EXHIBITS

A-1: ARKANSAS RIVER VALLEY

EXHIBIT ONE (1)

A Day in the Life of a Virtual Student

PROCEEDINGS

| CHAIRPERSON COFFMAN: The October 20th meeting | | |
|-------------------------------------------------------|--|--|
| of the Charter Authorizing Panel is called to order. | | |
| I'd like to welcome everyone to the Arkansas | | |
| Department of Education and ask that you please | | |
| silence all electronic devices. The Charter | | |
| Authorizing Panel oversees the authorization, | | |
| renewal, revision, and revocation of charters. It is | | |
| our goal to facilitate a fair and responsible | | |
| hearing. I will ask that each person speaking please | | |
| state your name and title for the record. I will ask | | |
| that you continue to speak clearly into the | | |
| microphone for the benefit of the Panel, the | | |
| audience, and the viewing audience. The entire | | |
| meeting today is being live-streamed and recorded, so | | |
| it's imperative that you adjust the microphone so | | |
| that you are speaking directly into the microphone. | | |
| This meeting is also being recorded. Our reporter, | | |
| Ms. Sharon Hill, will be putting together a | | |
| transcript of the meeting and it will also be posted | | |
| on the ADE website. | | |
| So with that, good morning. And, Ms. Boyd, | | |
| | | |

A-1: HEARING OF DISTRICT CONVERSION PUBLIC CHARTER SCHOOL

APPLICATION: ARKANSAS RIVER VALLEY VIRTUAL ACADEMY, VAN BUREN

MS. BOYD: Thank you, Madam Chair. This morning the first item you'll be hearing will be on a district conversion charter school application from the Van Buren School District with the name of Arkansas River Valley Virtual Academy. Before we get started I would like to ask Ms. Davis to come forward with the hearing procedures for today.

CHAIRPERSON COFFMAN: Good morning, Ms. Davis.

MS. DAVIS: Hi, good morning. Jennifer Davis, Staff Attorney for the Department. The procedures that you're going to follow today will be that all persons wishing to provide testimony to you will need to be sworn in with the exception of attorneys. The applicant will have 20 minutes to present its application to you, followed by 20 minutes of opposition. At that time the applicant will have 5 additional minutes to close. You can ask any questions of the applicant, the Department, or anyone else that's here that you may have questions of before making your decision. You can either vote to approve or disapprove the application today or take it under advisement at a later date. You do have a Google doc that you can note your reasons for your vote in. And also -- excuse me -- also, because a charter is a contract, it is a negotiation; so

anything that is agreed to today by the applicant 1 that differs that's in their written materials will 2 become part of the charter today. 3 CHAIRPERSON COFFMAN: Thank you. Ms. Boyd. 4 MS. BOYD: From Van Buren to start off their 5 presentation we have their superintendent Dr. Harold 6 7 Jeffcoat. 8 CHAIRPERSON COFFMAN: If everyone speaking on 9 behalf of the Arkansas River Valley Virtual Academy will stand and anyone speaking in opposition; if 10 11 you'll raise your right hand. Do you swear or affirm that the testimony you're about to give shall be the 12 truth, the whole truth, and nothing but the truth? 13 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) 14 15 CHAIRPERSON COFFMAN: Dr. Jeffcoat, you're 16 recognized. SUPT. JEFFCOAT: Good morning. Dr. Harold 17 18 Jeffcoat, superintendent of the Van Buren School I want to thank you for the opportunity 19 District. that you've given us to present our proposal on our 20 21 virtual academy. And we're going to start our 22 presentation with a short video. (COURT REPORTER'S NOTE: The video is available 23 24 for viewing on the ADE website). 25 SUPT. JEFFCOAT: Panel Members, I appreciate --

Gary Deffenbaugh, Representative Deffenbaugh has agreed to come and speak to you this morning. And he's here now and I'd like to turn it over to him, if that's okay. Is that okay?

CHAIRPERSON COFFMAN: Yes, absolutely.

REP. DEFFENBAUGH: Morning.

CHAIRPERSON COFFMAN: Good morning.

REP. DEFFENBAUGH: I was a little late, so I won't make up for being late by talking very long. But I'll tell you a little bit about myself and then you lead into this. I coached and taught, you know, public schools for 39 years and taught math, coached several sports; kind of like back then in the day you were jack-of-all-trades. And so I've spent a lot of years in the public schools and, you know, when you get a little bit older -- I don't know if you get cynical, but whatever it is I, you know, began to watch different mandates and different bills and different laws come up from the legislature, and some of them began to irritate me a little bit; some of them were good, some of them weren't so good. you know, I guess probably in the back of my mind you just think, you know what, if I could get in the legislature I'd straighten them out -- and you know how that goes. But I kind of had that in the back of

my mind, so after I retired in 2010, sure enough, this position came open. I ran a primary, ran a general election, won both of them, and now this is my sixth year and haven't raced since. And I'm going into another term probably, God willing, and I -- you know -- it would be my seventh and eighth year and don't have an opponent there. But anyway, I got down here and, like most things that you've never experienced, you know, I came down here and I got an education, you know, and you realize, you know, people's -- you realize there's a different perspective from just the dumb coach. And so I got down here and got on the Education Committee and really -- have really enjoyed them; I'm still on them, as far as I know. And so anyway I, you know, would study some and would see the new opportunities coming along in education and it was -- a lot of it was intriguing. And so meantime, I had dealt with -now he's retired, Dr. Merle Dickerson, and I would talk to him and I'd say, you know, "If there's anything we, you know, can help you with or anything new we need to know, you know, I'll try to help you." But he didn't do it much. He was on his way out, he was getting ready to retire, and so he just didn't -we didn't communicate much. So when Dr. Jeffcoat was

hired, you know, I didn't know how he'd be because I never had met him. I was reading the paper, who the candidates were, what their qualifications were, and so he was elected -- or he was selected as the superintendent in Van Buren. It wasn't long I got to know him and really began to have a good relationship with him and really respected him because he came in -- Van Buren is a great school district, but he came into a situation where there was some things that were really messed up and he -- it took a lot of courage to do what he's done. And there's no use to get into that, but I'll just tell you he's -- he may be small in stature but he stands tall in Van Buren.

You don't mind me saying that?

SUPT. JEFFCOAT: That's okay.

REP. DEFFENBAUGH: But anyway, he's tackled some really tough problems. And I'm not saying those are all straightened out, but also he would look for new programs and, you know, innovative things that would help our district and so then -- so the virtual school came up. I began to hear about it in the legislature and it was, you know, very interesting to me. And so Dr. Jeffcoat was also really interested, as you can see, and so we began to talk. In fact, we talked lately and one thing that I found out about

2

him is he would call youngsters that weren't quite finished with their diploma. I mean, I'm talking about people -- and y'all, you know, have seen them or heard of them; you're talking about people that maybe have two -- they're two classes short and they'll say, "Ahhh, naw, I don't want to finish," you know. And, of course, we all know they're going to regret that, but Dr. Jeffcoat would -- he's calling those people and he's telling them, you know, we've got a new -- we've got -- we're going to -- we think we're going to have a new system in place where you can get that diploma and get your classes and get it over with at home. And so I really appreciated that and I think that's been effective for him. really -- I see some great possibilities at Van Buren because we're going to have some opportunities for people to get their diploma that wouldn't take the I mean, part of it is just we've got that time. opportunity to entice them to, like I say, just give them that opportunity.

So I just -- I didn't know what Dr. Jeffcoat wanted me to say, but I will tell you this: I really am high on him and I'm really high on this program, and so hopefully you'll see it our way and allow us to start a virtual academy. And thanks.

DR. GOTCHER: Madam Chair, may I say -CHAIRPERSON COFFMAN: (Nodding head up and
down.)

DR. GOTCHER: Representative, I just want to say thank you for your support and your comments. And I personally know Dr. Jeffcoat as well and I concur with your analysis of his innovation and the drive that he has for moving the needle for students in Van Buren. So I appreciate you being here, sir. Thank you.

REP. DEFFENBAUGH: Thank you.

SUPT. JEFFCOAT: Thank you, Representative.

And, yes, it's true, I am small in stature -- and I thought you were going to agree with him on that point, but I appreciate -- in Van Buren we've got a lot of great things going on, and we're going to talk about some of those hopefully today as well. It's my privilege to introduce some of my colleagues that I have with me today. I have Brian Summerhill, who's our assistant superintendent; I have Karen Allen, who is the director of Human Resources, Personnel, GT -- can I just keep going? There's a lot of things; federal programs -- I could go on. And then I have Nancy Robbins, who I also have a list of things that she takes care of, but Nancy is our curriculum and

instruction director. And they'll be joining me or will have the opportunity to join me during the Q-and-A session as we move to that portion.

This has certainly been -- it's been a team effort. We've had a lot of people involved, and I think our presentation had a list of all of those individuals. A lot of folks who have contributed, and these are really the major contributors. are actually many, many more people who have had conversation about the application that we're presenting today. I mentioned all of my colleagues that are here with me. I also have Eddie Tipton, who is the high school principal at Van Buren; I have Lisa Miller, freshmen academy principal; Dr. Karen Endel, she's the principal at Butterfield Trail Middle School; and Stacie Wood, elementary school principal in Van Buren; Jennifer Feeny, an assistant principal at a middle school; Michele Shipman, an assistant principal -- she was a curriculum coach at the time that we were having these conversations; she's now an assistant principal at Tate Elementary Robert Rogers -- Robert is actually -- he School. was before a new tech teacher/facilitator/trainer; he's now serving as our facilitator/teacher for Virtual Arkansas classes at the high school, and we

have eight of those that we offer now and have several students enrolled in our virtual classes at the high school and Robert takes care of those kids. Ashleigh Gillespie, very innovative mind; she is a middle school teacher. Kristie Mendez, also very technologically advanced, and she is an elementary school teacher in our school district. Candice Bowen, a homeschool parent that you saw -- one of our homeschool parents on the screen; Nicole Schweizer, another homeschool parent; and then Bob Freeman, mayor of Van Buren. So many, many people have been part of these conversations and have asked a lot of questions and thought through different ideas.

It is an honor to be before you today presenting our proposal -- excuse me; that's the last time I'll move that. We'll have to move it again when other people come up. It's an honor to present our proposal for an innovative learning model for our students in our district. While we're not the first public school to pursue a virtual education platform, we're excited to join those who are pioneering this innovative educational opportunity. We admire the work of the Springdale School District and the Fayetteville School District and their trailblazing efforts to create the first conversion virtual

25

charter schools in Arkansas. We've been in touch with them as they have launched their programs and we're excited about the possibility of bringing this type of opportunity to our community. Tony Wagner said it best when he said, "Choice is the new American value."

We're here to ask permission to create a K-12 virtual academy within our school district. Arkansas River Valley Virtual Academy will provide personalized flexible learning opportunities. will be another innovative education option or choice for our students. Through this model we will remove all time barriers and allow students to progress at a rate that corresponds with their interests and abilities. While we are looking to create a flexible education model, the concept of virtual learning is far from new. I would venture to guess that everyone in the room has at some point taken advantage of the power of online learning. Whether you went to the internet to learn how to play the piano for the first time or maybe you learned the correct way to install bathroom tile, or maybe you were like me and many other people in the room and you went online to learn the process to apply for a conversion charter school in Arkansas. The reality is that learning is at our

fingertips and in the years to come I believe that virtual learning will be a common element in all schools. Schools have changed a lot over the years, but in many ways we've stayed the same, but there's been no other vehicle more influential in changing how we educate our kids than technology. Whether we're comfortable with it or not, technology is here to stay and technology will continue to impact and shape the field of education.

Our virtual academy, if approved, will be operated as a new LEA within the Van Buren School District. Curriculum offered through the academy will be through an online platform with an educational enhancement of face-to-face interactions with Arkansas licensed teachers working for the Van Buren School District. There will also be service opportunities and real world experiences that are highly differentiated to meet the diverse needs of our learners.

Our virtual academy will provide a high-quality personalized curriculum to meet the needs of those varied student populations, including students who are homebound; students who are at risk of failure, as Representative Deffenbaugh spoke of earlier, specifically those who have left school without

completing their graduation requirements; students who are currently in homeschool learning environments; and students who are driven to accelerate their learning. The program will feature virtual learning opportunities but will be enhanced with -- by teachers who will offer parents and students an optional face-to-face weekly orientation regarding the upcoming week's work in order to support the students and the families with the curriculum. Students will also have an opportunity to meet once more weekly with teachers in order to get extra help with assignments in core curriculum concepts.

The virtual academy will work in partnership with parents, students and teachers to provide field experiences, community service projects, and integrated curriculum activities in order for students to experience real world activities and curriculum integration opportunities. These experiences may include guest speakers, trips in areas of career interests, trips to colleges and museums, theater performances, and much, much more. In addition, virtual academy students will have the option to participate in extracurricular activities, including athletics, band, choir, et cetera.

Curriculum will cover both core curriculum -- or core academic classes, as well as grade appropriate electives. Our virtual academy will provide individual learning plans for all students that will delineate personalized curriculum and field experiences tailored to students' interests and needs. These plans will be created in conjunction with teachers, students, and parents, and reviewed often to make sure that each student is making progress towards his or her learning goals.

As we have considered and discussed the possibility of a virtual academy, the largest population that has shown the greatest interest is our homeschool families. We currently have 234 students living within our school zone who are being homeschooled. Parents choose homeschool for a variety of reasons and we respect, honor, and support their decision. Oftentimes, they find themselves using curriculum similar to what we will offer in our virtual academy, but they're missing a couple of elements that we believe are important to the success of students: the teacher support option that will be available at least two days per week and the social, emotional, and educational benefit of participating in school sponsored and coordinated field

experiences.

Our research indicates that this is a need in our community. Our main innovations include personalized curriculum and individual learning Each student enrolled in the virtual academy will work with a learning team to develop an individual learning plan. The virtual curriculum will allow students and their families choice -- and there's the word again -- choice and flexibility to align with their individual interests and needs. Enrichment opportunities -- our virtual academy will offer opportunities such as field experiences, community service projects and/or integrated units of study where students will interact and learn with other students and adults. The human element of the virtual program -- our virtual academy will offer students and parents the opportunity to enhance their virtual learning with face-to-face support. This is an element that's missing in nearly all virtual programs today. Interventions -- teachers will monitor individual student progress frequently, and as long as students are progressing at a reasonable rate the face-to-face sessions will be optional. A response to intervention plan will be in place for students falling behind. Interventions may require

attendance at one or both face-to-face sessions until satisfactory progress is made. Partnerships -- our virtual academy will rely on a number of partnerships within our community to provide students with meaningful field experiences and possible internships. As you can see in the video presentation, our city government is very supportive and I believe you have a letter from our Chamber of Commerce which also shows that they are excited about this possibility and they're willing to help in any way.

While the delivery method will differ, the content covered will be similar to that which is covered in the traditional setting. K-5 students will study core content areas in English, language arts, reading, mathematics, science, and social studies. They will also have access to music, art, and PE instruction. In grades 6-8, students will cover the same areas of focus but will also have access to some accelerated coursework such as courses for high school credit. In grades 9-12, students will study courses to meet the high school graduation requirements including advanced placement and concurrent credit courses. While a vendor has not yet been chosen, we will only consider those that are

approved by the State -- on the State provider list. Our goal is to choose a high-quality provider that allows us the flexibility to review the content and make adjustments when necessary so that we may better align the content to Arkansas state standards. We have narrowed our choice down to a couple of vendors and if we are approved to move forward, we'll want a teacher committee to do a thorough analysis of the content provided by each to insure that we're making the best decision for our district. The Van Buren School District will also work with the Department of Education to insure that courses taught are approved and aligned to Arkansas standards.

Panel Members, you should have a sample -- or do we have the samples? If it's okay, Ms. Robbins is going to bring you the sample days for students.

It's just a sample of a day in the life for a student enrolled in the virtual academy. Now I'll just tell you these are just examples. As you know, a virtual program is very flexible and it will vary greatly.

Some students may want to start their day -- students and parents may want to start their day earlier than others. We may have high school students who have jobs that will have to work at different times and then complete their program of study a little later.

But we want to just give you an idea of what it would look like for a student if they were enrolled to see the coursework and see how it would be implemented over the course of a week. So, again, these are just samples; these are examples, but it's not suggesting that it will be exactly as these samples suggest.

Each -- while we can't say exactly when students will engage in the curriculum, we will have access to each one of their accounts and we can monitor their progress and we can see if they're not progressing at a rate necessary to be successful. Each of the vendors that we've spoken with also have electronic planners that parents and students can use to insure that they're pacing themselves appropriately to stay the course.

Academic goals are as follows and the statemandated assessments -- our goals for the Van Buren
-- for Van Buren students in our virtual academy will
be to meet or exceed the state average number of
students scoring proficient in reading, English,
math, writing, and science. Virtual academy students
will also be at or above the state average number of
students taking the ACT. These goals will be
assessed annually to denote progress and attainment
will be 2021-2022 at the end of the year when full

implementation of our K-12 program is in place.

Nonacademic goals -- 99% of -- there you go -- 99% of virtual academy students will develop an individual learning plan to support their academic and career goals; 95% of virtual academy students will participate in enrichment activities to include field experiences, community service, integrated units, and they'll do that each nine weeks. These goals will be assessed annually to denote progress and attainment will be 2019-2020, which is year-three.

This school will be housed within one wing of the Van Buren Freshmen Academy. This building was originally designed to hold over 800 junior high students but after reconfiguration it currently holds 425 9th graders. So space is available to easily house our virtual academy, especially in the early years. Initially, we will begin with an enrollment cap of 125 4th through 8th grade students. Each year after, we will expand the program to the next grade down and the next grade up. We will follow this pattern until the program is fully implemented, K-12.

Staffing for the program when fully implemented
-- and this is a concept as well, which could be
adjusted -- will consist of a virtual academy
coordinator, an administrative assistant, five

Arkansas licensed teachers specializing in core content areas, and additional support personnel will be employed as well based on the needs of the program.

There will be a strong commitment on the part of all parties providing online curriculum. having an establish system of support there's no doubt that this would not be successful. We'll need to do a great job of advising parents and students of the opportunity this model provides, but also inform them of the challenges as well. While the degree of involvement will be based on student age, our parents will need to understand that their role will be that of an at-home learning coach for their children. They will need to provide guidance, assistance, encouragement, and follow a routine schedule to insure ongoing progress. While parents are a critical component in all education models, a virtual education will likely require more time, effort and attention due to the flexibility the model provides. As learning coaches, parents will also be the first -- will also likely be the first point of contact when a student needs help. Effective communication between the home and the school will be absolutely critical. However, parents will not be alone in this

model; our teachers will be readily available to assist parents and students. Teachers in our virtual academy will have a working schedule that is flexible to insure that they're able to meet the needs of our families. Teachers will also receive ongoing training in strategies for effective teaching inside a virtual environment.

Before moving to the Van Buren School District I was previously the superintendent -- the deputy superintendent -- sorry, Dr. Tony Thurman -- I was previously the deputy superintendent in the Cabot School District. And I've seen firsthand the benefits of creating a flexible model of learning through their charter school, the Academic Center of Excellence. Michelle Evans, the principal of ACE, has done an amazing job creating a very successful program. The number of students graduating for her -- from her program each year is clear evidence that flexibility is needed in today's schools. support and interest that we have received regarding this concept in our community and throughout the district has really been overwhelming. When people realize the positive potential of a program such as this they -- the question that we get asked most is how quickly can we start.

Panel Members, we are very excited about this opportunity and we want to thank you again for giving us this chance to visit with you about our program and look forward to your feedback.

CHAIRPERSON COFFMAN: Thank you. Are there any persons to speak in opposition or any public comment?

Dr. Jeffcoat, you have approximately three minutes left of your five minutes.

SUPT. JEFFCOAT: Thank you. Change is a result of progressive thinking and progress is a result of If we want to provide a K-12 education model change. that is most effective for the students of the future, we have to focus more on the world that they're being raised in and less on the world that we were raised in. The Van Buren School District is known for innovation and quality of education. motto is Our Children Our Success. Faculty and staff in the Van Buren School District take pride in their work and celebrate the success of our students. you spend time in Van Buren, I believe you would agree that there is a tremendous amount of momentum right now for our school system. There are a number of outstanding programs being implemented throughout the district. In this year alone we began school with an expansion of science, technology,

1 engineering, and mathematic programs to reach kids in all grade levels using Project Lead the Way. We have 2 also started this year with a partnership -- or with 3 partnerships between our school district, the 4 5 Arkansas Tech University, the University of Arkansas at Fort Smith, and Virtual Arkansas to expand 6 7 concurrent credit offerings for our students. Thanks to those partnerships, students in the Van Buren 8 9 School District will graduate with more than just a high school diploma. Based on their choice -- that 10 word again "choice" -- students will now be able to 11 graduate with industry level certification in the 12 13 advanced technology fields of cyber systems, robotics, or students can follow an established 14 15 learning track that will lead to a 60-hour associates degree to be issued at the same time that they 16 complete their high school career. Also this year 17 18 our community recently approved the bond restructure that will allow us to proceed with building new 19 academic facilities, as well as make significant 20 21 improvements to our existing schools. Additionally, 22 our community voted to approve a three mill increase 23 that will generate just over \$1,000,000 each year to 24 be used for maintenance and operations. These funds 25 will be used in a variety of ways, including

continuous investments in technology for our students and staff. This campaign was supported by nearly 70% of our taxpayers. One thing is for sure, Van Buren is on the rise.

We ask that you allow us this opportunity to create another innovative choice for our kids and our community. We would like to genuinely thank you again for your time and consideration and welcome any questions that you have.

CHAIRPERSON COFFMAN: Thank you. Panel? Dr. Gotcher.

DR. GOTCHER: Thank you, Madam Chair. Dr.

Jeffcoat, thank you. I appreciate the background; I appreciate -- even as a superintendent a couple of years ago I dealt with some of the very issues that you talked about and I believe you've certainly got an opportunity to really focus on what we believe at the Department, the student-focused education. We've got to look how does that focus look; what are the alternate ways; what are the innovative ways that we provide students --

SUPT. JEFFCOAT: Absolutely.

DR. GOTCHER: -- that need a quality education.

In my prep for this, looking at -- I had a couple of questions and I typically review a mission statement

first because that gives me an idea. I think you understand that. So primarily, question one, who is your target audience for this virtual academy? Who is your target audience?

SUPT. JEFFCOAT: Well, we have several groups that would benefit from our virtual academy. Of course, our homeschool population is the biggest group that has asked for more input.

DR. GOTCHER: Sure.

SUPT. JEFFCOAT: Actually, we have asked for more input in trying to develop this concept. also have our homeschool families that could benefit. The number of hours that we spend with homeschool families is minimal compared to what they would be able to do in a virtual environment; having that opportunity it's much greater. We also have our atrisk kids. You know, as Representative Deffenbaugh spoke earlier, I do spend time calling our kids that left us the year before. And it was funny, right before he and I sat down and had a conversation I was on the phone with a young lady who had 24-and-a-half credits -- she had 24-and-a-half credits; all she needed to graduate was senior English. That was all, second semester senior English. Well, she quit in March. And I spoke to her parents first and her

parents said, you know, "It broke our heart." has a 3.5 grade point average, and they wanted her to go back but she was with other students who encouraged her to leave, and they left and she left So I was on the phone with her before he and I spoke and I asked her if she would come back this next semester and her answer was no; she couldn't -- she just couldn't face -- it was too hard for her to come back to school and face those students that she had walked away from. option, having a virtual academy where they're at home -- they're going to have the opportunity to complete that coursework in their living room, and then we can support them. The rest of their life will change because of this option that we're providing. When I was in Cabot I did the same thing; I would call those kids who had dropped out the previous year. I'd call them all summer. And I had a few that would come back to the high school campus, but it's really a hard thing for a kid to do after they've quit to step back on a high school campus. So I was able to get a lot of them back but they would enroll in our ACE program, which provides great flexibility and online learning. So that's a big group for us as well. Did I cover all the groups?

MS. ROBBINS: My name is Nancy Robbins; I'm director of Curriculum. Oh, I'm sorry.

DR. GOTCHER: Thank you.

MS. ROBBINS: And -- Nancy Robbins. And one of the groups of students that we'd seen an increase is our number of students that have illnesses, rather serious illnesses that take them possibly to Children's Hospital here in Little Rock. And if they had the opportunity to stay current with their studies via the online curriculum, it would certainly help. We do serve them with homebound teachers but that's certainly minimal compared. Let's say that they are very ill and maybe their window of opportunity of doing some work is maybe two hours, from midnight to 2:00 because of their schedule with treatments and so-forth. So this gives them a lot of opportunity for flexibility. So we have seen an increase in our number of students who face some serious illnesses.

DR. GOTCHER: Good, and thank you. And you alluded to many of those target audiences in your presentation. So in your public comment meeting that you had did you -- in your participants, a lot of the folks that signed up indicated -- well, tell me a little bit about your public comment meeting.

SUPT. JEFFCOAT: Yeah. So we had -- I think we had about 17 that signed in, but we had many more in the audience that came. And the parents -- the majority of people that came were our homeschool parents --

DR. GOTCHER: Good.

SUPT. JEFFCOAT: -- wanting more information.

Because what they're doing is homeschool parents -you know -- and it's really a -- it's a real neat
group. I mean, they do a really good job at
providing a quality education for their kids. But a
homeschool parent that came to the meeting, a lot of
them, they're paying taxes to our school district but
then, in addition, they're having to pay for
curriculum for their student to receive an education.
And so I don't know; for them -- I feel for them in
that regard but a lot of homeschool parents came and
those were the questions that generally came from the
audience was from our homeschool parents.

DR. GOTCHER: Good. All right. And I'll just
-- I have one other question/concern and I'll have
some others later, but I always want to give
opportunity for my panel members.

The name, I was concerned about the name. I know that you recognize there's ARVA, the Arkansas

Virtual Academy. So I think where I was going with the intended audience, if the intended audience is for your community I don't know that -- I'm just concerned about the conflict of the name. I know you guys have discussed this.

SUPT. JEFFCOAT: We did.

DR. GOTCHER: But if your target audience is the Van Buren or that community, talk about the process and why you came to that name when it does look very close, with one letter, to Virtual Arkansas.

SUPT. JEFFCOAT: Yeah. We did talk about that.

DR. GOTCHER: Or Virtual Academy.

SUPT. JEFFCOAT: And Ms. Boyd called me too and we discussed the name. And I don't know if we ever referred to our program as ARVVA until we put in the application as ARVVA, and then we thought of the Arkansas Virtual Academy as ARVA. So it does create a little bit of complication. So we were thinking about possibly dropping the Arkansas and just being the River Valley Virtual Academy, if that helps. But our reason for the name -- we had a large committee that you saw on the screen.

DR. GOTCHER: Right.

SUPT. JEFFCOAT: We just had a lot of conversation about who are the kids we're trying to

reach and it's people that are not connected to our school, and we wanted to give them just the freedom to fill like they're part of a public education. But if they left us because they didn't feel supported or they didn't feel like it was a safe or a great environment for them -- I don't know; it was -- there was a lot of conversation about it, but the committee just felt like "we love the River Valley." If you live in the River Valley, you just -- there's something about it and so we felt like it was powerful; it was a powerful name to have River Valley Virtual Academy.

DR. GOTCHER: Good. All right. Thank you.

I'll let my colleagues ask some more questions.

CHAIRPERSON COFFMAN: Ms. Smith.

MS. SMITH: Okay. I've got all the hard ones for you now. No. Okay. So just listening to you, and you've talked about students that have dropped out and need that credit, and you talked about students who are sick and at home. So when I look at your plan about your grade levels that you're targeting first when you start with 4th through 8th grade it seems like you've kind of limited yourself not to actually serve those students, and especially those high school kids because you wouldn't have the

2

3

4

5

6

7

8

9

10

21

22

23

24

25

waiver then to have that high school kid take that second half of English by limiting yourself this way.

So I need some explanation there.

SUPT. JEFFCOAT: Yeah. So even this morning I've battled with that because I think of those kids, that population. And I don't know if it would be appropriate for me to ask in this setting to have that as an option for us, not for our current seniors that are in school -- well, maybe, if they leave in a semester. But if they disengage from school for a period of time it would really be easy for us -since we're going to have the classes available to us through the vendor, it would be very easy for us to make that happen. And I would love the opportunity; I just didn't know if it was -- if it would be acceptable to have this conversation and consider that as a possibility. We were implementing 4th through 8th to have a -- to take a smaller bite so that we could insure success. Our goal in this is to be a very successful program for our kids. to be the most successful. Just like any other school, we have that desire. We didn't want to go all in K-12 on the first step, so we modeled after our friends north of us who also went 4th through 8th and have implemented -- they've done a good job of

implementation and feel good. But I would sure love the opportunity to meet the needs of those kids who did drop out. So if that would be appropriate to request that you allow us to do 4th through 8th but then also provide this as an option for our high school dropouts that would be great.

CHAIRPERSON COFFMAN: Ms. Davis, the hearing today is a negotiation of the charter. So what are the ramifications of loosely allowing high school students?

MS. DAVIS: Well, I mean, if you're going to allow high school students then that would be an amendment to their application that they've stated that they want to start it now. And there was an issue on that with one of the waivers, and I was trying to find that real quick. On the waiver sheet they had requested some of the 38 units in order to grow. So if they're going to be offering the high school students from -- if one was granted today, as soon as that's granted, then we would need to see if they still need this waiver, so -- or if it would just be offering as-needed through the next two years until they get all 38 being offered.

CHAIRPERSON COFFMAN: So the plan is through 2022?

MS. DAVIS: Right. Well, they have in their -they requested a waiver of the, like I say, the 38
units, that they want to be able to grow. And so my
question on that that was remaining was they need to
confirm do they intend to just use the waiver until
they have completed the growth in years two and three
to include grades 9 through 12. But if they're going
to include grades 9 through 12 now then they don't
need this waiver.

CHAIRPERSON COFFMAN: You'll have to speak into the microphone for the reporter.

SUPT. JEFFCOAT: Yes. So that is correct. We did ask for that waiver for implementation, the implementation period because we knew the students that we would serve early on would not need those courses. But it would be fine for us to rescind that waiver because for the students that -- we're going to have the courses available to us. We just asked for the waiver basically because the students we serve were not those that would be provided -- yes.

MR. WALTER: Good morning. Tripp Walter, Staff
Attorney, APSRC. I don't want to detract from what
Dr. Jeffcoat is saying. I think we're okay with what
Ms. Davis' comment was originally. If the
flexibility could be there -- because I don't know if

| 1 | he knows at this time exactly who would be served, |
|----|-------------------------------------------------------|
| 2 | that if it was a situation where 9 through 12 |
| 3 | students weren't being served all at once in the |
| 4 | first year that the flexibility would be there to |
| 5 | phase-in so-to-speak the courses. As he said, |
| 6 | obviously there would be no attempt to circumvent the |
| 7 | 38, but just if it was a situation for example, |
| 8 | only 9th or only 10th came in that they have the |
| 9 | flexibility to just offer those pieces of 38 and then |
| 10 | build out as necessary. |
| 11 | MS. BOYD: Also, one other concern I would have |
| 12 | is that the initial contract is only for five years. |
| 13 | And looking at the goals there is not a goal set for |
| 14 | students in grades 11 and 12; there are only goals in |
| 15 | there that are for 3 through 10. So I would like to |
| 16 | see a goal set for that too. |
| 17 | CHAIRPERSON COFFMAN: Dr. Jeffcoat, would you |
| 18 | like to address that? |
| 19 | SUPT. JEFFCOAT: Yes. So, I'm sorry; I heard |
| 20 | part of it, that there's not a goal for |
| 21 | CHAIRPERSON COFFMAN: With the flexibility |
| 22 | Ms. Boyd is recommending that there be a goal set for |
| 23 | grades 11 through 12 |
| 24 | SUPT. JEFFCOAT: Okay. |
| 25 | CHAIRPERSON COFFMAN: in case one of those |

| | 37 |
|----|------------------------------------------------------|
| 1 | students that you described it was 11th through |
| 2 | 12th grade; is that correct? |
| 3 | MS. BOYD: I'm sorry; I'm wrong. There is |
| 4 | they have a goal for the college entrance exams and |
| 5 | that's sufficient. Sorry. |
| 6 | CHAIRPERSON COFFMAN: Okay. All right. All |
| 7 | right, Ms. Smith; back to you. |
| 8 | MS. SMITH: Well, you got a lot of input on that |
| 9 | one. |
| 10 | SUPT. JEFFCOAT: See, you did ask the hard |
| 11 | question. |
| 12 | MS. SMITH: Okay. Now I forgot what my second |
| 13 | question was. I had one. You'll have to come back |
| 14 | to me because I forgot it. |
| 15 | CHAIRPERSON COFFMAN: Will do. Ms. Pfeffer. |
| 16 | MS. PFEFFER: Good morning. |
| 17 | SUPT. JEFFCOAT: Good morning. |
| 18 | MS. PFEFFER: My question is really for |
| 19 | clarification in terms of it seems like you were |
| 20 | referencing a waiver from licensure but then it |
| 21 | seemed like you were saying, "We're only going to |
| 22 | hire licensed teachers." So just to make sure that |
| 23 | the application is what you need it to be, can you |
| 24 | clarify whether or not you are seeking a waiver from |
| 25 | license and what that would look like? |

SUPT. JEFFCOAT: We are seeking a waiver for licensure but not to circumvent hiring licensed teachers. We are asking for the waiver because we may have teachers that are certified in certain grade levels, 4 through 8, for example, that may have to cover a 3rd grade -- work with a 3rd grade student. And we just want to have that flexibility to be able to get the best teachers for the job. And this is a different concept, as well. This is -- the teacher/facilitator role that they'll have is a little bit different and we just want to have that flexibility for teachers that may be certified in grade levels, be able to work with grade levels that they may not be certified for.

MS. PFEFFER: Okay.

SUPT. JEFFCOAT: But they will be Arkansas licensed teachers.

MS. PFEFFER: When possible, you'll have
Arkansas licensed teachers; if not, then you have
that flexibility. One thing I did notice is that you
were referencing HQT. So if you do hire a nonlicensed teacher in a core area they would need to
meet the Arkansas Qualified Teacher (AQT)
requirements --

SUPT. JEFFCOAT: Yes, ma'am.

| 1 | MS. PFEFFER: since HQT is no longer in |
|----|-------------------------------------------------------|
| 2 | place. |
| 3 | SUPT. JEFFCOAT: Yes, that is correct. |
| 4 | MS. PFEFFER: And the situation you described |
| 5 | where you might have a teacher licensed 4-8 but |
| 6 | teaching in grade 3 very likely would meet AQT rules |
| 7 | |
| 8 | SUPT. JEFFCOAT: Yes. |
| 9 | MS. PFEFFER: because of their work |
| 10 | experience, so okay. I think that was the main |
| 11 | clarification. Then my other question, on the |
| 12 | schedule that you all shared with us this morning |
| 13 | and I just want to make sure I'm understanding this |
| 14 | right this would be a proposed schedule for |
| 15 | someone that it's not set up where the teachers |
| 16 | are actually instructing at these times |
| 17 | SUPT. JEFFCOAT: That's correct. |
| 18 | MS. PFEFFER: and the student but this |
| 19 | would be this is for parents to help you know |
| 20 | for example, as a 1st grader they would follow |
| 21 | this, but it could be they might not start until noon |
| 22 | that day and work. Is that correct? |
| 23 | SUPT. JEFFCOAT: Yeah. That's really the beauty |
| 24 | of this model. You know, the young lady that I spoke |
| 25 | of earlier, she was at work when I called her and, |

you know, the question I asked was, "Would you come back next semester," and she said, "I'm working now." When they would work -- and that's going to happen with a lot of kids that would take advantage of this opportunity are going to be those that have obligations at different times throughout the day. So, yeah, that is just -- as I said earlier, it's just an example; it's a possibility, but by no means is it exactly how it will look for all students.

MS. PFEFFER: But I can see where having something planned out could be very helpful.

SUPT. JEFFCOAT: Yes

MS. PFEFFER: Because, as you said, it's adults going through virtual learning and then putting that into a situation for students where, you know, there is so much flexibility sometimes it is good to have a plan. So those were the only questions I have right now. Thank you.

SUPT. JEFFCOAT: Thank you.

CHAIRPERSON COFFMAN: Dr. Saunders.

DR. SAUNDERS: Yes. I wanted to clarify on the 38 units that we were talking about earlier. I was confused at the end of that. So is it my understanding that what you had agreed to was a waiver of the 38, even if kids 9 through 12 get

enrolled next year?

1

2

23

24

25

SUPT. JEFFCOAT: What we're asking for is the flexibility to provide what of the 38 that are needed for the kids that would be enrolled -- is that fair, is that correct? -- with the understanding that we'll have the full 38 after we have grade levels being served that would require that. Do you want to -- is that about --

MR. WALTER: And understand it's a little more -- it's a little unique in the virtual setting but I think we've had this -- or other applicants, I should say, have had these similar conversations with the Panel before about phasing it in. I think here -and Dr. Jeffcoat can correct me -- if we had a situation, for example, that the only students that were being served initially were 9th and 10th grade, as he said, Van Buren would like the flexibility to just offer those applicable parts of the 38. turns out that they have a student who's in 12th grade or 11th grade and need the more advanced, soto-speak, courses within the 38, then they are not seeking to waive that, that they would offer those as well.

SUPT. JEFFCOAT: That's correct.

DR. SAUNDERS: Okay. The model that I'm seeing

| | 72 |
|----|-------------------------------------------------------|
| 1 | and I may not be understanding your model |
| 2 | entirely, but there would be if you had a catalog |
| 3 | of courses that could be implemented pretty much at |
| 4 | any time, ready to go |
| 5 | SUPT. JEFFCOAT: Yes, sir. |
| 6 | DR. SAUNDERS: as a student enrolled. |
| 7 | SUPT. JEFFCOAT: Yes. |
| 8 | DR. SAUNDERS: So would those 38 not be offered |
| 9 | in that catalog initially from day-one? |
| 10 | SUPT. JEFFCOAT: Well, of course, we'll be |
| 11 | working with vendors that offer this. Virtual |
| 12 | Arkansas offers all these courses as well. It would |
| 13 | just depend on as for the catalog, how it would be |
| 14 | catalogued and listed, you know, I think it would |
| 15 | just depend on our vendor and who we're providing |
| 16 | these courses through as to what would be in that |
| 17 | exact catalog. But the thirty of the 38, as Tripp |
| 18 | has shared, the students that are requiring those |
| 19 | certain courses to graduate, which are the ones |
| 20 | what we're talking about right now is just those |
| 21 | students who have dropped out of school and they need |
| 22 | that one, two, three credits |
| 23 | DR. SAUNDERS: Right. |
| 24 | SUPT. JEFFCOAT: whatever it is, that's what |
| 25 | would be offered. |

DR. SAUNDERS: And maybe Counsel -- it may be a question for you. I think that my understanding is on the 38 just offered, not necessarily taught; correct?

MS. DAVIS: Right. If there's no students that are taking that course, then they don't have to actually teach it.

DR. SAUNDERS: Right.

MS. DAVIS: It just has to be offered. So I think without having the waiver, if they have the courses available it would allow a student who did come in -- those courses would still be there and they could teach that course if somebody needed it. So I don't think that they would necessarily need the waiver to do what it is that he's saying he's doing, but I could be misunderstanding because I'm not an educator.

DR. SAUNDERS: That's what I'm trying to understand. I'm just not seeing why the waiver is necessary. It sounds to me like you're going to be offering those, I mean, as the students come in. And whether you actually teach those is dependent upon the student needs and requests, but that those would be offered through your catalog of courses.

SUPT. JEFFCOAT: We would like to rescind the

| | 44 |
|----|-------------------------------------------------------|
| 1 | waiver for 38 because, I agree, I think that yes, |
| 2 | that's correct; they will be provided. They'll only |
| 3 | be taken advantage of for the students that need it. |
| 4 | So, yes, that's correct. |
| 5 | DR. SAUNDERS: Okay. All right. |
| 6 | SUPT. JEFFCOAT: So we will so we'll do |
| 7 | you want to word it? |
| 8 | MR. WALTER: No. That's fine. We just wanted |
| 9 | to make sure that that was there was that common |
| 10 | understanding. And I suppose for the virtual setting |
| 11 | that what, Dr. Saunders, you've described as the |
| 12 | catalog of courses so-to-speak or whatever translates |
| 13 | from the ADE's perspective pardon me into the |
| 14 | master schedule concept if this were a traditional |
| 15 | district. |
| 16 | DR. GOTCHER: Dr. Saunders, the way I heard it, |
| 17 | by definition they are offered, so they meet that |
| 18 | letter, so I would agree that the waiver is not |
| 19 | necessary. Because potentially they're all offered |
| 20 | |
| 21 | MS. DAVIS: Right. |
| 22 | DR. GOTCHER: but the student is not |
| 23 | necessarily participating. So, okay. I heard that |
| 24 | too. |
| 25 | CHAIRPERSON COFFMAN: That was your original |

question?

MS. SMITH: Since I caused all this mess -okay. So I wanted to make sure too that -- I know
you've talked about digital provider versus provider.
But are there any plans for -- I mean, because you
still have the large Van Buren School District -SUPT. JEFFCOAT: That's correct.

MS. SMITH: -- behind this. So do you have plans for current programs and teachers in your Van Buren School District to offer digital courses that

SUPT. JEFFCOAT: Yes. So that's one thing that we're looking for with a provider. We want to have that flexibility to -- if we feel like it's something that we can create or provide for our students that we have that flexibility. If we have a teacher that's certified in a specific content area that we feel like they could provide the curriculum and instruction virtually, we want to have that flexibility. So that's the type of vendor that we're pursuing is one that would allow us the opportunity to serve our kids. But, yes, we do have -- we have a wealth of resources in our school district that we will take advantage of.

MS. SMITH: Okay. And also throughout you talk

about these face-to-face meetings where they have the opportunity to come to the campus and have those face-to-face meetings. Just to push a little bit on the whole idea of a virtual school and the platform of using Skype or Zoom or having that personal contact, that's still face-to-face --

SUPT. JEFFCOAT: Yes.

MS. SMITH: -- and not necessarily has to be on campus, so making sure that you guys have a plan for that. What about students who want to be a part of your charter who may not -- who don't have the technology? Is that still the parents' responsibility or --

SUPT. JEFFCOAT: No.

MS. SMITH: -- is that something y'all have plans for?

SUPT. JEFFCOAT: Yeah. We're going to make available -- we have the resources. Especially with this last millage increase that we -- that our community so strongly supported, we have the resources to provide a device for students that are in need if they can show a hardship. We may not -- it's not going to be a device that we give them, but it will be a lending process where they'll have a device available. But we feel like we can support

that for all of our students that would have that need.

MS. SMITH: Okay. And then just kind of going back on that very first question about how you were doing the grade levels and encouraging today to go after your at-risk students -- and I'm not sure how that needs to be worded to amend, but that's what you talked about. The whole time you stood up there you talked about those kids that you're missing and you won't get them for five years unless we add that part today. And so I think that is a specific part of your plan today.

SUPT. JEFFCOAT: Well, and I really appreciate you all giving us that opportunity. It'll take care of a lot of kids because there's a window of time that that young lady that I just gave the example of -- there's a window of time that she has to complete that senior -- that second semester of senior English. So, thank you.

MS. SMITH: Thank you.

CHAIRPERSON COFFMAN: Ms. Pfeffer. Dr. Saunders.

DR. SAUNDERS: Yeah. Okay. In looking at the application, going down to the goals I understand that you have amended the goals and one of them in

particular I was looking at is the last one concerning taking the college entrance exams. And my question would be: do you feel that there needs to be a performance goal there or just the fact that the kids took the test?

SUPT. JEFFCOAT: I'm going to defer to Nancy Robbins. She worked with the committee that developed those goals. So I'll let you speak to that.

MS. ROBBINS: Well, we certainly want to look at how they're performing in relation to the other -- our regular ed. students, to look at performance. So, yes, we did toy with some ideas in terms of looking at 19 because we would expect the students have an ACT of 19 before they leave so that they could qualify for higher education. So we didn't actually put a number in there; we were back and forth on that number, so we thought we would probably look at it in terms of are they scoring equal to our regular ed. students and looking at the state average on the ACT scores and kind of expecting them to be in line with the state average.

DR. SAUNDERS: So would you want to put that in the goal as the school's score --

MS. ROBBINS: That'll be fine. Yes, that'll be

| | 49 |
|----|-------------------------------------------------------|
| 1 | fine. |
| 2 | DR. SAUNDERS: either state or compared to |
| 3 | the local, either one, whichever? |
| 4 | MS. ROBBINS: I think that that would be a |
| 5 | wonderful thing to go ahead and add. We were just |
| 6 | really unsure of a particular number. But I think |
| 7 | that the average of the state would probably be a |
| 8 | really good one |
| 9 | DR. SAUNDERS: Okay. |
| 10 | MS. ROBBINS: to add to it. So, yes. |
| 11 | DR. SAUNDERS: Okay. |
| 12 | MS. ROBBINS: And local, could we change that to |
| 13 | local instead of the state? |
| 14 | SUPT. JEFFCOAT: The reason we'd like to for |
| 15 | this goal we're thinking of our community and our |
| 16 | students and our scores right now, and our local is a |
| 17 | little lower in a couple of areas. So to make it a |
| 18 | realistic goal, an achievable goal, we would like to |
| 19 | compare it to local. And while our whole if we're |
| 20 | going to put a percentage local would be preferred. |
| 21 | CHAIRPERSON COFFMAN: Mr. Rogers. |
| 22 | MR. ROGERS: I just had a question about the |
| 23 | enrollment cap and the rollout. Is it based off data |
| 24 | that had interested parties or was it capacity? I |
| 25 | was just wondering |

| 2 2 | 1 | | SUPT. | JEFFCOAT: | Ιt | was | capacity |
|-----|---|--|-------|-----------|----|-----|----------|
|-----|---|--|-------|-----------|----|-----|----------|

MR. ROGERS: -- where the 325 came from.

SUPT. JEFFCOAT: It was capacity. We were just thinking of the number of students that we feel like we can serve in the space that we have available to us right now. That number could change. We may come back at some point and ask for that number to change. We may not always be at the Van Buren Freshmen Academy. We may -- if we have a very successful program and have more students enroll in the program than anticipated, we may have to look at moving. And if we relocate, we'll come back and ask for that change.

CHAIRPERSON COFFMAN: Dr. Saunders.

DR. SAUNDERS: Yes. On the application it says there's no plan to offer pre-AP courses. I'm just curious why that is.

SUPT. JEFFCOAT: Ms. Robbins. I'll let Ms. Robbins come up and answer that one, as well.

MS. ROBBINS: We have looked at providers and we haven't made an actual selection. But, yes, pre-AP is available in some providers and also GT services from 3rd grade and above. So, yes. But to say -- we think that most of the students in that middle level would be interested in probably accelerating

coursework as much as taking those pre-AP classes. 1 But we are looking at providers that have the pre-AP. 2 DR. SAUNDERS: So are you removing that section 3 from the application? So the plan is to offer pre-AP 4 5 courses? MS. ROBBINS: Well, we wanted the flexibility to 6 7 be able to let them take the actual accelerated courses as opposed to just the pre-AP classes, so --8 9 I may not have understood the question; I'm sorry. 10 DR. SAUNDERS: Okay. It just -- it states in your statement currently there's no plan to offer 11 12 pre-AP courses and I wonder why would those 13 accelerated courses not be pre-AP courses if that's the route you're going? 14 15 MS. ROBBINS: Okay. So if a student in the 8th 16 grade takes, you know, geometry, algebra courses 17 ahead of time, those are not actually pre-AP courses, 18 so those are accelerated. So they're taking curriculum, you know, that's more advanced than 19 20 taking a pre-AP. 21 DR. SAUNDERS: Okay. So for another child 22 though the pre-AP option would not be there? 23 MS. ROBBINS: That's why we were looking at 24 vendors that have -- some vendors do not have them, 25 some vendors do have them. So that's the reason why

25

we had asked for the waiver because we haven't actually contracted with a particular vendor, so --

DR. SAUNDERS: Okay. Looking on the next page of that application it says, "Requested a waiver for art, music, and physical education," and it says, "ARVVA will use an online provider which has fine art, music, and physical education courses students can take each year." And my question is: if that's going to be available, why is the waiver needed?

MS. ROBBINS: Okay. And that's -- in thinking about art and music we want some flexibility so that -- most of the providers their art and music courses run anywhere from three to five hours a week, which is much more than what we're traditionally used to in our classrooms, and so -- in our schools. would like the parents to have the option of -- let's say the first semester they wanted to take music, the second semester they wanted to take art; they're going to have it compacted three to five hours during a week of music and then the second semester art. And so you're talking about your elementary students, and we certainly are committed to them having both art and music. This just gives us some flexibility to be able to offer it in different types of ways or times. I think it's the time element, so --

DR. SAUNDERS: But on your waivers for the time
-- I know you have waivers on the school day, all
those things. Do those not address that?

MS. ROBBINS: Yes. Waivers on time --

SUPT. JEFFCOAT: I'm sorry?

MS. ROBBINS: And I thought we probably had to do both; you know, that's my understanding is that we would ask for the waivers in both ways, the time and -- and that could be my misunderstanding.

SUPT. JEFFCOAT: I see what you're saying, and I agree. If -- I mean, if it's appropriate for us to ask for the waiver of the time as opposed to the waiver of the offering -- because we will be offering and we're meeting the standards, the requirements -- if that -- if it's understood here that students will have the flexibility to maybe take one course, maybe take music one semester, art the next semester, and us just waive the time requirement, then I think that would be appropriate. Tripp, what do you --

MR. WALTER: Yeah. I think, as you can tell from the discussion, what the district was interested in doing is making sure that it wasn't an attempt to avoid or diminish standards but just looking for the best way with a waiver to try and make sure that they could offer -- maybe not the best analogy but kind of

like teacher prep time, the 200 minutes, not that you necessarily have to give it all in blocks of at least 40 minutes but they have some flexibility to do -- some charters want the flexibility to give it in different ways. And it's the same thing here, is given the nature of the providers if it would be possible to do it in a different way and in different size blocks or whatever.

DR. SAUNDERS: And I guess that's the way I'm looking at it is I separate it as being -- I know there are multiple waivers on time, attendance, things of that nature. But with this particular one it's a waiver from those courses being offered.

MR. WALTER: Right. So I think the intent was not a waiver on the courses but trying to find a way to get flexibility from the time requirements since those are contained within those sections.

DR. SAUNDERS: So does there need to be a waiver then of those courses being offered?

MS. DAVIS: If they're going to offer the courses, then no. I understand that they may offer them not in the six-hour day, 30-hour week, that kind of stuff, and they already have requested waivers for that and 120 clock hours. So if they are going to offer them, then they do not need these waivers for

the specific sections of art and physical education.

MS. SMITH: Is it not legislated though that PE be 60 minutes per week or something like that -- I mean, in law? So they would need that waiver; I mean, I want to say that that one is together. I want to say art and music in elementary is not in the law. It says you have to offer it, but it doesn't give the minutes. And the minutes are reflected in Standards of Accreditation as far as time, 40 minutes per week. So we need to look at the PE one. That's the only one that I can think of that maybe has the time and the course in legislation and not in rules. I mean, am I right on that?

DR. GOTCHER: I believe so.

MS. SMITH: The other ones I'm not so sure.

SUPT. JEFFCOAT: So you understand, we'll provide the courses for the students, but the flexibility for time and when that would be provided would be what we request.

MS. DAVIS: The time is for PE for grades 5
through 8; 9 through 12 just says a half unit of PE
is required for graduation. For students in grades 5
through 8 any combination of at least 40 minutes as
determined by the superintendent, duh-duh-duhduh-duh-duh. So I don't know where their target is

| | 56 |
|----|-------------------------------------------------------|
| 1 | for their grades at this point. So if it is 5 to 8, |
| 2 | they do need a waiver of the specific subsection of |
| 3 | that law, but I don't think that they need a waiver |
| 4 | of the standards that accompany it because that would |
| 5 | be a waiver of offering it. Yeah. |
| 6 | MS. SMITH: Okay. |
| 7 | CHAIRPERSON COFFMAN: Dr. Jeffcoat, they've gone |
| 8 | their separate ways, so I think that means you. |
| 9 | SUPT. JEFFCOAT: Okay. I'm back. |
| 10 | CHAIRPERSON COFFMAN: So to recap what I think I |
| 11 | heard there was that instead of waiver of the |
| 12 | standards that you would need a waiver of the |
| 13 | particular code Jennifer, the code number again |
| 14 | was |
| 15 | MS. DAVIS: I'm verifying whether they need an |
| 16 | entire section or the whole code. |
| 17 | CHAIRPERSON COFFMAN: Okay. |
| 18 | MS. DAVIS: So give me one minute. |
| 19 | CHAIRPERSON COFFMAN: Okay. I wish we had that |
| 20 | tick-tock music. |
| 21 | MS. DAVIS: No, I'm glad we don't. |
| 22 | CHAIRPERSON COFFMAN: Well, while we're waiting |
| 23 | I'll ask you a different question. |
| 24 | SUPT. JEFFCOAT: Okay. |
| 25 | CHAIRPERSON COFFMAN: In your process for |

enrollment into the River Valley Virtual Academy, and with the cap of 125, do you foresee that you will save some spaces for those special cases -- for example, these at-risk children or a child that may develop an illness, as Ms. Robbins --

SUPT. JEFFCOAT: Yes.

CHAIRPERSON COFFMAN: -- described?

SUPT. JEFFCOAT: Well, we'll -- for students that are wanting to attend, you know, for our maximum number for 4th through 8th in this upcoming school year, that's something we probably need to talk about because we have 125 for 4th through 8th and that's what we have designated. But for our students that may have dropped out of school we don't have a number for that. And unless that's going to be part of our 125, it's probably a conversation we need to have. I'd like for it not to be part of our 125, but I'm not sure what -- maybe Ms. Robbins knows what number we would -- for our students that --

MS. ROBBINS: We'd probably need to add about 20 for students that are ill and then special circumstances. We might even need to look at another 10, so that would be about 30 students. So that's about the numbers that we have currently in terms of our students who possibly have illnesses and then

| | 50 |
|----|------------------------------------------------------|
| 1 | probably another 10 if we were looking at I don't |
| 2 | have a feel for exactly how many are in the category |
| 3 | that Dr. Jeffcoat has talked about; I know that it's |
| 4 | probably around 10 of those students, so |
| 5 | CHAIRPERSON COFFMAN: So repeating what I think |
| 6 | was just said |
| 7 | MS. ROBBINS: I said about 30 students |
| 8 | CHAIRPERSON COFFMAN: Yeah. |
| 9 | MS. ROBBINS: probably would be that number |
| 10 | that we would need to have as an extra. |
| 11 | CHAIRPERSON COFFMAN: So 125 for the grades 4 |
| 12 | through 8, with additional 30 |
| 13 | SUPT. JEFFCOAT: Yes. |
| 14 | CHAIRPERSON COFFMAN: flexible slots? |
| 15 | SUPT. JEFFCOAT: Yes. I think that would be |
| 16 | fine. Actually, I had 34 that I called the other |
| 17 | day, so 34 that left us last year. So that would |
| 18 | I think 30 would be reasonable for us. |
| 19 | CHAIRPERSON COFFMAN: And funding-wise that |
| 20 | would not be an issue for the district? |
| 21 | SUPT. JEFFCOAT: No, ma'am, it would not. |
| 22 | CHAIRPERSON COFFMAN: And so just to clarify |
| 23 | then, Dr. Jeffcoat, would that be as we're looking |
| 24 | at the yearly maximum enrollment, would you be |
| 25 | raising each one of those years by 30? |

| 1 | SUPT. JEFFCOAT: If we could raise the first |
|----|-------------------------------------------------------|
| 2 | well, I guess it would be four years before I finally |
| 3 | got all K-12. The next year, fifth year, would be K- |
| 4 | 12. What formula would be used? I think if we could |
| 5 | raise to 30 until the final year of implementation, |
| 6 | which then we could be at our maximum that we're |
| 7 | proposing for all K-12, if that would be appropriate. |
| 8 | CHAIRPERSON COFFMAN: So according to the |
| 9 | maximum enrollment as listed in the application, plus |
| 10 | 30 floating slots, until 2021? |
| 11 | SUPT. JEFFCOAT: Yes. With full implementation |
| 12 | and maximum enrollment. |
| 13 | MS. DAVIS: Are you ready for me? |
| 14 | CHAIRPERSON COFFMAN: (Shaking head from side to |
| 15 | side.) |
| 16 | MS. DAVIS: Okay. |
| 17 | CHAIRPERSON COFFMAN: Now we are. |
| 18 | MS. DAVIS: Okay. Okay. So for the visual arts |
| 19 | I mean, the fine arts and the physical education |
| 20 | they will need a waiver of 6-16-130. I am uncertain |
| 21 | if in grades 7 and 8 it says that they shall |
| 22 | this is for visual art or music that students in |
| 23 | grades 7 to 8 shall participate in visual arts |
| 24 | instruction or performing arts. Are you going to |
| 25 | require that for grades 7 to 8? |

MS. ROBBINS: Yes.

MS. DAVIS: Okay. So if they need that, then they only need 6-16-130(a). They do not need (b). And then for PE it's 6-16-132; they only need subsection (b)(1)(a) and they do not need the standards because they will be requiring it.

CHAIRPERSON COFFMAN: Dr. Jeffcoat, your response?

SUPT. JEFFCOAT: That would be agreeable to us.

That would be the minute restrictions and that would allow us to provide what we're proposing.

CHAIRPERSON COFFMAN: I want to come back to one further question on the enrollment. The young lady that you described that needs senior English would be -- while that would be one student, it's not a full -- what I would consider a full-time student. Then, Jennifer, in your mind if he had another student that needed a couple of courses would they still be -- in the seat capacity, is that one or two students?

MS. DAVIS: You know, I -- you know, I don't think that it really states that, you know, seat capacity is that you're in class seven, you know, periods a day. I would think that if you are a student and you are taking a slot then you are taking a full slot; that like there's no, like, co-sharing

That's how I would view it. of slots, you know. I don't think that the law states nor does it -- I mean, because it looks at how many people are If you have 125 and your cap is 125, it enrolled. doesn't matter if they're full-time enrolled, half-It just looks at the number of time enrolled. students. But it is -- I mean, it's kind of a gray area but it does look like just the number of But I do have a question to follow-up on students. the number of spots he was discussing phasing in. But we talked earlier on the 38 units, but they want to be able to offer students now who may need upper So they either have to phase it all in now grades. or they don't phase it in, and those students still aren't targeted at this point. Even if they can offer those, say, the 12th grade class, if they are not approved at this point for four years later for 12th grade, then there's no 12th grade. Does that make sense? I mean, they either have to go full K-12 now or they go K through 8 and add on each year in their phase-in program. It doesn't mean that they have to go full enrollment but -- does that make I mean, I'm kind of seeing you either get one sense? or the other.

CHAIRPERSON COFFMAN: You're saying give them

the full maximum enrollment of 325 and then
internally they're making their phase-in plan?

MS. DAVIS: That's how they could do it. I mean, they could choose to admit -- I mean, you know, they could choose to kind of handle that or how they're going to target those students and handle that internally on a basis like that. But either they're at full K-12 and they offer all the 38 units or they're at K-8 and the next year they add on 9th grade but there are still no seniors; the next year they add on 10th, there are still no seniors. It's not -- the senior that's in question that needs a senior English wouldn't get it for four more years. There's either all or no phase-in, if that makes sense.

DR. GOTCHER: I think maybe for Dr. Jeffcoat. Thinking of this systemically, what would you and your team think about in terms of a gradual implementation? I'm concerned about a full K-12 implementation.

SUPT. JEFFCOAT: Yeah. Well, but I think that what we're saying is we would have the flexibility to implement the program as we see it needs to be implemented. But our preference -- if we have this choice, if this is the only way that we can meet the

needs of my second semester English young lady, I would rather have us approved for all now and allow us to just implement as we see we are able and capable. And that will be 4 through 8 to start this next school year and then implementation going up and down one grade level each year, but then have that flexibility for the students that would benefit. So that would be my preference.

MS. DAVIS: Right.

DR. GOTCHER: So the window for K-12 would be there but you would still implement 4-8, and if the half-credit English student example occurred that would be available?

SUPT. JEFFCOAT: If that's how we need to do it to insure that we're giving these kids who have -- who need a chance to graduate, then that's what we would like to request.

DR. GOTCHER: Ms. Davis?

MS. DAVIS: You know, much like we do have some charters that have an enrollment cap that's greater than their current building capacity and they just choose to only accept so many because that's all that they can handle, internally they can make policies that say we're going to accept full K-12 but we're only going to take, you know, 5, 10, whatever number

| 1 | of, you know, seniors; we're going to take up to |
|----|-------------------------------------------------------|
| 2 | eight 11th grade for this first year; for the second |
| 3 | year we'll had on, third year we'll add on, and |
| 4 | things like that. They could do that internally, |
| 5 | much like if it was, you know, brick-and-mortar or |
| 6 | building capacity. But if not, then it still |
| 7 | couldn't meet their need without that, if that makes |
| 8 | sense. |
| 9 | DR. GOTCHER: Ms. Pfeffer, is that does that |
| 10 | change anything from your perspective regarding |
| 11 | licensing? |
| 12 | MS. PFEFFER: No. |
| 13 | DR. SAUNDERS: And I'll I would encourage |
| 14 | that. I think just something to consider is if you |
| 15 | do set something up like that, and say it's 8 in each |
| 16 | grade level or whatever else I understand the need |
| 17 | for that, to put that in writing, but also you may |
| 18 | want to consider putting a clause in there that once |
| 19 | that cap is reached these numbers may be revisited. |
| 20 | SUPT. JEFFCOAT: Yes, sir. |
| 21 | DR. SAUNDERS: Okay? |
| 22 | SUPT. JEFFCOAT: Okay. |
| 23 | DR. SAUNDERS: If there is a great need there. |
| 24 | SUPT. JEFFCOAT: Sure. |
| 25 | DR. SAUNDERS: You understand? |

| | 65 |
|----|-------------------------------------------------------|
| 1 | SUPT. JEFFCOAT: I agree. Yeah. Yeah, we can |
| 2 | certainly do that. |
| 3 | CHAIRPERSON COFFMAN: Are we all in agreement? |
| 4 | Okay. Ms. Boyd. |
| 5 | MS. BOYD: Could you just clarify what we're in |
| 6 | agreement to? |
| 7 | MS. PFEFFER: I'm with Ms. Boyd. |
| 8 | CHAIRPERSON COFFMAN: So I think what I heard is |
| 9 | that Van Buren is now requesting a maximum enrollment |
| 10 | of 325 and then they will set for a K-12 system. And |
| 11 | then internally they will set their own procedures |
| 12 | for how to grow that at the capacity that suits the |
| 13 | needs of their educators and mostly their students. |
| 14 | MS. BOYD: Thank you. |
| 15 | DR. SAUNDERS: But just to make sure we're |
| 16 | consistent and know what would be happening, I think |
| 17 | it would be at a minimum of those projections on |
| 18 | those grade levels that you had in the application. |
| 19 | Correct? |
| 20 | SUPT. JEFFCOAT: And it will be. |
| 21 | DR. SAUNDERS: Yeah. |
| 22 | SUPT. JEFFCOAT: Yeah. |
| 23 | CHAIRPERSON COFFMAN: Well, then I don't think |
| 24 | we can I mean, if they fell at 124 we're not going |
| 25 | to hold that against them. |

DR. SAUNDERS: I guess what I'm saying is to make sure that the 4 through 8 is there and then the 3 through 9, the expansion as the years go by, to insure that it's following that type of model.

CHAIRPERSON COFFMAN: I think that's why we're leaving it up to them.

DR. GOTCHER: Based upon --

CHAIRPERSON COFFMAN: Their capacity.

DR. GOTCHER: On capacity and demand?

CHAIRPERSON COFFMAN: Right.

MS. SMITH: And I'll be honest too, I think when you start looking at a model like this, I think this is where we are both kind of trapped in our world of traditional, what we think of traditional school grades, time, place, where you teach, and we're moving to a more flexible personalized model. when we get into digital offerings and you're able to have kids quickly going through courses, I mean, I think that you're going to have a more fluid grade level chance. I mean, I still think that we're having trouble thinking outside the box on this. have probably more concerns about providing digital offerings to younger students than I do older So I guess my concern -- yeah, I mean, I students. would probably have some concerns next year if all of

a sudden they had 50 kindergarteners and -- I mean, I think that's what you're saying is, you know, make sure that the district is adhering to a plan as far as growing and being flexible enough to respond as needed to areas of need. I mean, if you see -- I really think that you're going to be surprised at your high school kids that are going to come out to say, "I want to be a part of this." I think that 30 -- you're going to exceed that number quickly.

SUPT. JEFFCOAT: Yeah. And, Ms. Smith, we have the exact same concerns with the younger kids. We want to have -- that's why we want to practice. We want to have some time where we really build a great, strong, successful program for our kids before we move down; much more comfortable in moving up at a faster rate than moving down. So we will not have 50 kindergartners in our virtual academy next year. That would not be our -- part of our plan as we phase in.

CHAIRPERSON COFFMAN: Yeah. I think what -- as

I was kind of thinking about that, like you said, you
know, you don't really know what the needs of the
kids are going to be until you get into this. But
also that if you see that you need to slow down --

SUPT. JEFFCOAT: Yes.

| 1 | CHAIRPERSON COFFMAN: I think you need to |
|----|-------------------------------------------------------|
| 2 | have that flexibility that if you say, "Okay, we're |
| 3 | not ready to go to 3rd grade; we're more capable of |
| 4 | going up the grades than down the grades" |
| 5 | SUPT. JEFFCOAT: That's right. |
| 6 | CHAIRPERSON COFFMAN: then I think that's |
| 7 | appropriate. Ms. Pfeffer. |
| 8 | MS. PFEFFER: Something I had jotted down from |
| 9 | your presentation, Dr. Jeffcoat, is to accelerate |
| 10 | learning by one-and-a-half years. I mean, the |
| 11 | potential is there where a student in an elementary |
| 12 | grade could move from 3rd grade to 5th grade in terms |
| 13 | of when, what we would typically have a school year. |
| 14 | And with what Ms. Smith just said it clicked to me |
| 15 | that probably putting numbers for specific grade |
| 16 | levels really is limiting what you could potentially |
| 17 | do |
| 18 | SUPT. JEFFCOAT: Sure. |
| 19 | MS. PFEFFER: especially if we move into a |
| 20 | time where in education where time is the |
| 21 | variable. |
| 22 | SUPT. JEFFCOAT: Yeah. |
| 23 | MS. PFEFFER: And, therefore, you know, we |
| 24 | wouldn't want to have students who actually |
| 25 | accelerated their learning |

SUPT. JEFFCOAT: Yeah.

MS. PFEFFER: -- and moved up or -- you know -- changed those grade levels. So I -- my thoughts are that it would be a -- you know -- if it's a K-12 system with a maximum enrollment of 325, you have the flexibility to work in that in terms of what you add and the number of students there where you wouldn't have to be limited to 30 students in a grade level or 40 students --

SUPT. JEFFCOAT: Yeah.

MS. PFEFFER: -- in another. I think that would serve the district and the students best in this model.

SUPT. JEFFCOAT: And I would very much appreciate that flexibility to meet the needs of our kids, as opposed to adhering to a schedule or plan that we said is a possibility. You know, this is -- the thing that we've talked about many times is this is a new school but we're not new at school. And we're going to look at our kids and we're going to meet the needs of our kids. And, again, our goal is to have a very successful program, and if we see that we're struggling and we want to make some adjustments then we want to have that freedom to do so.

CHAIRPERSON COFFMAN: Any additional questions?

70 1 Dr. Saunders. Okay. As I was reading through 2 DR. SAUNDERS: your application, and then your presentation today, I 3 kind of -- I was getting confused because as I read 4 5 the application I perceived one thing, heard your demonstration perceived something else. So I want to 6 7 clarify. The teachers of record, will they be 8 employees of the district? 9 SUPT. JEFFCOAT: Yes. They'll be -- yes. We'll have teachers that -- yes, they will be the teachers 10 Their role will be that of a teacher/ 11 of record. facilitator of delivering content and curriculum for 12 13 students and support of students. So, yes, they will be licensed teachers. 14 15 DR. SAUNDERS: And employees of the district? 16 SUPT. JEFFCOAT: And employees of the district. That is correct. 17 18 DR. SAUNDERS: Okay. And on the statement concerning AP courses, and it said -- and you may 19 20 have answered my question there, but the teacher, it 21 says they're AP certified but they will be trained --22 the students will be eligible under the 5.0? 23 SUPT. JEFFCOAT: Yes. Can I back-up to the 24 teacher of record question?

DR. SAUNDERS: Uh-huh.

SUPT. JEFFCOAT: Ms. Robbins brought this to my attention. When I say teacher of record, the teachers are going to be responsible for their kids. And the curriculum that's delivered though may be delivered by an online provider. Now the teachers will be there to support our kids, to be there when our kids are struggling; those are the opportunities that they come in and work with our teachers a couple of days a week. But we may have -- with a virtual academy the options for our kids for coursework and electives is very vast. We may not have a certified teacher in a specific content area that is very unique and different and interesting that aligns with the kids' interests. So in that situation the teacher that's providing the instruction is online. It's an online provider; it's an online model. our teachers will be responsible for individual student progress and success in their program. that make sense? DR. SAUNDERS: Yeah. So the teacher of -- back to the teacher of record, it will be that teacher from the district -- I understand there will be an online instructor separate from this --SUPT. JEFFCOAT: Yes.

DR. SAUNDERS: -- could be separate from that

1 instructor.

SUPT. JEFFCOAT: Yes.

DR. SAUNDERS: And that employee of the district would at a minimum see those students or communicate with those students -- what was it -- the support at least two days a week. Is that correct?

SUPT. JEFFCOAT: That is correct. They will be -- they'll be there to support the students. But the instruction will be delivered by an online provider.

DR. SAUNDERS: Okay.

MS. ROBBINS: For instance, we might have an actual student who wanted -- I'm sorry -- a student who wanted to take marine biology. Okay. So the teacher of record would not be our teacher from our district; it would be the teacher through the provider. So I think that's where I'm wanting to make sure we're clear and we clarify because there are instances where our teachers will be monitoring but they may not be the teacher of record because they are not actually qualified to deliver that.

Does that make sense or am I confusing it?

DR. SAUNDERS: So the -- I understand what you're saying. So the teachers of record may not be Arkansas licensed. Correct?

MS. ROBBINS: They would be through the

| | 73 |
|----|-------------------------------------------------------|
| 1 | provider. |
| 2 | DR. SAUNDERS: They would simply be through the |
| 3 | provider, not necessarily having an Arkansas license? |
| 4 | MS. ROBBINS: And they would be a provider |
| 5 | that's on our state provider list. |
| 6 | DR. SAUNDERS: Okay. But they would not |
| 7 | MS. ROBBINS: No. |
| 8 | DR. SAUNDERS: necessarily have |
| 9 | MS. ROBBINS: Not necessarily. |
| 10 | DR. SAUNDERS: Okay. |
| 11 | MS. ROBBINS: I don't think there's a licensure |
| 12 | for marine biology, if I'm not mistaken. But, you |
| 13 | know, I'm not sure that there's not many things that |
| 14 | a personalized learning plan students may have |
| 15 | real interests in that we possibly don't have that |
| 16 | type of certification. I hope I clarified. |
| 17 | SUPT. JEFFCOAT: Yeah, that's great. |
| 18 | CHAIRPERSON COFFMAN: Any additional questions |
| 19 | from Panel? |
| 20 | DR. SAUNDERS: I still have a few. |
| 21 | CHAIRPERSON COFFMAN: Okay. Go ahead, Dr. |
| 22 | Saunders. |
| 23 | DR. SAUNDERS: On your waiver of instructional |
| 24 | days and the school year, how would you plan to |
| 25 | calculate attendance rates? |

| 1 | SUPT. JEFFCOAT: Yeah. So we've talked about |
|----|-------------------------------------------------------|
| 2 | that too. You know, for our students in a virtual |
| 3 | academy I mean, there's as for them being |
| 4 | required to attend, it's only going to be if they're |
| 5 | not progressing at an appropriate rate. So as for |
| 6 | and the waiver for request in calendar year really |
| 7 | aligns with the flexibility of the model. If we have |
| 8 | a student that is participating in some internship |
| 9 | that takes place starting in middle of July, we want |
| 10 | to be able to allow that to begin. And also if we |
| 11 | have a student that has an opportunity that goes |
| 12 | beyond the end of the school the traditional |
| 13 | calendar, we want to be able to offer that as well. |
| 14 | DR. SAUNDERS: Counsel, I know on that section |
| 15 | it's still noted as having some issues. |
| 16 | MS. DAVIS: Yes. |
| 17 | DR. SAUNDERS: Do you want to talk about the |
| 18 | issues you have? |
| 19 | MS. DAVIS: On just that section or |
| 20 | DR. SAUNDERS: Just I think that section. I had |
| 21 | a few other questions on other sections, but yeah. |
| 22 | MS. DAVIS: Okay. I just the question I had |
| 23 | is the applicant states that they are going to be |
| 24 | following the Van Buren School District calendar, but |
| 25 | they also request a waiver of school year dates which |

| | /5 |
|----|------------------------------------------------------|
| 1 | is not needed if they're going to be following the |
| 2 | school district calendar. So I just need |
| 3 | clarification from them of whether or not they plan |
| 4 | on following it or |
| 5 | CHAIRPERSON COFFMAN: I think he just described |
| 6 | a situation where they would not follow it. |
| 7 | SUPT. JEFFCOAT: That's correct. |
| 8 | MS. DAVIS: Okay. Well, they just had said that |
| 9 | they did, so that's why I just needed a verbal |
| 10 | CHAIRPERSON COFFMAN: I think he means loosely |
| 11 | but when you're providing a student focused |
| 12 | education, he wants the flexibility to provide the |
| 13 | variance needed for those students. |
| 14 | MS. DAVIS: For start and end dates? |
| 15 | CHAIRPERSON COFFMAN: Yes. |
| 16 | MS. DAVIS: Okay. And that's fine. You can |
| 17 | have that one. |
| 18 | CHAIRPERSON COFFMAN: Correct, Dr. Jeffcoat? |
| 19 | SUPT. JEFFCOAT: Yes, that is correct. |
| 20 | MS. DAVIS: Okay. Do you have other |
| 21 | DR. SAUNDERS: Yeah. I know in the next section |
| 22 | also you have issues. |
| 23 | MS. DAVIS: Okay. Yes. On the next section the |
| 24 | applicant states that they wanted a waiver from the |
| 25 | principal requirements under the licensure, but they |

also state that the freshmen academy has a principal that they're going to be using. So I don't know if they're going to be utilizing an existing licensed principal. Do they need this waiver or do they not?

SUPT. JEFFCOAT: We are requesting that waiver. It's -- we're very fortunate to be able to place it at the Van Buren Freshmen Academy right now where we do have a principal that's at that school. But our coordinator that will be working with these students and families, we want to have the best person for the job. This is a different kind of school and the responsibilities of a principal per se in a traditional setting will be very different. So we want to have the best person for the job, as opposed to being bound by hiring someone that has administrative license and is certified to be a principal in a school.

CHAIRPERSON COFFMAN: So you're saying the coordinator will act in lieu of the principal?

SUPT. JEFFCOAT: Yes, that's correct. And if we do -- we're hoping that this is very successful and grows. If we do find ourselves in a situation where we need to relocate to another campus or another place in our community, the principal will not go with the school -- the principal of the Van Buren

| 1 | Freshmen Academy will not go with the school; our |
|----|------------------------------------------------------|
| 2 | coordinator will be with the school. |
| 3 | CHAIRPERSON COFFMAN: And so is the coordinator |
| 4 | working under the principal? |
| 5 | SUPT. JEFFCOAT: No. No. The coordinator is |
| 6 | responsible and would be serving under Nancy Robbins |
| 7 | and administration. |
| 8 | MS. DAVIS: Okay. And then on that other |
| 9 | section, they had stated they wanted a waiver of 6- |
| 10 | 17-170 and I believe because in context of the rest |
| 11 | of their requests that that was just a typo and that |
| 12 | they were meaning to request 6-17-1701. I just want |
| 13 | verbal confirmation that that is what was requested. |
| 14 | SUPT. JEFFCOAT: That is correct. That was a |
| 15 | typo on our part. We apologize. We left the 1 off, |
| 16 | so, yes, it is 1701. |
| 17 | MS. DAVIS: Okay. |
| 18 | DR. SAUNDERS: I had a question for them on |
| 19 | that. |
| 20 | MS. DAVIS: Okay. |
| 21 | DR. SAUNDERS: I know on that section, the |
| 22 | teacher fair dismissal, all of those rules governing |
| 23 | personnel policies, how would you intend to address |
| 24 | those locally, those employees that are licensed and |
| 25 | the teachers of record |

| | 76 |
|----|-------------------------------------------------------|
| 1 | SUPT. JEFFCOAT: Yeah. |
| 2 | DR. SAUNDERS: if it would not fall under |
| 3 | these categories? |
| 4 | SUPT. JEFFCOAT: Well, so our virtual academy, |
| 5 | teachers will be similar to if you look at the |
| 6 | personnel policies for Virtual Arkansas, they have |
| 7 | very separate policies than what you would see in a |
| 8 | typical traditional school setting. We will be |
| 9 | developing policies for our virtual academy that will |
| 10 | be separate from our licensed and classified |
| 11 | personnel policies that we have in the district. |
| 12 | DR. SAUNDERS: Did you have more on that |
| 13 | section, Counsel? |
| 14 | MS. DAVIS: Not on that section. |
| 15 | DR. SAUNDERS: Okay. I know you had more on |
| 16 | class size. Is that the next one? |
| 17 | MS. DAVIS: I do. I just need the applicant to |
| 18 | confirm when they request class size waivers that it |
| 19 | does not apply to special education. |
| 20 | SUPT. JEFFCOAT: Yes, we confirm. |
| 21 | MS. DAVIS: Okay. And then |
| 22 | DR. SAUNDERS: On the class size, I wanted to |
| 23 | ask on that one because I know that it's the |
| 24 | standards for accreditation not to exceed the 40-to- |
| 25 | 1, and I was thinking about is there not and I |

know a proposed teaching load not to exceed 200. Is there not some laws also that need to be addressed there?

MS. DAVIS: I think the -- for some reason I'm thinking it might've been in their application. I could be mistaken since there was a lot of them. But if they intend to pay their teachers for teaching over the 150 students a day then there's not additional waiver needed. But if they do not intend to pay their teachers for teaching more than 100 students -- 150 students a day, then they need a waiver of -- I think it's 6-17-812.

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: And I may be going to mess things up here, but in the back of my mind I was thinking that in a digital learning environment there were different rules for class size. And so in the way I would view this, if this is a virtual environment, then -- and they were receiving waivers, then they would fall under whatever that number is. I know in other charters that we've approved with online or digital -- with online environments, I thought, you know, we've approved even up to 300 in some cases.

DR. SAUNDERS: 350.

MS. PFEFFER: 350. So this 200 is below that.

But I was thinking 350 was a number that was -- and 1 it may be in a different section of code under 2 digital learning or -- anybody else? Anybody else 3 thinking that same thing or am I confusing some --4 CHAIRPERSON COFFMAN: I think it's confusing in 5 that they were not actually the teacher of record; 6 7 they're monitoring the progress of students but not 8 actual preparation of the course. 9 SUPT. JEFFCOAT: If we need to request that waiver, we do not intend to pay additional 10 11 compensation if they are over that number. If we need to request that specific waiver, we'd like to do 12 13 so. CHAIRPERSON COFFMAN: We're waiting on guidance 14 15 from Ms. Davis. MS. DAVIS: Right. Yes. If they do not plan on 16 paying -- and I'm looking for the digital -- I looked 17 18 through the rules and there's nothing that addresses 19 class size -- but keep in mind, I'm also scanning 20 them on the fly. But if they do not intend to pay 21 for students over 150, then they do need a waiver of 6-17-812. 22 23 CHAIRPERSON COFFMAN: Dr. Jeffcoat. 24 SUPT. JEFFCOAT: We would like to request that 25 waiver.

| 1 | CHAIRPERSON COFFMAN: Dr. Saunders, do you have |
|----|-----------------------------------------------------|
| 2 | more or are you ready to follow Ms. Davis' list? |
| 3 | DR. SAUNDERS: I did have on the waiver for |
| 4 | let's see. Wait, we forgot that one. Let me get |
| 5 | a waiver from bidding. |
| 6 | MS. DAVIS: Well, they were I was told this |
| 7 | morning that they are amending that waiver to only |
| 8 | ask to narrow it down to 6-21-304(a), which just |
| 9 | deals with the bidding and procurement. But I will |
| 10 | note that that waiver has also not been granted to |
| 11 | any other schools, even at the more specific. |
| 12 | DR. SAUNDERS: 6-21-304 |
| 13 | MS. DAVIS: (a). That's what I was told today, |
| 14 | that they are modifying that to limit it to that |
| 15 | section only. |
| 16 | DR. SAUNDERS: The only other part of that law |
| 17 | is the school buses. So that's the entire bidding |
| 18 | and assurance section of the law. Is that correct? |
| 19 | MS. DAVIS: Yes. |
| 20 | MR. WALTER: And may I, Madam Chair? |
| 21 | CHAIRPERSON COFFMAN: Absolutely. |
| 22 | MR. WALTER: I just wanted to make sure. I |
| 23 | think it's stated in the materials but we wanted to |
| 24 | make sure and point out that the district is so-to- |
| 25 | speak self-limiting that waiver to only the digital |

| | 82 |
|----|-------------------------------------------------------|
| 1 | providers. And they only they're only requesting |
| 2 | it for that particular purpose and to have the |
| 3 | maximum flexibility possible in trying to obtain the |
| 4 | best fit. |
| 5 | DR. SAUNDERS: What are the specific |
| 6 | restrictions within the law that does not allow you |
| 7 | to do that? |
| 8 | MR. WALTER: I think perhaps the method of |
| 9 | bidding and potential amount. The amount probably |
| 10 | won't be a little bit, but we wanted to make sure |
| 11 | that there was flexibility beyond what's given, I |
| 12 | think, by 6-21-305, in the event it's looked at as |
| 13 | the purchase of a commodity. |
| 14 | DR. SAUNDERS: Okay. So, but I'm still not |
| 15 | clear on what specific section of 304 [sic] hinders |
| 16 | that specifically. |
| 17 | MR. WALTER: I believe |
| 18 | DR. SAUNDERS: in the application. |
| 19 | MR. WALTER: I believe subsection (a) with the |
| 20 | dollar amounts and I believe the type and limiting it |
| 21 | to a bid type situation. |
| 22 | DR. SAUNDERS: How does that limit it though? |
| 23 | MR. WALTER: That we're talking I believe it |
| 24 | does if you're talking about it being a commodity and |
| 25 | it being limited, as I see, to a bid type process, |

unless it's a sole source issue, which 305 talks
about.

DR. SAUNDERS: Okay. I'm still having

DR. SAUNDERS: Okay. I'm still having difficulty on how the law as it's currently written -- it's there to protect the taxpayers and to make sure we're stewards of the money. I'm not sure that the process that's in here would inhibit the district from doing what they need to do with a properly written RFP with a properly written review procedure and following these procedures.

MR. WALTER: Well, I understand the position.

We just feel that there is still a flexibility,
potentially, issue out there, and also perhaps
potentially if it's viewed as a situation where it
would have to be bid versus an RFP, a length of time
issue. But obviously the district shares the same
concerns you and the Panel does about making sure the
district gets the best value and at the lowest
possible cost for the taxpayers.

DR. SAUNDERS: Yeah, I do too. And I understand there is flexibility within the law; you do not always have to go with the lowest bidder.

MR. WALTER: Right.

DR. SAUNDERS: There are processes for that and there's procedures to address all that. So I am

extremely reserved about that waiver.

SUPT. JEFFCOAT: Can I speak to that, too? Let me just say, first, when we wrote this application and we requested that waiver we had not spent as much time with our vendors, our possible vendors. Now that we've met with them and we know more about what we need, the different features that are offered within each vendor, I'm comfortable just rescinding this portion because we do have flexibility. We'll write our bid specs in a way that gives us what we need, and we do have the flexibility to choose what we believe to be the best vendor, the best option for our students within the law. So I'm comfortable with us rescinding that waiver, as well. So I would like to rescind that waiver.

CHAIRPERSON COFFMAN: Okay. Thank you. Dr. Saunders, any additional?

DR. SAUNDERS: I have one little one; I promise it's a little one. On the report cards, would you be agreeable to adding language that says -- it states, "Van Buren School District parents will have realtime access to report cards via online platform."

Could you put in language that says "if requested, a printed copy will be available?"

SUPT. JEFFCOAT: Yes, sir. We can certainly do

| | 85 |
|----|-------------------------------------------------------|
| 1 | that. |
| 2 | DR. SAUNDERS: Okay. Thank you. There are |
| 3 | situations, split families |
| 4 | SUPT. JEFFCOAT: Yes. Our students may be |
| 5 | digital but all of our parents may not. So, yes, we |
| 6 | can certainly make that available. |
| 7 | DR. SAUNDERS: And I was really thinking of |
| 8 | split families and other situations. |
| 9 | SUPT. JEFFCOAT: Yes. Absolutely. |
| 10 | DR. SAUNDERS: Thank you. |
| 11 | CHAIRPERSON COFFMAN: Any additional questions |
| 12 | from panel members? |
| 13 | Ms. Davis oh, you have another one? |
| 14 | DR. SAUNDERS: Yeah. I was just going to say, I |
| 15 | think Ms. Davis still has some of those. |
| 16 | CHAIRPERSON COFFMAN: Ms. Davis, remaining |
| 17 | issues? |
| 18 | MS. DAVIS: I do not. |
| 19 | DR. SAUNDERS: You don't? |
| 20 | MS. DAVIS: You seem surprised. |
| 21 | CHAIRPERSON COFFMAN: Yea. Well, it was a long |
| 22 | list. All right. |
| 23 | MS. SMITH: Well, I do want to go back to one. |
| 24 | And I know that they've already withdrawn this, and |
| 25 | that's fine; I don't expect them to come back and ask |

But the whole idea about the commodity thing -- I mean, this just kind of hit me. I mean, this is for hiring a teacher and their curriculum, and we don't do RFPs for teachers -- you know, who's going to come teach my class and which teacher is going to take the lowest bid to come in the classroom and do And so when they're looking at a list that is on ADE of these are the digital providers that we've approved and they're having to decide which teacher and which curriculum they're going to choose, we're making them put that out on an RFP to have people bid I mean, that just seems kind of backwards to me and I didn't understand even why that was on there until y'all were talking about it. It just kind of seemed kind of odd to me that we would -- that a district would have to bid if it's going to be over \$10,000 for who to pick to teach their kids and what curriculum because it's their digital platform. Does that make -- am I -- do you see what I'm saying? Greg, you're looking at me like I'm -- I mean, am I

SUPT. JEFFCOAT: This may be a question for legal counsel too, because I'm not familiar. But I know that there is -- there are rules that allow us to hire -- purchase service and we can develop a

| | 87 |
|----|-------------------------------------------------------|
| 1 | district policy that says that we will not be bidding |
| 2 | that specific purchase service. |
| 3 | MS. SMITH: I don't think that would |
| 4 | SUPT. JEFFCOAT: I don't know if this would be |
| 5 | something that would be allowable as a purchase |
| 6 | service or if this would be something |
| 7 | MS. SMITH: I don't know. |
| 8 | SUPT. JEFFCOAT: We're still comfortable with |
| 9 | withdrawing though. |
| 10 | MS. SMITH: I mean, I say withdraw it, and |
| 11 | that's fine. But I just thought that was just |
| 12 | SUPT. JEFFCOAT: Yeah. |
| 13 | MS. SMITH: a conversation we probably need |
| 14 | to have more in-house. |
| 15 | DR. SAUNDERS: Well, there is that option with |
| 16 | the purchase service, as he was discussing. But |
| 17 | there's also I think one point to consider is it's |
| 18 | not like a cooperative purchasing agreement with |
| 19 | approved state contracts with the approved providers, |
| 20 | that whole side of the issue, price negotiations, |
| 21 | everything else not being addressed with an approved |
| 22 | provider. So, you know, it's |
| 23 | MR. ROGERS: That's already |
| 24 | DR. SAUNDERS: Yeah, it's a different side of |
| 25 | the coin. |

| 1 | MS. SMITH: So one thing that maybe we need to |
|----|-------------------------------------------------------|
| 2 | consider when we are approving digital providers to |
| 3 | put on our state list, maybe they need to submit |
| 4 | their pricing to us and that's something that we need |
| 5 | to look at to approve. I mean I mean, we're |
| 6 | asking I don't know. This just seemed really |
| 7 | backwards to me when we were talking about it, and |
| 8 | that's something I think maybe we just need to look |
| 9 | deeper into. And it has nothing to do with this |
| 10 | charter and what they're asking for today, but just |
| 11 | the conversation just seemed odd to me. |
| 12 | DR. SAUNDERS: I believe they would have that |
| 13 | option. They'd need to go through a cooperative |
| 14 | purchasing agreement and there's lots of procedures, |
| 15 | such as stats and everything else. But they can get |
| 16 | their contracts on there so that procedure |
| 17 | MS. SMITH: So that's maybe something we need to |
| 18 | look at for all of our digital providers we're |
| 19 | putting on a list. |
| 20 | CHAIRPERSON COFFMAN: Okay. Moving us along, if |
| 21 | there are no further questions I'll accept a motion. |
| 22 | DR. SAUNDERS: I'd make a motion to approve. |
| 23 | MS. PFEFFER: Second. |
| 24 | CHAIRPERSON COFFMAN: Motion has been made by |
| 25 | Dr. Saunders and seconded by Ms. Pfeffer to approve |

| | 89 |
|----|------------------------------------------------------|
| 1 | the River Valley |
| 2 | SUPT. JEFFCOAT: Yes. |
| 3 | CHAIRPERSON COFFMAN: Virtual Academy. Any |
| 4 | discussion? All those in favor? |
| 5 | (UNANIMOUS CHORUS OF AYES) |
| 6 | CHAIRPERSON COFFMAN: Any opposed? |
| 7 | Congratulations. If you'll wait just a moment, |
| 8 | we'll have written comment. |
| 9 | SUPT. JEFFCOAT: Thank you. |
| 10 | CHAIRPERSON COFFMAN: Or, oral and written |
| 11 | comment. |
| 12 | (A FEW MOMENTS OF SILENCE) |
| 13 | CHAIRPERSON COFFMAN: Mr. Lester. |
| 14 | MR. LESTER: I voted for the amendment. There's |
| 15 | a need for the model this model in the district |
| 16 | for the varied population, their education and a |
| 17 | setting that is conducive to their individual needs. |
| 18 | The strong points are the face-to-face interaction, |
| 19 | the field experience, the teacher support, and the |
| 20 | individual learning plans that this model provides |
| 21 | for this varied population, with the knowledge that |
| 22 | there will be continued internal discussions on |
| 23 | capacity and demand. I have no concerns. |
| 24 | CHAIRPERSON COFFMAN: Ms. Liwo. |
| 25 | MS. LIWO: I voted for. I think this will |

| | 90 |
|----|-------------------------------------------------------|
| 1 | provide a new and flexible option for traditional and |
| 2 | nontraditional students. |
| 3 | CHAIRPERSON COFFMAN: Ms. Pfeffer. |
| 4 | MS. PFEFFER: I voted for the motion. The |
| 5 | district has presented a well-developed plan to meet |
| 6 | the needs of their school community and to provide a |
| 7 | quality education for students with varied needs. |
| 8 | CHAIRPERSON COFFMAN: Dr. Gotcher. |
| 9 | DR. GOTCHER: The opportunity for students |
| 10 | oh, excuse me I voted me the approval of the |
| 11 | application. The opportunity for students with |
| 12 | various educational needs will be accomplished in |
| 13 | this digital platform. I'm impressed with their |
| 14 | leadership and their willingness to support students |
| 15 | and families in this process. |
| 16 | CHAIRPERSON COFFMAN: Mr. Rogers. |
| 17 | MR. ROGERS: I voted for it. I thought it was a |
| 18 | good model as they move forward to continue to meet |
| 19 | the needs of the student population. |
| 20 | CHAIRPERSON COFFMAN: Dr. Saunders. |
| 21 | DR. SAUNDERS: I thought this model would |
| 22 | provide opportunities for the students in the |
| 23 | district their serving. That's why I voted in favor. |
| 24 | CHAIRPERSON COFFMAN: Ms. Smith. |
| 25 | MS. SMITH: I voted for it. This is a good |

| 1 | opportunity for serving students serving your |
|----|-----------------------------------------------------------|
| 2 | community and all students, including high school |
| 3 | students to the charter that will that are at |
| 4 | risk. So, I voted for it. |
| 5 | CHAIRPERSON COFFMAN: So, Dr. Jeffcoat, I think |
| 6 | this is just an example of our state moving more and |
| 7 | more towards student-focused learning systems and |
| 8 | really supporting that informed risk-taking. So we |
| 9 | believe in you. We encourage you. We ask you to |
| 10 | always reach out and ask for help if you need it. |
| 11 | We're more than happy to serve you in any capacity. |
| 12 | And your next step will be to go before the State |
| 13 | Board in November. |
| 14 | SUPT. JEFFCOAT: Well, thank you so much. I |
| 15 | appreciate your time this morning. I know it took a |
| 16 | lot of time, but I can tell you that it was time well |
| 17 | spent. The lives of the students that will change |
| 18 | because of the votes that took place today will be |
| 19 | amazing. So, thank you so much for today. |
| 20 | CHAIRPERSON COFFMAN: Thank you. |
| 21 | Panel, 10-minute break? |
| 22 | DR. GOTCHER: Maybe 15? |
| 23 | CHAIRPERSON COFFMAN: 10 to 15. |
| 24 | (BREAK: 10:25 - 10:38 A.M.) |
| 25 | A-2: HEARING OF DISTRICT CONVERSION PUBLIC CHARTER SCHOOL |

APPLICATION: HARRISBURG COLLEGE AND CAREER PREPARATORY SCHOOL 1 CHAIRPERSON COFFMAN: Ms. McLaughlin, you're 2 3 recognized. MS. McLAUGHLIN: Thank you, Madam Chair. 4 Action Item 2, we will hear a district conversion 5 public school charter application for Harrisburg 6 7 College and Career Preparatory School. And to begin we will hear from the superintendent, Mr. Sample. 8 9 CHAIRPERSON COFFMAN: If all representatives from the Harrisburg College and Career Preparatory 10 School and anyone speaking in opposition would please 11 stand and raise your right hand. Do you swear or 12 13 affirm that the testimony you're about to give shall be the truth, the whole truth and nothing but the 14 15 truth? 16 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) 17 CHAIRPERSON COFFMAN: Mr. Sample, you're 18 recognized. Thank you, Madam Chair. 19 SUPT. SAMPLE: Thank you, Esteemed Panel, for taking your time to hear us 20 21 come to you today for hopefully approval of the 22 Harrisburg College and Career Preparatory School. 23 little bit about Harrisburg High School, right now we 24 are a high school that celebrates success on each 25 students identification of success, whether it is as

minor as being able to draw a straight line across a blank page piece of paper or as major as maybe even a vision and a dream of identifying a new stellar constellation. We celebrate each individual success for all students and we gauge our high school on those individual successes. Others, as well as we, the state and the feds, gauge our high school on assessment scores, and we understand that. And we have to be gauged not only with our local peers but also on a national level through assessments. so proud in the Commissioner's tour across the state when he introduced an individual student and kind of identified this student's successes but never one time mentioned what his test scores were or his grade point average. And that was a joy for educators to hear because that's what we're all about is not just the school's success but each and every individual student, not only in our high school but in K-12 across our state. So with that said, Madam Chair, we -- that's a little bit of our philosophy at Harrisburg High School.

With the Harrisburg College and Career

Preparatory School we would like to expand on those successes. And to expand on those successes we're meaning to when a child leaves -- any child leaves

Harrisburg High School that they can contribute by already having a technical certificate or higher educational hours that will allow them to pursue their -- not only their field of study, but maybe their career for the rest of their lives; to be a product as well as an asset to not only our local society at Harrisburg, our local society in Arkansas, but also on a global society throughout the United States and the world. That is what we're asking this panel today to allow us to expand on those successes and to enhance and embed the core courses through enhancement, not only to keep them as a traditional core curriculum but also to expand upon those to where all students can achieve their individual successes and at the same time celebrate their successes of being successful in a global society today.

So thank you for your time. I at this time,
Madam Chair, would like to introduce our State
Representative Dwight Tosh. For some reason, those
guys are already -- always in a hurry and he would
like to say a few words. Thank you so much.
Representative Tosh.

CHAIRPERSON COFFMAN: Representative Tosh, you're recognized.

REP. TOSH: Madam Chair; Dr. Gotcher, good to see you again; Distinguished Panel, I want you to know it is a great honor for me to stand before you today. And like Mr. Sample said, I want to make just a few brief comments. I don't have a prepared statement, but he reminded me a while ago I was a politician, I should always have something to say. So, hopefully, I will be brief.

And what I would like to say is this: I have visited with the staff there at the Harrisburg High I've listened to the concept of this program. I truly believe that this school is a perfect fit for this program. It is strategically located 20 miles south of Arkansas State University, and then to the west of it we have Arkansas State University at Newport, and then just to the east we have Arkansas State University at Marked Tree. strategically located and I think it's in the perfect position; it's a great school, and I think it fits what this program is looking for. And just recently, as I mentioned yesterday in a meeting, one of the elementary schools there at this school just was recognized for the distinguished Blue Ribbon Award. And, obviously, to this panel here that is not something that I need to explain to you, just the

significance of that program and what it means for a school in this state to be able to receive such an honor. So I would say this: any favorable consideration you could give to this school would be greatly appreciated. And I believe that you're about to hear testimony that will hopefully be as convincing to you as it was to me that this school should be approved for this program. Thank you for your time and it's been an honor for me to speak with you. Thank you.

DR. GOTCHER: Thank you, Representative. It was a pleasure meeting you yesterday, as well, and I appreciate the conversation and look forward to hearing the presentation today. Thank you again for attending.

REP. TOSH: Thank you.

CHAIRPERSON COFFMAN: Mr. Sample.

SUPT. SAMPLE: Yes, ma'am. Thank you again.

Madam Chair and Esteemed Panel, at this time I would

like to introduce, and I will introduce, our high

school principal, Mr. Brandon Craig. He has with him

his team that developed the application for this

charter school, and I hope at the end of our

presentation that this panel will be as excited as we

are with the successes that this vision will bring.

Thank you. Mr. Craig.

MR. CRAIG: Madam Chair and Charter Authorizing Panel, I want to thank you so much for the opportunity to speak with all of you today and share our vision at Harrisburg High School to become the Harrisburg College and Career Preparatory School.

At this time I would like to introduce the members of my team that are here today. You have heard from Mr. Sample, our superintendent. Mr. Jim Montgomery, assistant principal at the high school; Ms. Amber Carville, instructional facilitator at the high school; Mr. Dennis Graham, our guidance counselor; Ms. Pam Hogue, who is actually the principal at the Weiner Elementary School of Innovation; and then you have heard from Representative Dwight Tosh; and we also have Allen Mooneyhan here from ASU-Newport.

Okay. With Harrisburg College and Career
Preparatory School, this is a glimpse of our plan.
We hope and plan to have advisory blocks implemented into our schedule. That schedule for those advisory blocks would take place on a day that we call Fast
Track Fridays. On Fast Track Fridays, I'm going to give you just a little glimpse of that; that is to have every student have an advisor with them until

2

23

24

25

they graduate and also teach those students a lifeskills curriculum. Also a plan is for all students
to have a PLP, or personalized learning plan. And,
again, we will talk about the local industry
shadowing, certificates of proficiency, and the
increase of technology throughout all coursework.

Here's a small glimpse of our community. Representative Tosh did say, we are a small community, a rural area just south of Jonesboro. are known for our rice production and for our duck hunting. This is a very low socioeconomic area, as you can see by the stats there that are on the PowerPoint. And just to give you an idea about some of our students -- and I see that you can see the poverty line and the unemployment rate. Some of the things that excite our students are something as simple as taking a fieldtrip to Jonesboro. So if that can give you any indication of the type of students that we are servicing on a daily basis -- we have teachers who take those students maybe to the mall and they've never been. So this gives you an idea of where we stand and where we are demographically.

This next slide is a snapshot of our student population. Harrisburg High School serves grades 9

through 12. We have about 380 students. We are predominantly white. We are 100% provision two free-and-reduced lunch, and about 13% of our students do hold an IEP.

Some demographics also from our area of the high school: there are only 8.9% of citizens in Poinsett County who hold a bachelor's degree. Just north from us, in Craighead County, that percentage is 23.7%. So, most of our students who do go on to college are first generation college students. Our graduation rate over the last three years has been a 75% average and our hopes are we want to change the culture of our community and the mindset of our students by equipping them with the necessary tools to be productive members of society, whether that is to go on into the workforce or it is to go on to a post-secondary education.

This slide represents industry and opportunity that is in our backyard. We have contacted each and every one of these industries and began communication about needs that they have and which certifications would make our students the most marketable. So the areas that we are looking at for our students to pursue, we're hoping that they will stay close to home and help to turn over and change the culture of

our local community.

This slide is just a chart of the fastest growing industries and I just wanted to state on this slide that some of these certificates of proficiency that our students can obtain include areas such as culinary, hospitality, and medical professions, which are some of the fastest growing industries in our area.

Our mission is based on our students' needs and the needs of our community. Personalized Learning Plans for all students in grades 9 through 12 -these plans will be created collaboratively with the student, with the parents, with the teacher, with the advisory, and everyone else that we can get onboard to show any interest or help guide that student into the pathway that will make them most successful. These PLP's will show things such as personal interests; it will show academic and career objectives. It will also allow teachers to communicate amongst one another not to the point of an IEP but so that teachers can communicate and say, "This student works best in a block class standing up; they're able to get more work completed." And we're hoping that these PLP's and the communication between the teachers can better serve each and every

student.

Academic and technical instruction through concurrent credit, dual credit, and AP courses -- again, we are not looking to change the current requirements at all; we are just wanting to enhance those opportunities.

And the main focus is is that we want our students prepared to go on to post-secondary or to enter the workforce.

This is just a slide that represents some of the meetings we've had, actually about three slides worth, and we tried to condense it down to one just to show you how much legwork that has been done within the community and meeting with local partnerships. But the most important statistic that I see is when we started talks about a conversion a year ago, when communicating in our faculty meetings our teachers were 100% behind this concept. We talked about it multiple times and all of our teachers are very, very excited about this plan. Also in these events, like I said before, we met with some of the local partnerships that include EACC and ASU-Newport. And we've also met with Career and Technical Ed. and various meetings with APSRC. had a community support night where we had a cookout

and explained to them the various routes that their children may take if we are approved. And we also just did a Q&A night so that the parents could ask questions.

Some of our local supporters -- again, you heard from Representative Dwight Tosh. We have two mayors within our school district and both of our mayors are onboard with our plan. We have several local businesses and community members who are 100% behind this concept; again, Career and Technical Ed. and our local colleges.

Okay. This is probably my favorite slide of the entire presentation. This year we went to a modified block in hopes of approval. And in this modified block we changed from a traditional eight-period day to 1st and 5th period meet every day and the middle three classes are blocks, so they will meet every other day, which makes it more conducive for our students to be transported to the area colleges. But the most innovative portion of this schedule is something that we've experimented with thus far, is a plan that we have called Fast Track Fridays. And what we hope to implement is to finish off the week with 25-minute classes of every -- of all eight classes and incorporate a two-and-a-half hour

1 advisory time. In this advisory time, our students will range anywhere from 12 to 15 students per 2 advisor and they will remain with that advisor until 3 they graduate. So they will build that relationship 4 5 with that one teacher; that will be their go-to teacher that can help them to make sure that they're 6 7 on track to graduate, they can build a rapport with that teacher to ask for advice and for help in 8 9 various areas. But also during this time we will have a life-skills curriculum and this is something 10 that we at Harrisburg feel like students across the 11 state, and especially in our community, are lacking 12 13 when they graduate high school. Not every student has both parents at home; not every student is being 14 15 raised by a family member; and not every student is 16 being taught life-skills while they're at their house. So we want to incorporate this life-skills 17 18 curriculum. And as you can see, there's just a snapshot of a plan of a particular Friday where maybe 19 students in 9th grade will work on vehicle 20 21 maintenance and safety, which could be that those 22 students are learning how to check the oil of their 23 vehicle that day; it may mean that they learn how to 24 change a tire. Tenth grade may have a speaker that 25 day who's talking about anxiety, stress management,

and different avenues to release those stresses. 1 Eleventh grade could be taking a career fieldtrip; 2 and then 12th grade our students will have an e-3 portfolio that they will update throughout the course 4 5 of their entire high school career so that they will be better prepared when it's time to go on to post-6 7 secondary. Some of the other life-skills examples that I'd like to let you know about are financial 8 9 literacy. Our students do not graduate knowing what 10 credit scores are. Most of them have not opened a checking account and they don't have a savings 11 account, and we have local banks who have said that 12 13 they would love to come in and speak with our students about those concepts. We also have a 14 15 fitness element that we would like to incorporate and have intramurals at the high school level. Our 16 students are graduating unaware of etiquette. 17 18 don't know what it's like to sit down at a dinner table at a fancy restaurant and which fork to use. 19 And we can teach those students how to be more 20 21 productive and how to learn more about life every 22 single Friday, and this goes way above and beyond 23 what is required of us now. But we realize that it's 24 something, in feedback from our parents, that our 25 students are desperately lacking whenever they leave

high school and go on to college.

This is just a map of where our students go whenever they leave us, whether it be during the school day or after they graduate. There are a lot of great community colleges and universities right here in Arkansas.

The next few slides are of our students and our programs. This first slide shows a picture of our fine arts building. You see a picture there of our choir, our band, and then even the drum line and the flag line at football games. We have an award-winning band program; we have a fantastic drama program; an amazing choir.

The next slide is just more of our students. We have a community garden that our students work and members of the community also come in and work that same garden. We have an award-winning EAST program. Every year we have a college week and we try to make sure that every student applies for college during that one week. And then you also see pictures of our students utilizing technology.

This slide is of our FCCLA and FACS service projects. This is where they go out into the community and they look for projects to help benefit, whether it be family members or it be local

businesses throughout our community, and just how as a school we can connect with our local community.

Our JROTC program -- we have pictures of students attending classes at ASU-Newport. And one of those pictures there, the top left and the middle, top middle, is one of our local business leaders helping our agri students with a welding project.

And I'll talk later a little bit about some of the shadowing that we would like to see happen from our local business leaders and how that will help our students.

I showed you all of these slides of our kids for In spite of the poverty level, in spite one reason. of what odds are stacked against us, our students are Every day they overcome major hurdles that They want to be maybe you and I know nothing about. successful and they work hard regardless of their circumstance. Our motivation, simply put, is the very reason that everyone in this room entered into the education profession, and that's because of our And we want to do everything possible for those 380 kids at Harrisburg High School to make sure that they are prepared for life after Harrisburg. want to break the cycle of poverty. We want to increase student success, and we want to help them

develop goals in the safe environment of our school with teachers who care about them.

And, in closing, I'd like to say Harrisburg

College and Career Preparatory School will change

lives in our school and in our community. Thank you.

CHAIRPERSON COFFMAN: Ms. Davis, is there anyone here to speak in opposition --

MS. DAVIS: No.

CHAIRPERSON COFFMAN: -- or public comment?

MS. DAVIS: No, but I'll go double-check. No.

CHAIRPERSON COFFMAN: Dr. Sample, you have another five minutes for closing remarks.

SUPT. SAMPLE: Thank you, Madam Chair. And I really do appreciate the title. I will not be doing the closing. I would like to introduce one of our team members, which is our elementary principal at Weiner. I will say that we have some bragging rights in that school too, as a school of innovation and also as a National Blue Ribbon school. And Ms. Pam Hogue will do our closing. Thank you.

MS. HOGUE: Hi. I am Pam Hogue and I'm the principal at Weiner Elementary School, as Mr. Sample said. And I tell you, I speak with notes today because I have a tendency when I feel passionately about something to talk about it. And so I came with

notes so that I could stay within my five-minute limit here.

At Weiner Elementary we are a school of innovation. And it is our overarching focus at that school to make sure that our kids have the skills and attitudes that are going to enable them to live the life that they choose instead of the life that has been chosen for them by their circumstances -- a life where the choice includes college and career -- and that is not often the case in the circumstances where our kids live now in our entire district. But my kids still have to finish their K-12 education and I'm excited that they will get to do that at the Harrisburg College and Career Preparatory School, a school where I believe that the skills and attitudes that I am instilling in my kids in my building will also be fostered and will be allowed to grow.

Now I speak with the passion of this because I was Mr. Craig's mentor last year and so from the beginning of their talkings about the charter I have been listening to those conversations. And that has been a super-fun thing to do, both from Mr. Craig as the leader of that building but from their staff. And this plan that they have grew simply from a strong desire of a staff to better the lives of their

students. I am so proud that as a school they -- you know -- this vision is based on an honest love of the students at Harrisburg High School and they absolutely want what is going to be best for their students.

As a district, a large percentage of our students are what we call at-risk. Many of the students honestly come from homes where there is not a whole lot of appreciation placed on education, honestly. They come from homes where no one in the home has a job, let alone a career. Students that as teenagers are in need of guidance and support, and that is what this school is going to provide them.

The act of providing students at graduation with a technical certificate or other credentials that will give them a reliable job, a job where they can earn a wage that will allow them to be self-sufficient, that would be life-changing for many of them. Those that we know are not college-bound and would otherwise be either bouncing from job-to-job or simply choosing to not work at all, they can be contributing members to our community. There are students, like all schools have -- in fact, a lot of them that we know are ready for a two- or four-year college. Those are the students that often have all

the required credits except senior English -- we know that group -- and then they try to just fill their schedule with electives.

With this program they will be offered concurrent credit, just like they are now, except they've put a twist on it. Instead of being offered concurrent credit simply within the confines of the high school, they will actually be able to travel to the university or the local community college and get those credits in a classroom with college students. That changes the dynamic of that class. We all know that. We've all had those. I think that's exciting. Not only will they be able to get those college classes on the college campus, transportation will be provided for them, and it's going to be -- if there's a cost, it's going to be low-cost. I wish that that had been a program when I was in high school, I can tell you.

And then there's the Friday mornings with the life-skills. I love this part. Conversation in my building has been "we wish that we could go over there on Friday mornings and take these classes." Students in high school are going to be taught the life-skills that many adults either struggle with for a very long time or never learn, things like taxes,

2

insurance, balancing a checkbook, buying stock, how to write a resume, or what to wear to an interview. Those are things kids need to know, and a lot of them They don't have that person to guide them. How to change a flat tire; a lesson about borrowing and interest and that student loans have to be paid back. That's an important one. No matter what path in life a student takes these skills will be beneficial. Now the part of the plan that I love most -- and it is the part that hits dead to the center of me -- and that is the mentoring piece. Whether a student is college-bound, whether they're trying to get a high school diploma just to get out, or if they are in school just to keep them out of trouble, they all need someone to provide them quidance. They need someone to provide encouragement; they need a listening ear; and every once in a while they need someone to provide a gentle Sometimes they need someone just simply to nudge. have their back. And I believe that the relationship formed when a staff member mentors a student through their high school career will be invaluable during those years that they're in school and I believe likely for a lifetime.

The administration and staff at Harrisburg High

School is eager to provide their students all of these opportunities that they have talked about today. They want their kids to be successful in life, and I am confident that that is 100% of that I have talked to them and they have so much passion about it and they truly love those children. I am extremely proud to be a part of a district that is supportive and encourages the staff of Harrisburg High School to seek this charter. I am happy that these people that I have become very close to and their colleagues are going to have the opportunity to truly meet the needs of those kids that they love so And I am very happy for not only the kids at much. Harrisburg High School who'll see the effects of this school in the very near future, but I'm also happy for the students at Harrisburg Middle School and the students at Harrisburg Elementary, and, I guess greedily, I'm especially happy for my babies at Weiner Elementary. So I appreciate you listening to me. appreciate your consideration of this application, and I would love to see it approved. Thank you.

CHAIRPERSON COFFMAN: Thank you, Ms. Hoque. Panel Members, do you have questions? Pfeffer.

MS. PFEFFER: Mr. Craig, I was going to see if I could go ahead and sign up for the vehicle management Fast Track Friday --

MR. CRAIG: Yes, ma'am.

MS. PFEFFER: -- and the stress -- my colleagues would tell you I need to come to the stress and anxiety management one probably too. And my husband probably could come to the etiquette class. So anyway, no, I'm just kidding.

DR. GOTCHER: You're on record.

MS. PFEFFER: I know. You all have answered a couple of my questions because one of my notes that I'd made when studying the application was how do we make sure that a Fast Track Friday and the advisory day -- how do we insure that it doesn't turn into a study hall or a -- you know -- just what are we going to do with these kids. Now, you know, it works great for a few weeks but -- so you've answered that. And also I appreciate, Ms. Hogue, one of my questions had been, you know, if this is approved for the high school what are we going to do in building kids up and creating a systemic plan so that all of a sudden kids go from a very traditional, more regimented type place into where there's a lot of flexibility. So it sounds like the conversations are happening

throughout the district. So those were two of my questions, so I only have a couple of others.

In looking at the flexibility for students to be able to attend ASU-Newport and take classes, will the students be responsible for the cost of any concurrent or technical class that they take or is there funding available for students to do that?

MR. CRAIG: There will be a combination of local funds, local supporters, sponsorships within our community to try to drive any of that cost down, if there is any at all.

MS. PFEFFER: Okay. And have you been able to negotiate an agreement with ASU-Newport? I think there was -- you were waiting on a final agreement?

MR. CRAIG: We have an MOU with them. It's pretty much from a concurrent level. However, we are still working with them on a weekly basis in -- they're developing their schedule right now for next fall and what would be aligned for our students and what would be available for them to take based upon the interest of our students.

MS. PFEFFER: Okay. So any student that -- so within your model here you would carve out time for students to be able to take advantage of that and there would be transportation. Correct?

MR. CRAIG: Yes, ma'am.

MS. PFEFFER: And hopefully ways to offset costs. So you're trying to minimize -- if I'm understanding, you would be minimizing the fact that there may be some who could not take advantage because, obviously, if that's a goal it's difficult if students can't afford to do that.

MR. CRAIG: And we understand that there are going to be students who would not be able to pay, as I stated in our PowerPoint early on. But there are local funds available and we have very -- a large amount of community supporters who are willing to chip in and help pay for those costs as well.

MS. PFEFFER: Okay. And then for students who wouldn't be leaving campus you would still maintain a rigorous curriculum?

MR. CRAIG: Absolutely.

MS. PFEFFER: Okay. For them. All right. And then my other question was related to the professional development, request for a waiver from professional development. And I understand that in moving to a model like this you are going to need some specialized training for faculty and ongoing work, depending on the interest and needs of students. But I'm wondering what is it that you're

25

really asking a waiver from because you said you don't want to change the number of hours that people receive. But I'm wondering why you don't have the flexibility now. What is the professional development that is getting in your way? And if you could talk to us a little bit about that because I don't think that's a waiver that we've not done before.

MR. CRAIG: That scenario that I had in mine was I showed you pictures of the local business welder who has come into our agri program and actually helped those students. We have talked with ASU-Newport about the welding classes that they have. And we would love for our local business welder to be able to teach our students because obviously he knows more about welding than our agri teacher does. Okay. So to turn those students loose with him, as long as there are background checks and ethics -- he's up on all of that -- we would like for some of our local partners to be able to do some of that. Now we are prepared to have our agri teacher to do that in a coteaching environment so that there wouldn't be a PD issue.

MS. PFEFFER: Okay. So I guess in the situation you described I would think you might need a waiver

| | 117 |
|----|-------------------------------------------------------|
| 1 | from licensure for some of your technical classes. |
| 2 | And, therefore, if you had that would allow you to |
| 3 | bring in that welder |
| 4 | MR. CRAIG: Okay. |
| 5 | MS. PFEFFER: in order to teach that course. |
| 6 | The I'm not really sure how that would relate to |
| 7 | the professional development, the need for |
| 8 | flexibility there. |
| 9 | MR. CRAIG: Maybe I misunderstood as far as him |
| 10 | being required to the PD if he's teaching a class. |
| 11 | CHAIRPERSON COFFMAN: He |
| 12 | MS. PFEFFER: Yeah, I'm sorry. |
| 13 | CHAIRPERSON COFFMAN: He would not have a |
| 14 | license. |
| 15 | MS. PFEFFER: Yeah. If the if we're talking |
| 16 | about the required professional development for |
| 17 | licensure, someone who does not have a license would |
| 18 | not be required to do those hours. Then, depending |
| 19 | on how that person would be hired and under what type |
| 20 | of contract, that's when you would look at any |
| 21 | requirements there. So I think I'm not sure, did |
| 22 | you all have a waiver from a request for a waiver |
| 23 | from licensure? |
| 24 | MS. DAVIS: (Nodding head up and down.) |
| 25 | MS. PFEFFER: They do have that. Okay. So in |

| | 118 |
|----|------------------------------------------------------|
| 1 | that respect I don't think a PD waiver would be |
| 2 | necessary. |
| 3 | MR. CRAIG: Okay. |
| 4 | MS. PFEFFER: So I don't know where you are with |
| 5 | other situations where you felt that waiver would be |
| 6 | necessary. |
| 7 | MR. CRAIG: Does a technical certification |
| 8 | require professional development? |
| 9 | MS. PFEFFER: Are you talking about a technical |
| 10 | permit? |
| 11 | MR. CRAIG: Yes, ma'am. |
| 12 | MS. PFEFFER: Let me check to let me see if I |
| 13 | can find that out for you. |
| 14 | MR. CRAIG: Okay. |
| 15 | MS. PFEFFER: Okay. |
| 16 | CHAIRPERSON COFFMAN: Okay. We'll come back to |
| 17 | that one. Dr. Gotcher. |
| 18 | DR. GOTCHER: Yes. And thank you, Ms. Pfeffer, |
| 19 | for bringing that up because I had some of those |
| 20 | similar concerns and I think we're going to be able |
| 21 | to resolve that. Mr. Sample, I just want to thank |
| 22 | you and, Mr. Craig, you can stay close. I want to |
| 23 | just thank you for the compliment you paid to our |
| 24 | Commissioner because you recognize it, as a |
| 25 | superintendent, that we at the Department truly |

support a student-focused learning environment for our state and want to be the -- you know -- lead the nation, as our vision says. I appreciate that. And I also want to just return the compliment in letting you know that we recognize the innovation that's happening at Harrisburg. I had the chance to meet Ms. Hogue the other day. I was privileged to be a part of the presentation of Schools of Innovation and had a chance to meet her. And you're right, she's right, she can't talk less than five minutes because she loves her school. I'm just messing with you, Ms. She loves her school and loves the kids and she's invited me to come and visit sometime, which I'm looking forward to making that opportunity So I just want to return the compliment back happen. Thank you for being an innovative superintendent.

Mr. Craig, impressed with the Fast Track Friday; really intrigued by the community partnerships and recognizing in your schedule that flex-mod module or the flexible schedule to allow for flexibility as it may serve the kids or the opportunity for the partnerships. So when I look at your mission -- and as I've said before, I always look at a mission first and realize that you can learn a lot about a school

by their mission and how much time it's taken. So I do feel, based upon reading that -- as a student that desires a personalized education, I'm hearing that your vision or mission would be to craft any style of curriculum that meets community needs and student needs, develop those partnerships. And so a student can basically come to you with any kind of desire as long as the community is able to support that. Am I hearing that correctly?

MR. CRAIG: Yes, sir.

DR. GOTCHER: That's great. So if I was a student that really wanted to pursue an agricultural curriculum and wanted to really -- because I know there's a lot of discussion about the agriculture -- I know the Scott Charter School has an agricultural model. So a student would have no barriers working with John Deere or any of your partnerships if they wanted to pursue an agricultural curriculum for that personalized education?

MR. CRAIG: Absolutely not. And this is our focus. We want all of our students to pursue their own dreams. We don't want to design a plan for them. We want them to have the autonomy to figure it out, what they want to do, and we at Harrisburg High School will allow them the opportunity and the

| | 121 |
|----|-------------------------------------------------------|
| 1 | support that they need to pursue those dreams. |
| 2 | DR. GOTCHER: Excellent. Do you see any |
| 3 | barriers in the community whatsoever for a student |
| 4 | following an agricultural curriculum dream? |
| 5 | MR. CRAIG: No, sir, I don't. |
| 6 | DR. GOTCHER: Wonderful. All right. Thank you, |
| 7 | Madam Chair. |
| 8 | CHAIRPERSON COFFMAN: All you have to do is |
| 9 | drive through Weiner and Harrisburg. That is Weiner |
| 10 | and Harrisburg. |
| 11 | DR. GOTCHER: Thank you. |
| 12 | CHAIRPERSON COFFMAN: Other questions? Dr. |
| 13 | Saunders. |
| 14 | DR. SAUNDERS: On the licensure waivers, are you |
| 15 | looking for those to apply to core classes in |
| 16 | addition to the technical classes? Because in the |
| 17 | explanation it says it's just for the technical |
| 18 | courses. |
| 19 | MR. CRAIG: There were a couple of different |
| 20 | requests, one of those being that we would like to |
| 21 | blend or embed oral com into English to give us more |
| 22 | flexibility for students to be able to leave at later |
| 23 | years in high school. The other would be in a |
| 24 | technical course, such as phlebotomy or maybe in an |
| 25 | anatomy or physiology class at a career technical |

| | 122 |
|----|------------------------------------------------------|
| 1 | center, to be able to provide them with their high |
| 2 | school biology, for example, in that course. |
| 3 | DR. SAUNDERS: So the licensure waiver would be |
| 4 | for all courses district-wide or school-wide? |
| 5 | MR. CRAIG: Yes. |
| 6 | DR. SAUNDERS: Okay. |
| 7 | CHAIRPERSON COFFMAN: To add on to that, do they |
| 8 | need embedded course approval with that? |
| 9 | MS. SMITH: We have an avenue already in place |
| 10 | for embedded courses. You just submit it to |
| 11 | Curriculum Instruction Unit and they take it to the |
| 12 | State Board for approval. |
| 13 | MR. CRAIG: Okay. |
| 14 | MS. SMITH: So if you have a waiver for |
| 15 | licensure for oral com, then your English teacher |
| 16 | you just have to show that you're teaching both sets |
| 17 | of standards. |
| 18 | MR. CRAIG: Okay. |
| 19 | CHAIRPERSON COFFMAN: Dr. Saunders, let's come |
| 20 | back to that question. |
| 21 | DR. SAUNDERS: Yeah. |
| 22 | CHAIRPERSON COFFMAN: You're asking for a waiver |
| 23 | because some of those teachers teaching those |
| 24 | embedded courses may not be licensed in both areas? |
| 25 | MR. CRAIG: I guess what I'm really looking for |

| 1 | is if they go to a college campus to pursue a |
|----|-------------------------------------------------------|
| 2 | certificate of proficiency, is there an alignment |
| 3 | that we can use for a student who is in a medical |
| 4 | profession that can serve as a dual credit for a high |
| 5 | school science course? |
| 6 | MS. SMITH: Okay. So, yeah, that's your |
| 7 | concurrent credit. What you're doing is you're |
| 8 | taking a current high school course that we have |
| 9 | standards for |
| 10 | MR. CRAIG: I'm sorry. |
| 11 | MS. SMITH: That's okay. Did you need to get |
| 12 | that? |
| 13 | MR. CRAIG: No. |
| 14 | MS. SMITH: And you're aligning it to that |
| 15 | college level course. Okay. And in between your MOU |
| 16 | between the higher ed. institution and your school |
| 17 | you're both verifying that standards that are set |
| 18 | forth are being taught at the high school and the |
| 19 | standards set forth by the higher ed. institution are |
| 20 | being set. But you are aligning and you're verifying |
| 21 | that the high school course is being taught through |
| 22 | that course. |
| 23 | MR. CRAIG: Okay. |
| 24 | MS. SMITH: Okay. So just like if you wanted to |
| 25 | teach geometry and construction and you wanted to |

| | 124 |
|----|-------------------------------------------------------|
| 1 | embed something, you have to verify that through that |
| 2 | construction course the concepts in geometry were |
| 3 | taught. |
| 4 | MR. CRAIG: Okay. Is that a case-by-case basis? |
| 5 | MS. SMITH: That is your district's |
| 6 | MR. CRAIG: Okay. |
| 7 | MS. SMITH: decision. And that's between the |
| 8 | MOU between you and the higher ed. institution. But |
| 9 | when you sign off on the MOU you're saying, "We are |
| 10 | saying that all of our standards that are set forth |
| 11 | in this human anatomy and physiology course are being |
| 12 | taught in this course at the college level." |
| 13 | MR. CRAIG: Okay. |
| 14 | CHAIRPERSON COFFMAN: So I'm going to come back |
| 15 | to the question about the waiver. |
| 16 | DR. SAUNDERS: You're pointing at me; is this |
| 17 | still on the licensure waiver? |
| 18 | CHAIRPERSON COFFMAN: Yeah. Between the two of |
| 19 | you. |
| 20 | MS. PFEFFER: PD answer. |
| 21 | CHAIRPERSON COFFMAN: Well, let's before we |
| 22 | get to that one, let's come back to the licensure |
| 23 | waiver. So is a licensure waiver required? |
| 24 | DR. SAUNDERS: I think that would be a question |
| 25 | for the district. I'm unclear if it's needed. |

MS. SMITH: If -- okay. So if it's your teacher teaching at the high school, you have to meet the requirements for the college where -- it would be a teacher with 18-plus hours, and it would be your licensed teacher teaching a course. If it's the college teacher teaching the course, then, no, they don't have to have a high school teaching license in biology to teach the course; they have to meet the requirements to be offering that course at the college. That's with every concurrent class we have. I mean, am I saying that wrong? Ivy, is that --

MS. PFEFFER: You're correct in what you're saying. I'm going back and looking at what you requested in your waiver and trying to think what it is you're wanting and needing to do and then looking at what you had asked for in the professional development. So maybe we can just kind of talk through this. With the licensure waiver, are you wanting flexibility to be able to hire a teacher in pretty much any content area who -- or are you really only looking at it in those career technical places where you feel like you need the flexibility?

MR. CRAIG: Primarily what we are looking at is the career and technical aspect. Okay. But we would like the flexibility to choose the best teacher for a

| 1 | certain area if they're not licensed. |
|----|-------------------------------------------------------|
| 2 | MS. PFEFFER: Okay. So, for example, if you |
| 3 | have an opening in your 10th and 11th grade English, |
| 4 | and if you were wanting to hire a teacher who teaches |
| 5 | at ASU part-time but you're wanting to hire them |
| 6 | they teach at the college level but do not have a |
| 7 | license is that a situation you could foresee |
| 8 | where you would want the flexibility to hire that |
| 9 | person to teach in your on your K-12 campus? |
| 10 | MR. CRAIG: Yes. Yes, I understand. Yes. |
| 11 | MS. PEFFFER: Okay. So if you do that, then, to |
| 12 | answer Dr. Saunder's question, you would be asking |
| 13 | for the waiver of licensure generally and you would |
| 14 | just insure that teachers meet AQT requirements. |
| 15 | MR. CRAIG: Correct. |
| 16 | MS. PFEFFER: So you wouldn't just hire anybody |
| 17 | to go teach a math class |
| 18 | MR. CRAIG: Right. |
| 19 | MS. PFEFFER: but it would be someone who had |
| 20 | demonstrated the content knowledge |
| 21 | MR. CRAIG: Right. |
| 22 | MS. PFEFFER: and a bachelor's degree. |
| 23 | MR. CRAIG: Yes. |
| 24 | MS. PFEFFER: Okay. So that would be a little |
| 25 | bit of a change from or just clarification on that |

waiver. Okay.

So then on the PD answer, a teacher with a career-ed. technical permit does follow the same professional development requirements that a teacher with a standard license must follow. So on the PD -- and it always helps when you read closely, and I didn't do that initially -- so your waiver is asking to apply to the technical areas only. So you would just be looking at waiving professional development for teachers with a technical permit?

MR. CRAIG: Correct.

MS. PFEFFER: Is that correct? Okay. My only other thought that kind of went through my head then is -- because what you're really wanting to do -- that's different. Someone with a technical permit is different from a career professional who might be teaching, who might just be coming in to teach a couple of periods of welding. That person wouldn't have to do the PD anyway but someone hired with a technical permit, that's essentially the same as hiring someone with a standard license.

MR. CRAIG: We will be providing the necessary development, professional development for those teachers hired within the district anyway. So I -- go ahead.

MS. PFEFFER: Well, and I guess I just want to -- no, I'm going to be quiet because I may make it worse. So, Tripp, do you --

MR. WALTER: Yes, ma'am.

MS. PFEFFER: Is it all right for him --

MR. WALTER: Tripp Walter, Staff Attorney,

APSRC. And I believe that the intent of the waiver

language was to indicate in those situations if the

district did get a waiver from PD because these were

either unlicensed individuals who don't require it -
or, more directly, technical permit -- to make sure

that the Panel realized that there was going to be

some kind of training and PD equivalent, if you will,

that will be provided by Harrisburg. They just

weren't going to bring these folks in, bring them in

the classroom and say, "Here you go."

MS. PFEFFER: Okay. But if we're talking about people with a technical permit that, right now, are required to have the annual professional development in order to renew that, are you wanting to have a waiver from that or are you thinking that they're going to be doing professional development anyway because they're professionals hired by the district just like a person with a standard license? Because really it's more about the ability for them to renew

| 1 | that license. So if we have a waiver from that I |
|----|-------------------------------------------------------|
| 2 | think the big question is going to come in always |
| 3 | too, what does that like look down the road in terms |
| 4 | of renewal. |
| 5 | MR. CRAIG: We just wanted the flexibility. If |
| 6 | we have an industry professional who may be teaching |
| 7 | one class at Harrisburg to not be required to do all |
| 8 | the PD that everyone else does. |
| 9 | MS. PFEFFER: Okay. If that industry |
| 10 | professional has a technical permit, they would be |
| 11 | needing to do that in order to be able to maintain |
| 12 | their license for the future. So if we waive that |
| 13 | then we're doing them a disservice |
| 14 | MR. CRAIG: Yeah. |
| 15 | MS. PFEFFER: I'm thinking. And maybe we're |
| 16 | talking about something different than an |
| 17 | individual's professional development; maybe it's |
| 18 | more of a school like waiver from the planned PD |
| 19 | at a school level rather than an individual. |
| 20 | CHAIRPERSON COFFMAN: That's an internal |
| 21 | decision. |
| 22 | MS. PFEFFER: Okay. |
| 23 | CHAIRPERSON COFFMAN: And so at the school, the |
| 24 | school can set the professional development for those |
| 25 | educators |

MS. PFEFFER: Right.

CHAIRPERSON COFFMAN: -- people from the public that are teaching these technical classes. So you don't have to make them all come in and sit through a curriculum alignment course. That's totally --

MS. PFEFFER: Definitely not. And --

CHAIRPERSON COFFMAN: -- a local decision.

MS. PFEFFER: And so I'm thinking if we're talking about people who are not licensed under a technical permit or a standard license they don't have to do that professional development for their own licensing, and then that would be a local district determination as to whether or not they do participate.

MR. CRAIG: Okay.

CHAIRPERSON COFFMAN: Jump in here, Dr. Gotcher.

DR. GOTCHER: Yeah. I'm tracking with you, Ms. Pfeffer. No welder with a technical permit wants to potentially jeopardize that by not getting the necessary -- whether it's -- he's going to get that or she's going to get that provided to them to maintain that. So I think asking a waiver for that is not necessary. However, knowing the spirit of this application, you actually are advocating for personalized learning for your teachers as well as

| | 131 |
|----|------------------------------------------------------|
| 1 | your students. So that would be an internal decision |
| 2 | without jeopardizing a technical permit of an |
| 3 | individual employee. |
| 4 | CHAIRPERSON COFFMAN: That's correct. |
| 5 | DR. GOTCHER: Okay. |
| 6 | MR. CRAIG: I hate to even say anything else on |
| 7 | this. |
| 8 | DR. GOTCHER: We can wear things out sometimes. |
| 9 | MR. CRAIG: Yes. |
| 10 | DR. GOTCHER: If you need I'm kidding. Go |
| 11 | ahead. |
| 12 | MR. CRAIG: So if I'm understanding, that |
| 13 | technical professional will receive those credits |
| 14 | that he or she may need on their own and not be |
| 15 | accountable to the Harrisburg School District |
| 16 | professional development. |
| 17 | DR. GOTCHER: Is that what you're hearing, Ms. |
| 18 | Pfeffer? It's not doesn't have to be provided |
| 19 | MS. PFEFFER: A non-licensed person this |
| 20 | waiver is not necessary for an unlicensed person. |
| 21 | MR. CRAIG: Okay. |
| 22 | CHAIRPERSON COFFMAN: So I think the question |
| 23 | that you just posed is, is the district responsible |
| 24 | for providing their professional development. |
| 25 | MR. CRAIG: Right. |

CHAIRPERSON COFFMAN: And the -- any educator can get professional development outside of the district. The district is only responsible for insuring that that has been done. And if they have to provide it, great, but people go to co-ops, they go to conferences, they go many different places to get that.

MR. CRAIG: Okav.

25

MS. PFEFFER: If it is an educator under a technical permit or a standard license who's being evaluated under TESS, then it is a collaboratively developed professional growth plan where half of their required hours are very targeted to their individual needs. But, again, I think this goes to the people that you were wanting that flexibility for, I think are people who do not have a technical permit from Career Ed. that is on a standard -- or that is licensed by the State Board. So I think we're talking about people that would not be required to do the state professional development type things. They're going to have to do their own -- a welder would need to maintain credentials, but that's not part of education, so --

CHAIRPERSON COFFMAN: No concerns? So what's the final verdict on PD waiver?

| 1 | MS. DAVIS: I mean, because I think there's |
|----|------------------------------------------------------|
| 2 | confusion about whether it's a technical permit or a |
| 3 | technical person. And I look at it as if I was going |
| 4 | to come in and teach a business law class, which I'm |
| 5 | not I'm just saying if I was, my license still |
| 6 | requires, you know, continuing education outside of |
| 7 | the PD that would be required by the district. And |
| 8 | so that would be like what I assume that it is that |
| 9 | you're looking for; you want people in the industry |
| 10 | to come in. And in that case you would not need a PD |
| 11 | waiver because it's handled under licensure and non- |
| 12 | licensed folks do not need the PD for you. So I just |
| 13 | need you to verbally say that you need to rescind |
| 14 | that waiver. |
| 15 | MR. CRAIG: So we would not be responsible as a |
| 16 | school to provide suicide prevention, child |
| 17 | maltreatment to those individuals. Is that correct? |
| 18 | CHAIRPERSON COFFMAN: Only if they are a |
| 19 | licensed educator. |
| 20 | MR. CRAIG: Okay. |
| 21 | MS. DAVIS: But you can provide it, I'll just |
| 22 | say that. |
| 23 | CHAIRPERSON COFFMAN: But that's your |
| 24 | discretion. |
| 25 | MR. CRAIG: Okay. So we would like to rescind |

the PD waiver.

24

25

CHAIRPERSON COFFMAN: Okay. Do you have any more?

Ms. Smith, wade on in here.

MS. SMITH: Well, really kind of my questions have been answered because they were along the same lines with the PD, but I just wanted to make a comment about Mr. Craig, Mr. Sample, and Ms. Hoque. Whenever schools are successful in this it's because of leadership. And when Ms. Pfeffer earlier talked about the Fridays, and, you know, when I first saw that I thought, whoa, this could go -- this could be wasted if you didn't have a plan. And so it's obvious that this district has a plan. It's obvious in the fact of Weiner Elementary and their success as a School of Innovation and their recent award as a Blue Ribbon school. It's evident that there is leadership within this district at a district level; it's evident that there was a plan because Ms. Hogue talking about being a mentor and being a part of this conversation, that you guys have taken the job of leadership seriously within your district. And so I just wanted to commend you on that and say -- but this is not an easy task. And as you continue to dive into this to continue to look for areas of,

| 1 | "Whoa, we're weak here; we need to, you know, shore |
|----|-------------------------------------------------------|
| 2 | that up, " because flexibility a lot of times gives |
| 3 | you the ability to knock the ball out of the park or |
| 4 | to bunt and I say go for knocking it out of the park. |
| 5 | Okay. Good luck. |
| 6 | CHAIRPERSON COFFMAN: Any other questions? |
| 7 | DR. SAUNDERS: I do. |
| 8 | CHAIRPERSON COFFMAN: Any other than Dr. |
| 9 | Saunders? Dr. Saunders, you're recognized. |
| 10 | DR. SAUNDERS: Yeah. Okay. So looking at the |
| 11 | class size and teaching load, I wasn't clear with |
| 12 | your response. Are you assuming that? |
| 13 | MR. CRAIG: Class size and teaching load? |
| 14 | DR. SAUNDERS: Right. |
| 15 | MR. CRAIG: No. |
| 16 | DR. SAUNDERS: Okay. Because it says you do not |
| 17 | need a waiver from 6-17-812. |
| 18 | MS. DAVIS: That's for the if they're not |
| 19 | going to pay their teachers for more than 150 |
| 20 | students a day. They could still waive the class |
| 21 | size and either if they teach more than 150 a day |
| 22 | they can choose to pay or not pay. And I have it |
| 23 | that they do not need that waiver because the |
| 24 | teachers will be compensated, but they still need a |
| 25 | waiver for class size that may increase it over the |

| | 136 |
|----|-------------------------------------------------------|
| 1 | 150. |
| 2 | MR. CRAIG: For special education. |
| 3 | MS. DAVIS: Right. |
| 4 | DR. SAUNDERS: I'm not clear on that. |
| 5 | CHAIRPERSON COFFMAN: Try again? |
| 6 | MS. DAVIS: You can waive the class sizes |
| 7 | DR. SAUNDERS: Yeah. |
| 8 | MS. DAVIS: but there's a new law that says |
| 9 | if you teach more than 150 a day you have to |
| 10 | compensate your teachers. Some people will |
| 11 | compensate their teachers for more than 150 a day, so |
| 12 | they don't need a waiver of that section because they |
| 13 | do plan on compensating them. Some have asked for a |
| 14 | waiver of that because they will not be compensating |
| 15 | their teachers for more than that. |
| 16 | DR. SAUNDERS: Okay. They will not be |
| 17 | compensating. Is that what I'm hearing? |
| 18 | MS. DAVIS: No. They will be compensating |
| 19 | DR. SAUNDERS: They will be. |
| 20 | MS. DAVIS: so they do not need a waiver of |
| 21 | the extra pay for more than 150 students. |
| 22 | DR. SAUNDERS: Okay. But they do need a waiver |
| 23 | |
| 24 | MS. DAVIS: Of the class sizes. |
| 25 | DR. SAUNDERS: of the class size and |

| | 137 |
|----|-------------------------------------------------------|
| 1 | standards, even though 6-17-812 allows you to exceed |
| 2 | the 150? |
| 3 | MS. DAVIS: Yes. It just says it's only for |
| 4 | paying if you exceed the 150, is how we have |
| 5 | interpreted those separately. It's if you go over |
| 6 | the 150 a day |
| 7 | DR. SAUNDERS: Right. |
| 8 | MS. DAVIS: it is you have to compensate |
| 9 | them. |
| 10 | DR. SAUNDERS: And they're going to do that; |
| 11 | right? |
| 12 | MS. DAVIS: Yes. |
| 13 | DR. SAUNDERS: So they're going to be exercising |
| 14 | 6-17-812? |
| 15 | MS. DAVIS: Yes. So that's why they're not |
| 16 | asking for that. |
| 17 | DR. SAUNDERS: Okay. |
| 18 | CHAIRPERSON COFFMAN: Any additional questions? |
| 19 | I have a question about on the Fridays, have |
| 20 | you reached out to any other school districts that |
| 21 | are attempting a similar model? |
| 22 | MR. CRAIG: There's been one school district |
| 23 | that I have not been able to touch base with yet that |
| 24 | I am aware of that actually Ms. Barbara told me |
| 25 | about, White County Central. And we hope to actually |

go and visit them this year and look at their model and see how that can benefit us.

CHAIRPERSON COFFMAN: So I would encourage you to do that. I'd move it past "hope" to a plan. The Commissioner and I recently visited the school, spent the day there, and so it's quite impressive. It may or may not be exactly your model, but it's certainly close enough that I think they can give you some really good guidance. And I would plan to spend the day.

MR. CRAIG: Okay.

MS. SMITH: I just want to make one more On your -- the fastest growing industries comment. and looking at your certifications and things like that -- and I'm surprised that Ms. Pfeffer hasn't jumped on this yet -- you need to do one of those grow-your-own-teacher education programs where -when you talked earlier about the percentage of students that are first-time college graduates, there's a large portion of first-time college graduates that go into the field of education. so you have a group of people right there that you can encourage to go into a field that will change And you have enough passion going on in your district and innovation and change that people will

want to get into the field, so -- and you've got 1 universities around you who are looking at that. 2 So I would say -- I want to encourage you to get with 3 Ms. Pfeffer because she's been working with some 4 5 other institutions that are doing some very innovative things about growing-your-own teachers. 6 7 CHAIRPERSON COFFMAN: Any additional questions? Ms. Davis, do you have any remaining issues? 8 9 MS. DAVIS: I do, I do. And I will say I do like the Fridays, although I thought it was kind of 10 mean when you pointed out that student loans have to 11 12 be repaid. I didn't need that meanness today. 13 Okay. On page 2 of the waivers, under the licensure section -- and this was my fault for -- I 14 15 put it in there but I did not mark that there was a In order to effectuate the 16 remaining issue. licensure waivers they will need a waiver of 6-17-17 18 902, which is what defines "teacher." So I just need them to verbally confirm they want to add that. 19 MR. WALTER: On behalf of the district, I'll 20 21 confirm. 22 MS. DAVIS: And then also under the seat time, 23 in order to effectuate that, they also need a waiver 24 of 6-16-102, which, you know, has instructional days.

If you're less than six hours it's only like a half-

25

| | 140 |
|----|-----------------------------------------------------|
| 1 | day credit, and I know that they have some |
| 2 | flexibility. So they'll need that waiver, as well. |
| 3 | CHAIRPERSON COFFMAN: And that's only for the |
| 4 | high school? |
| 5 | MS. DAVIS: Yes. |
| 6 | MR. WALTER: And the district would additionally |
| 7 | request at this time a waiver of 6-16-102, please. |
| 8 | MS. DAVIS: And then I think that might be it. |
| 9 | Let me double-check. And we pulled PD, so we're |
| 10 | good. That's all I have. |
| 11 | CHAIRPERSON COFFMAN: Any additional questions? |
| 12 | I'm ready for a motion. |
| 13 | DR. GOTCHER: I'd like to make a motion that we |
| 14 | accept the application as negotiated to approve the |
| 15 | Harrisburg College and Career Preparatory. |
| 16 | MS. PFEFFER: I second. |
| 17 | CHAIRPERSON COFFMAN: A motion has been made by |
| 18 | Dr. Gotcher, seconded by Ms. Pfeffer to approve the |
| 19 | Harrisburg College and Career Preparatory School. |
| 20 | Any discussion? Hearing none, all those in favor? |
| 21 | (UNANIMOUS CHORUS OF AYES) |
| 22 | CHAIRPERSON COFFMAN: Any opposed? |
| 23 | If you'll wait just a moment, we'll have written |
| 24 | comment and oral comment. |
| 25 | And I will just say for the record, if you've |

| 1 | not been to Harrisburg you should drive through it; |
|----|------------------------------------------------------|
| 2 | it's got the best hamburger I've ever had in my |
| 3 | entire life. |
| 4 | DR. GOTCHER: It's close to lunchtime. |
| 5 | SUPT. SAMPLE: And it's in the school cafeteria. |
| 6 | CHAIRPERSON COFFMAN: I've been to the school |
| 7 | numerous times, but we always go out for lunch. |
| 8 | SUPT. SAMPLE: Thank you very much. And we will |
| 9 | anxiously await your report. Thank you. |
| 10 | (BRIEF MOMENT OF SILENCE) |
| 11 | CHAIRPERSON COFFMAN: Dr. Gotcher. |
| 12 | DR. GOTCHER: Yes, Madam Chair. I voted for the |
| 13 | approval of the application. I believe this fits |
| 14 | wonderfully in our vision for Arkansas students. And |
| 15 | I'm encouraged by the leadership of this school |
| 16 | district and the opportunity for students. |
| 17 | CHAIRPERSON COFFMAN: Mr. Lester. |
| 18 | MR. LESTER: I voted for the amendment. The |
| 19 | model provides a unique opportunity for students to |
| 20 | prepare themselves for post-secondary options or the |
| 21 | workforce. Strong points are the personalized plans |
| 22 | and the advisor block that this model provides. The |
| 23 | district has made the needed partnerships with local |
| 24 | colleges and universities to make the model a |
| 25 | success. |

| | _ _ |
|----|-------------------------------------------------------|
| 1 | CHAIRPERSON COFFMAN: Ms. Liwo. |
| 2 | MS. LIWO: I voted for. I think that this is |
| 3 | innovation that will give students new opportunities |
| 4 | and benefit your community at large. |
| 5 | CHAIRPERSON COFFMAN: Ms. Pfeffer. |
| 6 | MS. PFEFFER: The leadership, school and |
| 7 | community support and the opportunity it will provide |
| 8 | for the students is very exciting. And I do want to |
| 9 | echo something Ms. Smith said about leadership, and |
| 10 | it's obvious that there's very strong leadership and |
| 11 | that is going to be so crucial to the initial stages |
| 12 | and long-term success. So please reach out and let |
| 13 | us know if you need assistance because we do want to |
| 14 | support you while you all lead this work. |
| 15 | MR. CRAIG: Thank you. |
| 16 | CHAIRPERSON COFFMAN: Mr. Rogers. |
| 17 | MR. ROGERS: I voted for. I thought it was an |
| 18 | innovative idea to partner with the community to |
| 19 | better serve the students of their district. |
| 20 | CHAIRPERSON COFFMAN: Dr. Saunders. |
| 21 | DR. SAUNDERS: I voted in favor. I thought this |
| 22 | would provide students opportunities for students. |
| 23 | CHAIRPERSON COFFMAN: Ms. Smith. |
| 24 | MS. SMITH: I voted for. This will provide |
| 25 | additional opportunities for the students of |

| | 143 |
|----|-------------------------------------------------------|
| 1 | Harrisburg. Strong leadership and innovation is |
| 2 | needed for success with this model. I believe that |
| 3 | the Harrisburg School District exemplified that |
| 4 | today. |
| 5 | CHAIRPERSON COFFMAN: Congratulations. You're |
| 6 | on the step forward to having the college and career |
| 7 | preparatory school at Harrisburg. Your next step is |
| 8 | to go before the State Board in November. |
| 9 | MR. CRAIG: Thank you very much. And I do want |
| 10 | to invite you all to come out to Harrisburg on a |
| 11 | Friday and take those classes. |
| 12 | MS. SMITH: We will. And y'all may have to give |
| 13 | Ms. Hogue some tissues back there; she's got a little |
| 14 | bit of passion going on. |
| 15 | MR. CRAIG: Thank you. |
| 16 | SUPT. SAMPLE: Thank you very much. |
| 17 | DR. GOTCHER: Thank you. |
| 18 | CHAIRPERSON COFFMAN: It is 10-till 12:00. What |
| 19 | time would you would you like to return at 12:30? |
| 20 | DR. GOTCHER: What time is Harrison expected to |
| 21 | be here, Ms. Boyd? |
| 22 | MS. BOYD: They're already here. |
| 23 | DR. GOTCHER: They are. |
| 24 | CHAIRPERSON COFFMAN: 12:30? |
| 25 | DR. SAUNDERS: 12:30 is fine. |

| | 144 |
|----|-----------------------------------------------------------|
| 1 | CHAIRPERSON COFFMAN: All right. We'll |
| 2 | reconvene at 12:30. Thank you. |
| 3 | (LUNCH BREAK: 11:50 A.M 12:30 P.M.) |
| 4 | A-3: HEARING OF DISTRICT CONVERSION PUBLIC CHARTER SCHOOL |
| 5 | APPLICATION: HARRISON HIGH SCHOOL |
| 6 | CHAIRPERSON COFFMAN: Ms. Boyd, you're |
| 7 | recognized. |
| 8 | MS. BOYD: Thank you, Madam Chair. Your next |
| 9 | item will be the Harrison School District is seeking |
| 10 | a conversion charter school for their high school. |
| 11 | And presenting on behalf of this application is |
| 12 | Superintendent Melinda Moss. |
| 13 | CHAIRPERSON COFFMAN: If everyone speaking on |
| 14 | behalf of Harrison High School and anyone speaking in |
| 15 | opposition will please stand and raise your right |
| 16 | hand. Do you swear or affirm the testimony you're |
| 17 | about to give shall be the truth, the whole truth and |
| 18 | nothing but the truth? |
| 19 | (ALL SPEAKERS ANSWERED AFFIRMATIVELY) |
| 20 | CHAIRPERSON COFFMAN: Ms. Moss, you're |
| 21 | recognized. You'll have 20 minutes. |
| 22 | SUPT. MOSS: Thank you. First of all, we |
| 23 | appreciate the Authorizing Panel listening to our |
| 24 | proposal today. And I do have an electronic |
| 25 | presentation to go along do I just, Alexandra, |

need to -- there it is.

We'd like to share with you our mission statement for our program; it is to maximize the learning of every scholar within a personalized learning environment that equips each student with career and college readiness.

We present this slide to you to show you a picture of a public high school when public high schools were developed in approximately 1892. The purpose of that was to have better trained foremen for the assembly line, and the groups that got together to design the first traditional public high schools had the idea in mind that the goal would be they would graduate 50% of the students that entered the high school program. It was about control; it was about compliance, regulations; and time was what was constant in this equation, and learning with a 50% goal toward graduation was what would be variable in that.

Looking ahead to the next slide, what we are finding is employers are asking us for critical thinkers. They're asking us for problem-solvers, students that learn how to learn, and time management appears to be a big key in that component. There was a Harvard study that said that if students could

master time management you see automatically a 20% increase in academic performance. We learned at the Innovation Summit that the six-year graduation rate through U.S. four-year universities is now at 59%, and when we look at two-year colleges that drops to 29%. How do you learn perseverance and the ability to start over if you're all on the same conveyor belt of learning? And we believe that the charter request we have today addresses some of these issues.

I'd like to introduce our high school principal,
Mr. Bill Keaster. He's going to come up and talk to
you about the journey that we have been on to bring
us to this point today.

MR. KEASTER: Thank you, Dr. Moss. Thank you, Board, for your time this afternoon. My name is Bill Keaster and I am the principal at Harrison High School. I'm excited to tell you about our journey and how we have strengthened and built partnerships along this process, and during this process the goal was always about helping students. We have a good school, but we also see the need to increase the flexibility to better serve our students.

Our journey started 20 months ago, in March of 2015. We started at the first CTE Regional partnership Council Summit where business and

industry came together to discuss challenges that each of us have. Around the same time the Chamber of Commerce formed a strategic planning committee and they began to look at the needs of the workforce. In the summer of 2015, we toured Siloam Springs Manufacturing Academy with some of the officials from Pace Industries. Mr. Stuckey is here with us today. In the fall of 2015, the district started having what we call Ed-Box meetings. These Ed-Box meetings were administrators from central office, from high school, from junior high, from middle school, even our elementary principals, and we started to think what should education look like for the students of Harrison in the 21st century. Late in the fall of that year, the Regional Workforce Planning Grant was awarded to North Arkansas College there in Harrison and this kind of cemented the foundation of the major stakeholders. You have the Chamber of Commerce, industry leaders, employers from Harrison, higher education, and the Harrison School District, along with parents and students.

From here we had many different site visits. We toured the Springdale School of Innovation; we went to Salt Lake City, Utah Early College High School; then we also went to high schools and technical

centers in Wisconsin. And on these different visits we had a mix of administrators; we had teachers, administrators, we had a school board member, we had business leaders, industry partners, as well as representatives from North Arkansas College, as well as representatives from the Office of Innovation. And we really started to come together and look at our school and our community to see how we could better serve the students and our stakeholders.

Early in 2016, APSRC started educating Harrison School District on Act 1240 waivers and the conversion charter process. In March of that year, our curriculum director met with our CTE teachers to discuss their different pathways, and she asked them to develop a five-year vision for each of their different programs. In April of 2016, our school board unanimously passed a resolution supporting our HALO pilot program, which is what we asked the State Board for our 1240 waivers, and they also approved for us to submit these Act 1240 waivers to the State In May, the State Board granted the Act 1240 waivers to Harrison, and we said at that time that we would roll these waivers into a conversion charter application which we know that allows for more oversight and accountability.

Since then, we have started training some of our teachers alongside of industry people on the MSSC certification standards. At our last CTE advisory council in May of this year, the MSSC certification, the HALO pilot program, the workforce implementation grant were all discussed with area businesses, with business advisors, and with all of the CTE teachers.

Back in the summer we had numerous public meetings for parents and students and we introduced our HALO program. We spoke at several civic clubs and organizations. We had articles in the newspaper and social media outlets, and we still continued to get phone calls about our program. We trained our teachers in personalized learning and we even took a team of teachers to the innovation conference in Farmington. Of course, in August, we implemented our HALO pilot program and it is going very successful. In September, Harrison brought a team of administrators and teachers to the Office of Innovation Summit where Harrison is in the first cohort group.

Meeting with all the different stakeholders, parents, students, industry, building a consensus has been a very long process -- like I said, 20 months -- but it has been a very rewarding process and one that

will be beneficial to Harrison High School students when our charter conversion is approved, hopefully.

At this time I'm going to turn the presentation over to my assistant principal, Mr. Jay Parker, and he's going to talk a little more about the specifics.

MR. PARKER: Thank you for allowing us to come here today and speak. So, why change? Traditional education right now is a one-size-fits-all model and, as Dr. Moss had that picture of the 1892 school classroom, that's kind of where we're at. So we're looking to change and provide more flexibility to students so they can personalize their own educational needs. Basically, you can't fit a square peg into a round hole, so we're trying to make a way for students to personalize.

Our world is filled with more options now than ever before. Used to, you know, you graduate high school and you go straight to the workforce or you go straight to college. Now kids can start doing things more in high school and expedite their track. They can go through internships, industry technical certifications, workforce readiness, and also pursue a two- or four-year graduate course in college. We feel like given the choices to students for their individual educational paths will open more doors for

opportunity that will lead them to success.

HALO is an educational model we are living right now, currently, under the Act 1240 waivers. stands for Harrison Advanced Learning Opportunities. It was made available to all the students in Harrison High School this year and we had 67 willing to commit to this new model. It's a personalized blended learning environment with a curriculum available online 24/7. Teachers still teach lessons within the classrooms and students can go to those lessons or they can locate areas that we have available for them to work on their curriculum online. They have the flexibility to control their time, place, pace, and This eliminates the boredom and path of education. stress that some students bear. Students now can attend classes they have difficulty in learning, they can attend them more often, and those classes that are easier for them, attend them less. So we're giving students the choice basically as time serving kids instead of kids serving time.

Mentoring -- the flexibility in this program has allowed us to mentor these students. Right now, at six weeks of the school year we'd mentored students for over 78 hours, the teachers within this model, as well as my self. Kids don't know how much you know

24

25

-- or don't care how much you know until they know how much you care, and these relationships that support students with their setting learning goals has assisted them with their flexibility and meeting these goals. Mentor documents are shared with the parents weekly and they can comment on those documents as well and give us feedback as the staff. The traditional model in the six weeks had only had one parent-teacher conference, so we are investing more time into our kids in this mentoring aspect to help them reach their goals.

We are embedding soft skills within this model. We're having kids show up and they're prepared; they're at the right place, the right time; check in and out of classrooms. This is an image here of a card that basically all the kids wear on a lanyard with a QR code. And they will scan in on a Kindle device that's mounted in the classroom and it tracks how much time they spend in each classroom, as well as how much time they're spending in their study sessions. This information is also emailed to the parent as soon as the student checks into a classroom or checks out so the parent gets verification of how much times a student is actually spending within each individual subject area.

We have raised the bar in our HALO model this year. We have a 70% minimum passing requirement. No F's are given. If a student doesn't meet the 70% threshold, they're given an Incomplete until they do. That goes back to that giving students more time if they need it or they can accelerate their learning if they also choose to. At the six-week progress report time this year we had 30% in the traditional model that had F's; only 7% in the HALO program had F's, if we were to give them an F. So by changing that 1892 model that Dr. Moss mentioned and giving the students choices, they're making better grades because they have ownership in their own educational goals.

Some of the feedback I've received from parents on this model are highlighted up there; you can read those on your own. I'll also give you a quote from a HALO student whose father is actually a plant manager at Wabash, one of our local industries that we're partnering with. He commented to me that he liked the fact that their child was learning the educational content and time management on the school's time instead of his dime, referencing the college tuition that he might have to -- that he'd be facing soon. I thought that was pretty catchy and what we're after.

So as you can see what we're trying to do here,
HALO is just one gear or cog that would spin off the
Harrison conversion charter, just one choice that
students could have an option to do. You can see all
the other choices that students can opt into. They
can choose to stay right in the traditional
coursework, as well as go into internships, HALO,
industrial certifications, concurrent credit. So
we're just looking to spin-off lots more options for
kids and give them more choices.

The conversion charter would give us, the whole school, all the students access and we're just wanting to break down barriers to capitalize and support individual student strengths and to assist them to a path of success.

SUPT. MOSS: You might ask yourself why are we doing this and I would argue that we're doing this for this kid. This young man as a 7th grader under instruction from one of our IT professionals in our school -- and he was doing this through the EAST class, and that's part of the waivers that you see is licensure for certain industry certification areas -- Austin Bright, one of our IT technicians, worked with him and a group of other kids. He's a 7th grader with A+ computer CompTIA certification. We were told

that he's the youngest in the world to ever get that certification. That's a professional certification. He's working on our computers for us as a helper when we need him. He's an 8th grader right now; he's still studying. What are we going to do with him next year as a 9th grader if we don't have these opportunities in place? Because we have way underestimated what our kids are capable of doing if they're able to channel their interests and energies and spend time where they're successful and then also where they need that help. This gives us the flexibility in this model to be able to incorporate these things.

I know that Mr. Keaster talked about our journey. We did have a workforce planning grant that North Arkansas College in our community was able to get, and then through that synergy of meeting together with industry people -- and we're going to hear from Ken Stuckey here in a moment with Pace Industries -- but Wabash Industries, our local hospital, our Chamber of Commerce -- we've worked so hard together to figure out what's a good fit for Harrison. And when we presented before the State Board I know that Commissioner Key came up to us afterwards; he said, "You're the first district that

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

has really tied your waiver requests to workforce development and how badly that is needed in our state." And I believe that that process actually was instrumental in helping our North Arkansas College get the workforce development grant, which has now pumped \$1,000,000 into our community to address some of the workforce needs and employment needs of our citizens.

I do have some slides that just highlight the waiver requests again. You have those in front of you but I do not want to take time away from Mr. Ken Stuckey. He is the director of talent acquisition and development at Pace Industries. He is one of our major employers in Harrison, and I believe he's going to talk to you about the successes we've already seen and things that are still to come. So, Mr. Stuckey, I'll ask you to come forward.

Thank you, Dr. Moss. And thank MR. STUCKEY: you, Board, for hearing us today. I come before you as someone who has enjoyed the leadership that we have seen from Harrison. Unlike some other companies that we have in different parts of the U.S. where we have not seen that kind of leadership yet, we're taking Harrison as a model to our locations and --Massachusetts and Pennsylvania and Minneapolis/St.

Paul area and Wisconsin, which actually has a pretty robust career tech ed. area.

Pace Industries is the nation's largest custom aluminum die-caster. That's what we do. We make a lot of automobile parts. We do a lot of different things for Pace, with Pace, or companies around the world. We have around 4,000 employees. My role is developing workforce pipelines for our companies. We have an aging workforce in industry, not just Pace, all over the country. And because of the talent that's leaving Pace Industries in Harrison we have to backfill with talented young people. We chose to reach out in that meeting that Bill was talking about, a couple of years ago, when we began this journey, this partnership, and with the school, Harrison schools. And the reason that Pace did that is because our base of employment of people available to go to work in north Arkansas is a little thin. It's not a metropolitan area, like a Kansas City or a St. Louis, so we have to reach out to a lot of rural school districts. Harrison is key to us because of their relationship, obviously in proximity but also to North Ark. College, the concurrent credit opportunities, the continued learning. Our interest at North Ark. would be more of an engineering track

and automation track. So Harrison schools is a fantastic place for us to begin to help kids understand the opportunities in manufacturing and the So because of that we have -- still have a careers. lot of competition in that area. Ranger Boats up there employs about 900 people in Flippin; Baxter Labs around 1100 in Mountain Home. So there's some big employers and we're vying for the same workforce; that has to be shared. So whatever we can do to help prepare students at the high school level -- and we're even reaching down into junior high. Dr. Moss, I need the resume of this young man that she just told you about. That is where it's getting in It's like watching the SEC football industry. coaches recruit now in the 8th and 9th grade level. I mean, you guys that follow football and the SEC know how competitive that is. It is not that much different in manufacturing for talented kids and we're seeking out those that want to just keep an open mind to manufacturing. So we have a lot of barriers to that. Harrison though has helped us tremendously in breaking those barriers down.

So because of this challenge, because of our partnership with Harrison now, we are introducing a course this spring called the MSSC CPT course. MSSC

Stands for the Manufacturing Skills Standards

Council. This is a national certification too. This is not just a local thing; this is a national certification. And what it does, it prepares kids with a great overview of manufacturing in general.

This could be -- this person will be as valuable at Wabash in Harrison, Claridge in Harrison, Pace, a number of industries around that area. Obviously, that will be -- those kids can go outside of our area with this certification as well. So that's a big thing.

There's five success factors for educational partnerships, "success" as defined in the UCLA Community College Review. And I looked at those and I thought we need every one of those. Number one is to recognize a local regional economic development challenge that calls for collaborative attention. We definitely have that. So we have got the workforce, the new -- the younger kids coming into our workforce to replace our aging workforce. More technical jobs are beginning in manufacturing today than at any time in our history. Companies are having to produce lean; they have got to produce more with less. Our customers want the products priced for less. And so as a result, we are having to do everything we can do

to automate. These are great jobs, automation positions, technical maintenance, CMM programming, CNC work. This is a great opportunity for young people to step in to good salaries to start with but then they grow exponentially with some experience.

Number two is establish a shared mission and goals. We're giving graduates in Harrison a reason to stay in that area and start a good career, rather than moving off to another region to work.

Number three is to insure that value is achieved for all partners, including students. Obviously, Pace is going to benefit but these students are going to have opportunities that they never dreamed of by being prepared to go into the workforce.

Number four is to have strong executive leadership from both the high school, college, and industry participants. I'm here representing several employers today in Harrison that all understand the need for us to partner with the school system there in order to grow our workforce.

And number five is to develop a governance and accountability mechanism. You know, we can have all of the great programs in the world but unless we measure it to know what the outcome is then it could be a total waste of time. And our company is not

2

23

24

25

interested in wasting time or money. So for that reason we want to track these students wherever they go from Harrison, whether it's to us, to another company, but really look at what happens when a child goes into a career tech path and they go on to a twoyear school or they go on to a university for an engineering degree, what happens to those kids. And we will be watching to see what happens when we go into the high school, which is -- by the way, the first pilot of MSSC in Arkansas will be in Harrison and we hope it becomes a statewide program. we're going to track these positions and watch the difference in pay and the difference in positions that a kid who comes out of high school is prepared to do, whether that's going on into the workforce or going on to college, be it a two-year or a four-year.

So as a result of that, we're putting our money where our mouth is as well. We've introduced the Pace scholars program. We'll be giving 20 -- this past year we started it -- we are giving 20 \$1,000 scholarships to children that are in our region.

Many of those will come from Harrison High School.

That \$1,000 is to be used towards an engineering technology degree at North Ark. As they complete and they get better and stay in school, they have an

opportunity to earn internships, to have a second year of school reimbursed as far as cost goes up to \$1,000. And so we think and hope other industries jump on the bandwagon with high schools around Arkansas. It will vastly increase the companies themselves workforce, but also give the kids a tremendous up-side to a good career. And, of course, our interest is manufacturing but we could be talking about healthcare, logistics, and all those other segments of our economy. Thank you again for allowing us to speak to you today. We're really proud of our school system and hope that you'll give it great consideration. CHAIRPERSON COFFMAN: Thank you so much. I'11 just ask a quick question of you while you're standing there. MR. STUCKEY: Sure. CHAIRPERSON COFFMAN: What is your relationship with Flexsteel? Well, we have no --MR. STUCKEY: CHAIRPERSON COFFMAN: I see all the trucks.

y'all know?

MR. STUCKEY: Yeah. Flexsteel is across the

street from us, and I believe they -- I believe they

make wire -- what is Flexsteel's product line, do

| 1 | CHAIRPERSON COFFMAN: Furniture. |
|----|-------------------------------------------------------|
| 2 | MR. STUCKEY: Furniture. Okay. So we don't |
| 3 | we're not in the furniture business. We used to be |
| 4 | associated with Leggett and Platt. We do not have |
| 5 | we're not owned by Leggett anymore. That was a |
| 6 | public company. We're a private company, so we don't |
| 7 | have a business relationship. But I know they are |
| 8 | excited about this program; I do know that. |
| 9 | CHAIRPERSON COFFMAN: I just wondered when I |
| 10 | drive through town |
| 11 | MR. STUCKEY: Yeah. |
| 12 | CHAIRPERSON COFFMAN: I see your buildings |
| 13 | and I didn't know |
| 14 | MR. STUCKEY: Yeah. Yeah. |
| 15 | CHAIRPERSON COFFMAN: if all of you were |
| 16 | together or if they were two separate industries. |
| 17 | MR. STUCKEY: We are not. But we're glad |
| 18 | Flexsteel is in town for sure. |
| 19 | CHAIRPERSON COFFMAN: Thank you. Yes. |
| 20 | DR. GOTCHER: Mr. Stuckey, I just want to |
| 21 | personally say thank you for being here and |
| 22 | supporting the Harrison school and the students of |
| 23 | that community. It just it says a lot about the |
| 24 | partnership that's begun and hopefully will continue. |
| 25 | I just appreciate you being here. |

1 MR. STUCKEY: I appreciate that. We're thrilled 2 to be part of it. Thank you. CHAIRPERSON COFFMAN: Ms. Davis, was there 3 anyone to speak in opposition or do we have any 4 5 public comment? MS. DAVIS: 6 No. 7 CHAIRPERSON COFFMAN: Dr. Moss, you have five additional minutes for closure. 8 SUPT. MOSS: I think what I'd like to say in 9 10 closure is just that you saw some of our successes 11 we're already experiencing through the HALO model. This charter application is not just about HALO, but 12 13 that is a component of the things that we're asking for today. Frankly, I don't know how, if these are 14 15 not granted today, we go backwards. Our students have had a taste of this, some of our teachers have 16 had a taste of this, and so far it's successful and 17 18 they're liking that. So I would just humbly request of this group that you allow us to continue this 19 20 momentum and go on this journey with us and watch the 21 And hopefully we can learn and build outcomes. 22 education for all students through this flexible 23 model. Thank you. 24 CHAIRPERSON COFFMAN: Thank you, Dr. Moss. 25 Questions from the Panel? I was about to say hearing

one --

DR. GOTCHER: Almost.

CHAIRPERSON COFFMAN: Dr. Gotcher.

DR. GOTCHER: I just want to just speak to No. Dr. Moss for a moment. As I've said in the other applications, I always go straight to the mission, and I love the phrase "maximize the learning of every scholar with personalized learning." As a superintendent, you know very well the barriers that face our families and face our children in seeing that in your office and the community and so-forth. Thinking of the question you asked earlier, why change -- and I thought you did a brilliant job of explaining the rationale behind it -- just in your mind, in your gut, what are the barriers that you still see just for you and your community? Maybe that's not on the page here. I just want to hear from your heart. What is still the barriers that concern you in moving forward?

SUPT. MOSS: I'd have to ponder that for a moment because we've been so focused on trying to remove some of those barriers. I think that --

DR. GOTCHER: Well, maybe just talk about that. Talk about that.

SUPT. MOSS: Well, I think the benefit and the

I know

passion that I see in this is that we still have 1 these kids with us and we have got a segment that is 2 growing within our community and I think across our 3 state where we have students that do not have a model 4 5 of maybe family members that work or haven't really had this vision presented to them maybe like our 6 7 generation did. And I'm thinking while we still have them in high school and before they graduate from our 8 9 walls this is the time to catch them. And I think that if we have these strong partnerships, not only 10 11 with our community college but with our employers and through industry certifications, we can give them a 12 vision of the world of work and a vision of self-13 actualizing into "you can do this and you do have 14 15 opportunity." And when a student already has concurrent credit and industry certifications before 16 they even graduate high school then they're going to 17 18 be more inclined to want to continue that. that Pace has already said in a memorandum that 19 20 they're going to guarantee these students that have 21 MSSC certification an interview. If they're hired, 22 they're going to start at a dollar more per hour than 23 they would -- someone just off the street. And it's 24 creating that workplace ready perseverance and time 25 management that I think will continue to keep kids

1 successful once they leave the confines of the high school. 2 DR. GOTCHER: Great. 3 Thank you. One follow-up, Madam? 4 5 CHAIRPERSON COFFMAN: (Nodding head up and down.) DR. GOTCHER: Talk about the partnerships, as 6 7 far as the ongoing. Maybe you said it and forgive me if it's in the documents. Is there a set every 8 9 month, every nine weeks, an opportunity where ongoing partnership with community and business folks is 10 going forward to get that relevant in-time feedback 11 12 as you consider this change? SUPT. MOSS: Because of the workforce 13 development grant that was given to our community 14 15 through North Arkansas College, we meet regularly. 16 DR. GOTCHER: Okay. SUPT. MOSS: Monthly we have planning meetings. 17 18 We each kind of have a segment that we bring and report out to one another and look to the next thing. 19 An example of that would be the planning that has 20 21 gone into our career summit which is taking place 22 October 26th, where we are bringing in business and 23 industry from not just Boone County but some of our 24 surrounding regional area, and then we have teachers

and students going to that. We have externships that

25

our teachers have participated in this summer.

DR. GOTCHER: Great.

SUPT. MOSS: And we're also talking -- Boone
County Economic Development is very interested in
this. They're meeting with the Chamber of Commerce
getting ready to go before the Department of Labor to
look at internship -- maybe a softening of some of
those rules so that our high school 16 year olds, 17
year olds can have meaningful engagement in the
manufacturing setting. That's been born out of this.
So there's a lot of ongoing work.

DR. GOTCHER: That is great. Thank you, Dr. Moss.

SUPT. MOSS: Yes, sir.

CHAIRPERSON COFFMAN: Ms. Pfeffer.

MS. PFEFFER: Good afternoon. I'm looking at the -- in the application at the different options students have to graduate with the traditional type diploma or a high school diploma that -- like a value-added diploma with some type of technical proficiency or technical certificate or then the concurrent credit with associates degrees. And so for students who desire to complete high school with more than just the diploma what are the possibilities of -- and I know within your concurrent you talked a

little bit about the concurrent credit rate at North
Arkansas College but also a free option at Early
College High School with Arkansas Tech. So what kind
of financial constraints might there be for either
option two or three, and how are you all going to
work with students and what will that look like so we
can be sure students aren't prevented from taking
advantage of those?

SUPT. MOSS: Right. I think because of the free option through Arkansas Tech but also the North Arkansas reduction in cost, those are -- those can be addressed. We've also got Harrison School Foundation; we have what Mr. Stuckey mentioned with our industry partners. We're going to scrape and grab funds wherever we can to make sure that that's not a barrier. We also provide transportation to those opportunities.

MS. PFEFFER: So within your foundation funding you have some of that that can be specifically earmarked for the types of concurrent, not necessarily after they graduate high school. So is that a special endeavor that you all started or has that been in place for awhile?

SUPT. MOSS: We've had the Harrison School Foundation 501(c)(3) in place for years. And it's

just another pool within a long list of opportunities 1 that we're hoping to be able to access. But we do 2 not want finance to be a barrier. 3 MS. PFEFFER: Would there be -- would it be 4 available for all students or would there be a 5 process that they would apply if there was a 6 7 financial need? Is that something you've encountered 8 just with the pilot you've had? 9 SUPT. MOSS: Well, we've encountered that even 10 before this came about through -- some of our 11 students qualify under McKinney-Vento and we try to 12 work with students that may be in the free and 13 reduced lunch pool or whatever to try to help them pay for these courses. 14 15 And Mr. Keaster just reminded me, with the 16 College-Bound Now program that I believe we referenced in our application, we signed a Memo of 17 18 Understanding last year with North Arkansas College. They actually come on our campus and they have every 19 high school student complete the FAFSA. 20 21 MS. PFEFFER: Okay. 22 SUPT. MOSS: And through PEL some of these 23 students can pay for concurrent credit before they 24 graduate high school as well. 25 MS. PFEFFER: Okay. And thank you for that.

| | 1/1 |
|----|-------------------------------------------------------|
| 1 | And I know just from visiting with folks in that area |
| 2 | there is a very strong partnership with the local |
| 3 | college there. So I know it's going to provide |
| 4 | opportunities for students. I just and I know |
| 5 | that you all will do everything you can, but I know |
| 6 | that that can that does just have to be something |
| 7 | because as this grows there will be more cost |
| 8 | associated with that, so just being mindful of having |
| 9 | a plan to address it. Thank you. |
| 10 | CHAIRPERSON COFFMAN: Ms. Smith. |
| 11 | MS. SMITH: Okay. You were referring to school |
| 12 | of innovation cohort one. Are y'all trying to be a |
| 13 | school of innovation too? |
| 14 | SUPT. MOSS: No, but they were so impressed |
| 15 | with our program. And through the workforce planning |
| 16 | grant we talked a lot with Denise Airola. |
| 17 | MS. SMITH: Okay. |
| 18 | SUPT. MOSS: And so we went with them to the |
| 19 | Salt Lake City Early College High School to see that. |
| 20 | And they just invited us to be part of that, even |
| 21 | though we're not a school of innovation. |
| 22 | MS. SMITH: Okay. That will be a great process |
| 23 | for you as you're going through. |
| 24 | SUPT. MOSS: Yes. |
| 25 | CHAIRPERSON COFFMAN: Mr. Stuckey talked about |

tracking the students after they leave Harrison High School. Talk to us about your plan for following up with students.

SUPT. MOSS: We do a follow-up now through our counselor's office, but through this process what we have realized is that we have not done good enough. Because we usually look at right after they leave us and did they go to college, but what we have not tracked, I do not think, well enough is, okay, they've gone off to college and we've patted ourselves on the back that we've got all these kids going to post-secondary education, but how many of those are actually completing that. And that's what we need to do a better job of.

CHAIRPERSON COFFMAN: So what's your plan of action?

SUPT. MOSS: I don't know that I can speak to that. Do you guys know?

CHAIRPERSON COFFMAN: It's goal four in our strategic plan, so I'm really interested.

SUPT. MOSS: The logistics of that, just to be more aggressive about it and I think trying to make sure that as those kids move and do other things that we're keeping touch with them. But at this point that is something that we need to develop.

MR. STUCKEY: Can I add real quick?

SUPT. MOSS: Please do.

MR. STUCKEY: I'm going to take you off the hook.

SUPT. MOSS: Okay.

1

2

18

19

20

21

22

23

24

25

From an industry perspective we MR. STUCKEY: want to know where students go after high school because we want to stay in touch with them, especially those that may go with the university and enter engineering and then drop out; what happens to engineering students at four-year colleges when they Those are people that would be prime quit. manufacturing engineers that we could help them continue their education. So industry needs to do a much better job of tracking graduates from high school and we're asking for that but because of the legal aspects of that, not being able to stay in touch with a minor, it gets a little tricky. So I can tell you that as talent acquisition people around the country we are looking for ways to track graduates and where they go and how can we stay in touch with them and keep them as what we call a warm market for our own people -- for our own companies, rather.

DR. GOTCHER: And if I can encourage you just a

little bit, Dr. Moss, Mr. Stuckey, I've heard from the Fountain Lake superintendent they use a program called LifeTrack. So we learned that at one of our listening tours. David Wooley at Alma -- I hate to use the word track -- engages in following their students' post-secondary engagement one, three and five years. And then I also talked to Rick Neal who has the wonderful conversion or school of innovation PRMBA and I think through either Perkins funds or something -- I think through Workforce Ed. there's a mechanism for engaging in these students and following them. So LifeTrack, David Wooley, which you know, and then, of course, Rick Neal at Pea Ridge. There are some mechanisms out there because that's something that we're asking, and there are some superintendents that are in school districts already doing that. So it's out there, so I just want to encourage you with that. So we can hook up with that later if you want. CHAIRPERSON COFFMAN: I just want to bring to

CHAIRPERSON COFFMAN: I just want to bring to your attention too that in the Department's strategic plan goal four is that we're looking at data postgraduation --

DR. GOTCHER: College, career and --

CHAIRPRESON COFFMAN: -- because we want to

| | 1,5 |
|----|-------------------------------------------------------|
| 1 | know. You know, are we really turning out the types |
| 2 | of students that can complete college and can enter |
| 3 | in careers and are engaging in their community. So |
| 4 | we want to know too. |
| 5 | MR. STUCKEY: That's good. |
| 6 | CHAIRPERSON COFFMAN: And we're looking we're |
| 7 | searching through those same hurdles that you |
| 8 | described. Thank you. |
| 9 | Any other questions or comments? |
| 10 | Then I'll entertain a motion. |
| 11 | MS. DAVIS: Wait, wait. |
| 12 | CHAIRPERSON COFFMAN: Oh, sorry. Sorry. |
| 13 | DR. GOTCHER: Motion to bring Ms. Davis up. |
| 14 | CHAIRPERSON COFFMAN: Yes, a motion to bring Ms. |
| 15 | Davis up. Thank you, Ms. Davis. |
| 16 | MS. DAVIS: Sorry. I do have |
| 17 | CHAIRPERSON COFFMAN: You've used all your issue |
| 18 | cards earlier in the day. |
| 19 | MS. DAVIS: Sorry. Okay. And these hopefully |
| 20 | should be fairly easy ones. On their waivers, under |
| 21 | the licensure, in order to effectuate the waiver for |
| 22 | licensure they also need a waiver of 6-17-902. So |
| 23 | I'll need them to verbally confirm they'd like to add |
| 24 | that. |
| 25 | SUPT. MOSS: Yes. |

MS. DAVIS: And then on the waiver of the attendance that they have about -- you know -- during a snow day and how they can log in digitally, I'm not sure that they need a waiver of the entire section.

I know that this was originally on it but after looking at it more I think they only need the (a)(2) on the physical presence. I'm not sure; y'all have to let me know if there's a reason they need the whole thing or if they just need that subsection for (a)(2) about the teacher monitoring the physical presence of the student.

CHAIRPERSON COFFMAN: So I wondered about that one too. Is that the appropriate waiver or should that have been a calendar waiver?

MS. DAVIS: I don't think -- I mean, they have waivers as like -- they've already requested of like the 6-hour and 30-hour week kind of thing. But the way that some of the charter schools have done it is they have a waiver of this (a)(2) for when they can offer virtual. And this is something that's being done in some of the other schools as well. For, you know, rural schools or schools that have, you know, rough terrain that makes it even harder when there's a snow day.

CHAIRPERSON COFFMAN: The reason I was asking

about the calendar waiver is because the students might now officially be following the exact same calendar as the rest of the students.

MS. DAVIS: Well --

CHAIRPERSON COFFMAN: Previously we talked about that with the other school district because they may have a student that started early or something like this and potentially these students could complete early.

MS. DAVIS: Well, I don't think that the way that they put in here for the reason for their waiver -- that the digital learning opportunities are for those days to when it's an exceptional or emergency circumstance that the school has to be closed, rather than just alternating -- I mean, alter -- you know, altering the calendar. They just need it so that way they don't have to add on and go to school until mid-June. That's how I'm understanding it, but I could be misunderstanding it and the applicant can let us know that.

SUPT. MOSS: No. We're fine to limit it to the (a)(2).

MS. DAVIS: The physical --

SUPT. MOSS: Yes.

MS. DAVIS: Okay. And so it is just for those

| | 178 |
|----|-------------------------------------------------------|
| 1 | days in which like the school is closed because it's |
| 2 | snowing? |
| 3 | SUPT. MOSS: Yes. It's just inclement weather |
| 4 | and or maybe even a flu epidemic, but whatever |
| 5 | would cause us to traditionally close. And we have |
| 6 | limited that to two per year. |
| 7 | CHAIRPEROSN COFFMAN: Would that apply to all of |
| 8 | the students in the high school? |
| 9 | SUPT. MOSS: Yes. |
| 10 | CHAIRPERSON COFFMAN: So potentially it could |
| 11 | apply to your high school but would not apply to your |
| 12 | elementary and junior high? |
| 13 | SUPT. MOSS: We effectuated that waiver through |
| 14 | 1240 for the entire district. |
| 15 | MS. DAVIS: Okay. |
| 16 | SUPT. MOSS: And then we're rolling it into the |
| 17 | conversion charter as well. |
| 18 | MS. DAVIS: And so that so that one would |
| 19 | just be limited to 6-18-213(a)(2). And |
| 20 | CHAIRPERSON COFFMAN: Dr. Moss, I was clarifying |
| 21 | between the school and the district. |
| 22 | SUPT. MOSS: Yes. We've only referenced the |
| 23 | high school in our conversion charter application. |
| 24 | We do have it under 1240 for the district. |
| 25 | CHAIRPERSON COFFMAN: Thank you. |

| | 173 |
|----|-------------------------------------------------------|
| 1 | MS. DAVIS: That was all. Don't look so |
| 2 | surprised. |
| 3 | CHAIRPERSON COFFMAN: Now if there are no other |
| 4 | comments or questions I'll accept a motion. |
| 5 | DR. GOTCHER: I don't always want to be first, |
| 6 | but I would like to make a motion that we accept the |
| 7 | applicant [sic] as negotiated for approval. |
| 8 | MS. SMITH: So moved. |
| 9 | CHAIRPERSON COFFMAN: Motion has been made by |
| 10 | Dr. Gotcher, seconded by Ms. Smith to approve the |
| 11 | application for the Harrison High School. Any |
| 12 | discussion? |
| 13 | Hearing none, all those in favor? |
| 14 | (UNANIMOUS CHORUS OF AYES) |
| 15 | CHAIRPERSON COFFMAN: Any opposed? |
| 16 | SUPT. MOSS: Thank you. |
| 17 | CHAIRPERSON COFFMAN: IF you'll wait just a |
| 18 | moment, we'll provide their remarks. |
| 19 | Dr. Moss, I don't I was looking through your |
| 20 | application and I saw that Rance King is your high |
| 21 | school counselor. |
| 22 | SUPT. MOSS: Yes, ma'am. |
| 23 | CHAIRPERSON COFFMAN: He and I served on the |
| 24 | English Language Arts Standards Framework Committee. |
| 25 | I believe it was the year that we wrote standards per |

grade level, so --

SUPT. MOSS: Well, he's an excellent, excellent asset to our district. And the only sad thing about him becoming a high school counselor was that he was no longer our English teacher, because he's just wonderful in both realms.

CHAIRPERSON COFFMAN: Well, it just -- it speaks to the partnership with the Department from many years ago.

(A FEW MOMENTS OF SILENCE)

CHAIRPERSON COFFMAN: Dr. Gotcher.

DR. GOTCHER: Yes, Madam Chair. I voted for the approval of the application. I feel the applicant was well prepared and has already demonstrated the strong partnership with community and business.

Further, I'm encouraged by the personalized learning approach for all scholars.

CHAIRPERSON COFFMAN: Mr. Lester.

MR. LESTER: I voted for the amendment. The model provides a unique opportunity for students to prepare themselves for post-secondary options or the workforce. The district has made strong partnerships, and I stress that because it was evident, with local business and local college and universities to make the model a success. I have no

| | 101 |
|----|-----------------------------------------------------|
| 1 | concerns. |
| 2 | CHAIRPERSON COFFMAN: Ms. Liwo. |
| 3 | MS. LIWO: I voted for. Again, this is this |
| 4 | will benefit your students and your community, as |
| 5 | well. |
| 6 | SUPT. MOSS: Thank you. |
| 7 | CHAIRPERSON COFFMAN: Ms. Pfeffer. |
| 8 | MS. PFEFFER: Harrison School District is |
| 9 | building upon previously obtained waivers and has |
| 10 | built a plan to promote personalized opportunities |
| 11 | for its high school students. The district has |
| 12 | partnered with the business community and local |
| 13 | community college to support their goals. |
| 14 | CHAIRPERSON COFFMAN: Mr. Rogers. |
| 15 | MR. ROGERS: I voted for it. It's a good plan |
| 16 | and I have no concerns with it. |
| 17 | CHAIRPERSON COFFMAN: Dr. Saunders. |
| 18 | DR. SAUNDERS: Yes, I voted for. I had no |
| 19 | concerns. It demonstrated great examples of school |
| 20 | and community partnerships. |
| 21 | CHAIRPERSON COFFMAN: Ms. Smith. |
| 22 | MS. SMITH: Harrison School District has begun |
| 23 | the process of innovation by using Act 1240 waivers |
| 24 | branded to the additional planning specific to the |
| 25 | high school charter as to innovative offerings for |

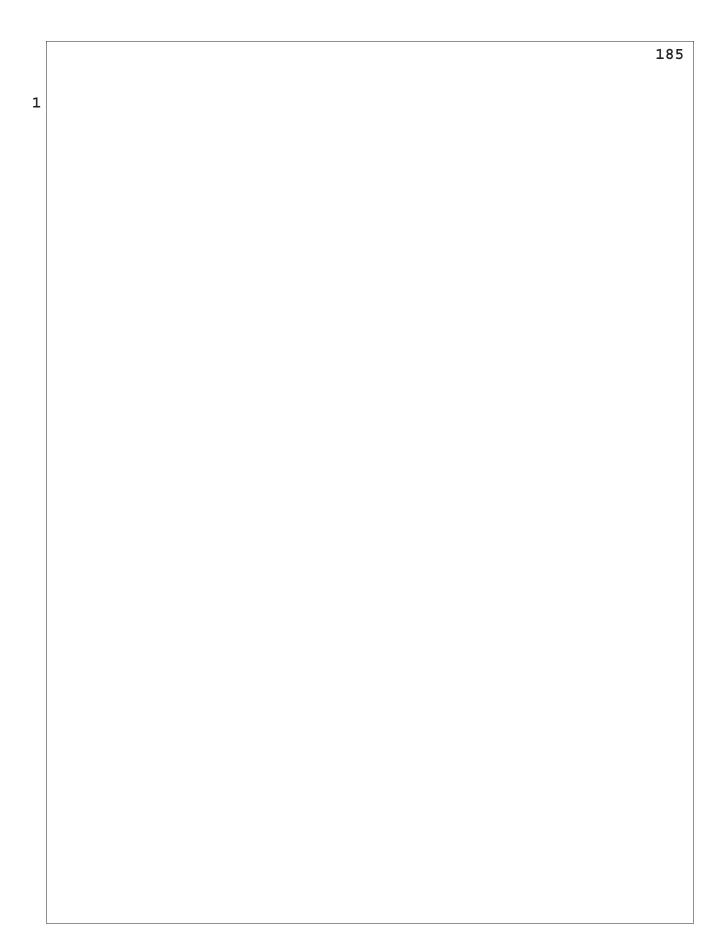

| | 182 |
|----|---------------------------------------------------|
| 1 | these students. Also, the business partnership is |
| 2 | impressive. |
| 3 | CHAIRPERSON COFFMAN: Congratulations to |
| 4 | Harrison High School, Harrison students, and the |
| 5 | Harrison community. |
| 6 | SUPT. MOSS: Thank you very much. |
| 7 | CHAIRPERSON COFFMAN: Thank you. And your next |
| 8 | step will be to go before the State Board in |
| 9 | November. |
| 10 | SUPT. MOSS: All right. |
| 11 | CHAIRPERSON COFFMAN: Thank you so much. |
| 12 | Ms. Boyd, do you have any additional work for us |
| 13 | today? |
| 14 | MS. BOYD: Not today, Madam Chair. |
| 15 | CHAIRPERSON COFFMAN: So we'll see you at 8:30 |
| 16 | again in the morning? |
| 17 | MS. BOYD: Yes, ma'am. |
| 18 | DR. GOTCHER: Your favorite time of day. |
| 19 | MS. BOYD: My favorite time of the day. |
| 20 | CHAIRPERSON COFFMAN: Without objection, I'll |
| 21 | take a motion for adjournment. |
| 22 | MS. PFEFFER: So moved. |
| 23 | DR. SAUNDERS: Second. |
| 24 | CHAIRPERSON COFFMAN: All those in favor? |
| 25 | (UNANIMOUS CHORUS OF AYES) |
