BEFORE THE ARKANSAS DEPARTMENT OF EDUCATION CHARTER AUTHORIZING PANEL

AUGUST 18, 2016 8:30 A.M.

APPEARANCES

PANEL MEMBERS:

MS.	DEBORAH COFFMAN	Chairman/Chief of Staff
DR.	MARK GOTCHER	Vice Chair/Deputy Commissioner
MS.	IVY PFEFFER	Asst. Commissioner - HR/Educator Effectiveness & Licensure
DR.	ERIC SAUNDERS	Asst. Commissioner - Fiscal & Administrative Services
MS.	ANNETTE BARNES	Asst. Commission - Public School Accountability
MR.	GREG ROGERS	Asst. Commissioner - Fiscal & Admin. Services
MS.	JENNIFER LIWO	PLSB Attorney
MR.	BOBBY LESTER	Director of Federal Programs
MS.	STACY SMITH	Interim Asst. Commissioner of
		Learning Services

ALSO APPEARING:

MS.	ALEXANDRA BOYD	Public School	Program	Coordinator
MS.	KELLY McLAUGHLIN	Public School	Program	Advisor

ADE LEGAL COUNSEL:

MS.	LORI FRENO	ADE General Counsel
MS.	JENNIFER DAVIS	ADE Deputy General Counsel

Arkansas Department of Education #4 Capitol Mall Little Rock, AR 72201

A-1: PARON CHARTER SCHOOL

EXHIBIT ONE (1)

Saline County Assessor Geographic Information Systems Map - Bryant School District

PROCEEDINGS

CHAIRPERSON COFFMAN: Good morning. We'll call the August 18, 2016 meeting of the Charter

Authorizing Panel to order. We welcome everyone to the Department and ask that you please silence all electronic devices.

The Charter Authorizing Panel oversees the authorization, renewal, revision and revocation of charters. The Arkansas Quality Charter Schools Act of 2013 required the Commissioner to appoint an ADE staff to the panel, and the panel sits before you today. It is our goal to facilitate a fair and responsible hearing.

I will request that each person speaking speak clearly into the microphone. Please state your name and title for the record. I will ask that you continue to speak clearly into the microphone for the benefit of the Panel, the audience, and the viewing audience. The meeting today is being livestreamed and recorded; it will be posted on the ADE website. And Ms. Sharon Hill, our court reporter, is here today and she will be providing a transcript of this meeting that will also be posted on the ADE website.

A-1: HEARING OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL

25 APPLICATION: PARON CHARTER SCHOOL, PARON, ARKANSAS

CHAIRPERSON COFFMAN: So we'll move directly into action item one (1). Ms. Boyd, you're recognized.

MS. BOYD: Thank you, Madam Chair. This morning you'll be hearing a proposal for an open-enrollment charter school in Paron, Arkansas. Before we get started would you like to be reminded of the hearing procedures?

CHAIRPERSON COFFMAN: Yes, we would.

MS. BOYD: All right. Thank you. We'll have Jennifer Davis to give those.

MS. DAVIS: Hi, good morning. Jennifer Davis, Staff Attorney for the Department. The procedures you're going to follow this morning will be that all persons with the exception of attorneys will need to be sworn in. The open-enrollment applicant will have 20 minutes to present its case to the -- to the authorizer.

Is that better?

Parties opposed will also have 20 minutes, and then the applicant will have 5 minutes additional to respond. At that time you may ask questions of the applicant or anyone else that you may have questions of. You may make your final decision today or take it under advisement for a future meeting. If you

1	make your decision today, you do have a Google doc
2	that you will need to record your reason for your
3	vote. Do you have any questions?
4	CHAIRPERSON COFFMAN: No questions. And do we
5	have someone that will join us by phone?
6	MS. HELTON: Yes, we have one; his name is
7	Bryce.
8	CHAIRPERSON COFFMAN: Okay.
9	MS. DAVIS: And one last thing, just a reminder
10	that this is a charter so it is really a contract
11	negotiation. So anything that the applicant may
12	agree to that differs from their written materials
13	that have been submitted will become part of any
14	charter that you do grant.
15	CHAIRPERSON COFFMAN: Teal, do you want to test
16	microphone one to see if it works?
17	MS. HELTON: Test.
18	CHAIRPERSON COFFMAN: Okay. Ms. Boyd, you're
19	recognized.
20	MS. BOYD: All right. Thank you, Madam Chair.
21	For the Paron Charter School, the first person
22	to speak to you will be Jamie Mullins.
23	CHAIRPERSON COFFMAN: I'll ask that everyone
24	that is representing Paron Charter School or anyone
25	speaking in opposition, if you'll please stand and

raise your right hand. Do you swear or affirm that the testimony you're about to give shall be the truth, the whole truth and nothing but the truth?

(ALL WITNESSES ANSWERED AFFIRMATIVELY)

CHAIRPERSON COFFMAN: Thank you. Ms. Mullins, if you'll state your name and title.

MS. MULLINS: Good morning. My name is Jamie Mullins. I am one of the founding trustees for the Paron Community Trust, which is the sponsoring entity for the charter. I'm also the office manager of the Paron Owensville Water Authority and was on the founding group of getting water to the northwest part of Saline County. I'm committed to the Paron community.

I'm also here, as are the others, to represent the parents and the children of Paron. It was 10 years ago that the upper grades were bused out of Paron. It has been now 8 years that we have been a community trust, and the purpose in that was to help hold the community together to provide community support and education within the community. During that time we have developed a library in the old high school building; we have a partnership with the Saline County Library System; we provide internet accessibility in an area of the county that has

difficulties both either economically or logistically in getting internet service. We worked with Dr.

Richard Abernathy to create the 99-year lease on the buildings that we had. And then last spring when the school was closed Dr. Kimbrell was -- kindly asked us if we were interested in a charter at the time. But because of the chaos going in it was difficult for anybody to really focus on putting in the time with a charter because they were worried about where their children were going the next year. After the dust settled we then started looking at -- and community members came forward and said, "What do we do? What does that mean? How do we go about it?" So that's how we started on the path for the charter.

I asked that you receive the maps that are there to kind of give an idea on the large area that is -- was the Paron School District, that was the Paron elementary district, and how it became quite unwieldy for the Bryant School District to maintain us. And you can also see the expansive area and the difficulty for negotiating parent involvement when you have that kind of area and you're sending children out of that area, bringing them back into the area, parents that live outside of the area. It makes for difficulty in providing that family

commitment to the children's education and activities.

I am here with Candy Webb, who is our 4H leader; actually, the 2015 Leader of the Year for Saline County. And she is our connection with the U of A and the Extension Service to bring the outdoor activities and a lot of the programs that they provide by specialists and professionals within the U of A system. I'm going to let her --

Good morning. My name is Candy Webb; as she stated, I'm the 4H leader for our area. program in Paron focuses on outdoor classroom, wildlife habitat education program, forestry, and we work closely with our forestry department in Arkansas, both the U of A specialists and also the businesses around us that deal with forestry -- a big deal in our area. We also work with the Game and Fish Commission for outdoor classroom activities and We focus on culinary skills and nutrition in tools. Also, we have a pre-vet science program for kids that are under the age of 14. All of those things are provided through U of A at no cost to our community or our members. Given that 4H is really geared toward young minds that are learning, programs It should be are geared toward specific age groups.

fairly a smooth transition for us to bring those programs into the classroom. U of A already does that on a large scale in Benton and Bryant. They already go into the classrooms and focus on the programs that they offer through U of A. So with my connection already, our community's connection already, we plan to bring those programs onto campus with our extension service agents, professionals, and specialists already in Little Rock, Fayetteville, Pine Bluff. Those folks have already committed time to our kids, even without the charter school, and are very open to providing those programs on campus as we can offer them.

4H is a big deal for my family; it's a big deal in our community, and we're a small community but it's not just about livestock and animals. There's a lot of STEM activities that happen through 4H and a lot of those programs are geared specifically towards rocketry, robotics, computer programming -- and while those are not areas that I deal with, I have friends, volunteers, staff personnel that focus directly on -- in those STEM areas and they are very willing to bring those programs to Paron. So with that curriculum, with that support already in place, we look forward to being able to provide those to our

kids on a much larger scale. That program has already proven to be effective in so many areas, small towns and urban areas alike. We hope that we are able to provide that in our classrooms on a regular basis.

And Candace Williams with the RCA group, do you want to come on up?

MS. WILLIAMS: Good morning. I'm just here to offer the support from Rural Community Alliance. Jamie stated, over 10 years ago the district was consolidated. So the communities that we work in are just like Paron, communities that have gone through school consolidation. And I'm just very proud and honored to be here to show our support to the Paron Community Trust as they're pursuing this, because, as Jamie stated, this is very organic; this is coming from their community. So I would encourage our other communities that we're working to take this same route after a traditional public school has -- is no longer there in their community to pursue something as this. So just here to offer support from Rural Community Alliance. And in the application, the president of the board, Lavina Grandon, submitted a letter of support.

CHAIRPERSON COFFMAN: Would you state your name

and title for the record?

MS. WILLIAMS: Candace Williams, executive director of Rural Community Alliance.

CHAIRPERSON COFFMAN: Thank you.

STATE REPRESENTATIVE GATES: Good morning. name is Mickey Gates; I'm State Representative in District 22. The northern part of my district is the Paron district. And I will tell you one of the things when you're out knocking on doors and trying to find people, sometimes it takes 20 or 30 minutes just to get to their house. And so a lot of times when we start looking at how long we're putting kids on the bus you've got to realize oftentimes those kids have already been away from their homes 20 or 30 minutes just to get to what we call Paron. And so for those areas that are rural -- I live out in the country and my kids were country bumpkins; we try to dress up nice so we don't embarrass people. know, when you live in a small community and you know everybody and everybody knows -- and then you go to one of the largest school districts and then you've taken small children and you've bussed them that long, it does affect them. It doesn't just affect their school life; it affects their family life. And what time they -- how early -- how much earlier they

have to go to bed and how much earlier they have to get up. And those are consequences for somebody like me that had learning challenges. You know, I'm a state representative and, you know, you're not supposed to announce those things, but I had my learning challenges. And so, you know, there's so much going on. And when a community says, "We're behind this and we want to do this, " and it's going to take extra work and -- you know -- this is parent involvement to its max. I would hope the State would be able to give that consideration to say this may be something worth us making that investment in those kids and giving them a shot at bringing those kids back home and bringing them to a local place where they know everybody and everybody knows them, and not lose the sense of community. Because there's -- when I go to Paron there's normally only two things that brings that community together: one is the volunteer fire department and the other is our school. And I would appreciate y'all's consideration. I think it would be worthwhile for the state to do this. you.

CHAIRPERSON COFFMAN: Thank you.

MS. MULLINS: While we're aware that there are multiple reasons for our request and we're aware that

2

23

24

25

our presentation, our application is probably not as polished as you would hope for, we're not a big box educational group; we are a group of citizens of a community that are trying to provide an education and opportunities for our kids close to home so that we can participate in them. We have -- we're not happy that our school closed, but it did afford us the opportunity to reboot and to relook at what we can now make available within the community. Being able to utilize the U of A and the 4H programs and the support from the Extension Office, as well as utilizing internet courses to be able to provide nearly limitless programs, we feel like it is the future; it is the best opportunity we can provide these kids close to home. There are classroom settings through the internet. It is our plan for each child to have -- be one-on-one with at least a tablet in year-one. There will be a computer lab that will provide enough computers for each setting. Not all children will be in the lab at the same time, but we will have computers available to them.

The support of the Community Trust is going to be necessary for us to be viable. We know that we're talking about small numbers to get started. The community, while they support this, we'd be lying if

2

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

we didn't tell you that we've lost people in the community because the school moved. We have supported -- the Community Trust has supported the Head Start that is across the street from the school and we have little kids coming out of there each year and we don't want to send any more of those five- and six-year olds on a bus outside their home community. And that's why we started with the K through 5. figured those are going to be the easiest for us to By the time you have students that have gotten into the upper grades, they've already established relationships; they have established themselves in another school. And we're not trying to pull those necessarily back; we're trying to capture the ones who haven't gone. And adding a year each year we can then begin to look at having the next graduating class at Paron High School -- Paron Charter School.

I know that there are questions or going to be questions on our budget. It is minimal at best. We have been in contact with Kathy Smith with the Walton Family Foundation. As all of you, I know, are well aware, without approval they don't guarantee funds. We have been in communication with APSRC and will be joining them to provide us with the guidance so that

1	we are in compliance. We have yet a lot to put
2	together. Our goal was to provide a program to look
3	and see what we could make available, and through the
4	internet courses at this point we have looked at
5	Connections Learning. But we are quite aware that
6	we're going to have to do the bid process on that and
7	get proposals, so they obviously are not set in
8	stone. I believe we have somebody online that can
9	speak to what is available through Connections
10	Learning and would be happy to let them provide any
11	information they would like to. I don't know how you
12	how we request that. Are they there?
13	MS. HELTON: Excuse me; are you there? Let me
14	step out.
15	CHAIRPERSON COFFMAN: Okay.
16	MR. McCRAY: Hi.
17	CHAIRPERSON COFFMAN: Good morning. If you'll
18	state your name for the record?
19	MR. McCRAY: Sure. My name is T.J. McCray and
20	I'm the assistant director of School Support with
21	Connections Learning.
22	MS. HELTON: Can you repeat that?
23	MR. McCRAY: Sure. My name is T.J. McCray and I
24	am the assistant director of School Support.
25	MS. MULLINS: Mr. McCray, could you explain or

21

22

23

24

25

provide the information to them concerning what you would be able to provide us for the K through 5?

MR. McCRAY: Sure. Here at Connections Learning we provide individualized education for our clients. We provide K through 5; we provide a number of different options that we have available. options include a teacher, curriculum, our Blackboard, our educational -- we call it educational management system which houses everything that the students will need, almost like a one-stop-shop where students will log on daily to complete their work, have communication and to interact with their actual online teacher. There are textbooks. Any type of extra information that they will need, everything is housed inside of this educational management system. This is also included with us. We also provide support for the district to assist with understanding what students are doing on a daily basis, providing grade reports where they can monitor student And that's pretty much it. achievement.

MS. MULLINS: We anticipate not only utilizing their teacher training but also through APSRC and ADE's mentoring programs for any of our staff. We would like to look -- I know saying that we want new teachers is probably not the goal of most schools,

	1,
1	but we're anxious to have the enthusiasm, the
2	openness to developing what we see as the promise for
3	the Paron Charter School. And to have new minds that
4	are ready to put what they've learned into action
5	with the training and the professional development,
6	it just seems like a win situation for us.
7	All rightee. I guess it's now time for you to
8	take the rest of it.
9	CHAIRPERSON COFFMAN: Thank you. Is there
10	anyone here to speak in opposition?
11	MS. BOYD: No, ma'am.
12	CHAIRPERSON COFFMAN: You have two minutes
13	remaining, plus five additional minutes, if you'd
14	like to take those, Ms. Mullins.
15	MS. MULLINS: I'll just come up here and say no,
16	thank you; I'll reserve that and let you ask the
17	questions.
18	CHAIRPERSON COFFMAN: Thank you. Dr. Saunders.
19	DR. SAUNDERS: Good morning.
20	MS. MULLINS: Good morning.
21	DR. SAUNDERS: Okay. So as I'm looking at this
22	and I'm viewing it, I'm trying to understand. If I
23	heard you correctly, some of the concerns that you
24	have dealing with the shutting down of the school
25	located there in Paron, students riding on the bus

2

3

4

21

22

23

24

25

for excessive amounts of time as a result of that, and community impact as well. Is that a fair summary?

In part. It is part of the whole MS. MULLINS: I mean, I have a grandson that currently is bussed out of the area and he feels stressed by it. All he knew, he went his beginning years at Paron and was nearly across the street from the school. going a great distance is problematic for him. Kids adjust. But the problem is when you have parents that work in Little Rock, live in Paron and say go to Perryville, or even if it's Bryant, I mean, you're still zigzagging. Again, the reason for the map, you see that there is a vast area there. And if you're talking about afterschool activities or programs or even assemblies it's difficult for parents to participate, and for us parent participation is really important. One of the big activities in Paron is hunting but during deer season we would typically have DEAR camp, d-e-a-r, Drop Everything and Read. And we would bring the community together and they'd have campfires and all sorts of people in the community came in and read with the kids and it was interaction. You had multigenerational activities. And if you're all spaced out you don't get an

opportunity to have that. So, yes, bussing is part of it but not the prime reason to be concerned of the large area. I mean, it's just a matter of for 60 years there was a community school; there was an autonomous community school that never was in fiscal or academic distress. And although we don't want to go back to what it was, we want to have that opportunity, that independence to be able to provide an education for the future for the kids. We look at it as although they're going to get practical experience -- some kids won't go to college, but the ones that do, if they receive that practical experience within their high school years, they have a way to earn money while they're at college so that they can get through college.

DR. SAUNDERS: Have you considered the possibility -- I know that you were discussing the online learning.

MS. MULLINS: Yes.

DR. SAUNDERS: I commend you for thinking, you know, a little different, see what's available to do that. Have you considered the possibility of, say, a community effort or collaboration that would allow those students within that area to enroll in one of the online providers that already exist and

coordinate those efforts without the separate establishment of an LEA and the rules and requirements thereof?

1

2

17

18

19

20

21

22

23

24

25

MS. MULLINS: Yes, we have looked at that possibility. Because one of the goals in -- when we worked out the transfer of the campus from the Bryant School District, our goal was to have a learning center there, regardless of how you look at what it was, whether it was just adult learning, whether it was 4H projects. I mean, we've had the culinary folks out. We have a lot of the programs out there. We have looked at that as a possibility, but for some parents it was not as comfortable to them as to have an actual school that they could rely on. -- they looked at it as like homeschooling and they wanted to -- they liked the idea of the school. mean, that may be old-school but that was being able to combine what they knew, and those learning experiences on the internet seemed to be a better It is again though our plan to utilize afterschool hours, the campus, for additional learning opportunities.

DR. SAUNDERS: Okay. That's all for now.

CHAIRPERSON COFFMAN: Ms. Mullins, how many students were attending the Paron School, Paron

	21
1	School Elementary School when Bryant made the
2	decision to close it?
3	MS. MULLINS: I believe it was it was either
4	65 or 68. I don't remember what the last number was.
5	CHAIRPERSON COFFMAN: That's helpful. Ms.
6	Barnes.
7	MS. BARNES: Good morning.
8	MS. MULLINS: Good morning.
9	MS. BARNES: A quick question as you were
10	speaking earlier, you made mention of your grandson
11	who is experiencing some stress regarded to being
12	transported a distance away. What grade is your
13	grandson?
14	MS. MULLINS: He's in 4th grade.
15	MS. BARNES: 4th grade. So he would be a 5th
16	grader in the 17-18 school year?
17	MS. MULLINS: Yes.
18	MS. BARNES: Okay. And as you were speaking
19	earlier, you also went into that it's not the goal
20	per se to pull the students back who may be in
21	attendance at other districts currently, but to give
22	those students who are coming or entering school in
23	those early grades an opportunity to have a stable
24	foundation. I may be paraphrasing some of your
25	words. But I guess my question is: is it the intent

1	then to build the enrollment, the initial enrollment,
2	should this charter application be approved, by
3	pulling back those individual students who may
4	already be established in other schools in those K-5
5	grades who are currently enrolled? I mean, I'm just
6	asking that in order to determine how the enrollment
7	will be built.
8	MS. MULLINS: The parents and the children that
9	we're representing are ones that are going elsewhere
10	that want to be able to come back. When I say we're
11	not going to pull people back, there have been people
12	that have moved from the community in order to live
13	closer to their school and be able to participate in
14	their I mean, these were life-changing decisions
15	that these families had to make.
16	MS. BARNES: Yes, ma'am.
17	MS. MULLINS: And without having the opportunity
18	to see something different within the community, they
19	chose to move and settle elsewhere. Those people are
20	not coming back.
21	MS. BARNES: Yes, ma'am.
22	MS. MULLINS: We know that.
23	MS. BARNES: Yes, ma'am.
24	MS. MULLINS: But, yes, there are I mean,
25	some of the buses that are leaving the community with

1	kids are so full that they're being told that there's
2	not space on the bus to get them to the school, so
3	and a part of, I think, the problem that we've
4	experienced with some of the kids, mostly the younger
5	kids because when the high school closed most of
6	the kids a lot of the kids went to Perryville, and
7	Perryville couldn't have been more opening and
8	welcoming to those kids. It has been more difficult
9	when the elementary closed and they experienced
10	overcrowding there, and I think the teachers were
11	under some stress dealing with additional children in
12	the classroom.
13	So, I'm sorry, to go back to your question: yes,
14	the ones that have that still want to have a
15	school that have no choice right now but to go
16	elsewhere, yes, we anticipate them coming back.
17	MS. BARNES: Okay. Thank you.
18	CHAIRPERSON COFFMAN: Additional questions? Ms.
19	Pfeffer.
20	MS. PFEFFER: I have a couple of questions and
21	it's partly on the budget and then the waivers. I
22	noticed that you are projecting your revenue based on
23	60 students.
24	MS. MULLINS: Yes.
25	MS. PFEFFER: And you had you were looking at

1	having two teachers for the first year and with the
2	planned K-5 grades. So the plan would be to have
3	those two teachers in the classes possibly combined?
4	MS. MULLINS: Plus special ed.
5	MS. PFEFFER: Plus the special ed. Okay. I was
6	just wondering and Legal may need to step in here
7	depending on the makeup of the students, would the
8	class size limits could that work, I guess, if you
9	were looking at 60 students but you add kindergarten
10	where a class size limit is 20 students. And so I'm
11	just wondering if that's something that needs to be
12	looked at in terms of I didn't see that there was
13	a waiver requested for class size.
14	CHAIRPERSON COFFMAN: Ms. Davis, can you speak
15	to that?
16	MS. DAVIS: If they do want to alter their class
17	sizes, then, yes, they would need a waiver and they
18	currently did not request one.
19	CHAIRPERSON COFFMAN: So more specifically to
20	Ms. Pfeffer's question, if you have 60 kids over K-5
21	there would have two teachers would not meet the
22	state requirement?
23	MS. DAVIS: Not currently. No. And did you ask
24	about special education?
25	MS. PFEFFER: I didn't ask about that because I

	25
1	think there is a plan for a special education teacher
2	
3	MS. DAVIS: Right.
4	MS. PFEFFER: that was in the budget. I was
5	just more just trying to think logistically if
6	within that scenario
7	MR. ROGERS: I was going to ask about the
8	special ed. teacher
9	MS. PFEFFER: Okay.
10	MR. ROGERS: because I see that the budget
11	only has .75 for a special ed. teacher. So I
12	wondered how that comes into play too, with student
13	size too with the federal requirements for the
14	special ed. teacher. So I don't know how .75 special
15	ed. teacher would work with a student population size
16	of 60. I don't even know if you can get I don't
17	even know if you can waive that.
18	MS. DAVIS: No, you can't waive that. I think
19	that's 15 students, special ed. Actually, it may be
20	less than that. I'll have to double-check. It's
21	less than that, and I think it's even less if it's in
22	a self-contained classroom. But it cannot be waived
23	
24	MS. BARNES: Yeah.
25	MS. DAVIS: special education class size.

MS. BARNES: Preferably eight.

CHAIRPERSON COFFMAN: Ms. Mullins, could you speak to the special ed. teacher?

MS. MULLINS: Well, first, let me go back to the I think that our -- and question of the class size. it may have been our misunderstanding and our additional need of guidance from APSRC, but with having online classroom and children utilizing that we maybe mistakenly assumed that we could count those teachers as part of the plan on being able to -speaking to the class size. And if I'm mistaken, then we will have to obviously relook at that. the special ed., the reason for the partial was that having teachers' assistants that would be paras we anticipated their being partially used as assistants with special ed. kids. Don't have a way of determining how many special ed. kids we might have or what severity we might have. So, yeah, we have -unless there is the online teachers' count to us, I don't know how we make that work.

CHAIRPERSON COFFMAN: Ms. Barnes.

MS. BARNES: Yes. I forgot -- I failed to ask the other question. I was looking at some of the issues that were unresolved and I was wondering if you could talk to me a little bit more about physical

activity time, whether it would be physical activity meeting the requirements of physical activity time, whether it be recess, how that is built in, since the initial committee was unable to clarify that for us.

MS. MULLINS: There are two periods of specifically recess and physical activity, P.E. We have the availability of the gym for inclement times for the children to workout and be active; two separate playgrounds on the property for that to happen. In the past, the teachers have utilized portions of time within the class day to, when the kids were getting unsettled, to letting them get up and move around so they could get back to be focused. And we consider that part of the daily plan so that there would be a minimum of 90 minutes a day where the kids would have physical activity.

MS. BARNES: And so would you be teaching -would you have someone teaching the content standards
in physical education as well as meeting the required
time for physical activity, or --

MS. MULLINS: Yes. Actually, we have -- we don't have it scheduled because we don't have a charter yet. But we have been in communication with different dance studios, with gymnastic studios, with Marshall Arts studios, that would be willing to come

in and provide some of that training that could continue throughout the school year. So there would be guided activities and free time activity.

MS. BARNES: Okay. And I recognize that we're looking at K-5, but as far as the -- not so much the AP courses, since that's upper-level, but for the GT services, the gifted and talented services, how are you looking at providing that for those students in those grades K-5 along with the other non-core courses? I recognize you have the online possibility but the non-core courses, were you looking at a way to provide for the health, the music, the art?

MS. MULLINS: Some of that would come through the Extension Service and through the U of A. Some of it would be provided in the online courses that -- and obviously we want to meet standards and any provider would be required to meet the standards in the framework as required by ADE, and those being subject to change. And we're beginning with the K-5; our intent is at the beginning of each year that the children would meet with parents and teachers and the principal/director and initiate a personal plan to move forward with the children, that it would follow them so that it could be determined how we can best help them, what courses, what interests and

activities they have, so that we can personalize what they do and meet it.

MS. BARNES: Okay. And so I'm assuming that you would also be depending upon the online provider for the GT services for students that would --

MS. MULLINS: Initially.

18

19

20

21

22

23

24

25

MS. BARNES: -- qualify for that?

MS. MULLINS: Initially. Because, again, until we can re-establish the student population we're -the Community Trust is going to be subsidizing this in a large way. I mean, and we're prepared to because we understand that the kids and the parents -- a lot of them are going to take a wait-and-see The first year could be bare bones for us. attitude. And we realize there is probably a cutoff point that we're going to have to say "not this year, we'll try it again next year," and just lose a year of the charter. But we're -- again, we anticipate -- the Community Trust anticipates that it's going to be a hard first year pull and that it will be -- being able to provide that year and provide the experiences that will bring the kids back. And probably first year anyway, since the issue on the teachers, that looking at the potential of 60 students and the -not three full teachers. I'm sure that we could make

that adjustment, if necessary, as part of the agreement. And, again, it would be yet another subsidy. But, again, we understand that the first year is going to be the hardest year and that we're going to need the guidance to get through that first year, get to it and get through it and find out how to adjust from there.

MS. WEBB: I just wanted to make mention of the teachers and the ratio to the students. While we know that it's important and we have to meet that, please keep in mind that we have historically had a large volunteer base of parents, 4H leaders, Boy Scout/Girl Scout leaders that have come in to do all sorts of stuff on our campus in the past. And all of us are onboard to provide that same guidance, that same support as needed. So if there is a shortfall somewhere with a paid staff, for that one paid staff there's three or four volunteers ready to step in and help wherever they're needed. So just keep that in mind, please.

CHAIRPERSON COFFMAN: I think the point to clarify here is without a waiver then you would be out of compliance and that would be an accreditation issue.

MS. MULLINS: Then, would it be appropriate then

25

to, since our word is our bond at this situation, to ask for that waiver today?

CHAIRPERSON COFFMAN: Yes. That's a -- it's a negotiation process.

MS. MULLINS: Then we would ask for that waiver in order to be able to provide at least for the first year.

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: And continuing on with the question about one of the waivers that also deals with teachers, the waiver for 6-17-1501 -- and Legal may need to help with the terminology there -- but it would seem that you would be waiving that statute and all -- and everything following that. That would take away the requirement for any type of support and looking at the quality of your teachers and providing them with that support to grow and develop. And as you indicated, especially if you're hiring new teachers, you know, how are you going to evaluate how well they're doing if you're waiving the entire code that would deal with their evaluation and looking at whether or not they're quality teachers? So unless I'm misunderstanding something with regard to that waiver request --

MS. MULLINS: Well, our intent -- and, again,

this would be a matter of guidance. Our intent on the waiver is simply to be able to put the best possible situation together and that we're going to have educators that may not be licensed teachers and -- but highly qualified to provide educator, whether it be in robotics, whether it be in agriculture, whether it's in beekeeping, whether it's in aquaculture or forestry. And to be able to utilize those people it was our understanding that being able to then request that waiver that we were allowing ourselves the opportunity to utilize those people that could provide that.

DR. SAUNDERS: If I can follow-up on that, I think it may just be a point of clarification. As the way that I was reading the application, I think perhaps the intent on that section of code was for a waiver from the Teacher Fair Dismissal Act. And within that section of code that's referenced it also includes the evaluation, because there's another separate section of code that includes evaluation that's not referenced for a waiver. So I just wonder if your intent by that particular section of code was only to deal with the Teacher Fair Dismissal Act and perhaps just by chance capture part of the evaluation also?

1 MS. MULLINS: Possibly. Again, we may have thrown blanket issues out there thinking it was -- we 2 were protecting the educators that we wanted to bring 3 in and our ability to manage staff. 4 This was a 5 committee effort and some input may have -- may not really fit our situation. The part of it that is 6 7 concerning to you is about the Fair Dismissal? 8 DR. SAUNDERS: No, ma'am. I think the intent --9 and this is just me guessing at the intent, but I think it was towards the Teacher Fair Dismissal Act. 10 But within those sections of code that are referenced 11 concerning that it also includes part of the teacher 12 evaluation in 1504 -- 6-17-1504. And I don't know 13 that you intended to include that as a possible 14 15 waiver and that poses concerns to us on if you were seeking a waiver from teacher evaluation. 16 17 MS. MULLINS: No. No, we are not. No. 18 DR. SAUNDERS: So would we need to look at those specific sections of code and strike those from the 19 application? 20 21 MS. MULLINS: Yes. 22 I may need Legal's help on that, DR. SAUNDERS: 23 but I think in particular 6-17-1504, there would not 24 be a request for a waiver from that one. Ms. Davis, 25 do you know -- do you have any guidance on any of the

1 ones that may have --MS. DAVIS: No. The rest of them are actually 2 outside of that code. So I think 1504, with the 3 removal of that one, then the rest of it does just 4 5 apply to the Teacher Fair Dismissal. I will review it and make sure, but I believe that that's it. 6 7 MS. MULLINS: And we are certainly -- whatever Ms. Davis may find that is appropriate based on that 8 9 we are in agreement with. CHAIRPERSON COFFMAN: Ms. Mullins, you mentioned 10 a 99-year lease for the building. Which buildings do 11 12 you have? Which buildings are covered in that lease and which ones are not? 13 That went away. That was with --14 MS. MULLINS: 15 what we had done with Dr. Abernathy when only there 16 was partial closure of the school. Last July 1st, we had negotiated with -- after the school totally 17 18 closed, Dr. Kimbrell worked with us and the entire property, the whole nine acres is now -- belongs to 19 20 the Community Trust, part and parcel, although we do 21 have a lease with them now for the bus yard. CHAIRPERSON COFFMAN: Okay. So you have access 22 23 to the full --24 MS. MULLINS: Yes. Yes. 25 CHAIRPERSON COFFMAN: The other thing that you

mentioned was the Head Start across the street,
potentially looking at those students as students
that would come to the charter school. Have you put
numbers to paper about how many kids that is?

MS. MULLINS: There's 20 enrolled this year.

Last year, as we will this year, we provide the breakfast, lunch and snacks for the Head Start out of the Paron kitchen, the school kitchen. And we provided that last year; we'll provide it this year. And the last count we got was that we were beginning with 20. That may fall to 18, but they are limited on the number that they can have.

CHAIRPERSON COFFMAN: So is that potentially 18 to 20 kindergarten students coming to the charter school?

MS. MULLINS: That is probably 12. So those we -- she said -- I'm sorry -- that there was nine last year that moved out to kindergarten.

CHAIRPERSON COFFMAN: So I was trying to put in my mind, you have some really strong pieces in planning, and planning for a new school -- charter school, traditional school, private school, any new school, I would assume even planning to be a homeschool -- has a lot of issues that are to be discovered as you go through. But --

MS. MULLINS: Certainly.

CHAIRPERSON COFFMAN: -- in your case, you have a lot of things that are known. So you pretty well know the community and you know the population; you know the age of students in that area; and in your community meetings you probably already have an idea of how many students might be committed to the charter school in the initial year. So with that known information, do you kind of have in your mind -- is the information provided in the application by grade levels, is that pretty well known information or is that projected, just randomly projected?

MS. MULLINS: It's projected based on the feedback we have gotten from families. Keep in mind, when I say that there is anywhere from 9 to 12 that come out of Head Start, Head Start is low-income and that doesn't include the children that are in private daycare that would be coming into kindergarten out of daycare. And there is probably another 30% that would be added to that number.

CHAIRPERSON COFFMAN: And because your parents are mobile and may have to travel to their jobs, is your plan to have an extended day?

MS. MULLINS: Yes. Yes. There will be afterschool activities and programs so that we can

keep kids occupied and learning, if possible, while their parents are coming to get them. Because that has even been an expressed concern. We have a former Head Start teacher that is going to be handling some afterschool daycare this year.

CHAIRPERSON COFFMAN: That seems to be one of the things that we've heard from parents in charter school situations is how much they appreciate that extended day that allows them to be more involved in the student's activity and have them in that nice, safe learning environment.

MS. MULLINS: Yes.

MS. WEBB: Can I add something real quick?
CHAIRPERSON COFFMAN: Sure.

MS. WEBB: Okay. So to go back to U of A, U of A actually after an afterschool -- offers an afterschool 4H program which would be a continuity of education and a continuance of what we've done in the day, provided in a more casual way in the afternoon. And the volunteers that run that afterschool program have to go through a lot of training to be able to provide that information and guidance to those kids -- and background checks, yes. All of our 4H volunteers have to have background checks if you come into contact on an individual basis with any child.

	38
1	So we have that to our favor as well.
2	CHAIRPERSON COFFMAN: What is the number of
3	students currently involved in 4H in the Paron
4	community?
5	MS. WEBB: We have seven team leaders. We
6	currently work with 12 juniors and I have 6
7	Cloverbuds that are local, and 4 that actually come
8	to our program from the other end of the county.
9	MS. MULLINS: Cloverbuds are the young ones.
10	MS. WEBB: Yeah. The I'm sorry; the
11	Cloverbuds are 5 to 8, the juniors are 9 to 14, and
12	the seniors are tail-end 14 up to 19 years old. And
13	let me just mention that my team leaders I have 27
14	in the county; 4 of those went to college on full
15	scholarships from the 4H program, so there is support
16	for those kids even after they leave their elementary
17	and high school campuses.
18	CHAIRPERSON COFFMAN: Thank you.
19	MS. MULLINS: And I will add to hers, she also
20	took a team, a WHE team, a wildlife habitat and
21	education team to West Virginia, representing Saline
22	County, and placed 5th nationally, so
23	MS. WEBB: We have strong volunteers and strong
24	leaders.
25	CHAIRPERSON COFFMAN: Ms. Smith.

21

22

23

24

25

MS. SMITH: First, just a comment that your passion for the community of Paron is evident and I actually have several friends that had worked at the Paron School District and all loved it and talked about the community, in great lengths at times. My concern kind of piggybacks on some of Ms. Coffman's The statement in the application about we questions. consider 50 students to be the minimum number of students needed to be financially viable, and knowing that Paron closed with around mid-60s as far as the number of students, I have a hard time thinking that you'll be able to pull all 60 of those kids back, 50 to 60 of those kids back, knowing that you have about 9 to 12 students in that community in that grade level. And also considering that parents would have to make the choice if they put their child in that charter school that their primary students are going to an online learning system versus, you know, face to face. MS. MULLINS: In part. MS. SMITH: Huh? MS. MULLINS: In part. In part. In part. But the core MS. SMITH:

23

24

25

guess I need to hear more about how confident you guys are about really being able to pull 50 elementary students back to the Paron school.

MS. MULLINS: I believe it's possible the first If we can get them the first year, the numbers will grow for the next year. It is not our intent to pull from elsewhere. We're trying to serve our community. I have had phone calls from people from outside the area, asking, because it's an environment that they want their children in. So I think the unknown for us are those that we aren't looking at getting that we will get. But considering, again, the K-5 and the numbers that have already left that are willing to come back, the ones that are still living in Paron that are willing to come back to the school, plus the elementary -- the preschool kids that we can bring in, I'm pretty confident we can get the 50. It's just going to be close. And I do believe that we will be in a much better position the second year when it's a matter of getting additional kids that come in and having the word-of-mouth of, "Gosh, this is what we got to do; this is what we've done. What did you do today?"

CHAIRPERSON COFFMAN: Mr. Rogers.

MR. ROGERS: Yes, ma'am. I just have a few more

questions on some things. First of all, on the transportation I noticed that you said you were going to work on agreements and you were working with some churches?

MS. MULLINS: Yes.

MR. ROGERS: I just -- I kind of wonder about the liability issues there.

MS. MULLINS: That has become our problem. One of the --

MR. ROGERS: I live in Saline County, so I know the roads that they'll be driving on, so that's why I was asking.

MS. MULLINS: Yeah. And that has been problematic in creating those transportation -- we may have to go get Clovis after all. The 4H has a bus called Clovis that is available to us. So it may be that we find that we have to find points, very much like Perryville does and Bryant does, as far as picking a spot and parents bring their kids to those spots and we pick up at those spots.

However, you may be familiar with Second Chance
Ranch that's run by Perry Black. It is within our
school district, and prior to consolidation they
brought kids to the Paron campus. And I have been in
communication with them, and when they have students

that fit the age range that we have they are very interested. Because, apparently, they have met recently with Bryant trying to figure out better options for them having a smaller campus and more direct attention to the kids, especially because of their situations.

So we have not -- no, we have not resolved the situation on transportation. One of the reasons we requested the waiver is so that we could work that out. And, again, it may be that we're looking at providing that for ourselves.

MR. ROGERS: Okay.

STATE REPRESENTATIVE GATES: If I could, I'd like to address the Second Chance Ranch. I deal with them very closely. As you know, DHS deals with some of the -- some children that have come out of some very, very scary situations. And going out there -- I do go out there on a fairly regular basis. We're taking kids -- some of these kids that are wanting to escape in life because they come from families that they've seen some very tragic things that nobody should have to see and we're putting them in a school district that they can just almost escape to and is not the best environment for them. And trying to find another place, other than our largest school

1 district -- because these are kids that many of them have very many emotional and social needs that need a 2 smaller system so they don't just disappear. 3 that's part of the challenge with Second Chance Ranch 4 5 is they deal with kids that need that smaller environment. In fact, I was -- have been talking --6 7 even if they went to Perryville, somewhere that wasn't so large. When they lost Paron -- and, of 8 9 course, if they got through the 5th grade it wouldn't help the majority of the kids that they have, but 10 11 that is a consideration that the state has to deal with, kids that are in their care. Because if we 12 13 don't take care of them on the younger end, the older they get and the more that those needs aren't met the 14 15 better chance that we have of those challenges in the future that cost the state a whole lot more money 16 than some of them on this front-end. 17 So I think 18 that's a consideration that we need to look at. don't know how many they have right now; I'm thinking 19 they have between 20 and 30 kids right now, but they 20 21 are growing. And if you've never had a chance to go 22 out there it would be worthwhile for y'all to see, 23 because those are special needs kids as far as their 24 environment that we need to consider, and I think the 25 charter would be ideal for those kids.

	<u> </u>
1	MR. ROGERS: I have a question because wouldn't
2	you have to have a lottery process too though? So
3	MS. MULLINS: Yes.
4	MR. ROGERS: what happens if only half of the
5	kids of that Second Chance Ranch got admitted and the
6	other half didn't? Wouldn't that pose additional
7	problem too, as far as the transportation was
8	concerned?
9	MS. MULLINS: It might be. And I don't mean to
10	be flip when I say this, but that would be a
11	wonderful situation for us to be in since we're
12	discussing the need for
13	MR. ROGERS: But
14	MS. MULLINS: I do understand.
15	MR. ROGERS: I knew you would. But if you were
16	still struggling with how the transportation would
17	work I could see it would be a good and bad problem
18	for you to have with the transportation.
19	MS. MULLINS: Yeah.
20	MS. WEBB: In reference directly to Second
21	Chance Ranch
22	CHAIRPERSON COFFMAN: Microphone, please.
23	MS. WEBB: Oh, I'm sorry. In reference to
24	Second Chance Ranch, they provide their own
25	transportation for their students. Those students

	45
1	don't have not in the past, nor do I I would
2	foresee them getting on public transportation. And I
3	know that they have more than one van in their
4	facility, so
5	MS. MULLINS: He's talking about the lottery,
6	about positions for the students within the school,
7	if there were we had too many.
8	MR. ROGERS: Right.
9	MS. WEBB: Right. But at Second Chance Ranch
10	specifically you asked
11	MR. ROGERS: Well, I was just wondering if that
12	because what you were saying about they would
13	hopefully have all those students there and then only
14	some of them get in and some who don't then Second
15	Chance is busing to Bryant and the charter, if the
16	charter passed? I guess that's
17	MS. MULLINS: That yes.
18	MR. ROGERS: what I'm trying to and then,
19	plus, I go back to the .75 special ed. teacher. That
20	comes back around that it's only .75.
21	MS. MULLINS: Either that or they could take
22	advantage of our learning center and they could be
23	charter online students and participate in the
24	learning center on campus and not be part of our
25	charter. I'm just saying, there are a lot of

opportunities for us to work with.

1

21

22

23

24

25

Okay. But that is one of my MR. ROGERS: concerns is the transportation thing, and I can go ahead -- unless somebody else wants to kick around a little bit. But I have another one concerning, just since we're talking, child nutrition. I was noticing that we have a budget of 60 kids but only \$6,000 for child nutrition, so I'm wondering how that's going to work. And I noticed that you're -- in the application it talked about the Farm to Table thing, program that you were talking about. I think I read that in there. But I was wondering how that comes into play with child nutrition. What guidelines does that have? Because you will have to follow the child nutrition guidelines.

MS. MULLINS: Absolutely, just as we have had with Head Start. And please understand that since we have the Head Start contract it subsidizes some of our costs in having the kids at the school. And since part of our program is to have the Farm to Table -- and we have a local veteran at the Old Crow store, Damon Helton, who is going to help us facilitate some of that. He will also be a learning opportunity for the kids as far as small business, how one goes in procuring produce and goods for the

store. But -- and keep in mind, we're also going to have, and have begun, the gardening on the campus that will also be utilized for the lunches. We have done that in small part from the start.

MR. ROGERS: I'm -- so --

MS. MULLINS: Your concern is the amount of money involved?

MR. ROGERS: That, and to make sure that we were following the child nutrition guidelines for the students that were there. Because I don't know enough about the Farm to Table; that's why I was asking. But I think, if I'm understanding you, your Head Start has enough money in it that you can subsidize what you're going to need for the 60 kids at the charter school, but you only budgeted \$6,000 for child nutrition. Is that what -- did I misunderstand? Was that what you were saying?

MS. MULLINS: No. We are very confident -- if there is any part of this program that we are confident in, it is the ability to take care of the kids' nutrition and do it at a cost that seems probably too small. But we managed quite well last year with Head Start. We had to abide by your guidelines. We actually had some special needs students that we had to provide calorie count, carb

	40
1	count; they're Type 1 diabetics. We also had a
2	nutritionist working with us this year to help us
3	even hone that down a little bit more.
4	MR. ROGERS: Okay.
5	MS. MULLINS: So, no, that is one thing that
6	we're we've got no concern on.
7	MS. BOYD: I think I might be able to help just
8	a tiny bit. Child nutrition is currently they
9	currently have a program with Farm to Table, so that
10	part also has regulations that go along with it and
11	they can work with them to make sure that their Farm
12	to Table follows the Farm to Table that's a part of
13	child nutrition.
14	CHAIRPERSON COFFMAN: Ms. Mullins, have you been
15	working with the Bryant School District? Have you
16	been in conversation with Dr. Kimbrell or anyone else
17	on his staff?
18	MS. MULLINS: Well, my last communication was
19	yesterday. But in reference to I mean, our
20	biggest conversations have been concerning
21	CHAIRPERSON COFFMAN: I'm sorry; if you'll get
22	to the microphone.
23	MS. MULLINS: I'm sorry. Our biggest
24	conversations have been, well, recent. They've been
25	any comments or suggestions he might have where the

charter was concerned. And, again, he was the one that brought it to us initially, asking if we were interested.

CHAIRPERSON COFFMAN: I just wondered if there was any conversation about transportation. He's already running buses on that route, all over Paron, and I just wondered if there was any collaborative conversations about possible transportation.

MS. MULLINGS: No, there hadn't been, but certainly talking to him or Mr. Farmer would be possible. I hadn't really considered it but that would certainly be a possibility.

CHAIRPERSON COFFMAN: Are there any additional questions from the Panel? Dr. Saunders.

DR. SAUNDERS: I wanted to take some time to go through some of the requested waivers and just seek some clarification and possibly some cleanup.

Looking at the first set of waivers dealing with the superintendent, licensed employees, licensure waivers, but then it gets down in 6-15-2302 and that is dealing with the business manager. And I'm curious why that one in particular is a requested waiver?

MS. MULLINS: Being as small as we will start out, our intent was utilizing both the board as the

reviewer of the financial issues and having an 1 independent accountant that handled the bookwork for 2 us so that it wasn't something that we had to have a 3 fulltime person for. 4 5 DR. SAUNDERS: So I quess in that case would the board approve all expenditures? 6 7 MS. MULLINS: Yes. DR. SAUNDERS: Would that possibly pose some 8 9 timeliness issues, waiting for the next board meeting before certain expenditures can be addressed? 10 I wouldn't think so. 11 MS. MULLINS: I would think if there was an issue that needed to be 12 13 addressed that a board meeting could be called for that purpose. Otherwise, I would anticipate that it 14 15 would be routine expenditures that could be handled on a monthly basis. 16 17 DR. SAUNDERS: Okay. Continuing on, one that I 18 have a big concern about is the waiver on 6-18-1001 and the following laws, and that is referencing 19 20 student services including guidance counseling, 21 career counseling, suicide prevention; the list is 22 very long. And I'm wondering why that would need a 23 waiver? 24 MS. MULLINS: We will have counseling services 25 available to the students. And it may have been the

20

21

22

23

24

25

purpose of the request for the waiver that there not be an additional expenditure expected. And I realize that the waivers are an important issue in the issuing of a charter and the concern over the running of the charter. And I quess part of -- leap of faith is a bad word, but our intent is to provide everything necessary for these students, to keep an eye on them and provide the monitoring, the performance evaluations so that we are aware of the problems a child might have. And if they need to be directly addressed on a certain issue, then that would be the intent of our school. I'm sorry. A lot of the things provided in there would also fall under some of our U of A/Extension Service services in being able to guide, mentor, develop the students and give them an opportunity to feel comfortable being able to voice concerns. In a large situation that often doesn't happen; it's often missed. Because of the size that we're working with, we would hope that wouldn't happen or would be less likely to happen.

Is your concern that we wouldn't be offering those services and, therefore, the concern for the waiver?

DR. SAUNDERS: Yeah. I think within the -- well, the concern would be that within that law those

services are required to be provided. And so as a panel if we were to grant that waiver, essentially, even though we say "intent," but we could not insure that those students would be receiving those services if the waiver was granted. And that has great concern to me.

MS. MULLINS: I think I can speak on behalf of the Trust and say if that is of concern we will remove that request for that waiver because it is our intent to provide those services. And it may not be by one individual; it may be by multiple individuals that have a part in the process of the child's plan.

DR. SAUNDERS: Okay. So let me go the other direction on that. Would you be more comfortable with leaving that in but only as it applies to your alternative learning environment? Which I think you've asked for waivers in other areas for the ALE. And there are some -- there is some ALE language within that section of code, so I think you probably would want to retain the waiver specifically to ALE.

MS. MULLINS: Yes. That would be fine.

DR. SAUNDERS: May I continue?

CHAIRPERSON COFFMAN: Yes. I think I'd just like to add one point of clarification to Ms.

Mullins, is our intent is not to make this difficult.

MS. MULLINS: I understand that totally.

CHAIRPERSON COFFMAN: Our intent is to -- we are tasked with making sure that Arkansas students are provided the best quality education. And so with that, it's to make sure that you can be a viable school in the state of Arkansas. And so we would be remiss if we had not gone through detail by detail to make sure that everything is in place to insure that you're an accredited school for our students. And so that's the intent that we have. I just want to make sure that you know that, as we go through these. It's just part of the process to insure that students are in the right places.

MS. MULLINS: And we appreciate that, I mean, going into the detail. Again, we are not served by a large box educational group. We have been grassroots in the past. We are aware that we need guidance in a lot of compliances and intend to seek that. We just want the opportunity to try. And I realize that in even making that decision to give us that opportunity that you have to have a concern for the students that we would be bringing into the situation, and then saying, "You didn't cut it." Our kids have already been through that. They've already been dealt some pretty stiff blows. But they have come back to us

1	and said, "We want to come back home. We want to
2	have an opportunity here." And we have put together
3	the best educational prospect that we can. And,
4	again, the Community Trust is willing to help
5	subsidize it until either we can make it or see that
6	we can't. But I think our children are worth the
7	effort.
8	CHAIRPERSON COFFMAN: Well, we're just trying to
9	help you think through the process so that you can.
10	MS. MULLINS: I understand that and appreciate
11	it.
12	CHAIRPERSON COFFMAN: Dr. Saunders.
13	DR. SAUNDERS: Yes. The next one, I think this
14	would be for Legal. It's concerning the waiver on 6-
15	17-2203. I don't know, is that possible to even
16	waive?
17	MS. DAVIS: I believe so. Hang on one second; I
18	have a lot of notes on this page.
19	DR. SAUNDERS: Okay. I mean, I think there are
20	other laws that would
21	MS. DAVIS: Yeah, there are. I actually have a
22	whole lot of notes on other things to kind of
23	effectuate some of these waivers, whenever you're
24	ready for me to do so, and that is listed as one of
25	them.

	55
1	DR. SAUNDERS: Okay. Okay. I'll wait. Were
2	you going to address 6-14-427?
3	MS. DAVIS: I was.
4	DR. SAUNDERS: And 6-42-01?
5	MS. DAVIS: Yes.
6	DR. SAUNDERS: Okay. I'll wait on that one. I
7	had just one other area here to clarify. I noticed a
8	request on waiver 6-17-201 dealing with personnel
9	policies, as well as 6-17-2301 dealing with written
10	policies. But when it came down to at another
11	point the request was only concerning the website
12	posting of compensation but saying that the website
13	posting of the other criteria would be in place,
14	including all the policies. And so I was really
15	confused on if there's a waiver from having the
16	policies why a specific waiver to the website posting
17	that would require you to post the policies? If that
18	question makes sense.
19	MS. MULLINS: I am not familiar with that one
20	being requested, and I don't know of any reason we
21	would be concerned about not posting anything,
22	considering being involved with our water
23	authority, FOI is we would be required.
24	DR. SAUNDERS: Well, I think, if I can just
25	speculate here but I assume with the multiple

1	waivers from licensure and other things, such as
2	teacher salary schedule, things of that nature, and
3	then the pieces that are required to be posted would
4	include some of those things that you've already
5	requested a waiver from I guess my question is:
6	are you going to have policies in general, aside from
7	teachers salary schedule, and post those on the
8	website?
9	MS. MULLINS: Yes. I mean, we will even have
10	student policies posted on the website. The student
11	handbook will be on the website.
12	DR. SAUNDERS: Okay. I'm not I understand
13	fully what you're saying. I'm just not clear myself
14	on how those waivers then should look, which ones
15	should still be applied for and which ones shouldn't.
16	And I'll defer possibly to Legal later on that one.
17	So that's all I have for now.
18	CHAIRPERSON COFFMAN: Dr. Gotcher.
19	DR. GOTCHER: Ms. Boyd, may I ask a question of
20	you and possibly Ms. Davis? Looking at the
21	application in its entirety, I see there's still some
22	remaining concerns. Can you describe the support
23	that you and your office provided
24	MS. BOYD: Uh-huh. So
25	DR. GOTCHER: the Paron charter?

24

25

MS. BOYD: We did the internal review -- well, after we -- after they put in a letter for intent, we held a workshop to go over the application and everything the application was requesting. And they had opportunity to ask questions, like all other applicants. We received the application; we reviewed it in our internal review; then we sent the application back out with things that we would like for them to clarify; they returned with responses; and then after they returned with responses -- no, sorry -- when we sent out our questions from the internal review committee, at that point we scheduled -- we did schedule a time for us to talk about the application and I think we spent about 30 or 45 minutes going over what the review committee was trying to clarify. And then after that, they returned their responses and then that's pretty much the end of our technical assistance. DR. GOTCHER: So the remaining concerns that we see in the application you've addressed with them at this point or is that --MS. BOYD: No. The remaining concerns we did not have the opportunity to address with them. DR. GOTCHER: Okay. Okay. And, Ms. Davis, I guess a similar question, some of the concerns about

the waivers and so-forth that have been addressed,
have you and your team been able to work with the
applicant in addressing some of these questions?

1

23

24

25

MS. DAVIS: Well, like Ms. Boyd said, we go through the internal review; we send them back comments; they have an opportunity to respond; and then we provide a final. You know, I have not been requested to ask -- or to provide any additional, and Ms. Boyd hasn't notified me that they had any additional questions. But that's our standard process, is they do get an opportunity to respond.

Sure. All right. Thank you. DR. GOTCHER: Mullins, thank you for, as it was said earlier, your passion. And the history of the Paron School District and its closure is well documented; it certainly made a huge impact. And that's one of the struggles that I have as an employee of this department is how many of our laws impact communities. And while I support the laws, I also support the communities. And you used a term earlier in your presentation that I wrote down, you used the word "reboot." And one of the things that the law provides is an opportunity for an open-enrollment And so while the opportunity is there, charter. while there's also the laws that are in place

25

regarding school consolidation, many times those collide. But I think the reboot, it was an interesting word and I think the challenge I'm facing internally right now is just the capacity and the quality of this particular application. I think the spirit is there. And so I'd like to ask just a couple of questions, just a deeper dive so you can help me and the Panel on the support of the community. One of the things that I found encouraging was the potential for mentorships within the community. I realize there's not any formalized agreements at this point, but maybe we could talk a little about the mentorships and how -- of course, in the first year, if we do the K-4 or K-5, however the application is designed, can you talk a little bit more about the potential for the mentorships? Because I think that's a strength that I would be encouraged to explore deeper. So maybe you could address that.

MS. MULLINS: Well, we have a presence in the community of Game and Fish and they have -- even starting in Head Start, they come in and provide programs for the children. Our local specialist with Game and Fish is willing to work with the kids.

Again, we have to go through the whole process with

Game and Fish and it would have to be of a certain age --

DR. GOTCHER: Sure.

MS. MULLINS: -- before they would provide that. But we have them available. We also have the foresters with Green Bay and Deltic that we have the ability to choose sites that the kids can study the growth of the trees and the patterns and how that's to work. We have -- actually, we had an electrician that was working on our fan in the gymnasium who commented on how he couldn't find young people 18 to 25 that were skilled in his craft and he would more than welcome the opportunity to come in and provide a mentorship for students that were interested.

Whether the child decided to go into being an electrician or not, they could sure earn a nice wage while they were going through college.

DR. GOTCHER: That's right.

MS. MULLINS: We also have a local plumber who has acknowledged the same thing. And the only reason he's able to continue his business right now is his son came into it. But they stay quite busy themselves. In the farther reaching community, we have, again, the Old Crow store with the farming aspect there and the mentorship on the farm there.

2

16

17

18

19

20

21

22

23

24

25

We also have a rather well-known knife artisan in the community. We have several crafters of different kinds that are a dying breed. There are just a lot of opportunities. And, again, part of the opportunity will come through the U of A system and some of the specialists there that will allow the kids to join. There is -- I'm sorry. There is the research stations that welcome the students in to participate in those.

MS. WEBB: For the mentorships for some of the younger grades, we -- am I okay with the mic? Okay. The younger, the Cloverbud groups -- and the reason I keep going back to 4H is because their philosophy on teaching young students is to create productive adults and citizens. And I feel like for Paron that fits our already -- our mission statements that are already in place. So for the younger ages, the programs that we would access through U of A for those mentorships are specifically designed for those age groups and those volunteers that work within those programs are trained to work with those age So locally we have a program that has offered their services to come out and set up beehives to teach that whole process. Because one of the things that's lost in young people today is where

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

the roots are, where does the food come from, where does -- where did that building start. And so we have volunteers that work specifically in areas that we hope to have on our campus. I mean, the gardening, we have a master gardeners program. have a master gardener in our community willing to work with those kids, and the beehives for young children. So until we have those older grades in place, we do have specifically trained volunteers that are willing to come in and do specific work in specific areas. And most of those are through U of A, so the background checks will obviously be in place and the training hours are already done and they're approved. So we're just accessing their talents.

DR. GOTCHER: Thank you. I believe the potential certainly is there, and I'm certainly impressed with the vast array of skill that could be afforded to the kids. I'm just still working through just the capacity of the community to be able to support the number of students required to remain a sound financial institution. So I'm still working through that. Is there -- are there any other comments from any other of the guests that are here that can help our Panel understand the strength or

22

23

24

25

the soundness of the potential school in this case? I will say my daughter is a junior, MS. WEBB: so obviously she won't have a direct benefit of the courses at Paron. But had I been given this opportunity when she was younger, knowing that my kid is one of the ones that doesn't have the space to sit on the school bus so I'm driving her back and forth, and to know that there are kids that are moving to these larger schools that are overwhelmed -- I mean, I know Perryville to you guys is not a large school. But it is a large campus compared to what we had, even K through 12, in Paron. The kids that are moving to those schools, they're having -- they're struggling because they're lost. They're not a part of the Perryville community. They're not a part of So when they get there, the Bryant community. they're on their own. And there are a lot of parents that even though their kids are established with a teacher there, they don't have that social support. And they have a willingness to pull them, bring them back to Paron, bring them back home at the younger ages before they are a freshman or a sophomore in high school. Because, obviously, once you get to a high school grade and you're set in your school that's where you want to be; that's where you want to

graduate. As a younger student, as a mom I would
welcome and I know other parents as well are
hoping, praying that we get this school so the 4th
graders or 3rd graders can come back. And when we
say we don't want to pull from the other schools, for
me the thought is primarily those upper grades. We
want them to finish where they're comfortable. We
don't want to disrupt what they have. But a lot of
our kids have not adjusted to where they are right
now. So they're going to be in an environment, a new
environment with us, or they're going to be in an
unhappy environment where they're at. So there's a
willingness for those students to come back.
DR. GOTCHER: Good. Thank you. That is all
now, Madam Chair.
CHAIRPERSON COFFMAN: I have a quick question.
Does the Community I forget what you called it
if I made a note of that the Community
MS. WEBB: The trust.
CHAIRPERSON COFFMAN: The Community Trust, yes.
Are you financially sound enough to support the
district in its first year or the school in its
first year?
MS. WEBB: We currently have a fair amount of
money in the account. We also have community

supporters who have a willingness to provide support along the way as well. And we have community members that have -- I don't really know how to say it without being tacky -- but they have come there to get away from town. So they're in Paron to get away from town, and they are financially able to offer that support. They don't have a willingness to commit before the school is in place. But the money, the efforts, the support is there. We just have to have, you know, your support in order to get those finances in place.

CHAIRPERSON COFFMAN: I spent the first 20 years on a gravel road.

MS. WEBB: So you know.

MS. SMITH: And this may be a question for Legal. If we were to approve their charter today, can we do it contingent upon certain factors to come back in the spring and prove? So if we were able -- if we approved it could we say contingent upon the number of students enrolled, the securing of funds, or that there's evidence and proof of funds, you know, that they did -- they do have a minimum number of students that they have parents have actively enrolled? I mean, something to show -- I mean, can we do that? Can we approve something contingent on

something and ask them to come back in the spring to show?

MS. DAVIS: I mean, you can approve it with contingencies. I would just be sure that you think about how those contingencies -- like when they're going to have their lottery. Maybe they don't know how many students because their lottery is not going to be until June. And then at that point what happens to -- you know -- if they only have 50 students and you've said 60, and then those parents and what their options -- so I would just make sure that you -- kind of caution that you give them enough time to meet the contingencies but not put the community or the students in a bind by doing it so early or so late or something like that. So I would just, you know, be mindful of that.

MS. SMITH: Right. I guess, just a comment -- I mean, I just have so many questions but I understand the predicament they're in as far as they've not been granted it, so a lot of the things that they would do they can't do until they're granted. But I have so many questions pertaining to, well, what if, what if, what if. So I'm just struggling there.

MS. BARNES: While I appreciate Mrs. Smith's statements just a moment ago, I do want to be very

1	clear that I am uncomfortable with precedent setting
2	of contingencies. So I don't want it to be unclear
3	if the should the vote go in any direction I
4	wanted to make sure that I stated that one. Because
5	we do have to be aware that how we determine these
6	applications and the outcome then that precedent is
7	set for from this day forward. So I'm a little
8	uncomfortable with contingencies.
9	CHAIRPERSON COFFMAN: At this time, Ms. Davis,
10	if you would help us clear up all waiver issues.
11	MS. DAVIS: Okay.
12	CHAIRPERSON COFFMAN: And if it's appropriate,
13	Ms. Mullins is there to say yes, no. And, Ms.
14	Mullins, your response is part of the record.
15	MS. MULLINS: Yes, ma'am.
16	MS. DAVIS: I will attempt to help you clear
17	them up. Now keep in mind when I review the waivers
18	I look at them as like can they, not should they or
19	how does it fit with their thing. So with that
20	Okay. So on page 1 under Personnel, I have the
21	clarification that under
22	CHAIRPERSON COFFMAN: And, Ms. Davis, which
23	document are you on?
24	MS. DAVIS: I'm looking at this one that's kind
25	of color-coded.

1	CHAIRPERSON COFFMAN: The legal review?
2	MS. DAVIS: Yes.
3	CHAIRPERSON COFFMAN: Okay. Thank you. That's
4	helpful.
5	MS. DAVIS: Okay. So under Arkansas Code 6-17-
6	1501 et seq., I have that that's going to be with the
7	exception of 6-17-1504 regarding the teacher
8	evaluation.
9	MS. MULLINS: With the exception of. Yes.
10	MS. DAVIS: Okay.
11	CHAIRPERSON COFFMAN: And, Ms. Mullins, if
12	you'll speak into the microphone for the record
13	please.
14	MS. MULLINS: Yes, I agree.
15	MS. DAVIS: Okay. I also have that they need a
16	waiver of class size in order to effectuate their
17	intended purpose, which is the Standards of
18	Accreditation 10.02. I would really prefer that they
19	state the class sizes that they intend to have for
20	kindergarten; right now, it's 20-to-1. For grades 1
21	through 3, it's 23 average but 25 max to one; 4 to 6
22	is 25 average, 28 max; and 7 to 12 is 30-to-1. So I
23	would need to clarify what would be their maximum for
24	each size. You're welcome to look at my chicken
25	scratch.

	69
1	MS. MULLINS: And those are the requirements
2	currently?
3	MS. DAVIS: Yes.
4	MS. MULLINS: Kindergarten would be the request
5	of 25, and the 1 through 3 would be 30, the same. We
6	would
7	DR. GOTCHER: To 25 in kindergarten?
8	MS. MULLINS: 30 on the 4 to 6 because that
9	would be as far as
10	MS. DAVIS: And then are you going to maintain
11	
12	MS. MULLINS: Yes. Yes.
13	MS. DAVIS: Okay.
14	CHAIRPERSON COFFMAN: Ms. Pfeffer.
15	MS. PFEFFER: Yeah. And there may be several
16	clarifications. And I guess I need to so on a
17	waiver of class size, does that extend to special
18	education also?
19	MS. DAVIS: No. This is K through 12 would be
20	individually; they can request individual components
21	or not. But ALE and special education would still
22	need to maintain their class sizes.
23	MS. PFEFFER: Okay. Would that be extending the
24	class size with a teacher's aid in the classroom also
25	or just extending the class size for one teacher to

So in a K-5 school where most -- you're going to have

two teachers and you're going to combine grades, so most likely you're going to put your kindergarten and 1st grade together, possibly even your 2nd grade. So you would be restricted to your lowest number. So if you said kindergarten was 25, your K-1 together would be 25; you couldn't go to 30. Am I correct?

Jennifer, is that -- I'm sorry.

MS. DAVIS: Yes.

MS. SMITH: Ms. Davis. Okay. And so just trying to think that through with you -- so you would in essence probably be asking for the cap of 25 for K and 1. Are you -- were you thinking of having 2nd grade involved too, or are you thinking a K-1-2 and a 3-4-5 teacher or how were you looking at that?

MS. MULLINS: Initially, for the first year, yes.

MS. SMITH: Okay.

MS. MULLINS: And that -- yes.

MS. SMITH: Okay. So if you were thinking K-1-2 together you would be capped at 25. Just trying to make you see that. And then your 3rd, 4th and 5th you'd be capped at 30, and that gives you an enrollment of 55 students.

MS. MULLINS: Okay. But we requested the -- oh, I did say 25.

	//2
1	MS. SMITH: So I'm just trying to talk you
2	through that so you
3	MS. MULLINS: Yes.
4	MS. SMITH: you're not counting by grades.
5	MS. MULLINS: If obviously we're speaking about
6	two teachers, and there's going to with the
7	assumption that we're talking kindergarten, 1st and
8	2nd, yes, it would have to be a cap of 30. And then
9	4th, 5th 3rd, 4th and 5th would be a cap of 30 for
10	that teacher.
11	MS. SMITH: Okay. And so you would be looking
12	at an average of maybe 10 kindergartners, 10 1st
13	graders, 10 2nd graders, with the cap. Okay.
14	MS. DAVIS: Do you want to modify your
15	MS. MULLINS: Yes.
16	MS. DAVIS: K to 30? So your class size
17	okay. So the waiver is for kindergarten to 30, 1
18	through 3 to 30, and 4 to 6 to 30, and 7 to 12 will
19	remain the same?
20	MS. MULLINS: Yes.
21	MS. DAVIS: Okay. I did oh, and, Dr.
22	Saunders, you had asked about 6-17-2203, about
23	minimum salaries. That can be waived. It goes along
24	with the 6-17-2403, along with Sections 6 and 8 of
25	the requirements for personnel policies. And we have

	73
1	done it in the past.
2	DR. SAUNDERS: And that's regarding the 2203?
3	MS. DAVIS: Yes.
4	DR. SAUNDERS: So, okay. If I can just follow-
5	up with you on that one. So my understanding is that
6	is setting the rate for minimum wage. And would that
7	not be contrary to possible labor laws?
8	MS. DAVIS: We've done it in the past. I mean,
9	most a lot of our charters have these. And what
10	it is, it's not so much that we allow them to
11	because, obviously, we can't agree to them to violate
12	federal law, but it talks about the increase by a
13	percentage equal to the percentage increase of the
14	consumer price index. That's usually what I believe
15	that most of the charters are looking for the waiver
16	from.
17	DR. SAUNDERS: Thank you. Yes, that's what I
18	was looking for. Thank you.
19	MS. DAVIS: Okay. So on this waiver section on
20	page 2, there's a waiver requested of Arkansas Code
21	Annotated 6-14-427. I am uncertain what that is, and
22	I'm not sure if you meant that to be something else
23	or I'm going to need clarification on that.
24	MS. MULLINS: Because I can't help you with that
25	one, I would say we don't need it.

1 MS. DAVIS: Okay. So we can remove that one? MS. MULLINS: 2 Yes. Okay. So that would be removed. 3 MS. DAVIS: And then there was some discussion earlier on 4 5 Arkansas Code Annotated 6-18-1001 dealing with guidance counseling. And I was uncertain; there was 6 7 some discussion about whether or not they were going to use that or not. Did you want to keep that? I 8 9 know that we provided in the additional materials certain sections of the rules that you would need for 10 11 specific code, but I was not certain if that was 12 something that you were going to --MS. MULLINS: Our intent was for at least 13 initially to not be required to have a full-time 14 15 guidance counselor, that we were going to use 16 counseling services. And in lieu of walking astray 17 of the requirement, that was the reason for asking 18 for that waiver. But we will have counseling services, just not a paid employee. 19 20 Well, it's as much about CHAIRPERSON COFFMAN: 21 pay as it is license. That's why there's waivers. 22 MS. DAVIS: One of the other questions I had is 23 whether or not their licensure waivers would apply to 24 core or non-core courses only. 25 MS. MULLINS: As initially we would be relying

	. •
1	on the provider of the online courses for the core
2	courses to have the certification for those teachers,
3	I believe we'd be safe in saying only in the non-core
4	courses.
5	MS. DAVIS: Okay. And then the last one I had
6	was you had requested this is the next-to-last
7	page, page 3, you'd requested a waiver of Arkansas
8	Code 6-42-01.
9	MS. MULLINS: I might have a little
10	clarification on that one, that because the problem
11	with the connections or other provider might be that
12	they don't have an Arkansas licensure, that we might
13	need to have that waiver in place for both core and
14	non-core, if that would create a problem.
15	MS. DAVIS: And that's fine just as long as you
16	know
17	CHAIRPERSON COFFMAN: Ms. Pfeffer.
18	MS. PFEFFER: May I ask that whether or not
19	you would then insure that they would meet Arkansas
20	qualified teacher requirements?
21	MS. MULLINS: Absolutely.
22	MS. PFEFFER: Okay. Thank you.
23	MS. DAVIS: That was going to be my question
24	too. Okay. So you'd requested a waiver of 6-42-01.
25	I am not certain what that is. I'm not sure if you

were maybe trying to get a gifted and talented waiver 1 or did you mean that to be something else? 2 MS. MULLINS: I'm assuming gifted and talented. 3 MS. DAVIS: Okay. So if you want a waiver of 4 gifted and talented, you'll need a waiver of 6-42-5 109, 6-20-2208(6)(c)(6), and also Section 18 of the 6 7 Standards and the ADE rules governing gifted and talented program. 8 9 Then I would request that. MS. MULLINS: 10 MS. DAVIS: Okay. So that one for gifted and talented. And the last thing that I did notice --11 and, again, this is my -- I don't know how they're 12 13 doing it, just whether or not they can. I did notice that there was no waivers requested for school boards 14 15 and that is traditionally one that our charters get. 16 And they be willing to comply with, you know, all the other requirements; I just wanted to point that out. 17 18 CHAIRPERSON COFFMAN: Ms. Mullins? MS. MULLINS: That was a concern that came to us 19 late in the game and realized that because it was --20 21 the school board requirements were based on a 22 district that we obviously omitted those and 23 shouldn't have. Because, obviously, if we're not a

So you're requesting the

district those would not apply to us.

CHAIRPERSON COFFMAN:

24

25

waiver?

MS. MULLINS: Yes.

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: But just a little while ago when we were talking about the business manager and not having one and that the board would be approving all financial purchases, if there's a waiver from a school board what would the board of directors look like? And how would that work in them being the approver of all business transactions? I think that was already something I was a little bit unsure about. And so now if we're waiting the school board where does that leave us with that earlier agreed upon discussion?

MS. MULLINS: Our concern and the point of requiring a waiver had more to do with the election process because you don't have a district. You don't have -- the district is the State of Arkansas, so how do you conduct an election? And maybe what I need to say is any portion of that that would involve specific boundaries and having to do with elections, that's the only thing that we're concerned about. We don't want to not require our board to have appropriate training and appropriately composed and have to meet certain requirements as far as

1	understanding their duties. I mean, as it is right
2	now, the folks on our board are business people,
3	occupational therapists, legal. We have a wide
4	variety of folks on there, as do most boards. But,
5	again, our concern was in the election process.
6	MS. DAVIS: Okay. So we can add the school
7	board. Now keep in mind that charters are required
8	to have a board, but most of the statutes in 6-13-601
9	et seq. and 6-14-101 et seq. do, as she stated, apply
10	to school districts and elections and how many
11	members of the board. But the charter laws do have
12	requirements for having a school board. So I have
13	that we are going to add 6-13-601 et seq., with the
14	exception of 6-13-622. It is a constitutional
15	requirement and cannot be waived. And 6-14-101 et.
16	seq., which deals with the school board elections.
17	Okay. That was all.
18	CHAIRPERSON COFFMAN: Is that correct, Ms.
19	Mullins?
20	MS. MULLINS: Yes. We'd be in agreement with
21	that.
22	CHAIRPERSON COFFMAN: Clarification from Dr.
23	Saunders.
24	DR. SAUNDERS: Go ahead. Go ahead, unless you
25	were done.

MS. DAVIS: No.

DR. SAUNDERS: Okay. I'm trying to clarify back on the 6-18-1001, the student services. So I think I got a little confused on that. So am I hearing now that, for example, 6-18-1005 is requested to be waived in its entirety?

MS. DAVIS: Can I just offer one clarification? Okay. So 6-18-1001 et seq., along with a standard and a section of the rules governing public school student services, is only needed if you are waiving guidance counseling services or some portion in between. So if they -- so maybe it is more -- if they're only going to waive portions of it, then we will help them figure out which portions that they need if they are not going to be waiving guidance counseling services. So if they're going to provide them, maybe we just need more clarification from the applicant.

MS. MULLINS: And we have no intention of not providing the guidance services. So if our -- we don't want to waive guidance services; we just -- we're just -- the only concern was the position. And it may be -- I mean, if we have the opportunity to maybe review some of these with Legal and provide more clarification -- at the moment I would have to

1	say based on what is here that we don't wish to waive
2	guidance services; it's just the method that we
3	provide it.
4	CHAIRPERSON COFFMAN: But that would require a
5	waiver; right, Ms. Davis?
6	MS. DAVIS: Well, I mean, like what method will
7	you be providing it? That's kind of
8	MS. MULLINS: It will be a counseling service,
9	as opposed to an individual.
10	MS. DAVIS: Okay. So you don't want to hire
11	someone?
12	MS. MULLINS: Right.
13	MS. DAVIS: Okay. So in that instance you are
14	going to need a waiver give me one second here and
15	I'll tell you. Bear with me for a second.
16	MR. ROGERS: I guess I just want to say a
17	comment based off yesterday. All the waiver stuff
18	that we're talking about again today is kind of
19	getting me a little concerned. We've changed what we
20	what they originally asked for and we've got the
21	testimony also, but we keep going back and forth so
22	much that I can't even take enough notes to know what
23	they've asked for and what they've not asked for.
24	When did we when did you start the process of
25	doing the charter application? And I'm not trying to

	81
1	be ugly; just go with me a little bit.
2	MS. MULLINS: The beginning of 2016.
3	MR. ROGERS: Alexandra, how much have they
4	have they utilized you as much as they possibly could
5	within I mean, and I guess I may not have asked
6	that right. Did they just run out of time trying to
7	get it to the Panel today?
8	MS. BOYD: Could you say that one more time?
9	MR. ROGERS: I'm just trying to figure out if
10	all the resources that they had were utilized and
11	they just ran out of time or did they just not know
12	the questions to ask people or the people to ask.
13	Because one of the things I noticed in the testimony
14	today is that she mentioned that she'd been with
15	APSRC and I'm just wondering how involved you were
16	with APSRC, when did you find out about APSRC, when
17	did you start working with Alexandra to try to find
18	out if there's if we got more time to try to get
19	clarification on the waivers. Because like I think
20	they said I believe the intent is there for this
21	charter; I just don't know if we've got enough
22	clarification
23	MS. BOYD: Right.
24	MR. ROGERS: to know.
25	MS. BOYD: I think I think it is a case, for

the most part, that perhaps they didn't know what questions to ask, and through our communications together it wasn't clear to me that they probably needed a heightened level of technical assistance. I can't remember anything in detail about APSRC or when I mentioned it. I know that I always mention APSRC and Tripp Walter when I talk about desegregation analysis. But that's the only thing I can tell you for sure. I can't -- I can't recall anything specifically about discussing APSRC with them outside of that.

CHAIRPERSON COFFMAN: Ms. Mullins, you might want to address that as well.

MS. MULLINS: Yes. Our involvement with APSRC has not been as complete as we'd like it to be. We have made attempts early on in the spring and didn't make the connections that we needed to. In recent -- in panic mode, we have communicated with Tyler Barnett and the game plan is to be -- to join the membership so that we can proceed with additional guidance with them. If it's a matter of a decision being postponed and us clarifying some of this and getting that guidance and coming back so that we can answer the questions, we'd certainly be willing to do that. This is obviously very important to us. We

are not -- we are not Ms. Davis; we don't have a lot of the answers, and we know that APSRC has a lot of those answers for us. And until you're viable with them, some of those are -- that isn't an available resource, that is -- like I said, we have made that connection and we are on track to do that.

CHAIRPERSON COFFMAN: Ms. Davis.

MS. DAVIS: I just want to clarify for the record, I do not have the answers. But the rules do allow that, if you choose, that you may send this applicant back, table this decision and send them back for modifications and technical assistance and to hear at a later date, should you decide that's what you'd like to do.

CHAIRPERSON COFFMAN: Any other questions or comments from the Panel?

DR. GOTCHER: Not from me.

CHAIRPERSON COFFMAN: Then hearing none, I'll accept a motion. Ms. Smith needs time.

MS. SMITH: Okay. So since we don't like approvals with contingencies, which I understand -- I mean, I understand that -- but as a board, so if we -- if we approved without contingencies, if we just approved, we do have the authority to call them back in in the spring, prior to them opening, and ask

clarifying questions and making sure that -- I mean, some of those things that we're asking -- I mean, I understand as a non-educator basically coming up and trying to apply for an application of a school how some of this is -- I mean, I get that. I think there's a huge difference between what we're seeing today and what we saw yesterday as far as testifying. I think that -- I don't know; I'm pulled. I'm pulled on this. I'm really pulled because I feel like we have some -- a good -- like a good base of people who are ready to do something, but I'm still lacking the answers, so --

MS. DAVIS: Right. And I just again want to point out that if you grant a charter then they do go forward with, say, building leases, financial commitments. And then while we can call them back at any time, you have the full intent to call them back in the spring, then there is an impact if they have gone to the point of entering into all these commitments with the assumption that they will have a school if they may not be and you're kind of still putting them in a situation that they may or may not be able to -- you know -- it's kind of still a precarious situation.

MS. SMITH: Right. Well, to me the lease

1 agreement was really a non-issue because they have a school; they have a building. 2 MS. DAVIS: Well, but just other things. 3 MS. SMITH: Right. I guess my thing is are you 4 going to be able to get the student enrollment. 5 you know, by late spring I would think you would know 6 7 -- you know, if that would be an active thing I think you'd be working on, that you would know how many you 8 9 have coming; do you have the one-to-one or two-to-one ratio on technology by that point; have -- you know 10 -- have you secured money from the Waltons to do what 11 I mean, I think there are some of 12 you need to do. those decisions that could not be made unless we 13 voted yes today. I don't think she could go forward 14 15 and do some of the things that she would need to do 16 to answer the questions I have. I mean, that's my problem is if I say no today they have no way --17 18 MR. ROGERS: But I would say saying yes today and then bringing them back at a later day is just 19 like having a contingency because then --20 21 MS. SMITH: See, that was my work-around for 22 Annette. 23 MR. ROGERS: But then -- because if we are going 24 to bring them back up at a later date, then it's the

same issues because when they go out to the parents

25

or go out to get the transportation or whatever, they've got to have contracts to work, knowing full well they've got to come back before the Board again in the spring. That's just like a contingency too because then the parents are saying, "Well, I don't know if we can" -- I mean, "I'll wait till after the spring and see if they renew your charter." And so that would be -- so I don't know, Scott, if APSRC, how they --

MS. DAVIS: They did make a commitment that if the applicant was interested in their services that they could assist.

MR. ROGERS: So that means --

MR. SMITH: And I apologize; I haven't been here the entire hearing. Scott Smith with APSRC. So from what I understand from Mr. Barnett, we got the phone call yesterday, so we have not -- obviously, there were some capacity issues with the application is why we had not -- I think the concept is a very interesting concept. As I understand it, Dr. Kimbrell is onboard for various reasons. And we would be willing to sit down and visit with them and see if we could provide some technical assistance, if the Board wanted to take this matter under advisement, and then see -- but our only concern, I

23

24

25

guess, is I think you're obligated to address the application that's before you and it can't be rewritten at this point and stage. And so I don't know how much leeway we might have, but we would be willing to try and assist. I think this issue is very similar to the one that you looked at yesterday. We would hope maybe to see it come back up pretty soon also for more technical assistance in some ways. So if there's some way we could be beneficial, we're happy to do that. DR. SAUNDERS: Mr. Smith, did you say that your

first contact with them was yesterday?

MR. SMITH: Not the first contact. I think what I heard is that we'd been contacted in the last several days, and Mr. Barnett just indicated that we received the phone call yesterday. I think there was an initial contact way early in the process --

DR. SAUNDERS: Okay.

-- if I understand correct. MR. SMITH:

DR. SAUNDERS: Thank you.

As I've listened today, I can MS. PFEFFER: think of three communities with just in a few miles of my hometown, Dellaplaine, Biggers, Reyno, and Oak Ridge Central; all lost their school districts. of that happened while I was in high school, some in

1 the subsequent years, and so I had many conversations prior to my coming here with communities that have 2 lost their schools. And as I listen to you, I have 3 no doubt that your community is committed and I want 4 5 to say yes. My concern is with today's application. I honestly don't know what I would be approving for 6 7 sure; I have doubts, I have questions, and that's what has caused me concern. And so I would like to 8 9 see there be an opportunity for technical assistance and coming back, because I think some of the things 10 that weren't clear today are just a lack of 11 understanding of the law and what waivers to request. 12 And to be honest, when I look at those lists of 13 waivers and I go through and I try to read and 14 15 understand, it is a daunting task. And without legal assistance I think it's very, very difficult to put 16 together an application that has the right waivers 17 18 that match your intent and your ability to move forward as a school district. The number of teachers 19 and the class sizes and the budget, you know, that's 20 21 another thing, and I realize you've made some 22 modifications today. But, again, that's all based on 23 a budget where you've projected your revenue at 60 24 So those are just the lingering concerns I students. 25 have.

So I would like to -- and I know this didn't 1 work prior, but I would like to make a motion that we 2 table this. And if it's the appropriate motion --3 and they may have to help me out -- my intent would 4 5 be for them to be able to get some technical assistance and come back with the application. 6 So 7 that would be my motion, if that's appropriate. 8 MS. DAVIS: Okay. My recommendation is that if 9 you have them come back that you do so in the October meeting because they would not really have that much 10 11 time in order to get it back in time for September. MS. PFEFFER: And I feel like that the 12 13 application -- really, for me, the concerns hinge on the waivers. 14 15 MS. DAVIS: Right. 16 MS. PFEFFER: And so I think if they had the technical assistance with someone -- with -- if they 17 18 had the legal technical assistance I think that then they could bring back a stronger application and one 19 20 where we would not have these questions. 21 would -- that's my motion. MS. SMITH: So I second. 22 23 CHAIRPERSON COFFMAN: We have a motion and a 24 second to table for technical assistance. So time for discussion. 25

MR. ROGERS: So in the motion was it to bring -to come back in October?

CHAIRPERSON COFFMAN: Yes.

MR. ROGERS: Okay. That's the only question I have.

MS. BARNES: So my question, given the motion and second to table, come back in October; then in October would this mean that this applicant would be returning to secure approval to start up in the 17-18 school year, and would that be in time for them to take care of all of the necessary pieces to start up? I guess I'm asking both Legal and the Charter Office since it's coming in October.

MS. DAVIS: It could take theoretically until December by the time it goes through State Board approval, and that would be up to the applicant as far as whether or not they would want to continue and if that would be enough time for them to continue with the school year for 17-18 or if they want to at that time push it back. And keep in mind that when they would be coming back in October it would only be to address the information that had been corrected or received as a result of technical assistance. It would be the new stuff; it wouldn't necessarily be the full hearing.

1	MS. BARNES: That was my concern.
2	CHAIRPERSON COFFMAN: Okay.
3	DR. SAUNDERS: I just want to express my concern
4	with this in that I think that there are many issues
5	still unresolved. I know that technical assistance
6	will be sought and gone forth; however, at the same
7	time I would want that done quickly. I think it is a
8	very careful process and I think there's a lot of
9	work to be done and lots of back-and-forth that I do
10	not see it as getting to that point by October. And
11	so I think for that reason I would be opposed. I
12	think it's I think they have a great initiative; I
13	think they have great passion and everything else,
14	but I think that the amount of time that it would
15	take to build the application to the quality that it
16	needs to be would be beyond that deadline.
17	CHAIRPERSON COFFMAN: Ms. Boyd.
18	MS. BOYD: As a note, October being heard in
19	the October hearing means that I would need all their
20	written responses at the latest by October 6th, just
21	a little over a month.
22	DR. GOTCHER: Madam Chair?
23	CHAIRPERSON COFFMAN: Yes.
24	DR. GOTCHER: And to Dr. Saunders' point, that
25	was a similar comment I was going to make. While I

1	support the idea, support the initiative, feel like
2	they have some distinctiveness that would bring some
3	benefit to the kids of that community, I would hope
4	that the next application or the next presentation
5	would have the process of much time to be able to
6	bring a more quality application. So I don't think
7	October, just from what I'm understanding with the
8	support that both entities the Charter Office as
9	well as APSRC I don't think October allows for
10	enough time. So I would hope for much longer time
11	than that. I'm not sure what the calendar would be
12	for that. Anyway, we've got a motion on the floor
13	currently; right?
14	MS. BARNES: And a second.
15	DR. GOTCHER: And a second.
16	CHAIRPERSON COFFMAN: Any additional discussion?
17	Then I'll take a roll-call vote. The motion is to
18	table for technical assistance and to hear the
19	revisions in October. Ms. Liwo.
20	MS. LIWO: No.
21	CHAIRPERSON COFFMAN: Mr. Lester.
22	MR. LESTER: No.
23	CHAIRPERSON COFFMAN: Mr. Rogers.
24	MR. ROGERS: Yes.
25	CHAIRPERSON COFFMAN: Dr. Saunders.

MS. BARNES: Second.

CHAIRPERSON COFFMAN: Motion has been made by Dr. Gotcher and a second by Ms. Barnes to deny the application. Any discussion?

DR. GOTCHER: And just the encouragement that I would give is just make total use of APSRC as well as our Charter Office, because I think with their support at this time next year you're going to have a quality application with the best interest for kids for the 18-19 school year.

MS. MULLINS: Thank you for your consideration.

DR. GOTCHER: Yes, ma'am.

MS. SMITH: So just discussion, I mean, I don't think this charter faces some of the same problems that other charters face in the fact that they do have a building, they do have a school system, they do have basically a board already established, they do have outside partners who have already come in. I don't think they face the same challenges that other charters that come before our board, and I still would like to see the fact that they be given the opportunity to get more direct technical assistance and given -- because if we say no today, they come back in the fall, it's still another year; you're looking at two years. I think -- and I'm not

	95
1	surprised to hear that Dr. Kimbrell is for this. I
2	know of overcrowding issues in Bryant. I know of the
3	busing and the length of time students are on buses
4	coming from the Paron district into so, I mean, I
5	just to give them no opportunity to come for
6	technical assistance for this year and just the
7	challenges that they face I think would be possibly
8	unfair.
9	CHAIRPERSON COFFMAN: Any other discussion? The
10	motion is to deny the application. Ms. Liwo.
11	MS. LIWO: Yes.
12	CHAIRPERSON COFFMAN: Dr Mr. Lester.
13	MR. LESTER: Yes.
14	CHAIRPERSON COFFMAN: Mr. Rogers.
15	MR. ROGERS: No.
16	CHAIRPERSON COFFMAN: Dr. Saunders.
17	DR. SAUNDERS: Yes.
18	CHAIRPERSON COFFMAN: Ms. Barnes.
19	MS. BARNES: Yes.
20	CHAIRPERSON COFFMAN: Ms. Pfeffer.
21	MS. PFEFFER: Yes.
22	CHAIRPERSON COFFMAN: Ms. Smith.
23	MS. SMITH: No.
24	CHAIRPERSON COFFMAN: Dr. Gotcher.
25	DR. GOTCHER: Yes.

	96
1	CHAIRPERSON COFFMAN: Six-to-two, motion
2	carries.
3	If you'll take a moment to type in your
4	responses.
5	Ms. Mullins, in our process we will write a
6	written response as to why the panel members voted
7	that way. That document will be read aloud here in
8	just a moment and then it will be submitted as a part
9	of evidence into the State Board meeting for next
10	month.
11	MS. MULLINS: Is there I can speak to Ms.
12	Davis. Is there a method of requesting of the Board
13	a re-hearing prior to the end of the year?
14	CHAIRPERSON COFFMAN: Yes. At the Board at
15	the State Board meeting, the Board will review all of
16	the documents and they will make a motion to review
17	or not review at the next State Board meeting. And
18	then if they vote to review, then at the following
19	month they would have a hearing a hearing would
20	occur and their decision is final.
21	MS. MULLINS: Okay. Thank you.
22	CHAIRPERSON COFFMAN: You're welcome.
23	Ms. Barnes.
24	MS. BARNES: Yes. I voted for the motion to
25	deny the application at this time. While I

understand the passion and desire to restore
educational opportunities in the community, many
concerns remain unresolved. I share concerns
expressed by my colleagues regarding sustainability,
educational success, and critical components to the
start-up of a charter. At this time too many
responses are dependent upon "may," "we hope," et
cetera. And so I am unable to support approval
today.

CHAIRPERSON COFFMAN: Dr. Gotcher.

DR. GOTCHER: I also voted for the denial for the application at this time. I feel there is strong community support and the potential for a viable academic program for the students. But much time is needed for a more quality application to be submitted.

CHAIRPERSON COFFMAN: Mr. Lester.

MR. LESTER: I voted for the denial. It is obvious that the Paron community has a passion for providing an educational setting for their children. However, at this time, today, I am concerned about the initial start-up, the operations, capacity, and sustainability for educational success.

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: My heart tells me I want to say

1 yes, but my head tells me that the charter is not yet ready based on the application presented today. 2 CHAIRPERSON COFFMAN: Mr. Rogers. 3 MR. ROGERS: I voted no. While I do agree that 4 5 there are plenty of questions that still need to be answered, I would've liked to have seen the charter 6 7 have the opportunity to get the technical help they need. And I hope they will work to improve the 8 9 application and bring it back next year. CHAIRPERSON COFFMAN: Dr. Saunders. 10 11 DR. SAUNDERS: I voted in favor. I thought this would allow time to produce greater quality in the 12 13 application and strengthen your position. CHAIRPERSON COFFMAN: Ms. Smith. 14 15 MS. SMITH: I voted against. I believe additional technical assistance would've allowed the 16 charter to have an approved application. This 17 18 would've allowed almost a year for the charter to plan and implement. 19 20 CHAIRPERSON COFFMAN: Ms. Liwo. 21 I voted in favor of denying the MS. LIWO: 22 application. I do believe that the Paron community 23 needs an alternative. I do see the passion and the 24 heart. But just reviewing the application and 25 hearing everything that's been said today, I didn't

1	I wasn't convinced that if we did grant the
2	application that the charter would could be
3	sustained.
4	CHAIRPERSON COFFMAN: Thank you. Thank you,
5	Panel.
6	Ms. McMullins Mullins, we appreciate your
7	presentation today and strongly encourage you to
8	begin technical assistance now.
9	MS. MULLINS: Oh, trust me, this is just one
10	more step.
11	CHAIRPERSON COFFMAN: We understand. Thank you
12	so much.
13	A-2: REQUEST FOR OPEN-ENROLLMENT CHARTER SCHOOL AMENDMENTS:
14	FUTURE SCHOOL OF FORT SMITH
15	CHAIRPERSON COFFMAN: Ms. Boyd, moving on to
16	action item 2, I understand that that item has been
17	pulled from the agenda?
18	MS. BOYD: That's correct.
19	CHAIRPERSON COFFMAN: So we'll take a break and
20	come back ready for action item number 3.
21	MS. BOYD: All right. Thank you.
22	(BREAK: 10:52 - 11:07 A.M.)
23	A-3: REQUEST FOR OPEN-ENROLLMENT CHARTER SCHOOL AMENDMENTS:
24	OZARK MONTESSORI ACADEMY
25	CHAIRPERSON COFFMAN: Ms. McLaughlin, you are

recognized for action item number 3.

MS. McLAUGHLIN: Thank you, Madam Chair. Today we have Ozark Montessori Academy here for a request for their open-enrollment charter school. Would you like to be reminded of the rules by Ms. Davis?

MS. DAVIS: The procedures you're going to follow are going to be the same that you just followed. The applicant is going to have 20 minutes to present their argument to you for their amendment, followed by 20 minutes for opposition, and then 5 minutes for the applicant to rebut any statements that were made. Everything that is wishing to provide testimony will need to be sworn in, with the exception of attorneys. And anything that is said today by the applicant that differs or is that agreed to that differs from what's in your written document does become part of any amendment that you grant.

CHAIRPERSON COFFMAN: If all representatives from Ozark Montessori Academy and anyone speaking in opposition would please stand, raise your right hand to receive the oath. Do you swear or affirm that the testimony you're about to give shall be the truth, the whole truth and nothing but the truth?

(ALL WITNESSES ANSWERED AFFIRMATIVELY)

CHAIRPERSON COFFMAN: Ms. McLaughlin, do you

have any additional words before we begin?

MS. McLAUGHLIN: No. Just Dr. Silano is here to present.

CHAIRPERSON COFFMAN: Thank you. Dr. Silano, if you'll give your full name and title for the record, then you'll have 20 minutes.

DR. SILANO: Hi. I'm Dr. Christine Silano; I'm the executive director of Ozark Education,
Incorporated, and the principal of Ozark Montessori
Academy and the founder. And I'm here today for request of a waiver for class sizes. I don't expect this presentation to take 20 minutes.

As a Montessori school, Montessori model of instruction, we adhere to mixed age classrooms. And what we ran into is in our first through third grade mixed age classroom there's a little bit of a difference between class sizes for first and second graders and third graders. In April of 2016, I was informed by the ADE Standards of Accreditation office that two of our mixed age classrooms and several of our specials classrooms were overloaded. We did not originally request a class size waiver in our charter due to faulty assumptions on my part due to not understanding the rules. For one, I wrongly assumed that class sizes could be averaged. So we ask for 27

students in our first through third grade classrooms. We had two of those classrooms and so I thought of it in terms of averages. I also thought in terms of the fact that we have two adults in every classroom: a lead teacher and an assistant teacher. So I really thought we were in good shape. What I didn't realize about the rules was that the assistant teacher also needs to be a teacher of record. And so those assistants, although they're excellent, they all carry their bachelor's degrees, they were not teachers of record nor are they paid as teachers, the same amount as our teachers of record. So, let's see; was there anything else?

Currently, we are in compliance. We did not fully enroll as we would've liked to in those classrooms, as we're waiting for your decision on the waiver. We do have several families who are anxious to hear the outcome of this meeting who are on our waiting list. But we do have the requisite average -- I think it's an average of 23 students to a classroom with a maximum of not more than 25. We did find that due to the physical space differences in our different classroom areas -- we're in an older renovated church and some of our classrooms are bigger than others. So we have self-elected to lower

1 some of the class sizes, but we would like the option to, with the bigger classrooms, to be able to have 27 2 with the two teachers in the room and then the 3 smaller classes will be as low as 22 to a classroom. 4 5 In our waiver we would like the option to be able to go up to 30 in any given classroom, including our 6 7 kindergarten. And the reason for that is I foresee a potential problem in years coming. As Mrs. Coffman 8 9 is aware, and I think Dr. Gotcher is aware, our goal is to be able to have the mixed age primary which is 10 part of the Montessori model which is where you mix 11 12 ages 3 to 6. Right now, we just have straight 13 kindergarten which is not really Montessori. So we have -- our kindergarten classrooms right now are at 14 15 15, and we've purposefully kept them small in 16 anticipation of adding preschoolers down the road. We've had to keep the classes small because we don't 17 18 want too many 1st graders, you know. So it's been nice for those teachers and those classes to have 19 those small classes, but they really want their 20 21 three- and four-year olds. And so in the Montessori 22 model, Dr. Montessori recommended class sizes of 35, 23 actually. She said to get the dynamics, the social 24 dynamics you need to encourage children to be able to 25 interact socially the way they need to; you need the

1	bigger group. The smaller the groups, then you have
2	less choices socially; children can't work with
3	you know, in their independent plans with or you
4	need them to be able to work with in both
5	heterogeneous and homogeneous mixed groups, and so
6	you need enough students to be able to do that. And
7	you also need the advantages of the younger learning
8	from the older and the older from the younger. So
9	it's not all about small class sizes in Montessori;
10	it's about having lots of opportunities for different
11	configurations. And so for those reasons we would
12	like the classroom size waiver, and I'm open to
13	questions.
14	CHAIRPERSON COFFMAN: Is there anyone here to
15	speak in opposition?
16	MS. McLAUGHLIN: No, ma'am.
17	CHAIRPERSON COFFMAN: Thank you. Any additional
18	comments before we begin questions?
19	DR. SILANO: Can't think of any.
20	CHAIRPERSON COFFMAN: Thank you, Dr. Silano.
21	Ms. Smith.
22	MS. SMITH: So in the kindergarten, the 30, how
23	many adults are in the room?
24	DR. SILANO: Two.
25	MS. SMITH: There are two adults for the 30

25

kindergarten students, and one is the lead teacher and one is more like an aid or --

DR. SILANO: Right. As I said, they wouldn't be all kindergarten; they would be ages 3 to 6. Right now, we've been working with the Department and the DHS to be able to achieve that goal, to be able to mix those students. There are problems that we need to address, including, you know, how to fund, the funding arrangements; so mixing federal and state funds is an obstacle. What was the other -- oh, the lottery is going to be an obstacle, which I'm sure I'll be coming back to you to talk about. There is a federal law that allows -- that says that, you know, federally, it's okay for charter schools to hold a lottery for the 3-year olds. And so, you know, if Arkansas could adopt that -- and that may take some -- help me out here -- legislative action to make But this is something that that happen. Montessorians across the country deal with; different states have found solutions. And so we'll be working with the different agencies to try to come up with a solution. Our Montessori accreditation is contingent on it. So, right now, I have a kindergarten teacher who cannot be certified because we don't have a mixed age Montessori classroom. And so she's concerned

1	that she's gone through the training, she's doing her
2	practicum now. Will she be able to get certified and
3	will we be able to be accredited by the American
4	Montessori Society? It's not going to happen until
5	we find a solution to this issue. So we're just
6	keeping that space open right now. Those
7	kindergartners have two teachers in the room with
8	only 15 kids. But we would like when the time comes
9	to be able to have up to 30 students in those
10	classrooms, depending on the space available in each
11	classroom.
12	MS. SMITH: Okay. So let me make sure I
13	understood. You wanted in grades 1 through 3 the cap
14	of 27 or the cap of 30?
15	DR. SILANO: Well, I would like 30 across the
16	school just because, as I said, if I have a larger
17	classroom I might put 30 in that classroom: 10 1st,
18	10 2nd, 10 3rd. If I have a smaller classroom, I
19	might do nines. So I would just like that
20	flexibility.
21	MS. SMITH: Okay. And does your application for
22	a charter school include pre-K?
23	DR. SILANO: Oh, no. No.
24	MS. SMITH: Separate group then. So the charter
25	school then is K

	107
1	DR. SILANO: Right now, we have a preschool on a
2	different campus. It's DHS licensed.
3	MS. SMITH: Okay.
4	DR. SILANO: And our preschoolers had to enroll
5	in the lottery when they were 5-years old just like
6	everybody else. So maybe a third of them have been
7	able to get into our kindergarten.
8	MS. SMITH: Okay.
9	DR. SILANO: So it's a problem because
10	Montessori education starts at toddlerhood and goes
11	up. So our students most of our students are not
12	getting the benefit of that preschool component at
13	this time.
14	MS. SMITH: Okay.
15	CHAIRPERSON COFFMAN: And just for
16	clarification, even with the class size increase to
17	30 for kindergarten the students would not be mixed
18	until all of those legal issues are resolved?
19	DR. SILANO: Absolutely.
20	CHAIRPERSON COFFMAN: Dr. Saunders.
21	DR. SAUNDERS: So in every classroom, even the
22	ones that are currently size 15, there is a teacher
23	and an aid?
24	DR. SILANO: Yes. That's pretty critical for
25	Montessori because the instruction is one-on-one and

	100
1	small group. The teacher is very focused on one
2	child, so you always need another adult, pair of
3	eyes, in the room to supervise.
4	DR. SAUNDERS: So you will always have the
5	teacher and an aid in every classroom?
6	DR. SILANO: Absolutely. Yes.
7	DR. SAUNDERS: Motion at the proper time.
8	CHAIRPERSON COFFMAN: Dr. Gotcher.
9	DR. GOTCHER: Yeah. Before the motion, you
10	mentioned that all of the instructional aids have
11	bachelor's degrees?
12	DR. SILANO: Yes.
13	DR. GOTCHER: Is that just
14	DR. SILANO: No, I take that back. I've got to
15	take that back. I'm sorry.
16	DR. GOTCHER: That's okay.
17	DR. SILANO: In the grade levels that we were in
18	trouble for, yes. We have had a couple of assistants
19	who do not have a bachelor's; they have a high school
20	degree, but bilingual, lots of other assets that have
21	been, you know, an asset to our school.
22	DR. GOTCHER: Sure. I was just simply curious
23	if that was part of the Montessori methodology in
24	terms of what your standards require. So I was just
25	curious. That didn't

24

25

DR. SILANO: Well, -- well, yeah, that's a good question because with the American Montessori certification they do have to have a bachelor's before they can enter training. So as we recruit assistants we're creating a pipeline of teachers and so we look for assistants who are qualified for the Montessori training.

DR. GOTCHER: Interesting model, isn't it, Ms. Pfeffer?

CHAIRPERSON COFFMAN: Dr. Silano, you might just briefly give them kind of a lowdown of what the requirements are for certification in Montessori.

There's a -- it's an extensive training.

DR. SILANO: It is. They have to attend -depending on what grade level they're teaching, they attend seven or eight weeks, summer, intensive training. So we believe it's the equivalent to a master's degree. They -- because we do not have an accredited teacher training program here in Arkansas, our teachers have had to go out-of-state. I had one who just spent her summer in Boulder with her three children and her nanny. And then they come back and then they have a practicum experience that is supervised by a Montessorian from the training center. So those supervisors come to our campus

three times during the year. Also, our teachers have to go back to their training center twice during the year. So they have five visits during the year as follow-up to their training to make sure that they're implementing correctly. That's for kindergarten and lower elementary, up to third grade. Once you get into the higher grades, four through six, they have to do two summers because the AMS requires them to have the lower elementary certification before they can get the upper elementary certification. beauty of that is when so many of our kids need to be remediated they also understand the lower grade curriculum, you know, so -- yeah, it's quite extensive and we're hoping too that eventually the State will in some way, shape or form recognize that extensive training as an alternative path to licensure. Because for our teachers to go through all the rigor of that and then have to start over again with an ALP program is just more than I feel, you know, we should have to ask them, so --

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: And I will just tell you that we do have a process for alternative certification proposals, and so that's something I can visit with you about.

1	DR. SILANO: Okay. Great.
2	CHAIRPERSON COFFMAN: Are there any other
3	questions before I ask Ms. Davis to come back?
4	Ms. Davis, if you will address any issues
5	regarding the amendment.
6	MS. DAVIS: There is one issue. They requested
7	a waiver of Section 10.02.3 of the rules, which was
8	I mean, of the Standards for Accreditation, which
9	only addresses their waiver for grades 1 through 3.
10	If they are in fact wanting a waiver for
11	kindergarten, they'll need also a waiver of Section
12	10.02.2. And if they want a waiver for grades 4 to
13	6, they will need a waiver of 10.02.4.
14	CHAIRPERSON COFFMAN: Dr. Silano, your response?
15	DR. SILANO: Is 4 to 6, what is the cap for 4 to
16	6? I thought it was 30. Is it not?
17	MS. DAVIS: No, I think it's like 25 and then
18	maximum of 28.
19	CHAIRPERSON COFFMAN: 28, Ms. Barnes says.
20	DR. SILANO: Well, I would like to add those
21	additional waiver requests today.
22	CHAIRPERSON COFFMAN: For the cap of 30?
23	DR. SILANO: For the cap of 30 for all the grade
24	levels.
25	MS. DAVIS: That was the only issue I had.

	- August 18, 2016
	113
1	MS. SMITH: Yes.
2	CHAIRPERSON COFFMAN: Dr. Gotcher.
3	DR. GOTCHER: Yes.
4	CHAIRPERSON COFFMAN: Unanimous decision.
5	DR. SILANO: Thank you.
6	CHAIRPERSON COFFMAN: If you'll wait just a
7	moment, we'll give you our written responses. And,
8	Dr. Silano, just to remind you, this will go to the
9	State Board for review.
10	(A FEW MOMENTS OF SILENCE)
11	CHAIRPERSON COFFMAN: Dr. Gotcher.
12	DR. GOTCHER: Voted for the amendment, to
13	approve the amendment request. My reason: there are
14	no concerns with this amendment that impact student
15	achievement.
16	CHAIRPERSON COFFMAN: Mr. Lester.
17	MR. LESTER: I voted for the amendment. I have
18	no concerns with the amendment as far as it also
19	aligns with the Montessori model.
20	CHAIRPERSON COFFMAN: Ms. Liwo.
21	MS. LIWO: I voted for. I didn't have any
22	concerns with the request.
23	CHAIRPERSON COFFMAN: Ms. Pfeffer.
24	MS. PFEFFER: I voted for the motion. I have no
_	

concerns with the amendment.

25

	114
1	CHAIRPERSON COFFMAN: Mr. Rogers.
2	MR. ROGERS: I voted for. No concerns.
3	CHAIRPERSON COFFMAN: Dr. Saunders.
4	DR. SAUNDERS: I voted for. I believe it allows
5	the flexibility to follow the Montessori model with
6	the assurance of an aid in every classroom.
7	CHAIRPERSON COFFMAN: Ms. Smith.
8	MS. SMITH: I voted for. No concerns regarding
9	the waiver amendment.
10	CHAIRPERSON COFFMAN: Ms. Barnes.
11	MS. BARNES: I voted for. I have no concerns
12	regarding this amendment. It appears to be necessary
13	to maintain integrity of process and operation in the
14	Montessori model.
15	CHAIRPERSON COFFMAN: Congratulations.
16	I would encourage you, if you have a moment, to
17	speak to Ms. Smith about the training that grades 4
18	through 6 go through because it's very interesting to
19	build a solid reading and math program if those grade
20	level teachers have the foundational skills necessary
21	to intervene appropriately and efficiently to move
22	the kids to grade level and beyond. So it's really a
23	model, I think, should be studied across the state.
24	DR. SILANO: Okay. I'd love to.
25	CHAIRPERSON COFFMAN: Very interesting.

	115
1	DR. SILANO: Uh-huh.
2	CHAIRPERSON COFFMAN: Ms. Boyd, Ms. McLaughlin,
3	do you have any additional issues before the Panel
4	today?
5	MS. BOYD: No, ma'am.
6	CHAIRPERSON COFFMAN: Dr. Saunders, did you have
7	a comment for Ms. Boyd?
8	DR. SAUNDERS: Yeah, I did for Ms. Boyd and
9	Legal. Is there some possible way, looking at on the
10	waiver request applications, that when the waiver
11	I think when the section of code is stated can we
12	require the title of that section of code as well?
13	MS. BOYD: Yes. I can I believe it's on the
14	form that we have them complete, but I can make it so
15	they have to do it before they move on.
16	DR. SAUNDERS: Okay. That was all I have.
17	CHAIRPERSON COFFMAN: We're just trying to clear
18	up our own confusions a little quicker.
19	MS. BOYD: Uh-huh.
20	CHAIRPERSON COFFMAN: Any additional
21	conversation or information before the Panel today?
22	If not, I'll accept a motion to adjourn.
23	DR. SAUNDERS: So moved.
24	MR. ROGERS: Second.
25	CHAIRPERSON COFFMAN: Motion has been made and

- August 18, 2016

	116
1	seconded to adjourn. All those in favor?
2	(UNANIMOUS CHORUS OF AYES)
3	CHAIRPERSON COFFMAN: Thank you all and have a
4	great day.
