# BEFORE THE ARKANSAS DEPARTMENT OF EDUCATION CHARTER AUTHORIZING PANEL

#### Pulaski County Special School District Board Room

July 15, 2015

#### APPEARANCES

#### PANEL MEMBERS:

Ms. Deborah Coffman Chairman - Chief of Staff Dr. Debbie Jones Vice Chair - Asst. Commissioner of Learning Services Dr. Mark Gotcher Asst. Commissioner-Education Department Ms. Ivy Pfeffer Asst. Commissioner-HR/Educator Effectiveness & Licensure Dr. Eric Saunders Asst. Commissioner-Research & Technology Mr. Bobby Lester Asst. Commissioner-Federal Programs Director Mr. Greg Rogers Asst. Commissioner-Fiscal & Administrative Services Ms. Jennifer Liwo PLSB Staff Attorney

#### ALSO APPEARING:

Ms. Mary Perry Coordinator, Division of Learning Services

#### ADE LEGAL COUNSEL:

Mr. Kendra Clay ADE General Counsel
Ms. Lori Freno ADE Deputy General Counsel
Ms. Jennifer Davis ADE Attorney Specialist

Minutes of CAP Meeting of 04/15/15

#### PROCEEDINGS

of the Charter Authorizing Panel to order and welcome everyone to the Pulaski County board room. Some of you may know the Department of Ed. is having air-conditioner renovation today, so it is very hot back in our office and we are so pleased to be here and so pleased to welcome you. I'll ask you to silence all of your electronic devices.

The Authorizing -- Charter Authorizing Panel oversees the authorization, renewal, revision and revocation of charters. Arkansas Quality Charter Schools Act of 2013 requires the Commissioner to appoint ADE staff to this panel. On July 1, 2015, Commissioner Key named nine members to the Charter Authorizing Panel; five members have previously served on this panel and four members are new. So I'm going to start over here with Ms. Pfeffer and if you will introduce yourself and we'll go around the table for the record.

MS. PFEFFER: Okay. Good morning. Ivy Pfeffer,
Assistant Commissioner for Educator Licensure and
Educator Effectiveness, Department of Education.

DR. SAUNDERS: Eric Saunders, Assistant

Commissioner for Research and Technology, Arkansas

of the panel, of the audience, and of the viewing

audience that's joining us today via live-streaming.

This meeting is being recorded. Ms. Sharon Hill, our court reporter is also providing a transcript of this meeting which will be posted on the Arkansas

Department of Education website.

Are there any reports or statements from panel members? Dr. Saunders.

DR. SAUNDERS: Yes. I just wanted to report that Ms. Coffman and my self had the opportunity to attend the National Charter School Conference a few weeks ago. It was very enlightening. They spent a lot of time and effort on -- I think a lot of focus on the authorization and how that occurs throughout the United States and looks different from state-to-state and district-to-district; very enlightening and just lots of opportunities there, such as different models. And I would encourage everyone to get out and do some research on the different ways that states authorize charter schools throughout the nation for possible ideas in the future.

CHAIRMAN COFFMAN: Thank you, Dr. Saunders.
Anyone else? Dr. Jones.

DR. JONES: I just wanted to mention that Mary
Perry and Alexandra, the charter team, have been
working to submit the federal grant for charters and

have worked with partners, like Arkansas Public
Resource Center. But I appreciate the work that
Mary's team has done; it has been incredible work.
And so a lot of the support that charters receive is
for the reason they come from that federal grant.
And so without that money the ADE could not
contribute the money that they do. So thank you,
Mary.

MS. PERRY: Thank you.

CHAIRMAN COFFMAN: And just to also let you know that we have several members of this panel that will be attending the Charter Authorizing Conference in October, in Denver. And a few of our new board members, State Board members have also agreed to attend that meeting. We're very thankful for that.

### REPORT-2: UPDATE ON CURRENT CHARTER APPLICATION CYCLES

CHAIRMAN COFFMAN: All right. Without any further ado, we'll move to Report Number 2, Update on the Current Charter Application Cycles. Ms. Perry.

MS. PERRY: Good morning. Mary Perry,

Coordinator of the Division of Learning Services. I

just wanted to let you know I come routinely to keep

you informed about the application cycles as they're

going many, many months throughout the school year.

Right now we had a June 2nd deadline; that was the

2

3

23

24

25

most recent deadline for both open enrollment potential applicants and district conversion potential applicants to submit letters of intent to apply. We received 19 letters of intent to apply for open enrollment charters from 14 different entities. Out of those, five letters were submitted by entities already operating charters in Arkansas. We also received 10 letters of intent to apply for district conversion charters, with nine districts participating in a mandatory applicant workshop and one district decided not to go forward with an application at this time. So -- and one district already has a district conversion charter. So those are the folks who are interested right now; those are the numbers of folks who have indicated an interest.

The open enrollment application is due to us on July 22nd and the district conversion not until September. So actually I anticipate it will be your very next meeting when you meet as a group that you'll be conducting hearings if we decide on the dates going forward in one of the action items. At your next meeting you'll be conducting hearings for open enrollment applicants.

CHAIRMAN COFFMAN: Thank you, Ms. Perry. Ms. Clay, at this time would you like to go over our

procedures for today?

MS. CLAY: Good morning. Kendra Clay, General Counsel for the Department of Education. You have several amendment requests on your agenda today. All of those will follow the same hearing procedures. It may be familiar to some of you who have served on the panel before.

First of all, all persons, with the exception of attorneys, that are going to speak need to be sworn in. The charter school will then have 20 minutes to present its case for an amendment. Any parties opposed will follow the charter school and then they'll have 20 minutes as well. The charter school will then have 5 minutes for rebuttal, and you will follow with questions and discussion. You can vote on the matter today, defer it to a later meeting -- and part of deferring that vote is allowing the charter school to get technical assistance, if you think there's additional information that is needed.

One thing that's not required by your procedures but we're going to ask you to do today -- this is to help the State Board review your decisions and make a decision on whether they would like to conduct a separate hearing, which they are allowed to do.

There's a Google doc that you have, and if you're

1	having trouble accessing that we can we can
2	manually type it in. But after the vote on each
3	amendment request we're going to ask each panel
4	member to state his or her reasons for the vote.
5	We'll then upload that sheet to the State Board so
6	that they'll have more information to base their
7	decision on whether to review or not review your
8	decision. So although that's not required by your
9	procedures, we are going to ask you to do that from
10	here on out on your amendment requests votes and also
11	when you see the applications in the next couple of
12	meetings.
13	CHAIRMAN COFFMAN: Any questions about that?
14	DR. JONES: Is that for you enter a response
15	for even if you vote yes yes or no?
16	MS. CLAY: Yes.
17	DR. JONES: Okay.
18	MS. CLAY: Either way that you vote. And Ms.
19	Coffman will direct you there will be a time where
20	you vote and then we'll take just a minute or two and
21	allow you-all to type them in, so then we'll have
22	them all compiled to forward on to the State Board.
23	CHAIRMAN COFFMAN: Any other questions? Thank
24	you, Ms. Clay.

CHAIRMAN COFFMAN: All right. Report Number

Three, Update on the Arkansas Charter School Program

Grant Application to the U.S. Department of

Education.

MS. PERRY: Yes. Dr. Jones already mentioned that -- thank you, Dr. Jones, for your support as we worked on that. As she said, we're diligently I just want to tell you a little bit about working. the design because it is a redesign of what's happened in the past with the charter grant. And it includes -- the design was created by really taking an analysis of the needs in our state, including areas of improvement that were identified when the U.S. Department of Education visited Arkansas in April 2013 and conducted a monitoring visit of the Charter School Grant Program. We looked at their results. We looked at the grant requirements too, with a special focus on components that seemed to appear in multiple prompts and took a look at that. We then created -- first created a logic bottle that had four action areas leading to the ultimate goal of growing the numbers of successful charters in Arkansas. We anticipate, although it's not completely finalized yet, requesting an annual amount

	12
1	to flow through to our sub-grantees of \$5,750,000 to
2	fund competitive open enrollment district conversion
3	and dissemination grants and grants to allow
4	successful charters to create turnaround models. So
5	we're putting we think that would be a very, very
6	good thing to be able to get some charters interested
7	in doing a turnaround model and providing some
8	funding that would support that.
9	As Dr. Jones mentioned some of our partners, I
10	want to say that we appreciate we greatly
11	appreciate the support we're getting from Scott
12	Smith, Tripp Walter and Tyler Barnett with the
13	Arkansas Public School Resource Center. They have
14	been a great help as we're down the home-stretch with
15	that application. And it will be submitted on time,
16	which is due tomorrow afternoon.
17	CHAIRMAN COFFMAN: Thank you, Ms. Perry. Any
18	questions?
19	(BRIEF MOMENT OF SILENCE)
20	REPORT-4: OZARK MONTESSORI ACADEMY BUDGET REPORT
21	CHAIRMAN COFFMAN: All right. We'll move to
22	Report Number 4, Ozark Montessori Academy Budget
23	Report. Ms. Perry.
24	MS. PERRY: Yes. This report is a result of a
25	request made by the Charter Authorizing Panel. On

February 18, 2015, when the charter appeared before the Authorizing Panel requesting an amendment, the Panel requested the charter provide a five-year budget. They asked the panel [sic] come and present that at a later date, and Ozark Montessori is here today with this report and they're also here on the action agenda with an amendment request. Coming forward to introduce presenters, to start the presentation is Dr. Christine Silano who's the superintendent of Ozark Montessori. And it is a school that has not yet opened; it's scheduled to open very shortly for the first time.

CHAIRMAN COFFMAN: Good morning, Dr. Silano.

DR. SILANO: Good morning.

CHAIRMAN COFFMAN: If you'll state the name and your title for the record, please?

DR. SILANO: Christine Silano, executive director of Ozark Education.

CHAIRMAN COFFMAN: Go ahead.

DR. SILANO: So, yes, the Panel did request that we come back with a five-year budget. Our original budget was perhaps based on some faulty assumptions in regards to federal funding and there was some question, as we had just requested a change of address, about our financial capacity to meet our new

1	responsibilities. And so we did submit the five-year
2	budget that you should have received a copy of, and I
3	apologize; we neglected to put the name of our school
4	at the top. But this five-year budget is based on
5	actual enrollment numbers for the first year of the
6	students that we have, so based on our free and
7	reduced number of students at 50% that we did have
8	enrolled and complete last years' free-and-reduced
9	lunch form. So we believe the numbers are accurate.
10	We've had the assistance of Chris Bell, who is
11	supposed to be here but he must've run into traffic.
12	And so if you have any questions about that
13	CHAIRMAN COFFMAN: Thank you. Questions?
14	DR. GOTCHER: Just one, just for a historical
15	perspective. I have two reports, one with 120 and
16	one with 140. Is there a reason
17	DR. SILANO: That would be our other action
18	item, a request for an increase.
19	DR. GOTCHER: Okay. Just curious. Thank you.
20	DR. SILANO: And I think that's later in the
21	agenda. Correct?
22	MS. PERRY: Yeah.
23	CHAIRMAN COFFMAN: Dr. Saunders.
24	DR. SAUNDERS: Yes. Madam Chair, is that proper
25	to I have some questions regarding this budget,

	15
1	but is it more proper to address those on that action
2	item later?
3	CHAIRMAN COFFMAN: Ms. Perry, we'll Ms. Clay,
4	we'll seek your guidance.
5	MS. CLAY: Now would be the time to address
6	those because the amendment request is not related to
7	the budget. It's not directly related to the budget.
8	DR. SAUNDERS: I think in, you know, particular,
9	as I'm looking at the budget, if I'm looking at
10	well, all five years, but in particular fiscal year
11	'16 looking at a revenue roughly around \$900,000,
12	and of that for technology there's \$900 in the budget
13	for technology.
14	DR. SILANO: Yes.
15	DR. SAUNDERS: Is that correct?
16	DR. SILANO: Well, and that see, this does
17	not reflect that additional foundation grant money
18	that we have received, and so we are covering our
19	technology through that and also through our
20	construction budget. So as far as computers, I think
21	that's in a different line. And Rochelle you're
22	going to need to swear in Rochelle on that, but
23	CHAIRMAN COFFMAN: Rochelle, give us your name
24	and title please.
25	MS. NICHOLS: I'm Rochelle Nichols, the director

1	of finance for Ozark Montessori Academy. We are
2	buying our technology, our student computers and
3	teacher computers with the federal planning and
4	implementation grant that we're receiving. The \$900
5	that's in this budget with the foundation funds,
6	that's just if we get a computer that breaks down
7	that doesn't have a warranty left on it or any IT
8	issues that we experience throughout the school year;
9	that will cover that.
10	DR. SAUNDERS: Okay. Is that federal grant, is
11	that already received, guaranteed, or
12	MS. NICHOLS: We have been approved for that.
13	We sent in our a request for those with the
14	budget, in March, I believe. So we are already
15	spending that money and we sent it in for
16	reimbursement basis to the ADE.
17	DR. SAUNDERS: How much is that for?
18	MS. NICHOLS: The planning grant is \$200,000 and
19	the implementation grant is \$263,800, I believe.
20	DR. SAUNDERS: So how much of that \$463,000
21	would be used on the technology items?
22	MS. NICHOLS: I don't have a specific number off
23	the top of my head, but I would say close to \$10,000.
24	DR. SAUNDERS: So the technology budget in
25	essence would be the \$10,000 for computers and then

	17
1	900 additional dollars for support services?
2	MS. NICHOLS: Yes, that's correct.
3	DR. SAUNDERS: How many computers will \$10,000
4	get?
5	MS. NICHOLS: We had the Walton Foundation
6	donate nine computer monitors to us, and so we have
7	in that budget to buy nine computers to be used to
8	use in the classrooms. We have two classrooms I'm
9	sorry two computers per classroom in the budget,
10	and then we have eight teacher tablets scheduled to
11	purchase and then we also have 14 I think 14
12	Chromebooks that we're going to buy and put in a
13	mobile cart so that they can be taken around and used
14	in the classrooms.
15	DR. SAUNDERS: So two computers per classroom.
16	How many classrooms?
17	MS. NICHOLS: Six.
18	DR. SAUNDERS: Six?
19	MS. NICHOLS: Uh-huh.
20	DR. SAUNDERS: And then 14 Chromebooks. Looking
21	at just student use, a total of 26?
22	MS. NICHOLS: Yes.
23	DR. SAUNDERS: Does that sound about right?
24	MS. NICHOLS: Uh-huh.
25	DR. SAUNDERS: Does that seem appropriate, 26

1 computers for 120 students? DR. SILANO: Yes, sir. So we have an adequate 2 amount of computers to -- for our benchmark testing. 3 And also with the Montessori model we do not use 4 5 computers to a large degree in our curriculum model in the lower grades, so this first year it is a lower 6 7 budget. Our assessment -- test prep assessment is 8 the STAR Program, which is individualized, so we can 9 assess students one at a time or two at a time with two computers in the classroom. If we do need to do 10 11 like a whole class assessment, then we have the 12 mobile cart. 13 DR. SAUNDERS: Thank you. CHAIRMAN COFFMAN: Any other questions? 14 15 (BRIEF MOMENT OF SILENCE) 16 CHAIRMAN COFFMAN: Thank you, Dr. Silano. 17 DR. SILANO: Okay. 18 CONSENT AGENDA 19 CHAIRMAN COFFMAN: All right. We'll move to the 20 Consent Agenda. 21 The Consent Agenda -- the one MS. PERRY: Yes. 22 item on the consent agenda is the minutes from the 23 April 15, 2015 meeting. And you have been -- you 24 were handed, placed at your spot, minutes that say 25 "revised." It was brought to our attention that we

1	had an error in the minutes and they're on the absent
2	list there, and we changed the order to correctly
3	write the names and punctuate correctly Dr. Jones as
4	vice chair there. So we would request that you
5	approve these minutes with the changes.
6	CHAIRMAN COFFMAN: All right. Is there a
7	motion?
8	DR. JONES: So moved.
9	DR. SAUNDERS: Second.
10	CHAIRMAN COFFMAN: Dr. Jones made a motion,
11	seconded by Dr. Saunders. All those in favor?
12	(UNANIMOUS CHORUS OF AYES)
13	CHAIRMAN COFFMAN: Any opposed? The motion has
14	passed.
15	A-1: 2015 CHARTER AUTHORIZING MEETING DATES
16	CHAIRMAN COFFMAN: All right, Ms. Perry; we are
17	ready to move into the action agenda. Action item 1,
18	2015 Charter Authorizing Meeting Dates.
19	MS. PERRY: Yes. We are bringing these meeting
20	dates to you to consider now because, as I mentioned
21	earlier in my report about the application cycles,
22	the potential applicants are all wanting to block
23	dates that they might be called to Little Rock and
24	appear before you at for a public hearing. So
25	we're proposing, as we typically do, dates that fall

on the Wednesday right after the State Board meeting. You will recall we have very little time to give official notification to those who appear before you of your decision and then allow them time, both those who appear before you and any affected district, who may want to request that the State Board review their decision. With our timelines on getting things posted for the next State Board agenda that's quite the challenge. So we do need to have these meetings very quickly after the State Board meeting so that the time limits can play out, and those time limits are specified to us in law. Believe me, we did not create that short turnaround time, but we can work with it.

So we're asking that you consider meeting on October the 15th -- excuse me -- the 14th and the 15th, a Wednesday and Thursday, to consider both amendment requests and conduct the open enrollment charter applicant hearings in accordance with the application timeline. The law says -- excuse me -- the rule says -- Arkansas Department of Education rule 4.02.3 states that amendment requests will be heard at the authorizer meetings in February and October. Now that may lead you to a very logical next question, which is why are we hearing amendment

2

3

4

5

6

7

8

9

10

11

22

23

24

25

requests today later on in the action agenda. happened as a result of being concerned that the charters might need to request amendments based on changes that occurred in the legislative session, and they still have to follow the proper procedures as outlined in our rules. And 4.02.7 allows a charter to request that the Commissioner -- to request the Commissioner grant permission for amendments to be heard at different times. And the rule states that they can make that request in circumstances involving imminent peril to the health, safety or -- health, welfare or safety of students or under circumstances that may negatively impact the continuation of educational services offered by the public charter And upon written request from the public charter school, the Commissioner or his designee may waive the requirements, and that would be, of course -- include the October and April requirements. Everyone appearing before you did make a written request specifying reasons to the Commissioner, and the Commissioner granted them permission to come before you today.

So anyway, I digressed a bit but that was an explanation that I thought you would need. So 14th and 15th of October for amendment requests and open

1	enrollment hearings, and November 18th and 19th to
2	conduct the hearings for district conversion
3	charters. Also, you'll see on that timeline I put a
4	note there, "Should there be any reason" and it's
5	not really a recommendation; I just want to make sure
6	that you know we would be happy if a work session
7	of any kind would help some or all of you, we'd be
8	glad to do anything there that could be of benefit
9	and suggested the dates of August 17th or September
10	16th, if you so desire.
11	CHAIRMAN COFFMAN: Any questions, concerns?
12	DR. JONES: I do. Clarification on that
13	potential work session you said August what?
14	MS. PERRY: August 19th or September 16th.
15	DR. JONES: I'll make the motion that the dates
16	proposed for Authorizing Panel meeting dates be
17	approved.
18	DR. GOTCHER: Second.
19	CHAIRMAN COFFMAN: We have a motion made by Dr.
20	Jones and a second by Dr. Gotcher. Any questions?
21	All in favor?
22	(UNANIMOUS CHORUS OF AYES)
23	CHAIRMAN COFFMAN: Any opposed? The motion is
24	passed.
25	A-2: CHARTER APPLICATION TIMELINES

CHAIRMAN COFFMAN: All right. Action Item

Number 2, Charter Application -- oh, do we need to

stop right there, Ms. Clay?

21

22

23

24

25

MS. CLAY: No. You don't need to give your reasons on that particular item. On A-2, which is an application timeline, we would ask that you give your reasons because that is a matter that the State Board has to approve in addition to you all.

CHAIRMAN COFFMAN: Thank you. Ms. Perry.

MS. PERRY: Yes. We are trying to set forward a timeline that can stay consistent from year-to-year. That happened in years past but we've moved away from it, and now believe it's a good idea to return to having what I kind of call a generic timeline so that every year applications are due at a certain time and people could routinely plan for that. The timeline you have includes open enrollment applications due the last Tuesday in April, with panel hearings in This would be going forward for applications August. that we get coming up next spring. Okay, next spring; wouldn't impact the ones we just talked about, those hearings. District conversion applications due the last Thursday in August; that would allow district personnel to finalize their applications in the summer, which we understand that

1	they really want that summertime, and to submit
2	before school begins, followed by panel hearings in
3	October. And, finally, renewal applications due the
4	last Thursday in September, with panel hearings in
5	December. We're trying to accelerate those timelines
6	a bit. It is important and we hear you; we've
7	heard State Board members say, "We'd really like to
8	have renewal decisions made earlier." We totally
9	agree. But this appears to be the earliest that we
10	can get applications in where those renewal
11	applicants will have a chance to review and include
12	in their renewal packet an analysis of their most
13	recent student performance data.
14	CHAIRMAN COFFMAN: Any questions or concerns
15	from the panel? I'll accept a motion.
16	DR. JONES: I'll make a motion to approve the
17	charter application timelines.
18	CHAIRMAN COFFMAN: Thank you. Second?
19	DR. SAUNDERS: Second.
20	CHAIRMAN COFFMAN: Dr. Saunders. We have a
21	motion by Dr. Jones and a second by Dr. Saunders.
22	All in favor of the motion?
23	MS. PFEFFER: Can I ask
24	CHAIRMAN COFFMAN: A question, yes.
25	MS. PFEFFER: for clarification?

	25
1	CHAIRMAN COFFMAN: Sure.
2	MS. PFEFFER: Okay. So we're looking at the
3	charter application timelines and that includes the
4	district conversion timeline?
5	MS. PERRY: You have three pages there, and the
6	first one deals with open enrollment.
7	MS. PFEFFER: Okay.
8	MS. PERRY: The second one is your district
9	conversion
10	MS. PFEFFER: And the renewal
11	MS. PERRY: and the renewal is the last one.
12	MS. PFEFFER: So this application timeline would
13	include all of those?
14	MS. PERRY: All three of those.
15	MS. PFEFFER: And this is because we've gotten
16	away you said we've gotten away from having kind
17	of a generic timeline
18	MS. PERRY: Right.
19	MS. PFEFFER: where everybody knows what's
20	due, so that's
21	MS. PERRY: Right.
22	MS. PFEFFER: That's going to
23	MS. PERRY: This will get back to that.
24	MS. PFEFFER: All right. Thank you.
25	CHAIRMAN COFFMAN: Any other questions? All

	26
1	right. Once again, we have a motion by Dr. Jones, a
2	second by Dr. Saunders. Therefore, I'll take a
3	all in favor of the motion?
4	(UNANIMOUS CHORUS OF AYES)
5	CHAIRMAN COFFMAN: Any opposed? The motion
6	passed.
7	And we'll need to go to our online form and
8	record our responses, and then we'll need to make
9	those responses public. Is that right, Ms. Clay?
10	MS. CLAY: That's correct.
11	CHAIRMAN COFFMAN: Okay. So I'll give you a
12	moment to write the answer and then your reason, and
13	then I'll come around the table.
14	DR. GOTCHER: Ms. Coffman, just technical
15	assistance. I'm not able to activate the document;
16	we don't have editing rights. Is that something that
17	we can get assistance on?
18	CHAIRMAN COFFMAN: Ms. Clay, do you want to have
19	him write it down? Do you want to have him say that
20	out-loud and then
21	MS. CLAY: If you'll just when we go around say
22	yours out-loud, we'll record it and then we'll work
23	on that either at a break or before the next meeting.
24	CHAIRMAN COFFMAN: I'm going to call the names
25	in order as to the document and if you'll read as

	27
1	you've written on the document. Dr. Gotcher, your
2	reason was?
3	DR. GOTCHER: Consistently set I can't read
4	it now.
5	CHAIRMAN COFFMAN: Consistent with set
6	deadlines?
7	DR. GOTCHER: Consistent with set guide
8	excuse me set deadlines. Thank you.
9	CHAIRMAN COFFMAN: Thank you. Dr. Jones.
10	DR. JONES: I voted in favor. It establishes
11	reasonable timelines. They looked at many dates and
12	the idea was to provide time for the answer so that
13	charters could work with them once a board decision
14	is made, because many times it's very late. But they
15	worked with with all the dates they looked at this
16	was the best that we could do to provide that time.
17	CHAIRMAN COFFMAN: Mr. Lester.
18	MR. LESTER: I voted for. It provides
19	consistent dates for the applications to be in, to
20	where everyone is on the same page about the dates.
21	CHAIRMAN COFFMAN: Thank you. Ms. Liwo.
22	MS. LIWO: I voted for. I said the timelines
23	were organized there and just led to an effective
24	more effective and more timely process.
25	CHAIRMAN COFFMAN: Ms. Pfeffer.

	20
1	MS. PFEFFER: I voted for; same reasons,
2	consistency and streamlining the process.
3	CHAIRMAN COFFMAN: Mr. Rogers.
4	MR. ROGERS: I voted for; consistent with
5	everybody else, just clarity and consistent
6	timelines.
7	CHAIRMAN COFFMAN: Dr. Saunders.
8	DR. SAUNDERS: I voted for; establish clear
9	direction.
10	CHAIRMAN COFFMAN: Thank you.
11	A-3: REVISIONS TO THE CHARTER AMENDMENT REQUEST FORM
12	CHAIRMAN COFFMAN: With that, we'll move to
13	Action Item 3.
14	MS. PERRY: Yes. This is revisions to the
15	Charter Amendment Request Form. We're asking for a
16	couple of revisions to the Charter Amendment Request
17	Form, which we have really enjoyed using. Alyssa
18	Maddox created this for us; it's a fillable form and
19	it works well. But as always, we're looking for ways
20	to improve and we have realized that there are a
21	couple of things that are needed. One is, if you
22	click to add a new campus or relocate an existing
23	campus, it takes you automatically to the Facilities
24	Utilization Agreement, and we've requested two
25	changes to the Facilities Utilization Agreement. On

that, we have asked that the charter is required to provide the current use of the facility and -- the current use of the facility, as it's at the top there, and also they then are required to assure the facility is ADE compliant or will be ADE -- and I should have said "and IDEA compliant" -- is or will be by the time the charter occupies the facility.

You may be wondering about the current use of -the present use of the facility. It is a law that private schools cannot convert to charter status. it's important for us to always know that someone is not going to then turn around -- for you to know when you're considering an amendment request, if they're going into where a private school is currently serving, is it really taking over a private school or is it going to be completely separate? So that's just important for you to have that information, you and the State Board, when you're considering those It hasn't been an issue; just making sure requests. that we've got all the data that we need to help keep you informed when you consider those actions.

CHAIRMAN COFFMAN: Panel Members, do you have any questions regarding these proposed revisions?

MS. PFEFFER: I have a --

CHAIRMAN COFFMAN: Oh, yeah.

MS. PFEFFER: Okay. Well, and my question -and I'm looking here, so the only additional
documentation would be related to the facilities. Is
that correct?

MS. PERRY: That's correct.

Okay. And this is just -- and it MS. PFEFFER: may be that you or the other panel members can help But I just felt like in these amendment requests me. -- I just felt like I didn't have a lot of information when I looked at that. And I think there are a couple of items that maybe aren't going to be on the agenda for today now, but I just felt like it was very limited information provided. And I know some of the amendment requests were not substantial and based on the fact that they -- some of them were recent I had enough background knowledge, but -- so I'm wondering can we -- when I'm looking at what's required here, the most recent ESEA report and that data, but just -- I think one of these was pretty detailed, and I did appreciate that, where, you know, you could go in and follow-up. But I'm just concerned that I -- that there's not enough information on these amendment requests, and I don't know that I know enough to make suggestions right now.

MS. PERRY: We can bring it back at any time.

We'll be glad to think through that. We're always
looking for ways to improve that and we want to get
you the information that you need. So please, please
-- we could put that perhaps, if the Chair agrees, as
a follow-up item to think about that and come back
and discuss it at a future meeting and hopefully get
some direction.

There is one other change that -- I'm sorry; I'm glad you mentioned that. One of the things that we realized, and we realized it here, is the other big change is on the major form itself we added a section that just had Other. We didn't have a section to check off if they're requesting a waiver. of you who have been on the panel for a year or longer know that one of the most common requests you get for an amendment is a waiver request, and so we just changed that document. It will give you a little more information, Ms. Pfeffer, but probably not still as much as I know you're going to want. But it does at least now go in and it gives them the little chart there where they have to tell the topic of their waiver, what's the statute rule standard to be waived, and their rationale. And where it looks like it's one little row, guess what, they can add

another one and add another one. So that will give you a little more information, but still maybe not exactly what you're wanting. It's a step, I hope, in the direction that you're wanting to go with that addition.

CHAIRMAN COFFMAN: Any other questions or comments?

DR. JONES: Mary, on this Facilities

Utilization, I think that you experienced a situation where a building was not handicapped accessible and there was a move made -- and again, that move, it still was not handicapped accessible. And I think that that might be some information that assists -- this corrects that problem or at least addresses that problem. Correct?

MS. PERRY: Right. It provides assurance that that's going to happen. And you notice that when the applications for charters, the initial applications for charters come forward to you, there's a prompt in there where they can discuss if the building is or is not compliant and to explain what's going to have to occur, what changes will have to occur, what remodeling, and what costs will be incurred to bring the building into compliance. But we have not asked that question at the time of renewal or -- if they

1	come with an amendment request at the time of renewal
2	or if they just come separately to the amendment
3	request process. So this is an attempt to tighten
4	that up and make sure we're getting that information
5	every time a charter goes into a new building.
6	CHAIRMAN COFFMAN: Any additional questions or
7	comments? I'll entertain a motion.
8	MS. PFEFFER: Motion to approve the revisions to
9	the Charter Amendment Request Form.
10	DR. GOTCHER: Second.
11	CHAIRMAN COFFMAN: We have a motion by Ms.
12	Pfeffer and a second from Dr. Gotcher. Any
13	questions? All those in favor signal by "aye."
14	(UNANIMOUS CHORUS OF AYES)
15	CHAIRMAN COFFMAN: Any opposed? Motion passed.
16	If you'll take a moment you don't have to do
17	it on this one? Okay. A reprieve from the reporting
18	form.
19	A-4: REQUEST FOR DISTRICT CONVERSION PUBLIC CHARTER SCHOOL
20	AMENDMENT: BLYTHEVILLE HIGH SCHOOL - A NEW TECH SCHOOL
21	CHAIRMAN COFFMAN: All right. Action Item 4,
22	Ms. Perry, has been withdrawn. Is that correct?
23	MS. PERRY: That is correct.
24	A-5: REQUEST FOR OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
25	AMENDMENT: KIPP DELTA PUBLIC SCHOOLS

1 CHAIRMAN COFFMAN: Okay. Action Item 5 is also withdrawn? 2 MS. PERRY: That is correct. 3 REQUEST FOR DISTRICT CONVERSION PUBLIC CHARTER SCHOOL 4 5 AMENDMENT: LINCOLN HIGH SCHOOL NEW TECH CHAIRMAN COFFMAN: All right. Then I'll ask you 6 7 to move to Action Item 6, Request for a District Conversion Public Charter School Amendment, Lincoln 8 9 High School New Tech. Ms. Perry. 10 MS. PERRY: Lincoln High School New Tech was 11 authorized on January 9, 2011. The charter is approved to serve students in grades 8 through 12 12 with a maximum enrollment of 850. 13 Representatives of the charter are appearing before the panel today to 14 15 request an amendment to the current charter. 16 Specifically, the district is asking to separate from New Tech. You have their entire charter application 17 18 included in the packet and they did a very, very nice job of going through and even doing it in red where 19 they needed to strike-through information that 20 21 specifically related to New Tech and/or indicated 22 things that they were doing with New Tech, and then 23 they indicated changes that were being made, how 24 those same kinds of activities were going to occur if 25 they are not associated now with New Tech.

So this is -- we've seen this kind of amendment 1 request before but it's not very common, and it was 2 very, very pleasant to see how easy it was to look at 3 and see exactly what they wanted to do now. 4 5 have this morning from Lincoln New Tech -- Deon Birks is here, the assistant principal, to begin the 6 7 presentation. 8 CHAIRMAN COFFMAN: Thank you. 9 representatives for Lincoln School District and anyone speaking in opposition will stand and raise 10 11 your right hand. Do you swear or affirm that the testimony you're about to give shall be the truth, 12 the whole truth and nothing but the truth? 13 (ALL WITNESSES ANSWERED AFFIRMATIVELY) 14 15 CHAIRMAN COFFMAN: Thank you. Mr. Birks, state your name and title. 16 MR. BIRKS: All right. My name is Deon Birks; 17 18 I'm the assistant principal and athletic director at 19 Lincoln High School. Do you want her to go ahead? 20 CHAIRMAN COFFMAN: Sure. 21 MR. BIRKS: Okay. 22 MS. BROWN: My name is Tammy Brown; I'm the 23 project lead teacher, data coordinator and classroom 24 math teacher. 25 MR. BIRKS: All right. First of all, I want to

1 apologize for Ms. Mary Ann Spears, our superintendent, and Ms. Jones, our principal; they're 2 both at a TAP conference that was mandatory in South 3 Carolina right now, and so I'm the lucky recipient of 4 this job. And -- but as I said, I'm Deon Birks; I'm 5 the assistant principal. At Lincoln High School 6 7 we're going to continue -- whether we're with New Tech or without, we're going to continue to be a 8 9 project-based school; we're going to continue with those tenants. But in our feelings we felt like 10 we've kind of reached that glass ceiling with them. 11 We've met -- we've built to capacity and we're kind 12 13 of stopped and we're kind of stuck there. What we want to do is we want to move forward using local 14 15 businesses, local resources. We did go to that EYE 16 conference, the Education, Youth and Economy, and it kind of reinforced what we wanted to do anyway. 17 18 basically, we want to use local businesses, universities, technical institutions, basically 19 connecting our kids with careers out there as needed 20 21 to go forward and be successful. We want these 22 organizations to prepare the students for the real 23 world, what they need to say, what they need to do, 24 and all those skills that they need to go into a 25 career, whether that be the workforce, the technical

institute, or to college -- you know, whatever avenue that goes to. Support-wise, we feel like we have our own support staff, especially with TAP. We have many team leaders that will help continue the PBL, the project-based, or the problem-based, however you want to look at it, at looking at data, evaluating teachers, supporting teachers, supporting students, and also community goals. Kind of -- we want to -- like I said, it's that "whole village to raise a child" and we want to go back to that, get our village. I am a product of Lincoln High School, so it's easy for me to talk about that and how it does impact kids' lives.

Members of our leadership team has included -includes many stakeholders. We have a principal;
assistant principal; master teachers, which we have
two full-time that that's all they do is go into
classrooms and support these teachers, support -- I
mean, help them. If they're not up to par on
teaching, we work with them; we make sure that they
get better. We don't just tell them what they need
to get better at; we make sure they get better at it.
Athletic director; classroom teachers; business,
technology, vocational teachers; agriculture
teachers; core course teachers; and we just all work

24

25

as a team with one common vision. We discussed -this was a discussion to do this as a team, not
somebody saying "we're going to do this; you need to
go do it." It was discussed as a team and it's easy
for us to pass, especially in the absence of our
superintendent and principal; I can step in because
we've already discussed this. It's not, you know,
one person telling everybody what to do.

The second thing is, we're -- we want to move toward that career focus and actually take out career and college readiness, because career -- if your career requires college, that's the avenue. don't want to push every kid because every kid is not going to go to college. I mean, there's a lot of jobs out there that aren't being filled because of the technical institutes and some of them just need to have the skills that we're doing, which they're getting some completer skills in our school already. We have EAST labs, we have technology that -- our tech quy is working with kids to teach them how to repair computers and stuff. And we actually have a business that is employing our kids during the day and after they graduate. We had a couple go right to work immediately because they had skills that they're not getting anywhere else. And, again, it's stuff

And the

1 that we want to go and not have that box; we want to -- because every kid doesn't fit inside that box. 2 want to be able to go different directions. 3 teachers, we're always trying to accomplish goals and 4 to get that real world experience that they can help 5 them get jobs while they're going through college. 6 7 We discussed that on the way down here about how kids are getting that job to help pay for their college so 8 they don't have those big bills when they get out of 9 10 college. I'm one of those kids that I got big bills when I got out of college, because I paid my way 11 through college. But we want to help them get jobs 12 13 that pay well enough to pay college and to be able to live on, and that's what we're -- we want to lead, 14 15 you know, towards other apprenticeships, internships. 16 We have kids that right now can go to the university and get scholarships because they know how to stream 17 18 athletic events, graduations, things like that. have a -- I coached many years. I had a kid several 19 years ago that we were at the state tournament and it 20 21 was not working right. I walked up to him and said, "What are you going to do?" And he said -- he 22 23 started rattling off stuff that was way over my head, 24 and he got it up and running and he streamed the 25 state tournament game. And this is the type of kids

2

25

-- and he was a sophomore and he's now producing movies. And he showed me stuff to where he was appearing and disappearing, and it looked like it was really magic and it wasn't; it's technology and stuff. And that's what we're trying to produce, not within a project, but it is a project, if you know what I mean. It's -- we want to stay in that project-based learning but there's some kids that need to move beyond that. And we're partnered with the universities and the University of Arkansas -he's actually going up there probably more than he's coming to our school, but he's also still involved in athletics; he's still involved in streaming our I mean, these guys can repair our Apple We're still one-to-one. I mean, I go to computers. I don't call the tech them when I need something. guy; I call them and they come down to my office and they help me get everything set up and do what we need to do.

And the last point, or another point, is the integrative progressive pathways for student -- for study for careers. I'm going to let Tammy Brown talk a little bit more about this in a minute. But we talk about the food science and culinary business technology, industry certifications, Adobe and

Microsoft; that's the stuff I was talking about while ago. Partnerships with NWAC, Virtual Arkansas NTI for credit, and certifications in the health fields, coming out and go to work for doctors and stuff because they have that certification, something they wouldn't have if we didn't have -- and we want, you know, to use our finances better that way, and even in poultry science. And then the MDC -- and that's the curriculum area that we're kind of going to. Ms. Brown, like I said, she leads us a lot in that, so I'll let her talk a little bit more about that.

MS. BROWN: Again, I'm Tammy Brown and I'm going to be speaking on behalf of like classroom teachers. And we're going to be continuing working with project-based learning and problem-based learning. We have joined MDC, Mathematic Design Cooperative. We're currently going to be working with Unit By Design, continuing that path, working with teachers, creating and implementing projects, and follow-up.

MR. BIRKS: So, basically, like I said, we're just -- we're going to also like use a form of the STEM education where it's integrating science, math, and technology into our projects. So that's what Ms. Brown also does; she helps them, like I said, in implementing and even creating. You know, we've got

I mean,

1 new teachers coming in that's going to be next door; she's going to help them do those projects. 2 because when I first heard of project-based learning 3 in math I was like, "What?" I mean, because it was 4 set-and-get; that's how we got math. And you can't 5 do that with some of the kids anymore and that's --6 7 we want to integrate those and she helps that. know, she was -- I've seen all sides of this. 8 there as coach, teacher; I came up, became athletic 9 10 director; and now that I'm the assistant principal and the athletic director I've seen that. And I love 11 12 this part because I get to -- it's the project-based; 13 I get to include that other side of athletics for these kids. You don't have to be the jock to be in 14 15 athletics; you can do other things. There's a business side of this there and it's a great -- it 16 gets -- I can get excited talking about it because 17 18 the kids are -- I mean, it's great to go to them and say, "I need you to do this." And I've got kids that 19 20 travel all over just to stream the game and they take 21 pride in it in how professionally done it is. 22 that's our main reason for wanting to do this. 23 want to create career pathways that -- not just for 24 kids, but for our kids, that -- it's different in 25 every school district but our school district we feel

1	like we're kind of holding them back because of
2	things that's, you know, connected with New Tech and
3	all that. But we can't just let them go on but we
4	want to continue with New Tech but just as a form, as
5	a guide, but not connected and holding us back from
6	that for our kids. So thank you and if you have any
7	questions
8	CHAIRMAN COFFMAN: Great. Thank you, Mr. Birks,
9	Ms. Brown. Any questions? We'll start with Ms.
10	Pfeffer.
11	MS. PFEFFER: Okay. Now your contract with New
12	Tech has expired?
13	MR. BIRKS: No, ma'am. We have two years left.
14	And we've been in New Tech for three right now and I
15	think we have two more years left.
16	MS. PFEFFER: Oh, okay. All right. Because I'd
17	seen a date in here of June 30, 2015. Okay. So how
18	much is that contract? How much do you pay?
19	MR. BIRKS: We have \$45,000 for this year and
20	\$45,000 next year, so \$90,000 over two years.
21	MS. PFEFFER: Okay. So it sounds like then, if
22	you're not contracting with New Tech, basically
23	you're you just feel like you've built to capacity
24	where you're going to be able to sustain the project-
25	based learning?

1 MR. BIRKS: Yes. It's not so, yeah, sustained, but we also feel like we could use -- I mean, if you 2 get down in the financial side of it --3 MS. PFEFFER: 4 Yes. MR. BIRKS: If you get to that, we could use 5 that to better prepare our teachers, more pd, more 6 7 stuff that they can go to that can help them in these 8 areas that we're going to send them down. Starting 9 with 8th graders, we'll start career pathways where 10 they start thinking about their future, what they're 11 going to do in 10 years, instead of when they get to a senior, "What are you going to do?" I'm not sure 12 where we can send them for that. We can get them 13 more pd for our kids; you know, not just the 14 15 teachers, but the kids need to hear it from other --16 you know -- it's kind of like talking to mom. 17 MS. PFEFFER: Okay. 18 MR. BIRKS: If you hear it from mom, you don't 19 -- it's not as truthful; if you hear it from somebody 20 else -- and that's what it is. 21 MS. BROWN: And we're going to be setting up --22 we want to start setting up internships with 23 community businesses, and part of the budget would be 24 transportation --25 MR. BIRKS: Yes.

MS. BROWN: -- to get them to and from these opportunities.

MS. PFEFFER: Okay. So that -- and that was kind of leading up to my next question. You know, those finances then would be reallocated, and you talk about here maybe we'll partner with area businesses. What work has been done so far to, you know, have -- do you already have businesses onboard? Is this something that you would need this school year to implement? I'm just trying to get my mind around -- you know -- I understand what you're saying; I understand the concept. I'm just wondering, you know, how do we know for sure that this type of transition --

MR. BIRKS: Well, the local business, I talked to you about putting them to work. But they have actually a little small office right there in downtown Lincoln, but that's mostly the adults that are employed within our community. But they also have a little area that's a little drive. I mean, we're already onboard. We -- right now our technology director, he actually gets the school van and drives them down there on his free time just so he can do this, just so these kids can do it.

Because we have staff members that are onboard and

that are onboard for kids, but, you know, that can only go so far, especially when you're trying to raise a family. You know, my wife would say, "Wait, where's that money coming from?"

MS. PFEFFER: Right.

MR. BIRKS: And so this money could be -- so, yes, we do have -- we already have that member onboard. We have like MTI; we're trying to -- we have kids that I personally -- they couldn't drive themselves, so I had to -- I got in my personal vehicle and drove them, which that might even be a taboo thing, but I drove them so they could have that opportunity to go get their nursing. And actually one young lady graduated and went to work because of that.

MS. PFEFFER: So I guess just to help me understand, what would this partnership then really look like? What do you see this looking like in terms of basically replacing the support that you're getting?

MR. BIRKS: It would be actually bringing -either bringing those people in to -- I mean, when we
went to that -- there's a broad band that this can
look like, at that pd that I went to. It showed -- I
mean, we talked to many business leaders and stuff

25

right there that were like, "We want to come out; we want to get your kids up there and job shadow us," because it was talking about kids -- you know -- one we talked to brought mom to the interview, when he's 26 years old. Well, they're not going to hire that person because they can't -- well, and they want to get those people out there so they do know how to do it so they don't have to ask mom. So we're going to actually get kids into businesses to either job shadow or that internship, apprenticeship, but it takes money to get kids there, or that partnership of what's this going to look like, curriculum development, and sending our teachers to be able to also know what that's going to look like. And it's just going to be further development and it's going to be -- we're going to kind of develop our own curriculum on some of it. Some of it is going to be quided with different conferences. But we're going to develop our own and that's the reason we're kind of wanting to get away from New Tech, the box, and say, "We're going to use it, but we don't want to just be here; we want to be here and open it up to the world -- I mean, the kids' eyes to the world. I always tell the kids, I want -- I'm from Lincoln and I live in Lincoln because of my choice, not

25

because I have no other choice. And if they don't know those other choices, they'll be in Lincoln because they have no other choice. And we want them to go out there because you hear it so often, "I can't; I can't afford that; I'm not that person." Or, "You saw my family," or "I'm from Lincoln." We can change that a lot. I mean, there's another product of Lincoln sitting here that's a superintendent now. It can be done. I'm assistant principal. I was -- and as I told the group before, I didn't know I was poor, but I'm an assistant principal at the old high school now. But not all kids think that way. We've got to get them thinking that way and that's what we want to do. MS. PFEFFER: Okay. So in short, the finance -would the finances be reallocated for professional development for teachers to encourage more projectbased learning and also to support apprenticeships, community partnerships. MR. BIRKS: Yes, ma'am. MS. PFEFFER: Is that accurate? MR. BIRKS: Yes, ma'am.

DR. SAUNDERS: Yes.

CHAIRMAN COFFMAN: Dr. Saunders, any questions?

first at your application, the first part is to drop

Okay. So if I'm looking

	49
1	the name New Tech. Correct?
2	MR. BIRKS: Yes, sir.
3	DR. SAUNDERS: And I think one of the big ideas
4	in looking at this is looking at the original
5	application and that it would fall under the idea
6	that you would be partnering with New Tech and the
7	services they provided. Correct?
8	MR. BIRKS: Yes, sir.
9	DR. SAUNDERS: And so looking at some of the
10	services that were originally listed on what New Tech
11	provided and I want to give you the opportunity
12	just to talk to me a little bit about this
13	MR. BIRKS: Okay.
14	DR. SAUNDERS: It would be networking with other
15	schools; I believe I'm trying to look now. I
16	thought it was 80-something schools they're
17	partnering with. And the networking, would that no
18	longer be available?
19	MR. BIRKS: I don't think that that they had
20	a I will tell you as far as the New Tech, we've
21	been in it three years. And the other day, their
22	help was there and I had to ask who it was. We
23	hadn't had that's been the challenging point with
24	that. It's a website, basically, that you can go to.
25	They've got this great thing called Google now that I

25

get the same amount of information from. I mean, it really is. And I'm not -- because New Tech has done a lot for us and it helped us get that base set, but it isn't the end-all of all help, of all the I network -- I mean, I networked at that networking. pd the other day, just -- I mean, I got -- I've gotten connected with people that New Tech would've never connected me with, I mean, because it was in the real world. And it wasn't on the screen, it wasn't anything -- so we're still going to have networking; it's just maybe not through New Tech. mean, we can -- you know -- and that's a big thing is -- especially when I was first getting in administration, it was about networking; you get out and you get different ideas. I do that every time I go to pd; "Hey, what do you guys do on this?" I had this happen." And that's going to open not just administrators up to that, but our teachers to go to more conferences and stuff during the summer, during whatever, to get those new ideas and to open up networking. We talked about it's going to free us back up to go to some of these things with -- that we can't afford now because we're in New Tech and we still have those -- pick-up the phone -- I mean, I had never picked up the phone and called New Tech

about some things; I picked up the phone many times and called different assistant principals and said, "How did you handle this," or "Hey, we're getting ready to do this with the" -- you know -- "this project; how did you -- how do you guys do this?" The networking is still there; it's just not going to be through New Tech.

DR. SAUNDERS: So do you think there was a high level of networking going on with the New Tech schools and yourself?

MR. BIRKS: No. Me personally, I'd say never. But with a different -- yeah.

MS. BROWN: I've been at Lincoln through the implementation of New Tech. New Tech was an answer to a prayer when we were introducing project-based learning and had no idea what it was and how it was supposed to look. New Tech offered a tremendous library of projects that we could go through. In the beginning, we had a lot of training to help us create projects, implement projects, take a project and make it your own. I would say in the past couple years we've owned it; it's become our -- like I have used New Tech less and less because now I know what to do with it and my resources are way beyond New Tech. And as far as networking, like Mr. Birks said, I have

	52
1	met through different avenues many teachers, both in
2	the state of Arkansas and other states, doing the
3	same thing I'm doing and make that connection. And
4	it's as simple as an email and sharing that way. I
5	mean, it's
6	DR. SAUNDERS: Okay.
7	MS. BROWN: The network is still there; we just
8	are now creating our own.
9	DR. SAUNDERS: Can I ask a few more?
10	CHAIRMAN COFFMAN: Sure.
11	DR. SAUNDERS: I also noticed in the application
12	there was one specific thing, a portal on managing
13	student workload?
14	MR. BIRKS: Yes. We still and I'll let Ms.
15	Brown speak a little bit more, but we still do we
16	have different ones that's I think it's matter
17	of fact, I'm not even going to speak; I'll turn
18	because it is different over on the other side,
19	because I manage students in a different manner.
20	MS. BROWN: I'll be honest; when we okay.
21	And there's been a lot of misconception, especially
22	in our district, about New Tech and the student
23	portal called Echo. And we let Echo go last year and
24	I was kind of sad about it because I actually liked
25	the portal. Well, I liked it a lot because it was

like one-stop shopping; it was the grade book, it was my students could go there and get their assignments.

I'm assuming that's what we're talking about. Right?

DR. SAUNDERS: Yes.

MS. BROWN: Okay. And so I was really kind of apprehensive when we let that go but it was very expensive. Since then, because I didn't have it anymore I was kind of forced to go out there and see what was available that was actually free. actually used Schoology all last year, and I love it. I love it because, you know, we're using the new state grade book system, so I kind of was -- I had to go that direction anyway. But there's also other --Edmodo, there's -- and we're also looking at Google Classroom right now for a lot of our teachers. know, because, again, one portal doesn't actually fit everybody and so we're trying to make different opportunities, different suggestions for our But there is quite a few out there and the teachers. ones that we've been looking at have met our needs.

DR. SAUNDERS: Okay.

MR. BIRKS: Yeah. And the great thing about that is most of them are free. That's nice when you're looking at budget items.

DR. SAUNDERS: Okay. On a broader question,

1	what's with your current plan and your transition,
2	if I should say, on what you plan to do, what would
3	you be doing different that would not be available
4	without the charter?
5	MS. BROWN: Without the New Tech?
6	MR. BIRKS: Without the New Tech, we're still
7	DR. SAUNDERS: Yes.
8	MR. BIRKS: Say that again. Without New Tech or
9	without the
10	DR. SAUNDERS: Right. If this went forward, if
11	your amendment was approved what would you be doing
12	
13	MR. BIRKS: Okay. The amendment to the charter,
14	okay.
15	DR. SAUNDERS: that would be in need of a
16	charter?
17	MR. BIRKS: Well, we're still going to do the
18	PDL; we're going to combine some classes, offer some
19	classes that they get credit for within a class. I
20	think right now we have communications offered in
21	some of our English classes and then we still have
22	classes where they it's just like block; they sit
23	in there and they get two subjects but they stay in
24	there just a little longer. It's stuff that's kind
25	of out of the ordinary of a regular classroom day.

We still want to have that time to where we can share
kids; even though they're not in that class period,
we share them to where they can work to get
collaboratively with another student, another teacher
that's not in that classroom, and have that freedom,
but yet like I said, we're still staying with all
those tenants but we want to go down like right
now we're going to do a that 10-year program I
talked about; we're going to have it in the hallways
where they can "Well, I'm in English class but I'm
doing a project on" you know "I'm going to be a
farmer, I'm going to go to ag-business and get a
farmer; I'm going to talk to the Ag. Department and
we're going to work collaboratively with that." And
they can work those two teachers can work together
and give them two grades for doing that same work, as
far as because it can go more in-depth and stuff.
I know from my standpoint, as far as a classroom
teacher, I'll let I mean, what that'll mean as far
as I mean, because, you know, administrators, we
always sometimes see it from our standpoint. I don't
know I mean, is it going to be a different
standpoint from you?
MS. BROWN: No, nothing is going to change.
MR. BIRKS: So she's still doing the same

projects and stuff, and we're still wanting to do 1 these where we can offer that block type schedule 2 within that where -- and what that does is, because 3 of the number of kids in there it works itself out to 4 where we're not out of compliance with, "Well, she's 5 got 30 kids in there, 33 kids in there this period, 6 7 but next period" -- you know -- it kind of works itself out because of how we need certain groups of 8 kids to be together maybe because of their role that 9 10 they chose. They're going to be able to choose every It might be the same one, it might be --11 nine weeks. 12 you know -- like I said, as an 8th grader I couldn't 13 have told you; as a junior I couldn't have told you what I was going to do, and it hurt me a little bit 14 15 because I didn't go down those avenues. And so we still want that because, number one, like I said, I 16 want our kids to have every advantage they can 17 18 because they need it. They need to get out of there and change some of their backgrounds. So it does 19 help us; it gives us a little bit of freedom to 20 21 schedule; it gives us some freedom to help these kids 22 go down those avenues as far as -- you know -- and I 23 think it's the JAG program that gives us a little 24 more freedom on scheduling there, and, like I said, 25 then the combination of classrooms.

1 DR. SAUNDERS: One more, please. Okay. becoming a charter, 2011 was when it was authorized. 2 What do you feel has been the most beneficial waiver 3 of flexibility that you've been provided with that's 4 benefitted the students? 5 MS. BROWN: The concurrent communications credit 6 7 that they're able to get in their core courses. You know, with project-based learning we have that 8 9 communication piece and with the way our curriculum 10 works they more than meet the requirements for the communication within that. So we don't have to offer 11 a separate communications course for credit. 12 then also the classroom numbers I think on the 13 scheduling side and the administration side. 14 15 MR. BIRKS: Yeah. The class -- the scheduling, it does help on that, I mean, and there's a lot of 16 17 data out there. I know you can get data to support 18 about anything, but it does support that the size of it doesn't actually affect these older kids. 19 20 MS. BROWN: And --21 MR. BIRKS: But it does -- you know -- it gives 22 you that lead-way but you can also make smaller 23 classes for those kids that don't need those big 24 classes and it does help us as far as --

MS. BROWN: Well, and we've got integration.

25

MR. BIRKS: Yeah.

MS. BROWN: We are still able to -- we have a circumstance where we offer a physics/pre-cal trig class where they get credit for both courses, but it's really just one class period having both standards being taught at the same time.

MR. BIRKS: I guess there's two things, you know, that you could say. We aren't going to beat a dead horse, so we're getting that communication -- or we're going to -- you know -- two birds, one stone. Why waste money on something that we can just -- we're being good stewards with our money. If we can get the concurrent classes and not have to hire a teacher, I mean, that teacher's salary could be put to a big use, which we are, in other areas and giving our kids more opportunities.

DR. SAUNDERS: Thank you.

MR. BIRKS: You're welcome.

CHAIRMAN COFFMAN: Dr. Gotcher.

DR. GOTCHER: Yes, ma'am. First of all, you had mentioned that the -- according to the amendment request, that the contract does expire June 30, 2015.

Ms. Perry, do we need to -- since it's not going to expire do we need to make a -- just a -- for correction or for accuracy to change that at another

1	time?
2	MR. BIRKS: Well, I'm under the impression
3	like I said, this is that was I've read through
4	it but that wasn't my main point of concern. They
5	said I was told we had two more years of it. And
6	I've been here since the implementation with two
7	different roles, so I wasn't involved as far as
8	administration side of it, so
9	MS. PERRY: You could approve that on the
10	condition that we clarify that and get it accurate in
11	the amendment request document.
12	DR. GOTCHER: Good. Okay.
13	MS. PERRY: We could work to make that happen.
14	Kendra, does that meet with your approval too?
15	MS. CLAY: Yes.
16	DR. GOTCHER: I guess my question is, if you are
17	still under contract would it be would you be able
18	to cease your contractual obligation if this
19	statement was not accurate?
20	MR. BIRKS: I do believe so. I mean, again, Ms.
21	Spears they had explained it to me is that if we
22	are approved that we can move forward without that.
23	Again, I wasn't I'll be honest; I wasn't quite
24	ready for that one
25	DR. GOTCHER: No, no, that's okay.

	80
1	MR. BIRKS: because I thought we were still
2	in it for two years
3	DR. GOTCHER: Sure.
4	MR. BIRKS: and then after it was approved
5	that we're going to move forward without that and use
6	the money other places.
7	DR. GOTCHER: And that's a side note; so that we
8	can look at that later
9	MR. BIRKS: Okay.
10	DR. GOTCHER: and we can if we do approve
11	it, we can do that conditionally?
12	MR. BIRKS: Absolutely.
13	DR. GOTCHER: I guess my concern is I know
14	just a little bit about New Tech. You mentioned in
15	the original application about the school success
16	rubric that New Tech has. Were you required to
17	complete a rubric and evaluate the effectiveness of
18	New Tech?
19	MS. BROWN: I will be honest that the past year,
20	the affiliation the work with New Tech had moved
21	more to an administrative level.
22	DR. GOTCHER: I understand.
23	CHAIRMAN COFFMAN: Ms. Brown, will you step
24	closer to the microphone?
25	MS. BROWN: Sorry.

1	MR. BIRKS: I'm sorry; I'll get out of your way.
2	MS. BROWN: Mr. Birks is kind of a podium hog.
3	DR. GOTCHER: Sure. And as an administrator,
4	you know, we always want to evaluate the
5	effectiveness of our programs. And so if there was a
6	school success rubric that was required, and if that
7	piece is no longer there, I just
8	MS. BROWN: I can okay.
9	DR. GOTCHER: Sure.
10	MS. BROWN: I did sit in at the end of the
11	school year on a leadership meeting because being
12	part of the leadership team yes, I'm sorry; we did
13	go through the success rubric and we were looking at
14	what we were doing and how it affected the students
15	we had. And it was something we were actually
16	working with the TAP side of our school. We were
17	making those mesh together, and it actually did work
18	well with the TAP. So we would be continuing that
19	school success rubric on the TAP side.
20	DR. GOTCHER: Very good. I think that's
21	important that the
22	MS. BROWN: Yes.
23	DR. GOTCHER: evaluation piece is in place.
24	MS. BROWN: Yes. No, it will be staying because
25	we are still we are continuing to be a TAP school

and so that does follow along.

25

DR. GOTCHER: Good.

MR. BIRKS: Yes. We evaluate our success and what we need to do and where we need to go. I know as an administrative team, aside from the leadership team, we -- what do we need to do different, what do we need -- and that's -- that is something we go through. Maybe we don't get my hands literally on the rubric, but we sit down and she has the paper, Ms. Jones does, and reads them to us and we discuss We don't just say A, B, whatever. We discuss them. what's good, what's bad, I mean, and we are constantly evaluating. You know, the state requires, you know, that -- the TESS model on this. We still evaluate our teachers three times. And I'll tell you, as our coaches, they get evaluated four times and it counts in on their TAP score because I evaluate them as a coach also with the same tenants as a classroom teacher. They're expected to go out there and have objectives and stuff. So it's not just -- we evaluate just about everything in there. I mean, they evaluate us as administrators, how we can help them better, how we can be better support. So we're constantly getting better. It's not about "I gotcha." We want the best teachers in the state

1	of Arkansas, and that's what we aim for.
2	DR. GOTCHER: Great. I think that comforts me
3	to know that there's still an evaluation piece in
4	there if your detachment from New Tech does go
5	forward, so and that answers my second question.
6	Thank you, Madam Chair.
7	CHAIRMAN COFFMAN: Ms. Liwo, do you have any
8	questions?
9	MS. LIWO: No, I don't.
10	CHAIRMAN COFFMAN: Mr. Lester?
11	MR. LESTER: No.
12	CHAIRMAN COFFMAN: Dr. Jones?
13	DR. JONES: Just a couple. Can you confirm for
14	me, you will continue with your master teachers
15	because of TAP. Is that correct?
16	MR. BIRKS: Absolutely.
17	DR. JONES: Okay. And then on your project-
18	based learning, when we look at that I thought Echo
19	was one of the biggest strengths of the New Tech
20	network. And so you had that library. Was the
21	library of all the project-based learning on Echo?
22	And how do you continue with your project-based
23	learning without that library of resources?
24	MS. BROWN: Well, when we started with New Tech
25	we were kind of pioneers in the field and there

that was all there was out there. That was really the biggest example we had of projects and rubrics and support. Today, our -- well, I will tell you --

MR. BIRKS: Last year.

MS. BROWN: Yes, last year -- sorry -- school year -- teacher mushy-brain -- I will tell you the whole year last year I did not even consult the library in Echo when we had it, the last time we had it, just because I was confident in what I was doing and I just was going different directions, finding projects in different areas. And the resources now are tremendous because more and more schools are going that direction; there's more out there.

DR. JONES: Okay. Would you say that that amount of project-based teaching you're doing has decreased or have you just -- are you in a place where -- and that's not a good statement or a bad statement.

MS. BROWN: Well, I'm a math teacher and so really our first year with New Tech we were wall-to-wall project-based learning, even in the math class we were doing projects. And they discovered that projects in a math class were not a good fit and we went more towards the problem-based learning. I can tell you that my students in English and social

Ι

studies are still doing an equal amount of projects in their classes because I have been called in to help with creating some of those projects and implementing. But in the math classroom we lend more towards a problem-based scenario and just -- we have -- now that -- we have training, we know how to create the problems, where to look for problems. So, no, that hasn't changed. We are still doing as much as we ever did. Is this your first year with MDC? DR. JONES: MS. BROWN: Yes. DR. JONES: Okay. What does that bring to the table? It really --The problem-solving. MS. BROWN: it opened -- like where I lost the Echo library, MDC opened a whole new world for me and that's one of my bigger resources now. DR. JONES: Okay. Thank you. I would like to add, the one thing MR. BIRKS:

about that is the classes that you might not see as much projects in, it wasn't -- that first few years we had a lot of quantity; we get a lot of quality now. It's different. I was a PE teacher at one point. Trying to do a project sometimes in there,

when you don't know what it is, it was difficult.

did one because that's -- I did what I was told. It wasn't very good, but by the time we all move out of it now they're good projects, not just projects to say we're doing them, but projects to accomplish something. That was the biggest thing I see now is it's not just quantity, but quality.

DR. JONES: I can appreciate that.

MR. BIRKS: It's getting to be quality.

CHAIRMAN COFFMAN: Mr. Rogers, any questions?

MR. ROGERS: No.

CHAIRMAN COFFMAN: I have a couple of questions for you. You talked about networking, and so I'm really interested in the mechanisms that you have within this state to network.

MR. BIRKS: My main one is the telephone. I mean, that's -- honestly, when I go to AAEA -- I can remember -- most of my networking is done around the dinner table. You know, it's back to the old school; you sit down and you go face-to-face, and say, "What are you doing?" I mean, and I always refer to it because I'm an old coach; you see it at all coaching clinics, coaches sharing, coaches stealing. They sit down and draw out their plays and talk. It's the same thing in administration; you talk to them and say, "Hey, what are you doing that's successful?" I

going through the beginning administrator -- we sat at a table probably for four hours. They were probably wishing we were getting out of there so they could get more people in, paying. But we sat there and talked with some of the principals from Warren, and, "What are you doing? What's successful there?" And, you know, it's kind of pick-and-choose. Well, that whole thing wouldn't fit, but we could use this aspect because that's really neat. And it's going back to sending these guys to conference and sitting down and, "Hey, my name is Deon Birks from Lincoln High School; where are you from?" "Hey, you know, our kids are kind of -- what do you do?" And, you know, we're a big technology school, but at the same time -- I heard it explained that it's the new suntan line for kids nowadays and it's got two arms right here in front of that text. They forget this faceto-face and the socialization, and we're going to put our teachers back because you can't teach kids unless you teach the teachers. And we're getting a lot of young teachers that are so technology driven. still love technology and it's an important thing and you've got to, but we forgot about the part of "I've got to talk to you." And that's the thing that the

local -- it comes back to the local businesses and 1 stuff are saying our kids are lacking, you know, when 2 they bring mom to -- they're 26 and they bring mom to 3 sit in in the interview with them. And I've actually 4 had that happen and you're sitting there going, 5 "You're wanting to be a head coach and you can't even 6 7 -- or a teacher, and you can't even talk to me without your mom here?" We want to get them back to 8 that, "Hey, how do you visit with people?" "Well, 9 they're older than me." "Well, they're human; talk 10 to them." And that's our networking. I know that we 11 sit around as a staff, "Hey, I went to this" -- you 12 13 know -- everybody can't go to a conference, but we sent these five; "What did you learn there?" "Hey, 14 15 what got you excited about that?" And some of them 16 will say, "I don't really like that," or, you know, but it's an opportunity just to get back to the old-17 18 fashion face-to-face talking. That's a huge point. I mean, a conference -- like I said, I learned more 19 last year at that one AAEA conference around dinner 20 21 tables and stuff than I ever learned at some of the conferences. You know, when we went to that EYE 22 23 conference, sitting and talking to those business 24 leaders, it was stuff that I believed but you hear it 25 from them and it's like, "Yeah, we've got to get back

to this because those kids -- those people are going to work." Some of our kids need to go to work there to make that living. So like I said, it's back to the face-to-face -- yes, we still have the networking. I mean, like I said, honestly, that's the most I use. Now whether it be as AD or whether it be as assistant principal or just in education, it's what really worked. It's kind of like coming out of college. They really don't prepare you all the time for what really happens in the classroom; it's just what was your experience and how did you handle it. That's a huge thing for us now, I mean, like I said, from an administrator's side.

CHAIRMAN COFFMAN: Thank you. Ms. Brown.

MS. BROWN: A lot of my networking comes from when I -- like I attended the Arkansas Leadership Academy two years. I was a participant one year and then I was a table coach the second year. And I had a lot of networking going on where to this day I still communicate with the people I met there through social media and we have a lot of discussions happening in the venue and emails and --

CHAIRMAN COFFMAN: Thank you. My final question is: as you move more away from a box model to your customized model that fits the needs of the students

22

23

24

25

in your community, what is your plan to celebrate
your success and to share your information with other
schools? So what's your plan to be transparent and
mentor?

MR. BIRKS: Well, we actually already had -just, again, through that networking that I have. Ι knew a guy that knew a guy; he was working with actually Mayflower superintendent and principal and they came and visited our school and we opened our I mean, if our parents want to see what we're doing, we're very transparent. It's a big thing. And I speak about finances, about your classroom If you're very transparent on things, people rules. -- a lot of them won't question it as much, but they will want to be part of it. And we invite schools to We've had neighboring schools -- we've had schools from across the state come in. And, again, when we network this is what we accomplish. scores went up, you know, it's that -- it's apparent in me; I brag about it. I want them to know what my kids and my teachers and my coaches are accomplishing. I know me as assistant principal and athletic director, when our coaches are in the classroom teaching, I mean, I brag about that best classroom teacher in there that happens to be a

coach, because of what the names they get, "a coach," 1 you know. But we want to brag about that because 2 it's the expectations and the non-negotiables that we 3 go out there. We put that out there. We celebrate 4 them in the paper. We celebrate them in our report 5 to the public. We celebrate them in every board 6 7 meeting. We have a celebration of what happened this month that we need to let the public know about and 8 9 then, believe it or not, people pick up the paper or 10 look at it on-line and then we get a phone call. mean, I got three phone calls over the last month 11 12 just talking about, "Hey, we heard you're doing this. 13 Well, how do you do it?" And something that we were doing has already bled over to two across the state 14 15 line, people I knew, and it's bled out into other 16 schools. And I had an hour-long conversation yesterday with a man that's helping other schools and 17 18 he was talking to me about doing work at Auburn University with the football team and how we're 19 already doing some of the things they want to do. 20 21 And that was -- I mean, that's a big thing for us, 22 because Auburn University wanting to do what Lincoln 23 High School wants to do, that's huge. To me, that 24 tells me we're going in the right direction, you 25 know, when the universities are wanting to do what a

	72
1	public school is doing. And so if we're on that
2	pathway we feel like that's the right pathway, you
3	know, because it's about kids. That's the main
4	thing.
5	CHAIRMAN COFFMAN: Thank you. Ms. Perry.
6	MS. PERRY: Resources abound. Alexandra Boyd
7	has been in contact via text with Courtney Jones, the
8	principal, and the New Tech contract has expired.
9	MR. BIRKS: Well, there you go.
10	CHAIRMAN COFFMAN: All right. Is there anyone
11	to speak in opposition, Ms. Perry?
12	MS. PERRY: No.
13	CHAIRMAN COFFMAN: Are there any other
14	questions? Ms. Pfeffer.
15	MS. PFEFFER: When is Lincoln's renewal, charter
16	renewal?
17	MS. PERRY: They will come up for renewal in
18	2016, next spring.
19	MS. PFEFFER: 2016.
20	MS. PERRY: Next spring.
21	MS. PFEFFER: And with our new timeline so
22	the all right. I guess what I'm thinking what
23	I'm thinking you know, I guess I'm a little bit
24	concerned about the lack of support that you felt
25	you've gotten from New Tech. And I understand not

wanting to renew that contract. And with their charter renewal coming up in a year basically what we would be doing is allowing them just to withdraw from New Tech and really pursue this pathway towards community partnerships, working with businesses. Is that correct?

MR. BIRKS: Yes. It's a careers pathway, which is businesses, whatever that pathway is. Yes.

MS. PFEFFER: Here's my concern with -- I think you have the concept but I don't think you have the plan yet developed for what those partnerships and things would look like. So in my mind, if we approve this amendment basically we would be giving you time over the next year to really utilize the resources, to further pd, and to develop what that's going to look like. Because I'm thinking, when you come back -- you know -- if you come back for renewal, I would be very hesitant to approve the renewal without that very clearly thought through, planned out. I just -- I like to see -- I like to see things, I like to see details --

MR. BIRKS: Yes, ma'am.

MS. PFEFFER: -- I like to see documentation.

So if we approve this, I want it -- I'm wanting it to be something that by the end of the year, had your

	/4
1	renewal not be coming up I would've, you know, said I
2	would want to see at the end of the year a very clear
3	plan of which businesses with which businesses are
4	you partnering, how are you developing those
5	internships, what does it look like for a student
6	during their school day. So those are all things
7	that are going through my mind right now.
8	MR. BIRKS: Yes, ma'am. I would tell you that
9	Ms. Jones could probably be a little bit more you
10	know you put together a leadership team of people
11	that are stronger in certain areas; all that detail
12	would probably be Ms. Jones. And I would tell you,
13	like I said, I don't know it all, but that's Ms.
14	Jones does. So I do the other side of that, making
15	sure you know different areas. So she may have
16	more of that, but I do understand your concern. Yes.
17	CHAIRMAN COFFMAN: You can certainly give her a
18	heads-up of the questions to come.
19	MR. BIRKS: Absolutely.
20	CHAIRMAN COFFMAN: Any other questions or
21	comments? I'll entertain a motion.
22	DR. SAUNDER: I'd like to make a motion to
23	approve the amendment.
24	CHAIRMAN COFFMAN: Second?
25	DR. JONES: I'll second.

CHAIRMAN COFFMAN: Dr. Saunders has made a motion, Dr. Jones has seconded the motion. Any questions? Then I'll accept a motion -- accept a vote. All those in favor?

## (UNANIMOUS CHORUS OF AYES)

CHAIRMAN COFFMAN: Any opposed? If you'll take a moment to write your reasons, then we'll go around the table for the record. Dr. Gotcher, if you'll give us your rationale.

DR. GOTCHER: Sure. Through their testimony I was convinced that they have achieved sustainability without the need for New Tech. Furthermore, they demonstrated that effective evaluation of their program will remain and continue for improved growth.

CHAIRMAN COFFMAN: Thank you. Dr. Jones.

DR. JONES: Very similar to what Dr. Gotcher said. And I feel strong that you have the network resources in northwest Arkansas with the P21 Taskforce, through ERZ's, and with the other surrounding districts. And I think you have to live up to the challenge; y'all don't have a choice. And I believe being somewhat isolated you need that transportation money to get those kids into careers. So I can appreciate that you stayed with it long enough to own it and I feel like y'all do own the

change. We just want -- I can appreciate Ms.

Pfeffer's concerns about seeing the program and would

like to see that at renewal time.

CHAIRMAN COFFMAN: Mr. Lester.

MR. LESTER: After listening to the testimony, I believe that Lincoln has built the capacity in their teachers and the administration to create a strategic plan to continue without New Tech, to address the focus areas in their original application, that being project-based learning, career readiness and smart use of technology.

CHAIRMAN COFFMAN: Thank you. Ms. Liwo.

MS. LIWO: I, of course, voted for. And my reasoning is the amendment would provide for broader community involvement with additional benefits for students and teachers -- for example, job shadowing, internships, professional development, increased networking opportunities which may lead to post-graduation employment offers, may help students consider their career paths earlier on, and perhaps allow the students to obtain a job that will help them pay for college.

CHAIRMAN COFFMAN: Thank you. Ms. Pfeffer.

MS. PFEFFER: Yes. I support -- I believe that
-- I do believe listening -- after listening that the

capacity has been built. I think that the teachers have a strong understanding and that -- and again, my only suggestion would be to really -- excuse me -- make sure that there is a clear plan for what the community partnerships would look like, if that's going to be needed in the future for a charter.

CHAIRMAN COFFMAN: Thank you. Mr. Rogers.

MR. ROGERS: I agree with most of what was said. I think that Lincoln has outgrown the usefulness of New Tech for them and they've done research on other project-based learning tools and are ready to use that in their community, use of their community partners.

CHAIRMAN COFFMAN: Thank you. Dr. Saunders.

DR. SAUNDERS: Yes. I was in favor. And I think it allows the flexibility to the district that they did not have under the New Tech model.

CHAIRMAN COFFMAN: All right. New Tech will be taken off your title, as requested in your amendment, and we wish Lincoln High School the best. You certainly have had an advantage today to hear the questions that you'll face in a year. So we wish you the best and we expect to hear lots of good things and we look forward to the transparency. You know, you need to tell your -- you're the best ones to tell

	, •
1	your own story, so we really invite you to get that
2	out on your website, in your newsletters, to share it
3	with us so that we can share it with others, and be
4	an example to other school districts. So, thank you
5	for being here today.
6	Ms. Perry, are you okay with taking a break?
7	MS. PERRY: Yes.
8	CHAIRMAN COFFMAN: So would you like to take a
9	this the pd person in me. Would you like to take
10	a 13-minute break?
11	MS. PERRY: That would be perfect.
12	CHAIRMAN COFFMAN: All right.
13	(BREAK: 10:02-10:15 A.M.)
14	A-7: REQUEST FOR OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
15	AMENDMENT: OZARK MONTESSORI ACADEMY
16	CHAIRMAN COFFMAN: All right. We'll bring our
17	meeting back to order. Ms. Perry, we're ready for
18	Action Item 7, a Request for Open-Enrollment Public
19	School Charter [sic] Amendment from Ozark Montessori
20	Academy.
21	MS. PERRY: Yes. This is Ozark Montessori
22	Academy, who you have heard from previously in the
23	reports today. And they're coming forward today to
24	ask you about the plan to more rapidly increase their
25	enrollment than what they projected in their original

grant application. And they're also dealing with the location of their charter today. So Ozark

Montessori, as I said, was approved to begin serving students this year. They're approved to serve students in grade K-6 with a maximum enrollment in year-one of 120 and growing to K-8. So K-6 this first year, 120 this first year, growing to K-8 and 280 by 1920 [sic] school year. That's what they were approved for. They're coming forward today; as already mentioned, they want to ask you to let them grow to 140 in year-one. And then there is an issue about location that Dr. Silano and her folks will talk to you about. Dr. Silano is here to begin speaking on this issue.

CHAIRMAN COFFMAN: Okay. Let me swear everyone in. So if you are from the Ozark Montessori Academy, if you will please stand. If there is anyone here from Springdale School District or anyone in opposition, if you'll please stand and raise your right hand. Do you swear or affirm that the testimony you are about to give shall be the truth, the whole truth and nothing but the truth?

(ALL WITNESSES ANSWERED AFFIRMATIVELY)

CHAIRMAN COFFMAN: All right. Thank you. Dr. Silano, if you'll begin. You have 20 minutes.

1 DR. SILANO: All right. Good morning, and I'm Christi Silano with Ozark Montessori Academy. 2 first I'd like to address the location change. 3 for those who are new to the panel, just by way of an 4 5 update, when we came in February we asked for a change of address to a facility which is currently 6 7 being remodeled for our use, custom remodeled, a wonderful 45,000 square foot facility with cafeteria, 8 9 gymnasium, auditorium, just our dream location right 10 in downtown Springdale. And as it would happen, or as we predicted might happen, there have been some 11 hold-ups with construction. And so when we came 12 13 before we told you that in that event we would open at the Jones Center, and so that's the stage we're at 14 15 So the projected completion date for the 16 construction is October 30th and so our plan is to move in over that weekend -- or we'll start moving 17 18 before then, but that weekend we'll get all the rest of the curriculum and everything moved for November 19 20 1st, to be in in time for the holidays. So the Jones 21 Center has -- we've been meeting regularly to talk 22 about the plan for that. You may know that the 23 Springdale School of Innovation is also at the Jones 24 Center, so it's kind of a cozy crowd. But some of 25 the programming that is already there, they've moved

them out and given us a nice secure space at one end of the facility, with a security plan in place.

We're actually right in the same hallway with a fulltime security officer. The doors will be locked through the day. We're going to open one side door for 30 minutes in the morning for drop-off and then that door will be locked and late students will have to come through the reception area. So we are being cognizant of security and we feel good about the plan. Any questions about our facility plans? All right. Okay.

So, originally, when we -- our charter application that was approved last year was based on a very conservative number. And a big part of the reason for that was being the first charter school in Springdale School District we really didn't know what to expect. We didn't know what kind of response we would get, and we were trying to be very, very conservative. And, of course, we were trying to start small and grow from there, but really we were trying to be very conservative. But what we found was just an overwhelming response of applicants. And so when we first applied our need -- the demonstrated need was based on district achievement scores and near district achievement scores, at your request.

22

23

24

25

But this time we come back to you and we're demonstrating a need based on consumer demand. And so because this opportunity was given to us we thought on behalf of our parents who I received phone calls, you know, weekly, if not twice a week, and sometimes more, asking me, "What is the update on the wait-list?" "Has anyone changed their mind?" "Did anyone leave the country?" "Have we moved up on the wait-list?" So we thought, you know, to be fair to our parents, to be kind to our parents that we would go ahead and ask this. We don't feel that it would place an undue burden on us. This is something -this growth is something we had already planned for. We'd started with extra small class sizes, 15 for kindergarten, 22 for the elementary. So, basically, this 20 would just increase our class sizes; we wouldn't be adding any additional classes, no additional teachers, although the extra funding would allow us to hire two more teaching assistants, which in the Montessori program is a real benefit. just -- I want to talk about the need and the demand that's out there and also how we've handled our recruitment process to make this opportunity available to all students.

So just a quick review of our lottery process:

2

3

4

5

22

23

24

25

so our original mission was to offer a strong, handson project-based individualized curriculum to a diverse Springdale community. And we went with the Montessori model because it met all those kinds of criteria that we were looking for. And in order to reach that diversity, knowing that, you know, the middle class students and families -- we already knew there was a demonstrated demand based on what we see in the other charter schools in our region. felt like we needed to make an extra-special outreach to the minority community and the lower income communities. And so we hired early on, over a year -- yeah, a year-and-a-half ago, a Hispanic outreach coordinator, and then later we hired a Marshallese outreach coordinator. They were part-time people who went to our local churches; we went to soup kitchens; we went to food banks; we went to restaurants; we did Spanish radio and television; we did a free kindergarten readiness Mom's Day Out program, offering Montessori education to diverse groups; and we did a late lottery. So we were the last lottery in town in mid-April, when other lotteries were held in January and February, and we did this to buy us more time to reach out to our community. Our aspirations were high, a little higher than

1 what we got back, but I believe that our extra efforts paid off. Fifty-percent of our applicants 2 3 4 5 6 7 8 9 outcome. 10 11 more difficult to break into. 12 13 14 15 16 17 18 19 20 21 22 23 24 25

were qualified for free-and-reduced lunch based on enrollment packets that we had them fill out, including last year's lunch form. And 40%, based on their surnames -- now we don't know their actual -- I don't have the numbers for the actual home language yet, but based on surnames we have a 40% Hispanic The Marshallese community, which is also very large in Springdale, as you know, was a little They don't have the television station, radio, and those means of communication, so we literally had to get out there and walk and put boots on the ground, and we did end up with three Marshallese families. And we are treating them like royalty and we're going to be doing special Marshallese -- part of our branding, part of our -- one of our selling points with them was that we really do want to help preserve the Marshallese culture and the Marshallese language. And our Marshallese friends have concerns that their language and their culture are going to be lost as they assimilate into our community, and so currently we're searching for grant money to allow someone to come in and teach the children to read and speak

2

22

23

24

25

properly in Marshallese and also offer cultural experiences to our whole school community and in hopes of increasing that population next year and the number of applicants. So I want to talk to you -- so that's just a quick review of our lottery and our enrollment process, of what the outcome was. And so, as you see in your packet, we had over 420 applicants -- applications for 120 seats. So the wait-list you see in front of you, that's just the people who did not get in, so there are over 300 names there.

I want to talk to you about the dedication to the Montessori model. It's very, very touching. people who know about it, who come to us who have a background with Montessori, they understand what they're going to get is a special kind of childcentered environment that is very sensitive to each child's needs. They appreciate that individualized instruction. They appreciate that their child's development is being very carefully observed by the teachers throughout the day and watching for "does this child need more time to move; does this child need more language experience; does this child need -- does this child love science, " and so we need to center their learning around that student's interest. So our Montessori families get that. But we also

have many, many non-Montessori experienced families who understand that what we're offering their child is a little more freedom to be who they are; a little more individuality; a little more one-on-one with their teacher, while having an assistant in every classroom so that their teacher can do those one-on-one lessons. And so there's a certain excitement that's been a wonderful excitement for me to be a part of in this journey and it's a kind of excitement that you might see with parents, how they get excited at a soccer game or football game, about their child's football team. We see that about curriculum, which for me as a veteran teacher of 20 years is quite refreshing to see parents get excited about curriculum.

Now, as you can imagine, we're extremely busy getting ready for the new school to open. It occurred to me that I could have called the first three names or five names on each of the lists for each grade level and invited them to come here and we could have easily filled up this room. But I did not do that. As I said, I'm trying to be, you know, responsible with my time and that would have been a project in itself to organize that. However, we did bring a family here today who does want to have a

word in a moment here.

Before Monica comes up, I just want to say this about her and several of the others on our staff. Several of us have left good paying jobs in the northwest Arkansas area to make this happen, to make this initiative happen, myself being chief among them, unemployed for a couple of years getting this going. And -- but I also have other teachers, like Monica, for example, who came from her home district at a great -- to become actually not even one of our teachers; she came in late into the game and she wants to be an assistant. Her child won a seat in the lottery and she was so excited about it that she wants to be a part of it. And as an assistant she'll be making \$15,000 a year and -- but she wants to do this because she wants to learn this curriculum, she wants to eventually train to be a Montessori teacher and be a part of what we're doing.

So even though -- let me see; did I have anything else? Okay. Yes. So even though Monica's child won a seat in the lottery, and even though we favored siblings, which we did, and we had a very open and transparent lottery, Alyssa -- or Ms. Maddox was there. And the -- we had -- the University of Arkansas Department of Ed. Reform sponsored our

1 lottery. Everything occurred on a big screen; it was very well attended by our parents. And what we did 2 was we did the first -- I think it was the first 10 3 seats in every class and then we saved five seats for 4 5 siblings, and then so if they won a seat then their sibling got one of those five seats. Once those five 6 7 sibling seats filled up, no more siblings got in. Now, then we ran a -- we didn't run the lottery 8 9 numbers again, but then we took another batch of the 10 original numbers; whoever was next in line got any 11 additional seats that were not filled by siblings. So though we did our best to serve families and serve 12 13 siblings and give them preference, we still have some siblings who are left behind and those are among some 14 15 of the parents who are the most adamant about wanting 16 to get their child in. So when Ms. Roten happened to be in my office when we were talking about this 17 18 meeting, she indicated that she would like to come and just have a word before the panel. And I think 19 20 her daughter might also want to say something, as 21 And they look very spiffy today in their 22 school uniform. So the younger, Avery, was accepted 23 into our 2nd grade and then Bailey is so hoping --24 she's first on the waiting list; she's so hoping that 25 you will approve an extra seat for her today that she

begged and begged her mother to buy her a uniform, so 1 she is wearing one as well. So, Ms. Roten, would you 2 like to go ahead and address the panel? 3 MS. ROTEN: Yes. So you can see that --4 CHAIRMAN COFFMAN: Ms. Roten, if you'll state 5 your name for the record. 6 7 MS. ROTEN: Monica Roten. Sorry. Yes. Мy middle child, Avery, has gotten a seat or a place in 8 9 the Montessori school, and my oldest daughter is patiently waiting for a call to get a spot. 10 approving the numbers would allow her to go ahead and 11 have a spot this year instead of waiting at least 12 13 another year or for another spot to open. Thank you. DR. SILANO: All right. She changed her mind, 14 15 but we're glad --16 MS. ROTEN: About talking. DR. SILANO: Yes, about talking. But we're glad 17 18 So just a quick review of the benefits. she's here. And I've noticed we did make -- we did encourage our 19 20 parents to come in and talk to me in my office before 21 the lottery, and I just want to say by way of anecdotal I saw two kinds of families that came to 22 23 One were parents who, either through me.

and gifted, and many parents, myself included,

documentation and diagnosis, their child was talented

24

25

23

24

25

believe that our children are talented and gifted. But whether -- you know -- whether they are or they're not, they felt that their children were very bright and competent but bored in school and that made them sad, and so they felt that the Montessori curriculum would offer their child a chance to advance on an individual level. And then I also saw at the other end of the spectrum many families came to me who felt that their child was challenged, either behaviorally or academically, and they felt that the Montessori curriculum would allow their child to catch up without feeling embarrassed that they were behind the other children. And so both of those reasons are very valid. Myself, my background as an educator, I spent the last six years as the director of ALE's in northwest Arkansas, so -- and I did my dissertation -- my Ph.D. focus was dropout And so I'm very familiar with the needs prevention. of students at risk and I think both of these groups are at risk. And I would project that many, if not most of the applicants that we had, their parents felt they were at risk for one reason or another. So we hope that you'll vote to approve our minimal increase.

I will -- let me add just one more little

1	tidbit, and this came from another employee of mine,
2	Ms. Nichols, who's here today. I am not well
3	familiar with the state of the elementary schools in
4	Springdale, and we don't have a representative here
5	to verify. But it's my understanding that many of
6	the elementary schools are crowded and children are
7	in fact being bused from one elementary zone to
8	another. So as far as taking kids from the schools,
9	you know, I did give that some consideration at this
10	late date. I certainly wouldn't want to do anything
11	to hurt our home district. But it's my understanding
12	that there's certainly a need for additional seats.
13	So that would be all of my presentation, if you have
14	any questions.
15	CHAIRMAN COFFMAN: Thank you, Dr. Silano. Ms.
16	Perry, do we have any opposition?
17	MS. PERRY: No, we do not.
18	CHAIRMAN COFFMAN: Okay. Thank you. Dr.
19	Silano, you have five additional minutes. Do you
20	have any other
21	DR. SILANO: No.
22	CHAIRMAN COFFMAN: All right. Then we'll start
23	with our questions. Who would like to go first? Dr.
24	Saunders.
25	DR. SAUNDERS: Okay. In looking at the budgets,

	92
1	I have two proposed budgets, five-year budgets on the
2	120 and 140. Correct?
3	DR. SILANO: Yes.
4	DR. SAUNDERS: And I know you stated that with
5	the increase, if you were looking at 140 students,
6	you wouldn't you'd increase class sizes, not
7	increase the number of personnel. Correct?
8	DR. SILANO: Correct.
9	DR. SAUNDERS: I know that the staff numbers
10	change in that budget by approximately \$40,000 across
11	
12	DR. SILANO: That would be the additional
13	teacher assistants that we would hire.
14	DR. SAUNDERS: Okay.
15	DR. SILANO: So it wouldn't be adding classes
16	per se, but beefing up our assistants.
17	DR. SAUNDERS: Okay. And in addition, the rent
18	payments basically doubled from \$10,000 to \$19,000?
19	CHAIRMAN COFFMAN: State your name.
20	MR. BELL: Yeah. So
21	CHAIRMAN COFFMAN: State your name, please.
22	MR. BELL: I apologize. Chris Bell, financial
23	consultant for Ozark Montessori Academy. And the
24	rent is actually based on a percentage of revenue.
25	And what you're seeing here is that a portion of the

first year's rent is being paid for by separate funds. And in the second projection, or in the second budget, from the 120 to the 140, a smaller amount of that revenue -- I mean, of that rent is being supported by separate funds. So that's why you're seeing the increase.

DR. SILANO: We had an agreement with our landlord that our rent is based on a percentage of our revenue, 12% over five years, which is -- scales up as we go year-by-year.

DR. SAUNDERS: I know that looking at the bottom dollar, at the bottom of the budget -- see, it goes from, if you will, a carryover of \$27,000 to approximately \$113,000. And I know from our discussions earlier today about the technology -- and I have a concern about the amount of technology devices and especially a concern with the perceived lack of technology devices whenever there's a budget of approximately 10% being carried over. Could you address that for me?

DR. SAUNDERS: Well, I'll let --

MS. NICHOLS: I'm Rochelle Nichols, the director of finance for the Montessori Academy. In your budget I didn't want to change a whole lot so that you could see the projections -- I'm sorry -- from

25

120 students to 140 students. So I left everything the same, except for to show that we would be able to hire two additional teaching assistants with -- if we did get the increase to 140. If we do get approved for the increase, I am planning on going back through and adding where we weren't able to afford adding to technology and adding to a couple other places that we weren't able to afford to put money into with the 120-student budget; I will put money into those The technology was one that we have on categories. our list where we would add to it to get -- purchase more computers if we do get that budget. So if you're approved at 140, DR. SAUNDERS: could you give me an idea about how much that technology budget would be adjusted? MS. NICHOLS: Okay. She would like to get an additional mobile cart and fill that with Chromebooks, like we have for the -- already are purchasing a mobile cart and putting 14 Chromebooks in it. So that would be an additional 14 DR. SAUNDERS: devices, correct?

holds I think around 24 computers.

MS. NICHOLS: Yes. And a mobile cart.

mobile cart that we're already planning on purchasing

So in order to

purchase another 14 we would still have to purchase 1 another mobile cart. But we would fill up the first 2 mobile cart and then purchase a few for the extra 3 mobile cart, determining how many we would need at 4 5 that point. Okay. So just so I can 6 DR. SAUNDERS: understand that -- I'm a little confused. 7 So the 8 number of devices would increase by 14. Is that 9 correct? MS. NICHOLS: About that. I mean, I don't want 10 11 to say that as a solid number. We would look and see 12 how many students we have per class and make 13 absolutely sure that we have a full set of Chromebooks for every student in each classroom. 14 15 don't have the numbers. DR. SILANO: We could look that number up for 16 17 you. 18 To see how much they cost. MS. NICHOLS: 19 That's okay. DR. SAUNDERS: I mean --20 MS. NICHOLS: We would make sure to purchase 21 enough computers that the mobile carts -- if one classroom wanted to take the mobile carts that each 22 23 child in that classroom would have a Chromebook. So 24 with our increase to 140 students there would be

about 27 students per classroom, so we would purchase

25

1	enough to have 27 computers in the mobile carts.
2	DR. SAUNDERS: Okay. Would it be safe to assume
3	then with the mobile cart and I know we just
4	talked about this. But the mobile cart and the 14
5	Chromebooks, ball-park maybe \$10,000?
6	DR. SILANO: Yeah, thereabout.
7	DR. SAUNDERS: Is that just a good guess?
8	MS. NICHOLS: Yeah. They're about \$400 to \$500
9	per computer and the mobile cart that we found I want
10	to say is a couple hundred dollars as well. So I
11	believe that would be
12	DR. SILANO: Not more than \$10,000.
13	MS. NICHOLS: No.
14	DR. SAUNDERS: All right. Thank you.
15	CHAIRMAN COFFMAN: Ms. Pfeffer.
16	MS. PFEFFER: So you're asking for an increase
17	of 20 students. How will those 20 students well,
18	how will those slots be divided out among your grade
19	levels?
20	DR. SILANO: It's approximately three students
21	per grade level, so the kindergarten would go from 15
22	to 18. And if you'll notice the way we did our
23	classes, there were 15 first-graders, 15 second-
24	graders, on up. So we had in our mixed age
25	classes, grades 1 through 3, we had 45 students; so

1	we have 22 in one, 23 in another. So it basically
2	they're not all the classrooms exactly the same, but
3	it comes out to two or three extra students per
4	classroom.
5	MS. PFEFFER: And then I understand with the
6	lottery it would the siblings would have first
7	placement in those additional slots. Is that
8	DR. SILANO: No. Actually, our board discussed
9	this. There was we had several parents who said,
10	"Now do we get to be at the top of the wait-list?"
11	And the answer from our board was no. We felt that,
12	you know, keeping that third-party wait-list that was
13	created intact and not tampering with it would be the
14	way to go. And so if a sibling happens to be next on
15	the wait-list, as in the Roten family, then yes.
16	But, no, we will not give preference to siblings
17	until the second year.
18	MS. PFEFFER: So the list we have here, the
19	wait-list we have, this is the order in which they
20	were placed on the wait-list?
21	DR. SILANO: Right.
22	MS. PFEFFER: So kindergarten it would be the
23	first three names
24	DR. SILANO: Yes.
25	MS. PFEFFER: who would be offered those

	98
1	slots first
2	DR. SILANO: Yes.
3	MS. PFEFFER: if you added three to
4	kindergarten? Okay.
5	DR. SILANO: Yes.
6	MS. PFEFFER: Okay. That's what I just
7	wanted to understand what that process would look
8	like.
9	DR. SILANO: Right.
10	MS. PFEFFER: Okay. That's all I have right
11	now.
12	CHAIRMAN COFFMAN: Dr. Gotcher?
13	DR. GOTCHER: No.
14	CHAIRMAN COFFMAN: Coming to this side Dr.
15	Jones, any questions?
16	DR. JONES: I know that you have that 12% set
17	aside for rent with your permanent agreement. But
18	have you made accommodations within the current
19	budget for your rent for the Jones Center? In other
20	words, does that affect your budget? You're building
21	can you explain that a little bit?
22	DR. SILANO: Yes. So the Jones Center has made
23	it clear that they will not charge us above what we
24	would be paying at the other facility. They made
25	that commitment to us, so it won't change.

1	DR. JONES: And I understand with the change in
2	location, getting a newer facility, one of the
3	strengths of your original application was the fact
4	that you were in the neighborhood where you were
5	accessible to a diverse population. Tell me about
6	the new location, the neighborhood.
7	DR. SILANO: It's actually the same
8	neighborhood, which is our goal was always to be
9	in downtown, and we're actually closer now to the
10	center of downtown and the two neediest elementary
11	schools in the district.
12	DR. JONES: Okay. Thank you.
13	CHAIRMAN COFFMAN: Mr. Lester, any questions?
14	MR. LESTER: No.
15	CHAIRMAN COFFMAN: Ms. Liwo?
16	MS. LIWO: No.
17	CHAIRMAN COFFMAN: Mr. Rogers?
18	MR. ROGERS: No.
19	CHAIRMAN COFFMAN: Any additional questions?
20	Any additional comments? Then I will entertain a
21	motion.
22	DR. GOTCHER: Motion to accept the amendment
23	request.
24	MS. PFEFFER: I'll second.
25	CHAIRMAN COFFMAN: So we have a motion from Dr.

1	Gotcher and a second from Ms. Pfeffer. Any
2	questions? All those in favor of the motion?
3	(UNANIMOUS CHORUS OF AYES)
4	CHAIRMAN COFFMAN: Any opposed?
5	If you'll take a moment to write your rationale,
6	then we'll go around the table.
7	All right. Dr. Gotcher, if you'll give your
8	rationale, please.
9	DR. GOTCHER: Certainly. I voted for. I felt
10	like the budget increase satisfied the increase in
11	student enrollment and it was not a significant
12	change to the original application request.
13	CHAIRMAN COFFMAN: Thank you. Dr. Jones.
14	DR. JONES: I approved this motion because it's
15	a moderate change that addressed the needs of the
16	community.
17	CHAIRMAN COFFMAN: Mr. Lester.
18	MR. LESTER: With a plan for future growth
19	already established that they had, I approved this
20	amendment.
21	CHAIRMAN COFFMAN: Ms. Liwo.
22	MS. LIWO: I voted for. It seems like a minor
23	change that won't negatively impact the school.
24	There is the consumer demand, of course, and although
25	not a guarantee it may allow siblings a spot at the

1	school. And there is no indication of budgetary
2	issues.
3	CHAIRMAN COFFMAN: Ms. Pfeffer.
4	MS. PFEFFER: I approved. It did not
5	significantly change the original application. But
6	based on the data, the need and the desire of the
7	community, I felt that you have a fair plan for
8	increasing the cap sizes in a transparent process.
9	CHAIRMAN COFFMAN: Mr. Rogers.
10	MR. ROGERS: I approved because of the long
11	wait-list, so that there is an opportunity, and it's
12	not a major change overall.
13	CHAIRMAN COFFMAN: Dr. Saunders.
14	DR. SAUNDERS: Yeah. I approved based upon the
15	need, on the waiting list, the number of applications
16	received. I did want to express the concerns that I
17	have regarding the lack of resources towards
18	technology.
19	CHAIRMAN COFFMAN: Dr. Silano, congratulations;
20	your amendment is approved. And I know you'll be
21	looking forward to 20 additional shining faces, and
22	good luck to you in your move. And this fall, we'll
23	look forward to seeing pictures of a new learning
24	environment.
25	DR. SILANO: Yes.

1 CHAIRMAN COFFMAN: Awesome. Thank you. REQUEST FOR DISTRICT CONVERSION PUBLIC CHARTER SCHOOL 2 A-8: AMENDMENT: PEA RIDGE MANUFACTURING AND BUSINESS ACADEMY 3 CHAIRMAN COFFMAN: With that, Ms. Perry, we're 4 ready to move to Action Item 8, Request for District 5 Conversion Public Charter School Amendment from Pea 6 7 Ridge Manufacturing and Business Academy. MS. PERRY: Yes. Pea Ridge Manufacturing and 8 9 Business Academy was authorized on January 16, 2014. The charter is approved to serve students in grades 10 11 and 12 with a maximum enrollment of 250. 11 Representatives of the charter are appearing before 12 13 you to request an amendment to the current charter. Specifically, they're requesting a waiver of the 14 15 media specialist requirement. And Director Charlie 16 Clark will begin the presentation, and they do have a PowerPoint that I think is being loaded now. Oh, I'm 17 18 sorry; I was right in your way, wasn't I? 19 Yes, you were. MS. MORRIS: 20 CHAIRMAN COFFMAN: While Ms. Morris is taking 21 care of that, I'll ask that all representatives of 22 Pea Ridge School District stand and anyone in 23 opposition, and if you'll raise your right hand. 24 you swear or affirm that the testimony you're about 25 to give shall be the truth, the whole truth and

nothing but the truth?

(ALL WITNESSES ANSWERED AFFIRMATIVELY)

CHAIRMAN COFFMAN: Thank you. Mr. Clark.

SUPT. NEAL: My name is Rick Neal; I'm

Superintendent of Schools at Pea Ridge. And I'd like
to thank you for the opportunity to come speak to you
today. I'm going to turn this over to our director;
he's been working on this with our media situation.

So at this time I'd like to introduce my assistant
superintendent on my far right -- I mean, far left,
Mr. Keith Martin, and our director, Mr. Charlie
Clark.

MR. CLARK: Good morning. As Rick said, my name is Charlie Clark; I'm the director of the Pea Ridge Manufacturing and Business Academy. Before we get started today, our presentation will be rather short; it's pretty precise and to the point as to what we're -- what amendment we're requesting here. A little background on the school, Pea Ridge is a conversion charter school in, you know, the Pea Ridge School District, which is located in Benton County. We're just north of Rogers and we're just east of Bentonville, not too far from Missouri. Our school only deals with associates in grades 11 through 12, so we deal with, you know, high scorers that have met

most of their core requirements. And then the school itself is focused on business and industry. We have aligned with business partners throughout northwest Arkansas. We also have concurrent credits through two, going to be three college partners now moving forward, that all of our associates obtain. And then we basically do our best to stay with the economy in northwest Arkansas and available jobs and positions, and then go about training our associates to where when they graduate high school they're able to begin their career. And as Lincoln illustrated earlier this morning, that's something that can really help a hundred-percent of our students to do better in the future.

We have fie different career pathways: marketing and logistics, which is essentially business pathway. We've partnered with Wal-Mart, J.B. Hunt, and some of the other companies in northwest Arkansas. And multimedia productions focuses on not only TV, but computer related media; they work with Channel 40/29 up there. Industrial technology in the workplace is considered industrial maintenance; it's essentially fixing things, making sure forklifts can work, conveyor belts work at distribution centers, and we partner with Wal-Mart as well in that pathway.

23

24

25

Plastic and metal fabrication is welding and then a little bit of plastic molding, which all starts with tool and die, so we train our kids in tool and die. And then healthcare management is by far the most popular pathway; we work with Mercy Health System, which is the hospital right there on the Interstate 540. And we've found that our associates, when they graduate with their CNA degree, and also the PCA now that we enter year-two, those students are able to essentially walk right into jobs. And a lot of them will start a career in the health profession and a lot of them will just use that to simply pay for So by the time they enter college they're college. able to, you know, have a much higher paying job than I had in work-study and, you know, help pay as they go so-to-speak.

Today's situation is rather clear. We're here to request an amendment in regards to 6.02.3. I won't read the whole thing to you, but essentially what it comes down to is when we had our accreditation assurances review earlier this year we were cited for not having a media specialist, for not having a library for PRMBA. And the reason this is something we felt like needed addressed in a hurry was we do have a library. We're a conversion charter

school and as you can see here, our school is located -- half of the school is located under the same roof as the high school and the other part of the school is located directly behind the high school. you'll see there the green lines, that would be the route our students take to get to the library, and we've used the library all year long. Our students have to pass the library to get to the cafeteria. And it's one of those things where we wanted to clarify this because it does not look good to say you don't have a library. My bachelor's degree is in English from Hendrix College; I am pro library all the way, don't get me wrong. But we wanted to rectify this and clarify this so moving forward we don't have an assurance violation saying that we do not have a library, when in fact we do. And it's a library that our students were able to use every day this past year and it's something we anticipate using every day next year as well.

Just, you know, a couple of points here as to why this waiver is needed and why to grant is. As I mentioned, we have access to a library and media center. The media specialist at Pea Ridge High School, Ms. Harris, has been great to work with. I've worked within the district for 11 years now and

	100
1	purposes, under the standards for a school between
2	that has students between 300 and 1500 they're
3	required to have one full-time librarian. Correct?
4	MR. CLARK: Yes, sir.
5	DR. SAUNDERS: And your combined enrollment of
6	these two campuses is six hundred and
7	MR. CLARK: Twenty-five.
8	DR. SAUNDERS: 625?
9	MR. CLARK: Yes, sir.
10	DR. SAUNDERS: Thank you.
11	CHAIRMAN COFFMAN: Any other questions? Dr.
12	Gotcher.
13	DR. GOTCHER: Actually, yes. Why do you think
14	the citation was given when the reality is there is a
15	librarian that fits the standards? What rationale
16	was given
17	MR. CLARK: Yes, sir.
18	DR. GOTCHER: by the Standards Assurance
19	team?
20	MR. CLARK: Because as far as paper goes, there
21	are two high schools in Pea Ridge.
22	DR. GOTCHER: I see.
23	MR. CLARK: And when there's two high schools in
24	Pea Ridge and they have to our media specialist is
25	under the high school's LEA number. We're a

1	completely although a conversion charter and
2	this is my boss, Rick Neal he's the superintendent
3	we're within the same school district but, like I
4	said, technically two separate high schools.
5	DR. GOTCHER: Is it possible the master schedule
6	could demonstrate that the students do have a regular
7	scheduled time or an opportunity for research in the
8	library?
9	MR. CLARK: Oh, yes, sir. There's flex time in
10	our schedule that occurs right around lunch where a
11	student does have approximately 30 minutes, every
12	student would to we're calling it independent
13	learning time where a student could go to the
14	library. And like I mentioned earlier, they
15	literally have to pass the library to get breakfast
16	or to get lunch in the cafeteria. So it's something
17	that's very available.
18	DR. GOTCHER: So actually it's kind of to their
19	advantage to be by the cafeteria so they can
20	MR. CLARK: Yes, sir. Yes, sir.
21	CHAIRMAN COFFMAN: Any other questions?
22	DR. SAUNDERS: I do.
23	CHAIRMAN COFFMAN: Dr. Saunders.
24	DR. SAUNDERS: Granting this amendment the way
25	that it's worded, the way that I was looking at it,

let me ask for your understanding. The waiver would
be per the requirement of the media -- library/media
center. Correct?

MR. CLARK: Yes, sir. Essentially, it would be an additional waiver to PRMBA's rules, much like some of our current rules. When we hired teachers, they didn't have a -- have to have an Arkansas teacher's license. So when we hired our plastic and metal fabrication teacher we hired a tool and die maker and a welder to teach that class. So this would essentially just be another waiver.

DR. SAUNDERS: So with the granting of that waiver, a waiver, if there was a change in administration in future years, could they then use that waiver to not provide those library services to the students?

MR. CLARK: No. I don't see a way that they could use this opportunity against Pea Ridge or against our students in the future. It would be much like the cafeteria situation. I mean, at no point could they turn around with it being under the school district. And, yes, I could be replaced, he could be replaced, but the person that takes my job still reports to the person that takes his job, since the superintendent is in charge of both schools.

1	DR. SAUNDERS: Correct. But I think that
2	would that not allow that opportunity? Maybe for
3	legal; that may be a question for our legal. Would
4	that allow that door to be opened for those students
5	not to receive those services?
6	MS. CLAY: No, I don't think so. On paper it
7	probably would look that way because they would have
8	a waiver of that standard. But any charter that
9	appears before you, their testimony also becomes part
10	of what they're held to. So whatever is in writing
11	in the packets and whatever they say before you today
12	becomes part of the agreement. So if their agreement
13	is they want a waiver of that standard but they're
14	still willing to maintain between the two high school
15	campuses combined, in compliance with the ratios,
16	then they will be held to that.
17	DR. SAUNDERS: I'm okay with that. Yes.
18	CHAIRMAN COFFMAN: Any additional questions? I
19	will entertain a motion.
20	MS. PFEFFER: Motion to approve the amendment.
21	DR. JONES: I second.
22	CHAIRMAN COFFMAN: Motion has been made by Ms.
23	Pfeffer and seconded by Dr. Jones. Any questions?
24	All those in favor.
25	(UNANIMOUS CHORUS OF AYES)

	112
1	CHAIRMAN COFFMAN: Any opposed?
2	If you'll take a moment to write your rationale.
3	Dr. Jones, I'll start with you.
4	DR. JONES: I made a motion to approve because I
5	feel the students' needs are being met and they do
6	have access to a library.
7	CHAIRMAN COFFMAN: Mr. Lester.
8	MR. LESTER: I approved based on the students
9	have access to the library and the laws for students
10	have been followed.
11	CHAIRMAN COFFMAN: Ms. Liwo.
12	MS. LIWO: I voted for and that's because the
13	students apparently have easy access to a
14	library/media center.
15	CHAIRMAN COFFMAN: Mr. Rogers.
16	MR. ROGERS: I voted for because they do have
17	access to a media center.
18	CHAIRMAN COFFMAN: Dr. Gotcher.
19	DR. GOTCHER: I agreed; I voted for.
20	Representatives were able to justify this request
21	with students' access to the current media center.
22	CHAIRMAN COFFMAN: Dr. Saunders.
23	DR. SAUNDERS: I voted for. It allows the
24	school to refrain from unnecessary expenditures and
25	still provide services to the students.

	113
1	CHAIRMAN COFFMAN: Ms. Pfeffer.
2	MS. PFEFFER: For the amendment, for all those
3	reasons, plus the school gave documentation showing
4	that students do have access and would continue.
5	CHAIRMAN COFFMAN: The amendment for the Pea
6	Ridge Manufacturing and Business Academy is approved.
7	And keep those kids reading.
8	MR. CLARK: Will do. Thank you for your time.
9	CHAIRMAN COFFMAN: Thank you.
10	A-9: REQUEST FOR DISTRICT CONVERSION PUBLIC CHARTER SCHOOL
11	AMENDMENT: WARREN MIDDLE SCHOOL, A CONVERSION CHARTER
12	CHAIRMAN COFFMAN: Action Item Number 9, Ms.
13	Perry; Request for District Conversion Public Charter
14	School Amendment from Warren Middle School, A
15	Conversion Charter.
16	MS. PERRY: All right. Warren Middle School was
17	authorized on January 16, 2014, the same day as Pea
18	Ridge. The charter is approved to serve students in
19	grades 6 through 8 with a maximum enrollment of 450.
20	Representatives of the charter are appearing before
21	you today to request an amendment to the charter.
22	Specifically, they're requesting changes to the GT
23	program. And to present is Rhoda Williams.
24	MS. WILLIAMS: Rhonda.
25	MS. PERRY: Rhonda.

1	CHAIRMAN COFFMAN: If all of the representatives
2	from Warren School District will stand and raise your
3	hand. Anyone in opposition? Thank you. Raise your
4	right hand. Do you swear or affirm that the
5	testimony you're about to give shall be the truth,
6	the whole truth and nothing but the truth?
7	(ALL WITNESSES ANSWERED AFFIRMATIVELY)
8	CHAIRMAN COFFMAN: Thank you. All right. Miss
9	is it Wardlaw or Williams?
10	MS. WILLIAMS: Williams.
11	CHAIRMAN COFFMAN: Okay. Williams. All right.
12	Ms. Williams, if you'll start us off.
13	MS. WILLIAMS: Okay. Good morning. My name is
14	Rhonda Williams and I am the GT and the AP
15	coordinator for the Warren School District.
16	MS. CORNISH: And I'm Cathy Cornish, Warren
17	Middle School principal.
18	MS. WILLIAMS: We are requesting a waiver to our
19	charter regarding the Gifted and Talented.
20	Currently, the Gifted and Talented teacher teaches
21	the 6th grade 45 minutes a week in a resource room.
22	And the 7th and 8th graders are served through pre-AP
23	classes. What we're asking for is that all learners
24	in 7 through 9, or grades 6 through 8, identified GT
25	students, will be served in a self-contained

classroom for science by an approved teacher of the gifted, as defined by the gifted program approval This classroom setting will be a STEM standards. setting and a STEM approach to teaching students. To support this, in the past few years we have been thinking about our middle school and what can we do to improve our gifted education at that point. We've also this year been fortunate enough to hire someone at middle school that is certified in gifted education. As we were looking at our benchmark scores, we see a need not only to improve in the science benchmark scores for all students but the gifted students also. We feel like the STEM approach to teaching will help benefit those scores and students, the gifted students. At the end of the year, when they fill out the GT assessment or the evaluation, the parents and the students keep asking, "Why can we not have GT resources at the middle And so we just felt like the opportunity is school?" there with the hiring of this teacher and that we need to use that. CHAIRMAN COFFMAN: Ms. Perry, is there any opposition? No, there is not. MS. PERRY:

Any final statements?

CHAIRMAN COFFMAN:

1	right. Let's get right to the Panel. Questions?
2	We'll start on this side. Dr. Jones, any questions
3	on this side?
4	DR. JONES: I had a couple of questions here.
5	Okay. It's my understanding that basically you're
6	not going to have GT pullout as integrated. Is that
7	what the waiver is about?
8	MS. WILLIAMS: It is going to be integrated into
9	6th, 7th and 8th.
10	DR. JONES: Okay. And there's for gifted
11	students there are so many requirements beyond just
12	the pre-AP curriculum and the pre-AP class. Who will
13	be in charge of seeing to the extra needs of those
14	students, for example, if they're interested in an
15	NAGC summer program or if they're interested in the
16	Duke Talent Search or all of those other
17	opportunities for gifted kids? Who is the person
18	accountable for that?
19	MS. WILLIAMS: That will be the GT coordinator,
20	which is me. I will still take care of all those
21	things.
22	DR. JONES: Thank you.
23	CHAIRMAN COFFMAN: Dr. Gotcher.
24	DR. GOTCHER: Is this an increase in staff?
25	MS. WILLIAMS: Well, she's already teaching

1	science and so we just want to put her to work in the
2	GT also.
3	DR. GOTCHER: Certainly.
4	MS. WILLIAMS: Does that make sense?
5	DR. GOTCHER: So would this cause an increase in
6	your staff? Would you have to hire additional staff
7	
8	MS. WILLIAMS: I will not.
9	DR. GOTCHER: or would you be shifting her?
10	Okay. Good. I wanted to make sure the school board
11	was in favor of this, if we
12	MS. WILLIAMS: Yes. No, we will not hire
13	additional staff.
14	DR. GOTCHER: Very good. Thank you.
15	CHAIRMAN COFFMAN: Dr. Pfeffer?
16	MS. PFEFFER: Okay. So right now I just need
17	to make sure I understand. Right now, you're only
18	having 6th grade served?
19	MS. WILLIAMS: Yes. For 45 minute they still
20	have pre-AP classes in all four content areas in 6th
21	grade. And so we were pulling them for 45 minutes
22	for resource, and now we want to, 6, 7 and 8, have
23	all of them have their GT in the science room, the
24	STEM science room.
25	MS. PFEFFER: Okay. So I guess my only thought

	110
1	is currently and, I mean, I like the idea that
2	you're going to be able to expand from just 6th
3	grade, to have 6th, 7th and 8th grade. I mean, that
4	currently, they're getting kind of a cross-
5	curriculum approach to GT?
6	MS. WILLIAMS: Yes.
7	MS. PFEFFER: And now it's going to be limited
8	to science?
9	MS. WILLIAMS: No. It will be a STEM approach.
10	She will incorporate every area and they will
11	actually have her every day.
12	MS. PFEFFER: Okay. So is this going to replace
13	their science class?
14	MS. WILLIAMS: No. It's going to be
15	incorporated into the science.
16	MS. PFEFFER: It's going to be incorporated into
17	science; it will still be meeting their science
18	requirement, but it will also be
19	MS. WILLIAMS: She's a former literacy teacher
20	and so she will be incorporating writing, she'll be
21	incorporating math, but they will still get their
22	science standards.
23	MS. PFEFFER: I guess I'm just my only
24	hesitation is thinking about what students get in a
25	gifted program and because not all students not

1	all gifted students have the same interests and the
2	same passions, and therefore aren't excelling in the
3	same areas. So I just want to feel comfortable that
4	we are not going to limit the opportunities for
5	students to have that well-rounded experience. What
6	does your GT look like prior to grade 6?
7	MS. WILLIAMS: Prior to grade 6 we have a
8	pullout, 150 minutes a week.
9	MS. PFEFFER: And will that change that won't
10	change anyway?
11	MS. WILLIAMS: That won't change.
12	MS. PFEFFER: That's more of a
13	MS. WILLIAMS: That will not change.
14	MS. PFEFFER: cross-curriculum?
15	MS. WILLIAMS: And she has taught GT in the
16	actual GT resource room for the past three years, so
17	she knows, you know, how to incorporate that GT into
18	that classroom.
19	CHAIRMAN COFFMAN: Dr. Gotcher?
20	DR. GOTCHER: Yes. And to Ms. Pfeffer's point,
21	with the STEM approach are you convinced of
22	course, you are that it's flexible to allow for
23	those limitations that Ms. Pfeffer was concerned
24	about? With the STEM approach it should increase the
25	flexibility in the classroom. Am I hearing that

	120
1	correctly?
2	MS. WILLIAMS: Yes. And as the coordinator, I
3	will still be available for those kids that have
4	special needs that can't be met in there and that
5	will be my job to go and make sure those needs are
6	met and get them in areas that they, you know, are
7	concerned about, what they like.
8	DR. GOTCHER: Okay. Excellent. Thank you.
9	DR. SAUNDERS: Can I ask some questions?
10	CHAIRMAN COFFMAN: Dr. Saunders.
11	DR. SAUNDERS: Okay. I just need to clarify.
12	I'm not sure on my understanding. So the students
13	will be in the GT students will be in classes by
14	themselves. Correct?
15	MS. WILLIAMS: Yes, a self-contained.
16	DR. SAUNDERS: Okay. And there will not be any
17	non-GT students?
18	MS. WILLIAMS: Right. And we will still have a
19	7th 6th, 7th and 8th grade pre-AP science that is
20	not gifted students, so all students will still have
21	access to pre-AP.
22	DR. SAUNDERS: And this would just serve for the
23	credit or the area of science. Correct?
24	MS. WILLIAMS: Right.
25	DR. SAUNDERS: Well, why not look at other

subjects as well?

MS. CORNISH: The reason being is because she is an approved gifted certified teacher and so we took advantage of that. And where we don't -- our other classes have the pre-AP certified; they're not gifted certified.

DR. SAUNDERS: Okay.

MS. PFEFFER: Can I ask another?

CHAIRMAN COFFMAN: Ms. Pfeffer.

MS. PFEFFER: How are you going to measure success of this? I went back and looked at some of your data regarding AP, number of students taking AP courses, the number of students having a 3, 4, 5.

Can you talk to me a little bit about your data and what you expect from this? Because, you know, I have some questions; so I'm wanting to know, you know, a year, two years, three years how are you going to know is this working?

MS. WILLIAMS: One of the things that we're going to look at, we're going to look at our science benchmark scores, of course. And as you can tell, they were not where we want them to be. The other thing is that we give the NWEA test at our school and we give that three times each year.

MS. PFEFFER: What was that again?

MS. WILLIAMS: MAP, NWEA MAP.

MS. PFEFFER: Oh, NWEA.

1

15

16

17

18

19

20

21

22

23

24

25

MS. WILLIAMS: And so we're going to look at that. Also, we will look at how many of the students will continue in the pre-AP program once they get out of 8th grade. What we have noticed is that at our middle school we would have -- because they would only see me in that 6th grade. And after 6th grade I only saw them, you know, as the GT coordinator who came over and, you know, would visit the classrooms, because they were turned over to the pre-AP teacher. At this point what we saw was we had a falling off of our students that were taking pre-AP and that was some of our gifted students. So I feel like with them having their own GT teacher that has them for three years I hope we see an increased enrollment in pre-AP and we also see the students wanting to stay in that program.

MS. CORNISH: And with the MAP we give it in reading, math and science.

MS. PFEFFER: Okay. This may be a question for Dr. Jones, with GT being in your division. I guess if we do this is there -- could we look at having GT just kind of monitored after a short time? I guess part of my thought is if I were a parent and this

1	change was going to be made, you know, what will
2	parents say, what will students say, and, you know,
3	possibly just having some type of data in the next
4	few years to know, you know. Is that even
5	DR. JONES: Let me ask some additional questions
6	here. Just for clarity, they are decreasing their GT
7	time because they would've had that science class in
8	addition to 45 minutes of GT pullout?
9	MS. WILLIAMS: Only in 6th grade.
10	DR. JONES: Okay.
11	MS. WILLIAMS: 7th and 8th, they were only
12	having pre-AP.
13	DR. JONES: Okay.
14	MS. WILLIAMS: So they're actually increasing.
15	DR. JONES: And so you're removing that 6th
16	grade extra time and they're going to have that
17	science?
18	MS. WILLIAMS: Right.
19	DR. JONES: Okay. All gifted kids may not be in
20	pre-AP science. Where are they going to get their
21	Gifted and Talented services?
22	MS. WILLIAMS: At our school district they
23	actually are. As we've looked we looked back at
24	the records and we have made our schedule so that
25	those the GT students will all have that GT

	121
1	science class and it won't interfere with any
2	extracurricular activities that they're in, like
3	choir or band.
4	DR. JONES: Okay.
5	MS. WILLIAMS: So it is available to them.
6	DR. JONES: And so that has to be the continued
7	practice, regardless of who's there. Because should
8	they not go into that pre-AP science, then they would
9	not get the identified minutes required. Correct?
10	MS. WILLIAMS: Well, they don't have are you
11	talking about with the new? Is that what you're
12	asking me?
13	DR. JONES: With your new plan.
14	MS. WILLIAMS: Yes. Yes.
15	DR. JONES: Okay.
16	MS. WILLIAMS: And, I mean, we are hoping
17	further down the road that we can look at maybe, you
18	know, incorporating that into literacy. You know, we
19	just haven't gotten there yet.
20	DR. JONES: I don't believe there's one way to
21	do GT. This is a concern for the Gifted Department
22	as they see time what they see is time eroding for
23	gifted kids, and in reality it is being diminished.
24	Correct?
25	MS. WILLIAMS: Yes.

DR. JONES: But if it's done differently and done well, and you're truly attending to the individual needs of those students, not just a whole class group, it can be done but it does have to be monitored closely. You'll have the opportunity to do that, even on your summative assessments now, because science will be tested, every grade, 3 through 10 -- and so monitoring that, as well as providing additional data. Now you can make a motion that the GT department follow-up with their data and require them to provide that, should you want to.

MS. PFEFER: And just -- may I ask a question?

CHAIRMAN COFFMAN: Yes.

MS. PFEFFER: Okay. So all students who are identified as Gifted will have to take a pre-AP science?

MS. WILLIAMS: Yes.

MS. PFEFFER: Okay. Because now, you know, you don't have to. A lot -- I mean, a lot of times students just do, but -- I'm a strong believer in -- with pre-AP programs I'm a strong believer in students getting to choose that because of their interest and their choice. You know, I really do -- so, you know, if we're saying "you get identified here in elementary school and automatically now, 6th,

1	7th and 8th you're going to have to take this class
2	because it" is that accurate
3	MS. WILLIAMS: Yes.
4	MS. PFEFFER: that they would?
5	MS. WILLIAMS: Well, I ran that by Krystal Nail
6	at the State Department. And what we came up with on
7	that was, okay, if I am that GT student who chooses
8	does not want to take the pre-AP science, I'm
9	still going to get that pre-AP class in the areas
10	that I'm interested in that's going to meet my needs.
11	So we're just trying to really go above and beyond.
12	MS. PFEFFER: But I'm still going to have to
13	take pre-AP science, whether or not I really
14	MS. WILLIAMS: You really would not have to take
15	it and you still would be in compliance with
16	MS. PFEFFER: If you took the other pre-AP class
17	
18	MS. WILLIAMS: Right, if you took another pre-
19	AP.
20	MS. PFEFFER: So if you had a student that
21	and I don't know that there would be that many. But
22	if you had a student in grade 7 and they and their
23	parent said, "We will do pre-AP English, we'll do
24	pre-AP in math or social studies, but we don't want
25	to do that." Would they be able to not

MS. WILLIAMS: Yes.

1

24

25

MS. PFEFFER: -- if they don't want to?

MS. WILLIAMS: Yes.

MS. PFEFFER: Okay.

CHAIRMAN COFFMAN: Any additional questions? I have a question for you. What is your plan to communicate with these students and the parents of those students? And do you have a long-term plan to survey those parents to insure that this new way is truly meeting their needs?

MS. WILLIAMS: Yes. At the end of each school year we do a GT evaluation for each grade level and we survey parents, we survey students, we survey teachers. We will continue to do that. And we asked for a waiver so that we could kind of write our own So when we look at that evaluation we're evaluation. going to ask those questions about that program specifically and ask them how they like it, was it successful, did it meet your needs, your child's Also, one of the things that I wanted to say was on the evaluations that we have already done at the end of the year this was something that the parents and the students kept asking for, "Why do I not have a GT service at middle school? Why does it stop at 6th grade?" And so that's why we wanted to

go that way. And so at the beginning of school, when 1 Ms. Cornish has her open house, we'll explain that to 2 the students and the teachers. 3 CHAIRMAN COFFMAN: Is there any plan to do any 4 5 type of midyear survey so that you can make adjustments for anyone who's not having their needs 6 7 met? 8 MS. WILLIAMS: There is not a plan, but we can 9 certainly do that. I just always pause at the 10 CHAIRMAN COFFMAN: 11 idea of only evaluating at the end of the year because the year is already gone by the time you know 12 13 what people are feeling. So it's always important to find out early. 14 15 MS. WILLIAMS: That is something we can do. 16 CHAIRMAN COFFMAN: Okay. Any additional questions? Any additional comments? With that, I'll 17 18 accept a motion. 19 DR. GOTCHER: Motion to approve the amendment 20 request. 21 CHAIRMAN COFFMAN: A second? 22 MS. PFEFFER: I'm not sure of the proper 23 procedure here. I would be in favor of the motion if 24 there was an inclusion that the school would work with the ADE office of Gifted in terms of -- I don't 25

know when the monitoring, the next monitoring visit is, but I would like to have -- you know -- and I know at the end of the year is not always the best time to monitor, but it would give a year for this to be implemented. I would like to have a monitoring done with feedback, specific feedback from parents, from students, and -- with the criteria that they would normally look at. So I don't know how we would go about that.

CHAIRMAN COFFMAN: Dr. Gotcher, are you willing to amend your --

DR. GOTCHER: Absolutely. I can either do a substitute motion or I can just amend my motion.

DR. JONES: Can I add to that, because my GT
people will say, "What are you looking for?" Okay?
I think what I'm missing as well is you telling me
it's going to be integrated into STEM. Everybody
says that these days. What we need are tangible
things, especially since your parents are already
complaining "we're not getting GT services at the
middle school" -- I don't see how taking away
additional time is adding. I don't see that yet. It
may very well be that, but I don't see tangible
results for students. How are they getting extra
services? What programs? What clubs? I mean,

	130
1	that's what we need to see and that's something that
2	our GT unit can monitor. Otherwise, they won't know
3	beyond what they already monitor to go in and do. Do
4	you understand what we're looking for?
5	MS. WILLIAMS: Yes, I do.
6	DR. JONES: Okay. So
7	MS. WILLIAMS: Yes, I understand. So you're
8	wanting to know
9	DR. JONES: Sell it like you're selling it to a
10	parent; what is it that their student, their gifted
11	student is going to get that they have not received
12	in the past, and be specific on grade levels. And
13	just saying a 6th grade STEM integrated class is not
14	tangible for us, and it probably isn't for parents as
15	well, and so talk about the other opportunities
16	available for those students. Okay?
17	MS. WILLIAMS: Okay.
18	DR. GOTCHER: Before I amend my motion
19	CHAIRMAN COFFMAN: Dr. Gotcher, back to you.
20	DR. GOTCHER: Yes. Before I amend the motion,
21	let me get clear on the provisions that we're asking.
22	DR. JONES: Do you want me to vocalize that for
23	you?
24	DR. GOTCHER: Yes, please.
25	DR. JONES: We ask that Warren provide a

detailed plan for the 6th, 7th and 8th grade middle school back to the GT department of the gifted program with tangible actions for students. Is that specific enough? You can make it sound nicer.

DR. GOTCHER: I think --

DR. JONES: You provide a plan to our GT office telling what students are getting for the gifted program.

MS. WILLIAMS: Okay.

MS. PFEFFER: And I would add then that the GT office monitor at the end of the 15-16 school year and then we have a report at our -- we would have a report next -- I guess it would be next summer on the progress. And we could -- you know -- if any different decision needed to be made after that report that would work.

DR. GOTCHER: All right. I'll withdraw my original motion, and I'd make a motion to approve the amendment request with the provision that the district provide a detailed plan to the Department of Education GT office explaining what the students are receiving in terms of services, to be monitored and reported. Did I hear a calendar date on that "reported?" In one year?

MS. PFEFFER: When will be our next meeting?

1	DR. JONES: Well, for the Standards Unit we try
2	to give October 1 and that's not here. I think by
3	October 1 they try to get to us any inconsistency
4	with standards. And this is a standards going
5	back to a standards issue. So I think couldn't
6	you have that by October 1
7	MS. WILLIAMS: Yes.
8	DR. JONES: if you know what you're already
9	doing?
10	MS. WILLIAMS: Yes.
11	DR. JONES: Okay. October 1 deadline.
12	DR. GOTCHER: By October 1 deadline this year?
13	DR. JONES: Yes.
14	CHAIRMAN COFFMAN: Well, I have a really long
15	motion.
16	DR. SAUNDERS: I'll second it.
17	CHAIRMAN COFFMAN: Dr. Saunders has seconded it.
18	So a motion has been made by Dr. Gotcher and seconded
19	by Dr. Saunders. Any questions, comments? All those
20	in favor of the motion?
21	(UNANIMOUS CHORUS OF AYES)
22	CHAIRMAN COFFMAN: Any opposed? The motion has
23	passed. I'll give you a few moments to write your
24	responses and your rationale. I love technology
25	because I can see exactly when they're finished. Dr.

133 1 Gotcher. DR. GOTCHER: Yes, I voted for. And I am 2 satisfied with the adjustments towards monitoring and 3 reporting by the October 1 date. 4 5 CHAIRMAN COFFMAN: Thank you. Dr. Jones. DR. JONES: I voted for because I agree that you 6 7 can do unique and innovative things with some 8 flexibility along with the amendment. I feel good 9 with it -- about it. 10 CHAIRMAN COFFMAN: I need to stop that timer. 11 Mr. Lester. 12 MR. LESTER: I agree with the schedule will meet 13 with the requirements of GT in 6 through 8. again, I agree with the provision that we see that it 14 15 meets the needs of those students. 16 CHAIRMAN COFFMAN: Ms. Liwo. 17 MS. LIWO: I voted for. It looks like you have 18 sufficient and capable staff to handle the changes that will be made by the amendment and it will meet 19 20 the needs of the students and address parents' wishes, so --21 22 Thank you. Ms. Pfeffer. CHAIRMAN COFFMAN: 23 MS. PFEFFER: I voted for it. I do appreciate

your desire to do different things with your GT

But I feel much more comfortable with just

24

25

program.

	134
1	having the more the specificity that you're going
2	to provide and also with the partnership with the ADE
3	just to kind of monitor how this new idea goes.
4	CHAIRMAN COFFMAN: Mr. Rogers.
5	MR. ROGERS: I voted for it because of the 6, 7,
6	8 GT classes, and then also that it will be agreed
7	working with the ADE.
8	CHAIRMAN COFFMAN: Dr. Saunders.
9	DR. SAUNDERS: I voted for. I believe it allows
10	opportunities for the GT kids within the district.
11	CHAIRMAN COFFMAN: All right. The amendment has
12	passed for Warren Middle School to make this
13	amendment. And please reach out to the GT office at
14	ADE for any support needed. We look forward to an
15	innovative way to serve the needs of our gifted and
16	talented children. So thank you for being here
17	today.
18	MS. WILLIAMS: Thank you so much.
19	MS. CORNISH: Thank you.
20	CHAIRMAN COFFMAN: All right. Ms. Perry, that
21	seems to be our entire agenda.
22	Just a quick reflection from the Panel on your
23	use of our response tool yea's, nay's?
24	(COURT REPORTER'S NOTE: There were several
25	affirmative comments from panel members.)

CHAIRMAN COFFMAN: Just for the public to know, 1 this -- these documents as written will be pdf'd and 2 they will be sent to the school that came before us 3 today so that they will have a record of it. 4 5 documents will go to our State Board and they will be included in the August NOVUS agenda for the State 6 7 Board, so everyone will have access to exact words 8 that the panel members wrote themselves. And the 9 reason for this is, as Ms. Clay stated at the beginning, is to assist our State Board members in 10 11 making a decision to review or not review the panel decision. And, Panel Members, just to kind of put 12 13 you on alert, the State Board does sometimes ask you to clarify or expand on your reasoning. So we look 14 15 forward to that. 16 We also want to thank the Pulaski County School District for hosting this meeting in a nice, cool 17 18 location. The staff is very thankful. 19 With that, I'll accept a motion to adjourn. 20 DR. JONES: So moved. 21 DR. GOTCHER: And second. 22 CHAIRMAN COFFMAN: All right. Thank you. 23 24 (The meeting was adjourned at 11:25 a.m.) 25

## CERTIFICATE

STATE	OF	ARKANSAS		3	)	
					)	SS
COUNTY	O	7	SALINE		)	

I, SHARON K. HILL, CCR, a Certified Stenomask Reporter and Notary Public before whom the foregoing proceedings was taken, do hereby certify that the same is a true and correct transcription before the Arkansas State Department of Education, Charter Authorizing Panel, in Little Rock, Arkansas, on July 15, 2015, that the said proceedings was reduced to typewritten form by me or under my direction and supervision; and that the foregoing pages constitute a true and correct transcription of all proceedings had in said matter.

I FURTHER CERTIFY that I am neither counsel for, related to, nor employed by any of the parties to this action.

I FURTHER CERTIFY that I have no contract with any parties within this action that affects or has a substantial tendency to affect impartiality, that requires me to relinquish control of an original transcript or copies of the transcript before it is certified and delivered to the custodial agency, or that requires me to provide any service not made available to all parties to the action.

WITNESS, MY HAND AND SEAL, THIS DATE: July 29, 2015.

SHARON K. HILL, CCR Certified Court Reporter Certificate No. 670
