ARKANSAS DIVISION OF ELEMENTARY AND SECONDARY EDUCATION STATE BOARD OF EDUCATION MARCH 11, 2021 10:00 A.M.

APPEARANCES

BOARD MEMBERS:

MS. CHARISSE DEAN, Chairman

MS. OUIDA NEWTON, Vice Chairman

DR. FITZGERALD HILL

MS. KATHY McFETRIDGE

DR. SARAH MOORE

MS. SUSAN CHAMBERS

MS. ADRIENNE WOODS

MR. STEVE SUTTON

NON-VOTING PARTICIPANTS:

MR. JOHNNY KEY, Secretary of Education

MR. JOEL LOOKADOO, Arkansas Teacher of the Year

DESE LEGAL COUNSEL:

MS. LORI FRENO General Counsel

LOCATION:

ARKANSAS DIVISION OF ELEMENTARY AND SECONDARY EDUCATION - Auditorium #4 Capitol Mall Little Rock, AR 72201

PROCEEDINGS 1 G.U.I.D.E. FOR LIFE STATE BOARD RESOLUTION 2 V. CHAIRMAN DEAN: Next we have the International 3 Social-Emotional Learning Day State Board Resolution, 4 and that will be presented by Lisa Tyler, Susan Jobe. 5 Good morning and welcome. 6 7 MS. JOBE: Good morning. Thank you. CHAIRMAN DEAN: You're welcome. 8 9 MS. JOBE: March 26th is being celebrated as the 10 second annual International Social-Emotional Learning Day. And in honor of this day, the Division of 11 12 Elementary and Secondary Education is requesting that 13 the Arkansas State Board of Education proclaim the third week of March as G.U.I.D.E. for Life Week. 14 15 CHAIRMAN DEAN: Awesome. Wonderful. I think we 16 have that resolution. Would you like to read the resolution? 17 18 MS. JOBE: Sure. WHEREAS, The Arkansas Department of Education's 19 vision is to lead the nation in student-focused 20 21 education by ensuring that every Arkansan is 22 equitably prepared, supported, and inspired to 23 succeed in school, career, community, and life; and 24 WHEREAS, It is our mission for all Arkansas

students to graduate with a strong foundation of

25

academic knowledge, experience, proficiencies, and soft skills in order that they are actively literate, critical thinkers, and actively engaged in their communities in positive ways; and

WHEREAS, The Arkansas Department of Education has identified five guiding principles that support educators, business leaders, communities, and students in their efforts to help all Arkansans develop these critical skills; and

WHEREAS, The G.U.I.D.E. for Life program, with the support of Arkansas educators, is designed to give students a plan they can follow to achieve personal success; and

WHEREAS, By incorporating the G.U.I.D.E. for
Life concepts throughout the school experience,
educators can help cultivate these real-world skills
for success in all Arkansas students;

NOW, THEREFORE, BE IT RESOLVED THAT

In honor of the second annual International Social-Emotional Learning Day, the Arkansas State Board of Education encourages schools to celebrate the G.U.I.D.E. for Life program during the week of March 15-19, 2021.

CHAIRMAN DEAN: All right. Thank you. Thank you so much.

	5
1	This is a great resolution. It kind of goes
2	back to what we were talking about before is
3	educating the whole child, not just academically but
4	to have those soft skills and be able to communicate,
5	be great communicators, as we were talking about
6	earlier with Superintendent Poore.
7	So thank you so much and we appreciate your time
8	today.
9	MS. JOBE: Thank you.
10	CHAIRMAN DEAN: Thank you.
11	If you'll let me sign that before you take it.
12	SECRETARY KEY: I know this is on recognitions,
13	but being a resolution I think we do need a vote
14	CHAIRMAN DEAN: Okay.
15	SECRETARY KEY: by the Board for adoption.
16	CHAIRMAN DEAN: Do we have a motion for
17	adoption?
18	MS. McFETRIDGE: I move for adoption.
19	CHAIRMAN DEAN: Okay. We have a motion by Ms.
20	McFetridge to adopt the resolution.
21	Do I have a second?
22	DR. MOORE: Second.
23	CHAIRMAN DEAN: Seconded by Ms. Moore.
24	All in favor say "aye."
25	(UNANIMOUS CHORUS OF AYES)

	6
1	CHAIRMAN DEAN: Any opposed?
2	Seeing none, motion passes.
3	(OFF THE RECORD FOR RECOGNITIONS AND CONSENT AGENDA)
4	(BACK ON THE RECORD)
5	X.1: STATE BOARD REVIEW OF PLSB 20-121 ETHICS HEARING
6	COMMITTEE RECOMMENDATION - TIFFANY GANT
7	CHAIRMAN DEAN: Now we are down to our Action
8	Agenda. This first one is Ethics Hearing Committee
9	Recommendation for Tiffany Gant, and the presenter is
10	Ms. Amy Douglas.
11	Good morning.
12	MS. DOUGLAS: Educator Gant is here. Let me go
13	get her from her attorney is not here
14	CHAIRMAN DEAN: Okay.
15	MS. DOUGLAS: but she is present.
16	CHAIRMAN DEAN: Okay.
17	(A FEW MOMENTS OF SILENCE)
18	CHAIRMAN DEAN: Did we lose her?
19	MS. DOUGLAS: Mr. Dugan is going to look for
20	her.
21	CHAIRMAN DEAN: Okay.
22	MS. DOUGLAS: She was here, but it seems like
23	she stepped out. If you guys want to go to the next
24	thing
25	CHAIRMAN DEAN: Yes.

7 1 MS. DOUGLAS: -- and come back and see if we can find her.' 2 CHAIRMAN DEAN: Let's do that. 3 CONSIDERATION OF CHARTER AUTHORIZING PANEL DECISION -4 5 AMENDMENT REQUEST FOR LISA ACADEMY CHAIRMAN DEAN: Next on the agenda is the 6 7 Consideration of Charter Authorizing Panel Decision for LISA Academy, and that's Ms. Tracy Webb. I know 8 9 she's out in the hallway. There she is. 10 Good morning, Ms. Webb. Welcome. 11 12 MS. WEBB: Good morning. Tracy Webb from the Charter Office. 13 Today we have a consideration of a Charter 14 15 Authorizing Panel decision for LISA Academy. 16 have requested to add a new campus for a hybrid school, additional waivers for the new campus, and to 17 18 increase the enrollment cap. LISA's charter was originally approved in 2004 and serves students in 19 grades K-12. The enrollment cap for this year -- I'm 20 21 sorry -- for this year is 3,432 students. So the decision for the Board today is to review 22 23 or not review the cap decision. 24 I also want to clarify on the list of waivers

that are attached those are new waivers for LISA, in

25

	8
1	addition to what is already approved for the whole
2	school. So the waivers that are attached are just
3	for the hybrid school.
4	CHAIRMAN DEAN: Okay.
5	MS. WEBB: And today we do have Dr. Bogrek is
6	on Zoom if you have any questions.
7	CHAIRMAN DEAN: Welcome, Dr. Bogrek.
8	SUPT. BOGREK: Thank you.
9	CHAIRMAN DEAN: All right. I'll start here with
10	Ms. Newton. Do we have any questions or comments for
11	LISA Academy?
12	MS. NEWTON: I just had two clarifying
13	questions.
14	The increase in the cap of 1,050, that was
15	strictly for the hybrid?
16	SUPT. BOGREK: Yes.
17	MS. NEWTON: Okay.
18	SUPT. BOGREK: Just for the hybrid school.
19	MS. NEWTON: Okay. And then the hybrid is going
20	to be K-12 instead of K-9 next year?
21	SUPT. BOGREK: Yes.
22	MS. NEWTON: Okay, that was all I had. Thank
23	you. Good luck.
24	CHAIRMAN DEAN: Okay. And Dr. Moore?
25	DR. MOORE: I do. I don't plan to review, so I

do have a few questions, if that's okay for you-all. 1 2 CHAIRMAN DEAN: Okay. 3 DR. MOORE: When you're planning this school are your teachers going to be solely with this school or 4 are they going to be some of the teachers at your 5 existing school? And what will that relationship 6 7 teaching online and in-person look like? 8 SUPT. BOGREK: Mr. Sahin. 9 MR. SAHIN: I'll answer this question. This is 10 Sahin. I'm the assistant superintendent at LISA 11 Academy. 12 So, yes, we are going to have dedicated staff 13 for hybrid, for the hybrid school. DR. MOORE: Okay. I think this is a unique 14 15 situation that probably was born out of this past 16 year and I think it's a great opportunity that parents would be able to take advantage of that 17 18 primarily online but also having the site visits. Ιf a parent was far enough in the state that they 19 couldn't reach a site, would -- could they still 20 21 enroll in the program, in the school? 22 MR. SAHIN: Yes. So, yes, they will still --23 they are going to be able to apply for our school. 24 But one of our requirements, you know, to belonging 25 for our parents and their student is to come on-site.

1	So we are going to ask our parents and students to
2	come to our either the satellite learning services
3	or campus learning services twice a week I'm sorry
4	once twice a month or once a week. So they
5	will be able to enroll but they will need to come to
6	a learning center.
7	DR. MOORE: Okay. I think I saw I think it's
8	great that you would provide lunches to those
9	families. I think you're ameliorating some of the
10	concerns that we've had this year.
11	And my last question is will technology be
12	provided by you all for families that lack internet
13	services?
14	MR. SAHIN: So we are going to provide
15	Chromebooks to all of our students. Also, if the
16	parents don't have the, you know, internet service we
17	are going to provide hotspots.
18	DR. MOORE: Okay. Thank you.
19	MR. SAHIN: You're welcome.
20	CHAIRMAN DEAN: All right. Thank you, Dr.
21	Moore.
22	Ms. Chambers? No?
23	MS. CHAMBERS: No questions. Thank you.
24	CHAIRMAN DEAN: Okay. Ms. Woods?
25	MS. WOODS: No.

CHAIRMAN DEAN: Okay. Ms. McFetridge?

MS. McFETRIDGE: Can you help me understand what your satellite learning centers will be? Are they outside of your regular buildings that you now have?

MR. SAHIN: Yes. So what we're going to do is that first year we are going to start -- this is going to be a combination of virtual school and traditional learning. So we would like to reach out to as many families as we can in the state of Arkansas, so we are going to start with campus learning centers; so we are going to ask our students to come to onsite. And then if we have enough applications or interest in the other regions of Arkansas, then we are going to open satellite learning centers. The satellite learning centers are going to do the services like for enrichment services, support services, and financial services, or some of the services that cannot be given virtually, like occupational therapy or dyslexia -some portions of dyslexia. So we are going to these learning centers. The learning centers are going to be a separate building; they are going to be usually office buildings, maybe churches, a safe place for our students and for our teachers.

MS. McFETRIDGE: So you don't have these

1	facilities	identified	yet;	is	that	right?	

MR. SAHIN: I'm sorry, Ms. McFetridge, I cannot hear you. I think you are muted.

MS. McFETRIDGE: So you haven't identified the satellite buildings as yet; is that correct?

MR. SAHIN: Not for the first year, no.

MS. BARONI: If I may, I'm Luanne Baroni. I'm assistant superintendent for LISA Academy.

Just to clarify that, for the first year we plan to use campuses that already exist for our learning centers.

So, in central Arkansas we'll be using our building at 21 Corporate Hill Drive, which is where our 6th grade academy/middle school is currently. We have additional space in that building that will be dedicated to the hybrid school administration. We'll also be using the Springdale campus, on Holcomb Street in Springdale, the first year. So the first year we plan to operate out of those two locations as our learning centers. And then as we determine demand across the state we will then look at facilities for those, and they will most likely be leased portions of buildings, as Mr. Sahin said, in churches, community centers, other safe locations, where we can lease the space that we need to provide

	13
1	those services in those satellite areas.
2	MS. McFETRIDGE: Thank you very much. I
3	appreciate that.
4	CHAIRMAN DEAN: Mr. Lookadoo?
5	MR. LOOKADOO: (shaking head from side to side.)
6	CHAIRMAN DEAN: Well, okay.
7	Well, if we have no further questions or
8	comments then I'll look for a motion.
9	MS. McFETRIDGE: I make the motion not to
10	review.
11	CHAIRMAN DEAN: Okay. We have a motion to not
12	review by Ms. McFetridge.
13	DR. MOORE: Second.
14	CHAIRMAN DEAN: Seconded by Dr. Moore.
15	All in favor say "aye."
16	(UNANIMOUS CHORUS OF AYES)
17	CHAIRMAN DEAN: Any opposed?
18	Seeing none, motion passes.
19	Okay. Do we did we find Ms. Gant?
20	MS. DOUGLAS: Yes.
21	CHAIRMAN DEAN: Okay.
22	SUPT. BOGREK: And thanks so much. We really
23	appreciate you.
24	CHAIRMAN DEAN: Oh, yes, thank I'm sorry
25	thank you. Thank y'all for joining us today, and

	14
1	congratulations.
2	X.1: STATE BOARD REVIEW OF PLSB 20-121 ETHICS HEARING
3	COMMITTEE RECOMMENDATION - TIFFANY GANT (cont.)
4	MS. DOUGLAS: Good morning. Amy Douglas with
5	PLSB.
6	Today we are here for a hearing, a State Board
7	review of an evidentiary hearing regarding educator
8	Tiffany Gant.
9	I have passed out to those that are present
10	I'm not sure if the email was forwarded by Ms.
11	Williams this morning. But her attorney, Mr. Valley,
12	is in court in Hernando, Mississippi, and is asking
13	for a one-month continuance on this case. I have not
14	spoken to Ms. Gant this morning, but he did send that
15	email this morning and I spoke to him yesterday.
16	So, whatever pleases the Board.
17	CHAIRMAN DEAN: Okay. Do we have any questions
18	or comments?
19	MS. WOODS: I know this is like the third or
20	fourth time we've continued this. Is there any issue
21	on the part of Ms. Gant? Is she currently teaching
22	or
23	MS. DOUGLAS: To my knowledge, she is not
24	teaching.
25	Correct?

	15
1	MS. GANT: I am not currently teaching.
2	MS. DOUGLAS: She is not currently teaching.
3	CHAIRMAN DEAN: Okay. So what's the pleasure of
4	the Board?
5	MS. NEWTON: It seems like we've continued it
6	several times. I'm okay with continuing it one more,
7	but I think this would probably be the last time that
8	I would be willing to do that.
9	CHAIRMAN DEAN: Okay. Any other comments or
10	questions?
11	MS. WOODS: I do think since she's hired an
12	attorney we need to let him be here for this.
13	CHAIRMAN DEAN: Yeah, I would agree.
14	So with that, do we have a motion?
15	MS. WOODS: I'll move to continue.
16	CHAIRMAN DEAN: We have a motion by Ms. Woods to
17	continue.
18	MS. NEWTON: Second.
19	CHAIRMAN DEAN: Seconded
20	MS. CHAMBERS: Could we
21	CHAIRMAN DEAN: I'm sorry; Ms. Chambers?
22	MS. CHAMBERS: Does that motion include this is
23	the last time we would continue?
24	SECRETARY KEY: I don't think you can do that.
25	I wouldn't advise doing that, anyway. Let me I'll

	16
1	just say I mean that could be the opinion and that
2	may be what y'all end up doing, but I would just
3	this action I would suggest just be a continuance. I
4	think our folks at PLSB can contact Mr. Valley and
5	make sure he understands the opinion or the sense of
6	the Board is that this has been extended several
7	times and it needs to be brought to a conclusion.
8	MS. DOUGLAS: Absolutely.
9	MS. CHAMBERS: Thank you.
10	CHAIRMAN DEAN: Thank you.
11	So we have a motion on the floor by Ms. Woods.
12	Do I have a second?
13	MS. NEWTON: Second.
14	CHAIRMAN DEAN: Seconded by Ms. Newton.
15	All in favor say "aye."
16	(UNANIMOUS CHORUS OF AYES)
17	CHAIRMAN DEAN: Any opposed?
18	Seeing none, motion passes.
19	MS. DOUGLAS: I will send him notice for the
20	April 8th State Board meeting.
21	CHAIRMAN DEAN: Okay. Thank you.
22	Thank you, Ms. Gant, for joining us today.
23	Okay.
24	MS. GANT: Thank you for your time.
25	CHAIRMAN DEAN: You're welcome.

1	X.3: CONSIDERATION OF APPROVAL TO ALLOW ADE DEVELOPED COMPUTER
2	SCIENCE AND COMPUTING YEAR 1 COURSES TO BE TAUGHT TO 8TH
3	GRADERS BY ANY ARKANSAS PUBLIC SCHOOL DISTRICT
4	CHAIRMAN DEAN: Okay. Next we have
5	Consideration of Approval to Allow ADE Developed
6	Computer Science and Computing Year 1 Courses to be
7	Taught to 8th Graders by any Arkansas Public School
8	District. All right. And we have Mr. Anthony Owen
9	presenting.
10	Good morning, welcome.
11	MR. OWEN: Thank you. Good morning. Anthony
12	Owen, Arkansas Department of Education, Office of
13	Computer Science.
14	I'd like to start just first by saying congrats
15	to Superintendent Poore, a well-deserved honor, and
16	it's been a pleasure for our office to work with him
17	on various projects over the past few years.
18	By the way, I do like Cracker Barrel if anybody
19	wants to take me there.
20	That said, I also want to quickly just let
21	everybody know that we did announce our results of
22	our all-region coding competition last Friday. So if
23	you have not seen those, please go out and look at
24	those. But I want to draw attention to one specific
25	thing. I want to give accolades to all the students.

This was the first year that we had a team of one student who made it into the top 17 teams across the state. So we were very impressed by this student, Brayden Pierce, from Bryant High School, who is also an Eagle Scout at Troop 17 Boy Scouts. So I didn't realize that until my wife pointed it out to me a couple of days later; she was like, "You know Brayden." I'm like, "Oh, okay." So by the way, I was not in the scoring; another group does that. I just verify it. So, but congrats to all those teams and they will progress to the state competition on May 1st of this year. So, good luck to each of them.

That said, the motion before you that we're requesting today is that -- this is not without precedence. Let me start by saying that. I brought to this board -- not this particular board but to the State Board of Education the first time that we considered Algebra I, for a blanket approval, to be taught at 8th grade across the state without additional requirements placed on the school of filling out paperwork. We do have a process for this where schools can already apply for each of these, and basically they submit the information through our course approval system and we look at it. And pretty much as long as they have a teacher that they've

indicated that is going to be a proper license it's approved; there's no real in-depth look at what curriculum they're using or anything of that nature, because we don't have regulatory authority to do that. They have to teach the standards.

So what we're asking is that all of our year-1 courses that you all approved in December and January, that come into effect this fall, would be automatically approved for any school district to offer to 8th grade students without going through that course approval process.

To be completely transparent, this is getting out in front of Senate Bill 107 a little bit. Senate Bill 107 language within that bill says that the ADE will identify at minimum four courses that will -- that we will basically do this for, that we will say that can be taught to 8th grade or without additional approval. We just went ahead and selected all nine of our first year courses because, as you recall, our nine first-year courses that we developed all had the same set of standards; they're just taught through various lenses for that first-year course. So it really wouldn't make sense to adopt four and not the other five.

And I'm happy to answer any questions.

	20
1	CHAIRMAN DEAN: Okay. Thank you.
2	I'll start with Mr. Lookadoo.
3	MR. LOOKADOO: I don't have any questions, but I
4	think this is good and I'm excited to give those 8th
5	graders that chance to earn that credit. I think
6	that's wonderful. So thank you for your work.
7	MR. OWEN: Thank you. We're excited for this
8	because, one, it will give schools additional
9	flexibility in determining where if Senate Bill
10	107 passes and is signed into law, where they
11	establish that high school credit that will be
12	required under that bill. But also, you know, 8th
13	graders at earlier and earlier ages, our students
14	are starting to determine their pathways in life.
15	And I you know, the Office of Computer Science
16	believes that we should be allowing these students to
17	start determining those high school credits when
18	they're ready for that and when they have enough
19	knowledge to start making those decisions
20	CHAIRMAN DEAN: Right.
21	MR. OWEN: of where they want to go.
22	(COURT REPORTER'S NOTE: Dr. Hill arrived to the
23	meeting at 11:12 p.m.)
24	MR. OWEN: And this provides them additional
25	opportunities for those upper level courses for those

	21
1	students who want to go beyond just that first year.
2	CHAIRMAN DEAN: Yeah. All right.
3	Ms. McFetridge.
4	MS. McFETRIDGE: I just want to say I think this
5	is so exciting and I do appreciate all of your work.
6	MR. OWEN: Thank you.
7	MS. McFETRIDGE: Yeah.
8	MR. OWEN: Happy to do it. Blessed to do it.
9	CHAIRMAN DEAN: Ms. Woods.
10	MS. WOODS: I don't have any questions. I just
11	wanted to tell you I love every time I see you on our
12	agenda. I think everything that you bring to us is
13	very, very neat and I'm thrilled to be a part of it.
14	MR. OWEN: Thank you. Again, I'm very blessed
15	to be where I am and happy to do it.
16	CHAIRMAN DEAN: Ms. Chambers.
17	MS. CHAMBERS: I love to see a technical person
18	celebrated this way. It's awesome. I do love this.
19	I'm dating myself, but they put something like this
20	in place when I was a kid and you could take math and
21	science in 8th grade and you could start, just what
22	you said. And it accelerates the path, actually I
23	think supports all the good further supports all
24	the good that we're trying to do in the state. So
25	thanks for what you're doing.

1 MR. OWEN: Thank you.

CHAIRMAN DEAN: Dr. Moore.

DR. MOORE: Yes, thank you.

So do you know -- how many -- do you think there are many middle schools that were prepared to teach these courses? What does that look like?

MR. OWEN: So, you know, the licensure will not change. The licensure requirements will still remain that they have --

DR. MOORE: Okay.

MR. OWEN: -- the teacher has to have the 528 computer science licensure, which is actually a 4-12 licensure range. We call it the high school licensure, but we've put it that 4-12; that way any teacher could test into it if they can meet that content knowledge Praxis. So they either have to have the 528 of 5016 approval code or 5014 technical permit that has been around for, you know, four or five years now. We just launched a 5013 technical permit, which is open to classified staff members that have at least one year of experience directly with students and they meet certification or training requirements. They can get a technical permit to teach the first-year courses only. So what we see is -- the potential of this is that a school that might

22

23

24

25

have a technology resource teacher or an IT person who has a background in technology but they're at that middle school, they could go out and apply for this technical -- this 5013 technical permit and potentially be allowed to teach that at the middle school level. But the licensure doesn't change for these; the licensure remains the same. To your question directly, because I know I didn't answer exactly what you asked, I think this will not be extremely widely used initially. But I think as our schools start developing more and more pathways and options for students and we start seeing an increase in interest by our communities and need by our industries, we're going to see schools start fitting the needs of what our students have to what they're actually doing within the school. Also, just it should be known that if a middle school does take this option at the 8th school -- 8th grade for a student, that does replace that student's coding block requirement.

DR. MOORE: Okay.

MR. OWEN: It also replaces those embedded -- CS embedded standards requirement, because all of those standards are already part of those year-one standards. So it's not like we're just adding

something to them; they're also able to take something off those students.

DR. MOORE: That was actually going to be my next question. Are there pre-requisites, like, you know, could a student with no prior coding class enter these?

MR. OWEN: As a year-one course they should be able to. Yes.

DR. MOORE: Okay. And I think I -- I mean I think it's a fantastic opportunity. There are sometimes concerns that students enroll in an 8th grade course that will go on their transcript for college without realizing the gravity of that. Do you think this will be communicated well with counselors and those teachers so students understand that going in?

MR. OWEN: You know, obviously schools that elect to use this option they're going to have to communicate to their schools the repercussions of this. You know, and we had one superintendent that was really stressing for this being an option for his school, which is part of the reason this legislation was revised to include this. But he's looking at putting in every 8th grade student to meet that graduation requirement. But he said, "We're going to

make sure my 8th grade students know if you don't pass in 8th grade you're going to be taking another course in high school" -- which I hope they take more courses in high school anyway, but I just don't hope that they're repeat courses. I think our office and ADE can help, especially in our communication when we put this out over Commissioner's Memo or whatever communication we have, that we stress the importance of reminding students that if they're utilizing this option that it does have high school transcript repercussions.

DR. MOORE: Right. And do you foresee a large number of districts placing this on 8th grade for that? I would want that to be a student choice at that point in time, when it's on a transcript.

MR. OWEN: We as an office aren't recommending it being mandatory for 8th graders.

DR. MOORE: Yeah.

MR. OWEN: We are giving options to schools.

And I don't know every school district's situation or superintendent's situation, how they're going to manipulate their schedule, but there may -- or "manipulate" is not the best word, but finagle their schedule for students. But we believe that -- one, yes, we believe every student should have at least

one Computer Science credit before they graduate, as the Senate Bill 107 outlines. But we also believe that students should have some flexibility and schools have flexibility of how they implement that graduation requirement, which is part of this request.

DR. MOORE: Okay. Thank you.

SECRETARY KEY: And, Dr. Moore, this gives me an opportunity to plug, as we've been plugging for several years now, our Student Success Plans.

DR. MOORE: Yeah.

SECRETARY KEY: These are decisions that should be made, especially for 8th graders, in conjunction with that development of the Student Success Plan that we expect every student to have by 8th grade. So, you know, those are the conversations that you're talking about that they would need to be made to understand, and the parents or guardians, that, hey, this is -- it's -- this -- it gets real here because you're talking about high school credit and transcripts.

I'd just point out --

Ms. Chambers, you made a comment about technical and it's very true.

But many of you may not know -- Anthony is a

1 good example. Mr. Owen is a good example of somebody who has a great passion and expertise in Computer 2 Science and is obviously pushing this initiative to 3 levels that I don't think anyone really expected in 4 2015, when we started this. But he's also an 5 attorney, you know, he's been to law school, he's 6 7 been a teacher. You know, so the point is -- and I've tried to explain this to some school leaders 8 9 that may not understand why we're wanting a required 10 graduation credit for Computer Science. It's because in the world we're in now we want students to be 11 12 prepared for what they're going into. It doesn't 13 mean we want them all to be computer, you know, app developers, game developers, game designers, 14 15 It's -- you know, when you have a house programmers. 16 built now and everything in that house can be controlled through an app from your phone, you need 17 18 to understand at a basic level how some of those things work, especially when it comes to your 19 20 finances and cyber-security and all those things. 21 mean, look, it's like we want -- we don't expect all 22 of our students to be experts in math when they 23 graduate, but we do expect them to have a basic level 24 of understanding in those math concepts that we've 25 outlined as a state. The same -- and that's the

concept here, the Governor's idea on computer science; it's giving them that basic ground level understanding and it is flexibility. So providing this for 8th graders, this flexibility that is, as Anthony said, not without precedent. But we see it as opportunity though too with 400 to 800 million jobs that will be going away due to automation over the next decade or so, according to McKinsey; you know, what are those -- how are those -- those jobs are going away, but they will be replaced. What will they be replaced with, and who will the workers be, and what skills will they need to replace the workers that are, you know, are moving out. And it's this type of thing. It's -- you know, you look at this list and -- data science, cyber-security, networking, robotics, mobile app development. You know, those are the things that our young people need to have that understanding of and then maybe generate the interest in moving on into the deeper learnings in those fields.

MR. OWEN: Thank you, Secretary. Well said.

MS. NEWTON: Congratulations.

MR. OWEN: Thank you, Ma'am.

MS. NEWTON: I know it's been a lot of work on your part and it's exciting for our state.

One of the things that I've thought about all through this is the demand for Computer Science teachers is probably through the roof in districts; you know, there's just not enough people to go around. And so one of the things that you said just a few minutes ago -- that is one of my husband's favorite sayings is "first I ever heard of that" -- is that 5013 technical permit. And that's exciting to me because I think that most districts have an IT person; you know, there's very few districts that don't have somebody on staff. And so that's kind of exciting that that would open that door for a district to be able to, you know, have someone on staff to be able to get these classes taught.

My question though is are you seeing much -because the teachers are in such high demand -- and I
know it's not till next year, so you may not even
know yet -- is there much sharing between districts
of a teacher? You know, there's one teacher and
they're in such high demand maybe two or three
districts might go together and share that teacher.
Are you seeing any of that?

MR. OWEN: So we have not seen empirical evidence of that yet. We have had discussions with various schools that have inquired if that's an

option. Of course, that remains an option for them. The legislation does require the school district to employ a teacher as a district employee, a certified teacher. But that doesn't have to be their only duty; that doesn't have to be their only certification; and it doesn't also say they have to be only an employee of that district.

MS. NEWTON: Right.

24

25

MR. OWEN: But they have to employ a certified CS teacher. I think those are things that as Ms. Freno's team and our office and the Secretary's office works through rule promulgation, once this legislation -- if it's passed, those are the types of questions that we're going to need to clearly outline what that means, what -- and, of course, those rules I'm pretty sure have to come back to y'all for consideration at some point. But those are things that we're already talking about internally, considering what this looks like within a school. We don't want this to be an extreme burden on any This needs to be looked at as an opportunity school. for our --

MS. NEWTON: Right.

MR. OWEN: -- for all of our students and all of our schools. And there was one Senator -- and I

apologize for not remembering his name -- but I was watching the Senate Bill 107 vote -- and I think

Secretary may reference this here in a second -- but he held this booklet up and he turned to the page that shows a discrepancy between male and female enrollment. Well, we're at 28%. And he asked

Senator English, he said, "Senator English, I'm looking at this and this is saying that only 28% of our enrollment at a high school level is female. Is that not a perfect reason of why we should pass this bill?" And I thought that was the best question that was asked all day because it once again demonstrates that CS is an equalizer for our students, but we have equal access to it --

MS. NEWTON: Right.

MR. OWEN: -- across the board.

MS. NEWTON: Yeah. And on the communication front, what kind of communication are you doing to districts and teachers and getting it down to their level on the different avenues for certification? And I'm sure there's support at the state level for them for -- sometimes there's financial barriers and different things. What kind of communications are you doing on that level?

25

MR. OWEN: So our team -- you know, we have the team of nine CS specialists that I can't brag on them enough because without them this initiative -- you know, it's not me; it's -- you know, it's really the team that has got out there and moved us from around about 50 certified teachers in 2015 to over 550 now certified teachers across Arkansas. And it's that team that continues to build those numbers. We're looking at our summer training this summer, which we provide free of charge to teachers; we don't charge anything for any of the training. If an educational consortium has a fee, we reimburse that educational consortium so the school is not even having to pay them for that. We have three of those high school training. And I'm pretty sure I can go ahead and speak to this a little bit because I think the Secretary has mentioned it previously. The Secretary has authorized funding, SR-2 funding to establish a computer science educator academy. We're preparing -- we're finalizing the RFP and communications that will go out about that within the next couple weeks. We are -- we will be looking for a post-secondary partner to award post-secondary graduate credit for teachers that go through that. That will be a free resource. Now we're looking at whether we can pay

24

25

travel and things of that nature, but the training itself is going to be free. The other thing that my team did, we were the first unit that I'm aware of last year that shifted all of our trainings to an online model and so we were able to reach teachers across the state where they were. This summer we are switching back to some face-to-face. But instead of going to every single co-op across the state and providing every training face-to-face to everyone, we're picking different areas and then we're making hybrid instructional models. So we'll have face-toface with a group that is appropriate under Covid guidelines, whatever they may be at that point. And then we will provide that training with support staff on the Zoom platform for people who can't be there face-to-face, maybe because they have health issues or just travel or whatever. So our office is really responsive to trying to meet teachers where they are and not let finance be a barrier to teachers in any form or fashion.

MS. NEWTON: That's great. Thank you. Thank you.

DR. HILL: I just want to echo everybody else and just let you know anything that we can do to help with the digital divide in the underserved community

through the churches or whatever please feel free to call on our support. I do recognize that is an issue as we're out in what I do daily in the underserved communities. It's just not putting -- it's just not getting deliverables there but helping support to execute deliverables, you know, with the technology. So anything that I can do to assist anywhere in the state please feel free to call on me.

MR. OWEN: Thank you, sir.

And I will mention on that thread, because I did mention it earlier about the teacher academy, we are part of that. And all the details haven't been finalized but we are allowing priority application status to areas with the most need --

CHAIRMAN DEAN: That's great.

MR. OWEN: -- and also both -- and needing an individual or individuals to teach in that area, but also the most needs socio-economically.

DR. HILL: I echo what the Secretary mentioned because oftentimes even the communities don't understand the strategic plan, as he mentioned the importance. And that's why sometimes going through the churches and other educational entities that's there every week, you know, rather than just once a semester to make those announcements to re-emphasize

the goal and objective of what this technology enhancement is going to do for their children long-term. I think that creates a sustainability model to support your goals to those underserved communities. So I appreciate that. And anything that we can do, please let us know.

MR. OWEN: Thank you, Dr. Hill. And I would love to have a follow-up conversation with you because we're always looking at ways to reach our parents and students more directly.

One more thing before whatever happens, I want to give special thanks to Ms. Lori Freno. There were a lot of people that worked on the Computer Science Advancement Act legislation. The Secretary mentioned that I am a lawyer, but they call it "practicing law" for a reason and I don't get to practice a whole lot. But Ms. Freno has been a great resource and honestly a great colleague in a lot of this work that we do, because I'm ignorant on a lot of stuff. I'm a Bar certified attorney; I'm a member of the Arkansas Bar and have been for five years. But because I'm not in a position that practices on a regular basis there's a lot of it that I'm ignorant about. So I just want to say thank-you to Ms. Freno for her support and her helping guide me through some of this.

MS. FRENO: Thank you. It was a pleasure to be involved in all of this, and I had a good time.

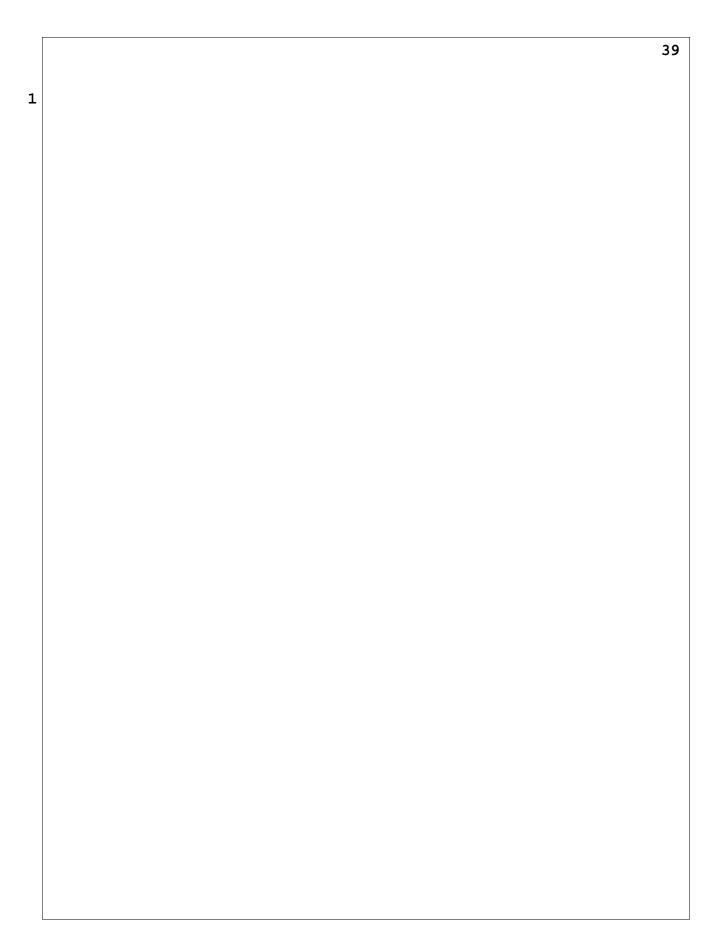

CHAIRMAN DEAN: We are definitely fortunate to have Ms. Freno as part of the team here. We appreciate her expertise and her keen eye. So it's definitely good to have her on that project as well.

And I just want to say I just think this is -this is -- also that we are, as you said before, meeting people where they are. As we're talking about meeting the teachers where they are, this is an opportunity to meet students where they are. As a parent of four, you realize that your students, your kids, they all have different levels of where they are and different talents and skills and things that they gravitate more to. So I think this is just an opportunity for students to succeed. It's just another opportunity to meet children where they are for those that are ready to jump in at 8th grade and get those courses out of the way, because that's just something that they can do, rather than holding them back and making them wait as other students would. We are giving them the opportunity to succeed at an earlier age and at an earlier grade.

So I appreciate all the work that has gone into it and looking forward to the dividends and the

	37
1	benefits that our state will get from this. So thank
2	you so much to the team, and to you as well.
3	MR. OWEN: Thank you.
4	CHAIRMAN DEAN: And with that, if we don't have
5	any other questions or comments then I will look for
6	a motion.
7	MS. CHAMBERS: I would move to approve the
8	computing year-one courses to be taught to 8th
9	graders.
10	And, Anthony, you'll always be technical to me.
11	MR. OWEN: Thank you, Ma'am. Happy to be so. I
12	don't care what you call me as long as you call me.
13	CHAIRMAN DEAN: All right. So we have a motion
14	by Ms. Chambers.
15	MS. McFETRIDGE: Second.
16	CHAIRMAN DEAN: Seconded by Ms. McFetridge,
17	motion to approve.
18	So all in favor say "aye."
19	(UNANIMOUS CHORUS OF AYES)
20	CHAIRMAN DEAN: Any opposed?
21	Seeing none, motion passes.
22	Congratulations and thank you, Mr. Owen.
23	MR. OWEN: Thank y'all so much. Have a blessed
24	day.
25	CHAIRMAN DEAN: You too.

1	Well, with that, lunch is ready. So what we'll
2	do is we'll stop, take a break, and we will meet back
3	here at 1:00 and move on to our second part of our
4	action agenda. So we'll convene until 1:00.
5
