrollment numbers, to go ahead and work toward opening that 9-12 building a year earlier.

As you guys know, northwest Arkansas really continues to lead the state in growth. We've still got 1,000 people per month moving to this area of the state; so we have a huge influx of families, and so many of them want to be a part of what we do.

So our goal then is to continue to provide an open-enrollment public classical education to additional families in northwest Arkansas who really desire to be a part of what we're doing at our school, and to be able to have facilities to match the stellar education that we currently have taking place at our school.

SUPT. GAST: Very good. And that concludes the presentation.

And, Susan, what I'd ask you to do is maybe to

un-share your screen early here so that we can -everyone has the opportunity to be able to see
everyone. There we go.

So we're open for questions now from the Panel. Thank you.

CHAIRMAN PFEFFER: Okay. Thank you.

I'll go ahead and start with Dr. Williams to see if you have questions.

DR. WILLIAMS: Yes. Thank you.

Excellent presentation. And given that presentation, my question is, first, what is your amendment request? Is it just the enrollment cap or is it the -- there was a lot of information that came through on your presentation. So if you could kind of succinctly just state what is the -- your enrollment -- what is your amendment request, I guess?

SUPT. GAST: So the amendment request is to increase the enrollment cap, but it's also to be able to move a campus or to build a campus in Rogers on property that we're currently looking at wanting to purchase. The property is contingent upon Panel approval. We didn't want to go ahead and purchase 20 acres of land and then come to the Panel. We wanted to make sure that we did it property and did it in

1 the right fashion.

So the amendment is two-fold: it is both to increase our cap, and then to put a campus on the Rogers property.

DR. WILLIAMS: Okay. I have a question for counsel in-house.

Do they need an approval to build a campus or just the enrollment -- the approving of the enrollment that will lead to the campus?

MS. HYATT: Essentially what they're asking for is for a license. So, yes, they do have to have your approval because they're adding an additional campus.

So when you originally approved their charter you approved them for a K-12 single-site location; so now they'd be adding a new location and be adding essentially a different campus, so that's a license request. So it's the increase in enrollment and it's the license. And then once they decide that they want to purchase property, of course, they will follow the rules about getting debt approved by the Secretary of Education.

DR. WILLIAMS: Okay. That's very helpful. I was trying to figure out -- I knew there was another process to follow this, and I couldn't quite get it all aligned here.

CHAIRMAN PFEFFER: Well --

SUPT. GAST: Yeah. And Mr. -- Dr. Williams, this will also be -- it'll all be under the same LEA. In other words, we're not asking for another charter school; it all will fall under the NWACA charter.

DR. WILLIAMS: Okay. Outstanding. Thank you.

CHAIRMAN PFEFFER: And, Dr. Williams, I think -I'm glad you asked that question. Because I think my
assumption when the meeting was scheduled was that we
were having this because of Covid and the need to
start looking at some enrollment increases because of
waiting lists with some of the virtual charters, and
I was a little unsure, as I started reading and now
seeing the request for a new campus. So in some ways
I have a little discomfort with trying to do this
virtually, trying to do this at this time.

So I'm going to just throw that out for the

Panel that to me this just feels like a whole lot

more than what I was prepared for us to review today.

But I might be alone in that.

Okay. Mr. Baldwin, do you have questions?

MR. BALDWIN: My question would be, as it was to the increased enrollment cap, how did you guys come up with the 2500 proposed cap? And is that enough?

We've seen much larger requests than this, and I

guess I'm just curious if this is enough.

SUPT. GAST: That's a great question. And I guess, you know, we wanted to be somewhat conservative in the numbers and looking at how big we wanted the campus to be and how big a facility we wanted to build. We thought that this would keep us well within the range of students and staff that we would feel comfortable with on that particular -- you know, in this particular district. So, again, we were trying to be conservative there and keep within what we believe would be the wait-list and how many sections in each grade level that we would be able to provide.

MR. BALDWIN: Okay. Thank you.

SUPT. GAST: And, Dr. Pfeffer, I would also like to bring up that one of the reasons -- one of the main reasons for the amendment was we have found this particular piece of land and the seller of the property has kind of accelerated our timeline as far as wanting to go ahead and sell that. This particular company has students that do go to and attend our school, and they are offering us a piece of land at a price that we generally could not match if we were just in the general market looking for land up in Bentonville. It's at a premium and

1	they're quite proud of it. And so one of the reasons
2	for asking for the acceleration is because of the
3	fact that we were it was requested to move that
4	forward, that if we were not going to purchase this
5	property the seller wanted to be able to start moving
6	ahead with offering it out on the open market. So
7	that was another reason for us to request to come to
8	y'all with the approval.
9	CHAIRMAN PFEFFER: Thank you.
10	Ms. Newton, do you have questions?
11	MS. NEWTON: I don't. Thank you.
12	CHAIRMAN PFEFFER: Mr. Rogers?
13	MR. ROGERS: So the total overall increase that
14	you're asking for is 1,000?
15	SUPT. GAST: That is correct.
16	MR. ROGERS: But you're wanting to start a new
17	campus right now, but
18	SUPT. GAST: No, sir. We wouldn't be starting a
19	new campus now; we would be building a new campus.
20	We're pretty much at capacity in our current
21	building. And so the 810 kids that we've currently
22	got on our wait-list, there's no place for them to
23	put them. And so the additional 1,000 students
24	really is the ask for when we build the new campus
25	being able to populate that with students.

	/3
1	MR. ROGERS: And that new campus won't be till
2	2022?
3	SUPT. GAST: Well, that yes, depending on how
4	we build yeah, the campus would start to populate,
5	yes, in 22-23.
6	Correct?
7	MR. SHACK: Correct. Yes.
8	SUPT. GAST: But, again, this is all contingent
9	on the purchase of that land.
10	CHAIRMAN PFEFFER: So for the upcoming school
11	year, 2020-2021, how many students do you anticipate
12	serving?
13	MS. PROVENZA: At our current campus in
14	Bentonville we're going to have about between 920
15	and 940 students for the 20-21 school year.
16	CHAIRMAN PFEFFER: But you're wanting an
17	increase to your cap to 2500 total; is that correct?
18	MS. PROVENZA: Correct.
19	CHAIRMAN PFEFFER: But you so the 848 that
20	are on the wait-list, are they going to be able to be
21	served in 2020-2021 or are they going to have to wait
22	until a new campus is built?
23	MS. PROVENZA: Right. Those are the families
24	that definitely are interested in what we do and
25	wants to be a part of this, but currently with our

configurations we don't have the ability to serve them. So we would need an additional K-8 campus to be able to serve those families.

CHAIRMAN PFEFFER: Mr. Rogers, do you have additional questions?

MR. ROGERS: Yeah, but I don't know how to -I'm not comfortable right now. I don't -- this isn't
what I thought we were -- I thought we were looking
at increasing caps because of Covid and trying to
serve students.

CHAIRMAN PFEFFER: Yeah, I thought there was immediate need.

MR. ROGERS: Now we're getting into a whole new school, and so I don't know; I just -- right now I just have concerns about moving that fast with it.

CHAIRMAN PFEFFER: Dr. Kremers, do you have questions?

DR. KREMERS: No, mostly a comment: the amendment request did check that they were asking for an expansion of a new campus. So I felt like the amendment request clearly marked that, so I -- you know, I had taken that into consideration with the enrollment increase, which was reasonable. You know, they have a wait-list, so I think, you know, if they can't serve them for the new campus -- you know, I

think they're basically looking for the land so they can work on expansion; they can serve students where they're at with a modest request on the cap enrollment. So I feel like they were forthright in their request, just from my perspective, because it clearly said they wanted a new campus expansion because they already see -- you know, in fact the other cases, they're basing it on projecting and they didn't even have full survey results, where here at least, you know, they have a wait-list; you know, there's high demand and they're trying to come up with solutions to work toward that. So I felt pretty good about the request.

I did have a question -- actually, I did.

On the budget pieces in Year 2 you added in about a half-a-million in administrative overhead and I'm wondering if that's related to the future new campus that you anticipate that administrative overhead that's such an increase. If you would, just share a little bit about that?

MS. STEPHENS: Hi. Katie Stephens, Director of Finance.

The additional item in the budget in Year 2, traditionally you would see that every year.

However, in Year 1 our management fees -- we are

budgeting to waive those in the first year due to the start-up costs that we will have in the first year.

The second year we have budgeted to collect a portion of those fees.

Do you have like additional questions or you just want to know what those -- those are our management fees to our management organization.

DR. KREMERS: Right. Just clarification on the difference of, you know, Year 1 is zero overhead and then Year 2 over half-a-million.

MS. STEPHENS: So our management organization first makes sure that campus needs are met prior to billing us for those. And in Year 1 we have those costs to start up the campus, those one-time -- furniture, IT, et cetera.

DR. KREMERS: Well, those are listed as separate line items, but you're saying specifically administrative overhead. So that's more of the management company. You said some of that was waived Year 1?

MS. STEPHENS: Can you repeat that please?

DR. KREMERS: I was just saying you mentioned the furniture, but I think that's a separate line item. So I was just -- are you saying the administrative overhead Year 2 is kind of partial

payment back because Year 1 some of those 1 administrative costs were waived? Is that correct? 2 MS. STEPHENS: No. Year 2 -- in Year 1 we are 3 anticipating that those costs would be waived --4 actually, ones that would be incurred in Year 2. 5 it's not carrying over. 6 7 DR. KREMERS: Okay. Is that what you're asking? 8 MS. STEPHENS: 9 DR. KREMERS: Yes. Yes. Thank you for that clarification. 10 MS. STEPHENS: You're welcome. 11 12 CHAIRMAN PFEFFER: Okay. Do any of the other 13 panel members have any additional questions? DR. WILLIAMS: Just a comment. You know, as I 14 15 am looking at the wait-list and so-forth it seems 16 like there's a -- the request is reasonable. somewhat -- when I go back and look at the amendment, 17 18 it does mention the fact of add a new campus; it's listed there. And one domino has to fall before the 19 20 other. Really here in northwest Arkansas I do know 21 that enrollment is steadily increasing for -- we tend to refer to them as the Big 5, but we may have to 22 23 start adding Pea Ridge to the Big 5 and it the Big 6, 24 the way they're growing also. So I think there is a 25 need. I think they're moving in the right direction.

You know, my question would be probably more internal. Could there have been a better way to call out the addition of a campus in this process or just -- I say "need," my oversight in just not paying close enough attention to the types of amendments that's listed. When I go back, I see add a new campus, address is Don -- Dotson Road, undeveloped, in the Rogers School District. But it did not register with me that we were talking about building a school. So is there anything different that we can do to make sure that that's highlighted for ourselves?

MS. WEBB: Sure. We can look at changing the format of the application.

CHAIRMAN PFEFFER: Ms. Webb, I would agree.

And I'm going to apologize to the Panel because I would also have probably pushed for us to try to have more people here in person, because to me there is a difference. And I think part of it was just because of an early conversation that I'd had; I thought we were making an exception to hear for cap enrollments due to Covid and needing to act quickly to help schools. And not that this isn't a worthy consideration, it absolutely is -- but I did not prepare fully like I should have and probably did not

have it set up for you all as Panel Members to feel good about what you're hearing today. But I would also say that when you look at the application at just first glance it is not very clear what was being asked. So that is something we do need to work on internally.

Okay. Does anybody have a question for the -for any of the members from Northwest Arkansas
Classical Academy?

MR. BALDWIN: Madam Chair, let me ask a question as it relates to the building -- or the land, I guess is what we're talking about. Has that been vetted by the Department, and is the Department supportive of that purchase?

MS. HYATT: This is Mary Claire.

So typically when charter schools are going to incur debt they're required to submit to the Secretary of Education, the Commissioner, a debt request approval. We have not received one from ResponsiveEd yet for this. My understanding is that they were waiting to get approval to move forward before they entered into negotiations to incur the debt. At that time we review the contract and make sure -- Finance will review it to make sure that from a fiscal standpoint it makes sense, and then I will

also review them to make sure that all the required contract language is in the -- whatever instrument they're using to incur the debt. We have not done that for ResponsiveEd yet. But we can't do it until we have a copy of the proposed contract.

MR. BALDWIN: Let me ask a follow-up question for the school system. You've got a piece of property that has come to you with a good offer -- I guess a good price offer. Would it be possible for y'all to bring this request back next month and still have -- you know, without losing the deal, I guess is the question?

SUPT. GAST: Yeah. At this point, no, sir, I don't believe so. I believe that we have really until the end of July to go ahead and move forward with that. And also we have a -- our finance director would also like to make a comment.

MS. STEPHENS: I would like to point out that the debt that you're referring to would not be a debt for this campus. This purchase would be made by Responsive Education and the campus would be leasing the building from them. The lease would also contain the appropriate termination clauses where this wouldn't be an extended lease that would qualify as this debt, so --

MS. HYATT: Okay. This is Mary Claire.

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

Any lease that's over a year, even if it has a cancellation clause, has to be approved. So you and I might want to have a conversation about when it's necessary to have your debt approved, after the meeting.

SUPT. GAST: And, obviously, we're going to do everything -- whatever we have to do, whatever takes place to make sure that we're doing everything the appropriate way and that everything is transparent as far as what we're going to be doing with the purchase of the property and following all the guidelines that are required by the State to make sure we're doing that.

And as we've said, as Mary Claire stated, this is something that to go forward we would want to make sure that we were okay going forward instead of doing all the work, doing the contracts, and then not being able to move forward because we didn't have the approval of the Panel to do that.

CHAIRMAN PFEFFER: So, Ms. Hyatt and Ms. Webb, as far as the application itself and the request that has been made, all of the steps up until this point have been followed; is that correct?

MS. WEBB: Yes, ma'am.

25

	02
1	CHAIRMAN PFEFFER: Ms. Hyatt, this would be a
2	typical request then is what I'm hearing?
3	MS. HYATT: Yes, ma'am.
4	CHAIRMAN PFEFFER: Okay. Thank you.
5	Mr. Rogers, do you have additional questions?
6	MR. ROGERS: No.
7	CHAIRMAN PFEFFER: No. Okay.
8	So, Panel, if we don't have any additional
9	questions I will entertain a motion or if we need
10	to have any additional discussion.
11	DR. WILLIAMS: No, I'd just like to make a
12	comment that this has been a good discussion. You
13	know, I'm just going to start from the basis of my
14	decision-making. One, I always start off with kids.
15	Kids are being educated. They have a wait-list of
16	100-some kids 800 was it 800 over 800 kids
17	on the wait-list. So they're going to have to do
18	something and I don't think there's much of an
19	option. I see a demand for the services from parents
20	and from students. So we're going to get a second
21	bite at the apple when they come back from the debt
22	standpoint, and if things are not in order then we
23	can make the necessary adjustments then.
24	So those are just my comments on kind of where
25	we are in the process. Thank you.

	83
1	CHAIRMAN PFEFFER: Thank you, Dr. Williams.
2	Okay. Would anyone like to bring a motion to
3	the table?
4	MR. BALDWIN: I'll a motion to approve the
5	increase in enrollment, increase the cap, and also to
6	approve the purchase of the land as requested.
7	CHAIRMAN PFEFFER: Okay. I have a motion by Mr.
8	Baldwin to approve the increase in the cap and also
9	the addition of the campus. Is that what was the
10	request, moving forward?
11	SUPT. GAST: Yes.
12	CHAIRMAN PFEFFER: Okay.
13	DR. KREMERS: Second.
14	CHAIRMAN PFEFFER: I have a second by Dr.
15	Kremers.
16	And I will call the roll just to be sure we get
17	everyone on record.
18	Mr. Rogers.
19	MR. ROGERS: No.
20	CHAIRMAN PFEFFER: Dr. Kremers.
21	DR. KREMERS: Aye.
22	CHAIRMAN PFEFFER: Dr. Williams.
23	DR. WILLIAMS: Aye.
24	CHAIRMAN PFEFFER: Ms. Newton.
25	MS. NEWTON: Aye.

	84
1	CHAIRMAN PFEFFER: And Mr. Baldwin.
2	MR. BALDWIN: Aye.
3	CHAIRMAN PFEFFER: Okay. The motion passes.
4	Congratulations, your request has been approved. And
5	our office will follow-up then with you on the next
6	steps. Thank you all for being with us today.
7	SUPT. GAST: Thank you very much. We appreciate
8	the Panel's consideration.
9	CHAIRMAN PFEFFER: Thank you.
10	MS. PROVENZA: We appreciate it. Thank you.
11	A-5: CONSIDERATION OF DISTRICT CONVERSION CHARTER SCHOOL
12	AMENDMENT REQUEST - CABOT ACADEMIC CENTER FOR EXCELLENCE
13	CHAIRMAN PFEFFER: Okay. Panel, we have one
14	additional item remaining on the agenda. And this is
15	an amendment by the Academic Center for Excellence in
16	the Cabot School District. So we have, I believe,
17	Dr. Tony Thurman and also Aaron Randolph from the
18	District. Is that correct, Dr. Thurman?
19	SUPT. THURMAN: Yes. Thank you.
20	CHAIRMAN PFEFFER: Okay.
21	SUPT. THURMAN: First of all, thanks for hearing
22	our request this morning. And Mr. Randolph will be
23	joining me.
24	CHAIRMAN PFEFFER: Okay. If I can go ahead and
25	swear you both in. Is there anyone else from the

District?

SUPT. THURMAN: That will be all.

CHAIRMAN PFEFFER: Okay. Do you swear or affirm that the testimony you're about to give shall be the truth, the whole truth and nothing but the truth?

DR. THURMAN: I do.

MR. RANDOLPH: I do.

CHAIRMAN PFEFFER: Okay. Thank you. And you may begin your presentation.

MR. RANDOLPH: Thank you very much, Panel. We appreciate you hearing us out. As Dr. Thurman said, we're very thankful to have this opportunity.

And as many of the other requests that have come through today, really this is in response to Covid and all the demands and requests from our stakeholders to have more of a digital option for us to work with our students. And we're grateful for the blended learning and Ready for Learning opportunity that DESE has put forward, and so we're implementing a lot of those strategies and trying to do what we can to provide the best educational opportunity for our students. And one of the things that we got back -- we actually sent a survey out, similar to a number of other districts, to poll our stakeholders. And so if you'd like to, I'd like to

share the results that we got from that.

This was an initial survey we sent out actually in early June to talk to our parents and guardians and figure out what exactly that they would like to see and would they even be interested in looking at a digital option for their students if that was available. And we had been talking about, you know, just options that we had. And we have -- so again we have over 10,400 students in our district, and you can see here that we had almost 4,700 responses to the survey. Now this survey was not one-for-one -that is, it was not survey results for every student; this was just families. And so we felt like we had a really good amount of feedback from our community on this. And what we found was of that 4700 families that we had 1,278 that said they would be interested in a digital option for their student. And so, that really pushed us down this path to figure out how we can provide this opportunity for our students.

The Academic Center of Excellence has been fantastic. We are up for our renewal I believe next year. And so we knew that, you know, we were looking at some different things there and felt like this was an opportunity where we could help our secondary students specifically. We recognize that the APEX

24

25

program that we've used curriculum-wise with those -with students in ACE has been very successful and we've been able to see student growth through that. And we have a great campus and a great administration team and faculty already in place that are comfortable with digital learning, that have been doing this distance learning for a number of years and facilitating some onsite instruction. And so for us from the district office, we felt like that the perfect opportunity for our secondary students that didn't want to pursue digital learning was to open up more enrollment to add ACE. And so that's where the request for the enrollment cap going from 500 to 1,000 students is reflective of the fact that we wanted to allow a little bit more space for those students.

And you can see here on this screen, when we broke it down, we actually sent out -- two weeks ago we sent out a follow-up survey and asked parents to actually commit to being a part of this. And of those responses we can see that we have in the secondary (so 7th through 12th grade) we have 104 students in junior high; 55 in 9th grade; and right now 190 students at the high school and currently at our ACE daily campus.

And so between that we felt like the 500 student mark is really best to add those students in, continue to use ACE as it stands right now in a traditional conversion charter program, but we would just have another pathway for students that wanted a completely digital option of learning. And that is really what spurred us to come in and request this amendment to the charter itself.

I'd be happy to entertain any questions on that or whatever the Panel might decide.

CHAIRMAN PFEFFER: Okay. If you don't mind, let's go ahead and stop the screen sharing, unless there's additional --

MR. RANDOLPH: Sure.

CHAIRMAN PFEFFER: -- information you need to see. And we can always come back to any of the data that you shared. So thank you for that.

Okay. Well, I'll go ahead and we'll just start with panel questions. And, Dr. Kremers, we'll start with you.

DR. KREMERS: I just want to be clear I understand the two pathways. Are these two pathway options for students that are ALE students or this is for any Cabot -- I just want to make sure I'm clear on who the students would be within this new digital

	63
1	pathway. Because ALE right now ACE is ALE, so I
2	just want to be clear with this portion who these
3	students will be.
4	MR. RANDOLPH: So this pathway, this digital
5	pass excuse me pathway would be for students
6	that opt in to enroll in this digital pathway through
7	ACE. This would not be the traditional student that
8	is a part of the ALE setting.
9	CHAIRMAN PFEFFER: Do you have follow-up?
10	DR. KREMERS: I want to think for a few minutes.
11	CHAIRMAN PFEFFER: Okay. We'll come back to Dr.
12	Kremers.
13	Okay. Mr. Baldwin?
14	MR. BALDWIN: No questions.
15	CHAIRMAN PFEFFER: Dr. Williams?
16	DR. WILLIAMS: Question: what is Cabot's overall
17	enrollment?
18	SUPT. THURMAN: In the District, sir, we've been
19	running about 10,400. We were growing fast for a few
20	years, and we've stabilized. So with K-12 about
21	10,400, and about 300 pre-K students; so about 10,700
22	when you add in that pre-K group.
23	DR. WILLIAMS: Okay. And this is the only
24	virtual option that the kids currently have in the
25	district?

SUPT. THURMAN: No, sir. We actually have -we've provided a traditional setting with a blended
learning environment, we have the ACE option for
students as well, and we have a purely digital
environment that we're also offering for our students
during this situation; so, there's actually three
different options for students.

The ACE pathway is a little different. And we really push that a lot because it does require that the students meet with the teacher on a regular basis, and we do feel like for many of our students this is very advantageous, but it is still aligned very much to the digital academy. The only difference in the two programs are that we -- through the ACE program there is a required seat time where they actually meet with a teacher to monitor their progress, take assessments, and those types of situations. So, two different platforms.

DR. WILLIAMS: Uh-huh. So how do you envision this working during Covid times? Is there anything different that you need to be doing with the ACE now, or is it just with increased enrollment just to -- I'm just trying to get clarity with the number of options that you have.

SUPT. THURMAN: Yes, sir. The interesting thing

about ACE is the students are scheduled in, so they can space the kids out and it's more one-on-one. When we have a group of kids come in they can sit down with a teacher, and if they're having certain problems in an area -- of course, we've using a platform like most everyone else would be; we're using APEX. So as long as they're making progress on their own they don't have to have that close contact.

so basically it gives us an option where if they need more intense support they can still come in and get that. But really it comes down -- it's pretty neat because the kids can come in as much as they need to to get that onsite support through certified teachers, in whatever content area. So I really like this option even more than the traditional option, especially for those kids who struggle academically in one subject or another.

DR. WILLIAMS: Outstanding. It sounds like a great program.

SUPT. THURMAN: It is.

DR. WILLIAMS: I'm just trying to distinguish between the different options and this almost would be the ideal digital model for all districts to have at least some face-time with students.

SUPT. THURMAN: And we're actually doing -- I'm

going to do a video this afternoon. And, you know, parents -- a lot of parents are choosing the digital option. But I'm trying to get them to understand that this is really just what you said: it's a great option, because as long as their kids are doing great, they're fine. But we can set up a situation -- even if they're concerned about the onsite issue, we can make it one-on-one with a teacher; they just come in and have an appointment and just get some help on a tutorial or whatever they need to do.

So it really is the very best option and we're very fortunate to have this set up already in our district.

MR. RANDOLPH: And I would say also to that point, Dr. Thurman -- and one thing that we've had to work really hard on is to make sure that parents understand this digital option; that it's not going to be, you know, the AMI scenario that we had in the spring where there was a lot of review and a lot of things that we were just trying to keep things moving forward. But in fact from day one there's going to be, you know, good core instruction happening for our students.

DR. WILLIAMS: Okay. Thank you.

CHAIRMAN PFEFFER: So I think -- Dr. Kremers, is

this helping to answer your question a little more fully?

DR. KREMERS: It is. I guess the only thing that's -- you know, one last follow-up would be: what is it that makes it need to be within the district conversion charter versus outside of the district conversion charter?

MR. RANDOLPH: So I -- go ahead, Dr. Thurman.

DR. THURMAN: You can go ahead.

I'm trying -- Dr. Kremers, I'm trying to understand your question. You were kind of hard to understand, but -- you're very easy to understand; you're just hard to hear today.

DR. KREMERS: My soft voice.

DR. THURMAN: So the -- I will go ahead and say something to address your earlier question if ALE is under the umbrella for ACE. You're exactly right. I think that was the question you were asking. And if you remember, a couple of years ago we actually expanded the ACE program, because ACE is so flexible. We had a group of kids that really needed to be onsite all day; so we opened a satellite campus that's actually on our high school, and that's listed in the amendment request as one of our approvals from a few years ago. So our ACE has the ACE program and

that has the ALE umbrella also.

We also have the ACE North program which is on the high school campus. We had a lot of kids that just did not do well with a flexible environment; we needed to keep them under our thumb all day, and parents liked the flexibility of the online learning where they could do some things at home. So we have the ACE North program under this umbrella as well, where they're actually on campus all day, but when they come to their core classes they're under the APEX system with teacher support. But a lot of our students really like this too because they can go out immediately on our campus and go to choir, to agri, they can go to broadcasting, to ROTC.

So those two programs work in concert with each other. And a lot of our kids that start out in ACE North on campus actually transition to ACE as they get older because they don't need as many electives and it provides more options for them. A lot of kids have kids already or they have to have jobs to take care of themselves.

So I hope that kind of understands the overarching picture of ACE and what we offer in this school district, for those who didn't already know that. DR. KREMERS: Thank you. Much clarity for me.

Thank you.

25

MR. RANDOLPH: And, Dr. Kremers, I would say that where this -- the conversion charter versus say it was just a part of another campus, that we use that -- you know, a digital platform. Again, it comes back to us that we have a building and we have a staff that is comfortable with this model that has been using this, you know, on, you know, a minimum of nine hours -- or weeks students have been on campus. And so we feel like this was an opportunity for us to really emphasize the skills that were already in place as opposed to trying to get additional staff and a whole 'nother principal and whole 'nother building onboard; we can simply bring people into that model and adapt it. And Mrs. Lair [ps] is our principal there and she's fired up and ready to see what we can do with this.

CHAIRMAN PFEFFER: Ms. Newton, do you have questions?

MS. NEWTON: No, I don't have a question; I have a comment and would cliché that saying about thinking out of the box. I think you guys have really done that. This is a well thought-out comprehensive plan. I think that it actually shows how much thought

you've given to serving all students, a variety of diversity -- a diverse approach to serving students that are in the midst of this pandemic and assuring parents that their concerns and their anxieties around their student learning will be addressed. So I congratulate you and I think it's a great proposal.

SUPT. THURMAN: Thank you.

CHAIRMAN PFEFFER: Okay. My only questions -- I was just glancing through the proposal, and you've got a couple of waivers that are here. And so I'm wondering about are these new waivers that you're seeking or are they just updates to waivers that are already available through your ACE program? I just wanted you to talk a little bit about the waivers you're requesting.

MR. RANDOLPH: So the specific waivers that we're requesting for the student load for classes and then also just the overall student load, those are new waivers. But, again, with us -- with this being a purely digital class or digital option we wanted to have the most flexibility that we could in staffing. And I'll -- just as an example, Dr. Pfeffer, we have two students that I have dealt with their parents right now that are in an accelerated pathway, and they would be taking algebra as 7th graders. And so

23

24

25

they would be doing this on-campus if they were at the junior highs. Well, we have this opportunity, if they choose to go digitally and we have a group of accelerated algebra students -- that we may not have enough students to fill -- you know, to justify staffing a complete position for 25 seats in an algebra class. But what we can do in this is that we could have someone to have a section of algebra with 10 students, and then they can also take on a section of geometry, algebra II, so-on and so-forth. that just gives us more flexibility with staffing and scheduling, and that's where those requests come in in that regard. Those are not things that we currently have in place for the charter, but that will be in place specifically for the digital pathway.

CHAIRMAN PFEFFER: Have you had feedback from your teachers or your board about these additional waivers?

MR. RANDOLPH: In fact, we have -- we were talking staffing this morning, Dr. Thurman and a group of us. And we've got -- I've been amazed at how many more -- how many secondary teachers want to be a part of it. And, you know, their big question honestly has been -- you know, when I say, "Okay, you

may have 200 students, you may be teaching six 1 different classes; are you okay with that," and 2 they're like, "Absolutely. If I'm doing this purely 3 digital, that I can organize things, I can work with 4 groups of students," they are not batting an eye. 5 And we've tried to be very open and transparent with 6 7 our staff in that, and it hasn't slowed them down at 8 all. 9 CHAIRMAN PFEFFER: Okay. Panel, do you have any 10 additional questions? Okay. Ms. Hyatt, was there anything else that 11 we needed to consider? 12 13 MS. HYATT: I just want to clarify one thing on their second waiver request, which is the rules 14 15 governing special needs funding. They've asked for Sections 4.03.3 through 4.03.2.2.1. 16 I think that should be 4.03.2 through 4.03.2.2.1, which all has to 17 18 do -- and I'm sorry for all the numbers, but that all has to do with student/teacher ratios. 4.03.3, which 19 they've cited in their request, has to do with 20 21 professional development and in-service training for 22 ALE personnel, which I don't think they're 23 requesting.

No.

MS. HYATT: So if they could just clarify.

SUPT. THURMAN:

24

25

	99
1	think it was just a typo.
2	SUPT. THURMAN: It is.
3	MS. HYATT: Okay. So it should be 4.03.2
4	through 4.03.2.2.1, just for the record.
5	And then my second question is: will this waiver
6	only apply to your ALE program? It's not for any
7	students outside of your ALE program?
8	MR. RANDOLPH: So are we talking about the
9	specific ALE the special needs funding?
10	MS. HYATT: Well, so there are provisions that
11	have to do with PE class size in a different rule.
12	That would apply to any student who's not in your ALE
13	program. So what I'm asking is are you also going to
14	need this waiver for kids who are not in your ALE
15	program, or are you just asking for this waiver for
16	kids in your ALE program?
17	MR. RANDOLPH: This would be specific to this
18	program. And, again, the ALE and as Dr. Thurman
19	mentioned, our ALE is under that ACE umbrella. And
20	so we wanted to make sure that was included in there
21	in terms of that funding piece. But this waiver will
22	not be used at any other campus or any other spot.
23	It will only be specific to our conversion charter.
24	MS. HYATT: Does the conversion charter have
25	pieces that are not an ALE piece?

1 SUPT. THURMAN: Yes, ma'am. Yes, absolutely. Then the charter will need to add 2 MS. HYATT: Section 7.01 and 7.11 -- sorry -- 7.10 and 7.11 in 3 the rules governing nutrition and physical activity 4 5 standards and body mass index for age assessment protocols, which also contain that class size piece 6 7 for PE. And I apologize, I should've caught that on 8 the front-end when you submitted it. If you'll just 9 say that you would also like to request those pieces, then that'll be fine for the record. 10 SUPT. THURMAN: Thank you for your guidance. 11 We 12 would like to include that. 13 That fixes all my issues. MS. HYATT: SUPT. THURMAN: 14 Thank you. 15 MR. RANDOLPH: Thank you. CHAIRMAN PFEFFER: Okay. And I think that if 16 17 Panel Members have any questions -- that was just 18 about we have a couple of different sections where class sizes are detailed and class sizes for physical 19 20 education are in a separate rule from the Class Size/ 21 Teaching Load. 22 Okay. All right. If there are not any 23 questions or overall comments for -- by the Panel, 24 then I will entertain a motion to approve this 25 amendment request.

	101
1	DR. KREMERS: I move to approve.
2	DR. WILLIAMS: Second.
3	CHAIRMAN PFEFFER: Okay. I have a motion by Dr.
4	Kremers and a second by Dr. Williams.
5	Is there any discussion?
6	Okay. We'll do a roll-call vote, if I can find
7	my sheet here so I can keep up with it.
8	All right. Mr. Rogers.
9	MR. ROGERS: Aye.
10	CHAIRMAN PFEFFER: Dr. Kremers.
11	DR. KREMERS: Aye.
12	CHAIRMAN PFEFFER: Dr. Williams.
13	DR. WILLIAMS: Aye.
14	CHAIRMAN PFEFFER: Ms. Newton.
15	MS. NEWTON: Aye.
16	CHAIRMAN PFEFFER: And Mr. Baldwin.
17	MR. BALDWIN: Aye.
18	CHAIRMAN PFEFFER: Okay. The motion passes.
19	Congratulations, your amendment request is
20	approved.
21	Thank you for being with us and answering our
22	questions today.
23	SUPT. THURMAN: Thank you.
24	MR. RANDOLPH: Thank you, Dr. Pfeffer and the
25	Panel.

CLOSING COMMENTS

CHAIRMAN PFEFFER: Okay. Ms. Webb, is that the last item on our agenda?

4 MS. WEBB: It is. Yes, ma'am.

CHAIRMAN PFEFFER: Okay. Panel Members, is there -- do you have anything that we need to discuss?

Let's see. The next meeting of the Charter Panel will be --

MS. WEBB: August 18th and 19th. It will probably be at least a day-and-a-half due to open-enrollment charter applications, and we have seven of those.

CHAIRMAN PFEFFER: Okay. So, seven openenrollment applications.

And I think that the plan is for next month to try to go ahead and move back to being onsite, if possible. Ms. Webb will be working with the team here to see if we can set-up the room so that we'll have the maximum physical distancing that's needed. We'll be working on looking to see, as far as anybody -- any guests coming in or things like that, how we would do that and be able to meet Health Department guidelines. We may have -- there may be an issue where some of you may not be able to join us, and we

	103
1	could continue to do that by Zoom. But, if possible,
2	we're going to try to have folks back in the building
3	here as much as possible. So, any thoughts about
4	that or questions?
5	We appreciate everyone being patient with us on
6	sound issues today. I know it is harder it's a
7	lot harder to do by Zoom sometimes than it is when
8	we're able to be in a room and able to gauge
9	reactions or to take care of questions a little bit
10	easier.
11	ADJOURNMENT
12	CHAIRMAN PFEFFER: Okay. Well, if nobody has
13	anything further, then I will accept a motion to
14	adjourn.
15	DR. WILLIAMS: So moved.
16	CHAIRMAN PFEFFER: Okay. Got a motion.
17	MR. ROGERS: Aye.
18	CHAIRMAN PFEFFER: And already a vote from Mr.
19	Rogers. I will take that as a second and a vote
20	affirmative vote.
21	Everyone in favor, "aye."
22	(UNANIMOUS CHORUS OF AYES)
23	CHAIRMAN PFEFFER: Okay. Have a great rest of
24	the day. Thank you all.
25	(The meeting was concluded at 11:13 a.m.)

CERTIFICATE

STATE OF ARKANSAS)	
)	ss
COUNTY OF SALINE)	

I, SHARON K. HILL, CCR, a Certified Stenomask Reporter and Notary Public before whom the foregoing proceedings was taken, do hereby certify that the same is a true and correct transcription before the Arkansas Division of Elementary and Secondary Education, Charter Authorizing Panel, via Livestream due to Covid-19, on July 14, 2020; that the said proceedings was reduced to typewritten form by me or under my direction and supervision; and that the foregoing pages constitute a true and correct transcription of all proceedings had in said matter to the best of my ability.

I FURTHER CERTIFY that I am neither counsel for, related to, nor employed by any of the parties to this action.

I FURTHER CERTIFY that I have no contract with any parties within this action that affects or has a substantial tendency to affect impartiality, that requires me to relinquish control of an original transcript or copies of the transcript before it is certified and delivered to the custodial agency, or that requires me to provide any service not made available to all parties to the action.

WITNESS, MY HAND AND SEAL, THIS DATE: July 19, 2020.

SHARON K. HILL, CCR Certified Court Reporter Certificate No. 670
