APPEARANCES

PANEL MEMBERS:

| MS. DEBORAH COFFMAN | Chairman/Chief of Staff |
|---------------------|-----------------------------------|
| DR. MARK GOTCHER | Vice Chairman/Deputy Commissioner |
| DR. ERIC SAUNDERS | Asst. Commissioner – Fiscal & |
| | Administrative Services |
| MS. ANNETTE BARNES | Asst. Commissioner - |
| | Public School Accountability |
| MR. GREG ROGERS | Asst. Commissioner - |
| | Fiscal & Admin. Services |
| MS. STACY SMITH | Asst. Commissioner - |
| | Learning Services |
| MR. BOBBY LESTER | Director of Federal Programs |

ALSO APPEARING:

| MS. ALEXANDRA BOYD | Public School Program Coordinator |
|----------------------|-----------------------------------|
| MS. KELLY McLAUGHLIN | Public School Program Advisor |
| MS. VIRGINIA PERRY | Public School Program Advisor |
| MR. FREDDIE SCOTT | Learning Services Operations Mgr. |

ADE LEGAL COUNSEL:

MS. JENNIFER DAVIS ADE Staff Attorney

ARKANSAS DEPARTMENT OF EDUCATION #4 CAPITOL MALL LITTLE ROCK, AR 72201

1

CHAIRPERSON COFFMAN: Good morning, Ladies and 2 The December 15, 2016 meeting of the 3 Gentlemen. Charter Authorizing Panel is called to order. 4 I'd 5 like to welcome everyone to the Arkansas Department of Education and ask that you please silence all 6 7 electronic devices. The Charter Panel oversees the authorization, renewal, revision, and revocation of 8 9 The goal today will be to facilitate a charters. 10 fair and responsible hearing. I'll ask that each 11 person speaking speak clearly into the microphone, state your name and title for the record. I'll ask 12 13 that you continue to speak clearly into the microphone for the benefit of this panel, of the 14 15 audience, but most importantly for the viewing So if you step away from the microphone 16 audience. we'll redirect you back to that microphone so that 17 18 the meeting can be heard by the live-streaming This meeting is being recorded and will be 19 audience. posted on the Arkansas Department of Education 20 21 website, and in addition to that a transcript of the meeting will be posted on the website. 22 23 Ms. Davis, if you will advise us of our hearing 24 procedures. 25 MS. DAVIS: Hi, good morning. Jennifer Davis,

> Sharon Hill Court Reporting (501) 847-0510

| 1 | Staff Attorney for the Department. The procedures |
|----|--------------------------------------------------------|
| 2 | you're going to follow today will be that all persons |
| 3 | wishing to provide testimony to you outside of |
| 4 | attorneys will need to be sworn in. The applicant |
| 5 | will have 20 minutes to make its presentation to you, |
| 6 | followed by 20 minutes collectively for any |
| 7 | opposition that there may be. The applicant will |
| 8 | then have an additional 5 minutes to make any kind of |
| 9 | closing statements or rebut any arguments that they |
| 10 | may want to make. You can ask any questions of the |
| 11 | applicant, the ADE staff, or anyone else here that |
| 12 | can provide assistance in making helping you make |
| 13 | your decision today. You may vote on it today or you |
| 14 | can take the matter under advisement. You do have a |
| 15 | Google doc that you can notate your reasons for your |
| 16 | vote so that way the applicant will have that. And |
| 17 | just as a reminder that a charter is a contract, so |
| 18 | anything that the applicant states today that differs |
| 19 | from their written materials, that they may agree to |
| 20 | that is different, does become part of any renewal |
| 21 | that you grant today. |
| 22 | CHAIRPERSON COFFMAN: Thank you, Ms. Davis. |
| 23 | A-1: REQUEST FOR OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL |
| 24 | RENEWAL: LITTLE ROCK PREPARATORY ACADEMY |

25

CHAIRPERSON COFFMAN: Ms. Perry, you are

Sharon Hill Court Reporting (501) 847-0510

1 recognized for Action Item 1. Welcome to the Charter Authorizing Panel. 2 MS. PERRY: Thank you, Madam Chair. 3 I am Virginia Perry, Program Advisor with the Charter 4 5 Unit. The first item on our agenda this morning is the Little Rock Preparatory Academy's renewal request 6 7 and we have Ms. Ary -- Adry -- I'm sorry -- Aryanna Leonard with introductions. 8 9 CHAIRPERSON COFFMAN: I'll ask that all patrons, 10 all participants with Little Rock Preparatory Academy 11 please stand and raise your right hand, and any persons speaking in opposition. Do you swear or 12 13 affirm that the testimony you're about to give shall be the truth, the whole truth, and nothing but the 14 15 truth? 16 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) 17 CHAIRPERSON COFFMAN: Thank you. If you'll 18 state your name. 19 MS. LEONARD: My name is Aryanna Leonard and I'm 20 an 8th grader at Little Rock Preparatory Academy. 21 Thank you, Chair Coffman and Charter Authorizing Panel Members, for hearing our renewal presentation 22 23 this morning. My name is Aryanna Leonard and I am a 24 student at Little Rock Preparatory Academy. I love 25 our school because it feels more like a family and

> Sharon Hill Court Reporting (501) 847-0510

| 1 | the teachers care about the students' education. I |
|----|-------------------------------------------------------|
| 2 | am proud to say that I had the most academic growth |
| 3 | in my school on the NWEA MAP test. And now, without |
| 4 | further ado, I would like to introduce you to my |
| 5 | superintendent, Ms. Tina Long. Thank you. |
| 6 | SUPT. LONG: Thank you, Aryanna. Before we get |
| 7 | started on our presentation today, I would like to |
| 8 | introduce our longstanding board of trustees, our |
| 9 | executive management team, any parents or students |
| 10 | who are here today in support of Little Rock Prep; |
| 11 | please stand. Thank you. |
| 12 | Our mission at Little Rock Preparatory Academy |
| 13 | is to prepare students from underserved communities |
| 14 | for competitive college and advanced career by |
| 15 | insuring the mastery of core subjects and developing |
| 16 | the key behaviors for success in citizenship, |
| 17 | leadership, and communities and beyond. What sets us |
| 18 | apart is who we serve. So currently Little Rock |
| 19 | Preparatory Academy has 411 students in grades K-8 at |
| 20 | two different campuses. 90.3% of our students |
| 21 | qualify for either free or reduced lunch; however, |
| 22 | 100% of our students are receiving free lunch due to |
| 23 | community eligibility. 89% of our students are |
| 24 | African American and 10% are Latino. |
| 25 | This map is of the Little Rock School District |

| 1 | and it represents our primary school families. Each |
|----|-------------------------------------------------------|
| 2 | dot represents where a family resides. And this is |
| 3 | our middle school. We do have a transportation |
| 4 | system that brings students from central and |
| 5 | southwest Little Rock to and from the to and |
| 6 | between the campuses, and that's for the ease of |
| 7 | families that have siblings. |
| 8 | Many of our students are faced with very |
| 9 | difficult challenges. So the school has put in place |
| 10 | very intentional strategic programs to make sure that |
| 11 | all of our students can be successful regardless of |
| 12 | the challenges that life brings. |
| 13 | In the greater Little Rock area, we have a |
| 14 | growing number of low-income students and families. |
| 15 | So what we've done is specialize put in place |
| 16 | specialized features to insure that all of our |
| 17 | students can be successful, and we start with a 9- |
| 18 | hour school day, 200 academic days a year. We also |
| 19 | have an all-school RTI model, so that's a Response to |
| 20 | Intervention model. So in addition to teaching the |
| 21 | state standards for reading and for math, we have an |
| 22 | additional block for every student where students are |
| 23 | placed at their own performance level. And then from |
| 24 | there students can receive instruction and fill in |
| 25 | the gaps they need to be successful at grade level. |

We also teach behavior just the same way that we 1 would teach reading and that we would teach math so 2 students are set up to be successful and actually 3 have all the key behaviors necessary to be successful 4 in school and then in college and in their futures. 5 Community involvement is a large part of who we 6 7 are and what we do. We believe really strongly that it takes a village to raise a child and we're all 8 9 working together to do this. So the largest part of our village is our families. Our families not only 10 11 support the school but support each other whenever a child is in need. We've seen that happen time in and 12 13 time out again. We also have partnerships with UCA, Philander Smith, and even the Arkansas Symphony. 14 We 15 do have 12 different partners in the area that 16 support our Learning Pass program. These wraparound services and partnerships are the bedrock of what 17 18 Little Rock Prep is. This next slide is a diagram of Maslow's 19 20 Hierarchy of Needs and Maslow believes in order for a 21 student or anybody to reach the highest level they have to have all of their basic levels below the 22 23 pyramid met. So what Little Rock Preparatory Academy 24 has done is they have strategically and intentionally

> Sharon Hill Court Reporting (501) 847-0510

put in programs to insure that students can reach

25

| 1 | every single level. This is our very intentional way |
|----|-------------------------------------------------------|
| 2 | of teaching to the whole child. So starting at the |
| 3 | very bottom with our community eligibility program, |
| 4 | our uniform program, and our mental health services |
| 5 | that are pushed into our school, we have great |
| 6 | partnerships with those organizations that serve our |
| 7 | students. And then moving to safety, our longer day |
| 8 | is really key in that. When our families are working |
| 9 | our students don't have to go home to an empty home; |
| 10 | they're actually at school working under the |
| 11 | instruction of a very highly qualified teacher. And |
| 12 | then, of course, our team-based model. |
| 13 | I think when you hear from our families the |
| 14 | number-one thing that you'll hear is the love and |
| 15 | belonging. We have a very family-oriented |
| 16 | environment. The students do feel loved, they feel |
| 17 | success at the school, and we've intentionally done |
| 18 | that. So our entire behavior system is built on a |
| 19 | positive behavior reinforcement system versus a |
| 20 | punishment based system. |
| 21 | And then moving to esteem, we do have a mastery- |
| 22 | based learning program. So although we have a scope |
| 23 | and sequence and we do have standards that we follow, |
| 24 | students do not move through the scope and sequence |

until they've mastered the previous skills before

25

they can move forward. Doing that allows students to 1 feel successful and not feel lost when they're 2 receiving instruction. We also integrate project-3 based learning; we do that through the Buck 4 5 Institute. We also have very intentional team-based teaching, team-based student learning. 6 7 Our students also participate in student-led conferences, so they do that three times a year. Our 8 9 students keep their own portfolios, they manage their own data, and they do self-reflections on their work. 10 11 And then reaching the highest level with our character education, our graduate attributes, and our 12 13 leadership development program. So doing this and following Maslow's Hierarchy of Needs in a very 14 15 intentional way allows us to teach to the whole child

> and also utilize all of our wraparound services in a very intentional structured way. Next we're going to have three students present

16

17

18

19to you the data of our ACT Aspire. Now we have many20students that could've done this, but we selected21these three students because they're the highest22performing in their area. So I'm advising you to not23be wooed by their cuteness and to look at the actual24numbers because we're really proud of the achievement25that our students have.

| 1 | MS. STEWART: Good morning. My name is Asia |
|----|-------------------------------------------------------|
| 2 | Stewart. I am a 7th grader at Little Rock |
| 3 | Preparatory Academy. I'll be walking you through our |
| 4 | ACT Aspire student achievement in math compared to |
| 5 | similar schools in our area. Our 5th grade at school |
| 6 | is comparable to local schools, while our 7th and 8th |
| 7 | graders outperform all the local schools in |
| 8 | geographic proximity to us. (inaudible) success to |
| 9 | students, teachers, and a double block of math every |
| 10 | day. I am proud to announce that my score is |
| 11 | exceeding on the ACT Aspire math test. |
| 12 | Now Roderick Hicks will tell you about our ELA |
| 13 | scores. |
| 14 | MR. HICKS: Thank you, Asia, for the |
| 15 | introduction. This slide my name is Roderick |
| 16 | Hicks and I'm a 5th grader at I'm a 5th grader at |
| 17 | Little Rock Preparatory Academy. This slide |
| 18 | represents the ACT Aspire student achievement in ELA. |
| 19 | Our 7th grade scored higher than all but one similar |
| 20 | school, while our 6th and 8th grade scored higher |
| 21 | than all the similar schools in the area. We work |
| 22 | really hard in reading to integrate ELA in all of our |
| 23 | subjects. I am proud to announce that I scored |
| 24 | exceeding on the ACT Aspire student achievement in |
| 25 | ELA. |
| | |

Now Jacob Radford will be telling you about the 1 ACT Aspire's student achievement in science. 2 MR. RADFORD: Thank you, Roger. My name is 3 Jacob Radford and I am a 7th grader at Little Rock 4 5 Preparatory Academy. This slide represents our ACT Aspire student achievement in science compared to 6 local schools in our area. Our 6th and 7th grade 7 scored comparable to one local school and 8 9 outperformed all the others. Our 8th grade 10 outperformed all the schools in our area. I really never got good grades in science; that was only 11 because I've never had the help and support that LRPA 12 13 has given me. And I am proud to report that I scored college ready in all areas of the ACT Aspire test. 14 15 Thank you for allowing me to speak today. And now I'll introduce to you Dr. Sarah McKenzie. 16 DR. McKENZIE: I have clearly been sharing data 17 18 incorrectly all these years because that was fantastic. So I'm here to talk about NWEA MAP data. 19 You guys know this assessment. The kids have their 20 21 own individualized growth projection. And the first 22 one is what percentage of students in each cohort met 23 or exceeded typical gains. And in this analysis I'm 24 looking at cohorts of students who've been at the 25 school for one year or two years consistently, or

> Sharon Hill Court Reporting (501) 847-0510

| 1 | three years or four years. 53% of students met or |
|----|-------------------------------------------------------|
| 2 | exceeded their typical gains. Remember that 50% is |
| 3 | the national average. So while we say yes we want |
| 4 | 100% of kids to make growth, with this assessment 50% |
| 5 | is really the target that we're looking for. |
| 6 | By cohort you can see that it's fairly |
| 7 | consistent across the cohorts one year to four year |
| 8 | in both reading and math. 34% of the lowest |
| 9 | performing students, those in the bottom third |
| 10 | nationally, made one-and-a-half times growth in |
| 11 | reading and 25% made one-and-a-half times in math. |
| 12 | Now those numbers might sound small to you, but if |
| 13 | you look on the bottom NWEA has come out with a |
| 14 | report about what percentage of kids by grade level |
| 15 | make that one-and-a-half times annual growth. And |
| 16 | you can see that LRPA's results are right in line |
| 17 | with the 5% to 38% of kids in the elementary grades |
| 18 | that make that one-and-a-half times annual growth. |
| 19 | So what percentage of that typical gain was made |
| 20 | by the students in each cohort? 97% of the typical |
| 21 | gain was made in reading and 100% of the typical gain |
| 22 | was made in math. 100% of the typical gain is what |
| 23 | we're looking for, in this case, because we're saying |
| 24 | the typical gain would be the target; we want the |
| 25 | school to meet 100% of that target. And you can see |
| | |

1 that across the cohorts they get very, very close or exceed in both content areas. 2 3 So how does this growth compare to national student growth? This is when we're doing comparisons 4 5 to typical schools across the country, and LRPA was better than 49% of similar schools' students in 6 7 reading and 59% of similar schools' students in math. And we can look across the cohorts and see that math 8 9 is a little bit stronger than reading. But essentially we've looked at the data three different 10 way: we've looked at individual students making 11 targets, we've looked at percent of targets made, and 12 13 we've looked at comparison to similar schools. And, overall, they're nearing or exceeding their national 14 15 peers in academic growth in reading and math on NWEA 16 MAP. Thank you. 17 SUPT. LONG: Thank you, Dr. McKenzie. 18 So since we last came before you three years ago requesting a charter renewal, a lot has changed. 19 We have a huge focus on the people in the school. 20 We 21 have an amazing unconventional staff and they have 22 great hearts for what they're doing. So we realize 23 the greatest investment that we can make is in our 24 teaching team, so what we've done is put together a 25 structured program to insure that they continue to

> Sharon Hill Court Reporting (501) 847-0510

- December 15, 2016

1 grow and perfect their craft. So our teachers participate in either a four- or two-week summer 2 training, depending if they're newly hired or 3 returning. We have professional development that 4 5 happens every Wednesday and the professional development is specifically designed around the data 6 7 that's received from the previous observations that our site level administrators are doing. We have 8 9 built into our calendar three daylong professional development sessions. Half of those sessions are 10 data review, professional learning communities, in 11 which teachers then create maps from the next section 12 13 of the school year based upon the data that they are receiving. Every teacher in our school is placed on 14 15 Track 1 of the TESS observations and we do that 16 intentionally so that our teachers can get continuous feedback, frequent observations, and then support 17 18 with their professional growth plans. We do have a multifaceted mentoring program, also utilizing the 19 20 state mentoring program as well as our own mentoring 21 And every administrator in our school has program. 22 committed to 25 classroom walk-throughs each week. 23 Our mission is what drives us. Every person in 24 our school is dedicated to serving our community. We 25 have created a positive behavior plan that really is

> Sharon Hill Court Reporting (501) 847-0510

| 1 | the backbone of what we do. Our team members are all |
|----|-------------------------------------------------------|
| 2 | trained in lifting up and encouraging students to |
| 3 | strive for their best. The school culture is really |
| 4 | the center of what we do in our school. And any of |
| 5 | you who have visited the school are able to |
| 6 | immediately pick up on that and comment on it. Our |
| 7 | positive spirit and the heart of our students is what |
| 8 | establishes them for success and sets them up for |
| 9 | future success. |
| 10 | Over the last three years we've had a definite |
| 11 | renewed focus on data-driven instruction. It was a |
| 12 | little hard to swallow at first when we first started |
| 13 | doing it, but once the teachers saw the great results |
| 14 | that they were getting by looking very intentionally |
| 15 | at their student data we were able to shape |
| 16 | instruction and drive student achievement in a very |
| 17 | intentional way. So what we've done is we've built |
| 18 | in a formative assessment system; we've built in the |
| 19 | professional learning community where our teachers |
| 20 | are looking at the data and making decisions based on |
| 21 | their data; we have a computer adaptive learning |
| 22 | program; we've moved to administrating the NWEA MAP |
| 23 | three times a year. We've also reconstructed our |
| 24 | daily schedule. So a lot of times in schools we have |
| 25 | all this data, we're very data rich, we want to do |

| 1 | these things, but we don't have the time in the day |
|----|------------------------------------------------------|
| 2 | to do it. So what we've done is created a second |
| 3 | block where our teachers specifically are designing |
| 4 | their instruction based off the data that they're |
| 5 | receiving. So it's our intervention or acceleration |
| 6 | block, depending upon where the students are. And we |
| 7 | have a new fully aligned scope and sequence with the |
| 8 | new college readiness standards that is has a |
| 9 | built-in test benchmark all the way along the |
| 10 | calendar. |
| 11 | Over the last three years we've definitely |
| 12 | increased our capacity with our executive management |
| 13 | team. So we've moved to taking a lot of the things |
| 14 | at the site level off the site level's plate, so |
| 15 | human capital, communications, and much of the back |
| 16 | office support, even leadership, facilities and |
| 17 | operations, and development. And the reason why |
| 18 | we've done that is we want the teachers and the |
| 19 | principals and the site level leadership to be able |
| 20 | to focus on the very most important thing they're |
| 21 | doing, which is educating our students, so we've |
| 22 | taken those extra back-office supports off their |
| 23 | plate. We collaborate and work with them, of course, |
| 24 | but it allowed them to have the freedom and the time |
| 25 | to not be buried in those types of tasks and really |

focus on our students.

1

2

3

4

5

6

So, we understand that we are a public school and that we must be very good stewards of our money. So we've made great efforts in focusing on financial -- our financial standing and our financials are trending in the right direction.

7 So just to update the Panel on where we are, we at Little Rock Prep did take a loan out with the 8 9 Self-Help Venture Fund for the relocation of our 10 elementary school several years back; that loan is due to be paid off by the end of this fiscal year. 11 The second loan that Little Rock Prep had is with 12 Exalt Education, it was also for the relocation of 13 the elementary school, and that loan is also due to 14 15 be paid off at the end of this fiscal year.

16This is our beautiful middle school. So thanks17to your approval of the relocation our students are18enjoying beautiful science labs, green space, an19amazing gymnasium, auditorium, spacious classrooms.20We feel really privileged to be here and our students21are really enjoying it.

And this is our historic primary school, a lot of love happening in this building. We welcome you to come any time -- we're on Spring Street -- and watch our students' learning in action.

> Sharon Hill Court Reporting (501) 847-0510

So to conclude our presentation today I'm going 1 to introduce to you Ms. Messiha. 2 MS. OTIS: Hello. My name is Messiha Otis. 3 I'm currently an 8th grader at Little Rock Preparatory 4 5 Academy. I have been attending LRPA since the 4th grade. By going to LRPA I have grown mentally, 6 academically, and socially, but definitely not 7 8 height-wise. LRPA is one of the most family-oriented 9 schools you could attend. So on behalf of all of 10 LRPA supporters, we respectfully ask that you grant 11 our school a three-year charter. Thank you. 12 CHAIRPERSON COFFMAN: Ms. Davis, is there anyone 13 here to speak in opposition? MS. DAVIS: There wasn't anyone that was signed 14 15 If they're opposition, they have not stated so. up. 16 But there are several public comments. CHAIRPERSON COFFMAN: Okay. Dr. Long, you have 17 18 5 additional minutes for closure. 19 SUPT. LONG: I don't have anything additional. 20 Thank you. 21 CHAIRPERSON COFFMAN: All right. Then we'll 22 begin the question-and-answer session. Okay. Ms. 23 Barnes, you look like you want to go first. 24 MS. BARNES: No. Excuse me. Not at this time. Ms. Smith does. 25 CHAIRPERSON COFFMAN:

> Sharon Hill Court Reporting (501) 847-0510

- December 15, 2016

1 MS. SMITH: Very good presentation; the kids did a fabulous job. 2 3 SUPT. LONG: Thank you. MS. SMITH: Quick question about students that 4 5 stay within your school. I know they mentioned something about your cohorts going through with NWEA. 6 7 So once students enroll in your school, are they staying or do you have a lot of students transferring 8 9 out or what? So from year-to-year are your kids 10 staying with you or are you losing them? 11 SUPT. LONG: So we have had a high turnover 12 previously. The relocation I think is going to 13 drastically help with that. Many of the families in previous years -- of course, we just started at this 14 15 new campus three months ago --MS. SMITH: Right. 16 SUPT. LONG: -- have stated one of the main 17 18 reasons they were leaving is the amenities of a traditional school. So we're really hoping that the 19 relocation will yield retention in the future. 20 21 MS. SMITH: Okay. My concerns are not around 22 the middle school; it's really more the elementary. 23 And I visited the school and was impressed by you and 24 your commitment and what you saw for the future of 25 the school. But I was disappointed in the quality of

> Sharon Hill Court Reporting (501) 847-0510

| 1 | instruction that I saw the day I visited, especially |
|----|-------------------------------------------------------|
| 2 | in the primary grades. I saw incorrect phonics |
| 3 | instruction where we were actually teaching the wrong |
| 4 | sound connected to a letter and kids chanting the |
| 5 | wrong sound. I saw where you were using a direct |
| 6 | instruction program and students I didn't feel |
| 7 | like even the teachers were using the program like |
| 8 | maybe they I mean, I don't know if you had just |
| 9 | started; I think you had mentioned that it was |
| 10 | something that you were just getting going, which I |
| 11 | want to say I think you getting it going was probably |
| 12 | you saw that there was a deficit and your teachers |
| 13 | needed some support and you were bringing that in. |
| 14 | So, I mean, I I mean, I want to say I know I'm |
| 15 | saying one thing and saying another at the same time. |
| 16 | SUPT. LONG: Yes, ma'am. |
| 17 | MS. SMITH: And you expressed that day that you |
| 18 | were bringing that in because you felt like there was |
| 19 | a need there. |
| 20 | SUPT. LONG: Yes, ma'am. |
| 21 | MS. SMITH: So I want to acknowledge that. But |
| 22 | I will say that when I left, as a former elementary |
| 23 | principal, I had concern for your students in |
| 24 | kindergarten, 1st, 2nd grade. And I went back to the |
| 25 | primary classrooms anywhere from two to three times |

| 1 | over the house that I was there. And the first part |
|----|-------------------------------------------------------|
| 2 | of it, it was "we're kind of in transition." And I |
| 3 | kept going back thinking we'd get out of transition |
| 4 | and really get into instruction, and we were missing |
| 5 | the mark for pretty much the whole hour I was there. |
| 6 | And then in conversation further, you know, about |
| 7 | just with Alex and you talking about "do you see an |
| 8 | improvement" and Ms. Alex did say, "Yes, I see an |
| 9 | improvement from the last visit" it concerned me |
| 10 | that that was improvement from the previous visit |
| 11 | because I thought we were a long ways from successful |
| 12 | instruction with students, especially in the area of |
| 13 | reading. So I had concern; I had some big concerns |
| 14 | as far as instruction and reading in primary grades. |
| 15 | So I need you to kind of address where you guys have |
| 16 | headed maybe since my visit and, you know, where you |
| 17 | think you're heading from there. Because when I look |
| 18 | at I pulled up your school improvement team report |
| 19 | that was presented to the State Board and just noting |
| 20 | that, you know, 1st and 2nd graders come in at the |
| 21 | beginning of the year 55% of them two or more years |
| 22 | below; 3rd and 4th grade are anywhere 75% of your |
| 23 | students are two or more years below. That requires |
| 24 | intensive reading instruction and intervention and we |
| 25 | have a long ways to go. So I need you to kind of |

address some of that for me please.

1

SUPT. LONG: Yes, ma'am. So I concur with a lot 2 of what you said. I don't think that any of the 3 student achievement numbers from the primary school, 4 5 when we look at the data previously, are a misinterpretation. There's a reason why the school 6 7 was put on academic distress. So recently taking the position of superintendent, in May of last year, I 8 9 spent several months working with the teachers, as I told you about, in professional learning communities, 10 looking at where the deficits are and looking at what 11 12 needed to happen. We put together an intervention 13 plan between the end of last year and this year; that was to get us through that academic year to show 14 15 student achievement growth. That plan from the 16 winter test scores to the spring test scores for that 17 primary school was the highest that primary school 18 had ever seen in its history. That created a ton of buy-in and we got a great group of teachers that 19 rallied around the new model moving forward, which is 20 21 a very data-driven instruction-based model. Previously, the curriculum was not consistent and 22 23 each teacher was selecting their own. So as you had 24 alluded to, we did a curriculum adoption of a 25 research validated, very strong phonics-based

> Sharon Hill Court Reporting (501) 847-0510

| 1 | program. The teachers are recently implementing it; |
|----|-------------------------------------------------------|
| 2 | they started implementing it this academic year. We |
| 3 | have seen great growth with student engagement counts |
| 4 | and rigor with our students just over the course of |
| 5 | three months. Absolutely, we understand that it's |
| 6 | going to be a long path; we're very aware of it; the |
| 7 | teachers are very aware of it. But what I can say is |
| 8 | the teachers who stayed with us and we had a few |
| 9 | who left but the teachers who stayed with us |
| 10 | during this transition are committed 100% to raising |
| 11 | the bar for our students. And we've had those very |
| 12 | direct conversations. It's been really hard; we've |
| 13 | had some tears, because everyone goes in with the |
| 14 | best of intentions. There's never a teacher there |
| 15 | that says, "I don't want my students to be |
| 16 | successful." They didn't have the tools ready and |
| 17 | the environment with the children coming in so far |
| 18 | behind to be able to address those needs, and now we |
| 19 | have a plan to do that. |
| 20 | MS. SMITH: You made a comment about anybody who |
| 21 | has visited your campus would "immediately see the |
| 22 | heart of our staff." And I do want to acknowledge |
| 23 | that I did see your commitment and I did see the |
| 24 | commitment of, you know, "we're all in this |
| 25 | together." I did see parent volunteers at the school |

| 1 | that were working when I was there. But big concerns |
|----|-------------------------------------------------------|
| 2 | and you have a long ways to go with instruction in |
| 3 | those primary grades with reading and a lot of |
| 4 | professional development needs on the teachers that |
| 5 | were instructing. I walked away with some really big |
| 6 | concerns, and I don't want to I want to make sure |
| 7 | that that's said today, that there's a long ways to |
| 8 | go there if you want to truly see success within this |
| 9 | school going all the way up. Long ways to go. |
| 10 | SUPT. LONG: Yes. Well, I can say that we are |
| 11 | definitely committed to making that path and growth |
| 12 | for our students. And a lot of the background has |
| 13 | been spent on behavior management and classroom |
| 14 | management. That was kind of the first foundation |
| 15 | that we needed to hit when we started the year. |
| 16 | Teachers have definitely nailed that. They're |
| 17 | implementing the positive behavior plan with |
| 18 | fidelity. Engagement counts from the beginning of |
| 19 | the year went to 72% of the students engaged to over |
| 20 | 95% of the students engaged in our classroom walk- |
| 21 | throughs every week. We're really proud of those |
| 22 | numbers, and now are moving to the next step of |
| 23 | rigor. |
| 24 | MS. SMITH: The other thing I want to note is I |
| 25 | did notice that there was an alignment between your |

school improvement goals, working with the school 1 improvement team, and your goals within your charter 2 So I thought that was a good thing. 3 application. SUPT. LONG: Thank you. 4 5 CHAIRPERSON COFFMAN: Just to extend on what Ms. Smith has asked, give us a little bit more about your 6 7 phonics program. What program did you select? How 8 long are you implementing it each day? What's your 9 time block of your literacy block? SUPT. LONG: We have two different literacy 10 11 blocks: one is the intervention or phonics-based block, performance grouping block, and we're using 12 13 Reading Mastery for that. Then we have a second block which is our standard-based instruction block, 14 15 or our comprehension block, and that block is an In addition to that, we have 16 additional 60 minutes. another 60 minutes of simply language or writing 17 18 instruction, depending upon the grade level of the So that's how the three literacy blocks are 19 child. 20 built out. For our science and our global studies 21 scope and sequence, what we've done is we've 22 integrated ELA standards throughout every subject 23 throughout the day. So really we're teaching ELA all 24 day long, but those are the three main dedicated ELA 25 blocks.

1 CHAIRPERSON COFFMAN: And the phonics program you selected? 2 3 SUPT. LONG: Reading Mastery. CHAIRPERSON COFFMAN: Reading Mastery. 4 Okay. 5 Dr. Saunders. DR. SAUNDERS: Yes. Continuing on what Ms. 6 7 Smith was saying and with your presentation on the NWEA scores -- and you mentioned losing the students 8 9 from time to time as far as moving out or going other places. And that can have a large effect on those 10 NWEA scores, especially when you're looking at growth 11 over multiple years, because then you're no longer 12 13 looking at all the students; you're only looking at those that have that consistent time within your 14 15 buildings. And so trying to compare to similar 16 populations, looking at your performance on the ACT 17 Aspire --18 SUPT. LONG: Yes. DR. SAUNDERS: -- I think we have to also 19 address, you know, the two letter grades of F and D 20 21 on the last letter grade assignment. And looking on 22 ACT Aspire -- specifically I'm looking at grades 3 23 through 7, literacy and math; so there's essentially 24 10 categories there -- and in comparison to the state and Little Rock, Pulaski County, and North Little 25

> Sharon Hill Court Reporting (501) 847-0510

Rock, in grades 3 through 7, so eight of those 1 categories -- you were the lowest in every one of 2 Substantially in 5th grade literacy, for 3 those. example, where most of the others were 40% or above, 4 5 you're scoring at 10.64%. So I wanted to just give you the opportunity to address that. That's my big 6 7 concern. It's our concern too, and it's what SUPT. LONG: 8 9 we're charged with and it's what our mission is, is to serve students who are coming in behind from a 10 traditional school. So if you look at the 2016 ESEA 11 report and you look at the subgroups of our students, 12 specifically African American subgroups since 89% of 13 our students are, we're fairly comparable to the 14 15 district in ELA and we're outperforming in math. So 16 we recognize that with our population, especially coming from low income schools or low income areas --17 18 and they're transferring because -- for a reason; if they would've been doing well at their school they 19 20 wouldn't have left. So they are leaving their 21 traditional school to come to us because they are 22 significantly behind, and so we're well aware of 23 that. What we're charged with is making gains at 24 exponential rates; right? We can't make a year at a 25 time; we have to make a year-and-a-half, two year

> Sharon Hill Court Reporting (501) 847-0510

| 1 | gains every single year in order to keep our kids |
|----|-------------------------------------------------------|
| 2 | to get our kids up to grade level. So, yeah, we |
| 3 | definitely have a lot of work to do. |
| 4 | CHAIRPERSON COFFMAN: Dr. Gotcher. |
| 5 | DR. GOTCHER: Good morning, Superintendent Long. |
| 6 | SUPT. LONG: Good morning. |
| 7 | DR. GOTCHER: Very impressed with the |
| 8 | presentation |
| 9 | SUPT. LONG: Thank you. |
| 10 | DR. GOTCHER: and I always envy anybody that |
| 11 | has to follow the beautiful students that you have. |
| 12 | It was a fantastic presentation and it matched what I |
| 13 | saw last week in my visit and my previous visits as |
| 14 | well. I want to speak beyond the data. |
| 15 | SUPT. LONG: Thank you. |
| 16 | DR. GOTCHER: When I look at a school I like to |
| 17 | look at a systems approach, an organizational |
| 18 | approach, a culture and climate approach. I |
| 19 | highlighted a few things that you said in your |
| 20 | presentation or the beautiful students had said. Who |
| 21 | you serve sets you apart and that's evident by the |
| 22 | shift in the mission statement. And I'm not sure |
| 23 | when the original mission statement was established, |
| 24 | but the significant changes from the original to the |
| 25 | current, the underserved communities not just |

| 1 | college because I think we all recognize that we've |
|----|-------------------------------------------------------|
| 2 | moved beyond just preparing kids for college; we're |
| 3 | preparing kids for post-secondary or post-high |
| 4 | school; what does it look like in advanced careers. |
| 5 | I appreciate those two words in your new mission |
| 6 | statement. And the other piece of citizenship and |
| 7 | leadership in the community and I have a question |
| 8 | on that later, if I don't get too long. I love the |
| 9 | fact that you teach behavior the same way you teach |
| 10 | academics because the way that we prepare kids for |
| 11 | the workforce is beyond content. It's not a surprise |
| 12 | that we continue to have businesses say, "We want |
| 13 | kids to be able to get along well with others before |
| 14 | we want kids to just be great at a particular craft." |
| 15 | But I'm also challenged hearing some of my colleagues |
| 16 | and hearing or reading some of the data. As a good |
| 17 | school guy, I want to be able to look at that as |
| 18 | well. So when I am challenged I go back and look at |
| 19 | the legislative intent of what a charter school is |
| 20 | all about. And so when I read phrases like "expanded |
| 21 | learning experiences, identified as low achieving," |
| 22 | when I read phrases "meeting measurable student |
| 23 | achievement standards" and the number one |
| 24 | legislative intent of charters is to improve student |
| 25 | learning. And I must say in my 18 months on this |
| | |

| 1 | panel those definitions read differently or those |
|----|------------------------------------------------------|
| 2 | phrases read differently to me as I begin to see the |
| 3 | statewide approach instead of just a local district |
| 4 | approach, as my experience brought me before it |
| 5 | brought me to this place. So while I recognize there |
| 6 | are challenges I also see the wraparound services, |
| 7 | the fulfillment of a current mission. And like Ms. |
| 8 | Smith said, there is a long it's a long way; it's |
| 9 | a long journey. And so I want us to not ignore the |
| 10 | comments and the real data because if we are making |
| 11 | true data-driven decisions it's got to be at the |
| 12 | front of your admin meetings, of your teacher |
| 13 | meetings, PLCs. But I'm also very encouraged. And |
| 14 | when I saw kids in that gym at the new campus, they |
| 15 | don't want to leave the gym; they don't want to go |
| 16 | outside. They are so excited about having a new |
| 17 | learning culture and seeing that auditorium and |
| 18 | seeing anyway, I could go on and on about my |
| 19 | experience there. So I want to encourage you, but I |
| 20 | think you of all people know the reality of the data |
| 21 | that sits before you. |
| 22 | SUPT. LONG: Yes, sir. |
| 23 | DR. GOTCHER: So let me go into a question, and |
| 24 | I want to ask two specific questions: What are your |
| 25 | partnerships with the area schools look like? And |
| | |

| 1 | how are those 8th graders being transitioned into |
|----|------------------------------------------------------|
| 2 | their next step? Because I think that's real |
| 3 | important for me. So talk just a moment about your |
| 4 | partnerships with the area schools beyond 8th grade. |
| 5 | SUPT. LONG: Yes, absolutely. So we do have |
| 6 | partnerships. Our board of directors has identified |
| 7 | schools that they think would be best for our |
| 8 | students to go into, or programs. Those schools come |
| 9 | in and have parent meetings in our school to talk |
| 10 | about future programs for high school and how to get |
| 11 | the children into those programs and what the |
| 12 | application process looks like. So even just last |
| 13 | week one of the first meetings that came was LISA |
| 14 | Academy came to our school and presented to our |
| 15 | parents. So we have partnerships with not only |
| 16 | charter schools but also traditional public schools |
| 17 | as well coming in and setting our kids up to |
| 18 | transition into 8th grade appropriately. Because we |
| 19 | have newly adopted the Reading Mastery direct |
| 20 | instruction program, as we have indicated, we have a |
| 21 | lot of professional development to do on this very |
| 22 | detailed program with a lot of nuances. So we've |
| 23 | identified the closest school to us that does that |
| 24 | same program and it's in Hope, Arkansas. So we have |
| 25 | a partnership with the Clinton School in Hope, |
| | |

| 1 | Arkansas. Our teachers, December 5th and 6th, first |
|----|------------------------------------------------------|
| 2 | week of December, went to Hope, did observations in |
| 3 | their classrooms, worked with their development team |
| 4 | on their new integration. They have received a grant |
| 5 | and are receiving professional development from the |
| 6 | National Institute of Direct Instruction. So their |
| 7 | coaches are coming in and doing two-day workshops, |
| 8 | things like that, and our teachers are participating |
| 9 | in those workshops, our lead teachers, and then |
| 10 | disseminating the information down. So I think that |
| 11 | partnership is going to be very fruitful as well, as |
| 12 | far as professional development. So those are the |
| 13 | two major things that we've done this academic year |
| 14 | with local high schools. But as I had mentioned |
| 15 | earlier, a lot of the partnerships that we have are |
| 16 | around colleges, schools of ed. coming in, teachers |
| 17 | tutoring programs. Even we had a work study program |
| 18 | and there was a recent teacher I'm thinking at our |
| 19 | primary school who her major was accounting. Sorry |
| 20 | accountants, but she changed her major to elementary |
| 21 | ed. after doing her work study for two months in our |
| 22 | school. So we feel really good about those types of |
| 23 | partnerships as well. |
| 24 | DR. GOTCHER: Madam, one more question and then |
| 25 | I'll stop. And I might be a little bold and maybe |

| 1 | ask you I will let you pick or maybe the students |
|----|-------------------------------------------------------|
| 2 | will be happy the bottom part of the mission |
| 3 | statement about citizenship and leadership, how do |
| 4 | the kids feel they're being prepared for citizenship |
| 5 | and leadership in the communities? |
| 6 | SUPT. LONG: Well, I think that's an appropriate |
| 7 | question, absolutely, for any of the children. |
| 8 | DR. GOTCHER: And I'm curious if anybody would |
| 9 | be bold enough to answer, because I know that's so |
| 10 | important. And I'll ask it again for Ms that's |
| 11 | Ms. Messiha, is it not? Do you want me to ask the |
| 12 | question again, Ms. Messiha? |
| 13 | MS. OTIS: Please. Yes, please. |
| 14 | DR. GOTCHER: All right. When you think about |
| 15 | yourself as a student, Ms. Messiha, and you think |
| 16 | about being a good citizen and being a good leader in |
| 17 | your community, how is Little Rock Prep preparing you |
| 18 | to be an awesome citizen and awesome leader in your |
| 19 | community? |
| 20 | MS. OTIS: Okay. Some of the 7th graders and |
| 21 | some well, all of the 8th graders must do |
| 22 | community service. And I feel like community service |
| 23 | helps us build relationships with different |
| 24 | organizations and things so that when we're out in |
| 25 | the real world we can go back to those organizations |

- December 15, 2016

and we can also put that on different -- like our 1 resume and stuff and we can use it in the future, so 2 3 DR. GOTCHER: Very good. I love the phrase 4 5 "relationship" and I think you used the word "partnership" as well. But yeah, good. And the 6 7 community service, it's a great thing. Do you find 8 that your peers enjoy that or do you find that they 9 struggle with that? MS. OTIS: They enjoy it. A lot of times we 10 like to do stuff together as an 8th grade class. 11 So when -- like one of our partnerships, which is First 12 Tee, a lot of us go to First Tee and we build 13 relationships with the coaches and things. 14 15 DR. GOTCHER: Great. 16 MS. OTIS: And we go and we're volunteers; we volunteer every Wednesday, so --17 18 DR. GOTCHER: Good. Ms. Messiha, thank you very I appreciate your answer, Ma'am. 19 much. 20 CHAIRPERSON COFFMAN: Other questions? 21 MS. SMITH: I have a question for the 22 researcher. 23 CHAIRPERSON COFFMAN: Okay. 24 MS. SMITH: Dr. McKenzie, quick question. This 25 is curiosity here. So when you were doing your data

> Sharon Hill Court Reporting (501) 847-0510

1 with your cohorts --DR. McKENZIE: Yes. 2 MS. SMITH: Okay, those students that had been 3 there one year, two years, three years --4 5 DR. MCKENZIE: Yes. MS. SMITH: -- and you were basing their growth 6 piece, is that growth -- does it start every -- each 7 8 year does it start new again, like they take their 9 first assessment at the beginning of the year in September? Are you looking at ongoing growth from 10 the very first time they took NWEA, so if they'd been 11 12 there three years, all the way to the third year or 13 does it start new ever year? That's such an excellent DR. MCKENZIE: 14 15 So growth is always from one time point to question. a second time point within a year. You can do spring 16 to spring or fall to spring. So this was fall to 17 18 spring growth from year one, the growth target, plus fall to spring growth from year two. So, yes, it was 19 20 cumulative but it was based on each of those fall-to-21 spring time points. 22 MS. SMITH: Okay. And within NWEA alone, when 23 you have that -- so groups of kids that you're 24 assessing, so they assessed and you have their spring 25 score, and then they assess again in the fall for the

> Sharon Hill Court Reporting (501) 847-0510

| 1 | new year. How much of a drop are we seeing in summer |
|----|-------------------------------------------------------|
| 2 | loss or and I'm just I've been at schools where |
| 3 | we gave MAP testing and NWEA and just the emphasis we |
| 4 | put on it in the fall to the spring. And so I'm just |
| 5 | asking what type of drop do we normally see in those |
| 6 | scores for those students or do we not see one? |
| 7 | DR. McKENZIE: I didn't look at it specifically |
| 8 | for Little Rock Prep, but I can. Typically, students |
| 9 | from more challenging populations have a greater drop |
| 10 | over the summer than students who may spend their |
| 11 | summer doing more educationally enriching |
| 12 | opportunities. But I can't speak to that |
| 13 | specifically in this case. I did not see anything |
| 14 | unusual in the growth patterns for students that |
| 15 | would indicate that fall scores were exceptionally |
| 16 | depressed for the group of students as a whole |
| 17 | MS. SMITH: Okay. |
| 18 | DR. McKENZIE: leading to some sort of |
| 19 | concern about lack of validity of the fall |
| 20 | assessments. |
| 21 | MS. SMITH: Okay. Okay. So is it an acceptable |
| 22 | assessment point to go from spring to spring or |
| 23 | not spring fall to no, spring scores at one |
| 24 | year to spring of the next year, a full year? |
| 25 | DR. McKENZIE: They do have growth norms for |

| 1 | spring to spring. I choose to use fall to spring |
|----|-------------------------------------------------------|
| 2 | specifically for the reason that we can't control the |
| 3 | environments that kids are in over the summer. We |
| 4 | can only I think it's more fair to teachers and to |
| 5 | the school to measure the educational impact from |
| 6 | fall to spring when |
| 7 | (COURT REPORTER'S NOTE: The overhead screen at |
| 8 | the back of the room started to unwind down.) |
| 9 | DR. McKENZIE: That freaked me out a little bit. |
| 10 | From fall to spring, when the school is having an |
| 11 | impact on those students, instead of holding them |
| 12 | responsible for spring to spring where for three of |
| 13 | those months they don't have any direct impact with |
| 14 | the students. |
| 15 | MS. SMITH: Okay. Thank you. |
| 16 | DR. McKENZIE: You're welcome. |
| 17 | DR. SAUNDERS: Can I follow-up on that? And it |
| 18 | might help is there a way we could get the slide |
| 19 | that had the year's growth across multiple years? |
| 20 | DR. McKENZIE: The percent meeting expected |
| 21 | growth? |
| 22 | DR. SAUNDERS: Yeah. You had I think one year, |
| 23 | two years. |
| 24 | DR. McKENZIE: Yeah. |
| 25 | DR. SAUNDERS: If we could get that is there |

- December 15, 2016

1 a way we could get that slide up? DR. McKENZIE: Sure. Do you want me to flip 2 3 through? DR. SAUNDERS: Please. I just had a question on 4 5 that one. DR. MCKENZIE: Was this the one? All of the 6 7 analyses are cohort based. Yes. 8 DR. SAUNDERS: Yeah. And that would help. And 9 so I guess my question is: as I referenced earlier, 10 when we're looking at one year, two year, three year, 11 or four year, how many kids are we looking at per grade level in these cohorts in this study? 12 13 DR. McKENZIE: So that's an excellent question. The four-year cohort includes 60 students and it's 14 15 only limited to those kids that started at LRPA in the first year and were in grades K through 5. Those 16 are the only kids that can be included in that 17 18 cohort. 19 DR. SAUNDERS: Okay. I'm sorry. So 60 students 20 spanning how many grades? 21 DR. McKENZIE: 60 students that began K, 1, 2, 22 3, 4, 5 in the first year of LRPA -- right? 23 DR. SAUNDERS: So is that one cohort of 24 students? That's the only cohort that's 25 DR. MCKENZIE:

> Sharon Hill Court Reporting (501) 847-0510

| 1 | eligible to stay for four years because the school |
|----|-------------------------------------------------------|
| 2 | has only been open that long. Does that make sense? |
| 3 | So in order to have stayed for all four years you had |
| 4 | to have started the first year and not gotten up to |
| 5 | 8th grade that where you had to leave. |
| 6 | DR. SAUNDERS: Yeah. Okay. Let me rephrase it. |
| 7 | Because I'm looking at the average class size grade |
| 8 | enrollment is between 50 and 60, roughly. And so, |
| 9 | you know, I'm trying to understand how that cohort |
| 10 | could have 60 unless it's spanning multiple grades. |
| 11 | DR. McKENZIE: Oh. It spans multiple grades. |
| 12 | It's any kids that started in the first year and have |
| 13 | stayed for four whole years. |
| 14 | DR. SAUNDERS: So, for example, of a 6th grade |
| 15 | group, say this year's 6th grade, that number may be |
| 16 | reflective of |
| 17 | DR. McKENZIE: 9% of those kids. |
| 18 | DR. SAUNDERS: 9%? |
| 19 | DR. McKENZIE: Yes. |
| 20 | DR. SAUNDERS: Okay. |
| 21 | DR. McKENZIE: So the kids who stayed K through |
| 22 | 3 made up 26% of this group and but it's pretty |
| 23 | well represented across all the grade levels, except |
| 24 | for the kids that were started in 5th grade in the |
| 25 | first year and then went 5th, 6th, 7th, 8th. A very |
| 25 | first year and then went 5th, 6th, 7th, 8th. A ve |

| 1 | small percentage of those kids stayed for all four |
|----|------------------------------------------------------|
| 2 | years. So there's 60 in that four-year group, but |
| 3 | it's a limited group; not everyone could be in that |
| 4 | group. And there's 82 in the three-year group, |
| 5 | there's 123 in the two-year group, and then there's |
| 6 | 363 in the one-year group. Now any kid that started |
| 7 | in 8th grade at any point could only be in the one- |
| 8 | year group, right, because they have to leave. So |
| 9 | about I think it was about 28% of the kids who |
| 10 | were eligible to stay for four years did and about |
| 11 | 32% of the kids that were eligible to stay for three |
| 12 | years did; 57% of the kids who were eligible to stay |
| 13 | for two years did. So the retention rates are sort |
| 14 | of increasing as the cohorts go through. |
| 15 | CHAIRPERSON COFFMAN: Dr. McKenzie, for |
| 16 | clarification, when you say "expected growth" |
| 17 | DR. McKENZIE: Yes. |
| 18 | CHAIRPERSON COFFMAN: clarify that for us. |
| 19 | DR. McKENZIE: So each student when they take |
| 20 | the test, the MAP test in the fall, has a typical |
| 21 | growth target or an expected growth target. |
| 22 | (COURT REPORTER'S NOTE: The overhead screen in |
| 23 | the back of the room begins to unwind downward |
| 24 | again.) |
| 25 | DR. McKENZIE: It may be |

1 CHAIRPERSON COFFMAN: Hang on just a minute. (COURT REPORTER'S NOTE: The overhead screen in 2 the back of the room is raised.) 3 DR. McKENZIE: Depending on the score that the 4 5 student receives and the grade level and the content area in which they've been tested, they have a 6 7 typical or expected growth to make by the spring. So those numbers aren't numbers that are just made up, 8 9 like we want 100% to, you know, be proficient; that's based on these huge nationally representative norming 10 samples from NWEA. So even for students who start 11 really high they have a growth target of two or three 12 13 points maybe, maybe five, depending on the content And students who start well below grade level 14 area. 15 still have an individualized growth target of typical 16 growth that may be four or seven or fifteen points, 17 depending on the content area. And that's not saying 18 that that's going to get them to grade level necessarily. What that target is is saying four 19 students in this humongous multiyear national sample 20 21 that started at this point in the fall in this grade 22 and this content area, typically they grew 15 points 23 or 7 points or 8 points or whatever it is, so we can 24 use that as a measure of saying a typical kid grew 25 this much. That's the target, at least to have kids

> Sharon Hill Court Reporting (501) 847-0510

| 1 | meet that target, but it is an average growth. So in |
|----|------------------------------------------------------|
| 2 | an average school 50% of kids are going to meet that |
| 3 | target, which is sort of a hard thing to wrap our |
| 4 | head around. But when we're comparing to national |
| 5 | growth targets we you know it's not like where |
| 6 | 100% of our kids are going to make exceptional |
| 7 | growth. |
| 8 | CHAIRPERSON COFFMAN: Is that calculated on age |
| 9 | or grade level? |
| 10 | DR. McKENZIE: It's calculated on grade level. |
| 11 | CHAIRPERSON COFFMAN: And performance at the |
| 12 | time? |
| 13 | DR. McKENZIE: And performance at the time and |
| 14 | content area. Yeah. |
| 15 | CHAIRPERSON COFFMAN: Okay. I want to follow-up |
| 16 | with one more question on that. So I know you've |
| 17 | looked at this with many schools. |
| 18 | DR. McKENZIE: Yes, ma'am. |
| 19 | CHAIRPERSON COFFMAN: What relationship do you |
| 20 | see to this data to the data on state assessments? |
| 21 | So if we're following these kids and we're seeing |
| 22 | this expected growth, are we seeing that transfer to |
| 23 | state assessments? |
| 24 | DR. McKENZIE: Well, we've had some slight |
| 25 | changes to the state assessment system over the past |
| 23 | changes to the state assessment system over the past |

| 1 | couple of years. NWEA is highly predictive of |
|----|-------------------------------------------------------|
| 2 | performance on any state assessment. So once you |
| 3 | reach a certain level of performance on the old |
| 4 | Arkansas test that was the 33rd percentile nationally |
| 5 | for certain grades on others it's the 60th once |
| 6 | you reach that point you're highly likely to be |
| 7 | proficient on the ACT Aspire or the PARCC or the |
| 8 | benchmark. Growth is only relevant to that |
| 9 | proficiency once you get to that point, so it's sort |
| 10 | of that growth to that 60th percentile and then |
| 11 | you'll be proficient, likely, on the ACT Aspire or |
| 12 | the PARCC. In terms of below that, they're |
| 13 | correlated but not perfectly because, you know, the |
| 14 | ACT Aspire has a big writing component that the MAP |
| 15 | doesn't have. But it is a good indicator of overall |
| 16 | academic performance and if kids are likely to be |
| 17 | proficient on the ACT Aspire or the PARCC or |
| 18 | whatever, ACT, whatever assessment it is that we're |
| 19 | looking at. Did that answer your question? |
| 20 | CHAIRPERSON COFFMAN: Yes. And of the students |
| 21 | that were in that four-year cohort did you see |
| 22 | similar responses to the various assessments? Did |
| 23 | you see that they were meeting proficiency, the |
| 24 | students that you expected to? |
| 25 | DR. McKENZIE: I actually did not look at the |

| 1data in connection with the ACT Aspire. I just2looked at the NWEA MAP growth in and of itself. But3that's something I can look at as a follow-up, if4you'd like.5CHAIRPERSON COFFMAN: I have a little bit of6concern in that are the do the educators have an7accurate view or accurate milestones to what the end-8result is desired to be? And so I'm not making a9judgment on this interim assessment; I'm just saying,10you know, are we setting them up to be successful or11have we given them a false hope?12SUPT. LONG: I wanted to let you know that13question is a very good question and we've considered14that question as well. So we're using three15different benchmark assessments this is one of16three so that our teachers make sure that they're17getting a well-rounded view of not just teaching to a18test but making sure our students actually know the19standards that they need to know. So in addition to20NWEA MAP we're using the ACT Aspire interim21assessments and we're using the Illuminate benchmark22CHAIRPERSON COFFMAN: Perfect answer. Thank23CHAIRPERSON COFFMAN: Perfect answer. Thank24you. Ms. Barnes.25MS. BARNES: Good morning and thank you all for | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------------------------------------------------|
| 3 that's something I can look at as a follow-up, if 4 you'd like. 5 CHAIRPERSON COFFMAN: I have a little bit of 6 concern in that are the do the educators have an 7 accurate view or accurate milestones to what the end- 8 result is desired to be? And so I'm not making a 9 judgment on this interim assessment; I'm just saying, 10 you know, are we setting them up to be successful or 11 have we given them a false hope? 12 SUPT. LONG: I wanted to let you know that 13 question is a very good question and we've considered 14 that question as well. So we're using three 15 different benchmark assessments this is one of 16 three so that our teachers make sure that they're 17 getting a well-rounded view of not just teaching to a 18 test but making sure our students actually know the 19 standards that they need to know. So in addition to 20 NWEA MAP we're using the ACT Aspire interim 21 assessments. 22 CHAIRPERSON COFFMAN: Perfect answer. Thank 24 you. Ms. Barnes. | 1 | data in connection with the ACT Aspire. I just |
| 4you'd like.5CHAIRPERSON COFFMAN: I have a little bit of6concern in that are the do the educators have an7accurate view or accurate milestones to what the end-8result is desired to be? And so I'm not making a9judgment on this interim assessment; I'm just saying,10you know, are we setting them up to be successful or11have we given them a false hope?12SUPT. | 25 MS. BARNES: Good morning and thank you all for | 24 | you. Ms. Barnes. |
| | 25 | MS. BARNES: Good morning and thank you all for |

| 1 | the presentation as well as the responsiveness. You |
|----|-------------------------------------------------------|
| 2 | know, I know that you have as a charter you've |
| 3 | been before either the Panel here or the State Board |
| 4 | a number of times for a number of reasons. And |
| 5 | there's no question that there's pride in the school. |
| 6 | There is no question that you serve a challenged |
| 7 | population, but we also have a challenged population |
| 8 | throughout the state in various places, particularly |
| 9 | here. So I reviewed the mission and I looked at the |
| 10 | information that has been presented. I appreciate |
| 11 | Dr. McKenzie's explanations, and like my colleagues I |
| 12 | have great concerns. Because while I do I have |
| 13 | not been to the elementary, but I'm very concerned |
| 14 | about the elementary. When I looked at the previous |
| 15 | public school rating for the primary and for the |
| 16 | middle grades, and I looked at where achievement |
| 17 | should have been expected for the growth for the |
| 18 | challenge points and whether and the scatterplot |
| 19 | as to where we are with respect to other districts |
| 20 | and schools in the state, and we're very low. Now at |
| 21 | middle school, yes, we are above in math and I think |
| 22 | you talked about that. And so there are so many |
| 23 | components here but I'm not hearing a different |
| 24 | portrait. Like I said, I have not been to the |
| 25 | primary; I did go to the previous location with the |

| 1 | middle grades and I have not been to the new |
|----|------------------------------------------------------|
| 2 | location. I know that it takes time. But when I |
| 3 | also consider that we're discussing achievement and |
| 4 | comparisons with schools around us I don't know how |
| 5 | much time we need to get there. There have been so |
| 6 | many transitions. I don't know you know, I don't |
| 7 | even know if you can make me comfortable with how |
| 8 | much time one year, two year, three year |
| 9 | because my focus of course, as everyone else's, is |
| 10 | children and whether we are moving forward, whether |
| 11 | we're hovering, whether we're losing ground. And |
| 12 | it's very critical in that primary grade, as well as |
| 13 | being prepared to move forward into graduation and |
| 14 | then beyond. |
| 15 | I think I'm talking out-loud to help myself. I |
| 16 | hope you all can bear with me with this. Because I |
| 17 | recognize the passion and the relationship, and the |
| 18 | children are very articulate in knowing where they |
| 19 | are and where they want to be and I know that the |
| 20 | community service is a critical component. I'm still |
| 21 | in contact with the young lady that just recently |
| 22 | graduated from your school and she's just like she |
| 23 | was when I met her at the school one day. So I know |
| 24 | that you're putting in the work; I know that you're |
| 25 | putting in the necessary time and effort. I just |

| 1 | don't see what I was looking for today from when you |
|----|-------------------------------------------------------|
| 2 | came before us and we took no action on the priority |
| 3 | status. I may it may come; I may hear it more |
| 4 | because I think that you know I think that the |
| 5 | work is being put in. But I also think that when I |
| 6 | look at this whole perspective, not just and |
| 7 | that's unfortunate that I'm saying it right now |
| 8 | not just Little Rock Prep but all schools and all |
| 9 | children and all challenged populations what's |
| 10 | different? That's what I need to know. What are you |
| 11 | doing that would make me without a shadow of a doubt |
| 12 | say hey, I know why children are there; I know why |
| 13 | people want their children there, you know, as |
| 14 | opposed to the surrounding schools, because I know |
| 15 | that everyone is struggling academically, with |
| 16 | attendance, with discipline, and I know that you have |
| 17 | found some pieces that fit together. But I need you |
| 18 | to help me understand what you're doing that's so |
| 19 | different that's going to move beyond where all |
| 20 | children are right now. Can you help me just a |
| 21 | little? |
| 22 | SUPT. LONG: Yes, ma'am. |
| 23 | MS. BARNES: I apologize. |
| 24 | SUPT. LONG: No, don't. I really appreciate |
| 25 | I really appreciate your question. I previously was |

| 1 | running helping run co-running a network of six |
|----|-------------------------------------------------------|
| 2 | schools in a different state that were extremely high |
| 3 | achieving. In that state they do a one-to-five |
| 4 | rating system and there were 19 Level 5 schools, and |
| 5 | our schools held four of those 19 spots, which would |
| 6 | be similar to your A to F. So I'm very familiar with |
| 7 | what high achieving schools look like, and believe |
| 8 | me, I want our students to get there and I feel like |
| 9 | we have a clear path to get there. We're meeting our |
| 10 | kids where they're at and we're taking it one step at |
| 11 | a time and building them up and getting them there. |
| 12 | And we're doing it by building the children up |
| 13 | inside, not by a compliance-driven compliance |
| 14 | environment, "you will do it because we say you'll do |
| 15 | it;" but we're motivating the children to do it |
| 16 | because they want to do it, because they need to take |
| 17 | that with them when they leave us and there isn't a |
| 18 | teacher over the top of them telling them that they |
| 19 | need to do it. |
| 20 | We also are grappling with the same thing that |
| 21 | you're grappling, which is why we respectfully and |
| 22 | conservatively asked for a three-year charter. We |
| 23 | talked a lot about asking for a longer charter, but |

considering where we are scoring. We think three

we thought the three-year charter was appropriate

Sharon Hill Court Reporting (501) 847-0510

24

25

years is a minimum to show us that we can get the 1 gains that we need and you can see the track record 2 and you can see us, but not an extensive amount of 3 time to where you have to worry about us, where we're 4 5 performing. So I think the biggest thing is looking at the 6 7 individual child, and every single child in the school has transferred to us for one reason or 8 9 another. No one has zoned them to come to us; 10 they've all come to us because they wanted to. You 11 can go into every individual story of children who were -- and I'm thinking of kids literally that are 12 13 in our school this year who've experienced domestic violence, rape, bullying, homelessness; those are 14 15 things we've experienced this year. And each of those children have transferred to us because our 16 school is fulfilling something that they weren't 17 18 getting somewhere else, and those children and those families are happy and they feel safe and they're 19 thriving. And that's what's important to us is every 20 21 individual child, making sure that wherever that mark 22 is for them, whatever that deficit that they're 23 receiving that they have for whatever reason, that 24 we're making sure to fill that deficit for them. And 25 I'm confident that with the academic structure we put

> Sharon Hill Court Reporting (501) 847-0510

| 1 | in place and the children feeling that love and |
|----|-------------------------------------------------------|
| 2 | safety that they will get there because they're |
| 3 | extremely intelligent and they want to get there. |
| 4 | That's why they've transferred to us. |
| 5 | CHAIRPERSON COFFMAN: Ms |
| 6 | MS. BARNES: I appreciate the sincerity and the |
| 7 | honesty; I appreciate the fact that you're looking at |
| 8 | one child at a time, meeting children where they are. |
| 9 | And what I'm looking for and forward to is the |
| 10 | personalization of the learning environment so that |
| 11 | children can be successful |
| 12 | SUPT. LONG: Yes. |
| 13 | MS. BARNES: not just in the protection of |
| 14 | Little Rock Prep, but be successful wherever they go, |
| 15 | wherever they are. |
| 16 | SUPT. LONG: Exactly. Exactly. |
| 17 | MS. BARNES: And so I appreciate the passion, |
| 18 | again, and I appreciate the response because it's an |
| 19 | honest response. |
| 20 | SUPT. LONG: Thank you. |
| 21 | MS. BARNES: And I thank you for that and thank |
| 22 | you all for your indulgence. I just I'm one of |
| 23 | these complicated people and I have to process |
| 24 | differently. So thank you. For now, that's what I |
| 25 | have. |

- December 15, 2016

1 CHAIRPERSON COFFMAN: Ms. Smith. MS. SMITH: I just kind of wanted to respond a 2 little bit to what you said. I agree, their needs 3 have to be met and kids need to feel safe at school 4 5 and you're dealing with a population of students that have had -- you mentioned some very specific trauma. 6 7 And we -- you're right; all schools need to be providing that. But we cannot love our students into 8 9 ignorance; we have to also provide them with the 10 academics and qualified instructors that can teach And you're right, we have to give an 11 them. environment and a setting in which kids come to and 12 13 feel safe, and I do believe that you're 100% committed to that. In our visit, when I visited your 14 15 school you did have a plan. Reading Mastery was just 16 beginning, but there was evidence that we had to have a lot of professional development and training with 17 18 the teachers. They can love them all day, but that will not make them readers and they have to be 19 And it's not about -- I mean, really to me 20 readers. 21 it's not about me looking on here and saying, "Oh, you met your growth." I want a kid to be able to 22 23 graduate from your school and be able to read because 24 they had instruction that enabled them to be able to 25 read. So you're right, the environment has to be

> Sharon Hill Court Reporting (501) 847-0510

there; but we also have to have that academic piece, 1 because that's what we're about in schools too. 2 SUPT. LONG: Yes, ma'am. 3 MS. SMITH: So I cannot encourage you enough to 4 5 stay with your plan on academics. SUPT. LONG: Yes, ma'am. 6 7 MS. SMITH: But especially the preparation of the teachers. Because a lot of your -- if I say this 8 9 wrong, correct me please -- a lot of your primary 10 teachers did not have a teaching license. Is that 11 correct? That is correct. 12 SUPT. LONG: MS. SMITH: 13 Okay. And so they're already starting off a little bit behind. Okay. 14 Teaching 15 reading, it's rocket science; I mean, it's not easy. 16 It's not easy and not anybody can do it. Just because we all attended school and we all can read 17 18 doesn't mean everyone can teach reading. It is difficult. And so we have a lot of teachers in those 19 20 primary grades who do not have a background in 21 instruction for reading and we've got to -- you've 22 got to have a plan to go in with huge wraparound 23 services of getting those teachers ready. 24 SUPT. LONG: Yes, ma'am. 25 MS. SMITH: So I just kind of wanted to --

> Sharon Hill Court Reporting (501) 847-0510

| | 24 |
|----|-------------------------------------------------------|
| 1 | SUPT. LONG: And that plan is in place. |
| 2 | MS. SMITH: Okay. |
| 3 | CHAIRPERSON COFFMAN: Dr. Saunders. |
| 4 | DR. SAUNDERS: Yeah. I tell you, I struggle |
| 5 | here because there are so many things that go, you |
| 6 | know, into a decision that just cannot be |
| 7 | articulated. I mean, we could be here for days, so |
| 8 | many factors. And, you know, I think, you know, on |
| 9 | one side students that attend your school are there |
| 10 | by choice by the parents. They choose to put their |
| 11 | students there. And with that, you know, frame of |
| 12 | mind, I also have to look at are the parents informed |
| 13 | of the school's progress or lack thereof. And so |
| 14 | SUPT. LONG: Absolutely. Absolutely. We sent |
| 15 | all of the notices home when we're supposed to. We |
| 16 | have parent meetings every single month. When we had |
| 17 | a curriculum adoption we had a large parent meeting, |
| 18 | bringing everyone in, showing them why. We keep |
| 19 | quarterly Dashboards that we present at the parent |
| 20 | meetings on exactly where we're at and what we're |
| 21 | doing with our kids. So absolutely. |
| 22 | DR. SAUNDERS: And on that same vein, I look at |
| 23 | and I know you have a waiver from 1 through 7, |
| 24 | sections 1 through 7 on website requirements, but |
| 25 | there are other requirements you do not have a waiver |

| 1 | from. And looking on your website for example, |
|----|------------------------------------------------------|
| 2 | one of the requirements is the academic distress |
| 3 | status and plan to get off of that, and I could not |
| 4 | find that on the website. I found many documents |
| 5 | that are from 12-13, was the most recent ones in |
| 6 | certain categories. Some of them are from 16-17. |
| 7 | But I think there's a lot of data in there or a lot |
| 8 | of information that should be updated and be very |
| 9 | transparent that is not there that is required. So |
| 10 | even there should even be more information than |
| 11 | what's required, in my opinion, just from any school |
| 12 | |
| 13 | SUPT. LONG: Okay. |
| 14 | DR. SAUNDERS: on the transparency. |
| 15 | SUPT. LONG: Absolutely. |
| 16 | CHAIRPERSON COFFMAN: Any additional questions? |
| 17 | Mr. Rogers. |
| 18 | MR. ROGERS: I don't have any questions. I just |
| 19 | wanted to say that I did go to your middle school |
| 20 | too, and I appreciate you having me down there. |
| 21 | SUPT. LONG: Thank you. |
| 22 | MR. ROGERS: And during the presentation, I know |
| 23 | that the fiscal side has gotten better, paying off |
| 24 | the loans responsibly. The day that we met, when we |
| 25 | talked about it you were getting those paid off |
| | |

| 1 | because that was a big thing that y'all waned to do. |
|----|-------------------------------------------------------|
| 2 | And also to see your unrestricted fund balance |
| 3 | increasing |
| 4 | SUPT. LONG: Thank you. |
| 5 | MR. ROGERS: to make that, you're being more |
| 6 | fiscally responsible and doing what you need to do, |
| 7 | but still knowing that you still have to pay the |
| 8 | bills, and I appreciated that. And also some of the |
| 9 | other things we just talked about with some of the |
| 10 | internal controls that I saw that were lacking at |
| 11 | Little Rock Prep when we met also that day, and y'all |
| 12 | have addressed those. So I just wanted to say that I |
| 13 | appreciate what you've done on the fiscal side of it. |
| 14 | And the academic side is not mine, so I just stay |
| 15 | over here on the money side. But when I was at your |
| 16 | school I enjoyed the visit there and it is an |
| 17 | impressive campus. And one of the things that I was |
| 18 | impressed with was your students. They were |
| 19 | engaging; they were more polite than I probably was |
| 20 | at that age and that was impressive to me. They were |
| 21 | well-mannered; they worked well with the teachers. |
| 22 | And for math class they were we were in, that was |
| 23 | real impressive how your teacher had your students |
| 24 | engaged in that class and how they all wanted to be a |
| 25 | part of it. So I really don't have a question; I |

1 just wanted to say thank-you for having me out that 2 day. 3 SUPT. LONG: Thank you; I appreciate it. And I definitely attribute that to Mr. Yarberry and his 4 5 He's worked very, very hard on the financial team. side and I think that really helps having someone 6 7 dedicated to that. CHAIRPERSON COFFMAN: I have a number of people 8 9 that have signed up for public comment. There is 10 three minutes per person. Let me get my clock set 11 here. And the first one is McKenzie Wright. MS. WRIGHT: Good morning everyone. 12 I would 13 just like to say, just sitting here listening to you guys from a parent point of view we don't do numbers. 14 15 Okay? And you're a parent; we don't do numbers. That is strictly why you're in this position. 16 But what we do is -- I've been with this school since 17 18 2010. I have three children; they are in 7th grade and my twin boys are in 5th grade. We left this 19 20 school this year and I regretted it, my children 21 regretted it. I went to public school; I went to 22 three public schools. And the transition -- to try 23 to -- the reason I moved from this school is because 24 they moved. I cannot take my kids from another part 25 of town to another part of town; that is an

> Sharon Hill Court Reporting (501) 847-0510

| 1 | inconvenience to me. So what I did was move closer |
|----|-------------------------------------------------------|
| 2 | to the school, and that's what a lot of us parents |
| 3 | did. We followed what we know and a lot of parents |
| 4 | did move. But I have been at this school and the |
| 5 | reason I came to this school I was on the waiting |
| 6 | list for six months at McDermott Elementary. I came |
| 7 | to this school back in 2010 because when we did the |
| 8 | interview when you walk into this school and you |
| 9 | do the preliminary interview my boys saw a |
| 10 | kindergartner when they were in kindergarten they |
| 11 | saw a kindergartner reading in front of the classroom |
| 12 | like he was in college, and they said, "I want to do |
| 13 | that," because they weren't getting it in public |
| 14 | schools. So the reason I am here at this school is |
| 15 | not only that they're teachers and they're parents; |
| 16 | we're family. If you go into anywhere, just like a |
| 17 | job, your workplace, you have coworkers that you hang |
| 18 | with; you have coworkers you just don't too much like |
| 19 | to deal with, so you stay away from them. The same |
| 20 | is here. If I can go into a school and you know me |
| 21 | on a first-name basis and I don't have to worry about |
| 22 | being inconvenienced and 25,000 calls from other |
| 23 | schools because my child has done this or there's a |
| 24 | misunderstanding, I know it's going to be taken care |
| 25 | of and I don't have to worry about that. I love Dr. |

| - | |
|----|-------------------------------------------------------|
| 1 | Hinton; he's the reason why I am at this school. And |
| 2 | Ms. Rogers, I love you too. She's the reason we came |
| 3 | back. My students begged my children begged me to |
| 4 | go back to LRPA because of the unorganized [sic] of |
| 5 | the public schools. And I realized that that's not |
| 6 | where I wanted to be anyway, so I moved to be back to |
| 7 | where home is for us. So when you talk about numbers |
| 8 | and what is this school what do they have, it's |
| 9 | family. I look at these parents and I see them; I've |
| 10 | been with them; they're my family. That's what it |
| 11 | is. And so with numbers, when you have things that |
| 12 | change we've lost a lot of teachers, yes. But |
| 13 | just like it takes a village to raise a child, the |
| 14 | same with these teachers. If they come in and |
| 15 | they're not certified to be there, they're going to |
| 16 | jack up the whole process. That's the way I feel. |
| 17 | So, therefore, we had a lot of teachers that left. |
| 18 | They shouldn't have been there. They shouldn't be |
| 19 | there. And if that is your job to get us teachers in |
| 20 | there who are supposed to be there for these children |
| 21 | and they know what they're doing our numbers will go |
| 22 | through the roof. It will go through the roof and |
| 23 | if we get some good lunch going for them. That was |
| 24 | from my kids; they wanted me to say that. But bottom |
| 25 | line is I wanted to let you guys know that there's |
| | |

| 1 | more to it than numbers. And, yes, we can get there. |
|----|-------------------------------------------------------|
| 2 | It takes a village; it takes us at home to start. |
| 3 | And that's what you need to look at is that we choose |
| 4 | to take we choose to come every morning and pick |
| 5 | our kids up every evening. There's no buses that |
| 6 | helps do that. We choose this. We choose this. Our |
| 7 | children choose this. And you can see that from |
| 8 | these children right here. We've been here. I've |
| 9 | been here. It's 2016, about to be 2017, and I made |
| 10 | the worst choice by leaving just for a few months, |
| 11 | and I'm back. And if you take this away think |
| 12 | about all the other schools that are closing, because |
| 13 | that's where I just came from. All the other schools |
| 14 | that are closing, what are we going to do? What are |
| 15 | we going to do? Home-school? Then we're really |
| 16 | going to be messed up. |
| 17 | CHAIRPERSON COFFMAN: Thank you, Ms. Wright. |
| 18 | MS. WRIGHT: Thank you. |
| 19 | CHAIRPERSON COFFMAN: I'm apologizing upfront |
| 20 | for the name I'm about to butcher: Shenaqua |
| 21 | MS. GENERAC: Shenequa. |
| 22 | CHAIRPERSON COFFMAN: Shenequa. Close. I |
| 23 | apologize, Ms. Shenequa. And if you would say your |
| 24 | last name when you get to the microphone that would |
| 25 | be helpful as well. |
| | |

| 1 | MS. GENERAC: Good morning. |
|----|-------------------------------------------------------|
| 2 | CHAIRPERSON COFFMAN: If you'll get the |
| 3 | microphone up really close to you. Thank you. |
| 4 | MS. GENERAC: My name is Shenequa Generac [ps] |
| 5 | and my daughter Venay [ps] has attended Little Rock |
| 6 | Prep since kindergarten; she's now in the 3rd grade. |
| 7 | Since beginning Little Rock Prep she's learned to |
| 8 | display more self-control and independence, has |
| 9 | developed a better social skill and confidence, and |
| 10 | has developed a love for school and education. I |
| 11 | believe that a lot of this can be attributed to |
| 12 | Little Rock Prep, as well as her home life. From |
| 13 | kindergarten through 3rd grade my daughter has |
| 14 | flourished in subjects such as reading and math. I |
| 15 | know you all have talked about numbers of reading and |
| 16 | math, but my daughter is an awesome reader. She |
| 17 | reads almost a book a day and she consistently scores |
| 18 | above her goals on those standardized tests. I |
| 19 | appreciate the staff at Little Rock Prep for that; |
| 20 | students are receiving the help that they need, if |
| 21 | needed, as well as insuring that students that are |
| 22 | consistently scoring above and working above their |
| 23 | grade level are not held back. The school offers |
| 24 | programs to help enhance them socially and |
| 25 | emotionally, such as the arts outreach program. My |

| 1 | doughton nogontly mode a Christmag ymoath milloy in |
|----|-------------------------------------------------------|
| 1 | daughter recently made a Christmas wreath pillow in |
| 2 | arts outreach that, of course, people have been |
| 3 | offering to buy, but she's not selling it. Also, |
| 4 | because the classrooms are named after universities |
| 5 | the students are learning about different colleges |
| 6 | and universities, and my student, my daughter has |
| 7 | told me she will be attending Harvard. I don't know |
| 8 | how we're going to pay for it, but she will be |
| 9 | attending Harvard. And I know that my child will do |
| 10 | extremely well. I know that she is going to achieve |
| 11 | and she's going to be a success, and I know that this |
| 12 | charter school has a lot to do with that. This |
| 13 | charter school has made her into the student that she |
| 14 | is. She is bright; she is articulate; and she is |
| 15 | very outgoing, and I can attribute a lot of that to |
| 16 | Little Rock Prep. Thank you. |
| 17 | CHAIRPERSON COFFMAN: Thank you. Antoria |
| 18 | Harrison. |
| 19 | MS. HARRISON: Good morning. My name is Antoria |
| 20 | Harrison and I have a son in the 1st grade at Little |
| 21 | Rock Prep. When I decided to move him from another |
| 22 | public school in Little Rock, he was actually in |
| 23 | kindergarten and I actually decided to put him in a |
| 24 | private school. Well, going into his 1st grade year, |
| 25 | of course, private school was still an option but I |

| 1 | just wanted something that was I guess just a little |
|----|-------------------------------------------------------|
| 2 | less expensive but still gave him the same quality |
| 3 | education. So that's when I started doing my |
| 4 | research and I came across Little Rock Prep. I'm |
| 5 | very familiar with some of the other families that |
| 6 | also decided to have students there, so I was like, |
| 7 | okay, why not give them a shot. Hands-down the best |
| 8 | decision I've ever made for my son. A lot of the |
| 9 | things that I agree with there go along with my own |
| 10 | educational philosophy. You know, education is not |
| 11 | only developing them, you know, to be competitive |
| 12 | academically when it comes to college and things like |
| 13 | that, but just developing him, you know, as a whole |
| 14 | child. They address all needs. You know, I want him |
| 15 | to be a good well-rounded citizen in the community; I |
| 16 | want him to give back, not only now but even when he |
| 17 | becomes an adult. Truly, Little Rock Preparatory |
| 18 | Academy has become a staple in this community and I |
| 19 | can't be happier to call myself, my entire family, |
| 20 | you know, part of this family as well. Thank you. |
| 21 | CHAIRPERSON COFFMAN: Thank you. Tish Bogard. |
| 22 | MS. BOGARD: Good morning. My name is Tisa |
| 23 | Bogard. I have a son that's currently is at |
| 24 | Little Rock Prep; he's been there since the 6th |
| 25 | grade. I actually took him out of public school; he |

| 1 | has attended Pulaski Heights. Since he's been there |
|----|-------------------------------------------------------|
| 2 | his whole attitude has changed; his grades has went |
| 3 | up. And school starts at 7:30. The funny thing is, |
| 4 | at 7:00 he's in the car, "I'm ready to go, I'm ready |
| 5 | to go. Somebody is going to be there." He is so |
| 6 | excited about getting up, going to school. I have a |
| 7 | personal relationship with all of his teachers, his |
| 8 | principal Ms. Rogers. They have been a great access |
| 9 | in my son's life and he's growing. I love the |
| 10 | school. I find myself participating more, which when |
| 11 | he was in public school I never signed up for PTA, I |
| 12 | never went to any of the school functions. But when |
| 13 | I go in there it's nice to hear somebody say, "Hey, |
| 14 | Ms. Bogard, how are you?" Because they know you, |
| 15 | they get to know you; they get to know your family as |
| 16 | well. And I like smallness because they get that |
| 17 | individual attention that they need. And when he was |
| 18 | in public school, it's a different teacher calling |
| 19 | about a grade. Half of them didn't even know, you |
| 20 | know, his name hardly or what was going on. But it's |
| 21 | small-knit there and I like that. And I had even |
| 22 | asked, I said, "Well, why y'all hadn't thought about |
| 23 | getting a high school?" You know, but I really, |
| 24 | really do enjoy the way my son when he comes home he |
| 25 | can talk about what he done in school or this is |

| 1 | what's going on or he knows the school calendar for |
|----|-------------------------------------------------------|
| 2 | the fiscal year and everything. So this has really |
| 3 | been a blessing for me and him. So I enjoy him being |
| 4 | there; I love it; I love Ms. Rogers; I love all the |
| 5 | teachers and I do. The school makes us feel like |
| 6 | a family and it's a blessing. |
| 7 | CHAIRPERSON COFFMAN: Thank you. |
| 8 | MS. BOGARD: Thank you. |
| 9 | CHAIRPERSON COFFMAN: Matthews, last name is |
| 10 | Matthews. |
| 11 | MS. MATTHEWS: This is Sheree Lawson Matthews. |
| 12 | CHAIRPERSON COFFMAN: Oh, that's an H. Okay. |
| 13 | MS. MATTHEWS: Yeah. |
| 14 | CHAIRPERSON COFFMAN: Sorry. |
| 15 | MS. MATTHEWS: My handwriting isn't the best; I |
| 16 | didn't go to Little Rock Prep. I have two students; |
| 17 | I have an 8th grader and a 6th grader, and they've |
| 18 | been there since the doors opened. And I've seen the |
| 19 | school go from having no technology, us as parents, |
| 20 | and I've been active in the parent and teacher |
| 21 | Helping Students program, which is equivalent to PTA, |
| 22 | since day one, and they've grown a lot. They've |
| 23 | grown a lot. True, they do need some help at the |
| 24 | primary school. My son just came from the primary |
| 25 | school and a lot of teachers you know |

| 1 | especially his teacher followed him from kindergarten |
|----|-------------------------------------------------------|
| 2 | to 4th grade, and they are really passionate about |
| 3 | it. We've had a big turnover but the teachers that |
| 4 | are there, I think they're there for the right |
| 5 | reasons. We do need a lot of help. But the |
| 6 | students, you know, they're appreciative of every |
| 7 | little thing. You know, it's not they don't take |
| 8 | it for granted that they have computers now, whereas, |
| 9 | you know, they could've always had computers. But |
| 10 | then also, like they said, there's always something |
| 11 | going on. The culture there, it's always something; |
| 12 | you know, we've got games this weekend, we've got |
| 13 | science fair coming up and they're excited about |
| 14 | doing that. They're like, "Oh, I've got science |
| 15 | fair." Used to be, I didn't want to do science fair; |
| 16 | I just didn't want to do it. But these kids, I mean, |
| 17 | they're excited; they want to work together; they |
| 18 | want to stay later after school; they want to go |
| 19 | early. You know, "I've got to go help Miss Such-and- |
| 20 | Such do this, and if I do this I can go to the Good |
| 21 | Citizenship party," and they have all these |
| 22 | incentives for the good things that they do. But |
| 23 | then they also you know, as I stop by the school |
| 24 | on a regular basis, some of the children that, you |
| 25 | know, are having a bad day it's not, you know, that |
| | |

| 1 | harsh approach; it's more about trying to figure out |
|----|-------------------------------------------------------|
| 2 | what really happened and hearing their side of |
| 3 | things. And I think it is a student-based school. |
| 4 | And I just want to encourage the teachers; y'all are |
| 5 | doing a good job and I hope we are able to stay in |
| 6 | the swing of things for a little while longer to get |
| 7 | it right because I think we're going in the right |
| 8 | direction. We've come a long, long way in the time |
| 9 | I've been there, and that's been since the doors have |
| 10 | opened. And I appreciate Dr. Hinton and Ms. Rogers, |
| 11 | who was a teacher when we first started going there, |
| 12 | and now she's an awesome principal at the middle |
| 13 | school. So thank you. |
| 14 | CHAIRPERSON COFFMAN: Thank you. Valerie |
| 15 | Childs. |
| 16 | MS. CHILDS: Good morning. |
| 17 | CHAIRPERSON COFFMAN: Good morning. |
| 18 | MS. CHILDS: Goodness, a lot of information was |
| 19 | going on this morning. So mine isn't going to be so |
| 20 | formal. I'm going to keep it kind of simple. My |
| 21 | name is Valerie Childs and I'm happy to be here this |
| 22 | morning. Currently, I have three children that |
| 23 | attend LRPA. My son attends Prep Primary and my |
| 24 | daughters, ages 12 and 10, attend Prep Middle. I'm |
| 25 | like many of the parents at LRPA; I too am a single |

| 1 | parent. Just a little bit about myself: I served 15 |
|----|-------------------------------------------------------|
| 2 | years in the United States Army Reserve. I'm a |
| 3 | graduate of UALR and I have over 20 years of |
| 4 | experience working with the underprivileged youth and |
| 5 | adults in this state. And I also serve on the past |
| 6 | board or the parents' advisory board. So I kind of |
| 7 | know a little bit about how your environment can |
| 8 | affect your performance, so I appreciate the passion |
| 9 | of the school and kind of zeroing in on that. But |
| 10 | I'm a little bit off what I wrote; I just wanted to |
| 11 | add real quick that it takes time to figure out |
| 12 | I'm pretty sure that a lot of these teachers and |
| 13 | principals and staff when they got into this they |
| 14 | didn't expect to have to deal with so many emotional |
| 15 | issues with the children. And so not that education |
| 16 | took a backseat, but in order for a kid to be able to |
| 17 | perform at their best they have to be mentally |
| 18 | stable. And so I appreciate the staff for wanting to |
| 19 | do that. |
| 20 | Back to my letter. Last year was my first year |
| 21 | of attendance for me and my family at LRPA. |
| 22 | Previously, my children attended a private Christian |
| 23 | school, and then home-schooling, and then traditional |
| 24 | public school. And needless to say, the experiences |

were all different. On the surface, LRPA seemed to

Sharon Hill Court Reporting (501) 847-0510

25

| 1 | be the best fit for my family. The school hours were |
|----|-------------------------------------------------------|
| 2 | longer and the staff seemed very accessible and |
| 3 | approachable, and I appreciated that. Still, I kind |
| 4 | of felt like, you know, maybe my kids didn't need to |
| 5 | be there. It didn't take me long after being there |
| 6 | to see that there were issues with the other |
| 7 | students. But I'm trying to stay focused just a |
| 8 | little bit, so you just have to excuse me. I want to |
| 9 | kind of skip to a personal experience, just kind of |
| 10 | skip to it, and then I'll get back to what I need to |
| 11 | say. |
| 12 | Last year my daughter had a conflict of |
| 13 | personalities with another student, and the staff |
| 14 | stepped in. And in public school, because I'd been |
| 15 | there, usually they go right to in-school suspension, |
| 16 | then they go to one to two days, three to four days, |
| 17 | and the kids are out at home, parents have to miss |
| 18 | school [sic]; the kids really don't learn a real |
| 19 | lesson about, you know, whatever they've done. But I |
| 20 | talked with the staff and I was surprised that they |
| 21 | were willing to sit down with the students all |
| 22 | together and then get all the parents involved and |
| 23 | figure out the issue, and it was a pretty tough |
| 24 | situation between the other child and my daughter. A |
| 25 | couple of weeks ago I want to read the letter that |

| 1 | my daughter brought home from this student that she |
|----|-------------------------------------------------------|
| 2 | had the issue with last year. This was this year, a |
| 3 | couple of weeks ago. It says, "Dear Grace" I'm |
| 4 | reading my daughter's name "Dear Grace, you used |
| 5 | to be my enemy, but things have changed and you are |
| 6 | now my friend and I love you. And just like all of |
| 7 | my friends, you are very sweet and you are very |
| 8 | funny. Love" the other child's name and she put a |
| 9 | little heart on it. You know, and just saying that |
| 10 | to say that what they're doing at LRPA you do not get |
| 11 | at public school, which is a chance to be that better |
| 12 | person that you intended to be or that life intended |
| 13 | for you to be in the first place. Everybody can be |
| 14 | educated, but not every person gets the opportunity |
| 15 | to be a better person. That chance has to be given |
| 16 | to you. And many of these kids have had that chance |
| 17 | snatched away from them or maybe it just wasn't ever |
| 18 | there in the first place. So given that, yes, |
| 19 | there's a lot of work that needs to be done. I did |
| 20 | make the choice to keep my children there. I have |
| 21 | seen the numbers; I was aware. I've seen the methods |
| 22 | that the teachers use, but they use the methods that |
| 23 | they use for that reason. I heard one of the other |
| 24 | parents say that it's a whole child approach, and |
| 25 | that's what it takes. And it's going to take more |

| 1 time to do that. So I really it's my hope the | hat |
|-------------------------------------------------------|--------|
| 2 you guys will renew the charter at LRPA to give | them |
| 3 a chance. They've figured out what to do for the | he |
| 4 child emotionally and mentally, and now it's time | me to |
| 5 get down to the nitty-gritty of the education, a | and |
| 6 that's what we need that extra time for. | |
| 7 CHAIRPERSON COFFMAN: Thank you, Ms. Childs | 5. |
| 8 MS. CHILDS: Thank you. | |
| 9 CHAIRPERSON COFFMAN: Waneesha Smith [ps]. | Just |
| 10 to remind you, you have three minutes. | |
| 11 MS. SMITH: I wasn't trying to sign up, but | tΙ |
| 12 can speak. My son is in kindergarten at Little | Rock |
| 13 PA, and I searched and searched; we actually go | t |
| 14 accepted into LISA Academy three weeks after sci | hool |
| 15 had started, but he had already formed a relation | onship |
| 16 with everyone there and I didn't want to move have | im. |
| 17 But I was afraid because he didn't go to Head | đ |
| 18 Start or he didn't do like the early learning; 1 | he had |
| 19 he was at a developmental clinic; he was at 1 | Little |
| 20 Rock UAMS Kids First because he had speech | |
| 21 problems, physical problems; he had to get there | ару |
| for all of it. So it was my concern that in pul | blic |
| 23 school they would move him too fast or they would | ldn't |
| 24 understand him, because he doesn't talk very we | ll and |
| 25 then he gets frustrated when other kids can tall | k very |

| 1 | well or they can't understand him. So he gets |
|----|-------------------------------------------------------|
| 2 | frustrated and then he has these temper tantrums. |
| 3 | And I was afraid that if he goes to public school, |
| 4 | you know, they would just kind of kick him out |
| 5 | because I didn't even know they kicked kindergartners |
| 6 | out, but one of my cousins got kicked out. I was |
| 7 | like I didn't even know that was a thing. But they |
| 8 | too and I was afraid I cried and cried and |
| 9 | cried; I was like, Oh, God, I've got a kindergartner; |
| 10 | what am I going to do? I'm young, I'm still in |
| 11 | school myself; I'm an education major. So it was |
| 12 | really important for me to get him somewhere |
| 13 | because we study; when I study he studies; when I'm |
| 14 | doing my homework he does his homework. And on day |
| 15 | two I picked him up; they knew his name. They were |
| 16 | like, "Oh, that's Daylon's [ps] mom." And I was |
| 17 | like, Man, he must be bad if they know his name on |
| 18 | the second day. And I was like when they know |
| 19 | kids' names that's bad, you know; they must have |
| 20 | problems with him. Granted, they do. Daylon can be |
| 21 | a handful, but Mr. Hinton Mr. Euell and Ms. |
| 22 | Osborne, they can handle that kid with ease, like I |
| 23 | can't even handle him that way. They were like, |
| 24 | "Well, what do you do when he acts like this?" I'm |
| 25 | like, "I don't he doesn't act like this at home." |
| | |

| 1 | But it goes back into the emotional part of it |
|----|-------------------------------------------------------|
| 2 | because I noticed that when other things were |
| 3 | happening at home he would act out in school, and |
| 4 | then when they would get better at home he would get |
| 5 | better at school. And they would just call me or |
| 6 | would text me, Ms. Osborne, or I'll text her at like |
| 7 | 9:00 at night; I'm like, "I'm sorry, I don't know |
| 8 | what to do, but we've got to get his work done." And |
| 9 | they're so patient with him. Now like I said, I'm an |
| 10 | education major, so those numbers do have to get up. |
| 11 | But for a kindergartner coming from maybe daycare or |
| 12 | a developmental clinic, like my son done, or just |
| 13 | from home, because some people don't go to daycare, |
| 14 | they have to figure out how to transition them. And |
| 15 | nine hours he's at school longer than I'm at work, |
| 16 | which I love because I drop him off. I work downtown |
| 17 | in the Regions Building; I go to work and then I pick |
| 18 | him up. It wasn't a hassle as much as it would've |
| 19 | been if he was getting out at 2:00 and I'm having to |
| 20 | find somebody to get him or pay for a daycare or |
| 21 | and not everybody gets assistance; not everybody is, |
| 22 | you know, povertized [sic]. So daycares are |
| 23 | expensive and I don't have to worry about that. When |
| 24 | he gets out of school I get off at 4:15; I pick |
| 25 | him up at 4:30; we go home. I drop him off, I go to |

| 1 | work. He's at like I say, he's at school longer |
|----|------------------------------------------------------|
| 2 | than I'm at work, and I love that because it didn't |
| | |
| 3 | put an extra burden on myself being a single mom |
| 4 | having to find another daycare, having to find |
| 5 | somewhere that's going to do his homework for him, |
| 6 | having to find somewhere that my son has to grow |
| 7 | an attachment to somebody, and that's his thing with |
| 8 | Ms. Osborne and Me. Euell and Mr. Hinton. When he |
| 9 | gets upset he asks for them specifically. Because |
| 10 | like when the substitutes come in, I know it's going |
| 11 | to be a problem. Oh, it's a substitute today, Daylon |
| 12 | is going to be a problem, because he grows that |
| 13 | attachment with the people and they have that |
| 14 | relationship at Little Rock PA and I love it. I tell |
| 15 | everybody my mom's like, "Well, are you going to |
| 16 | try to get him into LISA?" I was like, "No, he can |
| 17 | stay where he is." So I really hope that y'all do |
| 18 | renew the charter for new parents like me and young |
| 19 | parents like me who are still learning, because |
| 20 | they're helping me along that way as well. Thank |
| 21 | you. |
| 22 | CHAIRPERSON COFFMAN: Thank you, Ms. Smith. And |
| 23 | welcome to the education profession. Rhonda Lewis. |
| 24 | MS. LEWIS: Good morning. I'm Rhonda Lewis. My |
| 25 | intend was not to speak today; I just came for |

| 1 | support. But I'll start off with a little about |
|----|-------------------------------------------------------|
| 2 | myself, specifically because I heard questions about |
| 3 | numbers and are parents aware. I moved to Arkansas |
| 4 | in 2010, three years prior to my children. My son is |
| 5 | now in Fayetteville attempting college; my daughter |
| 6 | is in 4th grade at Little Rock Prep. And I did look |
| 7 | at websites; I looked at numbers. For three years |
| 8 | prior to my daughter moving here, because I knew she |
| 9 | was coming after my son graduated and I come from |
| 10 | a background I was educated in private school for |
| 11 | elementary, went to one of the top high schools in |
| 12 | the country in Chicago, so that was important to me. |
| 13 | And when I looked across-the-board in Little Rock and |
| 14 | North Little Rock none of the schools compared, so I |
| 15 | had to find another reason in the choice that I made. |
| 16 | And I came to Little Rock Prep the first time working |
| 17 | for a printer company; so I just came working and I |
| 18 | liked the environment. Once my daughter when the |
| 19 | years came closer and I started to look at schools, I |
| 20 | applied at the magnet schools, I applied at most of |
| 21 | the charter schools; I wasn't going to do a private |
| 22 | school, first, because I couldn't afford it and, |
| 23 | secondly, because I don't think it's necessary to pay |
| 24 | for education. And I was satisfied with Little Rock |
| 25 | Prep. She didn't get in; she spent two days at the |

| 1neighborhood school. She didn't get in. And today,2I cannot get her out of Little Rock Prep. I get3acceptance calls every year since; she doesn't want4to go anywhere. I attempted to move; she was like,5"Well, can I finish this year first? I attended out6of state." So it's more about the numbers are7important when you look across the board, when you're8looking at funding, when you're looking at grants,9when you're looking at the big picture. But for my10child the choice is Little Rock Prep. I don't want11to go home and have to tell her that she won't be12able to go to junior high, because we've already13talked about it. My second year here I asked as well14about high school. Because what it doesn't do for15numbers what it does is the support. I choose16charter schools for my children because I know the17parents have chose it, so I know they're more18invested; we're more invested. And I understand and19I feel that the school does as well. Thank you.20CHAIRPERSON COFFMAN: Thank you.21Panel Members, are there any additional22questions or comments or Ms. Barnes.23UNKNOWN AUDIENCE MEMBER: I'm a parent and I24want to say something.25MS. DAVIS: Did you sign up for public comment? | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------------------------------------------------|

- December 15, 2016

UNKNOWN AUDIENCE MEMBER: Oh, I don't know. 1 Ι just came. I just signed my name. 2 MS. DAVIS: You did sign-in? 3 UNKNOWN AUDIENCE MEMBER: Yes. My last name is 4 5 Smith; it's Cassidy Smith. CHAIRPERSON COFFMAN: I'm sorry; I don't have 6 7 you on the list. 8 MS. DAVIS: Is that on the second page? 9 CHAIRPERSON COFFMAN: No. 10 MS. DAVIS: Okay. 11 CHAIRPERSON COFFMAN: I've answered all --12 MS. DAVIS: So then at this point then the Board 13 would have to vote on whether or not they want to take additional public comment. 14 15 CHAIRPERSON COFFMAN: Ms. Barnes. 16 MS. BARNES: When you say "additional comments," are we talking about Ms. Smith's comment or 17 18 additional comments? 19 MS. DAVIS: Additional public comments from Ms. 20 Smith or anyone else who at this point may wish to 21 speak that did not originally sign in. 22 DR. GOTCHER: I don't have any reason to have 23 additional comments, Board. I'm satisfied with the 24 comments thus far. How do my colleagues feel? How 25 do my colleagues feel? Is that a vote that we need

> Sharon Hill Court Reporting (501) 847-0510

1 to do, Ms. Davis, or is it just --MS. BARNES: Yes, I think she is saying that we 2 would have to vote to --3 MS. DAVIS: You would have to vote. 4 5 MS. BARNES: -- to accept or receive additional comments. 6 7 MS. DAVIS: Yes. MS. BARNES: I have no problems with this 8 9 person, but I didn't want to go into a whole 'nother 10 public --11 MS. DAVIS: Right. 12 MS. BARNES: -- comment period. That's the reason I asked. 13 MS. DAVIS: Right. And you can vote to accept 14 15 this parent's, or public comment, and not after that, 16 so --17 DR. GOTCHER: I move to not receive any further 18 comments at this time. 19 CHAIRPERSON COFFMAN: Motion fails for lack of a 20 second. 21 MS. BARNES: I'd like to offer a motion to 22 accept Ms. Smith's public comments and then close 23 comments following her. 24 DR. SAUNDERS: Second that. CHAIRPERSON COFFMAN: All those in favor? 25

- December 15, 2016

1 (MAJORITY CHORUS OF AYES) CHAIRPERSON COFFMAN: 2 Any opposed? DR. GOTCHER: 3 No. CHAIRPERSON COFFMAN: Dr. Gotcher. 4 5 MS. SMITH: I really appreciate that. MS. DAVIS: State your name. 6 7 MS. SMITH: My name is Cassidy Smith. My daughter is Colese Anderson [ps] and she attends 8 9 Little Rock Prep elementary. She's in the 1st grade. We came from Baton Rouge, Louisiana, after the storm. 10 11 The school in Baton Rouge found Little Rock Prep for They researched all the other schools, the 12 us. 13 elementary, and she attended the charter school there. They sent us to Little Rock Prep. And I know 14 15 you guys -- I don't know nothing about numbers; I know my cell phone number and my social security 16 number. But my daughter's teacher, she sent me my 17 18 daughter's score through my text message and that's what I wanted to -- because I know y'all like numbers 19 20 -- she said, "Colese just scored a 173 on her MAP 21 math test." She said, "162 is a beginning score for 22 1st grade. She needs to score 174 in winter. She is 23 ahead in math." My daughter don't like math. Ι 24 didn't even know she liked math. But that right 25 there, I didn't even know what MAP math test was or

> Sharon Hill Court Reporting (501) 847-0510

| 1 | they didn't do that in Baton Rouge, so I didn't |
|----|-------------------------------------------------------|
| 2 | know nothing about it. And that right there had kind |
| 3 | of opened up my ears and opened up my heart with what |
| 4 | Little Rock Prep Elementary is doing. So she needs |
| 5 | it, I need it, we all need it. That's it. Thank |
| 6 | you. |
| 7 | CHAIRPERSON COFFMAN: Thank you. |
| 8 | Ms. Davis, are there any remaining issues |
| 9 | regarding this requested renewal? |
| 10 | MS. DAVIS: No, there's no issues. But I did |
| 11 | want to point out and I meant to say something |
| 12 | earlier on the waivers that are currently granted to |
| 13 | the charter is the ADE Rules Governing Parental |
| 14 | Notification of an Assignment of a Non-Licensed |
| 15 | Teacher to Teach Class More than 30 Days, those rules |
| 16 | are no longer in existence of the standalone rule; |
| 17 | they are included in the teacher licensure rules, |
| 18 | which this charter does have. So that essentially |
| 19 | will be rescinded from the charter, but it's obsolete |
| 20 | anyways. |
| 21 | CHAIRPERSON COFFMAN: Okay. |
| 22 | MS. DAVIS: That was it. |
| 23 | CHAIRPERSON COFFMAN: Thank you. What is the |
| 24 | will of the Panel? |
| 25 | MS. BARNES: I suppose I should be the one to |

| | 10 |
|----|------------------------------------------------------|
| 1 | speak; right? I asked Ms. Long to try to convince me |
| 2 | and I guess I should've asked the patrons, parents |
| 3 | because I recognize again where we are and I |
| 4 | understand what we're asking for, and that's what I |
| 5 | needed to know. So are we at a point where we're |
| 6 | looking for a motion? |
| 7 | CHAIRPERSON COFFMAN: Is the Panel ready? |
| 8 | MS. BARNES: Huh? |
| 9 | CHAIRPERSON COFFMAN: Is the Panel ready for a |
| 10 | motion? |
| 11 | MR. ROGERS: I just wanted to ask one question |
| 12 | |
| 13 | CHAIRPERSON COFFMAN: Okay. |
| 14 | MR. ROGERS: about the school nurse. |
| 15 | CHAIRPERSON COFFMAN: Sure. |
| 16 | MR. ROGERS: Because in the reply back I |
| 17 | mean, it says you do supply health services for all |
| 18 | your students but you're wanting a waiver from it. |
| 19 | And I just wanted to get it on record that how you |
| 20 | do provide those medical services. |
| 21 | SUPT. LONG: We contract out. So we have a |
| 22 | certified nurse come in and do all of the different |
| 23 | required services, BMI, vision, hearing, medication |
| 24 | training, all of those things. |
| 25 | CHAIRPERSON COFFMAN: Any additional questions? |

Any additional discussion?

1

Ms. Barnes, I believe we're ready for a motion. 2 MS. BARNES: Okay. Prior to my comment -- I 3 mean, my motion, my final comment is: one, I 4 5 appreciate the presentation of the open enrollment public charter school. And I wanted to say that 6 7 because I think sometimes we fail to recognize that because you're not a traditional public school that 8 9 you're not a public school, and you are. You're an open enrollment public -- you're a public charter 10 11 school, so you are part of the public school system. I want you to -- and I want you to embrace that; I 12 13 need you to embrace that because we are public school educators and we are part of the public school system 14 as well. And that's why we talk about numbers. 15 But 16 we recognize also the need for relationship. We recognize everything that you talked about. 17 And as 18 far as the emotional stability of a child, it is extremely important. I've worked with psychiatric 19 teenagers and youth in the past, and I've worked in 20 21 the public school system, and I've been here. But my 22 focus is children. I am gravely concerned about 23 sustainability but I recognize that your request in 24 line with your mission is that you be given some 25 time, and you asked for three years. You do have

> Sharon Hill Court Reporting (501) 847-0510

| | ō |
|----|-------------------------------------------------------|
| 1 | academic statuses that require you to be in |
| 2 | consistent connection with our specialists. |
| 3 | And so that being said, and in the spirit of |
| 4 | integrity of process for me, I am going to move that |
| 5 | the Panel accepts and grants the request for a three- |
| 6 | year renewal. |
| 7 | DR. GOTCHER: Second. |
| 8 | CHAIRPERSON COFFMAN: A motion has been made by |
| 9 | Ms. Barnes, seconded by Dr. Gotcher to approve the |
| 10 | renewal for LISA Academy for three years. Sorry, |
| 11 | wrong one. Number two on the agenda, I was just |
| 12 | moving I've got so many notes I'm down to line |
| 13 | two. Let me try again. Ms. Barnes has made a |
| 14 | motion, seconded by Dr. Gotcher to approve a three- |
| 15 | year renewal for Little Rock Preparatory Academy. |
| 16 | And, Ms. Davis |
| 17 | MS. DAVIS: I'm just marking the notes down. |
| 18 | CHAIRPERSON COFFMAN: Okay. |
| 19 | MS. DAVIS: Yeah. I did move closer because I |
| 20 | thought, did she say that wrong? And I thought maybe |
| 21 | I just |
| 22 | CHAIRPERSON COFFMAN: She did. |
| 23 | MS. DAVIS: didn't hear back there or if you |
| 24 | were trying to expedite it. |
| 25 | CHAIRPERSON COFFMAN: I was. Discussion? |

- December 15, 2016

Γ

| 1 | MS. SMITH: I just want to comment that |
|----|-------------------------------------------------------|
| 2 | Superintendent Long started last year and made |
| 3 | changes last year that I think made direct impact to |
| 4 | the middle school with the principal and they've had |
| 5 | some success there. I do think that she's expressed |
| 6 | today that she does have plans with the primary |
| 7 | school, which is where my concern lies. So the fact |
| 8 | that you have a plan and that you have shown that |
| 9 | you've implemented a plan and made improvements |
| 10 | elsewhere gives me, you know, pause to say that this |
| 11 | is something probably that time is needed, but an |
| 12 | area that we need to watch extremely close. |
| 13 | DR. GOTCHER: Madam Chair? |
| 14 | CHAIRPERSON COFFMAN: Yes, sir. |
| 15 | DR. GOTCHER: Agreeing with Ms. Smith, |
| 16 | Superintendent Long I have much confidence in her. |
| 17 | And I also feel that this Panel has made it |
| 18 | abundantly clear that the priority is the primary |
| 19 | level. And I think it's bold to ask for a three-year |
| 20 | when you could've asked for much more, and I felt |
| 21 | that was very positive in your leadership that you're |
| 22 | a realist, that you also have high expectations. And |
| 23 | so personally I trust that you will make sure that |
| 24 | the priority is given to the primary grades and |
| 25 | making sure that literacy, as well as the other |
| | |

academics -- but so much emphasis on literacy at this 1 2 point. SUPT. LONG: Yes, sir. Our team won't let you 3 down. 4 5 CHAIRPERSON COFFMAN: Any additional discussion? Dr. Saunders. 6 7 DR. SAUNDERS: I do. I think I had a question. I don't know if it's for Legal or the Panel, and it's 8 9 going back to the intent on the charter schools in And when you look at the intent there are 10 the law. 11 six different ones and the first one is "improve 12 student learning." But the one that I have a question on is number six, and it's "hold the schools 13 established under this chapter accountable for 14 15 meeting measurable student achievement standards." 16 And I don't know if that's a question for Legal. Is 17 that our responsibility as a Panel or is that the 18 responsibility, would you say, for the State Board? MS. DAVIS: I don't think that maybe you guys 19 would work opposite of each other. I think it would 20 21 probably be both your responsibilities because you 22 initially do review these applications and you 23 probably review them, you know, in-depth, plus, you 24 know, with most of you being former educators a lot 25 of the understanding may be slightly different. And

> Sharon Hill Court Reporting (501) 847-0510

| 1 | so I think that it would be both your responsibility |
|----|-------------------------------------------------------|
| 2 | as an authorizing panel as well as the State Board's |
| 3 | responsibility to review or not review your decisions |
| 4 | and work in conjunction with one another. |
| 5 | DR. SAUNDERS: As part of that, could we have a |
| 6 | motion to recommend probationary status? |
| 7 | DR. GOTCHER: They're already a priority school; |
| 8 | correct? |
| 9 | MS. DAVIS: Yeah. I mean |
| 10 | DR. GOTCHER: And academic distress. |
| 11 | MS. SMITH: Well, I guess my question would be: |
| 12 | why wouldn't we have done that for other schools that |
| 13 | have come before us that are I mean, that have |
| 14 | been priority since 2012? We had one of those |
| 15 | yesterday. And so that's kind of |
| 16 | MS. BARNES: I would respectfully, again, state |
| 17 | that, as stated in my motion, since they already have |
| 18 | accountability statuses that they will be in close |
| 19 | connection. In order not to create a housekeeping |
| 20 | conversation at this time, I would rather we move |
| 21 | forward as-is and then we can as a Panel have work |
| 22 | sessions that address the statement that was just |
| 23 | made since we are in day-three of our hearings. |
| 24 | MS. BOYD: Just to add, we've had this |
| 25 | discussion before or you all have had this |

| 1 | discussion before. And previously I think what we |
|----|-------------------------------------------------------|
| 2 | came or what you guys came to agreement upon is |
| 3 | that probationary status for this school or this |
| 4 | charter, which has schools that are already receiving |
| 5 | intensive support from School Improvement, really |
| 6 | doesn't add anything to the charter or the oversight |
| 7 | of the charter. |
| 8 | MS. SMITH: So even if we give the renewal and |
| 9 | if we chose to independently do site visits or |
| 10 | whatever and we still had concerns and did not see |
| 11 | that there was improvement being made in the areas |
| 12 | that we had concerns, we could call them in back at |
| 13 | any time and right? |
| 14 | MS. BOYD: That's correct. |
| 15 | MS. SMITH: Okay. |
| 16 | MS. DAVIS: And, I mean, the only other thing I |
| 17 | would say is doing a probation in conjunction with |
| 18 | the renewal, you can do a probation; but, you know, |
| 19 | there is a hearing that is required for the applicant |
| 20 | and the school to have probationary status that they |
| 21 | have to be notified, they have to have certain, you |
| 22 | know, information. And so I would be hesitant to do |
| 23 | them in one because they weren't notified today that |
| 24 | they may or may not have been placed on probationary |
| 25 | status in addition to the renewal. And they would be |
| | |

different and I would be hesitant that they would not 1 get the opportunity to be prepared for that. 2 MR. ROGERS: Would it be better or something if 3 we asked for all those on academic priority status or 4 5 something to have a report brought to us for all the charter schools that are on that? And that way, 6 7 we're looking at all of them kind of on the same page? 8 9 CHAIRPERSON COFFMAN: The State Board is already 10 doing that. DR. GOTCHER: Yeah, I was going to say -- is 11 12 that duplication of --13 CHAIRPERSON COFFMAN: That's duplication. DR. GOTCHER: Yeah. I wouldn't be in favor of 14 15 that personally. 16 MS. SMITH: I personally would say that as a Charter Authorizing Panel we need to continue to 17 18 monitor what's happening with the reports being given to the State Board on school improvement. And if at 19 some point we see a report that's being given that 20 21 we're not satisfied with then that's where maybe we 22 then move to, you know, talk about probationary 23 status and going on those steps, if we see that. But 24 I think just asking them to come back to us to 25 report, it's just a duplicate of -- I want them in

- December 15, 2016

| 1 | their building teaching reading and not to come back |
|----|-------------------------------------------------------|
| 2 | and for us to have another report made for us. I |
| 3 | mean, there was a report that went to the State Board |
| 4 | meeting last Friday or Thursday, or whatever date |
| 5 | that was. I mean, there was a report online with |
| 6 | their goals and actions that School Improvement I |
| 7 | think Ms. White worked on. And so I think asking for |
| 8 | a duplicate report is just a duplicate report, a busy |
| 9 | work, when we need to be focusing on something that's |
| 10 | going to directly impact students in the classroom. |
| 11 | CHAIRPERSON COFFMAN: Any additional discussion? |
| 12 | Let me try that motion again. Ms. Barnes has made a |
| 13 | motion to approve the Little Rock Preparatory Academy |
| 14 | renewal for three years, seconded by Dr. Gotcher. |
| 15 | All those in favor? |
| 16 | (UNANIMOUS CHORUS OF AYES) |
| 17 | CHAIRPERSON COFFMAN: Any opposed? Motion |
| 18 | carries. |
| 19 | SUPT. LONG: Thank you very much. We appreciate |
| 20 | it on behalf of all our families and our staff. |
| 21 | CHAIRPERSON COFFMAN: If you will wait |
| 22 | patiently, we will give you a written as we write |
| 23 | our responses we'll give you a quick summary. |
| 24 | (A FEW MOMENTS OF SILENCE) |
| 25 | CHAIRPERSON COFFMAN: Ms. Barnes. |

I voted in favor of the 1 MS. BARNES: Yes. While I have concerns, I believe the request 2 motion. for time is appropriate to the needs as stated and 3 addressed in the revised mission. 4 5 CHAIRPERSON COFFMAN: Dr. Gotcher. DR. GOTCHER: I too voted for the approval of 6 7 the renewal request. Literacy concerns are primary for me; however, there is much hope for the future in 8 9 leadership and in improved performance. I would encourage this academy to continue to fulfill your 10 11 new mission and let it guide every student decision. 12 CHAIRPERSON COFFMAN: Mr. Lester. MR. LESTER: I voted for the renewal. While I 13 believe there is much work to be done in academics, I 14 15 also believe it would be detrimental to the education process to terminate the charter at this time. 16 I am encouraged with the new vision and the administration 17 18 and community involvement. 19 CHAIRPERSON COFFMAN: Mr. Rogers. 20 MR. ROGERS: I voted for the motion. Along with 21 everybody else, there are strong concerns regarding 22 the academic deficiency of the students of Little 23 Rock Prep. But I think the three-year cycle is 24 enough time to show that the changes they'll make 25 will have a positive influence.

CHAIRPERSON COFFMAN: Dr. Saunders. 1 DR. SAUNDERS: I voted in favor of it. 2 I think a major change is needed to turn around the 3 academics. It appears the social and emotional needs 4 5 of the children are being addressed, and academics need to follow. 6 7 CHAIRPERSON COFFMAN: Ms. Smith. MS. SMITH: I voted for the three-year renewal. 8 9 However, we need to closely monitor the progress of the primary school. Evidence of improvements at the 10 11 middle school allowed me to vote for the motion. 12 CHAIRPERSON COFFMAN: Ms. Long, I'm reminded of professional development that we all participated in 13 and that our State Board members participated in with 14 15 a national charter authorizing organization. That organization is very adamant that schools in academic 16 distress should -- charter schools in academic 17 18 distress should be shut down; they just shouldn't However, every one of those schools 19 happen. represents children. So we have to make a decision 20 21 based best on those children, not on a national 22 recommendation. So I think what you've heard today 23 is a very strong "we believe you can turn this 24 around, but we want it turned around." 25 SUPT. LONG: Yes, ma'am.

> Sharon Hill Court Reporting (501) 847-0510

1 CHAIRPERSON COFFMAN: So good luck to you. There are a lot of people pulling for you, so if you 2 don't reach out and ask for help from all those 3 people that are pulling for you then it'll be a 4 different conversation in the future. 5 SUPT. LONG: Yes, ma'am. 6 7 CHAIRPERSON COFFMAN: So we're encouraged by 8 There, of course, is the next step in the vou. 9 process of going before the State Board and there's 10 also a state accountability process that's ongoing 11 right now as we're looking at -- under ESSA as we're developing a state accountability system. And you 12 13 see that from a different lens than possibly some other schools may see, so it's very important that 14 15 you, your staff, your parents are involved in that process in that your voice is heard in there as well. 16 Because this is a state accountability system for 17 18 schools that address all children, so we encourage you to be a part of that as well. 19 20 SUPT. LONG: I would love that. That would be 21 wonderful. 22 CHAIRPERSON COFFMAN: Thank you. 23 I'm assuming we need a nice break and then we'll 24 get to LISA Academy. 25 (BREAK: 10:32 - 10:47 A.M.)

> Sharon Hill Court Reporting (501) 847-0510

REQUEST FOR OPEN ENROLLMENT CHARTER SCHOOL REVIEW: LISA 1 A-2: ACADEMY 2 3 CHAIRPERSON COFFMAN: Ms. Perry, you are recognized for Action Item 2. 4 MS. PERRY: Thank you, Madam Chair. The next 5 item on today's agenda is LISA Academy's renewal 6 7 request. And we have Superintendent Atnan Ekin to 8 begin the presentation. 9 CHAIRPERSON COFFMAN: I've been trying to get to LISA Academy for some while, sometime now. 10 11 If all the representatives from LISA Academy would please stand and raise your right hand and 12 13 anyone speaking in opposition. Do you swear or affirm that the testimony you're about to give shall 14 15 be the truth, the whole truth, and nothing but the 16 truth? 17 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) 18 CHAIRPERSON COFFMAN: Thank you. Let me get 19 myself situated. Good morning. 20 SUPT. EKIN: Good morning, dear Panel Members. 21 I am Atnan Ekin, superintendent of LISA Academy Public Charter Schools. I have been holding this 22 23 position for six years. I would like to thank you 24 for holding the hearing for our renewal application. Now I would like to invite our middle school 25

> Sharon Hill Court Reporting (501) 847-0510

1 principal, Ms. Baroni, to make the presentation for the application. 2 Thank you. 3 CHAIRPERSON COFFMAN: Thank you. MS. BARONI: Good morning, Panel Members and 4 5 Madam Chair. CHAIRPERSON COFFMAN: Good morning. 6 7 MS. BARONI: Thank you for the opportunity to come before you this morning. It's my honor to 8 9 present on behalf of LISA Academy a request for our 10 charter renewal this morning. 11 I'd like to start with the history of our school just to give a little background. LISA Academy 12 13 opened in the fall of 2004 at 21 Corporate Hill Drive, serving approximately 300 6th through 8th 14 15 grade students. At that time we had an enrollment 16 cap of 600. Our first class graduated in 2009. In 2011, we opened a new high school building after 17 18 considerable growth and adding grades each year. We increased our cap to 800 with 6th through 12th grade 19 at that time. LISA West now serves about 725 20 21 students at our LISA West campus at 21 and 23 22 Corporate Hill Drive. 23 LISA North opened in 2008 in Sherwood, serving about 300 students in grade K through 12, and they 24 25 now serve approximately 780 students, still K through

12, and they're all in one building at that location. 1 In 2014, both the west and the north schools 2 combined to form one charter system. So since that 3 time we've operated under one charter agreement. 4 5 Our newest addition, which we're very excited about, is our Chenal campus which is at Westhaven 6 7 Drive in Little Rock. And at that campus we're now serving approximately 540 K through 6th grade 8 9 students. Overall, we now serve on both sides of the river approximately 2,041 students, so we're happy 10 11 with the growth and happy with what we've been doing 12 over the years. Our mission from the beginning is the same. 13 We have not changed our mission; we've stuck to the same 14 15 mission. And our mission is: to provide an 16 academically rigorous college preparatory program in partnership with students, families, and the 17 18 community, and to guide all students in gaining knowledge, skills, and the attitude necessary to 19 direct their lives, improve a diverse society, and 20 21 excel in a changing world by providing them with 22 dynamic resource rich learning environments. 23 Our school is founded with the four pillars of 24 learn, innovate, support and achieve. We believe 25 that it's important that all students will learn. We

| 1 | believe that it's important to provide innovative |
|----|-------------------------------------------------------|
| 2 | educational experiences for students. We believe in |
| 3 | the support of the triad of the school, the parents, |
| 4 | and the student. And with all of those we believe |
| 5 | that our students will continue to achieve and be |
| 6 | successful academically. |
| 7 | What makes LISA Academy successful, I believe, |
| 8 | is grounded in several different areas. We plan for |
| 9 | academic success for all of our students. We also |
| 10 | prepare all of our students for college and career. |
| 11 | We embed STEM across the board with everything that |
| 12 | we do. We involve parents. We embrace the diversity |
| 13 | that is a crucial part of who we are. And we believe |
| 14 | in collaborating and sharing with others to make us |
| 15 | all better. Some of our academic success is |
| 16 | highlighted in our most recent test scores with ACT |
| 17 | Aspire. As you can see from this data, our students |
| 18 | are performing significantly above the state, both |
| 19 | with the general student population and with our TAGG |
| 20 | student population. We're above the state |
| 21 | considerably in the ELA area, math area, and with the |
| 22 | graduation rate. Also represented here is the ACT |
| 23 | Aspire science results. We're fairing well and |
| 24 | performing above the state and the nation in more |
| 25 | cases. |

| 1 | Some highlights of our academic awards that are |
|----|-------------------------------------------------------|
| 2 | things outside of just the data on the test scores |
| 3 | include being recognized as top-performing schools. |
| 4 | We had two schools recognized last year; had multiple |
| 5 | schools over the years. Our Math Counts have been |
| 6 | state champions for multiple years and were again |
| 7 | last year. Our science fair students have achieved |
| 8 | 55 regional and state awards. Our science Olympiad |
| 9 | and science quiz bowl teams were both state champions |
| 10 | and went on to national competitions. We've had a |
| 11 | first place in region in our robotics. Our quiz bowl |
| 12 | at the high school and junior high levels have done |
| 13 | well with second place at the high school; our junior |
| 14 | high was been state champions for two years. We've |
| 15 | also had the county spelling bee for several years. |
| 16 | Math competition, we've had top awards, including |
| 17 | fourth place in the state. We've had the regional |
| 18 | history bee champion as well. Destination |
| 19 | Imagination team has won three first places in the |
| 20 | northern tournament. Our TEAMS team won first place |
| 21 | in their division and first place in the 9th and 10th |
| 22 | grade. We've had multiple years' recognition as an |
| 23 | NCEA Higher Performing School by ACT. We've had |
| 24 | multiyear winners in the foreign language |
| 25 | competition. We've had BroadCom national |

semifinalists and even a finalist in that 1 competition. And we've had multiple students publish 2 3 in the ACTELA Anthology. At the heart of what we do, our academic success 4 begins with our data-driven instruction. We believe 5 that everything that we do in terms of assessment and 6 7 reviewing what's going on has to feed back into the classroom and into intervention for our students. 8 9 Our teachers receive the data in a timely fashion and then they're trained to use that data to drive their 10 11 instruction at the classroom level. We provide instructional facilitators in the math and English 12 13 area, and we have academic assistant principals who are constantly monitoring and guiding the use of that 14 15 data with our teachers so that teachers can then work with students. And our students actually have their 16 17 own goal sheets; they review those and modify those 18 and monitor their own goals and set new goals to push themselves forward. 19 20 Also, academic success requires that we provide 21 intervention strategies for our students who come to 22 us underprepared or needing additional attention. We 23 provide that in several ways. One is individualized 24 instruction. We have an extensive afterschool 25 tutoring program. We offer Saturday camps for

> Sharon Hill Court Reporting (501) 847-0510

| 1 | English and math once a month for our students. We |
|----|-------------------------------------------------------|
| 2 | have spring break tutoring in camps. We have insight |
| 3 | classes that are actually pullouts from our regular |
| 4 | schedule of math and English. Our math and English |
| 5 | courses are double-blocked so that that provides that |
| 6 | time for those additional insight pullouts for |
| 7 | students who are struggling or who are still below |
| 8 | level. We also provide multiple online student-paced |
| 9 | platforms where students work on enrichment and |
| 10 | intervention strategies in the lab times provided in |
| 11 | those math and English classes. And we provide the |
| 12 | technology needed for our students in the classroom |
| 13 | with Chromebooks that they use while they're in |
| 14 | school. |
| 15 | Our academic success also involves student |
| 16 | engagement beyond the classroom. We have science |
| 17 | fair participation for all of our middle school |
| 18 | students. We have multiple academic competition |
| 19 | teams. We have sports. We also provide lots of |
| 20 | other extracurricular programs for our students so |
| 21 | that they can achieve and become the whole people |
| 22 | that we want them to be beyond graduation. Some of |
| 23 | the extracurricular programs that we offer are listed |

are way too many of them, everything from archery to

here. I won't read all of those to you because there

Sharon Hill Court Reporting (501) 847-0510

24

25

| 1 | yoga and lots of things in between. And those are |
|----|-------------------------------------------------------|
| 2 | different at different schools. Our teachers are |
| 3 | involved in that and we some of these programs are |
| 4 | crafted around what our teachers have a particular |
| 5 | interest in. We had a Pinterest club one year. We |
| 6 | have running clubs, lots of things that are of |
| 7 | personal interest to the teachers and to the students |
| 8 | so they can engage after school. |
| 9 | We believe that college and career preparation |
| 10 | is critical for our students. We've had over 95% |
| 11 | college acceptance rate over the 12-plus years we've |
| 12 | been in existence. We have a 100% graduation rate |
| 13 | for our students. LISA West and LISA North high |
| 14 | schools were named this past year as Washington |
| 15 | Post's number one and number two most challenging |
| 16 | high schools in the state of Arkansas. We're very |
| 17 | proud of that accomplishment and we take that very |
| 18 | seriously. Our students have been accepted to |
| 19 | multiple competitive schools, both inside and outside |
| 20 | the state, and have been given many awards in terms |
| 21 | of scholarships to help them be successful beyond |
| 22 | high school. Our college and career preparation |
| 23 | involves, first and foremost, rigorous academic |
| 24 | course offerings and an honors track for students who |
| 25 | want to push beyond just what's expected. We have |
| | |

| 1 | currently 306 high school students enrolled in AP and |
|----|-------------------------------------------------------|
| 2 | pre-AP courses; that's 67% of our total high school |
| 3 | student enrollment. We also have the College Board |
| 4 | AP Scholars program and I believe that our school was |
| 5 | the first one in the area to offer that program |
| 6 | through the College Board. We have the College |
| 7 | Readiness and Leadership program, which is an |
| 8 | enrichment program to help students with that |
| 9 | preparation and rigor that they're going to face in |
| 10 | college. We require 100 volunteer hours for |
| 11 | graduation of all of our high school students. And |
| 12 | we provide one-on-one college guidance counseling |
| 13 | using Naviance, which is an online system that |
| 14 | monitors and tracks students' progress toward getting |
| 15 | all of their applications and recommendations and all |
| 16 | of that ready for college. |
| 17 | We also believe that STEM is important. We |
| 18 | start with the exploration level. We offer |
| 19 | LearningBlade, which is a STEM career exploration; we |
| 20 | have that online program that we use in our career |
| 21 | orientation and our science classes. We've had some |
| 22 | of our students participate in Girls of Promise to |
| 23 | explore coding careers and what's out there for them |
| 24 | in the future. We have Project Lead the Way Launch |
| 25 | that we use in our elementary school. We also |

| 1 | provide a Space Camp trip each year for elementary |
|----|-------------------------------------------------------|
| 2 | students where they can go and see real science at |
| 3 | work in space exploration. All of our middle school |
| 4 | students, as I mentioned, participate in science fair |
| 5 | projects each year. We sponsor a STEM Festival, |
| 6 | which we're going into our third year with that; it's |
| 7 | an annual event that's open to the entire state where |
| 8 | students prepare and demonstrate STEM related |
| 9 | projects. Our STEM Festival is going into the third |
| 10 | year, which we'll be having our third STEM Festival |
| 11 | on March 3rd. We invite you all to come and see |
| 12 | that; it's an exciting time. Last year, we had over |
| 13 | 3,000 students and teachers from across the state |
| 14 | involved in that. It's great because you can see the |
| 15 | kids' eyes light up when they see science really |
| 16 | working, and it's also exciting to see our own |
| 17 | students demonstrating that. Our students are |
| 18 | becoming teachers and learning more by being |
| 19 | teachers. This is just a list of the public schools |
| 20 | that we know were at the last STEM Festival and we |
| 21 | hope that there will be a longer list of this next |
| 22 | year. |
| 23 | Our STEM curriculum is also at the heart of our |
| 24 | STEM focus. 48.6% of our high school students are |
| 25 | enrolled in those pre-AP and AP STEM based courses. |

| | 103 |
|----|-------------------------------------------------------|
| 1 | As I mentioned, we have the Project Lead the Way |
| 2 | Launch in our elementary schools now and we're |
| 3 | planning to implement the Gateway program for our |
| 4 | middle school students next year. We have |
| 5 | (COURT REPORTER'S NOTE: Ms. Friedman changed |
| 6 | out the speaker's microphone.) |
| 7 | MS. FRIEDMAN: Sorry. Sorry. |
| 8 | MS. BARONI: Could y'all hear me all that time |
| 9 | or are y'all just smiling, "Whatever she's saying," |
| 10 | wonk-wonk-wonk. Okay. |
| 11 | We also have project-based learning that we |
| 12 | offer across our curriculum, not only in our math and |
| 13 | science classes but that's also used in our social |
| 14 | studies and English classes. Our students have been |
| 15 | doing that recently and it's so exciting to walk into |
| 16 | classrooms, seeing the kids in their groups with |
| 17 | their Chromebooks and they're preparing PowerPoint |
| 18 | presentations so one day they can do this. But |
| 19 | they're getting ready for real world, exploring |
| 20 | problems, coming up with solutions, and then learning |
| 21 | how to present and communicate those solutions. |
| 22 | Wow, that did it, didn't it? There we go. |
| 23 | We also have STEM Scopes, which is an online |
| 24 | NGSS science curriculum that we're using in our |
| 25 | science classrooms. And we're very excited about |

- December 15, 2016

| 1 | that and can implement that with the use of our |
|----|-------------------------------------------------------|
| 2 | Chromebooks in our science classrooms. We also have |
| 3 | participated in multiple STEM competitions, the |
| 4 | science fair, we have robotics teams; we participate |
| 5 | in science quiz bowl and the science Olympiads. We |
| 6 | have coding activities and that's actually growing |
| 7 | some this year; we're adding more coding kinds of |
| 8 | opportunities for our students. We know that's |
| 9 | important. We're very excited about the Governor's |
| 10 | support of multiple programs in that area. We have |
| 11 | Math Counts, Math Kangaroo. We're actually the state |
| 12 | host for the Math Kangaroo competition for the state |
| 13 | of Arkansas. We have TEAMS competitions; Destination |
| 14 | Imagination; and a new thing we've added this year is |
| 15 | our solar car competition team which is going to a |
| 16 | national competition; we'll be the first team from |
| 17 | Arkansas that's participating in this competition |
| 18 | this year, so it'll be exciting to see if our kids |
| 19 | come up with a car that works. I may buy one to save |
| 20 | on gas. |
| 21 | We also believe that parental involvement is |
| 22 | critical to what we do every day with our students. |
| 23 | We've got to have that teamwork, to involve the |
| 24 | parents and guardians in what we're doing with our |
| 25 | students. We do home visits; yes, we do. We go into |

| 1 | |
|----|-------------------------------------------------------|
| 1 | homes, we meet with the families, we get to know |
| 2 | them, and we want to bring them into what's happening |
| 3 | with their students in the schools. We also do other |
| 4 | activities, like Doughnuts with Dads, Muffins with |
| 5 | Moms, Cookies with Grandparents, and potluck dinners |
| 6 | anything we can do to reach out and bring our |
| 7 | families into what's going on with our school. We |
| 8 | started last year and continued this year a |
| 9 | Thanksgiving Dinner that we host for our intervention |
| 10 | families, one of the most rewarding things I think |
| 11 | we've ever done where we're inviting families in. |
| 12 | We're not I tell them all, "We're not selling you |
| 13 | anything, we're not asking you for anything; we just |
| 14 | want you to come and get to know us; we want to |
| 15 | celebrate what your students are doing and the |
| 16 | achievements they're reaching." And we want to bring |
| 17 | those families in and incorporate them into what |
| 18 | we're doing. We have Watch D.O.G. Dads, parent- |
| 19 | teacher communications, which multiple things, but |
| 20 | a weekly newsletter; we have an open door policy; we |
| 21 | invite parents to come in and shadow their kids in |
| 22 | schools; we have homeroom picnics in the spring, open |
| 23 | houses; and we also, of course, have parent-teacher |
| 24 | conferences. But that parent involvement is so |
| 25 | important. One of the things we offer that's rather |

| 1 | unique is our own online database system where |
|----|-------------------------------------------------------|
| 2 | parents can access all of their student's information |
| 3 | on their computer or through an app on their phones. |
| 4 | They can see what's going on with their kid realtime. |
| 5 | They can see discipline, attendance, assignments, |
| 6 | homework, and monitor all that through their phones |
| 7 | or their desktop computers. |
| 8 | Another very important thing that I've come to |
| 9 | love about our school is our diversity. LISA Academy |
| 10 | has been recognized as the most racially diverse |
| 11 | school in the state of Arkansas by the Public School |
| 12 | Review in 2016. We really celebrate the diversity |
| 13 | among our students and we're always embracing new |
| 14 | pieces of that each year. Some of the things we do |
| 15 | to celebrate that some of you may have been |
| 16 | involved or seen our annual foreign language |
| 17 | festival, which we put on every year. We hosted it |
| 18 | at actually Pulaski Academy this year because they've |
| 19 | got a great room to do that. And our students come |
| 20 | and celebrate and compete. We have food; we have |
| 21 | celebrations and presentations and talent; and it's |
| 22 | just a wonderful time for us all to come together and |
| 23 | see the diversity and embrace that. We also have |
| 24 | Black History Month programs. We have multicultural |
| 25 | festivals at the school levels. We have Hispanic |

Parent Night programs where we invite our Spanish-1 speaking families in for particular targeted programs 2 for them; Native American presentations; and all of 3 that is part of who we are, and we want to fully 4 5 embrace that and include the diversity of all of our student population. 6 7 You can see some of our numbers here, our diversity. We're very proud of that. This is broken 8 9 down by school. One thing of particular note, I think, is that our new school, LISA Chenal, the 10 11 elementary school, our minority population there is the strongest of any of our schools; we're at 86.5% 12 13 there. Our free-and-reduced population is also the greatest there at 56.7%. We're happy with that. We 14 15 recruited a lot to bring in applications from those 16 populations, and we're happy with the success we've had there and with the families that have jumped 17 18 onboard to grasp the education that we offer. Also, our diversity has increased over the years. We have 19 grown in both our free-and-reduced population and our 20 21 minority population. You can see the chart there; I think it speaks for itself. There's been steady 22 23 growth over the last five years in both of those 24 populations. 25 We also believe that collaborating and sharing

| 1 | is important. It's important to what we do. When we |
|----|-------------------------------------------------------|
| 2 | find something that works, we want to share it and be |
| 3 | open and be transparent about that. We've been a |
| 4 | part of a pilot of the Arkansas Circles program which |
| 5 | helps special education students develop personal |
| 6 | plans for the transition beyond high school. Ms. |
| 7 | Angela Lairson, who's here today, has been a very |
| 8 | critical part of that and helping to share that with |
| 9 | other schools, and has recently started a |
| 10 | collaboration with Little Rock School District, |
| 11 | working with showing them what we've done and |
| 12 | bringing them onboard with working with the Circles |
| 13 | program. We also provided a workshop for sharing |
| 14 | best practices. We've sponsored a math tournament |
| 15 | where we've invited students in from across the |
| 16 | state, had over 800 kids there last year for that. |
| 17 | Our North Little Rock campus has worked with North |
| 18 | Little Rock School District to collaborate on some |
| 19 | things and actually has a meeting next week, I |
| 20 | believe yeah, Monday to meet with them again to |
| 21 | share and visit with them, sharing some practices |
| 22 | that perhaps they can share between the two schools. |
| 23 | We've also had folks come from Helena-West Helena who |
| 24 | have observed what we're doing. And we're sharing |
| 25 | we're very free to share what we're doing, what works |

and what doesn't work, and we're happy to share that 1 so that others can learn from our successes and from 2 our mistakes. 3 With over 12 years of success LISA Academy 4 5 requests that our charter be renewed for 13 years, which is an odd number, I know. But we are also 6 7 asking our current waivers be continued with just a 8 few minor adjustments that you've seen in our 9 application packet. The 13 renewal we believe will provide assurance to all of our students, from 10 11 kindergarten on, that they can continue in our school system and complete their education with LISA 12 13 Academy. We really appreciate the support that we've gotten from the Department of Ed. and we want to 14 15 honor that and we want to continue to provide quality education to all of the students that come through 16 our doors. And we appreciate your attention and time 17 18 this morning. Thank you. 19 CHAIRPERSON COFFMAN: You certainly win the 20 timing award today. 21 I figured out how to use my slides. MS. BARONI: 22 CHAIRPERSON COFFMAN: Anyone to speak in 23 opposition? 24 MS. PERRY: No, ma'am. 25 CHAIRPERSON COFFMAN: Ms. Baroni, you have five

additional minutes. 1 MS. BARONI: Just a quick mention, we passed out 2 a handout to you guys that we feel like may address 3 -- there was one letter of opposition, and we felt 4 5 like we wanted to provide some data for you that addresses that specifically. We certainly are open 6 7 to questions about any of that, but I won't speak to 8 it other than to say I think we've provided data that 9 addresses that opposition. (WHEREUPON, A-1 Exhibit One (1) was marked for 10 11 identification and entered into evidence.) 12 CHAIRPERSON COFFMAN: And, Ms. Boyd, you did send us the letter from Pulaski County? 13 MS. BOYD: Yes, ma'am. 14 15 CHAIRPERSON COFFMAN: Okay. Ms. Smith. I did attend 16 MS. SMITH: Just some comments. your STEM festival last year and was impressed with 17 18 the number of students that were there and the projects. So I look forward to showing up at that 19 20 event again this year. Also, I know that when you 21 were here before with the Chenal expansion, lots of 22 questions about where you were going, the diversity, 23 what students you would be serving. So thank you for 24 that, including that information within your 25 presentation.

1 MS. BARONI: You're welcome. MS. SMITH: And I want to commend that you are 2 going after all students --3 MS. BARONI: Yes, ma'am. 4 5 MS. SMITH: -- and serving all students and celebrating the diversity of your school. 6 7 MS. BARONI: Thank you. 8 CHAIRPERSON COFFMAN: Dr. Saunders. 9 DR. SAUNDERS: Yeah. Piggybacking on what Ms. Smith said, from last year to this year, looking at 10 11 October 1, your low socioeconomic status has increased. So that's I think a reflection of that. 12 13 And looking at four years it has increased every single year. So just want to point that out. 14 15 My questions had to deal with the waivers. Ι wanted to jump into some of those. Could you 16 describe why the waivers on library media -- why you 17 18 would need those? MS. BARONI: In general, a couple of things is 19 we have a library; we provide a lot of what 20 21 traditional libraries provide at the classroom level. We have classroom libraries in all of our ELA 22 23 classrooms so that students can actually get that 24 material in the classroom. And so we're not 25 providing the person, the staff member for that

| 1 | library like traditional public schools have done. |
|----|-------------------------------------------------------|
| 2 | We do have all the resources, and I mentioned the |
| 3 | Chromebooks. We're using a lot of online platforms. |
| 4 | And I'm sure all of you have seen the transition; the |
| 5 | traditional library is not exactly what it used to |
| 6 | be. There's more that's online now. We're trying to |
| 7 | push that into the classroom level and we feel like |
| 8 | that's reaching our students a lot better. We have a |
| 9 | reading program. As a matter of fact, if you've been |
| 10 | to our school you'll see by all of our teachers and |
| 11 | administrators what we're currently reading, and we |
| 12 | push those books and materials into the classroom |
| 13 | level through both hardbound, softbound books and |
| 14 | through the Chromebooks. So we're asking for that |
| 15 | waiver so that we don't have to have the traditional |
| 16 | library with a library media specialist in that |
| 17 | place; that we're providing all of the same kinds of |
| 18 | resources that the students need. |
| 19 | DR. SAUNDERS: What about the class size? |
| 20 | MS. BARONI: The class size waiver? |
| 21 | DR. SAUNDERS: Yeah, on grades 7 through 12. |
| 22 | MS. BARONI: Yeah. Do you want to speak to |
| 23 | that, Mr. Bogrek? He's done most of our research. |
| 24 | MR. BOGREK: On class size we are not going to |
| 25 | increase the number of students in each class. We |
| | |

| 1 | are asking for this waiver for like PE, art and music |
|----|-------------------------------------------------------|
| 2 | classes so we have flexibility for scheduling. |
| 3 | Because these classes are once a week and then a |
| 4 | teacher for example, the limit is 150. So we are |
| 5 | asking for an additional 25 per day, you know, for a |
| 6 | teacher to see. |
| 7 | DR. SAUNDERS: Okay. I think these are are |
| 8 | these separate there's one that's class size and |
| 9 | there's one addressing the compensation on 150. Are |
| 10 | those still the same thing? Are we looking at the |
| 11 | 150 number? |
| 12 | MR. BOGREK: Yes. |
| 13 | DR. SAUNDERS: Is that what we're looking at? |
| 14 | CHAIRPERSON COFFMAN: Before we move on to Mr. |
| 15 | Walter if you will come back to the microphone and |
| 16 | state your name and title for the record. |
| 17 | MR. BOGREK: My name is Fatih Bogrek, assistant |
| 18 | superintendent for LISA Academy. |
| 19 | CHAIRPERSON COFFMAN: Thank you. Mr. Walter. |
| 20 | MR. WALTER: Thank you, Madam Chair, Members of |
| 21 | the Panel. Tripp Walter, Staff Attorney, Arkansas |
| 22 | Public School Resource Center. Yes, Dr. Saunders |
| 23 | kind of beat me to the punch; that's why I was |
| 24 | those two, as you indicated, are interrelated. And |
| 25 | as Mr. Bogrek said, although number two, waiver |
| | |

| 1 | number two is stated class size, as he said it's not |
|----|-------------------------------------------------------|
| 2 | a class size waiver but actually a teaching load for |
| 3 | the 150, as you indicated. And tied in with that is |
| 4 | the waiver request number five which is addressed |
| 5 | teaching load on 6-17-812. So as he indicated, they |
| 6 | want to utilize the teaching load waiver only as |
| 7 | necessary in those areas that he indicated, and then |
| 8 | also ask for the complimentary waiver of 6-7-812 |
| 9 | [sic] so they can account for individuals who would |
| 10 | be teaching increased loads within their usual |
| 11 | compensation schedule and not have to pay so-to-speak |
| 12 | extra. |
| 13 | DR. SAUNDERS: Okay. So, okay. So just to |
| 14 | clarify though, the classes in other areas would not |
| 15 | be above 30 in those grades? |
| 16 | MR. WALTER: That's correct. |
| 17 | DR. SAUNDERS: It's not addressing that? |
| 18 | MR. WALTER: Yes, sir. That's correct. |
| 19 | DR. SAUNDERS: Okay. And how do you intend to |
| 20 | take advantage of the flexibility with clock hours on |
| 21 | the Carnegie unit, the 120? |
| 22 | MR. BOGREK: LISA Academy offers some online |
| 23 | courses for credit recovery. So we would like to |
| 24 | have the flexibility to, you know, have a waiver |
| 25 | from, you know, hours hours for credit, because |

| 1 | some students they need the computation of |
|----|-------------------------------------------------------|
| 2 | traditional requirements. So we offer some online |
| 3 | courses. This is why we are asking for these |
| 4 | waivers. |
| 5 | DR. SAUNDERS: Do you have an idea of a minimum |
| 6 | amount of time for a student to get a credit, of what |
| 7 | that could be? |
| 8 | MR. BOGREK: (inaudible) arts per year for one |
| 9 | credit. We do for our on-site, you know, classes for |
| 10 | these. But we are asking this waiver for our online |
| 11 | courses, for example, if they failed in a course and |
| 12 | take like from an online provider. That would be why |
| 13 | they have just some assignments they do, they don't |
| 14 | have seating requirements. So this is why we're |
| 15 | asking for this waiver, for some online courses. |
| 16 | DR. SAUNDERS: I understand that. And I guess |
| 17 | on an extreme case and I just look at this |
| 18 | could a kid log-in and within an hour get a credit |
| 19 | for a course? So what would be a probably perfect |
| 20 | scenario minimum? |
| 21 | MR. BOGREK: Yeah. To be valued they have |
| 22 | assignments that I can tell you is toward the arts, |
| 23 | you know, for half-credit they need to do some, you |
| 24 | know, work and then they need to get so it |
| 25 | changes, you know. |
| | |

1 DR. SAUNDERS: Yeah. MR. BOGREK: It changes from provider to 2 3 provider. DR. SAUNDERS: Yeah. 4 5 MR. WALTER: Good afternoon, Chairman. Dr. Saunders, I visited with LISA administration to get 6 7 some clarity on that, and they've indicated to me that the most advanced student or students ever had 8 9 the shortest amount of time has been eight weeks. 10 DR. SAUNDERS: Okay. 11 MR. WALTER: So it's not something where they're trying to say it's 10 or 20 hours and they'll check 12 the box for that student. 13 14 DR. SAUNDERS: Thank you. 15 MS. SMITH: Just to kind of piggyback on that 16 too, so courses that are those online courses that are courses that ADE has approved, we've cross-17 18 checked those courses; they're on our course approval list on online for digital providers; they've been 19 20 cross-checked against the standards approved in the 21 state. And so what we've set forth as expected 22 standards to be taught are what those courses are, so 23 24 DR. SAUNDERS: I have one more. It's a little 25 shift of the gears. I notice you are looking at

non-licensed teachers. Correct? 2 MS. DAVIS: That was one that I recommended as a 3 rescinsion because those rules are no longer in 4 5 effect; those rules have been incorporated into the teacher -- the educator licensure rule. 6 7 DR. SAUNDERS: Okay. Okay. MS. DAVIS: So they're just obsolete, so it's 8 9 just an attempt to clean-up the waiver list. DR. SAUNDERS: Do you have an idea of what --10 11 and this was my question on that. But what percent of your staff are licensed? 12 MR. BOGREK: Last time we checked, around 60% of 13 our teachers there are licensed. 14 15 DR. SAUNDERS: Okay. MR. BOGREK: Around 60. Yeah, and all AQT. 16 They are, you know, meeting all AQT. 17 18 DR. SAUNDERS: Right. MR. BOGREK: About 60% that are licensed. 19 20 DR. SAUNDERS: Are any that are not licensed

currently working towards licensure? MS. BARONI: Yes, many. DR. SAUNDERS: Okay. Many. Okay. CHAIRPERSON COFFMAN: Additional questions? Barnes. Sharon Hill Court Reporting (501) 847-0510

rescinding the waiver on parental notification on the

Ms.

1 MS. BARNES: Yeah. I just wanted to ask a quick question because -- and thank you --2 MS. BARONI: Yes, ma'am. 3 MS. BARNES: -- for the additional information. 4 5 But when I was reviewing the accountability ESEA accountability status reports, with respect to math, 6 7 high school level, and we intentionally -- because of the transition here we intentionally in the Division 8 9 of Public School Accountability put the percentages 10 and then the state average. And, of course, state 11 averages is what it is because it is a combination of all districts. So I was trying to determine -- here 12 13 you put both -- is this a combination of both of your high schools' percentage? Because --14 15 MS. BARONI: That includes LISA West and LISA 16 North. Yeah. Because, I mean, I was 17 MS. BARNES: 18 concerned because I was like well I didn't see that percentage being that high, not only at -- all 19 20 students or TAGG or any individual subgroup. It does 21 not exceed the state average in any of those 22 categories for math. And so I was -- I just needed 23 to be clear --24 MS. BARONI: Are you speaking for specific schools? 25

1 MS. BARNES: I'm speaking for the individual 2 two. 3 MS. BARONI: Okay. MS. BARNES: The individual high schools. 4 5 MS. BARONI: Okay. Because, you know, when I look at 6 MS. BARNES: 7 it -- I look at performance at each school. There's 8 no doubt that you're doing work. That's not what I 9 was saying. I'm just -- I needed to be clear as to 10 MR. BOGREK: Let me give some additions about 11 12 that. So for state average, you know, in the high 13 school the average is all together 3rd through 10th. So it's around 43, you know, in the state average in 14 15 math. But usually in Arkansas high schools the math 16 averages are low and ours has been higher, but I need 17 to check. But, yeah, this would just be for all 18 over, all the data. MS. BARNES: Yes, sir. And thank you. 19 And that being said, I'm simply asking what is LISA Academy 20 21 doing differently to address this low performance in 22 math at the high school level? 23 DR. DURAND: I'm Dr. Kevin Durand; I'm the Dean 24 of Academics at LISA West and the district testing 25 coordinator. Let me say something really quickly

> Sharon Hill Court Reporting (501) 847-0510

- December 15, 2016

| 1 | about the ESEA report and that, for example, with |
|----|-------------------------------------------------------|
| 2 | mathematics the 43.35%, for example, for all |
| 3 | students, you'll notice it says for the state. |
| 4 | You'll notice it says that the state average percent |
| 5 | achieved is 43.35%. Right? |
| 6 | MS. BARNES: Yes. In math, all students. |
| 7 | DR. DURAND: Right. Now if you'll notice that's |
| 8 | also the case when you if you look at, for |
| 9 | example, the middle school. If you look at, for |
| 10 | example, the elementary school, all students, once |
| 11 | again you'll see 43.35%. That's because that number |
| 12 | takes into account 3rd grade through 10th grade, |
| 13 | every student that takes the test. If you look, for |
| 14 | example, at merely grade 9 for the state of Arkansas, |
| 15 | the number is 27.12%, while LISA Academy's district |
| 16 | number is 38.7%, so it's higher than the state in |
| 17 | terms of in grade 9. Grade 10, if you look at grade |
| 18 | 10 it's 20.44% for the state and 27.91% for LISA |
| 19 | Academy. So that's just a so it's a little |
| 20 | misleading in terms of the state reported average |
| 21 | because that's a 3 through 10 as opposed to just the |
| 22 | high school. But to get to your to get to the |
| 23 | more important question relative to the lower math |
| 24 | scores right it's always important to clear up |
| 25 | the data because my data heart likes things to be |

| 1 | clear; right? But within mathematics there are |
|----|-------------------------------------------------------|
| 2 | several things that we're doing at LISA Academy, |
| 3 | among them we use, for example, the NWEA, as you |
| 4 | heard from Little Rock Prep that they use as well. |
| 5 | One of the things that we do is in our high schools |
| 6 | we block seven hours for our math students, whereas |
| 7 | most schools have, you know, the five periods during |
| 8 | the week that they have math; ours have seven. And |
| 9 | we take those two other hours for targeted |
| 10 | interventions. We use the NWEA MAP test because it |
| 11 | gives us an understanding of the conceptual mastery |
| 12 | of students. It tells us exactly which concepts |
| 13 | they're failing to truly have mastered. And so then |
| 14 | we target those within those two we call them lab |
| 15 | hours, so the math lab hours and those are both |
| 16 | remedial in those places where they're clearly below |
| 17 | where they need to be, below proficiency, but they're |
| 18 | also used for enhancement for those students who are, |
| 19 | for example, right there on the cusp, either slightly |
| 20 | above the cut-line for proficiency or slightly below. |
| 21 | So it's not strictly remedial, but it's taking those |
| 22 | students and providing them with the resources to get |
| 23 | them to where they're solidly proficient as opposed |
| 24 | to right on the border. We meet with each of our |
| 25 | math teachers, both our math facilitator and myself, |

| 1 | our Dean of Academics at North, and we sit down with |
|----|-------------------------------------------------------|
| 2 | those teachers and we go over their NWEA scores, we |
| 3 | go over their ACT Aspire interim scores in the |
| 4 | office; we look student by student through the class. |
| 5 | We see how they've tracked from one year to the next, |
| 6 | from one test to the next. We look at their |
| 7 | conceptual understandings, and we then talk about how |
| 8 | we can create lesson planning to address those |
| 9 | deficits particularly so that we have those students |
| 10 | who are improving. We then have those same sorts of |
| 11 | meetings to discuss who needs to be in tutoring, who |
| 12 | needs to be coming to the Saturday camps. Then we |
| 13 | interact with parents to make sure that we get those |
| 14 | kids to Saturday camps, to tutoring, so that we can |
| 15 | not just in those two hours of lab hours but also in |
| 16 | afterschool tutoring and Saturday camps begin to |
| 17 | address the places where our students have those |
| 18 | deficits. And we have shown some growth, and |
| 19 | obviously those things are working somewhat because |
| 20 | as we see our NWEA numbers, especially with, for |
| 21 | example, our TAGG group, increasing each year, and |
| 22 | obviously our students scoring reasonably well in |
| 23 | terms of the ACT Aspire last year and then on the |
| 24 | interims that we've had so far this year. |
| 25 | MS. BARNES: Okay. So back to |

| | 123 |
|----|-------------------------------------------------------|
| 1 | DR. DURAND: Okay. |
| 2 | MS. BARNES: Just so I can |
| 3 | DR. DURAND: Sure. |
| 4 | MS. BARNES: be sure that I'm clear, my |
| 5 | question had to do with what were you doing and you |
| 6 | just you went through what you're doing to address |
| 7 | the less than appropriate |
| 8 | DR. DURAND: Right. |
| 9 | MS. BARNES: performance in math. |
| 10 | DR. DURAND: Sure. |
| 11 | MS. BARNES: Okay. So that's my question. I |
| 12 | was simply asking what are you doing differently. |
| 13 | DR. DURAND: Oh, what are we doing well, one |
| 14 | of the things that we're doing differently is the |
| 15 | intensity and the of our data-driven instruction. |
| 16 | We're talking about each and every student, |
| 17 | individualized education plans for each and every |
| 18 | student, not just the AIPs that are required, right, |
| 19 | which have some test scores and maybe list a couple |
| 20 | of things that we're going to be doing. But then |
| 21 | with each one of those students we talk about this |
| 22 | student is having trouble with numbered operations, |
| 23 | so what are we going to do to take this student who's |
| 24 | having some difficulty in numbered operations, as |
| 25 | opposed to this student who may have the same score |

| 1 | but the deficit is in algebra or the deficit is in |
|----|-------------------------------------------------------|
| 2 | statistics and probability? And how are we taking |
| 3 | those particular conceptual difficulties, concept |
| 4 | mastery issues and addressing those individual |
| 5 | students? So it has to do not just with the test |
| 6 | scores, but also the grain size of our interventions. |
| 7 | MS. BARNES: Okay. Thank you. And, you know, |
| 8 | just to be clear, my role and goal in asking the |
| 9 | question is that it is the same question I asked |
| 10 | previously. And so I just needed to know what you |
| 11 | were doing differently. |
| 12 | DR. DURAND: Thank you. |
| 13 | MS. BARNES: Thank you. |
| 14 | CHAIRPERSON COFFMAN: Dr. Saunders. |
| 15 | DR. SAUNDERS: No. |
| 16 | CHAIRPERSON COFFMAN: Any additional questions |
| 17 | or comments? Ms. Smith? |
| 18 | MS. SMITH: Just kind of following up on that, I |
| 19 | would encourage you guys to go back and look at |
| 20 | vertical alignment, especially within your algebra |
| 21 | strands. That's where we're seeing kind of a trend |
| 22 | statewide in areas of math. So I would just look at |
| 23 | your curriculum vertical alignment for all your kids, |
| 24 | especially in that area. That's something our math |
| 25 | specialists have been kind of trying to work on from |

1

a state view too.

MS. BARONI: And this is just one note, I know 2 we mentioned this came up some when we were looking 3 at opening our new campus. But there's a very 4 5 different group of students we're dealing with on the west campus from 8th grade to 9th grade. We have 6 7 traditionally been a choice for a lot of high performing students at middle school and a lot of 8 9 those high performing students leave us and go to 10 Little Rock Central High School at the 9th grade 11 level. So when we actually have our high school group at the west campus it's a different kind of 12 13 make-up than our middle school. So we look at the growth in that area a little differently because we 14 15 don't have any -- we don't have the underpinning of 16 all of those students who are maybe more naturally motivated and parentally motivated. The students 17 18 that we keep are the ones that need more intensive support most frequently and we want to do a good job 19 20 with those. But we can't expect them to, bam, be 21 top-of-the-line students immediately but we want to 22 see that steady growth with those kids, and that's 23 what we're focusing on there. 24 Thank you. MS. SMITH: 25 MR. ROGERS: I just have a question for the

> Sharon Hill Court Reporting (501) 847-0510

| | 126 |
|----|-------------------------------------------------------|
| 1 | Charter Unit. Have we ever granted a renewal longer |
| 2 | than 10 years? |
| 3 | MS. BOYD: From what I know, the longest renewal |
| 4 | you the Authorizer, I'm not sure if it was you |
| 5 | guys or the State Board, that has granted has been 10 |
| 6 | years. And that has been to KIPP and I believe to |
| 7 | Academics Plus. |
| 8 | SUPT. EKIN: (inaudible) |
| 9 | MS. BOYD: Maybe we should've asked them. But |
| 10 | 10 years 10 years, as far as I know am I right, |
| 11 | 10 years? |
| 12 | SUPT. EKIN: Right. |
| 13 | MS. BOYD: has been the longest. Yes. I'm |
| 14 | going to leave it there; I'm not going to give you my |
| 15 | opinion. |
| 16 | DR. SAUNDERS: Is there a limit in rule or law |
| 17 | on that? |
| 18 | MS. BOYD: The law states 20 years. So you can |
| 19 | give up to 20 years. |
| 20 | MR. ROGERS: But our precedence has been, for |
| 21 | even high performing charter schools, is 10 years |
| 22 | is the farthest we've gone out? |
| 23 | MS. BOYD: I'm not sure that anyone has asked |
| 24 | for more than 10 years either. |
| 25 | DR. GOTCHER: However, Madam Chair, this is the |

| 1 | first time that I've understood that a number has |
|----|-------------------------------------------------------|
| 2 | been chosen based upon a complete student-focused |
| 3 | decision, so for that kindergartner that's |
| 4 | approaching, so |
| 5 | MS. BARONI: If I may, Madam Chair, address |
| 6 | that, one of the things that we think is important in |
| 7 | that is that we have very deliberately worked to |
| 8 | change our demographics while still showing growth. |
| 9 | And we believe that we've done that and have a track |
| 10 | record of that of several years of showing that even |
| 11 | with changing demographics we are still helping those |
| 12 | students grow, and will continue to do that with |
| 13 | whatever group of students that we have. The longer |
| 14 | renewal also helps us a lot in terms of guaranteeing |
| 15 | that for the students that they can complete with our |
| 16 | system, because parents are carefully choosing where |
| 17 | they send their children to school. It also gives us |
| 18 | some leverage in terms of negotiating contracts; |
| 19 | people see that you have given us the confidence of a |
| 20 | 13-year renewal and that helps us to negotiate better |
| 21 | financial agreements with contractors and things like |
| 22 | that. So we know that as a charter school we're |
| 23 | subject to being called in at any moment if we veer |
| 24 | off the track. But we feel like the 13 years can |
| 25 | give that assurance to both families and to potential |

1

2

contracting entities that we need to deal with to run the schools.

CHAIRPERSON COFFMAN: Additional conversation? 3 MS. SMITH: So one thing I'd like to encourage 4 the Panel to think about is the purpose of this is 5 renewal of them being a school. We have avenues in 6 7 process already; if they get into academic problems, we have School Improvement and we have avenues for 8 9 them to take. I mean, it's the idea of coming before 10 us every time, saying, "Do we get to be a school?" We can call them in any time. I mean, if we have --11 12 so just my own thoughts, if we've got schools who are 13 performing, they've not had -- I mean, yes, but I'd like to see their math scores a little bit higher --14 15 yeah, I would. But overall, I don't have overall I think, you know, do they show 16 concerns about it. that they're aware and cognizant of their data and 17 18 making improvements in students? And have they done what we've asked them to do as far as going after a 19 20 diverse population, increasing their free-and-21 They have. We have the authority, again, reduced? 22 as a charter at any time if we see a big concern to 23 call somebody back in. So it's the idea of are we 24 granting them permission to be a school. So, I mean, 25 I think when we reduce the years it's a formality of

> Sharon Hill Court Reporting (501) 847-0510

| 1 | them coming to us and saying, "Do we get to be a |
|----|-------------------------------------------------------|
| 2 | school again?" But we have the because, I mean |
| 3 | so we think of them truly as a public school; they're |
| 4 | a public school. We don't ask our districts to come |
| 5 | in every 10 years saying "do we get to be a public |
| 6 | school." We call them in through School Improvement |
| 7 | if they're not performing and if there are concerns, |
| 8 | we have steps that we take. So I think if we have |
| 9 | established a charter school that is doing what |
| 10 | they're supposed to be doing, they have a record in |
| 11 | years to show that they're doing what we've asked |
| 12 | them to do, and they've responded as we've asked them |
| 13 | to respond, I don't see the need in shortening the |
| 14 | years. If anything, I wish they would've probably |
| 15 | come and said 20 years and then if there's something |
| 16 | that goes on in there we say, "Let's talk; you need |
| 17 | to come back to us." But to just say come back to be |
| 18 | a formality of do we have to be a school, I mean, I |
| 19 | think that's where I and I realize that the |
| 20 | longest we've done is 10 but |
| 21 | MR. ROGERS: But you could say that for all the |
| 22 | charters that we do. I mean, to your argument, |
| 23 | you're saying they should all come in here and ask |
| 24 | for 20 if we can call them up any time they're not |
| 25 | doing anything right. |

| 1 | MS. SMITH: It's their job to come and ask us |
|----|-------------------------------------------------------|
| 2 | for their years. So if KIPP asked us for 10 and we |
| 3 | gave them 10, we gave them what they asked for. If |
| 4 | they're asking us for 13 today, and they've if |
| 5 | they would've come in and asked for 20 today, we'd be |
| 6 | discussing 20 right now. So it's their job to |
| 7 | request the number of years, and the law permits them |
| 8 | to come and ask for 20. So we've never established |
| 9 | as a charter it should be 10 or it should be 8 or it |
| 10 | should be 3. Through practice we've said three years |
| 11 | for these schools that we've seen academic problems |
| 12 | with. |
| 13 | DR. GOTCHER: I agree. |
| 14 | MS. SMITH: We've said we've taken them from |
| 15 | five to three. That's kind of been a practice that |
| 16 | we've done. But for a school that has solid |
| 17 | performance we've generally granted them what they |
| 18 | ask for, not based on so today they're asking for |
| 19 | 13, so the conversation is do we go with 13. |
| 20 | MR. ROGERS: Have we ever has a school ever |
| 21 | asked for 20 and we knocked it down to 10? Because I |
| 22 | think we have. I think there have been schools. I |
| 23 | think there were a couple of them that I remember |
| 24 | that because |
| 25 | MS. BOYD: I'm not sure. So the information |

| 1 | that I have is limited to when I've been here and |
|----|------------------------------------------------------|
| 2 | then what's in writing. So what's in writing is what |
| 3 | they were granted and not what they asked for. I can |
| 4 | go back and check applications. I didn't misspeak |
| 5 | earlier, but eStem did ask for 13 years and was |
| 6 | granted 10. |
| 7 | MR. ROGERS: So then that's kind of where I was |
| 8 | kind of that we've had higher performing schools |
| 9 | and I'm not saying that they're not performing, |
| 10 | but they have just combined a school; they just |
| 11 | opened a new school. There are a lot of changes |
| 12 | going on with them right now. And to break |
| 13 | precedence on this school when we haven't with the |
| 14 | other ones, I don't I'm just not comfortable with |
| 15 | that. I understand you are; I'm just not. |
| 16 | DR. SAUNDERS: I'll say I think Dr. Gotcher was |
| 17 | right in this is probably the most sensible request |
| 18 | for time, other than just a denomination of five or |
| 19 | ten, that is academic and student focused. And so I |
| 20 | am comfortable with it. |
| 21 | CHAIRPERSON COFFMAN: Dr. Durand, you had signed |
| 22 | up for public comment. |
| 23 | DR. DURAND: I was under the impression I needed |
| 24 | to sign that for this, so |
| 25 | CHAIRPERSON COFFMAN: Okay. Thank you. Ms. |

Barnes.

1

MS. BARNES: Oh, I just have a comment. And my 2 comment is strictly, again, just being Ms. Barnes --3 I think everybody has pretty much grown accustomed to 4 5 that -- and it is not a question in my mind about performance growth and work that's being done. 6 My 7 concerns probably are aligned with Mr. Rogers in that the length of time is what I'm grappling with, simply 8 9 because of the continued discourse and strain that 10 you -- that's evident in the area. And so I'm trying not to hold your school hostage to the deliberations 11 or collaborative efforts for finding a resolution 12 13 that meets everyone's needs. And I need to make that a very public comment. Because I think sometimes we 14 15 get caught up in what's happening and fail to see 16 what has the potential to happen. So, again, I'm stating that I'm uncomfortable with the number of 17 18 I'm not uncomfortable with the fact that your years. school is meeting needs; you are responding. 19 But 20 there are other schools that are responding as well, 21 and maybe not in all of the areas, but for me there 22 are so many nuances here involved. And I'm concerned 23 about children always. I know that you are too, just 24 as any other school. So that's why I'm making a 25 public statement that should my vote not go in

> Sharon Hill Court Reporting (501) 847-0510

| 1 | accordance it is not with respect to the conversation |
|----|-------------------------------------------------------|
| 2 | and giving due diligence to children number of |
| 3 | avenues and venues to learn the way they can learn. |
| 4 | But I'm also looking at where we are today and what |
| 5 | we're looking for and how well we're performing or |
| 6 | outperforming, or providing quality education across |
| 7 | the board or the absence of it. So I need to state |
| 8 | that, no, I'm not comfortable with the length of |
| 9 | time. I am comfortable with allowing schools to |
| 10 | continue to perform and the rest of it's just the way |
| 11 | it is today. And so I needed to state that. |
| 12 | MS. SMITH: So based on earlier in the week |
| 13 | voting and a charter that we voted on that was pretty |
| 14 | split, I felt like at the end of the vote that the |
| 15 | vote wasn't against the charter, even though it may |
| 16 | be perceived that way. Because it was I think four- |
| 17 | three, when it was really about votes against; we |
| 18 | just disagreed on years. And so not to send a mixed |
| 19 | message I think as a panel I mean, what are you |
| 20 | guys comfortable with? I mean, so you've expressed |
| 21 | that you're not comfortable with 13 but you'd be |
| 22 | comfortable with 10. I mean, does anybody I mean, |
| 23 | Ms. Barnes, are you comfortable with 10 or is that |
| 24 | still exceeding? I mean, where is the comfortable |
| 25 | spot? So I hate to |
| | |

| 1 | MR. ROGERS: The reason that I went with 10 is |
|----|-------------------------------------------------------|
| 2 | because of the precedence we've set with other |
| 3 | schools that are performing as well or a lot better |
| 4 | than LISA in the state. Other schools have come back |
| 5 | in before with their student-focused learning and we |
| 6 | as a panel were not comfortable with going past the |
| 7 | 10 at that time. |
| 8 | MS. SMITH: Right. |
| 9 | MR. ROGERS: And so trying to hold to, as you |
| 10 | said, consistency, I know where we are, how we have |
| 11 | been voting. And I'm not saying and along with |
| 12 | what Ms. Barnes was saying, however the vote goes |
| 13 | it's not that I'm saying that I don't believe in what |
| 14 | LISA is doing. |
| 15 | MS. SMITH: Right. That's the point I'm making. |
| 16 | Earlier when I voted no this week, I mean, it's been |
| 17 | perceived that I |
| 18 | MR. ROGERS: Right. |
| 19 | MS. SMITH: You know, when really it was maybe |
| 20 | the motion piece. And so now it looks like a very |
| 21 | split decision in how that's interpreted, and so I |
| 22 | think you know I think this is an opportunity |
| 23 | for us to talk in a public forum, in front of |
| 24 | everyone, for us to I mean, because, you know, if |
| 25 | I were to make a motion for 13 years and it comes out |

three people vote no and four people vote yes it 1 looks like we're not for the things that the school 2 3 is doing. MR. ROGERS: Correct. 4 5 MS. SMITH: And that may not be the case, when if the motion was 10 or 5 it would've been unanimous. 6 7 And so this is where I think we get to have this conversation in an open forum to say, "So let's make 8 9 a motion that really" -- I mean, I don't know. Ι 10 think it just concerns me when we make motions and 11 we're split but it's not necessarily that we were --12 DR. GOTCHER: Right. 13 MS. SMITH: -- against, but we were -- it was a technicality. 14 15 MR. ROGERS: And I think I agree, and it helps 16 to explain why we voted against certain motions. DR. SAUNDERS: Right. 17 18 MR. ROGERS: But it's not that I -- I just --I'm uncomfortable with -- I feel like in midstream 19 changing course for what we've done for other schools 20 21 that have been here, which is not -- I do not -- as Ms. Barnes -- I do not want it to be a reflection on 22 23 what I believe LISA is doing. I just -- on top of 24 the precedence we've already set, there have been a 25 lot of changes in the past two years with LISA and

| 1 | that adds to my being uncomfortable with going past |
|----|------------------------------------------------------|
| 2 | what we've already set a precedence for, for other |
| 3 | schools that are having changes and performing well |
| 4 | in the state. |
| 5 | DR. GOTCHER: May I, Madam Chair? I grappled |
| 6 | with this about six months ago when the first |
| 7 | question of time and renewals came up, or maybe it |
| 8 | was longer. Some things I have to consider and I |
| 9 | want to encourage my fellow panel members to think |
| 10 | we will see in the future more applications, more |
| 11 | renewals, and we have systems in place that hold all |
| 12 | schools accountable, the 237 plus the charters that |
| 13 | are in our state. We have systems in place. So |
| 14 | whether the number is 13 or the statutory limit of |
| 15 | 20, in my opinion the longer the better because we |
| 16 | have effective systems in place. So just because |
| 17 | we've always done something, in my opinion, Mr. |
| 18 | Rogers, doesn't mean that we can't lead differently. |
| 19 | But we have to think about the effectiveness of our |
| 20 | time as a panel while we have systems in place that |
| 21 | monitor and do a darn good job of taking care of our |
| 22 | schools. So, and I also love the fact that schools |
| 23 | come in with their number. Our previous action item, |
| 24 | I thought it was quite bold that they chose the |
| 25 | number of three. They could've easily picked the |

| 1 | number of 20 and I think it would've been a deal- |
|----|------------------------------------------------------|
| 2 | breaker for this panel. So I want to honor the |
| 3 | request in my opinion, honor the request of the |
| 4 | applicants, but knowing thinking down the road |
| 5 | we're going to have to think differently or we're |
| 6 | going to be sitting in these chairs for a long, long |
| 7 | time, because we are putting systems in place that |
| 8 | will elongate our time as panel members. And that's |
| 9 | not simply it's not necessarily needed since we |
| 10 | have systems in place, as I said. |
| 11 | MS. BARONI: Madam Chair? |
| 12 | CHAIRPERSON COFFMAN: Yes, ma'am. |
| 13 | MS. BARONI: May I speak? |
| 14 | CHAIRPERSON COFFMAN: Yes, please do. |
| 15 | MS. BARONI: Just to address some of the |
| 16 | concerns Mr. Rogers expressed about the changes if |
| 17 | you'll look back in our history, we've been changing |
| 18 | since we started. We've experienced huge growth, |
| 19 | huge changes, opening new buildings, opening new |
| 20 | campuses, and we've sustained our growth trajectile |
| 21 | through that. I understand that concern and I |
| 22 | respect that, but I think we have learned how to |
| 23 | navigate through the changes and we have learned to |
| 24 | develop systems that will sustain that through those |
| 25 | changes. I understand your hesitation to do |

| | 138 |
|----|-------------------------------------------------------|
| 1 | something different, but we're charged to be |
| 2 | innovative. So Haas Hall got the first 10-year; |
| 3 | we're shooting for the first 13-year, and we feel |
| 4 | like we've got a good track record. If you want to |
| 5 | take a shot at it, we might be a good bet for doing |
| 6 | the 13. |
| 7 | MR. ROGERS: I would just like to say to your |
| 8 | argument |
| 9 | DR. GOTCHER: Yes, sir. |
| 10 | MR. ROGERS: the systems are in place, so why |
| 11 | don't we give them all 20 years? |
| 12 | DR. GOTCHER: Exactly. |
| 13 | MR. ROGERS: Because, I mean, then because |
| 14 | the systems I mean, because if that's what we're |
| 15 | going to look at then, I mean but to what you just |
| 16 | said, you're uncomfortable with the last charter |
| 17 | getting you said it would've been a deal-breaker |
| 18 | for you. But the same systems that are in place to |
| 19 | hold them we're just I'm just looking for a |
| 20 | little consistency in holding all the charters to the |
| 21 | same. |
| 22 | DR. GOTCHER: Sure. |
| 23 | MR. ROGERS: And I feel like we're stepping away |
| 24 | from that and I have a problem with that. |
| 25 | DR. GOTCHER: Understood, my friend. |
| | |

- December 15, 2016

1 MR. ROGERS: And we can probably argue about it all day long and I'm sure we'd all enjoy it, but --2 MR. LESTER: No. 3 CHAIRPERSON COFFMAN: Ms. Davis has said no. 4 5 MS. DAVIS: No. MR. ROGERS: But that's -- anyway, I'll leave it 6 7 alone. I feel like I'm beating a dead horse, but --8 DR. GOTCHER: You're fine. 9 MR. ROGERS: That's just where I'm coming from with it. 10 11 CHAIRPERSON COFFMAN: Dr. Saunders. 12 DR. SAUNDERS: I'd just like to make a motion at 13 the proper time. MS. SMITH: Information: KIPP did get 10 years, 14 15 eStem did get 10 years. eStem came and asked for 13 years for one of the -- for the one class of 16 kindergartners going all the way through, but they 17 18 were only given 10. 19 DR. GOTCHER: What time was -- what year was 20 that, or do you have it? 21 MS. SMITH: I don't have the year. 22 DR. GOTCHER: I thought it was in front of you. 23 Sorry. That's okay. 24 CHAIRPERSON COFFMAN: Ms. Boyd. 25 MS. BOYD: I'd also just like for you guys to

> Sharon Hill Court Reporting (501) 847-0510

1 take into account that LISA has been in operation for 12 years now. I don't know if that helps or hurts 2 3 your decision-making process. CHAIRPERSON COFFMAN: Thank you. Okay. 4 DR. SAUNDERS: I'll make --5 MS. DAVIS: Wait. Wait one second. 6 7 CHAIRPERSON COFFMAN: Oh, I'm sorry. 8 MS. DAVIS: I just want to point out on the 9 waiver sheet there was a typographical error. Obviously, it wasn't a big deal because you guys 10 11 didn't point it out. But under the library media specialist, that first statute should be 6-25-103, 12 13 not 23. That was just my fat fingers. CHAIRPERSON COFFMAN: And you have no additional 14 15 issues? 16 MS. DAVIS: I do not. 17 CHAIRPERSON COFFMAN: Thank you. I'm ready for 18 a motion. 19 I make a motion to approve the DR. SAUNDERS: 20 application as presented. 21 DR. GOTCHER: Second. 22 CHAIRPERSON COFFMAN: Discussion? Any 23 additional -- let me rephrase: any additional 24 discussion? 25 Dr. Saunders has made a motion to approve the

| | 141 |
|----|-------------------------------------------------------|
| 1 | renewal for LISA Academy for 13 years; Dr. Gotcher |
| 2 | seconded that motion. All those in favor? |
| 3 | (MAJORITY CHORUS OF AYES) |
| 4 | CHAIRPERSON COFFMAN: Any opposed? |
| 5 | MR. ROGERS: No. |
| 6 | MS. BARNES: No. |
| 7 | CHAIRPERSON COFFMAN: Let the record show that |
| 8 | Ms. Barnes and Mr. Rogers opposed. Motion carries. |
| 9 | MS. BARONI: Thank you. |
| 10 | CHAIRPERSON COFFMAN: If you'll give us |
| 11 | MR. BOGREK: Thank you very much also. Today is |
| 12 | Ms. Baroni's birthday, so you present a great |
| 13 | birthday gift to Ms. Baroni. Thank you very much. |
| 14 | CHAIRPERSON COFFMAN: Well, happy, happy |
| 15 | birthday. |
| 16 | SUPT. EKIN: Thank you so much. We appreciate |
| 17 | your support and encouragement. We will not let you |
| 18 | down. We will do our best to keep on high achieving |
| 19 | and provide the best education to our kids in |
| 20 | Arkansas. Thank you. |
| 21 | CHAIRPERSON COFFMAN: Thank you. |
| 22 | SUPT. EKIN: And happy birthday to Ms. Baroni. |
| 23 | CHAIRPERSON COFFMAN: I will just say, while |
| 24 | they're filling out their paperwork, I appreciate how |
| 25 | your school reaches out to other schools. |

1 SUPT. EKIN: Thank you. CHAIRPERSON COFFMAN: And I think that's a 2 question our State Board often asks and we usually 3 ask, but we didn't have to ask you today because we 4 5 know that you are collaborators. SUPT. EKIN: Thank you. 6 7 CHAIRPERSON COFFMAN: So we appreciate that. 8 SUPT. EKIN: Thank you so much. 9 CHAIRPERSON COFFMAN: That's always good for 10 everyone. 11 SUPT. EKIN: Thank you. 12 CHAIRPERSON COFFMAN: Ms. Barnes. MS. BARNES: Yes. I did not vote in favor of 13 the motion. And I believe I stated it earlier, but 14 15 given the continued conversations regarding collaborative efforts and resolutions to meet the 16 needs of all children. Additionally, the school 17 18 personnel has stated that they are now serving a different type of student and I am considering the 19 20 fact that that is a way of public education today and 21 will continue to be. And so for those reason, I did 22 not support the motion today. 23 CHAIRPERSON COFFMAN: Dr. Gotcher. 24 DR. GOTCHER: I voted for the renewal as 25 presented. I have no concerns with this campus and

> Sharon Hill Court Reporting (501) 847-0510

support fully their vision for the future. 1 CHAIRPERSON COFFMAN: Mr. Lester. 2 MR. LESTER: I voted for the renewal. 3 The charter has been consistent with offering a quality 4 5 education. I have no concerns at this time. CHAIRPERSON COFFMAN: Mr. Rogers. 6 7 MR. ROGERS: I voted no, although it's not a reflection on how I think about LISA's performance; 8 9 I'm just uncomfortable with the decision going to 13 10 years. 11 CHAIRPERSON COFFMAN: Dr. Saunders. DR. SAUNDERS: I voted for it. I thought LISA 12 13 has a proven track record of success and their demographics continue to evolve to reflect the 14 15 surrounding area. 16 CHAIRPERSON COFFMAN: And Ms. Smith. MS. SMITH: I voted for. No concerns. 17 The 18 school has demonstrated 12 years of educational consistency, financial responsibility, and service to 19 20 students. 21 CHAIRPERSON COFFMAN: Congratulations. Your 22 next step is to take this before the State Board. 23 And as I have encouraged every school that has been 24 before us the past three days, I encourage you to be 25 part of the voice in our state accountability plan

| | 144 |
|----|--------------------------------------------------------|
| 1 | through ESSA. So encourage your parents, encourage |
| 2 | your community to be engaged in that process. Thank |
| 3 | you. |
| 4 | A-3: REQUEST FOR OPEN ENROLLMENT PUBLIC CHARTER SCHOOL |
| 5 | AMENDMENT: OZARK MONTESSORI ACADEMY |
| 6 | CHAIRPERSON COFFMAN: Panel Members, we have one |
| 7 | amendment from Ozark Montessori. Is that correct, |
| 8 | Ms. Perry? |
| 9 | MS. PERRY: Yes, Madam Chair, it is. The last |
| 10 | item on the agenda is an amendment request from Ozark |
| 11 | Montessori and we have Dr. Silano here to present. |
| 12 | CHAIRPERSON COFFMAN: So what is the will of the |
| 13 | Panel? A very short break? |
| 14 | We'll take a very short break and then we will |
| 15 | hear Action Item 3. |
| 16 | DR. SILANO: Yes, ma'am. |
| 17 | CHAIRPERSON COFFMAN: Thank you. |
| 18 | (BREAK: 11:50 A.M 12:00 P.M.) |
| 19 | CHAIRPERSON COFFMAN: Ms. Perry, you're |
| 20 | recognized for Action Item 3. |
| 21 | MS. PERRY: Thank you, Madam Chair. The last |
| 22 | item on the agenda is Ozark Montessori Academy and |
| 23 | they have an amendment request. And we have Dr. |
| 24 | Silano here to do the presentation. |
| 25 | CHAIRPERSON COFFMAN: If all the representatives |

| 1 | from Ozark Montessori Academy will stand and raise |
|----|-------------------------------------------------------|
| 2 | their hand; anyone speaking in opposition. Do you |
| 3 | swear or affirm that the testimony you're about to |
| 4 | give shall be the truth, the whole truth, and nothing |
| 5 | but the truth? |
| 6 | DR. SILANO: I do. |
| 7 | CHAIRPERSON COFFMAN: Thank you. You're |
| 8 | recognized, Ms. Silano Dr. Silano. |
| 9 | DR. SILANO: Hello. This is kind of some of |
| 10 | this is just real housekeeping business as far as our |
| 11 | bylaws. Ozark oh, did I didn't really |
| 12 | introduce myself. I'm Christi Silano, the founder |
| 13 | and director of Ozark Education and the principal of |
| 14 | Ozark Montessori Academy. So some of this, as far as |
| 15 | our bylaws, since the bylaws are in our charter we |
| 16 | wanted you to be aware of recent changes in the |
| 17 | language of our bylaws, and so the first one is the |
| 18 | language of a description of the role of the |
| 19 | president of our school board. In the original |
| 20 | language of our bylaws it said, "The president shall |
| 21 | be the chief executive officer of Ozark Education." |
| 22 | Frankly, you know, not being an attorney, not really |
| 23 | having a whole lot of help in the origin of our |
| 24 | nonprofit this would've been in the spring of 2013 |
| 25 | when I was just forming the 501(c)(3) I'm not sure |

| 1 | where I got this language. But recently we had some |
|----|-------------------------------------------------------|
| 2 | board training from a nationally known charter board |
| 3 | professional development trainer, Dr. Brian |
| 4 | Carpenter, and he was really wonderful. He came to |
| 5 | our school and actually did an analysis of our bylaws |
| 6 | and all of our minutes and that kind of thing. And |
| 7 | he recommended that we take that out of the language |
| 8 | that "the president shall be the chief executive |
| 9 | officer," because that puts our board member in a |
| 10 | position of liability as far as the management of the |
| 11 | school. And so the new language would read, in the |
| 12 | second paragraph on the first page, "The president |
| 13 | shall serve as chairman of the board and for the |
| 14 | oversight" I'm kind of skipping ahead "for the |
| 15 | oversight of its business and affairs. He shall |
| 16 | preside at the meeting of the board, have full and |
| 17 | equal vote," et cetera, et cetera. So, most of that |
| 18 | language in that paragraph has not changed. The |
| 19 | primary change there is that the president shall no |
| 20 | longer be the chief executive officer but shall serve |
| 21 | in a capacity as chairman of the actual school board. |
| 22 | Now the second section I found a big typo, and I |
| 23 | must've been in a hurry when I put this together, so |
| 24 | you should've received a little addendum that was |
| 25 | just passed out. So for part and that's for |

146

| 1 | change number two. So the current language, it says, |
|----|-------------------------------------------------------|
| 2 | "The Vice President shall have duties." That was a |
| 3 | copy-and-paste mistake on my part. It should |
| 4 | actually be in reference to the position of |
| 5 | Treasurer. So if you look on the new one that I gave |
| 6 | you, it says "The Treasurer, as Chief Financial |
| 7 | Officer of Ozark Education, shall have oversight." |
| 8 | That's the current language. So, once again, Dr. |
| 9 | Carpenter recommended your treasurer, just being a |
| 10 | volunteer board member from the public, does not want |
| 11 | the liability of being the Chief Financial Officer |
| 12 | responsible for financial decisions made by the |
| 13 | administration. So the new language is actually |
| 14 | correct on the original one I sent you, but the |
| 15 | Treasurer shall be the chair of the Ozark Education |
| 16 | Financial oversight committee, reviewing the budget, |
| 17 | et cetera, et cetera. |
| 18 | And then the third change to our bylaws is |
| 19 | actually has to do with parent membership on our |
| 20 | board of trustees. So in my research I found that it |
| 21 | is helpful to have more community involvement in your |
| 22 | school board than simply parent membership |
| 23 | involvement on a school board can lend itself to |
| 24 | sometimes to conflict of interest as the parent tends |
| 25 | to vote for their specific interests of their own |

147

| 1 | children. So in the original language I had written |
|----|------------------------------------------------------|
| 2 | "no more than one parent of an enrolled student may |
| 3 | serve as a trustee." And, again, in just in the |
| 4 | course of our the growth and the evolution of our |
| 5 | organization, our board felt comfortable to add a |
| 6 | second parent member, drawing from the talent of our |
| 7 | school community. And so they voted to they made |
| 8 | a motion and voted to change it to two parents of |
| 9 | enrolled students may serve as on the board of |
| 10 | trustees. |
| 11 | Are there any questions about changes to our |
| 12 | bylaws? These changes have been adopted by the |
| 13 | board. |
| 14 | CHAIRPERSON COFFMAN: Let me quickly ask: is |
| 15 | there anyone to speak in opposition? I take it |
| 16 | silence is a no. Ms. Boyd, I can see your head. |
| 17 | MS. BOYD: No, ma'am. |
| 18 | CHAIRPERSON COFFMAN: Okay. Thank you. |
| 19 | MS. BOYD: Thank you. |
| 20 | CHAIRPERSON COFFMAN: Okay. Are you finished |
| 21 | with your presentation? |
| 22 | DR. SILANO: I'm finished with the bylaws part |
| 23 | of it. So now I'd like to address a couple of |
| 24 | changes to our actual charter operations. |
| 25 | CHAIRPERSON COFFMAN: Let's go ahead and do that |

| | 149 |
|----|-------------------------------------------------------|
| 1 | and then we'll come back with our questions. |
| 2 | DR. SILANO: Okay. All right. Great. So on |
| 3 | the next page at the top, in bold, it says Charter |
| 4 | Changes. The first one excuse me has to do |
| 5 | with a change of our formative assessment product |
| 6 | from the Star 360 to the iReady. An explanation of |
| 7 | why we chose the Star 360: I had been working in |
| 8 | traditional public schools for seven years prior to |
| 9 | founding a charter and so I'm familiar with some of |
| 10 | the different products that were out there and had |
| 11 | worked with MAPS. And I came to the conclusion that |
| 12 | in a Montessori environment, because it is an |
| 13 | individualized curriculum, that we should also have |
| 14 | an option for a more individualized formative |
| 15 | assessment product. And so we chose Star 360 because |
| 16 | students, according to their need, they could take it |
| 17 | you know, you can take it every week. There are |
| 18 | just many, many multiple opportunities for students |
| 19 | to take the test. You can have a computer set up in |
| 20 | the classroom and the teacher can assign the student |
| 21 | to take a formative assessment in time; so in that |
| 22 | regard Star 360 was useful. But we found a product |
| 23 | that we liked better that we wanted to use this year |
| 24 | that is similar insofar as that you can use it as |
| 25 | often as you please throughout the school year, but |

| 1 | it also has some added elements that we liked as far |
|----|-------------------------------------------------------|
| 2 | as its reports. So in use with our Response to |
| 3 | Intervention programming, the iReady program actually |
| 4 | has a more prescriptive it has the diagnostics; |
| 5 | you can do frequent diagnostic but it also has a |
| 6 | prescriptive aspect to it. So it actually if you |
| 7 | look at it I've provided an example in the back |
| 8 | here so you can see that it actually tells the |
| 9 | teacher some of the individual skills that each child |
| 10 | needs. And because our Montessori curriculum is so |
| 11 | individualized, those teachers are tracking the |
| 12 | individual progress of every single student. And so |
| 13 | with the iReady program they not only will prescribe |
| 14 | the particular skills that each child is needing but |
| 15 | it also provides grouping. So it groups your child, |
| 16 | your students into small groups that can work |
| 17 | together and it also provides some paper-and-pencil |
| 18 | materials that teachers can use for remediation. So |
| 19 | they've been very happy with it. |
| 20 | I have to apologize, so I don't know if I'm |
| 21 | going to get a slap on the hand or what here, but we |
| 22 | in a perfect world we would've asked for this |
| 23 | change back in July, before the school year started. |
| | |

we knew we didn't want to go to MAPS, and it wasn't

But it wasn't actually -- we were unhappy with Star,

Sharon Hill Court Reporting (501) 847-0510

24

25

| 1 | until August at a conference that we came across |
|----|-------------------------------------------------------|
| 2 | iReady at a vendor booth. And so it was a quick |
| 3 | change and so here we are already into the school |
| 4 | year. But I will say having piloted both of these |
| 5 | products we're much happier with the iReady product |
| 6 | than with the Star product. |
| 7 | Then the other change to our charter and this |
| 8 | is the last change today has to do with our |
| 9 | financial audit requirement. Again, being pretty new |
| 10 | to, you know, running a school, the business end of a |
| 11 | school, I relied on the coaching and the mentorship |
| 12 | of people who I met in the community and networked |
| 13 | with. And so with our original charter application, |
| 14 | which was actually back in 2013 our first charter |
| 15 | application was denied by the Authorizing Panel |
| 16 | but that charter I had the assistance of our founding |
| 17 | treasurer who had connections in the with CPAs, |
| 18 | accountants in the community. And they told us that, |
| 19 | "Oh, what you want to do is you want to get a private |
| 20 | CPA firm to do your audit," and so we took that |
| 21 | advice and we put that in our charter application. |
| 22 | Well and we had a quote for a price that was in |
| 23 | our original budget of \$8,000. But when the actual |
| 24 | time came to start to plan for our first audit we |
| 25 | discovered the price was over double of that and that |

151

| 1 | in fact most, if not all, charter schools now the |
|----|-------------------------------------------------------|
| 2 | trend in Arkansas is to use the Legislative Audit, |
| 3 | and people seem happy with that. And I think for the |
| 4 | Panel's sake when you look at those audits you're |
| 5 | comparing apples to apples as far as what to expect |
| 6 | in the audit. So it made sense to us that there was |
| 7 | this free option available that was going to help us |
| 8 | financially and maybe would make more sense for |
| 9 | everybody. |
| 10 | So I think that's it. Any questions? |
| 11 | CHAIRPERSON COFFMAN: Just a point of |
| 12 | clarification, back on your formative assessments you |
| 13 | plan to also use ACT Aspire? |
| 14 | DR. SILANO: Oh, yes. I didn't mention that. |
| 15 | We do, so as a means of preparation, yes. |
| 16 | CHAIRPERSON COFFMAN: All right. Ms. Smith. |
| 17 | MS. SMITH: So this may be the Charter Unit or |
| 18 | even Ms. Davis or even any of the panel members here. |
| 19 | So I appreciate the information about the change of |
| 20 | formative assessment, and I understand that. But |
| 21 | unless it's directly tied to their goals and so, |
| 22 | is it? I mean, do they why does she need our |
| 23 | permission to |
| 24 | DR. SILANO: It is actually tied to our goals. |
| 25 | MS. SMITH: So it is directly tied to the goals? |
| | |

- December 15, 2016

1 DR. SILANO: Yes. 2 MS. SMITH: Okay. That's --3 DR. SILANO: The Star assessments are supposed to show one year growth for every student per year. 4 5 MS. SMITH: Okay. And so you're going to replace that goal, so that's what we're -- so we're 6 7 changing our goals? 8 MS. BOYD: Changing the instrument for 9 assessment to show achievement in the goals. MS. SMITH: So if it wasn't tied to the goals 10 11 she wouldn't need to come before us asking for this? MS. BOYD: Right. And the main thing that's 12 13 clear that she has to ask you for is the change in auditor. It says that in the application and other 14 15 documents, that if they're going to change their 16 auditor it has to be approved by the Authorizer. And so in having this discussion and talking to the 17 18 applicant about -- or the charter, sorry, about other changes that were taking place we felt it was 19 20 appropriate to go ahead and bring those other details 21 forward. 22 MS. SMITH: Okay. And I do appreciate the 23 information and keeping us aware, but I don't want us 24 to get in a situation where we're up here debating or 25 grilling a person on choices they're making as a

153

| 1 | local public school, but we I mean, their |
|----|-------------------------------------------------------|
| 2 | formative assessment choice is their formative |
| 3 | assessment choice; we don't determine that. But it |
| 4 | is linked to their goals and so I can see updating |
| 5 | it. I mean, I get that. But I just I don't want |
| 6 | us to be voting on amendments that |
| 7 | DR. GOTCHER: That's really a local decision. |
| 8 | MS. SMITH: Yeah. |
| 9 | MS. BOYD: Right. So that really comes into |
| 10 | play with the changes in the bylaws. That part is |
| 11 | the part that does not necessarily need to be |
| 12 | approved by you guys. But the change in the auditor |
| 13 | does and because the assessment is tied to their |
| 14 | goals that are approved and that we're going to |
| 15 | measure them on when it comes time for renewal, those |
| 16 | are the two things that need to be really addressed. |
| 17 | MS. SMITH: Yeah. So just a comment: I |
| 18 | personally have no concerns with it. I think you |
| 19 | probably are getting a lot more information with |
| 20 | iReady than you had with Star, just in my knowledge |
| 21 | of different assessment systems. So I do not have |
| 22 | any concerns on that. Anything determining an |
| 23 | auditor, money, I'm going to let them do that. |
| 24 | DR. GOTCHER: Next? |
| 25 | CHAIRPERSON COFFMAN: Dr. Gotcher. |

DR. GOTCHER: Hello, Dr. Silano. 1 DR. SILANO: Hello. 2 DR. GOTCHER: Just a question I had after you 3 presented your bylaws, who did you say provided the 4 technical assistance? I had no issue with anything. 5 I just was curious who provided the technical 6 7 assistance for you, or did you say? 8 DR. SILANO: Dr. Brian Carpenter. 9 DR. GOTCHER: And he's with? DR. SILANO: He was actually a speaker at APSRC 10 11 training and he just consults with charter school boards across the country. And we really enjoyed 12 him. 13 DR. GOTCHER: Wonderful. 14 15 DR. SILANO: Yes. DR. GOTCHER: And have you already talked to 16 17 Leg-Audit? I know there was a time --18 DR. SILANO: Yes. 19 DR. GOTCHER: Okay. Good. 20 They have penciled us in, but they DR. SILANO: 21 didn't want to put it in ink until they had your 22 okay. 23 DR. GOTCHER: Okay. And I knew there was a time 24 constraint at one time. Maybe Mr. Rogers can address 25 that. There were some districts that had the

| 1independent audits that were moving towards the Leg-2Audit and there was a concern of capacity. And I3just wanted to make sure we didn't make the changes4and then they didn't have the capacity to take on one5more entity. But I don't think it's really6DR. SILANO: Yeah. We've spoken with them7several times.8DR. GOTCHER: Good.9DR. SILANO: They've said we'll be at the end of10the list, in March or later, but they're on there.11DR. GOTCHER: Good. Maybe Mr. Rogers has a12comment on that. But thank you, that's all I have.13DR. SILANO: All right.14MR. ROGERS: I mean, more schools have gone15have asked for Leg-Audit because of some of the16things that she mentioned, because of the formality17of everybody having of using Leg-Audit and also18because the Department of Ed. pays for using Leg-19Audit. But there is a problem with capacity. So if20you have been in discussion, you're on their list,21CHAIRPERSON COFFMAN: Any other questions? Ms.23Smith.24MS. SMITH: So on the goals, I guess, Charter | | 720 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------------------------------------------------|
| 3 just wanted to make sure we didn't make the changes 4 and then they didn't have the capacity to take on one 5 more entity. But I don't think it's really 6 DR. SILANO: Yeah. We've spoken with them 7 several times. 8 DR. GOTCHER: Good. 9 DR. SILANO: They've said we'll be at the end of 10 the list, in March or later, but they're on there. 11 DR. GOTCHER: Good. Maybe Mr. Rogers has a 12 comment on that. But thank you, that's all I have. 13 DR. SILANO: All right. 14 MR. ROGERS: I mean, more schools have gone 15 have asked for Leg-Audit because of some of the 16 things that she mentioned, because of the formality 17 of everybody having of using Leg-Audit and also 18 because the Department of Ed. pays for using Leg- 19 Audit. But there is a problem with capacity. So if 20 you have been in discussion, you're on their list, 21 then they should be able to get to them. 22 CHAIRPERSON COFFMAN: Any other questions? Ms. 23 Smith. | 1 | independent audits that were moving towards the Leg- |
| 4and then they didn't have the capacity to take on one5more entity. But I don't think it's really6DR. SILANO: Yeah. We've spoken with them7several times.8DR. GOTCHER: Good.9DR. update the goal with the new formative assessment --1 MS. BOYD: Yes, ma'am. That's correct. 2 3 MS. SMITH: -- because that's part of the application? 4 5 MS. BOYD: Yes, ma'am. MS. SMITH: Okay. And so we just need that goal 6 7 -- I mean, I don't want to wait until it's renewal 8 time and then -- what was it supposed to be? I guess 9 we just need to establish that. MS. BOYD: Yeah. We'll update those documents 10 11 as soon -- we update everything after State Board. 12 MS. SMITH: Okay. 13 CHAIRPERSON COFFMAN: Any other questions or comments? 14 15 I'm ready for a motion. 16 DR. SAUNDERS: I make a motion to approve. 17 MS. SMITH: Second. 18 CHAIRPERSON COFFMAN: Dr. Saunders has made a 19 motion; Ms. Smith has seconded that motion to approve 20 the amendments presented to us from Ozark Montessori 21 Academy. Any discussion? 22 All those in favor? 23 (UNANIMOUS CHORUS OF AYES) 24 CHAIRPERSON COFFMAN: Any opposed? Motion carries. 25

- December 15, 2016

158 1 DR. SILANO: Thank you. (A FEW MOMENTS OF SILENCE) 2 CHAIRPERSON COFFMAN: Dr. Gotcher. 3 DR. GOTCHER: I voted for the amendments. 4 No 5 concerns presented and support their continued 6 success. 7 CHAIRPERSON COFFMAN: Mr. Lester. MR. LESTER: I voted for the amendments. 8 I have 9 no concerns with the amendments. 10 CHAIRPERSON COFFMAN: Mr. Rogers. 11 MR. ROGERS: I voted for. Just like everybody 12 else, no concerns. CHAIRPERSON COFFMAN: Dr. Saunders. 13 DR. SAUNDERS: I voted in favor. I have no 14 15 concerns. CHAIRPERSON COFFMAN: Ms. Smith. 16 17 MS. SMITH: For. No concerns. 18 CHAIRPERSON COFFMAN: Ms. Barnes. 19 MS. BARNES: I voted for. No concerns with the 20 amendment as presented. 21 CHAIRPERSON COFFMAN: Congratulations, Dr. 22 Silano. We appreciate your transparency. 23 Are there any additional issues before the Panel 24 today? Ms. Davis? 25 MS. DAVIS: No, I have nothing.

Γ
