CHAIRPERSON PFEFFER: Welcome to everyone. I will now call to order the October 19 meeting of the Charter Authorizing Panel. If you would, please silence all of your electronic devices. And let's not break any furniture over here while we're getting started here.

I'll introduce the Charter Panel at this time.

The Charter Panel oversees the authorization, renewal, revision and revocation of charters. Recently passed Act 462 of 2017 allows for individuals outside the Department to serve on the In accordance with the Act and in an effort Panel. to increase representation from local stakeholder groups, Commissioner Key named seven members to the Charter Authorizing Panel on August 3, 2017. Ivy Pfeffer, the ADE Deputy Commissioner; we also have Dr. Jeremy Owoh, ADE Assistant Commissioner for Educator Effectiveness; Dr. Mike Hernandez, our State Superintendent for the Office of Coordinated Support and Service; Kathi Turner, Deputy Director for Career and Technical Education at the Arkansas Department of Career Education; Mike Wilson, education advocate and attorney in Jacksonville; Dr. Naccaman Williams, former State Board member, of Education; and Toyce

Newton, a former State Board of Education member.

As chair, it's my goal to facilitate a fair and responsible hearing. I will request that each person speaking please state your name and title for the record. I will ask that you continue to speak clearly into the microphone for the benefit of the Panel, the audience, and our viewing audience. The entire meeting is being live-streamed and recorded, and Ms. Sharon Hill, our court reporter, will be providing a transcript of the meeting and it will be posted on the ADE website.

REPORT-1: CHAIR'S REPORT

CHAIRPERSON PFEFFER: At this time we will begin with any reports, and at this time I do not have any reports. Does any other member have any kind of report to present?

DR. WILLIAMS: Yes. I had the opportunity to just do a couple of site visits over this past month to two schools. One was the Arkansas Arts Academy and the other one was the New Tech High in Rogers, Arkansas. And it was just good to get back in school to see teachers and kids and it's just good to know that a lot of teaching and learning is going on out there. I won't get into any details since we have a long meeting before us this morning. Thank you.

	5
1	CHAIRPERSON PFEFFER: Thank you very much. And
2	it is always great when we can be in schools, when we
3	get to see that great work going on. So thank you
4	for that report.
5	CONSENT AGENDA
6	CHAIRPERSON PFEFFER: If there's no other
7	report, we will move on to the Consent Agenda. Does
8	anyone wish to discuss any items on the Consent
9	Agenda?
10	Okay. If not, I will accept a motion on the
11	Consent Agenda.
12	MR. WILSON: I move for adoption.
13	CHAIRPERSON PFEFFER: Okay. We've had a motion
14	to approve the Consent Agenda.
15	DR. OWOH: Second.
16	CHAIRPERSON PFEFFER: Okay. Motion and a
17	second.
18	All in favor say "aye."
19	(UNANIMOUS CHORUS OF AYES)
20	CHAIRPERSON PFEFFER: Okay. Any opposed?
21	All right. The Consent Agenda is approved.
22	We will now move to our Action Agenda.
23	MS. BOYD: I'm sorry, Dr. Pfeffer, can you tell
24	me who made the motion?
25	CHAIRPERSON PFEFFER: Mr. Wilson made the motion

and Dr. Owoh seconded the motion.

MS. BOYD: Thank you.

CHAIRPERSON PFEFFER: Okay. So, on the Action Agenda we'll start with Staff Attorney, Ms. Davis.

Ms. Davis, if you will come forward and explain this process, the hearing, the voting, and the process of how the Panel will report to the State Board the consideration to review or not review.

MS. DAVIS: All right. Good morning. Davis, Staff Attorney for the Department. The procedures that you're going to follow will be the same for all agenda items today. It will begin with all persons wishing to provide testimony to you will need to be sworn in, with the exception of any attorneys that may be present. The applicant will then have 20 minutes to make its presentation to you for its application or its amendment, at which point there will also be 20 minutes collectively for any opposition that may want to speak, followed by an additional 5 minutes rebuttal time for the applicant. At that point you can ask any questions of the applicant or the Department that you may have. can take the matter under advisement or vote on it today. If you vote on it today, you do have a Google doc that's been provided to you, so that way you can note the reasons for your vote. And I would just like to remind you that this is kind of considered a contract negotiation, so anything that the applicant says or agrees to that may differ from the written material that they've provided to you today does become part of any amendment or charter that you grant.

CHAIRPERSON PFEFFER: Okay. Does anyone have any questions for Ms. Davis?

All right. So if not, we will move on into Item

1 of the Action Agenda.

A-1: REQUEST FOR OPEN-ENROLLMENT CHARTER SCHOOL AMENDMENT:

ARKANSAS ARTS ACADEMY

CHAIRPERSON PFEFFER: Ms. Boyd, you're recognized.

MS. BOYD: Thank you, Dr. Pfeffer. Alexandra
Boyd, Director of Charter Schools. On November 13,
2000, the State Board of Education approved the
application for Arkansas Arts Academy. The charter
is approved to serve students in grades K through 12
with a maximum enrollment of 1,225. Representatives
of Arkansas Arts Academy are appearing before the
Panel to request an amendment to the current charter.
And here on behalf of the charter we have Mary Ley,

who is the superintendent, and Matt Young, who is the principal of the elementary/middle school grades.

CHAIRPERSON PFEFFER: Okay. Will all representatives from the Arkansas Arts Academy and anyone speaking in opposition please stand to receive the oath? Okay. Do you swear or affirm that the testimony you're about to give shall be the truth, the whole truth and nothing but the truth?

(ALL SPEAKERS ANSWERED AFFIRMATVELY)

CHAIRPERSON PFEFFER: Okay. You may come on forward. You will have 20 minutes to present. So welcome here today.

SUPT. LEY: Thank you. Good morning. I'm Mary Ley, superintendent, Arkansas Arts Academy.

MR. YOUNG: And I'm Matt Young, the K-8 principal, Arkansas Arts Academy.

SUPT. LEY: So we're here to ask you -- in 2009, before Matt and I even worked for Arkansas Arts

Academy, there were two different charters who came together and now they're all under one roof. One was a K-8 and one was a high school campus. But since then nobody ever looked, they'd just gone on, but we want to unify the school and make it even a better school than we think it already is. And we think -- like my responsibility -- or two of my

responsibilities is to always provide financial 1 sustainability and also to always drive even better 2 impact in the arts and in the academics, and we --3 this amendment would do both of those. So right now 4 we have almost 700 students at the K-8 and Matt will 5 be sharing with you the amount of students which is 6 7 almost overwhelming who want to come to his school. And at the high school, as most of you know, we're 8 9 rebuilding the high school. It's very exciting. The 10 concrete is poured, the beams are up this week, and when that school is done it will hold more students. 11 We'll be able -- instead of having 250 students, 12 we'll be able to have 600 students at that school. 13 And we'll be able to provide even deeper arts 14 15 programming, more ceramic studios that we haven't had 16 in the past, more dance studios, more programs to make us at a national level, which is our goal. 17 18 We're not even being cheesy about it. Between the building and our programming and our new great 19 20 principal there, we plan on having the best arts 21 school in the nation, nothing less. We want to put 22 Arkansas on the map with the best charter school, 23 best public school, best arts school; that simple. 24 So at the K-8 we have -- one of the problems has been 25 the recruitment at the high school. Even though it's

ranked the second best school by US News and World 1 Report for Arkansas because of its academics, we 2 haven't been successfully recruiting. We have taken 3 our own measures with that by hiring the new 4 5 principal lately that we think will draw the recruitment and the programming at a higher level, 6 7 and we have taken the steps to re-do our bonds and rebuild this school. But the next step is the K-8 8 9 has only taken 60 kindergarten students and always kept that number up to 67 to 68 in the middle school 10 numbers. But we've always needed 125 students at the 11 9th-10th grade, 11th grade, 12th grade to make it 12 sustainable. But what we have found as we've taken 13 over is that the K-8 used to be not very academically 14 15 strong, but student strong. The people were dropping 16 students off honestly because they were mad at the public schools, and that's not why we want students 17 18 to come to our school. We want kids to come to our school because they want the arts and they want the 19 good programs and they want the good academics. 20 21 has fixed all that, which he will tell you. We're 22 very excited about that. The high school survived 23 because of the K-8 numbers. And the high school 24 though had the best academics in the history -- in 25 the history of this organization. And the academics

2

23

24

25

were so strong that when we would come for renewal you would accept our renewal with hesitation, but because the high school is so strong you kept us going academically where the K-8 wasn't. We have the K-8 academics fixed now. We have the K-8 arts -- we have the arts fixed at the high school now and the academics are strong, but we need more students at the high school -- have more room. So we think the solution is to add 100 kindergarten students, 100 1st grade, 100 3rd grade, and so-forth. If we always have 100 per grade we will have that 1200 number that we need to be always sustainable, not to always ask to borrow money or to get grants to keep us going. We can breathe at night, have all the high-level things we need and be totally sustainable.

So we would like to have the K-8 move to the high school. And we also think that that will be better for the 7th and 8th grade because it will provide them more performance opportunities, more mentoring opportunities. And I think opportunities are very important for success in education. When I first started -- this is my 40th year in education. That's crazy; I thought I was only 41. But anyway, I thought it's really exciting to be where I'm at today because of all the experiences I've had. I have

learned that when I -- I was kind of a post-hippie 1 child, so I was going to change the world when I 2 started teaching and I was going to change every kid. 3 And then I realized pretty soon that it isn't my 4 5 place to change anybody, but what my place is is to provide great opportunities. Because I think every 6 7 time a student -- like I used to live in Colorado 8 before I moved to Arkansas; I would arrange for kids 9 to climb Pike's Peak and then write stories and do art about it, and we'd have all these great 10 11 experiences. And I would take them fishing and then draw it and write about it. I was an art teacher and 12 13 I would always do all this integration, which we're doing now. I found out you gave kids opportunities 14 15 you would see the light come on in their head and So I call 16 you'd see them grow and develop. opportunities "dots." And then the more 17 18 opportunities you give kids the more dots, the more they connect, and then the change comes within the 19 20 student. And we believe by bringing the 7th and 8th 21 grade over to high school you give them these dots to drive this change, and the more opportunities that we 22 23 can give, because it comes with kids getting to 24 perform more and to be with the older children to 25 join them in the opportunities they have.

And then I would like Matt to tell you about his problem of more kids wanting to come to his school.

It's a great problem to have.

MR. YOUNG: Charter Board, thank you so much for allowing us to come before you today.

CHAIRPERSON PFEFFER: Mr. Young --

MR. YOUNG: Yes.

24

25

CHAIRPERSON PFEFFER: -- please recognize yourself.

MR. YOUNG: Yes. My name is Matt Young. the Arkansas Arts Academy K-8 principal. It's been amazing the last two-and-a-half years to kind of watch our school and how it's grown. You know, today, this morning when I checked my phone, we have a waiting list of 460 kids that want to come join us. And it's hard for me to say no. You know, you have someone that has a passion that wants to come for their child, and that's all of our best blessings in life are our children. You know, for my own children, both of them go to school at the Arts Academy. It's been amazing for my child to be exposed to dance, piano, all these things. I was like, oh, I've got great intentions of doing that, but I don't want to shell out \$100 to put something else in my garage. You know, and maybe that's only

25

my kids, but, man, for them now to get those experiences on a regular basis, to find those passions in life that aren't available in other places -- but we've got other kids that want that opportunity. And for me to say, "You can't come because I don't have room" just feels wrong. know, it's not their fault. They didn't turn in their form quick enough. You know, I had someone that just started the Friday before October break; she's been waiting two years -- two years to come -and she was so pumped. I don't know how many hugs I got from that girl, and a cupcake, homemade, and it was very good. But the rest of these kids -- we've got to figure out -- we've got 460 kids K-8 that want to come to our school. We've got spots that are going to become available at the high school. can we help this? Because right now we're trapped in a box. You know, our campus has to be K-8; the high school has to be 9-12. We want to be able to work with our parents, work with our students, work with our teachers and our community to figure out how can we get more kids into our school. You know, is it moving just 8th grade over? Is it moving just 7th grade over, and 8th grade? But right now we don't have that opportunity. Give us the opportunity to

help more of these kids come off the list and open these doors for kids. Because the last thing any of us want to do is say, "Hey, you know what, I'm sorry you didn't get to take piano because your -- you didn't have the money or because, you know what, your dad wanted you to play baseball or the drive was too far." So when I look at that list it hurts for me to say these kids are not getting that. So please give us the consideration to allow us the flexibility to move some students to a location where we have space so we can take this group of students and parents that want to come to our campus. Thank you so much for your time.

CHAIRPERSON PFEFFER: Okay. Ms. Boyd, is there anyone here to speak in opposition?

MS. BOYD: No, ma'am. No one signed up to speak in opposition.

CHAIRPERSON PFEFFER: Okay. You have -- you still have plenty of time from your original 20 minutes, but you also have 5 minutes to close. Do you want to add anything else or ready for questions?

SUPT. LEY: Well, we have had -- so you know, we did have an all-staff meeting to share with the kindergarten teachers, to the teachers at the high school to see if they would feel okay about this.

And we had great overall feelings about it. The two principals are very collaborative and work really well. She would've been here today but she's with the Pea Ridge superintendent figuring out a new flex schedule for our students today and had already arranged that. And we also had a parent meeting. I think about 75 parents showed up, and out of the 75 I think two or three didn't like it but they also had the opportunity to come to my office or use any social media to voice their opinion. I think I received one negative letter and -- but she said no matter what her student would still go to our school. But overall, we've had good support on it.

Another reason it would be nice to bring them -we're changing our mascot, so it's a mascot for both
schools. We really want to be unified. When those
two schools came together I think the former
administrators didn't have a very good kum ba ya of
relationship and we do now. And we want to be more
than just two campuses; we want to be two campuses
with one heart and one soul. We have the same
mission, we have the same goals, and we're just
trying to work out where the issues of having a lot
more kids coming and making sure that the high school
has enough kids coming to the new school to make it

sustainable and offer them the programming I think our 7th and 8th graders can have if they're put with the high school students.

And I will say we traveled across the nation to see the best high schools and art schools in the nation. We went to Denver, to Santa Fe and New Orleans and Houston, and most of them are 7-12 or 6-12. So we're modeling them after very successful schools.

CHAIRPERSON PFEFFER: Okay. Yes, go ahead.

MS. BOYD: Dr. Pfeffer, I just want to clarify before y'all get into question-and-answer. They are far away from meeting their cap, so the extra students that they're talking about adding are -- they're already approved to add that many students. So I just wanted to clarify that.

SUPT. LEY: Thank you.

CHAIRPERSON PFEFFER: Okay. We'll go ahead and start with questions. I think Dr. Hernandez has a question to start.

DR. HERNANDEZ: My question may be for Alexandra and Jennifer. So having these two schools that have combined together under a K-12 charter with one cap, is there a reason why they have to ask to modify where grade bands are? And if they are, the follow-

up to that is going to be -- or what I heard them say is that they're asking about moving 7th and 8th grade to the high school.

MS. BOYD: Uh-huh.

DR. HERNANDEZ: But will there be flexibility in their thought process to say, "Well, we want to do this grade but we may not want to do that?" So I'm just trying to avoid having them moving back -- coming back and forth if they need to make adjustments --

MS. BOYD: Yeah.

DR. HERNANDEZ: -- for the families' sake.

MS. BOYD: Uh-huh. We all appreciate that, Dr. Hernandez. Unfortunately, because their two campuses are not at the same address they have to come and ask for approval because they have to do a desegregation analysis and we have to have that assurance that it's not negatively impacting desegregation. So that's really why they have to come before you. If they were all on one campus or, you know, at the same two buildings basically at the same address, then we wouldn't have to do this.

I'm not sure, Ms. Davis, if there's a way to word the motion so that they wouldn't have to come back?

1 MS. DAVIS: If they are asking for flexibility with the 7th and 8th grade only, then the motion 2 could be worded to move one or both of those grades 3 to allow them to do that. So that way, if they 4 5 determine that 8th grade is more appropriate at this time to move and then maybe later move 7th or keep 6 7 them separate, that way they would not have to come back. Now if they want to do for expanding it for 8 9 other grades at that campus, then they would have to come back. But for 7th and 8th grade you could allow 10 them the flexibility in your motion to move one or 11 12 both at a time when they see fit over the next year 13 or two years or however long. MS. BOYD: Also, if we do it that way I think we 14 15 need to make it clear that it's a requirement on them to let us know when they move the kids, because we 16 need to know where the kids are. 17 18 CHAIRPERSON PFEFFER: Do you have any follow-up? DR. HERNANDEZ: 19 No. 20 CHAIRPERSON PFEFFER: Okay. Dr. Owoh, do you 21 have a question? 22 You mentioned that DR. OWOH: Yes. Thank you. 23 the academics and the arts program are stronger in 24 your schools. Can you elaborate on what you did to 25 increase the strength of your program?

And then

1 MR. YOUNG: So at the K-8 campus, that's where the questions had came up academically. And, 2 honestly, it was because there was no foundational 3 Everybody was operating in isolation; 4 curriculum. 5 all the teachers were doing their own thing and they were all just finding things, just to be honest. 6 7 I'm like, yes, we want creativity; yes, we want arts integration, but we also have to have a foundation 8 9 That way, we assure that all the 3rd that's common. 10 graders are getting these basic building blocks and they weren't getting that before. So we have worked 11 with the University of Arkansas literacy specialist, 12 13 David Hanson, to help our literacy program. we've also brought in Eureka math, which came in with 14 15 the State Department. Working with those two 16 programs has been a big blessing for us. And when we look at our ACT Aspire results, comparing last year's 17 18 to this year's, of the 30 tests -- you know, thinking of all the sub-tests between 3rd and 8th grade, 24 of 19 those 30 areas grew. We even had some grades that 20 21 grew 20 to 30 percentage points in that growth area. 22 Of the six that did not -- because I'm always one of 23 those people that's like, oh, goodness, what 24 happened. You know, two of them stayed the same and 25 one of those was at an 89 and one of those was at 90

percent. And in one grade we had a problem but we did find it was a curriculum problem, so we've gone back and adjusted what we're going to offer for that group of kids this year.

DR. OWOH: One last question for now. If it is approved for you to move 7th and 8th, or 8th, what would be the layout of the grades within that high school? Will the 7th graders and/or 8th graders be mixed with the 11th and 12th graders? Will they have classes together? What will be the composition?

SUPT. LEY: The core classes will have a central area where 7th and 8th grade are in one area.

Because we have -- you know, with the new construction we'll have -- they're all going to be hooked together, but we only have four different buildings. So they'll be mostly in the one building for core classes. And certain art classes, it will depend on their level. Because we'll have -- guitar is a popular class, and we'll have students that can play the guitar almost at a professional level that's a 7th grader and so we'll make an exception and put him in a higher level guitar class where he'll be challenged. But most of the kids might be in a beginning guitar class if they've never had guitar. So there will be some individuality with the arts,

depending on their level. But like we have a new animation class; I doubt if all the students have had that before, so all the 7th and 8th grade will be in the same animation class. But there will be exceptions once in awhile where we'll put them in a higher level class so they'll be challenged. But they won't be in the same hallways and the same level.

DR. OWOH: And I can appreciate you for placing students based on their individual needs. My only concern would be the intimidation of --

SUPT. LEY: Sure.

DR. OWOH: -- having a younger student mixed in with older students.

SUPT. LEY: I wish you'd come see our school because I know you feel that way. And we have the most beautiful, sensitive -- I don't know -- and I'll give credit to being in the arts and we have a quirky superintendent, some quirky principals and quirky kids, and we celebrate quirkiness. But the beautiful thing about quirkiness is we really have no bullying in our school, not because there's posters everywhere but because kids are so sensitive. They're sensitive kids and they appreciate differences. And if you would -- I always say if you want world peace you

should come to see our cafeteria because our kids blend. They don't care what color you are or how much you weigh or whatever; they're all talking about the arts and what they're doing. And there are kids that want to be left alone and read their book and there are other kids that just want to talk. And we have purple hair and blue hair and gothic and, you know, it's just a -- for me, that's what's been so wonderful is to see that there can be peace on earth -- and if it's the arts that do it, then so-be-it. So, pretty cool.

DR. OWOH: Good to hear. Thank you.

CHAIRPERSON PFEFFER: Mr. Williams, do you have a question?

DR. WILLIAMS: More or less just a question and a comment. First of all, I will attest to what Ms. Ley just said. When I was out there at the school, it's just really strange but it looks like all the kids belong there. I mean, from the guys taking classical ballet -- you won't find that in a whole lot of schools -- to the elementary kids, some of them doing performance, some of them working on violin. It's truly a school of the arts. And one of my concerns when I went out there that was alleviated was that -- you know, I'm a math person, so I'm kind

of concrete/sequential in my thinking -- was that all this talk about this arts stuff, you know, if the basics are being covered, and that's what Mr. Young alluded to. We addressed -- talked a little bit about that when I was out there, are the foundations in place, and then the infusion of the arts kind of comes on top of that. And I felt that they had met that, that that was taking place and that I was impressed that there were no cliques out there. All the kids are just kind of -- I don't know that "quirky" is the word, but I think they are arts kids and they all belong. They're at a place where they're in their comfort zone.

The essence of my question is just basically what you're looking to do, you're expanding the high school; the concrete is being poured, construction is taking place. And you're going to have more space at that facility?

SUPT. LEY: Yes.

DR. WILLIAMS: And you would like to grow but the elementary, K through 8, is maxed out now?

SUPT. LEY: Correct.

DR. WILLIAMS: So if you move the 7th and 8th grade to the high school, one, you have the space because you're building more space there, and that

	23
1	way you can also increase your enrollment in the K-6?
2	SUPT. LEY: Uh-huh.
3	DR. WILLIAMS: Okay. Thank you. I just wanted
4	to kind of simplify what we're looking at here.
5	SUPT. LEY: Thank you.
6	CHAIRPERSON PFEFFER: Okay. We'll start do
7	you have any questions, Ms. Turner?
8	MS. TURNER: No, thank you.
9	CHAIRPERSON PFEFFER: Questions?
10	MS. NEWTON: No.
11	CHAIRPERSON PFEFFER: No? Okay. So I just
12	one question, and I think Dr. Williams did a great
13	job of helping to summarize everything. In making
14	the transition, I know those 7th and 8th grades
15	sometimes with teachers and their specializations and
16	certifications you've got a little more flexibility
17	in those grades 5-8, and as you get into the 7-12
18	sometimes it's a little more specialized. Do you
19	feel confident that in terms of staffing when you
20	make this change, in terms of providing those core
21	academic classes are you able to meet all of those
22	needs with the transition of staff and students?
23	SUPT. LEY: Yes. We've already pulled all the
24	licenses and there's only one Language Arts teacher
25	that would not qualify at this time to go to the high

1	school level. And she really has the highest
2	Language Arts scores in the state, so we would want
3	her to go. But she's already agreed to take the
4	Praxis test to make sure, you know, she I think
5	she's taking it this month even to get her
6	qualifications to go to the high school level. But
7	everybody else already had the licensure to do it.
8	Thank you.
9	CHAIRPERSON PFEFFER: Panel Members, are there
10	any remaining questions?
11	Okay. Ms. Davis, are there any remaining issues
12	with the application itself?
13	MS. DAVIS: No.
14	CHAIRPERSON PFEFFER: No? Okay. And I'm
15	assuming nobody has signed up for public comment?
16	MS. DAVIS: (Shaking head from side to side.)
17	CHAIRPERSON PFEFFER: All right. If there
18	aren't any questions I will accept a motion at this
19	time on this amendment request.
20	DR. WILLIAMS: I move that the 7th and 8th grade
21	of the Arkansas Arts Academy be allowed to move from
22	the elementary campus to the high school campus over
23	the next when it's determined that the facility is
24	ready to receive those students, and also to inform
25	the Department of Arkansas Department of Education

	27
1	when the move takes place.
2	DR. OWOH: Second.
3	DR. WILLIAMS: I may need to clean that up.
4	CHAIRPERSON PFEFFER: Okay.
5	MS. DAVIS: I would just recommend that it would
6	be the 7th or the 8th grade, so that way if they felt
7	that they needed to move one and maybe not the other.
8	DR. WILLIAMS: And that is my motion.
9	MS. DAVIS: Okay.
10	CHAIRPERSON PFEFFER: Okay. So we have a motion
11	and a second. Dr. Williams, motion, and Dr. Owoh has
12	seconded that motion.
13	All in favor of the motion say "aye."
14	(UNANIMOUS CHORUS OF AYES)
15	CHAIRPERSON PFEFFER: Any opposed?
16	Okay. Congratulations.
17	SUPT. LEY: Thank you.
18	MR. YOUNG: Thank you.
19	CHAIRPERSON PFEFFER: Your amendment request has
20	been granted.
21	SUPT. LEY: We appreciate it very much.
22	MR. YOUNG: Thank you.
23	CHAIRPERSON PFEFFER: All right. Board Members,
24	if you will please go to the link that was shared
25	with you, we need to record our votes.

	20
1	(A FEW MOMENTS OF SILENCE)
2	CHAIRPERSON PFEFFER: Okay. It looks like
3	MR. WILSON: It looks like I haven't done
4	anything. I'm dependent on Alexandra to
5	CHAIRPERSON PFEFFER: Okay. We'll get your vote
6	recorded here. We'll go ahead and let you state your
7	reason. We'll start with Dr. Hernandez.
8	DR. HERNANDEZ: I voted for the motion because
9	the school is being responsive to community needs.
10	CHAIRPERSON PFEFFER: Okay. Ms. Newton.
11	MS. NEWTON: I voted for. And I stated that it
12	allows the school more flexibility.
13	CHAIRPERSON PFEFFER: Okay. Dr. Owoh.
14	DR. OWOH: I voted for the motion because it
15	would allow additional students in the community the
16	opportunity to engage in an educational environment
17	that is conducive to their needs and interests.
18	CHAIRPERSON PFEFFER: Ms. Turner.
19	MS. TURNER: I voted for the motion. It will
20	allow and provide opportunities for more students to
21	be served by this school.
22	CHAIRPERSON PFEFFER: Mr. Williams.
23	DR. WILLIAMS: The move will allow students on
24	the waiting list the opportunity to attend the
25	schools.

1	CHAIRPERSON PFEFFER: Okay. And Mr. Wilson.
2	MR. WILSON: I voted for the motion for the same
3	reasons as Ms. Turner.
4	CHAIRPERSON PFEFFER: Okay. So we are complete
5	with that agenda item. Does anyone need to take a
6	break for a minute before we move to Action Item 2?
7	A-2: REQUEST FOR DISTRICT CONVERSION CHARTER SCHOOL AMENDMENT:
8	CROSS COUNTY ELEMENTARY TECHNICAL ACADEMY
9	CHAIRPERSON PFEFFER: Okay. Well, let's go
10	ahead and move forward with our Action Agenda Item 2
11	for the District Conversion Amendment for Cross
12	County Elementary Technology [sic] Academy. And, Ms.
13	Boyd, you are recognized.
14	MS. BOYD: Thank you, Dr. Pfeffer. On January
15	9, 2012, the State Board of Education approved the
16	application for Cross County Elementary Technology
17	Academy. The charter is approved to serve students
18	in grades K-6 with a maximum enrollment of 500.
19	Representatives of the Cross County Elementary
20	Technology Academy are appearing before the Charter
21	Authorizing Panel to request an amendment to their
22	current charter. And I would like to specify that
23	the Panel, before you guys were appointed, during
24	their renewal hearing the Panel requested that they
25	revisit their goals, and that's what they've done and

that's what they're bringing before you today. 1 From Cross County we have Mindy Searcy, who is 2 the elementary principal, and Stephen Prince, who is 3 the high school principal. 4 5 CHAIRPERSON PFEFFER: Okay. Will the representatives from Cross County Elementary 6 7 Technology Academy and anyone speaking in opposition 8 please stand to receive the oath? Okay. If you'll 9 raise your right hand. Do you swear or affirm that the testimony you're about to give shall be the 10 11 truth, the whole truth and nothing but the truth? (ALL SPEAKERS ANSWERED AFFIRMATIVELY) 12 13 CHAIRPERSON PFEFFER: Okay. We are ready for you to begin your presentation. 14 15 MS. SEARCY: Good morning. Thank you for 16 letting us come back. 17 CHAIRPERSON PFEFFER: And if you would go ahead 18 and state your name. 19 MS. SEARCY: Oh, I'm sorry. Mindy Searcy, the elementary principal at Cross County. After 20 21 attending the ADE's Academic Accountability and 22 Standards for Accreditation webinar and learning 23 about the State's new accountability system under 24 Every Student -- I can't talk, y'all -- after the 25 Every Student Succeeds Act we designed our proposed

charter goals. And after sitting down with our new ACT Aspire scores and really digging into those and seeing the improvements that we made, we were able to set a trend for our test data.

We would like for our new literacy goal to be that we will increase the percentage of students who are scoring in the ready and exceeding categories by three percentage points each year. After year five of our last year of this charter, we will be at 69.99%. If we continue that data and we follow the ESSA goal, after 12 years we will be at 80%. We will exceed that and we will be at 90%.

For math we would like for our new math goal to be an increase of 2 percentage points. After year five, that will put us at 76.82% and it will be the same after year 12, we will be at 90%. We believe that these goals will serve our students, our families and our community and at the same time they are rigorous for our students.

Mr. Prince is going to talk to you just for a minute to explain why our charter is so important for our high school students.

MR. PRINCE: I'm Stephen Prince, the principal of Cross County High School, a New Tech school. Ms. Searcy is -- her academic rigor, with her goals and

what she does with her students is outstanding. And
with those goals our curriculum practices, she does
prepare our students to be better successful when
they transfer to us, the high school, as 7th graders.
So with our newly partner our new partnership with
KIPP Delta we have high expectations at the high
school. And with her curriculum practices and
instruction we are able to better prepare our
students to be successful when they come so
they're successful when they come to us, and then
when we are preparing them to be successful in their
post-secondary experiences. And so I just wanted to
make sure to kind of talk a little bit about that.
CHAIRPERSON PFEFFER: Okay. So, are you
finished with your presentation at this time then?
MS. SEARCY: (Nodding head up and down.)
CHAIRPERSON PFEFFER: Okay. Ms. Boyd, is there
anyone else that would need to speak?
MS. BOYD: No, ma'am.
CHAIRPERSON PFEFFER: Okay. You have an
additional 5 minutes if you want to say anything or
we can go ahead and proceed to questions.
MS. SEARCY: We can brag for just a minute.
After receiving our second year of ACT Aspire data,
we grew 6% in English, 5% in reading, 24% in writing,

	33
1	3% in science, and 9% in math. And that 24%, we give
2	all of the praise and glory to our TAPP strategies
3	that we have, which is when we came in December we
4	really bragged on implementing TAPP and how well that
5	works for our school. And we used a Plan and Write
6	strategy school-wide in writing and we were really
7	excited when that 24% came back.
8	CHAIRPERSON PFEFFER: Thank you for sharing that
9	information with us. That's it's always great to
10	hear about those accomplishments and it's even better
11	when you have been intentional and you're able to
12	come back and tell us "this is what we've done and
13	these are the results." So we appreciate you for
14	sharing that.
15	Panel Members, I'll go ahead and start on the
16	end. Ms. Turner, do you have any questions
17	MS. TURNER: No.
18	CHAIRPERSON PFEFFER: to start with? No?
19	Ms. Newton, any questions?
20	MS. NEWTON: No.
21	CHAIRPERSON PFEFFER: Mr. Wilson?
22	MR. WILSON: No.
23	CHAIRPERSON PFEFFER: Okay. Questions over
24	here?
25	No questions. Okay.

	34
1	DR. HERNANDEZ: I do have a question.
2	CHAIRPERSON PFEFFER: Oh, okay. We do have a
3	question. Dr. Hernandez.
4	DR. HERNANDEZ: I do have a question. Do y'all
5	have razors in Cross County, razors, like shaving
6	razors?
7	MS. SEARCY: Yes.
8	DR. HERNANDEZ: Okay. I was just curious
9	because I saw this guy and I thought that was my
10	only question.
11	MS. SEARCY: I agree.
12	CHAIRPERSON PFEFFER: I did not know where that
13	question was going for a minute. I was getting a
14	little worried there.
15	All right. And so just to summarize, you all
16	have looked at the State's ESSA plan and long-term
17	goal and you've set your goal on a trajectory that
18	would exceed that goal where your students over a 12-
19	year period would be reaching 90% who already are
20	exceeding
21	MS. SEARCY: Uh-huh. Yes.
22	CHAIRPERSON PFEFFER: expectations. Okay.
23	All right. Well, we appreciate your
24	presentation.
25	And, Panel, if we don't have any questions at

	35
1	this time
2	Ms. Davis, are there any issues?
3	MS. DAVIS: (Shaking head from side to side.)
4	CHAIRPERSON PFEFFER: No issues. Okay.
5	So at this time if we're ready for a motion I'll
6	accept a motion.
7	DR. HERNANDEZ: I make a motion to approve the
8	amendment.
9	CHAIRPERSON PFEFFER: I have a motion from Dr.
10	Hernandez to approve the amendment.
11	MS. NEWTON: Second.
12	CHAIRPERSON PFEFFER: Second from Ms. Newton.
13	All those in favor say "aye."
14	(UNANIMOUS CHORUS OF AYES)
15	CHAIRPERSON PFEFFER: Any opposed?
16	Okay. Congratulations. Your amendment request
17	has been accepted. And if you'll wait just a moment,
18	we'll record our responses and give you feedback.
19	(A FEW MOMENTS OF SILENCE)
20	CHAIRPERSON PFEFFER: While they're typing in
21	their responses, I will just say I know several
22	months ago the Panel questioned you or challenged you
23	to go back and look at your goals. I know that with
24	the at that time the ESSA plan had not been
25	finalized and there were a lot of questions

1	surrounding accountability in general, and I do
2	appreciate you all for really digging in and learning
3	more and sitting down and doing this work. Because I
4	know sometimes it may seem like things maybe are just
5	trying to be more difficult, and I think just hearing
6	you today talk it is evident that you've spent some
7	time to really do this. So I appreciate that.
8	Okay. So with our responses Dr. Hernandez.
9	DR. HERNANDEZ: I made the motion because the
10	amendment aligns with goals of ESSA and the charter
11	renewal application that was previously approved.
12	CHAIRPERSON PFEFFER: Ms. Newton. Oh, I'm sorry
13	Ms. Newton.
14	MS. NEWTON: The district's I voted yes. And
15	my reason was the district's plan to address
16	accountability around ESSA requirements are in line.
17	CHAIRPERSON PFEFFER: Okay. Dr. Owoh.
18	DR. OWOH: I voted yes because the request is
19	aligned with the expectations of ESSA and the school
20	team did meet the request of the previous Charter
21	Panel, so
22	CHAIRPERSON PFEFFER: Okay. Ms. Turner.
23	MS. TURNER: I voted yes. And the amendment
24	provides the district with more focus on improvement
25	and higher expectations for students.

	3,
1	CHAIRPERSON PFEFFER: Dr. Williams.
2	DR. WILLIAMS: I voted for. The adjustment of
3	the goals increase the expectations of the students
4	and I believe this is a win for the students, their
5	parents and everyone.
6	CHAIRPERSON PFEFFER: Mr. Wilson.
7	MR. WILSON: I voted for the motion. I
8	understood or understand that the amendment
9	clarifies the goals and sounds like a good thing.
10	CHAIRPERSON PFEFFER: All right. Thank you all
11	very much.
12	A-3: REQUEST FOR DISTRICT CONVERSION CHARTER SCHOOL: POLK
13	COUNTY VIRTUAL ACADEMY, MENA SCHOOL DISTRICT
14	CHAIRPERSON PFEFFER: Okay. We are it's time
15	for Agenda Item 3. Are we ready to move on? It
16	looks like it. So for Action Item 3 we have a
17	Request for a District Conversion Charter School, the
18	Polk County Virtual Academy as part of the Mena
19	School District. Ms. Boyd, you are recognized.
20	MS. BOYD: Thank you, Madam Chair. Polk County
21	Virtual Academy is a proposed district conversion
22	public charter school in the Mena School District.
23	The applicant is requesting to serve students in
24	grades K-12 with a maximum enrollment of 200. ADE
25	staff reviewed the application and concerns were

shared with the applicant for response. The application, the ADE evaluation and the applicant's response are included for your review by the Charter Authorizing Panel -- included for review -- I'm sorry -- by the Charter Authorizing Panel.

For Polk County Virtual Academy, the first person you'll hear from will be Benny Weston, the superintendent.

CHAIRPERSON PFEFFER: Okay. Will the representatives from Polk County Virtual Academy and anyone speaking in opposition please stand to receive the oath? Okay. If you'll raise your right hand.

Do you swear or affirm that the testimony you are about to give shall be the truth, the whole truth and nothing but the truth?

(ALL SPEAKERS ANSWERED AFFIRMATIVELY)

CHAIRPERSON PFEFFER: Okay. Thank you. Good morning, Mr. Weston. You are recognized to begin your presentation.

SUPT. WESTON: Good morning. My name is Benny Weston and I'm the superintendent of Mena Public Schools. My team and I appreciate the opportunity to appear before you today for our proposal for Polk County Virtual Academy.

I'm going to start this morning by sharing a

condensed version of my Superintendent's Report from 1 my recent board meeting. I will begin by asking a 2 few questions that we ask ourselves: what does the 3 future of education in Mena Public Schools look like? 4 5 When does the future start -- one year from now, two years, five years, ten years? At what point do we 6 7 want our students to compete in a worldwide economy using -- utilizing 21st century strategies? 8 9 continue to offer only traditional education and/or do we become innovative and offer individualized 10 11 learning plans as ESSA requires? Or do we just sit here until this too shall pass? Our world is 12 13 changing around us; therefore, we must change our methods of delivery to fit today's workplace, as well 14 15 as higher ed. Team Mena -- and that's what we call 16 ourselves, Team Mena -- Team Mena is making a 17 wholehearted approach to reach all types and all 18 levels of learners. We realize that we're living in an any-time, any-pace, any-place world of educational 19 opportunities. And if afforded this opportunity for 20 21 a virtual academy we'll be able to offer another group of learners an alternate method of delivery 22 23 that meets their needs. If we don't offer it to our 24 students, someone else already is. After all, it has 25 been said if we always do what we've always done

we'll always be what we've always been. That might be okay for some folks, but does it give our learners that competitive edge? We're attempting to do something different at Mena Public Schools. We simply have to embrace the idea that it's okay to listen to our students and patrons and allow them to have a voice in their education. One of our blended learning teachers, Ms. Jackson, begins each week with a motivational video in her 9th grade literacy class. The following video that we're about to see was submitted by one of her students for consideration. I hope you can appreciate the message that one student chose to voice.

(COURT REPORTER'S NOTE: A video was shown, which may be viewed on the ADE website.)

MS. SHERRER: Good morning. I'm Paulette
Sherrer, Federal Programs Coordinator from Mena
Public Schools. As we may not agree with every point
made in the video we just watched, this is a powerful
message from the voice of one of our learners. Our
students are 100 percent of our future. Our vision
is to help all learners discover and achieve their
dreams. Our student stakeholders deserve a voice and
a choice in their own learning, and we will offer
individualized student learning opportunities. We

1	eagerly anticipate partnering with our future Polk
2	County Virtual Academy applicants. These are just a
3	few examples of glimpses into the interests of our
4	stakeholders. We have met many students and their
5	parents whose stories have guided us in this pursuit.
6	(COURT REPORTER'S NOTE: There are a few moments
7	of silence while the presenters work on a PowerPoint
8	problem.)
9	CHAIRPERSON PFEFFER: I paused the clock so this
10	is not counting against your time.
11	MS. SHERRER: That's okay.
12	SUPT. WESTON: We'll probably still have plenty
13	of time.
14	MS. SHERRER: We allowed for this, if possible.
15	CHAIRPERSON PFEFFER: While we're doing this, we
16	do appreciate having Dan with us.
17	SUPT. WESTON: Absolutely.
18	CHAIRPERSON PFEFFER: I know it's hard sometimes
19	to give up the day, but it makes a huge difference
20	for us when we
21	MR. WESTON: Well, I was hoping you weren't
22	going to ask me to go over and help him.
23	MS. SHERRER: Okay. We have met many students
24	and their parents whose stories have guided us in
25	this pursuit. Based on verbal feedback from students

and parents and perceptions survey data from before, during and after our public meeting, we are excited to offer partnering for place and pace. We will be offering choices to multiple populations, including home-schooled, homebound, at-risk, and accelerated learners.

Polk County Virtual Academy will offer child centering curriculum provided by Arkansas certified This unique and flexible offering of teachers. learning paths will be individualized for each student to discover and achieve. At this point we have yet to meet our Polk County Virtual Academy Applications will be accepted and students. applicants will be chosen on a first-come first-serve basis. Upon meeting our PCVA students, we will partner with each learner to create a personalized student success plan based on pre and post, online or onsite assessments to determine the appropriate grade level curriculum for each student. Polk County Virtual Academy students will be offered the same quality education with equitable learning opportunities as our Mena Public School students and will have the required 23 or more credits for graduation.

We have a goal of valuing variety and voice.

Each one of our Polk County Virtual Academy learners will come to us with their own unique qualities and needs. We are offering a variety of learning opportunities to meet those needs of each learner. We will comply with all state and federal special education provisions. We will equitably provide all Polk County Virtual Academy students with the services afforded to our Mena Public School students. We will offer social experiences to foster a personal learning community through face-to-face interactions, field experiences, onsite learning opportunities, service projects, and extra curricular activities where they will blend with our Mena Public School students. We also value the variety and voice of our parents and community stakeholders. We will engage in ongoing communication and gain valuable feedback through parent panels, community cohorts, student dialogue, and perception surveys.

Our vision for this Polk County Virtual Academy is to expand our educational opportunities to better meet the needs of present learners in our community. While offering this individualized plan our goal for each learner remains accomplishing academic achievement. Through our various methods and fully aligned courses, our expectation will be for our Polk

County Virtual Academy learners to meet state established guidelines for ready or exceeding proficiency levels.

Thomas Edison said, "There's a way to do it better; find it." Team Mena believes we have found that way. We appreciate the Panel's time today as we follow our own individualized path of innovation and seek approval to begin this journey of offering students the option of becoming learners of the Polk County Virtual Academy. Thank you.

CHAIRPERSON PFEFFER: Please state your name for the record.

MS. SMITH: Good morning. I'm Jeanne Smith, assistant superintendent of Mena Public Schools.

Before the Panel asks your questions, I respectfully request you to allow me to tell about our experience with the district conversion charter school application. Due to data from home-school numbers, parent requests and school board member concerns,

Team Mena began the journey focused on the goal of starting a virtual academy for students seeking a nontraditional avenue of education. None of us had ever attempted anything of this nature, so the application process was overwhelming, especially requesting the waivers. When the waiver requests

review was sent back for further explanation, the
comments triggered the realization that the Mena
School District was creating a new school that should
offer and operate and offer equitable educational
services and programs that other schools were
providing. To quote Mark Goodwin Goodman,
"Forward thinking people in education institutions
are driven by their strong visions and missions.
They are willing to take on a certain amount of risk
to achieve growth, improve the outcomes and/or
increase user satisfaction. When confronted by a
shift in pedagogy they exhibit the courage to take
leaps of faith when needed, even if limited evidence
exists that greater results can be achieved."
I know that Team Mena is willing to meet any
challenge in order to successfully launch Polk County
Virtual Academy. We welcome your questions at this
time.
CHAIRPERSON PFEFFER: So, Ms. Boyd, is there
anyone else to speak?
MS. BOYD: No, ma'am.
CHAIRPERSON PFEFFER: All right. Well, we will
go ahead and move to questions then. Would anybody
like to volunteer to start? Okay. I'll let Ms.

Newton and then we'll have Ms. Turner.

MS. NEWTON: What I wanted -- I've got two or The first one would be what is the three questions. anticipated increase in enrollment for this initiative? And what are the plans of the district to address -- as opposed to blending these young people into programs, assuming -- you know, you gave a wide list of the number of the categories of students that are going to be involved in this recruitment. Given their diverse needs for ancillary services, it's reasonable to expect that they cannot be blended into the system as it exists now. So what are plans for the increases as relates to staff and other ancillary services that are certainly going to be needed for this population of young people?

MS. SMITH: Currently, in the first year we ask to have an enrollment cap of 25. And many of our administrators and other people that we have talked to are concerned at such a low number. We have also talked about just limiting it to high school and, again, I had opposition to that because they wanted it open to K-12 students. So when we talked about what we really wanted the academy to be we settled --we went K-12 in our population and we are looking at 25 students because we want to get our feet on the ground. We want to establish how it is going to be

25

started and we want to do it right. We want to get everything in place before we start increasing our enrollment. We looked at 25 students the first year, increase to 50 the next year, with a total of 200 when we got to the end of our application process.

MS. NEWTON: Okay. Well, that explanation heightens my concern because of the range of K-12. Ι had an opportunity to visit a charter in Bauxite yesterday that does have the virtual capacity on campus and I talked to them about the needs of individual students as it relates to needing help in different areas, and certainly K-12, that range. So you could potentially have students that run the gamut in terms of what their needs are based on staff. So it looks to strain staff more to me than it would be -- and I'm not an educator, so -- but as a parent and as someone that would look at the benefit of virtual education that would be a concern.

MS. SMITH: What we really had in mind for the extended services was to -- for example, if we had a 1st grade student enrolled in the virtual academy and they needed to see the nurse or they wanted to do the vision testing, we would send that student to our K-2 campus to have that -- those services provided. If we had a high school senior that needed services,

that student would go to the high school to receive the services. If we had GT students that wanted to participate in our GT programs, they would go to the appropriate building for that service. That's what we had envisioned to happen.

CHAIRPERSON PFEFFER: Ms. Newton, is your question more related if you have let's say initially five students. Let's say you have two students in each grade level. Is your question more around the curriculum, the instruction, the everyday aspect of how do you meet all those needs? Could you all speak a little bit to that --

MS. SMITH: Okay. I'm sorry; I thought you -CHAIRPERSON PFEFFER: -- about your curriculum
and your learning management platform --

MS. SMITH: Sure.

CHAIRPERSON PFEFFER: -- and who's going to be teaching?

MS. SMITH: Sure. The first two to three years we will be purchasing an online curriculum from the state approved vendors list. And the representative that I have spoken with has said that each course would be taught by an Arkansas certified teacher on the appropriate grade level. Does --

MS. NEWTON: So the -- excuse me -- the virtual

approach would meet that need, but individually if young people have problems --

MS. SMITH: I see.

MS. NEWTON: -- to the point of having an oncampus -- because my -- another question I had
would've been or is what would differentiate the Mena
district from the virtual companies that now offer
virtual education for students. So I'm looking to
hear what makes you different.

MS. SMITH: Okay. As far as the face-to-face, we are offering tutoring services after school for -- or whenever. We have looked at online means of having some of our teachers available to these students who are taking the online classes.

MS. SHERRER: And I'll speak a little to that.

Some of the way this was conceptualized was through our stakeholders' feedback to us. Ms. Smith and I have parents often come to the central office and they are explaining to us opportunities for us to meet their needs. And some of what we are hearing in our rural community is they want to be involved in our school with library, music, PE, counseling, GT, athletics, band, choir. They want to maybe come for a certain aspect. But one thing that we hear is the start time of the day does not suit their needs. So

we don't have a waiver for our traditional students to augment the time of their day, but we have heard -- and we have names and phone numbers -- of people that, if we get this approved, are very interested in -- I see it as a partnership with our home-school population specifically, that they know they are taxpayers and we are benefitting from that, and then they're having to in addition purchase curriculum for their child to be educated at home. And they are coming to us saying that they would partner with us, allow their child to participate in an academy of ours where we would be educationally equitably advancing their child. But then they could from a menu of options choose Tuesday library, choir, a field trip, helping with many of our social projects that are going on right now with our students, and not feel isolated. But they don't want to jump in fully traditional either. So that is what helped -quided us. And I'm thinking that in trying to MS. NEWTON: be sensitive to the things we hear from teachers, like "give me one more thing to do." MS. SHERRER: Yes. So I'm wondering -- my question MS. NEWTON:

specifically is how do you plan to increase the

capacity of your staff to be able to -- you know, what plans do you have to grow your staff to the extent --

Yes.

MS. SHERRER: Yes.

MS. SHERRER:

MS. NEWTON: -- that they can incorporate -- you know, because, you know, just putting one thing --

MS. NEWTON: -- another thing on an already crowded plate, you know, seems to address in theory but in practice how do you plan to adjust to make this something that is accomplishable --

MS. SHERRER: Yes.

MS. NEWTON: -- based on the fact that you've got the resources? So that's what I'm trying to get at.

MS. SHERRER: That's an excellent and valid question. And we met with our full staff K-12 and we rolled out this presentation with them and we asked them for their feedback with this, because we knew we were representing them when we came. And one of the aspects internally to our district right now is vertical alignment with the use of Google Classroom. Just for our students that aren't in attendance at school one day, they can not miss one beat by using the Google Classroom platform at home right now. Or

we have homebound students for medical reasons at this time that are still able to keep up with their work using Google Classroom. So we are not maxed at the moment with our student-to-teacher ratio at this So when our traditional teachers continue to incorporate and use a Google Classroom platform to its full benefit, then if we have the opportunity we could move from vendor-purchased curriculum and assign those virtual students to our teachers and they will be doing no more than they would be doing anyway for the traditional human bodies in their We would just be able to access and give classroom. that course code or that material to the virtual student that is choosing to learn in a different place or at a different pace.

MS. NEWTON: So does the 25 that you anticipate -- you know, having a number to say this is our plan and this is what we can absorb as opposed to, you but, you know, just saying based on what we have now and based on what we plan we can incorporate this say we have capacity in K-3 to do five, we have capacity in high school to do -- based on the

MS. SHERRER: Yes. We do have that.

MS. NEWTON: Would you share it with us?

MS. SHERRER: We have that capacity to incorporate students. But at this time, year-one, we wouldn't be asking any teacher to add a child to their roster because we will vendor-purchase the curriculum. And so the vendor-purchased teacher would be their teacher of record.

CHAIRPERSON PFEFFER: Ms. Turner.

MS. TURNER: Thank you. I have a couple of questions. One is in your application, looking at your public meeting, the attendance -- and I know several school personnel would be parents as well, but there were only two parents on the list. So can you tell me a little more about your stakeholder support? I just want to hear a little more about that.

SUPT. WESTON: Sure.

MS. SMITH: Since the public meeting there has

-- before the public meeting there were two articles
in the local newspaper concerning the Polk County

Virtual Academy. And I think that we gained much
support from those two articles that were published.

People come to us instead of in a meeting. We see

lots of parents come and visit with us individually

and they don't necessarily come to a meeting. they do come to school and they do tell us what they are looking at, as pros and cons. We met with our teachers. We try to involve the community in many, many ways. Our school board meetings -- our school board members are very supportive of this option that we are trying to provide for our community, the wants of our community. They hear the same things that we hear; "We would do something else if you had it available. We would come back to your school if you could offer us a different way to educate our So, in a small community like Mena that children." is the best way that we have to communicate with our They don't necessarily like to come to meetings and speak out; they want to tell us in a more personalized way.

MS. SHERRER: I'll say something right here.

This is my 28th year in education, all of which have taken place in Mena. So I was hired as a 1st grade teacher, but I taught 3rd grade, then I was literacy specialist, then I was building principal, and now I'm at the central office. So going to see Ms.

Sherrer at the central office is a way they feel like they have a voice in the change in the district, just because I've been there. It's someone that they know

is a stakeholder from within. All three of my personal children graduated from the school. I have an investment in it. There has been a growing population over the years in our home-school. Our numbers now are at 138 --

SUPT. WESTON: 139.

1

19

20

21

22

23

24

25

MS. SHERRER: 139. Some of these kids we have never educated, 139 students, and the largest majority have never been a student of ours. wasn't a student that got upset with us and left; it was a student that as of a 5-year old never chose us to begin with. But they come to us saying, "We love aspects of the educational quality that you're offering, but we are asking you to partner and tailor it in a different way." So we feel we have a quality educational traditional system. We are being innovative with our AE and our hub and our 9th grade blended learning, but it's still not reaching our entire population. And so we are mainly trying to reach that growing population of learners that we feel we can benefit in a way that we are not presently offering at this time.

SUPT. WESTON: And I'll mention we're very blessed in Mena to be a small community. We have two newspapers, two radio stations, and a whole bunch of

folks that use social media.

MS. TURNER: Okay. And another thing I'd like to hear you -- I've not heard mentioned career technical education and how you plan on doing that in a virtual setting. We do require -- and there are some things that cannot be taught virtually. And so I'd like to hear what you have to say about that in your plan.

MS. SMITH: Again, when we realized that we are starting a virtual academy we realized that we could offer those students any -- any of the programs that we have in our regular school, if they choose.

SUPT. WESTON: And I'll say this, you being from Department of Career I know you know about Mena, Arkansas because we have a wonderful career ed. programs and we plan on trying to expand those as well. But that's the very reason that some of these folks have requested to be able to do this is to get the curriculum for the basic courses and come to our school and participate in some of our career programs.

MS. TURNER: And would those students be allowed to be in the student organizations as well?

SUPT. WESTON: Absolutely. Absolutely.

CHAIRPERSON PFEFFER: Dr. Owoh, do you have a

question?

1

20

21

22

23

24

25

Thank you, Chair. A quick DR. OWOH: Yes. question about -- I know -- and if you shared it, I apologize. But from my understanding -- I know you mentioned about the different services that you will provide for your GT students, students with an IEP, and ELL students. Transportation is a concern for I haven't really mentioned that. How would you coordinate transportation to insure that all of those individual students receive those services when they need those services, as well as guidance services? As they matriculate through grade levels and prepare for graduation, how would you insure that those students are receiving those services in a timely manner?

MS. SMITH: We wrote in our plan that we -- each student would have a student success plan and that plan would be reviewed annually, just as we do with our regular students. The transportation would -- and we had a discussion about this yesterday, was the reason I'm kind of smiling. When we have IEP conferences we do not provide transportation unless it is requested by the parent. And one of our principals had a story to go along with that: a mother that had -- it wasn't any special conference;

it was just a conference -- and she called the principal and said, "I can't come." And the principal said, "Is there a problem?" "Well, I don't have a way to get there." "I'll be right after you." You know, we are going to treat our virtual students just like we do our regular students. We will help in any way we can. As far -- for example, if we had a field trip and there was a special needs student that should go on the field trip, we have the transportation and we'll provide that transportation.

DR. OWOH: So a follow-up, so you mentioned the student success plan.

MS. SMITH: Yes.

DR. OWOH: So there's meaningful dialogue that takes place between a student and the counselor. So would that dialogue about the plan take place over the phone, virtually, or in person? And then, if it's in person that's the question I have about transportation: how would you meet the transportation needs of those students?

SUPT. WESTON: Let me touch on transportation for just a second. We have 21 bus routes and we have a fleet of 27 buses. We require all of our coaches to have a CDL and most of our administrators have a CDL. And we have employees that work throughout the

day shuttling kids back and forth to our local community college. And so we have both the personnel as well as the fleet for these types of situations I think that you're speaking to, in order to be able and transport those folks if required to do so -- and if requested to do so, I should say.

CHAIRPERSON PFEFFER: Dr. Williams.

DR. WILLIAMS: Two questions. The first, what prompted this? What's the back-story? Why this, why now?

MS. SMITH: We have a very visionary leader and when he sees a problem in the schools, especially with our enrollment, he is going to search out and find where we could improve enrollment. And we felt like this was a very needed service to offer to our families in Mena. So when he said, "Let's try this, let's go and see if we can establish a virtual academy," the rest of us didn't have much choice; we jumped onboard and we went through the process.

MS. SHERRER: The other part of that back-story too is we feel like we have benefitted from the pilot year of the advancement of our AE into the AE hub where students are virtual learners. They come in later, they leave earlier, but they still -- and Mr. Hobson, I'm doing his speech -- he's our AE

administrator -- but they still have the socialization, they're doing the field experiences, they're doing the project learning, they're mentoring on our other three campuses.

CHAIRPERSON PFEFFER: And I'm not sure if the other panel members probably don't -- they don't understand what you mean when you say "AE hub."

MS. SHERRER: Okay.

CHAIRPERSON PFEFFER: Maybe if we could give them just a very brief update on what was already in place. Sometimes just having that understanding helps to give --

MR. COX: I'm Mike Cox and I'm the alternative education administrator for the district. Two years ago we felt like we had a need to change our alternative learning environment from a punitive --more of a punitive setting to a more positive setting. Even though it was an award-winning --yearly award-winning program, we still recognized there was a need for it. The need there was because of the environment our students didn't have good self-esteem. The year before we changed the program we graduated one from alternative ed.; last year we graduated 18, and we're wanting to expand on that. But the thing we've done is we've changed our whole

2

17

18

19

20

21

22

23

24

25

thought process and it's almost to the point now where it's an application process to get in alternative learning. We do partner with community partners, we volunteer, we do a lot of service learning projects. Our goal is to give our students that are alternative learners a purpose for education. Matter of fact, one of our students who missed 80 days last year has missed one this year and he will tell you, "I have a purpose," and his purpose is technology. He works in our technology department. So what we've done with the service learning, the community partnerships, moving these kids all over the district and all over town to become -- to use these service projects and community partnerships as part of their education -- because they are required to write about it, to use math in it, to know the history of it, to know the science of it. They get a deeper understanding of hands-on education through AE, through the hub. And hub is connected to our JAG program.

So what they refer to is, our program, is we took a chance on it because we had a population of kids that we needed -- that we knew did not feel part of our district. And we took that chance; we've made a huge difference in those students' lives. We know

there's a huge need with another population and we 1 think we can connect -- I know we can connect 2 3 community partnerships, volunteerism, service learning projects and our school to improve these 4 5 students' education. That's what we want to do. SUPT. WESTON: And I'll just follow-up with that 6 7 and ask a question -- and please don't take it as I'm trying to insult anyone. But if you've watched early 8 9 morning news, have you seen K12.com advertised? 10 you seen Virtual Arkansas advertised? Have you seen 11 a lot of these other schools -- Fayetteville, 12 Springdale, all of those -- that are advertising to come into our district and take our kids? And so we 13 have a passion for education and we feel like "you 14 15 keep your kids, we're going to keep our kids," and we 16 want to provide whatever is necessary for that child to be educated. And so it drives us. 17 That's what 18 it's about. MS. TURNER: Dr. Pfeffer --19 20 CHAIRPERSON PFEFFER: Okay. I was going to --21 do you have a question first, Dr. Hernandez? Do you 22 want to follow-up on that? 23 DR. HERNANDEZ: She can go ahead.

Okay.

I just had some clarification on

CHAIRPERSON PFEFFER:

MS. TURNER:

24

25

all that. He was talking about his alternative ed. hub and he mentioned JAG. JAG is Jobs for Arkansas' Graduates and it's a program through -- it's a national program through Career and Technical Education that assists students with barriers to completion of high school. And I just wanted the Panel to know what that was. And those students do come to school part of the day and work part of the day in a community.

SUPT. WESTON: And I will interject this, we have a JAG program in our alternative ed. program, but we also have one in our regular ed. program as well. And they too are award-winning.

CHAIRPERSON PFEFFER: Thank you for that clarification, so -- and for the panel members, Mr. Weston mentioned this, we do have other school district conversion charters that are a virtual charter and a virtual charter blend where students can do all of their education virtually or they can do some virtually, some at the school district. So their application here is basically still providing that quality educational experience for their traditional K-12 students on campus, but also then reaching out to say we have -- we recognize that we have students who may not be part of our school

system and here's an opportunity for students who may want to be part of our school system and -- but the manner in which you are accessing your educational opportunities may be very flexible; they may be coming an hour or two a day for a career ed. course; they may be coming for a particular activity span for choir, they may be coming on campus maybe for some advanced placement or concurrent opportunities. And then again you have that digital platform. So I just kind of wanted to let you all know this is something also that we are seeing in some of our other school districts.

Do you want to go ahead with your questions?

DR. HERNANDEZ: Sure. Okay. I know that
there's some mention in the application of Virtual
Arkansas and I know they work with the AE hub. And
so have you guys settled on a provider yet as far as
who you guys are going to use for your online
learning?

MS. SMITH: We have talked to two different companies. One was Edmentum and the other was Fuel Ed. We have not finalized or have a contract with either one.

DR. HERNANDEZ: Okay. And one of the reasons I ask that is I know you did originally ask for the

waiver concerning licensure and then rescinded it.

MS. SMITH: Yes.

DR. HERNANDEZ: And part of the -- just trying to think through, some that have been successful have asked for that -- and the reason being is that all of these outside providers, sometimes getting them -- license requirements because they're online teachers -- I just wonder, have y'all thought all the way through that --

MS. SMITH: Well, when --

MS. SMITH: Of course I'm depending on the word of a salesman. But when I called back and asked that

DR. HERNANDEZ: -- process of rescinding that?

question he assured me that his teachers were Arkansas certified teachers.

SUPT. WESTON: Dr. Hernandez, that was one of the first things that we broached when we started talking about this, was to be absolutely certain that whoever did instruct would be certified for our state, because we realize the ramifications of that. And so we have not selected a vendor because it depends if we get approved or not, you know, with that process. But we've never done it before. There's probably some things that we're going to have to learn on the fly.

DR. HERNANDEZ: Right.

SUPT. WESTON: So we realize that. And we are passionate about education, and you know that. And so we, you know, we pulled the State Department goals and objectives out and we looked at ESSA and we've looked at all of those things. And we feel like that, quite frankly, we are attempting to do what the Governor as well as the State Board would like to see us do, and the Department, in the state. And so that drives us. The need for kids that are out there that we're not reaching at this time, but have been reached out to by parents and by patrons asking us to do some of these things. And we started to bring some with us; we thought, no, we don't have time for that. But we feel like that this is a definite need in our area.

DR. HERNANDEZ: And I know there's ways just to -- you know, if the application is successful, then, you know, there's the possibility to come back for amendments.

SUPT. WESTON: Sure.

DR. HERNANDEZ: Because I know you've asked for and then rescinded it, so I just wanted to make sure that that wasn't something --

SUPT. WESTON: And just let me say this about

that, if you don't mind. I'm a superintendent, so you know I'm going to talk. And beginning this whole process we really did not have a clear understanding of what waivers we did need or didn't need. So we did like a lot of coaches do, we borrowed from other folks that have been here before us and we talked and we visited with those folks and we asked about those. Well, we understand laws have changed since then, so all of those waivers are not now required as were in the beginning, so --

DR. HERNANDEZ: In your application you talk about getting the equipment to students. And so, you know, knowing where Mena is and sometimes challenges with broadband, depending on which provider you use, you know, there may be some limitations in regards to access at home. And so do you guys have an idea or a plan of what you're going to do with that?

SUPT. WESTON: Well, as a matter of fact, we talked about that on the way over here this morning. Because, you know, from Mena we had quite a bit of time to talk and so we talked about those issues and those things. And we understand there are going to be some barriers and there's going to be some, you know, some things that we're going to have to be very creative in being able to provide and do. And we

feel like that we have the people in place from not only these folks but also from our technology division in our school -- we feel like that we have the people in place to help us and do everything that we can to do it. Would we be able to reach every single one? Well, probably not, because some of you can't get there with a car. And so, but we're going to do everything that we possibly can; we've made a commitment to that. We don't have all the answers but we'll search out and do whatever we can to make it possible.

DR. HERNANDEZ: Let me ask it a little bit different way. So if a student does make an application next year and does not have broadband at home, would you guys be providing that broadband access?

SUPT. WESTON: Yes.

DR. HERNANDEZ: Okay. Great.

MS. SMITH: And I have spoken with our technology department. And fortunately we have three different providers in the Mena area and one provider may work in certain areas better than another provider. And, of course, we will search out which provider, what service, and how well it works and make sure that we are trying to provide everything

1 that we can.

DR. HERNANDEZ: And I would just encourage you as you're looking at these providers that those are some of the questions you ask because -- I'll just give you a perfect example: if you have Netflix and you have Hulu, Hulu sometimes has more demand on the internet because video and some of the features, just the way it's designed.

MS. SMITH: Yes.

DR. HERNANDEZ: So I'd just encourage you to ask those kinds of questions --

MS. SMITH: Okay.

DR. HERNANDEZ: -- because sometimes they're good at that and then, you know, you want to make sure that it does function well.

MS. SMITH: Yes, sir.

SUPT. WESTON: Thank you for that advice.

CHAIRPERSON PFEFFER: Okay. Dr. Williams.

DR. WILLIAMS: Yes. You know, you're looking at 25 students K-12. How does this -- how will this work for your elementary kids? I'm just trying to -- you know, the virtual aspect of this, any -- can you all just kind of -- it's been awhile since I've been in the classroom. So I can understand the secondary and the technology and so-forth, but with elementary

kids I'm not quite there yet.

21

22

23

24

25

SUPT. WESTON: I'm glad you asked. I'm secondary trained. We have two elementary principals, former elementary principals right here and they've got it all worked out. So I'm going to let them speak.

MS. SHERRER: The vendor provided curriculum would have a human teacher that would be on like the face-time aspect, so the learner would be listening to and following a human educator. And then what we might think is a technological barrier with them actually keying in or uploading information, we have been put at ease just with this year's digital testing now that is going on at our K-2 campus. our adults had anxiety about how this would happen; our learners walked in and was like, "It's computer lab, there's just a few more facilitators," and they took their first test online. So we are aware that the learner we are now targeting is in a digital age where they are more comfortable with the technology than some of our present high school students that haven't been raised in that same vein. But, again, we feel we have an excellent traditional setting. would love for them to come and join Mena Public Schools, but this is a choice that a parent is

making. I feel they would have to support and be a part of their child's education, if they're choosing fully virtual at that age. But, again, it is a choice they're asking for; we're asking to provide that choice, so --

DR. WILLIAMS: I appreciate your comments there because I look at the numbers -- the numbers are relatively small. And I almost wonder is it -- do you really have to have another school? You sound like, just listening to your presentation there on the AE and so-forth, you're already integrating technology in such a way within the school. Do you really need another school to make this happen?

SUPT. WESTON: Well, we have a wonderful school. We have a fantastic district. We have a wonderful community, wonderful people. But there's a faction of students that we're not reaching, and we're not satisfied with that. We want to reach all of the students and make -- and not that they're not being reached, but we feel like Mena Public Schools has something to offer. And we feel like this virtual academy will help us offer that, and it may integrate them back into our regular ed. We want them to feel like that our school as the hub of our community is offering what is needed to be offered educationally

24

25

in Mena. And if we can gain another group of learners, we feel like we're setting a great example and we feel like that maybe we're missing some of them because they're just not the traditional education type student. For some reason or other they choose not to come to us; we're trying to figure out what that reason might be. And we have actually heard from 20 or so of these folks that they would like to see something like this provided. started with a low number, 25, because we realize we need to grow into this and we realize that we need to take our time and we need to do it right because, sir, you don't know me but I don't -- we don't accept failure. And so we feel like that by starting small, growing into it, it's going to give us the opportunity to grow along with it and to become what we need to be for these kids.

DR. WILLIAMS: Okay.

CHAIRPERSON PFEFFER: And if I may go ahead and ask a couple of questions as kind of a follow-up to Dr. Williams. Ms. Sherrer, you were talking a little bit about especially at an early age -- so we know every student will have a student success plan that is the foundation to move forward in making those decisions in their curriculum and, you know, what

they're doing virtually or if they're participating. But then for those younger children what is the plan to insure that -- and I guess it might be even more of "who" -- who would be kind of following them? And as you've said, you know, the parents should be very involved in this process as well. But what is the plan to kind of keep the parents well connected since the curriculum will be delivered from that platform where the teacher is not a teacher within our school system?

MS. SHERRER: We will, first of all, always offer -- if they cannot come to us, we would go to You know, we do that as administrators now. them. So if we need to go to the home and help create the student success plan, we will so do that. We also have an area not on -- it's in our district campus, but it is not presently assigned to any campus, that we would like to basically market it as our Polk County Virtual Academy building where we will have our support systems there and times available where the students can come to get -- if they want onsite assessments, if they don't want to do it online, if they want our tutoring services, if the parents want to come and help us plan what a daily schedule looks We realize we're asking for the support of a

parent to help in the education platform when they are probably not an educator. So we don't have a problem with sitting down and even saying, "What does your day look like?" One example is a working mother that said to me, "When my child gets on a bus I am When my child gets off the bus I am not not home. When I am home my child is in bed. I choose home. to homeschool my child so I can be with my child" for the times she is available to be in the home. could sit down with her and script a schedule of learning around her job so that she could be in the support phase to that child. But we would always, always have the option of, "Do you want to come onsite? Do you want to come and gain any valuable information you can from our already educated professionals that are available for you?" And I think some will accept that.

Oh, yes, and we will have a director, if that's what you're asking. We will have a director of the entire services and we also have some people planned within their schedule allotment already that can support the Polk County Virtual Academy in addition to the task they do for us in the district at present.

CHAIRPERSON PFEFFER: Okay. Thank you. And my

other question was related to goals that you have outlined here. I'm noticing that in terms of the reading and math proficiency, and writing, that the goal is set at the 60% scoring ready or exceeding. Can you explain a little more about that? At what point would you expect that? And in terms of -- MS. SHERRER: Sure.

CHAIRPERSON PFEFFER: -- thinking longer-term aligning -- as you heard, a previous --

MS. SHERRER: Yes.

CHAIRPERSON PFEFFER: -- charter, you know, they come back and have adjusted the goals to being more in line --

MS. SHERRER: Sure.

CHAIRPERSON PFEFFER: -- with the new accountability.

MS. SMITH: And when I wrote those goals for the achievement I was looking at another example. And as we were going through it and reviewing, after we got your comments back, we thought about, okay, we should put down what the State expects all of our children to do and expect that from the Virtual Academy also. I noticed that on our website requirements there's a new level of school improvement, and I have forgotten what the new ones are, by May 2018. So I didn't have

	76
1	that information when the goals were set. So I will
2	have to go back and look and revise those.
3	CHAIRPERSON PFEFFER: So I guess I don't want to
4	I don't want to impose on you what you're
5	submitting in the application. So am I hearing
6	well, I don't know how to do this without trying to
7	put words in your mouth.
8	MS. SMITH: Well, we want what we are
9	thinking is that we will meet the same guidelines for
10	a student achievement that is set by the State for
11	all students. That's what we are that's what I am
12	thinking now.
13	SUPT. WESTON: That would be a revision. Is
14	that correct? That would be a revision?
15	CHAIRPERSON PFEFFER: Right.
16	SUPT. WESTON: Yes.
17	MS. SMITH: Okay.
18	CHAIRPERSON PFEFFER: Yes, that would be. And
19	as we agree on
20	SUPT. WESTON: Right.
21	CHAIRPERSON PFEFFER: the terms here today.
22	So you're aligning with the accountability goals
23	MS. SMITH: Yes.
24	CHAIRPERSON PFEFFER: that will be in place?
25	MS. SMITH: Yes, ma'am.

1	CHAIRPERSON PFEFFER: Okay. All right. So do
2	we have some additional Panel questions before we go
3	further? Because I know that we have some questions
4	about the application that we're going to need to
5	check on, so
6	SUPT. WESTON: One other quick
7	CHAIRPERSON PFEFFER: We'll go to Dr. Williams
8	and then we'll come to Mr. Wilson. Okay?
9	DR. WILLIAMS: Okay. What about your current
10	students, will this opportunity be available for them
11	also?
12	SUPT. WESTON: Yes.
13	DR. WILLIAMS: Okay.
14	MR. WILSON: I take it that your target
15	population that you want to attract back into the
16	school system would be those home-school kids; is
17	that correct? 139, I believe you said?
18	SUPT. WESTON: It's all children but, yes, it
19	is.
20	MR. WILSON: Do you plan to if you're
21	successful in this, plan to contact those folks
22	directly or go down there and
23	SUPT. WESTON: Those folks there's a large
24	contingency in Mena and some of them are church
25	associated and some of them are not. But all

different groups have already reached out to our principals and had discussions with them if and when and what and all of those type questions. So, most of those groups have pinpointed certain people to represent them as far as finding out information and those kinds of things.

MS. SHERRER: And just to follow-up with that, to be equitable we will make sure that we will use our newspapers, radios, and our district social media to let everyone know at the same time the opportunities, how they can get applications at school campuses, at our central office, and when a deadline is. Because since it is a first-come first-serve it would not be equitable if we just went down and started calling people in an order, because that would not be fair. So we want to make sure that even though we have a list of people that are already asking for this that we want to make sure that we do it to where everyone gets the same message at the same time and has the same opportunity to be applicants.

CHAIRPERSON PFEFFER: Okay. So, Ms. Davis, I know that we've gone through quite a few questions here and I think we're at the point now where maybe we need to start looking at the specific waivers and

some of the -- if there were any remaining issues that we need to go through. So I'll let you guys --

MS. DAVIS: Okay. I do have several remaining issues. The first one is on the school year. They originally had asked for a waiver of the school year dates. So I think I was a little unclear because they say that they're going to operate on the same calendar as the Mena Public Schools -- and if so, then I don't know why a waiver is necessary. So they may have more information or --

MS. SMITH: I called and spoke to the lady that is in charge of Van Buren Virtual Academy and asked her this very question. And she told me that they had found through experience that it worked best for them if their virtual students were on the same calendar as their school calendar, the regular students' calendar. Because she found that if they were different the virtual students wouldn't come when Van Buren students were out. So she said, "Stick to the same calendar as your regular school calendar." That was her advice to us.

SUPT. WESTON: So we're asking to rescind that request for that waiver.

MS. DAVIS: Okay. So then my next question was -- and it's more just a clarification; it was on the

1	Gifted and Talented. They had requested a waiver of
2	6-42-101. That one is not needed and I suggested
3	that they add 6-42-109 instead. And I think, again,
4	I was a little confused because they said that they
5	were no longer requesting it and I just need to let
6	them know that you just need to can you just let
7	them know affirmatively on the record that you are
8	requesting that?
9	SUPT. WESTON: Yes. We're requesting to not do
10	the first one but to do the second one.
11	MS. DAVIS: Okay.
12	CHAIRPERSON PFEFFER: Dr. Hernandez, did you
13	have a follow-up on that?
14	DR. HERNANDEZ: The way it's written it's saying
15	that 6-42-101 is not necessary but 6-42-109 so I
16	guess my question is the charter, conversion charter
17	itself will not be providing these services, but if
18	students want that that they can go on campus and
19	receive services. And so they do need the waiver for
20	that or they don't?
21	MS. DAVIS: They do. Typically our charters get
22	the waiver because they're not providing the services
23	in the same manner in which the law prescribes. But
24	they are providing those services, so
25	DR. HERNANDEZ: So they are asking for the

	81
1	appropriate waivers to do that?
2	MS. DAVIS: That is correct. So they are asking
3	for the clarification of 6-42-109.
4	SUPT. WESTON: And, Dr. Hernandez, we were
5	confused on that as well, I guess.
6	MS. DAVIS: It might've been I probably
7	confused you.
8	SUPT. WESTON: No, that's okay.
9	MS. DAVIS: That was probably my fault.
10	And same thing on the next one, the school nurse
11	and the media service, I just need confirmation that
12	they are rescinding the waivers for section 16.01.02
13	and .03 of the Standards for Accreditation. I just
14	need confirmation.
15	MS. SMITH: And that is school nurse and school
16	media?
17	MS. DAVIS: Uh-huh.
18	MS. SMITH: Yes.
19	SUPT. WESTON: Yes, we are. And we have four
20	nurses on our campus and we have sufficient.
21	MS. DAVIS: Okay. They didn't need the three
22	blanket waivers because they had added on the 16.02.3
23	which is the specific section.
24	I think I have one other question. Oh, okay.
25	The last one was on curriculum. They have asked for

	82
1	waivers of two of the sections of the standards. I
2	wasn't certain exactly what they were asking for
3	because I know one of the section numbers is not a
4	section in the standards.
5	DR. HERNANDEZ: I have a question
6	MS. DAVIS: Pardon me?
7	DR. HERNANDEZ: I said when you're done I have a
8	question about that.
9	MS. DAVIS: Okay. And then I also just wasn't
10	sure why they were needing a waiver of the curriculum
11	in the first place. So maybe you can
12	CHAIRPERSON PFEFFER: Dr. Hernandez, do you want
13	to ask your question then?
14	DR. HERNANDEZ: Yes. So in reading the
15	application what I understood you guys are trying to
16	do is that if students are allowed to take things
17	like Algebra I or geometry say in 7th and 8th grade
18	online, when they get into high school in order to
19	meet the 38 you will count AP courses as part of the
20	38?
21	SUPT. WESTON: Yes, sir.
22	DR. HERNANDEZ: And so which is perfectly
23	fine. I just what do they need to be able to do
24	that, is the question.
25	MS. DAVIS: I'll verify real quick in the law

1	just to make sure, because like I say I wasn't
2	exactly sure what they were asking. So if you'll
3	if you have any other questions, if you can continue
4	with those and I'll get back with you in just one
5	second.
6	DR. HERNANDEZ: Okay.
7	CHAIRPERSON PFEFFER: Okay. Which list are you
8	on right now?
9	DR. HERNANDEZ: I'm on the things that say
10	Issues that Remain Unresolved, and then on the very
11	first summary page.
12	CHAIRPERSON PFEFFER: Okay. So, Ms. Boyd, while
13	Ms. Davis is researching the answer to that question,
14	so this page, this section relates to those that
15	after the Internal Review Committee had gotten
16	feedback there was some remaining questions?
17	MS. BOYD: Yes, ma'am.
18	CHAIRPERSON PFEFFER: And if the other panel
19	members want to pull that up from the agenda let
20	me look at the title of it it would be
21	MS. BOYD: So a number of these issues were just
22	things that remained unclear. So I think it would
23	just be helpful to have the applicant speak to what
24	was meant by what they put down on paper for these
25	issues. So we the Internal Review Committee

1	for the first one, the Internal Review Committee
2	inquired about transportation and how the students
3	would have access to field experiences.
4	CHAIRPERSON PFEFFER: So is it all right if I
5	kind of go down through these?
6	MS. BOYD: That's perfectly fine.
7	CHAIRPERSON PFEFFER: Since I think some of
8	these were addressed in the question process here.
9	And then if Panel Members feel like that they weren't
10	already addressed, then we'll chime in.
11	MS. BOYD: Okay.
12	CHAIRPERSON PFEFFER: So, on the first one,
13	basically just making sure that students are going to
14	have access to the fieldtrips. My understanding from
15	what Mr. Weston told us was that with the capacity
16	they have and with their transportation, with those
17	two, are able to transport; that if a student is
18	involved in something or wishes to be involved in
19	something the district is going to make the efforts
20	to allow any and every student to be involved in the
21	academic curricular or extracurricular. Is that
22	SUPT. WESTON: That's correct.
23	CHAIRPERSON PFEFFER: an accurate reflection?
24	SUPT. WESTON: Yes. Yes.
25	CHAIRPERSON PFEFFER: Okay. Does anybody feel

1	that's unresolved or we feel like we've got that?
2	Okay. Academic achievement goals, we discussed
3	that. The Internal Committee had noted something
4	about rationale for only having 75% of students
5	report on their project-based learning experiences.
6	I don't think we talked about that on what
7	SUPT. WESTON: I don't think we did.
8	CHAIRPERSON PFEFFER: Can someone speak to that
9	part to clear that up?
10	MS. SMITH: I think we maybe that was mis-
11	worded on our part, I think, because we want to give
12	students choices on their service projects. And I
13	think that's where we got confused about what
14	percentage we were going to well, we want all
15	students to have a service project but we want to
16	give them choices in how to complete that project.
17	CHAIRPERSON PFEFFER: Okay.
18	MS. SMITH: Okay.
19	CHAIRPERSON PFEFFER: And that would fall in
20	line with their student success plan?
21	SUPT. WESTON: Yes.
22	MS. SHERRER: Yes.
23	CHAIRPERSON PFEFFER: And then your goals, all
24	a hundred percent of your students will be having
25	that success plan and that will be monitored?

MS. SHERRER: Yes. Our model is again off the hub where there's multiple options. Every child does not have to participate in every option, but we can say out of 12 projects you would have to participate in four. But we're giving them options, but we want them a hundred percent to fulfill their obligation.

CHAIRPERSON PFEFFER: Okay. The next section was related to the schedule of courses offered, and there are four bullet points that were raised there. I'm needing some clarity around K-5 recess within that application; oral communications, if it's going to be offered for the full year or just first semester; physical education being taught in 8th grade in Arkansas; history in grades 7 or 8. think we might need to go back to that first one about -- the question around the K-5 recess. And I'm not sure for the Internal Review Committee why that would be raised if we're talking about a virtual environment where students may or may not be on So maybe, Ms. Boyd, if you could give us clarity on that question?

MS. BOYD: So the school still has to provide a plan for accommodating or allowing for recess. It may look different than in a traditional environment, but it's part of the Standards and so the kids have

	87
1	to have recess time in K-5.
2	DR. HERNANDEZ: Can I ask a question?
3	CHAIRPERSON PFEFFER: (Nodding head up and
4	down.)
5	DR. HERNANDEZ: Is that something that can be
6	waived?
7	CHAIRPERSON PFEFFER: That was my question.
8	MS. BOYD: Roy Causbie from Standards is here.
9	I think he's better equipped to answer that question.
10	CHAIRPERSON PFEFFER: Okay.
11	DR. HERNANDEZ: I thought we'd give Mr. Causbie
12	some action today.
13	MR. CAUSBIE: Yeah.
14	CHAIRPERSON PFEFFER: And we'll let you just
15	kind of facilitate the discussion
16	MR. CAUSBIE: Sure.
17	CHAIRPERSON PFEFFER: on this whole section.
18	MR. CAUSBIE: I'm Roy Causbie, Unit Leader,
19	Standards for Accreditation. I am not aware of
20	waivers for this under Standards for Accreditation.
21	As mentioned, there's 90 minutes of physical activity
22	required each week for students K-6. I know this is
23	a different environment but that's one of the
24	standards.
25	CHAIRPERSON PFEFFER: Ms. Boyd, in our other

1	virtual schools yeah, bring us on back because I
2	think it would be really tough to tell parents you've
3	got to prove your kid went outside for
4	MS. BOYD: Well, in other schools they don't
5	have waivers of it. They a few of them have like
6	the parents submit like a log, like a recess log of,
7	you know, my student did have a break from the
8	learning time and it was 30 minutes on Monday,
9	Wednesday and Friday.
10	CHAIRPERSON PFEFFER: So we could just build in
11	a verification statement from parents
12	MS. BOYD: That's correct.
13	CHAIRPERSON PFEFFER: for any physical
14	breaks?
15	SUPT. WESTON: We would be glad to do that.
16	CHAIRPERSON PFEFFER: All right. And then have
17	they clarified on the other scheduling issues or are
18	we going to need
19	SUPT. WESTON: Okay. On the oral communication
20	the issue is you can teach a full year of oral
21	communication or a semester of oral communication and
22	a semester of drama. And I should say "offer"
23	instead of "teach." So that would need to be on the
24	schedule where they offer either a full year of oral
25	comm. or a semester of oral comm. and a semester of

	89
1	drama for grades 9 through 12.
2	CHAIRPERSON PFEFFER: Okay. So we have
3	confirmed
4	SUPT. WESTON: That yeah, that wouldn't be a
5	problem, and it would be semester. That's what we do
6	for our regular ed. students.
7	CHAIRPERSON PFEFFER: Okay. So the district
8	will continue to offer those graduation requirements
9	for all students?
10	SUPT. WESTON: Right.
11	MR. CAUSBIE: And on the original process there
12	wasn't a plan for curriculum in 8th grade. I know
13	that has been taken care of. But, again, we're
14	talking about physical education for 8th graders;
15	that's 40 minutes a week or 1440 minutes time for 8th
16	graders.
17	SUPT. WESTON: Can we do like a parent note like
18	we'd talked about with that?
19	CHAIRPERSON PFEFFER: Ms. Boyd, how does the 8th
20	grade physical education need to be handled?
21	MS. BOYD: The physical education is different
22	from recess because there are standards that have to
23	be met. So the school what the schools what
24	the other virtual schools do is they create a
25	curriculum for physical education and it could be

with videos or things of that nature for the parents to assist the students in getting that done.

MS. SHERRER: If I may, as a former principal we used the Go Noodle platform at our elementary traditional campuses, which are brain breaks of activity. It's, you know, dance along with the instructor or do aerobics or jogging in place. So that was just one off in my head that we could even offer. Since it's a virtual learning opportunity and it's digital we could offer some of those platforms along with a schedule of opportunities for them to do activities as well. But this would be something at least an elementary K-5 child could follow that was led by video for them to get activity.

SUPT. WESTON: And in the 8th grade we have that curriculum already in place and we have that, and that would be the same as for our regular -- but I hope y'all can see the difficulty in a school district submitting -- there are some unclear things that if you're applying for this type of a school it's hard to do it all without clarifications.

CHAIRPERSON PFEFFER: Yes, sir. And what I would tell you is we're not trying to make it difficult.

SUPT. WESTON: Oh, I understand that. No, no,

	91
1	no; please, we're learning. Everything you say,
2	we're learning.
3	CHAIRPERSON PFEFFER: And I think what we can
4	take away from this is that in our as these
5	applications are being completed
6	SUPT. WESTON: Sure.
7	CHAIRPERSON PFEFFER: and as we're looking at
8	those requirements that maybe are under Standards of
9	Accreditation or in situations
10	SUPT. WESTON: Absolutely.
11	CHAIRPERSON PFEFFER: to even work more
12	closely with you
13	SUPT. WESTON: Sure.
14	CHAIRPERSON PFEFFER: so that you are not
15	trying to come up with something on the fly.
16	SUPT. WESTON: Wonderful. Wonderful.
17	CHAIRPERSON PFEFFER: But it does sound like
18	though that you will have your vendor or the district
19	can provide the curriculum necessary
20	SUPT. WESTON: Absolutely.
21	CHAIRPERSON PFEFFER: for the 8th grade
22	SUPT. WESTON: For the 8th grade.
23	CHAIRPERSON PFEFFER: in that
24	SUPT. WESTON: Absolutely.
25	CHAIRPERSON PFEFFER: Okay. And the last

	32
1	remaining one was the Arkansas History; is that
2	correct?
3	MR. CAUSBIE: Yes. Now there's two ways you can
4	address this issue; either have a semester of
5	Arkansas History in the 7th or the 8th grade or if
6	you offer to teach Arkansas History in the high
7	school grades 9-12 when you do that it becomes a
8	graduation requirement and then each student will
9	have to have a semester in grades 9-12. So they can
10	address that either way, which is best for them.
11	CHAIRPERSON PFEFFER: Okay.
12	MS. CAUSBIE: You have to tell them who you are.
13	MR. SHERRER: Yes. Cliff Sherrer, principal,
14	Mena Middle School. Currently, we in our
15	traditional setting we do Arkansas History in 7th
16	grade. And I think since our whole idea is to be
17	equitable with our virtual situation, as well as our
18	traditional, that we would offer that either through
19	our vendor or if we had to create the content we can
20	do that through Google Classroom, so
21	CHAIRPERSON PFEFFER: Okay. Is that so, then
22	Mr. Causbie?
23	MR. CAUSBIE: Yes.
24	CHAIRPERSON PFEFFER: Okay. All right. Thank
25	you all.

I think the next item has already been addressed 1 because it was related to the licensure and that 2 waiver has been rescinded. 3 The student services, those two items I think 4 have been addressed as well. Have we addressed both 5 of those? 6 7 SUPT. WESTON: (Nodding head up and down.) CHAIRPERSON PFEFFER: And then the enrollment 8 9 criteria and procedures, were there any questions related to that, Ms. Boyd, in terms of the way they 10 11 would plan to do their enrollment? 12 MS. BOYD: That was clarified. They said that 13 they were going to use a first-come first-serve basis, which is fine. We just -- I just want them to 14 15 acknowledge the fact that if they do first-come 16 first-serve and don't do a lottery then the federal government won't necessarily recognize them as a 17 18 charter if they should apply to the government for any kind of grant related to charter schools. 19 20 CHAIRPERSON PFEFFER: All right. Ms. Davis, 21 were you able to find the answer to Dr. Hernandez's 22 question? 23 MS. DAVIS: Yes. And as suspected, they do not 24 need a waiver -- but we wanted to verify. They don't 25 need a waiver because if they want to use courses in

1	grades taught in grades 5-8 for high school credit
2	the Standards already allows them to. You can
3	already count an AP course towards a graduation
4	credit. And if they wanted to teach an AP course in
5	lieu of the standard course, there is a process
6	within our Standards that they can go to apply and
7	say you know, if no students signed up for the
8	regular course and they were going to teach the AP
9	course instead, there's already a process for that.
10	So they would not need any waivers in order to
11	accomplish what they want.
12	CHAIRPERSON PFEFFER: So they don't need any
13	waivers; they would just need to go through the
14	process with Standards of Accreditation if they're
15	going to substitute that
16	MS. DAVIS: Right.
17	CHAIRPERSON PFEFFER: just like they would in
18	their traditional K-12. Is that correct?
19	MS. DAVIS: That's correct.
20	CHAIRPERSON PFEFFER: Okay. So, Mr. Weston, it
21	looks like y'all have you got that?
22	MS. DAVIS: So we'll rescind these two?
23	SUPT. WESTON: Yeah, we'll ask to rescind those.
24	MS. DAVIS: Okay. Perfect. Thank you.
25	CHAIRPERSON PFEFFER: All right. So, Ms. Boyd

	95
1	or Ms. Davis, are there any remaining issues with the
2	application?
3	MS. DAVIS: I don't have any.
4	CHAIRPERSON PFEFFER: Okay. Panel Members, any
5	remaining questions?
6	Okay. So if not, at this time I will accept a
7	motion regarding Polk County Virtual Academy's
8	application.
9	MS. TURNER: I move to approve the application
10	of the Polk County Virtual Academy.
11	CHAIRPERSON PFEFFER: Okay. We have a motion to
12	approve.
13	DR. OWOH: Second.
14	CHAIRPERSON PFEFFER: And we have a second I
15	heard two seconds. I heard Dr. Owoh's just a little
16	bit louder.
17	All those in favor?
18	(UNANIMOUS CHORUS OF AYES)
19	CHAIRPERSON PFEFFER: Any opposed?
20	Okay. Congratulations. Your application has
21	been approved. And if you will give us a few
22	minutes, we will record our responses and provide you
23	with feedback.
24	SUPT. WESTON: Thank you very much. We
25	appreciate it.

	96
1	CHAIRPERSON PFEFFER: Thank you.
2	(A FEW MOMENTS OF SILENCE)
3	CHAIRPERSON PFEFFER: Okay. Dr. Hernandez,
4	we'll begin with you.
5	DR. HERNANDEZ: I voted for the motion. I think
6	this will be a great addition to the Polk County
7	community. I also highly encourage the Mena School
8	District to reach out to the various other virtual
9	charters around the state for guidance and support.
10	CHAIRPERSON PFEFFER: Ms. Newton.
11	MS. NEWTON: I voted in support. And my reason
12	was
13	CHAIRPERSON PFEFFER: I don't think your
14	microphone is
15	MS. NEWTON: I voted in support of the motion.
16	And my reason is that this district's desire to
17	implement this will allow enhanced educational
18	opportunities for students in the Mena School
19	District.
20	CHAIRPERSON PFEFFER: Thank you. Dr. Owoh.
21	DR. OWOH: I voted yes for the motion. I
22	believe that the conversion charter will provide an
23	innovative educational experience for students who
24	will excel in both personalized and individualized
25	instruction. I am concerned about the availability

and timeliness of key instructional services because of the potential transportation issues.

CHAIRPERSON PFEFFER: Ms. Turner.

MS. TURNER: I voted for the motion. This district has provided opportunities for students who face barriers to graduation, and this expands opportunities for home-school and other students who may not be successful in the traditional classroom setting.

CHAIRPERSON PFEFFER: Dr. Williams.

DR. WILLIAMS: I voted for the motion. The conversion charter school provides enhanced learning opportunities, such as individual learning and the use of technology for students that are and those that are not enrolled -- currently enrolled in the Mena Public Schools.

CHAIRPERSON PFEFFER: Mr. Wilson.

MR. WILSON: I voted for the motion. I was impressed with the effort to recruit or regain those youngsters who are home-schooled. I think that's a good thing that y'all are doing and I hope you're very successful at it.

CHAIRPERSON PFEFFER: Thank you. I know it's been a rigorous conversation this morning, but hopefully you all are feeling good about going

forward, and we appreciate you being here. And we also will welcome your feedback with us in terms of how we continue to get -- to streamline the application process, because this is a learning experience I think for both the school districts, open enrollment charters, and the Department. So, thank you all for being here.

SUPT. WESTON: Thank you.

CHAIRPERSON PFEFFER: And congratulations.

ARKANSAS CONNECTIONS ACADEMY

CHAIRPERSON PFEFFER: So that brings us through the items on our Action Agenda. We do have a work session scheduled for a little bit later. But, Ms. Boyd, I understand that the State Board last month or at a previous meeting has requested that the Charter Panel review Arkansas Connections Academy regarding their finances. So, can you share a little bit more information with us?

MS. BOYD: Yes, ma'am. At the -- hold on, I'm bringing it up because I want to say what it is wordfor-word. At the September meeting we presented the Panel -- I mean the State Board with the end-of-year reports for new charters, and Arkansas Connections is one of -- last year was their first year. The State Board was concerned about their finances and they had

a really low fund balance. And they requested that 1 you call Arkansas Connections before them in 2 December. And so I'll let Ms. Davis explain to you 3 how we can handle this today to have it in December. 4 5 MS. DAVIS: So in order to add an agenda item for discussion and possible action you will need to 6 7 have a vote amongst yourselves to add it to the 8 agenda item. Once it's been added, then you can 9 discuss and make any decisions that you may or may 10 not wish to make at that time and any action after 11 But you will need a motion to basically hear 12 it. 13 CHAIRPERSON PFEFFER: Okay. So the request was to hear --14 15 MS. BOYD: Uh-huh. I can read the motion to 16 you. 17 CHAIRPERSON PFEFFER: Okav. 18 MS. BOYD: To request that the Charter Authorizing Panel call Arkansas Connections Academy 19 20 in December to review the finances. 21 CHAIRPERSON PFEFFER: So if this were put on the 22 agenda it would be to review finances. Would it just 23 be a hearing to review or could there potentially be 24 action taken by the Panel based on the review? Or is

it to review and just to provide a recommendation --

25

1	what I guess would be the what steps?
2	MS. DAVIS: Well, first, I would recommend that
3	you have a motion amongst yourselves to even bring
4	this item up to put it on today's agenda for
5	discussion. At that point then we can discuss and
6	you can decide whether or not to what that any
7	motion would look like, what a hearing would look
8	like. But because this agenda item was not on a
9	published agenda you will need a motion.
10	CHAIRPERSON PFEFFER: So we need to put it on
11	the agenda now for discussion?
12	MS. DAVIS: Yes.
13	CHAIRPERSON PFEFFER: Okay. So
14	DR. HERNANDEZ: I make a motion to put it on the
15	agenda.
16	DR. WILLIAMS: Second.
17	CHAIRPERSON PFEFFER: Okay. All those in favor?
18	(UNANIMOUS CHORUS OF AYES)
19	CHAIRPERSON PFEFFER: Okay.
20	MS. DAVIS: Thank you.
21	MS. BOYD: And so pretty much after your
22	discussion, whatever you decide is what we'll do. So
23	when you want to hear them, what you want to hear
24	from them or if you want to hear them at all, what
25	you want to hear from them and what your expectations

1 are, what kind of action you -- and you should put them on notice -- that you'll be making at that 2 3 meeting. CHAIRPERSON PFEFFER: And was there a reason why 4 5 the State Board recommended December or is that something that we can discuss as well? Because it's 6 7 my understanding we've got a pretty packed agenda already in December. 8 9 MS. BOYD: Right. I definitely think that is 10 something that is up to your decision whether or not 11 you want to do it sooner or later than December. can't recall exactly what the conversation around the 12 13 "in December" was. I just know that they wanted to get it done; if it was a big problem, we want to 14 15 cover it sooner than later. 16 CHAIRPERSON PFEFFER: Panel Members, any discussion? Dr. Hernandez. 17 18 DR. HERNANDEZ: Can you review again what the reason why we're bringing them back? 19 DR. WILLIAMS: Also, to add to that, could 20 21 somebody just kind of give a quick snapshot of the school itself? 22 23 MS. BOYD: Right. So I can -- I sent you a link 24 with the Board report for the finances; that's really 25 what triggered the discussion. But Arkansas

Connections Academy is a statewide virtual school that operates as K-12, grades K-12, and their platform is the Connections platform, which is run by So a lot of the issues -- at the State Board meeting Ms. Cyndi Smith, who's the coordinator of Financial Support Services, she said that because the school has not been adding its financial transactions throughout the year through our APSCN system they couldn't really speak to the fiscal viability of the school. So because it's run by a parent company it appears that they've been running their finances through what the company uses and they haven't been inputting the data into our state system, which everyone has to use for their financial detailed data. So whereas with other schools, including charter schools, we will know more information about their finances, we kind of have a limited view of their finances because of the way they have not been inputting the data into our system. Additionally, their fund balance at the time this was run on August 29th was \$1,000. So that's

really what brought the concern.

CHAIRPERSON PFEFFER: Go ahead.

DR. HERNANDEZ: So they don't have a waiver from

inputting that information into our state system 1 right now? 2 MS. BOYD: Nobody can get a waiver from APSCN. 3 There's actually an assurance in the application that 4 5 everyone has to state that they will use APSCN. MR. WILSON: Has anyone made a demand on them to 6 7 produce the numbers? 8 MS. BOYD: Yeah. So I personally have been on 9 several phone calls with Arkansas Connections, with 10 their -- the person who does their finances, Mr. Ben 11 Shipley. It's been my-self and Dr. Saunders, Mr. Rogers, Ms. Smith, Ms. Crain. We've had several 12 13 phone calls throughout the course of last year, mostly in the spring semester, to try to rectify this 14 15 data input situation. Yeah, so we've talked to them 16 about it. MR. WILSON: Somehow you need to get their 17 18 attention. 19 MS. BOYD: I think that's why the State Board 20 would like for you to see them. I think that was the 21 point, to get their attention. 22 DR. HERNANDEZ: May I ask another question? 23 When school districts -- any school district doesn't 24 do what they're supposed to do in terms of financial 25 reporting, you know, there are the mechanisms of

withholding state funds and things like that. So I guess what I'm wondering is, is that something that we would do or is that something that the Department could do? Does that make sense? What I'm asking is, you know, what --

MS. BOYD: Yeah.

DR. HERNANDEZ: It seems like there could be other mechanisms besides coming from the Charter Panel.

MS. BOYD: I definitely understand what you're saying. In the past the -- when the Charter Office had grant money we will withhold that grant money until they will be in compliance. And that way, when -- the foundation funding. But to answer your question, that was kind of like a midpoint to kind of have some teeth with this. But that would be an action that I would recommend coming from Mr. Rogers and not from the Panel.

CHAIRPERSON PFEFFER: So we do have a request from the State Board to conduct a hearing around finances of this charter and we do have -- how much notification would need to be given to the school?

MS. BOYD: Let me check. We need to check the rules to be for sure.

CHAIRPERSON PFEFFER: I think my initial was

concern just over the December agenda already, if this is going to be a pretty weighty discussion.

MS. BOYD: Yeah.

CHAIRPERSON PFEFFER: But I don't know that November would lend itself to a timeline.

MS. BOYD: We typically give them 30 days notice.

CHAIRPERSON PFEFFER: Dr. Hernandez has a question and I think it's reflective of Mr. Williams' question.

DR. HERNANDEZ: Right. You know, I just have a concern if they're simply being noncompliant that, you know, if any other district was doing that in terms of the finances I don't know that we would put it off and have a hearing somewhere down the road to find out that they're not being compliant. Because I struggle with what the purpose of the meeting would be, unless they're going to come before us and ask for a waiver from submitting into APSCN, which I don't -- I know we're saying that's not allowed, but I don't know that that's more of our internal rule and not necessarily something they can't waive.

MS. BOYD: So for the question earlier about -- we have to give them 20 days notification, so at any meeting that we have scheduled after this one that

will meet that notification threshold.

CHAIRPERSON PFEFFER: But that would mean notification in terms of Charter Authorizing Panel, you know --

MS. BOYD: Yeah. If we're going to try to make a decision -- if you want to call them in, then I'll send them a hearing letter tomorrow.

Dr. Hernandez, Jennifer and I are talking about your question. And the law does not allow for putting charter schools in fiscal distress. So usually taking other actions fall under the fiscal distress protocol, which we don't have for charter schools.

DR. HERNANDEZ: We do have the ability to withhold funding, and so that's the -- kind of like you said, you guys used to withhold grant money. If they're not getting, you know, funds, then -- I just, you know, wonder about what other -- what we hope to accomplish by having a hearing, and then once we have a hearing, you know, now it's December/January when some action is taken, and meanwhile they're still -- we don't know what's going to happen between now and then.

MS. DAVIS: I think that -- now I have not seen -- I've only been with the Department a few years --

any times where we withheld funding. I think that the difference is because this is a charter, rather than withhold funding, knowing what it does to the students and the operation of that, then we would just revoke their charter, and that's where you come So I think that's kind of where we're at because you have the ability to put them on probation, you have the ability to revoke their charter for noncompliance, rather than doing those measures. And I think that's kind of where, you know, it comes before you, because you can modify their charter, you can, you know, require them to come in quarterly with their updated APSCN reports, or whatever it is that you would choose to do to insure compliance before it maybe got to a situation of completely revoking funding, in the event that, you know -- because the students are going to be the ones that are suffering at that point.

CHAIRPERSON PFEFFER: Mr. Wilson.

MR. WILSON: If we put them on notice of the charter is in danger of being revoked, is that -- if this Panel does that, is that consistent with what the State Board asked us to do? I'm not real clear on what the State Board wants us to do, except straighten it out; right?

1 MS. BOYD: That's a good question, Mr. Wilson. So the State Board wants you to review and then make 2 a decision based on your review; so the decision is 3 up to you about what you want to do at the end of 4 5 that review. In these situations that you are the Charter Authorizing Panel, action initiated on a 6 7 charter has to come through you first. So the State Board can't call the charters up themselves; you have 8 9 to do it initially. So that's why we're doing this; 10 that's why they asked you to review them, because you 11 have to be the initial point of contact. To follow-up on what Dr. Hernandez 12 MR. WILSON: said, I don't want to fool around here and wait till 13 December or January if those people are not in 14 15 compliance with the requirement of submitting their 16 financial information. It's gone on long enough. So 17 I'd put them on notice they're going to be revoked 18 and set it for a hearing as early as possible, as early as we can. 19 20 CHAIRPERSON PFEFFER: So you would advocate for 21 a hearing earlier than December? 22 If possible, if that's reasonable MR. WILSON: 23 to do. 24 CHAIRPERSON PFEFFER: And I think then it would 25 be a matter of trying to set a date where the Panel

1	could convene.					
2	MR. WILSON: Well, once they get that demand					
3	they'll straighten up pretty quick.					
4	MS. BOYD: Currently, you have a meeting					
5	scheduled for November 15th, so you could see them					
6	then. I don't the charter was on the phone at the					
7	State Board meeting, so they know the State Board has					
8	requested your review, so it shouldn't the letter					
9	that you send, if you choose to review them,					
10	shouldn't be a surprise to them.					
11	CHAIRPERSON PFEFFER: Okay. So we do have					
12	Arkansas Public School Resource Center here and I					
13	think Mr. Smith wanted to make a comment. So, we'll					
14	let him					
15	MR. SMITH: Yeah, Madam Chair and Members of the					
16	Panel, Scott Smith with the APSRC.					
17	CHAIRPERSON PFEFFER: Hang on just a minute. He					
18	doesn't have to be sworn in?					
19	MS. DAVIS: (Shaking head from side to side.)					
20	CHAIRPERSON PFEFFER: Okay. All right. Sorry,					
21	I just I don't know all the rules; I just always					
22	like to check.					
23	MR. SMITH: You don't want me under oath. Just					
24	in response to this issue, just some background					
25	information to make you aware I can't remember if

it was Mr. Rogers or the Commissioner who had made us aware of some of the frustrations on this point. We've reached out to the school. I think they are in the process of getting everything aligned. the description by ADE has been accurate to this point about they were running their finances through their parent organization. I think their balances are well in advance of \$1,000, but it didn't show up in the system because of the way they were running their finances. The story I heard, which you know how that goes, is they thought they had approval to do something different -- but we made it clear to them that that's not the fact. So I hope that this issue will be quickly resolved and remedied. understand the Department's frustration because I think they have had several conversations, so I don't know what the hang-up has been. But we have had that conversation with them.

Mr. Hernandez, to your point, you have greater flexibility than the fiscal distress laws under the Charter Act. So you can revoke, modify, take whatever action you want. And I think the 20-day notice will be even quicker than what they anticipated from the State Board hearing, but if you're going to potentially take action on their

charter at a minimum you have to give them 20 days notice in order to have that hearing.

So I just wanted to give you that background as far as additional conversations that have happened with them. And from what I understand from their conversations, they are quickly moving to try and get in line with what the State requirements are in this area. Now we will be happy to report back further as we try to work them through this process. We got brought into the issue late, again based on conversation with Mr. Rogers, from the Department, or the Commissioner. I can't remember how it came to us.

CHAIRPERSON PFEFFER: Okay. Are there --

MR. SMITH: Any questions or comments?

DR. HERNANDEZ: Yes. Are you guys working pretty closely with them right now?

MR. SMITH: We haven't been. They have been a member, but I did let me say strenuously enforce the point that this stuff needs to be cleaned up and cleaned up quickly. I think they've got that understanding. And if they don't, I think they understand it's going to be enforced one way or the other. So I do think there was some misunderstanding, but I also think there was some

	112						
1	dragging of the feet, for whatever reason, and that's						
2	just my opinion. But we'll see where it goes.						
3	DR. HERNANDEZ: So they are making efforts that						
4	you've seen to get in line with their						
5	MR. SMITH: Either they will or we'll be happy						
6	to report back to you one way or the other on this						
7	situation.						
8	DR. HERNANDEZ: Thank you.						
9	MR. SMITH: Thank you.						
10	CHAIRPERSON PFEFFER: Any other questions?						
11	Okay. So, Panel, it seems that well, and so						
12	then I was going to ask also: Ms. Boyd, you said this						
13	issue came up at the State Board meeting because of a						
14	report on was it first year charters?						
15	MS. BOYD: Uh-huh.						
16	CHAIRPERSON PFEFFER: Do we do do we get						
17	regular reports on that or is it only like just for						
18	the first year?						
19	MS. BOYD: It's for the first year. It's						
20	written in the law as at the end of the first						
21	semester and at the end of the second semester.						
22	CHAIRPERSON PFEFFER: Okay. And this was the						
23	only one that						
24	MS. BOYD: Uh-huh. There were only two						
25	CHAIRPERSON PFEFFER: raised a red flag?						

MS. BOYD: Yeah. There were only two. The other one was Future School of Fort Smith, and the Board just voted to approve the report for them.

CHAIRPERSON PFEFFER: Okay. So the only way the Charter Panel would really have knowledge if there were other charters with financial kind of issues or anything like that would be if the ADE Finance Unit provided an update before the Charter Panel; is that correct?

MS. BOYD: That's correct. And we can work with the Finance Department to get that -- to get a summary report on how the charters -- all the charters are operating financially, if you'd like that.

CHAIRPERSON PFEFFER: Okay. Dr. Hernandez.

DR. HERNANDEZ: I don't have a motion; I just have maybe a question that may turn into a motion. But is it possible that we can request a hearing that is kind of two-fold: one is that we're requesting a hearing that we may take action, but if it's reported back to us by our Finance Office that they are being compliant with that information, then that hearing will then turn into a bucket review meeting as opposed to something we may take action on?

MS. BOYD: Yeah. Well, one of the actions you

can take is to take no action. So if they become compliant between now and then, then it could be a very short meeting.

MR. SMITH: Would they have the opportunity to submit information to the Department prior to that hearing, if the hearing is necessary?

MS. BOYD: So the question is if they'll have opportunity to submit information to the Department before the meeting, of course. So if you all make a decision to review the school we'll ask you at this time to tell us what it is you want to see from the school and what you want to see from the Department so that we'll have all that information prepared and put on the agenda prior to your meeting. And that will be put in the hearing letter; it will be spelled out in the hearing letter what they need.

DR. HERNANDEZ: I have a question. I think that could be a possibility, but the concern I would have is the State Board asked us to do a review. And so would that be -- would that report be given to us in a timely manner, that maybe before the November State Board meeting that that information could be shared and addressed to see if we do need to continue on with the hearing or not? That would be the -- I hate to say no, we're not -- they can provide us with

information and we say no hearing, but the State
Board asked us to, and so us not carrying out those
wishes might be problematic.

MS. BOYD: So the State Board meets on the 9th of November and we would want to give the school as much time as possible to give us the information that we request. And so I typically upload the agenda -- it would be Friday, November 3rd where I would typically upload the agenda. So it would be November 3rd and then the State Board meets November 9th. I don't -- I think if you set the meeting -- I don't think you can cancel the meeting without having a meeting to say we don't need to have this meeting anymore.

CHAIRPERSON PFEFFER: So I think though in terms of if we set the meeting because we have been asked to review, if this Panel has concerns about waiting too long could we go ahead, set the meeting; if things have been corrected, then it is just confirmation of the corrective action that has taken place, what the charter has learned from the process. And then could we also get an update from ADE Finance if there are concerns with other charters and reporting? Could we look at that and whether or not -- provide us with an update so we would know if

there are other situations, instead of waiting? Is that something that we could do? It would require us to go ahead and have a November meeting. Is that something that the Panel would wish to hear? Or do we want to just move forward with this one request based on State Board recommendation and --

MR. WILSON: Let's fix one thing at a time.

CHAIRPERSON PFEFFER: That is a valid point. So I think that's kind of the decision you all need to think through and --

MS. NEWTON: I think that we should have the hearing or meeting based on the request, especially since it falls under the purview of what we're obligated to do as part of our duties. And if it resolves itself, then it resolves itself and maybe it could be canceled or make that determination at that point. But I think it's incumbent upon us, especially with our meeting coming after the State Board, then we have to pass that information on in December. But I don't see how we'd get out of the responsibility to do that, unless we schedule it for December. And we still have a conflict with dates --well, we wouldn't have a conflict with dates then necessarily.

CHAIRPERSON PFEFFER: If we have a meeting in

December, we would do it -- we could do it in conjunction with one of the two days of the already scheduled. But then it would be January --

MS. DAVIS: Exactly.

CHAIRPERSON PFEFFER: -- before the State Board would have any information.

MS. NEWTON: But the expectation would be that you guys would still be working with them to resolve, so it wouldn't be something that was just lying dormant. But at the same time you'd be working to resolve it and even more time would've then passed to allow them to get into line.

MS. DAVIS: And I obviously am not a State Board member, but I think their intent was that if you hear it in November you can report and have any kind of agenda item back to the State Board in December. So that way if action needs to be taken it happens sooner rather than later -- because if not, it does extend it. And so my recommendation is that if you have a meeting in November, even if they submit additional material, that the review would probably consist of not just that you managed to get the information submitted in time but, you know, are there obstacles that are preventing them from doing it and have been or, you know, kind of the bigger

1	picture, and then report back any action or no action
2	that you might have taken to the State Board in
3	December.
4	CHAIRPERSON PFEFFER: Because the budget balance
5	that you mentioned, that was from August; correct?
6	So we would have much more of that information if we
7	hear it.
8	MS. BARNES: That's correct. So it sounds like
9	we'll you guys will choose to review. And so once
10	you do that, I'll send them a letter and they'll be
11	coming on November 15th. And then after that, you
12	also want a report on how the other charters are
13	faring financially. That's what I hear.
14	So if you want to review, you have to make a
15	motion and vote.
16	CHAIRPERSON PFEFFER: Yeah.
17	DR. WILLIAMS: One question.
18	CHAIRPERSON PFEFFER: Yes.
19	DR. WILLIAMS: If we decide to hold a meeting in
20	November, is it possible to move some of the December
21	items to November?
22	CHAIRPERSON PFEFFER: No. We're not able to do
23	that. I think we actually have a scheduled date for
24	November; is that correct?
25	MS. BARNES: Yeah. We have a date for November

1 And the items that you're hearing in December are part of the application cycle. 2 3 DR. WILLIAMS: Okay. They're the renewal applications, 4 MS. BARNES: 5 so we can't move those up. DR. WILLIAMS: Okay. I was just thinking of one 6 7 item. CHAIRPERSON PFEFFER: And to come back to what 8 9 -- the second part of an update from the ADE Finance 10 Office, I don't think we need to just leave it wide open to, you know, anything and everything. 11 I think if we want any updates from ADE Finance, we're going 12 13 to have to be very clear what that is as far as what we would want them to update us on. And if we're not 14 15 clear on what that would be, then we would just 16 simply need to focus on the one issue. So that's something in thinking about some of -- if we do have 17 18 some questions, those are going to have to be things that we submit specifically to Alexandra, if we did 19 want an update from ADE Finance, so --20 21 So at this time do we -- would anybody like to 22 make a motion with regards to a review? 23 MR. SMITH: Madam Chair, can I just say one 24 thing on behalf of -- just to be clear, the hearing 25 that's being set up for November --

CHAIRPERSON PFEFFER: You're going to have to step up to the microphone please.

MR. SMITH: Just to be clear, as I understand it the hearing that's being set up for November 15th is not just a review. This Panel could revoke, modify, take out the charter, or anything like that. So it is a full revocation hearing with -- obviously, you can do something less than that but, you know, the review -- the report to the State Board may be other than just formality somewhat moot because you could actually take the charter out. So the school -- we'll make sure they understand what type of hearing. So I want to be clear on that point.

CHAIRPERSON PFEFFER: And I think in our motion we would need to be really clear that -- what this is a review of. And if it's a review of the finances, we're going to need to be very clear in terms of what we would expect the charter to come prepared to answer.

MR. SMITH: Yes, ma'am, because this is an action on their contract. Thank you.

CHAIRPERSON PFEFFER: Yes.

MR. WILSON: Well, I'll try my motion, and we can fix it. My motion is to notify the school -- I don't know the name of it -- that their charter is in

danger of being revoked and set for hearing on

November 15th. If in the meantime they produce

sufficient financial information to satisfy the ADE

Finance Department, and the Finance Department tells

us that that's sufficient or satisfactory, then we

cancel the hearing.

CHAIRPERSON PFEFFER: Ms. Davis, is that an option to do or do we just need to have a motion that we will --

MR. WILSON: We give them a drop-dead and a chance to be resurrected.

MS. DAVIS: I would recommend that you have the hearing. And, you know, at that point in time ADE Finance can be here and they can present and then you could take no action. I just know, you know, like you don't want them to cram, not that they would; but you don't want them to cram just in time for that deadline but then the issues that are causing these to begin with don't get resolved. And there may be other things that, you know, aren't necessarily reflected on paper. So I would just recommend having a full hearing, period.

MR. WILSON: Okay. But I mean it can be a full hearing but it could be real short too.

MS. DAVIS: Absolutely.

	122
1	MR. WILSON: Yeah.
2	CHAIRPERSON PFEFFER: So
3	MR. WILSON: Then I'll withdraw my motion or
4	substitute Ms. Davis' language for that, however we
5	get the right
6	MS. NEWTON: Can I take a try?
7	MR. WILSON: Sure.
8	MS. NEWTON: Okay. I'd like to make a motion to
9	review the virtual school's charter and set it for a
10	hearing to make a full review of the charter.
11	MS. TURNER: Second.
12	CHAIRPERSON PFEFFER: Okay. We have a motion
13	and a second to have a hearing to review Arkansas
14	Connections Academy. So let me ask, I think the
15	motion said a full review. Is a full review
16	different from review of finances and financial
17	operations?
18	MS. BOYD: It could be. I think once you if
19	you once you guys well, I'll let Jennifer go
20	ahead. Sorry.
21	MS. DAVIS: I mean, I agree, it could be. But
22	if you are only going to be reviewing financial
23	matters, then I would just say reviewing fully
24	financial. So that way it doesn't lend itself to
25	academic or other kind of operations or curriculum at

	123						
1	some point.						
2	MS. NEWTON: Well, what's the desires of the						
3	Board? Is it financial review? If you'll withdraw						
4	your second, I'll amend my motion to be a financial						
5	review, if that's sufficient.						
6	MS. TURNER: I'll second.						
7	MS. NEWTON: So that's my motion for financial						
8	review.						
9	CHAIRPERSON PFEFFER: And who was her second?						
10	MS. TURNER: I was. Yeah.						
11	CHAIRPERSON PFEFFER: Second. Okay. So the						
12	motion has been made and seconded to conduct a						
13	hearing for financial review for Arkansas Connections						
14	Academy.						
15	All in favor say "aye."						
16	(UNANIMOUS CHORUS OF AYES)						
17	CHAIRPERSON PFEFFER: Any opposed?						
18	Okay. So we will have that review on Ms.						
19	Boyd, you said November 15th?						
20	MS. BOYD: Yes, ma'am.						
21	CHAIRPERSON PFEFFER: That time has already been						
22	scheduled. Okay. All right.						
23	Ms. Boyd, Ms. Davis, is there anything remaining						
24	for us to discuss prior to adjourning for lunch?						
25	MS. BOYD: Well, I don't think lunch is here						

	124					
1	yet.					
2	CHAIRPERSON PFEFFER: Oh, okay. Adjourning for					
3	a break and then our lunch session?					
4	MS. BOYD: We need to outline what it is what					
5	information you want from the charter and what					
6	information you want from the Department.					
7	CHAIRPERSON PFEFFER: Okay. Hang on just a					
8	moment. Okay. I'm sorry, go ahead again.					
9	MS. BOYD: We need to outline what information					
10	you'd like from the Department and what information					
11	you'd like from the charter.					
12	CHAIRPERSON PFEFFER: Oh, okay. You're talking					
13	about with regards to the hearing?					
14	MS. BOYD: Yes, ma'am.					
15	CHAIRPERSON PFEFFER: Okay. And I'm trying to					
16	think in the past how we've done that. We've					
17	articulated in the have we articulated everything					
18	in the meeting or have we done a submitted a					
19	written information to your office and then you pass					
20	that on?					
21	MS. BOYD: Yeah. We could do it both ways. You					
22	could outline here what you want or if you need more					
23	time you can send it individually email me with					
24	what you want to hear. However, we are under a time					

constraint so I would like to send the hearing letter

out as soon as possible.

CHAIRPERSON PFEFFER: Definitely understand.

Since this will be a hearing for a financial review,

I think part of it is going to be for us to

understand what it is that we're going to need to

see, like what are some of the things causing the

issues and, you know, the overall -- so I don't know

-- I think a good place for us to start, we don't

have a copy in front of us of what the State Board

had reviewed prior to. So can you go back over it?

And we probably need to go ahead and just run through

a list right now.

MS. BOYD: So what -- I'm looking at the -sorry. I'm looking at the State Board agenda from -I'm trying to see. Hold on. I think it's from
September, and it was on the Consent Agenda; it was
pulled off. And they have the board report, they
have the monthly enrollment count, and I think that's
all they have but let me double-check.

Okay. So what they had is from the September meeting. They have July 2017 initial year openenrollment report, information provided by ADE, and then the detailed fund balance. So we -- in their first year we keep up with how many students they have month-by-month, so they have that information.

1	And then they have the board report, which						
2	demonstrates the major categories of spending and						
3	funding and ending fund balance that showed \$1,000.						
4	And then they had information from the State, a						
5	notice that kind of detailed how much money they were						
6	given from that the State gave to them.						
7	So it was just those three items.						
8	CHAIRPERSON PFEFFER: So as far as us coming up						
9	so, Ms. Boyd, I think right now we probably need						
10	to take a break. I think we're starting						
11	MS. BOYD: Yeah.						
12	CHAIRPERSON PFEFFER: to kind of drift off						
13	here for a minute. So we're going to probably need						
14	to take a break and when we come back from the break,						
15	if we could we can discuss this item and then						
16	discuss how we need to proceed to be sure that this						
17	school and the ADE Finance Office is going to have a						
18	good list of what all we're going to need.						
19	MS. BOYD: Uh-huh.						
20	CHAIRPERSON PFEFFER: I know we have a work						
21	session for later, but we don't want to adjourn this						
22	part until after we've fully completely everything.						
23	So what's our schedule like right now in terms						
24	of lunch?						
25	MS. BOYD: Yeah. It's 11:30 now. Lunch is						

supposed to be here at noon. So if you guys -- if you want to take like a break and then come back and we can close this up and then go to lunch. Does that sound good?

CHAIRPERSON PFEFFER: Yes. Let's do that.

Okay. Let's take a 10-minute break.

MS. BOYD: Thank you.

(BREAK: 11:30 - 11:45 A.M.)

CHAIRPERSON PFEFFER: Okay. So, Ms. Boyd, we were going to provide feedback on the kind of information that we're going to want on the day of the 15th for the review.

MS. BOYD: Yes. And, Dr. Pfeffer, I think I may be able to help a little bit. We spoke with ADE Finance who made some suggestions. I'd like to present those to you.

From the charter we would like to see the cashflow documents and bank reconciliation reports, which
we've been asking from all charters. So we just want
to make sure that those are up-to-date for them and
get those from the school. Also, we would like a
board report detailing the liabilities and the
correlation with accounts payable. Their audit is
currently under -- it's going through right now, and
so we would like just general comments of how that

	120						
1	audit process is going. And then they make a big						
2	CHAIRPERSON PFEFFER: Can I interrupt a minute?						
3	Okay. You said their audit, they're undergoing an						
4	audit right now?						
5	MS. BOYD: Right now. Uh-huh.						
6	CHAIRPERSON PFEFFER: Okay. Is that a Leg Audit						
7	or is that an internal or a private auditor that						
8	they use?						
9	MS. BOYD: I do believe they use a private						
10	auditor.						
11	And then we they make a big payment to the						
12	parent company and we would like an itemized we						
13	would like those payments to be itemized, the big						
14	chunk they've paid in the past, what they're actually						
15	paying for.						
16	And then from the ADE, we'll provide the						
17	information that the State Board saw and we'll						
18	provide an updated board report. And then we'll also						
19	ask Cyndi Smith and Talea Causey [ps] to be present						
20	at the meeting.						
21	CHAIRPERSON PFEFFER: Okay. Panel Members,						
22	questions or additions?						
23	DR. HERNANDEZ: I have a question on the						
24	itemized part of the charter management organization						
25	stuff. Is that something that we ask for from other						

1	charters and they've given it to us, or has there						
2	been some						
3	MS. BOYD: Right. So typically we ask for it in						
4	the application process. So if they put in their						
5	budget that they're going to make a payment to a						
6	management company we ask them to itemize that. But,						
7	you know, of course, that's just a projection, an						
8	estimate. So this would be a follow-up to what we						
9	asked them during the application process.						
10	DR. HERNANDEZ: Did they provide it in the						
11	application process?						
12	MS. BOYD: I can't remember how much detail they						
13	gave. But I know they did respond to our request,						
14	but I can't speak to what the						
15	DR. HERNANDEZ: So we're just asking for an						
16	updated version of that really?						
17	MS. BOYD: Uh-huh.						
18	CHAIRPERSON PFEFFER: Dr. Owoh.						
19	DR. OWOH: If we move forward with asking for						
20	that itemized budget, is it possible for are we						
21	line to ask for the types of services that their						
22	parent organization provides?						
23	MS. BOYD: I think that's what we're trying to						
24	uncover in asking them to itemize that payment, is,						
25	you know, was it for back office, was it for PD, was						

1 it for -- you know, what was it for. MS. DAVIS: I just want to say that we have 2 typically asked for it, I know as of recently, to a 3 lot of charters to find out, you know, what kind of 4 services are being provided. And I think with this 5 particular one they -- because they were using their 6 7 parent system, which is part of this problem, they 8 kind of log one payment in and one payment out, and 9 so really knowing what all of that is for -- because they have all that itemized in their parent system 10 11 and we don't have access to that. So it's a little bit even more so than the traditional, you know, 12 model that the other schools do. But we ask for that 13 14 regularly. 15 CHAIRPERSON PFEFFER: Anyone else have anything 16 to request? MR. WILSON: And what does our motion need to 17 18 be, if we already --19 MS. BOYD: Oh, we don't need a motion. You've 20 already made your motion to review. 21 MR. WILSON: Okay. 22 This is just outlining what you MS. BOYD: 23 expect to see on November 15th from the Department 24 and from the charter. CHAIRPERSON PFEFFER: And I would -- and also it 25

	131
1	would probably be good to kind of know what training
2	they have had in terms of our reporting systems and
3	requirements and any clarification on any training
4	they might need, so
5	MS. BOYD: Uh-huh.
6	CHAIRPERSON PFEFFER: And I don't know whether
7	our office would want to provide any information
8	related to that, as well.
9	MS. BOYD: Okay.
10	CHAIRPERSON PFEFFER: Or recommendations.
11	MS. BOYD: Uh-huh.
12	CHAIRPERSON PFEFFER: Okay. All right. So, Ms.
13	Boyd, you'll send this information to them?
14	MS. BOYD: Uh-huh.
15	CHAIRPERSON PFEFFER: Is there anything else you
16	need from us regarding this?
17	MS. BOYD: No, ma'am.
18	CHAIRPERSON PFEFFER: Okay. So is there
19	anything remaining then
20	MS. BOYD: No, ma'am.
21	CHAIRPERSON PFEFFER: in terms of our action
22	agenda?
23	So our next meeting we do have our work
24	session this afternoon. So in a moment we'll adjourn
25	for lunch and come back for the work session.

	132						
1	So our next meeting will be on November 15th at						
2	this location.						
3	MS. BOYD: Yes, ma'am.						
4	CHAIRPERSON PFEFFER: And what time will we						
5	start?						
6	MS. BOYD: At 8:30.						
7	CHAIRPERSON PFEFFER: At 8:30 a.m.						
8	Okay. All right. Well, if there's no other						
9	items then we will adjourn. Do I have a motion to						
10	adjourn?						
11	DR. WILLIAMS: So moved.						
12	DR. OWOH: Second.						
13	CHAIRPERSON PFEFFER: Motion and a second to						
14	adjourn.						
15	We will adjourn and let's come back at would						
16	you all if we have lunch delivered at noon, can we						
17	come back at 12:30?						
18	Okay. We are adjourned and we'll return at 11						
19	at 12:30 excuse me 12:30 for our work						
20	session. Thank you.						
21							
22	(The meeting was adjourned at 11:54 a.m.)						
23
