## PROCEEDINGS

CHAIRMAN PFEFFER: Okay. Good morning, everybody. Can you hear me okay? There we go.

All right. Well, welcome, everyone, to our Charter Authorizing session today. We --we'll be spending today and tomorrow hearing applications for Open-Enrollment Charters.

I want to welcome everyone to the newly renovated ADE auditorium. I believe we've had one previous meeting in this space, but we are definitely proud of it and appreciate all of you being here this morning.

So at this time I would like to call this panel, this meeting to order, and ask you to please silence your electronic devices.

I'm going to introduce our Panel.

This Panel oversees the authorization, renewal, revision, and revocation of charters. Commissioner Key has named seven members to the Charter Authorizing Panel. I'm Ivy Pfeffer, the ADE Assistant Commissioner and Chair of the Panel. And I would like also to introduce to everyone as we kick off this new cycle Dr. Jeremy Owoh, the ADE Assistant Commissioner for Educator Effectiveness; Dr. Mike Henderson

who is our State Superintendent for the Office of Coordinated Support and Service.

Do you want to wave so they know who you are?

DR. HERNANDEZ: That's all right.

MR. WILSON: So they know you're not me.

CHAIRMAN PFEFFER: Okay. And I'm also very pleased to introduce to you our newest Panel member, she is very new to her role and we welcome her and are glad to have Dr. Angela Kremers, who is the Deputy Director for Career and Technical Education at the Arkansas Department of Career Education. And I've told her that if at any time she has any questions, to please stop and -- and be sure to ask us.

I would also like to introduce Mike Wilson who is an education advocate and attorney in Jacksonville. And Dr. Naccaman -- Naccaman Williams. Dr. Williams is a former State Board of education member.

We also have Toyce Newton on our Panel and she is unable to be with us today.

As Chair my goal is to facilitate a fair and responsible hearing. I will request that each person speaking please state your name and

title for the record. And we also need to be 1 sure that everyone speaks into the microphone, 2 because not only is it for our audience here 3 today but for our viewing audience, as this is 4 5 being live streamed. We are also pleased to have with us here 6 7 today Susan Whitson, who is our court reporter, and she will be taking care of providing that 8 9 transcript for us as well. So at this time we will go ahead and get 10 11 started with our agenda. And the first item on 12 our agenda is the consent agenda. 13 Does anyone wish to discuss any of these items? 14 15 And then if not, I will accept a motion on the consent agenda. 16 17 DR. HERNANDEZ: Motion to approve. 18 DR. WILLIAMS: Second. 19 CHAIRMAN PFEFFER: Okay. I have a motion 20 to approve and a second. All those in favor, 21 say, "Aye." 22 PANEL MEMBERS: Aye. 23 CHAIRMAN PFEFFER: Any opposed? 24 Okay. The consent agenda is approved.

25

ACTION AGENDA

Т	A-1:	REQUEST	FOR OPEN	-ENR	OLTWEN.I.	CHARTER	SCHOOL
2	AMENDI	MENTS:	STANDARDS	FOR	ACCREDI	TATION	

CHAIRMAN PFEFFER: We will now move forward with our action agenda. And as we get started, I will ask for our first -- first item, we are looking at Request for Open-Enrollment Charter School Amendments and our Standards for Accreditation. So Dr. Alexandra Boyd will be talking to us about this item.

Dr. Boyd, you are recognized.

DR. BOYD: Thank you, Madam Chair.

Thank you, Madam Chair. Alexandra Boyd, Director of the Charter Unit.

This morning we want to talk to the panel about how to proceed with potential charter amendment requests in order for charters to get waivers of the new standards. And to best explain that I would like for the Assistant Commissioner of Public School Accountability to come and describe to you what has happened with the Standards for Accreditation, and then we'll walk through some potential options and have some discussion about the process.

All right. So I would like to call

Deborah Coffman to come up.

MS. COFFMAN: Good morning. Deborah Coffman, Assistant Commissioner of Public School Accountability.

Standards for Accreditation. Arkansas monitors all schools and districts and accredits them as public schools in the state of Arkansas. Other states may use vendors or have outside agencies that accredit their public schools, but Arkansas has had a long history of accrediting schools through the Department of Education and the State Board of Education.

In 1996 -- 1960 -- excuse me -- 1960 we have a copy of Standards for Accreditation when then Commissioner or Director was Arch Ford himself. They are very interesting to read if you would ever like to read them. But we know for a fact, because we do have that document, that Standards for Accreditation go back as far as 1960. They may go back further, we don't have a copy of those. They are very interesting to read, and over time those Standards for Accreditation have been updated. Most notably Act 445 of 1983, which was the

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

Quality Education Act, pulled together a group of people, stakeholders in the state of Arkansas, facilitated by then Hillary Clinton, wife of the governor, to look at the Standards for Accreditation, and through a very lengthy stakeholder engagement process those standards were updated and became effective June 1, 1987. Since that time there were revisions and updates, but no major overhaul; so we had the 1960 version, the 1987 version, and then we've worked on them, tweaked a little here and there as different laws were passed and rules were changed. But this past year -- well, actually, this past two years stakeholders have been coming together to look at the Standards for Accreditation, and in 2018 we find ourselves needing to have a very large update.

And so before you, you have a packet of the newly approved Standards for Accreditation 2018 version. This version takes all of the best things from the previous standards, plus puts in more modern up-to-date information about what's the current status of education in Arkansas. We use these standards to accredit our public schools.

10

11

12

As you look at the table of contents or as you begin to leaf through that, the first nine pages really go over the rules for how we accredit schools in the state, the entire process. And then if you flip to Page 10, you will see Appendix A, and that's where the actual standards that we measure or that we monitor schools and districts for are located.

So in those -- in that appendix, the standards are grouped into six systems. These are the six systems that we would expect to see within an educational system, so the six subsystems: Academics, Student Support Services, District Operations of Fiscal Governance, Human Capital, Stakeholder Communication and Engagement, Facilities and Transportation.

And so as we look at our last slide, I
want to leave you with this slide because these
six systems are the systems that we talk about
with our school districts, it's the systems
that we're looking to see if the schools have
those systems working, if they are working
effectively independently, and are they working
effectively together to ensure the very best

student focused education for Arkansas students.

> You will see this slide many, many times, because we utilize this slide in public school accountability in our conversations with schools about the support districts are providing schools, the support the Department can provide to the schools as well.

> I would ask you to put this packet of standards in your bag, in your notebook, or where ever, and bring with you to each Charter Panel meeting because, going forward, we'll be aligning the work to these Standards for Accreditation so that all of our charter schools may be accredited.

CHAIRMAN PFEFFER: Okay. Thank you, Ms. Coffman.

Does anyone have a question for Ms. Coffman now?

DR. WILLIAMS: Yes. Obviously these standards affect all the schools in the state of Arkansas.

> MS. COFFMAN: That is correct.

DR. WILLIAMS: And so is there a plan to systematically go through to implement the --

1	the new I'm assuming several schools other
2	than charter schools have waivers?
3	MS. COFFMAN: Yes.
4	DR. WILLIAMS: So what's the plan for all
5	of the schools along with the charter schools?
6	CHAIRMAN PFEFFER: And and I think
7	Dr. Boyd is going to address that next.
8	DR. WILLIAMS: Okay.
9	CHAIRMAN PFEFFER: We just wanted to give
10	you kind of that background
11	DR. WILLIAMS: Okay.
12	CHAIRMAN PFEFFER: and kind of an
13	understanding that when the Standards for
14	Accreditation were revised, it really was a
15	major overhaul
16	DR. WILLIAMS: Oh, absolutely.
17	CHAIRMAN PFEFFER: to the whole
18	accreditation process. So I believe Dr. Boyd
19	is going to get into that, and if we have some
20	more questions, we will sure ask.
21	DR. WILLIAMS: Okay. All right.
22	MS. COFFMAN: And you'll you will see
23	as you read through these standards that we've
24	taken into account present day education, so
25	you will see waivers included and expected in

some of these areas.

DR. WILLIAMS: Some areas? Okay. Thank you.

> Thank you, Ms. Coffman. DR. BOYD:

All right. So the important thing to remember is that the -- the previous standards have been repealed and we have these new standards, which no one has a waiver of, which Dr. Williams brought up, so we have to think about how we're going to get everyone waivers.

So there are different ways to get waivers: We have open-enrollments, district conversion, schools of innovation, and then Act 1240.

The open-enrollment and district conversion are under your purview, so we want to talk about what processes we should use, under your direction, to update the waivers for open-enrollments and district conversions.

Schools of innovation fall under the Commissioner's purview.

And then Act 1240 are under the State Board, but the way the law is written is that a district cannot have a waiver from Act -- under Act 1240 unless an open-enrollment charter to

17

18

19

20

21

22

which they are sending -- they are losing schools from their -- sorry -- they are losing students from their resident district to the open-enrollment charter also has that waiver.

So Act 1240 -- districts can't get waivers under Act 1240 of the standards until the open-enrollments have waivers of those standards, so that's important to remember on the front end.

We've been thinking about this in the Charter Office and the ADE has been thinking about the process. We've come up with three options that we think could work for getting the charters waivers of the new Standards for Accreditation.

The first option is that the charter schools work with the ADE Legal and the Charter Unit staff to map across the -- the waivers that they had of the previous standards to the current standards. We will do this through short conversations and discussions about what they actually need to accomplish their goals as charters. And if we all can come to an agreement on those, then we would like to bring those to you kind of as a big chunk of

amendment requests.

The second option is that if a charter and the Charter Office and ADE Legal can't get on the same page, then the charter can come to you through a formal amendment request process and ask for an amendment to their charter which would include the Standards for Accreditation and anything else that they saw fit.

The third option is that if a charter -if we don't do option one or option two and it
comes to a point where a charter is -- that the
accreditation status is in question, then you
can call the charter before you and we could
negotiate what's needed to amend the charter at
that point.

So do you-all have any questions about the options laid before you or do you have any additions?

DR. WILLIAMS: I just think it's going to be a combination of all three. I think that the plan -- I could see doing option one, they may do one specific waiver that you might need to procure.

CHAIRMAN PFEFFER: Uh-huh.

DR. WILLIAMS: But sounds like an actual

	16
1	plan. I just I was thinking this is a huge
2	undertaking.
3	DR. BOYD: That's correct.
4	DR. WILLIAMS: You know, I was just
5	wondering how we're going to, but mapping that
6	over just kind of takes away what I was really
7	concerned about. We don't want to hear every
8	waiver again.
9	DR. BOYD: Uh-huh.
10	DR. WILLIAMS: Okay.
11	MR. WILSON: Excuse me.
12	CHAIRMAN PFEFFER: Mr. Wilson, do you have
13	a question?
14	MR. WILSON: Thank you.
15	It sounds like option one is your
16	preferred or suggested option, with two and
17	three, as as Dr. Williams said, to be able
18	to modify those if there is not an agreement.
19	I like the idea of option one, but being able
20	to fall back on two or three if if there is
21	not an agreement.
22	CHAIRMAN PFEFFER: So, Dr. Boyd, if I
23	just want to make sure then that we are clear.
24	So basically the the Charter Office has laid
25	out three different options

1	DR. BOYD: Uh-huh.
2	CHAIRMAN PFEFFER: and it's asking for
3	feedback from the Panel?
4	DR. BOYD: Uh-huh.
5	CHAIRMAN PFEFFER: And so far the feedback
6	is the Panel hopes that option one is going to
7	cover most charters; however, we also realize
8	that there may need to be option two exercised
9	or three, especially if there are questions
10	about, you know, specific things. But it could
11	be much, much even working with the Charter
12	Office through option two could really cut down
13	on the magnitude of any amendment request.
14	So basically what you're asking is the
15	Panel to approve what you've laid forward as
16	the way we we proceed with mapping those?
17	DR. BOYD: Yes, ma'am. That's correct.
18	CHAIRMAN PFEFFER: Okay. Does the Panel
19	have any other questions?
20	Dr. Kremers?
21	DR. KREMERS: In the instance of option
22	you know, where it may progress to option two,
23	option three
24	DR. BOYD: Uh-huh.
25	DR. KREMERS: If it goes to that point

	18
1	where negotiation is necessary
2	DR. BOYD: Uh-huh.
3	DR. KREMERS: is there a time limited
4	process at that point? Is it
5	DR. BOYD: Right. So at the point that
6	the school for option three, the new
7	accreditation status starting in October is
8	going to happen on a monthly basis, so we
9	should know in October whose accreditation
10	status is in question.
11	The process works that if you are going to
12	call a charter in, you do have to put them on
13	notice. And I believe I don't hold on
14	one second.
15	I just wanted to double-check. So we have
16	to give them a 35-days notice. So if you
17	notify them at your November meeting, then it
18	could then we could potentially hear them at
19	the December or January meetings.
20	For the amendment request process,
21	amendment requests are heard in October and
22	February. They can be heard at other times
23	with permission from the Commissioner.
24	DR. KREMERS: Thank you.
25	DR. BOYD: Uh-huh.

	19
1	CHAIRMAN PFEFFER: Okay. Are there any
2	other questions from the Panel?
3	So if not, I would accept a motion to
4	approve this as a recommendation from our
5	Charter Office moving forward.
6	DR. WILLIAMS: So moved.
7	DR. OWOH: Second.
8	CHAIRMAN PFEFFER: Okay. I have a motion
9	and a second. And all those in favor, say,
10	"Aye."
11	PANEL MEMBERS: Aye.
12	CHAIRMAN PFEFFER: Any opposed?
13	Okay. The motion passes.
14	And, Dr. Boyd, we will look forward to
15	working with everyone on this process.
16	DR. BOYD: Great.
17	CHAIRMAN PFEFFER: Thank you.
18	DR. BOYD: So hopefully you should see
19	some of these requests on your September
20	agenda. Hopefully 29, but maybe not.
21	Thank you.
22	CHAIRMAN PFEFFER: Okay. So we are going
23	to move forward on to our next Action Agenda
24	item, which is going to be the hearing of an
25	Open-Enrollment Charter School application.

Before we call the school up, I would like to have our staff attorney, Ms. Mary Claire

Hyatt, to come forward and explain the hearing process and the voting process and how we're going to need to proceed through this section.

MS. HYATT: Good morning, everyone. Mary Claire Hyatt with the Department.

Okay. So anyone who is not an attorney that's representing one of the parties who will be providing testimony or answer questions needs to be sworn by the Chair.

The Open-Enrollment Public Charter School applicant will have 20 minutes to present its presentation to you; the Chair, you can grant additional time if you believe it's necessary. Any party that's opposed will also have 20 minutes to respond, and that's collectively, so if there are multiple people then they would need to all be within the 20-minute timeline. Of course, the Chair also has the ability to grant additional time if necessary.

The Open-Enrollment Public Charter School applicant will then have five minutes to respond and you can grant additional time if necessary.

1	Then you can follow with questions, any
2	outstanding concerns about the application to
3	the to the opposing parties, to the
4	applicant itself or otherwise, and then you may
5	issue a final decision or you can take the
6	matter under advisement until a future meeting.
7	You can also defer to vote to approve or
8	disapprove the application and in order to
9	allow the applicant to make modifications or
10	receive any type of technical assistance. And
11	then if you are going to vote to approve or
12	disapprove, it's best you do it by roll call.
13	I know you guys have the the Google sheets
14	where you will enter your reasons for voting
15	how you vote.
16	CHAIRMAN PFEFFER: Okay. Panel, are there
17	any questions for Ms. Hyatt before we proceed?
18	Okay. At this time I will ask Ms. Perry
19	from our Charter School Office to come forward
20	and introduce us to our first applicant.
21	A-2: HEARING OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
22	APPLICATION: FOCUS ACADEMY OF ARTS AND SCIENCES,
23	BENTONVILLE, ARKANSAS
24	MS. PERRY: Good morning. Virginia Perry,

Program Adviser with the Charter Unit.

Focus Academy of Arts and Sciences is a proposed Open-Enrollment Public Charter School to be located within Bentonville School District. The sponsoring entity is Focus STEM Academy of Benton County. The applicant is requesting to serve students in grades K-8 with a maximum enrollment of 900 beginning in the 2019-2020 school year. The applicant has notified affected districts of the proposed public charter school.

ADE staff reviewed the application, and concerns were shared with the applicant -- with the applicant for response. The application, the ADE evaluation, and the applicant's responses are included for the Charter Authorizing Panel.

Speaking today for Focus Academy will be Dr. Jessica Thompson, Volunteer, and Dan Foshee, Board Member.

CHAIRMAN PFEFFER: Okay. Will all representatives of the application and anyone speaking in opposition please stand to be sworn in.

Okay. If you will raise your right hand.

(WHEREUPON, the witnesses were sworn by

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

	23
1	the Chairman.)
2	CHAIRMAN PFEFFER: Okay. Thank you.
3	And you are recognized. If you will come
4	to the microphone and state your name for the
5	record, you will be recognized to begin your
6	presentation. And you have 20 minutes.
7	DR. JESSICA THOMPSON: Okay. Thank you.
8	My name is Jessica Thompson and I am here
9	with Focus Academy. Okay.
10	MR. DAN FOSHEE: Dan Foshee, Board Member.
11	DR. JESSICA THOMPSON: I'm sorry, Dan.
12	MR. DAN FOSHEE: I'll be running the
13	presentation, if that's all right.
14	CHAIRMAN PFEFFER: That is fine. Thank
15	you.
16	I know I know that microphone is hard
17	to keep
18	DR. JESSICA THOMPSON: It is.
19	CHAIRMAN PFEFFER: but just, yeah, as
20	close as you can have it to your mouth, that
21	will be great.
22	DR. JESSICA THOMPSON: Okay. Thank you.
23	Okay. I'm here for the Focus Academy of
24	Arts and Sciences. I'm an adjunct professor at
25	Northeastern State University and I recently

became Dr. Thompson, so I'm excited about that.

Okay.

CHAIRMAN PFEFFER: Congratulations.

DR. JESSICA THOMPSON: Thank you.

Our mission at Focus Academy of Arts and Science will provide students a place to explore academic learning concepts through interdisciplinary projects that combine science, technology, engineering, arts, and mathematics.

We will support all students to -- to success through increased parental involvement -- involvement -- I'm sorry -- increased physical activity, and an emphasis on music education. Focus Academy of Arts and Sciences values community involvement, seeking to engender and model the philosophy of community service at all levels, from our staff to our students. So we're really excited about the community involvement and the servant leadership.

Okay. Micah Cummings-Sparrow will be the Executive Director; she has 15 years of experience teaching math, science, and reading; she's a lead teacher, team leader, mentored

intern students -- intern teachers, PLC Leader,
District Data Team, Teacher of the Year,
Science Department Chair, and five years
private sector experience in corporate training
and project management.

For the established need, we will have music, which will -- we'll focus on music, which increases student motivation and engagement. There is a study that has been linked to a more positive school culture -- and I think you also got a copy of some of our research that we've done on that -- increased focus and cognitive skills that helps students perform better academically. And music also is -- access to music education varies widely in northwest Arkansas. And I'm pretty sure we'll be the only school that starts music education at the kindergarten level, which is exciting.

Goals. Our academic goals are K-2 students will make a minimum of one year's growth each academic year in the areas of reading, mathematics, as measured by the MAP assessment.

Grades 3-8 students will meet or exceed

regional averages on the ACT Aspire assessments.

As an organization, our goals are 80 percent or better attendance for parent-teacher conferences. And another difference in our school is we will actually have parent-teacher conference once a month instead of just twice a year, which is -- really helps with that connection with the parents and having the parents involved in our school.

At least 20 community stakeholders will sign in as volunteers.

95 percent of staff and students meet the required hours of service. So service, learning, and community involvement is going to be a huge part of our school.

Okay. Here is an overview of our innovative model. We have STEAM education in the middle, career education, collaborative teaming, physical, music/art education, project-based learning, parental involvement, and social innovation.

For parental involvement we're going to have monthly parent-teacher conferences, an

WhitsonCCR@aol.com

advisory board of five parents that are -- they will kind of be the voice of the students and the parents, as far as keeping us in touch with what they want and what they need in their school.

School events, we'll have projects and the hands-on project-based learning and then they will display those, along with, kind of like science fairs. Kind of like that and then we'll have music recitals and intra-murals.

Project-based learning, incorporate student choice, integrated across the curriculum, and dedicated time during school.

For physical education and our music, we will have support academic growth, positive school climate, active engagement, higher motivation, engage northwest Arkansas' music community, and it will be just plain fun.

For teaming, we'll have grade level teams, partner with specialist members, parents on behalf of the students.

Curriculum, inquiry and cognitively guided instructional methods.

Career education, career information begins before 8th grade. We want to have guest

speakers, project research, careers through core content, field trips, and workplace visits.

Framework for career orientation will be incorporated into STEM.

Explorations for 8th grade, grab -- job shadowing, mentoring, workplace visits and tours, and college tours. So start them young thinking about their career.

Social innovation, students involved in the community service, on-campus service opportunities, Mutt-i-grees Program. So that's going to be one of our big things at our school is the students going out into the community, supervised, you know, working in their community, service learning.

STEAM education, be curious, explore new ideas, do projects, research, be active, be a part of something, be social. That's what our STEAM is going to be.

Okay. Elementary, K-4, instructional support teams, ratio will be 1:16. Classroom teacher, classroom aide, interventionists like dyslexia, ELL, special education, guidance counselors. Hands-on experience in the

classroom for students to explore and investigate. That goes back to that project learning that I talked about.

Hands-on musical instrument training beginning in kindergarten and continuing every year. We were thinking that ukulele might be a neat way to start in the younger grades with their little fingers, so just get them involved in music right off the bat.

Middle grades, 5-8, student selected projects, engaged in meaningful science and mathematics, mentors, job shadowing, high technology utilization, and so they will be ready for advanced placement in high school.

And on that, back to that slide that we just talked about, the student selected projects, I mean, if you can get the students learning intrinsically instead of, oh, I'm forced to do this for my grade, you know, when they are selecting their projects and they are working on them and they are exciting about their learning, that would be one of our goals.

Okay. Music education, increase cognitive development, better verbal skills, increased brain activity, greater spatial awareness,

increased academic performance, greater attention span and focus ability, and being musical. So these are all the goals of music education.

All grades twice a week. K instrument discovery, like I said maybe the ukulele. 1st grade will have a piano lab; 2nd grade piano lab; 3rd grade we'll start guitar lab; 4th grade guitar lab; 5th and 6th grade beginning band; and 7th through 8th grade intermediate band.

Parental involvement, monthly

parent-teacher conferences; quarterly project

expositions, music recitals, concerts, be a

guest speaker, parental advisory council, for

our parental involvement.

Community involvement, our goal is to build business partnerships, collaborate with us, mentor students, share their experience, job shadowing, community servants -- service. Students and staff will perform six hours of community service each year, build relationships in our community and give back. So we don't want them to be self-centered, we want them to be outwardly centered; and, like,

the goal is to be involved in your community and focus on others.

A student's week at a glance: We have
Smart Start, Language Arts, recess, and lunch,
Music, Visual Arts, Mathematics, Science, Daily
Rap Up. And -- let's see. Tuesday, and then
they go to the same things except for they
would have Makerspace. And for our Makerspace
we're interested in having robotics, hands-on
building, crafts. There is a neat project
through the National Science Foundation through
STEM that they actually build a guitar, so what
better program for our school than having the
kids actually physically build a guitar and
then learn to use it.

Okay. 5th-8th grade, they will have
English, Reading, Science, lunch, Mathematics,
Social Studies, STEM Explorations, P.E.,
Advisory. So that's their basic schedule there
for 5th through 8th grade.

School partnerships and resources, Bridges in Math. You can see some of those, MobyMax, Code.org, GamePlan -- let's see -- Mutt-i-grees, Bentonville Public Library. We already have a tentative contract with them.

PhonicsFirst Structures -- so you can look at that list there.

Food service, a food service provider will be contracted to provide tasty, high-quality, high-nutrition lunches to students. The Executive Director will oversee the operation with assistance from the child nutrition consultant.

Transportation, a lot of parents will probably drive their children to school and pick them up. We're also working on a contract for shuttle routes to locations in Benton County, based on students' needs, like some of the other schools in our area have done for transportation.

Proposed location, 5121 Runway Drive,
Bentonville. We have ADA compliant, a
sprinkler system, security entry,
tornado-related safe rooms. And the builder
for our facility is willing to work with us,
willing to -- if the enrollment is lower, we
will have a smaller space that he's willing to
lease, which will cut down on costs; and if
we're bigger, he is ready to add on and build
more for us, so he's very excited about this

1 project.

Meeting the needs of Arkansas' students.

Model, this model improves student learning,
increased educational opportunities for our
diverse community, innovative teaching styles,
collaborative teaching jobs that encourage
teacher leaders, expanded school choices for
families, and goals that keep us accountable to
our community.

And that is the end of my presentation. I hope you learned a little bit about Focus
Academy and what our goals are.

CHAIRMAN PFEFFER: Okay. And is there anyone here to speak in opposition?

DR. BOYD: No.

CHAIRMAN PFEFFER: No?

All right. You have about seven and a half minutes. Anything remaining you want to share with us or are you ready for us to move forward with --

DR. JESSICA THOMPSON: Dan, do you have anything?

MR. DAN FOSHEE: I'm fine with that.

CHAIRMAN PFEFFER: Okay. All right.

Panel, what I would like to do this time,

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

instead of going straight to Panel questions, I would like to ask for Dr. Boyd and Ms. Hyatt to come up and go through with us any unresolved issues or questions around the legal review.

I think a lot of times our questions are about those unresolved issues of the legal review, so some of those may have been addressed during the presentation and, if so, then they'll go ahead and note those for us. But we're going to try to kind of walk through those items. Also I think Dan is going to try to keep up with some of those and maybe help us to -- to narrow down our questions once we're finished here.

So we probably will be asking the school to -- Dr. Boyd and Ms. Hyatt may be asking the school to respond to some things, so we're going to -- we're going to work through this.

DR. JESSICA THOMPSON: Okay.

CHAIRMAN PFEFFER: Dr. Boyd?

DR. BOYD: Thank you, Dr. Pfeffer.

For those of you who are viewing, you may not be able to see the document. The document we're looking at is the summary document, which is the first attachment on the -- the agenda

item.

So starting with the educational need, the applicant did provide some more quantitative data for you-all, which I passed out in the beginning. So we haven't reviewed this document but you have that if you have any more questions about that.

For just the other courses offered, we simply need the applicant to confirm that they understand that if they plan to embed courses, that they have to go through the ADE Course Approval Process.

CHAIRMAN PFEFFER: If the applicant will come to the microphone, please. Dr. Thompson?

DR. JESSICA THOMPSON: Yes.

Yes, I confirm that.

DR. BOYD: Okay. Thank you.

And then for the student services, most of the concerns there have to do with SPED. So it remains unclear that the Executive Director position will have the needed credentials and experiences to supervise a special education teacher. Currently they have named an Executive Director who has extensive educational experience; however, there isn't

1	any specific to special ed that I noticed.
2	DR. JESSICA THOMPSON: Okay. Well, one of
3	the things that we were considering is the
4	Assistant Director may also have qualifications
5	in special ed. So if that was needed, we would
6	definitely do that.
7	DR. BOYD: So it's my understanding that
8	you want to amend the application and say that
9	requirements for the Assistant Executive
10	Director will be to have special education
11	experience?
12	DR. JESSICA THOMPSON: Yes. If that's
13	required. Is that
14	DR. BOYD: It's not required.
15	DR. JESSICA THOMPSON: It's not required?
16	Then, no, we'll leave it as it is.
17	DR. BOYD: Okay. So that remains a
18	concern.
19	So the next for the next one, it
20	remains unclear that the applicant understands
21	that some SPED students may require
22	accommodations to State-mandated summative
23	assessments, including ACT Aspire and Dynamic
24	Learning MAPS.
25	Do you understand?

	37
1	DR. JESSICA THOMPSON: Do you understand
2	That you need to provide accommodations?
3	Yes. We will provide accommodations for
4	all SPED students.
5	DR. BOYD: Okay. And then the last one is
6	a capacity question about a SPED teacher being
7	able to also provide dyslexia services.
8	Just from the Department feels like
9	that's a heavy lift to be in charge of SPED and
10	dyslexia services.
11	DR. JESSICA THOMPSON: We were thinking
12	that we would shift that to the Lead reading
13	teacher, that so that the teacher that
14	was that we choose for the reading
15	department, that she would take care of the
16	dyslexic at a certain time, and then eventually
17	we would like to hire someone just for that
18	position.
19	DR. BOYD: Okay. Thank you.
20	So that that's all of our concerns for
21	the application itself.
22	And now Ms. Hyatt will come and talk to
23	you about legal concerns with the waivers,
24	unless you have any questions at this point.
25	CHAIRMAN PFEFFER: And I was going to see

if a Panel member has any questions specifically related to those unresolved issues that were just asked.

And I do want to go back on the -- the supervision of the special education teacher. You know, I think in most schools in the state you don't necessarily have your supervisor that would necessarily have special education background, and so I don't -- that is not a requirement, as you've stated. That's not something they would have to be held to.

DR. BOYD: It's not a requirement.

We -- our experience has been, with working with the Special Ed Unit, that the special -- you know, the special ed position is a heavy position, and that they need support, and that support could come from a cooperative or somewhere else. And in larger districts there is a district coordinator and then they help the teachers that are at the schools. And just our experience with working with existing charters and especially new charters that have had issues with SPED, it's just something that we like to bring to light that the SPED teacher is going to need support.

1	CHAIRMAN PFEFFER: Okay. Okay. Dr. Owoh?
2	DR. OWOH: In response to the comments
3	about dyslexia, and you stated that the reading
4	personnel would provide that
5	DR. JESSICA THOMPSON: Uh-huh.
6	DR. OWOH: support, my question is,
7	based on your budget that you submitted, it did
8	not indicate indicate any monetary or
9	funding for dyslexia, for the training or for
10	the program itself.
11	So if you could provide some insight on
12	how you would meet those needs for the teacher
13	for the support, for the training, as well as
14	the interventions and support for the students.
15	DR. JESSICA THOMPSON: Yes.
16	Okay. Let's see here.
17	Okay. On Line 37 of the expenditures, it
18	says, "supplies and materials."
19	DR. OWOH: Uh-huh.
20	DR. JESSICA THOMPSON: And we budgeted
21	what we felt was fairly high for that, and so
22	we would we figure we thought that we
23	could use that for anything needed, plus we
24	have a surplus in the budget. So we would
25	definitely do training or whatever we needed to

	40
1	do for the dyslexia students and to train that
2	Lead teacher. And if we need to send her
3	and we also have let's see what line we
4	can take that out of professional development
5	also. I'm not sure exactly what line that is
6	on right now.
7	Dan, do you have that?
8	MR. DAN FOSHEE: I'm trying to get there.
9	DR. JESSICA THOMPSON: Okay. I know we
10	did budget for professional development. So
11	either one of those, I would feel comfortable
12	using those funds for that, for training and
13	support and supplies needed for those students.
14	Because I know that's a big you know, there
15	is a difference between the dyslexic students
16	and the special ed. I have a lot of experience
17	in that.
18	DR. OWOH: All right. Thank you.
19	CHAIRMAN PFEFFER: Okay. Dr. Hernandez?
20	DR. HERNANDEZ: So you had mentioned as
21	far as the shifting over to the Lead reading
22	teacher?
23	DR. JESSICA THOMPSON: (Nodding head up
24	and down.)
25	DR. HERNANDEZ: So are you planning on

having several top lead teachers? And then what does that look like in terms of budget impact?

You know, we see in your budget you have, you know, salaries allocated towards that. So is that an extended day contract? Is that a stipend basis, or is that just a, hey, you're a lead teacher designation?

DR. JESSICA THOMPSON: I think it would be a stipend. And we could adjust, like in the hiring process, I think we would talk to the teacher about that and their experience.

Especially when we're hiring for that, we would say, you know, do you have experience in this area, this is what we would want you to do, and because of that we would add to your salary.

So that would -- I think we would all discuss that, you know, in the beginning when we're discussing the hiring and the salary amounts.

CHAIRMAN PFEFFER: Okay. I think at this time we can move on to Ms. Hyatt and the legal review, and we'll ask the -- Dr. Thompson to stay up here, please, to answer questions.

DR. JESSICA THOMPSON: Okay.

MS. HYATT: Well, I don't know how we're

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

going to do this because there is such a height difference between the two of us, but I'll stand on my tippy toes.

So I think Alexandra past out kind of a summary of the legal review, so for those of you watching, the document I'm going off of is just basically a summary of the legal review that was attached to the agenda. I just thought that this was a more concise way of reviewing it rather than having all the words.

So in the middle column you'll see waiver requests. These are based on the back and forth between the two legal reviews, the waiver request that the applicant is asking for, so there is some variation from the initial application to these waiver requests. And then anything in red is just something I need to get a little more clarification on.

And just kind of briefly, because this relates to all of the charters that we'll hear over the next two days, due to the change in standards, it was right in the middle of the application cycle for the open-enrollment charters, so the applications were written with waiver requests for the old standards, so a lot

of what we'll be doing is just making sure we 1 get them under the new standards rather than 2 the old. 3 So if everyone is good with that we'll 4 5 just kind of start on No. 1, which is administrator licensure. And the only thing 6 7 here is just they will need waivers from the standards. And I -- for principal licensure --8 9 and I'll let you confirm which ones you'll need. And so for principal licensure it will 10 be 4-C.1 and 2; for superintendent licensure, 11 12 it's 4-B.2; and then 4-B.1 is the requirement 13 that the district employ a full-time superintendent. So if the superintendent is 14 15 going to be hired by the CMO or not be full 16 time, then they would need a waiver for 4-B.1 as well. 17 18 So I just need you to confirm which of those four you need. 19 DR. JESSICA THOMPSON: 20 21 MS. HYATT: So just the principal licensure? 22 23 DR. JESSICA THOMPSON: And administrator. 24 Okay. So principal licensure MS. HYATT: 25 is 4-C.1 and 2, so you confirm that you --

	44
1	DR. JESSICA THOMPSON: Okay. I confirm
2	that we need 4-C.1 and 2.
3	MS. HYATT: Okay. Superintendent
4	superintendent licensure is 4-B.2.
5	DR. JESSICA THOMPSON: Yep, we need 4-B.2,
6	please.
7	MS. HYATT: And 4-B.1 is the requirement
8	that the district employ a full-time
9	superintendent. So if your superintendent is
10	not going to be full time or if if it's
11	employed by someone other than the district,
12	like the CMO, then you'll need that one.
13	DR. JESSICA THOMPSON: Okay. I think we
14	do. Yes.
15	MS. HYATT: Okay. Just confirm it.
16	DR. JESSICA THOMPSON: I confirm that.
17	MS. HYATT: So I have 4-B.1 and 2 and
18	4-C.1 and 2 and that will resolve any issues on
19	No. 1.
20	Number 2 is the teacher licensure, same
21	thing with the standards, the new standard is
22	4-D.1, and that covers teacher licensure; so
23	DR. JESSICA THOMPSON: Yes, I confirm that
24	we need that.
25	MS. HYATT: Okay. And the waiver request

for 6-15-1004 is a teacher licensure statute. The only part that requires -- has a requirement on a teacher is 6-15-1004(d), not the entire statute. And so the request is currently for the entire statute, and so either just a little bit of clarification as to the need for the entire or confirmation that you would just like to seek part (d)?

DR. JESSICA THOMPSON: So basically we want middle level -- level teachers to be able to teach elementary and elementary middle, so is that --

MS. HYATT: So you have the teacher
licensure waiver from standards. The -- the
part of the law that -- that says that teachers
that are not licensed can't teach is 400(d) -or 1004(d) rather than the entire law. The
other part of the law is more this is how you
get teacher -- teacher licensure and doesn't
really have an impact on -- on schools, more so
the teachers themselves in the -- and the
Department.

DR. JESSICA THOMPSON: Okay. We are also thinking that we may be interested in hiring music professionals that are interested in

	46
1	getting their teacher license, so would that be
2	the other part of the
3	MS. HYATT: No. So that's still a teacher
4	licensure waiver.
5	DR. JESSICA THOMPSON: Okay. So then we
6	just need 4-D.1.
7	MS. HYATT: Okay. Is that would that
8	be easier?
9	Okay. Thank you.
10	CHAIRMAN PFEFFER: That does help. Thank
11	you.
12	MS. HYATT: Okay. On No. 3, employee
13	contracts, there are no remaining issues.
14	On No. 4, which is School Board, during
15	the legal review, Focus Academy of Arts and
16	Science rescinded some requests for 608, which
17	is the length of the Board of Director term;
18	611, which is vacancies and how you fill them;
19	and 634, which is the size of the Board, but
20	based on the application, I believe that those
21	waivers are necessary. And so I believe that
22	you need those waivers in order to effectuate
23	your goal.
24	DR. JESSICA THOMPSON: Okay.
25	MS. HYATT: So if if you're okay with

	47
1	that, just confirm that.
2	DR. JESSICA THOMPSON: Yes. I'll confirm
3	that.
4	MS. HYATT: Okay. Similarly, 613, 609,
5	610, 614, 627, and 633 have been repealed, so
6	there is no waiver necessary for those and
7	those were included in the request.
8	DR. JESSICA THOMPSON: Okay. So we don't
9	need that.
10	MS. HYATT: Okay. And and that's it
11	on on No. 4.
12	Number 5 is good.
13	Number 6, same thing, applicant rescinded
14	the request for Section 4 of the ADE Rules
15	Governing Student Special Needs Funds, but
16	that's a waiver that they will need in order to
17	effectuate their waiver under for
18	alternative learning environments, and they
19	need a waiver under the new standards instead
20	of the old, and the new standard is 2-I.1.
21	DR. JESSICA THOMPSON: So we will need
22	those?
23	MS. HYATT: Yes.
24	DR. JESSICA THOMPSON: I confirm that we
25	need those then.

MS. HYATT: No. 7, gifted and talented, is just the standards, kind of walk over 2-G.1 is the new standard for gifted and talented rather than the old Section 18; so just a confirmation that you're going to get it under the -- the new standard.

DR. JESSICA THOMPSON: I confirm.

MS. HYATT: All right. Okay. Number 8, Media Center standards, again, the new standard sections are 4-F.1 and 4-F.2, which covers licensure of the library media specialist and then the ratio of students to -- per library media specialist, and -- and those will be necessary to effectuate the waiver of the law.

DR. JESSICA THOMPSON: Okay. I confirm.

MS. HYATT: Okay. Personnel policies,
this is just one of the ones where I had needed
a little bit more information. I was just
unsure, based on some of the rationale
provided, exactly what they were trying to do
with the waiver so it was kind of hard for me
to understand which sections they would need a
waiver of to effectuate their goal. And so if
I could just -- if we could get a little bit
more information on that so we can make sure

you have everything you need.

24

25

DR. JESSICA THOMPSON: Okay. On the --

MS. HYATT: Personnel policy. So the waiver request, as it stands, is a waiver request from having the policies, posting them on your website, incorporating them into teacher contracts, giving copies to teachers, and then having them for classified employees as well and incorporating them into the classified employee's contract. So those are kind of the questions, how you plan on doing your personnel policies and that kind of stuff.

DR. JESSICA THOMPSON: Okay. As far as I can tell, we would like just to follow the ADA -- or the ADE rules for that and just follow the procedure. I don't think we need a waiver, do we, for anything like that. I think we're just going to follow the steps.

Do you know, Dan?

MR. DAN FOSHEE: If I may. I feel like I'm on karaoke.

Dan Foshee, Board Member.

And we will develop and -- and publish our personnel policies. We -- the work of the policy committee will be done by the Parent

	50
1	Advisory Council, and we'll have five teachers
2	and a school administrator as members. And we
3	would like to request waivers of 6-17-205,
4	6-17-2303, and rescind the request of 6-17-201,
5	et al.
6	MS. HYATT: Okay. Can you just say that
7	last part again so I have it for my notes.
8	CHAIRMAN PFEFFER: Yeah. And in the
9	microphone a little more, please.
10	MR. DAN FOSHEE: I'm sorry. I may spit a
11	lot.
12	We would like to rescind the request of
13	6-17-201, et sequitur, and 6-17-2303, et
14	sequitur.
15	The Academy would like to request waivers
16	of 6-17-205 and 6-17-2303.
17	We will develop and publish our personnel
18	policies on on the website.
19	MS. HYATT: Okay. And I think you will
20	need a waiver of 6-17-209 to effectuate the
21	waiver of 6-17-205.
22	MR. DAN FOSHEE: We would like to request
23	that waiver as well.
24	MS. HYATT: Great. That resolves any
25	remaining issues there.

Just the last few. No. 10 is guidance
counselors, and it is first they will need a
waiver of Arkansas Code Annotated
§ 6-18-1001(a)(2) in order to effectuate their
waiver, and they will need waivers under the
new standards of 4-E.1 and 4-E.2 rather than
the old standards.
DR. JESSICA THOMPSON: Okay. I confirm
that we need those waivers.
MS. HYATT: Okay. I'm going to skip
No. 11 and come back to it at the end.
Number 12, start and end dates. Based on
the legal review, the the request was
rescinded, but I don't believe you're starting
your new calendar until the second year of
operation, so I think you need a two-year
waiver of 6-10-106.
DR. JESSICA THOMPSON: Okay. I confirm
that we need that waiver.
MS. HYATT: Okay. Number 11 is school
nurse. These are health and safety rules and
laws. Charter rules and charter laws prohibit
the waiver of health and safety rules and laws.

25

Arkansas Code Annotated § 6-23-401 prohibits

those waivers. So I believe that these waivers

1	are i	n	r	0	h	i	b	i	t	eċ	ł.
_	are	$\sim$	-	$\sim$	-	_	~	_	_	~	

DR. JESSICA THOMPSON: Okay. We rescind that waiver.

We're going to contract the nurse, actually, out.

MS. HYATT: Okay. Those are all the remaining legal issues. So I think we're good to go as far as legal is concerned.

CHAIRMAN PFEFFER: Okay. So at this time,
I know those were -- there were a lot of
waivers there to think through and digest
through, but it does help also going back and
looking at the document that Ms. Coffman
provided.

So if -- right now if you have questions on any of these waivers or something, you want to make sure that you clearly understand what has or has not been waived, I'll ask the Panel to address those at this time, and then we'll move on to then any remaining questions from the Panel.

So we'll start, Mr. Wilson, do you have anything with the waivers?

MR. WILSON: I don't. Thank you.

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

1 CHAIRMAN PFEFFER: Okay. Dr. Hernandez? 2 DR. HERNANDEZ: I do have a question. 3 So on employee contracts, that it referenced that grievance procedures will be 4 5 outlined in the personnel policy manual, and so I don't know that I'm fully clear on the 6 7 personnel policy waivers exactly what you guys are planning to do, whether to have one or not. 8 I know I heard them say about posting it 9 on the website and then also there is a 10 reference to ADE policy. And we don't have a 11 12 policy and procedure manual as a template, and 13 so I was wanting to get clarification of where the policies that you would be looking for 14 15 would come from, and -- and that can get kind 16 of messy if you're not careful with that. 17 just kind of want to hear about the -- the plans to -- if there is going to be a policy 18 manual and the plans to how to get there. 19 DR. JESSICA THOMPSON: 20 Okay. For the policy manual for the teachers, is that what 21 22 you're -- and the personnel? 23 DR. HERNANDEZ: Uh-huh. 24 DR. JESSICA THOMPSON: I'm a big advocate 25 of sharing information, so I -- I'm sure that

1	we would look at other districts and their
2	personnel manuals, and do what create a
3	document based on what they have done, and
4	then, of course, follow the standards or what's
5	required; so
6	MS. HYATT: And if I may, I think that on
7	No. 3, the employee contracts, what they are
8	waiving is Teacher Fair Dismissal and
9	Classified Employee Dismissal; and then in the
10	personnel policy section, they are they are
11	not waiving having the personnel policies and
12	having them posted and giving them to the
13	teachers and the employees, so just the
14	fair the fair hearing parts.
15	CHAIRMAN PFEFFER: Did that address
16	DR. HERNANDEZ: Yes.
17	CHAIRMAN PFEFFER: Okay. Dr. Owoh, any
18	waiver questions?
19	DR. OWOH: No.
20	CHAIRMAN PFEFFER: No?
21	Dr. Williams?
22	DR. WILLIAMS: Yeah. Mine is maybe a
23	little bigger question.
24	Is this pretty much we went through a
25	lot of waivers. Is this going to kind of be

until we make this transition kind of the standard operating procedure to have this many waivers?

On -- on one hand I'm thinking if -- if we are -- as I listen to you-all going through the waiver process, the thing that comes to my mind is are you ready? I mean, have -- has this been discussed, has it been worked out? You know, I mean, -- what is the status of the application if we haven't resolved these waiver issues?

Now, if it's part of the fact that the waivers have changed, the accreditation standards have changed through the application process, I -- I understand that. But if it's a question of all of these waivers and it's not related to that, then I wonder are we ready, is this application ready, and I defer to ADE staff to address that.

MS. HYATT: So just in terms of the standards, part of the reason why we had to go through so many of these is due to the change in the standards and making sure that every -- we had the correct standards and not under the repealed standards.

	56
1	DR. WILLIAMS: Uh-huh.
2	MS. HYATT: And so I think that is unique
3	to this application cycle, because next time
4	those will be the standards that are in place
5	during the application cycle.
6	DR. WILLIAMS: Yes.
7	MS. HYATT: So I think we will experience
8	that through all of the charters this
9	application cycle but not necessarily in the
10	future.
11	Any of the additional ones that were about
12	law or being unclear, those are separate from
13	the standards transition and so those will vary
14	by by charter.
15	DR. WILLIAMS: Uh-huh. All right. Thank
16	you.
17	CHAIRMAN PFEFFER: Okay. Dr. Kremers, do
18	you have any questions at this time?
19	DR. KREMERS: Do not.
20	CHAIRMAN PFEFFER: Okay. I do have one
21	waiver related question or two, actually.
22	On the guidance counselor, so it's my
23	understanding that you are you waiving
24	hiring a guidance counselor
25	DR. JESSICA THOMPSON: No.

	<b>3</b> ,
1	CHAIRMAN PFEFFER: or just hiring one
2	with a license? You're just waiving the
3	licensing portion of that?
4	DR. JESSICA THOMPSON: I'm pretty sure
5	that the waiver and I'm new to all of the
6	the waivers and things like that I'm more of
7	a vision of the school person. But I'm pretty
8	sure we were interested in hiring people
9	that not necessarily a school counselor but
10	a counselor, someone with a degree in
11	counseling that we can
12	CHAIRMAN PFEFFER: Okay. And then the
13	other question then is you did rescind the
14	waiver for the school nurse and said you would
15	be contracting that out?
16	DR. JESSICA THOMPSON: Yes.
17	CHAIRMAN PFEFFER: Is that included in
18	your budget?
19	DR. JESSICA THOMPSON: Yes, it is.
20	CHAIRMAN PFEFFER: Okay. I just, when I
21	looked at the health services, you have a
22	physical education teacher there. Am I just
23	missing the the nursing in the budget?
24	DR. JESSICA THOMPSON: I looked at that
25	yesterday evening and I know we have that in

	58
1	here.
2	MR. DAN FOSHEE: In health services.
3	CHAIRMAN PFEFFER: It is in the budget?
4	Okay.
5	DR. JESSICA THOMPSON: It is in the
6	health health services.
7	CHAIRMAN PFEFFER: Okay. Thank you very
8	much.
9	All right. So does that take us through
10	all of the all of those remaining issues or
11	legal legal questions?
12	MS. HYATT: Yes, ma'am.
13	CHAIRMAN PFEFFER: Okay. All right. So
14	hopefully that has addressed, maybe, some of
15	the questions that were there.
16	So at this time, Panel Members, if you
17	have any other questions as you look through
18	the application that you would like to address,
19	we'll go through. I'll start again with
20	Mr. Wilson to see if he has any questions.
21	MR. WILSON: Thank you, Madam Chairman.
22	I noticed in your application there was a
23	public hearing in April, and maybe one or more
24	then, five families attended you said.
25	Give me some idea of the demand, the

	59
1	public demand, the parent parental demand
2	for a charter school in that area.
3	DR. JESSICA THOMPSON: Okay. Well, in our
4	county there is 50,000 students and we have 810
5	seats there, so there is a need in other
6	schools in the area. So in other charter
7	is it the other charter schools, Dan, or is it
8	the other
9	MR. DAN FOSHEE: I think so.
10	DR. JESSICA THOMPSON: Yeah.
11	So 50,000 students, 810, there is a
12	waiting list in the other charter schools in
13	this in our county, so we feel like there is
14	a need. And the other charters don't start
15	music as early as our school will.
16	MR. WILSON: You won't have a waiting
17	your Focus does not have a waiting list at
18	this point. Do you?
19	DR. JESSICA THOMPSON: We haven't actually
20	publicized, we wanted to get approved first and
21	then start, since we won't start until the
22	following year. So we were going to start
23	advertising and getting community interest in
24	it.
25	MR. WILSON: Okay. Thank you.

DR. JESSICA THOMPSON: Uh-huh.

CHAIRMAN PFEFFER: Okay. Dr. Hernandez, do you have questions?

DR. HERNANDEZ: Can I ask them all or rotate around?

CHAIRMAN PFEFFER: You can ask two and then we'll move on and come back, how is that? When you say all, okay, so your top two at this time.

DR. HERNANDEZ: Okay. So the first one is, if we go to the section that were required information, or I don't know what the title exactly was, additional documentation, there is a copy of a lease agreement in there. And so my question, the you showed at the 5121 Runway, you know, it reflects that this lease agreement was signed in April of last year, 2017, and the way it's written it says that this is approved, basically, that if it's ready to go by August of '18. And so being that this would -- would be -- could be potentially approved by the Charter Authorizing Panel today and then wouldn't be approved by the State Board potentially until September, and you wouldn't be in until 2019, so what I'm asking is, is

this lease the most current up-to-date lease, and will it be valid by the time that you actually would take possession of the property? Because the way it reads it's not. Maybe there should be an updated lease agreement, so that's the question.

DR. JESSICA THOMPSON: I'm fairly sure that there is an updated lease agreement. And the -- the owner of the building is a very big supporter of our charter and he's excited about it, and he's actually offering us, like, some gift money towards the lease, so he's very excited about the project and he's still on board.

And I'm not sure -- do you know about the updated lease?

MR. DAN FOSHEE: The lease would still be in effect. It -- it was not -- I understand your timing point, but that would be in effect. He is still committed to the project and with -- with all the structures.

DR. HERNANDEZ: That's just maybe something to double-check on to get a written one. I just wouldn't want to move down the road and then you guys all of a sudden get

ready for school and, hey, we've seen that happen, you know, on a building, so that might be something you want to check on.

The second question, on the goals you had listed as one of your goals having 20 volunteers. So does that mean, are you talking about 20 volunteers a month, a year? What does -- what does that mean, when it says that your goal is to have 20 volunteers that sign in?

MR. DAN FOSHEE: Are you talking about the business partnerships?

DR. HERNANDEZ: Just kind of the way it's written in the application and then what was in the presentation, that one of your goals was to have 20 volunteers, and that's why I'm -- I'm not sure so that's why I'm asking.

MR. DAN FOSHEE: Right. The -- the 20 would be various partnerships would -- be it individuals, parents, business individuals --I'm sorry. The mic. Thank you.

It would be various business individuals, it would be parents, it would be just a variety, but it would be 20 people and it would be -- I think we would start with that per

1	year, but, you know, as it allows and as it
2	grows we would certainly be more responsive.
3	DR. HERNANDEZ: Okay. So it's more about
4	business partnerships but it so it's not
5	MR. DAN FOSHEE: Not necessarily.
6	DR. HERNANDEZ: It's not parents coming
7	in, signing in and working with the kids, or it
8	is?
9	MR. DAN FOSHEE: It could be. We're
10	trying to be very flexible on that.
11	What we really want to do is not only
12	engender a sense of student leadership and
13	servant leadership, is we want them to have as
14	diverse a mix of experiences. So parents, as
15	they go through their careers and their lives,
16	they will have something to give as well as
17	business and local nonprofit leaders. We
18	want we want to make sure that they have
19	just a broad spectrum of things to draw from.
20	DR. HERNANDEZ: Okay. Thank you.
21	MR. DAN FOSHEE: Uh-huh.
22	CHAIRMAN PFEFFER: Dr. Owoh, questions?
23	DR. OWOH: How
24	CHAIRMAN PFEFFER: Two. Limit to two and
25	then we'll move

DR. OWOH: I was just going to say, I will ask my top two.

One, as we look at your educator staff, how would you ensure for the -- that Arkansas Qualified Teacher, those requirements are met before hiring your teaching staff? What would be your process?

DR. JESSICA THOMPSON: Do you want to talk about that or do you want me to?

MR. DAN FOSHEE: Go ahead.

DR. JESSICA THOMPSON: Okay. We would definitely look at their resumé and make sure we have copies of the teaching certificates and definitely call references to find out, you know, how the teacher was at other schools, look at their education. We want highly qualified teachers at our school. And but everything like that is on a piece -- I mean we're going to definitely follow that, but checking those references and finding out what other people have said about the teacher I think is huge.

DR. OWOH: Because I -- I just want to make sure that we're clear that AQT, those requirements need to be met before the teacher

	65
1	actually enters the classroom or is hired;
2	so
3	DR. JESSICA THOMPSON: Definitely, yes.
4	DR. OWOH: Okay. And my follow-up
5	question for now is how would you ensure
6	what's your process of ensuring that all
7	background checks for the required staff
8	members are completed before they enter the
9	school setting as well?
10	DR. JESSICA THOMPSON: That would go
11	through our HA HR person, and no paychecks
12	until the basically, until the background
13	check has come in. So, yeah, effectively you
14	won't sign your contract until everything has
15	come through.
16	DR. OWOH: So are you saying before the
17	payroll check or before the first day of
18	school? What was it?
19	DR. JESSICA THOMPSON: Before before
20	the first day of school. Definitely before the
21	first day of school.
22	DR. OWOH: Okay. Thank you.
23	CHAIRMAN PFEFFER: Dr. Williams?
24	DR. WILLIAMS: Yes. They have addressed a
25	couple of my questions. One was around how are

1 you going to go about the recruiting students? I live in Washington County, work in 2 3 Benton County, I've worked in Benton County for 22 years so I'm very familiar with the -- with 4 the landscape, and I know enrollment is kind of 5 flattening down a little bit. So how do you go 6 7 about -- I think we're beyond if you build it they will come. 8 DR. JESSICA THOMPSON: 9 Right. 10 DR. WILLIAMS: So what do you-all plan to do from a recruitment standpoint for students? 11 12 And your numbers, you're looking at a lot 13 of students over the years when you're looking at -- Cabot had about 900 students, so do you 14 15 have any recruitment planned? 16 DR. JESSICA THOMPSON: I would say 17 definitely use social media, the newspapers, have some events. 18 DR. WILLIAMS: Uh-huh. 19 DR. JESSICA THOMPSON: You know, host some 20 free -- or, you know, events, information, get 21 22 them there, get them talking. Are you 23 interested in music, we're going to have so and 24 so come, bring all the children and we're going

to maybe -- you know, I have a friend that's a

musician, invite him to come, invite the community to come, we talk about the school and he plays music.

I mean, I don't know, Dan, do you have some ideas on recruitment?

MR. DAN FOSHEE: And in addition to what she said we were -- there are also several community-based, like first Friday.

DR. WILLIAMS: Uh-huh.

MR. DAN FOSHEE: We would also go to -there are similar events in Rogers and in
Fayetteville, we would go to those and drum up
support, and interact one on one, because we
found that when you have that, I mean even if
they are not directly involved with -- well, my
child is a little old for that, and that's fine
but I bet you know someone, and we will be
engaged on that.

DR. WILLIAMS: So to follow up on that,
I'm still on my one question, the follow-up on
that, where do you intend to draw from? Like
we have some charter schools that come in and
they're saying, we're going to try to hit this
ZIP code, you know, we're going to focus on
maybe addressing low income students and so

forth.

So are you-all looking to draw from both
Benton and Washington County or just Benton
County? Where are you looking to draw students
from?

MR. DAN FOSHEE: It would primarily be
Benton County, but we want to leave it open to
those residents who may be maybe on the
northern part of Washington County or maybe
anywhere because we're going to have
transportation routes set up, so it will be
from both.

DR. WILLIAMS: Okay.

MR. DAN FOSHEE: Fort Smith might be a stretch.

DR. WILLIAMS: Okay. Thank you.

DR. JESSICA THOMPSON: I have something to add to that. For the low income families, we have a neat program where we're going to do --because instruments can be expensive and we included that in part of our budget where they will be able to have instruments provided, so get their hands on the instruments right off the bat.

DR. WILLIAMS: Uh-huh. Okay. Thank you.

CHAIRMAN PFEFFER: Dr. Kremers?

DR. KREMERS: For your service-based learning, is that voluntary or is it mandatory, part one of the question?

And then part two, what, when they are doing the project-based learning, such as the robotics example that you gave, is it explicitly tied to a curriculum, is it a model, example which has been provided? And what is the teacher's involvement in that project-based learning?

DR. JESSICA THOMPSON: When we hire the teachers we will talk to them about the community involvement. And for the students it is going to be required. Now, we will let that be something that they are already involved in through their school or their family or their church, that can count towards those hours, you know, because some students are going to be, like, I don't have anything -- you know, they don't have an option, but we can talk to them about, you know, all of the definitions of community service and what they are already doing and so we can count those. So basically teachers will have to use part of their time, I

mean we're not going to make them every evening do that, but for their class if their students need something then that will be part of their job to go with the students, hey, we're going to do this in the community, we're going to do this with the senior citizens this week, and we want all of you that haven't finished your hours, we want you to attend and I'm going to be there, the teacher will be there also.

DR. KREMERS: And could you answer the question about the link to curriculum? So they are doing projects. So there was STEAM embedded, so I'm kind of -- I'm trying to see where the curriculum link is with STEAM and how the teacher's role come into that project.

DR. JESSICA THOMPSON: Yes. It will definitely be linked to the curriculum. Some projects may be outside of their curriculum if they are very interested in it and it's educational. We don't want to say, no, you can't do that, you can't focus your study or your research on that, we want to let them have some freedom of choice because of the intrinsic learning. You know, if they are excited about it and very interested in it they are going to

want to do it. But most of the projects that we offer, you know, they are going to be linked to the curriculum.

CHAIRMAN PFEFFER: Okay. A couple of things that I had noted that I wanted to ask you about. In your literacy program, you are going to use READYGEN, and it talks about a balanced approach using all language modalities to respond to authentic text. And so I wanted to ask a little bit about why that one was chosen. And I may also want, if we have someone here from the Department of Ed who may can respond to that as far as a curriculum, and is it aligned with the Science of Reading approach.

DR. JESSICA THOMPSON: Dan?

I didn't actually pick the curriculum and so I'm going to let Dan talk about that.

MR. DAN FOSHEE: Our Executive Director could probably speak more in detail to why READYGEN was selected, but my understanding, it is one of the leading more comprehensive honest programs that would be -- that would fit most with what our goals are.

CHAIRMAN PFEFFER: Okay. And so -- so in

thinking about the Science of Reading and Arkansas' R.I.S.E. Initiative, with -- with your grade span that you're going to be looking at, that is going to be a very, very critical component. So can you talk to me a little bit about your knowledge and background around the reading initiative or, you know, specific things you're going to be looking at to ensure that your teachers get the training and the -- and meet the requirements for the legislation that's been passed for the proficiency and the Science of Reading and how is that going to really be a focus for your students.

DR. JESSICA THOMPSON: We will definitely look at -- when we're developing our curriculum and our lesson plans, we will definitely align it with the -- did you say it was the R.I.S.E.? Is that what was --

CHAIRMAN PFEFFER: R.I.S.E. is the State's reading initiative.

DR. JESSICA THOMPSON: Okay.

CHAIRMAN PFEFFER: The Science of Reading is the legislation, the requirement that our teachers will have that, the knowledge and skills to actually instruct students from a

scientific approach to teaching reading.

DR. JESSICA THOMPSON: Okay. I teach at college so I'm past that, but we will definitely do all the training needed for the teachers so that they can, and in lesson planning, if that's a State requirement, we will make sure that the teachers are looking at their lesson plans and aligning them with the requirements.

CHAIRMAN PFEFFER: Okay. But that the curriculum that you-all have chosen, then you don't have anyone here to speak to why that was specifically chosen and whether or not it is a reading curriculum that is aligned with the scientific approach to teaching reading?

MR. DAN FOSHEE: My understanding is that it is, and if it is not, then we will make sure that that is addressed. We do have funds available for professional development and as well as training, so that would be reflected.

CHAIRMAN PFEFFER: Uh-huh. Well, the adoption of your curriculum is going to be crucial in terms of what teachers actually will be teaching, and so that would be -- that would be a big concern. And I'm not -- I would like

24

25

to have a little more information on that before I'm comfortable.

The only other question I have, and someone else had kind of alluded to, was in your goals, you -- you have a specific math and literacy goal and then you have your other goals. But both your academic and organizational goals, you really don't have anything with music. And I would expect that a school that that's going to be a major focus -it doesn't seem that that approach is really, really -- if it's not -- if you don't have those goals and I think I -- I would need to know more about is this really, truly going to be a school where students are getting that music experience or is just music something that you're going to do to enhance the learning program, and it seems just more right now that it's an enhancement rather than a really integral part of your charter, and because I'm not seeing that with explicit goals and really throughout. So that -- I wanted to give you a chance just to maybe speak to that a little more.

DR. JESSICA THOMPSON: Yep, I have that.

1	Okay. In the application, on mine it's
2	Page 11, so it says, year one, all students K-4
3	will participate in instrument discovery. Year
4	two, grades 1-4 will have piano lab, and that
5	is built into the schedule that I posted or
6	that was on the slide show; and then grades
7	two year three they will have piano lab two,
8	grades six will be added to the beginning band.
9	So every single grade every week is it three
10	days a week or
11	MR. DAN FOSHEE: (Nodding head up and
12	down.)
13	DR. JESSICA THOMPSON: from the
14	schedule we will have music instruction.
15	CHAIRMAN PFEFFER: I thought I remembered
16	it being two in the presentation.
17	MR. DAN FOSHEE: It was two, Tuesday and
18	Thursday.
19	DR. JESSICA THOMPSON: It may be, it may
20	have been two. Tuesday and Thursday?
21	Okay. So it is built into the schedule.
22	And it will be a big focus as far as the school
23	goes and that I don't know the recitals,
24	that would be I mean our goals would be
25	definitely to start in, like, by Christmas,

already have some kids on instruments and ready for a Christmas program and things like that, but we can build that into our goals, the music, but it is going to be a big part.

CHAIRMAN PFEFFER: Okay. All right.

Panel, I know some of you may still have some questions and we can go back through and have you ask questions.

One other aspect that I've asked the

Department personnel to provide is people here
that work in the Department that address each
of those six systems that we looked at.

DR. WILLIAMS: Uh-huh.

CHAIRMAN PFEFFER: So we would have someone here from the Department who has reviewed the application who could also answer any questions specific to those six systems.

If you -- if you do not have a burning question for the applicant and you want to get more

Department perspective or if the Department -- if there is a particular system where a

Department personnel has something that they want the Panel to consider, we could let them speak now.

So I'll ask you-all, do you -- do you have

another question that you want to go ahead and pose to the applicant at this time --

MR. WILSON: I don't.

CHAIRMAN PFEFFER: -- or would you be ready to address anything maybe with anything from the Department?

DR. HERNANDEZ: No. I have more for the applicant.

CHAIRMAN PFEFFER: Okay. You've got more for the applicant? Okay. We'll go ahead and finish up with those questions and then we'll move to any input from the Department.

DR. JESSICA THOMPSON: Okay.

DR. HERNANDEZ: So in looking at your budget and how you have the 500 students listed as being year one and then looking at some of the sign-ins and -- of people that have, I guess, coming to the hearings, I guess my question involves around need and how, in reading through the application and questions Dr. Pfeffer asked specifically about not feeling -- not really seeing that music goal, seeing there is some activities around music, but what are you seeing that gives you confidence in -- in that there is a need for

this charter school in this area and that you're going to get that kind of enrollment that you're seeking, that your budgets are built off of?

DR. JESSICA THOMPSON: We would be the only charter school in the area that offered the music for the younger ages. The other schools start it at an older age, so the parents that were interested in music, like, right off the -- you know, right from the beginning in kindergarten.

Also the other schools in the area aren't as focused on community, and in the world we live in I think, you know, everybody is self focused, and just to get that outward, that would be an awesome school to have that as our platform, as we're into -- you know, we're focused on servant leadership and developing students that are outwardly focused instead of inwardly focused.

MR. DAN FOSHEE: If I may?

DR. HERNANDEZ: Go ahead. Yeah.

MR. DAN FOSHEE: I would also like to speak to, for the northwest Arkansas area, we kind of take charters in stride. It's --

it's a more established idea, it's not big of a treck to say, oh, well, I'll go somewhere else, you know. So in terms of our response on the public hearings, I think that just shows that it's -- it's kind of a common thing, it's not a real big deal.

And as far as a specific need, I think that there -- this is one of the biggest growing areas in Arkansas and it's going to continue to do that. And we think that given the unique structures of our curriculum and the unique features, such as the servant leadership, such as the early music, we think that that is enough of a draw.

CHAIRMAN PFEFFER: Dr. Owoh, you had a question for the applicant?

DR. OWOH: Yes, ma'am. Thank you.

In reference to the human capital system, my question is focused on the educators, both the teacher and the administrators. What will be your processes for recruitment, support, development, and retention, seeing or just focusing on the current attrition of educators. And so if you could kind of expound upon what would be your processes to ensure that, one,

you attract -- attract the most effective
educators for our students as well as how would
you support both the educators, the teachers,
and the administrators, and then develop them
and provide the support to retain them?

DR. JESSICA THOMPSON: As far as attracting educators, I think when we start advertising and they see the values and the goals and I -- I feel like some educators would be interested for their own children. You know, if they are big in music or in the developing the STEM and the building robotics and they see a school that's going to be focused on the project-based learning, I mean, they may come over to our school as an educator and bring their children based on the things that we're going to be offering.

As far as retention, I think community among the teachers and making them feel like they are a part of everything and they have a voice and that they are a leader in their community, that's going to be huge. Because I know I have a friend that's an educator and she left her school this year and moved to another one, and the -- the one decision, the one

question she asked me was, do the teachers collaborate and work together? And I was, like, "Yes, they do," she goes, like, "Okay. I'm leaving my school." So that, I think, is huge for educators, for teachers.

I mean they are, like, when I was in a public school when I was a teacher, working together, you're better together; so definitely building community, having events for the educators, professional development for them, things for them to do together and to bond, and that -- I think that's huge. I mean you work together to make the students better and you work together to make each other better. How I feel.

Do you have anything to add to that?

MR. DAN FOSHEE: I think you're doing very well.

CHAIRMAN PFEFFER: Okay. Any other questions for the applicant?

So if not, if -- if we could put the system graphic back up there for just a minute that Ms. Coffman had shared with us early -- earlier. And so these are the six systems that are included in our Standards for

Accreditation. Six systems that operate within a school district.

And just for any remaining questions, if
the Panel -- we'll go through, see if the Panel
has anything that kind of aligns with that or
if there is anything -- I would ask ADE staff
to share anything that maybe we need to
consider or look at.

So I think we can start with the academic system and go back to that question on the literacy program that has been chosen, which is READYGEN Literacy Program. I don't know if our Department staff is familiar with that, but if -- if we could look at that part of the application and have one of our ADE specialists that's in that area, I think we have someone here speak a little bit about the reading curriculum and science -- Science of Reading importance.

MS. SHEPARD: I do not know READYGEN at all.

CHAIRMAN PFEFFER: If you will go ahead and just state your name, please.

MS. SHEPARD: I'm Sandy Shepard and I'm from Learning Services, my job is R.I.S.E.

Arkansas. I don't know the curriculum at all, READYGEN, I glanced at it just a second online.

What we would need to do is do like we do for every other public school is look at our rubric. We have a rubric that's pretty detailed, it's pretty long, and that has all the components of the curriculum and deciding what they have is going to match the Science of Reading. So we have a multiple-page document, we can have question and answer, but it would be putting them on the spot to know that pretty deeply.

CHAIRMAN PFEFFER: Okay.

MS. SHEPARD: So how y'all want to handle that, I'm willing to be here and help.

CHAIRMAN PFEFFER: Well, and -- and they had said that they are unsure whether or not it aligns with the Scientific Instruction of Reading and their -- the person who chose the curriculum is not with them today; so --

MS. SHEPARD: Okay. So we can --

CHAIRMAN PFEFFER: -- that was just -that was something important for to me to know
is to whether we know if the -- if that has
been addressed as a part of this application.

1	MS. SHEPARD: That has not been turned in
2	as as an academic review and I have not seen
3	that in action so I can't speak as an expert on
4	it at all.
5	CHAIRMAN PFEFFER: Thank you.
6	DR. JESSICA THOMPSON: Can I say
7	something?
8	CHAIRMAN PFEFFER: Yes.
9	DR. JESSICA THOMPSON: We would be
10	interested in working with you and, you know,
11	getting the correct curriculum. And if that
12	one doesn't meet the standards, then we would
13	definitely be in favor of finding a curriculum
14	that does.
15	CHAIRMAN PFEFFER: Okay. Okay. So with
16	regards to the academic system, is there
17	anyone, any of our ADE personnel that has
18	reviewed the application that would have
19	anything that they would like for the Panel to
20	consider?
21	All right. I know Dr. Owoh has addressed
22	several questions with the human capital
23	system, personnel, supporting and developing
24	teachers, teacher recruitment and retention. I
<u> </u>	

was -- are there any ADE staff members that had

anything to note that was not already addressed?

Okay. Dr. Owoh has one more related to that system, so we'll let him ask that.

DR. OWOH: Yes. If you could please provide some insight on how you would provide or ensure that Code of Ethics Training would be provided.

DR. JESSICA THOMPSON: That would be definitely provided at the beginning of the year during the professional development before school started, along with the Special Ed Department as far as the rules and laws that follow it. So both of those would be presented before school started in a professional development and be part of -- it would probably be part of the teacher handbook, the code of ethics would be in there for the -- are you talking about for the teacher?

DR. OWOH: Well, it's the Code of Ethics for all educators, the State of Arkansas Code of Ethics.

DR. JESSICA THOMPSON: Yeah, it would be in there and we would go over it during professional development.

DR. OWOH: Okay. Thank you.

CHAIRMAN PFEFFER: Okay. The next system in student support, we've asked a few questions already related to the special education, the nursing, counselor. So, Ms. Coffman, do you have anything?

MS. COFFMAN: Yes. Our question is how will the school remove barriers that might prevent a student from having access to all of the learning opportunities?

So today they were mentioning community service opportunities, and so a barrier to that might be travel or there may be some additional expenses for equipment or materials, and so we're interested to know how you are planning to remove all barriers.

MR. DAN FOSHEE: We would make sure, be it through contracting with a -- in the case of, like a physical barrier, we would contact with a -- a builder or the builder itself of the building to make sure that that is removed and addressed.

In the case of when we're going out and about, the -- the project and -- and the off site visit would -- that would be kept in mind.

	87
1	We would make sure that we are going to some
2	place that is accessible for those students.
3	If there aren't, there will be we would make
4	sure that every student is capable of
5	participating in that event, be it on campus or
6	off.
7	CHAIRMAN PFEFFER: Okay.
8	DR. JESSICA THOMPSON: Can I say
9	something?
10	CHAIRMAN PFEFFER: Uh-huh.
11	DR. JESSICA THOMPSON: Also in the
12	activity fund that the principal has to work
13	with, if there were students that couldn't
14	afford a field trip, that moneys would be taken
15	out of that, so that the the student could
16	participate, because we don't want financial
17	problems to hinder a student's participation.
18	MR. DAN FOSHEE: (Inaudible.)
19	DR. JESSICA THOMPSON: Yeah.
20	COURT REPORTER: I didn't hear that.
21	MR. DAN FOSHEE: I'm sorry. We wanted to
22	address the financial barriers as well as
23	physical.
24	CHAIRMAN PFEFFER: Okay. In the
25	stakeholder, communication, family, and

community engagement system, I know we've talked about different things with the service learning and the volunteers. Are there any remaining questions from the Panel in this area or there anything from ADE?

Okay. The next system, very important one, district operations and fiscal governance, and we've looked at some items in the budget. Are there any remaining questions from the Panel as related to the -- the applicant's fiscal operations or anything from ADE that would like to --

Okay. All right. And our last is facilities and transportation. I know you noted in your presentation that you felt most parents would be bringing students to school. Is that based on percentages that you've looked at in the other schools within that geographic area that, you know, or -- or are you -- are you fully anticipating what you might see in terms of students who need transportation? Because that can be -- that can be a barrier, if the -- the perception is to parents that transportation may not be looked at as a very important system. So could you talk a little

bit about that?

DR. JESSICA THOMPSON: Also one of the things that we want to offer is before and after school, so that if a -- if a parent is on their way to work and they need to drop off early or pick up late, that will be available.

In the transportation budget, we have other areas we have a surplus and so we were anticipating if we need it and there is more need for transportation, we will definitely pull from that so that we can cover those costs. Because we're -- we've got -- we've had several estimates on the transportation, we kind of tried to put the middle one in the budget and then know that we have extra if we need to pull for it for the transportation.

CHAIRMAN PFEFFER: Okay. Thank you. That helps.

All right. So that takes us through -through all of our systems and I think we've
done a pretty thorough job of -- of going
through. Panel, do you have any -- any
remaining questions?

Okay. Dr. Boyd or Ms. Hyatt, is there anything else that you can think of?

1	Okay. So, Panel, at this time we can make
2	a decision. If if anyone has a motion, I
3	would entertain it at this time.
4	DR. WILLIAMS: Could we get our options
5	again on this?
6	CHAIRMAN PFEFFER: Yes. I'll let Dr. Boyd
7	go through that.
8	DR. BOYD: Thank you.
9	So you can approve, deny, or you can table
10	to a later meeting if there were additional
11	information that you wanted.
12	If in the case that you do deny, the
13	statute states that we have to provide the
14	applicant with the reasons why you deny. So
15	you just want to be specific if that's the
16	motion.
17	DR. WILLIAMS: Uh-huh. Yes. Okay.
18	Just just to comment on my my part
19	here. As I listen, there is just so many
20	unanswered questions that keep coming back
21	around that they are willing to make this
22	adjustment, make this adjustment and so forth.
23	I don't think they are ready. I'm just going
24	to say it that way. And I'm thinking in terms
25	of tabling it or I'm open to other options from

the Board.

You know the reading program hasn't been vetted completely yet. Getting 500 students in -- in year one, it's going to be a stretch in -- in Benton County.

So there are just some things that
there -- I like the part that there is a
willingness to address whatever the issues are,
that's not the question. The question for me
is are they ready today, based on the
presentation I heard. I think there are some
things that we need to get worked out, just
looking at the reading program alone. I also
share your concern with the -- the music
program. I thought it was an add on, I didn't
think it was totally incorporated into the
curriculum.

So that's where I'm at on this. I -there is just some unanswered things. It
wasn't as tight as it could have been for me;
so --

CHAIRMAN PFEFFER: Okay. Dr. Owoh?

DR. OWOH: I move that we deny the charter school request application.

CHAIRMAN PFEFFER: So I have a motion.

SUSAN B. WHITSON, CCR, INC. (501) 455-1170

	92
1	DR. WILLIAMS: Second.
2	MR. WILSON: Question when you come to it.
3	DR. WILLIAMS: Okay. Second.
4	CHAIRMAN PFEFFER: Okay. So we have a
5	motion and a second. Discussion?
6	MR. WILSON: Well, Madam Chairman, if the
7	motion carries, will the applicant be allowed
8	to come back before this group at a future time
9	and what what I'm sorry, I don't recall
10	the time sequence, but what happens next? What
11	could they do next?
12	DR. BOYD: Okay. Mr. Wilson, there is
13	nothing in statute that prevents an applicant
14	for submitting a future application, but it
15	would start the next application cycle for
16	open-enrollment charter schools starts the
17	first Tuesday of March, so it would be for the
18	next application cycle.
19	CHAIRMAN PFEFFER: So just to clarify, if
20	an applicant is denied today, then they would
21	not be opening the the timing would not
22	allow them to be ready for the next school
23	year? Is that
24	DR. BOYD: That's correct. So it would be
25	the one after. So applicants right now, if

they are approved during this process, will be able to open a school in the fall of '19. If this application was denied and they had to go back through the application process, then that would be delayed a year, and if they were approved in a subsequent application process, they would be able to open in fall of '20 at the earliest.

MR. WILSON: Then what would be the effect of a motion to table the application rather than deny it?

DR. BOYD: Right. Well, in the past we have had an application tabled before where the Panel requested more information and then at the next Panel meeting the applicant was able to submit that additional information and then a decision to approve or deny was made at that following meeting.

CHAIRMAN PFEFFER: Okay. Dr. Hernandez?

DR. HERNANDEZ: So I think that I agree
with everything that -- that Dr. Williams
stated there. And I think where I was kind of
feeling is -- is going back to that need. You
know, I always feel like I've got to be
compelled to do something, and I didn't feel

that, you know -- there doesn't appear to be a lot of interest or a good solid planning of why this charter needs to be opened at this time. And so I don't know if, you know, putting it off a month or two months or whatever would -- would give time to help that, and so -- so that's just kind of, you know, where my -- my thoughts are right now as far as the, you know, this particular application.

CHAIRMAN PFEFFER: Okay. So at this time we do have a motion and a second to deny this application. Let's go ahead and vote on this motion. All those in favor of the motion, say, "Aye."

PANEL MEMBERS: Aye.

CHAIRMAN PFEFFER: Any opposed?

MR. WILSON: No.

CHAIRMAN PFEFFER: Okay. The -- the motion carries, the application is denied. We did have one dissenting vote.

And so at this time I would ask the Panel to record your votes in the -- in the online tool that you were provided and also state your reason, and if the applicant would stay, we will go through and give you some feedback and

some information that may help you.

Okay. I'll go ahead and ask the Panel to verbalize their vote and the reason for their vote, and I'll start with Dr. Hernandez.

DR. HERNANDEZ: Okay. I voted for the motion. I have concerns about the need and support of the charter to be successful, especially without a solid plan around academics and recruitment of students.

CHAIRMAN PFEFFER: Dr. Kremers?

DR. KREMERS: I voted for. I have concerns about the curriculum, the required service learning and the statement to provide the financial support, and I didn't see a line item in the budget specific to that. The ambiguity of how the projects in further evidence of learning linked to curriculum and articulation of a teacher's role, especially when STEAM is related.

CHAIRMAN PFEFFER: Okay. Dr. Owoh?

DR. OWOH: I made the motion to deny because I still have remaining concerns and unanswered -- unanswered questions on the curriculum supports for the students, educational support and development that would

need to be provided, and then several unplanned and unclear sections of the application and preparation process.

CHAIRMAN PFEFFER: Okay. Dr. Williams?

DR. WILLIAMS: I -- I supported the motion. There are unanswered questions, e.g., the reading program, the curriculum that the presenters are willing to address, but I believe more time is needed to address these questions appropriately.

CHAIRMAN PFEFFER: Okay. And, Mr. Wilson?

MR. WILSON: I voted -- excuse me. I voted against the motion. I would prefer to table the application to give the applicant sufficient time to demonstrate -- sufficient time without foreclosing a whole year waiting, but to demonstrate the demand and the need and the interest of the public and parents in that

And I quite agree with Dr. Williams and Dr. Hernandez's evaluations of the local situation there.

CHAIRMAN PFEFFER: Okay. Okay. We hope that you can take this feedback and be able to -- to look over things, and we do appreciate

area.

	97
1	you being here today.
2	So at this time we're going to take a
3	break. Let's break until 10:30, and then at
4	10:30 we'll start our second our review for
5	our second hearing. Thank you.
6	(WHEREUPON, a break was held from
7	10:17 a.m. to 10:32 a.m.)
8	A-3: HEARING OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
9	APPLICATION: PIONEER SCHOOLS, NORTH LITTLE ROCK,
10	ARKANSAS:
11	CHAIRMAN PFEFFER: Okay. At this time we
12	will call our meeting back to order. And the
13	next item on our action agenda is the hearing
14	of Open-Enrollment Public Charter School
15	Application, Pioneer Schools North Little Rock,
16	Arkansas.
17	Ms. Perry, if you will come forward and
18	introduce this.
19	MS. PERRY: Pioneer Schools is a proposed
20	Open-Enrollment Public Charter School to be
21	located within North Little Rock School
22	District. The sponsoring entity is Pioneer
23	Schools. The applicant is requesting to serve
24	students in grades K-12, with a maximum
25	enrollment of 1,000 beginning in the 2020-2021

1	school year. The applicant has notified the
2	affected districts of this proposed public
3	charter school.
4	ADE staff reviewed the application, and
5	concerns were shared with the applicant for
6	response. The application, the ADE evaluation,
7	and the applicant's responses are included for
8	the Charter Authorizing Panel.
9	Speaking today for Pioneer Schools is
10	William Thomas-Felton, Head Education Director.
11	CHAIRMAN PFEFFER: Okay. Ms. Perry,
12	before you leave, you mentioned K-12. And I
13	just, in the application, it the maximum
14	grade level is K-9, so can we just get a
15	clarification?
16	MS. PERRY: It is K-9. I'm sorry.
17	CHAIRMAN PFEFFER: K-9? Okay. I just
18	wanted to get clarification on that.
19	MS. PERRY: Typo.
20	CHAIRMAN PFEFFER: Okay. I understand.
21	Okay. So will all representatives of this
22	application and anyone speaking in opposition
23	please stand and receive the oath.
24	(WHEREUPON, the witnesses were sworn by
25	the Chairman.)

1	CHAIRMAN	PFEFFER:	Okay.	Thank you.

If you will come to the microphone and state your name for the record, you are recognized, and you will have 20 minutes to begin your presentation.

MR. THOMAS-FELTON: My name is William Felton, William Thomas-Felton.

I am the Head of Schools for Pioneer Public Charter.

When -- about 12 years ago I started working on a school project to create a school that was targeted towards Arkansas and the needs of Arkansans and school teachers and the students therein. I've had eight years of experience at Martin Luther King where I started my career, I taught 2nd and 3rd grade and was one of the first EAST facilitators for an elementary school there.

I spent five years, the first five years at eStem, I then spent a year in North Little Rock, followed by three years as a CPA/Principal in Jacksonville, and then I was with Rockbridge for one year and I'm currently at Exalt Southwest.

The -- the mission statement is that

Pioneer is a member of a community ecosystem guided by Master Teachers and student voice that will facilitate experiences outside the four walls to engage students to be passionate, empathetic, and global citizens, hoping to deeply get them to understand and adapt to this world in the future.

A little explanation of that is that in a community ecosystem we are actually looking at a community of individuals, not just teachers, administrators, and students, but also parents and family, businesses, colleges, and local community leaders.

For Master Teachers we are looking at teachers that are trained heavily in what we call a program that will help facilitate learning from apprentice teachers.

For a student voice, we can talk about that. We really feel that it's beneficial for students to give their input into what happens. When they realize their expertise and opinions matter they tend to be more engaged and involved. And then the skills built during the process mirror those that the employees were asking the schools to produce.

Outside the four walls, even though it's a common phrase, we've learned through research that depth of knowledge is very important, and that Webb talks about the highest level requiring sustaining strategic thinking processes over a long period of time to solve a real life problem. With us being heavily engaged in the community, we are looking for those opportunities.

Passion happens when a student enjoys going to school, when they can have their voice

Passion happens when a student enjoys going to school, when they can have their voice heard, they can create projects to show mastery. You know, we do understand this is teacher facilitated. And my experience at Rockbridge Montessori showed that three year old, four year old, and kindergarteners can actually become passionate about learning through their work cycle, a three-hour work cycle where they get to investigate work with teachers and small groups and pretty much tinker and building things, things that they are interested in.

This also requires Maker Space and the use of Genius Hour.

Empathy, we are quite aware that, you

know, empathy is something that is missing in a lot of youth. By teaching and employing empathy in the school we can build positive classroom culture, strengthen the community, and prepare students to be leaders.

A study from the Center of Creative

Leadership says that empathy is positively

related to job performance and that it can be

taught by incorporating reading and culturally

accurate books in the classroom. This also

includes technology empathy.

In 2012-'16 the Department of Education established the International Strategy to Strengthening Education. This is sometimes referred under the larger umbrella of Culturally Appropriate Schools. A Globally Competent Student is one who can investigate the world, weigh perspectives, interact with different audiences and take action.

When we talk about understand and adapt, we're talking about how fast the world moves.

When I was a kid the cellular phone was in the shoe of a bumbling special agent. Now technology is moving so fast. When I was a kid I had no idea that this was coming and today

our students are inundated with newness.

When we look at the five pillars that we base Pioneer on, of course, the first is academic achievement. We want to ensure academics and student achievement is our top priority and we believe the following pillars will only support that.

When we talk about the student well-being initiative, this is based on research that shows that students that are -- have their basic needs and that are engaged into other activities help development them into young leaders and enjoy going to school.

We divide it into four years -- or four sessions, play and fun, mental and physical health, city and arts, and involvement and improvement. In each of these areas we have a first year plan when the school opens in 2020, and then as we grow in future years.

We've already looked at, you know, most schools request no counselor, we are wanting a counselor. We are also looking at cognitive behavioral therapists for the development of students that might be suffering from PTSD and other things that I have noticed in my time

serving the student populations as those.

We are going to be a shared leadership

school. We do believe that those decisions that impact stakeholders the most should have a leg in the game. Over the past several decades a new model of interdependence has arose.

Margaret Wheatley, she talks about the approach in which people organize together to accomplish more. She says, "Behind every organizing impulse is the realization that by joining with others we can accomplish something important we could not accomplish alone." That is why having the community, the parents, the students, local leaders in the process is so important.

The teacher training program, this is something that we are trying -- we have not set forth because we need to work with the ADE and other organizations to ensure that we are in line with protocols and laws. We want to bring in everyone that's involved in this, local colleges, the ADE, and alternative certifying programs to plan how this will look. That is why, one of the reasons we've waited an extra year to start, so that we can do this and not

be rushed. Even if it's it doesn't start until year three or four, as long as we're doing what we feel is correct.

I really feel like my experience as a student teacher did not prepare me for education, and I've worked as a mentor to a lot of first year teachers. And the frustration was there are so many things that a teacher has to go through that they are not properly trained and prepared for those little bitty things that people don't think of.

In this model, the Master Teacher will be working with the apprentice teacher for two years, and they will be working side by side, not just observing but co-teaching, going to professional development together, researching data, talking to parents, managing the classroom.

Career Maker Spaces, I've learned over the years with EAST lab that that constructive approach in areas that are lied to standards and learning where students have certain projects they want to build, to learn, and to understand more and to apply is a great way for students to love learning.

For early education we've looked at the EAST Lab Project Lead The Way, and we don't want to go and say we're not teaching the basics, we do know, these are the things that the local businesses and leaders say that they want from their students, not only to be able to work in collaborative grouping or cooperate, but also to write and read, to be able to problem solve and be innovative.

Tinkering spaces are what we call labs.

In the middle school will look more like these skills both hard and soft. So we're hoping down the line to work with other high schools and then partner with other businesses to create these labs.

We've talked to several construction companies, VCC, Alessi Keyes and Hydra. We've talked to the architectural firm, ARS, Holiday Inn and Marriott, we've talked to all of the local businesses down in the area of North Little Rock, and they would love this idea of kids going to school, learning the skills that business leaders want them to know, and then building minor labs or labs particularly targeting certain skills. For instance, one of

the things Dassault was talking was if we know in two years we're going to need, you know, 30 leatherworkers, it would be great to work with local high schools.

Now, this sounds like a vocational school project, and it kind of is, and we would need to work with the ADE and Dr. Kremers to set up that kind of thing, because we want to instill these skills from kindergarten up.

The other thing is is we want to invite other schools to come in and work with these other businesses and be the kind of agent between them.

Now if we have students that want to go to college, that is great. We want to make sure we have every option available for them, but I have seen, working at a high school, that forcing students to college because you want 100 percent college acceptance rate is not always the best thing for some students, especially when I have people in my family with no college degrees that make three times as much as I do.

To lessen the loss of instruction or regression of learning we're doing the extended

year with family breaks that are targeted around holidays. The daily will be extended and the extended year will go from July until June.

When we talk about curriculum, at Pioneer we not only use curriculum with pedagogy that we can prove with evidence to move student achievement, we have experiences and training with curriculums over years in education. They will be developing and implementing and assessing MAPS based on these curriculums.

We do know that explicit instruction is very powerful because Dr. Hattie has made an analysis that shows that; however, we also know that lining up with the Science of Reading, making sure that we have a strong foundation in phonics, phonetic awareness, vocabulary building, these things are also important and we really want to make sure that these are taught through all teachers through all grades in all subjects having that basic knowledge. This will require heavy training for our teachers, both in reading and out of reading curriculum, but we know that research shows that this is the best way to help students

read.

The other thing is grasping phenomenal science is about real world science and phenomena that happens in the world, and then hands on history incorporates reading and writing. When we talk about vocabulary in science, social studies, and math, we're looking at Marzano's instructional vocabulary instruction for explicit instruction.

Now these are not set in stone, these are things that are researching. We do like some of them but there are other things that we're looking at that has a more phonetic awareness in higher grades and how that looks.

We are going to have a Pre-K-12 career and college planning. This will be a specialist who will work, making sure that we make students aware of these opportunities and pathways. We will be using PLCs.

The four and -- the four and one school week, we'll have four days on our academic schedule and one day of what we call Pioneer Community Driven Enrichment Day. Now teachers will be able to teach classes that they enjoy; so, for instance, if I was a teacher I enjoy

photography, and teaching kids photography you can tie in a lot of standards with that. But again, this is all led with instructional leaders who have a firm foundation in curriculum and instruction.

Now, the community members that we've already talked to are interested in coming in and teaching sessions -- sessions. For instance, we have somebody that would like to come in and teach kids how to eat healthy.

There are other organizations that we've talked to about, you know, having an engagement with science, having an astronomy lesson followed by star gazing, and everything is dedicated to give the sense of agency and opportunity to our learners.

Now we are using Hattie's approaches
that -- that are being shown as the most
effective for student achievement, with
directive exclusive instruction, we are going
to model note taking and model for our
students. We're focusing on meta-cognition and
problem solving, and then we're teaching the
mastery, but we know that reciprocal teaching
is very important for this. Space practice and

then cultural awareness and relevance.

The Pioneer difference, what we're trying to accomplish is to have a set of Master

Teachers that are able to guide and do a training with teachers in the classroom. We want these teachers to leave our program in two years not with only high achievement scores for our students but to go out into Arkansas, to go out into Pulaski County and help other schools and be leaders in their schools to effect change and improve learning. We are using explicit in teaching for most of our subjects when it is proven by evidence to work.

We want to focus on student success, not only academically but also by wellness and health. This is why we wanted to have a nurse on staff, and we wanted to eventually put in a student-based health center.

We're looking at specific career paths for the older grades, and we're going to focus on both soft and the basic skills that workers said they need, and our intention is to only try to serving severe low socioeconomic areas where we will place our schools.

So this is time for questions.

1	CHAIRMAN PFEFFER: Okay. So you do have
2	about six and a half minutes remaining, but if
3	you're finished with your presentation we'll
4	see if there is anyone here to speak in
5	opposition.
6	Okay? Any opposition?
7	Checking.
8	MS. PERRY: No.
9	CHAIRMAN PFEFFER: Okay. No? Not at this
10	time.
11	All right. So we will move on into
12	addressing some of the unresolved issues or
13	remaining questions that might have been part
14	of the application.
15	So, Dr. Boyd and Ms. Hyatt and Mr. Felton,
16	they will need you to stay handy to
17	MR. THOMAS-FELTON: Yes, ma'am.
18	CHAIRMAN PFEFFER: to work through any
19	of those.
20	DR. BOYD: Thank you, Dr. Pfeffer.
21	The applicant has provided a written
22	agreement with the local library, which was a
23	real main concern, so that has been corrected.
24	Thank you.
25	I don't know that we have spoke

1	specifically to the qualifications that the
2	people providing professional development in
3	the areas of gifted and talented and
4	alternative learning will have.
5	MR. THOMAS-FELTON: I strongly believe the
6	best thing for that is people that are
7	certified to do those, and we will reach out to
8	people that have those qualifications to
9	training.
10	Unfortunately, I those are two areas
11	that I myself don't have a lot of experience
12	in; but we have some coworkers that are
13	licensed and a few people in northeast Arkansas
14	that are certified to provide that.
15	CHAIRMAN PFEFFER: Okay.
16	MR. THOMAS-FELTON: But it won't be
17	trained by anybody that can't.
18	CHAIRMAN PFEFFER: Okay. So that those
19	were the unresolved issues that were there when
20	ADE staff had reviewed.
21	DR. BOYD: (Nodding head up and down.)
22	CHAIRMAN PFEFFER: Do you-all have any
23	questions related to those unresolved issues
24	from the summary?
25	Okay. So we'll go ahead and move on into

the legal -- the legal review and --

MS. HYATT: Okay. Kind of piggybacking, the first one, Alternative Learning

Environment. When I went back through this it seems like all of the waiver requests were rescinded, and so I'm unsure if you're planning to meet the requirements or if you do actually need waivers that -- that haven't been asked for?

MR. THOMAS-FELTON: The Board and the members of my planning group felt that it necessary, if we're going to be an open charter to open to all students, therefore if a student comes in that needs an ALE, we will be more than able to accomplish and provide that, so we do not need a waiver for that.

MS. HYATT: Okay. Number 2, Attendance is fine.

No. 3 is the School Board. Similar issues to the previous one. 6-13-601 through 107, 609, 610, 614, and 633 have all been repealed, so waivers of those sections aren't necessary. And I just need them to confirm that they are not needing to seek waivers of those repealed sections.

	115
1	MR. THOMAS-FELTON: That is correct.
2	MS. HYATT: Okay. And the waiver request
3	for 613 and 634 was rescinded, but I believe
4	that it is necessary for you to have if your
5	board is going to be appointed rather than
6	elected; so
7	MR. THOMAS-FELTON: Okay. Then we will
8	put those back in.
9	MS. HYATT: Okay. And I just wanted to
10	touch base on 619, which is the meeting
11	requirements, number of times you have to meet.
12	It does allow for the exception for someone to
13	attend the meeting virtually or by phone now
14	for, I think, maximum three times?
15	MR. THOMAS-FELTON: Uh-huh.
16	MS. HYATT: So I just wanted to clarify
17	that you're still seeking that waiver request?
18	MR. THOMAS-FELTON: So they can miss up
19	to they can do it three times with the
20	waiver?
21	MS. HYATT: By phone or virtual without
22	the waiver but
23	MR. THOMAS-FELTON: Okay. That will be
24	fine.
25	MS. HYATT: but you're still requesting

	116
1	is, so I just want I mean, it's
2	MR. THOMAS-FELTON: No, you can remove
3	that. I can't think of a situation where it
4	will be more than that.
5	MS. HYATT: Okay. And I'm okay with 617
6	and 620, which are on the list, but I have
7	figured those out since then.
8	And the last one on the list is 613 and
9	612, which is the the law that says if
10	you're convicted of a felony it creates a
11	vacancy on the Board. I believe that the only
12	section in need of that is (c), which requires
13	the vacancy to be filled as it says in 611,
14	which they are getting a waiver from, rather
15	than the entire section. So I'll just allow
16	you to
17	MR. THOMAS-FELTON: Well, no, I don't want
18	any criminals serving on the Board so I will be
19	staying with that.
20	MS. HYATT: I didn't think you did.
21	Yeah, can you just confirm that 613 and
22	612(c) is the request?
23	MR. THOMAS-FELTON: Yes, ma'am.
24	MS. HYATT: Okay. Okay. Number 4,
25	Business Managers. All of the requests were

1 rescinded for this too, so I wanted to make sure you're planning on following the rules or, 2 in the alternative, there are suggestions here 3 for things you might need a waiver from. 4 5 MR. THOMAS-FELTON: I can trust you, all business rules will be followed "to a T." 6 7 MS. HYATT: Okay. I'm moving now to No. 12. First thing is they need a waiver 8 9 under the new standards rather than the old, the new standard Section is 2-G.1. And they 10 will also need an additional waiver of the ADA 11 12 rules governing Gifted and Talented Program 13 approval standards, so if you can just confirm whether or not you agree to those waivers? 14 15 MR. THOMAS-FELTON: We do. 16 MS. HYATT: Okay. And I was unsure just 17 on this whether or not you were rescinding 6-42-101, I was unclear. So I just wanted 18 either you to confirm that you did intend to 19 20 rescind it or say, "No, we didn't intend to." MR. THOMAS-FELTON: And which one was 21 22 that? 23 MS. HYATT: So it goes in with the Gifted 24 and Talented. But I think it's just the 25 legislative intent part rather than 109, which

	118
1	is actually the the Gifted and Talented
2	requirements.
3	MR. THOMAS-FELTON: Okay. Yeah.
4	MS. HYATT: Okay. Okay. Moving now to
5	No. 17, the only issue here is just on
6	standards, you'll need waivers under the new
7	standards of 4-F.1 and 4-F.2. Can you confirm?
8	MR. THOMAS-FELTON: Yes, please.
9	MS. HYATT: Okay. And No. 19, same with
10	standards, so for superintendents it was 4-B.2,
11	4-C.1 and 2 for principals, 4-D.1 for teachers,
12	4-E.1 for guidance counselors, and 4-F.1 for
13	library media.
14	MR. THOMAS-FELTON: Okay.
15	MS. HYATT: And then I just wanted to
16	confirm whether or not you needed a waiver of
17	4-B.1, which is the requirement that the
18	district employ a full-time superintendent;
19	employed by the district, not the CMO, and full
20	time.
21	MR. THOMAS-FELTON: Yes.
22	MS. HYATT: You do need a waiver there?
23	MR. THOMAS-FELTON: Well, they will be
24	employed full time by the district; so I guess
25	that's

	119
1	MS. HYATT: So no waiver?
2	MR. THOMAS-FELTON: no waiver, yeah.
3	MS. HYATT: Okay. Okay. On No. 21, I
4	just wanted to confirm that you intended to
5	seek a waiver of 6-17-2301, et seq., rather
6	than just the 2301 itself?
7	MR. THOMAS-FELTON: That's correct.
8	MS. HYATT: Okay. And I just wanted a
9	little clarification on No. 21; 6-17-2203 and
10	2403 are the minimum salary schedules. In the
11	rationale for the waiver, it was so that they
12	can pay more to their employees and their
13	teachers, which wouldn't require a waiver
14	because these are just minimums. So I just
15	wanted to clarify that with you to see if you
16	wanted to just provide a little bit of
17	additional explanation.
18	MR. THOMAS-FELTON: Well, we we want to
19	make sure, like, if we need to hire somebody
20	that, like, for instance, with plumbing, then
21	they and they are not a certified teacher
22	then so we can pay them at a different scale
23	than a certified teacher as well. Right.
24	MS. HYATT: Okay.

MR. THOMAS-FELTON: We just want to be

1 competitive also.

MS. HYATT: Okay. Number 23, it's just standards, the new standards for principals are 4-C.1 and 4-C.2, which covers the accreditation and -- and the other issues with the principals.

MR. THOMAS-FELTON: Yes.

MS. HYATT: Okay. Number 29, Teacher
Licensure, there -- there are several things on
this. So Arkansas Code Annotated § 6-17-201,
et seq., is related to person -- personnel
policies rather than teacher licensure. So I
was unsure if that was intentional, to have it
in this section, or if you intended maybe to
put it somewhere else or --

MR. THOMAS-FELTON: With the changes I guess it needs to go -- but I think we intended so that we wouldn't have to say it in our personnel handbook; right?

MS. HYATT: So it is a requirement that you have the personnel policies.

MR. THOMAS-FELTON: Uh-huh.

MS. HYATT: That they be posted on your website, that they be given teachers, and that they are incorporated into teacher's contract,

	121
1	all that stuff.
2	MR. THOMAS-FELTON: Right. That's why we
3	wanted to waive that.
4	MS. HYATT: Okay. On 6-17-1004 oh,
5	pardon me.
6	On 6-17-320, that is not a law that
7	exists. I believe that it was just maybe a
8	typo to 302
9	MR. THOMAS-FELTON: That's right.
10	MS. HYATT: but I just wanted to
11	confirm that with you. Okay?
12	MR. THOMAS-FELTON: Yes.
13	MS. HYATT: And we have already gone
14	through all of these, the new standard sections
15	4-B.1, 4-C.1, 4-C.2, 4-B.1, but those are just
16	reiterated here.
17	MR. THOMAS-FELTON: Yes, ma'am.
18	MS. HYATT: And I just needed you to
19	confirm that you knew that ADE rules governing
20	Arkansas Qualified Teacher Requirements cannot
21	be waived?
22	MR. THOMAS-FELTON: Yes, ma'am, we
23	understand that.
24	MS. HYATT: Okay. Legal is good.
25	CHAIRMAN PFEFFER: Okay. So Panel

	122
1	members, as we go through the waivers, are
2	there any of these that you had questions
3	relating to that you would like to go ahead and
4	ask about now, either for legal or for the
5	school?
6	MR. WILSON: No.
7	DR. OWOH: I have one.
8	CHAIRMAN PFEFFER: Okay. Dr. Owoh?
9	DR. OWOH: In regards to Arkansas
10	Qualified Teacher requirement, since we've
11	received that clarification, will you go ahead
12	and just expound on how you would ensure that
13	all of the educators who need to meet the AQT
14	or meet the AQT requirements have met those
15	before they start teaching?
16	MR. THOMAS-FELTON: Yes, sir. Of course
17	we'll do the standard background checks, both
18	of them, but also a transcript is going to be
19	required, proof of completion of the program in
20	order to reach that qualification before we
21	hire them.
22	DR. OWOH: Okay.
23	CHAIRMAN PFEFFER: Anyone else have a
24	waiver question?
25	I did have one.

1 MR. THOMAS-FELTON: Yes, ma'am. CHAIRMAN PFEFFER: Your waiver from the 2 3 grading scale, the Uniform Grading Scale, can you tell us a little bit about what the plan is 4 5 there if you get a waiver from that? MR. THOMAS-FELTON: Well, yes, ma'am. 6 7 This might be a legal advice. Because what we're looking at is the -- it would be the same 8 9 scale, but I think what we're looking at is, 10 like, A would be exemplary work, that went way up; B is that they can master the standard. 11 12 Anything under that is what we call redo with 13 support; so they would -- C, D, F, we will make sure that they get the support before they 14 15 reach the standard for the grade they get and 16 they will have the entire quarter to make up 17 that grade with support. 18 CHAIRMAN PFEFFER: Okay. And the main reason I asked was thinking about grade nine --19 20 MR. THOMAS-FELTON: Yeah, that one will --21 CHAIRMAN PFEFFER: -- where we get into --22 MR. THOMAS-FELTON: -- accreditation --23 CHAIRMAN PFEFFER: -- student 24 accreditation and things like that if a student

after grade nine leaves, what would that mean

124 1 for that -- okay, so --MR. THOMAS-FELTON: It will be the A, B --2 CHAIRMAN PFEFFER: So it's more about how 3 you're going to intervene with students in --4 5 based on the letter grades that they have? MR. THOMAS-FELTON: Yes, ma'am. 6 7 ma'am. 8 CHAIRMAN PFEFFER: Okay. That answers my 9 question then. MS. HYATT: And I have one more thing. 10 11 And I'm going to look into this, so if I could, 12 we could come back to this after you have your 13 questions. But this was not a waiver request, but 14 15 Alexandra just pointed out it might need to be for the way they are planning on doing physical 16 17 education, so a waiver may be necessary to 18 accomplish that. And so I'm going to look quickly while you ask questions, and then if 19 you wouldn't mind allowing me to come back and 20 21 just make sure they have everything they need? Thanks. 22 23 CHAIRMAN PFEFFER: Okay. Thank you. 24 And so I will turn it over now to the

Panel for questions that you may have

1 formulated while you reviewed the application. Mr. Wilson, do you have any questions? 2 MR. WILSON: Yeah. 3 Mr. Felton, tell me about your public 4 5 hearing, your town hall that y'all conducted in April. Looks like you had a number of people 6 7 in person there, and then you had a number of inquiries through the social media. Tell me 8 9 how that works. MR. THOMAS-FELTON: So we did a live cast 10 11 through Facebook and other media while we were 12 doing presentation. A lot of people tagged in, 13 asked questions, showed support, made a lot of follow-up emails. We made sure that everybody 14 15 would have a chance for whatever they need. We 16 had some follow-up town halls later down the 17 line where more people showed up as the word 18 got out. We've also met with the Argenta Business District to help get the word out to 19 20 get people talking about this. 21 MR. WILSON: I didn't see in the 22

application the reference to more than one town hall meeting, which is okay --

MR. THOMAS-FELTON: Right. We just put that first one in there.

23

24

1 MR. WILSON: But I'm trying to get a sense of public interest, public demand, parental 2 inquiries. Tell me -- tell me more about that. 3 MR. THOMAS-FELTON: Well, we've -- we're 4 looking at a place, several locations that are 5 close to the Boone Park Elementary School on 6 7 7th Street. We've had a lot of parents come to those meetings saying that, you know, if we're 8 going to build in this area, they would like to 9 have access to a school like this. 10 We -- it was really not planned town 11 halls, these were churches and families that 12 13 said, hey, we want our parents to meet you, could you please come on this day and talk with 14 15 people. We had one at the library there, there 16 was one at the Historical Society in North 17 Little Rock. And so they -- they were kind of last minute and they have kind of happened 18 after the application was sent in. Does that 19 make sense? 20 21 MR. WILSON: Sort of. MR. THOMAS-FELTON: I should have added 22 23 them when I sent in the new material. 24 MR. WILSON: This is a self-serving 25 question, but give me some assessment, your --

your assessment of how strong or interested -
how strong the demand is in that local area

for --

CHAIRMAN PFEFFER: Mr. Wilson, I can't hear you.

MR. WILSON: Yeah. Give me a sense of how strong the local demand is in that area for --

MR. THOMAS-FELTON: Well, the

Argenta business --

25

MR. WILSON: -- for the --

MR. THOMAS-FELTON: I'm sorry the Argenta Council -- I'm sorry. You know, they are building new housing in that area. They actually had a request for people that wanted to move -- one of the questions they are getting a lot of is is there a school located nearby, a quality school. When they go and look at the schools that are there, they are not quite interested in moving in. So there is a -- there is a demand as they build these new areas and they are filling up already. With the new local businesses and the restructuring of Argenta, there is demand. I know for a fact, and I don't like to estimate, but most of the families that we have talked to have come

	120
1	from 7th Street, and that's probably about 30
2	or 40 families.
3	MR. WILSON: Okay. Thank you.
4	CHAIRMAN PFEFFER: Dr. Hernandez?
5	DR. HERNANDEZ: Still limited to two?
6	CHAIRMAN PFEFFER: Let's let's start
7	with two.
8	DR. HERNANDEZ: Okay. So the first one,
9	going back to the the cap question, on
10	the I know we said there was a typo on
11	there, that it was K-9. But I was curious
12	about the overall enrollment cap was set at
13	1,000, and typically and this may be a
14	Ms. Boyd Dr. Boyd question is that we
15	always kind of like see what that trend looks
16	like going up to 1,000, and so I'm just
17	MR. THOMAS-FELTON: Okay.
18	DR. HERNANDEZ: I'm just curious about,
19	you know, it's what we're seeing is it stops
20	K-9 at 525, but there is still that does the
21	cap need to be set at 525 or does it need to be
22	a thousand?
23	MR. THOMAS-FELTON: I'm sorry. I messed
24	up. Dr. Boyd just pointed out, the we
25	the ninth grade is at year five, we will

eventually go to seniors, which up to the 12th grade, so it will be a thousand. So when you asked K-9, I was confused, it's K-12, so that will be a thousand. No, I'm thinking --

DR. BOYD: No, you're right. I just want to -- I just want to restate and clarify.

So charter applications are initially only issued for five years, so the table accounts for the first five years, and that accounts for K-9. The application's intention is to be for a full K-12 eventually, and eventually to reach a thousand students for the cap, should they be approved and renewed.

DR. HERNANDEZ: So I guess my question is if we're approving this charter based on a K-12 configuration and a thousand cap, are they held to the stair step increase that they have outlined, or are we opening them up to say they can be a K-12 tomorrow with the thousand students?

DR. BOYD: So they will be held to the stair step plan, unless they come back and ask for an amendment.

So in the previous years we've had schools that have been approved and then they had a lot

more interest than they originally thought they were going to have, and they have had to come back and request to go ahead and roll up sooner or add more numbers within the cap that they were granted. Does that make sense?

DR. HERNANDEZ: It does. So would it be appropriate to adopt it or approve it that way or would it be more appropriate to approve it where the five year is going to be?

DR. BOYD: So in the past the way we've approved it is we've approved it for the full plan; so like in this case it would be K-12 and a thousand, with the caveats that in year one they will be planning and have no students, in year two they will have K-6, and only 350 students or less.

DR. HERNANDEZ: Okay. All right. And my second question is around in the -- in that first year being a planning year, but when I look at the budget, the budget reflects revenue and expenditures in '19-'20 and then '20-'21.

And so my question is, is obviously not having any students, there won't be revenue coming in in the planning year, and so how does that -- how did the --

	131
1	MR. THOMAS-FELTON: That's right.
2	DR. HERNANDEZ: The way it's maybe it's
3	just our budget template that maybe you have to
4	put in two years?
5	MR. THOMAS-FELTON: Yeah, that that's
6	the way it was, we had to put something in
7	there. We thought, okay, what if we get a
8	grant, a start-up grant, then that's what that
9	will be based on. If that doesn't happen, we
10	have no problem working for free, so I mean,
11	and the budget will be built on the building
12	itself and the curriculum materials moving
13	forward.
14	DR. HERNANDEZ: So planning year would be
15	based on any grants that would be received and
16	staffing would be according to whatever funding
17	was available
18	MR. THOMAS-FELTON: Yes, sir.
19	DR. HERNANDEZ: and then because
20	what shows in our books as 19-'20 would
21	actually be '20-'21 in the third year?
22	THE WITNESS: Yes, sir.
23	DR. HERNANDEZ: Thank you.
24	MR. THOMAS-FELTON: And I didn't know how
25	to explain that when we went the extra year.

CHAIRMAN PFEFFER: Dr. Owoh?

DR. OWOH: Couple of questions about your training, educator training. Will you provide some additional information on what your Master Teacher training would look like and the purpose, kind of expound on the purpose of that? I know you kind of mentioned to assist other teachers both inside the school system and additional districts, but if you could expound upon that as well as the cultural awareness training that you mentioned, the purpose of that and what that would look like.

And then you also mentioned PLCs, if you could share what that would look like within your school system as well.

MR. THOMAS-FELTON: Yes, sir. So let's start with your first question about Master Teachers. For Master Teachers they will have to be certified and have some experience within the classrooms.

All professional development will be, you know, just like normal schools with the 30.

The Master Teachers will be trained more in how to mentor and coach on one end but also make sure they understand the curriculum and

instruction that we use on a daily. So they would be trained and explicit instruction, direct instruction, you know, bringing in experts from those programs to help in that area. And then making sure that they are, almost want to say overly trained --

DR. OWOH: Uh-huh.

MR. THOMAS-FELTON: -- in order to assist for the apprentice teacher. Now, the apprentice teacher will also be trained over a two-year term on those same things, but they will also be working side by side with the teacher.

So in my experience I went in and I spent six weeks -- and I know it's changed since then, I spent six weeks in one grade and six weeks in the next, and I only really taught maybe three days, and but they are going to be teaching, co-teaching every day. Now, I know that's changed over the years and by no means am I downing anything.

But this would be side by side. And I've seen that work when I was at the Montessori school, and now at Exalt we use the co-teaching model, and it with the younger teacher with

1

2

less experience and the accredited teacher that has training and the most experience in those

items. 3 For the cultural awareness, this one is 4 5 really like -- there is not a -- we really want to make sure that we're using responsive and 6 7 restorative justice in our school for discipline. I've been trained in that. 8 did -- we did restorative at the CPA in 9 10 Jacksonville in high school; I used it at Rockbridge; and we're using it now at Exalt. 11 12 It's a very good system, it helps teachers understand. And there is a lot of front 13 14 loading you have to do with teachers about, you 15 know, why kids behave a certain way. What does 16 PTSD look like for students living in a stressful environment. You know, what -- how 17 does poverty affect learning, you know, 18 teaching with the brain in mind or teaching 19 20 with poverty in mind, those kind of situations. And we are looking at those more being, you 21 22 know, half experts coming in and talking with 23 teachers, another half book study. Most of the 24 stuff that I've learned over the years is 25 experience.

Martin Luther King was in a district school, Jacksonville was mostly poverty, and then of course Rockbridge and Exalt are 100 percent. And once I learned more about how things work -- now, Exalt, on the other hand, you know, is Hispanic, over 70 percent Hispanic, so that's another learning curve that we need to make sure that we have our teachers with ESOL training and then also make sure that they are -- you know, have special education training in order to provide modifications and anything of that nature that need to make sure the student is successful.

And, I'm sorry, your third one?
DR. OWOH: PLCs.

MR. THOMAS-FELTON: So I've worked with PLCs -- the second question it was, that was your second question.

I've worked with PLCs in those three campuses too. The way it's set up, there are several different versions. In high school, of course, we went by curriculum. They will look at data that the students were scoring on biweekly assessments or weekly assessments, and then kind of adjust what they think the focus

1 needs to be for the next year or how we need to move forward. 3 In the lower grades we looked at exit tickets, weekly assessments in math, and also 4 5 took a look and said what are they getting, what are they getting, and we set up our small 6 7 group RTI based on that information and where they needed to go. 8 9 So the PLCs for me is not only just about 10 making decisions in the school but it's also 11 making sure that we're giving students 12 everything they need and having the teachers 13 looking at student work and student data in order to make those decisions. Again that will 14 15 have to be trained and modeled -- and modeled. I've been very successful in that. 16 17 DR. OWOH: Okay. Thank you. 18 CHAIRMAN PFEFFER: Dr. Williams? 19 DR. WILLIAMS: What's PLC? 20 DR. OWOH: Professional Learning 21 Communities. 22 Oh, okay. DR. WILLIAMS: 23 CHAIRMAN PFEFFER: In the microphone. 24 MR. THOMAS-FELTON: It's Professional 25 Learning Communities.

DR. WILLIAMS: Thank you.

I just, you know, I got the -- talk -- I had a mind melt there for a minute there.

I have a couple of questions for you. You know, the Master Teacher model and the Montessori model are expensive models.

MR. THOMAS-FELTON: They will be, yes.

DR. WILLIAMS: And so kind of going back in the past a little bit. So how are you going to make sure that this is going to work out?

You know, and you don't receive funding for the Pre-K piece, so how do you plan on making that work?

MR. THOMAS-FELTON: I totally understand,
I mean, of course we can't use federal funds
for three-year or four-year programs.

DR. WILLIAMS: Absolutely, uh-huh.

MR. THOMAS-FELTON: And the idea is, of course, you know, grants or anything we can do or have to to try to charge parents the minimal amount and then, hopefully -- I mean that's why we've given ourselves so much time to get this going. You know, I know it sounds like a pie in the sky, but I really truly believe that it can happen.

1 The master teacher is going to be about slow starts so we definitely have to work with 2 the ADE and the certification programs to make 3 sure that, you know, whatever we're deciding to 4 5 do fits what the State Department says. even local colleges, you know, we've kind of 6 7 had passing conversations, not real in-depth conversations, about what that would look like 8 for a college and how that would work. They're 9 10 kind of interested in the idea of paying the apprentice teacher or the student teacher to go 11 12 to school. I've met with Arkansas Teacher Core 13 and I'm going to have a discussion with the ethics -- Arkansas Ethics, about the same thing 14 15 of getting teachers in there to work with 16 Master Teachers. I think it's doable if you 17 don't put all of your eggs in one basket and try to make the first year everything. 18 Does that make sense? So you're going to 19 20 have to build up that. 21 DR. WILLIAMS: Yeah. So you're looking at 22 the Master Teachers are only working with 23 pre-service teachers, basically, or student 24 teachers and not --

Student teachers or

MR. THOMAS-FELTON:

alternative certification programs, things like that.

DR. WILLIAMS: Okay. And not, like, first or second year teachers?

MR. THOMAS-FELTON: We -- you know, that's -- we never thought about that. That's a -- it probably would -- that would be a good idea, actually. You know, we could partner with the local school districts. I really want this charter to partner with Little Rock and North Little Rock and be open to that. know, that's why we've put in, you know, at least one day of our professional development is offered to the public school if they want to attend and if they want to see it. So that actually is good, I think, we could work it out with a district that, hey, you have a first-year teacher, you want to work with one of our Master Teachers, I have no problem working with the school districts on that.

DR. WILLIAMS: You know, all of this, it sounds like you've really got a lot of great experience, first I looked at the supplementary material that was provided. And, you know,

my -- I'll just tell you my -- my own

1 concern -- well, my concern right now is that between the Montessori piece and the Master 2 Teacher piece and the student achievement 3 piece, you -- there is a lot going on here. 4 5 MR. THOMAS-FELTON: (Nodding head up and down.) 6 7 DR. WILLIAMS: And then when I try to apply a financial model to all of that I'm --8 9 I'm still coming up with some --10 MR. THOMAS-FELTON: So I think I know 11 where you --12 DR. WILLIAMS: Even though it looks good 13 on paper now, reality is --MR. THOMAS-FELTON: So Montessori, what 14 15 we're talking about is that two and a half hour 16 work cycle. 17 DR. WILLIAMS: Okay. 18 MR. THOMAS-FELTON: So in the Montessori, we don't have to have Montessori equipment in 19 20 order to make that happen, so there is not really any plan to buy all of that equipment 21 22 and shelving and furniture. As you know and I 23 know, that was expensive. However, the 24 training of getting students to build stamina 25 and perseverance, working on a project over an

extended period of time, that doesn't really cost anything.

Now, the Master Teacher program, these teachers -- we've talked to a lot of teachers. I've worked with a lot of teachers, really great teachers. And for them and for me when I was a teacher, I know it sounds some -- but it really wasn't about the money, when I got to thinking about it. It was about having someone listen to me, being able to develop myself as a better teacher or a better leader, to grow. And then, basically, in order to, you know, build my efficacy for other -- that what I was doing was actually effective for students.

So we've had a lot of teachers that want to do this, that want to apply if we open. And they have even talked about, look, I know I make this much at the school district, but I would work there for whatever you offered to have that opportunity, and that's a common thread with all of the great teachers that I've talked to and worked with over the years, just to be able to work with students and have that freedom to do what they know impacts student growth, evidence based, being able to work,

	142
1	co-work teaching, those kind of things.
2	DR. WILLIAMS: Uh-huh. Okay.
3	MR. THOMAS-FELTON: But I would promise
4	you, finance for me after last year is a
5	priority, so I will not I promise you that
6	will not happen again. Not when I start it,
7	no, no, no.
8	DR. WILLIAMS: So if all goes well, we
9	won't be having another conversation?
10	MR. THOMAS-FELTON: No. No. That
11	no. No.
12	DR. WILLIAMS: All right.
13	CHAIRMAN PFEFFER: Dr. Kremers?
14	DR. KREMERS: Uh-huh. In the application
15	it talks about incorporating career readiness,
16	career development throughout the application
17	and the frame work of of your planning,
18	which is wonderful, especially the lower grades
19	bringing in professionals.
20	Number 1, would there also will there
21	also be discussion of when the speaker comes
22	in, they talk about a career field, that there
23	will be discussion of what requirements it
24	takes to prepare for that career?
25	MR. THOMAS-FELTON: (Nodding head up and

down.)

DR. KREMERS: And then No. 2, when you lay out the frame work for the career and technical education courses, several of those mentioned were not CTE courses, such as drivers ed and EAST initiative. And then in the response you did mention the introduction to business and technology courses, keyboarding, but it didn't address the career pathways, the nine -- the -- to lay out the nine coursers that are the career and technical courses and what pathway. So if you would respond.

MR. THOMAS-FELTON: So that is because, you know, I got stuck on that K-5 -- that first five years. In the waiver we set out computer programming definitely to be one, cybersecurity is another one. Of course, we want to build our own teachers too within the school so that introduction to teaching and that whole career pathway will be optional.

The Marriott and Holiday Inn and other, they are really interested in hospitality and helping in that area, and they have a big demand for it currently right now. And then with the construction, that's where I'm going

to have to lean on the ADE. What does that look like in a classroom. They have to get their -- their -- their basics, they have to get their credits. Do we put, you know, I -- do we put, like, internships into place in order to have that work? What does that look like for a junior or a senior.

You know, there is a -- that area for me, I can have the career pathways, I did that at CPA, but that other extra part where they are training them to enter the work force or enter college with above average pay at a specialist, you know, not just a, what we call a grunt, I guess, what does that look like, you know, in conjunction with all the requirements. And, honestly, that's -- you know, I didn't get a chance to meet with your predecessor on that, but I would love to sit down and talk to you because I know that it's doable, I just need assistance in making sure it's done right.

DR. KREMERS: And that would be important for the career technical. We do have trade and industry pathways.

MR. THOMAS-FELTON: Yes.

DR. KREMERS: It does include

construction, and there is apprenticeship, so I think it would be critical to collaborate on those pathways.

MR. THOMAS-FELTON: Absolutely. And Pulaski Tech was also -- we've kind of went back and forth as well, but definitely I need to sit down with you at some point, or my team and I need to sit down with you and your team.

CHAIRMAN PFEFFER: Panel, do you have additional application questions?

Okay. Come back to Dr. Hernandez says he does.

DR. HERNANDEZ: So you had mentioned a couple things that you had said. One, the APSRC, or I saw them listed as the finance person and didn't see another fiscal entity. So are they going to be completely running the books or are they going to be consultants?

MR. THOMAS-FELTON: Well, at the time I knew what APSRC charged so I could put a solid number in there. Of course, you know, we have to do the request for proposals and all that. If they get that, then it would definitely take care of -- at Rockbridge, like they did at Rockbridge, it would be debits, credits,

payroll, those kind of things, invoices.

The -- the -- the one of the things I liked is
I got to meet with them weekly so we got to
review, and I definitely want to keep that up
because that was very informative to me as a
superintendent.

At the same time we have a person now focused, and you know why, to focus on HR, making sure background checks are done, and making sure all those things are in place, that we're following the law and those kind of things. And that's the JD that is on the team.

DR. HERNANDEZ: Right. So you will be contracting out basically for fiscal service?

MR. THOMAS-FELTON: Basically, yes.

Since we're starting and funds are limited, I just felt like that would probably the best since I already know what the expense would be solid and I could budget for that.

DR. HERNANDEZ: You mentioned your team and that was another question that I have was that, you know, looking at your staffing and spreadsheet, I noticed that in the -- in the year one and year two there seemed to be a lot of administrative costs, a lot of

administrative positions, so it was upwards of 30 percent of your teaching staff are in administrators.

MR. THOMAS-FELTON: Uh-huh.

DR. HERNANDEZ: And so I was just curious about the reason, the thought, in having, in a of this size in the beginning having four and five different administrative type positions.

MR. THOMAS-FELTON: Right. So that's going to be a mistake on my part, because I thought it was, like, at the end -- in year one, and, like, the first year of planning no one may be getting paid, which is fine because we all have jobs. In year two, again, without a grant, no one is getting paid. In year three, the pay will be based on the number of students. We can't just say someone is going to get paid this much and not know how many students we get. Does that make sense?

DR. HERNANDEZ: Yeah. So your -- so your intention, just like reading off the list is, is Superintendent, Director of Academics and Instruction -- Instruction, Director of Human Resources, and Director of Operations in the first year, and then the fifth year having a

	148
1	Director of Special Projects and Enrichment.
2	So if I'm understanding you correctly, you
3	may not have all of those positions
4	MR. THOMAS-FELTON: Year three, based on
5	the number of students, we may just have a
6	superintendent or principal and a really good
7	registrar.
8	DR. HERNANDEZ: Okay.
9	MR. THOMAS-FELTON: But, you know, others
10	too in place to make sure that we're doing what
11	we're supposed to.
12	DR. HERNANDEZ: Okay. Others? Keep
13	going?
14	CHAIRMAN PFEFFER: (Nodding head up and
15	down.)
16	DR. HERNANDEZ: Okay. So in your NSL
17	and this is just something you may want to look
18	at but in the budget, under your revenues,
19	you had listed your NSL numbers being let me
20	find it again about 250 students out of 350;
21	and so you had that budgeted at the the
22	lowest tier, the zero to 69 percent.
23	MR. THOMAS-FELTON: (Nodding head up and
24	down.)
25	DR. HERNANDEZ: But that's actually would

1 be in the 70 percent range, so you would get that higher tier of revenue, so that's maybe something to look at within your --3 MR. THOMAS-FELTON: Right. We tried to 4 keep out, you know, Title I funding, those 5 funds. We felt like if we could make it on 6 7 just per student we could show that we could 8 make it and that gives us some viability and 9 then if other funds come in, and we would target that towards specific things for 10 11 specific students. 12 DR. HERNANDEZ: In your mass -- Master 13 Teacher Program, is there -- I know you mentioned that it's -- sometimes it's not about 14 15 the money but then sometimes it is about the 16 money. And so will there be additional responsibilities outside of the normal school 17 18 day for Master Teachers and training where 19 there would be --MR. THOMAS-FELTON: (Nodding head up and 20 21 down.) DR. HERNANDEZ: -- will there be 22 23 expectations or a plan to compensate that way 24 or --

MR. THOMAS-FELTON: If they work anywhere

outside of what their normal contracted hours are, we will compensate, of course.

The four and one day on the Friday where those things are happening, there is also people coming in, like P.E. and art, to free up teachers. And the Master Teachers will probably be Leads on the PLCs and that will give them time to do that.

Plus, if you're doing project-based learning, if you're working with tinkering labs, that requires a lot of planning, especially if you're going to tie it to standards and make sure it all fits and goes with the curriculum, so they need that extra planning time.

We're hoping, when we looked at the regular day, what that would look like, and we've done some mock schedules of times to make sure that they are getting, the students are getting their seat time, which that's not what it's called but you know what I mean, making sure they are getting it and then how that looks for planning with teachers so that they don't have to do anything after the day. And we are going to be asking them, you know, fall

1 fest, you know, come to a ballgame or two if you can, but we're trying to keep them within 2 the scope of what we're asking them to do and 3 the leadership would within that. 4 Now if we have to do a position, like a 5 E.L. position, that would definitely be a 6 7 stipend to make sure they are being compensated. 8 9 I'm going to go ahead CHAIRMAN PFEFFER: 10 and ask a few questions. 11 So the year one is the planning year. 12 MR. THOMAS-FELTON: Uh-huh. Yes, ma'am. 13 CHAIRMAN PFEFFER: But at this time it kind of goes back to something Dr. Hernandez 14 15 had asked earlier. You don't have any revenue coming in; is that correct? 16 MR. THOMAS-FELTON: That is correct. 17 18 CHAIRMAN PFEFFER: So at this time you haven't secured any grants or any of funding? 19 MR. THOMAS-FELTON: That's right, because 20 21 you have to get approved. 22 CHAIRMAN PFEFFER: Right. 23 And I think the -- the question I would 24 have is just with your -- part of this, with

your teacher training program, that first year

1 your plan is to find and train Master Teachers and --2 MR. THOMAS-FELTON: Yeah, within that 3 first year. So the first year we might not be 4 5 able to do apprentice teachership, we're trying to shoot -- you know what I mean, 6 7 because we want to have the best teachers. CHAIRMAN PFEFFER: 8 Sure. 9 MR. THOMAS-FELTON: And when we meet with 10 colleges, what does that look like, like what do you want out of your people, what does it 11 the need, if we talk to the Arkansas Teacher 12 13 Core or somebody like that. Okay. So it may take us that year to establish the Master 14 15 Teachers before we bring apprentice teachers 16 on. 17 CHAIRMAN PFEFFER: And I quess my question 18 would be without -- without the promise of funding during that planning year --19 MR. THOMAS-FELTON: Uh-huh. 20 CHAIRMAN PFEFFER: -- at what point would 21 22 you make a decision -- so I guess the question

MR. THOMAS-FELTON: Well, we've mentioned

that to them that if we don't get a grant, and

is what if you don't get funding?

23

24

they are willing to meet with us in the afternoons and on Saturdays and Sundays.

CHAIRMAN PFEFFER: Who is they?

MR. THOMAS-FELTON: The Master Teachers as they apply. I mean we all have jobs outside of this, so right now, you know, we're focused on that. Like my focus is on Exalt. These kind of things are being happening on evenings and weekends when school is not involved. That's similar for other people too, we're willing to put in the work, whatever it takes.

CHAIRMAN PFEFFER: Okay.

MR. THOMAS-FELTON: Now, building funding and that, I'm sure we will get -- that will be fine with. We'll be able to find a building so -- I've talked to people; so --

CHAIRMAN PFEFFER: And then that's my second question though. Again, as a Panel approving an application when, you know, right now it's a we think we will get it and this is what we'll do, I think it's just more of that at what point, if you don't, do you then -- are not able to do the planning, not able to move forward and then what does that do to the application.

22

23

24

25

So I think that I would just voice that I do have some concerns about that because then that leads into the curriculum, I'm looking at your site on your curriculum, and you talked about a lot of different things.

You do have -- you know, specifically, you've talked about the Engage New York and Open Up Math curriculum.

MR. THOMAS-FELTON: Yes, ma'am.

CHAIRMAN PFEFFER: But outside of that there is very little detail on curriculum. you've talked about the Montessori approach, Explicit Instruction, Hands-on History, but I think again that goes back to, you know, having a planning year is great but having a planning year with no funding, no facility, you know, even -- even the most dedicated people wanting to do on their own, that's a big, big ask, and the kind of curriculum, even just the Engage New York and that doesn't even get -- touch the -- the Science of Reading and the curriculum there. That would be a very big ask and a very big task to try to get people trained up to start a school year, especially then again without a guaranteed funding. So I

think that -- that is just something that I would kind of leave out there as part of consideration.

MR. THOMAS-FELTON: I understand.

CHAIRMAN PFEFFER: Okay. Dr. Owoh, did you have any follow-up questions?

DR. OWOH: Just one on training.

We've -- you discussed the teacher training but I'm curious to hear what training would you provide the building leaders, the educational leaders, to support -- to ensure that they are prepared or have the capacity to support the educators who are in the classrooms as they support and educate our students? So what type of leadership training and support would you or have you prepared or thought about providing?

MR. THOMAS-FELTON: Yeah. I've -- I've been -- like, I've had the benefit of being really well trained in a lot of things. It takes time mentoring. The leadership team has had many years of experience and have trained in several different programs.

I'm very familiar with Engage New York. I mean I've taught it, I've actually mentored and

coached teachers to teach it. It does take time, there is a lot of reading, a lot of planning involved and knowing your students' data.

The Science of Reading, you know, the options for us are really into, like, will we able to get everybody in training of Science of Reading.

You know we have a couple of teachers that want to work that have masters in reading or are doing -- are doing it now, are running through the R.I.S.E. Program.

So the thing for a leader, though, I believe is that, in my experience, people that we -- we're the kind of people that always reach out for learning. That's -- that's the way we've done it. And, you know, we're heavily trained in coaching, standards, most of us have one or two masters, especially masters in curriculum instruction and building level leadership.

Like I said, we've been working on this plan for 12 years. We've thought over and over what does that look like. We've had people committed to us for that long of a

period, teachers that would meet with us on weekends and they will say, well, what does this look like, what does that look like, you know, and they are willing to go.

Now, I can't -- you know, back to

Dr. Pfeffer's question, I can't promise that
everybody is going to work for free, that's -that's crazy. However, for the leader
training, it really comes down to can you coach
an adult. Can you -- when do you know that
they are working, when do you step in and say,
okay, we're going to do this, or when do you
become a collaborator.

Also are you familiar with the curriculum, do you understand the curriculum, do you understand the standards. You know, those kind of things can be done in house when you break them down. But also working side by side with the teachers and going through training with them is very -- I just went through direct instruction training with my teachers. It was very beneficial for me as a leader to understand how that program works, what it looks like, so when I go into a classroom to give teacher support, I know how to support

	158
1	them, where where they need help, and if
2	there is any resources, where to get them.
3	So I think that's a little vague for you.
4	DR. OWOH: It is.
5	MR. THOMAS-FELTON: Yeah.
6	DR. OWOH: So I have a follow-up.
7	MR. THOMAS-FELTON: Okay.
8	DR. OWOH: But you you, I guess, saw my
9	facial expression.
10	MR. THOMAS-FELTON: Yeah.
11	DR. OWOH: So it was vague. Because I was
12	really asking, is there a specific plan of
13	support and training that's already there
14	that has already been established for the
15	leaders as you start start it. And the fact
16	that you mentioned that you've had several
17	years of planning, that's a concern of mine,
18	because if there is not a specific or a
19	specified training path for your leaders and
20	you've had years of planning, then well, I
21	guess, that's just a concern. So if you're not
22	able to
23	MR. THOMAS-FELTON: Well, we were
24	planning
25	DR. OWOH: instead of

MR. THOMAS-FELTON: We were talking about -- you know, the Science of Reading, all right, so when I was in the Little Rock School District we had a sort of similar, we did Words Their Way, heavy phonetic awareness, you know, they moved from whole language. So in our planning sessions a lot of the leaders have said, okay, well, I need this. So I went to college for a couple of semesters in reading just to have that background and help me become a better reading leader.

It -- it's kind of hard to explain but over the 12 years we've taken a lot. I joined the Little Rock Writing Project, you know, I became National Board Certified, all these things in order to become a better leader and that's what the other leaders have done.

Now, when we get new leaders, the mentoring process that's established by, you know, the ADE is definitely going to be in place using the standards; so, for instance, you know, I went through TESS training, I was judged under that rubric, I -- also for teachers, you know, those are out there. We don't really have to set up a whole, like, what

are they weak in and then set up, you know, professional growth plans in that instance. And it really depends on the leader because I really truly feel one path for everybody might not be the right way to do it. So we would have who look at professional growth plan as an individual. As a superintendent or director of instruction, when you're mentoring and you're monitoring your leaders, that's going to lead you to what paths they need to have.

DR. OWOH: I have nothing else.

CHAIRMAN PFEFFER: Okay. So if -- if we could put the -- the systems slide back up there we'll just kind of go through, and we've asked several questions, but kind of do follow up or any additional input that the Panel may need to consider based on what we've discussed here today.

So with the academic system, I think knowing that the charter is a K-12, looking closely at the course offerings, I think Dr. Kremers addressed the career and technical questions. Just make sure from the ADE staff that everything -- everything is clearly outlined with regard to Standards for

Accreditations graduation requirements, since this is a K-12, as far as we've seen.

Okay. And, Ms. Hyatt?

MS. HYATT: So this falls into academics, but regarding their plan for physical education, there -- my understanding is they are providing it, it's just being provided in kind of a chunk in one part of the school year and not the entire year; so -- did I get that right?

DR. BOYD: Uh-huh.

MS. HYATT: Okay. So they are going to need waivers in order to do that, because the law and the rules say 40 minutes per week, and since they are doing it all in one part of the year, there will be weeks where they don't offer the 40 minutes of physical education because they are getting it all done at the beginning of the year.

So there are waivers, academic waivers that they would need to accomplish that.

DR. BOYD: And I just want to add that this is for the K-6 portion. So it's -- it doesn't have to do with graduation requirements, which is why it can be waived.

	162
1	CHAIRMAN PFEFFER: Okay. But then the
2	actual P.E. for the secondary 9-12 graduation
3	requirement would be taught in accordance with
4	required graduation credits or
5	MR. THOMAS-FELTON: Yes, ma'am.
6	CHAIRMAN PFEFFER: Okay.
7	MS. HYATT: So I can tell you what the
8	waivers are and just have them confirm, if
9	that's okay.
10	So Arkansas Code Annotated § 6-16-132(b)
11	is where the minute requirement is contained.
12	They will also need a waiver of 1-B.3 of the
13	standards and Section 7.0 7.01.1 of the ADE
14	rules governing nutrition and physical activity
15	standards, because it includes a minute
16	requirement in there as well.
17	MR. THOMAS-FELTON: We confirm.
18	CHAIRMAN PFEFFER: Okay.
19	MS. HYATT: Okay. That resolves any
20	remaining issues on that.
21	CHAIRMAN PFEFFER: Okay. And thank you
22	for checking on that.
23	MS. HYATT: Absolutely.
24	CHAIRMAN PFEFFER: All right.
25	Ms. Coffman?

	103
1	MS. COFFMAN: We have one academic
2	question that's a two parter.
3	On Page 16 of 80 in the application with
4	ADE review, the applicant provides very
5	specific performance goals. And so we were
6	interested in the data utilized to inform those
7	specific performance goals, and then how school
8	performance would be monitored throughout the
9	year and not just with the summative
10	assessment.
11	CHAIRMAN PFEFFER: And you said Page 16 of
12	that 80-page application?
13	MS. COFFMAN: Yes, ma'am.
14	CHAIRMAN PFEFFER: Okay. Do you have
15	access to that, Mr. Felton?
16	MR. THOMAS-FELTON: Yes.
17	So for an assessment, of course, the ACT
18	Aspire, but also we will be using NWEA not only
19	for K-2, but also the ACT interims throughout
20	the year. That's part of the PLC meetings in
21	order to make sure that we're meeting our
22	goals.
23	CHAIRMAN PFEFFER: And I think if I'm
24	understanding what the question where you,
25	on your performance level, like where you have

1 "47 percent of students will meet," where -how did you arrive at those percentages? 2 MR. THOMAS-FELTON: So we look the 3 surrounding areas and what they had and then we 4 5 raised them up, I think, by 6 percent and then 6 percent each year after that. 6 7 CHAIRMAN PFEFFER: So to clarify then, 47 percent of students will meet standards, and 8 9 I'm assuming you're saying of readiness --10 MR. THOMAS-FELTON: Yes, ma'am. 11 CHAIRMAN PFEFFER: -- or a readiness 12 Is that 47 percent after the first year 13 or is that after -- at what point is that 47 percent? 14 15 MR. THOMAS-FELTON: It says at the end of year 2023. 16 17 CHAIRMAN PFEFFER: Okay. 18 MR. THOMAS-FELTON: Hopefully it's higher. CHAIRMAN PFEFFER: All right. Also on the 19 academics we've talked about the Science of 20 Reading, we've talked about teacher training, 21 22 and I want to verify that since you're talking 23 about an opening in the '20-'21 school year, 24 clarification on the point at which all of our 25 teachers have to -- especially at the

	105
1	elementary level, have to have the demonstrated
2	the proficiency in the Science of Reading. Is
3	that the fall or the beginning of the '20-'21
4	year or the '21-'22 school year?
5	MS. SMITH: '21-'22 school year.
6	CHAIRMAN PFEFFER: Okay. So that would be
7	the '21-'22 school year, so that would be the
8	year after that. So I wanted to clarify that.
9	MR. THOMAS-FELTON: Yes, ma'am.
10	CHAIRMAN PFEFFER: All right. Academics,
11	do we have anything else?
12	MS. SHEPARD: Okay. Just to follow up on
13	what you just said.
14	CHAIRMAN PFEFFER: Okay. If you'll state
15	your name again for the record.
16	MS. SHEPARD: I'm sorry. I'm Sandy
17	Shepard, I'm from Learning Services.
18	Just to clarify, is there a plan for the
19	student for the teachers to meet that
20	requirement in the Right to Read Act in their
21	plan?
22	And the second question is, it looks to me
23	like the plan is for the teachers to write
24	their own curriculum and they have given them
25	three weeks to do that. And I need maybe some

CHAIRMAN PFEFFER:

clarification about what they are going to use, what resources, or just a plan. It seems very vague.

MR. THOMAS-FELTON: So for the three weeks, that curriculum is based on things that are not already set in place. So for direct instruction, there is levels based on data on when you start, for the intervention -- there are also -- and it gives you, you know, the curriculum is pretty much set out on whatever we choose, so that.

Okay. Mr. Felton?

But what we are talking about is that four to one, making sure that are project-based learning and what they are asking the children to do to proficiency matches with the standards of Arkansas state and what we're supposed to teach. That also includes looking at the new science standards, any other standards outside that, like library media, are we -- are we reaching our G.T. kids that are that, are we, you know, doing those things. So that three weeks is basically for those curriculums, and not the whole three weeks but those that are not the whole three weeks but those that are

	167
1	not already coming with already a curriculum
2	map or a year-one plan.
3	CHAIRMAN PFEFFER: Okay.
4	MS. SHEPARD: Okay. That so are you
5	saying that direct instruction is is what
6	you're going to use for literacy? Is that your
7	program plan?
8	MR. THOMAS-FELTON: That's what we're
9	looking at, yes.
10	MS. SHEPARD: Okay. And what was the
11	what was your plan for meeting the requirements
12	for the Science of Reading and the Right to
13	Read Act.
14	MR. THOMAS-FELTON: Well, we'll have to
15	provide the professional development and make
16	sure our teachers get that, in order in
17	order to be proficient in that area by then.
18	MS. SHEPARD: Okay.
19	CHAIRMAN PFEFFER: Okay. We've asked
20	questions related to the human capital system.
21	If there is anything remaining?
22	Okay. And our student supports? No
23	concerns?
24	Stakeholder communications, family and
25	community engagement?

	168
1	Okay. District operations and fiscal
2	governance?
3	If you will state your name and position
4	for the record, you will be recognized.
5	MS. QAZI: Saliha Qazi, Program Fiscal
6	Manager.
7	CHAIRMAN PFEFFER: And go ahead and make
8	sure you're in the microphone, please.
9	MS. QAZI: Saliha Qazi, Program Fiscal
10	Manager.
11	During the legal review, they presented
12	some G.T some waivers. I know they are
13	asked for the G.T. waiver but the
14	transportation and ALE is not listed in the
15	systems in the budget application. So if we
16	can if they can address that question.
17	CHAIRMAN PFEFFER: Okay. And you said
18	transportation and
19	MS. QAZI: ALE.
20	CHAIRMAN PFEFFER: ALE, it's not
21	MS. QAZI: it's not in the budget.
22	CHAIRMAN PFEFFER: Okay. Mr. Felton?
23	MR. THOMAS-FELTON: We of course, our
24	goal is to have buses down the line once we
25	build our thing, but one of the things we are

looking at is to have -- to pay for students if they want to ride the bus later in the years, much like the other charters do that are located in this area. So at this point we didn't have anything in transportation to offer, because we didn't know what that would look like for the K-6. I do know a few students who ride the bus at that age but we didn't think we would have a whole lot.

For ALE, we weren't really sure at the time when we made the budget whether we would have but we have no problem, we did heavy hand every area that we did budget for, so money can be shifted over for ALE in the year.

CHAIRMAN PFEFFER: Okay. But those two items then have not been accounted for --

MR. THOMAS-FELTON: That's correct.

CHAIRMAN PFEFFER: -- in what you've done so far?

MR. THOMAS-FELTON: Yes, ma'am.

CHAIRMAN PFEFFER: Okay. Okay. And we -we addressed the issue right now that the
facility -- we do not at this time have the
facility, and you just talked about the
transportation.

	170
1	Again, though, you you did say one of
2	your goals is to serve low income areas?
3	MR. THOMAS-FELTON: Yes.
4	CHAIRMAN PFEFFER: Okay.
5	MR. THOMAS-FELTON: And so eventually we
6	would like to be able to procure buses to help
7	children.
8	CHAIRMAN PFEFFER: Okay. All right.
9	Ms. Hyatt, are there any remaining issues then?
10	I know we addressed the P.E., I think she
11	may have she may have stepped out.
12	I'll go ahead and ask the Panel then, is
13	there anything remaining for the Panel that you
14	want to ask or discuss?
15	DR. HERNANDEZ: Wasn't there something she
16	was supposed to check on? Did she check
17	on that?
18	CHAIRMAN PFEFFER: The P.E., I think, so,
19	yes. So you checked on the P.E. and that was
20	the only remaining issue you were checking on?
21	MS. HYATT: Yes.
22	CHAIRMAN PFEFFER: Okay. All right. All
23	right. So, Panel, we have your decision
24	options are to approve the application, to deny
25	the application, or take the matter under

	171
1	advisement, table it for a future meeting.
2	So at this time I would entertain a
3	motion.
4	MR. WILSON: I move the approval of the
5	application.
6	CHAIRMAN PFEFFER: Okay. We have a motion
7	to approve the application.
8	DR. KREMERS: I second.
9	CHAIRMAN PFEFFER: Okay. So we have a
10	a motion and a second to approve the
11	application. All those in favor, say "Aye."
12	MR. WILSON: Aye.
13	DR. KREMERS: Aye.
14	CHAIRMAN PFEFFER: Opposed, same sign.
15	DR. HERNANDEZ: I say no.
16	DR. WILLIAMS: Nay.
17	DR. OWOH: Nay.
18	CHAIRMAN PFEFFER: Okay. Then the nays
19	have it. We have three nays and so the the
20	motion did not pass.
21	DR. WILLIAMS: You know, just just to
22	comment here. I struggle with the with
23	supporting this, knowing that there is probably
24	a year in which the possibility I got
25	budgetary concerns still. They are just

	172
1	they are just there for now. But I also
2	struggle with approving it and knowing that
3	there is a I call it a zero year, in which
4	we're basically saying that we that if you
5	don't raise the money the teachers are expected
6	to work for free, and I just, I'm not quite
7	sure
8	MR. THOMAS-FELTON: That that I
9	understand, but that's not what I was saying.
10	A lot of the grants that we are available for
11	cannot be applied for until we're approved.
12	DR. WILLIAMS: I understand that.
13	MR. THOMAS-FELTON: So we would never ask
14	anybody to work for free.
15	DR. WILLIAMS: Yes, uh-huh. But the
16	budget is the real issue.
17	MR. THOMAS-FELTON: It is a concern, yes.
18	CHAIRMAN PFEFFER: So, Panel, seeing that
19	that motion did not pass, is there another
20	motion?
21	DR. HERNANDEZ: I make a motion to deny
22	the application.
23	DR. OWOH: Second.
24	CHAIRMAN PFEFFER: Okay. I have a motion
25	and a second to deny the application. All

	173
1	those in favor, say, "Aye."
2	PANEL MEMBERS: Aye.
3	CHAIRMAN PFEFFER: Any opposed?
4	MR. WILSON: No.
5	CHAIRMAN PFEFFER: Okay. The motion
6	passes that the application is denied. So,
7	Panel, I will ask you at this time to record
8	your responses in the online form.
9	And, Mr. Felton, we will be giving you
10	feedback here in just a minute.
11	MR. THOMAS-FELTON: Yes, ma'am.
12	CHAIRMAN PFEFFER: Okay. We'll go ahead
13	and have the Panel articulate their reasons.
14	Dr. Hernandez?
15	DR. HERNANDEZ: I made the motion. I feel
16	like there is some additional planning that
17	needs to be done in terms of academic programs,
18	facilities, staffing, and finances. I think
19	that time will allow the applicant to return
20	with a defined application next year.
21	CHAIRMAN PFEFFER: Dr. Kremers?
22	DR. KREMERS: I think additional
23	information on the the full career pathway
24	7-12, the requirements, and being more
25	thoughtful in explaining that.

1 CHAIRMAN PFEFFER: Okay. Dr. Owoh? DR. OWOH: I voted to deny the application 2 because I felt like there are still some 3 unanswered questions about the curriculum 4 5 preparation and offerings,, educator support and development, and budgetary items. 6 7 additional planning and development in those above-mentioned areas are still needed. 8 9 CHAIRMAN PFEFFER: Okay. Dr. Williams? 10 DR. WILLIAMS: Support the motion to deny. 11 There are still several unanswered questions 12 regarding curriculum and budget. More planning 13 would be appropriate. CHAIRMAN PFEFFER: And, Mr. Wilson? 14 15 MR. WILSON: I vote against the motion to 16 deny the application. I -- I would have 17 preferred some sort of middle ground, perhaps, 18 with additional time to firm up some of the financial questions that have been properly 19 raised. 20 I do have confidence in Mr. Felton, that 21 22 has a large bearing in my vote, having known 23 his work previously and I think he has a 24 Master's Degree in Public School Finance from

Rockbridge --

	175
1	MR. THOMAS-FELTON: Feels that way.
2	MR. WILSON: with the help of you-all.
3	CHAIRMAN PFEFFER: Thank you.
4	And, Mr. Felton, thank you for your time,
5	and we hope that this feedback is helpful.
6	MR. THOMAS-FELTON: It is. Thank you very
7	much.
8	CHAIRMAN PFEFFER: Thank you.
9	So at this time we are going to break for
10	lunch. Let's come back at 12:45 and we'll
11	begin again at 12:45 with the remaining
12	applications for the afternoon. Okay.
13	(WHEREUPON, a lunch break was held from
14	11:50 a.m. to 12:45 p.m.)
15	A-4: HEARING OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
16	APPLICATION: PREMIER HIGH SCHOOL OF NORTH LITTLE ROCK
17	CHAIRMAN PFEFFER: Okay. Welcome back
18	everyone. We appreciate you for being here and
19	it is time to reconvene reconvene the
20	Charter Panel.
21	We are on Action Item 4, the hearing of
22	our Open-Enrollment Public Charter School
23	application for Premier High School of North
24	Little Rock.
25	Ms. Perry, you are recognized.

1 MS. PERRY: Premier High School of North Little Rock is a proposed Open-Enrollment 2 Public Charter School to be located within the 3 North Little Rock District. The sponsoring 4 entity is Responsive Education Solutions. The 5 applicant is requesting to serve students in 6 7 grades 9-12 with a maximum enrollment of 250 beginning in the 2019-2020 school year. The 8 9 applicant has notified affected districts of 10 the proposed public charter school. 11 ADE staff reviewed the application, and 12 concerns were shared with the applicant for 13 response. The application, the ADE evaluation, and the applicant's response are included for 14 15 the Charter Authorizing Panel. Speaking today on behalf of Premier High 16 School of North Little Rock is Steve Gast, 17 18 Superintendent, and Dennis Felton, Principal/Dean of Students. 19 CHAIRMAN PFEFFER: 20 Okay. Will the 21 representatives of the application and anyone

Go ahead and raise your hand.

(WHEREUPON, the witnesses were sworn by

speaking in opposition please stand to receive

the oath.

22

23

24

the Chairman.)

CHAIRMAN PFEFFER: Okay. So, Mr. Gast, we are ready for you to get started, and you'll have 20 minutes.

MR. GAST: Thank you. So as any new grandfather -- I just had a new grandbaby on Sunday -- I was going to start with a slide of the baby but my team told me that that wouldn't be very appropriate to do.

CHAIRMAN PFEFFER: Well, congratulations.

MR. GAST: Thank you.

Let me start my clock here.

So good afternoon. It is good to see you once again, as we were in front of you, all except for one new member, in -- in December getting the five-year renewal for our Premier High School in Little Rock.

We are pleased to be able to stand before you for our application for Premier High School in North Little Rock. As you know from our renewal presentation last December, Premier is a unique type of school. We provide another chance to those students who for whatever reason have left the public education system and have disengaged from education in general.

We are excited to have the opportunity to open a new Premier High School in North Little Rock and start providing the same opportunities for that group of students that we offer in Little Rock.

Responsive Education is part of a larger family, known as Responsive Education to Charter Schools. We have a main corporate headquarters, which is located in Lewisville, Texas, and a local Arkansas district also here in Little Rock.

And speaking of our team, I would like to take just a second to introduce the members of our Arkansas District Office that are here that will be available as well to answer any questions that you might have when we get to that section of the presentation.

Again, my name is Steven Gast, I'm the superintendent. I have Mr. Curtis Shack here. Curtis, raise your hand. And Curtis is our Regional Director and our Program Director. Marla Pearson is our Director of Special Programs. Dennis Felton, who you will be hearing from in just a second, is our Campus Director as well as on consulting on our

opening of other Premiers here in Arkansas.

Katie Stephens, our Director of Finance, and her finance team is here, Tamera Larry and Tracy Samples. Rhonda Bradford, who is also the Principal of our Quest School in West Little Rock, is also our Federal Programs

Director. And that's our current -- current group that works here out of our Little Rock office, which is on Hardin Road.

Responsive Education shares a common mission across all of its brands, and our mission is to provide hope for students through innovative character-based personalized learning environments. Responsive Education was founded in 1998. It has always prided itself on being responsive to the needs of individuals and the individuals within separate communities. There are currently 37 Premier High Schools operating in Texas and one in Little Rock. It is also the largest charter school district in the state of Texas.

As evidenced in our application, under the section titled "Other Charter Schools Sponsored by this Entity," we operate 75 schools in Texas and Arkansas, and offer six unique and very

different types of schools. Our brands include Premier High Schools, Founders Classical Academies, Classical Academies, Digital Learning Campuses, high schools which are STEM based, and one special school we have in Austin for the School of Autism.

Recent information published by the

National Guard Youth Foundation states that if

you want to reduce crime, increase graduation

rates. The numbers are almost staggering

regarding those individuals involved in crime

or incarcerated who never finished high school.

It's also been shown that there is a direct correlation between annual cost of educating a student that graduates and the annual societal cost of those without diplomas that have been incarcerated.

Looking at North Little Rock we find that it's one of the highest crime rates in America, compared to all communities of its size. It has a higher crime rate than 90 percent of all communities compared in Arkansas.

Sharing a few more facts about North

Little Rock, the overall crime rate in North

Little Rock is 79 percent higher than the

national average; you have a one in 20 chance of becoming a victim of any crime in North Little Rock.

Here are also some statistics we shared with y'all in the December meeting, but there are -- they are very, very alarming and I want to share with you again. Every year over 1.2 million kids drop out of high school in the United States. That's a student every 26 seconds or 7,000 a day. About 25 percent of the high school freshman fail to graduate from high school on time, that's with their graduating cohort. A high school dropout will earn \$200,000 less than a high school graduate over its lifetime and almost a million dollars less than a college graduate. Almost 2,000 high schools across the U.S. graduate less than 60 percent of their students; and in the U.S. high school dropouts commit almost 80 -- or, excuse me, 75 percent of crimes.

Premier High School helps students recover credits. We also help them graduate early, provide college and career coaching and planning, and help them apply and gain accept -- being accepted into college.

25

Based on TEA statistics, which is the Texas Education Agency, there are 145 alternative accountability charter schools in Texas, 6 of the top 10 and 15 of the top 25 best schools are Premier campuses.

100 percent of the graduates are accepted into a university, junior college, trade school, or military, and that includes our schools here in Arkansas.

So why we believe that North Little Rock needs a school like Premier: The school will be located within the attendance zone of North Little Rock High School. These statistics and numbers that we have on here are the same numbers that you have on your application. They are under our educational justification in the area as to why we believe that a Premier High School is needed in North Little Rock. And you look at those, you see that breaking down the data by race shows significant gaps, including the difference between Whites, African-Americans, and Hispanics in their graduation rates. And one of the most compelling statistic is the 34.7 percent gap -or point gap between whites and Hispanic

students' graduation rates.

I had the opportunity to meet with the superintendent of North Little Rock, and he and I sat down for about an hour and visited about Premier because I wanted to educate him about what Premier High School actually does. was mentioning that I've had 17 years experience as a high school principal, and I guarantee you that over those years in some of the larger schools that I was at we had a lot of kids that were walking the hallways in the high school that were old enough to be juniors and seniors but had only enough credits to be freshman. And I quarantee you there's hundreds of those kids walking the halls in the North Little Rock High School that are in the same boat.

One of the unique things about our school and our brand is we don't complete directly with North Little Rock Public Schools for their kids. We take those kids that have already disengaged, and we also take those kids who are maybe two or three years behind, give them the opportunity to come to us, restore their credits, and if they would like they can

1

13

14

15

graduate with us or they could go back to North Little Rock High School and graduate with their class, and that was a very attractive thing that we were talking about because, you know, whether they graduate from Premier or North Little Rock public schools, that's a kid that's graduated and that's a kid who is not in those numbers anymore, that's a kid that we've given a chance to.

And so, you know, we are -- I'm very optimistic about the future that we have and the partnership that we could build, and I really foresee, based on my discussions, that we could be building something in North Little Rock that could be a model for many, many cities across Arkansas to really help move this graduation rate forward.

At this time I'm going to turn the presentation over to Dennis, who you have heard from last December and will hear again talking about the -- the Premier model.

MR. FELTON: Good afternoon.

Good afternoon. My name is Dennis Felton.

I serve as the principal of Premier High School

of Little Rock as well as the Premier

consultant.

So what I want to do is spend some time giving you guys more of an insight into the Premier model and the school, kind of what we do to try to get these students back on track and ultimately prepare them for post-secondary goal.

And so one of the things that we like to pride ourself on is reaching every student by connecting them with talents outside of the classroom, and so each year we're constantly having student lead organizations -- or I'm going to say student implemented lead organizations that faculty members are overseeing to allow them to engage in extra curricular and enrichment activities on the campus and outside the campus as well.

So talking about our graduates. One of the unique things that we try to focus on each year is putting high school diplomas in students' hands. So you will see our statistics from the first year that we actually opened up the Premier model in Texas, and even looking at our statistics just here in Little Rock alone, we have over -- almost 100 students

2

3

21

22

23

24

25

that have a high school diploma that may not otherwise had a high school diploma if it wasn't Premier High School Little Rock.

So we're talking about the academic piece, and one of the things we pride ourself on is each year we sit down with our students and we develop individualized graduation plans. so we want students to understand this is what you have currently towards high school graduation, and then we want to develop an individualized plan for each student to ensure that they receive the support they need in order to graduate with their class or catch up and graduate as well. And so we offer a flexible school day for students that need so; we have students that are parents, we have students that take college classes, we have students that are even outside -- have other academic partnerships, which they are taking, like, advanced placement so it works out with their schedule, as well as even going to work to provide for their families. And then ultimately we have students that come over for their personalized learning approach in which they could graduate early with anticipation of

getting started with college early.

So, for instance, I had a student come in just Monday and the student was two credits shy of graduating, supposed to graduate with the class of, 2018 and the student wants to finish the graduation requirements and automatically try to enroll in Arkansas Baptist College. So for those that don't know, we're located on Arkansas Baptist College campus as well.

And so talking about the different structural strategies that we use, you'll see there we have got direct instruction, independent instruction, accelerated instruction, and connected instruction, and so one of the things that we try to do is offer a myriad of opportunities for students to receive instruction, because, you know, each student learns -- has different learning styles and different learning preferences.

And so talking about our goals. One of the things we want to sit -- we set down and we met with you guys just here in December, you know, talking about some of these goals and how we could use multiple measures to ensure that we're being fair to the school but at the same

1	time holding the school accountable. And so
2	you see we have our goals in literacy, in
3	science, and math. And also we want to stay
4	true to our goal with making sure that students
5	are not only graduating from high school, but
6	they are applying to post-secondary
7	institutions, that way it doesn't stop when
8	they cross the stage in May in a cap and gown.
9	And then we also we think it's important to
10	focus on student attention I mean
11	attendance. A lot of our students, they come
12	to our school because they have been dropped
13	from the previous district due to lack of
14	attendance, so we try to provide not only
15	professional development for staff but
16	intervention programs within our school.
17	Instead of saying, "Hey, you missed 20 days,
18	you don't get credit, you're out," we are here
19	to provide hope for students, and so we want to
20	provide interventions to allow the students to
21	continue to earn their credit, and then
22	ultimately we want to build the retention of
23	our students and our staff. We want to
24	continue to grow as a school, that way we can
25	continue to grow and increase our capacity by

1 impact.

And also we think Premier is very invested in the community. Because of the different partnerships and agencies we have to work with, it's a must, it's a guarantee, we have to work with community stakeholders to ensure that we're using all of the wrap around services to help parents and to help students.

And so let's talk about staff support.

One of the things we want to continue to do is job embedded coaching and provide teachers with instructional coaching and feedback and then that way even our novice teachers are getting the professional development support they need, and then also each teacher is held with the responsibility of developing a PGP with the Building Level Administrator, in which they are identifying their strengths and their weaknesses, and then we are putting plans together to address those weaknesses.

Also for our new leaders, we like to use the Charter Leadership Institute that's implemented by the Department through the orientation and as well as APSRC, which the leaders go through several standards preparing

2

17

them and being able to collaborate with other novice administrators and veteran administrators as well. And then also endorsing the program the State has as well as far as the mentoring.

Mr. Gast commented on our strong Central Office team that we have that's here to support our campus leaders and our teachers. And so we want to ensure that not only we're evaluating all the LEADS and TESS, but we're putting professional development plans to grow individuals, that's what the whole purpose is, to grow them and to -- and to increase instruction capacity as well as leadership capacity.

And then also we want to replicate our PLC. For those that are familiar with Professional Learning Communities, Premier High School has been blessed with the opportunity by the State to participate in the PLC Pilot Project, and we want to replicate that practice. We know there is a lot of research out there that supports how professional learning communities ultimately also increase effective teaching, and then when we increase

effective teaching, then ultimately we're increasing student achievement and student learning. And so we want to replicate the practice we're doing with the PLC models in which teachers are collaborating weekly. And then we're staying around the three ideals. We want to focus on student learning, student focus. We want to focus on collaboration. And then ultimately we want to be data driven. We want to focus on our assessments and look at what's working and what's not working and that way we can ultimately put the plans together intervention wise to ensure that students are getting the things that they need.

And then we want to continue to participate in the Arkansas PLC Institute. For those that were able to go to Rogers this past summer, it was a phenomenal event in which educators across the state who were involved in this PLC process were able to bounce ideas off of each other. And I'm excited, I think we got even possibly ten more schools that's even in the cohort in Arkansas, which strengths our endeavors amongst administrators as well.

I want to recognize that Premier High

23

School the -- in Little Rock was ultimately also recognized by the Department as being a model for best practices in personalized learning. And so just revisiting this video we showed you guys actually in December about the things that's going on at Premier High School in Little Rock.

I want to share a few words while Mr. Gast is headed up. And one of the things that ultimately reminded me of what we're doing is each time we have a student enroll at Premier High School, during that registration process we talk to them, we have conversations about why are you here, what are your goals, what do you plan to accomplish here, what are some of your strengths, what are some of your weaknesses. Because we want to start that conversation of why. What do you plan to accomplish here.

And just yesterday I had a guy come in,
he -- he dropped out of high school, actually
two years ago. He's 19 years old. And he
said, "Mr. Felton," he said, "I received a
letter in the mail." He said, "The letter in
the mail told me you guys had a flexible

program, how you were getting kids back in high school that had dropped out. And most importantly on that flyer I saw my friend in a cap and gown, and when I saw him in the cap and gown, I knew I could do it too."

And so it's stories like that that constantly remind me of the work that we're doing every day is important and what we want to do is increase our capacity of not just serving Little Rock students but be able to provide these opportunities with North Little Rock students as well, so that's why we're here.

MR. GAST: Again, thank you, Dennis.

To piggyback on what Dennis was saying, with our training for our teachers, but not only but also training for our leaders, we train to try and get our individual campus directors to be interior, you know, people that we promote from within. And in the APSRC Program we have one of our future administrators is working with -- with us at our Quest campus and working with Rhonda, who is also in the mentoring program. And I was fortunate enough to be asked, you know, about a

month or so ago from Dr. Todd to come and speak to some of the new trainees and work with them for a little while.

And so we firmly believe in the leadership programs. We know we've got some good ones here in the state and we're allowing our folks to take advantage of those as well.

Our last couple of slides deal with financing. One of the most critical -- critical aspects of any charter, obviously, is finance. You know, many well-intended charters with great ideas and great programs come before you but have a hard time with the financial aspect of it as well as the sustainability of that particular campus.

For the first time I brought to you a -the -- the audit report from our home office
in -- in Lewisville, that shows our -- our CMO
and our corporate headquarters, and it kind of
gives you -- and I'm not going to go through
each individual particular line, but I wanted
you to see the financial stability of our
company. And when you've got a company that is
projected to have well over a 21-million-dollar
surplus at the end of the year, when we start

looking at and have some of the questions on the applications that we have, like, what happens if you don't get the right number the first year and how do you support the development and the -- the different things, the moneys that you want to have if they are not coming in, and I wanted to share with you the fact that -- that we have a strong financial backing that is not you afraid to, if in fact we need help, they are there with those funds to go ahead and do that.

Now, our goal is not to have to call Mom and Dad and say, hey, you know, we need help; but at the same time it sure is nice to know that -- that if that's -- that happens or if it needs to happen, we have the financial wherewithal to do that.

Coming on a more local note, looking at the -- the Arkansas Premier High School here, we've already told you that, you know, we have a financial team here. We have -- all four of our charters last year went through an independent audit, and in those independent audits not a single finding occurred for any school for any financial concerns whatsoever.

And I think that's important as you look at us for future schools to realize that not only do we have the funds available from our corporate sponsor, we also, from a local level, have very, very talented individual people who are very good.

Our particular budget for this school was put together with very close work with ADE and working with them on our budgets and on our projections. Katie Stephens, who is our financial guru here as far as Responsive Education is concerned, probably a capital C for conservative needs to be in front of her name when it comes to putting budgets together, and that has done really well for us, you know, as we've gone through the years.

And we consider this to be a very, very conservative budget, because we would rather have -- you know, be on the -- on the conservative side of it and know that we are going to have funds available than we would speculating, you know, what might occur.

So based on that we came up with the calculations. And what I did is you have a

more complete budget in your application that breaks it down line item wise. What I did is I just took some of the -- you know, the major categories of personnel, the revenue, the expenditures, and then what the net revenue over expenditures will be each year, so a plus \$32,552 after the first fiscal year. Now, granted that can change. You know, if our enrollment is higher or if we have to hire another teacher or two, you know, that might change, but that would shift all those numbers all the way up, including the revenue as well, so this is based on 125 students.

That wraps up our -- our presentation.

And like I said, we had a slight advantage here because you-all have just heard a lot about our Premier High School and went through the application renewal process last December, and we're kind of glad that that occurred because it kind of gave us an ability to share a few other things with you that we normally wouldn't have shared. All right.

CHAIRMAN PFEFFER: All right. You timed that just perfectly. Twenty minutes.

MR. GAST: I did. Even without the

1 picture.

CHAIRMAN PFEFFER: You did, yes. So thank you for your presentation.

Is -- Ms. Hyatt, is there anyone here to speak in opposition?

MS. HYATT: I don't believe so.

CHAIRMAN PFEFFER: Okay. All right. So you do have an additional five minutes if there was something you wanted to wrap up with before we start any questions.

MR. GAST: No, really not. I think that
Mr. Felton probably did it best when he talked
about the most recent activity. Those are the
types of stories that are replicated all the
time in our Premier schools. They are the same
type of thing that we see.

I will just reiterate what I really see happening is developing a strong partnership with North Little Rock High School and to work with their kids, just as I -- and I said it in training with the principals, you know, it's not an us against them. It's not an are they a charter school kid or are they a public school kid. They are kids and they are all our kids, and as soon as we start realizing that the

2

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

better off we're going to become in how we service all of particular our kids.

So we're very excited about the possibility. I will mention that, since I do have a couple seconds, we have -- are very interested and have actually designated two different sites that we are currently looking at that would serve really, really well for the -- for the school, including its proximity to North Little Rock High School. Because I think that if you're going to talk about a partnership, the availability has to be there where those kids can actually get from Point A to Point B or back again and we would -- we need to be within the proximity of that. the locations that we're currently looking at every one of them are within a geographical range of the high school that would make it easy for the kids to do that.

So we'll entertain any questions or anything that you have at this point and we appreciate your time.

CHAIRMAN PFEFFER: Okay. Thank you.

So as we have done previously, I think we will ask Ms. Boyd and -- or Dr. Boyd --

sorry -- and Ms. Hyatt to go through any questions or unresolved issues.

So Dr. Boyd will go over issues that the internal review raised.

DR. BOYD: Thank you, Dr. Pfeffer.

Yeah. We had a remaining concern about we couldn't tell if there was a particular curriculum designated for the program or not.

CHAIRMAN PFEFFER: Okay.

MR. FELTON: Dennis Felton again.

So we have a team, a curriculum team,
Responsive Ed has a curriculum team and which
creates our curriculum. Internally we have a
team that reviews the curriculum each year. We
want to make sure, because the standards are
constantly changing, that our curriculum is
aligned to the Arkansas Standards and the
Common Core State Standards as well.

We also have academic partnerships with individuals like Virtual Arkansas, in which we offer students additional courses as well which are approved by the Arkansas Department of Ed.

CHAIRMAN PFEFFER: So -- so just to follow up on that. Students are -- a lot of the instruction is done virtually and self-paced

or --

MR. FELTON: It's a personalized approach.

I wouldn't say all virtually. That means they
are all taking digital classes.

CHAIRMAN PFEFFER: Okay. Can you describe it just a little bit more then as far as --

MR. FELTON: Yes. So it's sort of like a hybrid model. We have direct instruction going on as well. You saw in connected instruction, which we have students who do take virtual learning classes that they have -- and we have personalized courses where students are able to have individualized courses and work at their own pace.

CHAIRMAN PFEFFER: So but as far as the -you don't have necessarily a single curriculum
provider that you purchase? I didn't know if
that was something that was pretty consistent
in the Premier Schools or --

MR. FELTON: Yes. The curriculum writing is pretty consistent from the Department.

Now, when we purchase Virtual Arkansas, they just purchase it per course the students are taking.

CHAIRMAN PFEFFER: Okay.

1 MR. GAST: So we have a branch of our company called Blue Learning, which is the 2 curriculum base for our -- our schools, and 3 they write the Premier curriculum. 4 The group that writes that takes the Core Standards and 5 the Arkansas Standards and makes sure that the 6 7 stuff that's being presented to our students here in Arkansas meet the Arkansas Standards. 8 9 They are not a Texas-based curriculum that we 10 buy that comes in here and that -- and we try and do that because they are not a Common Core 11 12 state and so we're very careful to make sure that that occurs. And then for each class that 13 a student has there is -- there is X amount of 14 15 units and they have to show proficiency 16 throughout the course of those units before 17 they are actually given credit for that unit, 18 and that's where they work at their -- they can 19 work at their own pace. 20 CHAIRMAN PFEFFER: Okay. 21 MR. GAST: Okay? 22 So in the presentation the DR. BOYD:

applicant addressed meeting the social and

emotional needs of students, and we would like

to hear a little bit more about how they will

23

24

meet the social and emotional needs of students
that are identified as gifted and talented.

MR. GAST: Go ahead.

MR. FELTON: So one of the things that we try to do is, of course, through our identification process using assessments as well as we have a college career coach, and we developed partnerships we like to be proud of. In particular we have a program, Premier Prep, in which we allow students to take advance placement courses as well as concurrent college courses so they are earning high school credit and college credit at the same time. That -college and career coaches are constantly meeting with students to develop post-secondary plans and strategies to guide them in the direction they want to go. So, for instance, that person brings college personnel to the campus to meet with students to talk about the college opportunities they have. They take those individuals out to college campuses and participate in STEM events and college days as well.

MR. GAST: And one of the great outcomes of a question like this is it makes you look at

25

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

not only how you're doing with the social and emotional needs of your gifted and talented kids, but it also takes you a look at, well, how are you doing with the social and emotional needs of your regular ed kid or your special needs kid or -- and, you know, this entire population of the group of the kids that we deal with have their own set of individual social and emotional needs. And so, you know, one of the things that Premier High School does is they wrap a lot of those things in and we provide a lot of different services. Some of them obviously contracted out where people can come in.

But if we have a student that comes to us, whether they are a gifted and talented child or something else and they have a particular need, you know, we have our own Special Programs

Director in Ms. Pearson here who is very involved in not only the special ed and the 504 side of things but also any other needs that those kids might have, whether it be from speech to occupational therapy to, you know, whatever it might be to make sure that we are available to provide individuals for those

students. And it is in our budget as well, and services to provide those kids to -- excuse me, I'm losing my voice, sorry -- to meet the needs of those particular kids.

MS. HYATT: Mary Claire Hyatt, Department of Ed.

So -- oop. Oh, please.

MR. GAST: She's getting used to me speaking up on her. No.

We've been working very closely with the attorney as well as with the APSRC and with Tripp on the waivers and he is -- if I call him an expert he's going to feel a lot of pressure -- but an individual that is going to be doing some help or helping us through some of the answers to some of our waivers.

MS. HYATT: Thank you.

So to piggy back off of that, after the second legal review, I had an opportunity to speak with Mr. Walter about some of their remaining legal issues, and we were able to get on the same page about a lot of stuff, so a lot of the remaining issues have been resolved with the exception of a couple of the standards, walk overs, and one or two other areas, so I

anticipate that this will go pretty quickly 1 because there's not a lot left there. 2 So will you come join me? On number --3 CHAIRMAN PFEFFER: Do we have that extra 4 5 microphone for him? MS. HYATT: Would you prefer -- do you 6 7 have a preference? 8 MR. WALTER: No. 9 MS. HYATT: I'm going to do five and six 10 together, it's Gifted and Talented and then 11 Alternative Learning Environment. On both of 12 these the only remaining issue is a standards 13 transition, so rather than old Sections 18 and 19.04, it would be new Sections 2-G.1 and 2-I.1 14 15 for both of those. 16 So I think we're in agreement but --MR. WALTER: But for the record, Tripp 17 18 Walter, Staff Attorney, Arkansas Public School Resource Center. 19 20 I confirm on behalf of Responsive Ed. 21 MS. HYATT: Okay. I'm moving down to No. 9 now, which is Teacher Licensure and 22 23 Contracts. The first remaining issue is just 24 again a standards transition. So rather than

25

the old Section 15.03 and 15.02, it's 4-B.1,

4-B.2, 4-D.1 and 4-C.1, and 4-C.2 for the standards.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

MR. WALTER: Confirm and confirm that.

MS. HYATT: Okay. The second remaining issue was an outstanding request for Sections 5.02.4 and 5.03.2 of the ADE Rules Governing the Arkansas Comprehensive Testing Assessment and Accountability Program. As of yesterday at ALC, those have been approved to be repealed, so ten days from the day that they are filed, which I believe will be Monday. The issue was that those rules required that the assessment be administered by a licensed teacher, and if we have waivers of teacher licensure, that created some sort of issue. Those rules are being replaced by the Arkansas Educational Support and Accountability Act. Also that will be in effect on the same day, ten days from Monday, and they do not have that requirement It actually allows for the classroom teacher to administer the assessment, so I don't believe that there is a remaining issue there.

MR. WALTER: That -- that's correct.

Given the information that Ms. Hyatt has shared

with us, if that is indeed the case, if this will allow classroom teachers, whether licensed or not, to administer the State assessments, that that has -- and the standardized tests, that's what we were wanting.

MS. HYATT: So can we just confirm the rescission of the ACTAAP request?

MR. WALTER: I confirm that.

MS. HYATT: Thank you.

Okay. Moving on to No. 11, which is flexible schedule, kind of a similar situation, is that the ADE rules governing mandatory attendance for grades 9-12 have been repealed, those are already final so the repeal is -- is final now, so no waiver of those are necessary.

And additionally just a standards transition from the old sections to the new, so it will be 1-A.5.2, 1-A.2, and 1-A.6 will be the standards transition there, so I just need a confirmation of acceptance of that.

MR. WALTER: Confirm acceptance.

MS. HYATT: And I just wanted to allow the applicant a chance to provide you with some additional information, because one of the waiver requests is for a waiver from the 38,

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

which -- required courses to offer, and I know that that is not often granted and I wanted you guys to be able to have an opportunity to hear their reasoning behind that, so I'll let them provide you with a little bit of info.

MR. WALTER: Okay. Thank you. I'll go ahead and make some comments, and if there are any deeper educational concerns then I think
Mr. Gast or Mr. Felton could -- or one of the RES team members can explain that.

This is a waiver that's currently held by Premier's Little Rock school and also by So what the waiver -- how the waiver SIATech. is being used at Premier Little Rock and how it's going to be used at Premier of North Little Rock, if granted, is this: Obviously we know that graduation requirements cannot be waived, and that is not what we are asking for. The full 22 units required for graduation will be offered and taught as required. waiver does ask for is that the remaining 16 units out of the 38 be allowed to be offered on an as-requested basis. And my understanding is, and again, there may be some help needed from RES to further explain, that there is an

individualized plan that's set up for every student to address that, obviously, trying to set them on the path as soon as possible to recovering credits and graduation.

But, again, this -- this waiver, although as Ms. Hyatt said correctly, it's not commonly granted, this is the specific reason it is here, because of their program and to allow for the model's implementation and making sure that they can get students graduated.

MR. FELTON: Just to piggyback off Tripp, because we do have a lot of students who are -- typically just have a few credits left to graduate, it allows us to tailor the student's schedule according to their needs.

And so just to give you an example of that, I was meeting with a student just a couple of days ago, a senior, just transferred in. The student needed just three more credits to graduate, had previously dropped out, and we started having a conversation about what do you want to do after high school, and that student commented they wanted to actually potentially work in business. And so we explored our course catalog and that student wanted to take

accounting, and so we got that student set up with a computerized accounting course that we have available through Arkansas -- Virtual Arkansas.

MS. HYATT: Okay. If it is okay with you guys, I'm going to come back to No. 12 because I know we have to have a little bit more conversation about that. So I'm just going to skip to No. 13 and come back to No. 12.

So 13 is Administrators. This is just a simple transition of the standards, so it will be 4-B.1 and 2 and 4-C.1 and 2 under the new standards. So just need a confirmation on that.

MR. WALTER: We'll confirm that.

CHAIRMAN PFEFFER: Okay. And, Ms. Hyatt, before you move on, if you think 13 -- or

No. 12 will take a little more discussion, I was going to see if any of the Panel members had questions about any of the other waivers that have been discussed?

No?

Okay. All right. Let's go on then.

MS. HYATT: Okay. Number 12 is Student Services. So it encompasses guidance

counseling, library media program, and school nursing services. I think we have come to an understanding -- an agreement on the guidance counseling and library media, but I do think there is kind of an outstanding, just, issue with the school nursing services.

So it is ADE's position that a waiver of Arkansas Code Annotated § 6-18-706 as well as 2-E.1 and 2-E.2 under the new standards would be prohibited; as a health and safety law or rule, that is not allowed to be waived.

And then Arkansas Code § -- and I will give it to you just for your info, is -- no, it's on the front, not the back -- is 6-23-401(b), and it outlines things like graduation requirements, health and safety laws and rules that can't be waived.

And I think Mr. Walter has some comments of his own there.

MR. WALTER: Yes. Thank you.

Our Executive Director, Scott Smith, has talked to Commissioner Key about the whole waiver transition process that the Department is undertaking and his concerns as to that process, and as a result of that discussion,

it's my understanding that's why the six charter schools that were originally scheduled to be, I guess, your first topic and order of business this morning to discuss their transition waiver plans or maps were not -- were not presented to you today.

at this time to allow for further clarity and this conversation with the Department to obtain further clarity in this area. Since this is a new position they are taking as to the health waivers as to them being prohibited by 6-23-401(b), this is the first time this position has been taken by ADE legal, and there are many other charters that hold these same waivers. So we will withdraw at this time but we do reserve the right to come back and make a request at a later date.

CHAIRMAN PFEFFER: And I think that the discussion that we had this morning as far as mapping out the -- the waivers lends itself to this as far as either if -- if -- if a group consensus isn't reached, then any individual charter would certainly be welcome to come back so that we could discuss that further; so --

1 MS. HYATT: And just a point of clarity for you-all. I think that the -- the 2 comprehensiveness of the changes to the 3 standards really shed some light on some --4 5 some areas where there might have been some inconsistencies or some areas for improvement 6 7 by the Department, and so this is -- that's 8 kind of why some of them were granted in the 9 past and -- and the position has kind of 10 changed. So I just wanted to clarify that in 11 case you were wondering. 12 And if there aren't any questions about 13 that, we can move on to the -- the other parts of Section 12. 14 15 Okay. Under the new standards, the applicant will need 4-E.1 and 4-E.2 for 16 quidance counseling; 4-F.1 and 4-F.2 for 17 18 library media specialist; and 2-C.1 and 2-C.2 for student support services plans. 19 And then I have a question about one of 20 them if you just want to confirm those first 21 22 and then I can ask my question. 23 Yeah, I said those. And 2-D.1. 24 MR. WALTER: Okay. Thank you. 25 Responsive Ed does want to go ahead and

request waivers of new standards for accreditation 2-D.1, which I believe deals with library and library media specialists, in general, and this goes to the 6-25-101 et seq. statutory waiver as well, that they want -- basically what they want to do, as again, as per their model and as in operation now at all their Arkansas schools, is they want the flexibility to be able to hire somebody as a Arkansas library media specialist who is not necessarily certified in that area, and also they want some flexibility as to the library, the media collection, so to speak, given the wide range of digital materials and programming that they have.

And also on the student service support plans, we would also ask that 2-C.1 and 2-C.2, for a waiver of that. Again, as with -- as with virtually all of these, it's not that Premier is seeking a diminution of any type of services, such as guidance counseling, licensed media -- library media specialist, etc., it's just the flexibility of being able to do it in a way that relates to their model.

MS. HYATT: And just a point of

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

clarification, when Mr. Walter was talking, he said 2-E.2, which is one of the prohibited school nurse waivers. I believe you meant 4-F.2, which is library media. So I just need you to clarify that for me.

MR. WALTER: Okay. 4-E, 4-E.1 and 4-F.2 and 4-F.1 and 2 were ones that -- right -- ones that Ms. Hyatt suggested that we will agree to. The ones I was attempting to add more information on in support of our request were 2-D.1 and 2-C.1, and 2-C.2. As I understand it, 2-D.1 deals with media collections and libraries, 2-C.1 and 2-C.2 deal with student support service plans.

> MS. HYATT: That's correct. Thank you.

Okay. The other outstanding issue was just on the prohibited -- it also deals with school nurse, the school nurse prohibition. But it's the ADE Rules Governing Public School Student Services, just Section 301.6 which deals with school nurse services. And that's my last thing on that.

MR. WALTER: So two comments on that. First we would urge our same concerns as to that as part of the health services waiver.

Secondly, just make sure Ms. Hyatt and I have an understanding. It's my understanding is the rest of our request for 6-18-1001 et seq. series is acceptable, with the exception of that for now.

MS. HYATT: That's right.

Okay. That is the last of any legal concerns on this one, so unless there are any questions.

CHAIRMAN PFEFFER: Doesn't appear that the Panel does have questions at this time. Thank you.

Okay. So with those issues having been addressed, we'll start in with questions from the Panel about the application.

So I'm going to start this time with Dr. Kremers, see if she has any questions she wants to ask.

DR. KREMERS: Under the measure -measurable goals table, No. 4, where all are
enrolling in post-secondary, enrolling for
post-secondary program or continuing education
of some kind, right now your -- it looks like
your curriculum is designated through Blue
Learning, you mentioned, for the career and

technical courses as well; is that correct? 1 MR. FELTON: We tend to lean on Virtual 2 3 Arkansas. DR. KREMERS: Okay. Of the courses that 4 5 you have listed, the Intro to Criminal Justice, Criminal Law, Foundations, Family and Consumer 6 7 Sciences, have you had communication with the 8 Department of Career and Technical Education 9 that those courses are also Career and 10 Technical Ed-approved courses and aligned with 11 those courses? 12 MR. FELTON: Yes. And then we are also 13 able to use the ADE's data center, it also gives you the information as well. 14 15 And one of the things we're hopefully 16 implementing is the JAG program. We recently met with Kathy Lee Turner trying to implement 17 18 that in Little Rock, and giving students the ability to earn credit for some of the work 19 20 they are doing already in the community. 21 DR. KREMERS: Okay. MR. GAST: We had reached out to 22 23 Ms. Turner several months ago to meet with us 24 and they actually came to our district office

and we had a meeting to start planning coming

forward how we could implement CTE not only in a career model but in other models as well.

MR. FELTON: If I could comment. One of the things we're trying to grow into -- are you familiar with Workplace, Workforce and Career Grades Certificates --

DR. KREMERS: Uh-huh.

MR. FELTON: -- through work ease assessments and trying to give the students opportunity to earn those certificates, so that way when they go out to employers it makes them more marketable because they have the 21st Century skills.

DR. KREMERS: Okay. When you have -- are these courses delivered online or is that hybrid on the career and technical courses?

MR. FELTON: Most of those are offered digitally through Virtual Arkansas.

DR. KREMERS: Okay. And one of the questions I have with that is that many of the career and technical courses have hands-on components. So through the Career and Technical Education Pathways there are means for the hands-on components, there is equipment related to that for learning, enhancement of

learning. So if it's online, whether it's asynchronous, synchronous, that's why my curiosity is with the Department of Career and Technical Education, so we would know for sure if you could confirm or not whether there is collaboration with CTE so we know there is the hands-on component through the approved courses through CTE.

MR. FELTON: Well, I'll confirm that we do plan working hand in hand with the CTE
Department to ensure that's going on.

DR. KREMERS: Okay.

MR. FELTON: And then any time we use a digital course, we actually hire a facilitator as well and that's able to engage in those hands-on activities. And then Virtual Arkansas instructors do a great job of providing us with a syllabus and that way if we need to provide instructions or supplies or materials for those courses, we do so.

CHAIRMAN PFEFFER: So, Mr. Felton, are you planning to do pretty much the same thing in North Little Rock that you're already doing in your Little Rock school --

MR. FELTON: That is correct.

CHAIRMAN PFEFFER: -- with the career courses?

So what might be good is Dr. Kremers

can -- you may not have been here earlier but

she is the new Deputy Director at Arkansas

Career Education.

MR. FELTON: Congratulations.

CHAIRMAN PFEFFER: So it -- it may be good that if you would be able to visit actually the Little Rock school and -- and get to know that better and then work hand in hand going through this year at the Little Rock location and that will help out also with that opening and any new courses that they may wish to add. Because in your model, if you are kind of continuously adding things based on student needs, that's probably something Career Ed would be very interested in and how could we support more on-demand time learning, but also for those students to complete career pathways and obtain those readiness certificates.

MR. GAST: Well, consider this an open invitation, you know, to work with us. And like I say, we -- I think you've learned over the short time that we've worked together, is

we don't just want to do, we want to make sure we do it right. And if you can provide us the type of information that will help us better make that particular course relevant to that child so that it's not just a course and they go and they never do something with it again, we are all for that and we would appreciate it. We really would.

CHAIRMAN PFEFFER: Dr. Williams?

DR. WILLIAMS: Yes. A couple of lines of questioning, if may make it brief.

You mentioned a meeting with the North

Little Rock Superintendent. And how did that
go? I mean --

MR. GAST: Well, we gave each other a hug at the end of it, if that means anything. No. But we actually did. He's a -- really a top notch individual, I thought. We --

I originally set up the meeting because I knew that with him coming in, I didn't know how much he knew, one, about charters and how much he knew about the Premier model and, you know, I understand that it's a little bit of -- in some districts can be a tenuous situation.

And I think that our philosophies are

very, very similar in that, you know, it's 1 what's best for that child and how we can help And I think when -- when I started them. explaining to him how I saw us fitting into their school district in being able to help with -- you know, with the kids in the credit recovery, he was very interested in that. And so I was very encouraged by the meeting that we can continue to move forward. You know, we've been talking for years that one of the keys to a successful charter is the relationship that they try or can build. DR. WILLIAMS: Uh-huh.

MR. GAST: You know, it's a shame that we have a part of the meeting that says, "Is there anyone in opposition, " and I think that we have to work and continue to work against in opposition and more into how we can fit in.

Now, I do understand the neat thing about Premier is we are a different type of school, we don't necessarily compete for the same kids, and that does make a difference as well. thought the meeting was very encouraging and went very well.

> DR. WILLIAMS: Okay. And my second line

1 is just that you-all have, looking at your sheet here, four schools currently, Northwest 2 Classical, Quest, Quest Pine Bluff, and Premier 3 Little Rock. 4 5 Could you kind of give us a status of those schools, how well they are doing? 6 7 MR. GAST: Sure. Of course, we do not -we have closed the Pine Bluff location. 8 9 DR. WILLIAMS: Okay. Pine Bluff is

> The Pine Bluff location still MR. GAST: was operating when the application was turned in, and so we listed it as a -- as a current That school has been closed out. school.

And the other three schools are obviously in operation. We graduated 25 kids from -from Premier this school year, and so we're happy with that.

The progress of the school up in Bentonville, the Northwest Arkansas Classical Academy, their numbers are outstanding. We have some work that we continue to do. Yeah, number top three schools in the state.

Our scores were a little disappointing they come in in some of the areas in Quest.

closed.

24

When you look at them and compared to the state averages and those types of things, they came in looking okay. But at the same time, you know, there is some -- some identification that took place on that campus and some programs that had already been put in place to try and to help raise the scores in some of those areas, you know, on that particular campus.

That campus has seen an interesting kind of change over in the last several years to the population of the group that we serve there, and that necessarily hasn't been -- they are coming up for renewal and you will get a lot better picture of -- of what we're doing at that campus coming up in December.

But overall our schools, we think, are doing extremely well. At the same time, when we know there is a challenge and there is something that needs to be worked on, we take it head on. And I believe I've got, with Ms. Bradford, probably one of the top administrators in the state of Arkansas, working at that campus to get it to where it needs to be.

DR. WILLIAMS: Okay. And just to kind of

close out, you gave a nice overview of the three schools. What about Pine Bluff, it's closed. Why was it closed?

MR. GAST: It was a closed -- it was a joint effort between us and ADE and Mr. Freddie Scott's department and us worked extremely close over the course of the year to transition those students over to other schools, to make sure that all the finances were handled appropriately, that all the equipment was handled appropriately.

DR. WILLIAMS: Was it a lack of performance, is what I'm trying to get to?

MR. GAST: Sure.

DR. WILLIAMS: Like Classical Academy is doing well in Northwest Arkansas; so can --

MR. GAST: Right. Premier -- Pine Bluff
School there were -- there were a number of
challenges. We had serious challenges with the
location of the facility. We opened the school
as a 5th -- starting in 5th grade and going up.
When those kids came in they were several
grades -- several grades behind, which was
difficult for us to move them forward.

Historically, if you look, we went back and

asked for K-4 and asked to be able to move the facility because of the disadvantages that we had within that particular building and where it was located and that request wasn't approved.

And so when we looked at, you know, and we talked about the financial stability of our main company, we were putting well over \$100,000 into a -- into the program, and when we thought what we needed was to give those kids a running start and that didn't occur, it became in our best interests, in that particular model for that particular area to possibly give another charter school who was maybe a little bit different, had a different look, to give them the opportunity to do that.

And in all fairness, what I think we -you know, we might look at is this Premier
model is something that could be an extremely
beneficial model, not only a Pine -- in the
areas we're in now but also in the Pine Bluff
area.

DR. WILLIAMS: Okay. Thank you. That's very helpful.

I was just looking at your overall

portfolio here and look like Premier model is just kind of the model that you-all have more schools in that model than the others.

MR. GAST: We have more in the Premier and now -- and the Founders model, the model that we have up in Northwest Arkansas is becoming an extremely popular model. Those are just a little larger schools.

The Premier has never been built to be a school that's going to have five, six, 700 kids.

DR. WILLIAMS: Uh-huh.

MR. GAST: You know, we capped it at 250. It would be a miracle if we got that particular high, but we want to make sure that we give everyone that wants a chance to go to a school like that to be able to go to that, but its design was to be a little bit smaller.

DR. WILLIAMS: Okay. Thank you.

CHAIRMAN PFEFFER: Dr. Owoh?

DR. OWOH: Couple of questions. In your application you mention several times Highly Qualified Teachers. I want to make sure it was clear that that's -- HQT is no longer in existence, that we have Arkansas Qualified

Teachers and they -- if you could address the assurance that teachers would meet those requirements prior to entering the classroom. MR. FELTON: Yes, you are correct. Basically we know that Arkansas Highly Qualified, basically, adopted the federal mandate that's required. In our interviewing and the application process, we ensure, using

> as well as licensure, and the licensure portal you guys provide us as well. And in the event

> college transcripts, official transcripts, and

that we have somebody that's not highly

qualified, that we need to put on an additional

learning plan, we ensure that's done through

the appropriate universities as well.

So, for instance, I got a teacher who is seeking additional licensure, they are going through MAT program that's been approved by the state.

DR. OWOH: Okay. I was just -- just caution, making sure that all the teachers meet the AQT --

> MR. GAST: Sure.

DR. OWOH: -- requirements prior to entering. And to realize the AQT is not a

23

21

22

24

pathway and that those requirements should be met prior to the teacher teaching a course.

MR. GAST: Yeah. And once again, one of the other benefits of a larger organization is that we have, you know, through our -- the talent ed portal that we have that's our application process and the way we go about doing things, we have many steps of checks and balances that are put in place to make sure that -- you know, the last thing I want is a call from one of these principals, saying, "Hey, guess what, I just hired so and so and I just found out." You know, we don't want to just found out, we want to find out long before we hire that particular applicant.

So a lot of those safeguards are put in place a lot of it though the size of our company that allows us to go ahead and do that because we have resources available to us that normally somebody who is just sponsoring one or their own particular charter might not have.

DR. OWOH: Okay. Did you --

CHAIRMAN PFEFFER: No. Go ahead.

DR. OWOH: The second question is in regards to the background checks. I know that

there was some previous waivers requests. And I just want to make sure that it was clear of the requirement to ensure that all background checks were done and completed.

MR. GAST: Yes, sir. And I will -- I will guarantee that. I don't want your child or my child in somebody's classroom that doesn't belong there.

DR. OWOH: Okay. Thank you.

CHAIRMAN PFEFFER: Okay. Dr. Hernandez?

DR. HERNANDEZ: So looking at a lot of the goals that were set up here, I see things in regards to literacy, math, science, and attendance all talking about increases. And so I know that it -- maybe -- you had mentioned this is going to be the same model that we have now in Little Rock, and so what we didn't have in December and what we have now is kind of an updated version of this last year's data. And so when I look at some of these things, you know, I see kind of a three-year trend of decreases in attendance rates, decrease in math and literacy and science. And so those, I guess, are concerning in -- in that I wouldn't -- wouldn't feel comfortable in

replicating that model somewhere else without hearing about what are some of the plans to address those and some of the reasons, you know, why we are seeing some of that.

In addition, kind of a decrease in ADM, so we are seeing, like, from about 127 students down to 95. And so where does that performance level and viability come into question there?

And does that concern you, you guys as a whole and what are you doing to address that that kind of gives us some comfort in replicating this model somewhere else?

MR. FELTON: One of the things that we're trying to improve on in particular through our PLC process is using the data. And we're conscious, we're going to own our data and we understand that the population we're serving, I may have a lot of 18-year-old ninth graders and 19-year-old 11th graders and seniors, and so trying to use that data to put plans together, interventions.

So we started RTI over in Little Rock a couple of years ago trying to ramp up our literacy and our math support as hiring paraprofessionals as well to work in the

classroom for those students who are,
typically, two or three who are struggling.

And then on the ADM, we continue to recruit and -- and try to advertise our program and to solicit and push the information out for people to increase their awareness, and so we like to think there is a lot of hope in that area.

One of the things that Mr. Gast commented on is we're not trying to be a 300-student school. We want to ensure that we are meeting the needs of our students. And I would like to think that our marketing efforts helps with that as well. And so like currently right now, even our school in Little Rock I think we're, like, 115 students. And we just constantly, because of the population we work with, we have students that get back on track and go back into the traditional district, and on the flip side we have students that are not being successful and are coming to the school as well.

And so we implemented an attendance committee, and that attendance committee meets each week. We actually put an attendance

incentive plan together to try to look at the trends of attendance and try to incorporate interventions, like home visits and incentive programs to try to get students to come back in school and understand the value.

MR. GAST: And I -- and I think that we have to be careful when we talk about what -- when we say replicate, what that means and what we're actually trying to replicate -- replicate and not. You know, every -- you know, every school has its own culture, every school develops its own set of -- of the way they -- they do things and whatever. And, of course, we don't have a baseline in North Little Rock right now so we have to base some of that off of what we currently have with one school that we're at. But, you know, our intent is, obviously, never to be happy with where those numbers are.

If you will recall at the renewal hearing,
I came out and I said, "If you're looking for a
school that's going to have these huge ACT
Aspire scores and be right on the top of
everything, you know, that's not what Premier
is and Premier never will be that." But that's

not to mean that we don't have successful kids, but it does mean that we have to look at those trends and we do, and as you can tell from what Dennis said, you know, we take some action in those particular areas.

And so any time you get to replicate a school, what that means to me is I get to take all the good stuff and then I get to start the programs that we can see we needed to work on Little Rock and start it at a higher level or a different level when we open up the next one.

DR. HERNANDEZ: So but -- but the intention is with these goals is to see increases and not be satisfied with decreases?

MR. GAST: Oh, that's correct. No doubt about it. I mean, but there is a difference between wanting the increases and doing nothing about it and then noting -- noting that you have some place that you have to work and then putting some type of plan in place to go ahead and target that and do that.

And so again, we own the data, like he was saying, and I don't think that that should be as big a concern. I think what -- what's more important is the direction that we're heading

and the plans that we've put in place to go
ahead and make sure that those types of trends
don't continue.

I was just going to mention, MR. FELTON: Steve talked about replicating, and one of the things that we try to constant revisit as a school is our why and our mission and vision. And ultimately we know we're trying to tap into a forgotten population that typically are just walking the streets of Little Rock and North Little Rock who are not even in high school and we're trying to get those students back engaged and understand the value of a high school diploma, and if we can continue to graduate 25 or 30 kids who otherwise wouldn't have had a high school diploma, then I think we're doing great work in at we're trying to do. the same time, we have a great team that believes in continuous improvement. That's the thing I like about -- that's what I like about the PLC process. Each year we're sitting down, looking at, okay, this is our needs assessment, these are the things we need to work on, these are the goals we need to set forth to become the school that we need to become.

1

1 MR. GAST: And, Dr. Hernandez, if I could just make one more comment in there. I think 2 one of the things that would be alarming to me 3 is if I saw our graduation kind of start -- I 4 5 mean starting to skyrocket, having our daily attendance at 160 and 170 all of a sudden and 6 us being looked at as more of a diploma factory 7 than an actual school. And I think that when 8 you see these fluctuations going back and forth 9 10 or the ADM, you know, it's not easy to graduate from Premier High School. You know, they can't 11 12 just show up and they get themselves a diploma. And that works but even for those kids that 13 have not -- have been disengaged to begin with, 14 15 you know, for us to grab them and re-engage 16 them is not an easy process to -- to happen, 17 but I think that some of the things that you are concerned about are also showing us that 18 it's a viable program and it's a program that 19 they can't just -- they don't have the 20 reputation that you just come and you get a 21 22 diploma, and I think that's important too. 23 CHAIRMAN PFEFFER: Mr. Wilson, do you have 24 any questions? 25 MR. WILSON: A couple.

CHAIRMAN PFEFFER: Okay.

MR. WILSON: Mr. Gast, Mr. Felton, I'm impressed that y'all reached out to the North Little Rock Superintendent, which I think is fairly new at that job --

MR. GAST: Yes, sir.

MR. WILSON: -- but been around North

Little Rock for a while, I believe. I think

that's really good that y'all are communicating
with each other.

And did I understand you to say that you might be able to work out some kind of concurrent credit program with North Little Rock public schools?

MR. GAST: Well, Steve's vision here would be that we would be able to work -- that we could work something out or it could evolve over a course of time.

Basically what I did in that first meeting is I asked the superintendent, if we continue to move forward here and if things, you know, go well, would you entertain the -- the -- the idea of possibly me visiting with your principal or visiting with your counselors or -- and getting some more ideas from people

1	on how we might be able to work together. But,
2	you know, professionally, when I was a
3	superintendent, I certainly wanted whatever
4	outside entity it was to come to me first and
5	ask me if it was okay to do that. And so we
6	didn't get that far yet, but in my vision of
7	where I would like to see things going, I could
8	see a number of different partnerships
9	developing between our school and the North
10	Little Rock School District
11	MR. WILSON: I hope you pursue that.
12	MR. GAST: but, frankly
13	MR. WILSON: I hope you pursue that.
14	MR. GAST: it's way too early to state
15	what that would be.
16	MR. WILSON: I hope you pursue that.
17	MR. GAST: Okay.
18	MR. WILSON: And I hope the same thing
19	holds true with Little Rock as well,
20	communication between the charter schools
21	and and the public schools.
22	Tell me about your briefly about your
23	open house that you had in April, what sort of
24	response did you get from the community there,
25	if any?

MR. GAST: We didn't get any. We didn't have good response at all as far as attendance at those particular meetings. They were advertised, they were put out there, but there again, you know, we look at such a different group. This isn't the -- generally the parent populations that are -- are going to be showing up, you know, for a particular meeting. Now the plan is us getting approved, and now as we move forward we start advertising and continuing to have, to have meetings now to say, a school is coming and if you're interested, you know, here's where you go from there and here's how you have them.

And so, you know, the other part of it is any of these meetings, the way our -- the way the calendar is set up, you know, we're asking people to come and be interested in a school that might not open for a year and a half, and that's a -- that's a tough sell, period, more or less to a community where you're trying to get the -- the kids that are disengaged.

MR. WILSON: And so many of these young people know how to use Facebook and all that stuff, that's the way to get the message out to

1 them, I guess.

MR. GAST: You're not on Facebook?

MR. WILSON: No. Hell, no. And I'm not going to be either.

MR. FELTON: I was just going to comment on the fact that, I mean, we are -- since we are Premier High School of Little Rock, we are an Open-Enrollment Charter, we do have family members and parents who are from the North Little Rock area and the Sherwood area and beyond, and so I have had conversations with those parents in our meetings about it. And it's interesting because those parents are just as excited about that opportunity to have as well. Because I do have students that are coming as far as North Little Rock to come to school for that opportunity.

MR. WILSON: Okay. Thank you.

CHAIRMAN PFEFFER: Okay. Any other Panel questions regarding the application?

No?

Okay. So if not, we'll direct questions to see if there is anything that our ADE staff has heard today with regards to the different systems that the Panel might need to consider

1 or questions that have come up for the applicant? 2 3 Ms. Hyatt, looks like she has a question. MS. HYATT: I just wanted to confirm on 4 5 the record, and Mr. Walter -- oh -- I guess my peripheral vision is just going. 6 7 MR. WALTER: I'm stalking her. MS. HYATT: On No. 9, Teacher Licensure 8 and Contracts, on the waivers, I just want to 9 confirm, at Cheryl Reinhart's' suggestion, that 10 11 the waiver has been changed from 6-17-401 et 12 seq. for teacher licensure just to 6-17-401, so 13 we've avoiding any prohibited waivers of background checks and stuff like that. 14 15 MR. WALTER: That's correct, with one 16 comment. And I know it's -- I know I think the 17 way it's listed on the waiver list is teacher 18 licensures its subset and superintendents another. But we have asked for a waiver of 19 20 6-17-427, which is superintendent licensure, to go with 401, which is teacher licensure. 21 22 With that comment I'm in agreement. 23 DR. PFEFFER: Okay. 24 MS. HYATT: That really does conclude any 25 legal concerns at this point.

	243
1	CHAIRMAN PFEFFER: We appreciate that.
2	And so if if there aren't any items
3	that or additional items that we need to
4	take under consideration, then we can go ahead
5	and move to the decision phase, if we're going
6	to approve, deny, or take this matter under
7	advisement until a later meeting.
8	So at this time, if there isn't anything
9	remaining, I would entertain a motion from the
10	Panel.
11	MR. WILSON: So move. I move the
12	approval.
13	CHAIRMAN PFEFFER: I have a motion to
14	approve.
15	DR. OWOH: Second.
16	CHAIRMAN PFEFFER: And a second. All
17	those in favor, say, "Aye."
18	PANEL MEMBERS: Aye.
19	CHAIRMAN PFEFFER: Opposed?
20	Okay. The motion passes.
21	Congratulations.
22	And we will record our comments and give
23	you feedback.
24	Okay. I think we're just about finished
25	with our responses. So, Dr. Hernandez?

DR. HERNANDEZ: I voted -- I voted for the motion because of the overall plan and support of Responsive Education, but have some lingering concerns about the model meeting their overall goals as outlined.

CHAIRMAN PFEFFER: Dr. Kremers?

DR. KREMERS: I voted to approve the motion. It appears the financial team is in place for some solid financial oversight, they have some implementation models in other places that have shown students are graduating its risk, high need populations. Utilization of data that is focusing on the student. I do have a little bit of concerns just on the CTE, the hands-on apprenticeship type of experiences and not being just solely online for some of those things.

CHAIRMAN PFEFFER: Okay. Dr. Owoh?

DR. OWOH: I voted for the motion to
approve the application. I felt that the
charter school application and presentation
both address the current need of the
geographical community as well as the student
community in that setting and provide a
detailed explanation of the supports that will

be provided to both the students and the educators.

I am concerned about the assessment results and so I definitely would like to continue to see how the educators and students would be supported as we move forward.

CHAIRMAN PFEFFER: Okay. Dr. Williams?

DR. WILLIAMS: I support the motion.

Premier is proposing to work with slash creating educational opportunities for a population of students that is not currently being addressed in that geographic area.

CHAIRMAN PFEFFER: And, Mr. Wilson?

MR. WILSON: I supported the motion. I was impressed with that there has been communication between Premier and the public school districts as well, and I'm impressed with their good track record otherwise in Little Rock and -- and other places.

CHAIRMAN PFEFFER: Okay. Again, congratulations.

And we hope that as you've listened to the feedback you realize that we -- we understand that you're serving a unique population of students, but that we would like to be able to

1 continue to work with you, support you to see how maybe some of those concerns can be 2 alleviated, and welcome the opportunity to come 3 and visit and work with you in this planning --4 5 upcoming planning for that school year. Dr. Hernandez, in some of his concerns 6 7 about -- about the goals, I think that as we have the opportunity to work with you-all on 8 that district plan of support and your school 9 10 support, your school plans, that -- that are developed over time, that will be a good 11 12 opportunity, I think, for us and you-all to 13 engage in good conversation about what are those, what are those evidences of achievement 14 15 for -- for students that are -- and -- and how do we help you help them. 16 17 So anyway, we look forward to a lot of 18 conversations coming up. Thank you. And, Panel, do you need a five-minute 19 20 break or are we ready to keep going? Everybody is good? 21 HEARING OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL 22 A-5:

PROLIFIC LEARNING ARTS ACADEMY:

move to the final item on our action agenda

DR. PFEFFER: Okay. We will go ahead and

23

24

25

APPLICATION:

1 today.

MS. PERRY: Prolific Learning Arts

Academy --

CHAIRMAN PFEFFER: Let's let everybody get transition out.

Okay. We're going to pause for about a minute or so.

Okay. So our final item is the application for the Prolific Learning Arts Academy.

Ms. Perry, you're recognized.

MS. PERRY: Prolific Learning Arts Academy is a proposed Open-Enrollment Public Charter School to be located within the Little Rock School District. The sponsoring entity is Aviate Through Knowledge, Inc. The applicant is -- is requesting to serve students in grades 9-12 with a maximum enrollment of 350 beginning in the 2019-2020 school year. The applicant has notified affected districts of this proposed public charter school.

ADE staff reviewed the application, and concerns were shared with the applicant for response. The application, the ADE evaluation, and the applicant's response are included for

	248
1	the Charter Authorizing Panel.
2	Here on behalf of Prolific Learning Arts
3	Academy today we have Mr. Edmond Davis, the
4	PLAA Executive Director; Ella Sergeant, PLAA
5	President of BODs; Michael O'Leary, PLAA Board
6	Member; Trey Chandler, CPA; O'Mont Wiley, PLAA
7	Board; Rachel Belmon, A+ Program Coordinator;
8	Kendall Ashley, Sponsoring Board; and Monica
9	Davis of the Sponsoring Board.
10	CHAIRMAN PFEFFER: So will all
11	representatives of the application and anyone
12	speaking in opposition please stand to receive
13	the oath.
14	(WHEREUPON, the witnesses were sworn by
15	the Chairman.)
16	CHAIRMAN PFEFFER: Okay. Thank you very
17	much. And we will begin with the presentation.
18	If you will come forward and state your
19	name and position for the record, you'll be
20	recognized.
21	MR. DAVIS: Sure. My name is Edmond
22	Davis, Executive Director.
23	CHAIRMAN PFEFFER: Okay. Mr. Davis, you
24	have 20 minutes.
25	MR. DAVIS: Yes, ma'am.

Well, I want to say thank you, Board, and thank you for the introduction, Ms. Virginia.

I appreciate that. And to everyone here I will be introducing to you for the Prolific Learning Arts Academy, a/k/a we also know each other as PLAA.

Our mission, dedicated to empowering learners to become prolific leaders through high quality educational standards, the arts, parental initiatives and in real-world best practices for the 21st century.

Our vision. PLAA is dedicated to becoming a world-class Open-Enrollment free Public Charter High School that strategically employs integrated arts, parental initiatives, and social responsibility into the curriculum. This is, of course, to increase student achievement moving forward.

I'm going to let you-all look at the image here. This is 145 years of educational experience before you; this is the Board of Directors. Of course, from the charter schools to military academies to high schools to collegiate level ranks, to middle schools, you have different genres of education, 145 years

on that film right there. That's my Board of Directors. They hold me accountable.

Actor, Director, and Activist Mr. Wilbert Cobbs, they call him Bill Cobbs, he's an advisor to PLAA's decorated board. Mr. Cobbs, for those who don't know, was the man that shot Wesley Snipes at the end of New Jack City. He is also a counterpart to Whitney Houston in the Bodyguard, and Mr. Bill Cobbs is also starring with Ben Stiller in Night at the Museum. He is just a phone call away from giving us advice moving forward as a 50-year veteran of the arts.

Another ambassador is an -- Arkansas's own American comedian James Lewis, also known as Lil JJ. He's a college graduate and, of course, he's in Netflix now but, of course, this person right here stars with Queen Latifah in Beauty Shop and also the Nickelodeon series Just Jordan.

PLAA's proposed location is at the epicenter in the most -- arguably the most busiest street that we know in southwest Little Rock, that's the intersection of Geyer Springs and Baseline. We would say that's pretty much

the line of demarcation, if you will, for southwest Little Rock. This location is 6210 Baseline Road.

The American Tae Kwon Do building, the old one, is 6210 Baseline Road, and the footage, the square footage there is about 36,000 square feet, and the building was built in 1983, it's still good, we've been there several times. This is the proposed location for Prolific Learning Arts Academy, also known as PLAA. And it's also right across the street from one of our potential mentors -- one of our potential partners, that's the Dee Brown Library.

These are the programmatic features of Prolific Learning Arts Academy. We have -- excuse me -- we have the three-fold arts infused curriculum; we also have the Parental Involvement Education, we also call that P.I.E, and I'll explain a little bit later to y'all what P.I.E. means. We've got personalized learning because these under serviced individuals we will be serving, this is where personalized learning comes into play.

We've got social and civil responsibility.

That's something that's going to stand us

	252
1	differently and set us apart from other
2	schools, that being public charter schools.
3	And career college readiness.
4	Now, how is PLAA different? Dr. Jeremy,
5	do you like Spiderman?
6	DR. OWOH: I do.
7	MR. DAVIS: Okay. Now, of course,
8	Spiderman is not only a superhero, he's also an
9	artist. For those who know, Peter Parker was a
10	photographer working as a side hustle, if you
11	will. So we would just want to let you-all
12	know that you can tie arts into things like
13	this in moving forward.
14	PLAA will infuse the arts into its
15	curriculum by using the A+ Model Program, and
16	of course, we're big on arts.
17	And without further ado, we have one of
18	our state leaders here that's a Program
19	Director for the A+ Program's model. Right now
20	I would like to introduce to you Ms. Rachel
21	Belmon. Come on up, Ms. Rachel.
22	MS. BELMON: Thank you, Edmond.
23	All right. Good afternoon. I'm coming to
24	you as a representative of Arkansas A+ School,
25	which is a program under the University of

Arkansas Fayetteville, and we are excited about the potential to partner with PLAA and having PLAA designate as an A+ School.

A little bit about A+ is that it provides a whole school transformative model that some of you, I believe, are familiar with, and it allows for teachers to receive professional development for a three-year implementation in how to infuse and integrate arts into a daily experience for students. So it's not taught in isolation, but it's actually a part of how curriculum is introduced and assessed daily.

Edmond and I have talked a lot about how to bring artists into the school so that it's not all just taught in isolation. We've talked about how A+ will help support in the summer with unit planning and lesson planning through the arts; we also talked about how the fellows in A+ will provide support to those teachers, so that no matter the teachers' background or experience level, they are still going to receive support in meeting the goal of infusing arts into a student's everyday experience at PLAA.

MR. DAVIS: All right. Thank you,

Ms. Rachel.

And, of course, in this next slide -- I
won't read it all verbatim. In fact, I'm going
to take off my jacket real fast right here.
Thank you, sir. Pull this off. I'm going to
move around and be little bit more mobile.

Of course, we will foster this model, the A+ Model. Right there you see a set of commitments. These commitments are something that's essential to the development of the A+ Model, which will be a partner with Prolific Learning Arts Academy.

Now, I want you-all to take a good look,
Mr. Wilson, at this three-fold arts curriculum.
We will use multiple levels that talk about the
arts, but first let's look at the arts infused
curriculum. It will be content heavy, that's
where we're going to nail it home with regard
to the classroom for the arts.

The second part, okay, we will foster the arts with our project and community-based learning for our students, this is outside and inside the classroom.

And last but not least, we will use arts to enhance the social and emotional learning

for students. Research tells us this is a great route to go about and that's what PLAA is designed to use, this three-fold arts curriculum fashion. This is what we're going to do, this sets us apart from other schools moving forward at Prolific Learning Arts Academy.

You think children don't need the arts in the 21st century? Think again. They really need arts, and is here an arts education that teaches children to problem solve, Mr. Wilson. Also self direct. It talks about being socially and civically responsible, also to be fluent in technology, those are some of the things it talks about.

Now again, getting back to comic books, whether you like the Marvel series or the DC Comics. Matt Murdock. Dr. Williams, you know who Matt Murdock is?

DR. WILLIAMS: Daredevil.

MR. DAVIS: Yes, sir. Let's give him a hand, y'all. That was Daredevil. He got me off on that one. Daredevil is a pianist. Look at him, he's an artist. He is also blind, by the way. I know Dr. Williams knows about that.

But also Colossus. Colossus was an artist as well, he was one of the original X-Men. And so again, this is not about cartoons and comics, it's about esteem and the arts. And, of course, we can take comic books and all of these types of characters, you would be surprised who else is an artist. Super Girl, by the way, was a sculptor. And I digress.

Moving forward, here we go.

PLAA plans to implement the Four Cs

Instructional Model to prepare students for a

global society. Now, of course, we're talking

about collaboration, communication, creativity,

and critical thinking.

PLAA's classroom instruction is a tale of two sides. We're leaning more towards the B side, but I'll show you what the A side is.

And, of course, the A side it says teachers knows everything. That's tradition. 21st century like PLAA, we're talking about teachers as learners.

Of course, side classroom A traditional, it says kids listen. Classroom B, Prolific Learning Arts Academy, kids think or children think.

1 And lastly, of course, finish pages at the traditional level. What PLAA is going to talk 2 about and what we're going to be all about is 3 problem solve and create, and that's what 4 5 Prolific Learning Arts Academy is all about. Of course, that side on the right, 6 7 Dr. Jeremy, is good for robots -- okay, my left side -- I'm sorry, but on my right, that's good 8 for young people, that's moving forward. 9 10 The ACT Aspire will be used to -- as an assessment -- excuse me -- as a summative 11 12 assessment to measure career and college 13 readiness. Of course, in 9th and 10th grade, we know that; but for 11th and 12th grade, it 14 15 will be the traditional ACT. The MAP Assessment will be used as an 16 17 interim tool to precisely measure growth and performance. 18 Do we all learn the same? Dr. Angela, do 19 we all learn the same? 20 21 DR. KREMERS: No, sir.

from Dr. Albert Einstein, "Everybody is a

22

23

24

25

no.

MR. DAVIS: We don't all learn the same,

genius. But if you judge a fish by its ability

Not at all. Okay? But look at this quote

to climb a tree, it will live its whole life believing that it's stupid." This is quote, unquote. Okay?

PLAA will personalize learning to meet the diverse needs of students. Now again, in this demographic ZIP code we're talking about, we're talking about under-serviced, we're talking about under-resourced individuals, for the most part. We're talking about personalized learning.

PLAA will align its curriculum with the Arkansas Academic Standards. English for Speakers of Other Languages, ESOL, PLAA will support the use and accommodations in classroom instruction and assessment to ensure that students will have access to instruction and assessment based on ESOL standards.

Now, I speak four languages but I'm speaking English right now, so the students will have multiple ways of getting this out there.

Now, how is PLAA different?

What kind of pie do you like, Dr. Pfeffer? What kind of pie?

CHAIRMAN PFEFFER: All kinds. All kinds,

so I can't even pick.

1

2

3

4

5

20

21

22

23

24

25

MR. DAVIS: She likes all kinds of pie. Okay. All right. Yes. I like apple pie, I like peach pie, but check this kind of P.I.E. PLAA has a parental engagement education. That's what P.I.E. means when you're talking about these acronyms. So when you hear Ed Davis talk about P.I.E. we're talking about Parental Involvement Education. This parental involvement, I just you-all to look at this, this graph right here. It's not about students, it's about their parents. So it says 54 percent, when you're talking about being a part of the PTA. The higher the tax bracket, the more the parents are involved in school activities. Okay. The lower the tax bracket, the lower you see these numbers are -- are relevant on the screen here. You've got the lower SES, socioeconomic status, okay, for volunteering in classroom committees and things like that. So again, the more you get the parents involved, the more the students' grades goes up essentially. So PLAA is about getting students' parents involved moving forward, you have to have that parental involvement

education.

PLAA will implement Dr. Epstein's framework on involvement, which includes these six principles. Okay. These six principles, one is parenting; the other one is communicating; one is volunteering; the next it says here is learning at home; decision making; and collaborating with the community. And that goes back to our foundation we're going to talk on a little bit later.

Again, how is PLAA different,

Dr. Hernandez? How is it different?

Social responsibility. Everyone say

"social responsibility."

AUDIENCE: Social responsibility.

MR. DAVIS: That's very important. A lot of schools don't talk about this. There is a lot of A students, B students getting gunned down because they are socially incompetent. We don't have these conversations too much. It should be a standard all the way across the board from the college ranks on down to elementary school now. This is 21st century. So again social responsibility.

There's a picture of arguably the most

famous cop in American, Tommy Norman, who doesn't know him. But again, he has a great relationship by community policing.

What PLAA is planning on doing is, when we're talking about infusing the arts with community and project-based learning, we're learning inside and outside the classroom. Our students need to be scholastically competent, yes, they do; but also socially and civically responsible, and that's one of the ones that PLAA has. And there's a video down there at the bottom, for those with smart devices, you can look up Tommy Norman and Prolific Learning Arts Academy or the respond-i-bility and you will see the video that he submitted on behalf of support for this school.

Research states that the arts foster social responsibility. This is true. Okay.

I'm a 3D kind of guy, data driven decisions.

That's what it says when it comes to the arts.

To help enhance student's social and emotional development, we have Dr. Wyngaard's four Rs, and those four Rs are relevance -- okay -- respect, relationship, and responsibility.

Arts improve social and emotional development.

PLAA plans to implement the Elevate Your Game Mentoring Model, which infuses the arts again and mentoring.

I had a chance to talk to the founder of this program, his name is Mr. Michael Freeman. You can Google him as well. He started this a number of years ago, he has met much success out in California with mentoring and using the arts in the curriculum, in the curriculum model moving forward. And again, PLAA plans to partner with Mr. Freeman and to initiate the Elevate Your Game into our fabric.

Again, there we go Dr. Williams, we've got Green Lantern, we know that's DC Comics, okay, and also the Wasp. That's still in the movies now with the Ant, I think the Ant, that's in the movies now. But again, you've got Marvel and DC Comics, those two again essentially are artists. Hal Jordan, you all know that guy, he played a couple of years ago in the movie. He, of course, is an architect. And the Wasp, she's a fashion designer. Okay. So now you have the arts, a lot of superheros are artists.

And that's something that we just wanted to give you some tidbit piece of information there.

So why is PLAA needed? Prolific Learning
Arts Academy, PLAA, is needed because there has
been a lack of high school options in southwest
Little Rock for over 50 years. Okay?

And to touch a little bit more on that, I would like to invite to you -- up to the mic is Mr. Michael O'Leary. Mr. Michael O'Leary is a retired military specialist and seasoned educator.

Mr. O'Leary?

MR. O'LEARY: Well, one of the things that we noticed, and I know the question is going to come up, why, why is this charter school needed, why is it needed at this particular time.

The district in question is getting ready in the future of 2020, as I understand it to combine two different high schools together in into one location. Anyone who has been a high school administrator and such knows that districts have their own problems, schools have their own problems, but when you bring two

schools together from two different communities, there is bound to be many problems that are going to occur.

Having a charter school provides the school district an opportunity to give kids another chance, another place to go to to possibly be successful.

As educators I think, and I've been a life long educator for 40 years, I think we have the obligation to provide -- try to provide young people opportunities to be successful. You're all educators and I think you would agree that having another avenue, pathway, where students could go either for a semester, for a year, possibly even graduate, because the public school over here is not working out for them, this gives them the opportunity to be successful. That's why we think that there is a real need.

The community, I think, would get behind the opportunity; parents would look at it as an alternative, when it's not working out for their children. And in the end, if we can help young people be more successful by changing their location and possibly the venue of

education that they're getting, then we've been successful in accomplishing that.

MR. DAVIS: Thank you, Mr. O'Leary.

According to the Arkansas Division of Youth Services, African-Americans make up of nearly 20 percent of the state's youth population but represents 60 percent of the children locked up. Talking about the school to prison pipeline, check out this next slide, and keep your mind on that one there.

This next slide it says here, the percentage of high school dropouts by age 25, again, look at the disparity, ladies and gentlemen. African-Americans right there and Hispanic/Latino Americans right there. Again, it's definitely mind boggling, to say the least.

But what PLAA is doing, PLAA is designed to help minimize that, to help counter that curve when it comes to the highway to prison pipeline and also high school dropouts.

And we've got another slide I want to show you here. We all know that Little Rock is about 200,000 people. Of course, if we look at the number within the ZIP code where PLAA is

projected to be, that's 72209, it's 81 percent minorities of color: African-Americans are 64 percent, Latino-Americans at 17.3 percent, and my stats are from, at the bottom, the census down at the bottom.

So again, you're taking 81 percent of the minority group and just centering an arts academy right in the middle when data tells us as educators that this is one avenue which they will do well in and they learn in. So again that's something that we have to consider and it's just one to -- something that we should all talk about a little more.

Research continues to indicate that students with similar demographics such as PLAA perform better academically and socially in the arts-riched schools than in schools that don't have a robust arts program. Students have showed the greatest relative improvement in academic achievement when participating in the arts.

PLAA understands the charge to be scholastically and culturally responsible to meet the needs of the community.

PLAA will encourage scholastic excellence

1 such as the academic S.W.A.G. Award. As you see the symbol, it's very artistic. S.W.A.G. 2 is Students With Academic Gains. That's what 3 S.W.A.G. stands for. 4 5 Additionally PLAA plans to focus on financial literacy skills, okay, because 6 7 literacy illiteracy kills. That was a joke, 8 y'all didn't get that one. 9 Closing remarks. Pablo Picasso said, 10 "Every child is an artist. The problem is how 11 to remain an artist once we grow up." Quote, 12 unquote. Give Southwest Little Rock 13 educational options for 72209, as these learners will become our future prolific 14 15 leaders. Don't let the educational system get 16 in the way of real learning. Arkansas State motto from 1950 to 1989 was 17 18 Land of Opportunity. Don't raise your hand if 19 you remember. Okay? So, again, that's something right now we 20 21 want to know if this Board, this Panel will 22 give PLAA the opportunity. 23 Thank you.

Spanish).

And to my Spanish speakers (speaking in

24

	268
1	CHAIRMAN PFEFFER: All right. Thank you.
2	And very well timed. Your 20 minutes is just
3	ending.
4	So, Dr. Boyd, is there anyone here to
5	speak in opposition?
6	MS. BOYD: No.
7	CHAIRMAN PFEFFER: No.
8	All right. So you do have an additional
9	five minutes before we start questions, if you
10	would like to finish up anything else.
11	MR. DAVIS: Yes, ma'am.
12	Do you have any questions? I don't have
13	anything else.
14	CHAIRMAN PFEFFER: Okay. All right.
15	Well, we'll go ahead and move on.
16	MR. DAVIS: Yes, ma'am.
17	CHAIRMAN PFEFFER: If you need something
18	else we'll give you a little more additional
19	time. We can work that out.
20	MR. DAVIS: Yes, ma'am. Okay.
21	CHAIRMAN PFEFFER: Okay. So there were a
22	couple of let's see here. Yeah, there were
23	a couple of unresolved issues after the ADE
24	internal review, and I think there are some
25	legal items that we'll walk through, so we'll

do this as we've done before.

And I think Dr. Boyd has an extra microphone there.

DR. BOYD: Thank you, Dr. Pfeffer.

So in reference to the remaining concerns, as it relates to the academic achievement goals, the goals for 11th and 12th grade students do not seem to be aligned to college entrance exams or other post-secondary career options.

CHAIRMAN PFEFFER: So, Dr. Boyd, can you direct us to where that might be? Are you looking at the application on Page 20?

DR. BOYD: The goals -- uh-huh. The goals are on prompt for the application.

CHAIRMAN PFEFFER: Okay.

DR. BOYD: Then you can see under there where the Internal Review Committee and applicant went back and forth, and in the end the Internal Review Committee felt that the goals and their alignment to college entrance exams or other post-secondary career options were not accounted for.

MS. DAVIS: Hello, Monica Davis.

And in regards to the career options, we

realize that we needed to have three pathways to career options for our students, and we do have those rectified and I can read them if you would like. We definitely will submit those in.

We have a program of study through the audio and video tech film. With us being an arts infused school, we definitely want to utilize the -- the arts program of study. And so up under those programs of study we have Fundamental of Audio Video Tech and Film. We also have Intermediate Audio Video Tech and Film. The last one in that program of study is Media Communications Lab.

The second program of study that we have is the advertisement. It falls under the Visual Arts, with us being an arts school.

Okay. We have the Advertising and Graphics Design, and the actual courses for those, we have Fundamental Advertising and Graphics Design; then we have Intermediate Advertising and Graphics Design; and then our last program of study we've chosen Advanced Advertising and Graphics Design, that extra unit that's required.

1	And then we have one last program of study
2	for the three pathways would be
3	entrepreneurship. In order to build that
4	community and help our learner to become
5	responsible within the community we have
6	computer under that particular program of
7	study we have Computerized Business
8	Applications; and then we have entrepreneurship
9	itself, which is, of course, one credit unit;
10	and then we also have Small Business
11	Operations. We want our students to be in
12	entrepreneurs and we want them to be very
13	responsible within the community.
14	DR. PFEFFER: Okay.
15	MS. DAVIS: So that addresses the programs
16	of studies that were not rectified.
17	And then as relates to what was it,
18	that other concern?
19	CHAIRMAN PFEFFER: And I think I think
20	this first question was actually referring to
21	the goals that you-all have established.
22	MS. DAVIS: Okay. Okay. I thought
23	that
24	CHAIRMAN PFEFFER: And those are on
25	Page 20 of the application where and it

	272
1	and I want to make sure that that we're all
2	on the same page
3	MS. DAVIS: Yeah.
4	CHAIRMAN PFEFFER: about what the
5	question is.
6	MS. DAVIS: Right.
7	CHAIRMAN PFEFFER: You've got several
8	goals listed as far as the percent of students
9	that will be meeting the the readiness score
10	on the state the state assessment, the ACT
11	Aspire. Is those questions though were
12	specifically talking to the post-secondary,
13	what kind of readiness goals were being set for
14	that? Is that correct, Dr. Boyd?
15	DR. BOYD: Right. Right. That's correct.
16	Part of the educational need was talking about
17	the need for a high school in the area and the
18	need for post-secondary graduation and
19	post-secondary success.
20	So the Internal Review Committee felt that
21	there was a hole there because the goals didn't
22	speak directly to to goals that would help
23	fill that educational need.
24	MS. DAVIS: We do have goals that will
25	help monitor progress for academic growth, and

that's one of our areas.

But I will let Michael --

CHAIRMAN PFEFFER: Okay.

MR. O'LEARY: All right. And I need to -I'm not quite clear on this one piece. Are you
looking at the type of goals regarding pathways
for students?

DR. BOYD: We're looking for goals --

MR. O'LEARY: Because that was -- that was the expectation that I was under the impression that's what you were looking for.

DR. BOYD: So the goals, I think we're looking for something tied to, like, the ACT or having work certification before leaving or something like that that will increase the opportunities of the students once they leave the school.

MR. O'LEARY: Well, taking those into consideration, one of things that we had a discussion on is that I know just in the last eight years as I've watched curriculum change in the state of Arkansas, in another two years when we get to the 11th and 12th grade, we're not quite sure that the goals that we would align with today would actually be the same

that we could do two to three years from now because of the changes that the Department has made just in curriculum requirements alone.

So we were looking more at the pathway idea because we're not even close -- we're only going to have 9th and 10th grade. And I'm not trying to cop out on that answer, but I think that as you look at the changes that have been going on in the last four or five years regarding curriculum, it's hard to establish goals other than the standard, the ACT test, the Aspire test, basically spending time with students through counseling services to make determination what is it that they want to do post secondarily and so on like that. And then, of course, the relationships that you build with local community colleges and local other higher institutions of education, you're building that rapport at the same time to be able to say to students, here, here is the list of the things that are available to you based upon what your test scores are, etc., etc. then I think there is common ground where you come together to try to determine what's the goal of the student, which in turn helps with

25

22

23

24

25

the goal of the -- of the program that you administer, so that you can help them achieve that goal and establish that.

But I still think there is going to be changes that may change a little bit about how we will proceed with that aspect with each individual student.

CHAIRMAN PFEFFER: Okay. And maybe something that this might clear it up a little bit, and we'll go ahead and address the remaining issues and we may probably come back with more questions of the goals. But when we look at the chart that you have where you have articulated what the goals are for your students, everything is based on an assessment, either the ACT Aspire or the NWEA MAP Assessment. So when we look at those goals and are thinking through with you as this is how we're going to determine whether or not you're successful one year, two year, three years, five years out, and you've said that 75 percent of your 9th and 10th graders will meet readiness scores in reading after three years, I think those are things you want to be thinking about is if you are banking all of

19

20

21

22

23

24

25

your goals on specific percentages on specific assessments and we get down the road and -- and because those are addressing your 9th and 10th grade, you know, if you're not meeting that 75 percent mark, what else have you put into play to show that you've been a success, your students are being successful based on what the school is offering? So I think that's probably where that question is coming from. your presentation you talked a lot about the arts integration and those opportunities for students but we're not seeing that reflected in terms of how we're going to know if students are successful after having been at that school over the course of their high school career. So I think that may be what the internal committee was trying to get at, there is a disconnect.

MR. O'LEARY: Are you expressing that from an academic standpoint?

CHAIRMAN PFEFFER: I'm expressing that as a member of the Charter Panel. When you come back in a few years and want a renewal, if these are the goals that you've established and you're not hitting those goals, then I have

nothing else on which to base your success other than percentages on these assessments.

MR. O'LEARY: Well, the assessment numbers on that that we've presented here, they are hard numbers. And they are not -- it's not speculation, it's saying, this is what we hope to obtain by a variety of -- of things that we put into the curriculum for student achievement. And so I would say that in the discussion that we've had, we're stand -- we're putting our program standing on those types of percentages.

Are you saying that we should broaden that more or is this too narrow of a scope for the Panel to -- to feel comfortable with?

DR. HERNANDEZ: So just to give you a little bit of context, when we, you know, look at some of our most recent test scores in the county as a whole, so take Pulaski County, all the schools, charters, all of them together, and we'll just use math, for example, is that we're seeing kind of an average number of percentage of students that are ready or exceeds in mathematics at being around, for 9th and 10th graders being around 21 percent. And

so I'm all about, you know, big giant hairy audacious goals, but when you set every goal as being 70 percent, 75 percent of your kids are going to meet or exceed readiness benchmarks, you know --

MR. O'LEARY: You're seeing a lower number?

DR. HERNANDEZ: That's way off, I mean, and so what I'm -- I guess what we're trying to figure out is what did you base these goals on or just -- or are you saying that, hey, we're saying that in three years when we come back for renewal or whatever that year time limit is, if we don't hit those marks, then what do we do as a Charter Panel as far as saying, well, we want to continue this, when you come back with a lot lower than what your goals were. And if that's the only thing that we're basing your charter application on, then that could be problematic down the road. that's -- that's kind of the context of what we're saying --

MR. O'LEARY: I understand. Uh-huh.

DR. HERNANDEZ: -- is did you look at how the surrounding districts are doing?

23

MR. O'LEARY: Are you saying we're too ambitious?

DR. HERNANDEZ: And I'm not saying that either. I'm just saying that that is something that kind of sticks out to me is all of those goals are very -- are they arbitrarily set based on that and based on the kind of kids that you're trying to serve.

MS. DAVIS: Yeah. Typically we set the goals based on student growth 100 percent, a typical growth one school year worth of growth in regards to that grade level. So that's what we -- now, the ACT actual testing, of course, I noticed that discrepancy, we didn't set a goal for that; however our students will take college and career exams to help them prepare for college. So just a little --

CHAIRMAN PFEFFER: Okay. And why don't we go ahead and continue on with the unresolved issues and then we can come back if we want to address the goals a little bit more in the application.

DR. BOYD: Okay. So in Section C-5, we've already addressed the career and technical education courses pathways. Thank you.

1	And then we also noted that
2	African-American history was listed under
3	social studies, and right now the way it is in
4	the course code system, it's only half a
5	credit, so that would leave social studies
6	missing the need to offer an additional half
7	credit of social studies to meet the
8	requirement.
9	CHAIRMAN PFEFFER: And can you tell us
10	what page they have that on? Do you have that
11	marked in the application?
12	DR. BOYD: It's it's C-5 so it's
13	following the next section that we just looked
14	at.
15	CHAIRMAN PFEFFER: Page 25.
16	DR. BOYD: Page 25. Thank you, Dr. Owoh.
17	CHAIRMAN PFEFFER: Starts on 23, I think,
18	high school courses.
19	DR. BOYD: So I guess what we're looking
20	for is what additional social studies course
21	would to be offered to complete the
22	requirements?
23	MR. DAVIS: The additional social studies
24	courses we have are Arkansas History and
25	Psychology, we added those two; of course, we

1 already have American History, World History, Civics, and World Geography. And those two 2 were half credits. 3 DR. BOYD: Could you -- could you repeat 4 5 that? 6 MR. DAVIS: Sure, yes, ma'am. 7 The Arkansas History was added and Psychology was added. 8 9 DR. BOYD: Okay. We're going to let Standards check that out and we'll circle back 10 11 with that new information. 12 All right. Next, under student services, it remains unclear that a full continuum of 13 special education services will be provided, 14 15 including but not limited to occupational 16 therapy, physical therapy, and speech therapy. We could -- we need confirmation that 17 18 these will be offered and a little description about them. 19 MR. O'LEARY: Well, first of all, when it 20 comes to special ed services, I'm a special ed 21 22 administrator, and I notice my counterpart 23 that's sitting in the back back there that I've 24 worked with with the Department of Special 25 Education here in Arkansas for many, many

1 years.

When it comes to the basic services, the special ed instructor has the responsibility to interpret the IEP and make sure that the services that are identified from the IEP conference are in fact put into place while the student is attending school. If you need speech therapy, occupational therapy, etc., those services can be brought in from an outside vendor, such as Kid Source or some of the others that are available. The special ed teacher would be the one that would make that interpretation and also make the recommendation.

If you take a look at the budget, I believe our budget reflects the fact that we have about \$81,000 put aside for the SPED of services and for the purpose of obtaining a qualified special ed teacher to be on site on a day-to-day basis to handle the day-to-day issues that come up with students that have an IEP.

They also would be responsible for identifying students that have not been identified as special ed to make those

recommendations to staff and at the same time proceed forward with the necessary testing.

As far as special ed law, any questions that have to do with the law and interpretation of that, we have a Department that has responded quite rapidly here in -- in Arkansas and provides that type of information and support on a regular basis.

Are there any questions regarding that?
Thank you.

CHAIRMAN PFEFFER: Okay. And since we're on that specific piece, and I know we do have people in here from our Special Education

Division, can I -- can we go ahead and just get you all to confirm whether or not you're comfortable with the responses that have been given with regard to -- because it was a remaining issue. And from the response, do we see any missing pieces there?

MS. HUGHES: Hi, Kristin Hughes, Special Education Unit at the ADE.

I just wanted to clarify that it wasn't a single teacher decision, it was an IEP team decision on the services?

MR. O'LEARY: IEP team. Sorry. My

1 mistake on that one. CHAIRMAN PFEFFER: 2 Okay. 3 MR. O'LEARY: You have an IEP team that considers --4 5 CHAIRMAN PFEFFER: We'll need you to come 6 to the microphone, please. 7 MR. O'LEARY: Sorry. I forgot to mention that the IEP team at the school is headed up by 8 the IEP -- by the special education teacher, 9 and then other teachers on the staff serve as 10 the IEP team at the time you meet with the 11 12 parent or parents of that particular student to 13 either make recommendations, adjustments, and 14 put the IEP together. It's every 12 months 15 that you meet and you evaluate where the

The Department has always been, like I said, very supportive and helpful when it is -- some decisions or information is needed in order to arrive at that -- that conclusion.

learning disability that they may have at that

DR. BOYD: So the Department would also like to clarify if there is a plan for

	285
1	contracting the SPED services in place already?
2	MR. DAVIS: Say that one more time.
3	DR. BOYD: Is there a plan in place for
4	contracted SPED services already?
5	MR. DAVIS: Yes, ma'am. We are still
6	under construction with that plan. Yes, ma'am.
7	DR. BOYD: Okay. Circling back to the
8	courses offered, looking at what the applicant
9	submitted, if they could confirm that this is
10	what they intend to offer, then we will be on
11	the same page.
12	So for social studies, that's where we
13	have the issue, there is U.S. History, which
14	previously they stated American History but for
15	our purposes it's U.S. History; World History,
16	which is already mentioned; a half credit of
17	Civics; and a half credit of Economics and
18	Personal Finance; and then a half credit of
19	African-American History; and a half credit of
20	World Geography.
21	MR. DAVIS: You said a half credit of
22	Economics?
23	DR. BOYD: Uh-huh.
24	MR. DAVIS: Yes, ma'am. And the other one
25	was African-American History?

	AUGUST 15, 2018
	286
1	DR. BOYD: Uh-huh.
2	MR. DAVIS: Uh-huh.
3	DR. BOYD: And World Geography?
4	MR. DAVIS: Yes, ma'am. We have that
5	we have it on here. Yes, ma'am.
6	DR. BOYD: Okay. So that's what we're
7	agreeing on?
8	MR. DAVIS: Yes, ma'am.
9	CHAIRMAN PFEFFER: Okay. Do would have
10	Economics and Personal Finance?
11	DR. BOYD: I'm sorry. Yes, ma'am, I
12	shortened that. Personal Finance and
13	Economics.
14	Thank you for the clarification.
15	MR. DAVIS: Yes, ma'am.
16	DR. BOYD: I'm sorry, I missed it. Did we
17	talk about the special education teacher
18	getting support? Was that part of the was
19	that going to be part of the contracted
20	services?
21	MR. DAVIS: The special education teacher
22	getting support?
23	MR. O'LEARY: I'm sorry, I missed the
24	question.

DR. BOYD: So it was to ensure that the

special education teacher gets support in understanding special education law and carrying out required meetings, documentation, and implementation of IEPs.

MR. DAVIS: Well, most of the -- most of the special ed teachers that go through and become credentialed in the state of Arkansas do have a clear understanding of IDEA of 2004 or 2006, I think was the last time it was written. So when it comes to the law and the implementation of IEPs, there -- there are several seminars and conferences throughout the year that the Department of Special Ed for the State puts on.

So if there are, again, any type of questions or anything that relates to the law or implementation of the IEP, there are many, many resources that are available through the school. That teacher knowing the federal law that's behind it would definitely be supported to be able to provide students the appropriate services as needed based upon the IEP.

So yes. The answer is yes, yes, and yes. DR. BOYD: Thank you.

And then also in -- during the internal

review process it was stated that budget adjustments would be submitted and we did not receive those.

MR. DAVIS: Yes, ma'am. We have some budget changes we want to submit.

I would like to call Mr. Trey Chandler up real fast, our CPA.

MR. CHANDLER: Trey Chandler, CPA.

I've -- I've just become involved in this process and I've noticed that they have asked me to go through the budget numbers and address some of the questions you guys have.

We have had some changes we have not yet submitted or they have been submitted already, I'm not quite sure, but just some small changes about some of the -- the P.I.E., and the marketing materials have just been removed from that, but that really covered, I think, the only changes that I had once I looked through there. And then they are going to be submitted as soon as today even.

CHAIRMAN PFEFFER: Okay. So I've got a question there. We're not aware of what budget adjustments were asked to be submitted so -- but if they were asked to be submitted and they

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

have not been submitted, I think that would be problematic in trying to move forward and approve an application for things that weren't submitted. So can we get clarification as to what was requested and whether you have something to submit or not?

MR. CHANDLER: Okay.

DR. BOYD: All right. So if you look on Page 43 of 66 in the application, we requested more information about marketing and parent involvement, because they -- they were listed twice. And then in the response it was stated that there would be a correction and adjustments as needed for accuracy. And we did not receive those adjustments.

MR. CHANDLER: Okay. So from what I'm looking at, the very last -- the two last budget items, there was \$5,000 for marketing materials and another 3,000 for the parental involvement education, and those will be just -- just removed because those were duplicates.

DR. BOYD: Okay. So will those be, like, reappropriated to a different section or are they just going to go as a surplus.

	290
1	MR. CHANDLER: We will just increase the
2	surplus that we have on the books right now.
3	DR. BOYD: Thank you.
4	CHAIRMAN PFEFFER: So the budget
5	adjustments, it was a total of \$8,000; is that
6	correct?
7	MR. CHANDLER: That's correct.
8	CHAIRMAN PFEFFER: And that would just be
9	added then to
10	MR. CHANDLER: To the net revenue over the
11	expenses. Uh-huh.
12	CHAIRMAN PFEFFER: Okay. The net revenue.
13	And going back to the one of the
14	other let me go back to the summary. When
15	you were updating on the revised list of career
16	and technical education courses, you read
17	through those for us. Do you have something to
18	submit so that we could look at those? Do you
19	have a copy?
20	DR. KREMERS: I would like to comment on
21	that, if I may.
22	CHAIRMAN PFEFFER: Okay.
23	DR. KREMERS: They collaborated with our
24	staff this morning on those.
25	MS. DAVIS: No, I don't have those now.

	291
1	CHAIRMAN PFEFFER: Okay. So so you-all
2	have had a chance to review those?
3	DR. KREMERS: As of this morning.
4	CHAIRMAN PFEFFER: As of this morning.
5	Okay. Thank you.
6	MS. DAVIS: Okay. Yeah.
7	CHAIRMAN PFEFFER: And are you comfortable
8	then that they will meet the requirements for
9	the Career Technical Education part of the
10	graduation requirements for the course
11	offerings?
12	DR. KREMERS: It was just a quick staff
13	message.
14	CHAIRMAN PFEFFER: Okay.
15	DR. KREMERS: So I think there is really
16	not adequate time to fully, since it happened,
17	so I
18	CHAIRMAN PFEFFER: Okay.
19	DR. KREMERS: I can't fully answer this.
20	CHAIRMAN PFEFFER: Okay.
21	MS. DAVIS: Okay. Well, they are coming
22	straight from the Career and Technical Center,
23	Building 3, so the updated version, 2017 I
24	mean, 2018, so I can get those submitted. We
25	can get those submitted.

	292
1	CHAIRMAN PFEFFER: Okay. But you did not
2	submit them prior to today?
3	MS. DAVIS: Not the revised version
4	because we wanted to come and speak with you
5	first.
6	CHAIRMAN PFEFFER: Okay. All right. So
7	that goes through the list there from the
8	summary sheet. Did the Panel members, do you
9	want to ask any questions or have any
10	conversation?
11	All right. So let's move on then to the
12	legal review and walk through questions around
13	these waivers.
14	MS. HYATT: Okay. The first section is
15	educator licensure. So the first issue is just
16	moving them from the old standards to the new
17	standards, and I just need a confirmation that
18	they intend to seek waivers of 4-B.2, 4-C.1,
19	4-C.2, 4-D.1, 4-E.1, and 4-F.1, which would
20	cover superintendents, principals, teachers,
21	guidance counselors, and library media
22	specialists.
23	MR. DAVIS: Yes, ma'am.
24	MS. HYATT: Okay. The second is that I
25	believe that you need a waiver of Arkansas Code

	293
1	Annotated § 6-25-103 and 6-17-309 pardon the
2	typo there in order to effectuate your other
3	waivers.
4	We're still on No. 1, yeah, bullet point
5	No. 2.
6	MR. DAVIS: All right.
7	MS. HYATT: And if if you're if you
8	intend to if you want to effectuate those
9	waivers, you will need waivers of these two
10	additional sections, so I just need
11	confirmation.
12	CHAIRMAN PFEFFER: And can you just give
13	us a brief description of what those sections
14	would be?
15	MS. HYATT: Yes. Give me just one second.
16	CHAIRMAN PFEFFER: Okay.
17	MS. HYATT: So 6-17-309 is actually the
18	licensure waiver. So in the law, talking about
19	that no student should be instructed under a
20	teacher who is not licensed, so that is the
21	first one.
22	And then 6-25-103 is library media
23	specialist licensure.
24	MR. DAVIS: Yes.
25	MS. HYATT: Okay. And on the request for

6-15-1004, again this has come up in every school, it's only section (d) that's necessary, which that's the only section of that code that addresses any type of teacher licensure that would affect a school or a charter school. So I just need confirmation that (d) is acceptable?

MR. DAVIS: Yes, ma'am.

MS. HYATT: Okay. Moving to No. 2, which is a Flexible Schedule. You will need a waiver of Arkansas Code Annotated § 6-10-106(a), which is start and end dates for school, and you will also need a waiver under the new standard Section 1-A.5.2, in order to effectuate the waiver.

MR. DAVIS: Yes, ma'am, we accept that.

MS. HYATT: Okay. Number 3 is duty free lunch. The waiver request as it stands is for 6-17-111(a)(1), so I need them to confirm if they plan to compensate teachers not receiving a duty free lunch, because otherwise they would need a waiver of the entire code section, not just Section (a)(1).

MR. DAVIS: Let me see, look down there.

Now that question, say question that

again.

MS. HYATT: So do you plan on compensating teachers not receiving duty free lunch for the time that they are spending working during their -- during their lunch period? Otherwise you will need a waiver of the entire section.

MR. DAVIS: Yes, ma'am, we are going to get a waiver for the entire section.

MS. HYATT: Okay. So it's 6-17-111 in full then would be a change to the waiver request.

Moving down to No. 7, Gifted and Talented and Alternative Learning Environments, it's just a transition from the old standards to the new. So the new standard sections are 2-G.1, which is gifted and talented, and 2-I.1, which ALE, and I just need you to confirm that.

MR. DAVIS: Yes, ma'am. Confirm. Absolutely.

MS. HYATT: Okay. On No. 8, which is personnel policies, you'll need a waiver of the ADE Rules Governing School District Requirements for Personnel Policies, Salary Schedules, Minimum Salaries, and Documents posted to the website, Sections 6-8, to

	296
1	effectuate the waiver, so I just need a
2	confirmation there.
3	MR. DAVIS: I think we've checked that
4	one. Let me see.
5	Now that was No. 8, you said?
6	MS. HYATT: I'm on No. 8. And in order to
7	effectuate the waiver of the code sections, you
8	will need a waiver of the ADE Rules Governing
9	Personnel Policies, because those contain the
10	requirements that are in the code.
11	MR. DAVIS: Okay. Yes, ma'am.
12	MS. HYATT: Okay. Okay. On No. 10,
13	Planning Time, the waiver request is for
14	6-17-114(2)(d), which is not a section that
15	exists. I believe that it should have just
16	been (d)(2) or (d).
17	MR. DAVIS: Uh-huh. Typo.
18	MS. HYATT: So I just need a confirmation
19	there.
20	MR. DAVIS: Yes, ma'am, correct.
21	Clarification.
22	MS. HYATT: Okay. And I believe that you
23	will need a waiver of A-2 as well.
24	MR. DAVIS: Yes, ma'am.
25	MS. HYATT: Okay. That's it.

CHAIRMAN PFEFFER: Okay. So, Panel, do we have questions on some of these waivers?

DR. OWOH: I do.

One, in reference -- well, both -- my question is in reference to Item 3 and Item 10. Considering that you're asking waivers for duty free lunch periods as well as planning time, how are you planning to support educators and when will they have the time to be able to collaborate, to plan, to meet with parents? And so I'm concerned about the level of support for the educators so I wanted to hear how will plan to ensure that the educators had time to, one, to have time to eat, and then, two, to collaborate and plan effectively.

A couple of questions.

MR. DAVIS: Yes, sir, Dr. Jeremy.

This time will be used to prepare for lessons, grading student assignments, and contact parents, attend teacher-parent conferences, to collaborate with other instructors moving forward. That's what we put up under our additional rationale.

MR. O'LEARY: I think the first question I want to answer is is how do we get the collaboration. Collaboration would be, for

example, we would have a -- when we have our department meetings within the school, we would have a special schedule for that particular day where we would be early dismissal and give us the opportunity and the time for the teachers to get together, either in their interdisciplinary teams or as a faculty whole to be able to discuss the various issues that go on at school. So that would be the first way.

Second way for teachers to collaborate with parents is, obviously, your you schedule parent-teacher night conferences, or in some schools that I've been in, they sometimes have a parent conference day periodically set up to where teachers can meet with parents off an order at specific times throughout the day to meet with all the parents of the students that they have. So there is a variety of ways in which you can administer to meet that obligation. It doesn't necessarily mean that you have to take time out of the school day or the day of when you're delivering curriculum to the students that you have collaboration going on with the teachers.

1 Other ways is teachers, I know my teachers meet, for example, after school, they meet 2 during lunch time, they meet in a variety of 3 ways to talk about where students are at, so on 4 5 like that. We have our department meetings where we separate time in the daytime to be 6 7 able to get together and have a two-hour department meeting based upon staff things that 8 9 are going on, etc., etc. So again, those are flexible issues that 10 11 you can build into your schedule, make that

DR. OWOH: Well, some of those things that you've just mentioned are the things, very things that you're waiving with these waivers. And so if -- if the teachers do not have the time built into the day, one, they are not -- they won't really have the time available to plan nor to make contact with parents to follow up just on day-to-day issues that may arise during instructional time.

time available for that kind of collaboration.

And so you answered the one question when you mentioned collaboration. So you're expecting for teachers to meet after school?

MR. O'LEARY: I think teachers have the

24

12

13

14

15

16

17

18

19

20

21

22

23

opportunity to meet before school, during 1 school, and after school as a -- if -- if I 2 3 have a prep period, let's say you and I have the same prep period, you're teaching history 4 5 and I'm teaching mathematics, you and I might get together to talk about specific students 6 7 that we share between the two classes. 8 DR. OWOH: But you're waiving the prep, 9 planning time. I understand that. 10 MR. O'LEARY: So that 11 prep time might turn into after school time. 12 DR. OWOH: On the teacher? Okay. 13 MR. O'LEARY: Well, not necessarily on the teachers. What I'm saying is that teachers 14 15 find time to get together to talk about Is this a -- a set time 16 students many times. that's designed by schedule? No. I take it 17 18 you've worked in a high school before. DR. OWOH: I have and on the middle 19 20 school.

MR. O'LEARY: Okay.

21

22

23

24

25

DR. OWOH: So that's why those -- that's what's really informing my concern that there is not a set or established time for teachers to -- one, to communicate with parents, nor to

1 communicate with each other; so --

MR. O'LEARY: So your interest at that particular point is having a set designated time period for that type of collaboration to take place. I understand.

DR. OWOH: My interest is making sure that teachers are supported --

MR. O'LEARY: Right.

DR. OWOH: -- and have the time to do their job effectively.

MR. O'LEARY: Well, you have to have that time or you can't be effective.

DR. OWOH: Correct.

MR. O'LEARY: Yes. Do you have a --

MS. HYATT: Just a quick note. I will say that in their response to the first legal review they did affirm that teachers would have at least 200 minutes of planning time per week, despite the fact that they are asking for a waiver of the 40 minutes per day. So the waiver that we have set up right now would just be they don't compensate for times that they don't have that period, and it's not on a day-to-day basis, but they did affirm in the legal review that they would have ten minutes

	302
1	of planning period per week, so I just wanted
2	to make sure that that was clear.
3	MR. O'LEARY: Does that help answer the
4	question a little bit more clearly?
5	DR. OWOH: It answers it.
6	MR. O'LEARY: Thank you.
7	DR. OWOH: Thank you.
8	CHAIRMAN PFEFFER: Okay. Panel, do we
9	have any other questions related to these
10	waivers?
11	Okay. Seeing none, we'll move to any
12	questions that you have about the application
13	as you reviewed. We'll start, Mr. Wilson, do
14	you have any questions?
15	MR. WILSON: Only one. Is your sponsoring
16	organization, is that ATK? Is that the name of
17	it?
18	MR. DAVIS: Mr. Wilson?
19	MR. WILSON: Yeah. I say is that the name
20	of your sponsoring organization, ATK?
21	MR. DAVIS: Yes, sir. ATK, Aviate Through
22	Knowledge, Incorporated. Yes, sir. ATK.
23	MR. WILSON: Aviate Through Knowledge?
24	MR. DAVIS: Yes, sir.
25	MR. WILSON: Does it sponsor or support

	303
1	any other charter schools anywhere?
2	MR. DAVIS: No, sir. We have one of our
3	sponsoring mentor persons back there.
4	MR. WILSON: Okay. That's all. Thank
5	you.
6	MR. DAVIS: Yes, sir.
7	CHAIRMAN PFEFFER: Dr. Hernandez?
8	DR. HERNANDEZ: Yes. On your I've got
9	a question on your budget. There is a line
10	item that refers to fiscal services saying CPA,
11	and I know we've met the gentleman earlier.
12	MR. DAVIS: Yes, sir.
13	DR. HERNANDEZ: But an earlier line item,
14	I was just curious about if that was written
15	right. It has one line item that says efinance
16	software, and it has it listed as, like at
17	22,000, and so I was just kind of wondering. I
18	know the software itself shouldn't come as a
19	cost because it's provided by the State. But
20	is that meaning something else in addition to
21	the CPA fees?
22	MR. DAVIS: Yes, sir, Dr. Hernandez.
23	MR. CHANDLER: Again Trey Chandler, CPA.
24	The efinance software is not something I'm
25	familiar with personally. In my discussions

with them, it was something that is an industry standard that's used like this and there's one-time set up fee that's pretty steep and then it's ongoing maintenance after that. So if you see the second year, the costs go down dramatically. I'm going to investigate other options that may be a cheap alternative to that even.

DR. HERNANDEZ: So there -- so -- so every school district in the state is required to be on the efinance.

MR. CHANDLER: Okay.

DR. HERNANDEZ: And it's State provided, so it's a -- I don't know that there is a cost associated with it.

MR. CHANDLER: Okay.

DR. HERNANDEZ: So that's what I was -- I was trying to figure out. Maybe that might be something if you were reaching out to purchase it yourself, then that may be where the fee came from, and so that may be a line item that could go away, so I didn't know if it was in there, supposed to be or not supposed to be, I guess.

MR. CHANDLER: I would say it probably is

not supposed to be there then.

DR. HERNANDEZ: Okay. The other question was just kind of in, you know, looking at the overall number of students in the first year listed at being, I want to say it was around -- MR. CHANDLER: 150.

DR. HERNANDEZ: -- 150, yeah. So in that you have, you know, several admin positions listed in year one. And then so just curious about the ratio of teachers to administrators and was wondering if that's a hire the administrators first and then teachers or is that just a you're going to build up over time? How is that going to work?

MS. DAVIS: We're going to build up -MR. DAVIS: Yes, sir, I would say build up

MR. DAVIS: Yes, sir, I would say build up over time. Yes, I believe, yes.

DR. HERNANDEZ: So in year one, it has listed Executive Director, the Principal, Curriculum Specialist, Business Manager and, of course, there is an Admin Assistant in your administrative team. And so what will you -- what are your plans to start with in year one?

MR. DAVIS: Those were our plans, but we also had a discussion about several people

having dual roles to help cut the budget costs moving forward; like the Business Manager being the Curriculum Specialist, and especially if he or she is qualified, so we've had those discussions before. And the executive -- excuse me, the Principal being -- and the Principal also being somewhere of a manager as well.

DR. HERNANDEZ: Okay. So the Business
Manager role functioning as the Curriculum
Specialist, so the Business Manager is not
being a Business Manager in the sense of doing
the finance like a CPA would do? That's where
I was kind of confused as having a CPA but also
having this Business Manager role.

MR. DAVIS: Yes, sir, and also we may have the opportunity to change a few things because we have Mr. Chandler involved. And most of this was developed before we ushered him to come on to assist us in this endeavor. So that we would be open to make some of those adjustments. Yes, sir.

DR. HERNANDEZ: All right.

CHAIRMAN PFEFFER: And I'm going to go ahead and ask my question, it's kind of along

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

the lines of Dr. Hernandez in thinking through high school --

MR. DAVIS: Yes, ma'am.

CHAIRMAN PFEFFER: -- and the courses that you offer. So this -- this also goes back to a question on waivers, and I may have overlooked it.

But will -- do they have a waiver from offering the 38 units in year one?

DR. BOYD: Currently they have not asked for a waiver of that. Ms. Coffman just brought that to our attention and Mary Claire is looking to see what they would need to get a two-year waiver from that, because within two years they would have 9-12.

CHAIRMAN PFEFFER: Okay. Because I was looking at the number of teachers. If you did, let's say you did reach the maximum first year of 150 students and, you know, just even with the number of teachers, I'm wondering how you're going to teach a full spectrum of courses and teach the 38 units and get those 9th graders off to a good start for completing their graduation requirements.

Running a high school is very tough --

MR. DAVIS: Yes, ma'am.

CHAIRMAN PFEFFER: -- and takes a lot of resources, so just in looking at your budget, looking at your plan, looking at, you know, telling us what courses you're going to offer today, I'm -- I'm a little bit concerned about the preparation.

So do you -- have you had a chance to look at that information?

MS. HYATT: Yes.

CHAIRMAN PFEFFER: Okay.

MS. HYATT: So if they don't intend to offer all 38 credits in the first two years while they are rolling -- becoming a full high school, they are going to need a two-year waiver of the 38, which is 1-A.1.3 in the standards, which would cover the curriculum.

I'm just noting that they can't waive any type of graduation requirement.

CHAIRMAN PFEFFER: And my concern would be them asking for that waiver right here right now and not having planned out and knowing what it is that they would actually offer and not offer, what they would waive and not waive. So we'll probably need to determine whether or not

1 you're going to need to add that to your list of waivers and --2 MR. DAVIS: Yes, ma'am. 3 CHAIRMAN PFEFFER: Are you -- are you 4 5 clear on what --MR. DAVIS: Yes, ma'am. 6 7 CHAIRMAN PFEFFER: -- what you would need to be waiving? 8 9 MR. DAVIS: Come on up, Mr. O'Leary. 10 MR. O'LEARY: Okay. I'm not quite sure I 11 understand the question, that's my --12 CHAIRMAN PFEFFER: Okay. So there is a 13 requirement -- I will -- I'll let -- I'll let our attorney talk through the legal aspects as 14 15 far as what's required and what you're going to 16 be needing.

17

18

19

20

21

22

23

24

25

MS. HYATT: Okay. So on the new version of the standards, and I'm just going to flip to it for your convenience, 1-A.1.3 has a list of courses that must be taught, and you also have to abide by the 38 classes that must be offered, courses that must be offered that are approved by the State Board each year, which were just approved two board meetings ago. So if you're not going to offer the full 38 due to

not having all of the grades of a high school 9-12, you would need some type of temporary waiver from teaching all of the 38, because you will -- unless you plan to teach all 38 just for the limited grades that you have.

Also it's prohibited to waive Arkansas graduation requirements, so any of the list on the 22 graduation requirements that were approved by the State Board last month -- this month, last week -- sorry -- would -- can't be waived, so there is a list of those.

And also these are available on the ADE website, just so that you can have them later.

MR. O'LEARY: So the question is being posted as to whether or not we would -- we would offer the 38, in other words?

CHAIRMAN PFEFFER: Uh-huh.

MR. O'LEARY: What I find is, is that in the curriculum of 9th and 10th graders where --

CHAIRMAN PFEFFER: Okay. We need you to speak in the microphone. I'm sorry.

MR. O'LEARY: I'm sorry. I apologize.

What I find is is that when we are -- when we are administering the curriculum, both for 9th and 10th grade, you basically have your

basic building blocks that students have to go through. What you find is when you get into the upper grades is where you start to obtain more flexibility for those courses that you start entering into careers, you go this way, you go that way, you have more flexibility. But we're looking at a basic completing six, six and a half, possibly seven credits within the first -- in the 9th grade year, almost the same situation in the 10th grade year, because I believe to become a junior you need to have, I think it's 17 credits, I believe, to become a senior and it's at least 11 or 12 to become a junior.

So the -- the 38 that we're talking about would have to be the basic building block for the 9th and the 10th grade.

CHAIRMAN PFEFFER: Okay. So --

MR. O'LEARY: So if the question is whether we would do it or not, the question would be -- or the answer would be, yes, we would.

CHAIRMAN PFEFFER: Okay. So I think my -my question is, with the staffing that you're
proposing here --

MR. O'LEARY: Yes.

CHAIRMAN PFEFFER: -- I don't think you have the staff in place to be offering 38 full units of credit, and that is a requirement --

MR. O'LEARY: Correct.

CHAIRMAN PFEFFER: -- in a high school where you have a 9-12 situation.

MR. O'LEARY: Well, I think one of the things to take into consideration as -- as Mr. Davis alluded to in the beginning, is you have to have people that are multi-credentialed.

I'm a -- I'm an administrator, I'm certified as a teacher and I can teach in six different areas under Arkansas law. So the deal is is that you have to find teachers. And the subject was brought up before, highly qualified instructors, you have to really go fishing to find the correct people in a charter school environment because you're probably only going to have -- usually the ratio is one to 20, one to 25 at the maximum; so if you have 150 kids, you're looking at a minimum of six instructors, and out of those six instructors, just the

	313
1	minimum capabilities, you're going to have to
2	have at least three that can teach more than
3	one particular subject.
4	DR. HERNANDEZ: So what we're getting at
5	is year one you're going to have 9th and 10th
6	grade; correct?
7	MR. O'LEARY: Correct.
8	DR. HERNANDEZ: And so under the law or
9	the requirements you're required to teach all
10	38 credits.
11	MR. O'LEARY: Correct.
12	DR. HERNANDEZ: And so one of those being
13	12th grade English, so it makes no sense
14	MR. O'LEARY: I didn't hear you. Say it
15	again.
16	DR. HERNANDEZ: 12th grade English, for
17	example. So it makes no sense to teach 12th
18	grade English and you're not required if you
19	don't have 12th graders.
20	MR. O'LEARY: No, correct.
21	DR. HERNANDEZ: And so what Mary Claire,
22	the attorney, is trying to say is if you
23	need the waiver to waive teaching all 38 at
24	this time because you're going to roll into
25	eventually having to offer all 38.

	314
1	MR. O'LEARY: Correct.
2	DR. HERNANDEZ: So you're wanting the
3	waiver as opposed to saying, yeah, we're going
4	to teach 12th grade English this year even
5	though we don't have any 12th graders. Does
6	that make sense?
7	MR. O'LEARY: It makes sense. I
8	misunderstood the question. I thought the 38
9	was required just for 9th and 10th.
10	DR. HERNANDEZ: But they are
11	MR. O'LEARY: Okay. Then I am.
12	DR. HERNANDEZ: But it's required for
13	9-12, so but not but since you don't have
14	all 9-12, you don't want to have to teach all
15	38.
16	MR. O'LEARY: I see. Well, I think in the
17	discussion that we've had on the curriculum,
18	the idea is to be able to support that 9th and
19	10th grade with the maximum number of credits
20	and classes that they are required so that at
21	the time that they leave 10th grade and move
22	into the 11th grade they are right on target
23	making progression towards graduation and they
24	have the correct classes to support that.
25	DR. HERNANDEZ: Thank you.

1	MS. HYATT: I just want to comment that no
2	waiver has been sought for 6-17-812, which is
3	no teacher can teach more than 150 students per
4	day. And so if the idea is to have one teacher
5	that is teaching multiple classes, and they may
6	go over that, then that may need to be
7	something that they consider.
8	CHAIRMAN PFEFFER: Okay. And did we get
9	clarity if they are going to seek a waiver from
10	the 38?
11	MR. DAVIS: Yes.
12	MS. HYATT: Yes?
13	MR. DAVIS: Yes.
14	MS. HYATT: Okay.
15	MR. O'LEARY: Okay.
16	CHAIRMAN PFEFFER: We'll move forward. If
17	there are questions, if the Panel wants to
18	continue questioning about the application.
19	Dr. Owoh, do you, and then I'll come back.
20	DR. OWOH: Yes. I have one, and I
21	apologize if you've addressed it. I don't
22	recall hearing it.
23	In reference to your application, you have
24	mentioned highly qualified teachers
25	MR. DAVIS: Yes, sir.

DR. OWOH: -- several times. And so I
wanted to -- for you to share with us your
process of ensuring that all of the core
academic areas will be taught by Arkansas
qualified teachers and what process would you
have in place to ensure that those teachers are
AQT and meet those AQT requirements?

MR. DAVIS: Yes, sir. Thank you for that question, Dr. Jeremy.

We have a process set up in place, a traditional and standard process to have the applicants come in, we'll go through their background checks and to make sure they have their credentials.

And I would also ask this question to you, Dr. Jeremy, and also the entire Panel, what provisions are set up in place for charter school entities that -- because we have a high issue with Highly Qualified Teachers Arkansas, it's hard to find, we all know that it's been kind of hard, it's been a challenge for us, it's been a challenge to find those highly qualified teachers to fit this model right here.

So, of course, what provisions will be set

in place, that way an agency like us can jump on that avenue and exercise the right to find these teachers. Can y'all give us some information like that?

DR. OWOH: Well, we definitely have alternate educator preparation programs. But that's the premise of my question and concern, because those educators who are teaching those core academic areas must meet the AQT requirements prior to teaching that class. So just reiterate what I shared with a previous applicant, that it's not a pathway, and so it's up to you-all to ensure that those educators are meeting those requirements, and that was the reason for my questioning --

MR. DAVIS: Yes, sir.

DR. OWOH: -- on what steps would you put in place to ensure that those individuals are meeting those requirements.

MR. DAVIS: Yes, sir.

MR. O'LEARY: We've noticed that that question has been asked of every group that's been up here, and it is a highly concern to ensure the fact that the students receive the appropriate instruction from people that

actually know what they are doing.

DR. OWOH: Correct.

MR. O'LEARY: I think the biggest factor in assuring the fact that you get -- get highly qualified teachers is that it's one of the criteria through the hiring practice. When you advertise for the job, I think the information that needs to appropriately accompany that advertisement is the fact that this particular institution is looking for highly -- highly qualified instructors, that it's one of the main points in the advertisement piece, that when the individual comes through, that the credentials, the background, and all the necessary things that the individual has experienced prior to applying to this particular job applies exactly to that form for HOT teachers to fill out and demonstrates the fact that they have met that requirement and are currently on that particular pathway.

As Mr. Davis indicated, one of the things that we've noticed, and especially where I'm at, because I'm the principal of a school and I have to go through the hiring of instructors, is there has been a lull in getting highly

1

2

3

4

5

6

7

8

9

qualified teachers to apply, that the -- in some areas we have an abundance and in other areas, especially in the area of mathematics and science, seems to be there is a diminished number of individuals.

So I think as a charter school as we go forward, the question that we become -- that Mr. Davis asked is, is that you advertise, you're seeking, you're trying to get, you can two, you get three, but maybe that fourth math teacher that you're looking for to bring on staff you can't find a highly qualified, so where does that leave a program at when you can't meet that requirement because there are no applications or individuals coming forward.

CHAIRMAN PFEFFER: And if I could go ahead and interject here. Highly qualified teacher was a term formerly used under the No Child Left Behind requirements.

MR. O'LEARY: Yes.

CHAIRMAN PFEFFER: And that went away when the new Every Student Succeeds Act came into play. That doesn't mean we don't want qualified teachers in every classroom. So what Arkansas did is, with groups of stakeholders,

we sat down and said what do we need to have in place for times when a licensed teacher may not be available. Licensure is part of determining qualifications of teachers, obviously, a very important part. But as charters can seek waivers from licensure, that did -- what we did is we put into place the Arkansas Qualified Teacher. Okay? So instead of the highly qualified teacher it's what in Arkansas we value in qualifications for teachers. So in areas where licensure may be waived, the person does not have an Arkansas state license, they still meet qualifications. So that's what we're talking about --

MR. O'LEARY: I see.

CHAIRMAN PFEFFER: -- when we -- when we do that.

So it gives flexibility for schools, districts, charters, you know, in cases where -- where that person is not licensed, but it means that that person still can demonstrate the content knowledge and has either the education, the background experiences that that proves that they will be good for kids in that classroom.

1 So you've -- you've received the waiver from licensure, as we went over a few minutes 2 3 ago, in your charter; but what you still are obligated to do is to ensure that in every area 4 5 the person you hire meets at least the Arkansas Qualified Teacher requirements. And if they 6 7 are licensed for that area, then they meet that, but in the absence of a license, there 8 are qualifications. And you no longer get to 9 10 fill out a form to reach those qualifications, it means that you hire someone with that, the 11 12 qualifications. And there is flexibility in 13 what those qualifications entail and the licensure team can definitely work with people 14 15 on that. 16

MR. O'LEARY: Okay.

CHAIRMAN PFEFFER: But we just want to be sure that we're all on the same page in what we're saying when we talk about meeting AQT.

So then to answer the MR. O'LEARY: question a little bit more directly is, is that, and I understand that process. But it's been a while, I haven't had to hire a teacher for three years so I've been very, very lucky.

And so but I was used to the HQT form that

24 25

17

18

19

20

21

22

we used for years, and I worked at DYS so we had teachers at seven different sites in the state so I was responsible for taking care of that.

But to answer your question directly is that in order for the program to be successful there is a recognition that we understand that you have to have key people that are teaching in the classroom that have the subject matter expertise in order for the student to accomplish what it is that we're trying to accomplish. So that is a dedicated part of the hiring process is that we are looking for those individuals that meet those types of requirements. Delivery in the classroom, be able to give the basic techniques of instruction are probably the key to the learning, and the ability of that individual to deliver those aspects in different ways, because people learn in different styles.

CHAIRMAN PFEFFER: Are there additional questions about the application?

DR. WILLIAMS: Yes. I -- I just kind of have a general concern. It's more along the lines of teach then learning. I'm familiar

24

25

1

2

3

with the A+ model from when it was first brought into the state.

When will the training take place for the teachers to implement that? And also to implement that model, we've got to have a good cadre of teachers who are already really well versed in their content area. I haven't heard anything about that thus far so I'm going to give you the opportunity.

Also the graduation rate. I know you're just now starting with the first two grades, but this is the time when you set the rates because you're moving forward. You don't -- we don't wait until they get to be 12th graders and then we set those goals. So I'm interested, even though it's not in writing here, what are your expectations. I want to hear that.

And, well, the graduation rate, any idea how does it compare to the current high school that's serving that area in the Little Rock District?

Let's start out with the A+ first.

MS. BELMON: Okay. So in regards to training the teachers, there will be a summer

	324
1	institute held here in Little Rock and we'll do
2	a three-year cycle of summer institutes and
3	then on-site professional development in the
4	fall and in the spring. So the teachers will
5	have three trainings annually in order to get
6	that support.
7	As far as I would like to check with
8	Mr. Davis on this.
9	DR. WILLIAMS: Yes, ma'am. I understand.
10	MS. BELMON: Okay. So upon implementation
11	of A+, your question was will they
12	DR. WILLIAMS: Well, I'm I'm looking to
13	see, once the A+ is implemented, I'm still I
14	guess the first part of A+ I'm looking for
15	is is what are the expectations of learning?
16	Because A+ comes in on top of what teachers
17	already
18	MS. BELMON: I see what you're saying.
19	So as far as they need to have the
20	curriculum established in order for the arts to
21	be implemented into the curriculum
22	DR. WILLIAMS: Absolutely.
23	MS. BELMON: and have a strong
24	understanding of it; so
25	DR. WILLIAMS: Yes. And I just haven't

	325
1	heard anything
2	MS. BELMON: Absolutely.
3	DR. WILLIAMS: around the curriculum
4	whatsoever.
5	MS. BELMON: We in terms of A+
6	involvement, we would make sure that the
7	fellows assigned to work with PLAA will have
8	the background to support that implementation
9	process with that curriculum.
10	So, for example, one of our fellows is
11	recognized for his work in the English
12	excuse me, ELA and doing dramatic arts, and so
13	that would be someone we would put on the team
14	to work with that school.
15	DR. WILLIAMS: Okay.
16	MS. BELMON: So they would have fellows
17	that have the experience and expertise to share
18	and be, literally, an email away to support
19	that teacher with their unit development.
20	But if you're looking in terms of someone
21	on staff, we have the advocate program.
22	DR. WILLIAMS: Okay.
23	MS. BELMON: And what the advocate would
24	do is kind of serve as that go between for the
25	principals and the staff expectations and what

1 A+ needs to plan for those professional development sessions. 2 So, for example, the teachers do a 3 self-reflective survey. 4 5 DR. WILLIAMS: Uh-huh. MS. BELMON: The advocate would be the 6 7 collector of that information of all those surveys from the staff members, determine with 8 9 the principal who -- or the focus of what the next PD needs to be based on the A+ model. 10 11 DR. WILLIAMS: Okay. 12 MS. BELMON: Does that help? 13 DR. WILLIAMS: That helps a lot, especially on the A+ basis. 14 15 My -- just the next level now is what will 16 be done to assure that kids will be ready to go 17 to college? 18 Your graduation rates, you know, are you doing any extra work with the students that may 19 20 be struggling in math? You know, you just kind 21 of brushed over the general curriculum. For me

it's all about teaching and learning. You can

lay any -- everything else can -- but it's

about teaching and learning. What are you

doing to assure us that kids will be ready to

22

23

24

go to college?

MR. DAVIS: Yes. Well, we have a number of components in place, what I'm calling academic skills assistants, we'll have some of those personnel in place to help those academic assistants. I don't want to use the word tutor too many times. As far as the graduation rates for the other school that's been there since 1966, McClellan, there are some challenges there. We definitely want to raise the bar from -- from Prolific learning standpoint with our graduation rates.

And as going back to something that you said earlier, Dr. Williams, about talking about expectations for the 9th and 10th graders when they graduate, I will say in 8th -- 8th grade, you know.

DR. WILLIAMS: Oh, absolutely.

MR. DAVIS: We're actually recruiting, well, we've been on the streets, per se, if you all can follow this hashtag, investing from within the community, if you follow that universal hashtag anywhere, investing from within the community, we've been out at Cloverdale, we've been out at Mabelvale Middle

School, letting people know about the idea for Prolific Learning Arts Academy in 2020 and 2019. And so just kind of getting that conversation started, I believe, is essentially important to talk about graduation in the 8th grade and 9th grade, not just talking about it, you know, during your junior year or during your senior year.

Because I'm a product of the public school system and, you know, traditional public school system, because PLAA, if the green light comes with you-all, it will still be a public school, it's just a nontraditional public school.

And so as far as the -- our graduation rates are concerned, I'm going to be talking with my team about those numbers moving forward.

DR. WILLIAMS: Okay.

MR. DAVIS: But that's something that, as an educator myself, we're definitely be looking at. I'll have to get back with you.

DR. WILLIAMS: Okay. Not necessarily to go to college. Actually to go to college or a career.

MR. DAVIS: Career?

SUSAN B. WHITSON, CCR, INC. (501) 455-1170 WhitsonCCR@aol.com

DR. WILLIAMS: Absolutely.

MR. DAVIS: Yeah. Of course, there are different pathways, whether it's straight to the workforce, military, college or university, and, you know, or a trade school. You know, my sister is a three -- three-year veteran of the University of Pennsylvania Hospital and she didn't go to college but she's a radiologist. So, anyway -- yes, sir.

DR. WILLIAMS: Okay. All right.

CHAIRMAN PFEFFER: And I -- and I think, along those lines when we were questioning about the goals earlier --

DR. WILLIAMS: Yes.

MR. DAVIS: Yes, ma'am.

CHAIRMAN PFEFFER: -- those are the things that are missing in your application as far as goals. What are those expectations of students. What is it that you are doing and you would expect for students as they leave. And so in terms of attendance, engagement, in -- while they are in high school and, you know, the students that will go on, how are you -- what are those measures you're going to set up to know if you're being successful?

1 That's missing from your application, because your 11th and 12th grade goals are tied to the 2 NWEA MAP assessment and the growth students 3 show there. And while that could be a 4 5 contributing factor, it's again missing what are those college and career readiness goals 6 7 that you -- that would actually be set for students in your school, and that's what we're 8 9 missing. MR. DAVIS: Yes, ma'am. 10

CHAIRMAN PFEFFER: Okay. Dr. Kremers?

DR. KREMERS: I have just a clarifying question on the budget.

MR. DAVIS: Dr. Kremers, yes, ma'am.

DR. KREMERS: Under the classroom instruction, the WiFi and telecommunications phone --

MR. DAVIS: WiFi? All right.

DR. KREMERS: Uh-huh -- is listed as \$8,000 in the budget, and then down below in maintenance and operations they are separated out and it's for a total of 14,000. So I just wanted clarification on the differences between phone and Internet classroom instruction versus maintenance and operations.

11

12

13

14

15

16

17

18

19

20

21

22

	331
1	MR. DAVIS: Okay. Yes, ma'am, Dr. Angela.
2	I would ask Mr. Chandler to come on up, she had
3	a question about the WiFi.
4	MR. CHANDLER: So you have the \$2,000 for
5	the Internet and WiFi. And then, I'm sorry,
6	the second part of your question?
7	DR. KREMERS: That's under maintenance and
8	operations, it's listed as 12,000 for phone and
9	2,000 for Internet WiFi under maintenance and
10	operation, M and O, and then up above under
11	classroom instruction it's listed there as well
12	as 8,000.
13	MR. CHANDLER: Where is the classroom
14	on the telecommunication and Internet services?
15	DR. KREMERS: Uh-huh.
16	MR. CHANDLER: So is one of those a
17	duplicate or is it this is something I don't
18	know the answer to.
19	MR. DAVIS: Okay.
20	MR. CHANDLER: Monica, do you know that?
21	MS. DAVIS: Yeah. That is a typo, that's
22	an oversight.
23	We'll take the \$8,000 one and then remove
24	the 4,000 I mean the 4,000 one.
25	DR. HERNANDEZ: While we're on a budget

	332
1	question, under that same not to let the CPA
2	have a seat.
3	No, I'm saying not to let you have a seat.
4	So under other, there is a line item there
5	under "other revenue sources" and it lists a
6	grant from the Walton Foundation
7	MR. CHANDLER: Yes.
8	DR. HERNANDEZ: of 325,000. Is that
9	I didn't see a letter anywhere, unless I missed
10	it in the application, that that money is
11	committed, or is that something that you
12	don't do you have a commitment on that?
13	MR. CHANDLER: I think that's something
14	Mr. Davis can speak to better than I.
15	MR. DAVIS: Yes.
16	MR. CHANDLER: As I understand, that's
17	pending approval.
18	MR. DAVIS: Yes, ma'am, Ms. Kathlyn, we
19	communicated
20	CHAIRMAN PFEFFER: We need you in front of
21	the microphone, please.
22	MR. DAVIS: Sorry. Yes, ma'am. That's
23	Ms. Kathlyn and we don't have the letter in
24	hand, but it's underway. We can have it sent
25	and it's not a problem at all.

1	DR. HERNANDEZ: Okay. So do we typically
2	put those in the budgets, Ms. Boyd, when we
3	don't have because I know it lists in there
4	having a verification letter or something like
5	that, so is that
6	DR. BOYD: Right. In instructions for the
7	document it says that if you are going to
8	receive private funds that we need a formal
9	formal documentation, which means written
10	documentation that you will actually receive
11	those funds.
12	DR. HERNANDEZ: And we don't have that
13	right now?
14	DR. BOYD: And we do not have that right
15	now.
16	DR. HERNANDEZ: All right. I don't have
17	any other questions.
18	CHAIRMAN PFEFFER: Okay. I mean, if we've
19	gone through the application questions, I would
20	like to move on to the different systems and
21	and see if there are any additional things or
22	comments and kind of wrap up in terms of of
23	that.
24	So starting with the human capital system,
25	have we asked all of those questions? I think

we did get some clarification on the human capital.

Student supports, did all of those concerns get addressed? That would include our special education, EL, child nutrition.

And stakeholder communications, family engagement? Okay. District operations and fiscal governance?

Okay. So one area that we do note, then, that the grant money is included in the budget but we don't have that letter in hand; correct?

DR. BOYD: Yes, ma'am.

CHAIRMAN PFEFFER: Okay. The facilities, were there any ADE staff that had anything to add?

And then academics?

I'm going to be honest, I'm -- I'm concerned about academics and what we're actually going to be teaching next year. Do we understand, do we have the staffing appropriately planned and budgeted. So I think that is a big concern, that I still have remaining questions about whether the charter fully understands what they have asked for and agreed to.

1 So, Ms. Hyatt, on the -- on the waiver for the 38, it makes me uncomfortable to ask 2 somebody to waive something that they don't 3 know what they are actually asking, so I do 4 5 have some questions there. Would you --MS. DAVIS: Was that something that was 6 7 just changed last week, the 38? 8 CHAIRMAN PFEFFER: No, ma'am. It was 9 changed about 15 minutes ago. 10 MS. DAVIS: No. I'm saying the actual 11 requirements. 12 CHAIRMAN PFEFFER: No. Those requirements 13 have not changed. School districts have been required to teach 38 units of credit for a long 14 15 time, and the graduation requirements of 22, those have not changed. No. That has been a 16 17 requirement. 18 Ms. Hyatt referred to the State Board meeting. Those were just brought to the State 19 20 Board as part of a new cycle of an annual review that they will do, but and those 21 22 courses, the course lists have been updated 23 with new course codes and things like that. 24 But, yeah, they are not -- the 38 requirements 25 is not something new.

MS. DAVIS: Okay.

CHAIRMAN PFEFFER: All right. So it doesn't look like that there are any questions from the Panel.

And, Ms. Hyatt, did you have any remaining issues that you wanted us to go over?

MS. HYATT: So I just, I know I briefly mentioned this before, but I do think it is kind of an outstanding concern, if they are going to have teachers that are teaching that 150 maximum, based on some of the information that was presented about having teachers teach multiple classes in order to cut down on the number of teachers, I'm still unsure whether or not they are confirming that they are going to follow 6-17-812 or -- or -- or where we are there.

CHAIRMAN PFEFFER: Do you have questions about the class size maximums or the maximum number of students that a teacher can teach per day or are you comfortable with the 150 maximum?

MR. DAVIS: Yeah. We were entertaining, the Board of Directors and myself, about, you know, having smaller classrooms, and, you know,

we talked also about -- Mr. O'Leary also
mentioned the fact that you said, I think,

20 -- 17 to 22? What were those numbers?

MR. O'LEARY: What was that again?

MR. DAVIS: Smaller numbers for classroom

size.

MR. O'LEARY: The classrooms, if you look at the current -- the current classroom size that's going on like at A.J. Fair [sic] right now and also McClellan, you're looking at, I think, that what it said on the website is that A.J. [sic] right now has a class size of one to 11 is what they are, they are posting right now.

As far as our classroom size is determined is based upon the number of students that you have in and the number of teachers you have on the staff. If we project that 150 and we staff accordingly, then we should be able to handle the 150 that show up at the door.

I think what we're most afraid of, if anything, is that -- and this is going to happen as sure as I'm standing here in front of you -- those two schools are going to come together on that school site in North Little

Rock [sic], you're going to have 2,200 kids from two different communities, and we strongly believe that our charter school would be that outlet that's going to help assist that particular school district and staff at that location with some of the issues and things that are going to come up.

And I know that there has been some -some doubts that have been heard from the Panel
that's expressing some concerns and so on like
that, and what I'm hoping is, is that we can
make the necessary adjustments in the charter
to get rid of those doubts and perform as we've
indicated that we can do with this particular
group of kids that are going to come through,
because they are going to be looking for a
secondary location.

I have kids right now from both high schools in my program right now. There are issues between those students because of the community that they come from and some of the affiliations and things that are going on. And we're going to put 2,200 kids in one location with that same kind of community involvement together --

	339
1	CHAIRMAN PFEFFER: Okay.
2	MR. O'LEARY: and so we're hoping that
3	we would be able to provide an outlet for the
4	district and at the same time provide
5	additional pathways for kids that are not going
6	to be successful in that environment but in a
7	smaller environment.
8	CHAIRMAN PFEFFER: Okay. Okay. So thank
9	you.
10	And what I'm hearing is that we do not
11	need a waiver from the 150 maximum; is that
12	correct?
13	MR. DAVIS: Correct. Yes, ma'am.
14	CHAIRMAN PFEFFER: Okay. All right. So,
15	Panel, at this time it's time for a decision.
16	We can either approve, deny, or take the matter
17	under advisement until a future meeting. So I
18	would entertain a motion.
19	DR. HERNANDEZ: I make a motion to deny
20	the application.
21	DR. KREMERS: Second.
22	CHAIRMAN PFEFFER: I have a motion and a
23	second to deny the application. All those in
24	favor, say, "Aye."
25	PANEL MEMBERS: Aye.

	340
1	CHAIRMAN PFEFFER: Any opposed?
2	MR. WILSON: I vote no.
3	CHAIRMAN PFEFFER: Okay. One, one
4	opposed, but the motion does pass.
5	The motion was to deny the application.
6	So if you will give me a few minutes or give
7	us a few minutes, we will record responses and
8	then give feedback.
9	Okay. We will talk through our reasons
10	for votes. Dr. Hernandez?
11	DR. HERNANDEZ: So I made the motion. I
12	believe the application has some deficiencies
13	in terms of finances and academic programs; the
14	goals that are set need to be revisited for
15	alignment with the arts and academic
16	attainability.
17	CHAIRMAN PFEFFER: Dr. Kremers?
18	DR. KREMERS: I voted to deny; concerns
19	regarding preparedness, clarity of planning and
20	goals; advocacy support for teachers and
21	training; curriculum; and responsiveness to
22	requests for documentation in advance; and
23	budget.
24	CHAIRMAN PFEFFER: Dr. Owoh?
25	DR. OWOH: I voted to deny the

CHAIRMAN PFEFFER:

application. I felt that the charter
application and presentation were missing key
components in the areas of student goals,
educator support and development, staffing
requirements and budgetary items. I felt that
additional planning and preparation are needed.

Okay. Dr. Williams?

DR. WILLIAMS: I support the motion. The plan application is not complete, additional information, as lack of clarity, is needed regarding curriculum, budget, staff and waivers, and goals for graduation and attendance problems.

CHAIRMAN PFEFFER: And, Mr. Wilson?

MR. WILSON: I voted against the motion. I don't disagree with any of the valid points made by my colleagues and friends. I would simply have tabled, rather tabled the motion than have the -- and allow the applicant time to firm up its application and address any of the concerns the Panel had.

CHAIRMAN PFEFFER: Okay. We do appreciate you being here and the time and effort you've put into this. We hope that -- that the feedback will give you the areas where our

	342
1	concerns were and an opportunity to look at
2	something in the future. So thank you for
3	being here.
4	At this time that brings us to the end of
5	our action agenda item.
6	Ms. Boyd, do you have any remaining things
7	for us to consider today?
8	DR. BOYD: I don't have anything for you
9	to consider today. I just wanted to prepare
10	you for tomorrow. We do have three
11	applications to review tomorrow and we begin at
12	8:30.
13	CHAIRMAN PFEFFER: 8:30 tomorrow? Okay.
14	Does anybody on the Panel have anything
15	remaining for today?
16	I thank you-all for a hard day's work.
17	DR. HERNANDEZ: Do we need a motion to
18	adjourn or anything?
19	I motion to adjourn.
20	CHAIRMAN PFEFFER: Yes, if not
21	DR. OWOH: Second.
22	CHAIRMAN PFEFFER: Can I thank you-all for
23	being here today? We appreciate you, you've
24	done a lot of hard work.
25	Do I have a motion to adjourn?

		343
1	DR. HERNANDEZ: So moved.	
2	DR. OWOH: Second.	
3	CHAIRMAN PFEFFER: All right. We are	
4	adjourned.	
5	(WHEREUPON, at 3:47 p.m., the	
6	above-entitled proceedings were concluded.)
