Model of Instruction-Development & Implementation ESC Works Registration Session #434280	Developing and implementing a school-wide model of instruction with - One of the most important steps a district or school can take in school improvement is to establish a model of instruction that guides effective practices in all classrooms. This session will focus on how to develop and implement an instructional model for a district and/or an individual school. The instructional research base for this workshop will be Marzano's New Art and Science of Teaching. However, participants will also understand how they can incorporate other instructional concepts into their model of instruction if they wish to do so. This workshop is suited for district and school level leadership including teacher leadership. District and school teams would benefit by attending together as they could begin planning for the development of their own model of instruction. Dr. Phil Warrick (Marzano)	12-Mar-21 9:00 am - 12:00 pm VIRTUAL
