

AGENDA

STATE BOARD OF EDUCATION

August 11, 2016

Arkansas Department of Education

ADE Auditorium

10:00 AM

I. Call to Order

II. Consent Agenda

1. Minutes - July 14, 2016 13

Presenter: Deborah Coffman

2. Minutes - July 15, 2016 25

Presenter: Deborah Coffman

3. Newly Employed, Promotions and Separations 37

The applicant data from this information is used to compile the Applicant Flow Chart forms for the Affirmative Action Report, which demonstrates the composition of applicants through the selecting, hiring, promoting and terminating process. The information is needed to measure the effectiveness of the agency's recruitment, hiring and promotion efforts and is in conformity with federal government guidelines, which require the agency to compile statistical information about applicants for employment.

Presenter: Greg Rogers and Clemetta Hood

4. Consideration of Report on Waivers to School Districts for Teachers 39

Teaching Out of Area for Longer than Thirty (30) Days, Ark. Code Ann. § 6-17-309

Arkansas Code Annotated §6-17-309 requires local school districts to secure a waiver when classrooms are staffed with unlicensed teachers for longer than 30 days. Requests were received from 25

school districts covering a total of 55 waivers. There were also requests for long-term substitutes from 6 school districts requesting a total of 9 waivers for long-term substitutes. These requests have been reviewed, were either approved or denied by Department staff, and are consistent with program guidelines.

Presenter: Cheryl Reinhart

5. Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-083 – Kaley S. Brewer

Violation of Standard 1. An educator maintains a professional relationship with each student, both in and outside the classroom.

Violation of Standard 2. An educator maintains competence regarding his or her professional practice inclusive of skills, knowledge, dispositions, and responsibilities relating to his or her organizational position. The Professional Licensure Standards Board Ethics Subcommittee recommends that the State Board issue a written reprimand and assess a \$50.00 fine. Ms. Brewer did not respond within the required thirty (30) day period.

Presenter: Eric James

6. Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-123 – Rebekah Lee Stroth

Violation of Standard 1. An educator maintains a professional relationship with each student, both in and outside the classroom.

Violation of Standard 2. An educator maintains competence regarding his or her professional practice inclusive of skills, knowledge, dispositions, and responsibilities relating to his or her organizational position. Violation of Standard 3. An educator honestly fulfills reporting obligations associated with professional practices. The Professional Licensure Standards Board Ethics Subcommittee recommends that the State Board issue a written warning. Ms. Stroth accepted the recommendation on June 18, 2016.

Presenter: Eric James

7. Review of Loan and Bond Applications

The members of the Arkansas State Board of Education are

requested to review the following:

Commercial Bond Application – 2 Second Lien and 9 Voted

With the recommendation to approve from the Loan Committee and additional information provided by the school district in its application package:

- Pursuant to Arkansas Code Annotated § 6-20-805 concerning the Revolving Loan Program, the State Board of Education, in its discretion and after considering the merits of each application with the loan committee recommendation, may approve a school district revolving loan application for the full amount of the proposed loan, approve the application for a loan of a lesser amount than requested, or disapprove the application.
- Pursuant to Arkansas Code Annotated § 6-20-1205 concerning school district bonds, a school district shall not sell bonds until the issue is approved by the State Board of Education. Therefore, the State Board of Education, in its discretion and after considering the merits of each application with the loan committee recommendation, may approve a school district bond application for the full amount of the proposed bond issue, approve the application for a lesser amount than requested, or disapprove the application.

Presenter: Cindy Hollowell and Amy Woody

8. Legislative Reports 53

Pursuant to Ark. Code Ann. § 6-13-112, a quarterly status report is provided for each school district currently under state authority.

Presenter: Dr. Richard Wilde

9. Legislative Reports 601

Pursuant to Ark. Code Ann. § 6-13-112, a quarterly status report is provided for each school district currently under state authority.

Presenter: Cindy Smith

10. Consideration of Approval of Education Service Cooperative's Annual Report 670

Pursuant to Arkansas Code Annotated § 6-13-1020, education

service cooperatives shall file annual reports with the Department of Education for State Board approval.

Presenter: Johnny Key

11. Consideration for Public Comment: Proposed ADE Rules Governing the Arkansas Financial Accounting and Reporting System and Annual Training Requirements (AFARS) 2062

Acts 345 of 2015 amended Ark. Code Ann. § 6-20-2204 regarding the Educational Financial Accounting and Reporting Act required training.

Changes to these rules are necessary to implement these changes. ADE staff respectfully requests the State Board release this rule for public comment.

Presenter: Jennifer Davis

III. Action Agenda A. 10:00am

Time: 10:00

1. Consideration of Appeal from Denial of School Choice Application - Kincaid 2083

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Kincaid family appeals the decision of the Bryant School District to deny its children's school choice applications for the 2016-2017 school year. The family resides in the Little Rock School District.

Presenter: Jennifer Davis

2. Consideration of Appeal from Denial of School Choice Application - Molnar 2184

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Molnar family appeals the decision of the Mountainburg School District to deny its children's school choice applications for the 2016-2017 school year. The family resides in the Greenland School District.

Presenter: Jennifer Davis

3. Consideration of Appeal from Denial of School Choice Application - 2224

Newton

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Newton family appeals the decision of the Pulaski County Special School District to deny its child's school choice application for the 2016-2017 school year. The family resides in the Little Rock School District.

Presenter: Jennifer Davis

4. Consideration of Appeal from Denial of School Choice Application - 2261
Wall

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Wall family appeals the decision of the White Hall School District to deny its child's school choice application for the 2016-2017 school year. The family resides in the Pine Bluff School District.

Presenter: Jennifer Davis

5. Consideration of Appeal from Denial of School Choice Application - 2375
Campbell

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Campbell family appeals the decision of the White Hall School District to deny its child's school choice application for the 2016-2017 school year. The family resides in the Pine Bluff School District.

Presenter: Jennifer Davis

6. Consideration of Appeal from Denial of School Choice Application - 2412
Wilson

Pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015, the Wilson family appeals the decision of the White Hall School District to deny its child's school choice application for the 2016-2017 school year. The family resides in the Dollarway School

District.

Presenter: Jennifer Davis

- a. Consideration of Denial from Opportunity School Choice Application 2447

Pursuant to Ark. Code Ann. § 6-18-227 and the Arkansas Department of Education Rules Governing the Opportunity Public School Choice Act, the Wilson Family appeals the decision of the White Hall School District to deny an Opportunity School Choice transfer to its child for the 2016-2017 school year. Family is zoned to attend the Dollarway School District.

Presenter: Jennifer Davis

7. Consideration of Appeal from Denial of Opportunity School Choice Application - Allen 2476

Pursuant to Ark. Code Ann. § 6-18-227 and the Arkansas Department of Education Rules Governing the Opportunity Public School Choice Act, the Allen Family appeals the decision of the White Hall School District to deny Opportunity School Choice Applications to its children for the 2016-2017 school year. Family is zoned to attend the Dollarway School District.

Presenter: Jennifer Davis

8. Consideration of Appeal from Denial of Opportunity School Choice Application - Lucas 2508

Pursuant to Ark. Code Ann. § 6-18-227 and the Arkansas Department of Education Rules Governing the Opportunity Public School Choice Act, the Allen Family appeals the decision of the Pulaski County Special School District to deny an Opportunity School Choice Application for the 2016-2017 school year. Family is zoned to attend the Jacksonville Middle School.

Presenter: Jennifer Davis

9. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Ann Johnson
- Ann Johnson holds an Arkansas Standard Teaching License. The

Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Johnson concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

10. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Robin Johnson

Robin Johnson holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Johnson concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

11. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Julia Rice

Julia Rice holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Rice concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

12. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards,

for Suspension of License- Heather Coats-Richardson

Heather Coats-Richardson holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Coats-Richardson concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

13. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Ashley Nelson

Ashley Nelson holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Nelson concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

14. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Elizabeth Quinn

Elizabeth Quinn holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Quinn concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: ivy Pfeffer

15. Consideration of the Recommendation of the Office of Educator Effectiveness, National Board for Professional Teaching Standards, for Suspension of License- Trina Walls

Trina Walls holds an Arkansas Standard Teaching License. The Office of Educator Effectiveness, National Board for Professional Teaching Standards, recommends suspension of this license for nonpayment of funds expended by the Arkansas Department of Education for National Board Candidacy. Efforts have been made to contact Ms. Walls concerning her nonpayment of funds. The recommendation is for the teaching license to be suspended until payment is made in full.

Presenter: Ivy Pfeffer

IV. Action Agenda B 1:00pm

1. Consideration of Academic Distress Appeal for Mineral Springs High School/Possible Consideration of Mineral Springs High School Meeting the Criteria to be Designated as Being in Academic Distress 2536

The Mineral Springs School District filed an appeal of the identification of Mineral Springs High School as meeting the criteria for Academic Distress. According to Section 3.02.2.1 of the ACTAAP Rules, a school may be identified/classified as being in Academic Distress if 49.5% or less of its students achieve proficient or advanced in math and literacy on the state-mandated criterion referenced assessments administered for the most recent three (3) year period. If the school district's appeal is denied, the State Board must further consider classifying the Mineral Springs High School as a school in Academic Distress.

Presenter: Louis Ferren and Lori Freno

2. District Request for Waivers Granted to Open-Enrollment Charters: Greenbrier School District 2612

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to open-enrollment public charter schools that serve students who reside in the school district. On April 14, 2016, the State Board of Education

approved waivers for the Greenbrier

School District. Representatives of the district are appearing before the Board with another petition for waivers.

Presenter: Mary Perry

3. District Request for Waivers Granted to Open-Enrollment Charters: 2622

Hamburg School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to open-enrollment public charter schools that serve students who reside in the school district. On July 15, 2016, the State Board of Education approved waivers for the Hamburg School District. Representatives of the district are appearing before the Board with another petition for a waiver.

Presenter: Mary Perry

4. Consideration of Arkansas Computer Science Standards and Courses for High School 2629

The Arkansas Computer Science Standards for High School are designed to provide foundational understandings of concepts in computer science that are necessary for students to function in an ever-changing technological world. Through these standards, students will explore, apply, and move toward mastery in skills and concepts related to Computational Thinking and Problem Solving; Data and Information; Algorithms and Programs; Computers and Communications; and Community, Global, and Ethical Impacts. These standards help students learn to accomplish tasks and solve problems independently and collaboratively. These standards give students the tools and skills needed to be successful in college and careers, whether in computer science or in other fields.

The Arkansas Department of Education requests that the State Board place no pre-requisites on the Arkansas Computer Science High School Courses, and allow schools to place students in any of the courses based on ability and desire. The ADE recommends that districts develop and formally adopt a written policy outlining placement protocols. Evaluation tools and placement criteria will be the responsibility of the local districts. Though there are no specific course prerequisites, students enrolling in Advanced Programming, Advanced Networking, or Advanced Information Security should understand and be able to apply the content/concepts found within the Arkansas Computer Science Courses Levels 1 - 4.

ADE recommends schools enroll students across levels and emphases in the same sections of the master schedule (a.k.a. stacking) as long as the number of students do not exceed Standards of Accreditation maximums and/or ratios, and the school can reasonably assure a high-quality educational experience for all students within that section.

ADE requests that the State Board adopt all portions of the documents except the teacher clarification notes. The teacher clarification notes follow the standard[s] to which they apply and are indicated by the word "NOTE."

ADE requests that official implementation of the Arkansas Computer Science Standards and Courses for Grades 9-12 begins during the 2017-2018 school year, with acknowledgement that these standards and courses will replace all existing ADE and Arkansas Career Education computer science courses that year. ADE also requests that the State

Board grant authority for schools that wish to be early adopters of any of these courses, particularly the Independent Study and/or Internship Program be allowed to do so in 2016-2017.

Presenter: Anthony Owen

5. Consideration of the Recommendation to Approve the 2016 Educator Preparation Provider Report 2692

The EPPR provides information on enrollees and graduates at the institutions and reports demographic and statistical data to inform policy decisions. The commitment of EPPs to providing accurate, relevant data in a timely manner demonstrates their dedication and contribution to the success of this effort. All parties involved share an interest in preparing the best possible educators to provide a quality education to all Arkansas students.

The 2016 EPPR report data will be used by the Professional Licensure Standards Board as one data source for program audits.

The 2016 EPPR includes a statewide report and reports for each Institution of Higher Education (IHE) or other organization that offers a state approved preparation program. We ask the Board's approval of the 2016 EPPRs.

Presenter: Ivy Pfeffer

6. Consideration for Final Approval: ADE Rules Governing Home Schools 2693

Act 832 of 2015 amended Ark. Code Ann. § 6-15-504 regarding required testing for home school students. A public comment hearing was held on July 29, 2016. The public comment period ended on July 29, 2016. Public comments were received, but no substantive changes were made. Governor's approval was received on June 20,

2016. Department staff respectfully requests that the State Board give approval for these rules.

Presenter: Jennifer Davis

7. Consideration of 2017 State Board Meeting Schedule 2705

At its December meeting, the Board shall adopt meeting dates for the following calendar year. The ADE requests the 2017 schedule be approved for planning purposes.

Presenter: Lori Freno

8. Consideration of Resolution for State Representative Sheila Lampkin 2706

Presenter: Mireya Reith

V. Public Comment -Dr. Michael Nellums

Dr. Michael Nellums has requested to provide public comment.

Presenter: Dr. Michael Nellums

VI. Consideration for Adjournment

Presenter: Chair Mireya Reith

VII. Work Session - Act 1240 Waivers 2707

Presenter: Mary Perry and Jennifer Davis

**Minutes
State Board of Education Meeting
Thursday, July 14, 2016**

The State Board of Education met Thursday, July 14, 2016, in the Arkansas Department of Education Auditorium. Chair Mireya Reith called the meeting to order at 10:03 am.

Present: Mireya Reith, Chair; Jay Barth, Vice-Chair; Dr. Fitzgerald Hill; Joe Black; Diane Zook; Ouida Newton; Susan Chambers; Brett Williamson; Charisse Dean; and Johnny Key, Commissioner.

Absent: Meghan Ables, 2016 Teacher of the Year.

Consent Agenda

Dr. Barth moved, seconded by Mr. Black, to approve the consent agenda less C-14. Ms. Zook recused from the vote due to knowing one of the persons included in the consent agenda. The motion carried unanimously.

Items included in the Consent Agenda:

- Minutes – June 9, 2016
- Minutes – June 10, 2016
- Minutes – June 27, 2016
- Newly Employed, Promotions and Separations
- Consideration of Report on Waivers to School Districts for Teachers Teaching Out of Area for Longer than Thirty (30) Days, Ark. Code Ann. § 6-17-309
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-021 – David Thomas Cone
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-051- Timothy Lee Eddings
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-052 – Julie B. LaRose
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-089 – Susan Ann Scott-Chambers
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-093 – Cassandra Lynn Schumacher
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-095 – Colton S. Turner
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-099 – Kevin J. Lea
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #16-103 – Jessica Megan Hall
- Update on Adult Education Public Charter School Application Timeline

Consent Item 14 Legislative Reports

Ms. Zook said she wanted to draw attention to the legislative reports that are submitted to legislators on a quarterly basis. She said the public should know that progress reports are being submitted. She also recognized the detail of information contained in the reports. She commended the ADE staff for these reports.

Ms. Chambers moved, seconded by Ms. Zook, to approve consent item 14 legislative reports. The motion carried unanimously.

Action Agenda

A-1 Consideration of Little Rock School District Progress Report

General Counsel Ms. Lori Freno read a prepared letter from Little Rock School District Superintendent Mr. Michael Poore.

Mr. Williamson moved, seconded by Ms. Dean, to approve the Little Rock School District progress report. The motion carried unanimously.

A-2 Consideration of Appeal from Denial of School Choice Application - Dulaney

Staff Attorney Ms. Jennifer Davis said pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015; the Dulaney family appealed the decision of the Cabot School District to deny its child's school choice application for the 2016-2017 school year. She said the family resides in the Jacksonville North Pulaski School District.

Ms. Davis submitted a letter from Dr. Tony Thurman, Superintendent of Cabot School District, stating that the Cabot School District received the school choice application from the Dulaney family and submitted it to the Jacksonville North Pulaski School District. The Cabot School District is willing to accept the school choice application. However, the district was notified by the Jacksonville North Pulaski School District that the application was denied based on JNPSD being a party to a desegregation lawsuit.

Parent Ms. Nacesha Dulaney said her fourteen-year old daughter was on a pathway to success. She said her child was engaged in learning and the next grades are very important to her progress.

Ms. Zook moved, seconded by Mr. Williams, to approve the appeal from denial of school choice application for the Dulaney family. Dr. Barth, Ms. Chambers and Ms. Dean voted no. The final vote was 5-3. The motion carried.

Reconsider Action Item 2

Dr. Barth moved, seconded by Ms. Zook, to reconsider the vote on Action Item 2. The motion carried unanimously.

Ms. Zook moved, seconded by Mr. Williamson, to approve the appeal from denial of school choice application for the Dulaney family. Dr. Barth, Mr. Black, and Ms. Chambers voted no. The final vote was 5-3. The motion carried.

A-3 Consideration of Appeal from Denial of School Choice Application – McAuliffe

Staff Attorney Ms. Jennifer Davis said pursuant to Ark. Code Ann. § 6-18-1901 et seq. and the Arkansas Department of Education Rules Governing the Public School Choice Act of 2015; the McAuliffe family appealed the decision of the Parkers Chapel School District to deny its child's school choice application for the 2016-2017 school year. She said the family resides in the El Dorado School District.

Mr. Seth Williams, representing the Parkers Chapel School District, said the district denied the request based on the exemption from El Dorado School District.

Parent Ms. Kristi McAuliffe said her children have always attended the Parker Chapel School District and requested to continue enrollment in the district.

El Dorado School District attorney Ms. Whitney Moore said that the El Dorado School District was under a desegregation order. She said the students had previously attended Parkers Chapel School District because of a family situation that is not currently applicable and/or may not have been followed legally. Ms. Moore provided a brief history of the 1971 desegregation order. She said the Board should deny the request because the court order denies all school choice and the El Dorado School District declared an exemption.

El Dorado School District Superintendent Mr. Jim Tucker said the district offered STEM classes, electives, Pre-AP, and AP courses. He said the El Dorado Promise was also an incentive for students.

General Counsel Ms. Lori Freno said the attorney general's opinion did identify the Arkansas Department of Education but should apply to the State Board of Education in regard to desegregation orders and school choice.

Public School Accountability Coordinator Mr. Elbert Harvey said the El Dorado School District did submit a plan to become unitary but has not submitted a timeline.

Dr. Barth moved, seconded by Ms. Chambers, to deny the appeal from denial of school choice application for the McAuliffe family. Ms. Newton, Mr. Williamson, and Ms. Zook voted no. The final vote was 5-3. The motion carried.

Reconsider Action Item 3

Dr. Hill moved, seconded by Ms. Newton, to reconsider the vote on Action Item 3. Dr. Barth, Mr. Black, and Ms. Chambers voted no. The final vote was 5-3. The motion carried.

Mr. Williamson moved, seconded by Mr. Hill, to approve the appeal from denial of school choice application for the McAuliffe family. Dr. Barth and Ms. Chambers voted no. The final vote was 6-2. The motion carried.

Additional Discussion Regarding Action Items 2 and 3

Jacksonville North Pulaski School District Superintendent Mr. Tony Wood requested additional information regarding the two previous votes by the Board.

General Counsel Ms. Lori Freno said the State Board considers each action item individually.

The Board voted to reconsider action item 2 and action item 3. (See action items 2 and 3).

Ms. Freno provided additional clarification regarding unitary status for districts under desegregation orders. She also addressed future actions possible for families and districts.

Assistant Commissioner for Public School Accountability Ms. Annette Barnes said the accreditation unit would be reviewing the unitary status plan and timeline submitted by the district. She said the accreditation unit would place a district on accreditation probation if the district does not submit a plan and timeline indicating progress toward unitary status.

Board members requested a progress report from the accreditation unit regarding district submission of plans and timelines to reach unitary status.

A-4 Review of Alleged Violation of State Board Order – PLSB Case No. 14-026; Brett Louis Difani

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said the State Board previously provided an order to Mr. Brett Louis Difani. She said the Professional Licensure Standards Board received information indicating that Mr. Difani

violated the Board's order, dated March 20, 2014, by continuing the sanctioned behavior. She said Mr. Difani is on probation until March 2017. She recommended at least a one-year suspension.

Mr. Brett Louis Difani said he terminated the relationship when notified of the State Board order. He said the relationship reconvened when his wife reached age 18.

Attorney Bill Owens James, Jr. said Mr. Difani followed the State Board order. He said this is an unusual situation but there is no evidence of any improper action.

Dr. Barth moved, seconded by Mr. Black, to order a one-year suspension followed by one-year probation for Mr. Difani. Ms. Dean, Dr. Hill, Ms. Newton, Mr. Williamson, and Ms. Zook voted no. The final vote was 3-5. The motion failed.

Ms. Dean moved, seconded by Mr. Black, to take no action but continue the probation until March 2017 for Mr. Difani.

Dr. Barth moved a substitute motion, seconded by Ms. Newton, to order a three-year probation beginning July 14, 2016, and ending July 14, 2019; a fine of \$75.00; and no future ethical violations for Mr. Difani. The motion carried unanimously.

A-5 State Board Review of PLSB Evidentiary Hearing Findings and Recommendations – PLSB Case No. 15-152; Jamie Gail Morton

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Ms. Jamie Gail Morton made a request for State Board review. Ms. Morton filed written objections and the PLSB filed its response. Ms. Morton submitted an email withdrawing her request for a review.

Ms. Zook moved, seconded by Mr. Black, to approve the PLSB evidentiary hearing findings and recommendations for Ms. Jamie Gail Morton. Mr. Williamson voted no. The final vote was 7-1. The motion carried.

A-6 Consideration of Waiver Request for Teaching License - Michael Magouyrk

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Mr. Michael Magouyrk is seeking a teaching license. On June 8, 2016, the Department notified Mr. Magouyrk that he was ineligible for licensure and employment in an Arkansas public school based on a disqualifying offense enumerated in Ark. Code Ann. § 6-17-410. She said Mr. Magouyrk requested a waiver of the disqualifying offense. Ms. Liwo recommended the State Board grant the waiver request. Mr. Magouyrk did not attend.

Ms. Zook moved, seconded by Dr. Barth, to grant the waiver request for teaching license for Mr. Michael Magouyrk. The motion carried unanimously.

A-7 Consideration of Waiver Request for Teaching License - Marianne Gandolph

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Ms. Marianne Gandolph was seeking a teaching license. She said on June 8, 2016, the Department notified Ms. Gandolph that she was ineligible for licensure and employment in an Arkansas public school based on a disqualifying offense enumerated in Ark. Code Ann. § 6-17-410. Ms. Gandolph requested a waiver of the disqualifying offense. Ms. Liwo recommended the State Board grant the waiver request.

Dr. Barth moved, seconded by Ms. Zook, to grant the waiver requested for teaching license for Ms. Marianne Gandolph. The motion carried unanimously.

A-8 Consideration of Disqualification from Licensure – Jermichael L. Riley

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Mr. Jermichael L. Riley was seeking a teaching license. She said on May 2, 2016, the Department notified Mr. Riley that he was ineligible for licensure and employment in an Arkansas public school based on a disqualifying offense enumerated in Ark. Code Ann. § 6-17-410. Mr. Riley did not respond or request a waiver of the disqualification from the State Board. Ms. Liwo recommended the State Board deny Mr. Riley's application for licensure.

Ms. Zook moved, seconded by Ms. Dean to disqualify Mr. Jermichael L. Riley from licensure. The motion carried unanimously.

A-9 Consideration of Suspension of Teaching License for Nonpayment of Fines - PLSB Case No. 13-148 Chadwick Lance Martin

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Mr. Chadwick Lance Martin holds a standard teaching license and has an outstanding fine of \$100, as ordered by the State Board of Education. Mr. Martin has not responded to collection attempts. She said the PLSB staff requested the suspension of Mr. Martin's license until the fine is paid in full.

Dr. Barth moved, seconded by Ms. Zook, to suspend Mr. Chadwick Lance Martin's teaching license until the fine is paid in full. The motion carried unanimously.

A-10 Consideration of Suspension of Teaching License for Nonpayment of Fines - PLSB Case No. 14-059 Deborah Faye Craig

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Ms. Deborah Faye Craig holds a standard teaching license and has an outstanding fine of \$75, as ordered by the State Board of Education. She said Ms. Craig has not responded to collection attempts. She said the PLSB staff requested the suspension of Ms. Craig's license until the fine is paid in full.

Ms. Newton moved, seconded by Mr. Williamson, to suspend Ms. Deborah Faye Craig's license until the fine is paid in full. The motion carried unanimously.

A-11 Consideration of Suspension of Teaching License for Nonpayment of Fines - PLSB Case No. 14-074 Penny Louise Oden

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Ms. Penny Louise Oden holds a standard teaching license and has an outstanding fine of \$100, as ordered by the State Board of Education. She said Ms. Oden has not responded to collection attempts. She said the PLSB staff requested the suspension of Ms. Oden's license until the fine is paid in full.

Dr. Barth moved, seconded by Dr. Hill, to suspend Ms. Penny Louise Oden's license until the fine is paid in full. The motion carried unanimously.

A-12 Consideration of Suspension of Teaching License for Nonpayment of Fines - PLSB Case No. 14-087 Billy Eugene Carter

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Mr. Billy Eugene Carter holds a standard teaching license and has an outstanding fine of \$100, as ordered by the State Board of Education. She said Mr. Carter has not responded to collection attempts. She said the PLSB staff requested the suspension of Mr. Carter's license until the fine is paid in full.

Ms. Newton moved, seconded by Mr. Black, to suspend Mr. Billy Eugene Carter's license until the fine is paid in full. The motion carried unanimously.

A-13 Review of Fine Assessed by the State Board of Education - PLSB Case No. 14-129 Earl Deer Young

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Mr. Earl Deer Young holds a standard teaching license. On September 11, 2014, the State Board assessed a \$50 fine to be paid by Mr. Young. She said due to extenuating

circumstances, the PLSB staff requested that the State Board rescind the assessed \$50 fine.

Ms. Chambers moved, seconded by Ms. Dean, to rescind Mr. Earl Deer Young's assessed \$50 fine. The motion carried unanimously.

A-14 Consideration of Suspension of Teaching License for Nonpayment of Fines - PLSB Case No. T14-005 Andrea Raye Day

Professional Licensure Standards Board (PLSB) Attorney Ms. Jennifer Liwo said Ms. Andrea Raye Day holds a standard teaching license and has an outstanding fine of \$75, as ordered by the State Board of Education. She said Ms. Day has not responded to collection attempts. She said the PLSB staff requested the suspension of Ms. Day's license until the fine is paid in full.

Ms. Chambers moved, seconded by Dr. Hill, to suspend Ms. Andrea Raye Day's license until the fine is paid in full. The motion carried unanimously.

A-15 Consideration of the Recommendation to Adopt the Professional Standards for Educational Leaders (PSEL)

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said the Council for Chief State School Officers (CCSSO) and the National Policy Board for Educational Administration (NPBEA) have revised the standards that guide preparation and practice for educational leaders in the United States. She said these standards, which were formerly known as the ISLLC standards, articulate the knowledge and skills expected of school leaders. The PSEL standards will be used by many states to guide policies concerning the practice and improvement of educational leaders (e.g., licensure, evaluation and professional learning policies). Ms. Pfeffer said working together, Arkansas Leadership Programs, Arkansas public school leaders, and supporting organizations have recommended adopting the PSEL standards and have drafted a timeline for implementation to take place by 2020.

Dr. Barth moved, seconded by Ms. Dean, to adopt the Professional Standards for Educational Leaders. The motion carried unanimously.

A-16 Hearing on Open-Enrollment Amendment Request: Little Rock Preparatory Academy

Staff Attorney Ms. Jennifer Davis reviewed the hearing procedures.

Public School Program Coordinator Ms. Alexandra Boyd presented documentation to indicate that on May 18, 2016, representatives of Little Rock Preparatory Academy

appeared before the Charter Authorizing Panel, requesting an amendment to their charter. By a five-to-two vote, the Panel approved the request. On June 9, 2016, the State Board of Education voted to review the decision of the Charter Authorizing Panel.

Little Rock Preparatory Academy Superintendent Ms. Tina Long said the mission of LRPA remains committed to serving students. She said all students work on an academic improvement plan to ensure individual growth. She said the school was requesting to relocate the middle school campus relocation for 180 students in grades 5-8.

Public Comment Ms. Nell Matthews, representing the League of Women Voters and Stand up for Little Rock, said this school would be near Henderson Middle School, Little Rock School District. She said it is a choice to attend a charter school or a traditional school. She said this is not a viable system that could harm the district.

Public Comment Ms. Courtney Valentine, Little Rock Preparatory Academy teacher, said students are learning in the current environment but the students deserve the better location.

Public Comment Ms. Amy Jones, Little Rock Preparatory Academy parent, commended the school for the opportunities her child has received. She said the school is a family. She requested the relocation be approved.

Public Comment Mr. Shawn Parker, Little Rock Preparatory Academy student, said he participated in First Team and is doing well in golf.

Public Comment Ms. Monique Robinson, Little Rock Preparatory Academy parent, said she chose the school because the staff worked individually with her children.

Public Comment Ms. Darlinea Wadood, Little Rock Preparatory Academy grandparent and volunteer, said she appreciated the LRPA staff. She said LRPA had a strong parent organization. She supported the relocation. Mr. James G. Stephenson IV, student and grandson, said he was having a great time at LRPA. Ms. Janiya Stephenson, student and granddaughter, said she had been provided many opportunities at LRPA.

Ms. Zook moved, seconded by Mr. Williamson, to uphold the Charter Authorizing Panel action on Open-Enrollment Amendment Request for Little Rock Preparatory Academy. Dr. Barth voted no. The final vote was 7-1. The motion carried.

A-17 Hearing on Open-Enrollment Amendment Request: Haas Hall Academy, Fayetteville and Bentonville Charters

Staff Attorney Ms. Jennifer Davis reviewed the hearing procedures.

Public School Program Coordinator Ms. Alexandra Boyd presented documentation to indicate that on May 18, 2016, representatives of Haas Hall appeared before the Charter Authorizing Panel requesting, an amendment to their charter. By a six-to-one vote, the Panel denied the enrollment cap expansion. By a five-to-two vote, the Panel approved the sibling preference addition to both the Fayetteville and Bentonville charters. By a unanimous vote, the Panel denied the license request to open a campus at the Jones Center in Springdale for the 2016-2017 school year. On June 9, 2016, the State Board of Education voted to review the decision of the Charter Authorizing Panel.

Haas Hall Academy Founder and Superintendent Dr. Martin Schoppmeyer Jr. requested to open the Fayetteville campus at the Jones Center in August 2017.

Haas Hall Academy Executive Director of Marketing Ms. Heather Holaway said the application is available online. She said the lottery is also online. She said a prospective student may visit the school prior to or after the lottery through the shadow program.

Attorney Mr. Mark Henry said the Jones Center contacted Haas Hall to serve a more diverse group of students. He said the school listened to the criticisms about diversity and moving too fast. He said the school moved the opening date forward to 2017. He said he received a letter yesterday from Dr. Jim Rollins, Superintendent of the Springdale School District.

Springdale School District Associate Superintendent Dr. Megan Slocum said the letter from Dr. Rollins came from his heart. She said the concern is that the proposed location is within the Springdale School District. She said that many of the parents that would be targeted to meet the diversity expectations may not be included because they may not have access to technology, travel, and/or access to the school.

Springdale School District Deputy Superintendent Dr. Jared Cleveland said he did meet with Dr. Schoppmeyer. He said he shared his concerns regarding the challenges and opportunities that come with diversity. He said the likelihood of students in poverty attending Haas Hall could be limited by the difficulty with transportation.

Public Comment from Elected Official Representative Jim Dotson said he supported the expansion of Haas Hall.

Public Comment Mr. Avery Mancel, a senior at Springdale High School, said the district was a family that considers all students.

Public Comment Ms. Loretta Mancel, a teacher for the Springdale School District, said much time has been spent on this issue. She said only a limited group of families will apply for Haas Hall. She said the Springdale School District serves all students.

Public Comment Ms. Dawn Graham, a teacher for the Springdale School District, said the teachers work to build the trust of students and parents in diverse communities.

Attorney Mr. Mark Henry said Haas Hall does not keep track of data regarding free and reduced students because the school does not receive federal funding.

Dr. Schoppmeyer said there were no students that qualified for special education services. He said some students receive 504 accommodations. He said an outreach coordinator has been hired with another position to be filled soon.

Dr. Barth moved, seconded by Br. Black, to approve the sibling preference addition to both the Fayetteville and Bentonville charters for Haas Hall. The motion carried unanimously.

Ms. Zook moved, seconded by Mr. Williamson, to approve the enrollment cap expansion for the Haas Hall Fayetteville campus. Dr. Barth voted no. The final vote was 7-1. The motion carried.

Mr. Williamson moved, seconded by Ms. Dean, to approve the license request to open a campus at the Jones Center in Springdale for the 2017-2018 school year for Haas Hall and to require written quarterly reports of collaboration with districts and diversity outreach. Dr. Barth and Ms. Zook voted no. The final vote was 6-2. The motion carried.

A-18 Hearing on District Conversion Amendment Request: Mountain Home High School Career Academies

Public School Program Coordinator Ms. Alexandra Boyd presented documentation to indicate that on May 18, 2016, representatives of Mountain Home High School Career Academies appeared before the Charter Authorizing Panel, requesting an amendment to their charter. By a unanimous vote, the Panel approved the request with the provision of including a written summary report describing the impact the waivers have on ninth grade students to be submitted by June 1, 2017. On June 9, 2016, the State Board of Education voted to review the decision of the Charter Authorizing Panel.

Mountain Home School District Superintendent Dr. Jake Long said it is the district's responsibility to provide an educational system that fits the needs of students. He said Virtual Arkansas would provide online courses that allow students to advance at their own rate of success. He said the requested waivers would allow students to participate in these types of opportunities. He said students would make application for these opportunities and would be matched with the opportunities that enhance their learning plan.

Dr. Long said he welcomed the recommended reporting describing the impact the waivers have on ninth grade students, as previously promised to the Charter Authorizing Panel.

Mountain Home High School Assistant Principal Mr. Ron Czanstkowski clarified how ninth grade students may participate in off-campus learning.

Dr. Barth moved, seconded by Ms. Zook, to approve the waivers for Mountain Home High School Career Academies with a one-year probation of the ninth grade waivers and review of the requested report. The motion carried unanimously.

Adjournment

Mr. Black moved, seconded by Ms. Chambers, to adjourn. The motion carried unanimously.
The meeting adjourned at 5:44 pm.

Minutes recorded by Deborah Coffman.

**Minutes
State Board of Education Meeting
Friday, July 15, 2016**

The State Board of Education met Friday, July 15, 2016, in the Arkansas Department of Education Auditorium. Chair Mireya Reith called the meeting to order at 9:00 am.

Present: Mireya Reith, Chair; Jay Barth, Vice-Chair; Dr. Fitzgerald Hill; Joe Black; Diane Zook; Ouida Newton; Susan Chambers; Brett Williamson; Charisse Dean; Meghan Ables, Teacher of the Year; and Johnny Key, Commissioner.

Absent: Meghan Ables, 2016 Teacher of the Year.

Recognition

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said Arkansas ranks at the top in the number of National Board Certified Teachers.

Dr. Clara Carroll said today 98 new National Board Certified Teachers and 116 renewals would be celebrated. She said research evidence indicates that certified teachers produce increased student achievement.

Ms. Pfeffer recognized Ms. JoAnna Alison, Ms. Tamara Bush-White, Mr. Daniel Darrough, Ms. Kimberly Dickens, Ms. Mary Ferguson, Ms. Jennifer Fithen, Ms. Tamara Gatewood-Williams, Ms. Jasmine Geter, Ms. Amy Griffin, Ms. Ami Griggs, Ms. Michelle Guinn, Ms. Jessica Harris, Ms. Darlene Henry, Ms. Jill Holman, Ms. Kamilla Khoury, Ms. Sara Lawrence, Ms. Amy Leslie, Ms. Stacey Lorenz-Mitchell, Ms. Jennifer Merriman, Ms. Tasha Middaugh, Ms. Haley Morris, Ms. Lacey Robbins, Ms. Susan Sierra, Ms. Alicia Skipper, Ms. Janet Smoot, Ms. Danielle Stewart, Ms. Jana Terrell, Ms. Sheila Williams, and Ms. Candace Wilson as National Board Certified Teachers.

Action Agenda

A-1 Consideration of Reallocation of ABC Grants

Ms. Mary Kaye McKinney, representing the Division of Child Care and Early Childhood Education, said pursuant to the authority granted to the State Board of Education, the Division of Child Care and Early Childhood Education has respectfully requested approval for the reallocation of the AR Better Chance funding for the purpose of expanding existing programs or the development of new programs. She said the funding for these grants resulted from programs either relinquishing their slots or being placed in re-competition. A chart was provided that highlighted the new grants that were initially presented for Round 1 during the June meeting and Round 2 being presented in the July meeting. She clarified that during the introduction of Round 1 of

the reallocation grants, there was one-time start-up funding of \$5,000.00 for the new grantees of Our House, First Baptist Church and Ozark Opportunities. This one-time start-up funding will be added to each grantee grant award and will be increased by that amount. Then, Ms. McKinney introduced Round 2 of the ABC Reallocation Grant Awards.

Dr. Barth moved, seconded by Ms. Zook, to approve for the reallocation of the AR Better Chance funding Round 1 total of \$3,577,380.00; Round 2 total of \$1,294,100.00; and 2016-2017 ABC renewal grants for a total of \$101,613,270.00. The motion carried unanimously.

A-2 Consideration of ABC Payment to the Scholastic Academy - Summer Services

Ms. Mary Kaye McKinney, representing the Division of Child Care and Early Childhood Education, said that the ABC program, Scholastic Academy, was approved during the May meeting to provide summer services. The data management system did not capture the full enrollment of the program's children resulting in the program receiving only a partial payment of \$8,190.00. Therefore, Ms. McKinney requested approval to pay the difference owed to Scholastic Academy which was \$13,650.00. Since this would be from the new fiscal year, this will increase their base grant from \$291,600.00 to \$305,250.00.

Ms. Zook moved, seconded by Ms. Chambers, to approve the ABC payment to the Scholastic Academy summer services for a total of \$13,650 increasing their 2016-17 grant to \$305,250.00. The motion carried unanimously.

A-3 Consideration of Little Rock School District Community Advisory Board Membership

Commissioner of Education Mr. Johnny Key said pursuant to Arkansas Code Annotated § 6-15-430 (2)(A) the commissioner, with the approval of the State Board, may appoint a community advisory board of either five (5) or seven (7) members to serve under the supervision and direction of the commissioner.

Commissioner Key said there was a very strong pool of applicants in the Little Rock School District. He recommended the following membership:

Zone 1 – Ms. Chauncey Holloman
Zone 2 – Ms. Maria Chavarria-Garcia
Zone 3 – Ms. Melanie Fox
Zone 4 – Mr. Jeff Wood
Zone 5 – Mr. Larry Clark
Zone 6 – Mr. Anthony Hampton
Zone 7 – Mr. Freddie Scott

The Board appreciated the opportunity to hear from all of the applicants during the public meeting held June 27, 2016.

Ms. Chambers moved, seconded by Mr. Black, to approve the Little Rock School District Community Advisory Board Membership. The motion carried unanimously.

Discussion of Act 1240 Waivers

Staff Attorney Ms. Jennifer Davis reviewed the methods for districts to obtain waivers of statutes and rules including district conversion charter, waivers granted to open-enrollment charters serving students who reside in the district, and school of innovation designation.

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said core content areas include English, reading or language arts, math, science, history, civics and government, geography, economics, the arts, and foreign language.

Commissioner Key said the Arkansas Department of Education would notify the Arkansas Department of Career Education (ACE) of Act 1240 waivers that involve career education.

The Board requested an analysis of approved and denied Act 1240 waivers during the scheduled work session, August 11, 2016.

Ms. Davis reviewed the procedures for waivers granted to open-enrollment charters.

A-4 District Request for Waivers Granted to Open-Enrollment Charters: Barton-Lexa School District

Division of Learning Services Coordinator Ms. Mary Perry said on January 14, 2014, the State Board of Education approved waivers for the Barton-Lexa School District.

Barton-Lexa School District Superintendent Mr. David Tollett said the district offered many pathways for students. He requested waivers for licensure of core subject areas, class size and teacher loads, and flexible classroom time. Mr. Tollett explained the intent of using the waivers to increase student achievement. He amended his application to apply class size waivers to vocational courses and senior seminar and a teacher load cap of 165 students.

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said reported data indicated a decline in professionals in the education field. She said there are sharp declines in the number of students going into preparation programs in Arkansas.

Dr. Barth moved, seconded by Ms. Newton, to grant the requested waivers for licensure of core subject areas for the Barton-Lexa School District for five (5) years. The motion carried unanimously.

Ms. Newton moved, seconded by Ms. Zook, to grant the requested waivers for class size and teacher loads with noted amendments for the Barton-Lexa School District for five years. Dr. Barth voted no. The final vote was 7-1. The motion carried.

Dr. Barth moved, seconded by Ms. Dean, to grant the requested waivers for flexible classroom time for the Barton-Lexa School District for five years. Ms. Newton and Ms. Zook voted no. The final vote was 6-2. The motion carried.

A-5 District Request for Waivers Granted to Open-Enrollment Charters: Bismarck School District

Bismarck School District Superintendent Ms. Susan Stewart said the district requested one (1) waiver for personalized learning for all students.

Bismarck High School Principal Mr. Larry Newsom said he was very proud of the accomplishments of the students and teachers.

Bismarck School District Curriculum Coordinator Ms. Ellen Coleman said the waiver would permit seniors to have additional opportunities for learning. She said business and college partners are in support of these goals. She said students would complete an application and must be on track to graduate with the locally required 24 credits. She said students would complete a culminating project at the end of the year.

Ms. Zook moved, seconded by Ms. Chambers, to grant the requested waivers for the Bismarck School District for five (5) years. The motion carried unanimously.

A-6 District Request for Waivers Granted to Open-Enrollment Charters: Brinkley School District

Action Item 6 was pulled from the agenda.

A-7 District Request for Waivers Granted to Open-Enrollment Charters: Glen Rose School District

Glen Rose High School Principal Ms. Susan Blockburger said the requested waivers would increase opportunities for students. She requested waivers for school day hours, planned instructional time, and mandatory attendance. She said students would apply

for the opportunities and would be responsible for a culminating activity. She said 11th and 12th grade students must have at least a 2.0 GPA and be on track to graduate.

Ms. Chambers moved, seconded by Ms. Dean, to grant the requested waivers for the Glen Rose School District for five (5) years. The motion carried unanimously.

A-8 District Request for Waivers Granted to Open-Enrollment Charters: Southeast Cooperative Districts

Southeast Arkansas Education Service Cooperative Director Ms. Karen Eoff said 13 districts served by the coop requested the waivers due to the teacher shortage in the area. She said 64 certified teacher positions are vacant today in the region. She said the co-op would partner with National Apprenticeship Training Foundation in the future.

Hamburg School District Superintendent Mr. Max Dyson said southeast Arkansas was working to grow their own future educators.

Warren School District Superintendent Mr. Bobby Acklin said he supported the remarks by Ms. Eoff. He said the teacher shortage was epidemic in southeast Arkansas.

DeWitt School District Superintendent Dr. Lynn Dardenne said the schools were great schools seeking to achieve high goals for students.

Lakeside School District Superintendent Dr. Billy Adams said the district needed the waiver to serve students in mathematics.

Crossett School District Superintendent Mr. Gary Williams said the district had seven (7) open positions, and five (5) positions could be filled if the waiver was approved.

McGehee School District Superintendent Mr. Thomas Gathen said this has been the most difficult year in recruiting teachers, including elementary teachers.

Dermott School District Superintendent Ms. Kristi Ridgell said the district needed high quality teachers.

Dumas School District Director of Special Programs Ms. Camille Sterrett said ten (10) positions are vacant.

Cleveland County High School Principal Mr. Davy King said with one (1) month until schools begins he does not have a qualified applicant for a science position.

Star City School District Director of Student Services Mr. Nathan White requested the waivers be approved. He said the district had four vacancies.

Drew Central School District Superintendent Mr. Billy Williams requested approval of the waiver. He said the Southeast Co-op has provided great professional development. He said the districts were united in their efforts to provide the best teachers for students.

Monticello School District Superintendent Ms. Sandra Lanehart said she also had vacancies. She said the schools need the highest qualified degreed person in the classrooms.

Ms. Eoff represented the Hermitage School District.

Arkansas Education Association (AEA) Executive Director Ms. Tracey Ann Nelson said the organization was concerned about Act 1240 waivers. She said waivers should be considered thoughtfully. She requested the Board consider if waivers align with the district vision, will benefit students and meet anticipated academic gain. She also provided additional guidance for Board consideration regarding how the intended waivers have been communicated.

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said the one-year request was an opportunity to bring people to the education profession. She said this was an opportunity for AEA to work with the Co-op. She said e-school would begin to collect data regarding teachers in core areas teaching without a license.

Ms. Eoff said every district provided educator ethics training each year. She said the Co-op also made the training available. Ms. Eoff agreed that the schools would provide ethics training to all of the educators impacted by the waivers.

Ms. Pfeffer said the ADE would provide a half-day educator ethics training at the Co-op.

Dr. Barth moved, seconded by Ms. Zook, to grant the requested waivers for the 13 districts for one year. The motion carried unanimously.

A-9 Consideration of Adoption of English Language Arts and Disciplinary Literacy Standards

Assistant Commissioner for Learning Services Ms. Stacy Smith said when charged with the task of revising the previous English language arts and disciplinary literacy standards, a group of qualified individuals from across the state came together to craft standards that were specific for the schools and students of Arkansas. The result of this work was the Arkansas English Language Arts Standards and the Arkansas Disciplinary Literacy Standards. Reflecting what Arkansas educators know to be best for students, these standards retain the same structure as the previous standards and work together to ensure that students are college and career ready and on track for success. Ms. Smith said the process was transparent to the public. She said the communication plan began with the revision of the standards and would be on-going.

Public School Program Advisor Ms. Sherri Thorne said the ACT benchmarks were utilized to align the standards. She said the three types of writing – argumentative, narrative, and informational- are included in the standards and the ACT Aspire assessment.

The Board commended the work of the ADE and teachers regarding the quality of the standards.

Commissioner Key applauded the work of the teams on the development of these Arkansas Standards. He recognized the work of the ADE personnel, Arkansas teachers, higher education, and partners.

Ms. Dean moved, seconded by Ms. Chambers, to adopt the English Language Arts and Disciplinary Literacy Standards to be implemented in the 2017-2018 school year. The motion carried unanimously.

A-10 Consideration of Embedded Courses

Assistant Commissioner for Learning Services Ms. Stacy Smith said Act 421 of 2013 allowed curriculum frameworks from two (2) separate courses to be taught in a single course, known as a combined or embedded course. Several school districts made application to the Curriculum and Instruction Unit for approval of a combined or embedded course and assured, in writing that the curriculum frameworks for both courses will be taught fully in the combined or embedded course. She requested the State Board of Education approve the embedded courses with the understanding that when the curriculum frameworks for one of the courses are revised, a new course approval request must be submitted to the State Board of Education and approval must be granted before a school is allowed to offer the embedded course.

Dr. Barth moved, seconded by Ms. Newton, to approve the embedded courses. The motion carried unanimously.

A-11 Consideration for Final Approval: ADE Rules Governing How to Meet the Needs of Children with Dyslexia

General Counsel Ms. Lori Freno said the ADE proposed revisions to these rules to bring them into compliance with Act 1268 of 2015 (codified at Ark. Code Ann. §§ 6-40-601 through 610). She said the proposed rules set forth a process for school district screening of students for characteristics of dyslexia and providing services as appropriate. The State Board released these rules for public comment on January 14, 2016. She said a public hearing was held on February 2, 2016. Many comments were received during the public comment period, resulting in non-substantive changes to the rules. Ms. Freno requested the State Board give final approval to these rules pending Legislative Council review or approval.

Assistant Commissioner for Learning Services Ms. Stacy Smith said the organizations identified in the rules sent representatives to the committee that were knowledgeable regarding dyslexia. She said ADE required statements from district superintendents assuring implementation of dyslexia interventions. She said Ms. Vicki King is the professional development contact for dyslexia and Ms. Robin Stripling is the contact for Special Education regarding dyslexia.

Ms. Zook moved, seconded by Dr. Barth, to approve ADE Rules Governing How to Meet the Needs of Children with Dyslexia. The motion carried unanimously.

A-12 Consideration for Final Approval: ADE Rules Governing Creation of School Districts by Detachment

Staff Attorney Ms. Jennifer Davis Acts 372 and 947 of 2015 amended Ark. Code Ann. § 6-15-1501 et seq. regarding the creation of school districts by detachment. A public comment hearing was held on May 3, 2016. No public comments were received. Ms. Davis said the rules were approved by the Governor on April 14, 2016.

Dr. Barth moved, seconded by Dr. Hill, to approve the ADE Rules Governing Creation of School Districts by Detachment. The motion carried unanimously.

A-13 Consideration for Final Approval: Proposed ADE Rules Governing Arkansas Highly Qualified Teacher Requirements

Staff Attorney Ms. Jennifer Davis said as a result of changes in federal law that eliminated highly qualified teacher status for all except special education, the ADE recommended these rules to ensure that during the state transition to implementation of requirements of the Every Student Succeeds Act, all students would have qualified teachers for core content areas when licensure is waived for charter schools or school districts, and for special education and alternative learning environment teachers. The rules were approved for public comment on May 12, 2016, and a public comment hearing was held on June 16, 2016. She said public comments were received, but no substantive changes were made. These rules have been approved by the Governor in accordance with Executive Order # 15-02.

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said the public comments address concerns that could be addressed in other ways and therefore became clarifications in the rules.

Ms. Newton moved, seconded by Ms. Chambers, to approve the ADE Rules Governing Arkansas Highly Qualified Teacher Requirements. The motion carried unanimously.

A-14 Consideration of Recommendation to Adopt the Praxis™ Fundamental Subjects: Content Knowledge (5511)

Assistant Commissioner for Educator Effectiveness and Licensure Ms. Ivy Pfeffer said as an additional option for educators to demonstrate content knowledge as required with Arkansas Qualified Teacher (AQT) rules, the Department requested Board approval to use the Praxis™ Fundamental Subjects: Content Knowledge (5511) as an assessment for special education teachers with a K-12 license and ALE educators, grades K-12, to use the Fundamental Subjects assessment as a means of demonstrating content knowledge in the area of qualification. She said if approved, ALE educators and K-12 licensed special education teachers who successfully pass this assessment would be qualified under AQT to teach multiple core subjects. Ms. Pfeffer said this assessment would not be used for licensure endorsements or certifications but only for AQT in these circumstances.

Mr. Black moved, seconded by Ms. Chambers, to approve the recommendation to adopt the Praxis™ Fundamental Subjects: Content Knowledge (5511) with a cut score of 148. The motion carried unanimously.

A-15 Recommendations for Schools Classified in Academic Distress

Public School Program Manager Dr. Richard Wilde and members of the academic review team made a presentation of recommendations for schools classified in Academic Distress on April 14, 2016. He said the ADE assigned a cross divisional team of specialists to conduct an onsite review and make recommendations to the State Board of Education, the superintendent of the school district, and principal of the school. He said once reviewed by the State Board of Education, the recommendations would become binding on the district for implementation. He said the process included a review of written documents and interviews.

Ms. Zook said the Special Committee on Academic Distress would use the recommendations to measure the progress of the schools in academic distress.

Ms. Dean moved, seconded by Dr. Barth, to approve the report and recommendations for schools classified in Academic Distress. The motion carried unanimously.

Mr. Wilde also proposed a yearly schedule for reporting by the schools in Academic Distress.

Dr. Barth requested the Pulaski County Special School District and Helena-West Helena School District review date be moved from November 10 to December 8.

Ms. Zook moved, seconded by Mr. Williamson, to approve the proposed reporting schedule for schools in Academic Distress for 2016-2017, with modifications. The motion carried unanimously.

A-16 Approval of Cut Scores for ACT Aspire

Director of Student Assessment Ms. Hope Allen requested approval of the ACT Aspire established cut scores for Arkansas students. She said the cut scores would allow Arkansas to have national comparisons with other states that are also assessed with the ACT Aspire, as well as provide schools with guidance about which performance levels will require an academic improvement plan. She said students scoring at or above the benchmark are on target to meet the corresponding ACE College Readiness Benchmarks in Grade 11. She said ACT Aspire readiness levels are exceeding, ready, close, and in need of support. She said academic improvement plans would be assigned based on ELA, math and science scores.

Dr. Barth moved, seconded by Ms. Zook, to approve the cut scores for ACT Aspire. The motion carried unanimously.

Reports

Report-1 Chair's Report

Chair Mireya Reith said current subcommittees include Academic Distress, Science, and ForwARd. Ms. Reith formally closed the dyslexia committee and ELL committees. She appointed Ms. Chambers to join her on the National Association of State Boards of Education (NASBE) – Deeper Learning committee. Commissioner Key requested Ms. Newton participate on the ESSA steering committee.

Ms. Reith acknowledged the Act 1240 work session scheduled for August 11, 2016. She recommended combining the ForwARd work session with the NASBE-Deeper Learning work session in September 2016. Ms. Reith recommended work sessions on ESSA for the remainder of 2016.

Dr. Barth said six states were represented at the recent regional NASBE meeting. He appreciated Commissioner Key presenting at the meeting.

Dr. Barth said the National NASBE meeting would be held October 19-22 in Kansas City.

Ms. Newton recognized that a mentoring teacher was co-teaching one period a day with the novice teacher. She said this could be a great model to other schools.

Report-2 Commissioner's Report

Commissioner Johnny Key introduced Ms. Katrina Craft. Ms. Craft shared updates regarding Arkansas Data Privacy. The Arkansas Department of Education launched the new Data Privacy website available for districts, parents, and the public. The website was developed to increase transparency, provide resources on how educational data is used and share information on safeguarding data. The website is available at <http://www.arkansased.gov/divisions/research-and-technology/data-privacy>. Ms. Craft said a training module has been developed and upon successful completion of the module, a certificate may be printed or saved as documentation of completing data privacy training.

Commissioner Key introduced the next video in the Innovation in Arkansas Education series. The Fountain Lake Charter High School video is posted on the ADE website at <http://www.arkansased.gov/divisions/learningservices>. He said the video highlighted the great work being done in Arkansas schools.

Report-3 Learning Services Report

Assistant Commissioner for Learning Services Ms. Stacy Smith recognized the excellent work by Student Assessment Director Ms. Hope Allen.

Ms. Hope Allen presented the ACT and ACT Aspire data report. She said 292,532 students tested during the 2015-2016 school year. She said in grades 3-8, Arkansas scored at or above the national average in all grades and subjects except grades 4,5 and 8 in writing and grades 4 and 8 in English. She said in grades 9-10, Arkansas students scored below the national average in all subjects except in writing and in reading in grade 10.

Report-4 Priority School 4th Quarter Progress Reports

Public School Program Manager Dr. Richard Wilde provided the quarterly progress reports related to Schools in Priority Status as established by the Elementary and Secondary Education Act (ESEA) Flexibility Waiver. He said these fourth quarter reports are summaries of the school year. He said the schools reported on common data points in the 2015-2016 reports. He said the School Improvement Unit would differentiate support for the schools based on the data. He said some of the schools needed more sophisticated actions for failing students. He said the schools would also be surveying the teachers about their perceptions of support next school year.

Public Comment

Ms. Chambers moved, seconded by Ms. Zook, to hear public comment. The motion carried unanimously.

Public Comment Reverend Marie Mainard O'Connell read a prepared statement from Violet Graham. Ms. Graham requested the Board take action in support of transgender youth. Reverend O'Connell shared data regarding the suicide rate of transgender persons.

Public Comment Human Rights Campaign Director Ms. Kendra Johnson asked the Board to take a stance for the dignity and equality of all students.

Adjournment

Dr. Barth moved, seconded by Dr. Hill, to adjourn. The motion carried unanimously. The meeting adjourned at 4:15 p.m.

Section 1

Second Lien Bonds

Arkansas Code Annotated (A. C. A.) § 6-20-1229 (b) states the following:

(b) All second-lien bonds issued by school districts shall have semi-annual interest payments with the first interest payment due within eight (8) months of the issuance of the second-lien bond. All second lien bonds shall be repaid on payment schedules that are either:

- (1) Equalized payments in which the annual payments are substantially equal in amount; or
- (2) Decelerated payments in which the annual payments decrease over the life of the schedule.

Section 3

Voted Bonds

Arkansas Code Annotated (A. C. A.) § 6-20-1201 states the following:

A school district may borrow money and issue negotiable bonds to repay borrowed moneys from school funds for:

- (1) Building and equipping school buildings;
- (2) Making additions and repairs to school buildings;
- (3) Purchasing sites for school buildings;
- (4) Purchasing new or used school buses;
- (5) Refurbishing school buses;
- (6) Providing professional development and training of teachers or other programs authorized under the federally recognized qualified zone academy bond program, 26 U.S.C. § 1397E;
- (7) Paying off outstanding postdated warrants, installment contracts, revolving loans, and lease-purchase agreements, as provided by law.

Building Leadership Teams	Page 2
Next Steps	Page 3
Attachment A	Page 5

Background

The Arkansas State Board of Education took action on April 14, 2016, to re-classify Dollarway High School as Academic Distress and to newly classify Robert F. Morehead Middle School on the same date. The criteria for this classification was based on having 49.5%, or less, of the students achieving proficient or advanced in math and literacy on the state assessment for the most recent three (3) year period. The Dollarway School District as a whole was classified in Academic Distress based on overall levels of student proficiency.

In accordance with the *Arkansas Department of Education Rules Governing the Arkansas Comprehensive Testing, Assessment and Accountability Program* (ACTAAP) and the Academic Distress Program (10.06.2 and 10.06.3) the Arkansas Department of Education (ADE) appointed a team to conduct on site reviews of the Dollarway School District, Dollarway High School and Robert F. Morehead Middle School. Review teams consisted of members from the Educator Effectiveness Unit, School Improvement Unit, and Special Education Unit. Site reviews were held on May 10, 2016.

Pursuant to Ark. Code Ann. 6-20-1905, the Dollarway School District was informed on March 7, 2016, that the district could not incur any future debt obligations without prior written approval from ADE. On April 14, 2016, the State Board of Education voted to place the Dollarway School District in fiscal distress.

Actions Taken

The Office of Intensive Support (OIS) worked in conjunction with the School Improvement Unit (SIU) to align support services. OIS and the SIU assisted the district in providing support to the identified priority schools in a Diagnostic Analysis of each school's culture, organizational structure, accountability system, and educator effectiveness process.

The ADE School Improvement Specialist reviewed, with identified building principals, their progress in implementing the success indicators in their Arkansas Comprehensive School Improvement Plan (ACSIP). The academic distress recommendations provided to the high school upon their 2013 identification were aligned to the school ACSIP success indicators. The recommendations provided to the high school defined expectations for the development of a team structure with the intent to engage teachers in the decision-making process as well as utilizing instructional units that include pre- and post-assessments to determine strategies for differentiated instruction and professional development.

The Dollarway School District was provided with an exception related to the locally-hired School Improvement Specialist for school year 2015-2016 from the SIU due to the district providing immediate support to the identified schools through the use of an external provider.

District Leadership Team

The Dollarway School District focused on addressing urgent management needs that required immediate resolution. This included paying outstanding commitments, filing reports and obligations regarding teacher contracts, addressing lawsuits, posting an approved salary schedule, filing federal lunch reports, etc. The district began to take the necessary steps to develop systematic protocols to assess areas of need, drive communication and continually evaluate system effectiveness. Protocols are based on six major areas of focus for the next school year which are: (1) climate and culture, (2) curriculum and instruction, (3) community and family, (4) leadership, (5) professional development capacity and (6) assessment. The district has focused on building leadership capacity and strengthening relationships in the 2015-2016 school year. The district has on file signed Memorandums of Understandings (MOUs) between the principals and district leadership for all schools in the district. Meetings are conducted by Dollarway School District department heads to discuss procedures and processes with building principals. The Dollarway School District reports the district's overall progress to the State Board of Education bimonthly. However, district leadership team meeting agendas and minutes are not maintained in the required state provided platform.

The support provided by OIS included the alignment of ACSIP indicators with turnaround principles and Advanced Ed indicators. OIS assisted with the Diagnostic Analysis process and facilitated collaborative district/building focus walks for identified schools. OIS facilitated monthly ZOOM meetings with the Dollarway School District and multiple units within ADE.

The Dollarway School District is moving forward in plans to reorganize schools into three campuses from four in the 2016-2017 school year. Plans are to serve pre-kindergarten through fourth grade on one campus, fifth grade through eighth grade on another campus and ninth grade through twelfth grade at another to improve fiscal efficiency.

Building Leadership Teams

Dollarway High School and Robert F. Morehead Middle School submitted a description of their progress in school improvement to the State Board of Education in their fourth quarter 45 Day Plan reports (Appendix A). A cursory review of the Dollarway High School report identifies progress in developing a system of team structures in which students have a voice, teachers meet to develop units of instruction and teams review Wise Ways ® to assist in fully implementing school improvement indicators.

At the beginning of the 2015-2016 school year, the Dollarway High School leadership team reported for grade nine through twelve that 78% of the students performed three or more years below grade level placement in English language arts. Concerning mathematics, the high school reported in the third quarter that 78% of the students performed three or more years below grade placement.

A review of the Robert F. Morehead Middle School fourth quarter report identifies progress in increasing the utilization of unit assessment data to guide lesson development and instruction. The middle school leadership team reported in the fourth quarter that 76% of the students in grades six through eight performed three or more years below grade level placement in English language arts. The team also reported in the fourth quarter that 82% of the students performed three or more years below grade level placement in mathematics.

Both building leadership teams made progress in the development of a system whereby student needs were addressed throughout the quarter. This was accomplished through the use of unit assessment data to provide immediate student remediation rather than waiting for quarterly assessment data. Building leadership teams are working to ensure that all teams can communicate and are guided by a clearly written purpose.

The ACT Aspire assessment was administered in the fourth quarter. Assessment results are currently pending. Due to the administration of a new assessment, schools are unaware as of yet the impact the results will have on planning for the 2016-2017 school year. Further, given this was the first administration of the ACT Aspire instrument, it is unclear how the results will be compared to the previous assessments used for determining accountability.

Members of the Dollarway School District leadership team and building leadership teams attended the summer School Improvement Conference coordinated by the School Improvement Unit at ADE. In addition to attending sessions related to school turnaround, team members planned with their ADE school improvement specialist for the 2016-2017 school year.

The 2016-2017 school year will reflect a shift in leadership at Dollarway High School. This will include moving the principal at the middle school to the high school. The former middle school principal has experience working in a school classified in priority status and is currently working with members of the high school leadership team to determine needed improvements. The leadership at Robert F. Morehead Middle School for the 2016-2017 school year has included shifting the principal at Matthews Elementary School to the middle school. In preparation for this change the principal is working with members of the middle school leadership team to determine needed advancements. Both principals are familiar with school improvement planning and the utilization of the ACSIP software.

Next Steps

The ADE school improvement specialist team will provide targeted individualized assistance as needed on-site to the district and schools classified as Priority and Academic Distress. This assistance will include providing summer training in utilizing the ACSIP software and Wise Ways ® research in fully implementing indicators of effective practice.

The district and schools will continue to assess and plan indicators with tasks using WiseWays® research for guidance. The district will utilize coaching review and comments in the ACSIP as one way to document district communication and collaborative planning with schools.

The district will move ahead to hire a full time school improvement specialist to assist the principals in the planning and implementation of the recommendations made by the ADE Site-Review Team. This individual will assist the principals and leadership teams at all schools.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the team's' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: The school leadership team is composed of the principal, counselor, teacher leaders, parent facilitator, student and parent. The school leadership team meets weekly for one hour. Modified team daily planning periods for content area instructional teams were developed. Content instructional teams meet daily to focus on five themes. Unit/lesson planning, data driven instruction, high yield learning strategies, student engagement/differentiation and literacy through content are discussed in team planning meetings.	Current reality of effective practice: The school leadership team operates using a team charter. The school leadership team is composed of the principal, counselor, teacher leaders, and Title I parent facilitator. A school PTO organization, composed of the principal, parent facilitator, college/career coach and parents meets monthly. A school-community team was developed and meets monthly. A student council composed of the student leaders meets monthly

Weekly PLC's focus on instructional themes with non content area teams. A campus administration consists of the principal and two assistant principals; the campus administration meets daily for at least 10 minutes. A school PTO organization, composed of the principal, parent facilitator, college and career coach and parents meets monthly. All teams operate using agendas and minutes. Agendas are prepared in advance and emailed out to members in advance. All teams look at performance data, classroom observation data, and make decisions about school improvement and professional development. The teams use wise ways indicators to assist with their practices. The teams stay on task and provide minutes following the meetings. Incentive, ACSIP, department and handbook teams are established as needed.

and are reported to the school leadership team through their sponsor. Student voices are sampled and reported to the staff and leadership team. The school leadership team meets weekly for one hour. Content area teams meet multiple times per week during common planning times. Content instructional teams meet daily to focus on five themes. The instructional teams meet to plan units and lessons. The instructional teams analyze data to drive driven instruction. The instructional team discusses instruction and implementing high yield learning strategies. Instruction is modified based on pre-post test data discussed during instructional meetings. Student engagement strategies are presented as training during instructional team meetings. Weekly PLC's focus on instructional themes with elective class teams. A campus administration consists of the principal and two assistant principals; the campus administration meets daily for at least 30 minutes. All teams operate using agendas and minutes. Agendas are prepared in advance and emailed out to members in advance. Leadership and administrative teams look at performance data, classroom observation data, and make decisions about school improvement and professional development. The teams use wise ways indicators to assist with their practices. The teams stay on task and provide minutes following the meetings. Incentive, Arkansas Comprehensive School Improvement Plan (ACSIP), department and handbook teams are established as needed.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year:	Current reality of effective practice:

Staff members attended Summer professional development on unit planning. Content teams and PLC'S have developed instructional units based on the curriculum. An LDC team has developed instructional units. All teachers are administering pre and post tests every two to three weeks. The instructional teams review the pre and post test data. Results from the pre and post tests are used to guide instruction and plan for professional development.

Professional learning communities meet based on a common-planning period once per week. All certified staff members are members of a PLC. Each grade SLT was elected in the 1st quarter. The SLT meets monthly. Additional meetings are held as needed.

The Instructional Teams meet to review the curriculum standards, however the level of discussion regarding curriculum implementation is subpar. This unit typically encompasses ten to fifteen days of work and includes pre/post tests. All teachers give a pre-test and post-test. The pre-test and post-test assess the same learning objectives and inform the teachers' plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit.

The expectations of the Instructional Team pertaining to reviewing the documentation and data from pre/posts tests to create a plan of action for each instructional unit have been inconsistent. In addition, a professional development plan has not been created to address the needs of students based on data from pre and post test results. Teachers are in the process of developing pre-post data walls in conjunction to the current TLI data walls, which are updated quarterly. Going forward, professional development will be provided based on student pre/post test results.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE

Effective Practice within Category:

Expecting and monitoring sound classroom management (IIIC10)

Description of full implementation of the Effective Practice and/or Recommendation:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).

Current reality of effective practice from the beginning of the year:

A committee met to develop a discipline management plan. The teachers taught the classroom rules to students during the first week of school. Teachers were trained during PLC's on classroom procedures and classroom management. Additional trainings were offered for teachers to attend for classroom management. Teachers have developed rituals and routines in their classrooms. Focus walks were conducted to ensure that rules were posted and rules were in place.

Current reality of effective practice:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. New teachers attended training on classroom management. Training was conducted on Domain 2 of TESS for all teachers. Additional training was provided for teachers that were identified as needing additional classroom assistance. Each teacher is progressing towards universal classroom procedures and routines. The Workshop model of instruction is being used in all classrooms.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT**Effective Practice within Category:**

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.

Current reality of effective practice from the beginning of the year:

A committee met and developed a parent-student-school compact agreement. The compact was given to all students and has been presented to parents. The compact outlines how everyone (student, parent and school) will share responsibility for improving academic achievement.

Current reality of effective practice:

The school had an agreed upon compact that outlines shared responsibility for improving academic improvement. The compact describes how the school and parents can work together to help students achieve the state’s standards. The PTO held elections and holds meetings at least monthly. A school and community council was formed. The school and community council meets monthly. The leadership team has enforces using parents to deter the bad decisions of their students, resulting in more accountability of students of their behavior.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
<p>The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.</p> <p>ADE will monitor the following:</p> <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates

---	--

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The high school leadership team facilitated the creation of our school's new mission, vision, and beliefs statements into those which are based on multiple forms of data concerning student and teacher performance. The culture at the high school changed because of the expectations brought about by new leadership. The leadership team has led the school improvement plan committee in guarantying its' validity and compliance with ADE mandates. While ensuring those mandates, the leadership team guided our school culture into one of distributive leadership through the effective use of strong teacher, student, and community leaders. The leadership team set aside common meeting times so that the work of students, teachers, administrators, and shareholders could become more streamlined in our efforts to align school policies and procedures to the mission, vision, and expected results. Although the school leadership team had buy-in from the staff, there was little autonomy in the school decisions. Many of the school decisions were prescribed at the district level. The high school lacked the support and resources to support effective learning and student engagement.

If anything, what do you intend to change or modify for the year?

45-DAY PLAN

Fourth Quarter

2015-2016 School Year

IMO Area 1: Change in Teacher and Leader Practice**ADE Recommendation:** Not Applicable**Effective Practice within Category:**

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice (Assess where we are): Teachers continue to meet on a regular basis to discuss student achievement. STEP 1 and 2: Our building has a well-established PLC meeting schedule and agenda template. The PLCs are habitual in submitting copies of agendas, minutes, and sign-in sheets to the Principal's Office.

Quarterly Objective: To maintain an accurate and current record all meetings.

Tasks	Target Date	Completion Date	Person assigned	Met	Not Met	Evidence of Completion
1. The leadership team will meet bi-monthly for a minimum of two hours per hours.	01/04/2016	05/25/2016	Deloris Hawkins	x		Agendas, meeting minutes and data reports
2. Leadership team members will report information and data from the grade level and content team meeting to the leadership team.	01/04/2016	05/25/2016	R. Henard	x		Agendas, meeting minutes and data reports
3. Team meeting agendas template will include norms for cooperation and Dufour's questions to guide the work.	01/04/2016	05/25/2016	Vernice Meadows			

Include additional task lines as needed.

STEP 3: Impactful decisions for 2015-2016:

*school wide LDC and MDC

*continuation and enforcement of building wide Standard Rules

*increased awareness of the purpose of pre and post-tests; the results from the pre and post tests were used to guide data driven instruction

*creation and implementation of building wide TEACHING MODULES

IMPACT ON STUDENT ACHIEVEMENT AND THE SCHOOL: In reality student achievement did not increase; however, as a Leadership Team we saw substantial growth in teacher understanding of the effect of data driven instruction. The PLC conversations were centered on concrete data.

The review of the STANDARD RULES each nine weeks impacted student discipline and classroom management in a positive way.

Full implementation in Change in Teacher and Leader Practice (ID01, ID04, ID07, IIB02, IIB04)

- ID01- The leadership team will continue to meet bi-monthly. Agendas, minutes, and sign-in sheets will be kept for evidence of progress and uploaded to Indistar. Agendas will also be made available to team members prior to meeting times via e-mail. Leadership team members will work to incorporate team structure into District policy. Present written document to district leadership team for approval and placement in district policy manual.
- ID04- There is a building wide agenda template used by all PLCs to ensure required information is discussed during each PLC.
- ID07- The Leadership team and other academic team meetings will have agendas, minutes, and sign-in sheets maintained in a notebook and/or uploaded to Indistar. The building leadership team will consist of the principal, counselors, academic coaches, and a representative from each grade level and discipline area. A team roster will be kept and meeting agendas, sign-in sheets, and minutes will be maintained.
- IIB02- All teachers are administering pre and post tests for units that are taught. This enables teachers to better equip students with what they need to know to meet and/or exceed expectations and academic growth. Evidence: Examples of pre and post tests , data from those tests, discussion of those items in team and PLCs meetings per agendas and minutes, lesson plans, CWT forms. Teachers will use teacher created test and district interim assessments.

- IIB04- Mastery of skills will be evident by student application of different strategies based on individual abilities of the learner. Differentiated instruction will be noted in lesson plans.

Student Safety and Discipline (IIC10)

- When fully implemented, all classrooms will be effectively managed to maximize student achievements. School standard rules and classroom procedures will be posted in each classroom, there will be a decrease in office referrals as shown by discipline report, student signed acknowledgement of school standard rules and classroom procedures, and there will be classroom procedures review each nine weeks.

Family and Community Engagement (IVA01, VA01)

- IVA01- Majority of parents accessing HAC, increased visits to parent center, increased parent participation in parent/teacher conferences, Parental Advisory Committee increased membership and participation. Parents will have access to school computers to use to assist their child/children with the internet links for textbooks and the ACT aspire online practice information.
- VA01-Career Development classes use the Kuder program for students to self-assess their interests and match to career and college options. The high school career coach visits with these classes regularly to discuss college and careers and financial aid. RMMS has college awareness days throughout the school year that involve the students and the staff. Evidence: Kuder reports, Career Coach visit sign-in sheets and surveys, photos of E.A.S.T. lab projects, CTE posters

IMO Area 1: Change in Teacher and Leader Practice**ADE Recommendation:** Not Applicable**Effective Practice within Category:**

Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)

Description of full implementation of the Effective Practice and/or Recommendation:

The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).

The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice (Assess where we are):

Teachers continue to administer pre and post tests for units of study to accurately assess the student's prior knowledge and academic growth. By doing so teachers are setting student expectations and academic growth plans.

Quarterly Objective:

Teachers will utilize pre- and post-test for all units of study to drive their instruction and lesson planning.

Tasks	Target Date	Completion Date	Person assigned	Met	Not Met	Evidence of Completion
1. Instructional leader, instructional coaches, team chairs and PLC's will reinforce the necessity, purpose, ad usefulness of pre and post-test in all units of study for each subject area	01/04/2016	05/28/2016	Yolanda Prim Robyn Porter Vernice Meadows			Grades and minutes from your meetings
2. Data from Pre and Post tests are used for discussion of the items not mastered in team weekly meetings.	01/10/2016	05/28/2016	Vernice Meadows			Agendas, minutes

Include additional task lines as needed

IMO Area 3: Student Safety and Discipline**ADE Recommendation:** Not Applicable**Effective Practice within Category:**

Expecting and monitoring sound classroom management (IIIC10)

Description of full implementation of the Effective Practice and/or Recommendation:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).

Current reality of effective practice (Assess where we are): Teachers continue to display and enforce the five standard building rules, along with their classroom rules.

Quarterly Objective: All classrooms will be effectively managed to maximize student achievements.

Tasks	Target Date	Completion Date	Person assigned	Met	Not Met	Evidence of Completion
1. Principal conduct CWT's with emphasis on TESS domain 2d: 2. Managing student behavior.	10/17/2015	05/28/2016	Yolanda Prim			School standard rules and classroom procedures posted in each classroom, decrease in office referrals. Documentation of CWT's
3. Create a form for teachers to distribute and have students sign each time the standard rules are reviewed.	10/17/2015	05/25/2016	Raymond Henard			The signed forms will be kept on file by the teacher.
4. Leadership team will review quarterly discipline reports.	10/17/2015	05/28/2016	Andrea Mixon			Discipline reports / data.

Include additional task lines as needed

IMO Area 4: Family and Community Engagement
ADE Recommendation: Not Applicable

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.

Current reality of effective practice (Assess where we are):

Currently Ms. Armstrong is working with a group of advisory parents to help enhance the academic experience here.

Quarterly Objective: To increase parent involvement by 10% by the end of the quarter.

Tasks	Target Date	Completion Date	Person assigned	Met	Not Met	Evidence of Completion
1. Parent Teacher conference allows parents, student and teacher and opportunity to plan for student improvement.	03/15/2016	03/15/2016	Yolanda Prim			Sign in sheets
2. Thank you reception for the parents of honor roll and merit list students.	01/28/2016	01/28/2016	Kathryn Armstrong			Sign in sheets, agendas and minutes
3.						

Include additional task lines as needed.

IMO Area 4: Family and Community Engagement**ADE Recommendation:** Not Applicable**Effective Practice within Category:**

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice (Assess where we are):

Currently, we provide college awareness days throughout the school year that involve the students and school staff.

Quarterly Objective: To assess student interest and match with career and college options.

Tasks	Target Date	Completion Date	Person assigned	Met	Not Met	Evidence of Completion
1. Choices which help with careers, setting goals and making decisions.	1/5/2016	03/15/2016	Joyce Wilkes	x		.sign sheets
2. Career Development teacher will schedule regular visits from the High School College and Career Coach so students on be exposed to as much college and career information.	3/09/2016	03/09/2016	Joyce Wilkes	x		Lesson plans and sign-in sheets

Include additional task lines as needed.

PRINCIPAL'S REPORT SECOND QUARTER

Has there been a meeting with the District Leadership Team to review the school's needs and progress? **YES or NO** (*Please circle*)

Yes

If yes, what support have you received from the district? Yes, The district Leadership provides on going monitoring, supplies materials needed to meet the teacher and student needs, embedded professional development as needed. The district address school needs at each district meeting. The district is aware of the technology needs of the building and they along with the technology department is working to solve the problems.

Please describe the interventions your school is utilizing specific to closing the achievement gap (Focus) or for improving the outcomes for students basic and below basic (Priority). (Do not include general school wide efforts.)

Read and math 180, System 44. The scholastic programs are researched based programs that provide intensive remediation for students who are performing below grade level. The programs are designed to meet students' needs in several different ways, whole group which includes all students, small group which is teacher lead; instructional technology which starts students where they are and move them at their pace; modeled and independent reading which exposes student to a wide range of paperback and ebooks.

SMI and SRI to identify students working below grade level, The RTI process is designed for use when making decisions in both general education and special education, creating a well-integrated system of instruction and intervention guided by child outcome data. For RTI implementation to work well, the following essential components must be implemented with fidelity.

After school tutoring is scheduled three days week working with students on their homework, working skills that students have not mastered on assessments in math and literacy. Students are monitored through class activities and assessment.

Parent conferences are held more often to keep parents abreast on where students are.

Teachers are working more in small groups with students to ensure student needs are being met.

Monthly parent activities are held to help parents to understand skills that are being taught so that parents can help students at home.

What support(s) have you or your team received from the external provider, District SIS, and the ADE SIS Team? The SIS reviews assessments, have conversations about what is being done and how we can better improve student achievement. The ADE is working us to review and provide directions or recommend
What are the barriers, if any, in improving student outcomes? None at this time.
How is your leadership team monitoring student progress in the skill area of science? Weekly assessments, pre and post results, Classroom Walk Through's, weekly team meetings, observations, meeting with teachers individually to address strengths and weakness of teachers and students.
How is your leadership team monitoring student progress in the skill areas of math, reading, writing? How are you responding to the results? We are reviewing test data, meeting weekly with Professional Learning Community's, overserving classroom instruction and meeting with teachers individually to address strengths and weakness of the students and teachers.
What have been the most meaningful decisions and actions made by the School Leadership Team this quarter as documented in the minutes?
If anything, what do you intend to change or modify for the next quarter? We will increase remediation through the after school tutoring.

SCHOOL LEADERSHIP TEAM'S REPORT Fourth QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2: Student Progress and Achievement)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th

8 th	102	100	100	100	17	0	0	0	0	0	8	5	5	7

Comments/ Clarifications:

Ongoing conversations are held to discuss the placement or the growth of the students from pre and posttest.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Scholastic Math Inventory _____ 10 / 18 (Month Determined)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ / _____ (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ SRI _____ 10 / 18 (Month Determined)	
	1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
6 th	33.3%	25%	3.6%	25			85	82			84	77
7 th	0%	25%	.87%	0%			73	67			70	62
8 th	0%	25%	2%	0%			88	81			87	76

This report shows changes in student performance and growth on the Scholastic Math Inventory (SMI) over time. There were 263 students tested during the testing window, December 9-18, 2015. One hundred forty one students showed an average growth of 51%. 18 students transitioned from below basic to basic, 9 from basic to proficient and 1 from basic to advance.

The Scholastic Reading Inventory (SRI) identifies how much growth students have made between the first SRI test and the last SRI test in your chosen date range. Of the 247 students tested 126 showed an average growth of 47 Lexile points. The testing Window was November 18-20 and December 9-18, 2015. There were 17 students who went from below basic to basic, 6 from basic to proficient, and 1 from basic to advance.

The data is shared with the teachers and determination is made if a student should continue with the Math 180, Read 180, or System 44. This information is also used to monitor students enrolled in the RTI process.

LEADERSHIP TEAM REPORT CONTINUED

Comments/ Clarifications:

There are three teachers for each grade and 1 teacher per grade has missed the 5 days.

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit tests for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6th	2	94	47	35	29	23	94	94	94	94	376	23	62%	25%	31%	24%
7th	5	84	21	15	20	28	68	63	73	89	293	28	74%	69%	27%	31%
8th	5	100	45	40	43	39	90	90	91	98	369	39	59%	49%	47%	40%
Example							248	90	95	225	225	77	65%	48%	35%	32%

Comments/ Clarifications: The number of students assessed on each post-unit assessment for the current quarter fluctuated due to students transferring in and out of the district.

Math 180, math lab, after school tutoring, small grouping, and Math Collaborative Design activities with formative assessments are interventions we are currently using to assist struggling learners. We will also utilize the TLI online review tool for individualized remediation.

Teachers create individualized lessons based on analyzed data from formative assessments.

Absenteeism during the winter quarter along with students transferring in and out of the district attributed to the fluctuating number of students assessed on each post-unit assessment for the current quarter;

Math 180, System 44, after school tutoring, Math Design Collaborative (MDC) formative assessments, and small grouping interventions are in place to support struggling students. These tools allow students to work at a slower pace to develop lower-level key skills that are necessary for success in math.

Math teachers are utilizing the TLI online review tool for individualized and group remediation. This remediation tool provides short video clips with instructions and is also available for home access. Students are also encouraged to use websites such as Khan Academy and Learn zillion for more instruction and practice

Teachers model with appropriate vocabulary and higher-level questioning and prompts to help students share their thoughts and to encourage critical thinking.

Key strategies will include targeted professional development developed by teachers, driven by data, and aligned with instructional focus.

Schoolwide Instructional Focus:

- Classroom setups that support instructional focus
- Resources used strategically to support instructional focus
- PLC and team meetings focused on teaching and learning

It appears that the numbers may have been miscalculated in the second quarter report. We will take another look at the data and submit an updated report.

LEADERSHIP TEAM REPORT CONTINUED

ELA DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit tests for each grade level (A)	Total number of students with D or F on unit tests in ELA this quarter (B)	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6th	2	94	69	42	49	8	82	65	83	66	296	106	77%	12.0%	34%	12%
7th	5	89	53	33	46	11	75	80	74	84	291	33	69%	11.3%	46%	13%
8th	5	98	72	55	48	6	70	89	90	76	398	55	84%	13.8%	48%	8%
Example							100	90	95	N/A	285	57	76%	12%	43%	11%

Comments/ Clarification: The number of students assessed on each post-unit assessment for the current quarter fluctuated due

Absenteeism during the winter quarter along with students transferring into and out of the district attributed to the fluctuating number of students assessed on each post-unit assessment for the current quarter.

Read 180, System 44, after school tutoring, Literacy Design Collaborative formative assessments, and small grouping are on-going interventions used to assist with struggling readers. TLI online review tool for individualized remediation is also being used as well as the ACT Aspire exemplars.

Readtheory.org, a tool that is being utilized by ELA teachers, assesses students' reading levels, provides Lexile scores, and provides individualized lessons that adapt to the students' responses. ELA teachers are able to narrow the scope of which CCSS require greater focus. This tool also allows ELA teachers to monitor their students' progress as they assess. Score reports and other resources are provided.

Mrs. Newton, a consultant with Education Consulting Services, and Mrs. Porter, RFMMS literacy coach, provide strategies and assistance to ELA teachers to reinforce what is currently being taught.

Teachers are continuing the use of higher order level questioning and prompts to hone the students' critical thinking skills. Both Instructional Facilitators collaborate with teachers on how to formulate questions that will address Bloom's Taxonomy. Feedback is given to teachers after the facilitators have conducted Classroom Walkthroughs. Teachers share their modules with the Instructional Facilitators. The facilitators are able to monitor the types of questions that teachers are developing.

Future professional development will be targeted, data driven, and aligned with instructional focus.

There was a significant increase in the unit posttest scores between the 2nd and 3rd quarters. The Leadership Team has concluded that a factor may have been that no TLI scores were used as a posttest due to the fact that the TLI Module 4 was scheduled after grades were to be submitted.

There were high numbers of D's or F's on report cards compared to the unit test scores. Contributing factors may have been due to the lack of students submitting homework assignments, students failing to complete and/or do class assignments, or students failing to submit projects.

The Leadership Team will communicate the homework policy more efficiently, clarify the purpose of homework, ask students to use homework assignment sheets, and will ensure that teachers are providing timely and specific feedback on homework. Apathetic behavior is a major factor for the lack of student achievement. The Leadership Team has discussed using Root Cause Analysis to trace the origin of this problem and devise a behavior plan to correct the issue.

Schoolwide Instructional Focus:

Classroom setups that support instructional focus

Resources used strategically to support instructional focus

PLCs and team meetings focused on teaching and learning

LEADERSHIP TEAM REPORT CONTINUED

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? You may include a chart to describe your data.

Key strategies include targeted professional development plans that are developed by teachers, driven by data, and aligned with instructional focus.

Schoolwide Instructional Focus:

- Classroom setups that support instructional focus

- Resources used strategically to support instructional focus

- PLC and team meetings focused on teaching and learning

- Analyze and chart the data to help focus instruction

Teachers use higher order level questioning and prompts to encourage students to share their thoughts and critical thinking.

DRAFT

ARKANSAS DEPARTMENT OF EDUCATION

Progress Report and Legislative Update for Little Rock School District

Needs Improvement Priority, Needs Improvement Focus
and Academic Distress

Quarterly Report

April-June 2016

Submitted by

Division of Public School Accountability

School Improvement Unit

July 1, 2016

Table of Contents

Background	Page 1
Progress Summary	Page 2
Next Steps	Page 4
Student Entrance and Exit Data	Page 4
Appendix A	Page 6

Background

The recommendations provided to the schools classified in Academic Distress clearly defined expectations (leading indicators of progress). First and foremost was the expectation for development of a team structure at each school site with the intent to engage teachers in the decision-making process. Engagement of teachers in a data-based decision-making process expands the understanding of a problem, increases a sense of urgency, and assists in improved implementation of chosen interventions. Inclusive in the concept of a team structure and also identified in the recommendations to each school was the expectation for the development of instructional teams comprised of common grade level or common content area teachers and instructional facilitators. Instructional teams work together for the purpose of planning units of instruction inclusive of pre and post-tests. With teacher-teams developing two to three week units of instruction and assessing student mastery at the end of short-term units, they are better able to identify who has and who has not learned what was just taught. Further, with unit post-tests followed by instructional team analysis, teachers can better identify the supports and professional development they need in order to be more effective with their current students. The analysis of student work by instructional teams allows teachers to respond in real time to student learning needs. This deep analysis helps teachers to determine what needs to be re-taught and this process can guide the allocation of resources within the school. An effective process for evaluating units of instruction and a thorough analysis of pre and post-test data, enables staff to quickly determine the effectiveness of interventions.

The second expectation in the ADE recommendations was for school leadership to focus on the engagement of students in the learning process. Inherent in this recommendation are the concepts of improved student/teacher rapport, the enhancement of positive student/teacher relationships across all socio-economic groups, and the development of more relevant instructional activities. It was expected that building level professional development would focus less on district initiatives and more on skills needed by teachers in a specific school to better engage their students.

This report focuses on the progress of the schools classified in Academic Distress related to general expectations outlined above. This report highlights specific progress through the fourth quarter of school year 2015-2016. While many reports to the State Board of Education focus on facility plans, budget issues, school boundary areas, reconfiguration of schools, possible reduction in staff, and a host of other issues in managing a large urban district, this report is specific to the progress being made related to the essential reason for state takeover of the district: to improve outcomes in student achievement in schools with less than 50 percent proficiency.

It is noteworthy that the three largest schools in the Little Rock School District (LRSD) that are classified in Academic Distress are high schools. High schools in a standards-

based accountability system are incredibly dependent upon the skill level of students arriving at their door. The overall improvement of the feeder pattern would need to improve in the district so that progress towards school improvement. This would imply that principals and instructional teams in each feeder pattern would be working closely together and aligning work. Alignment of efforts to address this issue have not been clearly articulated.

Mr. Baker Kurrus and his team reported the district's overall progress to the State Board of Education monthly and regularly posted informational letters to the district's website for community review. Qualitative data would indicate that through the spring of 2016 district leadership continued to embrace a more participatory management process. Principals reported having more voice in the decision-making process and were guided to expand school leadership that was more inclusive of teachers and support staff in the decision-making process.

New leadership was appointed to the Little Rock School District effective in July of 2016. Mr. Michael Poore, former superintendent of Bentonville School District, took over as LRSD superintendent on July 1, 2016.

School Improvement Specialist positions have been established at each Priority School. The ADE assigned School Improvement Specialist team provided biweekly sessions of professional development for site based School Improvement Specialists (SIS) through the spring of 2016. The locally hired SIS continued to report directly to the area assigned associate superintendent, provided weekly reports to the ADE SIS team, and attended SIS trainings facilitated by ADE. The role of the internal SIS is and will continue to be to assist building level administrators with providing instructional leadership for teachers in order to improve professional practice and increase student achievement.

Progress Summary Reflective of 45-Day Plan Reports

Little Rock Focus, Priority and Academic Distressed schools evidence various levels of implementation of Team Structure ranging from some school staff clearly understanding research-based models to other schools recreating prior structures. This is to be anticipated given the background knowledge of the school improvement specialist hired, the date they were hired, and amount of time available to acclimate to the assignment. All schools have created School Leadership Teams and meet at least once monthly, whereas our goal is for these teams to meet at least twice a month. The District supports meeting time for School Leadership Teams and provides an area supervisor to attend meetings as needed. Meetings continue to focus more on managerial issues rather than on analyzing data, evaluating interventions, and making decisions about professional development and instruction. School Leadership Teams are collecting data quarterly related to student enrollment, teacher and student absenteeism, student discipline, students performance significantly below grade level in Math and English Language Arts, Unit Post Test Data and percent of Ds and Fs earned in the class and on Unit tests.

Schools are making progress in varying stages of analysis of their data to inform decisions and to develop school improvement plans.

All schools have formed Instructional Teams, however, the consistency and frequency of meetings vary from school to school. Based on quarterly reports submitted by schools classified as Focus, Priority or in Academic Distress, there is great variance in how teachers are analyzing data to make informed decisions. Instructional Teams are meeting and generally reviewing individual student data during those meetings. Similar variance is evidenced in implementation of aligning curriculum, in planning units of instruction and issuing pre and post-tests. It is noted that the expectation of utilizing the unit structure complete with pre and post-tests has been communicated districtwide. The district has provided common formative assessment training. Consistency and frequency of tests varies between schools. Evidence does not clarify how the instructional team's analysis is being utilized to identify supports needed for professional development nor identification of specific interventions and further evaluation of the effectiveness of those interventions.

To improve student engagement in learning, each school site was expected to develop a discipline management plan and were to establish rules and routines within each classroom conducive to learning. It is intended that rules and routines be taught and enforced. The District has a districtwide discipline plan in place that is detailed in their student handbook. Schools have evidenced varying levels of development. Overall, schools are working to establish rules and procedures within the classroom and in other school settings and are moving toward consistently teaching and enforcing rules and procedures. Some schools reported well established rules and procedures while other school sites reported having implemented a behavior plan and are currently in the process of evaluating and assessing the effectiveness of those plans. It should be noted that a safe and orderly environment is important, but the development of relationships is equally important.

In accordance with the Elementary and Secondary Education Act each Title I school must develop an agreement or "compact" that outlines how the school and the parents can work together to help students achieve state standards. To increase student/teacher rapport and the enhancement of positive student/teacher relationships the school sites were expected to develop a school-specific parent compact and to implement the agreement within the compact with fidelity. The foundation for this process has begun. Schools have compacts. Some schools are still utilizing the general district compact and have not tailored it to be specific to their school site and student population. The compact is available to parents typically via website. However, the intent of the compact is for parents to be well informed of its content thus forming a partnership with the school, holding each party accountable to support the progress of their child.

Next Steps for Technical Assistance from the LRSD ADE SIS Team

ADE assigned a team of educators to conduct Academic Distress site visits in the month of May. Academic Distress recommendations have since been made available to the district and schools per the process outlined in *Arkansas Department of Education Rules Governing the Arkansas Comprehensive Testing, Assessment and Accountability Program (ACTAAP)* and the *Academic Distress Program*. The Academic Distress Review Team is recommending continuation of the Priority Improvement Plans established for school year 2015-16, but with modifications for greater clarity. ADE School Improvement Unit (SIU) staff will provide technical assistance to assist these designated schools in integrating into their current plans three targeted goals that would be monitored monthly by the SIU. These overarching goals are:

1. The School Improvement Leadership Team will develop a clear and shared academic focus that will lead to removal from Academic Distress.
2. The School Improvement Leadership Team in conjunction with all stakeholders will develop a positive school culture conducive to learning and staff professional growth.
3. The School Improvement Leadership Team in conjunction with the District Improvement Leadership Team will develop a culture of continuous improvement.

Representatives from each Building Leadership Team attended the Summer School Improvement Conference held in June. The importance of progress towards the recommendations was expressed as an essential expectation for school year 2016-2017 to individual schools and the district during the week of June 20-23, 2016.

The ACT Aspire assessment was administered in the fourth quarter for the first time. Assessment results are currently pending. Due to the administration of a new assessment, schools are currently unaware of the impact the results will have on planning for the 2016-2017 school year. It is also unclear how the ACT Aspire results will be compared to the previous assessments used for determining accountability.

The ADE SIS team will continue to provide targeted individualized assistance as needed on-site for schools classified as Priority and Academic Distress.

The ADE SIS team will provide support and training during leadership transition. ADE Public School Accountability leadership will schedule meetings in July and August with executive district leadership personnel.

Percent of Students entering high school 3 or more years below grade level

LRSD High School	*3 or More Years Below Math (1st and 4th Q)		*3 or More Years Below ELA (1st and 4th Q)	
McClellan High School	19	No Data	60	No Data
Hall High School	45	46	49	79
JA Fair High School	53	48	31	30
Cloverdale Aerospace	65	53	41	46
Henderson Middle	44	59	39	46

*Determined by Scholastic Math Inventory and Scholastic Reading Inventory: Data reported for combined 6th-8th grades for both Cloverdale and Henderson; Data reported for combined 9th-10th grades for McClellan and Hall; Data reported for combined 9th-12th grades for JA Fair.

Fourth Quarter Progress Report

Attached are the Fourth Quarter Progress Reports for all LRSD schools classified as either Focus or Priority (see Appendix A).

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
<p>Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation:</p> <p>District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).</p> <p>The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).</p>	
<p>Current reality of effective practice from the beginning of the year: Quarter 1</p> <ul style="list-style-type: none"> Members have been chosen for the Leadership Team: Jonathan Crossley (principal), Pamela Freeman (assistant principal), Lisa Mack (local school improvement specialist), Pamela Criss (literacy facilitator), Michael Henderson (math facilitator), Paula Vasquez (language acquisition facilitator), Paula Ramsey (counselor), Tamika Jordan (third grade teacher), and Ruth Harnish (first year, kindergarten teacher). Meetings have been scheduled to meet in the conference room at Baseline Academy from 1:00-2:30 twice monthly for the 2014-2015 school year. 	<p>Current reality of effective practice: Quarter 4</p> <p><i>District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents <u>(ID01)</u>.</i></p>

<ul style="list-style-type: none"> • The team is currently working on team structure, organization, and bylaws. • Team is learning how to assess indicators and how to make an action plan. 	<ul style="list-style-type: none"> • Baseline has an established a Leadership Team, Instructional Team, Professional Learning Communities, and Parent Teacher Organization with regular meeting dates and times. • We have a document that identifies other teams' purposes, members, and meeting dates • A plan for a Student Advisory Council has been formed and the inaugural meeting has occurred. <p><i>Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).</i></p> <ul style="list-style-type: none"> • The three major teams have an identified purpose and work from agendas and keep minutes.(Leadership Team, Instructional Teams/PLCs, and PTA) <p><i>The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07).</i></p> <ul style="list-style-type: none"> • The Leadership Team meets twice monthly and has a calendar displaying meeting dates for 2015-2016. <p><i>The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).</i></p> <p><i>The Leadership Team supports our teachers by analyzing data and determining professional development opportunities based on the student data and teacher and student survey data.</i></p> <ul style="list-style-type: none"> • After analyzing the data from the most current teacher survey at Reflection Night, it has been determined that the Leadership Team needs to improve incoming and outgoing communication. A plan will be devised during the Summer Leadership Retreat for improving communication. This plan will be implemented at the beginning of the 2016-2017 school year.
---	--

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: Quarter 1 <ul style="list-style-type: none"> • A team of facilitators and teachers have completed the district CFA training. • Grade level Instructional Teams have started creating/selecting questions for posttests. • Grade level Instructional Teams have started creating/selecting questions for pretests. • Grade level Instructional Teams have started analyzing work to guide instruction. • Forms are being developed to archive data and to analyze data 	Current reality of effective practice: Quarter 4 <ul style="list-style-type: none"> • ELL and SPED students participation and assessment with Common Formative Assessments have been developed for review and implementation in the 2016-2017 school year. • Test creation is a combination of facilitator and teacher developed tests. • Based on data from our most current teacher survey and discussion with the Instructional Team and Leadership Team, professional development sessions are being developed for teachers based on their needs for understanding the rigor of the state standards (Unpacking the Standards) and creation of CFAs in order to create

	<p>stronger pre/post tests and to promote rigor in the classrooms.</p> <ul style="list-style-type: none"> • Clear pretest analysis expectations have been set. • Data Nights have continued.
IMO AREA 3: STUDENT SAFETY AND DISCIPLINE	
<p>Effective Practice within Category: Expecting and monitoring sound classroom management (IIIC10)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation: The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).</p>	
<p>Current reality of effective practice from the beginning of the year: Quarter 1</p> <ul style="list-style-type: none"> • Teachers have established classroom rules and norms with the class. <p>Rituals and Routines have been established the first 2 weeks of school.</p> <ul style="list-style-type: none"> • Teachers are not consistent and always positive about expectations. • Individual behavior plans are starting to be made and implemented by the team consisting of the teacher, counselor, behavior specialist, resource teacher, and mental health worker. • Gentlemen and Ladies clubs are being established for a targeted group of students. • The faculty has begun to assess our current practice of behavior management and are starting create a schoolwide plan • A schoolwide incentive system is being established. 	<p>Current reality of effective practice: Quarter 4</p> <ul style="list-style-type: none"> • Based on analysis of our behavior data and teacher survey results, the Leadership Team has created a plan to revise our current school behavior management system. <ul style="list-style-type: none"> ○ Set a Schoolwide behavior goal ○ Align the behavior goal with classroom management professional development sessions for teachers and staff ○ 5:1 positive/negative response focus ○ Conflict Resolution training and implementation for staff ○ Revise morning meetings to include Conflict Resolution and Character Development ○ Consider positive discipline referrals and the idea of reverse suspension ○ Research PBIS (Positive Behavioral Interventions and Supports) and consider if this classroom

<ul style="list-style-type: none"> • A schoolwide discipline plan is being established. 	<p>management plan would be beneficial to Baseline Academy or create a similar system</p> <ul style="list-style-type: none"> ○ Align the school compact to our behavior system and goals
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: Quarter 1 For the 2015-16 school year, Baseline Academy chose to use the LRSD Title I compact that outlines how parents, school staff, and students can work together. Compacts will be signed by principal, student, teachers, and parent and will be placed in the student’s permanent record file at Baseline.	Current reality of effective practice: Quarter 4 <ul style="list-style-type: none"> • A school based team of has been established to look at exemplars of elementary school compacts. • The Compact Team will use the exemplars and Wise Ways to create a compact for Baseline Academy that will be aligned with the core values. • A draft of the new compact will be shared with the staff and the staff will give input in order to develop a compact that will be effective for outlining how parents, school staff, and students will share responsibility for improving academic achievement and state standards. • The Compact Team will also discuss ways to effectively involve parents in the compact process.

--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: Quarter 2 In the spring, Baseline Academy will reach out to the district preschools in Southwest Little Rock (Chicot, Mabelvale, Dodd, Wakefield, Geyer Springs, and Meadowcliff). The counselor and homeschool advisors will coordinate a day for the preschool students and parents to visit Baseline Academy. We will also conduct a Kindergarten Round Up in the spring to register and assess incoming Kindergarten students. Flyers will be sent home to current students in English and Spanish communicating the process of registering younger siblings for the upcoming school year. In the spring, the counselor will collaborate with Cloverdale Middle School and Horace Mann Arts and Science Magnet Middle School to register students and assist with schedules. They will schedule a day for our students to visit the middle schools. The counselor and	Current reality of effective practice: Quarter 4 <ul style="list-style-type: none"> • A school based team has met to organize Kindergarten Round Up. To accommodate parents, the Round Up was scheduled for 4:00-5:00 on June 2. Parents received a tour of the school and staff shared expectations for kindergarten students. Parents were also informed about Kindergarten Assessments Days. • Two half days (June 6 and June 8, 2016) were scheduled for Kindergarten Assessments. The Instructional Team assessed the children for math and literacy skills. This was done to expedite BOY assessments and to allow teachers to do some relative pre-planning for the 2016-2017 school year.

GT teacher will ensure that student placement data is provided to the middle schools. All pertinent records, to include RTI data, will be shared with the appropriate school. Baseline Academy will coordinate with the middle schools and share the middle school expectations for parents and students.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

As a year 1 Turn Around Elementary School, Baseline Academy made collective decisions from day one in order to contribute to each IMO area. Wise Ways and ADE recommendations were considered in every indicator plan which guided the changes in an organized and structured way. The Leadership Team created and used the Diagnostic Analysis to determine the most meaningful actions made this school year:

- The Baseline faculty and staff collectively created the Baseline Core Values: Family, Leadership, Empowerment, Progress, and Student Centered. Keeping these core values in mind, a School Vision Statement was also created collaboratively. Each morning the entire school assembled in the cafeteria for our school meeting, Wake-Up Baseline, where the core values were discussed daily by administration, teachers, and students.
- The Leadership Team and other major teams were created and a common structure was established to promote organization, and purpose for the meetings. All major teams are expected to work from an agenda and to keep minutes. We believe that we are fully implemented in this area.
- Baseline Academy bases most major decisions on data. We have created a Data Wall and developed goals and expectations on how to use the Data Wall. Once a month PLCs meet after school to analyze unit data for literacy and math. Teachers, with the support of Instructional Facilitators, make lesson plans and interventions based on this data. Behavior Data is collected in order for us to monitor how behavior is impacting the classroom and to try to be proactive in handling sound classroom management. Teacher Survey Data was analyzed during the end of the year Reflection Academy in order to make improvements/set goals for next year and to plan professional development for teachers and staff.

- Two ESL Transition classrooms (K-2 and 3-5) were implemented to provide intervention for students who were brand new to the country and students with very little English language.
- PLCs meet at least once per week to plan and monitor instruction. Facilitators provide support as needed.

If anything, what do you intend to change or modify for the year?

The Leadership Team used the Diagnostic Analysis to make a Priority Improvement Plan that will guide the team over the next few years. This plan will be the focus of the Leadership Team Retreat, which is planned for the summer of 2016.

School Culture (All IMO Area Specifically 3 and 4)	Organizational Structure (All IMO Areas Specifically IMO Area1)	Accountability Systems (IMO Areas 1 and 2)	Instructional Program and Teacher Effectiveness (IMO Areas 1 and 2)
<ul style="list-style-type: none"> • Baseline Academy set up a positive incentive system for the 2015-2016 school year (Blue Jay Bucks). This system will be improved for the 2016-2017 school year by providing teachers and staff with professional development to ensure consistency. • Baseline Academy used the LRSD Title I compact for the 2015-2016 school year. For the 2016-2017 school year, a Title I compact will be created based on 	<ul style="list-style-type: none"> • Along with the positive incentive system that was created and implemented for the 2015-2016 school year, Baseline Academy collected behavior data. This behavior data collection system will be improved by researching data collection systems and choosing or creating one that will be easy to use and meet the needs of Baseline. • By the beginning of the 2016-2017 school year, a plan will be created to streamline information to 	<ul style="list-style-type: none"> • For the 2015-2016 school year, Baseline Academy created three units of instruction for each quarter with a pretest and posttest. Data Night was a time outside of the school day for teachers and facilitators to analyze data and collaborate about instructional needs of students based on the data. The post test data was used to identify students who needed intervention (tier 2 and tier 3) and to set unit goals for tier 1 	<ul style="list-style-type: none"> • The Leadership Team will be trained on how to implement Classroom Walkthroughs. Data will be collected and analyzed by the Leadership Team. This information will be shared with the faculty and staff in order to improve classroom instruction. • Classroom Walkthrough data, Behavior data, and Needs surveys will be analyzed regularly by the Leadership Team. Professional development sessions

<p>the Baseline Core Values; Family, Leadership, Empowerment, Progress, Student Centered. This plan will also include a way to support teachers and monitor progress.</p>	<p>all stake holders. This plan will include a yearly calendar with all activities, team meeting times, and special events that will be shared with faculty, staff, parents, students, and community.</p>	<p>instruction. For the 2016-17 school year, Baseline wants to be more focused on letting the pretest data drive the instruction.</p> <ul style="list-style-type: none"> • For the 2015-2016 school year, a plan was created to share and communicate data in order to measure progress toward schoolwide goals. Data folders were set up in Google Drive for sharing data among grades 3-5. For the 2016-2017 school year, Google Drive folders will be set up for grade K-2 and teachers will be trained on how to upload their information. 	<p>will be planned and implemented based on this data.</p>

5	45	46	45	47	9	20	0	0	0	0	1	0	2	2

Comments/ Clarifications:

We have students that have been referred to the office but the district data base tracks *only* suspensions via AS400. Four students were suspended this quarter. This includes the one student with 5 or more referrals. Individual Behavior Plans are being created for students who need alternative plans in order to be successful in the classrooms. Baseline has created a Behavior Tracker that provides behavior data that can be analyzed to determine who, what, when, and where behavior is problematic so that staff can be preventive as opposed to punitive (See the optional data section at the end of this report.)

Of the total number of students who have been absent 10 or more days, 26.66% are due to suspensions. Most of the other students' absences are being reported as Personal Illness. Two students had a death in the immediate family.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by <u>Scholastic Math Inventory (SMI)</u> September, 2015 May, 2016		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____/_____(Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by <u>BOY Reading Assessment (WRAP)</u> August/2015 May, 2016		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)	
	1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter

5	0	33.33%	0	0	76%	63%			44%	38%		

Comments/ Clarifications:

Teacher absentee rate improved this last quarter with the exception of Kindergarten. Two of the three Kindergarten teachers had extenuating circumstances this quarter (death in the family and first trimester of pregnancy).

There was a substantial reduction in the number of students who were two or more years below grade level at the beginning of the year compared to the number of students who were two or more years below grade level at the end of the year. Literacy saw an overall

reduction in grades 2-5 of 8.00%, with the most reduction in second grade (19%). Math saw an overall reduction of 22.0% in grades 2-5, with the most significant reduction in second grade (46%).

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in Math this quarter	Percent of students with D or F on any unit tests in Math			
											(A)	(B)	(C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th

							100	90	95	N/A	285	57	20%			
Example																

Comments/ Clarifications:

Although students who are 2 or more years behind in math has declined significantly since the beginning of the year, Baseline still has a large number of students 1 year below grade level in grades 3-5 (**30%**). Since unit pre and post tests are aligned to the rigor of the standards, there are still a substantial number of students with Ds and Fs on the unit post tests. However, the overall growth per grade level from pretest to post test in Quarter 4 has been noteworthy; **Third Grade-33.49%, Fourth Grade-20.76%, and Fifth Grade 18.72%.**

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	1st	2nd	3rd	4th
K	0		0													
1	0		5													
2	0		14													
3	8	47	10	4	9	4	48	44	44		136	60	41%	51.88 %	49.63 %	44.12%

4	5	39	16	19	10	6	34	36	29		99	34	29%	57.27%	60.38%	34.34%
5	6	47	5	16	25	16	43	43	44		130	58	69%	74.80%	60.32%	44.62%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Although students who are 2 or more years behind in literacy has declined significantly since the beginning of the year, Baseline still has a large number of students in grades 3-5 who are 1 year below grade level (**14 %**). Since unit pre and post tests are aligned to the rigor of the standards, there are still a substantial number of students with Ds and Fs on the unit post tests. However, the overall growth per grade level from pretest to post test in Quarter 4 has been noteworthy; **Third Grade-19.89%, Fourth Grade-14.95%, and Fifth Grade 21.67%.**

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? You may include a chart to describe your data.

➤ **Iowa Test of Basic Skills (ITBS)**

Math

There were substantial gains in both first and second grade in math based on the ITBS scores. Math test scores show a schoolwide average percentage gain of 28.5% from 2015 to 2016.

TBS Scores by Grade by Proficiency Category (Math 2016)

Grade	Advanced	Proficient	Basic	Below Basic	Total Percent Passing
1st	7%	41%	28%	24%	48%

2nd	29%	23%	48%	6%	52%

ITBS Passing Percentage by Year (Math)

Grade	Percent Passing 2015-2016 EOY	Percent Passing 2014-2015 EOY	Percent Change
1st	48%	13%	+35%
2nd	52%	30%	+22%

Literacy

- The majority of the students who are reading on or above grade level expectation scored advanced or proficient on the ITBS assessment. 21% of the students in first grade and 20% in second grade who scored basic were 1-5 points away from scoring proficient.

A significant number of first grade students (33/61) and second grade students (25/48) participated in a targeted reading group with Reading Specialists. 66% of first grade reading intervention students and 40% of second grade reading intervention students made 1.25 years or more of growth. Administration expects reading level deficits to be significantly closed in the 2016-2017 school year. A reasonable expectation is 75% grade level reading for rising second and third grade students by the end of the 2016-2017 school year.

ITBS Scores by Grade by Proficiency Category (Literacy 2016)

Grade	Advanced	Proficient	Basic	Below Basic	Total Percent Passing
1st	4%	27%	46%	23%	31%
2nd	16%	16%	34%	34%	32%

➤ **ELL**

- **SCHOOLWIDE LEP READING PROGRESS DATA:** Based on BOY reading level data, **92 of our 131** current 1st – 5th graders or **70%** began the year **BELOW** grade level in reading. Currently **63/131** are below grade level or **48%**. That is a **22% increase in Limited English Proficient students reading on grade level**. Another 10 students are just on the cusp of achieving grade level reading.

Grade	BOY TOTAL 1st -5th grade LEP reading on grade level	# of LEP reading on grade level at BOY who regressed to reading below level at EOY	# of LEP reading below level at BOY who advanced to reading on grade level or above at EOY	EOY TOTAL 1st -5th grade LEP reading on grade level	GROWTH
1st	9/38 or 24%	-2	+4	11/38 or 29%	2 or 5%
2nd	9/24 or 37.5%	-0	+7	16/24 or 67%	7 or 29.5%
3rd	6/25 or 24%	-0	+14	20/25 or 80%	14 or 56%

Totals	39/131 or 30%	-2	+31	68/131 or 52%	29 or 22%

- **ESL TARGETED MATH INTERVENTION DATA:** In Q3 & Q4, **10** 2nd grade English Learners participated in two groups of Targeted Math intervention in Q3 & Q4.
 - 1 scored Advanced and 3 scored Proficient in this year's ITBS Math assessment.
 - All but 1 advanced at least one achievement level on the ITBS compared to their last year's score.
 - 3 of these students progressed 2 achievement levels.

➤ Mathematics

Trends (BOY/EOY)

- There was a large increase in percent passing compared to 2014-2015 school year as measured by ITBS and SMI data.
- ITBS and SMI data also shows first and second grades with the strongest growth in the percent of students who are passing, which aligns with the Common Formative Assessments Data.
- All grades showed strong growth, with the majority of students making more than 1.5 years growth as measured by SMI.
- Incoming classes are more prepared for their new grade level than the previous year.

SMI End of the Year Summary

Grades	Advanced	Proficient	Basic	Below Basic	Yearly Quantile Point Growth
2nd	8% (4/48)	29% (14/48)	44% (21/48)	19% (9/48)	346
3rd	4% (2/47)	34% (16/47)	28% (13/47)	34% (16/47)	477
4th	3% (1/39)	10% (4/39)	28% (11/39)	59% (23/39)	475
5th	0% (0/47)	19% (9/47)	17% (8/47)	63% (30/47)	549

SMI Percent Passing - Comparison to 2014-2015 Results

Grade	2016 EOY Passing	2015 EOY Passing	Change
2 nd	37%	15%	+22%
3 rd	38%	14%	+14%
4 th	13%	8%	+5%
5 th	19%		

SMI Comparison to 2015 BOY (Quantile Point Growth)

Grade	2016-2017 Class	2015-2016 BOY (Current Grade)	Change
3 rd	346	202	+142
4 th	477	293	+184
5 th	475	386	+89

➤ Literacy

Trends (BOY/EOY)

- All grades showed growth with the majority of students making 1.5 years or more growth.
- Second and third grade had the highest percentage increase in reading.
- The majority of the students who are reading on or above grade level expectation scored advanced or proficient on the ITBS assessment. The students, who did not, missed the proficiency score by 1 to 5 points.

BOY Reading Assessment (WRAP) (September/2015)

2nd Grade: 12/47 (26%)
 3rd Grade: 13/46 (27%)
 4th Grade: 10/36 (28%)
 5th Grade: 20/45 (44%)

EOY Reading Assessment Running Records/Unfamiliar Reads (May/2016)

Number of students 2 years or more below grade level at EOY:
 2nd Grade: 3/46 (7%)

3rd Grade: 10/48 (21%)

4th Grade: 11/39 (28%)

5th Grade: 15/44 (34%)

Number of students 1 year below grade level at EOY:

2nd Grade: 4/46 (9%)

3rd Grade: 5/48 (10%)

4th Grade: 7/39 (18%)

5th Grade: 6/44 (14%)

Notes: All grade levels, except 4th grade, saw a reduction in the percentage of students who are reading 2 years or more below grade level. The percentage of 4th grade students reading two or more years behind stayed the same. This factor could be attributed to the fact the reading gap is harder to close as a student progresses through grades. Next year to close this gap, small group instruction and reading intervention will start promptly at the BOY. Phonics will be the primary focus for these students.

Reading Summaries:

2nd Grade: At the beginning of the year, thirty-seven percent (37%) of our second grade students entered reading on or above grade level expectations. Sixty-seven percent of our second grade students are met or exceeded the end of the year grade level expectations.

3rd Grade: At the beginning of the year, twenty percent (20%) of our third grade students entered reading on or above grade level expectations. Seventy-one percent (71%) of our third grade students are met or exceeded the end of the year grade level expectations.

4th Grade: At the beginning of the year, forty-five percent (45%) of our fourth grade students entered reading on or above grade level expectations. Fifty-eight percent (58%) of our fourth grade students are met or exceeded the end of the year grade level expectations.

5th Grade: At the beginning of the year forty-one percent (41%) of our fifth grade students entered reading on or above grade level expectations. Fifty-two percent (52%) of our fifth grade students are met or exceeded the end of the year grade level expectations.

Targeted Reading Program

- **Overall Growth**
41/68 or 60% of the targeted students showed accelerated growth of 1.25 or more years
- **First Grade**
22/33 or 66% of the targeted students showed accelerated growth of 1.25 or more years
- **Second Grade**
10/25 or 40% of the targeted students showed accelerated growth of 1.25 or more years
- **Third Grade**
8/9 or 88% of the targeted students showed accelerated growth of 1.25 or more years

➤ Quarter 4 Behavior Tracker Data Summary

- There were 53 major infractions that resulted in an administrative consequence.
- There were 26 minor infractions that resulted in an administrative consequence.
- Only 3.8% of administrative consequences resulted in out- of- school suspension and 9.3% resulted in in-school suspension.
- 50% of all behavior infractions are from second grade. The Counselor, Behavior Specialist, and Day Springs, our mental health provider, work with many of the second grade students regularly. Individual Behavior Plans have been created and implemented for use with these students.
- The primary behavior infractions that result in a referral are insubordination/defiance (27.6%) and physical aggression (22.8%).
- Parents are contacted for all major infractions and repeat minor infractions.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: The School Leadership Team, which consists of teachers, administrators, specialists and classified staff, meets each Monday at 2:15 for an hour when school is in session. The agenda is emailed to team members in advance along with minutes from the previous meeting. Next steps from each meeting dictates agenda items for weekly meetings. Leadership minutes are shared with the staff via an online staff folder. Staff members are encouraged to ask questions, comment, make suggestions, etc. to the leadership team. Collaboration groups meet each Monday, Wednesday and Friday during their common planning period. Grade level teams meet each Tuesday and Thursday during their common planning	Current reality of effective practice: The leadership team continues to utilize the instructional analysis tool to make decisions regarding student performance on multiple assessments. The data analysis determines which students need enrichment outside the classroom to address academic deficits in literacy and math. Communication between the core instructional teams and the leadership team has increased. The ESL Coordinator position has been posted and interviews will be conducted during the summer. We are working with the district in an attempt to hire a Spanish interpreter/paraprofessional to work with our ESL parents and students.

<p>period. The student team (Principal's Cabinet) will meet once a month, beginning in the second quarter. The management team meets each Friday at 1:30. The School Community Council meets each Friday at 10:30. Agendas and minutes from all meetings are kept on file.</p> <p>Data is looked at, but needs to be used more effectively by all teams to plan lessons, differentiate, design intervention strategies and guide professional development.</p>	
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: Instructional units and pre-/post tests are used in the majority of curricular areas. Results are used in English and math classes to guide instruction, but not as much in other curricular areas. Individual student results are not studied as much as trend data and group results. More time needs to be spent planning	Current reality of effective practice: Instructional units and pre/posttests are now used throughout all content areas. Consistency is still needed in some non-core areas. Core teachers are analyzing data and using the data to develop remediation, differentiation and enrichment plans. Teachers also use the data to address gaps in curriculum. Some non-core teachers are still struggling to figure how to use data to inform

instructional units. We are trying to refine the process of what to do with the data.	instruction; however, they are looking at their data and working to resolve this issue. Teachers in a variety of content areas are using Criterion Writing in an effort to increase the use of writing in content areas other than English Language Arts.
IMO AREA 3: STUDENT SAFETY AND DISCIPLINE	
Effective Practice within Category: Expecting and monitoring sound classroom management (IIIC10)	
Description of full implementation of the Effective Practice and/or Recommendation: The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).	
Current reality of effective practice from the beginning of the year: Teachers taught the schoolwide and individual classroom rituals/routines and rules at the beginning of the school year. Most teachers follow the due process form for category I offenses. Rituals/routines and rules need to be reviewed on a regular basis and followed consistently throughout the building.	Current reality of effective practice: The targeted attendance group began meeting on a regular basis. Students appeared to make a significant effort to improve their attendance. The data is still incomplete at this time. We are still working to decrease the number of tardies, particularly during transition times between classes.
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or "compact," that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents	

can work together to help students achieve the state's standards.	
Current reality of effective practice from the beginning of the year: The compact has been developed and Cloverdale has moved to distribution specifically meeting the language needs of the parents being served.	Current reality of effective practice: The revised home/school compact was reviewed with parents and staff members and has been posted so that it is available to all parties.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: The school has a guidance plan that includes options for planning college and career opportunities. As a middle school, we do not currently track graduates as they pursue their college and career goals. For the past several years, Cloverdale has sponsored a monthly college and career Friday. Students and staff are encouraged to wear college paraphernalia and lessons include college awareness information, etc.	Current reality of effective practice: Students from our three main feeder schools came to Cloverdale and met with the administrators, toured the campus, met some of the sixth grade staff members and received information regarding the adjustment to a middle school schedule... Communication has been established between the instructional facilitators at Cloverdale and our feeder high school regarding transitioning to Read 180 and Math 180 classes at the high school level so that there is no gap or repeat of instruction.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

- Making connections with high school and elementary school instructional facilitators – an effort to ensure a smooth transition to and from middle school for students, particularly those enrolled in intervention classes
- Celebrating student growth – to alleviate student apathy particularly due to the increase in assessments
- Collaboration with science teachers – the leadership team felt disconnected and wanted to figure out how to meet the needs of the science department
- Posting position for an ESL coordinator – more than a quarter of our student body falls in this subgroup, an increase of resources in order to meet their unique needs became necessary
- Parent Center open house – designed to introduce our new parent coordinator in a personal way as well as to revitalize our effort to meet the needs of our parents in order for them to become actively involved in their children's education

If anything, what do you intend to change or modify for the year?

- Continue to increase focus on literacy, math and science
- Increase push for student organization skills
- Develop parent workshops that will encourage active engagement in academics
- Early detection of high-priority students, based on attendance, academic and discipline trend data, for prevention and intervention strategies
- Additional time spent on pull-ins and push-outs for ELL students
- Expand awareness of resources available to the ELL population
- Create a master schedule that will allow instructional teams to fully develop into professional learning communities
- Offer courses to address the needs of students who are able to meet the academic challenges of a rigorous curriculum
- Foster support for Read/Math 180 and System 44 through a whole school approach
- Provide increased support through professional development
- Increase the utilization of data analysis to drive student achievement

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
6	218	222	221	224	27	63	1	1	0	1	6	10	17	17
7	183	182	177	180	27	46	6	5	5	0	12	21	26	27
8	186	191	199	200	23	43	3	6	4	3	11	17	25	25

Comments/ Clarifications:

We developed a mentoring program earlier in the year, but realized that we are not truly equipped to mentor. We need to monitor this program and make decisions before assigning student next year. We will continue to track students with a large number of absences on data dashboard.

The reported discipline data accurately depicts the school climate. Very few of our students have 5 or more discipline referrals. Most referrals are category 1 offenses.

Cloverdale has a pretty high attendance rate. The majority of attendance issues are related to student tardies. The parents of students with a large number of absences are mailed letters warning them of this issue. Phone calls are automatically generated each time a student is absent. Court referrals are made by the attendance clerk on a regular basis.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____ - _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Scholastic Math Inventory _____ September / 2015 _____ May / 2016 _____		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____ - _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Scholastic Reading Inventory _____ September / 2015 _____ May / 2016 _____	
	1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
6	23.08	23.08	53.85	53.85			126	120			82	75
7	27.27	9.09	38.46	46.15			133	82			87	91
8	20.00	30.00	87.50	37.50			123	118			74	112

Comments/ Clarifications:

There is no system in place at this time to encourage positive teacher attendance. We tried a monetary reward a few years ago system through the SIG grant, but there was little to no improvement.

There were several long-term teacher absences that occurred this past year. Several other teachers missed more than 5 days as well. Most of these absences was related to teacher illness/sick leave. Some was due to professional development, but not an excessive amount. The leadership team is concerned about teacher absences and has talked about ways to decrease the number of teacher absences. This is definitely an area that we would like to improve on.

The leadership team is concerned about the increase in students that are 3 or more years below grade placement in ELA in the 7th and 8th grades. This will be addressed at the beginning of next school year.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in Math this quarter	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	1st	2nd	3rd	4th
6	42	224	91	74	80	43	209	202	204		615	268	75	43	49	44
7	35	180	64	78	86	86	138	141	150		429	292	51	58	59	68
8	37	200	32	56	61	68	161	161	178		517	260	89	77	69	50
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Teachers are asked to reflect on pretest/posttest results and determine a differentiation plan/remediation plan respectively. Teachers are asked to examine the standards that were not mastered by the majority of the students. The standard is taught using a different approach or strategy. Teachers are free to choose their plans to best meet the needs of their students. Teachers are also asked to use their collaboration to discuss strategies to reinforce/reteach/enrich learning for students. Teachers have also used flex grouping to remediate/enrich students. With flex-grouping, students who need to revisit or enrich a particular skill will be matched with a teacher who has past success with teaching that skill according to the data. During collaborations, teachers are engaged in collegial conversations with each other or the Math IF in order to build capacity across the department.

Teachers and students have expressed concern with test exhaustion. There are a greater number of D/F's on the posttests. There has been some discussion in the leadership team on how to alleviate some of the testing tension in classrooms.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
											(A)	(B)				
											1st	2nd				
6	21	224	6	20	21	38	222	193	207		622	10	33	10	3	2
7	48	180	27	37	59	62	159	159	153		471	102	53	52	52	22
8	38	200	34	7	14	48	139	165	160		464	90	47	51	50	19
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Teachers are asked to reflect on pretest/posttest results and determine a differentiation plan/remediation plan respectively. Teachers are asked to examine the standards that were not mastered by the majority of the students. The standard is taught using a different approach or strategy. Teachers are free to choose their plans to best meet the needs of their students. Teachers are also asked to use their collaboration to discuss strategies such as AVID Critical Reading/AVID Weekly Skill, Step-Up to Writing, and technology to reinforce/reteach/enrich learning for students. Teachers have also used flex grouping to remediate/enrich students. With flex-grouping, students who need to revisit or enrich a particular skill will be matched with a teacher who has past success with teaching that skill according to the data. During collaborations, teachers are engaged in collegial conversations with each other or the Literacy IF in order to build capacity across the department.

Teachers and students have expressed concern with test exhaustion. There are a greater number of D/F's on the posttests. There has been some discussion in the leadership team on how to alleviate some of the testing tension in classrooms.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools, which include a description of the teams' purposes, and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • GSGTA's Leadership team was established and met regularly last year. (2014-15) • Agendas and minutes of the meeting were kept and disseminated to staff through email. • Bylaws were created. • The Indistar school improvement process is new to all staff. • Instructional teams will continue to have agendas and recorded minutes of their meetings. • There is limited or no participation by PTA at the end of last year. 	Current reality of effective practice: Established GSGTA teams: school leadership team (SLT), instructional teams, and a now defunct school community council. (PTA was active at the beginning of the year but parents disengaged once the closing of the school was announced.) The teams were supported by district policy and have bylaws, which describe their purpose and govern their membership and operation. The SLT met biweekly (or twice a month), the instructional teams usually met once a week, and the school community council met monthly. Most teams worked from agendas and recorded minutes of the meetings. By the middle of the year, the SLT team became much more data focused in determining actions to be taken. The SLT analyzed data to assess, plan, monitor and develop improvement plans (tasks) to address needs revealed by the data; some instructional teams were proficient in analyzing their own data and determining next steps for instruction.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: <p>The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).</p> <p>The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).</p>	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • Instructional teams meet and plan for instruction weekly. • Some teachers are administering unit pre- and post-tests. • Some teachers are using pretest data to differentiate instruction. • The administrator observes instruction regularly and provides feedback to teachers in emails or through conference. Feedback is also given to some students. 	Current reality of effective practice: Most grade level instructional teams met at least once a week to plan units of instruction and to develop unit assessments that were used as pre- and post-tests. The goal was to assess three times per quarter. Most instructional teams became more proficient with reviewing pre-/post-test data for the purpose of differentiating instruction, re-teaching, and providing extra help for students. The instructional team members were reflective in their data review. Some students needed intense intervention instruction for foundational deficits. Some students received this opportunity, others did not due to time constraints and staffing issues. One main ways teachers differentiated instruction in the classroom was by flexibly pairing and grouping students based on their learning needs. Students groups rotated between a small teacher groups and other prescribed workstations that were developed to help address the varying needs of students. Teachers felt pinched for time to pre- and post-test students in all areas, and student motivation to take tests was sometimes a challenge. Professional growth by teachers included rich learning activities such as lesson study and STEM classes through the UALR JAVITS grant.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE

Effective Practice within Category:

Expecting and monitoring sound classroom management (IIIC10)

Description of full implementation of the Effective Practice and/or Recommendation:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).

Current reality of effective practice from the beginning of the year:

- Responsive classroom strategies are in place in most classrooms and professional development is ongoing.
- Norms, expectations, and procedures are reviewed daily.
- A school-wide behavior plan is in place.
- Team building is an integral part of daily school life. It is a very intentional goal of GSGTA to build the learning community every day.
- Community Helpers lead daily morning activities and serve as leaders in our school.
- Students participate in multi-age classrooms during Imaginoons and clubs.
- These strategies have greatly influenced our students' confidence in learning that is impacting achievement.

Current reality of effective practice:

"Responsive Classroom" strategies were utilized to build community and structure for classroom management. The principal established a process for behavior management. Clear, consistent, positive classroom management protocols and classroom rituals and routines were developed and executed by most teachers. These procedures were taught and reinforced daily with the students. A system for collecting behavior data was established and implemented. Collected behavior data was analyzed by SLT and used to help reduce disruptions to instruction. Intense support was given to some new teachers to help with consistent classroom management practices. Growth in their proficiency with classroom management increased. Individual behavior plans were made for students who required more structure and incentive for acceptable and improved behavior.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: Many parents have signed the school's Title I Compact.	Current reality of effective practice: The school closed. Many parents were supportive through the end.

--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

Third through fifth grade teachers are participating in a three year commitment with the JAVITS grant STEM program to ensure they have full understanding of the careers and colleges to better equip students for the future.

Current reality of effective practice:

Students enrolled in SLUFY, SPARK, and EXXON Mobil Engineering Camp summer programs. Students were excited to be apart of these programs.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

By committing ourselves to using the Indistar process with fidelity, we steadily improved our school learning community throughout the year. The process helped us keep a pulse on what was occurring in our school and to give teacher and student support where it was most needed.

We changed the format of our leadership meeting. We began to analyze various data at the beginning of each meeting before ever starting any discussions. This information drove our discussions and made the tasks we created much more meaningful. Also, we changed to only creating tasks that could be completed in two weeks. This was doable both in terms of completing the tasks, for the actual monitoring of the tasks, and for enabling us to consistently improve our school process. Tasks didn't get "swept under the rug". Tasks that were not getting accomplished were re-evaluated for their usefulness. New tasks were created as old tasks were completed.

The decision to hold a vertical planning session (3-5 teachers) after the ASPIRE interim tests proved very valuable. Teachers analyzed ASPIRE interim assessments and discussed next steps for instruction and test-taking skills. The session provided an opportunity for teachers to collaborate across grade levels sharing strategies that work in their classroom. This decision was implemented after it was apparent teachers needed more opportunities to share effective instructional strategies, especially with regards to preparing students to optimally perform on high-stakes tests. The diversity of grade levels and backgrounds yielded rich, quality discussions which teachers greatly appreciated. More opportunities for meaningful vertical collaboration need to occur.

Using lesson study as a vehicle for teacher learning has (once again) proven to be very valuable. Vertical groups of teachers are empowered by this dynamic learning process because they are planning and observing students in an actual lesson they created. Individual and group reflection on the data collected on the students' response to the lesson provides rich sources for discussion on content and effective instructional practices.

If anything, what do you intend to change or modify for the year? The school is closed.

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

The high numbers of Ds and Fs in second grade are due to one teacher's heavy emphasis on completing lots of paperwork for grades. Some students were not able or were unwilling to do this work.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

National Percentile Rank - IOWA ASSESSMENT											
	ELA				MATH				Core Composite		
SCHOOL	2015	2016	+/-		2015	2016	+/-		2015	2016	+/-
GSGTA - 2nd Grade	44	61	+17		39	64	+25		40	60	+20

This is the most current data we have on our second grade students whose average score was much higher than the previous year's second grade students.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • Leadership Team bylaws have been established. • The Leadership Team needs to establish a subcommittee that meets every two weeks to analyze math and literacy data that is used to determine professional development and identify resources for teachers. • Leadership Team and Instructional Teams established and meet with agendas and minutes. • No Student Team, Management Team, or School Community Council has been established. • A plan established for 2 –way communication. • SRI, SMI, and CFA data is being discussed at team meetings. 	Current reality of effective practice: Fourth Quarter <ol style="list-style-type: none"> 1. School Leadership Team meets twice a month. Agendas and minutes are posted in Indistar and shared with faculty members via email and a common drive. 2. Instructional/Collaboration Teams (common subject) meet at least twice per week during 52 minute collaboration periods. Minutes and agendas (Collaboration Logs) are uploaded to a common drive. 3. Management/Administrative Team meet each Tuesday morning with agendas and minutes kept on file electronically. 4. School Leadership Team is reviewing school performance data to determine school improvement and professional development needs.

	<p>5. Students are providing their input as it relates to school improvement in a variety of formats.</p> <p>6. Each team has a specific purpose and scheduled time to meet. Teams work from agendas and minutes.</p>
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
<p>Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).</p> <p>The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).</p>	
<p>Current reality of effective practice from the beginning of the year:</p> <ul style="list-style-type: none"> • Instructional Teams are meeting twice a week to develop instructional units based on curriculum standards and documents. • 9th Grade Instructional Teams are meeting but still need to focus on disaggregating the data and planning to address the deficits. • Pre and post tests are being administered at 3-4 week intervals. 	<p>Current reality of effective practice:</p> <p>Fourth Quarter</p> <ol style="list-style-type: none"> 1. Literacy and math Instructional (Collaboration) Teams develop instructional units based on the curriculum standards and the LRSD curriculum document. 2. Teachers use an instructional "unit-based" progress monitoring and response system in math and literacy courses via pre/post-tests at two to three week intervals which encompasses three to six weeks of work. 3. The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE	
Effective Practice within Category: Expecting and monitoring sound classroom management (IIIC10)	
Description of full implementation of the Effective Practice and/or Recommendation: The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • There is no faculty/staff developed discipline management plan. • There is no evidence that all teachers establish rituals and routines. • There is no evidence that all teachers teach the rules and procedures in their classrooms. • There is no evidence that all teachers are consistent with enforcing agreed-upon rules and regulations. • There has been no analysis of discipline reports to determine areas of improvement. 	Current reality of effective practice: Fourth Quarter <ol style="list-style-type: none"> 1. The faculty has developed a discipline management plan that guides student behavior throughout the school via a list of school wide rituals and routines to be implemented next school year.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.

Current reality of effective practice from the beginning of the year:

- Compact exists.
- Parents, staff, and students are not aware of it.

Current reality of effective practice:

Fourth Quarter:

- **Hall’s Parent Compact** outlines how parents, school staff, and students will share responsibility for improving academic achievement.
- The compacts describes how the school and parents can work together to help students achieve the state’s standards.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none">• The guidance plan• The process of tracking recent graduates	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none">• A guidance plan exists.• Recent graduates are tracked.	Current reality of effective practice: Fourth Quarter: <ul style="list-style-type: none">• Hall's Counselors, AVID Coordinator, and Career Coach work to provide students in 9th-12th with opportunities to explore their career options and plan for career or college after high school.• Counselors maintain contact with recent graduates, and are updating records to track their post-secondary activities.• A data base has been developed to gather the recent graduate information.• Advertisement of opportunities for summer enrichment programs, ACT preparation classes, college visits to campus, and other career and college related activities are ongoing.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The decision to be more open with communication with the staff regarding the school improvement efforts, SLT meetings, and professional development plans.

We can attribute the changes to the overwhelming feeling of not getting much accomplished in the way that we've worked in the past. In an effort to make a difference in our outcome, we recognized that we needed to make a change in the way that we operate as an SLT.

If anything, what do you intend to change or modify for the year?

- Implement meaningful, necessary changes in regards to school climate. We would like for our team to be able to discuss changes that will make a major impact in our school. If we're going to look at data, there must be some follow-through in terms of support and accountability with the teachers in regards to that data.
- There will be a school wide initiative to implement AVID (Achievement Via Individual Determination) instructional strategies which are best teaching practices.
- Implement meaningful professional development opportunities that meet the teaching and learning needs.
- Provide ongoing support and accountability when implementing professional development to the instructional staff.
- Redesigning the 9th Grade Academy.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
9	329	326	323	309	40	84	19	8	5	37	32	46	81	37
10	278	296	286	282	45	72	14	10	9	26	31	33	47	26
11	242	241	233	227	34	58	9	2	3	18	18	10	33	18
12	225	224	205	200	31	52	2	3	3	7	12	8	25	7

Comments/ Clarifications: There was an influx of EL students that enrolled into the school during the 2nd semester. More referrals were actually documented within the AS400 system during the 4th quarter. As a result of noticing from previous quarters' data, the assistant principals entered more referrals into the system during the 4th quarter. As we prepared for the testing cycle, we identified students who were on attendance rosters as absent for multiple days and contacted parents/guardians. Several students were then removed from the teacher rosters. It has been discovered that many students are not following the proper protocols to un-enroll from school. This has prompted discussions to determine a better system for supporting student enrollment and disenrollment.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by Scholastic Math Inventory (SMI) Test on _____ / _____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by Scholastic Reading Inventory Test on _____ / _____ (Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
27.59	62.07	44.83	32.00			147/170	212/217			175/274	271/335
21.43	28.57	38.46	23.08			128/136	58/61			123/195	198/243
14.29	64.29	61.54	30.00							122/197	
66.67	33.33	50.00	10.00							68/116	

Comments/ Clarifications: It was not required by the district to conduct a second and third SMI or SRI assessment. Some math and literacy teachers chose to conduct a second and a third while the vast majority did not. The percentage of teacher absences went down in the 4th quarter. We feel that we can attribute this to more conversations being held regarding the importance of being in the classroom. Additionally, the school spirit and morale was boosted with successful spring sports and other student activities.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in Math this quarter	Percent of students with D or F on any unit tests in Math			
											(A)	(B)	(C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4			1st	2nd	3rd	4th

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

1st Quarter

1. School Leadership Team: Literacy and Math Lead Teachers, Literacy and Math Instructional Facilitators, 9th grade Academy Lead Teacher, City Year Project Manager, Counselor, District Math Lead Teacher, Principal, Assistant Principals.
 2. Campus Leadership Team: All Instructional department chairs, Parent Involvement Coordinator, Instructional Technology Specialist, Guidance counselor, Parent, Student representative, Principal and Assistant Principal.
 3. School Community Council: Selected Parents for our student body.
 4. Student Government Association: Elected student officers from each grade level
 5. Collaboration Teams: Common content teachers meet 3 times a week to create CFA's, analyze data, lesson planning.
- The School Leadership Team meets on the 1st and 3rd Wednesday of every month. Campus Leadership meets the 2nd Wednesday of every month,

Current reality of effective practice:

4th Quarter:

1. The School Leadership Team continues to meet twice monthly. We have continued to share minutes via email of the meetings with staff. We have received comments that this has helped staff's understanding of work that the SLT is doing. We continue to encourage feedback from staff. We added the SLT minutes on the faculty agenda as a standing item to elicit more in-depth feedback from all staff members. We surveyed our staff to determine the SLT's effectiveness; 69% of teachers surveyed feel that the SLT has a plan to increase student achievement.
2. The Campus Leadership Team continues to meet monthly on the 2nd Wednesday of each month. This team continues to discuss management and building level issues. They also are briefed on the SLT minutes. The SLT has the bylaws in electronic format for review by the new administration.
3. The Instructional Leadership Team has a standing, weekly meeting. This quarter the focus of our meetings has been on plans for the 2016-17 school year, which has been challenging since a new administration will be in place.

<p>Student Government meets daily during their Leadership Class Period, The School Community Council meets on the 3rd Wednesday of every month. Each committee has an agenda and minutes for each meeting.</p> <p>The School Leadership looks at and disaggregates various forms of data, SMI/SRI data, CFA data, Soar Data, grade distributions, discipline reports, attendance reports. After looking at the data the team determines the next steps and/or intervention strategies. This information is shared with the Campus Leadership team, which then is shared in the department meeting and collaboration meetings. Feedback from the various teams drives the instruction and professional development.</p>	<p>4. Grade Level Teams continue to meet on scheduled Collaboration Days. Digital copies of bylaws/protocols have been provided.</p> <p>5. Student Council meets daily during their Leadership class to discuss and plan student projects and activities.</p> <p>6. The School Community Council meets on a monthly basis to elicit parent input.</p> <p><u>Continued and Ongoing</u></p> <p>Agendas for all collaboration meetings are submitted via google forms or to Principal Biggs.</p> <p>Teachers and staff will continue to obtain professional development on submitting forms using Google Docs.</p> <p>Agendas and minutes are kept for the School Leadership Team Meetings, Department Meetings, Campus Leadership Meetings, School Community Council Meetings</p> <p>The 9th and 10th grade teachers are organized into academies. Career academies are being established. These teams along with the Algebra I teachers and the Geometry teachers have a common planning period.</p>
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: <p>The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).</p> <p>The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).</p>	

Current reality of effective practice from the beginning of the year:

1st Quarter

The teachers at JA Fair are divided into common content teams. The content teams meet three times a week. During these meetings teachers will determine the unit of study, identify matching priority standards, unwrap the matching priority standards, write essential questions, write selected response items, write constructed response items and create scoring guides. Each team will administer a CFA for each unit. The same test will be administered as a post test to determine growth and/or remediation. Faculty was provided training on designing pre/post test. Teachers were also given training on how to disaggregate data. All pre/post test are uploaded and shared to Google Drive. Administration monitors the progress of the delivery of pre/post test via Google Docs and shared folders.

Current reality of effective practice:

4th Quarter

This quarter we continued using the shared schedule and timeline to administer pre-post tests. The Grade Level Teams and administrators appreciated this schedule, which allowed everyone to know what to expect and to more effectively monitor progress; however, 4th Quarter Testing interfered with our schedule. Therefore, a request was made to ADE to give only two pre-post tests and the Semester test average as an option. We will look to see how district and state tests affect our pre-post testing schedule for the 2016017 school year. Now that we have an established timeline, we are discussing the alignment of our unit tests to content being taught, the instructional methods used to address student deficiencies based on pre-test results, and interventions needed to assist struggling learners. We rewrote our description of full implementation in this area to include creating a 9 week comprehensive test and dividing that test into three segments, ensuring alignment. We have proposed summer training to the district to address the above topics with teachers.

Continued and Ongoing

- Currently all teachers have received initial professional development on pre/post test and data analysis.
- During collaboration team time, teachers are discussing pre/post test data and analysis and providing next steps and interventions that will address student needs.
- Teachers complete a 5-step data analysis for all student data discussed but we feel that this needs to be reviewed. We need to look at software to help teachers with analysis of data.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE

Effective Practice within Category:

Expecting and monitoring sound classroom management (IIIC10)

Description of full implementation of the Effective Practice and/or Recommendation:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).

Current reality of effective practice from the beginning of the year:

1st Quarter:

The Campus Leadership Team has initiated a school-wide discipline plan to address minor classroom infractions.

The 9th grade academy has implemented a discipline plan to address minor classroom infractions. All teachers have developed rituals and routines and they're posted in each classroom. Teachers taught their rituals and routines to their classes. Campus Leadership team is in the process of reviewing school-wide rituals and routines that will be shared with all stakeholders and posted school-wide.

Current reality of effective practice:

4th Quarter:

The 9th grade academy continues to operate with a Category One discipline plan. The Campus Leadership team meets and discusses school-wide discipline initiatives. We will review classroom rituals and routines and discuss the need to consistently teach the rules to students throughout the year. Reviewing Category I Offences is an area listed on the Needs Assessment. Student Council provides student input for building level policies. The Administration is currently implementing all student safety compliance drills to ensure student safety in the event of an actual crisis.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: 1st Quarter The Parent Facilitator Team has been established. The team consists of the Parent Involvement Coordinator, Parent Facilitator, parent representative from each grade level and the Principal. The team has created a parental involvement plan. The team meets during the summer to discuss back to school, provide feedback regarding Title 1, school data, family/curriculum nights, parent link, school community council, parent teacher conferences, information packets, surveys, best communication practices for parents, workshops, volunteer workshop opportunities, email distributions, and PTSA meetings	Current reality of effective practice: 4 th Quarter This quarter we began reflecting on our plan from the previous school year. Parental involvement doubled from the previous year. The guidance counselor is reflecting on the Passport to 10th Grade Program. We held activities in the area of math and literacy while informing parents of their students’ progress. The guidance department along with the Career Coach conducted a Parent Workshop for seniors and their parents. A monthly newsletter is sent to our parents, which include tips for academic success. The Guidance office continues to participate in monthly meetings and assists Administration. <u>Ongoing</u> The team has created a parental involvement plan. The team meets during the summer to discuss back to school, provide feedback regarding Title 1, school data, family/curriculum nights, parent link, school community council, parent teacher conferences, information packets, surveys, best communication practices for parents, workshops, volunteer workshop opportunities, email distributions, and PTSA meetings

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT
Effective Practice within Category: Post-Secondary School Options (VA01)
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates’ success at the next level as they pursue their college and career goals.

<p>ADE will monitor the following:</p> <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
<p>Current reality of effective practice from the beginning of the year:</p> <p>1st Quarter</p> <p>The guidance department has implemented a senior mentoring program to assist all seniors with their college and career transition. Students are counseled regarding their current readiness to graduate, apply for post-secondary opportunities and/or vocational career options. FAFSA financial planning night is held for all parents and seniors. Counselors visit all classrooms to discuss college/career options.</p> <p><u>Ongoing Yearly Activities</u></p> <p>We offer a Career/Transition Fair for all students.</p> <p>All seniors are paired with a caring mentor in the building that will assist the student with college or career decisions.</p> <p>City Year has added Adopt A Senior. Corp members meet with the students to discuss college and career options during lunch and assist with their needs.</p> <p>All math club students will qualify for a grant if they decide to work in the educational field upon college graduation. Incentive for students that are currently in the club.</p> <p>We offer three Career Academies: IT, Sports Medicine and Environmental Science</p> <p>All 9th grade students take the Kudor Assessment that will assist them with choosing a career academy.</p> <p>Financial Aid Workshop for all seniors and their parents.</p> <p>We have a Career Coach-offer the COMPASS test in house to our students</p>	<p>Current reality of effective practice:</p> <p>4th Quarter</p> <p>The Guidance Department completes a Post Secondary District Report each year that tracks students through their Freshman Year in College. Based on this report, approximately 46% of our students enter college. This is determined by the annual follow up report that is conducted each fall. The counselors schedule Senior Exit Surveys with Seniors during the third quarter. JA Fair received 2.7 million dollars in scholarship money for Seniors.</p> <p><u>Ongoing Yearly Activities</u></p> <p>We offer a Career/Transition Fair for all students.</p> <p>All seniors are paired with a caring mentor in the building that will assist the student with college or career decisions.</p> <p>City Year has added Adopt A Senior. Corp members meet with the students to discuss college and career options during lunch and assist with their needs.</p> <p>All math club students will qualify for a grant if they decide to work in the educational field upon college graduation. Incentive for students that are currently in the club.</p> <p>We offer three Career Academies: IT, Sports Medicine and Environmental Science</p> <p>All 9th grade students take the Kudor Assessment that will assist them with choosing a career academy.</p> <p>Financial Aid Workshop for all seniors and their parents.</p> <p>We have a Career Coach-offer the COMPASS test in house to our students</p>

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

- Streamlining the pre/post test process
- Creating the submission of data scheduled for teachers
- Reviewing the data and deciding on the next professional development needed for staff
- Looking at teacher survey results and making professional development decisions
- Sharing SLT minutes with staff, conducting SLT PLC and adding SLT to staff meeting agendas

If anything, what do you intend to change or modify for the year?

- Continue to utilize data to make decisions while filtering the information down to Campus Leadership
- Build on the work we have done with Common Formative Assessments

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
9th	259	262	249	246	28	18	10	42	62	39	20	25	33	28
10th	250	250	236	230	29	13	18	40	70	26	15	14	28	23
11th	166	169	157	151	23	6	9	18	40	21	10	6	9	11
12th	183	176	163	165	36	3	2	11	14	5	5	7	8	4

Comments/ Clarifications:

The school utilizes progressive discipline. Referrals were decreased from third quarter. Student absences also decreased in all grade levels; except grade 11 from third quarter. The administration discussed the 3rd Quarter data with the Student Behavior Intervention Team and Campus Leadership Team, which led to a decrease in referrals and absences.

LEADERSHIP TEAM REPORT CONTINUED

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____/_____(Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____/_____(Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
20%	20%	56%	22%			456	377			271	240
25%	25%	45%	27%								
0%	33%	67%	50%								
20%	40%	60%	20%								

Comments/ Clarifications:

Teacher absences decreased in each grade level from the third quarter to the fourth quarter. The Building Administration implemented the “Letters of Concern” system, which notifies teachers of their absences and allows administrators to express concern and brainstorm strategies for decreasing absences with individual teachers.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
9	89	201	13	87	105	98	0	74	0		74	70	82%	94%	69%	95%
10	111	195	104	106	127	119	179	153	191		523	236	49%	90%	65%	45%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

In 9th Grade 95% of students earned D/F on 4th Quarter pre-post tests, but 49% earned D/F for the nine weeks. We will discuss this data during our summer workshop to ensure that daily assignments are aligned to pre-post tests and to ensure that proper planning is in place so that state tests and pre-post assessments are given consistently during the 4th Quarter. In 10th Grade 45% of students earned D/F on pre-post tests, while 61% earned D/F for the nine weeks. The School Leadership Team is hosting a summer workshop to address re-teaching and remediation of concepts that is preventing

student mastery. The District Leadership Team is providing funding for the summer training and will discuss funding options to allow for blocks of time during the summer or during school time to plan and create pre-post tests and Data Days to analyze data. Ongoing Professional development will be provided to assist teachers in planning and creating aligned pre-post tests to curriculum standards and to ensure student mastery.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	1st	2nd	3rd	4th
9	131	246	83	133	106	103	179	0	79		258	138	67%	45%	24%	53%
10	21	230	97	105	43	47	86	132	100		318	99	69%	72%	50%	31%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

In 9th Grade 53% of students earned D/F on pre-post tests but 42% earned D/F for nine weeks. In 10th Grade 31% earned D/F on pre-post tests and 20% earned D/F for nine weeks. The District Leadership Team provided funding for summer workshop and will discuss funding to allow for blocks of time

during school time to plan and create aligned pre-post tests. Ongoing Professional development will be provided to assist teachers in planning and creating aligned pre-post tests to curriculum.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

Jennifer.Nelson

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

The School Leadership Team meets weekly for 45 minutes during 7th period. There was not enough time to complete tasks during that time frame. Attendance is not regular because some of the members have classes during this time. Agendas are made and minutes are taken but they are distributed to staff. There is currently no active School Community Council, but there is information given to parents at check-in on ways to be involved at the school.

Current reality of effective practice:

The School Leadership Team consists of building level administrators, district level administrators, specialists, teachers, and instructional facilitators. The team meets every other Wednesday from 4:00-5:00 PM. These meeting times were changed in order to allow more members to be consistently present. The meetings include discussing indicators, disaggregating SOAR data, and coming up with innovative ways to engage students while increasing student achievement. The School Improvement Specialist has begun to send the agenda out via email 48 hours before each team meeting. The building principal shares the team minutes with the entire staff within 48 hours of each meeting. The staff is given an opportunity and encouraged to provide feedback to the

leadership team. The School Improvement Specialist has set up a standing weekly meeting with the administrative leadership team. The School Community Council has been established and bylaws created and published. The School Community Council currently has more staff than parents. The Mabelvale Leadership Team has created a new staff handbook that outlines expectations, procedures, and a directory for common information that may be needed.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)

Description of full implementation of the Effective Practice and/or Recommendation:

The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).

The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice from the beginning of the year:

Instructional Units and Pre/Post tests are beginning to be developed in all Core areas. Most teachers have been consistently administering Pre/Post tests. However, they have not been uniform across grade level content areas. The data has not always been documented to show how instruction is being differentiated based on pre test results. Mabelvale is currently working towards all grade level content areas teachers collaborating on a grade level pre test to be administered to all students prior to beginning a unit. The same type assessment questions will be given at the end of the unit. The data from these assessments will be reviewed by the facilitator and teachers to plan instructional units. Individual student results and class period results will also be used to guide instruction.

Current reality of effective practice:

Instructional Units and Pre/Post tests have been given in all content areas. All teachers have consistently administered Pre/Post tests this quarter. The data has not always been documented to show how instruction is being differentiated based on pre test results, however; it is being documented more consistently on data analysis forms. The School Improvement Specialist and the building principal met with all teachers to go over the expectations dealing with pre/post assessments, data, and differentiating instruction. A data analysis form was revised and made available to all teachers. The SIS led a PLC to explain and demonstrate the expectations when utilizing this form. The expectation is that this form will be used to analyze pre/post test data and to guide the discussion on instructional practices. The Instructional Facilitators and SIS will analyze data with the teachers using the forms. We are working towards the facilitators bringing back the data and instructional discussion to the leadership team in order to make instructional decisions for the school.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE	
Effective Practice within Category: Expecting and monitoring sound classroom management (IIIC10)	
Description of full implementation of the Effective Practice and/or Recommendation: The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).	
Current reality of effective practice from the beginning of the year: Teachers taught the school wide rituals and routines at the beginning of the year. They continue to review these throughout the school year. They also taught and reviewed classroom rituals and routines. Some teachers follow the due process procedure for most offenses. Mabelvale administration will continue to remind and encourage teachers to send referrals with students when they are sent out of class.	Current reality of effective practice: The discipline management plan was reviewed with faculty and staff members through grade level team meetings. Teachers were prompted to reflect on successes, challenges, and the overall effectiveness of the plan. School wide rituals and routines have been posted in each classroom and hallway. Teachers were directed to re-teach school wide and classroom rituals and routines each Monday during the opening of their daily lesson. Leadership team reviewed discipline data and found trends in the time of day and type of offense. Administrators met with individual teachers in need of additional support. These teachers were identified through discipline data and classroom walk through data. Administrators continue to monitor teacher referrals and classroom observations to ensure that each teacher consistently enforces the discipline management plan.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year:	Current reality of effective practice: Mabelvale has developed a Parental Involvement Plan/ Community Kit. This kit contains the “compact” that outlines how all stakeholders can work together to improve the academic

Mabelvale has developed a Parental Involvement Plan/Community Kit. This kit contains the “compact” that outlines how all stakeholders can work together to improve the academic achievement of all students at Mabelvale Middle. This is distributed to parents at check-in before school starts each year.

achievement of all students at Mabelvale Middle. This is distributed to parents at check-in before school starts each year. A School Community Council has been set up and meets regularly. The updated bylaws for this team are included in the parental involvement kit. Meeting dates have been determined for 2016-2017 school year and staff members have volunteered to serve on the committee. Meetings will be held the 2nd Monday of each month immediately preceding athletic events. Revised kits with updated calendars will be distributed at check-in August 1 and 2.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: Mabelvale has a guidance plan referred to as CAP. CAP stands for Career Action Plan. Students meet with counselors, AVID coordinators, and Career teachers to plan for future goals. Mabelvale is currently in the process of planning ongoing college and career opportunities. There is currently not a process for tracking recent graduates	Current reality of effective practice: Mabelvale has a guidance plan referred to as CAP. CAP stands for Career Action Plan. Students meet with counselors, AVID coordinators, and Career teachers to plan for future goals. Students take the Kuder in their career orientation class. Mabelvale is currently in the process of planning ongoing college and career opportunities. There is currently not a process for tracking recent graduates. A Career Day event took place in April 2016. Each Friday staff is encouraged to wear their college paraphernalia.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The lack of regular teacher attendance prompted the Leadership Team to come up with incentives for the staff. A member of the team contacted local businesses to get donations for the staff. Teacher attendance increased by double digits in all grade levels from the second to the third quarters. Teacher attendance also improved from the third to the fourth quarters.

Teachers were not consistently reporting pre and post data. We began sending out reminders to teachers with due dates for assessment data.

The Leadership Team also decided to include all content areas in pre-post assessing. We began with English and Math and then added Science and Social Studies. By the end of the year, all content areas were giving pre and post test.

If anything, what do you intend to change or modify for the year?

Teachers will not tell students that the pre-test do not count as a grade. We feel that students do not try their best when they know the grade is not going to count. The Leadership Team expects to see an increase in pre-test score averages next year.

All teachers will also have students do an analysis of pre and post assessments. This will allow students to track their growth and take ownership of their learning.

We are planning to have leadership meeting during the school day for next year if it can be worked into the schedule. We believe that attendance will be more consistent without teachers having to stay after school.

A tentative schedule of due dates for pre and post test will be available for teachers at the pre- school meetings. This will allow teachers to effectively plan for assessments and units.

ARKANSAS
DEPARTMENT
OF EDUCATION

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2-STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
6	199	202	185	183	29	26	11	3	1	0	9	7	15	23
7	199	203	202	201	27	30	1	1	1	0	7	9	15	16
8	234	230	227	229	26	28	4	4	3	1	9	9	21	19

Comments/ Clarifications:

2nd Quarter

- The numbers at 8th grade a declining due to students leaving to attend Mann Magnet.
- The numbers given to us by the Crystal report do not match the numbers we have at our school. We have our enrollment as follows: 6th- 193, 7th-193, 8th- 225
- The number of students with 5 or more referrals looks to have drastically declined at 6th grade. The referral process is not uniform and these numbers do not depict an accurate representation of the student/administrator interaction or the class time being missed because of being out of class.
- The referral process and a discipline management plan will be discussed among the administrative team and then presented to the leadership team.
- There are several students that have more than 1 referral but less than 5
- We will look deeper into the students who have been absent 10 or more days to see if they are the same students from quarter to quarter.

3rd Quarter

- All grade levels have declining enrollment from the previous quarter according to Crystal Reports

- The number of students with 5 or more referrals went down in 6th and 8th grade and remained the same in 7th grade.
- There is a chart with the number of students with 1, 2, 3, and 4 referrals.
- There is a chart with the number of students with 5,6,7,8, and 9 absences.
- The number of students with 10 or more absences increased drastically
- Some of the absences are for long term suspension and/ or ALE
- 15 students have suspensions of at least 10 days

Referrals:

	ONE	TWO	THREE	FOUR
6 th GRADERS	36	17	6	5
7 th GRADERS	42	15	5	9
8 th GRADERS	47	19	8	8

Absences:

	FIVE	SIX	SEVEN	EIGHT	NINE
6 th GRADERS	11	5	7	8	5

7 th GRADERS	11	9	4	1	3
8 th GRADERS	9	6	3	6	5

4th Quarter

- There were 335 absences in the 4th quarter that had no reason reported with them
- There were 252 absences in the 4th quarter because of suspension
- Many of the students that were repeatedly in trouble, were sent to alternative school

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ - / _____ (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by <i>Scholastic Math Inventory</i> 04/2016		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ - / _____ (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by <i>Scholastic Reading Inventory</i> 02/2016	
	1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter

Comments/ Clarifications:

2nd Quarter

- *All students have not completed SMI. There have been multiple problems with internet connections and technology availability.*
- *SMI will be completed on the 1 week of February.*
- *The numbers for students that are at least 3 grade levels behind based on SMI results include students that did not complete the assessment.*
- *Of the results reported 64% of 6th graders, 69% of 7th graders, and 73% of 8th graders are at least 3 grade levels behind in math. Some of these students have been identified and placed in before and after school tutoring.*
- *SRI has not begun. Subscription was lost and was just recently reinstated. Mabelvale will begin as soon as SMI is complete. The person responsible for SRI has requested a username and password in order to administer and currently still waiting.*
- *MYON subscription for literacy will be recommended. SIS will research the price for the subscription.*
- *All grade level core teachers' absences have at least doubled. We will discuss this at leadership and recommend some type of incentive program for teacher attendance.*
- *Some of the absences include teachers that are attending professional development workshops. There were also two teachers that were out due to injury.*

3rd Quarter

- *All students completed the SMI and SRI*
- *85% of 6th grade students are basic or below basic on the SRI (86/136 tested students are 3 or more grade levels behind)*
- *82% of 7th grade students are basic or below basic on the SRI (102/162 tested students are 3 or more grade levels behind)*
- *71 % of 8th grade students are basic or below basic on the SRI (99/175 tested students are 3 or more grade levels behind)*
- *Teacher attendance improved in each grade level*
- *24 combined personal days were used in the 3rd quarter by teachers*
- *131 combined sick days were used in the 3rd quarter by teachers*
- *Monthly incentives were given at staff meetings to teachers who were present each day*

4th Quarter

- *Teacher attendance improved across the board*
- *Incentives were given to all teachers who were present each day instead of just having their names in a drawing*
- *Each grade level improved in SMI*
- *6th grade had 16 less students that were 3 or more grade levels behind.*
- *7th grade had 22 less students that were 3 or more grade levels behind.*

- 8th grade had 28 less students that were 3 or more grade levels behind.

MATH DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit tests for each grade level	Total number of students with D or F on unit tests in Math this quarter	Percent of students with D or F on any unit tests in Math			
											(A)	(B)	(C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6	15	183	15	22	21	14	172	167	161	n/a	500	25		37.04%	57.72%	5%
7	42	201	53	80	93	58	178	167	177	n/a	522	76		15.47%	48.17%	14.55%

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

2nd Quarter

- *The numbers are low in grades 6 and 7 because all students were not given post assessments or teachers didn't turn in data on time.*
 - *The numbers also seem low because of a discrepancy in the enrollment.*
 - *The numbers given to us by the Crystal report do not match the numbers we have at our school. We have our enrollment as follows: 6th- 193, 7th-193, 8th- 225*
 - *There was one teacher that lost her unit 2 post test assessments.*
 - *The D/F count for math is not accurate. There was not a uniform data collection tool utilized . The information was not available for all students.*
 - *We will work on creating a tool to collect the specified data in order to have more accurate results*
- 3rd Quarter**

3rd Quarter

- **The D/F count increased because there was a uniform tool used to collect the data. It is more accurate than before.**

4th Quarter

- **The D/F count decreased because teachers were allowed to strike standards that were not taught on the post test.**

ELA DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit tests for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
											(A)	(B)				
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th

8	54	229	54	64	61	48	199	194	159	n/a	552	48		37.2	41.40	8.69

Example	100	90	95	N/A	285	57	20%			
----------------	------------	-----------	-----------	------------	------------	-----------	------------	--	--	--

Comments/ Clarifications:

2nd Quarter

- **Teachers are becoming more familiar with pre/post assessment requirements.**
- **Unit 2 post test assessments increased from unit 1.**
- **The assessments were divided into language and reading.**
- **Some students didn't take the post test because they were absent**

3rd Quarter

- **Literacy test were created as one test**
- **The D/F count increased because there was a uniform tool used to collect the data. It is more accurate than before.**

4th Quarter

- Many students were absent for post tests in the last unit
- The D/F count decreased because teachers were allowed to strike standards that were not taught on the post test

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? You may include a chart to describe your data.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

McClellan has an Interdisciplinary Leadership Team that is meeting regularly (every two weeks) and addressing various instructional aspects surrounding the various departments of the school. This team looks at scores from SMI, SRI, ACT, Explore, PLAN, attendance data, etc. The Interdisciplinary Team and Leadership team have met in conjunction since July 2015 and have now began to meet separately. The Leadership Team has met and reviewed ASCIP action recommendations and is now working to look at incoming data from TLI. The Leadership team has four new members but is working to bring everyone up to speed on the work completed last year.

Current reality of effective practice:

The Interdisciplinary Team will now become known as the School Leadership Team, it will continue to meet every other Wednesday from 4 – 5pm. The building management team and the School Climate & Student Discipline Team will meet regularly with more fidelity next school year.

The Student Advisory Council has been solidified and those students have started meeting. They have elected officers, created their by-laws, and reviewed data from the Student Climate Survey. They also approved the School Learning Compact. The next task is to begin drafting a building wide Homework policy to share with the School Leadership Team.

We are still in the process of creating a School Community Council. We have reached out to members of the community who have agreed to participate. We are currently seeking out parents to participate. We will host a Partner in Education luncheon in August for recruitment purposes.

	Each team is creating an agenda and sign-in sheet, and taking minutes at every meeting.
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: McClellan High School Teachers have collaboration periods embedded into their daily schedules. Within this time period, subject and grade-level alike teachers have been working to build units of study and common formative assessments (CFAs) that include differentiation. The results of pre-and post-test data are being recorded and some work has gone into how to let these results drive instruction.	Current reality of effective practice: The teachers meet by content area and departments during their collaboration period. All departments are administering pre and posttests. The teachers still need assistance with data disaggregation, how that affects their lesson plans, and creating next steps. Student attendance is also an issue. It is not uncommon for 5 to 6 students in a class to miss pretest but be present for the posttest or vice versa. During the collaboration times we decided that if a student shows up for class after the pretest date the teacher is to immediately give it upon their return. For this reason our data is ever changing. We have also made plans to use our 1003a grant money to pay for select teachers to come in during the summer to create the content area pre and posttest for next school year before classes start.

IMO AREA 3: STUDENT SAFETY AND DISCIPLINE

Effective Practice within Category:

Expecting and monitoring sound classroom management (IIIC10)

Description of full implementation of the Effective Practice and/or Recommendation:

The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).

Current reality of effective practice from the beginning of the year:

The entire campus has worked on compliance with the tardy policy and hall pass policy. These are posted in every classroom and can be found throughout the building. Teachers are using the hall pass policy to safeguard instructional time. Teachers have worked individually and within their departments to establish routines and rituals that are assisting in cultivating the classroom atmosphere into one that holds learning as the standard.

Current reality of effective practice:

The teachers have implemented the hall pass policy with fidelity. Students are aware of the rituals and routines for being in the hallway. The tardy policy has been listed and is posted throughout the building; however, tardies and skipping still seem to be an issue for a small population of our students. This behavior is being addressed through an emergency removal process.

The principals have made sure that teachers have their classroom rules and rituals and routines posted in their rooms. Teachers have also started sending emails when they notice that a student is present at school but missing from their class. Mr. Anderson and the security team have also started doing afternoon roundups and addressing students who are either sitting out in front of the building or hanging out at the stadium instead of going to class.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: McClellan has a Title I compact that is utilized. There is a need for the compact to be more aligned with our current reality and the direction that we will take to improve our school.	Current reality of effective practice: The School Leadership Team, the building management team, and the staff worked together to draft a School Learning Compact that addressed the specific needs of our campus. The Learning Compact was then vetted to the newly created Student Advisory Council, who voted for it unanimously. The plan is to make the Learning Compact part of the check-in process during student registration in early August. The compact will also be shared with our Partners in Education during the Partners in Education luncheon in August. The Student Advisory Council is also beginning work on a school homework policy and a school handbook during their second meeting in May.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: We have yet to officially address this IMO. Currently, the counseling department works with students as they plan for college and military careers. The AVID Program works diligently with its students regarding college opportunities and selection. The SPED Department works with transition opportunities and programs for its students. Although these actions are taking place, there is not a truly articulated plan that addresses this IMO.	Current reality of effective practice: The Career Coach and the AVID Coordinator provide the students with the opportunity to visit different college campuses such as: University of Central Arkansas, University of Arkansas at Pine Bluff, the University of Arkansas at Little Rock, Philander Smith College, Pulaski Technical College, and Henderson State University. The Career and Technical Education (CTE) department also hosted a college fair on campus for the students as well. The CTE department also promotes the Jobs After Graduation program where students are connected with employers now and can request to leave school early to go to work. We also have a Marketing program with its own co-op that allows students to leave early to go work and receive real-world work experience. We have a functioning bank here on campus that functions during both lunches and the 9 th grade Economics students are encouraged to open an account. The counselors go through the English classes to provide the upper level students with a hard copy of the scholarship lists every 9 weeks. The students can come to the counselors to request copies of the applications.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

- Adopted a set of bylaws by which to be governed.
- Assigned roles to members of SLT.
- Assisted teachers in crafting a school learning compact for the 16-17 school year.
- Created a Student Advisory Council that meets twice a month for two hours.
- Starting recruiting parents to participate in the School Community Council.
- Used the Indicators in Action modules with some of the instructional teams.
- Continued (all teams) to create agendas, keep minutes and sign-in sheets for each meeting.
- Continue to have a collaboration period during the school day for instructional teams to meet.
- Worked diligently with the staff to create a School Learning Compact.
- Established a binder system for the Instructional Teams to keep all of their documents (sign-in sheets, agendas, minutes, and test data) on hand.

If anything, what do you intend to change or modify for the year?

- The Interdisciplinary team will be replaced by a school leadership team.
- The School Leadership Team will have fewer members; 10 max.
- We have members who had agreed to serve on the School Community Council for next school year.
- The Student Advisory Council will continue to meet and serve as ambassadors to the school.
- Start the year off with Indicators in Action Leadership modules for the Leadership Team.
- Use the Indicators in Action School Community Modules to train the School Community Council.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)

Geometr y	159	169	179	179										
Algebra II	137	137	143	140										

Comments/ Clarifications:

In looking at the data we notice a trend of absences growing throughout the school year. The 9th and 10th grade students seem to have more absences than any other grades. These students continue to struggle with making the transition to high school. On the middle school level students are only required to pass math, English, science or social studies to move forward while every class counts starting 9th grade because the students begin to earn credits. This process is a difficult shift for the students and they have a hard time understanding that they need to earn a certain amount of credits to be classified a 10th or 11th grader.

For the 4th quarter there were 36 students who received Out-of-School Suspensions. There were 84 students who were absent with no reason provided. Eighteen students were absent due to illness. Seventeen students checked out early. Ten students were absent due extenuating circumstances. Eleven students had medical appointments.

There were 14 referrals from 8 students for refusal to follow reasonable directives. Another thirty-one referrals for 16 students for repeated violations of Category I offenses. There were ten referrals for 7 students who had disorderly conduct. There were eight referrals for 5 students who cut class, six referrals for 4 students who were verbally abusive and/or using fighting words. Five students had referrals for being tardy. There were five referrals for 4 students who used profanity

towards a staff member. There was 1 referral for theft and 1 referral for breaking and entering. There were 3 referrals for Category 2 offenses, 1 for use/possession of drugs, 4 referrals for gambling and 2 for fighting.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____ - / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by ____ SMI ____ Test on __10__ / __15__ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on ____ / ____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by ____ SRI ____ Test on __10__ / __15__ (Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
35.71	35.71	17.6 5	47.06			37				157	
0	14.29	50	50			45				105	
20	20	33.3 3	11.11							82	
14.29	57.14	33.3 3	33.33							75	

Comments/ Clarifications:

Teacher Absences – 42 days were for professional leave by 12 teachers, 62 sick days were used by 15 teachers, and 7 personal days were used by 6 teachers and 1 teacher was out for jury duty. These numbers include 8 ninth grade core teachers, 4 tenth grade core teachers, 1 eleventh grade teacher and two 12th grade core teachers. One teacher is retiring and used 15 sick days by themselves. The policy as it is currently written requires a teacher to take a ½ absence at minimum. Going forward next year next teachers will be able to take time off in hour increments to go to the doctor and come back to work rather than miss a ½ or whole day of work.

Students below grade level - No SMI or SRI testing were done at the end of the school year.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE
Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

The School Leadership Team consists of the building principal, one assistant principal, three instructional facilitators, one school improvement specialist, and five teachers. The leadership team meets twice a month at 4:00 P.M. for at least an hour to discuss continuous school improvement. The School Improvement Specialist will begin to send leadership meeting agendas via email to the team members in advance along with minutes from the previous meeting. Leadership minutes will be shared with the staff via email communication. Staff members are encouraged to ask questions, comment, and make suggestions, to the leadership team. Grade level instructional teams meet each Monday, Wednesday, and Friday during their common planning period. Grade level teams meet each Tuesday and Thursday during their

Current reality of effective practice:

The School Leadership Team consists of the building principal, one assistant principal, three instructional facilitators, one school improvement specialist, and five teachers. The leadership team meets twice a month at 4:00 P.M. for at least an hour to discuss continuous school improvement. Henderson Middle School staff members receive the leadership meeting minutes via email. Grade level instructional teams meet each Monday, Wednesday, and Friday during their common planning period. Grade level teams meet each Tuesday and Thursday during their common planning period. The Leadership Team inconsistently looks at school performance data and aggregated classroom observation data. Some decisions made during the leadership meeting concern the general operation of the school and its continuous improvement

<p>common planning period. The leadership team has developed a structure to effectively utilize collaboration time to develop units of instruction, design and differentiate classroom lesson plans, design intervention strategies, guide implementation of the structure, and provide essential professional development for teachers.</p>	
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB02, IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: <p>The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).</p> <p>The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).</p>	
Current reality of effective practice from the beginning of the year: <p>Instructional Units, Differentiated Lesson Plans, and Pre-/Post tests are developed during departmental collaborations. Results from pre/post tests will be used in English and Math classes to guide instruction. Science and Social Studies will also develop pre/posts tests to support instruction in core content areas. The Instructional Team reviews the results of the pre- and post-tests, and more</p>	Current reality of effective practice: <p>Instructional Units, Differentiated Lesson Plans, and Pre-/Post tests are developed during departmental collaborations. Results from pre/post tests are used to plan and differentiate units of instruction. All core content areas develop pre- and post-tests. The fine arts department is also developing pre- and post-tests during collaboration periods. training is needed to differentiate instruction based on pre-and post-tests results.	test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum.
IMO AREA 3: STUDENT SAFETY AND DISCIPLINE	
Effective Practice within Category: Expecting and monitoring sound classroom management (IIIC10)	
Description of full implementation of the Effective Practice and/or Recommendation: The faculty and staff develop a discipline management plan that guides student behavior throughout the school. Each teacher establishes rituals and routines within the classroom that produces an atmosphere conducive to learning. Each teacher consistently teaches the campus and classroom plans to all students. Each teacher consistently teaches the rules and procedures in their classroom. Each teacher consistently enforces the agreed upon rules and regulations (IIIC10).	
Current reality of effective practice from the beginning of the year: Teachers taught schoolwide and classroom rituals/routines and rules for the first 3 weeks of the school year. All administrators and teachers follow the due process expectation outlined in the Little Rock School District Handbook for category I offenses.	Current reality of effective practice: A discipline committee has been formed in an attempt to reduce category one infractions. All administrators and teachers follow the due process expectation outlined in the Little Rock School District Handbook for category I offenses. Some teachers consistently teach the rules and procedures while others are inconsistent in their reinforcement of classroom rules.
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	

Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: Henderson Middle School Learning compact has been developed for distribution to parents being served.	Current reality of effective practice: Henderson Middle School Learning compact has been developed for distribution to parents being served. The learning compact will be modified during the summer for redistribution for the 2016-2017 school year.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT
Effective Practice within Category: Post-Secondary School Options (VA01)
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates’ success at the next level as they pursue their college and career goals.
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

1. Decision to implement math and literacy intervention
 - SRI and SMI data determined that these programs will benefit student growth
2. Resurrection of National Junior Honor Society and Beta Club
 - To meet the need of honoring students' academic success as well as promote peer tutoring within the building for 2016-2017 school year.
3. Formation of a discipline committee to be implemented during the 2016-2017 school year.
 - This will reinforce school wide ritual and routines as well as obtain buy in from stakeholders on the development of a new discipline policy.

If anything, what do you intend to change or modify for the year?

- Create a calendar of events to outline academic incentives as well as behavior incentives
- Create a calendar that outlines various data sources that the leadership team will review at leadership team meetings.
- Start of the leadership team meeting with an "ice breaker" or activity to create excitement about leadership meeting.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Please include comments pertaining to class grades versus unit test percentages.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

Interpretation of the 4th Quarter SRI Data, there were 249 sixth graders that were tested:

1. 13 students scored Advanced in the Year-End Proficiency Range for 6th Grade
2. 31 students scored Proficient in the Year-End Proficiency Range for 6th Grade
3. 72 students scored Basic in the Year-End Proficiency Range for 6th Grade
4. 133 students scored Below Basic in the Year-End Proficiency Range for 6th Grade

Interpretation of the 4th Quarter SRI Data, there were 222 seventh graders that were tested:

1. 14 students scored Advanced in the Year-End Proficiency Range for 7th Grade
2. 37 students scored Proficient in the Year-End Proficiency Range for 7th Grade
3. 64 students scored Basic in the Year-End Proficiency Range for 7th Grade
4. 107 students scored Below Basic in the Year-End Proficiency Range for 7th Grade

Interpretation of the 4th Quarter SRI Data, there were 281 eighth graders that were tested:

1. 24 students scored Advanced in the Year-End Proficiency Range for 8th Grade
2. 60 students scored Proficient in the Year-End Proficiency Range for 8th Grade
3. 86 students scored Basic in the Year-End Proficiency Range for 8th Grade
4. 111 students scored Below Basic in the Year-End Proficiency Range for 8th Grade

Interpretation of the 4th Quarter SMI Data, there were 293 sixth graders that were tested:

1. 201 of them completed the SMI assessment; 92 of them currently have an IT (Incomplete Test)
2. 2 students scored Advanced in the Year-End Proficiency Range for 6th Grade
3. 17 students scored Proficient in the Year-End Proficiency Range for 6th Grade
4. 46 students scored Basic in the Year-End Proficiency Range for 6th Grade
5. 136 students scored Below Basic in the Year-End Proficiency Range for 6th Grade

Interpretation of the 4th Quarter SMI Data, there were 257 seventh graders that were tested:

1. 222 of them completed the SMI assessment; 35 of them currently have an IT (incomplete test)
2. 1 student scored Advanced in the Year-End Proficiency Range for 7th Grade
3. 17 students scored Proficient in the Year-End Proficiency Range for 7th Grade
4. 43 students scored Basic in the Year-End Proficiency Range for 7th Grade
5. 161 students scored Below Basic in the Year-End Proficiency Range for 7th Grade

Interpretation of the 4th Quarter SMI Data, there were 205 eighth graders that were tested:

1. 119 of them completed the SMI assessment; 86 of them currently have an IT (incomplete test)
2. 1 student scored Advanced in the Year-End Proficiency Range for 8th Grade
3. 9 students scored Proficient in the Year-End Proficiency Range for 8th Grade
4. 43 students scored Basic in the Year-End Proficiency Range for 8th Grade
5. 158 students scored Below Basic in the Year-End Proficiency Range for 8th Grade

End of Year Summary Report

FOURTH QUARTER

April-June

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE
Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:
ID01/ID04/ID07/ID08/ID10

Bale has consistently functioned with a mindset of teams since 2010. Bale teams are as followed: leadership team, instructional leadership team, instructional teams, Parent Teacher Associations, flexible management teams, and a student council. Leadership team meets once a month with agendas, instructional leadership team meets as needed with inconsistent agendas, instructional teams meet weekly with math and literacy facilitators and at least once a week with team with agendas, PTA meets sporadically with agendas, and student council meets as needed with the school counselor. All teams meet at least one hour. The leadership team is a conduit of communication among the campus.

Current reality of effective practice:
ID01/ID04/ID07/ID08/ID10

Bale's leadership team functions with by-laws, agendas, minutes, and meets twice a month. The instructional leadership team meets weekly and has set a goal to have agenda prepared prior to meeting and minutes taken at each meeting. School-wide implementation of turning in to principal weekly agendas and minutes has become a practice. Leadership looked at school performance data and data received from classroom observations at a minimum of 3 times this year. This is not the expectation that has been set before, however, the team knows this is an area for improvements in order to sustain and improve teaching and learning.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Engaging teachers in assessing and monitoring student mastery (IIB04)

Description of full implementation of the Effective Practice and/or Recommendation:

The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).

The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice from the beginning of the year:

IIB01: Instructional teams were not developing units based on curriculum standards. Instructional teams used district curriculum maps in ELA and Math to plan for instruction. The unit encompassed quarterly planning with no pre- or post in ELA during the 1st quarter. Unit alignment and pre-and pos assessment began during the 2nd quarter. Math curriculum map made it easier to align and began pre- and post assessments during the 1st quarter.

IIB04: Differentiation of instruction has been solely dependent upon DRA levels in ELA and Math, teacher discretion as needed based on teacher observations as well as interim assessments (i.e. SOAR, STAR)

IIB03: Instructional teams were not administering nor using the results of pre- and post- assessments to determine mastery.

IIB02, IIB05: Instructional teams were not using pre- and post- assessments to determine professional development focuses or adjustments to curriculum systematically.

Current reality of effective practice:

IIB01: Quarterly Pre/Post Unit Assessments comprised of a minimum of 2 learning segments and compiled by literacy facilitator; Math units were set to provide a pre- and post-assessments. Math transition was easier than ELA. Analyze data after each quarterly interim assessments in Math and ELA

IIB04: Flexible small groups were constructed based on Unit Assessments for re-teach and enrichment beginning in the late 2nd quarter and improvements continued throughout the year for ELA and Math.

IIB03: Beginning in the 2nd quarter SIS collaborated with the reading teacher to align units of study to curriculum in order to break units into learning segments for ELA. By the 3rd quarter, teacher leaders worked with SIS and reading teacher to accomplish this task. Instructional teams began to administer pre- and post-assessments more efficiently in the 2nd quarter and improved each quarter of identifying students who mastered focused skills.

IIB02, IIB05: By the end of the 2nd quarter, professional development was focused on the results of pre- and post- assessments. As identified by the leadership, teachers received professional development on guided reading, comprehension focus groups and questioning for high performance.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: IVA01: Currently, Bale has used an antiquated Title I compact that has been used in the school district in the past. Parents, students, and teachers out of compliance sign the document yearly.	Current reality of effective practice: IVA01: Assess our current Title I compact and compared it to Wise Ways suggestions for improvements. Parent involvement has been a priority for Bale this school year and will continue based on the school’s Targeted Improvement Plan.
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: N/A Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates’ success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year:	Current reality of effective practice:

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The most meaningful decisions and actions made by the SLT this quarter (this year) would be the fact this team reflected a distributive leadership model. All members of the SLT took on some capacity of leadership authority. The team took ownership of their grade-levels or departments and had meaningful conversations around high expectations and the school's vision and mission. The team members led their grade-levels or departments to strive to reach excellence in teaching and learning. The team building exercises that took place from the beginning of the year and intermittently throughout the school year led to ownership. Research tells us that if team members take ownership the results are extraordinary.

If anything, what do you intend to change or modify for the year?

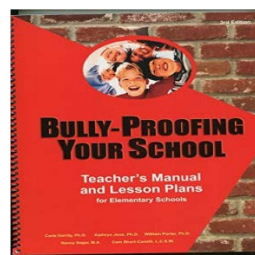

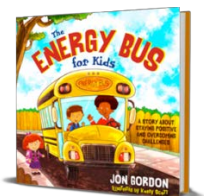

Next year's focus will be centered on the leadership team holding a higher-level of accountability through focus walks using the school's observation protocol and holding reflection meetings with grade-level teams and departments based on data from walks that will drive school-wide change towards continuous improvements.

Comments/ Clarifications:

The Little Rock
School District
Student Handbook
2015-2016

Bale Elementary utilizes the first six weeks of school to focus on rituals and routines better known on campus as Camp Bobcat. This is revisited throughout the year as needed. During these vital weeks, staff engage students in school-wide procedures and expectations, classroom norms, procedures, and expectations, and every staff member takes on ownership to ensure that these rituals and routines are taught to students and applied by students. One particular routine that is included during Camp Bobcat is the Energy Bus. During this time of implementation, teachers and students use a picture

book and student handbook to delve deeper in building a school community that promotes positive energy and how to overcome challenges. During open house, parents are presented The Energy Bus and their role in supporting a positive school-wide culture and climate. Bale is a bully-free zone and staff and students are reminded of this during morning announcements that are student-led. Also, Bale has a school-wide discipline approach using Class Dojo to foster an amazing community of learners. Little Rock School District's policies are enforced and all stakeholders (building principal, staff, students, community partners, and parents) hold each other able.

Teachers are held to a high standard of communicating to parents and caregivers the importance of attending school daily. A few factors have contributed to Bale's outstanding student attendance. Creating a climate that ensures every child, every day have necessities to achieve at a level of proficiency and above set pathways to ensure students want to attend school daily. Processes such as providing breakfast to all students (Breakfast in the Classroom) and having passionate staff who promotes engaging lessons contribute to the outcome that can be noted in student attendance.

The process that occurs at Bale when a student may find it challenging to conform to "the Bobcat way" coined by students and staff include immediate attention by the teacher and then the principal. This is outlined in Bale's staff handbook. Immediately, the student is referred to the school's counselor and/or the Site Based Intervention Team. The proper protocol is then followed. Also, Bale has been fortunate to have on campus behavioral interventionists who support families during this process. However, the teacher is the first line of defense and because of effective two-way communication between school and home, student discipline is at a minimal and rarely occurs other than minor infractions that are handled by the classroom teacher. Bale has a supportive and visible principal and leadership team as well as staff who believes in a positive behavioral approach to discipline.

Yes, Bale's data is accurate and depicts the school climate and can be noted in Bale's continuous improvements in student achievement outcomes.

	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by STAR Enterprise Test on June 2016		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by STAR Enterprise Test on June 2016		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)

Total							143	152	149		444	112	63.5%	20.4%	31.4%	25.2%

Comments/ Clarifications:

Instructional teams analyze data following each unit assessments using goals set from STAR data to determine the following:

- What do we expect our students to learn?
- How will we know they are learning?
- How will we respond when they don't learn? -re-teach (intervention)
- How will we respond if they already know it? -enrichment

Leadership team determined that questioning for higher performance was a professional development that would enhance current teaching strategies in order to promote positive student learning outcomes.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA

Comments/ Clarifications:

Instructional teams analyze data following each unit assessments using goals set from STAR data to determine the following:

- What do we expect our students to learn?
- How will we know they are learning?
- How will we respond when they don't learn? -re-teach (intervention)
- How will we respond if they already know it? -enrichment

Leadership team determined that questioning for higher performance was a professional development that would enhance current teaching strategies in order to promote positive student learning outcomes.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: <ol style="list-style-type: none"> 1. The LRCH ISFA (Insure Success for All) School Improvement Team is composed of the following: principal; math and literacy facilitators; math interventionist; reading specialist; guidance, social studies and special education/504 department heads; testing/ESL coordinator; Freshman Academy facilitator / science teacher and School Improvement coordinator/School Improvement Specialist (11 members). 2. The Department Head Leadership Team includes all department heads, division and specialty areas and all administrators (30 members). The team meets monthly and provides collaborative support to the ISFA team and school programs/management. 	Current reality of effective practice: Distributive leadership allows a “culture of candor” that is reflected in the outcomes of a team structure that includes all stakeholders. Teams, time and information are critical elements that assist with the focus on student growth through the process of continuous school improvement. Institutionalizing the team approach in district policy allows for continuity of effort throughout the district. Effective team process reflects pre and post organizational steps as well as operational focus during the meeting. The manager will collaboratively develop the agenda and any pre-work that needs to be accomplished, oversee roles (timekeeper, note-taker, etc.), manage and monitor the process including the distribution and maintenance of records, follow-up / next-step activities and initiate the cyclical process throughout the academic year. Meetings reflect

- | | |
|---|---|
| <p>3. The collaborative Department teams are structured around academic disciplines such as Fine Arts, English, math and so forth. The teams utilize backward design and other approaches to review and/or design curriculum, pacing guides, materials and instructional strategies within their disciplines. Team effectiveness is illustrated by student academic growth, program effectiveness, and parent/client satisfaction (perceptual data). Math Department uses department meetings to discuss curriculum/policy changes that pertain to all levels, analyze and discuss data findings, present on knowledge gained when members attend various professional development conferences, and share ideas that may be helpful in solving common roadblocks as they pertain to student learning.</p> <p>4. The math and literacy collaborative instructional teams through the instructional facilitators meet weekly to review data, analyze instruction and provide class-level modifications to address all students' needs. Math collaborative teams meet weekly when a common planning period is provided and use periodic meetings outside the school day when needed for content areas with no common planning. These meetings provide time to analyze data pertaining to pre/post testing, interim testing, and classroom assessments. Teachers discuss and share best practices and create /modify materials to better meet student needs based off previous experience with the content and the data gathered from various assessments.</p> <p>5. The PTSA is composed of the elected parent officers and a plethora of parent volunteers who provide financial and human resource support environmentally as well as academically to support the school's mission</p> | <p>continuous improvement initiatives throughout the year. An effective Leadership Team operates with 6-12 members including the principal, teacher leaders, and other staff as appropriate to the size and composition of the school. Reflecting shared leadership and teamwork, the team meets twice a month for two hours and has as its highest priority student achievement. The instructional leadership teams that meet twice a week for 45 minutes have shared students as its structural make-up. With this structure the instructional teams can provide on-going review of the students' performance across the disciplines. The interrelationship of these teams provides the opportunity for effective continuous school improvement.</p> <p>Leadership Team continues to meet bimonthly and still has a membership that is representative of the school. Department Head Leadership Team continues to meet and report out actions taken in each department, discuss any school-wide issues, and update each other on initiatives in specific departments.</p> <p>Math Department uses department meetings to discuss curriculum/policy changes that pertain to all levels, analyze and discuss data findings, present on knowledge gained when members attend various professional development conferences, and share ideas that may be helpful in solving common roadblocks as they pertain to student learning. and goals. The parent association meets monthly alternating day and late afternoon meetings.

6. The district has modeled multiple team structures over time with more emphasis on job descriptions. There is a current focus to realign district structure to better support the local school level.
7. The distributive leadership model has allowed the school-based decisions to be transparent and able to respond efficiently to continuous school improvement initiatives.
8. LRCH ISFA (Insure Success for ALL) School Improvement Team has prepared and distributed agendas, and maintains notes (minutes) in a LRCH school-wide meetings notebook in the office of SIS Barbara Stafford.
9. LRCH Department Heads Leadership Team has prepared and distributed agendas, maintains notes (minutes) in a LRCH school-wide meetings notebook in the office of SIS Barbara Stafford.
10. LRCH Math collaborative instruction team has prepared and distributed agendas, maintains notes (minutes) in a LRCH math collaborative team notebook (Algebra I / Geometry) in the office of Math Facilitator Heather Jenkins. The math department continues to prepare and maintain agendas and houses them in a binder with the meeting notes and any relevant artifacts produced from collaborative team efforts. This binder is brought to all meetings as well as being accessible to all teachers on the team for reference. Duties like secretary and meeting leader rotate around each quarter. This provides all members with a way to ensure continuity in meetings so progress toward goals is ongoing.
11. LRCH English collaborative instruction team has

data gathered from various assessments.

The math department continues to prepare and maintain agendas and houses them in a binder with the meeting notes and any relevant artifacts produced from collaborative team efforts. This binder is brought to all meetings as well as being accessible to all teachers on the team for reference. Duties like secretary and meeting leader rotate around each quarter. This provides all members with a way to ensure continuity in meetings so progress toward goals is ongoing.

Math Instructional Facilitator and Math Interventionist continue to provide assistance with faculty meeting training when needed or when relevant training/knowledge is gained in their job duties that needs to be shared with the department as a whole.

The English department continues to prepare and maintain agendas and houses them in a binder with the meeting notes and any relevant artifacts produced from collaborative team efforts. This binder is brought to all meetings as well as being accessible to all teachers on the team for reference. This provides all members with a way to ensure continuity in meetings so progress toward goals is ongoing.

Literacy Instructional Facilitator continues to provide assistance with faculty meeting training when needed or when relevant training/knowledge is gained in their job duties that needs to be shared with the department as a whole.

The Special Education department continues to prepare and maintain agendas and houses them in a binder with the meeting notes and any relevant artifacts produced from collaborative team efforts. This binder is brought to all meetings as well as being accessible to all teachers on the team for reference.

All points to the left continue to be operational.

prepared and distributed agendas, maintains notes (minutes) in a LRCH literacy collaborative team notebook in the office (third floor) of Literacy Facilitator Brenda Bankston.

12. LRCH Special Education / 504 collaborative team has prepared and distributed agendas, maintains note (minutes) in a LRCH Special Education / 504 collaborative team notebook in the office (fifth floor) of Literacy Facilitator Brenda Bankston.

13. LRCH L-PAC team has prepared agendas and distributed, maintains notes (minutes) in a LRCH L-PAC notebook in the office of ESL Coordinator Heather Rainbolt.

14. The LRCH ISFA (Insure Success for All) School Improvement Team that meets twice a month is composed of the following: principal; math and literacy facilitators; math interventionist; reading specialist; guidance, social studies and special education/504 department heads; testing/ESL coordinator; Freshman Academy facilitator / science teacher and School Improvement coordinator/School Improvement Specialist (11 members). See response to #1?

15. The Department Head Leadership Team includes all department heads, division and specialty areas and all administrators (30 members). The team meets monthly just prior to the faculty meeting and provides collaborative support to the ISFA team and school programs/management.

16. The collaborative Department teams (11 teams) that occur subsequent to the department heads meetings are structured around academic disciplines such as Fine Arts, English, math and so forth. The teams utilize backward design and other approaches to review and/or

<p>design curriculum, pacing guides, materials and instructional strategies within their disciplines. Team effectiveness is illustrated by student academic growth, program effectiveness, and parent/client satisfaction (perceptual data).</p> <p>17. The Faculty meetings occur monthly on the first Tuesday of the month with a few calendar exceptions. Information that has moved through the previous structures is provided to the faculty along with pertinent professional development-focused presentations. Math Instructional Facilitator and Math Interventionist continue to provide assistance with faculty meeting training when needed or when relevant training/knowledge is gained in their job duties that needs to be shared with the department as a whole.</p> <p>18. The math and literacy collaborative instructional teams through the instructional facilitators meet weekly to review data, analyze instruction and provide class-level modifications to address all students' needs.</p>	
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the	

curriculum (IIB02, IIB05).

Current reality of effective practice from the beginning of the year:

1. LRCH Math Instructional Teams (Algebra I and Geometry) collaborate weekly to analyze data, create pre/posttests, and modify instruction for students not meeting with success and students needing more challenging instruction.
2. LRCH English Instructional Teams (grade 9-12) collaborate bi-monthly to analyze data, create pre/posttests, and modify instruction for students not meeting with success and students needing more challenging instruction
3. LRCH Special Education Literacy Instructional Team collaborates bi-monthly to analyze data, create pre/posttests, and modify instruction for students not meeting with success and students needing more challenging instruction. Pre/posttests meet individual student needs based on approved modifications and accommodations.
4. Meet formally with math instructional teams on a weekly basis to plan standards-aligned units of instruction.
5. Collaboratively develop and analyze math pre and posttests.
6. Meet formally with English instructional teams before school and on a monthly basis to plan standards-aligned units of instruction.
7. Collaboratively develop and analyze English pre and posttests.
8. Collaboratively develop and give English common semester exams.

Current reality of effective practice:

Effective team process reflects pre and post cycle:

- Teachers determine a topic for assessment.
- Items are selected in collaboration meetings and the pre/post test is created with emphasis on specific answers providing feedback about process and misconceptions.
- The pre/post test is administered.
- Pre-test items are disaggregated during collaboration to determine misconceptions.
- Teachers provide instruction on the specified topic.
- Posttest is administered.
- Posttest growth determined and data disaggregated.
- Re-teaching is provided if necessary.
- Process begins again for next instructional unit.

Teacher instructional teams decide, monitor and implement the school's instructional program. Data analysis is displayed throughout the school. Professional development, teacher mentoring and overall capacity building are integral to the teacher instructional team process. Inclusion areas (Special Education, ELL) are a part of the teams which include the principal in its structural membership. The horizontal teams (grade-level / subject oriented) utilize all resources to develop units of instruction around standards, objective descriptors, concepts, principles and skills as well as pre and post-tests. Differentiated materials are developed to address diversity. Teacher teams create, implement and critique the units as they are modeled in the classroom. (IIA01)

While the 3 week timeline given to us by the district was not conducive to in-depth exploration of certain aspects of the

pre/posttest cycle, the teachers were able to continue to conduct pre/post testing with their students and use data to drive instruction.

Math Facilitator and Math Interventionist continually facilitate meetings with collaborative teams and lead teachers facilitate meetings when neither is available. Teachers share and create/modify resources based on examination of data and student understanding of previous content. Units reflect the collaborative work of teachers and this is evident in the quality of materials and their alignment to standards.

The pre/posttest development continues to follow the cycle set at the beginning of the school year, with teachers deciding upon topics needed for student success with the content and creating quality questions and distracter choices to identify the specific misconception held by students. The depth of the discussions used to create the pre/posttests makes the data extremely valuable at knowing which topics the students are struggling with so teachers can plan future instruction in a timely manner.

The pre/posttest development continues to follow the cycle set at the beginning of the school year, with teachers deciding upon topics needed for student success with the content and creating quality questions and distracter choices to identify the specific misconception held by students. The depth of the discussions used to create the pre/posttests makes the data extremely valuable at knowing which topics the students are struggling with so teachers can plan future instruction in a timely manner.

English instructional teams continue to meet before school and on a monthly basis to plan units of instruction and analyze data. Teachers plan new units based on data and refine others for continued improvement. PAP and AP teachers plan and assist in the development and support of

	<p>grade-level units. Grade-level teachers differentiate based on data and best practices.</p> <p>English teachers use monthly and before school planning to create and refine common semester exams. The semester exams and study guides for the semester exams are based on units taught during those grading periods. Teachers also use grade distribution reports to analyze data and backward design with the development of semester exams to better prepare students.</p>
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: <ol style="list-style-type: none"> <u>1.</u> The PTSA builds strong working relationships among parents and teachers in support of students (parent events, monthly newsletters, coordinating extensive programmatic volunteerism, etc.). <u>2.</u> Central maintains communication with parents through e-mail blasts, a PTSA site on the school’s website, first block communication through students, etc. <u>3.</u> The school encourages parental engagement through the Edline / Grade quick program to monitor their students’ grades where at least 2 grades per week are entered. (District policy, Edline activations, phone logs, e-mails.) <u>4.</u> The Parental Involvement facilitator coordinates the 	Current reality of effective practice: <p>“The school is most effective when the home does its part” provides the basis for the compact that embraces the stakeholders: the students, their teachers, the families of the students, the school’s staff and active volunteers. Parents’ active engagement in their student’s learning completes the circle of support. When all stakeholders support a common purpose through communication, education and interaction; the student, teacher and parent can support the comprehensive learning opportunities and social / emotional support provided their students.</p> <p>All points to the left continue to be operational</p>

distribution of Parent Information Packets during the August registration period. (Packets include information such as resources, organizational information, networking, etc.) (Anecdotal information, copy of packet, timeline in the CRATE)

5. Through the Parental Involvement facilitator the guidance department will sponsor a “Parents Make a Difference” night along with parent surveys as well as sponsoring additional activities (College Going Saturdays) that will be most beneficial in supporting students. (Activity agendas and sign-ins, counselor responsibilities list, guidance department agendas and sign-in sheets.)
6. Through the Parental Involvement facilitator, the school provides a Parent Center where parents can come and feel welcome, have a sense of belonging and be reassured that their ideas, concerns and other opinions are valued. (Parent Center, parental anecdotal interviews)
7. Central High provides parents multiple avenues of awareness for volunteer opportunities (volunteer resource book, main office sign-ups, PTSA e-mail blasts, etc.).
8. Central High provides a user-friendly website that communicates information about activities, events, Edline, tutoring, etc. (www.lrcentralhigh.net)
9. Central High advertises through multiple mediums school meetings, events and activities in which parents can become involved (Freshman Academy and Orientation, Open House, Parent Night, Open Enrollment, PTSA meetings, etc.). (Agendas, sign-in sheets and district advertisement)
10. Central through the district continues to partner with

the National Network of Partnership Schools (NNPS) to organize and sustain excellent programs of family and community involvement that can positively affect student achievement (6 KEYS). (District TITLE 1 CRATE submissions, agendas, minutes, advertisements, e-mails)

11. Central through the Parental Involvement facilitator and the School-based Intervention Team (SBIT) utilizes the designed school-based strategies that consist of 4 phases of the Response to Intervention approach to design measurable intervention plans to target students' decision-making skills. (SBIT minutes, intervention plans, anecdotal information)

12. LRCHS's Action Team for Partnership (ATP) continues to develop a one year action plan of school, family, and community involvement. The team consists of parents, teachers, administrators, and parent liaisons that are committed to creating a positive climate of family-school partnerships while helping to increase student achievement and success in school. The team sets goals and identifies family involvement activities that support LRCHS's ASCIP Indistar plan.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals. ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: Each grade receives information and hands-on opportunity to receive guidance to prepare them for college/career readiness. <ul style="list-style-type: none"> • Students 10-12 took the Kuder Interest Inventory in the 9th grade. Current 9th graders will be given the inventory by our career coach in the spring. • Job Shadowing Day will occur in February. • Career speakers from varied fields are invited to speak to teachers at least 5 times a year. • Career Coach was hired to work with students on career paths and workplace readiness. • Career Center will be fully available to students by the end of the semester. • Counselors complete a 4 year plan on each student that includes current classes and future career goals. Plans are updated twice a year. • Counselors go into the classroom at least twice a year for grade level meetings. • College admission officers from colleges across the country speak to our students about college. Juniors and seniors are invited to attend. • Central students are strongly encouraged to attend the 	Current reality of effective practice: When this objective is fully met then all students will have a plan for post-secondary aspirations. They will know how to implement their plan and who to contact to put the plan in motion. We will use sign-up sheets, four year plans, announcements and reports to prove that all of the tasks have been completed. All points to the left continue to be operational

LRSD College Fair held in September. It is open to 9-12th graders and financial aid workshops are available.

- **Seniors meet with their counselors in small groups in the month of September. College, military and work is discussed as options after graduation. A senior handbook is given to each senior so that they have all the information they need to make post-secondary options.**
- **College Goal Saturday will be provided on October 17, 2015 and November 14, 2015. Students will be given assistance to complete college admission scholarship applications.**
- **Students with an ACT score of 16-18 are placed in Math readiness and Literacy courses to help improve their ACT score and therefore their college acceptance.**
- **Seniors complete a Senior Survey at the end of the year.**
- **Guidance secretary contacts parents of seniors after August 1 to confirm that the seniors are attending the college that they listed on the survey.**
- **Guidance plan is housed in the guidance suite.**

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

We decided after feedback from the ADE to add members to better represent the school. The added members brought a science, social studies, and special education representative to the table. The science representative is also our Freshmen Academy leader and brought some unique and valuable insights to our discussions regarding things like Freshman transition.

We made a decision to incorporate some transitional and organizational curriculum into our communications classes and extend their application to all Freshmen teachers where it applies to their specific department. This was brought about after feedback from teachers about our Freshmen class and things they were prepared to handle in high school. Also, our survey results indicated parents felt this was important as well.

The Leadership Team has been bombarded with reports this year. In an effort to create more streamlined systems, the LT is looking to build capacity in teachers to report data in timely fashion and add commentary and reflection of practices as the reporting is done. The LT has worked together to build templates for data reporting and disaggregation so we can better prioritize tasks.

Several initiatives were combined to create the Tiger Academy (inclusive, comprehensive pre-school initiative with bridge activities in the core classes), TASC (Tiger Academic Support Center provides afternoon tutoring / support in the core classes and occasional other areas), and grade-level meetings per semester (provides focus/clarity on grade-level, topic pertinent content / conduct).

If anything, what do you intend to change or modify for the year?

We have plans to make PLCs more effective and conducive to teacher growth goals after select members of the leadership team attended a conference regarding this topic.

We plan to look at new ways to track data on various programs like TASC to help us understand how to make them most effective for our neediest population and to facilitate better communication between the school and students and parents.

In Literacy, we will create a system of RTI and modify our instruction to include Orton-Gillingham, a research-based curriculum for students who have been diagnosed with dyslexia. We will also modify our delivery of literacy intervention services to target TAGG students. We will keep closer tabs on this population in an effort to progress monitor results.

Google calendars will be developed to create more transparency / accountability.

Determine and incorporate the new superintendent's initiatives.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)

Comments/ Clarifications:

Please see chart below further disaggregating the teacher absences. 43% of teachers' fourth quarter absences (40% of the teachers) is school-related (professional development: training, coaching academic and sports, etc.).

Data was obtained from Read Theory assessment. Read Theory tests a student's ability to reason and think critically. Students begin the test at grade level 3, and each question moves students a grade level up or down according to their answers.

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3-10

Grade Level Or Course (high school)	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016 (Last date:1.12.16)				Number of post-unit assessments for the current quarter				Total number of post-unit assessments for each course (A)	Total number of post-unit assessments with a D or F in Math (B)	Percent of post-unit tests with a D or F in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
Algebra 1	110	398	91	105	118	86	300	324			624	219		42%	41%	35%
Geometry	212	501	150	130	141	156	513	493			1006	368		36%	37%	36%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Algebra I unit 2 test – due to scheduling and implementing 2 soar test in one quarter, one teacher used a quiz for unit two and tested content for unit 2 and 3 together. This accounts for the discrepancy in the unit 2 numbers as compared to unit 1 and unit 3.

Geometry enrollment numbers do not match the number of students that were given unit test. We used grade books to count the actual number of unit tests given, student moves may account for the change in numbers.

Algebra I and Geometry classes have 9th, 10th and 11th grade students. According to the district report 93 of our 9th, 10th and 11th students have more than 10 absences during this quarter.

LEADERSHIP TEAM REPORT CONTINUED

ELA DATA by Quarter for Grades 3-10

Grade Level or Course (high school)	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in ELA class per quarter 2015-2016 (Last date:1.12.16)				Number of post-unit assessments for the current quarter				Total number of post-unit assessments for each course	Total number post-unit assessments with a D or F in ELA	Percent of post-unit tests with a D or F in ELA (B/A) X 100 = C

Comments/ Clarifications:

- Most unit assessments for English during Quarter 4 assessed some sort of written response (essays, short responses, approach papers, etc.). Students spent the majority of this quarter in literature circles to demonstrate literacy skills in an independent manner, while at the same time working in small groups. Students at the 9th grade level had a much lower failure rate (20%) than those in 10th grade, which had a 47% failure rate. Teachers will use this data to have conversations about units taught and how to support students next year. Collaborative teams will use this data, along with grade distributions from the semester exams to evaluate effective and ineffective practices.

LEADERSHIP TEAM REPORT CONTINUED

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? You may include a chart to describe your data.

Supporting Data: Please see below.

The School Improvement Team will continue to review this data to determine possible interventions.

Pre/Post Data – Central has worked hard to build a more in-depth analysis and reflection for pre/post assessments. Some teachers have adapted while others still have work to do. We have added those questions on our template so as teachers submit data, they are able to provide feedback and reflection about specific pre/post cycles. Questions listed below:

- Analysis:** What did pre-test data show that changed or informed instruction before posttest?
- Analysis:** How will pre/post cycle affect teaching practice or unit planning? (Please respond per post-test. Example Post Test One: ...)
- Key Supports / Activities:** Teacher would like to have to assist with this teaching area of study.
- Professional Development:** Would assist with this teaching area of study.

Pre/Post Data Expanded Chart* – Central has worked hard to build a more in-depth analysis and reflection for pre/post assessments. Some teachers have adapted while others still have work to do. We have added those questions on our template so as teachers submit data, they are able to provide feedback and reflection about specific pre/post cycles.

Questions listed below:

- **Analysis: What did pre-test data show that changed or informed instruction before post-test?**
- **Analysis: How will pre/post cycle affect teaching practice or unit planning? (Please respond per post-test. Example Post Test One: ...)**
- **Key Supports / Activities: Teacher would like to have to assist with this teaching area of study.**
- **Professional Development: Would assist with this teaching area of study.**

Quarter 4 (1)	80%	86%
Quarter 4 (2)	80%	90%

***Several teachers provided no commentary. We will need to work more diligently with the Instructional teams next year to get this done on a more consistent basis. The teachers who provided the information did a wonderful job. This will be a non-negotiable process next school year but it has taken some time to get this practice moving in the right direction. Our summer curriculum work will include this work in an effort to create a year-long plan to address the pre/post assessments. Grading practices are improving but we still have work to do.**

LRCH Literacy Pre/Post-test Quarterly Reporting Form 2015 - 2016

4th Quarter: English 9 and 10

LR Central High School

Due
May
21,
2016

Grade & Subject/Course	Period	Quarter/Unit Test Number	# Students who took Pre-Test	Pre-Test Average Score	# Students who took Post-Test	Post-Test Average Score	Gain/Loss	Analysis: What did pre-test data show that changed or informed instruction before post-test?	Analysis: How will pre/post cycle affect teaching practice or unit planning?(Please respond per post-test. Example Post Test One: ...)	Key Supports / Activities: Teacher would like to have to assist with this teaching area of study.	Professional Development: Would assist with this teaching area of study.
2A - 9 English Reinf.	A2	Q4 Unit 2	12	80%	12	90%	10.00 %	none provided			
4A - 9 English Reinf.	A4	Q4 Unit 2	8	86%	9	90%	4.00 %	none provided			
2B - 9 English Reinf.	B2	Q4 Unit 2	8	90%	10	92%	2.00 %	none provided			
4B - 9 English Reinf.	B4	Q4 Unit 2	13	80%	13	88%	8.00 %	none provided			

2A - 9 English I	A2	Q4 Unit 2	23	62%	23	71%	9.20 %	In this unit on Romeo and Juliet, students did not recognize many terms specific to drama. They also struggled with vocabulary words such as "feud." After using flashcards to work on many of these terms, progress was made by showing the students knew the terms and could show usage by taking a passage and showing how the term was illustrated.	Students will need more instruction in literary terms at the beginning of the year and spend more time going over said terms.		
3A - 9 English I PAP	A3	Q4 Unit 2	24	76%	24	84%	8.00 %	This unit was made up of Literary Circles where the students learn to use much of all the skills we learned and practiced on this year. Most students remember many of the terms and skills we worked on but some had trouble expressing the actual use of the skills.	The students will need more frequent practice and reviewing of practice sessions to make sure they retain the skills throughout the year and master them.		
4A - 9 English I PAP	A4	Q4 Unit 2	23	77%	23	87%	9.20 %	This unit was made up of Literary Circles where the students learn to use much of all the skills we learned and practiced on this year. Most students remember many of the terms and skills we worked on but some had trouble expressing the actual use of the skills.	The students will need more frequent practice and reviewing of practice sessions to make sure they retain the skills throughout the year and master them.		
2B - 9 English I	B2	Q4 Unit 2	18	65%	18		9.00 %	In this unit on Romeo and Juliet, students did not recognize many terms specific to drama. They also struggled with vocabulary words such as "feud." After using flashcards to work on many of these terms, progress was made by showing the students knew the terms and could show usage by taking a passage and showing how the term was	Students will need more instruction in literary terms at the beginning of the year and spend more time going over said terms.		

						74%		illustrated.			
3B - 9 English I PAP	B2	Q4 Unit 2	23	78%	23	86%	8.10 %	This unit was made up of Literary Circles where the students learn to use much of all the skills we learned and practiced on this year. Most students remember many of the terms and skills we worked on but some had trouble expressing the actual use of the skills.	The students will need more frequent practice and reviewing of practice sessions to make sure they retain the skills throughout the year and master them.		
4B - 9 English I	B4	Q4 Unit 2	20	62%	18	71%	9.40 %	In this unit on Romeo and Juliet, students did not recognize many terms specific to drama. They also struggled with vocabulary words such as "feud." After using flashcards to work on many of these terms, progress was made by showing the students knew the terms and could show usage by taking a passage and showing how the term was illustrated.	Students will need more instruction in literary terms at the beginning of the year and spend more time going over said terms.		
1A - 9 English I	A1	Q4 Unit 2	23	45%	24	80%	35.00 %	In each of the grade level classes, students struggled identifying pronouns and adverbs- particularly the types of pronouns. After working with them through DGP and class activities such as writing sentences including them, the students improved dramatically.	I will continue to quiz students on these concepts and ask them to include them in their writing.	No assistance needed.	no PD needed

3A - 9 English I PAP	A3	Q4 Unit 2	23	70%	22	88%	18.00 %	The Pre-AP students were quizzed over upcoming DGP concepts such as infinitives, understood subjects, and dependent clauses. Through the use of DGP notes and practice, the students improved.	I will continue to quiz students on these concepts and ask them to include them in their writing.	No assistance needed.	no PD needed
4A - 9 English I	A4	Q4 Unit 2	18	35%	17	72%	37.00 %	In each of the grade level classes, students struggled identifying pronouns and adverbs- particularly the types of pronouns. After working with them through DGP and class activities such as writing sentences including them, the students improved dramatically.	I will continue to quiz students on these concepts and ask them to include them in their writing.	No assistance needed.	no PD needed
1B - 9 English I	B1	Q4 Unit 2	24	52%	22	83%	31.00 %	In each of the grade level classes, students struggled identifying pronouns and adverbs- particularly the types of pronouns. After working with them through DGP and class activities such as writing sentences including them, the students improved dramatically.	I will continue to quiz students on these concepts and ask them to include them in their writing.	No assistance needed.	
3B - 9 English I PAP	B3	Q4 Unit 2	23	73%	21	96%	23.00 %	The Pre-AP students were quizzed over upcoming DGP concepts such as infinitives, understood subjects, and dependent clauses. Through the use of DGP notes and practice, the students improved.	I will continue to use DGP with the students.	No assistance needed.	no PD needed
4B - 9 English I PAP	B4	Q4 Unit 2	20	70%	22	91%	21.00 %	The Pre-AP students were quizzed over upcoming DGP concepts such as infinitives, understood subjects, and dependent clauses. Through the use of DGP notes and practice, the students improved.	I will continue to quiz students on these concepts and ask them to include them in their writing.	No assistance needed.	no PD needed

LRCH math and English educators disaggregate their pre/post test data by an item analysis. They develop questions during their collaboration with answer distracters that draw out common misconceptions. Any question that tests below a 75% is directly addressed during their planning for that unit. Items that test above a 75% are addressed briefly during bell ringers. Items that still test below a 75% on the post test are addressed again in the following unit.

ACT Aspire Interim III Assessment Data – Literacy – Central students tested online for the first time this year. The ACT Aspire Interim assessments were conducted online as well. Both grade levels tested in a whole school environment to test our school's technology infrastructure. This process went well. All English, science, and math teachers have ACT Aspire accounts and access to their students' scores. Teachers still need work to study this data and analyze its use in the classroom. That is a goal for next school as we prepare to receive summative assessment results. We will analyze both English and Reading to break down standards that fit within those areas and prepare units and lessons to address those areas.

Subject	Reading	English
Grades 9 and 10	47%	52%

Read 180 SRI data (end-of-year report) – Central has a steady number of students enrolled in this reading intervention each year. Students tend to grow one to three Lexile levels each year. Again, we had some students who showed tremendous growth, while others remained stagnant. This is an issue that will be addressed this summer as teachers meet to plan and revise units of study. Some Read 180 students were too low for the program (below 3rd grade reading level) and those students will be evaluated for additional reading interventions for next school year. Central has also budgeted Title I funds (SY16-17) for the purchase of System 44 – a reading program that meets the needs of students who read below the 3rd grade reading level. Also, Central has requested and received SRI data from feeder middle schools that will help determine placement of students next school year.

TASC Attendance Data (Tiger Academic Support Center/after school tutoring) – Central started a new, comprehensive tutoring program this school year. The program supports core instruction and access to a computer lab and busses for transportation. Data indicates about 47% of students who attended were TAGG students. Central considered this program successful due to data collected, including teacher feedback, student feedback, parent feedback, and attendance data. It provided services as well as interventions for students.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: Leadership Team <ul style="list-style-type: none"> ➤ The Leadership team met the 1st and 3rd Tuesday of each month at 9:00. ➤ The meetings were held in the principal's office. ➤ The team consisted of the administrators, Math and Literacy Facilitators, grade level representatives, ESL coordinator, Reading Teachers as well as a SPED representative. ➤ The grade level representative rotated after each quarter. 	Current reality of effective practice: Leadership Team <ul style="list-style-type: none"> ➤ The Leadership team meets the 1st and 3rd Tuesday of each month at 9:00. ➤ Meeting agenda are emailed to all team members before the meeting so that all members will be apprised of the contents of the meeting to ensure all members stay focused. ➤ The meetings are held in the principal's office where the assessment walls for literacy and math are housed. ➤ Minutes from the previous meetings are shared before the meeting so that our time during the leadership

- Each representative brought concerns before the team and discussed the challenges and celebrated successes.
- Each department representatives brought concerns as well as celebrated successes.
- The team reviewed student data and discussed students who were severely behind to ensure they were referred to the Site Based Intervention Team.

Instructional Teams

- The instructional teams met each Wednesday at regularly scheduled times. (1st and 3rd week for Math, 2nd and 4th week for Literacy)
- The agendas were provided to teachers during the meeting which helped all participants stay focused during the meeting.
- Administrators served as the recorder during meetings and provided a copy to the instructional facilitators after the meetings.
- Teachers participated with colleagues in planning instructional units aligned with curriculum standard.
- The meeting consisted of celebrating successes, reviewing data, analyzing student work, and content related pedagogy professional development.

Grade Level Teams

- The master schedule accommodated common planning times for each grade level.
- It was communicated by administers that teachers use

meeting is productive.

- The team consists of the administrators, Math and Literacy Instructional Facilitators, grade level representatives, ESL coordinator counselor, Reading Teachers, and a SPED representative.
- The grade level representatives rotate after one quarter of service.
- The representatives are chosen based on seniority within the grade level.
- They are given leadership expectations at the beginning of the school year so that each member knows what they are expected to do when it is their time to serve on the team.
- The grade level representatives are expected to bring questions and concerns that each grade level may have as well as deliver the information that is discussed back to the team.
- The team celebrates the successes and accomplishments.
- They also reviews and approve previous meeting minutes as well as discusses old business and address any unresolved concerns from the previous meeting.
- The team assesses, creates, and monitors indicators during the meeting
- The literacy facilitator holds data conferences with teachers to discuss next steps for students who are working below grade level and reports that information to the team.
- During the data conferences, teachers and literacy

this time to plan together.

facilitator discuss how to enrich students who are working on and above grade level.

- The ESL coordinator discussed with teachers how to use the reports to help prescribe lessons for students, and discuss ways in which to maximize student usage.
- Charts are created for individual teachers for a visual representation of numbers of students working at and above grade level and the leadership team reviews the information as well.
- Members of the leadership team identifies which students are performing at or above grade level and create a plan of action that supports individual students who are working below grade level and their teachers.
- Students who are performing below grade level are referred to the Site Based Intervention Team (SBIT).
- The SBIT team provides supports to teachers in identifying deficits in creating goals to identify those deficits.
- Each department represented provides updates during the meeting.

Instructional Teams

- The instructional teams meet each Wednesday at regularly scheduled times. (1st and 3rd week for Math, 2nd and 4th week for Literacy)
- The agendas are sent prior to meeting to ensure that the meeting is focused and teachers are able to walk away

	<p>with a clear plan</p> <ul style="list-style-type: none"> ➤ Minutes are disseminated by the recorder to all team members ➤ During the meeting, teachers participate with colleagues in planning instructional units aligned with curriculum standards, including pre and post assessment to drive instructional goals and decisions. ➤ Student progress is monitored through reflection and analysis of student data. ➤ Resources are gathered to provide relevant and meaningful learning experiences to students. ➤ This collaboration helps teachers to enhance content knowledge and pedagogical skills. ➤ It also fosters reflection and refinement of professional practices. ➤ At the end of each meeting, teachers evaluate the effectiveness of the meeting to see if all objectives from the meeting were met. <p>Grade Level Teams</p> <ul style="list-style-type: none"> ➤ The master schedule accommodated common planning times for each grade level. ➤ It was communicated by administrators that teachers use this time to plan together. ➤ Each team assigned team members a role during the meeting. ➤ The SIS provided a template to record meeting agenda and minutes.
--	--

	<ul style="list-style-type: none"> ➤ The recorder disseminated minutes to all team members as well as the SIS after the meeting. The minutes also have a record of all members present and the actions that were taken during the meeting. ➤ During the meeting, teachers created pre and post assessments for the 4th quarter learning segments.
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year:	Current reality of effective practice:

- Teachers only gave post assessments at the beginning of the school year.
- The data was recorded in Edline but not collaboratively analyzed by teachers.
- Common assessments were given weekly and the assessments were all teacher created.

- The grade level team creates their pre/post assessments.
 - Test are designed by:
 - standards from the curriculum map
 - Utilize the common core question stems that go along with standards that were being taught.
 - Develop rigorous answer choices
- Data is compiled by a literacy facilitator and the current analyzed by teachers where they look at the current reality, misconceptions, supports, and next steps to support student achievement.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> ➤ The school was in compliance with the stipulation that the school should have a Title I Compact. ➤ The compact was reviewed during the Title I meeting at the beginning of the year. ➤ All parents signed the compact at the beginning of the year during registration and they did not receive a copy of the compact. ➤ The compact had limited information for teachers, parents and students. ➤ The only goals in the original compact were reading and math. 	Current reality of effective practice: <ul style="list-style-type: none"> ➤ After we completed our Diagnostic Analysis of the school, the leadership team redesigned our Title I compact based on the needs of our school. ➤ The compact includes goals for reading, math, studying, respect, responsibility and community. ➤ Each goal has specific actions for teachers, parents and students.

--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category: Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

- At the beginning of the school year, our counselor discussed with students the importance and value of education and what is the outcomes of academic excellence.
- The counselor also makes students aware of the different jobs by asking members of our community to come and speak to students about their jobs and doing well in school.

Current reality of effective practice:

- The counselor implements a guidance lesson every other week based on the district's guidance curriculum.
- School wide activities are planned to increase awareness of career options.
- To extend the awareness of careers, our counselor invites different members of the communities to bring vehicles that they use to do their jobs. They also talk to students about the importance of excelling in school as

- At the elementary level, our counselor did lessons on social, emotional development, personal development, safety, bullying prevention and drug prevention.
- The counselor along with one of our security guard developed clubs for the more at risk students to foster social skills and etiquette through real world experiences.

well as their daily duties at work.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

- Since we will no longer have full time IF's, the team felt that teachers should start to create their own pre/post assessments.
- Based on the positive impact of the Literacy data conferences, the team decided that Ms. Wellborn will conduct data conference Lexia usage and data conference based on reports. Ms. Walters will conduct data conferences.

If anything, what do you intend to change or modify for the year?

- Next year our building will hold grades K-5th. As a result of this reconfiguration, our grade level team planning sessions will be different due to the size of grade levels next year.
- Since we will not have full time IF's, teachers will have to be responsible for their own collaborative instructional team meetings.
- Students in grades 3-5 will take on more leadership roles in the school such as being a mentor to younger students as well as playing an active role in our school safety program.
- Students in grades 3-5 will also be a part of the school's government association.
- The school will hold a separate Title I meeting where we will give parents a copy of the compact and discuss their rights and responsibility.
- A signature page from the Parent Compact will be placed in the students' permanent record file.
- The compact will be a part of parent teacher conferences as well as discipline conferences.
- Based on the Partner in Education feedback, we plan to keep our partners well informed of school events.
- We plan to utilize Star Math for our pre and post assessment.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
K	K	181	183	180	14	65	0	0	4	2	0	0	4	12
1	1 st	188	187	183	21	67	0	0	8	1	0	0	8	10
2	2nd	189	194	189	15	69	0	0	4	5	0	0	4	8

Comments/ Clarifications: Enrollment numbers continue to remain stable. Our community is highly mobile, and slots are filled quickly after a student drops. The total number of ELs that was recorded for 4th quarter is second language students enrolled at Chicot Primary, although only 185 students out of 192 participate in the ESL program. The other parents declined services through the ESL department.

At the beginning of the school year, the school's discipline committee developed a behavior matrix to guide teachers on how to handle minor offenses in the classroom, the progression of consequences for repeated behaviors, and when an office referral is warranted. When a student continues to display behaviors that require removal from the classroom, students are referred for guidance counseling, mental health services, and/or mentoring. Administrative conferences are held with the parent, teacher, counselor, and child. The district *Student Rights and Responsibilities Handbook* is followed for Category 3 and 4 offenses and repeated violations. Other contributing factors include weather changes including cold and rainy days when students did not have opportunities for outdoor play and physical activity as is developmentally appropriate.

Based on data from 4th quarter, the administrators talked with the staff about the discipline policy and the use of the discipline matrix. This discussion helped bring awareness to the process that teachers must use in order to refer students to the office. Because the teacher interns left the last quarter of the school year, we saw a decrease in office referrals for the 4th quarter for Kindergarten students. Another contributing factor that caused a decrease in office referrals was the fact that teachers used end of the year special activities as incentives to help with behavior. The increase in 2nd grade office referrals was the result of the lack of classroom management in two classrooms.

The number of student absences increased during the fourth quarter drastically. The team felt that the contributing factor was that parents felt it was not necessary to continue to bring students to school. Now that we see the data from student absences, we know that next year we will have to put some types of intervention in place so that students will continue to come to school until the last day of school.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by average of Chapter 7-9 Test (Date) 4/16-5/16		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____/_____(Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
0	0	22%	88%	0	0			0	0		
0	0	50%	50%	0	0			0	0		
0	13%	62%	50%	5	1			13	4		

Comments/ Clarifications:

Due to the number of small groups that we have to assess during ITBS, we had to utilize our Kindergarten teachers. That contributed to the number of the increase in Kindergarten absences. The four teachers in First grade that had more than five absences had family issues and jury duty. In second grade, teachers had family medical issues that caused them to miss more than five days.

Because teachers started to analyze their data and use their data to drive their instruction, we saw a tremendous decrease in the number of students who are two years behind. During the school year, the School Improvement Specialist along with the Math Facilitator led teachers in creating SMART goals after analyzing their data. Teachers were able to see the benefits of creating those goals because students were mastering the goals that teachers made for them. Analyzing data frequently made teachers aware of what students were behind and they were able to plan for those students.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

The next few pages will illustrate how we were able to identify students who were making gains or losses after taking pre and post assessments. The other charts show student progress over time. We utilized our assessment wall as a way to track student progress and to ensure students were receiving the necessary interventions.

The first three pages show our Math pre and post assessment data. As you can see, students performed well on the post assessment on the first unit in the fourth quarter. Teacher contributed the success of this unit to the fact that students were excited about the content that they were learning. They were using tools that students were able to explore and they made sure they used all learning modalities while teaching. We did see a slight decrease in unit 3 assessment. This learning segment was on interpreting data. Most teachers felt that students were making careless mistakes and were not paying close attention to how much each item represented. Teachers noted that in future lessons they will create lessons where students will have to attend to precision.

The next three pages reflect Literacy pre and post assessment data. Overall students did not do well on the first unit in the fourth quarter. Teacher contributed the loss during this learning segment to the fact that students were having a hard time getting back in the school routine after Spring Break. We did look at the format of the test and changed how the test was copied to match how they see passages and answer choices on standardize exams. In unit two, teachers noted that students did better because the change in the format of the test. Teachers also felt that students have grown accustomed to taking pre and post assessments and that also aided in the success that students made on the post assessments. Our literacy curriculum spirals, therefore the content during the last three units were all standards that students have been exposed to so that was also a contributing factor in why students were successful during this quarter in literacy.

Literacy Assessment Wall

Beginning of the School Year

4th Quarter

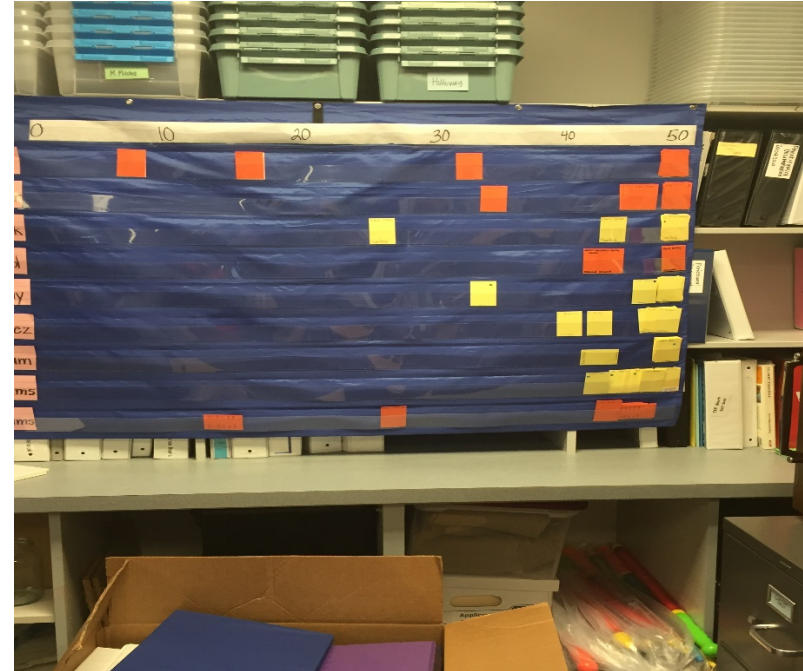

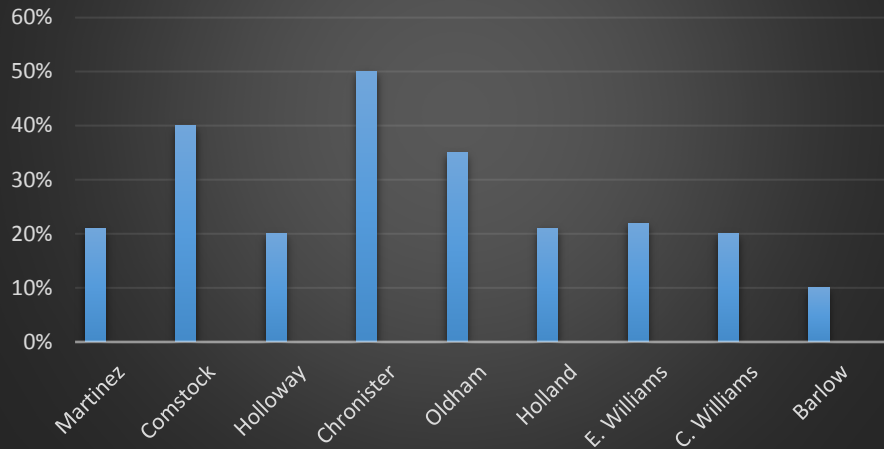

- During our monthly PLC's we talk about literacy data and update our trajectory charts that are shown at the bottom of the assessment wall. The trajectory charts gives teachers a visual representation of whether or not their students are progressing and if the instruction they are providing is working.
- Teachers also update their class trajectory charts and some teachers also have trajectory charts for individual students.
- The end of the year data for Kindergarten shows that 83% of Kindergarten students were able to identify all of their letters and 60% of students were reading on a level 4 which is on grade level.
- The end of the year data for 1st grade shows that 44% of 1st grade students ended the year reading level 18 whereas 60% of 2nd grade students were reading on level 28 at the end of the school year.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year: *The school year began as normal with a returning principal reiterating the vision and mission for the school. Fourth year FOCUS School improvement status required the addition of a half time Locally Hired School Improvement Specialist. A diverse and representative Academic Leadership Team (ALT) was developed based on the self-assessment rubric in Indistar and began holding meetings beginning August 2015. From these meetings, the team developed a set of Bylaws for governance and an agenda procedure for team meetings. The team went through several adjustments and revisions as LRSD and ADE became focused and organized in complying with regulation. Throughout this change process the ALT continued to meet twice a month and faithfully address the current shifts and compliance measures. The ALT began as early as August 2015 implementing formative assessments (pre/post tests) in Math and English as required for state reporting and monitoring student growth. Directed change has been ongoing throughout this process. LRSD standardized pre/post test procedures in*

Current reality of effective practice:

*-Beginning with the 2nd quarter, the ALT began to submit quarterly reports to the ADE. These reports included school data to monitor relationships between best practices and student achievement (growth).
-Beginning with the 2nd semester, the ALT put measures into place to ensure public access to Indistar for transparency and clarity.
-Seven First Year Indicators were identified by ADE as required
-The ALT has currently held 36 meetings and is monitoring 26 Indicators. Of these Indicators, the ALT has completed 53 of 73 total tasks for the school year.*

<p><i>the third quarter adding significant reliability and validity to the assessments.</i></p>	
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: <i>The school year began with a unique challenge. Due to revolving state assessments over the last three years, student achievement data was dated leaving the schools to use a variety of data sources for student placement in math and English. Using Brigance Basic Skills Assessment and GAINS, students were initially placed and later monitored using Scholastic Math Inventory and MyOn Lexile inventory. Beginning in August, the ALT began to implement formative assessments in math and English classes to monitor student growth in compliance with ADE regulations and best practices. The Math Instructional Facilitator and Literacy Instructional Facilitator was responsible for training teachers on pre/post test administration through professional learning communities (PLCs) and monitoring teacher compliance. In the 2nd semester the LRSD standardized expectations and procedures regarding the pre/post</i>	Current reality of effective practice: <i>-District standardization of pre/post test expectations and administration in the 2nd semester increased the reliability and validity of the assessment. -Standardization included 3 set units of instruction for pre/post assessments within a quarter, with administration timelines, and identified due dates. -Beginning with the 2nd quarter, the ALT began submitting quarterly reports to ADE monitoring best practices and student growth. -LRSD revision of the Crystal Information System Reports at semester provided more in-depth and appropriate information for quarterly reports. -The ADE's identification of 7 First Year Indicators allowed the ALT to focus on a reasonable set of compliance regulations and best practices.</i>

<p><i>test reporting. The formative assessments also provided the facilitators with needed data to develop professional development.</i></p>	
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: <i>The school year began with a multi-year continuation of an ongoing student demographic shift. The current reality is DMMS remains a historic African-American institution for a significant part of the community and is located in the heart of the historic African American community in Little Rock. DMMS has two magnet components to attract students from outside of the traditional attendance zone: gifted and talented and international studies. Competing schools and programs inside and outside the district have left the school currently with a decreasing enrollment especially within their magnet programs. Traditional recruiting efforts are not showing significant success as the student population pool moves further west in the city of Little Rock. As a result, DMMS is receiving an increase in students from other district schools displacing magnet students with more traditional students. Data also shows these students are arriving at the school significantly below level in math, reading skills, and social skills thereby creating an expanded demand for interventions for student both academically and socially. The school has a full time Math Facilitator, a full time Literacy Facilitator, Behavior Intervention Specialists as well as a Parent Involvement Coordinator. Traditional extended learning opportunities and intervention programs are available before and after school but encounter difficulty with attendance and ongoing participation. Various incentives have been incorporated such as evening meals and after school snacks</i>	Current reality of effective practice: <i>-Formative assessments being used in math and English classes to identify barriers and develop interventions. -Teacher professional development is being designed around Differentiated Instruction to address student learning styles. -The master schedule is under review as enrollment numbers fluctuate. -Implementation of intervention resources: Read 180 and Math 180 in intervention classes as well as a 21st Century Grant to provide further support in developing and designing a diverse student extended learning opportunity after school for the upcoming year.</i>

for students and community members, yet attendance has not significantly increased. DMMS works with area colleges, Philander Smith College, to provide students with tutoring and homework assurance. DMMS works to establish student pipelines with area elementary schools with luke warm success due to all the schools in this zone experiencing the same demographic shifts.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

The school year began with a new focus on Career College Readiness (CCR) Plan whereas before school counselors were primarily responsible for working with 8th graders in designing their high school schedule. Under the new plan, the counselors along with CCR teachers assess the students' interests, expose the students to a variety of occupations and professions, develop field experience opportunities, and create a 4 year Career Action Plan.

The school works closely with the community to provide joint community service/student activities: the annual Dunbar Community Festival and the

Current reality of effective practice:

*-Transition teams are in place to help students and families move to middle school in the 6th grade and move to high school in the 9th grade.
-All 8th graders are administered the Kuder Interest Inventory through Career Development Classes as a basis for determining a career interest/areas and possible shadowing experiences.
-Counselors conduct Career Development classroom presentations.
-Counselors assist 8th grade students with developing a four year Career Action Plan for success in college and career.
-Eighth grade Career Development Teachers will assist students in Job Shadowing opportunities.*

Dunbar Community Garden. DMMS provides volunteers for the Arkansas Children's Hospital, the Presbyterian Village, the Angel Tree Network, and is a member of the National Network of Partnership Schools.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

-One of the most meaningful actions (**BOLD**) accomplished this year was the establishment of the **ACADEMIC LEADERSHIP TEAM (ALT)**. The team was comprised a variety of staff, parent, and administration for input from all facets of the school stake holders. By establishing early on a schedule of meetings along with an prescribed agenda format, the **LOCALLY HIRED SCHOOL IMPROVEMENT SPECIALIST** was able to strategically plan for compliance issues, reports, and individual school needs using the traditional school calendar as a means for collecting data without duplicating services or processes. The **INDISTAR** system allowed complete documentation of the entire development of the ALT and the progress accomplished by the team in addressing the seven **FIRST YEAR INDICATORS**.

-The ALT put several items (**BOLD**) into place this year to identify and address student barriers in math and literacy. The use of **FORMATIVE ASSESSMENTS** (pre and post tests) helped recognize existing student barriers and develop PLCs to help teachers address student barriers. This data allowed facilitators and teachers to drill down in student data to identify the authenticity The district's **STANDARDIZATION** of post test expectations was significant in creating reliable data from which quality decisions could be made for students. Teachers were then able to use **BEST PRACTICES** to assist students. Administrators were able monitor best practices threw **CLASSROOM OBSERVATIONS** and evaluated through weekly **OBSERVATION SUMMARIES** provide to each principal by the Locally Hired School Improvement Specialist (LHSIS).

-The ALT used the school's **QUARTERLY REPORT** to dissect current variables affecting student achievement including student attendance, teacher attendance, student failure rate, student discipline, special needs students, and English Language Learners by grade level. From this data, the LHSIS was able to dispel several common misconceptions from staff members regarding student achievement barriers. Once dismissing these perceptions, the team/teachers were able to focus on identified student barriers.

-The ALT used the school's **TARGETED IMPROVEMENT PLAN** to identify four areas for improvement based on the needs of the school and the available student data. The four areas are Student Achievement Barriers/Instructional Programs, Organizational Accountability, School Culture, and School/Community Relations. The three year plan allows the team to develop a plan for full implementation of school improvement Best Practices in an effort to meet and exceed conditions of release from school improvement status by the Arkansas Department of Education.

If anything, what do you intend to change or modify for the year?

-The ALT plans to reflect on current practice after the School Improvement Conference in Hot Springs and make recommendations for 2016-2017 once any new team members have been seated.

-Current plans are to expand professional learning communities opportunities while narrowing the focus school wide on specific growth areas, develop attendance incentives for students and teachers, expand formative assessments to science and social studies classes, and continue regularly monitor Best Practices in classroom instruction.

ARKANSAS
DEPARTMENT
OF EDUCATION

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
6	219	224	229	231	23	12	0	0	0	0	1	1	5	4
7	214	217	212	217	26	19	2	3	3	1	2	1	12	6
8	231	235	230	231	29	21	1	0	1	0	1	2	12	8

Comments/ Clarifications:

- Grade level enrollment was stable throughout the year with less than a 10% fluctuation.
- To put student absences and student referrals into context during the fourth quarter, 41 students were absent for 248.5 days; 162 of the 248.5 were suspensions related to student discipline, 61.5 absences listed “no reason provided”, 5 absences for illness, and 20 absences for health appointments.
- Student discipline consisted overall of 4 students totaling 5 instances. The three largest categories of discipline referrals were repeated violations of category one violations (1 student with 1 instance), fighting (1 students with 1 instance), and skipping (1 students with 1 instance.) All three instances were identified with 1 seventh grader.
- The school employs behavior intervention specialists to help student with behavior problems develop positive interactive plans for students.
- The attendance secretary makes court referrals for students exceeding the state mandated number of absences.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____/_____(Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by __Brigance__ Test on __May_____/ 2015__ _____(Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____/_____(Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by __STAR__ Test on __May_____/ 2016__ _____(Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
9%	18%	64%	18%	N/A	N/A	51	9	N/A	N/A	26	30
17%	8%	50%	33%	N/A	N/A	105	20	N/A	N/A	30	28
11%	56%	67%	33%	N/A	N/A	185	16	N/A	N/A	29	35

Comments/ Clarifications:

-The total number of teacher absences for the fourth quarter was 18 teachers for a total of 60 days with 36.5 of those listed as sick days, 20.5 were professional leave, and 3 were personal leave.

-The Leadership Team feels the institution of teacher attendance incentives can impacted teacher attendance.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6	2	231	19	47	22	6	217	192	N/A	N/A	409	53		26%	30%	13 %
7	31	217	66	44	86	8	177	177	N/A	N/A	354	49		59%	33%	14 %
8	42	231	45	55	53	24	194	194	N/A	N/A	388	45		28%	21%	12 %
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications: -Note: District standardization of pre and post test expectations and administration began in the third quarter.

-Only 2 units in math were assessed during the fourth quarter due to amount of testing in math, which included the ACT Aspire Summative, the Brigance, and semester exams.

-A more efficient method of accounting for the number of post-unit assessments with Ds and Fs will be put in place next year.

-Plans for 2016-2017 school year include the use of Math 180 instructional programs, the continuation of formative assessments to student monitor growth, the continuation of before and after school tutoring, and extended learning opportunities in the afterschool program from a 21st Century grant.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	(C)	$(B/A) \times 100 = C$		
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6	10	231	13	25	50	13	194	194	207	N/A	595	93*	0	47%	25%	16%
7	16	217	38	65	51	10	189	189	181	N/A	559	59*	0	50%	20%	11%
8	13	231	30	28	48	4	197	201	217	N/A	615	143*	0	50%	25%	23%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications: Note: District standardization of pre and post- test expectations and administration began in the third quarter.

-Given the submitted data most of the percentages of D's and F's in math fall within a normal distribution in the 3rd and 4th quarter.

-Plans for 2016-2017 school year include the use of Read 180 instructional programs, the continuation of formative assessments to student monitor growth, the continuation of before and after school tutoring, and extended learning opportunities in the afterschool program from a 21st Century grant.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

Our student achievement gains and efforts can be seen in a variety of data sources.

Below you will find post-test raw data minus the teacher's name for the fourth quarter. The data is compiled three times a quarter from English and Math classes. The data enables monitoring of the number of students testing, the average pre and post test scores along with the number of Ds and Fs by grade level teacher. Teachers use this data to plan differentiated instruction based on student needs. Administrators use this information to monitor instruction in these classes (Best Practice).

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: The school year started with a leadership team that consisted of the principal and teacher leaders. The leadership team created a calendar that showed all meeting dates for the year. It was established that during meetings, that minutes and agendas will be kept and presented. Different committees were created to assist the leadership team in assessing indicators and creating task by creating a 30-day plan. Common planning time is given to instructional teams to discuss teaching practices and data.	Current reality of effective practice: Currently the leadership team has added members to the team consisting of a parent, community leader and student rep. The team has also begun to put together a School Community Council for the 2016-2017 school year. The leadership team was meeting once a month for an hour but has increased to twice a month. Common planning time is still occurring with in-depth discussions on data. The leadership team is currently using Indistar to communicate with staff, parents, and community stakeholders. However, all stakeholders are not logging on to Indistar so the team is creating a way to communicate to stakeholders. Professional development will be provided on collecting and using data.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: During the beginning of the year Instructional teams are given common planning time to use the curriculum map to plan lessons and interventions. Teachers use the map to determine which skills will be taught and when tests are administered. Teachers are expected to follow the pacing of the curriculum maps. The first quarter no pre- and post-tests were administered. However, teachers used this time to do screeners, learning style inventories, and teach routines and procedures.	Current reality of effective practice: Starting the second quarter, teachers were provided the district's expectations for administering pre- and post-assessments for literacy and math. Teachers were provided training during PLC's on creating pre- and post-tests and provided a schedule on when to administer pre- and post-assessments and when data was due to the leadership team. Pre- and post-tests are administered every three weeks. Teachers were given a Pre/Post Assessment Student Score Report form to document results. Classroom teachers are afforded an opportunity to collaborate with grade level team members and the school's data team to further analyze data. The data collected is used to modify lessons and differentiate assignments for students, providing extra help for some and enhancing the assignments for others. Professional development will be provided for creating pre- and post-tests and analyzing data collected.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: Franklin currently uses the parent compact provided by the Little Rock School District. This is provided to parents during school registration at the beginning of the school year. It is then housed in the student’s permanent record folder (PRF). Franklin has a parent coordinator that meets with a committee monthly to develop ways to increase parent involvement. A parent meeting is held monthly at the school. During the month of January, parents did a service project. The parent coordinator developed a reading/math plan for parents that will assist parents in helping their child with reading and math. Reading and Math Night was provided for parents to attend. This allowed teachers to provide parents with strategies on working with children on reading and math.	Current reality of effective practice: The leadership team met with the staff to get suggestions on making changes in the current parent compact and how parents, school staff, and students will share responsibility for improving academic achievement. It was suggested to recreate the compact but to first create a committee of parents, staff and students so that they are given the opportunity to give input for the parent compact. During open house, an explanation of the compact and expectations are provided. Make compact on triplicates so that parents are given a copy of signed compact during registration.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: Franklin assessed this IMO as Limited Development. Currently we implemented college and career preparation at the fifth grade level. This is under the leadership of the school counselor. Students research different careers and have the opportunity to job shadow a person in the area in which they researched, if possible. The Gifted and Talented teacher also has a campaign in which the staff members wear buttons that read "Ask Me About College". When a student reads the buttons the staff member explains to them ways they can and will go to college. Our Pre-K classrooms also have a career dress up box. Students can dress up in clothing of different careers such as doctors, firemen, teachers, dentists and cooks, just to name a few. The teacher has a discussion with the students as to what the clothing they chose represents. We do not have a process of tracking recent graduates at this time.	Current reality of effective practice: Although Franklin has limited development, we view this as a high priority and relatively easy to address and can be accomplished within current policy and budget. The leadership team had the opportunity to meet with staff to get suggestions on how this can become policy. Pre-K teachers suggested adding a career day parade around the school so that students can display their career of choice. Other suggestions were to implement school-wide assemblies that will allow students to meet people with different careers, include career study in lesson plans, and create a road map to their career of choice. In the area of college readiness, many suggestions were given. First, create an area in the school to display college banner, poster, and staff college memorabilia. Second, invite a variety of colleges to come and speak to students during an assembly. The leadership team discussed ways to track student graduation rate. It was decided that using the AS400 as a way to track students. However, this will only keep track of students that remain in the Little Rock School District through graduation. Another suggestion was to have a Franklin Alumni Day. Students/Graduates that attended Franklin will return to Franklin as guest speakers. This will be advertised the same way as High School Alumni Reunions. This school year was used as the planning and preparation so that implementation can begin during the 2016-2017 school year.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The Leadership Team met with committees monthly and made changes based on monthly meetings. The most meaningful decisions/actions made by the Leadership team this quarter were implementation stages of RTI & PBIS. Once the RTI & PBIS teams began looking at data, decision making, and drafting plans for 2016-2017 staff became revived and hopeful that these actions would put Franklin on the road to success with literacy and behavior.

If anything, what do you intend to change or modify for the year?

2016-2017 year changes will include ongoing training/implementation RTI/PBIS. Pre/Post Assessment calendars have been aligned to the master calendar that includes, PD/analysis of data. PBI & RTI calendars include weekly meetings to look at data. Each of these teams is led by motivated, eager to learn staff.

SCHOOL LEADERSHIP TEAM'S REPORT 4th QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2 & 3 -STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals			
	1 st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
P3/P4	18/39	17/33	17/34	16/34	0/0	0/0			0/0	0/1	0	0	0	0
K	57	56	58	57	4	3			1	1	0	0	0	0
01	47	46	49	48	9	3			1	1	0	0	0	0
02	50	49	54	51	16	2			5	7	0	0	0	0
03	50	50	51	51	9	1			0	3	0	0	0	0
04	47	51	52	54	11	1			7	5	0	0	0	0
05	40	42	42	42	8	1			10	8	0	0	0	0

Comments/ Clarifications: This report shows that the number of students enrolled have been consistent only fluctuating between 2-3 students between quarters. However, during the fourth quarter (March 28-June 2), 13 new students have enrolled at Franklin and 7 students have withdrawn. The report also states that we have no students with 5 or more referrals. Since our last report, we have started to enter the number of students that are sent to the office for minor infractions. The Positive Behavior Interventions and Supports Team have decided that for the 2016-2017 school year all staff will use Class Dojo. This is a tool that tracks multiple student behavior types and the number of occurrences. This program gives a report of student infractions in multiple areas. The Leadership Team and Positive Behavior Interventions and Supports Team also have a program that will trace the number of times a student is out of class because of behavior. There are not a large number of students with fewer than five referrals because this only gives the number of students that have been suspended. However, there are a large number of students with Office Discipline Referrals mainly in the intermediate grades. According to the Little Rock School District Handbook, these are category one and two offences. Currently, we are using Falcon Bucks to reinforce positive behavior. Students earn Falcon Bucks from all staff when displaying positive behavior. On Fridays the Falcon Buck Cart goes around to each classroom and students can buy items off the cart. The Positive Behavior Interventions and Supports Team is currently working on a plan to assist those students with 5 or more ODR's.

05	0	1	3	0	0%	0%	50%	50%	5	4	25	21

Comments/ Clarifications: This report shows the number of students that have missed 10 or more days. Franklin follows the Little Rock School District Policy on student attendance. It is the responsibility of the parent/guardian to see that the student attends school daily. The parent/guardian is to notify the school attendance secretary by noon of the date when a student is absent. Failure to do so will result in the absence being recorded as unresolved, unless the principal extends the verification period. Full day or part day absence will be resolved for personal illness, family emergency or an unusual cause acceptable to the principal. Teachers will include daily class work for which grades will be given as a means of encouraging good attendance. Daily classroom activities provide necessary preparation for maximum levels of achievement on tests and other forms of student elevation. After 3rd absence, Parent Link notifies the parent of student absences or notification will be sent to the parent by letter the next day. After the 6th absence, the Attendance Secretary notifies the parent of number of absences and the building principal will schedule a conference with the parent to discuss interventions and possible denial of credit after 12 accumulated absences. After the 9th absence, a referral is made to the Juvenile Court and parents are notified. The 12th absence results in a conference with the parent, documentation of absences were sent to the student's address on record, and administrator denies promotion and parent is notified. This report does not give the number of students that are tardy. Franklin has an average of 25-30 plus tardies per day. This is a large percent of teaching time lost. Data collected from

teachers and students suggest the following incentives for coming to school on time in hope of correcting this problem: academic field trips every quarter, extra Falcon Bucks, shadowing a staff member twice a quarter, and/or a game day per quarter.) During the fourth quarter (48 days) teacher absences have decreased. 94% of teacher absences were sick leave, 0% professional leave, 69% personal leave, 0% jury duty, and 0% military leave. Because of the high number of sick days, we have started what we call "Treat Yourself Thursdays". This is a class that will teach you how to deal with stress and day-to-day things that may be overwhelming. This has had a positive effect on teacher attendance.

The Scholastic Math Inventory is given to students at the beginning, middle, and end of the school year to determine if students are Below Basic, Basic, Proficient, or Advanced. Because there are a large number of students that are 2 or more years below grade placement in math, we have made changes in the way math instruction is taught. We have increased the amount of time teachers are teaching calendar math. We are using the Every Day Calendar Math kits that reinforce skills for every strand in the area of math. The teacher will begin each lesson with an opening in which he/she will review a previous lesson asking high level thinking questions that will give a quick check for student understanding. Next, the teacher will go into a mini lesson on the skill(s) for the day. The class will then break into small groups. In groups teachers will reinforce the skill and provide extra practice. This is where the teacher will provide differentiated instruction with fidelity. In Math, a pre- and post-test is given at the beginning and end of a three week period. The data collected from the pre-test is used to group students by their needs so that differentiated instruction is provided for each group. The post-test data is used to determine who will need more interventions. After the three week period, a post-test is given to determine student mastery.

In reading, if no data from the previous year is provided, students are assessed at the beginning and end of the year using the Developmental Reading Assessment (DRA). Students are placed in groups according to their instructional reading level. Teachers use leveled readers to guide instruction for small groups. At the beginning of the year, students had to complete the Comprehensive Language Screener from the Journey's Textbook adopted by the district. The data collected from the screener allows the teacher to see what skills students have not mastered so that they may provide interventions. In the areas of Reading, Writing and Language Arts, teachers give a pre-test that is generated using The Learning Institute (TLI) over the skills that will be taught during a three week period. Teachers then administer the post-test. Data collected from the post-test is used to determine which students need further interventions. Teachers are also required to follow the Comprehensive Literacy Model. The LRSD Elementary Literacy Program is a comprehensive program of instruction that addresses the component aspects of literacy development (reading, writing, speaking, listening, and viewing), through a set of related goals/activities/measures with the long-term aim of improved achievement in literacy for all students.

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of unit assessments for the current quarter				Total number of post-unit tests for each grade level	Total number of D's or F's in Math this quarter	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
P3/P4	0/0	16/34														
K	0	57														
01	0	48														
02	0	51														
03	3	51	9	15	5	1	47	46	37	N/A	130	61				47%
04	3	54	8	25	6	7	48	23	0	N/A	71	38				54%
05	1	42	13	15	18	14	39	20	39	N/A	98	30				31%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications: During the fourth quarter, three pre-and post-tests were administered. Teachers use the curriculum map as a guide on creating the pre- and post-tests. They look at the skills that will be taught over a three week period and develop a pre-test that will assess the students on those skills. The teachers may use questions from The Learning Institute or develop their own set of problems. This test is given on a Monday. The teachers then use the data collected to determine which students will be in a group. Some students will need advanced lessons while others will need reinforcement along with whole group lessons. This allows the teacher to differentiate the instructions. This data also allows the Principal to utilize the specialist (interventionist) and the paraprofessionals to provide interventions for students that need extra support. After the end of the three week period, teachers then administer the post-test. Teachers then sit in grade level PLC and discuss data. They determine if a student has mastered the skills or will need to have further interventions. Teachers use the Instructional Analysis Tool to determine if it may be curriculum or instruction why students may not have mastered a skill. Go Math, Reflex, First in Math, and TLI are used for interventions. Scholastic Math Inventory (SMI) is administered in September, January, and May. This screener is used to determine student growth in the area of math. The leadership team has discussed the inconsistency of pre- and post-assessments that are given during 2-4 quarters. One suggestion the team made was to create a plan as to how pre- and post-tests were not administered during their time of absence. Also, Professional Development will be provided on using data collected from assessments given. The leadership team also discussed the inconsistency of students with D's and F's on report cards with the D's and F's on pre- and post-assessments. Teachers give chapter tests on the skill that is being taught from the text book that has already been created, but the pre- and post-assessments are created using The Learning Institute. One suggestion is to use the same format of questioning from the weekly test on the pre- and post-tests.

LEADERSHIP TEAM REPORT CONTINUED

ELA DATA by Quarter for Grades 3 – 10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in ELA class per quarter 2015-2016				Number of unit assessments for the current quarter				Total number of post-unit test for each grade level (A)	Total number of D's or F's in ELA this quarter (B)	Percent of students with D or F on any unit tests in ELA (C) $(B/A) \times 100 = C$			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
P3/P4	0/0	16/34														
K	0	57														
01	0	48														
02	0	51														
03	2	51	8	22	2	6	48	48	29	N/A	125	63				50%
04	10	54	18	0	9	13	42	42	0	N/A	84	55				65%
05	7	42	23	27	19	28	37	38	38	N/A	113	31				27%
Example							100	90	95	N/A	285	57	20%			

Comments/Clarification: The same applies for literacy. Teachers use the curriculum map to determine what skills will be taught over a three week period. They then create a pre-test using The Learning Institute or they create their own test on the skills that are going to be covered. The teachers then look at the data to determine groups. This allows the teacher to differentiate and assist with whole and small group instruction. Specialist (interventionist) and paraprofessionals are used to provide interventions along with the whole group lessons and small groups. Teachers use Think Central, leveled readers, The Learning Institute, and STAR reading to provide interventions. At the end of three weeks of teaching the skills, teachers administer the post-test. In grade level PLC's teachers look at the data and determine if re-teaching is needed. They also use the Instructional Analysis Tool to determine if it is a curriculum or instruction problem. The Developmental Reading Assessment is given at the beginning of the year and mid-year to determine the students reading range. The STAR test is also given at the beginning of the year and mid-year. This test gives students a range to assist with choosing books from the library. It also gives teachers a road map of interventions for each student that will prepare students for the ACT Aspire Assessment. The leadership team will provide professional development on using data collected from assessments. This will assist the teachers in using data to drive instruction. The same as math, the leadership team discussed the inconsistency of students with D's and F's on report cards with the D's and F's on pre- and posts-assessments. Teachers give weekly tests on the skill that is being taught from the text book that has already been created, but the pre- and post-assessments are created using The Learning Institute. One suggestion is to use same format of questioning from the weekly test on the pre- and post-tests.

LEADERSHIP TEAM REPORT CONTINUED

Elements for an Effective School-wide Reading Program - Quality of Implementation for each element:

Element	Initial Grades K – 2	Initial Grades 3 – 5
Goals, Objectives, Priorities	11.4/14	9.3/14
Assessment	15.4/20	13.3/20
Instructional Practices and Materials	17.8/22	21.8/28
Instructional Time	10.4/14	4.7/6
Differentiated Instruction, Grouping	6.9/10	8.7/10

Administration, Organization, Communication	6.7/12	7.9/12
Professional Development	5.68/8	7.1/10
(Percentage) Total Score:	70/100	71/100

Comments/Clarification: The LNA results identified “Instructional Practices & Materials” as strength at Franklin Elementary. All teachers will continue to be trained in, and expected to implement, the comprehensive literacy model with fidelity. While the identified areas of focus are “Goals, Objectives, and Priorities,” teachers state that it is the district’s pacing of the goals and objectives that make re-teaching or interventions difficult. Therefore, “Differentiation” will be our primary focus as we revisit the curriculum map to determine how more students can meet grade-level expectations by meeting their needs during the initial lesson by differentiating core instruction. Specific strategies on differentiating instruction, professional development, and classroom support will be provided during this process.

LEADERSHIP TEAM REPORT CONTINUED

Behavior (PBIS) - Tiered Fidelity Inventory

Core Features	Initial	
Tier I	<u>20/30</u>	67% implemented
Tier II	<u>0/26</u>	0% implemented
Tier III	<u>17/34</u>	50% implemented

Comments/Clarification: According to the Behavior Needs Assessment Report, Franklin's strengths are as follows:

- The leadership team is in place and operating
- School-wide expectations are defined
- Classroom routines and expectations are defined and taught

Areas of Needs are:

- School-wide discipline systems and practices are inconsistent with teaching and rewarding expected behavior and defining clear procedures for addressing problem behavior
- Respect between students and teachers
- Bullying behavior is commonly observed
- There is inconsistent enforcement of the student code of conduct
- Data is not used for decision making

With the data that was given, the following recommendations were given:

- Focus on school-wide systems and practices especially teaching school-wide expectations to students, recognizing and rewarding positive behavior from students, clarifying a procedure for identifying and handling problem behaviors, and developing a plan for collecting, analyzing, and using data for decision making.
- Address bullying as part of our behavior education plan.
- Provide training and support to staff to increase consistency in carrying out these practices

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: The King Leadership Team has been in place for 4 years. In that time we have focused on student growth and achievement. The team completed walkthroughs to observe student engagement, provided surveys to teachers to determine needs, and analyzed student data (academic, school climate, etc.) to determine needs of the school. The data showed that overall the school was improving academically and the culture of the school had changed to one where students became the main focus of everything that we did. Based on this information the team determined that the focus for the 2015-16 school year would be developing strong, standards based assessments (Pre and Post tests), differentiated instruction and meaningful assignments. All PD for the school year would be based around these 3 areas that essentially intertwined in a very good way.	Current reality of effective practice: The staff was provided a variety of PD throughout the school year based on the 3 focus areas. The ADE requirement of Pre and Post testing fit into our focus of strong, standards-based assessments. The teachers and administration decided to use TLI quiz builder to assist in creating the pre and post tests. They determined that it was important to have multiple choice questions and an open-response item on each math and literacy test. The current reality is that the staff learned how to create an effective assessment that would provide data that would improve whole group and small group instruction. In the beginning, the teachers looked at the questions for each of the standards and would choose one or two questions. By the 2 nd semester the teachers evaluated the questions before choosing, determined the prior instruction required for mastery, and decided if the question was appropriate

The team also decided to apply for the Leadership Team Academy through the Arkansas Leadership Academy. The team was accepted and attended the first session in January.

for the standard to be taught. The teachers took the time to develop a test that would provide important information that would allow them to improve their instruction. They also maintained a high expectation for all students throughout all of the assessments.

Differentiated small group instruction has expanded throughout the school year. In the beginning small group instruction usually was seen through reading groups. Currently when staff attend weekly grade level planning sessions the teachers spend time planning instruction for differentiated small groups in both reading and math. Also, through administrative observations we have seen more small groups being implemented into the classroom. The teachers truly see the value of small group instruction in both areas. During end-of-the- year evaluations when asked how they felt about the school year most teachers replied that their small group instruction had improved.

The Leadership Team completed Year I of the Leadership Team Academy. They updated their team norms and created a Team Charter. Through the process they have learned how to look at the culture of the team and how to work more closely together in order to improve student achievement. At the request of the team we are currently applying for Year 2.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: A yearly calendar was created to show the unit of studies that would take place for the year including all pre and post test assessments. The teachers used TLI Quiz Builder to make their pre/post assessments. They selected the standard to be taught and randomly selected questions under that standard. The students did not do well on these assessments and the teachers questioned how the assessments were helpful if the students missed all of the questions.	Current reality of effective practice: The implementation and results of the Pre and Post tests has shown great improvement over the school year. At the beginning of the school year the teachers would select questions from the TLI Quiz Builder because the questions would be found under the standard that the teacher was planning on teaching. By the 2 nd semester the teachers, along with the instructional coach facilitating, began to examine the questions and determine whether the question would be appropriate to test the standard that was being taught. The teachers also began to bring in other resources to gather questions and begin to develop their own questions for the assessments. Based on the results of the assessments the team has decided to maintain a focus on small groups and differentiated instruction based on assessments. After reviewing the data, including 1 st and 2 nd state testing results, we are seeing an overall increase in achievement.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state's standards.	
Current reality of effective practice from the beginning of the year: The school revised the school compact in 2014 and it is the one that the school currently uses. It is provided to the parents at registration and the school requests that they review it with their child and return it at the beginning of the school year. At that time the teachers and administration also sign off on it. The compact is reviewed during parent conferences. The compact is in place but it is not a fully functional compact at this time.	Current reality of effective practice: Parents were provided a number of resources that provided them information in regards to their child’s academic achievement this year: <ul style="list-style-type: none"> • DRA Results • Math and Literacy Star Progress Monitoring • Pre and Post tests results • Ed-Line • State tests results These results allow parents to understand their child's needs and areas they can assist in when helping their child. Through the team and results of a variety of surveys provided by the ADE the team has determined that we must provide our parents and students more information, in a variety of ways, so that everyone is responsible for improving academic achievement. It was determined that we must do more than just share information with parents but that we must make them a part of the information in order to continue to increase student achievement. Over the course of the year the team and staff have created several new forms of communication in order to ensure that all stakeholders are working together. The following have been created and are ready

	<p>for implementation.</p> <ul style="list-style-type: none">• Student led conferences• RTI Quarterly Report Cards for parents• RTI Brochure (Literacy, Math and Behavior)• Annual Assessment Card• Transition Meetings for each grade level <p>The team determined that our parents must be a part of the daily instruction and any and all interventions that are put in place for their child. These revisions will fully implement our current compact.</p>
--	---

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
<p>The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.</p> <p>ADE will monitor the following:</p> <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: The district provides a guidance plan in the LRSD Student Handbook each school year. This plan is discussed each year at the Title I parent meeting held at the beginning of the school week.	Current reality of effective practice: The school will continue to provide this information to parents. The school also decided that even though we talk to our students about different career opportunities we decided to implement a career week for next year.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

Through the process of reviewing the indicators and reading the Wise Ways explanations the team made several important decisions this past quarter to implement for next school year. The team believes that through these actions that our student achievement will continue to increase.

- Committees have already been determined (teacher decided) and action plans have been put into place
- The team decided to work with the PBIS team in hopes of assisting them to make a smooth implementation into PBIS
- Team decided to apply for Year 2 of the Leadership Academy
- Developed leadership team schedule and format for next year

The team continues to develop into a team that understands the importance of their job. They understand the part that they play in the improvement of student achievement at King Elementary. They are a more cohesive team that recognizes the individual and cultural differences amongst the Leadership Team and staff.

If anything, what do you intend to change or modify for the year?

The team will continue to operate in the same manner. The team has shown tremendous growth and will continue to work to improve

student achievement at King Elementary.

SCHOOL LEADERSHIP TEAM'S REPORT 4th QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2 & 3 -STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
K	61	60	60	54	8	0			8	6	0	0	0	0
1	66	66	63	65	8	0			15	5	0	0	0	0
2	69	68	66	67	8	0			14	2	0	0	0	0
3	76	77	76	74	12	0			18	4	0	0	0	0
4	69	70	69	68	11	0			9	6	0	0	0	0
5	64	65	65	66	8	0			11	3	0	0	0	0
					8	0								

Comments/ Clarifications:

The number of office referrals decreased by 65% this quarter. This is due to a variety of reasons:

- Teachers put in place more interventions that allowed students the opportunity to remain in the classroom
- Students and staff were focused on testing
- Principal maintained upstairs hall office to monitor students and staff
- Instructional aides used music and dance on the playground for all grade leve

LEADERSHIP TEAM REPORT CONTINUED

5	0	2	3	0	0.00%	0.00%	0.00%	33.33%	1	0	1	1

Comments/ Clarification

Teacher Attendance: Teacher attendance increased this quarter because we have not had teachers out due to family concerns. The school did not have staff out for extended days for professional development. The PBIS team is creating and implementing an action plan to provide incentives for teacher and student attendance.

DRA Scores: There were only 5 students below grade level based on the DRA score. All 5 students are currently identified as special education students and are receiving services. The RTI team has created an action plan to ensure that these classrooms (special education) provide concurrent reading instruction that aligns with weekly core instruction.

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3 - 10

Comments/ Clarifications:

In order to keep our assessments focused, efficient, rigorous, and available for a quick turn-around for data collection, we have elected to create test with 10 questions. The drawback with a short assessment is students' ability to make an A/B can be difficult. We examine each standard tested and have shown promising gains in the number of students increasing proficiency levels on standards. This is true even when the letter grades for the test as a whole do not reflect mastery.

Open response questions continue to be difficult for our students and we include an open response on each test. (The open-response item is worth 2 – 4 points of the 10 available points.) We understand that our students score higher if the test includes only multiple choice questions but we feel it is important to continue to have an open-response question on the test so that we can continue to assess students' progress on open-response items.

The percent of students that made a D or an F on a unit test decreased by an average of 30 percentage points. The team believes this is because of the time the teachers took to select quality questions that matched the standards-based instruction. The number of students making a D or an F for the quarter was 25 percentage points below in comparison to the unit tests.

Elements for an Effective School-wide Reading Program - Quality of Implementation for each element:

Element	Initial Grades K – 2	Initial Grades 3 – 5
---------	----------------------	----------------------

Goals, Objectives, Priorities	13.2/14	13.2/14
Assessment	17.1 /20	14.7/20
Instructional Practices and Materials	20.9 /22	19.7/28
Instructional Time	11.8/14	4.6 /6
Differentiated Instruction, Grouping	8.2 /10	7.9 /10
Administration, Organization, Communication	8.9 /12	8.7 /12
Professional Development	7.4 /8	8.6 /10
(Percentage)		
Total Score:	87.5/100	77.4/100

Comments/Clarification:

The King RTI Team has received 2 days of professional development provided by the ADE. The team has developed an action plan with the following 2 goals:

- Description of the school's RTI essential components are shared with parents.
- Coherent mechanism is implemented for updating parents on the progress of their child.
- Parents are involved during the decision making of RTI elements.
- Ensure all stakeholders are informed about student progress and understand all aspects of data and the impact on student growth and performance.
- Ensure all concurrent reading instruction aligns with weekly core instruction.

LEADERSHIP TEAM REPORT CONTINUED

Behavior (PBIS) - Tiered Fidelity Inventory

Core Features	Initial	
Tier I	<u>13</u> /30	% implemented
Tier II	<u>1</u> /26	% implemented
Tier III	<u>21</u> /34	% implemented

Comments/Clarification:

The King PBIS Team has received 2 days of professional development provided by the ADE. The team has developed an action plan with the following 2 goals:

- Ensure school wide expectations are a part of the culture of King Elementary

- All staff, students, and stakeholders participate in a universal management and reward system

The team has developed school wide expectations based on staff and student input and surveys. A behavior matrix and lesson plans have been created and professional development for next year is in the planning process. The team will have planning sessions this summer to complete the PD plan.

MLK DRA Data Analysis

Developmental Reading Assessment (DRA) assesses students' reading achievement in Reading Engagement, Oral Reading Fluency, and Comprehension. It provides information to identify students' independent reading levels and the next steps to take to help students improve their reading skills. This reading assessment has been designed to scaffold real reading situations in which students are placed daily. In this context, teachers can make purposeful decisions about student achievement based on observations and a careful analysis of student responses using well-researched criteria. The data represents students reading on or above grade level each month.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: At the start of the 2015-2016 school year, the School Leadership Team consisted of the Principal and four teachers meeting once per month to discuss the ACSIP plan and revisions that needed to be made. Instructional Teams of grade level teachers meet once per week during common time to plan weekly instruction and a Parent/Teacher governing board consisting of PTA officers, two classroom teachers and the Principal meet once monthly to plan parent involvement activities and fund raisers that support our school garden, art programs and student competitions. In October of 2015, our school was identified as a year 1 Focus School by the Arkansas Department of Education. At which time, the dynamics of our Leadership Team changed. A teacher from each grade level, three specialists and the building Principal now comprised the team. The Leadership Team developed bylaws for	Current reality of effective practice: The current School Leadership team consists of 5 classroom teachers, the school counselor, the gifted and talented specialist, the school improvement specialist and the school Principal. The Leadership Team schedules two meetings per month at previously determined times. Each meeting has a specific focus which is addressed on the agenda that is disseminated to team members prior to the meeting. Agenda items to be addressed include previous meeting minutes, local assessment data to be reviewed, indicators to be addressed and any decisions regarding our data, professional development needs and student achievement.

all teams meeting at Pulaski Heights Elementary that guide and give each team structure.	
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: At the beginning of the 2015-2016 school year, the instructional teams reviewed local data, i.e. SOAR/TLI assessments, Scholastic Math Inventory, IOWA and end of previous year's DRA and Math Inventory results to determine appropriate groupings, skill/strategy focus, and differentiation of instruction and tiered interventions.	Current reality of effective practice: Beginning in October of 2015, instructional teams met regularly with the school improvement specialist to develop quick formative assessments at the beginning and end of lessons or units to determine mastery of standards-aligned objectives. After each assessment, the team along with the school improvement specialist met to analyze the results. A specially designed data analysis document was used to record student scores and specific skills that need to be further addressed through differentiated assignments targeting weaknesses. The results of the pre and post unit assessments and analysis reports were shared with the school and district leadership teams for their review.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: A Title 1 School and Family Compact was sent home with all families during August 2015 registration. The document reflects how parent, student and teacher all plan to work together to achieve state standards. The plan includes the following: <u>Parent/Guardian Agreement</u> -See that my child is punctual and attends school regularly -Support the school discipline policy -Establish a time for homework and review homework regularly -Provide a quiet, well lighted place for study -Encourage my child’s efforts and be available for questions -Stay aware of what my child is learning -Provide a library card for my child - Read with my child and let my child see me read <u>Student Agreement</u> -Attend school regularly -Come to school each day with pens, pencils, paper and other necessary tools for learning -Complete and return homework assignments -Observe regular study hours -Conform to rules of student conduct	Current reality of effective practice: The current reality remains the same.

<p><u>Teacher Agreement</u></p> <ul style="list-style-type: none"> -Provide appropriate and meaningful homework assignments for students -Provide necessary assistance to parents so that they can help with the assignments -Encourage students and parents by providing information about student progress -Use special activities in the classroom to make learning enjoyable. <p>All parties sign this compact and a copy is filed with the school Parent Involvement Coordinator.</p>	
--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
<p>Effective Practice within Category: Post-Secondary School Options (VA01)</p> <p>The school has a guidance plan that includes options for students as they plan their college and career opportunities. LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

As the school year progressed, student tardies, discipline and lack of engagement with our lowest performing students remain a concern. The Leadership Team elected to send a staff member to attend summer professional development to learn about the Kagan Model for student engagement. School Title 1 funds will be used for this endeavor. Upon returning to school in August of 2016, this staff member will share her experiences with instructional teams and offer recommendations for infusion of specific strategies in all classrooms.

through fifth grade classes that address career study.

All fifth grade students participate in a week of "job shadowing" during the month of February. Students may choose to shadow a parent, family member, teacher or community member and find out what is needed to be successful in their chosen careers. When students return, they reflect and share their experiences with the counselor and their classroom teachers.

At the end of the school year, the counselor meets with fifth grade students to help them choose and review their middle school choices for their academic schedules. This process helps students be aware of their current instructional progress and where they are going to achieve the most success.

their professions beyond to learn what kind of knowledge skills are needed to be successful.

If anything, what do you intend to change or modify for the year?

The Leadership Team understands the importance of consistency in infusing any common strategies on a school-wide basis and recommend that Title 1 funds be used to formally train all Pulaski Heights teachers on the Kagan model, which emphasizes effective student engagement strategies during the 2016-2017 school year.

Comments/ Clarifications:

ABSENCES/TARDIES

At Pulaski Heights, we have a school-wide process in place to award students with perfect attendance at an end of the quarter assembly. The teachers also have weekly incentives in place to help students who attend regularly earn special activity at the end of each week. The Principal sends home a weekly newsletter that encourages student attendance and the impact excessive absences have on student achievement. She provides research about how well students who attend school regularly achieve. Teachers share this research with parents during regularly schedule conferences. Excessive tardies are also addressed with the School Based Intervention Team (SBIT) who can then make recommendations and/or actions that help students with many absences or tardies.

DISCIPLINARY REFERRALS

419

The Education Management Team at Pulaski Heights meets regularly to develop educational behavior management plans that are research-based for students who are having excessive disciplinary referrals. The team works with the classroom teacher and student on a daily basis to follow through with consequences, rewards and progress. Conferences are scheduled with the teacher and parent to review and stay abreast of the plan and work together to make any adjustments that need to be made for student success.

The 4th quarter does reflect a reduction in student referrals for most grades due in part to the actions mentioned in the paragraph above and consistent implementation of the school-wide discipline plan (The “Fix it Plan”). This plan allows students opportunity to “fix” their issues and see assistance from the counselor or other adults in helping them work through behavioral problems. We do comply with the Little Rock School District Handbook which addresses the consequences for category 2 and 3 offenses.

The counselor meets weekly at lunch with small groups of 3rd, 4th and 5th grade students to encourage good character and positive student interactions to create school and classroom community. Classroom teachers also eat lunch with their students twice a month to encourage positive behavior and model appropriate social interaction. We believe these actions have made a positive impact on student behavior.

	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by Universal Math Screener Test on ____ 5 / ____ 2016 ____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by ____ Test on ____ / ____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by ____ Developmental Reading Assessment on ____ 5 / ____ 2016 ____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by ____ Test on ____ / ____ (Date)

Comments/ Clarifications:

The Leadership Team feels that it is very obvious that teacher absences affect student learning, however the team has no impact on the decisions teachers make regarding their absences from school

In the 2016-2017 school year, it is necessary to have a plan in place that will ensure that high-quality; researched-based lessons are being taught, even in a teacher's absence. Assistance is needed from the district and the state to provide the necessary human resources (i.e. instructional facilitators) working at the school level on a **regular basis** to meet and assist teachers coordinating plans and making sure standards and lessons are consistent on a daily basis. When a teacher is absent, a plan will be in place to assure that high quality resources are being used that will address current curriculum standards.

MATH DATA by Quarter for Grades 3-10

Comments/ Clarifications:

In the areas of literacy the Leadership Team observes that grade levels are making consistent gains toward improved or consistently low rates of Ds and Fs with student literacy scores. We feel that the school-wide implementation of Step Up to Writing, high level literacy lessons, consistent implementation of the core reading program, the team testing of students in the areas of reading and increased collaboration with teachers using their data analysis reports after all pre and post assessments provided these gains. The team feels strongly that our school would benefit greatly from a **full time** literacy facilitator whose ONLY job is to regularly plan and support instruction in kindergarten through fifth grade to help bridge instructional gaps, strengthen core curriculum and the development of appropriate pre and post assessments to continue literacy success, especially with our TAGG students.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

Below are 2 charts that address specific growth in the areas of math. The Leadership Team elected to purchase the online computer program, MobyMax, a researched-based resource, which would be used consistently in all grade levels for math intervention. Teachers scheduled 30 minutes of math interaction on MobyMax each day. The second grade teachers elected to use MobyMax during their additional computer lab time, as well as in the classroom. MobyMax provides lessons that target student weaknesses and engage students in activities that facilitate increased performance. Teachers of 1st through 5th grade attribute student growth in performance to the intensive lessons provided on MobyMax, however, the second grade students showed the highest level of growth in math on end of year Math Inventory an IOWA assessments.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year: *The school year began as normal with a new principal establishing a collective vision and mission for the school. Fourth year FOCUS School improvement status required the addition of a half time Locally Hired School Improvement Specialist. A diverse and representative Academic Leadership Team (ALT) was developed based on the self-assessment rubric in Indistar and began holding meetings beginning 8.20.2015. From these meetings, the team developed a set of bylaws for governance and an agenda procedure for team meetings. The team went through several adjustments and revisions as LRSD and ADE became focused and organized in complying with regulation. Throughout this change process the ALT continued to meet twice a month and faithfully address the current shifts and compliance measures. The ALT began as early as August 2015 implementing formative assessments (pre/post tests) in Math and English as required for state reporting and monitoring student growth. LRSD standardized pre/post test procedures in the third quarter adding significant reliability and validity to the assessments.*

Current reality of effective practice:

*-Beginning with the 2nd quarter, the ALT began to submit quarterly reports to the ADE. These reports included school data to monitor relationships between best practices and student achievement (growth).
-Beginning with the 2nd semester, the ALT put measures into place to ensure public access to Indistar for transparency and clarity.
-Seven First Year Indicators were identified by ADE as required
-The ALT has currently held 37 meetings and is monitoring 28 Indicators. Of these Indicators, the ALT has completed 109 of 128 total tasks for the school year.
-As a result of previous practice, PHMS was identified as Achieving for this school year and was publicly recognized for one of the highest achieving academic schools in the state.*

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: <i>The school year began with a unique challenge. Due to revolving state assessments over the last three years, student achievement data was dated leaving the schools to use a variety of data sources for student placement in math and English. Using ACTAAP scores from 2013, students were initially placed and later re-assessed using Scholastic Math Inventory and MyOn Lexile inventory to verify placement. Beginning in August, the ALT began to implement formative assessments in math and English classes to monitor student growth in compliance with ADE regulations and best practices. The Math Instructional Facilitator and Literacy Instructional Facilitator was responsible for training teachers on pre/post test administration through professional learning communities (PLCs) and monitoring teacher compliance. In the 2nd semester the LRSD standardized expectations and procedures regarding the pre/post</i>	Current reality of effective practice: <i>-District standardization of pre/post test expectations and administration in the 2nd semester increased the reliability and validity of the assessment. -Standardization included 3 set units of instruction for pre/post assessments within a quarter, with administration timelines, and identified due dates. -Beginning with the 2nd quarter, the ALT began submitting quarterly reports to ADE monitoring best practices and student growth. -LRSD revision of the Crystal Information System Reports at semester provided more in-depth and appropriate information for quarterly reports. -The ADE's identification of 7 First Year Indicators allowed the ALT to focus on a reasonable set of compliance regulations and best practices.</i>

<p><i>test reporting. The formative assessments also provided the facilitators with needed data to develop professional development.</i></p>	
<p>IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT</p>	
<p>Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.</p>	
<p>Current reality of effective practice from the beginning of the year: <i>The school year began with a multi-year continuation of an ongoing student demographic shift. The current reality is PHMS remains a school of choice and available seats at each level are being filled with students outside of the school’s traditional attendance zone. Data also shows these students are arriving at the school significantly below level in math and ready skills thereby creating an expanded demand for interventions for student both academically and socially. The school has a full time Math Facilitator, a full time Literacy Facilitator, two full time Behavior Intervention Specialists as well as a Parent Involvement Coordinator. Traditional extended learning opportunities and intervention programs have been the PHMS After School Program, math tutors from UALR and the community, the Math Café during student lunches, academic referrals for assistance, and behavior intervention incentives. PHMS works closely with PTSA groups from elementary feeder schools. Counselors from Central High School work closely with PHMS counselors and 8th graders for alignment and high school course selection.</i></p>	<p>Current reality of effective practice: <i>-Formative assessments being used in math and English classes to indentify barriers and develop interventions. -Teacher professional development is being designed around Differentiated Instruction to address student learning styles. -New classes are being designed and scheduled for 2016-2017 school year to address student needs: Math Enrichment, Literacy Enrichment, Developmental Skills Lab, Strategic Reading Lab, Honors Math, and Honors English classes. -Implementation of intervention resources: Navigator Assessment for Math and Literacy and the Criterion Writing Online Program</i></p>

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

The school year began with a new focus on Career College Readiness (CCR) Plan whereas before school counselors were primarily responsible for working with 8th graders in designing their high school schedule. Under the new plan, the counselors along with CCR teachers assess the students' interests, expose the students to a variety of occupations and professions, develop field experience opportunities, and create a 4 year Career Action Plan.

The school works closely with the community to provide joint activities: Back to School Bash, Harvestfest, Panther Prowl 5K, Christmas Tree Lighting on the Promenade, and through community service activities.

Current reality of effective practice:

*-Transition teams are in place to help students and families move to middle school in the 6th grade and move to high school in the 9th grade.
-All 8th graders are administered the Kuder Interest Inventory through Career Development Classes as a basis for determining a career interest/areas and possible shadowing experiences.
-Counselors conduct Career Development classroom presentations.
-Counselors assist 8th grade students with developing a four year Career Action Plan for success in college and career.
-Eighth grade Career Development Teachers will assist students in Job Shadowing opportunities.*

-Arkansas Democrat Gazette names PHMS as Best of the Best Middle Schools and was awarded Exemplary Status for Volunteers in Public Education for 2015-2016 school year.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

-One of the most meaningful actions (**BOLD**) accomplished this year was the establishment of the **ACADEMIC LEADERSHIP TEAM (ALT)**. The team was comprised a variety of staff, parent, and administration for input from all facets of the school stake holders. By establishing early on a schedule of meetings along with an prescribed agenda format, the **LOCALLY HIRED SCHOOL IMPROVEMENT SPECIALIST** was able to strategically plan for compliance issues, reports, and individual school needs using the traditional school calendar as a means for collecting data without duplicating services or processes. The **INDISTAR** system allowed complete documentation of the entire development of the ALT and the progress accomplished by the team in addressing the seven **FIRST YEAR INDICATORS**.

-The ALT put several items (**BOLD**) into place this year to identify and address student barriers in math and literacy. The use of **FORMATIVE ASSESSMENTS** (pre and post tests) helped recognize existing student barriers and develop PLCs to help teachers address student barriers. This data allowed facilitators and teachers to drill down in student data to identify the authenticity The district's **STANDARDIZATION** of post test expectations was significant in creating reliable data from which quality decisions could be made for students. Teachers were then able to use **BEST PRACTICES** to assist students. Administrators were able monitor best practices threw **CLASSROOM OBSERVATIONS** and evaluated through weekly **OBSERVATION SUMMARIES** provide to each principal by the Locally Hired School Improvement Specialist (LHSIS).

-The ALT used the school's **QUARTERLY REPORT** to dissect current variables affecting student achievement including student attendance, teacher attendance, student failure rate, student discipline, special needs students, and English Language Learners by grade level. From this data, the LHSIS was able to dispel several common misconceptions from staff members regarding student achievement barriers. Once dismissing these perceptions, the team/teachers were able to focus on identified student barriers.

-The ALT used the school's **TARGETED IMPROVEMENT PLAN** to identify four areas for improvement based on the needs of the school and the available student data. The four areas are Student Achievement Barriers/Instructional Programs, Organizational Accountability, School Culture, and School/Community Relations. The three year plan allows the team to develop a plan for full implementation of school improvement Best Practices in an effort to meet and exceed conditions of release from school improvement status by the Arkansas Department of Education.

If anything, what do you intend to change or modify for the year?

-The ALT plans to reflect on current practice after the School Improvement Conference in Hot Springs and make recommendations for 2016-2017 once any new team members have been seated.
 -Current plans are to incorporate new courses into the schedule to address student achievement needs, expand professional learning communities opportunities while narrowing the focus school wide on specific growth areas, develop attendance incentives for students and teachers, expand formative assessments to science and social studies classes, and continue regularly monitor Best Practices in classroom instruction.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
6	268	263	257	257	33	3	0	2	5	4	3	5	17	10
7	279	279	282	280	33	5	0	3	2	3	4	5	11	9
8	260	255	253	253	25	3	4	0	0	0	8	8	17	8

Comments/ Clarifications:

-Grade level enrollment was stable throughout the year with less than a 10% fluctuation.

-To put student absences and student referrals into context during the fourth quarter, 83 students were absent for 542 days; 252 of the 542 were suspensions related to student discipline, 93 absences listed "no reason provided", 86 absences for illness, 65 absences for health appointments, and 44 for extenuating circumstances. A significant part school population experienced a stomach virus during this quarter.

-Student discipline consisted overall of 25 students totaling 252 instances. The three largest categories of discipline referrals were repeated violations of category one violations (5 students with 13 instances), failure to follow reasonable directives (5 students with 10 instances), and horseplay/minor altercations (5 students with 9 instances.) Four sixth graders, four seventh graders, and zero 8th graders accumulated 5 or more behavior referrals.

-The school employs two full time behavior intervention specialists to help student with behavior problems develop positive interactive plans for students.

-The attendance secretary makes court referrals for students exceeding the state mandated number of absences.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Scholastic Math Inventory on May _____ / 2016 _____		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ STAR _____ Test on _____ June / 2016 _____ (Date)	
1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
0	33%	50%	10%	N/A	N/A	53	94	N/A	N/A	6	134*
0	20%	7%	27%	N/A	N/A	52	0*	N/A	N/A	12	142*
0	60%	11%	0	N/A	N/A	35	0*	N/A	N/A	10	124*

Comments/ Clarifications:

-The total number of teacher absences for the fourth quarter was 12 teachers for a total of 54.5 days with 38 of those listed as sick days, 11 were professional leave, and 5.5 were personal leave. A significant part school population experienced a stomach virus during this quarter.

-The Leadership Team feels the institution of teacher attendance incentives can and have impacted teacher attendance. This year the administration used "Teacher of the Month" recognitions during faculty meetings with preferential parking. Plans are to create a teacher attendance incentive award for the 2016-2017 school year.

-*Scholastic Math Inventory was used in the 4th quarter for 6th graders to measure growth. PARCC Assessment (2015) scores were used for 7th grade

-**Two different assessments (ACTAAP and STAR) were used in the 1st quarter versus the 4th quarter and therefore not comparable. Overall, PHMS STAR scores increased from the beginning of year to end of year. The 6th grade average grew from 5.7 to 6.4, the 7th grade average grew from 6.4 to 6.9, and the 8th grade average grew from 6.6 to 7.2.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6	32	257	24	49	40	39	240	12*	210	N/A	462	101	0	26%	19%	22%
7	50	280	60	75	88	95	257	229	264	N/A	750	141	0	59%	27%	19%
8	66	253	61	69	69	53	234	234	239	N/A	707	110	0	28%	35%	16%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

-Note: District standardization of pre and post test expectations and administration began in the third quarter.

-Most of the percentages of D's and F's in math fall within a normal distribution.

-*Both regular content math teachers did not submit Unit 2 tests leaving only scores from students with special needs.

-Further analysis for students with Ds and Fs for the 4th quarter in math: Algebra I= 3 students scored a D; 6th grade math= 24 students scored a D and 15 scored a F; 7th grade math= 63 students scored a D and 32 scored a F; and 8th grade math= 30 students scored a D and 23 scored a F.

-Plans for 2016-2017 school year include the addition of Navigator Assessment for Math to help further identify student barriers, the continuation of formative assessments to student monitor growth, and the continuation of tutoring, STEM, and extended learning opportunities in the afterschool program.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in ELA this quarter (B)	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
6	16	257	33	39	32	75	232	227	231	N/A	690	343	0	30%	14%	50%
7	21	280	43	42	53	36	242	253	208	N/A	703	348	0	61%	28%	50%
8	43	253	30	54	58	70	242	238	195	N/A	675	335	0	40%	36%	50%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

-Note: District standardization of pre and post test expectations and administration began in the third quarter.

-Note the increase in D's and F's percentages in the 4th quarter reportedly due to test fatigue.

-Further analysis for students with Ds and Fs for the 4th quarter in language arts: 6th grade language arts= 35 students scored a D and 40 scored a F; 7th grade language arts= 28 students scored a D and 9 scored a F; and 8th grade language arts= 41 students scored a D and 29 scored a F.

-Plans for 2016-2017 school year include the addition of Navigator Assessment for Literacy to help further identify student barriers, the use of Criterion Online Writing Program to address barriers, the implementation of a developmental skills lab to address barriers, the continuation of formative assessments to student monitor growth, and extended student learning opportunities in the afterschool program.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? You may include a chart to describe your data.

Our student achievement gains and efforts can be seen in a variety of data sources.

Below you will find post-test raw data minus the teacher's name for the fourth quarter. The data is compiled three times a quarter from English and Math classes. The data enables monitoring of the number of students testing, the average pre and post test scores along with the number of Ds and Fs by grade level teacher. Teachers use this data to plan differentiated instruction based on student needs. Administrators use this information to monitor instruction in these classes (Best Practice).

Also attached are the district's 4th quarter pre/post test target dates (Standardization).

Also attached is evidence of best practice monitoring and observation in classrooms minus the administrator's and teacher's name (Best Practice)

Subject: Pre-/Post-Test target dates for Quarter 4

Dear SISs,

The unit dates for the fourth quarter are:

Unit 1: March 28 – April 15 Pre-/Post-Test results to district due by Friday, April 22.

Unit 2: April 18 – May 6 Pre-/Post-Test results due to district by Friday, May 13.

Unit 3: May 9 – May 26 Pre-/Post-Test results due to district by Friday, June 3.

Dennis

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
<p>Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation:</p> <p>District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).</p> <p>The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).</p>	
<p>Current reality of effective practice from the beginning of the year:</p> <ul style="list-style-type: none"> • A leadership team was established by the principal. Roles were established for team members and agendas were provided prior to each bi-monthly meeting. • Teachers met as a grade level team once a week and met with either the math or literacy instructional facilitators on the alternate weeks. • Data disaggregation was driven by instructional facilitators and sources of data were limited to State Standardized Data, Developmental Reading Assessments, Writing Prompts, SOAR, Star Math, and Scholastic Math Inventory. • A Professional Development Inventory was administered to all teachers and a professional 	<p>Current reality of effective practice:</p> <ul style="list-style-type: none"> • Team structures have been established. • The school leadership team meetings are scheduled bi-monthly for two hours with necessary members (principal, literacy facilitator, math facilitator, reading teacher, special education teacher, library media specialist, and technology specialist). • The SLT bylaws have been established. Agendas are emailed out to the members in advance and minutes are kept. Roles (facilitator, time keeper, recorder, and reporter) are shared at each meeting as needed. • Instructional Teams (IT) have been established and meet once a week as a grade-level or with the literacy and math instructional facilitators. Agendas are

<p>development plan/schedule was created based on results as needed to individuals, small groups, and/or all staff members.</p>	<p>developed and minutes are kept. IT bylaws have been established with grade level chairpersons.</p> <ul style="list-style-type: none"> • School Community Council (SCC)/PTA was established late Fall (Oct.) and officials were elected. Committee meets once a month or more often, as needed. Agendas are developed and minutes shared. • Data disaggregation is no longer a top down practice, but a bottom up practice with instructional teams meeting to analyze and discuss student data on CFAs and other sources of data. • Data is being used to determine teacher professional development needs and instructional practices based on student needs.
<p>IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE</p>	
<p>Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)</p>	
<p>Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).</p> <p>The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).</p>	
<p>Current reality of effective practice from the beginning of the year:</p> <ul style="list-style-type: none"> • Beginning of the year baseline data consisted of State Standardized Data, Developmental Reading 	<p>Current reality of effective practice:</p> <ul style="list-style-type: none"> • Beginning of the year, middle of the year, and end of the year data is being used to monitor students' progress

<p>Assessments, Writing Prompts, SOAR, Star Math, and Scholastic Math Inventory. A data wall was created, but inconsistently utilized by teachers.</p> <ul style="list-style-type: none"> • Pre-assessments were not administered to drive instruction. • Weekly assessments were being used to determine mastery only. • Units of instruction were inconsistent and lacked cohesiveness. • Specialists were used to provide intervention for students who did not score proficient on beginning of the year baseline data. 	<p>throughout the year.</p> <ul style="list-style-type: none"> • Rockefeller has acquired knowledge and training on the effective use of pre/post data and common formative assessments. • The intermediate grades (3-5) are utilizing pre/post assessment to help plan, adjust, and differentiate effective lessons for students in need of remediation. • The primary grades (K-2) are utilizing pre/post-assessments in their instruction as well to help plan, adjust, and differentiate effective lessons for students in need of remediation. • Teachers at all grade levels are becoming effective at using data to flexibly group their students and identifying patterns of student strengths and weaknesses. • Professional development was provided on differentiated instruction and the RTI process.
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • The Title I Compact was made available to parents at student check-in. The compact outlines general suggestions that encourage parent, student, teacher, and principal participation and support for each 	Current reality of effective practice: <ul style="list-style-type: none"> • Principal creates and distributes a regular parent newsletter. • Math and Literacy Nights were held in November and March. In November, the parental involvement was low,

<p>student's learning.</p> <ul style="list-style-type: none"> • Parents signed the compact and it was provided to classroom teachers. • A meeting was held with parents to review the Rockefeller Involvement Plan and the Title I Compact. • Fliers, Parentlinks, social media, text, and phone calls were used to communicate with parents. 	<p>so the SLT discussed and decided to change the format of the Spring Math and Literacy Night which led to an increase in parental involvement.</p> <ul style="list-style-type: none"> • Fliers, Parentlinks, social media, text, and phone calls are continuously used to communicate with parents. • Communication boxes have been placed strategically in 2 locations for input by parents and staff and are shared at each SLT meeting with feedback provided in minutes and posted.
--	---

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
<p>Effective Practice within Category: Post-Secondary School Options (VA01)</p>	
<p>The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.</p> <p>ADE will monitor the following:</p> <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
<p>Current reality of effective practice from the beginning of the year:</p> <ul style="list-style-type: none"> • 21st Century After School and Summer Enrichment Program was implemented as previously practiced. • SOS (Save One Student) was implemented as a mentor program in limited numbers • 	<p>Current reality of effective practice:</p> <ul style="list-style-type: none"> • Budget for the 21st Century After School Program and Summer Enrichment Program was revised in order to sustain the program and the program was restructured with more focus placed on the academic instruction • Community Stakeholders (detectives, police officers, and various military members) were brought in to speak to 4th and 5th graders about viable careers in service. • B.R.A.D. Program was implemented mid-year that encourages community service projects

455

	<ul style="list-style-type: none">• Boys to Bowties 5th grade mentoring program was implemented mid-year.• Practices yet to be implemented: Career Day, college campus visits, 5th grade transition/middle school visits, and job shadowing.
--	---

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

TIP/Team Structures-

- SLT meetings
- PLC meetings by Instructional Teams
- Literacy Planning is more consistent and team oriented

Systematic Processes are in place/Set Expectations and due dates-

- Implementation of CFAs/data analysis
- Writing implemented more consistently
- School Based Intervention Team tracking students efficiently
- Intervention Schedule
- R.A.P. Tutoring Program

Improved Parental Involvement-

- New Math and Literacy Night format (increased attendance by staff and parents)
- Project B.R.A.D encourages parents and students to serve a greater community
- New Field Day format successful with increased parental involvement

If anything, what do you intend to change or modify for the year?

Parental Involvement-

- Revise Title I Compact with more specific language/introduce to teachers as a tool for conferences
- Increase Stakeholder presence in the building in various forms (speakers, volunteers, input)

Student Needs/Expectations-

- Dress code (implement expectations/accountability systems)
- Attendance (implement expectations/accountability systems)
- Restructure 21st Century Program to improve the academic piece

Instructional Practices-

- Improved Classroom schedules to accommodate assistance from interventionist and facilitators
- Increase Differentiated Instruction/Intervention within the classrooms
- Consistency with student data on CFAs and on classroom work/report cards
- Continued growth in the utilization of data, data notebooks, and data wall
- Systematic accountability system for instructional practices
- Improved implementation and evidence of the Workshop Models of instruction

Instructional Technology-

- Integration of Instructional Technology into the classroom
- Rituals and Routines for Chromebooks

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
K	40	39	40	39	4	0	0	0	0	1	0	2	4	4
1 st	49	49	49	48	7	4	0	2	3	1	0	2	4	2
2 nd	50	50	54	52	7	1	0	1	2	1	0	0	2	6
3 rd	48	49	52	53	13	3	0	0	1	0	1	4	2	3
4 th	36	36	39	38	5	1	0	0	0	0	0	2	2	2
5 th	42	41	43	43	7	2	0	1	3	2	1	1	4	3

Comments/ Clarifications:

- Enrollment in K-5th grade represents a highly mobile population. One to two students entering and exiting throughout the year takes time away from core instruction. When a new student enters, he/she will need to be assessed to determine current needs and due to this, instructional time is lost.
- Our SWD population is high. We are going to implement more early screenings and intervention along with more differentiated instructional practices in the classrooms in order to reduce the amount of SWD referrals.
- We will be monitoring the systems in place to keep student referrals at a minimum. This year, the focus was placed on incentives to help improve behavior. Next year, the focus will be on the consequences along with incentives.
- A system will need to be put in place to reduce the number of student absences. We have communicated with other schools and the LRSD Tardy Policy will need to be fully enforced at our campus.

Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)

0	50.0	50.0	0	14	13	n/a	n/a	8	3	n/a	n/a

Comments/ Clarifications:

- Attendance in the fourth quarter has improved compared to the previous quarters. One teacher in first grade was out sick for several days due to pneumonia.
- Students in math that were two or more years below grade level increased in the fourth quarter compared to the first quarter in the intermediate grades due to lack of mastery of pre-requisites with number sense that was needed to master current grade-level content. More professional development will need to be provided to teachers on building number sense and best practices in delivering math instruction.
- Students in literacy that were two or more years below grade level decreased in the fourth quarter compared to the first quarter. Instruction in reading improved based on the use of data driven decisions.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3 rd	0	53	0	0	0	1	50	51	36		137	88				64%
4 th	0	38	3	3	2	0	36	33	27		96	76				79%
5 th	0	43	7	1	3	0	43	40	27		110	87				79%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- Pre-requisite skills are lacking which makes mastering new skills more challenging
- Lack of content knowledge besides what is in the book
- Delivery of instruction needs to be more student centered vs. teacher
- Testing burn out
- End of the year has a lot of extra events that includes pull-outs in order to prepare, students miss class
- Early check-out/absences

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	1st	2nd	3rd	4th
3 rd	0	53	1	1	1	6	51	52	52	n/a	155	81				52%
4 th	0	38	4	1	2	0	37	37	36	n/a	110	79				72%
5 th	0	43	11	3	22	15	41	43	41	n/a	125	62				50%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- In the third and fourth quarter, fifth grade has a high number of D's and F's. The D's and F's may be a result of poor teacher practice. We started the process of addressing this issue and will continue to monitor classroom grades, next year.
- The CFA's this quarter focused on different content areas (reading multiple choice and open response, writing and grammar skills)
- Rockefeller has a high number of students entering and exiting throughout the school year
- One fifth grade class had a permanent long-term substitute in place of the certified teacher
- End of the year has a lot of extra events that includes pull-outs in order to prepare for the events
- Early check-out/absences/tardies

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

Yes, our Iowa scores on the National Percentile Ranking reflect a growth of 13% in 1st grade literacy 23% in 2nd literacy. Math scores reflect an increase of 25% in 1st grade and 26% in 2nd Grade. The implementation of the Common Formative Assessments were a great asset in helping teachers identify strengths and weaknesses and then, they were able to differentiate their instruction to meet the needs of the individual student.

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: ID01 We do have several teams that have been developed with specific duties and times to purposefully plan instruction. Professional learning community (PLC) meetings with both facilitators are held biweekly. The leadership team also meets biweekly. We have several school wide teams that are in place to sustain a good culture and climate for the school. We do understand that in order to reach full implementation we need to find ways to determine the effectiveness of our teams and increase involvement by all stakeholders especially community leaders and parents.	Current reality of effective practice: ID01 Currently we have our Professional Learning Community (PLC), leadership team and other school wide teams established and meeting diligently. We have recently established two new school wide teams which are RTI and Positive Behavioral Interventions and Support (PBIS). The teams are working with the district to enhance a positive behavioral atmosphere and school wide intervention support. Recommendations for 2016-2017: <ul style="list-style-type: none"> • Determine how we can merge and/or eliminate teams that are addressing some of the same needs.

<p>ID04 All school teams do prepare agendas and keep minutes from those meetings. At the beginning of the school year, each teacher was given a staff binder in which to put staff meeting agendas, PLC agendas and any referenced handouts for the year. Agendas include items to be discussed and desired outcomes. If the outcome is not met, it will then be placed on the next upcoming agenda. There is a designated recorder for each school level team.</p> <p>ID07 Romine Elementary does have a leadership team that consists of the principal, classroom teachers and specialist. We meet biweekly on Tuesdays from 7:30-8:30. After each leadership team meeting, both instructional facilitators meet with the principal for an additional 15-30 minutes to discuss any questions or concerns. In order to maintain focus, the team realizes the importance of addressing all needs in a timely manner.</p>	<ul style="list-style-type: none"> • Teams need to communicate with the staff and/or parents on or more timely and effective basis. • Review members of the team to reflect staff changes in school. <p>ID04 Currently all teams have prepared agendas for their meetings. Agendas have included items to be discussed, outcomes and plans or steps for the next meeting.</p> <p>Recommendations:</p> <ul style="list-style-type: none"> • Establish a school wide system or binder for keeping copies of agendas of all school wide team meetings for staff to have access to at any time. • Establish a short template of the information needed on agendas to be more cohesive. <p>ID07 Romine’s leadership team has been consistent throughout the 2015-2016 school year in holding regular meetings and team member participation. The team has cooperated well together to address the needs of the school.</p> <p>Recommendations:</p> <ul style="list-style-type: none"> • Review members of the team to reflect any changes in staff for the 2016-2017 school year. • Review mission statement for the team and how can we improve the relationship between the team and the staff as a whole.
--	---

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Engaging teachers in assessing and monitoring student mastery (IIB04)

Description of full implementation of the Effective Practice and/or Recommendation:

The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).

The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice from the beginning of the year:

IIB04

Teachers should be using pre-test as a way to guide their instruction and provide remediation/or challenges for all students.

-Currently our teachers are using pre and post assessments in some grades.

-The data at this point for most teachers is solely to see if there is some growth.

-Some teachers are using the data to help remediate those students who are struggling with an objective.

-Some teachers are providing those who master the skill the opportunity to practice the skill at a higher level.

Current reality of effective practice:

- Our teachers decided collaboratively on an assessment task based on curriculum expectations that identified each student's strengths and learning gaps.
- Established assessments tools and resources that supported preparation of the assessment.
- Teachers planned a session that occurred immediately after conducting assessment to discuss the outcome of the assessment.
- Teachers engaged in a respectful dialogue that a common understanding of the level of achievement and assessment criteria.
- Teachers collectively discussed students' strengths and learning gaps and determined patterns and trends in the data.

Our teachers are being engaged by being involved in bi-weekly PLC meetings to discuss the data and the next steps for student success.

The goal for Romine is to have all teachers using pre and post assessments to help drive instruction. Teachers should be prepared to provide remediation or challenging activities for all students.

- **After the completion of the steps, the cycle begins again. Assess student progress and analyze to determine the effectiveness of targeted instructional strategies.**

The start date was September 11, 2015. Pretest were given before the start of each new chapter (depending on the curriculum mapping per subject area.) Posttest after the end of each chapter.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.

Current reality of effective practice from the beginning of the year:

IVA01

Romine’s implementation of IVA01 is limited. We currently have a school compact, but it is general and not specific to Romine. The compact is signed by parents, student, teacher, and principal. Some items for parents include the following: ensure that my child is on time each day and attends school regularly, support the school discipline policy, and establish a time for homework and review it regularly. Students sign a portion of the contract which includes: attend school regularly, complete and return homework assignments, and observe regular study hours. The teacher’s role in the compact includes: provide appropriate and meaningful homework assignments for students, provide necessary assistance to parents so that they can help assist with the assignments, and encourage students and parents by providing information about student progress. Lastly, the principal’s role includes providing an environment that allows for positive communication between the teachers, parents, and student. Research suggest that compacts rarely affect actual learning, unless they are specific and directly related to learning. Romine will look at the current school compact, and make adjustments. The new compact will be specific to Romine.

Current reality of effective practice:

The compact was adjusted to better suit Romine and our goals. The compact was given out at the beginning of the year for all parties to sign. Teachers kept the copy of the compact for future reference. A party was given to the teacher/class who got 100% of their compacts signed first. The compacts were passed out to parents in January. They were only to serve as a reminder for expectations at Romine. Parents were not asked to sign again.

A suggestion for the compact is to have them available during check in as well as Open House. Teachers will review the compact with parents during parent conference day if not sooner since this will be an agreement between home and school. We will recognize all classes that have 100% of theirs in by September 15, 2016 with a freeze pop party.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

VA01

Romine does not currently have a college and career readiness program in place. We realize that setting the stage for students to attend college starts in elementary school. Students must understand what college is and why it is important to attend college.

Current reality of effective practice:

On January 15, 2016, a College Day was implemented at Romine Elementary. The stage was decorated with posters from all the colleges that the staff attended. Teachers and staff wore college shirts and sweatshirts. Teachers were encouraged to talk with their students about their college experience and scholarship in particular. An assembly was held in the afternoon. We played the Arkansas Fight Song as students entered the cafeteria. We changed the words to a popular song to include learning and graduating from college. The kids performed the song and loved it. We had a speaker talk to the students about his college experience. The students enjoyed listening to the speaker. Romine's first College Day was a success!

Recommendations:

Take the students in grades four and five on a field trip to three colleges in Litter Rock to compare how they are alike and different. Students can look at enrollment opportunities, financial assistance, dormitories, etc.

The three suggested colleges are:
Pulaski Tech - since it is a two year college and
UALR -- an inner city four year institution
Philander Smith - An HBCU Methodist College

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

Grades 2-5 worked on their classroom data walls to determine progress. This formation allowed for us to have in-depth conversations about these kids and their needs. We also used this information to look at the number of kids with a “D” or an ‘F’ on their report card to see if there was a correlation between the data wall and letter grade. We determined there were some connections.

We also noticed that students with an IEP were receiving lower grades than they should without a meeting with the special education staff to address their accommodations. We decided to offer an in service on grading students with a disability and the consequences of not making sure the accommodations are being followed.

If anything, what do you intend to change or modify for the year?

We plan to add the data wall to our cafeteria wall or entrance to the building so that everyone can see the progress we have made.

We will continue to empower our parents with data as it relates to attendance, assessments, BMI, etc. The more information parents the better and more knowledgeable they become in helping their kids.

SCHOOL LEADERSHIP TEAM'S REPORT _4th_ QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2 & 3 -STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals

3	1	1	4	1	50%	50%	50%	0%	3	2	27	
4	1	1	5	6	33.33%	33.33%	0%	0%	9	8	32	
5	0	2	1	2	0%	50%	0%	33.33%	10	11	24	

Comments/ Clarifications:

Each month during our staff meetings, teachers are recognized for perfect attendance. Teachers are presented with a certificate, and the principal thanks them for their attendance and dedication to helping our students achieve success.

The Scholastic Math Inventory was given to all students in grades three through five to determine proficiency levels based on grade level skills. Below Basic, Basic, Proficient, and Advanced were the performance levels. The numbers above represent the number of students who were at the below basic performance level. The inventory provides an instructional planning report for teachers with a quantile measure for each student. Teachers are then able to pull additional resources that are specifically targeted for students to improve their math skills. Students were retested during the month of January and at the end of the school year. End of the year data was unable to be pulled from the website to include in this fourth quarter report. If data can be pulled in the next couple of days, it will be added and an updated report will be sent with the information.

For literacy, students were assessed with the Writing and Reading Assessment Profile to determine their developmental reading level. Beginning and end of year levels were compared to determine students who were reading two or more grade levels behind.

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter 4 th Quarter				Total number of post-unit tests for each grade level (A)	Total number of D's or F's in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) $(B/A) \times 100 = C$			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3	3	46	9	14	12	4	42(12)	44(5)			86	17	41.7%	55.2%	48.9%	19.8%
4	2	39	3	7	10	7	8(2)	25(18)			33	20	38.5%	56.1%	52.9%	60.6%

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

Due to ACT Aspire testing during the fourth quarter, students were assessed for two units of instruction.

*The number in parentheses represents the number of students with a D or F on that post unit test.

*Student grades for the quarter include a variety of student work: classwork, small group work, projects, assessments, etc. As classroom instruction is differentiated to meet student needs, grades for the quarter are a combination of grade level and differentiated assignments. With unit assessments, students are assessed on grade level standards, as grade level success is our goal. Some students may earn a D or F on the post unit assessment, but earn a different grade for the entire quarter. We are working to help our students have success with grade level standards. Pre and post assessments are used to determine student strengths, weaknesses, and needs. We use the data to help plan instruction to address those areas of concerns.

***Fourth grade data for the first unit was submitted by one of three classes. This is a self-contained behavior class that has only eight fourth grade students. For the second unit, the two general education classes submitted data.**

***Only one out of two fifth grade classes have data for the second unit of instruction. The data was not able to be recovered after a computer was cleaned and all the files were deleted.**

LEADERSHIP TEAM REPORT CONTINUED

ELA DATA by Quarter for Grades 3 – 10

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

ID01 - Stephens had a leadership team in place. Agendas were created but not sent out before meetings. Minutes were typed and sent out to each team member after each meeting. Specific duties were not assigned. The team reviewed the TIP and ACSIP and monitored the progress of actions under those plans. The team discussed professional development articles and gave reflections on them. The team is unsure if by-laws were followed with fidelity.

ID04 – Teachers were appointed to committee teams. Committee teams were established by the administrator, but did not meet regularly. They met on a “need to” basis. The Principal keep up with all paperwork.

Current reality of effective practice:

ID01- A Leadership Team is in place with a specific meeting time schedules for at least twice a month for an hour each session. Roles have been assigned to members. LRSD bylaws have been adopted and followed waiting on the district to send us the state by-laws.

Grade level members were unable to meet regularly and Mr. Carlock has implemented a plan to have them present more often. We feel we need representatives from primary and intermediate at all meetings.

ID04 – All committee teams were formed with roles assigned. Agendas, and minutes are distributed to members. Agendas, notes and minutes are kept in a binder in the teachers' lounge for other staff members to review. Chairpersons oversee meetings. Some committees did not meet consistently. Planning Learning Committee and grade level teams meet

ID07 – Leadership team met once a month. Meetings normally lasted longer than one hour.

ID08- We did not effectively communicate minutes in our meetings with the staff. (This is not a key indicator for Focus schools)

ID10- We reviewed our TIP and other data to make decisions about school improvement and professional development. (This is not a key indicator for Focus schools)

weekly.

ID07- Leadership team consistently meets twice monthly and as needed. Agendas are created and distributed. Team is focused on agenda items.

ID08 – Leadership team receives agendas and minutes but these are not forwarded to the staff. A notebook was established for the staff and placed in the lounge to hold the agendas and the minutes. It disappeared this spring. ID10- Leadership team used current data to make decisions about school improvement and professional development needs. An example of this is the data reviewed before the schedule was changed to prioritize math and literacy for morning work and not after recess or in the afternoons.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Engaging teachers in assessing and monitoring student mastery (IIB04)

Description of full implementation of the Effective Practice and/or Recommendation:

The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04).

The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice from beginning of the year:

IIB01- Instructional teams developed instructional units. Pre-tests were not administered consistently among the teachers. (not key indicator for Focus schools)

IIB02- Pre/post tests not consistently given by all teachers therefore data not available for accurate analysis per grade levels to plan professional development. (not key indicator for Focus schools)

IIB03- Fall 2015 there were no intervention meetings. Some grade levels had pre/post data to review but not all. (not key indicator for Focus schools)

IIB04- Most teachers use pre/post data to drive instruction. Facilitators provided professional development on data analysis for teachers. Most teachers differentiate instruction for students based on results.

IIB05 – All teachers did not re-teach based on post test results.

Current reality of effective practice:

IIB01 – All teachers give pre/post tests consistently.

IIB02- A needs survey was given to teachers for possible professional development. Results from pre/post tests are used to plan professional development during weekly Planning Learning Community for each grade level.

IIB03 – Pre/post data is analyzed during the weekly PLC meetings to determine what shifts need to be made with instructional practices to provide students interventions.

IIB04 – All teachers use pre/post test data in order to plan for individualized differentiated instruction giving support for some students and enhancement for others. All teachers conduct a test analysis in order to prescribe specific differentiation. Intervention sheets are completed and shared with facilitators. Principal holds an intervention meeting once a month with each grade level, facilitators and SIS.

IIB05- Gradually almost all teachers began to re-teach based on post test results. This will be prioritized next year during the intervention meetings when they will present data for the principal to review.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or "compact," that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state's standards.

Current reality of effective practice from the beginning of year:

IVA01- Stephens has a parent center which is open daily. There are materials and pamphlets available there for parents to support their child's education at home. Monthly newsletters go home to give parents tips on how to help their children. The School Compact is distributed at registration and a parent signature is required. The School Compact and the parental Involvement Plan are posted on the website. Each semester we have a cluster wide team meeting for parents that provides materials, ideas, and support to help their children at home. We hold a Back to School Bash, Open House, Math/Literacy Carnival, Title One parent involvement meetings, variety of workshops during the day and evening to accommodate all parents. We have opportunities for parents to be Watch Dogs or Divas (parental volunteers). We keep parents informed through our parent link which is an automated call-out system. Grades are posted to Edline weekly and interim reports are sent home.

Current reality of effective practice:

IVA01 – In addition to the information listed in the current reality from the beginning of the year we have added an Awards Banquet, promotional ceremonies and the Principal's Newsletter each quarter with a section asking for parental feedback and suggestions.

--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

<p>Current reality of effective practice from the beginning of the year:</p> <p>VA01 - We provide students with motivational speakers throughout the year, constant guidance services and referrals for social, emotional and physical needs, course selection services for fifth graders moving to middle school, Peer helper program, classroom jobs, daily student announcement speaker, students of the week and Go to Work Day shadowing.</p>	<p>Current reality of effective practice:</p> <p>VA01 - In addition to the offerings listed under the current reality of effective practice from the beginning of the year, we have added Starbucks and a Starbucks store where students earning Starbucks for exceptional positive behavior can redeem their Starbucks on Fridays for incentives of their choice. Also added were a Fifth grade and a Kindergarten graduation recognition program. We are planning a college and career readiness week for next year.</p>
--	--

ARKANSAS
DEPARTMENT
OF EDUCATION

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

Our most meaningful change was changing our instructional schedule. This change allowed for math and literacy instruction to be during the optimal time for student learning-----mornings in most cases and not after lunch/recess. When school started Mr. Carlock was advised by an outside consultant to change the schedule from the year before to meet her schedule needs since she was going to be working with us from another school. After we began to test students and get low scores the facilitators compared the data to the year before and saw scores were lower this year. After the Leadership Team analyzed the situation we saw math and literacy scheduled in the afternoons on some schedules and directly after lunch/recess on others. Knowing children are tired and frustrated at these times we appealed to the principal to change the schedules again to allow math and literacy priority schedules in the mornings. After this change we began to see improved scores once again as students were more focused on their work.

The second change was the acceptance and use by all the teachers of the pre/post tests results to differentiate instruction. As third grade teachers used this approach and began to share their improved results with the other teachers the practice slowly began to spread to some reluctant teachers. To assist the teachers the facilitators modeled differentiation strategies over and over again for the teachers and made suggestions for differentiated small group instruction and even one on one in some cases after pre tests to teach concepts until the post tests. They began to see better results on the post tests. Finally we saw universal acceptance because of the

data showing improvement.

If anything, what do you intend to change or modify for the year?

1. Work to combine committee teams. There seem to be too many committees which resulted in individuals being on several committee teams and having too many meetings to attend.
2. Examine our schedule to plan coverage for classroom teachers to attend our School Leadership Team meetings. Their input is greatly needed when making decisions about our school and classrooms.
3. Create a checklist to monitor how we are meeting our goals throughout the year. This will keep us focused on our goals. Mr. Carlock assigned Ms. Duckery, media director, as our accountability manager. (Indistar Comprehensive Plan Report is one that can be used for the Indicators/objectives for SPEG).
4. Emphasize to classroom teachers the need to re-teach students who do not score proficient on the post tests.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2 & 3 -STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals These three columns refer to the number of students with five or more referrals to our Responsible Thinking Classroom.			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
CBI	16	16	15	16	CBI 16									
K	40	39	40	41	K-1	K-0			K-3	K-1			K-2	
1	59	52	53	51	1-5	1-1			1-5	1-1		1-2	1-2

3	74	73	69	70	3-10	3-3			3-4	3-16		3-4	3-6	3-5
4	44	42	44	43	4-6	4-1			4-1	4-2		4-0	4-1	
5	41	41	40	40	5-6	5-1			5-1	5-3		5-0	5-0	

Comments/ Clarifications:

+ Mr. Carlock did not have any students who were referred to the office five or more times. Counseling is in place for any student who might reach 5 referrals.. The chart at the right end is a list of the students per quarter, 2nd, 3rd and 4th that received five or more referrals to our Responsible Thinking Classroom. Third grade leads with the most number of referrals; however we have three classes of third graders and only two classes of fourth and two classes of fifth. Total office referrals increased this quarter. The Leadership Team is pleased that Stephens is a part of the SPDG grant and has formed a PBIS (behavior) Team with goals for next year. We are Responsible. We are respectful. We are safe. The team is developing a behavior matrix to roll out at the beginning of the year to make our discipline sanctions more consistent from teacher to teacher to benefit the students. We are

fortunate to have a Responsible Thinking Classroom which is a step often used before an office referral. Students receive counseling about their offense and are helped to write a plan correcting the behavior and focused on the positive action and not the negative.

LEADERSHIP TEAM REPORT CONTINUED

Grade Level	Number of students who have been absent 10 or more days (20% absence rate)				Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of ELEMENTARY students that are 2 or more years below grade placement in ELA as determined by WRAP May 2016/		Number of ELEMENTARY students that are 2 or more years below grade placement in Math as determined by Universal Math Screener May 2016	
	1st	2nd	3rd	4th	1st	2th	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter
K	0	2	0	0	50%			0				
1	1	4	1	17		33%	33%	0				
2	1	3	2	12	33%			0	3-42	3-2	3-43	3-27
3	1	4	2	12				0	4-27	4-9	4-30	4-32
4	1	2	1	8	50%	50%	50%	0	5-11	5-13	5-10	5-46
5	1	0	1	4				0				

Comments/ Clarifications:

+ Fifth-three students were truant the last quarter. We consider this unacceptable. Teacher, counselor and principal contacts make some difference.

+ Mr. Carlock is on a LRSD committee to develop a new policy for attendance and tardies. We hope it will be in place at the start of the new year. We cannot teach an absent student. Truancy Court does not appear to be making a real difference.

+Standardized test scores were used first quarter to determine students two or more years below grade placement in ELA and Math. These scores gave very large numbers for 3rd and fourth grades. The tests were over a year old. Using the WRAP for reading and the Universal Math Inventory given May 2016 has given us what we feel is a truer picture of the students who are two or more years below grade placement at this time fourth quarter

LEADERSHIP TEAM REPORT CONTINUED

MATH DATA by Quarter for Grades 3 - 10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of unit assessments for the current quarter				Total number of post-unit tests for each grade level	Total number of D's or F's in Math this quarter	Percent of students with D or F on any unit tests in Math (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3	5	70	9	11	13	5	69	70	71	71	281	108		48%	38%	38%
4	2	43	21	10	2	3	41	42	43	42	168	108		85%	69%	64%
5	10	40	21	17	8	19	37	38	37	39	151	60		60%	60%	40%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

+ Very happy to see the percentage of students making D's or F's on any unit tests in Math decrease from one 45 day report to the next; from the second quarter to the third and now the fourth. We still consider these percentages to be too high but we feel the teachers are embracing the pre/post test concept and using differentiation strategies per student groups and individual students from the pre test until the post test.

+ We are happy that Stephens was represented by a math team at the LRSD Mathletes competition this year. That is a first for Stephens.

LEADERSHIP TEAM REPORT CONTINUED

ELA DATA by Quarter for Grades 3 – 10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in ELA class per quarter 2015-2016				Number of unit assessments for the current quarter				Total number of post-unit test for each grade level (A)	Total number of D's or F's in ELA this quarter (B)	Percent of students with D or F on any unit tests in ELA (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3	7	70	7	7	10	8	70	71	71		212	87		48%	23%	41%
4	1	43	16	4	1	0	43	41	42		126	72		85%	47%	57%
5	10	40	23	20	15	11	38	38	27		103	30		60%	36%	29%
Example							100	90	95	N/A	285	57	20%			

Comments/Clarification:

+ We are pleased that the percentage of students with D's and F's has decreased from the second quarter. We feel this is a result of the teachers embracing the pre/post test concept. Teachers differentiate instruction in small groups or individually now more than they were doing at the beginning of the year. After the pre test analysis differentiation is part of class strategies until the post test is given.

LEADERSHIP TEAM REPORT CONTINUED

Elements for an Effective School-wide Reading Program - Quality of Implementation for each element:

Element	Initial Grades K – 2	Initial Grades 3 – 5
Goals, Objectives, Priorities	13.2/14	12.7/14
Assessment	18.6 /20	19.3/20
Instructional Practices and Materials	19.7/22	26.7/28
Instructional Time	13 /14	5.6 /6

Differentiated Instruction, Grouping	7.6 /10	9.9 /10
Administration, Organization, Communication	8.7 /12	11.6 /12
Professional Development	6.5 /8	9.5 /10
(Percentage)		
Total Score:	87.3 /100	94.6 /100

Comments/Clarification:

Stephens uses a wide variety of assessments.(WRAP, SOAR, Pre/Post tests, Dibels, ACT Aspire) All teachers and administrators have received professional development and technical assistance to learn how to analyze data and use results to plan more differentiated core instruction focused on data-based decision making within the RTI framework. In an effort to equip teachers to better meet the needs of each student, training on using differentiated instructional strategies has also been provided. A revision in the schedule has allowed for special education teachers to be included in weekly PLC's (Planning Learning Communities).

LEADERSHIP TEAM REPORT CONTINUED

Behavior (PBIS) - Tiered Fidelity Inventory

Core Features	Initial	
Tier I	12/30	40 % implemented
Tier II	14/26	54% implemented
Tier III	28/34	82% implemented

Comments/Clarification:

The Leadership Team agreed that most of the Tier I core features for a fully implemented behavior system were only partially in place at Stephens. The team reported that their ability to correct and regularly review discipline data is an area of need. The Tier III Team (School Based Intervention Team) that addresses students with more intensive needs is fully in place and operating effectively.

A PBIS Team has been formed and received training in April and May, selected goals for next year, wrote the initial plan and has begun a behavior matrix. The goals are written in child friendly language. They are: We are responsible. We are respectful. We are safe.

The Leadership Team has asked for a thorough professional development session for all staff on the uses and procedures for the Responsible Thinking Classroom at the beginning of next year. The team felt it could be used more effectively next year.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLL, etc.)? You may include a chart to describe your data.

1. Math Universal Screeners Advanced/Proficient Students- our chart shows third grade had a 32 point growth from fall to spring, fourth had 9 point growth and fifth grade had 12 point growth. (CHART FOLLOWS)
2. Math IOWA Assessment – First graders scores proficient in 2016 which was an improvement from basic in 2015 with +7.6 growth. Second grade had growth of +1.7 which was basic but only 1.3 away from proficient.(CHART FOLLOWS)
3. Math Growth Summary Report – From the first assessment at the beginning of the year to the last of the year this report shows above average growth in grades, three (165), grade four (105, and grade five (145). (CHART FOLLOWS)
4. Literacy IOWA Assessment – First graders scored basic and had a +0.4 growth which was 3.5 away from proficient. Second grade remained basic.(CHART FOLLOWS)
5. Writing and Reading Assessment Profile (W.R.A.P.)End-of-Year Results – The attached chart show the percent and number of students reading 2 YEARS ABOVE GRADE LEVEL in all grades.(CHART FOLLOWS)
6. Pre/Post tests for the last quarter – two units for LITERACY show most post scores in the 60 and 70 percent range. Slow growth. This is an improvement from second quarter. We still have too many students making D's and F's on post tests. The two units for MATH show more scores in the 70 and 80 range than in previous quarters. Slow growth. We have too many students making D's and F's on post tests. We will have an emphasis next year on differentiated re-teaching after the post tests to move these students to proficient. (CHARTS FOLLOW)

CONGRATULATIONS

I know you all are enjoying your summer vacation; but I want to share some good news!!! Our 1st and 2nd graders had Growth on the Math Iowa Assessment!!!

I am proud of all of our awesome students, teachers, specialist, and support staff! A special congratulations to our 1st graders who scored **PROFICIENT!!! JUST AWESOME!!!!**

Congratulations Everyone!! **ONE TEAM!!!**

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: Leadership team has been established and meets twice-a-month for one hour (1 st & 3 rd Monday) with building administrators & school improvement specialists to discuss pre/post literacy & math data assessment and quarterly reports, and TIP (target improvement plan). The SIS share school improvement information from both state & district level meetings during scheduled leadership team meetings.	Current reality of effective practice: Allow more input from faculty. Design a new format where grades meet vertically to discuss gaps and strategies to overcome deficits. (Design vertical team meetings Q1, Q2, and Q4 during 2016-17 school year).

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: Teachers have established routines in administering pre/post test. Teachers use this data to guide instruction. Teachers still experience difficulty with students lagging in readiness standards (basic skills).	Current reality of effective practice: Although students are showing improvement and growth, there are academic gaps in skills that hinder a students' ability to reach grade level standards. Fortunately, we have identified these students and an intervention plan is in place for next school year (2016-2017). Summer vacation causes some regression; therefore, teachers have recommended summer school for low performing students and students not able to attend are sent home with additional resources.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: The following services are offered to parents of Wakefield Elementary: <ul style="list-style-type: none"> • The Parent Center (located main entrance) provides parenting skill strategies. • Literacy/Math Family Night • On-site service providers work with students experiencing both academic and/or behavioral problems in the classroom. 	Current reality of effective practice: There are several barriers for improving students’ outcome such as language barriers, low parental involvement, parent level of education, socio-economic status, and level of crime in neighborhoods. Unfortunately parents do not fully utilize available resources provided.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

<p>Effective Practice within Category: Post-Secondary School Options (VA01)</p>

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The most meaningful decisions made by the leadership team are ensuring pre/post tests for literacy and math are being administered and that teachers are analyzing the data during grade level planning. We attribute these changes to the SBIT (School Based Intervention Team) meetings, monthly professional development for staff, and Leadership Team meetings.

If anything, what do you intend to change or modify for the year?

Incorporating vertical team meetings during Q1, Q2, and Q4 for the 2016-2017 school year.

Comments/ Clarifications:

- During the 2015-16 school year students with 10 or more absences had letters sent home to parents to schedule meetings with school administrators. This is required through LRSD attendance policy.
- Quarterly school-wide incentives (nacho party, outdoor cookout, and movie) are offered to students with less than 3 tardies, students were sent home until a parent conference with school administrators was held, and out of school suspensions. This systematic process was in place during 2015-16 school to reinforce and encourage positive student attendance.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by <u>Universal Math Screeners in September 2015- / Scholastic Math Inventory in May 2016.</u>		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by <u>DRA Test on August 2015- May 2016.</u>		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)

5	0%	0%	33.3%	0%	25	45			25	28		

Comments/ Clarifications:

- *Students took the universal math screeners in the fall of 2015. The 2nd-5th graders were also given the online Scholastic Math Inventory Assessment in September, January and May. The first graders were given the online Scholastic Math Inventory assessment in January 2016 and May 2016. Teachers and the leadership team concluded that this assessment was a more beneficial indicator to gage the academic growth of the students. This assessment is aligned for each student based on their performance from the previous test cumulative and ongoing skills are assessed.*
- *Our building set a growth goal for each 2nd-5th grader of 150 points for the year. The first grade growth goal was 75 points from January 2016 to May 2016.*
- *71% of students assessed (306 out of 433) reached their growth goal. Additionally, 21% of students showed growth but were not able to meet their goal from September 2015-May 2016. Data charts are attached to school improvement documents.*

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3rd	3	92	6	5	5	9	87	91			178	50				28%
4th	10	92	16	35	11	12	81	89			170	30				18%
5th	6	82	14	23	10	13	82	80			162	46				28%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- During the 4th quarter, students took the ACT Aspire Assessment and the Scholastic Math Inventory assessments; therefore, many instructional days were lost due to numerous testing dates. However, teachers felt that by giving fewer unit tests during this quarter, students had more time to focus on concepts. This resulted in fewer D's and F's.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA			
											(A)	(B)	(C) $(B/A) \times 100 = C$			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3rd	5	92	10	10	9	11	89	89			178	93				52%
4th	14	92	18	34	13	12	87	87			174	95				55%
5th	8	82	26	17	17	24	76	79			155	40				26%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- Teachers and students felt overwhelmed with all the testing during the 4th quarter and there didn't seem to be enough instructional days due to testing being held in the computer lab.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

Data presented: Beginning and end of year Scholastic Math Inventory Assessments for grades 1st – 5th

- Scholastic Math Inventory Assessment data included in charts. These charts display growth in each grade by proficiency level from September 2015 to May 2016 for 2nd -5th grade and from January 2016 – May 2016 for first grade.
- The 3rd – 5th graders took the ACT Aspire Interim III test. This replaced the district SOAR test 3 for the spring. Data reflects the students scored above or close to the district averages. (see attached ACT Interim Results)

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08).

The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

(ID01)

- Our School Instructional Leadership Team (SILT) met twice monthly for a minimum of an hour each time. SILT had composed a team charter that defined our purpose. Our School Community Council (PTA) met monthly. Meetings were open to all stakeholders. Our instructional teams (grade level) had one hour of common collaboration time daily. This time was utilized for lesson planning, data analysis, and team professional development; however the schedule was flexible and some grade level teams did not meet consistently unless an instructional facilitator and/or administrator was present.

Current reality of effective practice:

(ID01)

- Our School Improvement Leadership Team meets twice monthly for a minimum of an hour each time. We modified our charter in May 2016 reflecting the following additions and/or changes:
 - Added Parameters of Leadership Team: Student Achievement, Instructional Environment, Teacher Proficiency
 - Modified Resources Available to Team by
 - added: Instructional Facilitators, School Improvement Specialist, ADE RtI Consultants, ASU PBIS Consultants
 - deleted ALA Team Institute Coach, Dr. Jeanne Huddle, Patricia Goodman, Nettie Epps, Morgan

(ID04)

- Action agendas and accompanying Next Steps (minutes) were in practice for faculty, SILT, and some data and PD meetings. However; action agendas/minutes were not consistently utilized during grade or departmental meetings. Though in the past, agendas and minutes were kept in office files for monitoring visits, this practice had not been maintained and needed to be reinstituted.

Ealy, Deborah Winston

- Added 3 Measures of Success: PLCs functioning according to their charters, student achievement data, and evidence of completion of Indistar tasks.
- Added to Assessment of Team Effectiveness: PLCs functioning according to charter, student achievement data
- Added to Communication Protocols Beyond Team: displays
- School Community Council (PTA) met monthly during Family First Tuesdays; PTA Leadership Board met on 3rd Mondays.
- Maintained hour daily collaboration time for each grade level (300 minutes weekly) and utilized the time for lesson plan development, data analysis/reflection, professional development needs. Instructional facilitators (IFs) and building administrators frequently attended these sessions to help facilitate and consult.
- Principal provided initial professional development to grade level and department chairs in order to improve their skills as teacher leaders and meeting facilitators.

(IDO4)

- Teams agreed upon a school format for action agendas / minutes in December 2015. Agenda notebooks were established for the following teams: Grade Levels Pre-K through Fifth, SILT, PTA, Special Education, and Specialists. All teams began using and keeping action agendas/minutes and storing them in team notebooks in the office conference room so that each team's work will be publically available for review; however, this effort had mixed success ranging from one grade level adding 3-4 agendas/minutes monthly between January 2016 through May 2016 to a total lack of compliance by some teams.

(ID07)

- Our school utilized three tiers of leadership. The first tier was comprised of 6 members that were currently attending the Arkansas Leadership Academy Team Institute Year 3. The first tier also included additional school-based teachers: our math and our literacy facilitators, our school improvement specialist, representation from our School-Based Intervention Team and our Special Education Department, and our Principal and Assistant Principal. We also had a Tier II leadership team which included grade level chairpersons and department chairpersons. Our Tier III leadership team was our School Community Council (PTA). Our Tier I team met twice monthly according to an established schedule (usually the 2nd and 3rd Mondays of each month). In addition, the Tier I team ALA members were scheduled to attend a total of 6 full days of collaborative training and work through the ALA in September 2015, February 2016, and May 2016. Our Tier II team met once per month and included members from Tier I. The Tier III team also met monthly. This team included teachers, parents, and community representatives. There was vertical alignment between teams because the Tier II and Tier III teams included members from Tier I. The principal and the assistant principal met with all three leadership tiers. The most difficult challenge that we faced at the beginning of the year was providing common times for the teams to meet without pulling some team members from instructional time. After school hour meetings were difficult due to after-school student programming: 21st Century Community Learning Center ECO4Kids. Our SILT planned to revisit this indicator at least annually to monitor continued implementation and adjust as necessary.

(ID07)

- The members of SILT participating in the Arkansas Leadership Academy Team Institute attended sessions on February 4-5 and May 5-6 completing the final year of the three year institute. The focus of the training was Leading and Managing First and Second Order Change which is very timely for the work our team is doing toward school improvement and full implementation of best practices. We are submitting an application to send a new team to the ALA Team Institute Year I in order to sustain and continue to build leadership capacity. We plan to use School Improvement Grant (SIG) funds to cover the cost. Four of the six team members will be new. One is required to be the principal and one member from this year's team will continue in an effort to provide continuity and extension of work already accomplished. It is our intention to include our School Improvement Specialist on the team if she is able to commit to the time away from work and home. In addition, two teacher leaders have been accepted to the ALA Teacher Institute for the 2016-2017 cycle. Upon returning from each ALA session, the teachers will share with faculty.
- The full SILT met twice monthly collecting baseline data, developing current status statements, prioritizing goals, creating action tasks, etc. We found the process of the work revealing, affirming at times, discouraging at other times, challenging, and laborious. We did most of the work in the media center with Indistar open and active on the Smart Board in order for all team members to fully participate in the process and see the results as we entered them. Our discussions have been deep and rich; however, the process is VERY time consuming and was particularly difficult at the end of long days paired with the many other demands of the school day and the final academic quarter. We tried holding one of the two monthly meetings during the instructional day and this was well received but

526

- (IDO8)**

- (ID10)**

- Page 4 of 28

	<p>August we will examine and analyze our summative data from the Iowa Test of Basic Skills and the ACT Aspire. Grade levels and, in turn, classrooms, will establish Quarterly SMART Goals for Literacy, Math, and Behavior. The goals will be shared school wide and progress will be monitored and reported to stakeholders.</p>
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: (IIB01) <ul style="list-style-type: none"> This indicator was not initially assessed at the beginning of the 2015-2016 school year. 	Current reality of effective practice: (IIB01) <ul style="list-style-type: none"> All grade level teams designed and utilized pre- and posttests for 2-3 week learning segments beginning in December 2015 and through May 2016. The data sets for the fourth quarter in literacy and math are displayed later in this document. Teachers collaborated on this process. Instructional facilitators and building administrators met with grade level teams assisted with the process. Student gains from pre- to post test mastery were generally low. Teams discussed some possible root causes for this which included poorly written test items, lack of alignment to the rigor and

(IIB02)

- This indicator was not initially assessed at the beginning of the 2015-2016 school year.

(IIB03)

- This indicator was not initially assessed at the beginning of the 2015-2016 school year.

(IIB04)

- Washington Elementary faculty made significant progress in this area this school year due to concerted efforts by building administrators, instructional facilitators, and classroom teachers. Teachers focused on both math and literacy unit design by "unpacking" standards, anticipating possible misunderstandings, developing pretest and post test items, analyzing pretest data, grouping students, collaboratively planning instruction, analyzing post test data, monitoring and adjusting future instruction. Though there has been significant growth, teachers still defer a great deal

intent of standards, frequency of administration, lack of student motivation to perform, and poorly aligned instruction. Teachers were encouraged to individually complete a document which included reflective questions about the process and their students' results. The depth of teachers' reflections varied from teacher to teacher.

(IIB02)

- Pre- and posttests were administered to students in grades K-5. Teachers made attempts to pre- and post assess ALL students with varied success; however, the number completing both assessments increased from the third quarter to the fourth quarter.

(IIB03)

- Our SILT members received only general data statements from the results of the pre- and posttests from the third learning segment. The team did not have time to review the fourth learning segment data. As stated earlier in this document, our SILT shifted focus from school culture to student performance during the course of the third and fourth quarters. A calendar for collection and examination of academic / non-academic data for 2016-2017 has been developed and is displayed later in this document.

(IIB04)

- Utilization of pre-test results to drive instruction using strategies for differentiation to meet individual student needs is still inconsistent. Some teachers still struggle with classroom management which limits their opportunities for small group and individualized instruction. Lack of substitutes has caused erratic support by instructional paraprofessionals assigned to assist during the instructional intervention time periods. We are losing 4 instructional paraprofessionals for the 2016-2017 school year due to the district's reduction in force so we are reviewing how to best

to the use of whole group instruction as their preferred method of grouping. There are exceptions. Teachers still struggle with efficient and individualized differentiation for many of their students that receive special education services and those students that have reached mastery or need to be challenged.

(IIB05)

- This indicator was not initially assessed at the beginning of the 2015-2016 school year.

support teachers in their efforts to provide greater student support through differentiation during instructional blocks.

(IIB05)

- Re-teaching based on posttest results is also inconsistent within and across grade levels. Our instructional facilitator has developed a digital document which will provide a means for classroom teachers to better track student pre- and posttest performance by quarterly learning segments. The document pulls together the entire planning and reflective processes that have been taught to our teachers during the 2015-2016 school year. This document also includes grading results (A, B, C, D, F). Teachers will respond to reflective questions regarding skills and understandings, student misconceptions, interventions and re-teaching, other evidentiary sources, and barriers. This document's format is cumulative during the quarter so teachers will be able to view all learning segment data for the entire quarter adding information as the quarter progresses. The completed documents will also assist in the completion of quarterly reports.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT

Effective Practice within Category:

Defining the purpose, policies, and practices of a school community (IVA01)

Description of full implementation of the Effective Practice and/or Recommendation:

No Child Left Behind stipulates that each school in the Title I program develop an agreement, or "compact," that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state's standards.

Current reality of effective practice from the beginning of the year:

Current reality of effective practice:

(IVA01)

- In the past, we have utilized the LRSD Parent / Student Compact form which is general in nature.

(IVA01)

- During the fourth quarter, The Rtl and PBIS Teams began developing specific responsibilities and goals for students and families as described in the Wise Ways for this indicator. We are addressing behavioral expectations and goals first through the work we are doing under the Staff Professional Development Grant (SPDG) with ADE and ASU support. A team of three that represents our Rti and PBIS Leadership and our principal will attend the ADE School Improvement Summer Conference in Hot Springs in June 2016 and will spend one day with arepresentative of the ADE SPDG team. Our work with literacy and math learning expectations will utilize the National PTA Parents' Guide to Student Success Grade Level materials which is the format the district communicates to parents on the district's website. We will communicate our academic and behavioral expectations to parents by:
 - distributing these materials during Student Check-In on August 1-2, 2016,
 - making them available and discussion them at our annual Title I School Meeting in September 2016,
 - displaying them in our Parent Center,
 - posting on schools webpage, and
 - posting them outside of grade level classrooms and in other designated areas of our
 - building.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT**Effective Practice within Category:**

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

(VA01)

- Moderate efforts to expose students to career opportunities are in place. School counselor's curriculum addresses career readiness; however, lessons are sparse and lack continuity and depth. The school counselor has sponsored career days, career shadowing, and career fairs in the past with very limited student involvement but has not maintained this effort during the past two years. Some classroom teachers and/or grade levels provide limited activities or experiences but this effort is not school-wide. Parents are informed of the core classes required in high school to lead to college readiness during the annual Title I Parent Meeting at the beginning of each school year. This information is also included in the LRSD Student Handbook. Our 21st CCLC ECO4Kids After School Hours Program has taken parents and students on field trips to a number of college / university campuses (UAPB, UCA, Philander Smith).

Current reality of effective practice:

(VA01)

- Counselor's performance is not consistently at a proficient level and this has been addressed on her performance appraisal. An action plan will be development in August 2016 for counselor to address the following areas:
 - Lesson planning and assessment of weekly whole group grade level counseling instruction.
 - Planning and implementation of school wide career day event and career shadowing event for fifth grade students.
 - Vertical event in collaboration with feeder middle schools. This was done in May with one middle school counselor and interventionist visiting from one middle School meeting with all fifth grade students for 20-25 minutes.
 - Principal has met with representative from Philander Smith and Arkansas Baptist College regarding possible field trips for fifth grade students and parents to visit the college campuses during the 2016-2017 school year.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

Decision	Attribution

If anything, what do you intend to change or modify for the year?

(ID04) Greater PLC team leadership accountability is needed (i.e., monitoring action agendas/minutes).

(ID07) We are submitting an application to send a new team to the ALA Team Institute Year I in order to sustain and build leadership capacity. In addition, two teacher leaders have been accepted to the ALA Teacher Institute for the 2016-2017 cycle. Upon returning from each ALA session, the teachers will share with faculty. We are going to try some before school meetings in the fall to see whether that time better serves the team.

(ID08) SILT agendas and minutes are kept in a binder and are available for review in the office conference room. Compliance with this process will be carefully monitored to insure that the binder is kept current.

(ID10) In August we will examine and analyze our summative data from the Iowa Test of Basic Skills and the ACT Aspire. Grade levels and, in turn, classrooms, will establish Quarterly SMART Goals for Literacy, Math, and Behavior. The goals will be shared school wide and progress will be monitored and reported to stakeholders.

(IIB01) We will sustain our practice of utilizing pre- and posttests for 2-3 week learning segments Teachers will be refine their collaborative planning process using reflective questions about the process and their students' results. Each team will select a meeting facilitator. Each facilitator will receive training on best practices for planning and leading effective collaboration.

(IIB02) Every effort will be made to pre- and post every student for every learning segment.

(IIB03) The results of the pre- and posttest data will be a primary agenda item during the 2016-2017 school year. A calendar for collection and examination of academic / non-academic data for 2016-2017 drive this work.

(IIB04) SILT member and administrators will manage time, materials, and human capital in a manner that offers the greatest support to teachers in their efforts for greater differentiation during instructional blocks.

(IIB05) Teachers will utilize a digital document to better track student pre- and posttest performance by quarterly learning segments. This work will be monitored by teacher leaders and administrators.

(IVA01) We will increase the ways that we communicate our academic and behavioral expectations to parents.

(VA01) An action plan will be development in August 2016 to improve proficiency and effectiveness of school counselor in specific targeted competencies.

(Student Attendance) We will develop a more efficient system for tracking individual students that have frequent tardiness and/or early check-out resulting in lost instructional time.

SCHOOL LEADERSHIP TEAM'S REPORT 4TH QUARTER

STUDENT/ TEACHER DATA by Quarter (IMO AREA 2 & 3 -STUDENT PROGRESS AND ACHIEVEMENT)

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th

P4	33	33	31	32	0	0			1	0			0	0

535

Comments/ Clarifications: Our fourth grade had two novice teachers this year. Classroom management was difficult for both due to their lack of experience but also due to a significant number of students with special needs and/or mental health concerns. Each teacher saw a decrease in office referrals; however, the third fourth grade classroom teacher was forced called to active military duty and had to resign at the end of the third quarter. This class experienced a number of substitutes before a long-term sub was assigned to the class. This was a factor in the high number of fourth grade office referrals. Referrals also increased because the behavioral interventionist / ISS teacher was out of the building for 5 days of professional development and 4 sick days.

LEADERSHIP TEAM REPORT CONTINUED

Grade Level	Number of students who have been absent 10 or more days (20% absence rate)				Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in <u>ELA</u> as determined by WRAP – DRA / SAR / AR Sept-Oct / 2015		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in <u>Math</u> as determined by SMI (2 nd -5 th) and UMS (K-1 st) Sept-Oct / 2015

Comments/ Clarifications:

Student absence data source: Crystal Reports Student tardiness (often times more than 1 hour late) and early check-outs (often more than 1 hour early) contribute to a significant amount of lost instructional time. We have not had an easy way to track this data to date.

Teacher absence data source: LRSD CIS 6-8-16 (some changes to data from previous quarters reflected above as corrections, per Summer Young, LRSD CIS)

The significant percentage of teacher absence in fourth grade was due to the resignation of a teacher at the end of the quarter resulting in substitutes for the entire fourth quarter due to a freeze on hiring. The hire percentage in the SPED self-contained category was due to one teacher's approved medical leave. The table below indicates the reasons for absences by quarter by employee.

Comments/ Clarifications: We have great concerns regarding the high percentage of students that are not demonstrating proficiency on learning segment post tests in mathematics. The data sets present below indicate where we have seen significant gains and / or losses by individual teacher. This data will be discussed with grade level teams during our pre-school planning.

P4	N/A	32														

Comments/Clarification: We have great concerns regarding the high percentage of students that are not demonstrating proficiency on learning segment post tests in literacy. The data sets present below indicate where we have seen significant gains and / or losses by individual teacher. This data will be discussed with grade level teams during our pre-school planning.

543
(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

The following are responses that individual teachers made to the following reflective question: “What evidence do you have that students have grown in understanding of this content?”

- Kindergarten Teacher (Literacy) “In their writing I see the work they were attempting to spell, even if it isn’t spelled entirely correct, I can see them trying to match the right letter sounds.”
- First Grade Teacher (Literacy) “13 out of 16 students taking the post test passed. The three that did not pass came close with 67%. I am proud of the progress my students have made with reading passages and answering questions about the sotry. Spelling is something to work harder on for next year.”
- Second Grade Teacher (Literacy) “The post test shows an 8% gain in the average of scores with 2 more students scoring an A, B, or C. There are 5 fewer Fs. Although 41% of students lost points from the pre to post tst, 44% of those who lost maintained a

passing score of at least 70%.”

- Third / Fourth Grade SPED Self-Contained Teacher (Literacy) “MW has grown in reading skills and pulling out information. She is able to prove her answers accurately. The other students are showing limited and slow growth. They will get answers correct about 50% of the time.” “They have begun giving me answers that are not the last thing they read. They are going back and re-reading or asking me to re-read parts for clarification.”
- Fourth Grade Teacher (Literacy) “We discussed poetry as a class and the students were able to have meaningful conversations about the subject.”
- Fifth Grade SPED Self-Contained Teacher (Literacy) “Students’ percentages increased. Their word choices have changed in conversations and writing.”

Comments regarding math results were similar in nature often reflecting that student understanding was greater during discussions and small group work than on the individual assessments.

Team Name: Washington Elementary School Instructional Leadership Team (SILT)

Date of Latest Revision: 5-5-16

Team Vision: An intentional team developing a community of committed collaborative adult learners focused on common achievement goals for Washington Elementary Stakeholders.

Team Core Beliefs:

The Washington Elementary SILT PLC:

- Believes all students have capacity and desire to learn.
- Respects everyone's value and dignity.
- Believes everyone has the right to a safe physical, emotional, social, and intellectual environment.
- Believes that adults impact student learning.
- Commits to continuous individual and team improvement.
- Seeks solutions for concerns; when faced with barriers, provide unified response that reflects best interests of stakeholders.

Team Mission: We are an intentional team developing a community of committed collaborative adult learners focused on common achievement goals for Washington elementary stakeholders.

Constitution:

1. Purpose of Team: To develop and improve PLCs that will increase student achievement
2. Scope of Team's Work: Deep Knowledge of Teaching and Learning
3. Parameters of Leadership Team: Student Achievement, Instructional Environment, Teacher Proficiency
4. Deliverables: knowledge, support of PLCs, professional development, implementation tools, constructive feedback

	<ol style="list-style-type: none"> 5. Resources Available to Team: ALA Team Institute Faculty, Jimmy Smith, Jr., Instructional Facilitators, School Improvement Specialist, ADE RtI Consultants, ASU PBIS Consultants 6. Measures of Success: Feedback from PLCs, increase in number of PLCs, PLCs functioning according to their charter, student achievement data, surveys, evidence of completion of Indistar tasks 7. Team Accountability: Completion of SMART Goals, Action Plans, and Indistar Indicators of Success
	<p><u>Leader Responsibilities:</u></p> <ol style="list-style-type: none"> 1. Attendance: At all meetings or designate and inform another member to lead during absence 2. End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE

Effective Practice within Category:

Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)

Description of full implementation of the Effective Practice and/or Recommendation:

District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04).

The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).

Current reality of effective practice from the beginning of the year:

An established leadership team was in place at the beginning of the school. The team included the principal, counselor, student support interventionist, reading and English as a second language interventionists, and instructional facilitators for math and literacy. The team met monthly to analyze data and make school wide decisions.

Grade level instructional teams were established at the beginning of the year. Grade level meetings were held jointly by math and literacy facilitators with the focus of the meetings placed upon providing professional development on research based practices to improve school culture and improve core instruction.

Current reality of effective practice:

We currently have a leadership team that includes the principal, math and literacy instructional facilitators, lead teachers from all grade levels, gifted and talented and media specialists, reading and English as a second language interventionists, counselor, special education teacher, instructional technology specialist, and student support interventionist. We meet twice per month for about an hour and a half. Agendas are prepared and meeting minutes are documented for each meeting. Information from meetings is entered into Indistar by School Improvement specialist. The overall purpose and function of the leadership team is to involve all stake holders in the decision making and data analysis process as we strive to improve student

	<p>performance. We will focus on included community stakeholders during the next school year.</p> <p>Teacher instructional teams function as professional learning communities. Grade level meetings are facilitated each week. Literacy meetings are held on Tuesdays and math meetings are held on Thursdays. Teachers meet to analyze data, use results to improve instruction for both whole and small group, and receive professional development.</p>
IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the	

pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).

Current reality of effective practice from the beginning of the year:

Weekly common formative assessments were used by each grade level. Students were assessed on standards taught throughout the week using assessment materials provided through Houghton Mifflin Journeys for each grade level. Teachers considered the assessment a weekly grade for students. Student mastery was not the intended goals, as students were assessed on different standards each week. The backwards design model was used for planning units in both math and literacy, but the focus of data was compiled from the post or end of unit test.

Current reality of effective practice:

Pre and post assessment are administered for each curriculum unit in math and literacy. Teachers are utilizing the backwards design and common formative assessment processes to plan assessments and provide instruction on specific indentified standards. The purpose of the assessments is focused on student mastery and identifying deficit areas to target during small group instruction. These assessments provide teachers with another tool in strengthening core instruction. The results are used to make adjustments to instruction based on student needs and deficit areas.

Instructional teams met with content area facilitators to determine standards and gather materials for instruction based on student data. Grade level planning sessions allow teams to plan for assessments and instruction. Common planning times for each grade level will be realigned based on the master schedule for the 2016-17 school year.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: In previous years, parents and students received a behavior and school culture contract during registration and at open house. The contract was more a set of rules and did not allow the student to have a voice. The contract was signed at the beginning of the school year and was not used with fidelity across all grade levels. Many parents signed the contract along with so many others in their registration packets, and didn’t take the time to discuss the contract with their child.	Current reality of effective practice: Compact was created by members of the leadership team led by Elizabeth Gomez. Before presenting the compact to parents and students, staff members were given the opportunity to revise and edit the document. Teachers also discussed the compact with students. Parents were asked to sign the compact during spring parent teacher conferences. Students whose parents were not able to attend conferences or completed phone conferences were asked to take the compact home and bring back with parent signature.

--	--

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT
Effective Practice within Category:

Post-Secondary School Options (VA01)

The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.

ADE will monitor the following:

- The guidance plan
- The process of tracking recent graduates

Current reality of effective practice from the beginning of the year:

Watson Elementary currently does not have a Smart Core curriculum in place. Watson staff understands that students mastering standards that will lead them to being college prepared is important and integral to overall achievement of all students. During student registration parents are provided with information regarding Smart Core curriculum guidelines.

Current reality of effective practice:

During the 2015-16 school year, we implemented a college day that displayed college, universities, and post secondary educational institutions. Staff members were memorabilia related to the institution that they represented. We also created a wall of fame that listed the names of colleges and teachers who graduated from that university. Additional

Mrs. McMurray, the school guidance counselor, provides sessions and support with middle school registration for students and parents.

sessions for students and parents will be provided in regards to SmartCore, especially for transitioning fifth graders. Parents will receive SmartCore information during registration and open house.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

One of the most meaningful decisions made by the School Leadership Team this quarter is the planning and scheduling of year- round professional focused on the classroom environment and instruction. Areas of focus include improving the culture of learning, student behavior (Positive Behavior Instructional Support) , differentiation, student engagement.

What will your programs accomplish?

The enhancement/improvement of teacher practices, instructional strategies, differentiation of instruction, and behavior management

If anything, what do you intend to change or modify for the year?

We will take a more in-depth approach to how rituals and routines are implemented. We will provide lesson plans that will assist teachers with teaching students expected behaviors both in class and school wide.

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Total # of ODRs referred to the office				Number of students with 5 or more referrals			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
03	135	136	146	146	12	45	0	0	0	16	4	3	4	0
04	144	143	137	140	18	52	0	1	0	16	2	3	5	0
05	137	138	142	141	16	42	1	0	0	26	0	2	3	0

Comments/ Clarifications:

End of the year fatigue attributed for students and staff attributed to the number of student office referrals. For many infractions, students were assigned to in school suspension with the goal to keep students in school and receiving instruction. Infractions noted during the fourth quarter included numerous bus infractions, fighting, and disorderly conduct. It is our hope that through the supports provided through Positive Behavior Instructional Support that we will begin to see a decrease in office referrals and students taking ownership for their behavior.

Grade Level	Number of students who have been absent 10 or more days (20% absence rate)				Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by <u>Scholastic Math Inventory</u> – <u>May</u> / <u>2016</u> (Month Determined)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by <u>Developmental Reading Assessment</u> – <u>May/ 2016</u> (Month Determined)

Elements for an Effective School-wide Reading Program - Quality of Implementation for each element:

Element	Initial Grades K – 2	Initial Grades 3 – 5
Goals, Objectives, Priorities	/14	9.6/14
Assessment	/20	15/20
Instructional Practices and Materials	/22	23.2/28

563

Instructional Time	/14	4.6 /6
Differentiated Instruction, Grouping	/10	8.7/10
Administration, Organization, Communication	/12	8.6 /12
Professional Development	/8	6.1 /10
(Percentage) Total Score:	/100	75.8/100

Comments/Clarification:

Data reflects current grade levels of 3-5. During the 2016-17 school year, grades K-5 will be reflected.

Watson's focus based on the Literacy Needs Assessment which was the basis for drafting our Literacy Action Plan will focus on Professional Development and Assessment. Professional Development will focus on provided strategies to help teachers build and strengthen the core instruction. Differentiation was also a main focus for Watson. We want to ensure that teachers are meeting the specific needs of all students. We will use pre/post assessment data to enhance learning opportunities for all students.

LEADERSHIP TEAM REPORT CONTINUED

Behavior (PBIS) - Tiered Fidelity Inventory

Core Features	Initial	
Tier I	_15_/30	50% implemented
Tier II	_12_/26	46% implemented
Tier III	_24_/34	71% implemented

Comments/Clarification:

Strengths from behavior survey

- Staff place a high priority on teaching and rewarding expected behaviors
- Staff place a high priority on student's academic success
- Students feel safe at the school

Areas of Need

- School-wide discipline systems and practices are not consistent
- Data are not collected, analyzed, and used for problem solving and action planning
- Bullying is an area of concern
- Classroom management systems are not consistent

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: Current school teams include: PTA board meeting monthly, Instructional teams: grade level planning meetings weekly with/without facilitators, Leadership team meeting twice monthly, Staff meetings held monthly, School Based Intervention team meets intermittently. Fourth and fifth grade girls meet monthly. Agendas are kept and minutes are taken and available to all stakeholders for Leadership, PTA board, instructional staff meetings. Informal grade level meetings among teachers are documented with lesson plans instead of agendas. Instructional meetings with the facilitators have minutes and agendas. The leadership team was reconfigured to include three classroom teachers, reading teacher, counselor, special education, math/literacy facilitators and principal. Other staff members are invited as needed to provide professional insight in their area of expertise.	Current reality of effective practice: School teams are meeting more regularly and with a clearer focus. Most teams are writing agendas, taking minutes. Grade level and instructional meetings have improved in their organization of this but still have growth to make. We are still not turning all the minutes and agendas in to a centralized location in a timely manner but some are being turned in. Beginning in August of 2016 we will use a common tool for agendas and minutes. These will be emailed to the principal and the SIS and will be stored in school-wide electronic storage. This configuration has worked very well. We will change some positions at the beginning of the year so everyone will rotate through the committee. Primary stakeholders will remain the same.

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: Teachers assess students using district required assessments at least 3 times a year. From this data initial groups are formed and changes are made as needed. Unit tests are administered based on when the chapter or unit is completed in the basal series.	Current reality of effective practice: Teachers of literacy and mathematics are grouped into grade-level instructional teams in grades K-5. The instructional teams meet at least once a week to plan units of instruction and to develop unit assessments that are used as pre-tests and post-tests. We have given three units per quarter; we have worked to make this routine. Our instructional teams need to become more proficient in working collaboratively to design the assessments based on appropriate standards. Then review pre-/post-test data for the purpose of differentiating instruction, re-teaching, and providing extra help for students. The instructional team members should be reflective in their data review so that they can identify their own needs and take those that are appropriate to the SLT for actions such as providing professional development and opportunities for collaboration with teachers in their own school or in other schools who can provide models or examples of practices that will assist in professional improvement. Using unit assessment data to provide individualized or small group instruction for

	students in after-school or tutoring programs is the goal.
IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: We currently have a Western Hills Learning Compact in place that is signed by principal, teacher, parent, and student. It is signed at the beginning of the year when parents register their child for school and is shuffled along with the rest of the stack of papers with registration. Later the assigned teacher signs it and sends it home without having a discussion with parents. It is several years old and vague.	Current reality of effective practice: The school counselor researched current “Wise ways” to rewrite the Learning Compact. After completing a rough draft, she presented it to the SLT for final review. At that time, it was approved and presented to all teachers. The compact was distributed to teachers for the February Parent Conference Day where it was discussed with families and signed. Any families not attending conference day were contacted by phone and the compact was signed at the next available meeting. We felt that having the families, students and teachers sitting down together to review expectations and routines for the year was a much more effective way of developing a relationship of support for our students.

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: We are an elementary school and therefore focus primarily on future careers through career day activities, field trips to local areas or shadowing a parent at work for a day. We also teach test taking strategies that will last throughout their school career.	Current reality of effective practice: The Counselor teaches whole group lessons on different careers and has students participate in group skit activities of the career of their choice. The students have to research that career such as education, salary etc., each group has to report out. GT students dressed up in the chosen career and had to present background information. Guest speakers from different career fields came to speak with students. Students had to research different colleges to see what requirements were needed to gain acceptance into that college. Next year we plan to take 5th graders on a couple of college tours.

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

- Working through the process of administering pre and post assessments has been a challenge but the data that it provides helps our team with reteaching. We made progress this quarter in designing appropriate assessments. We were punctual with completing the assessments.
- Focus groups continued to work on and revise the diagnostic analysis and to refine the TIP for the upcoming year.
- Members of our leadership team attended the Team Institute through Arkansas Leadership Academy. This team has been instrumental in supporting data use in our school. The team studied the professional text Using Data to Focus Instructional Improvement. The book helped us to have a deeper understanding of the different types of data to use to plan for instruction. One area of focus will be a public display of data in a targeted skill area to allow students to work toward improving academically.
- The Leadership team that attended the Arkansas Leadership Academy planned a case study to support data analysis. One of our team members from the district level presented the professional development on data analysis with a focus on writing. Each classroom teacher brought writing samples and we scored using a rubric. This allowed the small groups to develop lesson plans for the whole group and to pull small groups for specific areas of improvement. We also discussed writing across content areas with a focus on science. For our next staff meeting each teacher will bring science constructed responses with the rubric and we will determine how to use this information to support learning in science content.
- We continued to communicate more effectively through the Friday Focus provided by the principal updates staff about celebrations, provides reminders for the upcoming week, and targets areas that we are still working to improve.

If anything, what do you intend to change or modify for the year?

- We will continue to mandate pre and post assessments in all grades with emphasis on grades 3-5. We will meet to consider the data and plan accordingly taking into consideration the needs of all students.
- An annual calendar of upcoming events with expectations for pre and post assessments was developed and will guide our assessment plan for the upcoming year.
- An additional after school data team meeting will take place monthly. This meeting will be used to analyze data, create pre-test, group for instruction, and encourage vertical teaming.
- Professional development will be provided to further train and support teachers on using formative assessments to drive instruction.
- A common intervention time will be scheduled school-wide.
- The data wall will be revised to simplify data usage.
- A common form will be developed for agendas, minutes, and action plans. Agendas and minutes for each committee will be sent to the principal and SIS and uploaded to a school-wide electronic storage device.
- A student committee will be developed to encourage student ownership and leadership in our school.
- We have put best practices in place throughout the building. Now we must assimilate it into our everyday teaching, planning and thinking. We aren't there yet but we have a much clearer plan to get there.
- We purchased another class set of chromebooks for third grade. These will be utilized to improve technology instruction and engagement.

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th

04	27	27	26	26	6	2	0	0	0	0	0	0	3	7
05	35	34	32	31	12	8	0	0	0	0	1	2	2	3
K	39	40	40	40	2	9	0	0	0	0	0	1	1	6
1	43	44	43	44	4	6	0	0	0	1	0	0	1	4
2	44	45	38	38	11	7	0	0	0	0	1	0	5	4

Comments/ Clarifications:

- Included in these numbers are students out of our school zone who are in a special education classroom for diagnosed behavior issues. All of them are boys; one is an English language learner.
- Although the third grade number is the same from second to fourth quarter, there were multiple students who left during the third quarter but slots were filled with other students entering our school from both within and out of the district and state.
- All grade levels have lost some students but gained others. Our population is becoming more mobile every year.
- The breakdown of SWD students is as follows:
 - Behavior room: 2 third graders, 6 fifth graders. Some of these students also receive speech/language.
 - Resource: (small group support for short bits of time): 0 Kindergarteners, 3 first graders, 3 second graders, 5 third graders, 4 fourth graders, 3 fifth graders. Some of these students also receive speech/language.
 - Speech/Language only: 18 students.
 - 18 of these students also receive Occupational Therapy.
- Roughly 19% of our population is English language learners. This number increases a little each year. It fluctuates, but nearly 5% of our population is homeless.

We interpret “referrals” to mean students who were in enough trouble to require a suspension or worse. There were not any students who were suspended five or more times but we did have to send one fifth grade student to the Alternative Learning Environment for a severe issue in the third quarter. One first grade student was sent home multiple times in the fourth quarter.

- Chronic absenteeism with some families is a growing concern. The leadership team has become more aware of the number of students with repeated absences and is looking into ways to address it. Third quarter, 7% of our population missed ten days or more. This number increased sharply during fourth quarter, totaling 12%. Currently we send letters to parents on the third, sixth and ninth unexcused absence. The counselor contacts parents when it is warranted. Parent conferences have taken place to stress the importance of having students at school daily. In some families, all the students will stay home together when one is ill.
- When a student is repeatedly absent the classroom teacher keeps track of missed assignments and gives the student extra time and help to make up the missing work. Frequently a paraprofessional or peer tutor is assigned to lend support.
- The staff and principal work diligently to provide positive support to students before behavior problems escalate including but not limited to: a time out in another teacher’s room, talking with the school counselor, a cool down walk or calling parents for support. We also use a classroom behavior chart to visually remind students to follow the class rules.
- Western Hills also has counseling services through Life Strategies Counseling Incorporated. We have a counselor and case worker in our building several times a week to meet with students in small groups and individually. They also work with parents and other family members outside of the school and offer services when school is not in session.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA, Special Education) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by <u>Scholastic Math Inventory</u> September-May (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____/_____(Month Determined)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by <u>Reading Level</u> September - May (Month Determined)		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____/_____(Month Determined)

2	0	0	0	2	20	4			4	0		

Comments/ Clarifications:

- BC stands for Behavior Class.
- Our classroom teachers have excellent attendance.
- Universal Screeners in math is an individualized assessment to determine exactly what students know.
- The Scholastic Math Inventory (SMI) is not administered to first grade students until the beginning of the second semester.
- Classroom interventions are provided for students in math and literacy for students who are below grade level. The classroom teacher closely monitors formative assessments including pre/post assessments on learning segments.
- Students who would benefit from extra support are assigned a specialist (music teacher, media specialist, etc) who works with students in groups of three or four with specific strategies that are lacking in the classroom. Students are selected based on screeners and classroom teacher recommendation. Support continues until the teacher feels the child has made the necessary progress. Progress is determined by

classroom pre/post assessments, formative assessments and teacher observation. (This was not as consistent as we had hoped but is still our goal. We will restructure to improve interventions next year.)

- If a child continues to work with little or no progress; they are referred to the School Based Intervention Team for consideration into a more formal response to intervention; tier II and tier III.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level (A)	Total number of students with D or F on unit tests in Math this quarter (B)	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C

Comments/ Clarifications:

- We did not conduct pre tests in Kindergarten and first grade so their scores are not represented here.
- All grade levels have had a fluctuating class roll with students moving in and out of the school. It is difficult to measure on a classroom basis when a room of twenty has lost four students and gained two or three.
- Nearly 12% of our student population missed ten or more days this quarter with many more missing between five and nine. We feel that this has had a negative impact on student learning.

- As a school, we have struggled with what type of assessments to use for the pre/post format. There has been copious debate regarding how much material to cover for each unit. As a district, it was determined that smaller learning segments were more beneficial and gave clearer guidelines for re-teaching but math personnel insist on using chapters in a textbook. Our more “out of the box” classroom teachers have started compensating accordingly but it has taken time. We suspect that the high number of D’s and F’s are attributed to our assessment choices rather than student performance. This has improved in the fourth quarter but we still have a long way to go before it is truly successful.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
											(A)	(B)				
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*			1st	2nd	3rd	4th
3	0	44	1	3	0	0	42	42	42	N/A	126	12		26%	19%	10%
4	0	27	0	0	0	0	23	24	26	N/A	73	19			12%	26%

Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- We did not conduct pre tests in Kindergarten and First grade (in fourth quarter) so their scores are not represented here. Kindergarten and first grade teachers maintain data based on phonological awareness, the alphabet, plus emergent reading and writing strategies on an individual and small group basis that is monitored closely.
- All grade levels have had a fluctuating class roll with students moving in and out of the school. It is difficult to measure on a classroom basis when a room of twenty has lost four students and gained two or three.
- Nearly 12% of our student population missed ten or more days this quarter with many more missing between five and nine. We feel that this has had a negative impact on student learning.
- Unit assessments were based on either comprehension strategies or types of writing that were pertinent to each grade level.

(Optional)

Do you have other data sources that support and/or identify that you are making gains in student outcomes (For example: Interim assessments such as ACT Aspire, TLI, etc.)? *You may include a chart to describe your data.*

This is a portion of the electronic data wall. It is fourth grade math. The numbers and colors represent performance. The average for each column is at the bottom. The data wall also provides reading levels for each quarter, performance on universal screeners that are given three times a year and other pertinent information.

- Above grade level: 4/blue
- At grade level: 3/green
- Slightly below grade level: 2/yellow
- Below grade level: 1/red

		1.00	1.00	1.55	1.00	1.00	2.00	1.00	2.00

This is the worksheet the teachers use before data goes on the data wall: It is emailed to the member of the leadership team in charge of compiling data for our team meetings and also to the teacher who logs information onto the data wall. From here, each class is tallied, then each grade. Next it goes on the school reporting form to turn into the district every three to four weeks.

The following is a copy of a fifth grade student's progress monitoring from a web based Math program. Each child took an entrance assessment; this is the beginning proficiency score. Six weeks later it gave a post assessment and the third column show the student's growth during that time. As you can see, Carlose scored well in most of the previous grades with a few areas of weakness in fourth grade material. He quickly brought his score up in most areas with some still requiring support. This report was made for every child in the class.

Progress Monitoring

Carlose

Time Period: Feb 9. 2016 To Mar 31. 2016

Domains And Standards

Ending	Beginning	Increase
Proficiency	Proficiency	Decrease

Grade K	100%	100%	0%
Grade 1	100%	100%	0%
Grade 2	100%	100%	0%
Grade 3	98%	90%	8%
3.oa Operations	100%	100%	0%
3.nbt Numbers	100%	100%	0%
3.nf Fractions	100%	100%	0%
3.md Measurement	100%	100%	0%
3.g Geometry	90%	50%	40%
3.g.1 Understand That Shapes In Different Categories (e.g., Rhombuses, Rectangles, And Others) May Share Attributes (e.g., Having Four Sides). And That The Shared Attributes Can Define A Larger Category (e.g., Quadrilaterals). Recognize Rhombuses, Rectangles, And Squares As Examples Of Quadrilaterals. And Draw Examples Of Quadrilaterals That Do Not Belong To Any Of These Subcategories.	80%	0%	80%
3.g.2 Partition Shapes Into Parts With Equal Areas. Express The Area Of Each Part As A Unit Fraction Of The Whole. For Example, Partition A Shape Into 4 Parts With Equal Area. And Describe The Area Of Each Part As $\frac{1}{4}$ Of The Area Of The Shape.	100%	100%	0%
Grade 4	99%	80%	19%
4.oa Operations	100%	100%	0%
4.nbt Numbers	100%	100%	0%
4.nf Fractions	96%	0%	96%
4.nf.1 Explain Why A Fraction $\frac{a}{b}$ Is Equivalent To A Fraction $\frac{n \times a}{n \times b}$ By Using Visual Fraction Models. With Attention To How The Number And Size Of The Parts Differ Even Though The Two Fractions Themselves Are The Same Size. Use This Principle To Recognize And Generate Equivalent Fractions.	100%	0%	100%
4.nf.2 Compare Two Fractions With Different Numerators And Different Denominators. E.g., By Creating Common Denominators Or Numerators. Or By Comparing To A Benchmark Fraction Such As $\frac{1}{2}$. Recognize That Comparisons Are Valid Only When The Two Fractions Refer To The Same Whole. Record The Results Of Comparisons With Symbols $>$, $=$, Or $<$. And Justify The Conclusions. E.g., By Using A Visual Fraction Model.	100%	0%	100%
4.nf.3 Understand A Fraction $\frac{a}{b}$ With $a > 1$ As A Sum Of Fractions $\frac{1}{b}$.	100%	0%	100%
4.nf.3a Understand Addition And Subtraction Of Fractions As Joining And Separating	100%	0%	100%

Parts Referring To The Same Whole.

4.nf.3b Decompose A Fraction Into A Sum Of Fractions With The Same Denominator In More Than One Way. Recording Each Decomposition By An Equation. Justify Decompositions. E.g.. By Using A Visual Fraction Model. Examples:

$3/8 = 1/8 + 1/8 + 1/8$; $3/8 = 1/8 + 2/8$; $2 \frac{1}{8} = 1 + 1 + 1/8 = 8/8 + 8/8 + 1/8$.

100% 0% 100%

4.nf.3c Add And Subtract Mixed Numbers With Like Denominators. E.g.. By Replacing Each Mixed Number With An Equivalent Fraction. And/or By Using Properties Of Operations And The Relationship Between Addition And Subtraction.

92% 0% 92%

4.nf.3d Solve Word Problems Involving Addition And Subtraction Of Fractions Referring To The Same Whole And Having Like Denominators. E.g.. By Using Visual Fraction Models And Equations To Represent The Problem.

67% 0% 67%

4.nf.4 Apply And Extend Previous Understandings Of Multiplication To Multiply A Fraction By A Whole Number.

100% 0% 100%

4.nf.4a Understand A Fraction A/b As A Multiple Of $1/b$. For Example. Use A Visual Fraction Model To Represent $5/4$ As The Product $5 \times (1/4)$. Recording The Conclusion By The Equation $5/4 = 5 \times (1/4)$.

100% 0% 100%

4.nf.4b Understand A Multiple Of A/b As A Multiple Of $1/b$. And Use This Understanding To Multiply A Fraction By A Whole Number. For Example. Use A Visual Fraction Model To Express $3 \times (2/5)$ As $6 \times (1/5)$. Recognizing This Product As $6/5$. (in General. $N \times (a/b) = (n \times a)/b$.)

End of Year Summary Report

FOURTH QUARTER

2015-2016 School Year

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Establishing a team structure with specific duties and time for instructional planning (ID01, ID04, ID07)	
Description of full implementation of the Effective Practice and/or Recommendation: District policy specifies the team structure for all schools which include a description of the teams' purposes and how they are constituted. New school leaders are apprised of this expectation and how the effectiveness of teams is determined. A common team structure for a school consists of (but not limited to) a Leadership Team (consisting of principal and teacher leaders), teacher Instructional Teams (teaching common subject area or grade level), student team (a diverse group of student leaders), management team (campus administrators and other personnel as needed) and a School Community Council (with a majority of members being parents (ID01). Each team has a specific purpose and scheduled time to meet and works from agendas and minutes (ID04). The Leadership Team meets at least twice a month in regularly scheduled meetings of at least an hour (ID07). They serve as a conduit of communication to the faculty and staff in a way that enables the Leadership Team to receive input from the faculty and staff (ID08). The Leadership Team regularly looks at school performance data and aggregated classroom observation data and uses that data to make decisions about school improvement and professional development (ID10).	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • Team structures established • Irregular meeting times • Regular meetings once a month • Review performance weekly/ quarterly student assessment data 	Current reality of effective practice: <ul style="list-style-type: none"> • Team structures established with bylaws • Regular meeting times established • Regular meeting twice a month • Increased flexibility with meeting types: online/email, phone conference, in person • Agendas and Minutes updated in the Indistar website • Review performance weekly/ quarterly student assessment data including pre/post tests

IMO AREA 1: CHANGE IN TEACHER AND LEADER PRACTICE	
Effective Practice within Category: Engaging teachers in assessing and monitoring student mastery (IIB04)	
Description of full implementation of the Effective Practice and/or Recommendation: The Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work and includes pre-/post tests administered at two to three week intervals (IIB01). The pre-test and post-test assess the same learning objectives and inform the Instructional Team members' (teachers) plans for differentiated instruction within the unit and/or re-teaching as necessary following the unit (IIB04). The Instructional Team reviews the results of the pre- and post-tests and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit (IIB03). The Instructional Team also uses the results from the pre-/post-test analysis to plan for professional development, inform subsequent instructional unit plans and/or make adjustments to the curriculum (IIB02, IIB05).	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • Grade Level Team structures established • Irregular meeting times • Regular meetings once a month with facilitators • Review performance weekly/ quarterly student assessment data 	Current reality of effective practice: <ul style="list-style-type: none"> • Team structures established with bylaws • Regular meeting times established once a week by team • Regular meeting twice a month with facilitators • Increased flexibility with meeting types: online/email, phone conference, in person • Review performance weekly/ quarterly student assessment data including pre/post tests • Team planning to address student needs

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Defining the purpose, policies, and practices of a school community (IVA01)	
Description of full implementation of the Effective Practice and/or Recommendation: No Child Left Behind stipulates that each school in the Title I program develop an agreement, or “compact,” that outlines how parents, school staff, and students will share responsibility for improving academic achievement. Compacts describe how the school and parents can work together to help students achieve the state’s standards.	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • Parent/ school compact delivered to parents and reviewed at the Annual Title 1 Meeting during Open House 2015 	Current reality of effective practice: <ul style="list-style-type: none"> • Parent/ school compact delivered to parents and reviewed at the Annual Title 1 Meeting during Open House 2015

IMO AREA 4: FAMILY AND COMMUNITY ENGAGEMENT	
Effective Practice within Category: Post-Secondary School Options (VA01)	
The school has a guidance plan that includes options for students as they plan their college and career opportunities. The school routinely tracks their recent graduates' success at the next level as they pursue their college and career goals.	
ADE will monitor the following: <ul style="list-style-type: none"> • The guidance plan • The process of tracking recent graduates 	
Current reality of effective practice from the beginning of the year: <ul style="list-style-type: none"> • No plan/ process for tracking graduates 	Current reality of effective practice: <ul style="list-style-type: none"> • The Leadership Team and the counselor will develop a guidance plan and process for tracking graduates during the 2016-2017 school year • Use data Dashboard and TRIAND to track student progress

ARKANSAS
DEPARTMENT
OF EDUCATION

LEADERSHIP TEAM REFLECTION

Thinking about meetings throughout the year, what have been the most meaningful decisions and actions made by the School Leadership Team this quarter? And what attributed to those changes?

The Leadership Team implemented the process for administering pre and posttests, monitoring the progress and planning with results. The ADE required the Indistar indicators regarding pre and posttest be implemented, compiled by the SIS and reviewed with the team

If anything, what do you intend to change or modify for the year?

- **The Leadership Team and the counselor will develop a guidance plan and process for tracking graduates during the 2016-2017 school year**
- **Use data Dashboard and TRIAND to track student progress**
- **New Principal**
- **No Facilitators**
- **Less Classified Staff**
- **No security**
- **Increased Teacher duties**

SCHOOL LEADERSHIP TEAM'S REPORT FOURTH QUARTER

STUDENT/ TEACHER DATA by Quarter IMO AREA 2: STUDENT PROGRESS AND ACHIEVEMENT

Grade Level	Number of students enrolled				Number of SWD enrolled as of October 1 st per grade level	Number of EL students enrolled as of October 1 st per grade level	Number of students with 5 or more referrals				Number of students who have been absent 10 or more days (20% absence rate)			
	1st	2nd	3rd	4th			1st	2nd	3rd	4th	1st	2nd	3rd	4th
PK	38	35	35	36	0	0	0	0	0	0	1	0	0	1
K	63	63	60	60	7	2	0	0	0	0	3	1	4	3
1	55	53	44	44	14	14	0	0	0	0	0	0	2	1
2	55	54	51	52	12	11	0	0	0	0	0	1	0	0
3	51	52	48	49	15	14	0	0	0	0	0	0	1	2
4	44	44	48	49	11	9	0	0	0	0	0	0	0	4
5	43	44	43	45	8	13	0	0	0	0	0	0	2	4

Comments/ Clarifications:

- There was a decrease in student enrolled at PK (2 students), K (3 students), 1st (11 students), 2nd (3 students), and 3rd (2 students), from 1st to 4th quarter. There was an increase in students in 4th and 5th grade, 5 and 2 respectively. The Team felt the decreases were due to student enrolling in private or charter schools.
- 4th and 5th grade teachers immediately reviewed any and all available data on the new students and used the data to drive their instruction.
- Student absences: Parents were sent letters after a student was absent at intervals of 3, 6, and 9 days. The next step completed was either a parent face-to-face or phone conference.
- Students with high absentee rates were recommended for retention.

Grade Level	Percent of core teachers (Math, Science, Social Studies, ELA) absent 5 or more days (10%)				Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in Math as determined by letter grades at end of first and fourth quarter		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in Math as determined by _____ Test on _____ / _____ (Date)		Number of <i>ELEMENTARY</i> students that are 2 or more years below grade placement in ELA as determined by letter grades at end of first and fourth quarter		Number of <i>SECONDARY</i> students that are 3 or more years below grade placement in ELA as determined by _____ Test on _____ / _____ (Date)	
	1st	2nd	3rd	4th	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter	1st Quarter	4th Quarter
PK	0	0	0	0	N/A	N/A			N/A	N/A		
K	0	20	0	0	N/A	N/A			N/A	N/A		
1	0	0	50	0	2	0			2	0		
2	0	0	33	0	3	0			3	0		
3	50	50	50	50	11	3			11	6		
4	0	0	0	0	8	12			8	9		
5	0	33	33	0	17	18			17	20		

Comments/ Clarifications:

- The Principal reviewing teacher attendance rates first gave a verbal warning, followed by a written warning, and in some cases a written reprimand.
- Students with a high number F's were recommended for retention.
- Principal and facilitators monitored teacher instruction and made verbal recommendations when needed.

MATH DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed Math the previous year	Number of students enrolled this quarter	Number of students with D or F in Math class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in Math this quarter	Percent of students with D or F on any unit tests in Math (C) (B/A) X 100 = C			
			1st	2nd	3rd	4th	Unit 1	Unit 2	Unit 3	Unit 4*	(A)	(B)	1st	2nd	3rd	4th
3	3	49	8	4	13	7	45	44	47	N/A	136	37		41%	48%	27%
4	12	49	6	5	10	13	47	48	72	N/A	167	56		51%	38%	34%
5	18	45	16	21	20	17	43	75	86	N/A	204	68		71%	50%	33%
Example							100	90	95	N/A	285	57	20%			

Comments/ Clarifications:

- By-in-large, posttest data on D's and F's match closely the actual percent of similar end-of-quarter grades.
- Posttest data was reviewed by the facilitators with teachers during grade level meetings.
- Posttest data was used to begin conversations on changing and/or adjusting instruction
- Teachers used posttest data during collaborative time to change and/or adjust instruction.
- Leadership team used the Unit data to encourage and suggest ways for teachers to talk about instructional changes.

ELA DATA by Quarter for Grades 3-10

Grade Level	Number of students that failed ELA the previous year	Number of students enrolled this quarter	Number of students with D or F in an ELA class per quarter 2015-2016				Number of students assessed on each post-unit assessment for the current quarter				Total number of students assessed on the post-unit test for each grade level	Total number of students with D or F on unit tests in ELA this quarter	Percent of students with D or F on any unit tests in ELA (C) (B/A) X 100 = C			
											(A)	(B)				
											1st	2nd				
3	6	49	18	20	18	13	82	115	126	N/A	323	117		24%	46%	36%

- Fiscal Distress Plan

Helena-West Helena School District Executive Summary

Pursuant to Ark. Code Ann. § 6-20-1905, on July 20, 2010, the Arkansas Department of Education identified the Helena-West Helena School District as a school district in fiscal distress. The Arkansas Department of Education made this identification because the Helena-West Helena School District met the following fiscal distress indicator(s) as set forth in Ark. Code Ann. § 6-20-1904: (1) A declining balance determined to jeopardize the fiscal integrity of the school district. (2) Material state or federal audit exceptions or violations.

The Helena-West Helena School District did not appeal the fiscal distress identification. On September 13, 2010, following a public hearing, the State Board of Education classified the Helena-West Helena School District as a school district in fiscal distress, pursuant to Ark. Code Ann. § 6-20-1906. On June 20, 2011, the Arkansas Department of Education exercised its authority under Ark. Code Ann. § 6-20-1909 to assume authority over the Helena-West Helena School District. The Arkansas Department of Education removed the Helena-West Helena superintendent and school board, and appointed an individual to administratively operate the Helena-West Helena School District under the supervision and approval of the Commissioner of Education.

Arkansas law sets forth a clear process for school districts to follow in order to remove themselves from fiscal distress classification. Pursuant to Ark. Code Ann. § 6-20-1908, a school district in fiscal distress may only petition the State Board of Education for removal from fiscal distress status after the Arkansas Department of Education certifies in writing that the school district has corrected all criteria for being classified as in fiscal distress and has complied with all department recommendations and requirements for removal from fiscal distress status. The Helena-West Helena School District enacted a fiscal distress improvement plan aimed at correcting all criteria for being classified as in fiscal distress. The plan is attached to this report.

On March 10, 2016, the State Board of Education recommended that the Helena-West Helena School District be removed from Fiscal Distress status and State control.

Mr. John Hoy, Superintendent
Helena-West Helena School District
P.O. Box 369
Helena, Arkansas 72342

Dear Mr. Hoy:

This is to confirm the State Board of Education approved the recommendation for the Helena-West Helena School District to be removed from Fiscal Distress status and State control (reconstitution) at the March 10, 2016 meeting. The removal of the District's Fiscal Distress and State control (reconstitution) is effective as of March 10, 2016. After a school board has been elected the Arkansas Department of Education will arrange for the board members to received training. The Helena-West Helena School District is congratulated on this accomplishment. Please maintain a copy of this letter in your district audit file.

Sincerely,

A handwritten signature in cursive script that reads "Cynthia Smith".

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2010-11

- Reduced (RIF) 3 administrative office staff
- Reclassified licensed and classified salaries from operating to ARRA funds
- Reclassified licensed and classified salaries from operating to Declining Enrollment funds
- Reclassified licensed and classified salaries from operating to NSLA funds
- Reduced licensed and classified salaries through attrition and reassignment
- Monitored all expenditures
- Eliminated Saturday School Detention Program
- Eliminated custodial/maintenance uniforms
- Eliminated After School Discipline Program

2011-12

- Reduced 27 licensed positions through RIF and attrition
- Reduced 54 classified position through RIF and attrition
- Reduced salary and utility costs by transferring kindergarten students to three other schools
- Reduced operating costs by utilizing NSLA funds more efficiently
- Eliminated operating cost of After School tutorial
- Monitored and implemented corrective actions for the 2011 audit findings

2012-13

- Reduced 30 employees through RIF
- Reclassified salaries of 4 licensed positions from Operating to Categorical and Federal funds
- Reduced expenses through consolidation of campuses
- Refunded district bonds to a lower interest rate

2014-15

- Established additional internal controls and increased monitoring of all financial transactions to address 2014 audit findings

2015-16

- Closed Miller Primary School Campus
- Continue training and monitoring of financial transactions to address audit findings

Helena-West Helena School District
LEA # 5403
Phillips County

Comments:

The District was classified in Fiscal Distress on September 13, 2010. The District began their fifth full year of Fiscal Distress on July 1, 2015.

On June 20, 2011, the Arkansas Department of Education took control of the Helena-West Helena School District.

On June 20, 2011, Superintendent Willie Williams and the School Board were released from their duties.

The following appointments were made on June 20, 2011:

Suzann McCommon- Chief Executive Officer

Ulicious Reed- Chief Operating Officer

District had a prior classification with the Fiscal Distress program.

- Classified - April 11, 2005
- Reconstitution (State takeover) - September 8, 2005
- Removed - April 21, 2008

The Helena-West Helena School District's general operating ending balance of \$3,511,492 on June 30, 2011 included the reclassification of approximately \$2.7 million in salaries from general operating funds to American Recovery and Reinvestment Act (ARRA) funds.

For the 2012-13 school year, the District consolidated campuses from five to three due to declining enrollment. The District's enrollment as of Oct. 1, 2012 was 1,655 students.

On May 13, 2013, the State Board of Education approved the recommendation of the Department of Education to extend the fiscal distress classification, under authority of the state, for the 2013-14 school year and to authorize the Commissioner of Education to appoint a community advisory board pursuant to A.C.A. §6-20-1910.

On September 9, 2013, the State Board of Education approved the following individuals to serve on the Community Advisory Board for the Helena-West Helena School District:

Zone 1	Vacant
Zone 2	Mr. Doug Friedlander
Zone 3	Mr. Marvin Jarrett
Zone 4	Mr. Lynn D. Boone
Zone 5	Vacant
Zone 6	Mr. Earnest Simpson
Zone 7	Mr. Nathan Bagley

On March 28, 2014, the Arkansas State Board of Education approved the continuation of the Helena-West Helena Community Advisory Board and the Arkansas Department of Education's continued overview and governance of the Helena-West Helena School District.

Effective July 1, 2014, John Hoy was appointed Superintendent of Helena-West Helena School District.

On March 12, 2015, the Arkansas State Board of Education approved the continuation of the Helena-West Helena Community Advisory Board and the Arkansas Department of Education's continued overview and governance of the Helena-West Helena School District.

On March 10, 2016, the Arkansas State Board of Education recommended that the Helena-West Helena School District be removed from Fiscal Distress status and State control, upon election and training of school board members.

Helena-West Helena School District

Fiscal Distress District Improvement Plan

When focusing on the fiscal status of the district, the administration noted the stated areas of concern:

Areas of Concern

- The district operates too many campuses
- The district is overstaffed for number of student served
- The district has Audit Findings to be addressed
- Decrease in Revenue
- Facilities require upgrading and repairs

Analysis of Why Problem Areas Occurred

- The failure to align the use of campuses to students served
- The failure to reduce staff when experiencing a significant loss of students
- Inadequate monitoring/supervision and adherence to adopted policies and procedures
- The failure to adjust expenditures within available revenue
- Lack of maintenance and repair to facilities; the former Facilities Master Plan did not address warm, safe and dry issues.

Fiscal Distress District Improvement Plan

The Helena-West Helena School District is located in Eastern Arkansas (Phillips County); its size is 120 square miles. To provide transportation for its students, the district contracts with Durham Bus Services for the transportation of its students. Durham operates twenty-five daily routes with three of these being Special needs routes.

The distance of the routes range from a high 39.5 miles to a low of 5.5 miles (both ways). Twelve of the twenty five buses used on a daily route are owned by Helena-West Helena School District.

On June 20, 2011, the Commissioner of Education removed the Helena-West Helena Board of Directors and the Superintendent. The State assumed control of the school district by appointing Suzann McCommon as the CEO and Ulicious Reed, the COO of the District.

At the present time, the district serves its K-12 students by using six sites located on five campuses. This configuration does not lend itself to effectiveness and efficient use of the district's personnel nor resources. The current assessment valuation of the District is \$113,701.999 with the millage rate being 34.10 (25.0 mills = M & O; 9.10 mills = debt service). The school district has an annual bonded debt payment of \$683,102.25. It has no non-bonded debt payment, no post-dated warrants, and no current short term cash flow agreements. However, the district has a lease agreement for the transporting of its K-12 students with Durham Bus Service. For the 2011-2012 school year the agreement will cost approximately \$900,000.00 for daily student transportation plus additional charges for fuel and any repair which exceeds \$500.

The district also has a lease agreement for copy machines which cost approximately \$17,000.00 per month or \$204,000.00 per year.

In September 2010, the Helena-West Helena School District was classified as being in fiscal distress by the State Board of Education. The reasons for the classification were:

- Declining balance determined to jeopardize the fiscal integrity of the school district.
- Material state or federal audit exceptions or violations.

The district three quarter (K-12) student's enrollment average for 2009-2010 school year was 2,315; it was 2,242 for the 2010-2011 school year. This year the district's two quarter K-12 enrollment is 1876. The decrease of revenue for the 2012-2013 school year is projected at \$1,147,086 based on the two quarter average of 1876 thus making it necessary to address the loss in revenue and overstaffing immediately.

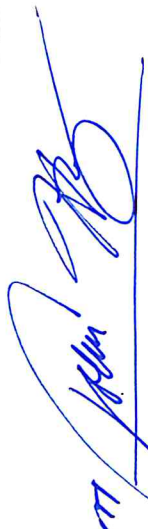

The Helena-West Helena School District because of the Reduction in Force that became necessary during the 2010-2011 and 2011-2012 school years has incurred an unemployment debt of approximately \$375,000.00 which is now due.

A similar amount will be due next year.

Helena-West Helena School District

Fiscal Distress District Improvement Plan

Plan Objective	Responsible Party	Specific Strategy	Board Action	Date Of Action	Funding Sources	Amount Of Net Savings	Objective Met Yes No
Objective 1	Administration	RIF up to thirty (30) staff members	March 2012	April 30, 2012	Teacher Salary Fund and Operating	\$1,191,850.00	X

Pulaski County Special School District Executive Summary

Pursuant to Ark. Code Ann. § 6-20-1905, on March 30, 2011, the Arkansas Department of Education identified the Pulaski County Special School District as a school district in fiscal distress. The Arkansas Department of Education made this identification because the Pulaski County Special School District met the following fiscal distress indicator(s) as set forth in Ark. Code Ann. § 6-20-1904: Material state or federal audit exceptions or violations.

The Pulaski County Special School District did appeal the fiscal distress identification. On May 16, 2011, following a public hearing, the State Board of Education classified the Pulaski County Special School District as a school district in fiscal distress, pursuant to Ark. Code Ann. § 6-20-1906. On June 20, 2011, the Arkansas Department of Education exercised its authority under Ark. Code Ann. § 6-20-1909 to assume authority over the Pulaski County Special School District. The Arkansas Department of Education removed the Pulaski County Special superintendent and school board, and appointed an individual to administratively operate the Pulaski County Special School District under the supervision and approval of the Commissioner of Education.

Pursuant to Ark. Code Ann. § 6-20-1905, on January 19, 2012, the Pulaski County Special School District was identified by the Arkansas Department of Education as a district in fiscal distress based upon the following additional indicator: A declining balance determined to jeopardize the fiscal integrity of a school district. The Pulaski County Special School District did not appeal the fiscal distress identification. On February 13, 2012, following a public hearing, the State Board of Education classified the Pulaski County Special School District as a school district in fiscal distress, with the additional indicator, pursuant to Ark. Code Ann. § 6-20-1906.

Arkansas law sets forth a clear process for school districts to follow in order to remove themselves from fiscal distress classification. Pursuant to Ark. Code Ann. § 6-20-1908, a school district in fiscal distress may only petition the State Board of Education for removal from fiscal distress status after the Arkansas Department of Education certifies in writing that the school district has corrected all criteria for being classified as in fiscal distress and has complied with all department recommendations and requirements for removal from fiscal distress status. The Pulaski County Special School District enacted a fiscal distress improvement plan aimed at correcting all criteria for being classified as in fiscal distress. The plan is attached to this report.

On March 10, 2016, the State Board of Education recommended that the Pulaski County Special School District be removed from Fiscal Distress status and State control.

Dear Dr. Guess:

This is to confirm the State Board of Education approved the recommendation for the Pulaski County Special School District to be removed from Fiscal Distress status and State control (reconstitution) at the March 10, 2016 meeting. The removal of the District's Fiscal Distress and State control (reconstitution) is effective as of March 10, 2016. After a school board has been elected the Arkansas Department of Education will arrange for the board members to received training. The Pulaski County Special School District is congratulated on this accomplishment. Please maintain a copy of this letter in your district audit file.

Sincerely,

A handwritten signature in cursive script that reads "Cynthia Smith".

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2011-12

- Revised policy specific to board and employee travel
- Revised policy to discontinue the utilization of blanket purchase orders
- Complied with APSCN timelines for bank statement reconciliation
- Revised procedures to segregate purchasing duties within the business division with respect to fixed assets
- Monitored compliance with Board procedures to add competitive bid awards as a regular agenda item
- Segregated accounting duties in payroll to achieve reliable payroll preparation and authorization
- Segregated accounting duties in regard to receipt of funding
- Developed and implemented a district wide overtime policy
- Enforced policy of employees not working past their contracted days without prior written approval
- Developed and implemented a district wide plan to secure district assets
- Monitored compliance with IRS regulations in regard to use of district provided vehicles
- Monitored compliance with district policy in regard to voiding of outstanding checks
- Monitored compliance with districts policy in regard to cell phone usage, use of gift cards and credit cards
- Published FBI "Corruption Reporting" email and phone number on the District website
- Established a policy for budget adjustments
- Monitored and implemented corrective actions for the 2008 through 2010 audit finding
- Demonstrated a "Tone at the Top" approach to financial accountability
- Monitored all expenses to remain within budget
- Accurately projected future revenue for budget purposes
- Supervised and monitored the procedure for proper federal and local employee coding
- Supervised and monitored proper accounts receivable procedures
- Monitored compliance of coding with the Arkansas Financial Accounting Manual
- Supervised and monitored the issuance of manual checks
- Supervised and monitored the proper use of desegregation funding
- Educated employees on fiscal policies and procedures
- Conducted audits through Legislative Audit
- Submitted Fiscal Distress Plan progress statements as a Board action agenda item
- Reduced 77 licensed and classified positions through RIF

2012-13

- Reduced salaries for 2012-13 through attrition
- Reduced teacher salary schedule from 192 to 190 days
- Implemented a new district-wide copier bid
- Revised employee insurance package
- Changed school bell schedule
- Reduced numerous personnel benefits paid above the state minimum
- Restructured debt through a bond refunding with a lower interest rate
- Established numerous new procedures that corrected past audit findings and strengthened fiscal integrity
- Implemented corrective actions pertaining to the FY11 audit findings
- Established a policy for budget adjustments
- Addressing the declining balance and building the legal balance to 10% of Annual Expenditures
- Identify cost reduction related to state desegregation funding

2014-15

- Reversed the declining balance and built the legal balance to 10% of Annual Expenditures

Pulaski County Special School District
LEA # 6003
Pulaski County

Comments:

The District was classified in Fiscal Distress on May 16, 2011. The District began their fifth full year of Fiscal Distress on July 1, 2015.

On June 20, 2011, the Arkansas Department of Education took control of the Pulaski County Special School District.

On June 20, 2011, Superintendent Charles Hopson and the School Board were released from their duties.

Mr. Bobby Lester Sr. served as Interim Superintendent from June 20-30, 2011.

On July 1, 2011, Dr. Jerry Guess was hired as Superintendent.

On October 10, 2011, the PCSSD hired a Certified Public Accountant to fill the vacant Chief Financial Officer position.

On February 13, 2012, the Arkansas State Board of Education added the following indicator to the Districts Fiscal Distress classification:

* A declining balance determined to jeopardize the fiscal integrity of the school district

The FY12 Unrestricted Legal Balance includes a non-reoccurring revenue receipt of 15.1 million dollars. Act 871 provides for a one-time adjustment to the local tax revenue received January through June. (previously known as 40% pullback).

On May 13, 2013, the State Board of Education approved the recommendation of the Department of Education to extend the fiscal distress classification, under authority of the state, for the 2013-14 school year and to authorize the Commissioner of Education to appoint a community advisory board pursuant to Act 600 of 2013.

On September 9, 2013 the State Board of Education approved the following individuals to serve on the Community Advisory Board for the Pulaski County Special School District:

Zone 1	Mr. Daniel Thaddeus Gray
Zone 2	Miss Tjuana Cynese Byrd

On March 28, 2014, the Arkansas State Board of Education approved the continuation of the Pulaski County Special School District Community Advisory Board and the Arkansas Department of Education's continued overview and governance of the Pulaski County Special School District.

The District is currently in the process of addressing the issues related to the desegregation funding.

The District's assessment will be adjusted due to recently identified tax errors.

In September 2014 voters in Jacksonville, AR approved the detachment of the Jacksonville, North Pulaski School District from PCSSD.

On November 13, 2014 the State Board of Education approved the order creating the Jacksonville-North Pulaski School District and appointment of a seven member board. PCSSD is currently in the process of addressing the financial and administrative issues related to the detachment of the newly created district.

In the Legislative Audit December meeting an extension was requested and granted for the FY14 audit. The extension was for 90 days with a completion date of March 31, 2015.

On February 12, 2015, the State Board of Education removed Pulaski County Special School District from the designation of academic distress.

On March 12, 2015, the Arkansas State Board of Education approved the continuation of the Pulaski County Special School District Community Advisory Board and the Arkansas Department of Education's continued overview and governance of the Pulaski County Special School District.

On March 10, 2016, the Arkansas State Board of Education recommended that the Pulaski County Special School District be removed from Fiscal Distress status and State control, upon election and training of school board members.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012
Progress Report – October 2015

School District: Pulaski County Special School District

Superintendent: Dr. Jerry Guess

Phone Number: (501) 234-2001

PART A. NARRATIVE OVERVIEW OF DISTRICT

Narrative Contained in Original Fiscal Distress Improvement Plan, May 26, 2011:

The Pulaski County Special School District (PCSSD) was established in 1927 by an act of the Arkansas Legislature joining 38 independent school districts into a “special school district”: Now the second largest in the state after the Little Rock School District, the PCSSD is among the 500 largest in the United States. The district contains nearly 750 square miles. PCSSD enrolls students from Little Rock, North Little Rock, Sherwood, Jacksonville, Scott, McAlmont, Maumelle, Woodson, Sweet Home, College Station and Wrightsville.

In Partnership with ADE, in 2009-10, the District completed a financial data system conversion to the Arkansas Public School Network System (APSCN) where the District’s entire financial database is hosted by the State. APSCN provides a system of transparency and accountability for local, state and federal funds. During the 2010-11 school year, the district transitioned to a student information system, eSchoolPLUS, as part of a statewide deployment by ADE. This student information system will manage all student data by providing accurate, real-time, and accessible student data.

More than 1,450 certified staff and 1,650 support staff are employed by the District. PCSSD is currently operating under a court ordered desegregation plan.

The Pulaski County Special School District is comprised of one Pre-K center, 24 elementary schools, two stand-alone alternative learning environments, six middle schools and six high schools. All secondary schools are North Central accredited. PCSSD schools are fully accredited by the state of Arkansas. Nothing in this plan will violate the Standards of Accreditation.

During the current school year, the District participated in discussions with the North Central Accrediting Association and is making the commitment to become fully accredited district wide. PCSSD embarked on the development of a comprehensive district-wide strategic plan along with an ambitious facilities renovation and rebuilding plan, Vision 2020, both of which are planned to be implemented in the 2011-12 school year.

Narrative Added with February 23, 2012, Revised Plan:

On May 16, 2011, the Arkansas State Board of Education classified PCSSD as a school district in fiscal distress on the basis of material state or federal audit exceptions or violations. On January 19, 2012, the Arkansas Department of Education identified PCSSD as being a school district in fiscal distress on the basis of a declining balance determined to jeopardize the fiscal integrity of the school district and recommended that the State Board of Education classify PCSSD as being in Fiscal Distress based on this additional indicator. On February 13, 2012, the State Board of Education accepted the recommendation of the Department of Education and classified PCSSD as being in Fiscal Distress on the basis of a declining balance determined to jeopardize the fiscal integrity of the school district. Therefore, the district has added additional objectives to its Fiscal Distress Financial Improvement Plan. The additional objectives begin with number thirty-six (36).

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Narrative Added with April 2012 Revised Plan:

Objectives 36-39 submitted February 23, 2012, dealt in general terms with district plans to address the declining balance the State Board of Education determined as an additional indicator of fiscal distress. Those four objectives have been replaced with a new objective 36 that provides several specific strategies for solving the declining balance problem. Objective 37 relates to the probability of the district losing state desegregation revenue. Objective 38 explains a recent bond refunding that will generate interest savings to be used for academic facilities improvements. Objective 39 provides the strategies for correcting audit findings contained in the financial audit for the fiscal year ended June 30, 2011.

Introduction and Summary

1. The District has unsuccessfully negotiated with the bargaining groups for certified staff and non-certified staff. A stalemate has been reached in these negotiations.
2. A healthy budget conforming to State law requirements cannot be attained unless the stalemate with the unions is broken. Some force or authority must emerge to break the stalemate or otherwise remove this impediment toward the District's ability to comply with State law in fiscal matters. Objective 36 contains specific strategies for reducing cost for the purpose of reversing the district's declining balance. If the cost reduction requires a change to the union agreement we elected to operate under during the 2011-12 school year, the amount of net savings is followed by "PNA" (Professional Negotiations Agreement). If the stalemate with the union cannot be broken, the PNAs should not be followed in 2012-13, should be formally voided and be replaced with board approved personnel policies. Those policies will allow the administration to manage the district and direct personnel with the understanding that decisions will be made reasonably, without discrimination, and consistent with the law.
3. The District has otherwise identified unilateral cuts and expenditure reductions it can make without agreement of the unions to help restore fund balances and begin the process of returning to a sound financial footing.
4. The District must identify ways to generate revenue for facilities funding if it is to ever attain unitary status and extricate itself from federal court supervision.
5. The District continues to believe that a comprehensive settlement of the 1989 Desegregation Agreement is the most effective and efficient means to exit from fiscal distress and welcomes the resumption of meaningful settlement negotiations.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Background

Fiscal Distress Status. On May 16, 2011, the District was classified by the State Board of Education as a District in fiscal distress. The reasons cited for the classification were:

- Material state or federal audit exceptions or violations.

The District completed a Fiscal Distress Improvement Plan and submitted it to the Department on May 26, 2011. That plan includes corrective actions for the material state and federal audit exceptions and violations and is currently being implemented. Additional actions may be needed following the completion of the 2010-2011 financial audit being conducted by the Arkansas Division of Legislative Audit. The audit was incomplete as of the date of this submission.

A January 19, 2012, letter from Kathleen Crain, Interim Assistant Commissioner, Fiscal and Administrative Services, Arkansas Department of Education, provided notice that an additional indicator of fiscal distress had been identified:

- A declining balance determined to jeopardize the fiscal integrity of a school district.
(Ark. Code Ann. §6-20-1904(a)(1)(A))

This additional indicator was based upon a joint review of the District's finances by the Department and the District, and the administration of the District agreed with this determination. A balance decline of \$5,500,000.00 was identified for the 2010-2011 school year.

In communications with its membership, the union leadership seeks to blame this fund balance decline on the current administration. However, this balance decline was identified for the 2010-2011 school year. Dr. Guess took over the reins of the District on July 1, 2011 or the beginning of the 2011-2012 school year. The other administrators and consultants identified by the union leadership were not hired until later in the 2011-2012 school year.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Steps Taken to Date

Act 871 provided some time for the District to carefully consider cost-cutting measures that will be necessary in 2012-2013 to balance the budget. That act provides for a one-time adjustment to the 40% pull-back in local tax revenue. This results in a one-time advancement of revenue to the District of \$15.1 million. This is not recurring revenue. Unfortunately, the union leadership has taken the position in communications with its membership that the \$15.1 million will cure the District's fiscal woes and restore healthy fund balances. Disappointingly, the union leadership fails to inform its members that this is non-recurring revenue and, therefore, its loss has a dramatic impact upon the budget for 2012-2013 and beyond.

The District believes there is a need to make significant changes. Approximately 80% of the district's budget relates to personnel cost, and no significant cost savings can occur without an effect on personnel. Beginning this year, all vacant positions are carefully evaluated before being filled. This has resulted in the reduction of 28.6 positions since the end of the 2010-2011 school year. At the same time, all areas of the organization are being reviewed to implement a Reduction in Force for 2012-2013. It is necessary to revise parts of the negotiated agreements with the Pulaski Association of Classroom Teachers (PACT) and the Pulaski Association of Support Staff (PASS) to reduce personnel costs.

Any modifications to the 1989 Desegregation Settlement Agreement also have the potential to significantly impact the financial future of the District. The State filed a motion on March 26, 2012 to immediately end funding flowing from the Settlement Agreement. The response of all three Pulaski Districts is due April 30, 2012.

The District currently receives approximately \$20,000,000.00 each year that the state classifies as desegregation related revenue. About half of these funds are in support of the Majority to Minority (M-to-M) Transfer Program and are in lieu of foundation funding. If the M-to-M program ends, the District would lose the differential between the \$10,000,000.00 of M-to-M funding it currently receives but would gain \$6,000,000.00 of foundation funding it currently does not receive for a net loss of \$4,000,000.00. The District also received about \$2,300,000.00 million for transportation related to M-to-M and Magnet School transportation. If those programs end, the transportation cost savings should be equal to the revenue loss. However, there is another \$7,300,000.00 of court awarded state revenue awarded because of the District's higher cost for employee health insurance and retirement. These funds allow the District to pay significantly more toward employee health insurance premiums than is required by law. If this funding ends, a significant reduction in the District's contribution toward health insurance may be necessary.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Due to the discovery of declining balances and the need to plan for the eventual loss of state desegregation funding, the District is including the following additional objectives in its Fiscal Distress Improvement Plan to help build an adequate fund balance and operate within its means:

- Held discussions with representatives of PACT to lower personnel costs required by the Professional Negotiations Agreement between the District and PACT.
- Held discussions with representatives of PASS to lower personnel costs required by the Professional Negotiations Agreement between the District and PASS.
- Lower operating costs for the 2011-2012 school year.
- Lower operating costs for the 2012-2013 school year.

The District has made numerous other changes this year that range from bidding new contracts for copiers to purposely not replacing employees who left if their services could be absorbed in reasonable ways. We have trimmed budgets in communications, learning services, technology, fringe benefits and maintenance. We will change bell schedules for 2012-13, change middle school schedules from eight periods to seven, examine very carefully secondary schedules for increased efficiencies, and more efficiently staff programs and services. We are working to identify by subject area or job classification specific positions to reduce. We understand that reduction means loss of jobs, but we are optimistic that because typically an average of 125 employees retire or resign, many reductions will take place through attrition.

The Status of Negotiations with PACT and PASS

The administration and the union leaders never attempted to resolve the question of whether the existing union contracts were void or voidable. There were two reasons this was not necessary. First, the ADE decided early on the District would observe the language and economics of the union agreements for the 2011-12 school year; second, ADE was willing for the District to negotiate new contracts with PACT and PASS. However, the *sine qua non* for the new contracts would be that they would (1) substantially reform the language in the old agreements that hamstrung the superintendent's ability to manage the district; and (2) achieve the economic reforms necessary to balance the budget for 2012-13. The administration tried both outside and within negotiations to convince the unions this was a "win/win" situation. On the one hand, the administration would gain the freedom to manage the district, as well as the economic relief necessary to balance the budget. On the other hand, once fiscal distress was ended, the unions would still be in place as the exclusive bargaining representatives of the employees with certified and classified contracts, and its dues check-off and other union security language intact. The administration has not succeeded in convincing the unions this is a "win/win" situation for the District and the unions.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

The essence of the parties' starting positions in negotiations was: (1) The District proposed deleting all restrictive language from the agreements to be replaced by general management discretion. That discretion would be restricted by providing that the administration could not act unreasonably, in a discriminatory manner, or contrary to law. An employee believing an administration action was unreasonable, discriminatory, or illegal, would have access to the grievance procedure to challenge the administration action. (2) On economics, the District proposed \$7,000,000.00 in savings and the unions *status quo* or zero savings. The unions never agreed to bargain on the language changes, thought it did "discuss" some changes. The unions did move some on economics in the meetings. However, the parties have now clearly reached a stalemate. The union leadership refuses to move, and the District cannot move further. In short, in several meetings over a month the district reduced its proposal for annual savings by almost \$3,000,000.00, while the union agreed to cut perhaps \$700,000.00 out of a needed \$4,200,000.00. At that point the mediator suggested adjournment, and the parties agreed, but not before the union representative stated in the strongest possible terms that the unions would not discuss, much less agree to, any changes in the PACT/PASS agreements. The mediators asked the District if it would agree to meet again. The District agreed, with the qualification that the mediators satisfy themselves that the union was, in fact, willing to move substantially toward the District on economics. The mediators called, said they were so satisfied, and the District agreed to meet. The parties met. The union leadership made no move.

The district needs to identify reductions in expenses equal to \$11,000,000.00 for next year. In addition, we need to make changes to the daily operation of the district that will require that both PNAs be replaced by new contracts, or voided and replaced by personnel policies and state law. We identified savings of about \$7,000,000.00 and worked to identify contract concessions of about \$7,000,000.00 that could be considered. Property tax collections during calendar year 2011 have come in about \$2,000,000.00 more than budgeted. We expect spring tax collections to also exceed budget, but we cannot be certain of that. We have reduced our needed savings to about \$4,200,000.00 for the 2012-13 school year. During talks with PACT/PASS, we have taken some items out of current consideration. Among those are the bonus for National Board Certification, longevity pay and reducing bus driver aides by one-half. We have insisted that savings are needed, are based on defensible calculations, must be identified and must be realized.

The District has asked for meaningful suggestions from PACT/PASS. Union leadership has offered to propose no raises in salary or fringe benefits for next year. They propose to freeze professional growth increments for next year only, which would amount to \$1,400,000.00. The administration noted throughout the process that it was using the 2011-12 expenditure budget as its baseline and was adding and subtracting from that number to project 2012-13 expenditures. This \$1,400,000.00 was not shown as an added cost in the administration's projections. Therefore, forgoing that cost does not decrease the projected costs nor increase the projected ending legal balance. That is not a true savings from this year's expenses, but is an anticipated expense in next year's budget based on expected movement as professional growth classes would affect each employee's placement on the salary schedule. The union leadership has further proposed reducing all 12-month contracts (244 days) to 190 days. It is not reasonable to assume that the district could operate successfully with reductions of 54 days in those contracts. Twelve-month contracts have been reduced here by 17 days to address past fiscal distress. There are 17 "cut days" listed in the calendar as a result of cost saving efforts in the past that have affected those contracts. The union officials have further "identified" savings of \$1,000,000.00 in district office, administration and operations changes. Those are savings that we have also identified and are planning to make.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

The Bottom Line

The District needs to reduce expenditures to State minimum standards to survive financially. The union leadership will not agree. This road block to realizing and constructing a budget for 2012-2013 that is acceptable to the State and conforms to state law must be removed.

Facilities

The District currently lacks the revenue to support all of the facilities projects that need to be completed. However, the District has managed to infuse its building fund with \$8,000,000 million, which is available for immediate-needs projects to ultimately make its most needy facilities safe, warm, and dry. That work will start immediately.

The District also recently successfully completed a refunding of bonds from 2004. This refunding will generate savings of approximately \$2.5 million over the 23-year remaining life of the bonds with most of the savings occurring over the next five years. Stated another way, this will “free up” approximately \$500,000 a year in interest savings that can also be dedicated to facilities projects during the next five years.

It is important that the readers of this Plan understand an additional factor that retards the District’s ability to finish its facilities task. The partnership share is determined in part by a school district’s local wealth per student. That in turn is a function of the District’s enrollment divided into its local tax base. Because the PCSSD has steadily lost enrollment over the past decade, its local wealth per student has been rising to artificially high levels. In other words, on paper, the District appears to be somewhat wealthy when in fact it is a district in double fiscal distress.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

The artificial increase in the local wealth per student is a function of enrollment decline. The enrollment decline is exacerbated by the proliferation of charter schools and the election of PCSSD students to attend those schools. For instance, from 2009 through the first semester of 2012, 311 students withdrew from PCSSD schools to attend Lighthouse Academy in Jacksonville. At least 66 students have withdrawn from Maumelle area schools to attend Academics Plus Charter School, during the same period of time. No doubt greater numbers transferred in earlier years. Also, at least 70 students have withdrawn from Sherwood area schools to attend LISA Academy schools the last three years.

The enrollment decline began long before charter schools proliferated and was fueled among other reasons by patrons' desires to avoid integrated schools, other desegregation requirements, elections to attend private schools, to home school or simply not relocate or locate in the Pulaski County Special School District.

All of this results or contributes to a substantial reduction in the State's contribution to facilities construction and remodeling in PCSSD and also results in reductions in State aid to PCSSD.

Whatever the State can do to help the PCSSD reverse its enrollment decline will directly and positively impact the PCSSD's ability to attain unitary status in the critical area of facilities.

If the State has suggestions for accelerating the District's ability to become unitary in the area of facilities (understanding that the ADE is currently assisting the PCSSD's efforts toward attaining this status), then those suggestions are welcome whether they take the form of loans (of which the State is now in a position to guarantee repayment in the future), guaranties, or other devices, such as the State building facilities and leasing them back to the PCSSD at attractive rates.

The Potential for a Comprehensive Settlement

With the State's pending motion to terminate funding, the PCSSD is optimistic that this development might reopen stalled settlement discussions. In the meantime, because it is a district in double fiscal distress, the PCSSD has no fiscal choice but to oppose the current motion which seeks an immediate, rather than phased, end to these three categories of State revenue.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

The PCSSD has always been willing to settle these issues. The PCSSD remains willing to settle these issues, but settlement necessarily must include a reasonable phase-out of the current funding in a way that allows the PCSSD or a newly reconstituted PCSSD to attain financial stability and long-term fiscal health.

All parties, including the State, must acknowledge and work toward not only a reasonable phase-out of the revenue but reasonable and sensible adjustments to the expense side of the equation. This necessarily impacts the Majority to Minority transfer program expenses as well as the stipulation Magnet school expenses. Stated another way, it is only half a loaf to propose a reasonable phase-out of revenues; corresponding reductions on the expenditure side have to occur to make any phase-out proposal meaningful. The PCSSD simply totally lacks the resources to continue to fund the M to M program or the Magnet program without the current sums received from the State.

It will take the concerted effort of all stakeholders to accomplish such a task, but the PCSSD is ready to be a leader in that regard. Perhaps the effort should be approached in segments, such as concentrating first on the M to M program adjustments or elimination, rather than seeking to tackle all of the revenue and expenditure parameters simultaneously.

Particularly problematic is the issue of sums received from the State for teacher retirement and health insurance. These revenues were not part of the original 1989 settlement agreement. Rather, they were awarded by the court presiding in the desegregation case as a judgment against the State for violating the 1989 settlement agreement. While the State claims changed circumstances to terminate all State funding, the fact is that it has not pled or described any changed circumstances justifying the elimination of teacher retirement or health insurance funding. It is a substantial sum of money to the PCSSD, and the District respectfully submits to the State authority that if litigation is inevitable and settlement an impossibility, this aspect of the current State funding may prove the most difficult and problematic for the State to escape.

Again, despite this, the PCSSD is ready, willing, and able to discuss a reasonable settlement agreement, one that provides a reasonable phase-out of revenues at least corresponding to a phase-out of corresponding expenditures.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Status Update: March 6, 2013

Material State and Federal Audit Findings

As of March 6, 2013, the audit report is still under review by the Arkansas Division of Legislative Audit. The report is expected to be published by March 31, 2013.

Declining Balance

Following the May 16, 2011, State Board of Education Meeting in which the district was classified as being in Fiscal Distress for “material state or federal audit exceptions or violations”, the district reported a declining legal balance for the fiscal year ending June 30, 2011. According to the Annual Financial Report the district submitted to the Arkansas Department of Education, the district’s legal balance decreased from \$9,516,856 to \$4,087,687 during the 2010-2011 school year. In addition, the district failed to accurately record an expenditure of \$689,855 for workers compensation insurance. With that expenditure added, the district’s legal balance decreased by \$6,119,024. Therefore at its February 2012 meeting, the State Board of Education added the indicator “a declining balance determined to jeopardize the fiscal integrity of a school district” to the fiscal distress status of the school district.

The district’s 2012-2013 budget provides for an increase of approximately \$500,000 to its Legal Fund Balance. It also includes approximately \$2M budgeted for the replacement of school buses. The district had not had a systematic bus replacement plan. With a fleet of 330 buses it is necessary to purchase 25-30 per year in order to maintain an average bus age of 12 years. As of March 6, 2013, the administration believes it is on track to achieve the budgeted ending Legal Balance of \$14.7M. This does include the one-time increase of \$15.1M to fund balance that occurred during the 2011-2012 school year due to Act 871 of 2011. (See “Steps Taken to Date” on page 4 above.) If property tax collections between March and June of 2013 match the amount budgeted, the district’s declining balance trend should be corrected. However, the district will still be short of its stated objective of having a Legal Balance equal to 10% of annual expenditures. Also, as explained below under “Union Contracts” and under “Desegregation Settlement” there is some pending litigation with some major financial ramifications. The outcome of that litigation is not likely to be known until after the completion of the 2013-2014 budget.

Facilities

The district maintains approximately 3.6M square feet of facilities spread over 730 square miles. The facilities vary in age and condition and the district has been unable to devote sufficient resources to bring many of these facilities up to an acceptable state of condition. Prior to the 2009-2010 school year, the district had made several year-end transfers from its Operating Fund to its Building Fund for the purpose of making facility improvements. After recently spending approximately \$7.4M of the Building Fund on a wide-range of projects that addressed “warm, safe and dry” issues, the Building Fund now has a balance of \$9.5M. Of this amount, \$3.7 million was derived from the legally required transfer of bond refund savings and the remainder was from a 2008-2009 transfer from the district’s Operating Fund.

The administration has identified \$4.1M of additional high priority “warm, safe and dry” issues and plans to begin those projects soon. The administration is also considering the refunding of two more bond issues (refinance at lower interest rate) that are expected to provide the Building Fund with another \$9M over the next three years. Once these funds are expended, there will be no recurring revenue stream for Building Fund projects without a complete restructuring and extending of all debt and/or a debt service millage increase. Because of the district’s negligible Facilities Wealth Index, the district qualifies for very little State Partnership Funding for facility additions and improvements. (See previous discussion of Facilities above.)

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Union Contracts

PACT and PASS have filed a notice of appeal from the dismissal of their claims against the State. The record in the case has not yet been lodged with the appellate court, but when it is the court will establish a briefing schedule for the appeal. If the district is required to reinstitute the union contracts retro-actively to the 2012-2013 school year, the district would be obligated to pay approximately \$4M more in personnel cost for that year. It would also be required to budget an additional \$5.7M for 2013-2014 and an additional \$6.7M for 2014-2015.

Desegregation Settlement

The District has proposed a hearing schedule for August and September, 2013. The district court is being asked to separately take up the district's unitary status in special education, one race classes, secondary gifted and talented and staff and personnel. An order addressing the proposed hearing schedule is expected in the near future.

The district submitted a comprehensive status report on February 1, 2013 addressing progress within and tasks remaining to be accomplished in the nine areas remaining for compliance with Plan 2000, its desegregation plan.

The district earlier submitted a response to the state motion to terminate desegregation funding by opposing it, but suggesting that if the court felt the need to modify the 1989 consent decree that it seriously consider redirecting funds toward facilities issues and the creation of a separate Jacksonville school district.

Assuming the approximately \$20M of funding for majority to minority transfer students, magnet and majority to minority transportation and health and retirement employer costs were to be eliminated, the net loss to the district would be approximately \$14M per year. This assumes a gain of approximately \$6M if majority to minority transfer students received remain in PCSSD and start generating state foundation funding.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Status Update: September 30, 2013

Material State and Federal Audit Findings

The audit for the year ended June 30, 2012, was published following the district's status update dated March 6, 2013. A material weakness relating to the segregation of financial accounting duties was noted in that audit. There were also five Management Letter findings listed. Corrective action has been taken with all of these findings. Completely addressing the segregation of duties may take additional time and additional personnel. Also, more time may be needed to ensure that all fixed assets are properly tagged and serial numbers included in the capital asset listing. The Division of Legislative Audit began auditing the year ended June 30, 2013, September 19, 2013.

Declining Balance

The district ended the 2012-2013 school year with a Legal Fund Balance equal to 10.4% of annual expenditures. The budget for the 2013-2014 school year shows an ending Legal Balance equal to 10.1% of budgeted annual expenditures. The district has met objective number 36: "Reverse the declining balance identified by ADE to jeopardize the fiscal integrity of the school district and build a legal balance equal to 10% of annual expenditures." Some of the specific strategies intended to address that objective had a three-year implementation plan and therefore are still on-going. The outcome of pending litigation, discussed below, could have a material effect on the district's future balances.

Union Contracts

In September 2013 the Arkansas Supreme Court upheld a lower court ruling that the Commissioner of Education had the statutory authority to terminate the union contracts.

Desegregation Settlement

The state's motion to end desegregation payments will be heard in federal court December 9, 2013. The district's share is approximately \$20.8M per year. Assuming the district retains its M-to-M students and its Little Rock Magnet School students, the net loss of funding would be about \$14M. If these funds are withdrawn, the district would have to eliminate all costs paid with state desegregation revenue. This might have to occur over more than one year and therefore a negative impact on the district's fund balance would be likely.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Status Update – April 1, 2014

As of the September 30, 2013, update to the district's Fiscal Distress Improvement Plan, all objectives except for objectives 17 and 37 had been met. Objective 17 is "Supervision and monitoring of security for District Properties". The strategy stated in order to meet this objective is to develop and implement a district wide plan to secure district assets. A written plan has been written and is in the process of being implemented. This will be an ongoing effort but the administration believes Objective 17 has been substantially met.

Objective 37 is to "Identify cost reduction possibilities in the event state desegregation funding is eliminated." On January 13, 2014, Federal Judge Price Marshall approved a settlement agreement between the Pulaski County School Districts, the Joshua interveners and the State of Arkansas regarding the 1989 Desegregation Settlement Agreement. This agreement will require the State of Arkansas to continue payments, comparable to the amount the school districts are now receiving, for the next four school years. The fourth year payment is restricted for the construction of academic facilities. Therefore it will be necessary for PCSSD to develop and implement a plan for operating without approximately \$20.8M beginning with the 2017-2018 school year. It will be necessary to eliminate programs that are now being funded with desegregation revenue, or find another source of funding for those programs. State Foundation Funding is calculated in order to provide districts with sufficient funds to meet state standards and legal requirements. State categorical funding is provided in order to fund Alternative Learning Environments, English Language Learner Programs, Teacher Professional Development, and programs designed to meet the needs of students from low-income families. If a program being funded with Desegregation Revenue is determined to be essential for student achievement, it may be necessary for it to replace a program or programs currently being funded with state categorical funding. Therefore in order to fully meet Objective 37, it will be necessary to evaluate all programs not required to meet state accreditation standards and use state categorical money to fund the programs showing the greatest impact on student achievement. It will not be possible to continue funding all of the programs that have been made possible due to the state desegregation revenue. The primary cost of all programs is personnel. Therefore it will also be necessary to reduce staff due to the reduction of programs. At this time, substantial work remains in order to meet Objective 37.

On March 20, 2014, the State Board of Education ordered an election for the purpose of creating a new Jacksonville/North Pulaski School District. The new school district would detach area containing ten schools now in PCSSD. The election will likely occur September 2014 and the new district could start operations as early as July 2015. The area being detached from PCSSD contains approximately 25% of the PCSSD students and approximately 14% of the property assessments. If this detachment is approved by voters, State Board of Education, and the Federal Court, a significant number of issues affecting the fiscal stability of PCSSD, and the newly created school district, will have to be considered and carefully addressed.

ARKANSAS DEPARTMENT OF EDUCATION
FISCAL DISTRESS FINANCIAL IMPROVEMENT PLAN
PLAN YEAR 2011-2012

Status Update: April 2014

The administration believes all objectives, other than #37 discussed in the April 2014 status update, have been met. The district is working with ADE to complete a five-year projection of revenue and expenditures that will identify the expenditure amounts that must be reduced in order to prevent a declining fund balance following the loss of desegregation revenue. This project will result in a plan for reducing expenditures due to both the loss of revenue following the detachment of Jacksonville-North Pulaski and the loss of state desegregation revenue. At this time it appears necessary to reduce expenditures by approximately \$39.4M due to the detachment of Jacksonville-North Pulaski and approximately \$15.4M due to the loss of state desegregation revenue. This will likely involve a reduction in force affecting approximately 640 positions.

Status Update: October 2015

As was provided in the April 2015 update, the administration believes all objectives have been met with the exception of objective #37. The detachment of Jacksonville-North Pulaski continues to hold a high degree of uncertainty and financial risk for PCSSD and JNPSD. Projections for reduction in expenditures of approximately \$15.4M due to the loss of state desegregation revenue were included in the April 2015 update. The administration will be unable to identify all cuts necessary to offset the loss of desegregation funds until the financial settlement of the JNPSD detachment has taken place.

NOTE FROM DIRECTOR

The Arch Ford Co-op staff prepared our Annual report of activities for the year 2015-16. The report is designed to report to participating school district personnel, school board members, area legislators, State Department of Education personnel, and the Governor's office, activities that the Co-op accomplished during this year.

The Arch Ford Co-op staff has attempted to report, in capsule form, a picture of the multi-faceted services and activities that it provides to member districts through a wide range of program areas. This cooperative region encompasses twenty-nine school districts in eight counties. The cooperative's service area includes 51,422 students and 4,137 public school teachers and administrators.

Arkansas' education service cooperatives have grown and matured to the place where member districts rely upon their co-op for certain services. Too, legislators, Department of Education personnel, and others from state-level education related groups look to the co-ops for assistance. That is testimony to the quality and dependability of service provided over time. It is also evidence of the commitment made to enhancing the quality of the education offering for students in member districts through collegial efforts, cost savings measures, timesaving, and general program enhancement. Co-ops bring statewide efforts to the regional level, resulting in cost and timesaving measures for both the state and the local districts.

The Arch Ford Co-op staff is anxious to report evidence of this progress in the evaluation summaries that follow.

Phillip Young, Director

ARCH FORD EDUCATION SERVICE COOPERATIVE

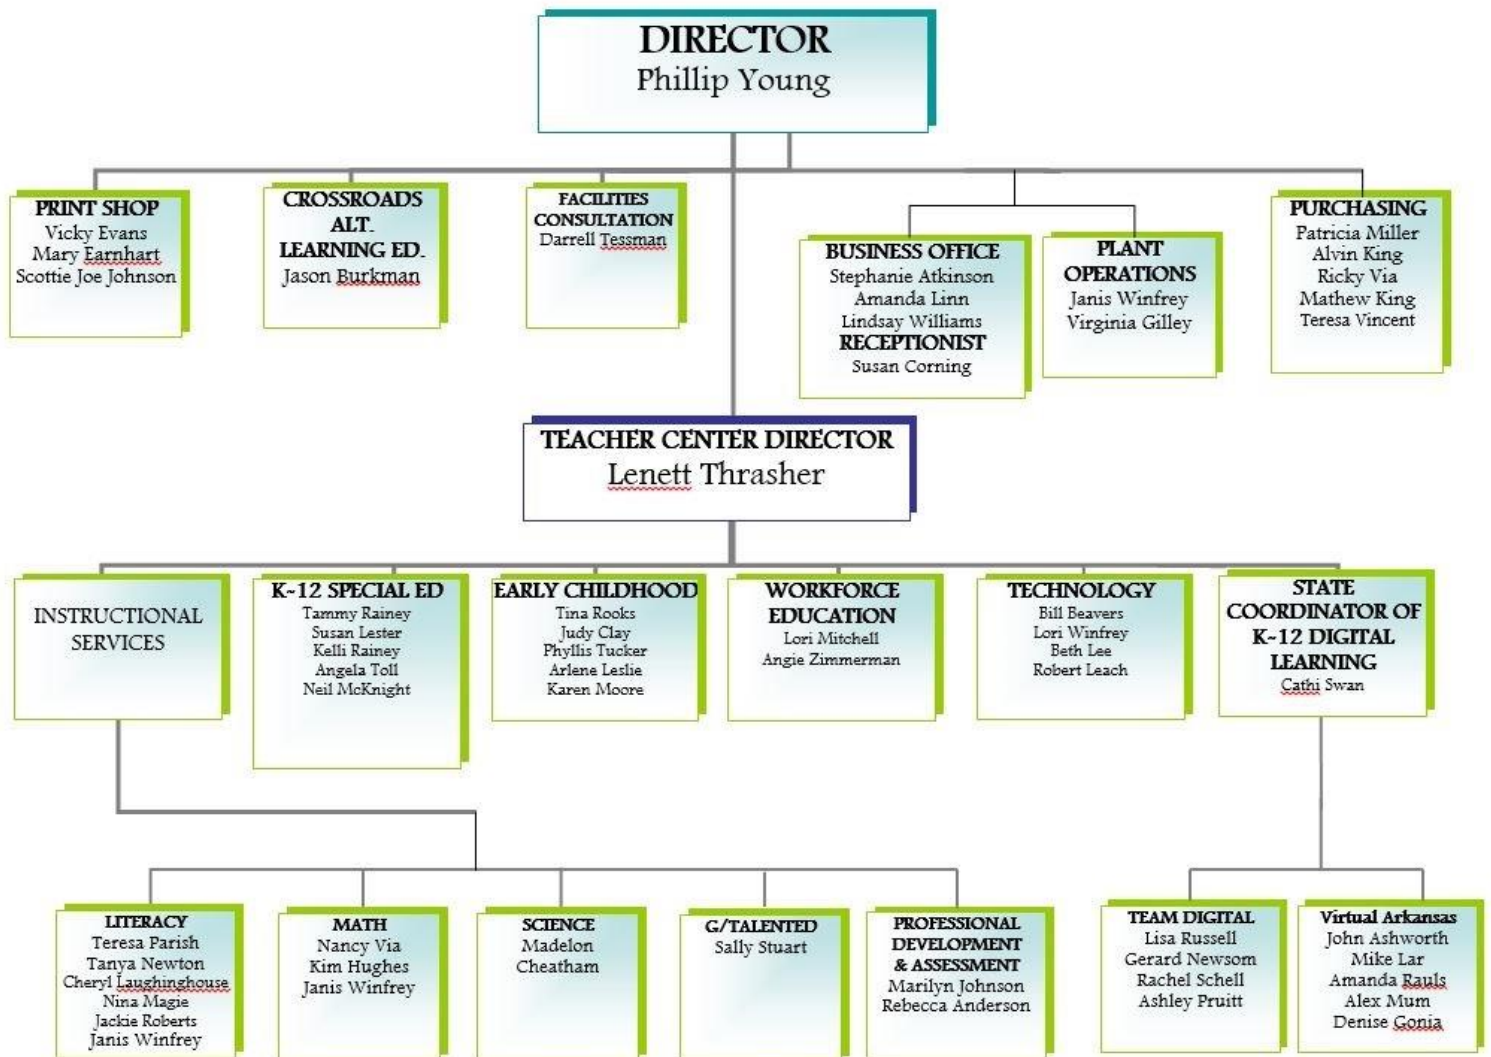

MISSION STATEMENT

Arch Ford Education Service Cooperative is committed to and strives toward academic excellence for all students by enhancing effective teaching, developing leadership, offering technical assistance, providing extensive support, and promoting state and regional initiatives to all 26 school districts.

GOALS STATEMENTS

- To ensure that all teachers in the Arch Ford Education Service Cooperative are provided opportunities for professional growth in "Best Practices" of Teaching to expand their skill base.
- To provide administrative training opportunities for instructional leadership for current and prospective administrators.
- To offer technical assistance to teachers and administrators in areas of concern. They include technology, curriculum, fiscal management, behavior, safety, special education, federal programs, and crisis management.
- To partner with member schools in compliance of Act 999 to implement the accountability process.
- To support and assist our district schools in state and regional initiatives.

ARCH FORD ESC Organizational Chart

Officers of the Board

Name	Position	School District
Phillip Young	Director	Arch Ford Education Coop

Number of Teachers: 4,137

I. GOVERNANCE:

- A. How is the co-op governed? Board of Directors X or Executive Committee _____
How many members on the Board? 26
Executive Committee? 10
How many times did the Board meet? 11
Executive Committee? 11
When is the regular meeting? 4TH Thursday of the month
Date of current year's annual meeting: October 9-11, 2015
- B. Does the co-op have a Teacher Center Committee? YES X NO _____
If yes, then:
How many are on the Teacher Center Committee? 26
How many members are teachers? 16
How many times did the Teacher Center Committee meet? 3
When is the regular meeting? October, January, April
- C. When was the most recent survey/needs assessment conducted? December 2015
- D. Have written policies been filed with the Arkansas Department of Education?
Yes X No _____

II. STAFFING:

Please list (or attach a list of) all staff members of the co-op (including those housed at the co-op and paid through other sources), their titles and the salary funding sources for the positions. Place an asterisk (*) beside those who are housed at the co-op only and whose salary does not flow through the co-op's budget.

TEACHER CENTER

Please attach a list of all inservice training/staff development workshops offered through the co-op, including month offered, topic, number of districts participating, number of participants and location of workshops. Place an asterisk (*) beside those which provided curriculum assistance. Include a cumulative total of participants. See attached form.

- A. Does the co-op provide media services to schools? YES ☐ NO ☒
Approximate the number of titles in media center: _____
Does the co-op provide delivery to the districts? YES ☐ NO ☒
How many districts participate in the media program? _____
How many titles (including duplicate counts) were provided to schools during this current year? _____
Do districts contribute dollars to the media services YES ☐ NO ☒
How are media charges per district determined (formal or per ADM)? _____
Please describe: _____
Does the co-op operate a "make-and-take" center for teachers? YES ☒ NO ☐
If yes, then: _____
How many teacher visits have been made to the center? (Count all teachers who have visited the center, using duplicate counts for teachers who have visited the center more than once). A Teacher Center is available for teacher use in an open environment at our co-op. Teachers may access materials during regular co-op hours without formally signing in so there are no records of usage.

III. ADMINISTRATIVE SERVICES

Please check administrative services offered through the co-op:

- ☒ Administrators and Local Board Members Training
☒ Assessment Data Analysis
☒ Bookkeeping assistance
☒ Business Management training
☒ Computer Technician
☒ Cooperative Purchasing
☒ C.P.E.P. Administration
☒ Curriculum Alignment
☒ E-Rate Applications
☒ Evaluation procedures
☒ Gifted and Talented assistance
☒ Grant writing assistance
☒ Instructional Facilitator Training
☒ Math/Science/Literacy Specialists
☐ Migrant program

- ☒ [X] Numerous professional development opportunities for teachers
- ☒ [X] Personnel application
- ☒ [X] Planning assistance
- ☒ [X] Special Education Services
- ☒ [X] Technology training
- ☒ [X] Other (please specify)
- ☒ [X] Print Shop
- ☒ [X] Purchasing Department
- ☒ [X] Facilities Coordination

IV. DIRECT SERVICES TO STUDENTS

Please check the student services provided through the co-op:

- ☒ [X] Computer-assisted instruction
- ☒ [X] Gifted/talented programs: 26 participating districts
- ☒ [X] Itinerant teachers – please list areas: Early Childhood, Special Ed. Teachers, Charlie May Simon
- ☒ [X] Low Incidence handicapped
- ☒ [X] Mentor programs: AIMM
- ☒ [X] Music, art
- ☒ [X] Occupational therapy and physical therapy
- ☒ [X] Speech therapist
- ☒ [X] Other (Please specify):
- ☒ [X] Nursing Services

V. ANECDOTAL REPORTS

Please attach three or four descriptions of activities which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or the descriptions may be written by local schools served by the co-op. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

ARCH FORD CAREER AND TECHNICAL EDUCATION PROGRAM

The Arch Ford Career and Technical Education Department is dedicated to enhancing student achievement in both academic and career and technical education by offering technical assistance to CTE instructors, implementing advanced technologies in the classroom, and providing a career planning system for all students served. The Arch Ford CTE Consortium originally began with 17 school districts. It expanded two times by adding an additional 5 districts in the 2011-2012 school year and then, 2 more districts in 2014-2015 for a total of 24 districts the CTE department currently serves.

In 2014, with the goal of building a strong connection between secondary classrooms to the workplace and higher education, the Arch Ford CTE department established the Central Arkansas CTE Regional Business Partnership Council set to hold meetings annually. In the second annual meeting, the participation doubled when around 200 business representatives and secondary and post-secondary educators met together to discuss workforce issues such as skills gaps in the workplace and issues businesses and industries identify when trying to hire, attract, and train their employees.

By using performance data and outcomes of the council meeting, the CTE department provides schools with materials to enhance instruction, implements new projects and activities, assists students with adaptive equipment, provides professional development and assists districts with new program start-up grants. Our current initiatives are building business partnerships for teacher internships, increasing industry certifications, and working on concurrent and articulated credit, which has led to a strong partnership with UACCM and ATU-Ozark.

ARCH FORD CROSSROADS ALTERNATIVE LEARNING ENVIROMENT PROGRAM

Crossroads Alternative Learning Environments, under the management of Arch Ford Education Service Cooperative since the year 2000, are specifically designed to meet the needs of students who exhibit the characteristics that qualify them for a non-traditional route to education. The program located at Quitman is the oldest program and provides services to Quitman, Guy-Perkins, Rose Bud, Southside Bee Branch, Westside Greers Ferry, Greenbrier, Mt. Vernon-Enola, and Heber Springs. During the 2012-13 school year, the program expanded its services from providing one alternative learning environment to the Quitman consortium school districts to add new programs at Conway and Atkins for the 2013-2014 school year. The Arch Ford Career Academy, located at Conway Junior High School, provides services to students in grades 10-12 interested in exploring a career-focused educational environment. The Arch Ford Career Academy provides students a JAG (Jobs for Arkansas Graduates) curriculum and includes Conway, Mayflower, and Vilonia School Districts. The program located at Atkins provides services to students in grades 7-12 for Atkins, Dover, Pottsville, and Hector School Districts. During the 2014-2015 school year, the program continued to expand its services to include South Conway County School District and also expanded the existing programs at Quitman, Atkins, and Conway to include more grade levels ranging from K-12. The campuses located at Conway include a K-4 program, a 5-8 program, and 9-12 program in addition to the existing Arch Ford Career Academy. The campuses located at South Conway County include a K-4 program, a 5-8 program and a 9-12 program with a career-focus that partners with the River Valley Vocational Center. The campuses located at Conway include Conway, Mayflower, Greenbrier, Vilonia, Mt. Vernon-Enola,

and East End Bigelow School Districts. The campuses located at South Conway County include South Conway County, Perryville, and Wonderview School Districts. During the 2015-2016 school year, the program expanded to include nine total programs and also created a new program for the 2016-2017 school year for districts outside of the Arch Ford consortium area including Ashdown, Mena, and Mount Ida School Districts. The new program, The Hub, will also provide a non-traditional route to education and includes a state waiver for its participating districts to offer students an innovative and flexible approach to education. This program currently has twenty-two participating school districts. Students are recommended and screened to attend Crossroads and/or The Hub based upon documentation furnished by the sending school district's referral team, explaining why this setting would be best for the student. A student's eligibility to participate is based upon exhibiting at least two of the standard criteria, as outlined in the Arkansas Rules and Regulations for Alternative Learning Environments. Once a student enters Crossroads, his or her academic, social and behavioral progress is monitored daily by the ALE team of staff members, mental health professionals, and supervisors. The director and supervisor meet with the ALE team and teams from the sending schools to discuss progress. A Student Action Plan is developed 1-3 days upon placement and short and long-term goals are set to address the factors that led to the placement. The goal of Crossroads is to transition each of its students back to their home campus successfully. Based on progress on their SAP (Student Action Plan), students become eligible for transitioning back to their sending campus when their goals, as outlined in the SAP, are met and/or exceeded for at least a nine-week period. Using specific actions with timelines and forming a partnership with the sending school during the transition has led to students' success. The programs employ thirty-three employees. The alternative learning environments are non-punitive settings that encourage students to overcome the barriers that led to placement in a positive atmosphere that promotes and nurtures the success of all students needing a non-traditional route to education. The staff members work as a team to provide the support network that students need in order to be successful in school.

ARCH FORD EARLY CHILDHOOD SPECIAL EDUCATION PROGRAM

The Arch Ford Cooperative Early Childhood Special Education Program has successfully completed twenty seven years of direct services to children ages three to five with disabilities. Since 1988 the Program has grown and this year alone served over seven hundred students on behalf of the 26 school districts in the cooperative region. Services include screenings, evaluations, behavior / social skills training, speech / language therapy, developmental therapy and physical and occupational therapy. With the goal of preparing children for future school success, the Early Childhood Program staff work closely with agencies, child care providers, physicians, universities, and parents to build the foundation for educational partnerships prior to kindergarten.

In an effort to promote developmental appropriate services for all children the Early Childhood Program provides technical assistance to child care providers in over 220 facilities. Services are provided and delivered through a free and appropriate public education which may include interaction with peers who are developing normally, coordination with other agencies, public school based classrooms, public and private preschools such as daycare centers and head start centers, itinerant based services and home based for children with medical needs.

The Arch Ford Early Childhood Program works collaboratively with Yale University and has successfully provided the Mutt- i- grees social emotional curriculum in eleven districts. The curriculum is also implemented in the Arch Ford ABC classroom for children with disabilities. Active training is being offered to grow the social emotional curriculum in the 26 districts to build capacity for social emotional learning for future kindergarten success.

The program is monitored by the Arkansas Department of Education, Special Education Division and has been in compliance meeting all standards and regulatory procedures. The Early Childhood Special Education Program is actively building the foundational capacity for preschool inclusion training to grow through all of the 26 districts that are served to daycare, ABC Programs, and HeadStart Programs. Parents are encouraged to actively participate in all aspects the program and offer input regarding their child. Parent surveys are conducted each year. Activity packets were disseminated to all students to enhance the carryover process during the summer months and encourage parent and child interactions.

EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each educational service cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year: 5

For this number above, please provide the number in each of the following racial classifications:

White 4

African American 1

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of new females employed by the cooperative for the 2015-2016 school year: 42

For this number above, please provide the number in each of the following racial classifications:

White 40

African American 2

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

TERMINATED

Number of males terminated by the cooperative during the 2015-2016 school year: 8

For this number above, please provide the number in each of the following racial classifications:

White 8

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of females terminated by the cooperative during the 2015-2016 school year: 10

For this number above, please provide the number in each of the following racial classifications:

White 9

African American 1

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year: 2

For this numbers above, please provide the number in each of the following racial classifications:

White 1

African American 1

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of females seeking employment by the cooperative during the 2015-2016 school year: 22

For this number above, please provide the number in each of the following racial classifications:

White 21

African American 1

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

PROGRAM: **Accounting**

FUNDING SOURCE: Base, District, Federal Grants, State Grants

COMPETITIVE GRANT: Yes ___ No ___

RESTRICTED: Yes ___ No ___

PARTICIPATING DISTRICTS: Atkins, Bauxite, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side, Two Rivers, Vilonia, West Side, Western Yell County, Wonderview

PERSONNEL: Stephanie Atkinson, Business Manager
 Amanda Linn, Accounts Payable

GOAL:

- To provide financial support to all programs and participating districts of the Cooperative

PROGRAM: **Arkansas Public School Computer Network (APSCN)**

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED: Yes X No _____

PARTICIPATING DISTRICTS: Atkins; Clinton; Concord; Conway; Dover; East End; Greenbrier; Guy Perkins; Heber Springs; Hector; Mayflower; Mt. Vernon/Enola; Nemo Vista; Perryville; Pottsville; Quitman; Russellville; S. Conway County; Shirley; Southside Bee Branch; Vilonia; West Side; Wonderview

PERSONNEL: Chere Turner, BS

GOAL:

- To assist schools within the Arch Ford Coop area with their Student Management System (SMS) electronic records system and meeting statewide guidelines.
- To assist district with Cognos reports.
- To assist districts with day-to-day problems and training in the SMS software
- To assist with training and the electronic submission of the Statewide Information System Report Cycles required by the Arkansas Department of Education.
- Train and assist in the software conversion from Student Plus to eSchool.

PROGRAM SUMMARY

The Student Applications Field Analyst provides services to districts within Arkansas that utilize the SMS statewide Student Management System software to electronically submit data to the Department of Education as required by law. The software is used to store district, school, and student data. The SunGard Student Management Systems Applications provided by APSCN is computer software used primarily to process and maintain student records. The modules include: Demographics, Attendance, Scheduling, Report Cards, Transcripts, Interim Progress Reports, Discipline and Medical. The student field analyst provides districts with consulting and training workshops through meetings at the Cooperative, school visits, and communicating closely by e-mail and telephone. Various trainings offered throughout the year include, but are not limited to, SMS Required Fields for State Reporting, New Personnel, Implementation of new software for Statewide reporting, Cognos Report Writing, Next Year Scheduling and Year End Rollover.

MAJOR HIGHLIGHTS OF THE YEAR:

- State Report Cycle Training and workshops for all Arch Ford districts
- Review and Training for each of the 9 Student Management software modules
- Cognos Report Writer Training
- Various workshops to assist with trouble shooting and entering data
- Help prepare districts for the Sungard eSchool conversion. Training districts in setup and implementation of eSchool software.

PROGRAM: Career and Technical Education

FUNDING SOURCE: Department of Career Education and
District allocations of Carl D. Perkins Federal Funds

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED FUNDING X **NONRESTRICTED FUNDING** ____

PERSONNEL: Lori Mitchell, CTE Coordinator, M.S.E.
Angie Zimmerman, CTE Academic Attainment Specialist, M.S.E.

Participating Districts: 24

Atkins	Clinton	Danville
Dardanelle	Dover	East End
Greenbrier	Guy-Perkins	Heber Springs
Hector	Mayflower	Mt.Vernon/Enola
Nemo Vista	Perryville	Pottsville
Quitman	Russellville	Shirley
South Side	South Conway County	Two Rivers
Western Yell County	West Side-Greens Ferry	Wonderview

- GOAL:**
- To provide Career and Technical Education instructors quality staff development to enhance student achievement
 - To encourage the development and implementation of advanced technologies in the improvement of Career and Technical Education Programs.
 - To provide a comprehensive career planning system for all secondary students within our consortium schools.

PROGRAM SUMMARY:

The Career and Technical Education Department has the responsibility to develop and coordinate the Carl D. Perkins Program. This includes proposal writing for consortium schools, managing the budget, and providing accountability information to the Department of Career Education. It is our goal to serve as a liaison between our member schools and the Career and Technical Education state staff in the collection of data; evaluation of programs; assistance to new instructors; and continuing staff development for all career and technical education instructors. Staff development includes such initiatives as; Career Action Planning, Student Competency Testing, Integration of Academic and Career and Technical Education, Accountability in the CTE Classroom and Instructional Strategies in the CTE Classroom. We also provide Career Development for all 8th grade students. The Career and Technical Education Department will continue to encourage the development, implementation, and improvement of Career and Technical Education Programs by supporting curriculum changes that move students along to current industry standards and purchasing equipment to teach the new-advanced technology.

Major Highlights of the Year:

- Our Perkins consortium performed above the State targets on the Perkins Performance Indicators in the following areas:
 - Literacy - +2.91%
 - CTE Skill Attainment – +2.87%
 - School Completion - +1.97%
 - High School Graduation – +7.97%
 - Placement of CTE Completers – +.28%
- Wrote and received 3 New Program Start-up Grants for Dover School District (Management), Heber Springs School District (Animal Systems) and West Side-Greens Ferry School District (Internship) = \$65,019.90
- Obtained CTE Completer Data for 24 high schools and provided each completer with a CTE Completer Certificate
- Handled all financial duties for the Department of Career Education's Career Guidance Mentorship Program.
- Served as the Career and Technical Education representative on the Arkansas Department of Education's Committee of Practitioners
- Obtained CTE Placement Data for 24 high schools
- Obtained CTE Student Certification Data for 24 high schools
- Assisted all CTE Instructors with the ACE Teacher Information System and On-line Student Competency Testing System
- Provided Student Competency Test results to all cooperative high schools
- Provided professional development in the areas of Career Planning, Student Engagement, Literacy Coaching, Support of LDC, Classroom Management, TESS.
- Prepared, budgeted and managed the Perkins Consortium with 24 member districts with a total allocation of \$379,630.00
- Hosted our second annual CTE Regional Business Partnership Council Meeting with 200 participants representing Business/Industry, Economic Development, Post-Secondary Education, and Secondary Education

ARCH FORD PERKINS CONSORTIUM PERFORMANCE DATA

INDICATOR	ACTUAL PERFORMANCE			ANNUAL INCREASE	2015-16 TARGET
	2012-13	2013-14	2014-15		
Academic Attainment-Literacy	67.65%	73.51%	78.91%	5.40%	76.50%
Academic Attainment-Geometry	78.36%	82.81%	78.00%		79.00%
Technical Attainment	74.94%	82.63%	80.87%		75.00%
High School Completion	93.76%	97.25%	97.97%	.72%	96.50%
High School Graduation	91.68%	97.25%	97.97%	.72%	91.00%
Placement	92.67%	94.48%	95.28%	.80%	94.70%
Nontraditional Participation	27.57%	29.59%	25.32%		28.50%
Nontraditional Completion	30.67%	18.94%	20.16%	1.22%	27.25%

Participant: a student enrolled in 1 credit or more, used for the Nontraditional Participation measure.

Concentrator: a student enrolled in three units within a program of study, used for the Literacy, Geometry, Completion, Graduation and Technical Attainment measures.

Completer: A student, who completes a program of study and graduates, used for the Placement and Nontraditional Completion measures.

Academic Attainment Literacy: number of CTE concentrators who have met the proficient/advanced level on the statewide high school reading/language arts assessment.

Academic Attainment Geometry: number of CTE concentrators who have met the proficient/advanced level on the statewide high school mathematics assessment.

Technical Attainment: number of CTE concentrators who were proficient on assessments taken within the program of study.

High School Completion: number of CTE concentrators that graduate plus the number of CTE concentrators that receive a GED during the reporting year.

High School Graduation: number of CTE concentrators who, in the reporting year, were included as graduated in the State's computation of its graduation rate.

Placement: number of CTE concentrators who successfully completed the program of study and graduated from high school and who were employed, enrolled in post-secondary, or in the military six months following graduation.

Nontraditional Participation: number of nontraditional gender students enrolled in one or more units within a program of study that is nontraditional for their gender during the reporting year.

Nontraditional Completion: number of nontraditional gender concentrators who successfully complete programs of study designated nontraditional and graduate from high school during the reporting year.

PROGRAM: **Community Health Nurse & Promotion Specialists**

FUNDING SOURCE: Arkansas Department of Health

COMPETITIVE GRANT: Yes ____ No x

RESTRICTED FUNDING: **NONRESTRICTED FUNDING** x

SCHOOL DISTRICTS: Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side, Two Rivers, Vilonia, West Side, Western Yell County, Wonderview

(Note: Community Health Promotion Specialist also covers all counties in Western WAESC Co-op)

PERSONNEL: **CHNS: Cindy Jones, RN**

GOAL: Provide technical assistance to schools in order to promote, improve and support student health

PROGRAM SUMMARY:

Provide technical assistance to schools to assist schools to:

- adopt tobacco-free policies and implement best practices for tobacco prevention and cessation
- adopt policies promoting and implementing best practices for nutrition, physical activity, Coordinated School Health and emerging public health issues
- strengthen school wellness committees and fulfill state and federal mandates
- inform communities of school health issues and current public health policy

Provide education and training to:

- certify school nurses and conduct mandated health screenings
- provide school nurses with professional continued education related to school health
- inform schools and communities of school health resources, available trainings, and grant opportunities
- promote research-based, best practice, comprehensive health education curriculum to school nurses and school staff
- provide presentations for students, staff and community members regarding health, tobacco, obesity prevention, injury prevention and related health issues
- assist in grant seeking for health and community projects
- provide information about health care resources
- provide continuing education aimed at health and physical education teachers

MAJOR HIGHLIGHTS OF THE YEAR:

Position: CHNS (Nurse):

A small sampling of the work provided by the CHPS includes the following:

- Served as community-to-school health liaison as an active participant on wellness committees and community coalitions including, but not limited to: Safety Shower Committee-Morrilton, Conway, Community Service Incorporated Taskforce, Russellville health subcommittee, Coordinated School Health physical activity workgroup, Cleburne County grant, Arkansas Coalition for Obesity Prevention.
- Increased assistance for injury prevention projects, including several ATV safety events, technical assistance, worksite wellness and teen driving.
- Broadened scope of technical assistance via some outreach to every school district and wellness committee/School Health Index training to those schools willing to host a workshop.
- Increased data and evaluation capability by surveying PE/health teachers/nurses, creating and utilizing workshop evaluations, collecting data for multiple grant applications, scheduling and providing workshops to assist school wellness committees in the use of BMI data, YRBS, BRFSS, County Health data and PROFILES in order to evaluate their efforts.
- Attempted to increase awareness of the role of the CHNS and of public health via increased public appearance at schools, after school events, community coalitions, and health fairs. Completed a NW Arkansas CHPS CHNS brochure including roles and biographies on each CHPS and CHNS.

Summer workshops included 1) Wellness 2) School Health Index 3) CPR 4) First Aid 5) Back to school nurse workshops

- tobacco prevention efforts continued in conjunction with school nurse, health fairs, worksite assistance for tobacco free policies and SHI assistance to schools.

PROGRAM: Consolidated Purchasing Services

FUNDING SOURCE: Base Fund: Local-Pass through participating districts

COMPETITIVE GRANT: Yes _____ No X

RESTRICTED _____ **NON-RESTRICTED** X

PARTICIPATING DISTRICTS:

Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, S. Conway County, South Side, Two Rivers, Vilonia, West Side Greers Ferry, Western Yell Co., Wonderview. All other schools in Arkansas are eligible, with most participating. Several other states also participate, including: Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Mississippi, Missouri, Tennessee, Texas, Washington and Wisconsin. (250+ Districts in all)

PERSONNEL:	Tricia Miller	Purchasing Supervisor
	Teresa Vincent	Asst. Purchasing Supervisor
	Ricky Via	Delivery
	Alvin King	Warehouse Manager
	Judith Jones	Warehouse
	Matthew King	Delivery/Warehouse Assistant

GOAL:

- To assist large and small school districts in increasing their purchasing power
- To make the purchasing program accessible to all educators
- To maintain warehouse inventory for purchases throughout the year
- To assist schools in getting supplies in a timely manner
- To continually increase buying power to provide schools with lowest possible prices year round
- To provide easy shopping, either by fax, on-line or in-house
- To provide superior delivery services than common carriers

PROGRAM SUMMARY:

The Arch Ford Education Co-Operative Purchasing Department was established in 1985 when 30 school districts pooled their resources in order to bid for quantity discounts on a few items. While consolidated purchasing is no longer a new concept, Arch Ford paved the way for Arkansas schools to reap the benefits of cooperative purchasing. Not only does this help in the area of monetary savings, but it also maintains the schools compliance with Arkansas Bid Laws. Entire warehouse inventory is competitively bid, which allows smaller schools without purchasing personnel to benefit from quantity based pricing. Another advantage afforded to Arch Ford cooperative schools is free delivery. The purchasing department has scheduled deliveries at least twice a month to cooperative schools. The Arch Ford delivery staff delivers supplies to any location within the school instead of dropping it at the front door like most common carriers.

The Purchasing Department has over 28,000 square feet of inventory storage space. This has allowed inventory expansion and the introduction of new products as they become available and requested. Given the current market on copy paper, this amount of space allows the purchase of enough paper, approximately 8400 cases, to provide Arch Ford co-operative schools with paper at a level price throughout the year. In addition, the Purchasing Department will deliver whatever amount of paper a facility is physically capable to store, eliminating the schools need for excess storage areas.

Major Department Highlights:

The Purchasing Department supports schools in a variety of ways, including:

- Monetary savings on items ranging from 20% to 50%
- Will pack individual teacher orders or bulk campus orders
- Will invoice orders to district specifications, either one “bulk” invoice and total, or individual invoices by teacher. This allows bookkeepers to monitor the individual teacher accounts more efficiently.
- Competitively bid all inventory annually to maintain compliance with Arkansas Bid Laws
- All Back-to-School orders delivered before the first day of school

PROGRAM: Cooperative Print Shop

FUNDING SOURCE: Base Funds/Local Purchase of Services

COMPETITIVE GRANT: Yes____ No X

RESTRICTED FUNDING____ **NONRESTRICTED FUNDING** X

PARTICIPATING DISTRICTS: Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Hector, Mayflower, Mount Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side Bee Branch, Two Rivers, Vilonia, Westside Greers Ferry, Western Yell County, Wonderview.

PERSONNEL: Vicky Evans, Supervisor
Scottie Johnson, Print Shop Assistant
Mary Earnhart, Printer

GOAL:

To equip the print shop with the latest printing technology and machinery available in order to provide more timely and cost effective printed materials for our school districts

PROGRAM SUMMARY:

Arch Ford Education Print Shop provides cost efficient printing for education-based organizations within and outside the Arch Ford Cooperative region.

MAJOR HIGHLIGHTS OF THE YEAR:

- Printed 1400 Booklets For New Science Standards
- Purchased Eclipse 27 Laminator from Staff Development
- Visited School Districts to Advertise Printing

PROGRAM: **Crossroads Alternative Learning Centers**

FUNDING SOURCE: **Combined Participating Local School Districts**

COMPETITIVE GRANT: Yes _____ No X

RESTRICTED FUNDING X **NONRESTRICTED FUNDING** _____

PARTICIPATING DISTRICTS:

Atkins, Conway, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Mayflower, Mt. Vernon-Enola, Perryville, Pottsville, Quitman, Rose Bud, South Conway County, South Side Bee Branch, Vilonia, Westside Greers Ferry, Wonderview

Lynda Horton-Clark, Computer Lab Facilitator
Bridgett DeLancey, Computer Lab Facilitator
Kourtney Bradley, Computer Lab Facilitator
DeShannon Dennis, Administrative Assistant
Tommy Hargis, Administrative Assistant
Rachell Wells, Administrative Assistant

PROGRAM SUMMARY:

The Division of Alternative Learning Services Crossroads Alternative Learning Centers provide intervention services to students from participating districts referred to the programs who are in need of a non-traditional route to their education who exhibit the qualifying characteristics to be considered as at-risk.

PROGRAM GOALS:

- To provide intervention services to at-risk students who are referred by districts to qualify for an alternative learning setting
- To provide a non-punitive educational setting for at-risk students to help them overcome or eliminate barriers to success in traditional settings
- To provide mental health services to all students and families
- To provide smaller class sizes to support at-risk students' needs
- To promote an instructional delivery methodology using high-yield strategies utilizing direct instruction for the core components
- To promote a learning environment that utilizes computer labs and integrates technology that is dedicated to providing elective and credit recovery instruction
- To customize an approach by developing and implementing student action plans that are tailored to meet/exceed the goals set for each participating student
- To transition eligible students back to their sending districts who have overcome or eliminated the barriers that contributed to being referred to the alternative learning setting

MAJOR HIGHLIGHTS OF THE YEAR:

- Expanded from three campuses during the 2014-2015 school year to nine-campus during the 2015-2016 school year
- Arch Ford Career Academy received the 5 of 5 award as being recognized as one of the top four JAG (Jobs for Arkansas Graduates) programs across the state
- Crossroads Conway K-4 Campus received the Model Program Award from the Arkansas Department of Education
- River Valley 9-12 Campus received the Model Program Award from the Arkansas Department of Education
- Assisted districts to receive state waivers for 22 school districts to offer a flexible model for the upcoming school year for the newly formed Hub program

PROGRAM: Directors Office/Administration

FUNDING SOURCE: Base Funds

RESTRICTED FUNDING X **NONRESTRICTED FUNDING**

PERSONNEL: Phillip Young, Director, M.S.E. Ed.S.
Stephanie Koontz, Bookkeeper, B.S.
Amanda Stewart-Linn, Bookkeeping Assistant
Lindsay Wofford, Executive Assistant, B.S.
Susan Corning, Receptionist/Administrative Assistant

PROGRAM SUMMARY:

The director has general supervisory responsibility for all cooperative programs. He is responsible to the governing and executive boards for recommendations on personnel, program changes, new programs, and routine daily management and operations. A primary responsibility centers upon his attending statewide meetings for the purpose of keeping the school boards and superintendents informed on matters relating to the legislative, state board, or other policy making bodies. He serves as liaison to the State Department of Education for member districts.

FINANCES:

The program funds are divided into State, Local, and Federal Programs. State and Local Programs are those programs that are either funded by state grants or revenue received from local school districts. Each program’s funding operation is expected to support the program activities.

PROGRAM: Digital Learning – Virtual Arkansas, Team Digital, Arkansas Connect2Digital

FUNDING SOURCE: ADE Grant – Act

COMPETITIVE GRANT: Yes_____ No____x__

RESTRICTED Yes **NONRESTRICTED** _____

PARTICIPATING DISTRICTS:

PERSONNEL:

Cathi Swan, Superintendent –State Coordinator of Digital Learning, BSE, MSE
Mike Lar, Virtual Arkansas Director of Operations, BS, MBA, ED.D, ABD
Junior Stormes, Director of Technology, BS
John Ashworth, Virtual Arkansas Director of Academics, BSE, MSE
Lisa Russell, Team Digital Member, BSE
Gerard Newsom, Team Digital Member, BA
Rachel Schell, Team Digital Member, BS, MS
Ashley Pruitt, State Coordinator Administrative Assistant, BA
Alex Munn, Central Office Administrative Assistant, BA

GOAL:

The mission of the digital learning program is to provide equitable, efficient, and effective learning opportunities for students and educators. These opportunities are offered utilizing digital solutions to extend learning where local access may not exist. The Arkansas Education Service Cooperatives support and provide resources to assist Virtual Arkansas and Team Digital.

PROGRAM SUMMARY:

Virtual Arkansas is an Arkansas-based program that is implemented through a partnership between the Arkansas Department of Education and the Arkansas Education Service Cooperatives. We provide an array of quality digital courses to public school students in Arkansas and utilize Arkansas licensed instructors. Virtual Arkansas serves approximately 200 districts and over 30,000 student enrollments. We are not an online high school or a diploma-granting institution but are a resource for supplementing education for public school students. Students who are enrolled in a public school may be enrolled in Virtual Arkansas courses by the local school administration.

Virtual Arkansas is committed to developing the full potential of Arkansas students by providing access to quality online courses that incorporate interactive instruction to prepare students to be successful in their college and career educational pursuits and in the global economy. School districts "Power Up with Virtual Arkansas" for a variety of reasons. A district may face a teacher shortage, want to provide additional course scheduling opportunities to their students, offer their students access to a digitally enriched curriculum, or broaden their course offerings beyond those mandated by the Standards for Accreditation of Arkansas Public Schools. Finally, districts that partner with Virtual Arkansas will be satisfying the requirements of Act 1280, the Digital Learning Act of 2013. www.virtualarkansas.org

Team Digital:

Team Digital works within a state team to support the planning, implementation, and evaluation of digital learning environments in Arkansas. Team Digital has expertise in emerging online teaching and learning practices that allow for active learning; effective content authoring and lesson design methods that best serve digital education; and strategies in helping educators transform system-centered practices into student-centered practices. Team Digital interacts with media production workgroups, learning management system consultants, technology solution experts, pedagogical experts, curriculum design experts, and educators around the globe. Team Digital also provides operational support to state projects, Arkansas Cooperatives, and public schools in the growing interest in blended and online learning.

www.teamdigital.org

Arkansas Connect2Digital:

Arkansas Connect2Digital is a digital platform where Arkansas educational agencies house digital resources and implement blended professional development. It supports 20,000 users and is managed by the Arkansas Education Service Cooperatives.

Major Highlights of the Year:

- Held first ever workshop in the state for Teachers and Administrators on Blended Learning and Remix strategies.
- Implemented a technical assistant/will-call application to help participating schools solve issues within 24 hours.
- Presented at TICAL on the Future of Blended Learning
- Held statewide school consultations on the planning and implementation of Blended Learning
- Trained over a 100 High School counselor's around the state on Virtual Arkansas' registration process
- Attended the 2015 INACOL conference on Blended Online Learning
- Completed an Educational Cooperative Promotional Video
- Successfully implemented team visits to Virtual Arkansas' participating schools
- Named resource affiliate for ADE on school waiver process
- Completed a Virtual Arkansas Marketing/Promotional video for the Essentials of Computer Science and Computer Programming
- Presented at the 3rd Annual Data Conference

PROGRAM: **Early Childhood Special Education**

FUNDING SOURCE: Federal and State Grant / ADE

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED X **NON-RESTRICTED** ____

PARTICIPATING DISTRICTS: Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, Southside/Bee Branch, Two Rivers, Vilonia, Western Yell, Westside, Wonderview.

PERSONNEL:

Tina Rooks, Early Childhood Special Education Director (E.d. S)
Judy Clay, Retired part time Early Childhood Special Education Director (M.S.E.)
Lezlie Arnold, Speech Pathologist (M.S.E.)
Tricia Benish, Behavior Specialist (Ph.D)
Tricia Biggers, Speech Pathologist (M.S.E.)
Ashley Bingman, Early Childhood Special Education Teacher (M.S.E.)
JoAnna Blocker, Early Childhood Special Education Teacher (M.S.E.)
Karen Boatner, Early Childhood Special Education Teacher (M.S.E.)
Christi Berry, Speech Pathologist (M.S.E.)
Claire Bussey, Speech Pathologist (M.S.E.)
Samantha Carter, Speech Pathologist (M.S.E.)
Cathy Dennis, Early Childhood Special Education Teacher (M.S.E)
Lori Dial, Speech Pathologist (M.S.E.)
Elizabeth Dunn, Early Childhood Special Education Teacher (M.S.E.)
Crystal Eary, Speech Pathologist (M.S.E.)
Meggie Ford, Speech Pathologist (M.S.E)
Melissa I. Freeman, Early Childhood Special Education Teacher (B.S.E.)
Melissa A. Freeman, Speech Pathologist (M.S.E.)
Nikita Galla Tarrants, Speech Pathologist (M.S.E)
Robin Gattis, Speech Pathologist (M.S.E.)
Cindy Harmon, Speech Pathologist (M.S.E.)
Beth Harness, Early Childhood Special Education Teacher (M.S.E.)
Jennifer Jordan, Early Childhood Special Education Teacher (M.S.E.)
Julie Kelley, Para Educator (AA)
Debbie Kreun, Para Educator
Arlene Leslie, Data Entry / Office
Danielle Matthews, Speech Pathologist (M.S.E.)
Karen Moore, Medicaid/Office Clerk (A.A.S.)
Audrey Anna Mortenson, Speech Pathologist, (M.S.E.)
April Nash, Early Childhood Special Education Teacher (M.S.E.)
Rhonda Nosal, Speech Pathologist (M.S.E.)
Kristi Olson, Early Childhood Special Education Teacher (B.S.E)
Trudy Pearson, Speech Pathologist (M.S.E.)

Danielle Schulze, Speech Pathologist (M.S.E.)
Lauren Faulk, Early Childhood Special Education Teacher (M.S.E.)
Melinda Smith, Early Childhood Special Education Teacher (B.S.E.)
Tara Stevenson, Speech Pathologist (M.S.E.)
Amy Ward, Early Childhood Special Education Teacher (M.S.E.)
Pam Tomlinson, Para Educator (A.A.)
Phyllis Tucker, Administrative Assistant (B.B.S.)
Jill Hollowell, Early Childhood Special Education Teacher, (B.S.E.)
Sarah Wilson, Para Educator, ABC
Keri Wyatt, Speech Pathologist (M.S.E.)

GOAL:

- To identify children ages three to five in need of special education services through screenings and evaluations
- To provide developmentally appropriate special education services for identified preschool children ages three to five through an Individual Education Program
- To enhance teacher awareness of current best practices through high quality professional development
- To provide supports for child care providers in the delivery of services for children with special needs

PROGRAM SUMMARY:

The Arch Ford Early Childhood Program is a mandated special education preschool program for children with disabilities ages three to five. The services are offered in accordance with the Individuals with Disabilities Education Act on behalf of the local school districts.

A child may be eligible for special services if he/she is experiencing difficulties which interfere with normal development in the following areas: speech/language, vision, hearing, motor skills, behavioral/social skills or cognition/readiness skills. Services are provided at no cost to the family. Services include screenings, evaluations, preschool instruction, speech/language therapy, physical/occupational therapy and other appropriate services. Services are provided and delivered through a free and appropriate public education which may include interaction with peers who are developing normally, coordination with other agencies, public school based classrooms, public or private preschools such as daycare centers and head start centers, itinerant based services, and home based instruction.

Special Education due process procedures are followed for all children in the Early Childhood Program. The Program is monitored by the Arkansas Department of Education, Special Education Division. The Program receives state and federal funding based on December 1 Child Count. There is no cost to the family for services. However, Medicaid and private insurance are billed when appropriate.

Major Highlights of the Year:

- Conducted screenings in child care settings throughout the cooperative area
- The December 1, 2015 child count was 682.
- Implemented the Mutt-i-grees Social Learning Curriculum in child care settings in the cooperative area.

- Served as a cooperative partner with Yale University for the social emotional curriculum in the Arch Ford ABC classroom and child care centers
- Provided training and technical support for day care personnel
- Provided staff development training opportunities based on needs survey
- Conducted team meetings and consultations for program data analysis
- Continued Interagency collaboration with head start, Department of Human Services, Arkansas Better Chance, child care providers, related service providers, public schools, and health departments
- Contracted with Arkansas Children's Hospital for direct Audiology Services for children including screenings and evaluations
- Continued implementation of the Rethink Program which provides evidence based practices for children, parents, and teachers.
- Updated technology equipment for staff to use in direct therapy with children
- Trained early childhood and school age staff on transition procedures
- Actively involved in Arkansas Preschool Plus Partnership/ Businesses
- Transition books/packets provided to preschool children entering kindergarten
- Provided summer activity packets for families for parental involvement
- Participated in ARMEA activities and trainings.

*Rethink Leadership Implemented with Facilitated Tiered Learning for Positive Behavior Outcomes and Increasing Social and Emotional Learning for future Kindergarten Success.

* Implemented new ABC BIT Inventory for all counties

Implemented Required implementation of CLASS ASSESSMENTS of SEAS Program to increase outcomes of preschool children and increase outcomes of IEP's to protect from litigation.

Served on Committee for ABC Chairperson to Review/Revise ABC Regulations for State

Served on Committee for Early Childhood with UCA at Morrilton

Served on Committee for Early Childhood with CAPCA Headstart for Faulkner County

Accepted Invitation to serve on Committee for Save the Children Headstart for Increasing Social Emotional Outcomes and reducing Physical, Emotional, and Sexual Abuse to PreSchool Children in Russellville.

Provided Trainings for best practice in today's world of litigation, changes of due process in relation to Department of Education requirements.

Implemented required make up therapy for all children built into schedule for documentation of compensatory education when the student is absent and/or when the teacher is absent for any reason to eliminate litigation for compensatory education.

Implemented TESS Pilot Project with all EC Teachers, Behavior Specialists, and Speech Pathologists.

Pilot Project required 13 to participate with TESS Pilot Project according to new staff requirements.

Community Resource Guides were created for staff and families in Faulkner County to collate resources for parents, staff, and community stakeholders. Community Resource Guide was created in Russellville for Speech Therapy to increase parental communication of how to work with students at home. Community Resource Guide was created in Van Buren County for the same above reason.

EC staff has streamlined technology with utilizing Google applications.

Literacy Tool Kits have been purchased for Speech Pathologists to implement in speech therapy to increase preschool literacy outcomes through therapy.

PROGRAM: **Arkansas Better Chance Program (ABC Program)**

FUNDING SOURCE: ABC Grant

PERSONNEL: Karen Boatner, ABC Teacher, MSE
Pam Tomlinson, Para Educator, AA

RESTRICTED FUNDING **X** **NONRESTRICTED FUNDING**

PROGRAM SUMMARY:

The Arch Ford ABC Program is a program designed to provide safe, healthy, nurturing experiences for preschool children in a developmentally appropriate setting. In order to be accepted into an ABC Preschool Program, the child must qualify under one or more of the following areas:

- 1) Income Level as listed on the application form
- 2) Teenage Parent
- 3) Low Birth Weight (under 5 1/2 lbs.)
- 4) Parent without high school diploma or GED
- 5) History of abuse/neglect or drug/alcohol abuse
- 6) Disability under IDEA
- 7) Failed developmental screening
- 8) English as a second language

FUNDING STATEMENT:

The Arch Ford Cooperative received a grant for the ABC Program funded through the Arkansas Division of Child Care & Early Childhood Arkansas Department of Education. The ABC Program has established a Parent Advisory Board that meets monthly to work with the teacher and para-educator to enhance each child's learning experiences and educational opportunities. There is no cost to the family for a child to be enrolled in the ABC Program.

ARCH FORD ABC SITE: Conway

Holds District II position for AGATE

PROGRAM: **Gifted and Talented**

FUNDING SOURCE: Local and State Grants from ADE

PERSONNEL:

<u>POSITION</u>	<u>NAME</u>
------------------------	--------------------

G/T Specialist, A/P Specialist	Sally Stuart
--------------------------------	--------------

RESTRICTED FUNDING X **NONRESTRICTED FUNDING**

Participating Districts:

Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side, Two Rivers, Vilonia, West Side, Western Yell County, Wonderview

PROGRAM GOALS:

- To deliver appropriate educational services to students in grades K-12 who possess talents and gifts evidenced by the interaction of above average intellectual ability, task commitment, motivation, and creative ability to help students realize their potential.
- To ensure the identification of gifted and talented students who possess high potential or ability and learning characteristics and educational needs which require qualitatively differentiated educational experiences and/or services in grades K-12.
- To ensure that G/T teachers and Coordinators are provided with support and opportunities for professional growth.
- To provide administrative training for G/T Coordinators in instructional leadership.
- To offer technical assistance to G/T Teachers and Coordinators in areas of concern including curriculum, technology, and state standards for G/T education.
- To provide professional development to help schools meet the educational needs of gifted and talented students
- To be a liaison with the OGTAP/ADE, schools, parent and professional groups, public and private agencies, and to conduct public awareness and advocacy programs.
- To organize student activities that will benefit all students in cooperative area schools.
- To provide Advanced Placement information and training to AP and Pre-AP teachers and Advance Placement coordinators.

PROGRAM SUMMARY:

Assistance is provided to local school district administrators and gifted and talented district coordinators and teachers through consulting and training services including meetings at the Co-op, visits to schools, and staff development in-service training. Supervision is provided to assure that services to students are delivered, school records are accurate, and school GT Action plans are in compliance. The specialist serves as the liaison with ADE/OGTAP office and works closely with the state AGATE (Arkansans for Gifted and Talented Education) and AAGEA (Arkansas Association of Gifted Educational Administrators) organizations to develop public awareness and student programs.

The Specialist provided professional learning opportunities to support the delivery of G/T services during the year including the following programs:

- Secondary Course Content Workshop-Provided secondary teachers who have G/T students in their classrooms with strategies to provide differentiated curriculum for those students. Secondary teachers in the core disciplines are required to take this workshop.
- Pre-AP College Board Training for Strategies in English and Social Sciences-This workshop provides teachers with strategies in English and the social sciences to prepare students to be successful when they take Advanced Placement courses.
- Pre AP College Board Training for Mathematics-This workshop provides teachers with strategies in mathematics to prepare students to be successful when they take Advanced Placement courses.
- Pre AP College Board Training for Science-This workshop provides teachers with strategies in Science to prepare students to be successful when they take Advanced Placement courses.
- Quiz Bowl information and coaches' meetings-Information about how to conduct and coordinate quiz bowl tournaments and prepare students for competition is provided to participating schools in the cooperative area.
- Chess information and tournaments-Information about how to host a local tournament and prepare students for competition is provided to participating schools in the cooperative area.
- Collaborative Unit implemented again this year with topic of CSI. Several Schools joined it, while a few were unable to

Major Highlights of the Year:

- G/T Coordinators met eight times this year for ADE updates and instructional leadership training
- Advanced Placement Coordinators met for ADE updates and training as well as AP teachers who met for training
- Attended fall AAGEA Conference, AGATE Conference and the NAGC Conference
- Sponsored a practice day for Quiz Bowl, four Regional Quiz Bowls in the cooperative area, and the Final Quiz Bowl for the cooperative area
- Offered a Collaborative Unit for students to participate and share with other students outside their district
- Attend nine school monitoring visits by ADE/OGTAP for Arch Ford schools who were being monitored. Visited the monitoring schools at least twice and all other 15 schools at least one time. Two schools were visited 3-4 times due to new coordinators.
- Shared information to G/T teachers via emails and through the GT Arch Ford website
- Updated webpage as new information became available and categorized resources for G/T programs and added a Google site for quick access to meetings and registrations.
- Writers In The Schools Program conducted by University of Arkansas at Fayetteville Graduate Candidates in Creative Writing
- Provided resources and support for G/T teachers in meeting the needs of secondary G/T students
- Provided On-Site meetings to allow GT coordinators more one-on-one time to collaborate and strengthen their program and curriculum.
- 22nd Annual Elementary Chess Tournament
- Provided a "Student Share Fair" for students to showcase work from their GT classroom
- Promoted Advanced Placement and Pre-Advanced Placement courses and programs

PROGRAM: K-12 Mathematics Program

FUNDING SOURCE: Arkansas Department of Education, K-12 Mathematics Specialist Grant

COMPETITIVE GRANT: YES__ No X

RESTRICTED X **NON-RESTRICTED**__

PARTICIPATING DISTRICTS:

Heber Springs, Quitman, West Side Greer’s Ferry, Nemo Vista, South Conway County, Wonderview, Conway, Greenbrier, Guy-Perkins, Mayflower, Mt. Vernon–Enola, Vilonia, East End Bigelow, Perryville, Atkins, Dover, Hector, Pottsville, Russellville, Clinton, Shirley, South Side Bee Branch, Danville, Dardanelle, Two Rivers, Western Yell, Academics Plus

PERSONNEL:	Nancy Via	K-12 Mathematics Specialist, MSE
	Kim Hughes	Secondary Math Specialist, MSE
	Janis Winfrey	Administrative Assistant

GOAL:

To promote and support effective, research-based mathematics practices for all students by providing professional learning opportunities and technical assistance to teachers, math coaches, curriculum specialists, administrators, school improvement team members, instructional assistants, mathematics interventionists, parents, SPED, and Title I math teachers in the area of standards-based mathematics curricula, instruction, and assessment.

PROGRAM SUMMARY:

Arch Ford Education Service Cooperative, in partnership with the Arkansas Department of Education, administers the Mathematics Program for grades K-12, established by ACT 1392 of 1999 for the improvement of mathematics instruction throughout Arkansas. Assistance is provided to schools through professional learning programs, demonstration lessons, teacher observations, technical assistance, and teacher/administrator conferences in order to improve the teaching and learning of mathematics through increased content understanding and improved instructional strategies across the curriculum. Professional learning opportunities offered in 2014-2015 include:

- **Common Core State Standards for Mathematics:** These 20+ trainings are 2-day courses designed to help teachers understand both common core content and mathematical practices.
- **Mathematics Design Collaborative (MDC):** MDC is an on-going professional development process that consists of tasks aligned to the Common Core State Standards that target those skills needed in mathematics. Formative assessment is used as a tool for monitoring what students are learning and identifying misunderstandings or skill weaknesses in students. These tasks work together to provide robust learning opportunities for students. The focus of MDC was Algebra I and geometry. Participants attended 7 days of professional development and were provided a minimum of 6 on-site support visits during the school year.
- **Grades K-3 Cognitively Guided Instruction:** This statewide initiative utilizes a research-based framework designed around how elementary school children learn concepts of number, operations, and early Algebra. The goal of this training is for teachers to learn how to utilize this framework to inform their mathematics instruction. Teachers learn to analyze and write mathematically demanding story problems and number sentences in order to assess and further students’ understanding of concepts and skills. Attention is also focused on how to recognize student responses in terms of cognitive development, facilitate discussions that will provide a window into children’s thinking, strengthen children’s ability to reason about arithmetic, and build students’ capacity for algebraic reasoning.
- **Lesson Study:** This model modified to support teachers in long-term professional development such as CGI, ECM, and Common Core State Standards in Mathematics is utilized on a monthly basis to work with teams of

teachers at their school site. In lesson study teachers look carefully at what is to be taught (content) and what lessons would best support the learning and how (pedagogy) the lesson should be taught, teachers collaborate with one another, work on lessons and refining lessons and analyze student work. Protocols are used flexibly to connect the complexities of teaching mathematics and students.

MAJOR HIGHLIGHTS OF THE YEAR:

- Teachers participating in long-term PD
- On-site support of long-term PD through team meetings
- Model Teaching
- Pre/Post Observations in classrooms
- State Presentations

Summary of ADE Common Core Mathematics PD Courses for 2014-2015

Each course is created and made available in a variety of formats:

- Online (Moodle) – Six-week course with math specialist as course facilitator
- Face-to-Face Workshop – 2 or more days taught by math specialist or other trainer, including in-house district/school-based trainers
- PLC Meetings

*In the Online (Moodle) format, each course includes components that require participants to try out ideas with students, such as by posing problems, interviewing focus students, and/or developing and leading a class discussion or lesson.

PROGRAM: **Literacy**

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division
K-12 Literacy Unit

COMPETITIVE GRANT: Yes ____ No x

RESTRICTED FUNDING X **NONRESTRICTED FUNDING** _____

PARTICIPATING DISTRICTS: Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side, Two Rivers, Vilonia, West Side, Western Yell County, Wonderview

PERSONNEL: Teresa Parish, Literacy Specialist, MSE.
Cheryl Laughinghouse, Literacy Specialist, MSE
Tanya Newton, Literacy Specialist, B.S.
Nina Magie, Literacy Specialist, MSE
Jackie Roberts, Literacy Specialist, MSE
Janis Winfrey, Administrative Assistant

- GOAL:**
- To enhance teacher awareness and implementation of current best practices through high quality professional development
 - To meet the needs of students through integrated assessment and responsive instruction
 - To ensure that all students are meeting the state and national standards in literacy

PROGRAM SUMMARY:

Implementing a Comprehensive Literacy Framework for K-1 is a professional development developed by literacy specialists from ADE and educational service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level.

Implementing a Comprehensive Literacy Framework for 2-3 is a professional development developed by literacy specialist from ADE and educational service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level.

Implementing a Comprehensive Literacy Framework for 4-5 is a professional development developed by literacy specialist from ADE and educational service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level.

Implementing a Comprehensive Literacy Framework for 6-8 is a professional development developed by literacy specialist from ADE and educational service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level.

Comprehensive Literacy for Adolescent Student Success (CLASS) is a two-year professional development designed for grades 6-12 ELA and special education teachers in implementing a comprehensive research based approach to literacy instruction.

Literacy Design Collaborative (LDC) focuses on incorporating literacy instruction as the foundation of core subjects. LDC provides middle and high school teachers with a systematic framework for developing reading, writing, and thinking skills within various disciplines.

K-12 Instructional Facilitating professional development is designed to support implementation of instructional facilitators in Arkansas schools through embedded professional learning at designated sites.

Disciplinary Literacy professional development focuses on supporting content teachers as they view their roles as teachers of how to access and convey information within the various disciplines and technical fields.

Major Highlights of the Year:

The Literacy Department has supported schools in a variety of ways including:

- Curriculum Alignment
- Site-based literacy training in ICLF
- Team Meetings/Professional Learning Communities
- Formative Assessments
- Summative Assessments
- Data Analysis
- Classroom Observations utilizing protocols
- Dyslexia Informative meetings
- Lesson Planning
- Demonstration Lessons with Debriefing with staff
- Research-based Best Practice
- Common Core trainings
- Intervention training on-site
- Site-based Support for Instructional Facilitators (Yrs. I & II)
- LDC on-site support
- Disciplinary Literacy
- ACT Aspire trainings/support

PROGRAM: Local Facilities Partnership Funding

FUNDING SOURCE: Combined Participating Local School Districts

COMPETITIVE GRANT: Yes _____ No X

RESTRICTED FUNDING _____ **NONRESTRICTED FUNDING** X

PARTICIPATING DISTRICTS:

Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon-Enola, Nemo Vista, North Little Rock, Perryville, Pottsville, Quitman, Russellville, Shirley, South Side, Trumann, Two Rivers, Westside, Western Yell County, Wonderview

PERSONNEL:

<u>Position</u>	<u>Name</u>
Facilities Coordinator	Darrell Tessman

PROGRAM SUMMARY:

The Facilities Coordinator primarily serves as the liaison between school districts and the Division of Public School Academic Facilities and Transportation to assist in preparing and submitting the six year Facilities Master Plan and Partnership Project Applications.

PROGRAM GOALS:

- Complete and submit the Facilities Master Plan for each district in even numbered years and update the Facilities Master Plan for each district in odd numbered years.
- Represent districts, when requested, during the Preliminary Master Plan Review with Facilities Division during odd numbered years.
- Complete and submit Partnership Applications and other documentation required by the Division.
- Process payment requests to the Facilities Division for partnership projects.
- Provide School Dude, Asbestos and Safety training as needed. Add additional training when required in support of facilities.
- Provide technical support for Schooldude corrective and preventative maintenance work orders.
- Assist districts in preparing partnership project appeals to present to the commission if needed.
- Understand and disseminate current and updated laws and regulations pertaining to school facilities.

MAJOR HIGHLIGHTS OF THE YEAR:

- Approved for \$6,570,135 in the 2015-2017 biennium.
- All operations are now Google Cloud based and can be accessed from any computer (paperless).
- Continued success in performing Partnership Project payment applications for districts.
- Hosted asbestos training by Rylant Asbestos.
- Hosted Safety training by Risk Management for custodial and maintenance.
- Assisted some districts in implementation of Rave Panic Control Button.

PROGRAM: Professional Development/Teacher Center

FUNDING: Combined Local School Districts and ADE

PERSONNEL: Lenett Thrasher, Teacher Center Coordinator, Ed.S.
Marilyn Johnson, Instructional Leadership Specialist, MSE
Rebecca Anderson, Administrative Assistant

RESTRICTED FUNDING X **NONRESTRICTED FUNDING**

PROGRAM GOALS:

- To provide professional development for administrators, teachers, and other district personnel to increase student achievement and effective school reform
- To support school improvement initiatives generated by the Arkansas Department of Education
- To enhance program integration through effective communication and technical support

PROFESSIONAL DEVELOPMENT/TEACHER CENTER

This office has the responsibility of looking at the "Big Picture" of K-12 professional development that supports and enhances school improvement for all 26 districts within our cooperative region and 3 districts who participate from outside our region. The 2015-16 school year was spent responding to the needs of schools in the areas of curriculum, instruction, and assessment. A list of workshops provided during the year is included in this annual report.

One of the main focus areas for this school year was providing training and support for building an effective Response to Intervention (RTI) process in our districts. Dr. John McCook provided five sessions focusing on Tier I effective classroom instruction, the foundation for a successful multi-tiered system of support. Building teams were provided information on the purpose of different types of assessments and the use of the data from these assessments to assess student learning and evaluate the curriculum and instruction programs of the school. Guidance and support were provided in-district upon request. Arch Ford content specialists participated in a book study on *Simplifying Response to Intervention* and also researched methods of differentiating instruction for their specific content areas. The specialists held trainings in-district and will be providing sessions on differentiation during the summer 2016.

Dyslexia assessment and intervention has also been a strong need within our school districts for the 2015-16 school year. The Arch Ford Dyslexia Contact has held multiple meetings for the district dyslexia coordinators/leaders. During these meetings, the coordinators share training needs, discuss intervention programs, and problem solve together as they strive to meet the needs of students with dyslexia. Arch Ford has provided seventeen trainings from June 2015 to May 2016 to support districts in assessing, instructing, and providing effective interventions for these students. Additionally, the Arch Ford Dyslexia Contact has held trainings and provided support in districts on 19 separate dates this school year.

Training in the new Arkansas Science Standards has been a priority for this school year. Science leaders from ADE have met with curriculum coordinators. The Arch Ford Science Specialist provided training to science leaders in our buildings for K-4 and 5-8 as well as teacher training for elementary science during the school year. Training will continue in the summer and fall. Additionally, science leader meetings will be

scheduled every 4-6 weeks during the upcoming school year to provide ongoing support to the science instructional programs within our schools.

Arch Ford literacy, math, and Career and Technical Education (CTE) specialists were involved in the Literacy and Math Design Collaboratives (LDC and MDC) this year. Eight schools in our region chose to be a part of the LDC training for literacy, science, social studies, and CTE teachers. Twelve schools in our region chose to participate in the MDC training for middle school math, Algebra I, and/or geometry. LDC/MDC provides training to meet the required level of rigor and relevance required in true CCSS instruction. A three-day initial training took place in the summer of 2015 with four follow-up training days provided during the school year. On-site trainings, observations, and feedback were given to each participating teacher throughout the school year. Participating MDC teachers were invited to observe in an experienced MDC-trained geometry teacher's classroom to see full implementation of FALs and strategies. LDC/MDC trainings will continue in the months to come with several other schools choosing to participate in one or both consortia during the 2016-17 school year.

The staff members of the professional development team at Arch Ford will continue to support school improvement efforts through training in standards and assessment, comprehensive literacy, extensive math trainings such as Cognitive Guided Instruction (CGI), classroom management, high yield instructional strategies, instructional technology, TESS, LEADS, and instructional leadership. These trainings will be the focus of our summer sessions and will continue throughout the coming year.

PROGRAM: Novice Teacher Mentor Program Training

FUNDING SOURCE: ADE Grant

COMPETITIVE GRANT: Yes____ No x

RESTRICTED FUNDING **X** **NONRESTRICTED FUNDING** _____

PARTICIPATING DISTRICTS:

PERSONNEL: Marilyn Johnson, MSE
Sally Stuart

PROGRAM SUMMARY:

ADE transitioned from Arkansas Induction Mentoring Model (AIMM) to the Novice Teacher Mentoring Program and provided an updated training to all mentor trainers.

The Novice Teacher Mentoring Program is designed to provide a novice teacher the support, assistance, and encouragement of a site-based, trained mentor in order for the novice teacher to learn the skills he or she needs to become an effective, knowledgeable teacher. District project directors were encouraged to share the mentor/novice teacher update video with previously trained mentors and novice teachers. The ADE provided electronic resources such as: the Mentor Notebook, Mentor/Novice Teacher Update Video and the Project Director Update Training Video in lieu of face to face trainings. New mentors were trained in the updated Novice Teacher Mentoring Program.

Arch Ford provided three sessions for mentor training in the Novice Teacher Mentor Program. The ADE and Arch Ford continued to support participating districts in creating and sustaining a successful mentoring program for new teachers in the profession.

GOALS:

- Become familiar with the Framework for Teaching (FfT) and the relationship between the Novice Teacher Mentor Program and TESS (Teacher Effectiveness Support System)
- Use the Orientation Guide
- Know and be able to implement mentor responsibilities
- Navigate a mentoring module in Moodle
- Identify effective coaching techniques for use in the mentoring process

PROGRAM: **Science K-12 Supervisory**

FUNDING SOURCE: Arkansas Department of Education, K-12 Science Specialist Grant

COMPETITIVE GRANT: Yes_____ No X

Participating Districts: Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End Bigelow, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon-Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County Morrilton, South Side Bee Branch, Two Rivers, Vilonia, West Side Greer’s Ferry, Western Yell County, and Wonderview.

RESTRICTED FUNDING X **Non-restricted Funding** _____

PERSONNEL: Madelon Cheatham, K-12 Science Instructional Specialist, B.A., M.Ed.

GOAL:

- The goal of the science program is to increase the content knowledge and strengthen the professional practice of teachers through research-based professional development programs and technical support in the classroom, and to promote awareness of the importance of science literacy among all students in Arkansas.

PROGRAM SUMMARY:

The science program was established at Arch Ford Educational Service Cooperative to provide teachers with professional development opportunities and classroom assistance.

- Professional development provides teachers with the opportunity to increase content knowledge, learn new technologies, develop standards based inquiry curricula based on current Arkansas Science Standards, and enhance their understanding of pedagogical knowledge.
- A monthly Science Newsletter is published monthly that includes articles on best practices, resource links, up-to-date information related to state and national events, grant opportunities, and science teaching strategies. The newsletter is sent to over 300 service areas teachers.
- The science webpage provides links to external sources of information, lesson plans, the Elementary Science Fair and science resources related to Common Core and Arkansas Science Standards.
- Collaboration with state specialists and other governmental agencies broadens leads to the development of state-based initiatives and professional development in science and content literacy that is made available to all teachers.
- Science academic coaching provides site-based classroom support, modeling and team-teaching, lesson planning, and assistance with parental involvement activities.
- Targeted support for schools is designed and delivered through Professional Learning Communities that involve teachers and facilitators in regular training and collaboration sessions, class room observations of teacher practice, and assistance with science implementation.
- Standards-based lessons designed and provided to teachers encourage the use of student-centered inquiry teaching and provide cross-curricular connections to math and literacy within the CCSS to promote independent, goal-directed learning.

MAJOR HIGHLIGHTS OF THE YEAR:

Professional Learning Community for Dover Middle Level Teachers: In collaboration with Dover administrators, a one-year literacy professional learning program was designed to develop teacher

understanding of effective ways to incorporate literacy into content curriculum. The program focused on strategies for writing, discussion, use of graphics and argumentation. Observations, teacher lesson plans and discussions assessed the effectiveness of training.

Content Literacy Training Sessions for Dover Primary Teachers: Monthly training sessions were developed and presented to all Dover Primary School faculty members. Teachers were introduced to strategies that could be used during science read alouds, and to foundations of the new science standards. Teacher implementation included planning and delivering lessons involving read alouds.

Science Academic Coaching – Classroom observations, team-teaching, modeling, and curriculum planning meetings provided science teachers at Two Rivers High School with ideas and strategies to redesign science lessons to align with new science standards.

Science Leadership Cadre Training - Training for teachers in all Arch Ford districts was provided over a 5 month period. Teacher leaders received information and presentations for use in their districts in order to train all the science teachers. The teacher leaders developed understanding of the foundations of the science standards, effective use of investigations, and instructional planning.

New Arkansas Science Standards Professional Development Planning: All Arkansas Science Specialists collaborated to develop three state-initiated professional development workshops to be presented during 2016. The trainings will focus on an introduction to the goals and architecture of the standards, implementation in the K-4 grade band, strategies related to use of the eight science practices in science inquiry lessons, and lesson design and alignment.

Arkansas Curriculum Conference: Professional knowledge was enhanced by participation in various science and technology sessions during the conference held in November 2016. Presentations on science topics such as developing science lessons were also delivered to participants during the mini-sessions.

Literacy Design Collaborative: LDC provides participating schools with training and guidance on development of teaching modules that imbed Common Core literacy strategies into content classrooms such as science. In collaboration with Arch Ford literacy specialists seven days of professional development were provided to participating districts. Assistance in module design was provided to participating science teachers.

Science Professional Development: A variety of opportunities for professional learning were provided during the summer of 2014 and throughout the school year to over 325 science teachers. Topics such as Arkansas geology, 5E lesson design, and science content literacy were addressed. Area teachers also had the opportunity to participate in fieldwork during a tour of Arkansas Kraft and other local recycling facilities.

PROGRAM: Behavior Support Specialist

FUNDING SOURCE: Federal-Part B

COMPETITIVE GRANT: Yes_____ No__X__

RESTRICTED FUNDING: __X__ **NONRESTRICTED FUNDING:**_____

PERSONNEL: Behavior Support Specialist Co-Coordinator- Shelia Smith, Ph.D., L.P., BCBA-D

PARTICIPATING DISTRICTS:

Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, Southside Bee Branch, Two Rivers, Vilonia, Western Yell County, West Side-Greers Ferry, Wonderview

GOAL:

- To provide technical assistance and support to local school district administrators and school personnel in the development and implementation of evidence-based behavior supports for students receiving special education services
- To provide technical assistance and support to local school personnel in the identification and educational programming for students identified with autism
- To provide professional development to local school district administrators and personnel on evidence-based behavior supports

PROGRAM SUMMARY:

The Behavior Support Specialist (BSS) position provides technical assistance in the area of behavior to all school districts within the Arch Ford Education Service Cooperative. The BSS receives requests for technical assistance through the CIRCUIT on-line referral system. Once a request for services is received, the BSS works in conjunction with the Special Education Supervisor for the referring school district to identify and provide needed support for students with disabilities. Services include:

- On-site consultation, student observation, record review and written recommendations with follow up and training as needed
- Assistance with Functional Behavior Assessment (FBA) and Behavior Intervention Plan (BIP) development
- Assistance with autism identification and programming
- Professional development opportunities on evidence-based interventions

The BSS also attends monthly meetings with the other cooperative BSS and the liaison from the Department of Special Education. Information presented at this meeting is shared with the Special Education Supervisors at their monthly meetings at Arch Ford.

Additionally responsibilities as BSS Co-Coordinator include:

- Screening and assigning all CIRCUIT referrals for BSS in the Ozark Unlimited Resource, Northcentral Arkansas, Southeast Arkansas and Tri-District Education Service Cooperatives
- Provide mentoring and coaching to assigned BSSs which includes on-going advice, problem solving, training and access to resources
- Provide an orientation for all new BSSs

- Develop a personnel growth plan for each BSS
- Assist in developing and organizing professional development necessary for building local capacity of the district employees (paras, teachers, administrators) in order to implement behavioral evidence-based practices
- Attend monthly meetings with other BSS Co-Coordinator, ADE SPED Unit, Special Education Supervisor area meetings and Collaborative Consultant group meetings and disseminate information to BSSs and Special Education Supervisors

MAJOR HIGHLIGHTS OF THE YEAR:

- Provided on-site consultation, student observation, record review, conference attendance, specialized evaluations, assistance with functional behavior assessment, safety and behavior intervention planning for 27 students (Emotionally Disturbed, Autism, Multiple Disabilities, Intellectually Deficient, Other Health Impaired) with over 94 site visits
- Provided 19 professional development trainings to 592 district school personnel on the following topics:
 - Dive into Working with Children on the Autism Spectrum
 - Designing a Special Education Classroom to Maximize Student Success
 - Strategies for Managing Challenging Behaviors in the School Setting
 - Developing Legally Defensible Behavior Intervention Plans
 - Professional Crisis Management (PCM) Certification Training
 - Emotional Regulation: Using the 5 Point Scale
 - Strategies to Teach Emotional Regulation and Prevent "Meltdown" Behaviors
 - Let's Get Social: Strategies to Teach Social Skills to Students with Autism
 - Behavior Data Collection Tools
 - Introduction to Applied Behavior Analysis (ABA)
- Developed and co-coordinated 9 monthly meetings with Behavior Support Specialists including new BSS orientation
- Presented at the 2015 Arkansas Council of Exceptional Children Pre-Conference and Conference in Little Rock
- Presented at the 2015 AAEA Summer Conference for Administrators in Little Rock
- Presented at the 2015 LEA Academy in Little Rock
- Developed 4 modules on Functional Behavior Assessment (FBA) and Behavior Intervention Plans (BIP) with the Behavior Support Specialists that will be available to all district personnel through the AETN IDEAS Portal
- Will attend the 2016 LRP National Institute on Legal Issues of Educating Individuals with Disabilities

PROGRAM: **SPECIAL EDUCATION**
Special Education Supervision
School Psychology Specialists/Educational
Appraisal

FUNDING SOURCE: **Local School districts**

COMPETITIVE GRANT: **Yes___ NO X**

RESTRICTED FUNDING **X** **NONRESTRICTED FUNDING** _____

PERSONNEL:

Kelli Rainey	Sp. Ed. Coordinator/Manager, MSE
Angela Toll	Sp. Ed. Supervisor, MSE
Susan Lester	Sp. Ed. Supervisor, MSE
Tammy Rainey	Sp. Ed. Supervisor, MSE
Neil McKnight	Sp. Ed. Supervisor, MSE 1/2 Year
Jennifer Hennessey	Sp. Ed. Supervisor, Ed.D., LPE-I, BCBA-D 1/2 Year
Janna Terry	Sp. Ed. Supervisor, MSE
Loretta Solida	Sp. Ed./Appraisal Secretary
Karen McKnight	School Psychology Specialist, LPE-I,
Lauren McKnight	Licensed Psychological Examiner Independent
Elissa Pittman	School Psychology Specialist, (NASP)
Mollie Teas	School Psychology Specialist
Mary Lajeunesse	Licensed Psychological Examiner Independent

PARTICIPATING DISTRICTS: Atkins, Bauxite, Concord, Danville, Dardanelle, Dover, East End, Guy Perkins, , Hector, Mt.Vernon-Enola, Mayflower, Nemo Vista, Perryville, Pottsville, Quitman, Two Rivers, Western Yell County, West Side Greers Ferry, Wonderview

GOAL:

Special Education Supervision

- Provide technical assistance and support to local school district administrators and staff in assessing, developing, implementing and evaluation of special education programs and related services for purpose of improving student achievement.
- Provide technical assistance and support to local school district administrators and staff in developing leadership skills.
- To assist and support participating school districts in the provision of a Free Appropriate Public Education for suspected and identified students with disabilities, and in meeting state and federal mandates for services to these students.

School Psychology Specialists/Educational Appraisal

- To assist local districts in the identification of students with disabilities by conducting ADE required school psychology assessments/required evaluations.
- To provide local districts with support in identifying and programming for students in need of behavior intervention plans.

PROGRAM SUMMARY:

Special Education Supervision

Special Education Supervision provided to participating districts by Arch Ford Cooperative is designed to meet the ADE requirement of Local Education Agency (LEA) Special Education Supervisors on a service contract basis by allowing multiple districts to 'share' the cost of personnel and support for the LEA Supervisor. All six of the AFSC LEA Supervisors have individual areas of expertise and are accessible and available to all participating districts increasing district access to a range of quality and skill to support their students and staff. Each of the participating districts is assigned a 'lead' LEA Special Education Supervisor who ensures that the district meets the ADE and Federal Special Education mandated requirements in budgeting, financial reporting, child data submission, ADE Reporting, Program Evaluation and Development, Staff Development and Training Student Assessment and Evaluation, Student Data Analysis, assist districts with Medicaid Eligibility and Billing, assist districts with ARMAC Access and Reporting, Child Find Activities, ADE on and off site monitoring, Personnel Reporting, Fiscal and Academic Distress support plus student achievement/improvement and parent involvement and intervention. Access to the supervisory group assists both the assigned supervisors and local district staff in the activities that are required.

School Psychology Specialist/Educational Appraisal

Local School Districts are required to have access to a school psychology specialist or qualified/licensed examiner (an individual qualified to administer and interpret specific assessments) for conferences and evaluations, and to assist in developing and monitoring behavior intervention plans. To assist local districts and to control costs through 'cooperative' interaction, the AFSC employs five (5) school psychology specialists/psychological examiners for these purposes. District staff schedule needed services through a cooperative staff member who assigns a specialist to each case.

MAJOR HIGHLIGHTS of the Year:

Special Education Supervision

- Successfully completed ADE Special Education Monitoring in eight (8) Districts
- Conducted monthly AFSC Service Area Provider meetings for school districts and service providers for students with disabilities.
- Provided AFSC Para Professional Training Modules for participating school district's Para Professionals.
- The six supervisors made regular visits (totaling more than 907 school site visits to the 19 participating districts) to the local school staff (180 certified special education staff serving the over 2293 identified students with disabilities in the participating districts) during the school year.
- The six supervisors have conducted a total of 36 staff development sessions over the course of the year.
- Administered the Paraprofessional Praxis to 1 paraprofessional with one district's paraprofessional staff.

School Psychology Specialist/Educational Appraisal

- Conducted 746 Comprehensive Psychology Evaluations for local schools, averaging approximately 16 a month.

- Observed 53 students for behavioral issues, developed behavior intervention plans with follow-up conferences and support for these students.
- Conducted specialized observations on 60 students.
- Attended Conferences on 89 students.
- Presented 11 staff development workshops, attended 27 professional trainings
- Consulted on 406 students.
- Met with Local Special education supervisors and other service providers at AFSC on an as needed basis to discuss issues of mutual concern for the school districts.

PROGRAM: **SPECIAL EDUCATION -
Arkansas Transition Services:
Transition Consultant**

FUNDING SOURCE: **Grant from the SEU of ADE**

COMPETITIVE GRANT: **Yes__ NO X**

RESTRICTED FUNDING **X** **NONRESTRICTED FUNDING** _____

PERSONNEL:

Carrie E. Tuttle Arkansas Transition Services: Transition Consultant

PARTICIPATING DISTRICTS: **Arch Ford Co-op:** Atkins, Bauxite, Clinton, Concord, Conway, Conway Human Development Center – Developmental Disabilities Services, Danville, Dardanelle, Dover, East End, Greenbrier, Guy Perkins, Heber Springs, Hector, Mayflower, Mt.Vernon/Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, Southside Bee Branch, South Conway County, Two Rivers, Vilonia, Western Yell County, West Side Greers Ferry, Wonderview

Northcentral Arkansas Co-op: Batesville, Calico Rock, Cave City, Cedar Ridge, Highland, Izard County Consolidated, Mammoth Springs, Melbourne, Mountain Home, Mountain View, Norfolk, Salem, Southside – Batesville, Viola

Wilber D. Mills Co-op: Augusta, Bald Knob, Bradford, Beebe, Cabot, Carlisle, Des Arc, England, Hazen, Lonoke, McCrory, Midland, Pangburn, Riverview, Rosebud, Searcy, White County Central

GOAL:

Transition Consultation

- Provide technical assistance and support to local school district administrators and staff in assessing, developing, implementing and evaluation of transition within special education programs for the purpose of improving student's post-school outcomes.

PROGRAM SUMMARY:

Arkansas Transition Services provides technical assistance as requested by school districts in the area of transition. We offer a variety of trainings to special education teachers and supervisors in an effort to improve post school outcomes for students with disabilities. We continually update our trainings and develop new trainings based on the needs of districts and the most current and effective practices. Our goal is to assist districts in every way possible to make transition plans meaningful for students with disabilities and their families and to improve post school outcomes for students with disabilities. We work diligently to improve the performance of four particular indicators of which Arkansas reports every year: Indicators 1 (Graduation), 2 (Dropout), 13 (Secondary Transition) and 14 (Post School Outcomes).

MAJOR HIGHLIGHTS of the Year:

Arkansas Transition Services Statewide Events:

- AITP Summer Connections
- Video Modeling Training
- Do it yourself APPS/Website Development Training
- Pilot Transition Forms Trainings: 112 attendees
- December Transition Cadre: 58 attendees, 27 districts
- February Cadre: 60 attendees, 28 districts
- College Bound Arkansas: 27 students, 24 Parents/Professionals
- Represented Arkansas Transition Services at the Arkansas Disability Awareness Day at the State Capitol
- Serving on the Special Needs Collaboration Group created by Rep. Julie Mayberry
- Will present at the AR-Promise Quarterly staff meeting related to Transition planning

Education Cooperative Activities:

- Made 58 on-site school visits to provide Technical Assistance and Support working directly with 300 LEA's, designees, teachers and paraprofessionals.
- Attended or provided materials for 6 Transition Fairs that were attended by approximately 1200 students.
- Attended Annual Review and Separate Programming conferences on 14 students.
- Answer questions via phone/text and email on a daily basis
- Attended Local Special Education Supervisor meetings to discuss issues of mutual concern for the school districts and to offer trainings and Technical Assistance to my districts.
- Offering 3 Transition Related trainings in each of my three Educational Cooperatives.

Professional Development Activities:

- Attended monthly Arkansas Transition Services staff meetings/retreats
- Attended Autism training to assist with training development.
- Toured local programs and services to obtain information that can be shared with my LEA's and teachers.
- Attended required SEU meetings to be brought up to date on new regulations, programs and initiatives.
- Attended AR-Promise meetings to gain knowledge of their grant.
- Attended Arkansas Collaborative Consultant training

PROGRAM: **Technology**

FUNDING SOURCE: Arkansas Department of Education Grant – Act 842 of 1995

COMPETITIVE GRANT: Yes X No

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS:

Atkins, Clinton, Conway, Danville, Dardanelle, Dover, East End, Greenbrier, Guy-Perkins, Heber Springs, Hector, Mayflower, Mt. Vernon-Enola, Nemo Vista, Perryville, Pottsville, Quitman, Russellville, Shirley, South Conway County, South Side, Two Rivers, Vilonia, West Side, Western Yell, and Wonderview

PERSONNEL: Bill Beavers, Technology Coordinator (MSE)
 Lori Winfrey, Support Specialist (BSE)
 Robert Leach, Technician (AS)
 Beth Lee, Technician (BS)

GOAL:

- The goals of the Arch Ford Technology Department include the following:
- Manage and maintain reliable local area network and technology equipment for all AFESC employees.
 - Educate AFESC staff on technology mandates, initiatives, trends and trainings, to provide technology leadership across all AFESC programs.
 - Demonstrate leadership, assistance and guidance to member districts in all areas of K12 technology to produce college and career ready students.
 - Provide technical support and training for AFESC member school districts, and advancement of school technology trends through appropriate trainings and PD
 - Promote and increase instructional technology throughout our AFESC region.

PROGRAM SUMMARY:

The technology department maintains the Arch Ford Cooperative local area network (LAN), providing reliable network connectivity and technical support to all AFESC employees. The technology coordinator assists employees with technology hardware and software purchases, and provides training on technology items as needed. The technology office maintains the cooperative website, APSCN training lab, 2 portable laptop labs, iPad lab and updated presentation equipment in each workshop room.

The technology department provides our 26 member districts with support including: technical assistance with their LAN, consultation regarding hardware and software purchases, and provides professional development opportunities for administrators, teachers, and technology personnel.

The technology coordinator works closely with the Arkansas Department of Education (ADE), the Department of Information Services (DIS), the Arkansas Public School Computer Network (APSCN), and other Arkansas Education Cooperatives regarding technology initiatives to help AFESC staff and member districts remain informed and in compliance with technology requirements.

Technology professional development, with a focus on instructional technology plays a large role in the duties of our technology department. During the school year, the technology coordinator facilitates

meetings and trainings, and presents trainings as requested for AF staff and member district personnel. During the summer professional development session, teachers from within member districts present technology integration professional development sessions for AFESC area teachers.

AFESC technology personnel spend a significant amount of time working directly in member districts with all constituents of K12 technology including administrators, technology coordinators, instructional technology specialists, library media specialists and teachers. We continually look for areas of need and help them find solutions with the end goal of developing students ready for college and career.

2015-16 HIGHLIGHTS:

- 22 technology professional development sessions were offered serving approximately 600 area teachers.
- In an effort to increase technology integration and 21st Century learning within AFESC member districts, the Arch Ford Technology Coordinator facilitates job-alike trainings and communication for the following groups from within AFESC member districts:
 - Technology Coordinators
 - Instructional Technology Coordinators
 - Library Media Specialists
- The technology office maintains many active listservs and websites for all AFESC personnel to post and disseminate information to their respective local district contacts.
- The AFESC Technology Integration Cadre was formed in 2011-12, and consists of approximately 55 teachers from 24 of our member school districts. The Cadre meets once per semester, with the purpose of developing the technology skills of cadre members who can then offer quality technology professional development to fellow teachers at the local districts. Cadre members also learn about technology integration efforts in surrounding school districts to help with their own instructional tech planning.
- In the summer of 2014, our ALE program expanded to a total of 6 campuses in Quitman, Conway, Beebe, Morrilton & Atkins. The Technology Department completed all technology purchasing, configuration and installation for LAN infrastructure, security and workstations to prepare ALE campuses for the 2014-15 school year.
- The 2013 Legislative Session established "Virtual Arkansas", the unified K12 distance-learning program for Arkansas. The Virtual Arkansas (VA) grant is housed by AFESC, and VA employees are also AFESC employees. The Technology Department assists VA administration and teachers upon request.
- In the spring of 2016, Arkansas students participated in ACT Aspire online testing. The Technology Coordinator worked during the school year with District Testing Coordinators and Technology Coordinators to ensure readiness and efficiency of the testing process.

SPECIAL PROJECTS AND PROGRAMS

Program Name: *CGI-Cognitively Guided Instruction*

Competitive Grant Yes ☐ No ☒

Goals and Description: Cognitively Guided Instruction (CGI) is a teacher professional development program that has teachers exploring a framework for how elementary school children learn concepts of number operations and early algebra. This knowledge is used to drive instruction. Years 2 & 3 of training builds upon the previous year's training—resulting in a true, long-term sustained professional development program. What teachers learn in a CGI institute enhances how they implement any curriculum or resource materials into their daily classroom instruction.

Program Name: *Instructional Facilitating*

Competitive Grant Yes ☐ No ☒

Goals and Description: Instructional Facilitating Training is based on Dr. Jim Knight's Instructional Coaching Institute from the University of Kansas Center for Research on Learning. The training refines the Instructional Facilitator's understanding of their various roles and distinguishes between effective and ineffective coaching practices, including appropriateness of modeling. The training also reinforces the leadership skills necessary for support when building capacity. Coaching cycles, based on the student-centered classroom approach of Diane Sweeney, has also been implemented this year.

Program Name: *Enhancing Education Through Technology Grant (TIE) Project*

Competitive Grant Yes ☒ No ☐

TIE
(Technology Infused Education)

Goals and Description: The purpose of the TIE project is to increase technology integration across the state of Arkansas. This program was originally funded when Southwest Arkansas Education Co-op wrote a comprehensive partnership EETT grant to develop a statewide professional development module system to embrace all forms of technology, meet the needs of teachers and administrators, and address State standards while enhancing instruction through integrated technology practices. The cooperatives and ADE have partnered to continue this funding. All education cooperatives across the state were offered the opportunity to train teachers from their area to become TIE Cadre members. There are currently approximately 100 TIE Cadre members impacting over 70 districts across the state.

The focus of cadre training is to support technology integration in curriculum. Training includes a focus on Common Core Standards, unit planning and tools teachers can use. Cadre members then share this knowledge in trainings offered at the co-ops. They have conducted over 450 workshops across the state on 78 different technology modules. The trainings have impacted over 5,000 teachers and administrators.

Modules are housed on the TIE website at <http://lms.swsc.k12.ar.us> By sharing these modules across the state, we are able to offer the same quality in technology trainings that we did not have before. The cadre members not only train for the education co-ops in the summer but also are able to help train in their buildings and districts. Module development and professional growth are the focus of cadre trainings.

Program Name: *EtherScope Project*

Competitive Grant Yes ☐ No ☒

Goals and Description: In an effort to assist schools in preparation for online Common Core state Standards testing in 2014-15, the ADE awarded a grant for each of the cooperatives to purchase an Etherscope network analysis tool. The Etherscope evaluates local area networks (LANs) checking for errors, helping technology coordinators troubleshoot connectivity problems to maximize their current bandwidth.

The Etherscope continues to be available for checkout to member districts. Overall, our districts maintain healthy LANs, but the Etherscope tool has been beneficial in identifying several network issues.

Program Name: Teacher Excellence Support System (TESS)

Competitive Grant Yes ☐ No ☒

Goals and Description:

The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, software made available by ADE, that provides new district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The cooperatives held the three hours Laws and Process training. The Arkansas Department of Education provided training for administrators at each cooperative on Summative Evaluation Process. The Arkansas Department of Education in conjunction with BloomBoard and cooperatives provided regional BloomBoard Universities. The purpose of the BloomBoard University was to showcase the insights and reports as well as the additional features available to schools. The cooperatives are currently scheduling additional sessions to extend the learning and support administrators and teachers as they continue to implement TESS as the teacher evaluation system.

The Arch Ford Cooperative provided these training sessions to support the teachers and administrators in TESS:

- Bloomboard for Teachers – 4 sessions
- BloomBoard Observations for Teachers (Provided by BloomBoard and the ADE) – 2 sessions
- TESS Law and Process for Teachers – 6 sessions
- Teacher Training on TESS Domains 1-4 – 2 sessions
- Administrator Preparation for the FOCUS Assessment – 2 sessions
- Coaching and Calibration for Administrators – 1 session
- TESS Planning and Preparation – 1 session
- TESS/LEADS Updates for Administrators (Provided by ADE) – 3 sessions
- Multiple One-on-one TESS and BloomBoard Assistance for Administrators

Program Name: Arkansas Leadership Excellence and Development System (LEADS)

Competitive Grant Yes ☐ No ☒

Goals and Description:

The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being piloted). Trainings for the LEADS program throughout the 2015-2016 school year included work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of Bloomboard for evaluation and artifacts, and other support, as needed in individual cooperatives.

The Arch Ford Cooperative provided these training sessions to support the administrators in LEADS:

- LEADS/BloomBoard Review – 1 session
- TESS/LEADS Updates for Administrators (Provided by ADE) – 3 sessions
- Multiple One-on-one LEADS and BloomBoard Assistance for Superintendents

ACT Aspire
Competitive Grant Yes ☐ No ☒

Goals and Description:

The Arch Ford Cooperative technology coordinator and staff have provided support to district testing and technology personnel as preparations were made for the initial implementation of ACT Aspire in the spring of 2016. Support included onsite visits within districts to aid in preparing technology infrastructure, providing multiple training opportunities for ACT Aspire updates, and hosting ACT Aspire workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

The Arch Ford Cooperative also provided support to classroom teachers and instructional leaders to ensure Arkansas content standards were taught in a manner that would prepare students for the ACT Aspire. In addition to ADE presenters, cooperative content specialists provided face-to-face trainings on ACT Aspire resources and their use in strengthening the classroom teachers’ understanding of assessment requirements for students. Trainings will continue during the summer of 2016 and the upcoming school year.

Program Name: (LDC/MDC) Literacy Design Collaborative/Mathematics Design Collaborative

Competitive Grant Yes ☐ No ☒

Goals and Description: The LDC/MDC is an on-going professional development process that consists of tasks aligned to the Common Core State Standards that target those skills needed in reading, writing, and mathematics. Formative assessment is used as a tool for monitoring student learning and identifying misunderstandings or skill weaknesses in students. These tasks work together to provide robust learning opportunities for students that are evaluated with a scoring rubric that helps educators across our state and nation calibrate high expectations. The LDC/MDC work is implemented in literacy, social studies/history, mathematics, science, and career education classes for students in grades 9 and 10.

Arkansas River Education Service Cooperative

912 West Sixth Street Pine Bluff, AR 71601 Office: (870) 534-6129 Fax: (870) 534-2847

From the Director's Desk....

The 2015 – 2016 academic year has been filled with many changes that has really awakened and challenged the staff at Arkansas River Education Service Cooperative (ARESC). The appointment of Mrs. Barbara Warren as Superintendent of Dollarway School District has allowed this exciting opportunity for me to step in and help continue the good work that this organization does. While I am still learning the day to day work expectations, we are constantly providing excellent support to our member districts and learning new ways to be helpful.

Change is a way of life in education. So, we embrace the changes and buckle down and do the work. The staff has stayed dedicated to their goals and now some of the improvements are coming into view. We know with the continued loss of students in ARESC's member districts that there is a loss of talent in teachers and staff that follows. The challenge to provide quality administrators and classroom teachers in a disappearing population keeps us focused on the importance of our jobs.

In Accordance with A.C.A.6-13-120, we submit this 2015-2016 Annual Report as a condensed report on the programs, services, resources, and activities of our cooperative. This document will include information regarding professional development, technology, early childhood, career and technical education, the governance and administration of our organization and other useful information.

ARESC strives to maintain quality services and to connect our member districts and the community at large with resources to support education in Arkansas. We are proud to serve the districts in the Arkansas, Grant, and Jefferson counties and to partner with the Arkansas Department of Education for the betterment of the children of our great state.

Sincerely,

Danny Hazelwood

Danny Hazelwood, Director
Arkansas River Education Service Cooperative

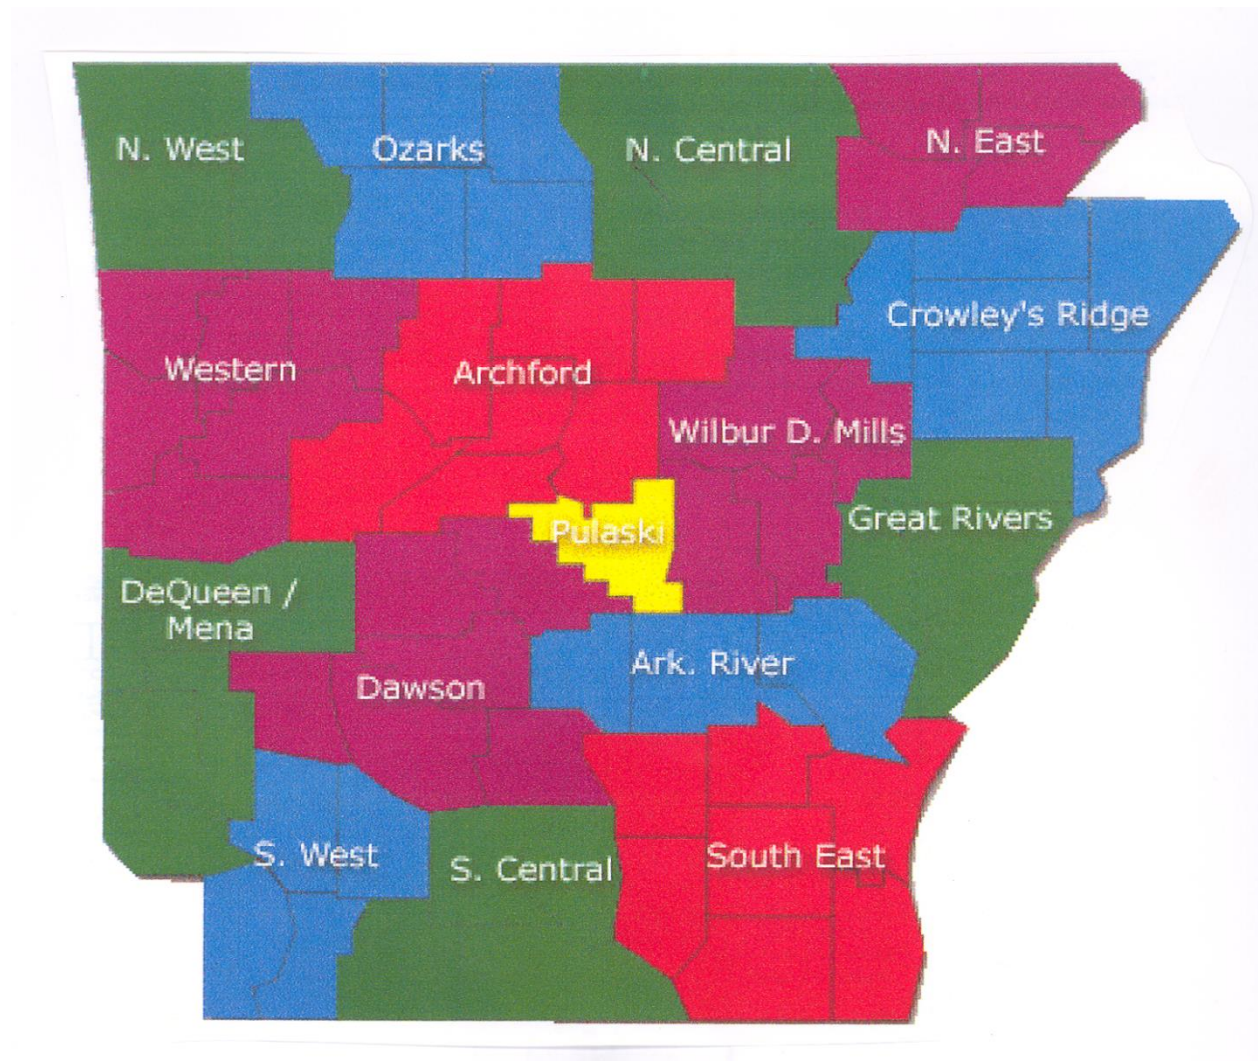

Arkansas River Education Service Cooperative

Proudly serving Arkansas, Grant and Jefferson Counties

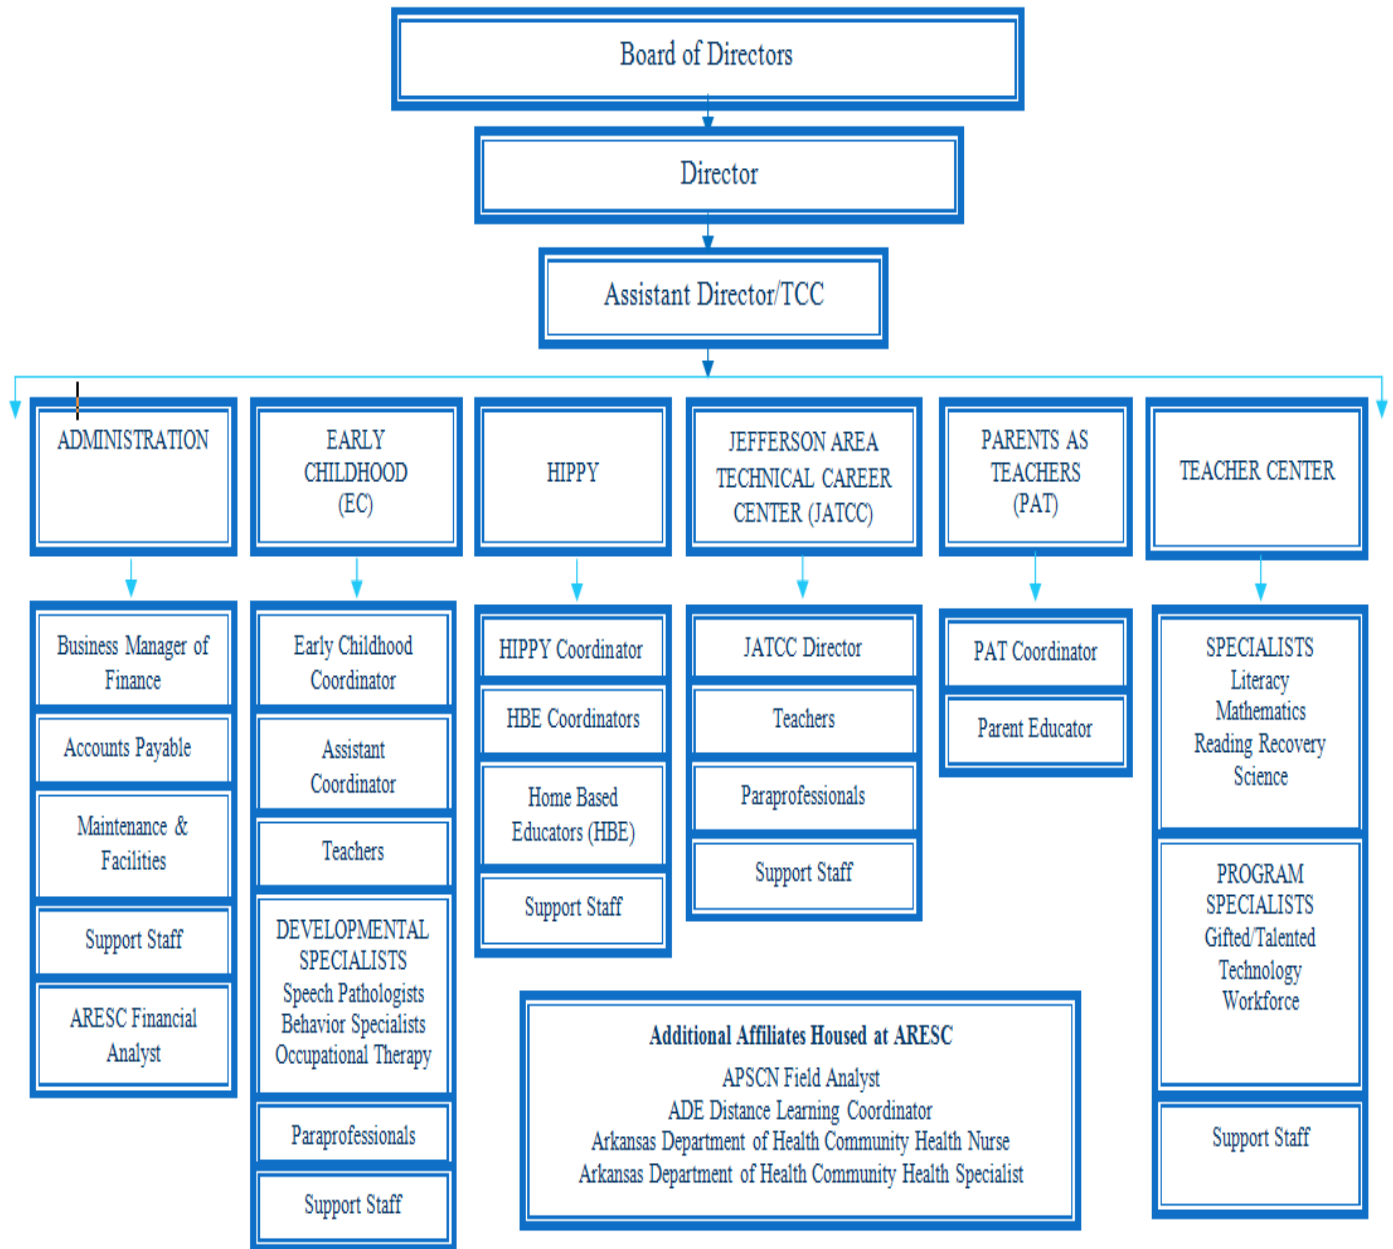

Mission Statement

The mission of the ARESC is to assist their member school districts and communities in:

- The development of more effective and equitable use of their shared resources
- Providing services that support the technology, knowledge, and skills necessary to impact effective citizenship
- Impacting economic productivity

III. TEACHER CENTER

Below is a list of all inservice training/staff development workshops offered through the co-op, including month offered, topic, number of districts participating, number of participants and location of workshops. Included is a cumulative total of participants. See Professional Development Activities Report at the end of this document.

Does the co-op provide media services to schools?	YES [<input type="checkbox"/>] NO [X]
Do districts contribute dollars to the media services	YES [<input type="checkbox"/>] NO [X]
Does the co-op operate a "make-and-take" center for teachers?	YES [X] NO [<input type="checkbox"/>]
How many teacher visits have been made to the center?	
Number of Teacher Participants:	503
Number of Other Participants:	99

IV. ADMINISTRATIVE SERVICES

Please check administrative services offered through the co-op:

- ☒ Cooperative Purchasing
- ☒ Conduct Annual Needs Assessments/Planning Assistance
- ☒ Special Education Services
- ☒ Gifted and Talented Assistance
- ☒ Grant Writing Assistance
- ☒ Personnel Application
- ☒ Assist/Support with Evaluation Procedures (OR, ACSIP, Monitoring, GT program evaluation, etc.)
- ☐ Migrant Student Identification
- ☒ Bookkeeping Assistance
- ☒ Technology Training
- ☒ Curriculum Support (Common Core State Standards)
- ☒ Business Management training
- ☒ Computer Technician
- ☒ C.C.R.P.P. Administration/Collaboration
- ☒ E-Rate Applications
- ☒ Assessment Data Analysis
- ☒ Instructional Facilitator Training
- ☒ Math/Science/Literacy Specialists
- ☐ Reading Recovery
- ☒ Numerous professional development opportunities for teachers
- ☒ Administrators and local board members
- ☐ Perkins Consortium
- ☒ CTE Coordinator
- ☒ Professional Development
- ☒ Medicaid billing
- ☒ Psychological services
- ☒ School Health Nurse
- ☒ HIPPA
- ☒ APSCN Field and Financial Support
- ☐ OTHER (please specify)

V. DIRECT SERVICES TO STUDENTS

Please check the student services provided through the co-op:

- ☒ Student assessment program
- ☒ Itinerant teachers – please list areas: (ECSE, SPEC)
- ☒ Occupational therapy and physical therapy
- ☒ Transition Assistance
- ☐ Mentor programs (ex. Foster Grandparents)
- ☒ Gifted/Talented programs: 6 participating districts
- ☒ Digital instruction (ex. AR iTunes U, podcasts)
- ☒ Speech Pathology services
- ☒ HIPPY
- ☒ Low incidence handicapped (vision/hearing)
- ☒ Other (Please specify): Home School Testing, Early Childhood Special Education 3-5 years age, CCRRP, Behavioral Intervention consultants

VI. ANECDOTAL REPORTS

There are descriptions of activities which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or the descriptions may be written by local schools served by the co-op. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

ARESC Literacy Leadership Council

The Arkansas River Education Service Cooperative Literacy Leadership Council was developed to improve the teaching and learning process in literacy in K-12. Each district selected a literacy leader to attend monthly training/collaborating work sessions in literacy content, curriculum alignment, assessment and instructional process delivery. The literacy coaches developed capacity in the local school districts through these work sessions. Leading Literacy/Curriculum Directors from our participating districts led sessions throughout the year. The focus this year has been Literacy Design Collaborative (LDC) and the development of lessons to assist the K-2 teachers in our state through ICLF modules (formerly ELLA and ELF).

ARESC Standards

The Arkansas River Education Service Cooperative is working with the other state education cooperatives in a collaborative effort to provide curriculum and resource support to our schools as they continue the implementation process for the Arkansas Curriculum Standards.

VII. EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each educational service cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year: 0

For this number above, please provide the number in each of the following racial classifications:

White _____
African American _____
Hispanic _____
Asian _____
American Indian/Alaskan Native _____

Number of new females employed by the cooperative for the 2015-2016 school year: 24

For this number above, please provide the number in each of the following racial classifications:

White 10
African American 14
Hispanic _____
Asian _____
American Indian/Alaskan Native _____

TERMINATED

Number of males terminated by the cooperative during the 2015-2016 school year: 0

For this number above, please provide the number in each of the following racial classifications:

White _____
African American _____
Hispanic _____
Asian _____
American Indian/Alaskan Native _____

Number of females terminated by the cooperative during the 2015-2016 school year: 1

For this number above, please provide the number in each of the following racial classifications:

White _____
African American 1
Hispanic _____
Asian _____
American Indian/Alaskan Native _____

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year:

10

For this number above, please provide the number in each of the following racial classifications:

White 4
African American 6

Hispanic _____
Asian _____
American Indian/Alaskan Native _____

Number of females seeking employment by the cooperative during the 2015-2016 school year: 125

For this number above, please provide the number in each of the following racial classifications:

White 63
African American 62
Hispanic _____
Asian _____
American Indian ____
Alaskan Native _____

Program: Accounting

Funding Source: General

Competitive Grant ___ Yes ___ ☒ No

☒ Restricted ___ Non-Restricted

Participating Districts:

Arkansas Correctional School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Cynthia McDonald	Business Manager	BS
Jacqueline Washington	Accounts Payable	BS

Goal:

To provide financial support to all programs and participating districts of the cooperative.

Program Summary:

2015-2016 State Funding Source

Base Funding \$408,618
Professional Development \$70,259
K-12 Science Specialist Grant \$86,500
K-12 Math Specialist Grant
K-12 Literacy Specialists Grant \$173,000
Technology Center Grant \$75,000
Gifted/Talented Specialist Grant \$28,500
HIPPOY \$1,050,000
Early Childhood Special Education \$821,860.00
Workforce Education Grant \$50,000
Parents as Teachers \$105,000

2015-2016 Federal Funding Source

Early Childhood Special Education \$129,305
Medicaid \$33,764.68
K-12 Behavior Support Specialist Grant \$110,000

Program: ADE/APSCN Student Applications Field Analyst

Funding Source: Arkansas Department of Education

Participating Districts: Arkansas Correctional School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Linda Burt	APSCN Student Field Analyst	AA
Jacque Rowlett	APSCN Financial Applications	AA
Al Morgan	APSCN Student Field Analyst	BA

Goal:

To provide end-user support to district student users of the SMS statewide student management system, Cognos reports, and meeting statewide guidelines.

Program Summary:

The Student Applications Field Analyst provides services to districts within Arkansas that utilize the SMS statewide student management system software. The software is used to store district, school, and student data. Student Management Systems Applications is computer software used primarily to process and maintain student records. The SunGard Pentamotion student management systems applications provided by APSCN include: Demographics, Attendance, Scheduling, Report Cards, Discipline and Medical. With the use of nine cycles yearly, districts electronically submit data to the ADE. The student field analyst provides districts with consulting and training workshops through meetings at the Cooperative, school visits, and communicating closely by email and telephone. Various trainings offered throughout the year include, but are not limited to, SMS Required Fields for State Reporting, New Personnel, Cognos Report Writing, Next Year Scheduling, and Year End Rollover. The Financial Applications Analyst provides services to districts within Arkansas that utilize the software that stores district, school financial information. Transition trainings were held at ARESC all year long to transition districts into eSchool. Roll over trainings were held to roll data into the upcoming school year.

Major Highlights of the Year:

Continued State Reporting training and new software implementation with eSchool.

Program: ADE School Improvement Advisor

Funding Source: Arkansas Department of Education

Participating Districts:

Arkansas Correctional School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
LaDonna Spain	School Improvement Advisor	MSE
Kari Burkman	School Improvement Advisor	MSE

Goal:

To facilitate school improvement efforts in local districts and schools.

1. Support/Assist local school districts in developing the district level Arkansas Comprehensive School Improvement Plan (ACSIP).
2. Provide Technical Assistance to local school district related to ACSIP
3. Support/Assist local school districts with schools in "Focus" and "Priority" status with their school improvement efforts
4. Support/Assist local school districts develop/implement systematic and sustainable school improvement
5. Support/Assist local school districts research, development, and/or the acquisition of additional resources related to their school improvement efforts (both internal and external)
6. Provide a broker of resources/point of contact between the local School District and the ADE related to the Statewide System of Support (SSOS).

Program Summary:

School Improvement Supervisors assist with all areas of the School Improvement Process (ACSIP), including the Federal Program application and approval process; providing assistance with regulations and laws, responding to technical assistance requests from districts and schools; disseminating information as requested; cooperating with and participating in professional organizations. In addition to these responsibilities, the supervisors conduct on-campus visits to assigned schools and monitor school programs.

Major Highlights of the Year:

Collaborating as a Facilitator and member of the State Specialty Team; Facilitating the District Leadership Team Meetings with local Superintendents and/or Assistant Superintendents as requested; Providing Technical Assistance to districts as requested; Meeting with districts/buildings on regularly scheduled intervals (i.e. weekly, bi-weekly, monthly); Collaboratively working with LEA external providers working in the capacity of School Improvement Specialist (as requested), regional Cooperative Specialists (as requested), and various ADE Units; attending Federal Coordinators' Meetings at the cooperative to provide technical assistance an updated information.

Program: Career and Technical Education

Funding Source: Carl D. Perkins Funding

Funding Amount: \$ 50,000.00

Competitive Grant ____ Yes ____ ☒ No

☒ Restricted ____ Non-Restricted

Participating District:

Dollarway, Watson Chapel, White Hall, Pine Bluff S.D., Stuttgart, Sheridan

Personnel:

Name	Position	Degree(s)
Kelli Cypert	CTE Coordinator	BBA, M.Ed, MSE Certifications: National Board for Career & Technical Education and Professional Teaching Standards in Early Adolescence through Young Adulthood

Goal:

The goal of Career and Technical Education is to prepare secondary students to enter the workforce or post-secondary education, after high school graduation with little or no remediation. It is our goal to train our teachers in the most current technology and bring that technology to our students so that we can best prepare them for the future ahead. Perkins indicators and End Of Course scores are used as a guide to determine where to provide additional training for teachers and students.

Program Summary:

The coordinator for the Arkansas River Education Service Cooperative (ARESC) is required to write the annual Perkins Grant and to expend the grant monies throughout the member districts, if there is a consortium. This is done through pre-approved projects approved in the grant. The coordinator is also responsible for managing and preparing the reports required by the program and the professional development as needed.

Major Highlights of the Year:

This year, ARESC concentrated offering valuable technical skills in the areas of Welding, Business, Criminal Justice, Business Education, Nursing, Medical Professions, JROTC, Accounting, PLTW, Career Readiness, Auto Services, Manufacturing, and Family/Consumer Science. Several opportunities were given at ARESC for professional development for participating districts in integrating Common Core State Standards (CCSS) into the Career and Technical areas of study and Literacy and Math. National and local conferences were attended by participating districts. ARESC held a Career Fair which was a success.

Program: Dyslexia Support

Funding Source: Consortium fees paid by six member school districts (\$24,375.00 x 6)

Funding Amount: 146,250.00

Participating Districts:

Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall,

Personnel:

Name	Position	Degree
Denise Houghton	Dyslexia Support Coordinator	BSE
Vonda Taylor	Dyslexia Interventionist	BSE
Jasmine Marks	Dyslexia Interventionist/Parapro	

Goals:

1. To assist all participating education institutions in meeting the goals and state standards established by the Arkansas Department of Education and ACT1268.
2. Collaborate with and/or provide technical assistance in the following areas:
 - a. Level II dyslexia screening on identified students
 - b. Share results and recommendations of the screening/ evaluation with the RTI committee
 - c. Coordinate and provide dyslexia intervention services for students who exhibit characteristics of dyslexia.
 - d. Report progress data from interventions to the RTI committee
3. To provide quality professional development in the required screenings administered by the school districts, RTI practices and processes, and developing targeted interventions.

Program Summary:

- The Arkansas River Education Service Cooperative Dyslexia Support Services Division provided dyslexia services and support in accordance with 1268 for member districts. This support included dyslexia screening/evaluation, interventions services, data reporting, and professional development.

Major Highlights of the 2015-2016

The Dyslexia Department received training in the following areas:

- Barton Reading and Spelling System
- APPLE –Connections
- Dyslexia Research
- Multi-sensory Language Instruction

The Dyslexia Department provided intervention services in 2015-2016 school year to the following number of students from the following school districts:

- Sheridan- 17 students
- Pine Bluff -1 student
- Stuttgart – 6 students
- White Hall -4 students

The Dyslexia Department identified the following number of students to receive services in 2016-2017 in addition to those already identified for 2015-2016:

- Sheridan -3 students
- Pine Bluff- 1 student
- Stuttgart – 2 students
- White Hall- 1 student
- Watson Chapel – 2 students

The Dyslexia Department administered Level II assessments to 48 students from the 6 member school districts.

Program: Early Childhood Special Education

Funding Sources: Federal Grant, State Grant, and Local School Districts

Funding Amount: \$1,959,327.65 Competitive Grant ____ Yes ☒ No
(Inclusive of Carry-Over Balances)

Debbie Connelly	Paraprofessional	Associate
Danielle Autrey	Paraprofessional	Associate
Nerlean Gray	Paraprofessional	HSD
Shawndalyn Watson	Paraprofessional	HSD

Goal:

The primary goal of the Early Childhood Division is to facilitate a “systems approach “through a seamless delivery of services by monitoring the process from screening to the IEP design and implementation.

Further, The Early Childhood Special Education Program provides developmentally appropriate services through an Individual Education Program for eligible children ages three (3) to five (5). These Intervention services provide students with the skills necessary to ensure successful transition to kindergarten and ultimately K-12 school experiences.

The Early Childhood Special Education staff works closely with school districts, parents, Head Start programs, and Childcare Providers in Arkansas, Jefferson and Grant counties in order to meet the goal of the program.

Program Summary:

The Arkansas River Education Service Cooperative **Early Childhood (EC) Division** takes responsibility for coordinating efforts within the region to **develop** and **establish** programs providing special education and related services to identified preschool aged children (3-5 years) with developmental delays. The Division collaborates in planning with the LEAs and superintendents in their districts for implementing activities to *ensure the identification of eligible children*. Services are provided to such children in accordance with individual educational plans developed with the least restrictive environment being the primary concern.

The ARESC Early Childhood Program staff assists with screenings on an on-going basis to identify children who may need additional evaluations to determine if they are eligible for services. Once referred to our program, the child is screened in the areas of vision, hearing, fine and gross motor, self-help, social/emotional, and communication skills. If the screening process identifies a delay, the **official referral** begins the **formal process** of determining eligibility for special education services. Once a referral is provided, the school/center must obtain written consent from the parent(s) or legal guardian(s) to begin the **evaluation phase** of the referral process. When the evaluation process is completed and a **determination** is made that a child **qualifies** for services, an **individualized education plan** is developed to address the deficit area(s) and **specialized instruction** is provided. Other services include speech-language therapy, occupational therapy, and physical therapy. A **review** of the child's progress, educational placement, and programming is conducted **annually**.

EARLY CHILDHOOD SERVICES:

The Arkansas River Education Services Cooperative Early Childhood Division provides services for children ages three (3) to five (5) with identified disabilities. The Early Childhood Special Education services are offered in accordance with the Individuals with Disabilities Education Act (IDEA) on behalf of the local school districts.

A child may be eligible for services if he/she is experiencing delays that interfere with development in one or more of the following areas:

- Speech/Language
- Vision/Hearing
- Adaptive/Self Help
- Cognitive/Academic Readiness Skills
- Behavioral/Social Skills
- Gross Motor/ Fine Motor

Each child's therapeutic program is individually planned and designed to prepare the child for future success in school. All of the following services are provided at no cost to the family:

- Developmental Screenings
- Comprehensive Evaluations
- Specialized Instruction

- Speech/Language Therapy
- Physical Therapy
- Occupational Therapy
- Other Appropriately Identified Service

PROGRAM OBJECTIVES:

- Facilitate the development of the whole child by enhancing the quality of services in the Early Childhood Program.
- Support the achievement of family goals
- Promote active engagement in learning, independent functioning and mastery of the child's environment
- Facilitate an effective, seamless delivery of services from screening to referral, evaluation, placement, development of the IEP and an effective service delivery model.
- Restructure the screening process to model and assist centers in assuming the responsibility for screening students.
-

MAJOR MONITORING COMPONENTS

- **Program Review-** Program improvement planning and monitoring will provide a greater emphasis on accountability and ensure delivery of quality services for children age 3 to 5.
- **Compliance** – Monitoring of services provides leadership and oversight in establishing consistency in procedures and program standards which promote improved outcomes for students with disabilities.
- **Staff Performance** – Annual performance reviews support employee development and provide opportunities to establish objectives for contributing to the mission of the Early Childhood Special Education Program.

Additionally, **Behavior Intervention Services** are designed to ensure that 3 through 5 year old children in need of behavior interventions are properly identified and receive the necessary services and supports. The Behavior Specialist works with general education teachers in Pre-K, Head Start, and Child Care programs to develop behavior interventions for students who exhibit behavioral concerns and are in need of programming to improve educational performance.

The Early Childhood Positive Behavior Support Program (**Rethink**) is researched based and uses educational methods that will be included in a student's program featuring replacement behaviors that have been modeled and practiced. Further, program components provide supportive measures that can be used to instruct, reinforce and increase appropriate behavior that will improve a child's outcome for successful school experiences.

Major Highlights of the Year:

CHILD COUNT 2015-2016

-

Status of Child Count	Count
2015 December 1 Child Find Count	366
Current Student Count	391
Number of children screened:	1385
Comprehensive and/or Speech Evaluations	382

School District	Child Count as of 5/10/2016
Dollarway	71
Pine Bluff	122
Sheridan	98
Stuttgart	37
Watson Chapel	29
White Hall	34
Total Child Count	391 Students

Centers Currently being Served by Early Childhood Division	Number of Centers/Students/Classrooms
Head Start Centers	14 centers with a total of 110 students in 33 classrooms
ABC Centers	10 centers with a total of 153 students in 30 classrooms
Private Centers/Itinerant	29 centers with a total of 128 students
Total Centers Currently being Served	53 391 Students

Major Highlights of the Year (cont'd):

CHILD FIND

Child Find ensures that all children with disabilities attending both public and private schools that are in need of special education and related services are provided with free and appropriate public education services. To this end, The Early Childhood Division is constantly seeking unique avenues to locate, identify and evaluate students with suspected disabilities in order to determine their need for early intervention and/or early childhood special education and related services. The Arkansas River Education Service Cooperative's Early Childhood Program continuously collaborate with

developmental disability agencies, Head Start programs, HIPPY, Parents as Teachers, public schools, public and private daycare providers, and other agencies in the provision of our services.

2015-2016 Child Find activities include the following:

- Creation of a Child Find page on ARESC's website
- Publicized Child Find Notice in the Pine Bluff Commercial and Arkansas Democrat Gazette
- Posted flyers in area schools and centers
- Building capacity with the Pine Bluff Jefferson County Economic Opportunities Commission (PBJCEOC). Several meetings were held to outline the division's work leading up to the Professional Development training.
- Participation in the Annual Health Fair on October 15, 2015 in conjunction with HIPPY/PAT. Child Find information along with resources promotional items and children books were distributed during the fair. Representatives were available to answer questions from parents and provide appropriate contact information depending on services needed.
- Staff attended the Stuttgart Child Find meeting on November 4, 2015. Preschool activities were discussed along with requested documentation provided to the Stuttgart LEA for her records.
- On April 2, 2016, the Early Childhood Division participated in **Arkansas Children's Week Family Fun Day** held at the Pines Mall. Young children were engaged in dramatic play and imaginative activities related to careers. Parents were provided informational materials relative to the Early Childhood program and given promotional items with our contact information printed on them. The Arkansas Children's Week activities provided an additional opportunity for outreach and networking with the parents of young children and local agencies.

Approximately 400 children attended and 307 adults. This event allowed the Early Childhood Division to interact with many families who were unfamiliar with our program, as well as, many families whose children already participate in the Early Childhood program.

- On April 8, 2016 and May 13, 2016 the Early Childhood Division set up an informational table display in conjunction with "La Renee Ministries" to promote community awareness of the availability of our services.
- The Early Childhood staff participated in pre-registration for Pre-K during the week of April 25-April 29, 2016. The Early Childhood staff set up an Informational Table Displays and Tri-fold Poster Boards to promote awareness of services provided through the cooperative.

FULL IMPLEMENTATION OF RETHINK BEHAVIOR SUPPORT INITIATIVE

The Rethink Positive Behavior Support Program was fully implemented this school year in the Early Childhood Division. Activities have been developed in collaboration with Rethink to include the following:

- Provision of a universal platform for all EC Team Members to access current student programs and professional development.
- Promotion of teacher use of research-based **Applied Behavior Analysis** strategies designed to address individual academic, behavioral, and other needs.
- Encouraged data driven decision making when designing Individualized Education Plans.
- Provided a universal platform to measure student progress on individual goals and interfaced this information with SEAS into the IEP.
- Customized behavioral and learning plans are key features
- Conducted a wide range of presentations from top experts in the field on the Tips and Webinars page.

FULL IMPLEMENTATION OF WEB-BASED MEDICAID REIMBURSEMENT PROGRAM

The Early Childhood Division is excited to embark upon new SEAS Web-based Medicaid Claiming and Revenue Maximization Program. This program has been very well received by Early Childhood Speech/Language Therapists and other related service providers. The Speech Therapists, Occupational Therapists and Physical Therapists use the DSCtop and DocNow applications to keep track of monthly student progress notes and calculations at the touch of their I-Pads. These applications have the capability of full interface with current IEP software (SEA) to extract information to create a claim.

PROFESSIONAL DEVELOPMENT/STAFF TRAINING

The Early Childhood Division has been involved in intensive, focused Professional Development Professional Development Activities:

- On Tuesday, September 8, 2015 The Early Childhood (EC) Division conducted training for HIPPY staff on “THE EC Referral Process for HIPPY”
- On August 5, 2015 **Phase I** of the training for Pine Bluff Jefferson County Equal Opportunity Commission – Head Start was held. An overview of the Brigance III, Child Find, Speech Language Screening, Vision Screening, Hearing screening and Developmental Screening
- **Phase II** of our Professional Development Training was held from August 10, 2015 – August 21, 2015. Our theme was “Covering All the Bases.” Some of the topics which were covered were:
 - ✚ Policies, Procedures and confidentiality
 - ✚ ARESC Phone Systems and ESCWorks
 - ✚ Medicaid Web Based
 - ✚ Child Maltreatment
 - ✚ Standard Based IEP/Due Process
- Teachers, Speech/Language Pathologists, Paraprofessionals and the Behavior Specialist attended the Arkansas Special Education Early Childhood Professionals (ASEP) Conference August 12, 2015 entitled, “*Early Brain Development*”
- Arkansas Department of Education staff (Jennifer Gonzales, Lisa Haley and Carrie Anderson) provided an overview of the Special Education State Systemic Initiative on August, 13, 2015.
- Speech Therapists attended the ARKSHA Conference on October 15th and 16th in Little Rock, Arkansas. The focus topic for this conference was *Childhood Apraxia and Severe Speech Sound Disorders: Differential*.
- October 12, 2015, the Early Childhood Division participated in the Cross Agency PD Work meeting.
- November 4, 2015^h several Early Childhood staff members participated as part of the team for the “**Collaborating for School Readiness Summit**” at the Arkansas Children’s Hospital. Team members were comprised of a representative in the following categories: Child Care (preferably CCDF), Head Start Representative, PreK Teacher, PreK Director, ABC Teacher, HIPPY Representative, Special Education Representative, Principal, Kindergarten Teacher, and a parent. The purpose of this summit was to foster a seamless transition and long-term success of Pre-K and Kindergarten children by promoting the continuity of services between Head Start, Arkansas Better Chance, Home Visiting, Child Care/CCDF, and Public School Kindergarten, including interoperable data systems and assurances that children enter public school ready to learn.
- The Early Childhood staff attended the Student Literacy presentation at the University of Arkansas at Pine Bluff on literacy and community outreach November 12, 2015.

- The Early Childhood Coordinator and the Data Administrative Assistant participated in the Cycle 4 Webinar training on November 18, 2015.
- The EC Staff (teachers and therapists) participated in a **RETHINK Professional Development Training** on Friday, February 5, 2016. This intense training was conducted via webinar and provided an in-depth explanation of RETHINK's resources, account set-up, student assessments, lesson library, student learning plan (IEP), and data express. Furthermore, the Behavior Specialist has worked diligently with RETHINK representatives and has obtained her RETHINK certification as a RETHINK trainer. The ARESC's EC RETHINK leadership is committed to carefully monitoring the change process (new interface) with confidence that we will be able to measure the impact and evaluate the successes of RETHINK.
- The Early Childhood **Standard-Based IEP** Team shared the EC Division's Training Plan for implementation at our February 19th Monthly Staff Meeting.
- The Early Childhood Special Education **Annual Review/Transition Training** was held on Friday February 26, 2016.
- On Thursday, March 10th, the Early Childhood Behavior Specialist attended the PEAK Conference Group training on Autism. Susan K. Lewis Stokes, M.A., CCC-SLP provided an overview on Autism Spectrum Disorder (ASD).
- The Early Childhood Coordinator attended the ADE Special Education Finance workshop on April 22, 2016 to address Pre-school Budget Preparation.
- On Tuesday, April 12-13, 2016, the Early Childhood Coordinator and Behavior Specialist attended the seminar entitled, "Using Powerful Interactions Stance to Support Program Staff," held in Little Rock, Arkansas
- The Early Childhood-Records & Accountability Administrative Assistant along with the Early Childhood Coordinator attended the eSchool training at the APSCN Computer Lab in Little Rock, Arkansas on April 20, 2016. The training provided an overview of Cycle 7 reporting of data which includes data entered for all Special Education students with referrals, early childhood exits, kindergarten conferences and Early Childhood outcomes.
- On April 22, 2016, the Early Childhood Coordinator attended the Special Education Finance Training for June 1, 2016 Application workshop. Also, the Early Childhood Coordinator attended the LRP Institute in New Orleans on April 24-27, 2016 where she participated in the institute sessions.

COMMUNICATION PLAN

The Early Childhood Division worked diligently to provide a division's Communication Plan which provides the framework for our vision, mission, purpose, goals and objectives. The Communication plan also provides information on our targeted audience, how the division plans to accomplish our objectives, media avenues the division will use to reach the public and stakeholders, the timetable in which our objectives will be completed, and how the division will measure the effectiveness of our program.

UPDATED EARLY CHILDHOOD WEB PAGE

ARESC Early Childhood Division website was redesigned with current and pertinent information. The updated website is inclusive of the division's mission, vision, goals, services provided, along with eligibility requirements. Other information provided on the website is a "Parent's Corner" which contains videos to help parents to understand an IEP and how to prepare for an IEP Conference. Further, Early Childhood uses the website as one of the avenues for the division to publicize our **Child Find** efforts.

STAFF ENGAGEMENT “BEGIN WITH THE END IN MIND”

The Early Childhood Staff is passionately ready to accelerate the move toward excellence achievement to guarantee that we give all students the essential readiness skills necessary for future success in school and later in life.

- Develop a Divisional “Service-Approach”
- Build Relationships with media
- Quarterly newsletter
- TV and Radio producers
- Press Releases
- Joint staff training
- Photo Opportunities
- Facilities connections among community stakeholders; group; religious leaders, business groups, private/parochial schools and area legislators.
- Community Forums
- Build and maintain partnership with businesses
- Promoting Child Find through sororities, fraternities, etc.
- Use electronics, mass media tools to promote awareness and interest, such as, website, videos to post on social media, and print media.
- Distribute fact sheet
- Develop Public Service Announcements (PSA’s) for TV and radio
- Collaborate with media to tell “our story” regionally

MEMORANDUM OF UNDERSTANDING/INTERAGENCY AGREEMENTS

The Early Childhood Division assures that interagency agreements will exist because they are essential to fulfilling statutory compliance for the provision of a free appropriate public education (FAPE) to students ages 3-5. The interagency agreements are developed and implemented in accordance to the students’ needs.

The Memorandum of Understanding/Interagency agreements between the ARESC and other agencies relate to the provision of Special Education and related services are listed as follows:

- Pine Bluff Jefferson County Equal Opportunity Commission, Inc. – Head Start
- Community for Action Program for Central Arkansas (CAPCA) Head Start Programs -Stuttgart
- Central Arkansas Development Council (CADC) Head Start/ABC
- Parents as Teachers (PAT)

*****All information is based on 2015 – 2016 verified data.***

Program: Early Childhood Special Education Child Daycare Providers

Funding Source: ADE, DHS, DH

Competitive Grant: ☒ Yes ☐ No
☒ Restricted ☐ Non-Restricted

PARTICIPATING DISTRICTS:

Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel and White Hall

PERSONNEL:

Name	Position	Degree
Ellen Jimmerson-Eddings	EC Coordinator	Ed.D. Educational Administration and Supervision

GOAL:

ARESC participates in the Childcare Providers Program with the Arkansas Early Childhood Commission.

PROGRAM SUMMARY:

ARESC has provided services and encouraged attendance at appropriate in-service activities and the use of media center equipment. Childcare Providers are considered members of the ESC Works and the TAPP Registry. Registration with the Commission and securing a membership card will allow full privileges on the cost and the use of materials and equipment. The support of the Commission has helped to educate and encourage usage by more Childcare Providers and to provide materials specifically for their use. ARESC provides space for teleconferences for staff to participate in-service at daycare sites. ARESC provides space for childcare centers' annual programs including Christmas and graduation programs. ARESC conducts Child Find activities within the centers and makes developmental material available to parents, visitors and staff.

MAJOR HIGHLIGHTS OF THE YEAR:

Continuation of Sheridan SLIDE program; Mass screenings of students which ensure earlier intervention services; Increased Childcare and private provider participation in programs; Collaborative efforts with UALR/UAMS and the UALR-UAMS Department of Audiology and Speech Pathology for hearing screenings.

Program: Early Childhood Annual Report-Medicaid in Schools

Funding Sources: ADE Grant, Federal Preschool Grant and Reimbursement for Services

Participating School Districts:

Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, and White Hall

Personnel:

Name	Position	Degree
Susan Bayird	ARESC Medicaid Clerk	BS-Business Administration

Goal:

Provide public education agencies with opportunities to maximize Medicaid reimbursement and other resources for the purpose of enhancing student health and promoting academic achievement.

Program Summary:

The ARESC Early Childhood Medicaid Reimbursement Program is an additional funding source that directly complies with the Arkansas Medicaid in the Schools (MITS) system. This system allows school districts and education service cooperatives to recoup portions of Medicaid generated funds for medical related services. Under the MITS system, an agency must create, monitor and report information to the Arkansas Medicaid Program to receive Medicaid reimbursement. The services generating the recoupment assist children in being successful in the early childhood (ages 3-5) milieu.

The following information is available to school districts and education service cooperatives via the MITS program:

Training for health related services	Policy and program development
Initiate/develop new revenue streams	Technical assistance
Collect, manage, and analyze data	Electronic billing
Revenue increasing strategies	Program management (ARMAC)

Major Highlights of the Year:

- Increased productivity/capacity through the early completion of vision/hearing screenings.
- Staff participation at the Annual Conference held at Jefferson Regional Hospital.
- Staff participation in Arkansas Medicaid Administrative Claiming (ARMAC) Annual Training.
- Contracted services for Speech Language Pathologist Assistant (SLPA) to assist two (2) Speech Language Pathologists in serving a caseload of children ages 3-5 that have been identified with speech and or language deficits of varying severities.
- Implementation of SEAS (DscTop) Medicaid reimbursement program for revenue claiming and maximization Medicaid billing.
- Monitoring of Speech Therapists', Occupational Therapists', Physical Therapists', progress notes through SEAS (DscTop). This monitoring mechanism ensures a greater emphasis on accountability, delivery of high quality services for children age 3 to 5 and to effectively addressing the requirements for Medicaid billing
- Provided Leadership (EC Coordinator) for the review and modification of the Medicaid Reimbursement Program which may result in a substantial increase in reimbursement.

Program: Facilities and Maintenance and Transportation

Funding source: LEA's Competitive Grant ___ Yes X No

X Restricted _____ Non-Restricted

Participating Districts:

Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Chad Davidson	Facilities Compliance Coordinator	BS

Goal:

To assist school districts with the 10 year facilities plan / project planning and funding, as well as maintenance and transportation rules and regulations.

Program Summary:

Public School districts are required to have 10 year facilities plans. The coordinator of the program provides school districts in the Great Rivers Education Service Cooperative as well as ARESC area with training, services and site visits to support proper planning. These efforts are coordinated with the Arkansas Division of Public School Academic Facilities & Transportation, a separate state agency, governed by the Arkansas Commission for Public School Academic Facilities & Transportation, headed by the Director of the Arkansas Department of Education.

Major Highlights of the Year:

All School districts had their plans in place and were approved. In addition, the most recent odd-year update was submitted in February, 2015, with plans approved. All districts with potentially eligible projects were identified, and applications were made to receive state assistance funding through the Partnership Program. The full approved & disapproved lists were published by May 1st, 2015 (as required by law). Those lists indicated that the ARESC districts' projects received a total maximum of \$7,320,233.95 in state share. Trainings were held for facilities and maintenance personnel for School Dude.

Program: Gifted and Talented

Funding Source: Arkansas Department of Education

Funding Amount: \$28,500

Competitive Grant ___ Yes ___x___ No

___ Restricted ___x___ Non-Restricted

Participating Districts:

Arkansas Department of Corrections, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Bill Shelly	GT Specialist	MSE
Sandi Metz	Administrative Assistant	AA

Goal:

To provide support and training to local school district Gifted and Talented (GT) personnel. To provide support for yearly Arkansas Department of Education (ADE) monitoring. To support local school districts in Pre-Advanced Placement (Pre-AP)/Advanced Placement (AP) offerings. To provide support and training in differentiation, critical thinking, Higher Order Thinking Skills (HOTS), project-based learning, creativity and other GT related topics to general education K-12 audiences. To provide competition opportunities to local school districts in Chess Tournaments, Quiz Bowl Tournaments and Jefferson County Spelling Bee.

Program Summary:

The GT Specialist provides professional development in a number of key areas that support best practices and the Common Core State Standards (CCSS). He attends state-wide meetings and will be involved in state initiatives in order to provide the latest information to local school districts. The GT specialist will support district GT personnel in preparing for ADE monitoring visits. He will offer opportunities for student competition to help prepare districts for regional and state tournaments.

Major Highlights of the Year:

Conducted numerous targeted professional development trainings at local school districts in the areas of differentiation, HOTS, project based learning and high yield instructional strategies. Provided BloomBoard training and support to local districts. Coordinated Pre-AP training in English/Social Studies, Mathematics and Science at ARESC. Serving as President of Arkansas Association of Gifted Education Administrators (AAGEA), board member of the Arkansas Association of Education Administrators (AAEA). Served as Technology Chairperson for the state Arkansas Gifted and Talented Educators (AGATE) Conference. Directly served over 2,000 students in Chess and Quiz Bowl Tournament competitions. Provided support, professional development and trainings for Teacher Excellence and Support System (TESS) and LEADS to teachers and administrators. This support included site visits, telephone calls, emails as well as professional development opportunities held at ARESC

Program: HIPPY (Home Instruction Program for Preschool Youngsters) 2015-2016

Goal:

The goal of the Arkansas River Education Service Cooperative HIPPY Program is to reach families in their familiar surroundings, empower parents in the educational role as their children's first teacher, assist the caregivers in better preparing their children for success in school, to refer families to community services as needed and to serve as a liaison between the home and the public schools.

Program Summary:

The ARESC- HIPPY Program served 750 students, ages 3, 4, and 5 within ten (10) school districts during the 2015-2016 program year. The ARESC-HIPPY Program is staffed by one Program Coordinator, five Coordinators, four Office Support Staff and thirty-one (31) Home-based Educators administered the Brigance Developmental Screening, Vision Initial Screening, and Hearing Initial Screening to each child. The Ages and Stages Developmental Screening and Family Map are used on MIECHV children as well as the other screenings. Families are then given references if needed for smoking cessation, mental health help and for low cost health insurance. The staff also assisted each family in acquiring the documentation necessary for the child to successfully enter school, such as birth certificate, social security card, health screening, and immunization records. The staff also enters each family and child into the state data system, ETO and COPA, which tracks monthly enrollment and Brigance IED Assessment, which is the statewide assessment.

Major Highlights of the Year:

The ARESC-HIPPY holds an Annual Health Clinic each year for its families and children in October to help parents get their child's health screenings. All of the physicians and nursing volunteer their time for a great cause. The program also collaborates with other ABC/MIECHV programs, learning centers, hospitals, community service providers for an Annual Children Holiday Play and Annual Arkansas Children's Family Play Day event. The ARESC-HIPPY Program had a successful audit with the AR Division of Child Care and Early Childhood Education with complimentary findings. Arkansas State HIPPY audited each field office, also with Stellar Ratings. It is highest award available for the state.

Program: Jefferson Area Technical Career Center (JATCC)

Funding Source: Arkansas Department of Education
Local Feeder Schools

Funding Amount: Competitive Grant ☐ Yes ☒ No

☐ Restricted ☒ Non-Restricted

Participating Districts:

Dollarway, Pine Bluff, Watson Chapel, and White Hall

Personnel:

Name	Position	Degree
Kurwin L. White	Director	MS Criminal Justice Education
Judy Gordon	Administrative Assistant	ASS
Angela Amerine	Teacher, Medical Assisting	BSN
Lucy Umphryes	Teacher, Nursing Assistant	BSN
Calandria Givens	Teacher, CADD	BA
Gregory Waters	Teacher, Welding	MA
Calvin Riggins	Teacher Assistant, Welding	N/A
Melisa Wells	Teacher, Banking & Finance	MAT
Kristopher Givens	Teacher, Criminal Justice	BA
None at this time	Teacher Assistant Criminal Justice	N/A

Jefferson Technical Career Center's Goals:

1. Jefferson Area Technical Career Center is committed to serving the post-high school career and job market preparation needs of all high school students enrolled in grades 10, 11, and 12 throughout Jefferson County.
2. To prepare student to be both college and career ready upon graduation.
3. To provide students with the soft skills needed to survive in our present day job market.

Jefferson Technical Career Center's Program Summary:

- Jefferson Area Technical Career Center has partnered with the National Technical Center That Work (TCTW) in order to provide our student with the best possible training. We utilize TCTW best practices. This allows our students to be able to compete with student from across the nation. We offer 5 Programs of Studies at the center. The Programs are: 1. Business and Marketing Technology, 2. Computer Aided Drafting, 3. (Health Science Programs) Medical Assistant/Nursing Assistant.
- 4. Welding and 5. Criminal Justice
- We have intensified our recruitment activities and increased our student population to 226 students.
- We served 42 students in the Medical Assistant program
- We served 35 student in our Nursing Assistant program
- We served 51 students in our Welding program
- We served 24 students in our Business and Marketing Technology program

- We served 22 students in our Computer Aided Drafting program
- We served 52 students in our Criminal Justice program.

JATCC Major Highlights of the 2015-2016 School Year:

The Jefferson Area Technical Career Center (JATCC) increased the number of students it served from 193 in 2014-2015 to 226 in the 2015-2016 school year. Along with closing out the current school year, we are also in the process of preparing to relocate the program for the upcoming 16-17.

In the forthcoming school year, our Career Center will be housed at 1903 W. 34th Ave. JATCC is also currently engaged in negotiations with Southeast Arkansas College (SEARK) to establish a Memorandum of Understand (MOU) and an articulation agreement. The previously mentioned agreements will not only afford our Welding Program and students the opportunity to be housed on the SEARK Campus; it will also offer our students the opportunity to receive college credit.

JATCC is making moves to enhance the technology based learning in our Career Center. So, in the next school year, students will be introduced to several new course offerings. We are proud to say that beginning in the 16-17 school year, we will be offering Mobile Application Development, Computer Engineering Technology, and Emergency Medical Technician (EMT) Courses.

(JATCC) is currently providing service in five Programs of Study areas.

MEDICAL ASSISTING PROGRAM HIGHLIGHTS

- Students participated in community service activities such as food drive of Neighbor to Neighbor. Other community projects included collecting money for Angel Tree and taking part in the Great Arkansas Cleanup.
- Competed in the HOSA Competition. One student placed 3rd in state-wide medical assisting competition; One student placed 3rd in state-wide veterinarian science competition; and two students placed 3rd in state-wide health career display competition; Each have qualified to compete in 2016 HOSA International Competitive Events.
- Thirteen students participated in the JATCC-UAMS/college of Health Professions Pre-Health Professionals Academy with internship at local healthcare providers
- As a result job-shadowing opportunities.

MEDICAL PROFESSIONS/NURSING ASSISTING HIGHLIGHTS

- Students were active in the HOSA organization.
- Student's assisted the HIPPY Program in giving the pre-school student's physicals.
- Several students were offered employment after graduation in the Nursing Assistant field.
- 20 students will test for their CNA Certification after completing the Prometrics test
- One student from White Hall will begin work at Ralph Robinson & Son after graduation. Studying to be a Mortician.

BUSINESS: BANKING AND FINANCE HIGHLIGHTS

- Students took part in the Jefferson County 5K and the Susan G. Komen Race for the Cure.
- Eight students received a certificate in Financial Literacy in EverFi.

- 54% of students successfully passed the modules to obtain FDIC (Federal Department of Insurance Corporation) Money Smart certificates.
- Students visited the Arkansas State Capitol and viewed the vault and Crews & Associates, an investment banking firm.

WELDING HIGHLIGHTS

- Students took part in community activities such as can food drive for Neighbor to Neighbor and Great Arkansas Clean-up.
- Students went on several field trips to experience what college level training in the Welding field is like.
- Several students competed in SkillsUSA competitions.
- One student will be attending Oklahoma State University major in welding technology
- One student will be attending Tulsa school of Welding.

CRIMINAL JUSTICE HIGHLIGHTS

- The Criminal Justice program started the year of with 51 students. The overall school year has proven to be very productive.
- We started the process of initiating an Articulation Agreement with the University of Arkansas at Pine Bluff to give college credit for our students.
- Students took part in community service activities such as Susan G. Komen Breast Cancer Walk, Arkansas Clean up, can food drive and UAPB Homecoming Activities.
- Students competed in SkillsUSA competitions.
- Students were trained in C.E.R.T. (Community Emergency Response Team)
- Students participated and conducted 3 different mock trials.

COMPUTER AIDED DRAFTING AND DESIGN HIGHLIGHTS

- Seventeen students completed our program this year.
- Students toured the SAU campus Industrial Department
- All students developed professional portfolios.
- Students learned to produce 2D multiviews by hand & computer.
- Students learned to model products using 3D software.
- Students learned to produce residential floor plans.
- Student took part in community service activities such as Jefferson 5K Walk/Run/Dance event, can food drive, blood drive, and Susan G. Komen's "Race for the Cure".
- Students participated in the fall leadership "officer's essential" workshops in North Little Rock, AR
- Students competed in SkillsUSA Spring Leadership conference in Hot Springs, AR.
- CAD student, Kameron Dorrough placed 2nd in "Job Skill Demonstration", winning the silver medal.

Program: K-12 Literacy

Funding Source: Arkansas Department of Education

Learning Services Division, K-12 Literacy Unit

Funding Amount: 173.000

Competitive Grant ☐ Yes ☒ No

☒ Restricted ☐ Non-Restricted

Participating Districts:

Arkansas Correctional School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Dee Davis	Literacy K-12	MSE
Paula Findley	Literacy K-12	MSE

Goals:

1. To assist all participating education institutions in meeting the goals and state standards established by the Arkansas Department of Education and the new State Standards.
2. Collaborate with and/or provide technical assistance to District Leadership Teams, giving priority to districts in School Improvement in the form of:
 - a. Supporting the School Improvement Process
 - b. Leading District Leadership Teams in the Root-Cause Analysis process
 - c. Assisting School Districts in analyzing data (Student Achievement, School Process, Perceptual, and Demographic)
 - d. Planning for and providing Professional Development
 - e. Monitoring and Planning for Core instruction
 - f. Assisting District Instructional Coaches
 - g. Using CWT or other District Observation Protocols
 - h. Collecting and Analyzing data from CWTs with District Leadership Teams
 - i. Identifying, Implementing, Monitoring and Reflecting on the District's plan of action
 - j. Celebrating Successes
 - k. Collaborating with the Arkansas Department of Education during unit meetings, regional meetings, Zoom meetings and other opportunities as they arise.
2. To support and build capacity with district leaders and instructional coaches through the coaching philosophies of Jim Knight, Stephen Barkley, and/or Diane Sweeney.
3. To provide quality professional development in ELLA (Early Literacy Learning in Arkansas) to all teachers, instructional coaches, and administrators as they transition to the Common Core State Standards.
4. To provide quality professional development in ELF (Effective Literacy for Grades 2-4) to all teachers, Instructional coaches and administrators as they transition to the Common Core State Standards.

5. To provide quality professional development in I.C.L.F. (Implementing a Comprehensive Literacy Framework) to all teachers, instructional coaches, and administrators as they transition to the Common Core State Standards.
7. To provide quality professional development in the implementation of LDC (Literacy Design Collaborative).
7. To provide quality professional development in Instructional Coaching to all Instructional Coaches.
8. To provide quality professional development in Best Practices/High Yield Strategies to teachers, instructional coaches, and building-level Principals

Literacy Goals (cont'd.)

9. To provide quality professional development in Disciplinary Literacy to all teachers, Instructional Facilitators/Coaches, and Administrators as they implement the State Standards.
10. To provide quality professional development in Strategic Instruction Model (SIM), collaborate with teachers, and model routines in classrooms throughout ARESC districts.
11. To promote Arkansas IDEAS and Arkansas iTunesU to District Leaders, Instructional Coaches, teachers, and other support staff throughout ARESC districts.
12. To provide support to teachers in the area of Dyslexia Awareness and information regarding required screenings.

Program Summary:

- Early Literacy Learning in Arkansas (ELLA) is a two-year professional development designed to assist teachers in K-1 for implementing a comprehensive literacy classroom.
- Effective Literacy (ELF) is a two-year professional development designed for grades 2-4 to implement a balanced literacy approach in instruction, assessment and intervention.
- Disciplinary Literacy is a professional development program designed for Science and Social Studies teachers in grades 5-8 and 9-12 to integrate specific, research-based literacy strategies aligned to the Common Core State Standards as well as content area practices.
- Implementing a Comprehensive Literacy Framework is a professional development opportunity developed by literacy specialists from the Arkansas Department of Education and education service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level. As a whole, the modules serve as a complete course of study for reading and writing teachers.
- K-12 Instructional Facilitating is professional development designed to support instructional facilitators in Arkansas schools through embedded professional learning.
- SIM (Strategic Instruction Model) is a comprehensive approach to adolescent literacy that addresses the need of students to be able to read and understand large volumes of complex materials as well as their need to be able to express themselves effectively in writing.
- Literacy Design Collaborative (LDC) offers teachers, coaches, and leaders an instructional system for developing students' literacy skills to prepare them for the demands of college and careers.

Major Highlights of the 2015-2016 School Year:

The Literacy Department received training in the following areas:

- Common Core State Standards
- C3 Framework for Social Studies
- Teacher Evaluation- Framework for Teaching, LEADS, BloomBoard, Coaching
 - Literacy Design Collaborative (LDC)
 - Capacity Building
 - Close Reading
 - Text Complexity
 - Text Dependent Questions
 - Shared Research and Inquiry
 - Informational Writing
 - Research Writing
 - Disciplinary Literacy
 - Inquiry Circles
 - Adolescent Literacy Research
 - Argumentative Writing
 - Descriptive Writing
 - Academic Vocabulary
- SIM (Strategic Instruction Model) Content Enhancement Routines (CERs)
 - Dyslexia Training/Support

Literacy Major Highlights (cont'd.):

The Literacy Specialists met regularly with the Arkansas Department of Education and other specialists during Unit meetings, face-to-face and through Zoom. Attended face-to-face as well as Zoom Literacy Unit Meetings with other state literacy specialists to convene as a professional learning community. This time is utilized by state level teams to brainstorm, share, execute, and receive professional development that is data-driven to impact student achievement. Training of trainers, in ELLA, ELF, ICLF Disciplinary Literacy, LDC, and other state level trainings have taken place over the past year. Currently, a continued study of the new standards of other content areas and the new ACT/ACT Aspire assessment continues as school districts in Arkansas prepare for implementation with dedicated support from the specialists. Monthly meetings were held by the ADE Dyslexia Specialist with the ESC Dyslexia Contacts in order to discuss dyslexia topics and concerns. Additionally, CIV Conversations were conducted to provide training and support on educational issues and practices on both a state and national level.

The Literacy Department has supported schools in a variety of ways including:

- Common Core State Standards overview and implementation
 - Instructional Coaching
 - Capacity Building
- Team Meetings/Professional Learning Communities
 - Data Analysis
 - Classroom Observations
 - Classroom Walk-Through
- District Leadership Team Meetings for School Improvement
 - Lesson Planning
 - Demonstration Lessons

- Research-based Best Practices training
 - Teacher Evaluation (TESS)
 - LDC Implementation
 - Dyslexia Awareness

Program: K-12 Mathematics

Funding Source: Arkansas Department of Education, K-12 Mathematics Specialist Grant

Funding Amount: Competitive Grant ____ Yes ☒ No

☒ Restricted _____ Non-Restricted

Participating Districts:

Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Bill Neilson, ADE	K-12 Math Specialist	MSE
Tiffani Grayer, ADE	K-12 Math Specialist	MSE

Goals:

1. Support and base decisions on the standards set forth by and outlined in the State Standards and Arkansas Mathematics Frameworks.
2. Collaborate with and/or provide technical assistance to District Leadership Teams, giving priority to districts in School Improvement in the form of:
 - a. Supporting the School Improvement Process.
 - b. Leading District Leadership Teams in the Root-Cause Analysis process.
 - c. Analyzing Data (Student Achievement, School Process, Perceptual, and Demographic).
 - d. Planning for and providing Professional Development.
 - e. Monitoring and Planning for Core Instruction & CCSS Implementation.
 - f. Providing Instructional Coaching and/or Assisting District Instructional Facilitators.
 - g. Supporting and/or Monitoring District RtI Plan (Closing the Achievement Gap).
 - h. District Observation Protocols.
 - i. Collecting and Analyzing Data from CWTs and SAIs with District Leadership Teams.
 - j. Identifying, Implementing, Monitoring and Reflecting on the District's Plan of Action.
3. Collaborate with the Arkansas Department of Education (ADE) during Unit meetings, Regional meetings and other opportunities as they arise.
4. Support, empower, and build capacity with District Leaders and Instructional Facilitators through the use of Cognitive Guided Instruction (CGI) and Extending Children's Mathematics (ECM).
5. Provide quality professional development in Mathematics to teachers, Instructional Facilitators, and Administrators as they transition to the new Math Standards.
6. Provide support & training in Mathematics Design Collaborative (MDC) with all participating buildings.

Mathematics Program Summary:

ARESC, in partnership with the ADE, administers the Mathematics' Program for grades K-12, established by Act 1392 of 1999 for the improvement of mathematics' instruction throughout Arkansas. Assistance is provided to schools through professional learning programs, demonstration lessons, teacher observations, and technical assistance, and teacher/administrator conferences in order to improve the teaching and learning of Mathematics through increased content understanding and improved instructional strategies across the curriculum. Professional learning opportunities offered in 2015-2016 included:

- **Math Coaches' Training:** The focus of this training for math coaches/instructional facilitators/specialists consists of both content and pedagogy for mathematics education. Emphasis is placed on the CCSS, instructional strategies, utilizing manipulatives in order to build conceptual understanding, and authentic assessments.
- **Mathematics Design Collaborative (MDC):** In collaboration with the ADE and the Southern Region Education Board, state math specialists partnered with member districts Algebra and Geometry teachers to support and introduce formative assessment lessons and Understanding by Design (UbD) unit planning to the secondary classroom. This training begins in the summer and is carried out through the school year with monthly meetings and schedules site visits.
- **CGI and ECM:** These nationally recognized researched based professional development classes offer teachers 6-7 training days per year with two day being embedded in the classroom with students. Through these trainings teachers learn to utilize effective guided questioning and problems solving strategies with their students. They are also equipped with knowledge of how to better assess what level of problem solving their student displays such as direct modeling, 1-1, etc.

Major Highlights of the Year:

The Mathematics Department has assisted schools in a variety of ways including:

- Implementation of new Math Standards
- Instructional Facilitator Support
- Team Meetings/Professional Learning Communities Support
- Classroom Observations
- Support for District Leadership Teams
- Lesson Planning Support
- Demonstration Lessons
- Research-based Best Practices
- MDC with ADE Specialists' support
- CGI
- ECM

Program: K-12 Science

Funding Source: Arkansas Department of Education

Funding Amount: \$86,500

Competitive Grant ___ Yes ___ ☒ No

☒ Restricted

___ Non-Restricted

Participating Districts:

Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Andi Lunsford	Science Instruction Specialist	Bachelors

Goal:

The goals of the ARESC Science Instructional Specialist Program are as follows:

1. To assist all participating education institutions in meeting goals and state standards
2. To enrich the curriculum base content knowledge and teaching strategies of science teachers
3. To assist in the school improvement process

Professional Development Received This Year:

Science Monthly Unit Meetings- Meetings are organized so that K-12 Science Specialists from all cooperatives and Science, Technology, Engineering, and Math (STEM) centers convene on a monthly basis as a professional learning community. Science specialists receive professional development that is current, research based, and data driven. The meetings also provide time for science specialists to set goals, create and organize statewide PD, and assess impact on existing programs. Currently, an in-depth study of the Next Generation Science Standards (NGSS) continues as school districts transition from our current frameworks to the new Arkansas K-12 Science Standards. The Literacy Design Collaborative (LDC) also enabled the Science Specialist to receive hours of training and support to maintain the science LDC work in the state with partnering districts and SREB.

Engineering Is Elementary- EIE is a project of the National Center for Technological Literacy at the Museum of Science, Boston. EIE presents teachers with curriculum development and dissemination, educational research, and evaluation for effectively teaching STEM in the classroom. EIE incorporates all curriculum content areas in each of their lessons, showing teachers how to maximize time and learning potential.

Reformed Teaching Observation Protocol- RTOP advocates the shift from traditional teacher-centered classrooms to student-centered classrooms using a standardized observation form and rubric. The RTOP form is a holistic measure of the presence/absence of specific teaching strategies that allow instructors to evaluate and gain insight into their teaching practices.

ACT ASPIRE – Arkansas has adopted the use of the ACT ASPIRE Interim Assessment as a periodic, summative assessment tool. Training on the assessment gives educators insight into the breakdown of

the test, including item types and exemplars, and item reporting categories. This training specifically targeted the science portion of the assessment.

Vernier Equipment Training- Vernier combines graphing analysis software, experiments, sensors, and data collectors to help educators put technology into student hands and prepare them to be college and career ready. Vernier offers easy-to-use technology and versatility for hands-on science education.

Program Summary:

The 2015-2016 science program focused on several areas: ongoing building and strengthening of relationships with cooperative schools; professional development for administrators, teachers, and coaches; school support including: model lessons, teacher observations, and technical assistance; and teacher/administrator conferences in order to evaluate and improve science teaching and learning through increased content understanding and improved instructional strategies across the curriculum.

Specialist Training: New Teacher Mentor Training, Literacy Design Collaborative, Picture Perfect Science Lessons, Arkansas K-12 Science Standards Training and Support.

Cooperative Schools: Contact was made with every school district in the ARESC Cooperative area to continue to build and strengthen relationships, offer technical and material assistance, inform them of the professional learning opportunities and student competitions, teacher training, Professional Learning Communities (PLCs), and any other support that can be provided by the Science Specialist.

Professional Development and Support: On-site support was provided for cooperative teachers and administrators in the areas of science/literacy investigations, Literacy Design Collaborative, science journals, laboratory experiments and materials. Other professional development provided included: Arkansas K-12 Science Standards training, support and strategies, assisting teachers in developing lessons that incorporate science and literacy, LDC, and Picture Perfect Science Lessons.

Major Highlights of the Year:

The Science Department has assisted schools in a variety of ways including:

- Classroom Observations
- Model Lessons
- Implementation of Arkansas K-12 Science Standards
- Lesson Planning Support
- LDC
- Team Meetings/Professional Learning Communities Support
- Support for District Leadership Teams
- Research-based Best Practices
- Regional K-6 Science Fair

Program: ParaProfessional Assessment

Funding Source: Educational Testing Services (ETS) Computer-delivered ParaProfessional Assessment

Funding Amount: No Grant was required. ETS does not charge an educational agency to become a testing center and download technology requirements for testing. The candidates pay ETS \$55.00 on-line per testing session. ARESC does not charge the candidates any other amount (i.e. sitting/facility fees).

Participating School Districts:

ARESC Districts: Arkansas School for the Deaf, Arkansas Correctional Schools, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall. ARESC has also provided tests for candidates from districts state-wide in Arkansas as well as out of state to Mississippi.

Goal:

To provide the opportunity for candidates to meet the qualification requirements for New Paraprofessionals hired after January 8, 2002.

Program Summary:

The qualification requirements for new federally funded instructional paraprofessionals are as follows:

- Completed two (2) years of study at an institution of higher education, or
- Obtained an associate's degree or higher, or
- Passed the ParaPro Assessment with a score of 457 for Arkansas. Other states may require a different passing score which is provided by ETS.

The ParaPro Assessment for prospective and practicing paraprofessionals measures skills and knowledge in reading, mathematics, and writing, as well as the ability to apply those skills and knowledge to assist in classroom instruction.

The test consists of 90 multiple choice questions across the subject areas of reading, mathematics, and writing. Approximately two-thirds (2/3's) of the questions in each subject area focus on basic skills and knowledge. Approximately one third (1/3) of the questions in each subject area focus on the application of those skills and knowledge in the classroom context. Fifteen (15) of the questions in the test (five in each subject area) are pretest questions and do not count toward the test taker's score. The test questions are arranged by subject area, with reading first, then mathematics, then writing.

If a candidate does not score the required score of 457 for Arkansas (or the required score for any other state), then ETS requires the candidate to wait at least 2 weeks before re-taking the assessment.

Program Highlights:

ARESC has provided the ParaPro Assessment to 87 candidates. 16 candidates were tested during the 14/15 school year with 13 scoring the passing score of 457 through the top score of 480. During the 15/16 school year, 71 candidates were tested. Of the 71 tested, 50 passed with scores of 457-480.

Program: Parents as Teachers (PAT)

Funding Source: ABC and MIECHV

ABC State Funding Amount: \$105,000

Competitive Grant: ☒ Yes ☐ No

MIECHV Federal funding Amount: \$110,000.00

Federal Funds: ☒ Yes ☐ No

☒ Restricted

☐ Non-Restricted

Participating Districts:

Dollarway, Pine Bluff, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Olivia Stocker	ABC Coordinator	BS
Gail Edwards	ABC Parent Educator	AA
Barbara Marbley	MIECHV Parent Educator	BS/Master
Lakeisha Taggart	MIECHV Parent Educator	BS

Goal:

Parents as Teachers (PAT) are a prenatal and early learning program for parents of children between the ages of before birth and 3 years. The services available from this program include the following: Personal visits by Certified Parent Educators, Group Meetings, Developmental Screenings, Referrals, Toy/Book/Video Lending Library.

Program Summary:

PAT uses the research based curriculum developed by the Parents as Teachers National Center in St. Louis, Missouri. Independent research shows that at the age of 3 years, children who have participated in the PAT program score above the national norm on achievement.

Major Highlights of the Year:

PAT at ARESC has held several in-service weeks for certification purposes. Many concerned parents, educators, and legislators have worked long hours to educate the public about the value of this program and to obtain stability in funding through the Arkansas Legislature.

Program: School and Community Health Services

Funding source: Arkansas Master Tobacco Settlement

Participating Districts:

Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall, Pine Bluff Lighthouse Charter School, Quest Middle School Charter School

Personnel:

Name	Position	Degree
Rosemary Withers	Community Health Promotion Specialist	Master's in Public Administration

Goal:

Provide schools and communities with assistance and resources that will improve school and community health.

Program Summary:

Provided technical assistance to area School Wellness Committees:

- School Health Index
- School Health Index Planning for Improvement Plan
- Best Practices (Breakfast in the Classroom, HealthTeacher.Com, GoNoodle, SPARK, Nutrition Poster Contest)
- Wellness Committee's Responsibilities Documentation
- ADE Rules for Nutrition and Physical Activity and Body Mass Index
- Wellness Toolkit
- Nutrition Guidelines
- Smart Snacks
- Coordinated School Health
- Safe School Health Initiatives
- Tobacco Trends Training
- Oral Health Training
- Body Mass Index Training
- Planned and organized upcoming Wellness Conference
- Requested and received updated list of wellness committee members
- Reviewed ASCIP wellness priorities for all school districts
- Reviewed annual School Health Index and BMI results
- Oriented and trained new chairs of wellness committees
- Emailed all wellness initiatives documents for distribution
- On-site visit and follow-up with all wellness chairs to discuss adopting comprehensive statewide tobacco policy
- Regularly attends wellness committee meetings and provide updates
- Provide updates related to child health and public health issues
- Linked resources to schools and communities (health fairs, data for grant application, etc.).

Provided technical assistance in implementing community programs:

- Co-chaired and implemented Jefferson County Growing Healthy Communities' work plan
- Tobacco Prevention and Cessation (raised awareness of trends related to tobacco and nicotine products, tested for carbon monoxide in blood using breath carbon monoxide monitor, faxed referrals to Arkansas Tobacco Quitline).
- Injury Prevention (youth suicide prevention)
- Interactive and educational health fairs
- Hometown Health Improvement work plan
- Arkansas Coalition for Obesity Prevention work plan; received grant funding
- Early Childhood and Schools work plan

Major Highlights of the Year:

School Wellness Committee workshop on January 27, 2016

Upcoming Young Athletes, PreK-5 grade on June 20, 2016

Upcoming Increasing Inclusive Physical Activity and Health Education, 6-12 grades on June 20, 2016

Upcoming Yoga for Kids workshop on June 27, 2016

Program: School Health Services

Funding source: Arkansas Master Tobacco Settlement

Participating Districts:

Dollarway, Pine Bluff, Watson Chapel, White Hall, Pine Bluff Lighthouse Academy, Quest Charter School, Sheridan, Stuttgart, and Arkansas School for the Deaf

Personnel:

Name	Position	Degree
Liz Mercer, RN	ARESC Community Health Nurse Specialist	Associate Degree Science/Nursing

Goal:

Provide schools with assistance and resources that will improve student health.

Program Summary:

Provide technical assistance to area schools to:

Provide teaching about prevention of youth initiation of tobacco and promotion of cessation efforts, health promotion and disease prevention, support of Coordinated School Health efforts, technical assistance to school nurses for health screenings, immunizations, and other school health issues. Provide wellness initiatives, nutrition, physical activity information/training, coordinated school health efforts, education and policy guidance to school district nurses and community health coalitions. Promoted injury prevention with information and training.

Provide Education and Training to:

Inform schools and communities of school health resources, available trainings, and grant opportunities.

Identify needed school health related training for school personnel.

Provided training to school nurses on relevant school/child health topics.

Provided Hearing, Vision, Scoliosis, BMI trainings.

Provided two- hour PD on suicide training.

Provided Child Maltreatment Training to schools.

Facilitated RN Supervisor Quarterly meetings. Provided updates including, eSchool, insulin and epi laws in schools, ACT 935, Act 936, ACT 952, ACT 1437, ACT 833, Tobacco prevention strategies in schools (Second chance, Act 811, Effects on youth and smoking).

Presented Making Educators Partners at ARESC Wellness workshop.

Major Highlights of the Year:

Provided nine two-day ASIST trainings (approximately 90 individuals trained). Education on all tobacco materials was also discussed in presentation. Tobacco booth provided with educational materials/visuals such as Mr. Gross Mouth, Act 811, Cardiovascular Health, Referral Fax form, 2 A's & R, Quitline line cards, and other SOS brochures. Quitline was offered to participants and for family/friends who smoke.

Provided Gatekeeper's presentation at ARESC on July 28 and July 29 (4 sessions) for White Hall School District. This met ADE's required Suicide Professional Development for 2015-2016. Evaluation showed that 90% learned something they did not know (159 participants). Also provided numerous Gatekeepers' presentations to all school districts within ARESC coverage area.

Facilitated Meeting with Jefferson County LHU and School Nurses to set up flu clinics in the schools. Participated in school and mass flu clinics.

Act 811 Cards were stapled to all flu vaccine permission forms sent home to the parents for flu clinics; education was provided to school nurses on Act 811 card. Parents received information on the Act 811 card to better educate them to the law, effects of secondhand smoke, and the Quitline number if anyone would like to quit: A total of 22,540 parents and children will be educated from the cards sent home.

- 912 parents and children at LL Owen
- 1,240 parents and children at Watson Chapel Jr. High
- 2,484 parents and children at Watson Chapel High and Coleman Elementary
- 2,254 parents and children at James Matthews/Dollarway High
- 4,638 parents and children at White Hall High, Taylor, Gandy, Moody, Hardin
- 1,600 parents and children at Broadmoor and Southwood
- 200 parents and children at Quest Charter School
- 1,484 parents and children at White Hall Jr High
- 6,878 parents and children at WT Cheney, Pine Bluff High, Jack Robey, Belair, Forrest Park Pre-School, First Ward.
- 850 parents and children at Edgewood Elementary.

Scheduled four summer session trainings at ARESC for Mandated Reporter/ Domestic Violence.

Scheduled Vision/Hearing, BMI/Scoliosis in September for ARESC.

Scheduled six summer ASIST trainings around the state at co-ops.

SPECIAL PROJECTS AND PROGRAMS

FUNDING SOURCE: Arkansas Department of Education

RESTRICTED ☒ **NON-RESTRICTED** ☐

Detailed below are special projects or programs in which state funding provided services regionally or statewide, giving this cooperative an opportunity to participate.

Program Name: ADE Etherscope Project

Competitive Grant: Yes ☐ No ☒

Goals and Description:

In an effort to assist schools in preparation for online Common Core State Standards (CCSS) testing in 2014-2015, ADE awarded a grant to the Co-ops for the purchase of Fluke Etherscope, Linkrunner and AirCheck Wifi tester. There were sixteen sets of Etherscopes purchased and each cooperative received their own. Our goal is to evaluate all of the schools in our cooperative to see if their networks are capable of connecting one computer to one student, for the CCSS testing. When we visit each school, we save reports from the Etherscope for evaluation purposes and inform the school technology coordinator of the findings.

Program Name: Instructional Facilitating

Competitive Grant: Yes ☐ No ☒

Goals and Description:

Instructional Facilitating Training is based on Dr. Jim Knight's Instructional Coaching Institute from the University of Kansas Center for Research on Learning. The training will refine the Instructional Facilitator's understanding of their various roles and distinguish between effective and ineffective coaching practices. The training will also provide leadership skills for leading reform, give direction on fostering internal commitment in others, and determine when it is or is not appropriate for modeling in a classroom.

Program Name: National Board Certification Support Site

Competitive Grant ☐ Yes ☒ No

Goals and Description:

Goal: Enhance the professional teaching culture as a means of accelerating the academic achievement of all sub-populations. The Arkansas River Education Service Cooperative (ARESC) supported the establishment of a four-district (Dollarway, Pine Bluff, Watson Chapel, and White Hall) training site for the National Board for Professional Teaching Standards (NBPTS) process. ARESA accommodated the candidates' training by allowing the sessions to be held at ARESA and by supplementing funds for the coordinators' and facilitators' stipends as well as for snacks for the meetings. After completing the National Board process, the participating teachers will be more reflective and more prepared to produce students who are better writers and thinkers. Thus, their students will be more successful in class and will perform much better on school, district and state

Research has shown that the National Board process does the following for teachers/students: Improves student achievement and learning, develops more effective and more accomplished teachers, makes a difference in high-needs schools, recognizes skilled teachers and teacher leaders, equips teachers to more readily improve and evaluate student learning, and improves the graduation rate. As a result of the support provided by ARESC, eight (8) participants of the 2015-2016 cohort group became National Board Certified Teachers.

Program Name: Teacher Evaluation Support System (TESS)

Competitive Grant: Yes ☐ No ☒

Goals and Description:

The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, software provided by ADE that provides new district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The cooperatives held the three hours Laws and Process training. The Arkansas Department of Education provided training for administrators at each cooperative on Summative Evaluation Process and Professional Growth Plans. Arkansas Department of Education in conjunction with BloomBoard and cooperatives provided regional BloomBoard Universities. The purpose of the BloomBoard University was to showcase the insights and reports as well as the additional features available to schools. The cooperatives are currently scheduling additional sessions to extend the learning and support administrators and teachers as they continue to implement TESS as the teacher evaluation system in the 2015-16 school year.

Program Name: Technology Infused Instruction Project (TIE)

Competitive Grant: Yes ☒ No ☐

Goals and Description:

The purpose of the TIE project is to increase technology integration across the state of Arkansas. This program was originally funded when Southwest Arkansas Education Co-op wrote a comprehensive partnership EETT grant to develop a statewide professional development module system to embrace all forms of technology, meet the needs of teachers and administrators, and address State standards while enhancing instruction through integrated technology practices. The cooperatives and ADE have partnered to continue this funding. All education cooperatives across the state were offered the opportunity to train teachers from their area to become TIE Cadre members. There are currently approximately 120 TIE Cadre members impacting over 70 districts across the state. Cadre members have conducted over 450 workshops across the state on 78 different technology modules. The trainings have impacted over 5,000 teachers and administrators. The modules are all project based and have been developed by teachers. Modules include trainings on things such as Common Core State Standards, Blogs, Classroom Wikis, High Yield Strategies with Technology, Internet Safety, Podcasting and Video Editing. Modules are housed on the TIE website at <http://lms.swsc.k12.ar.us>. By sharing these modules across the state, we are able to offer the same quality in technology trainings that we did not have before. The cadre members not only train for the education co-ops in the summer, but are also responsible to help train in their buildings and districts. Module development and professional growth are the focus of cadre trainings.

Program: Teacher Center-Professional Development; Curriculum Development Assistance; Resources

Funding Source: Participating Districts

Funding Amount: \$70,259.20

Competitive Grant ☐ Yes ☒ No

☐ Restricted ☒ Non-Restricted

Participating Districts:

Arkansas Department of Correction School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Kay Simpson	Teacher Center Coordinator/Assistant Director	MSE
Sandi Metz	Administrative Assistant	AA
Katherine Pye	Media Center Specialist	BS

Goals:

- *To align professional development services with district and school needs to build capacity of all adult learners in order to provide a world class education system which graduates students who are college and career ready.
- *To provide adult learners with content knowledge and research-based instructional strategies to assist students in meeting rigorous academic standards and prepare adult learners to use various types of assessment results appropriately.
- *To improve the learning of all students by providing resources to support adult learning and collaboration
- *To provide curriculum development assistance as schools transition from frameworks to CCSS
- *To support school improvement initiatives generated by the ADE and enhance program integration through effective communication and technical support

Program Summary:

Professional Development (PD) opportunities target the focus areas as outlined by the ADE, and PD sessions are offered to meet the requirements of the new law regarding the required hours of PD, as well meeting the needs of schools based upon needs assessment survey results, Student academic data (GPS Dashboard, Triand, etc), SAI data, and any other data from the 8 districts served. The Teacher Center Committee receives the data sets from the districts in planning PD to meet the major needs of the districts. The Teacher Media Center occupies 5000 square feet of ARESC. Resources include cut-out dies and cutters, book binders, lamination, copy systems, paper cutters, button machine, and poster maker machine. The Media Specialist is available to assist teacher when they are in the center, or to take requests via email, phone or in person.

Major Highlights of the Year:

New Curriculum State Standards PD opportunities, PD opportunities as according to district/building requests and/or needs; Instructional Facilitation Training; Math, Literacy, and Science Coach PD sessions for building capacity; Literacy IF Training, Principal LEADS and administrative Sessions; Summer Leadership Institute; TESS and LEADS Training for Teacher and Principal Evaluation; Superintendent's Institute Retreat, New Teacher Institute to help ARESC's districts with teacher retention, School Board Member Training; Some of the PD opportunities included: Disciplinary Literacy in Science, Social Studies, Music, Art, & PE; Classroom Management training; Positive Behavior Development; Training in Autism; RTI Team Development Sessions; Mentor training; Completed SREB training in LDC/MDC, Implementation support for LDC/MDC; CGI; ECM; ELLA, Effective Literacy, Strategies in Literacy (i.e. Close Reading, Text Complexity, etc); 418 & 419 Endorsement training for CTE teachers; offered Literacy support as well as Math, Science (Next Generation & Picture Perfect Science Standards), G/T, CTE. ARESC held Chess Tournaments, Quiz Bowl competitions, Spelling Bees, Science Fairs, Science Olympics, and Science Robotics for student competitions.

Program: Teacher Mentoring Program for Arkansas Novice Teachers

Funding Source: Arkansas Department of Education

COMPETITIVE GRANT: Yes___ No X

Participating Districts:

Arkansas Correctional School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Paula Findley	ARESC K-12 Literacy Specialist/AIMM Trainer	MSE
Andi Lunsford	ARESC K-12 Science Specialist	BSE

Goal:

To create successful classroom teachers through a comprehensive mentoring, peer coaching, observation system for novice teachers.

- Become familiar with the Framework for Teaching (FfT) and the relationship between Novice Mentor training and TESS (Teacher Effectiveness Support System)
- Use the Mentor Orientation Guide
- Navigate a mentoring module in Teachscape
- Identify coaching techniques for use in the mentoring process

Program Summary:

The ADE provides grant funding for training costs for teachers to serve as mentors for novice teachers. The mentors are trained in the Arkansas Novice Teacher Mentoring system that is built upon a framework of essential teaching skills which are divided into four domains and twenty-two components. Participants learn how to use this system in observing and providing feedback to the novice teachers.

Major Highlights of the Year:

Mentor trainers attended initial training and began providing sessions using Teachscape throughout the year.

Program: Technology

Funding source: ADE

Funding Amount: \$75,000

Competitive Grant ☒ Yes ☐ No

☒ Restricted ☐ Non-Restricted

Participating Districts:

Arkansas Department of Correction School System, Arkansas School for the Deaf, Dollarway, Pine Bluff, Sheridan, Stuttgart, Watson Chapel, White Hall

Personnel:

Name	Position	Degree
Michael Reed	Technology Coordinator	BS
Sandi Metz	Technology Admin. Assistant	AA

Goal:

To provide quality technology support for the cooperative and for the member school districts.

Program Summary:

- Supporting districts in their efforts to provide technology for teaching and learning
- Coordinating with districts and schools to increase access to AR IDEAS, AR iTunesU, and AR Digital Sandbox
- Provide PARCC Online Testing support to area school districts
- Provide quality professional development
- Provide ongoing support to the cooperative: hardware/software/network maintenance and training
- Provide AR IDEAS information and STIN lookups at the majority of all summer workshops provided by the cooperative
- Instructing in teacher workshops, school board trainings, and superintendents training
- Host meetings with the member district technology coordinators every other month
- Aid with Technology Plan writing and assistance to the cooperative and member school districts
- Attend state Technology meetings with other co-op technology coordinators
- Attend Professional development (HSTI, TIE, etc) to provide districts with the most updated information/training opportunities

Summary Attended

Printed Date: 7/13/2016 Last modified: 7/13/2016

Crowley's Ridge Educational Service Cooperative Annual Report 2015-16

Letter from the Director

SUBJECT: 2015-16 Annual Report

I consider it an honor to speak on behalf of CRESC. The stakeholders who create the smooth delivery of information on a day-to-day basis put forth a tremendous amount of effort and must have a high level of expertise in their job specific areas. This annual report is a compilation of efforts by the CRESC staff in an effort to summarize our activities for the year 2014-15.

Many changes have occurred in education since the inception of the Educational Service Cooperatives in 1985. The co-ops have assisted districts in embracing change for improving schools. They have done so by providing professional development and aiding in the building of capacity. The Co-ops have been instrumental in initiating the implementation of these many changes. Thus, schools are able to meet the initiatives that have been rolled out by the Arkansas Department of Education.

The next few years will see variations in Co-op evaluation brought about by the legislature, as well as teacher licensure alterations, teacher and principal evaluation modifications, BloomBoard, changes in mentoring of new superintendents, and changes in assessment. It will be the responsibility of our staff at CRESC to make sure these changes are clearly communicated to all twenty-two school districts we serve.

With each and every school year comes greater accountability. Our educational system is under scrutiny regarding how we conduct school and how our students perform. We at CRESC feel committed to help our schools perform at a rate that meets or surpasses state and national expectations.

Education is probably changing faster today than ever before. We must change with it or become a victim of it.

*John R. Manning, Director
Crowley's Ridge Educational Service Cooperative*

Crowley's Ridge Educational Service Cooperative

Mission Statement

The purpose of this Cooperative is to be of assistance to member schools in achieving more efficient use of their shared resources; to be of assistance in meeting or exceeding accreditation standards; and, to promote coordination between districts and the State Department of Education in order to provide services consistent with district needs.

State Map of Cooperatives

The Crowley's Ridge Educational Cooperative serves the area marked on the map above.
CRESC services public schools in:

Craighead County: Bay, Brookland, Buffalo Island Central, Jonesboro, Nettleton, Riverside, Valley View

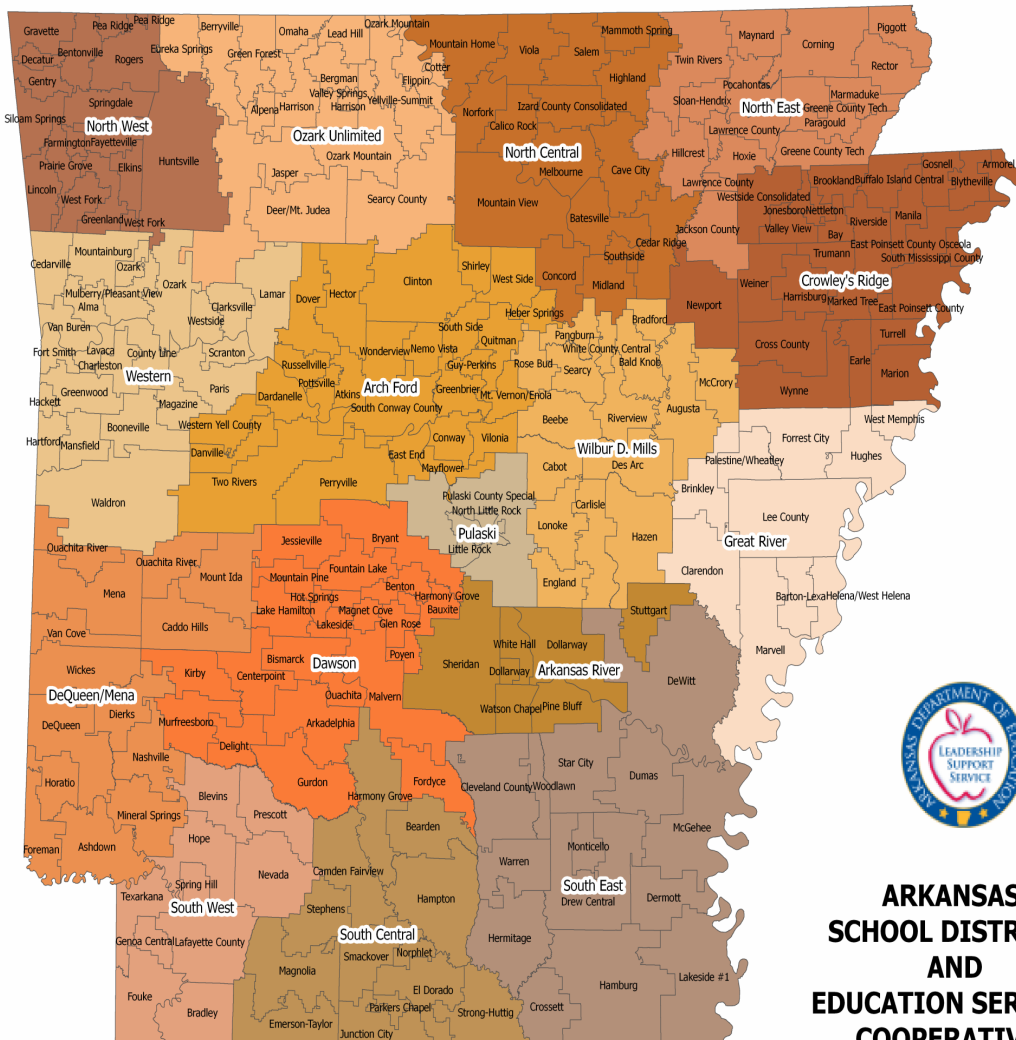

Crittenden County: Earle, Marion

Cross County: Cross County, Wynne

Jackson County: Newport

Mississippi County: Armorel, Blytheville, Gosnell, Manila, Osceola, South Mississippi County

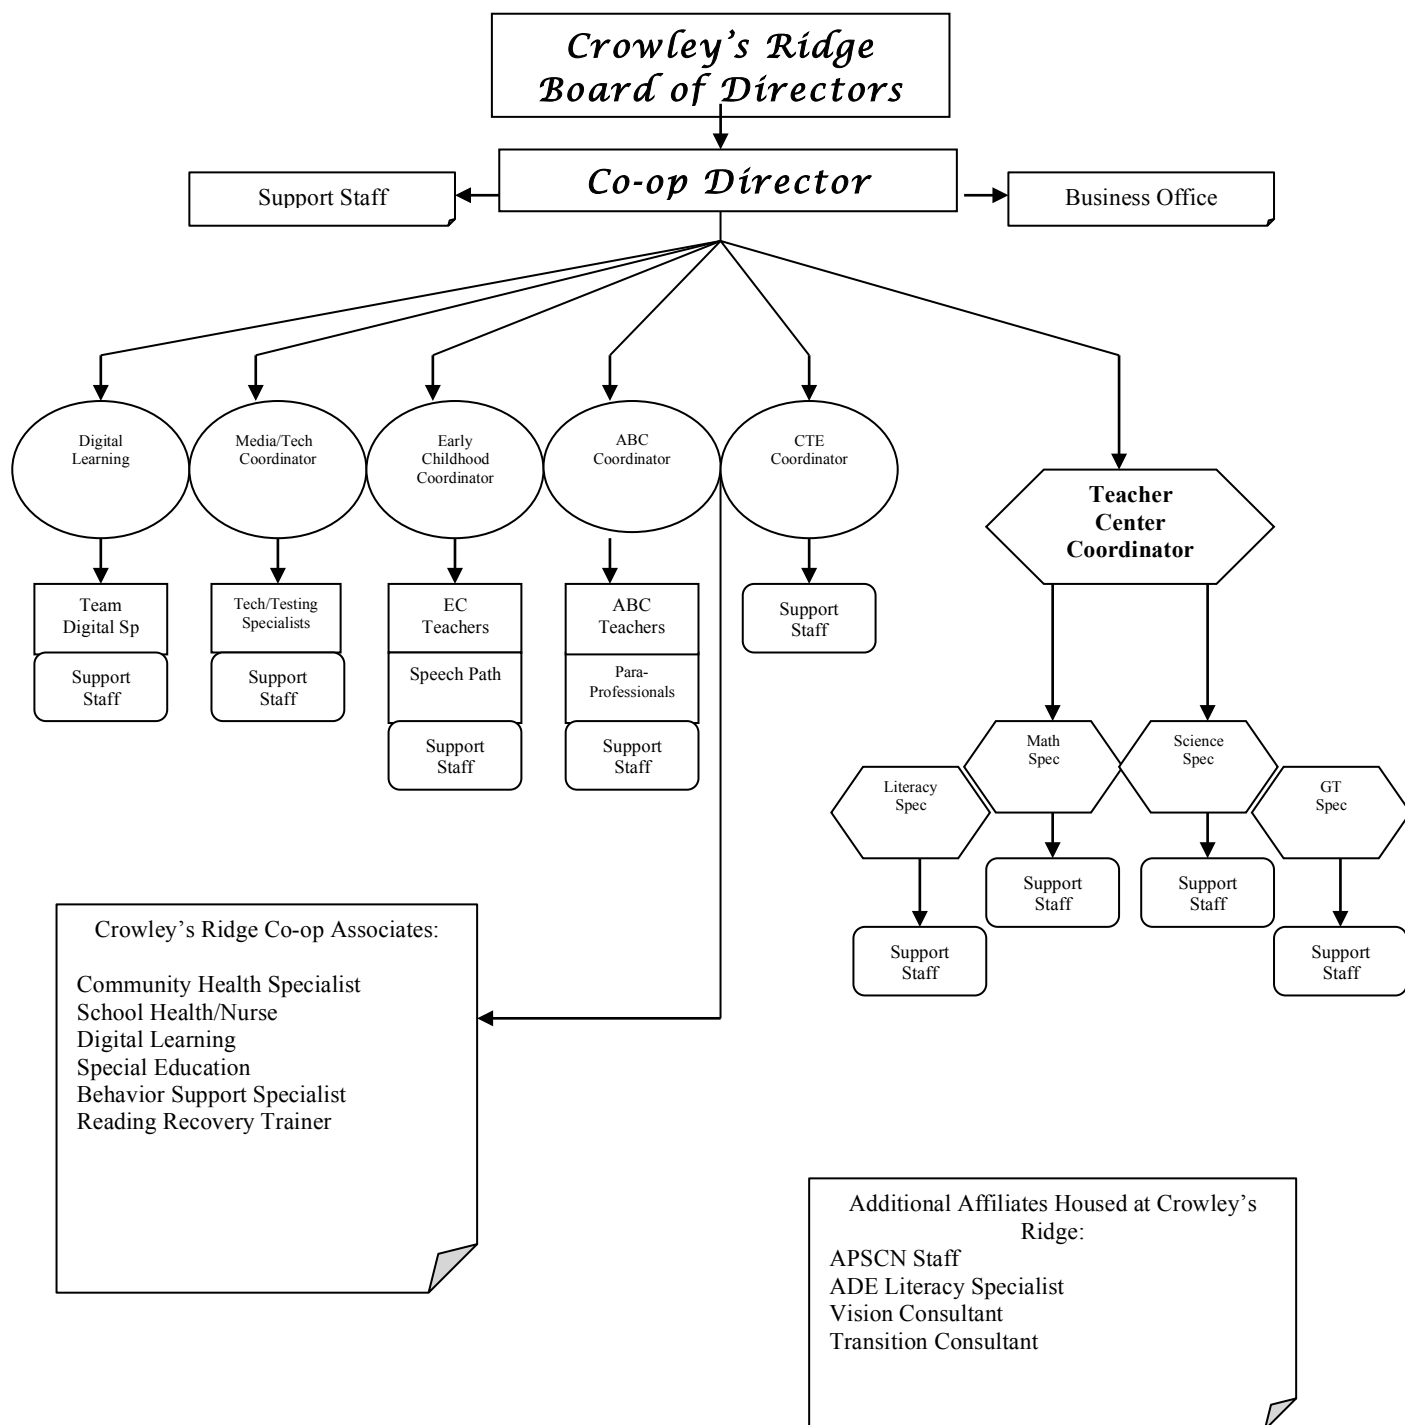

Poinsett County: East Poinsett County, Harrisburg, Marked Tree, Trumann

III. TEACHER CENTER

Please attach a list of all in-service training/staff development workshops offered through the co-op, including month offered, topic, number of districts participating, number of participants and location of workshops. See attached "Summary Attended" report.

Does the co-op provide media services to schools? YES [X] NO []

If yes, then:

Approximate the number of titles in media center: 450

Does the co-op provide delivery to the districts? YES [X] NO []

How many districts participate in the media program? 22

How many titles (including duplicate counts) were provided to schools during this current year? 1295

Do districts contribute dollars to the media services? YES [X] NO []

If yes, then:

How are media / technology charges per district determined?

\$3.00/ADM

Does the co-op operate a "make-and-take" center for teachers? YES [X] NO []

If yes, then:

How many teacher visits have been made to the center? 405

IV. ADMINISTRATIVE SERVICES

Please check administrative services offered through the co-op:

- ☒ Cooperative Purchasing
- ☒ Conduct Annual Needs Assessment /Planning assistance
- ☒ Special Education Services
- ☒ Gifted and Talented Assistance
- ☒ Grant Writing Assistance
- ☒ Personnel Application
- ☒ Assist/Support with Evaluation Procedures (OSR, ACSIP Monitoring, GT Program Evaluation, etc.)
- ☒ Migrant Student Identification
- ☒ Bookkeeping Assistance
- ☒ Technology Training
- ☒ Curriculum Support
- ☒ Business Management Training
- ☒ Computer Technician
- ☒ E-Rate Applications
- ☒ Assessment Data Analysis
- ☒ Instructional Facilitator Training
- ☒ Math/Science/Literacy Specialists
- ☒ Numerous Professional Development Opportunities for Teachers
- ☒ Administrators and Local Board Members Training
- ☒ Other (please specify):
- ☒ Carl D. Perkins

- [X] Bus Driver Training
- [X] School Board Training
- [X] Custodial/Asbestos/Maintenance
- [X} Digital Learning Grant for Districts/Co-op through APSRC

V. DIRECT SERVICES TO STUDENTS

Please check the student services provided through the co-op:

- ☒ Student Assessment Program
- ☒ Itinerant Teachers – Please list areas: (ECSE, SPED)
- ☒ Occupational/Physical Therapy
- ☒ Transition Assistance
- ☒ Mentor Programs
- ☒ Gifted/Talented Programs: 22 participating districts
- ☒ Digital Instruction
- ☒ Speech Pathology Services
- ☒ Low Incidence Handicapped (vision/hearing)
- ☒ Other (Please specify):
- ☒ Early Childhood Special Education 3-5 years of age
- ☒ Digital Learning
- ☒ Behavioral Intervention Consultant
- ☒ Nursing Services

VI. ANECDOTAL REPORTS

Please attach three or four descriptions of activities which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or the descriptions may be written by local schools served by the co-op. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

- CRESC partners with Arkansas State University (ASU) Education Renewal Zone (ERZ) and the College of Education to provide professional development opportunities to member districts, and pre-service teachers, co-host events with national speakers. Co-op and STEM specialists assist in delivering training to college groups, as deemed necessary by the university.
- One current partnership project between ADE and the co-op is the delivery of training to Arkansas administrators and educators of the Teacher Excellence Support System (TESS). The new teacher evaluation system requires the training of all principals/evaluators and all Arkansas educators. The cooperative has assisted the state by hosting the face-to-face trainings and by engaging in the training modules for the purpose of delivering the training and support to our area administrators and educators. CRESC has also hosted Administrator Support Trainings to help prepare administrators for TESS.
- Another current partnership project between ADE and the co-op is the delivery of training to Arkansas administrators of the Arkansas Leader Excellence and Development System (LEADS). The principal evaluation system requires the training of all principals/evaluators. The cooperative has assisted the state by hosting the face-to-face trainings and by engaging in the training modules for the purpose of delivering the training and support to our area administrators. CRESC has also hosted Administrator Support Trainings to help prepare administrators for TESS in order to be credentialed.
- CRESC content specialists partner with ADE Professional Development Unit to write and develop new state-wide initiated trainings. Current projects being developed with CRESC committee members include Implementation of Comprehensive Literacy Framework K-1, 2-3, 4-5, and 6-8; Oral Language through the Dyslexia Committee; Explanatory/Informational Writing K-3; Building Deeper Understanding with Integer Operations; Transitioning to New Science Standards: Targeted Support for Elementary Teachers, K-6.

VII. EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each educational service cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications:

White 0

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of new females employed by the cooperative for the 2015-16 school year:

For this number above, please provide the number in each of the following racial classifications:

White 11

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

TERMINATED

Number of males terminated by the cooperative during the 2014-2015 school year:

For this number above, please provide the number in each of the following racial classifications:

White 0

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of females terminated by the cooperative during the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications

White 0

African American _____

Hispanic _____

Asian _____

American Indian/Alaskan Native _____

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications:

White 0

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

Number of females seeking employment by the cooperative during the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications:

White 11

African American 0

Hispanic 0

Asian 0

American Indian/Alaskan Native 0

REAMS, LINDA	6		Paraprofessional

GOAL:

It is the goal of the Early Childhood program to address the needs of children with disabilities through speech, occupational therapy, physical therapy, and teacher facilitated direct instruction.

PROGRAM SUMMARY:

CRESC's Early Childhood Program provides special education services for preschoolers on behalf of 21 out of the 22 member school districts in 5 counties. These services may begin at age three and continue until the child enters Kindergarten or turns 6 years of age. These services are provided at no cost to families. Preschool special education services may include services such as speech therapy, specialized instruction, and occupational therapy, physical therapy, and behavior interventions. These services are offered in accordance with IDEA (Individuals with Disabilities Education Act) of 1997. Preschool Disability Categories include: Autism, Deaf/Blindness, Traumatic Brain Injury, Visually Impaired, Orthopedically Impaired, Non-Categorical, Hearing Impaired, Other Health Impaired, Multiple Disabilities, and Speech/Language Impaired.

To get started our program begins with screenings. Screenings include short tests of vision, hearing, speech, and general development and give a small sample of a child's skills. Screenings do not determine if a child needs special education but rather aid in determining if further evaluation is needed. If further evaluation is recommended, a meeting is scheduled with the child's parent to discuss the evaluation procedure and the program's services.

MAJOR HIGHLIGHTS OF THE YEAR:

The Early Childhood Program interacted with more than 1,000 families. There were 370 children provided with preschool special education services. Ninety-five children were dismissed after a year or more of serves under an IEP. Approximately 130 children transitioned to kindergarten for continued services.

GOAL:

The ABC Program strives to provide quality preschool services on behalf of the public school system. These services may begin at age 3 and 4. Preschool services may include services such as speech therapy, specialized instructional services, occupational therapy and physical therapy.

PROGRAM SUMMARY:

The CRESC ABC Pre-K Program is funded annually by a state grant. Through the grant, CRESC provides services to 130 ABC eligible preschool children aged three through four years old. Preschool services are provided in seven licensed classrooms on five school campuses located in four counties.

MAJOR HIGHLIGHTS OF THE YEAR:

The ABC program added two additional classrooms this year.

PROGRAM: Gifted and Talented

FUNDING AMOUNT: \$28,500

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

COBURN,SHARON	42	MSE	GT Specialist
---------------	----	-----	---------------

GOAL:

The goal is to assist member districts to meet the State's Standards for Gifted and Talented Education and Advanced Placement.

PROGRAM SUMMARY:

The GT Specialist serves as a liaison between the ADE and the districts by providing assistance and support through the ADE's annual monitoring process by assisting with pre-monitoring training and attending all monitoring visits as a support to districts. Our GT Specialist is involved in regional and state level programs.

MAJOR HIGHLIGHTS OF THE YEAR:

The CRESC Gifted and Talented Specialist provides a professional avenue for district GT Coordinators to become involved in regional and state functions. This year, GT Coordinators from six of our schools districts were selected to present at the annual Arkansans for Gifted and Talented Education (AGATE) state conference.

PROGRAM: Special Education/LEA Supervisor

FUNDING AMOUNT: \$80,602

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Buffalo Island Central, Harrisburg, Manila, and Osceola

PERSONNEL:

CAMPBELL, NIKKI	14	MSE	Special Ed LEA Supervisor
McELHANON, JANE E	13	MSE	Special Ed LEA Supervisor
MURRELL, CATHY	11	BS	Administrative Assistant

GOAL:

To provide LEA supervisory special education services to six districts within Crowley's Ridge Coop area and provide ongoing training and support for district and school personnel, including certified teachers, administrators, central office staff, and paraprofessionals.

PROGRAM SUMMARY:

Supervise and administer all district programs for children with disabilities under the Individuals with Disabilities Education Act (IDEA). Provide consultation to special and regular education personnel in the district. Designate appropriate professionals for appraisal, programming and implementation activities as specified by state guidelines. Initiate and administer programs to locate, identify, and evaluate students with suspected disabilities. Monitor operation of district programs for children with disabilities to ensure operation in accordance with state approved policies, procedures, and guidelines. Provide consultative assistance to regular education teachers serving students with disabilities. Maintain information on and liaison with other public and private agencies and individuals who provide services to students with disabilities in the districts. Develop and monitor contacts with other districts, public and private agencies and individuals who are providing services to students with disabilities in the district. Develop and recommend the district special education plan and budget to the district superintendent. Develop and administer the district's comprehensive system of personnel development for special education. Serve as a liaison with the ADE Special Education Unit in matters concerning education of children with disabilities. Serve as a liaison with parents and professional organizations.

MAJOR HIGHLIGHTS OF THE YEAR:

Two school districts were added to the special education consortium for CRESC, along with one Special Education Supervisor. Co-teaching implemented at Osceola and Harrisburg HS.

PROGRAM: Arkansas Transition Services

FUNDING AMOUNT: \$91,000

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island, Cross County, Earle, East Poinsett, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, and Wynne. Areas outside CRESC include: Northeast Education Cooperative: Westside, Pocahontas, Sloan Hendrix, Hillcrest, Corning, Marmaduke, Greene County Tech, Hoxie, Lawrence County, Jackson County, Paragould, Piggott, Rector, Maynard
Great Rivers Education Cooperative: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, Hughes, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Williams, Jennifer	20	BSE	Transition Consultant
--------------------	----	-----	-----------------------

GOAL:

Arkansas Transition Services Transition Consultants' mission is to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes. In essence, the Transition/Consultant endeavors to increase personal awareness and knowledge of Transition Planning Procedures and Practices. The Transition Consultant acts as a liaison between school districts, education cooperatives, the Arkansas Department of Education, and Special Education Unit-Arkansas Transition Section.

PROGRAM SUMMARY:

The Arkansas Department of Education, Special Education Unit, funds a grant by which the consultant group, Arkansas Transition Services, works to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes, as mandated by the Individuals with Disabilities Education Act.

Arkansas Transition Services consists of six transition consultants across the state, including a State Transition Coordinator. All consultants provide district, regional and state-wide trainings and technical assistance throughout the year. Arkansas Transition Services develops and provides trainings based not only on Federal mandates, but also on the needs of school districts and transition teams in the area of transition. Some of these

trainings include how to develop transition classes, transitions assessment trainings, involving the student in transition planning, compliance with transition indicators, and how to gain parental participation and how to establish local transition teams. We continue to work hard to build capacity in the districts through thorough reviews of transition plans, followed up with report findings and recommendations for additional training. This has been an effective and proactive practice that districts have participated in prior to being monitored by the Special Education Unit.

ATS also works with adult service providers around the state to share concerns and possible strategies to better connect with schools and their students. A collaborative effort is made among districts, agencies and ATS to hold Transition Fairs to increase the knowledge of agency services around the state. Agencies are also invited to participate in IEP meetings and on local transition teams. ATS also maintains a leadership role in the Arkansas Interagency Transition Partnership, which works to bring agencies together to discuss issues and develop strategies to better serve schools and students.

Arkansas Transition Services has worked with several technical assistance centers, including National Secondary Transition Technical Assistance Center, National Post School Outcomes Center and National Dropout Prevention Center for Students with Disabilities. These technical assistance centers now are under one project, National Technical Assistance Center for Transition (NTACT). NTACT is a national technical assistance center funded by the U.S. department of Education's Office of Special Education Programs and is focused on improving transition outcomes. Each year, at least two ATS representatives attend the NTACT sponsored, Capacity Building Institute as a state team, along with Arkansas Rehabilitation Services representatives, teacher representatives and IDEA Data and Research representatives. While at the meeting, we develop an action plan based on the transition needs in Arkansas in transition and our different perspectives. This plan is then carried out through our collaborative work with districts, students, parents and agencies during the year.

Transition File Reviews were provided for the following districts: Osceola, West Memphis, Bay, Buffalo Island Central, Paragould, Hughes, Helena/West Helena, Rector, South Mississippi County, Cross County, Blytheville, Trumann, Sloan Hendrix, KIPP Delta-Helena, Hoxie, and Maynard

On site trainings/file review follow up were provided for the following districts: Osceola, West Memphis, Buffalo Island Central, Paragould, Helena/West Helena, Rector, Cross County, Trumann, Sloan Hendrix, Hoxie, Jackson County, and Maynard

Monitoring follow up was provided for the following districts: Bay, Buffalo Island Central, Helena-West Helena, Trumann, and South Mississippi County

Transition Toolkit Training was provided for the following: Northeast Arkansas Education Cooperative with 45 attendees representing 14 districts in the coop area. Crowley's Ridge Educational Services Cooperative with 44 attendees representing 14 districts in the coop area.

MAJOR HIGHLIGHTS OF THE YEAR:

A Transition Summit is also held every other year for local transition teams around the state to meet and assess the needs of the team's area. These teams then develop a plan based on those needs to improve transition outcomes. A Summit was held in October 2014 with record-breaking attendance – 264 attendees (including 164 Special Educators, 44 Special Education Administrators, 11 agency members, 3 PT/OT/Speech Therapists, 4 parents and 38 other educators) and 53 teams from 48 districts. The focus was Student Focused Planning. We also held two Cadre meetings where the local teams came together to receive professional development in transition assessments, student focused planning, practice profiles and post school options. These events provided opportunities for continued team planning and networking, as well.

College Bound is another annual event held in collaboration with University of Central Arkansas. It is a three day residential program intended to increase student's knowledge of accommodations, assistive technologies, leadership skills, and other exciting aspects of college life. Parents and professionals are also invited to attend and learn about the possibilities for their children and students at the college level.

CIRCLES is an innovative approach to providing transition planning services. In CIRCLES, there is a School Level Team (SLT), made up of school staff and the caseworkers and case managers of each of the outside agencies who might be able to help our students make this transition successfully. There is also a Community Level Team (CLT), made up of agency and district administrators.

These two different teams meet separately to serve to different functions in the CIRCLES model of service delivery. A CIRCLES training was held in September 2014 for 6 districts who have decided to pilot this program. ATS will continue to facilitate the districts' planning efforts for implementation in the fall of 2015.

The State Toolkit for Examining Post-School Success (STEPSS) is a web-based, data-based decision making tool designed to support state departments of education in disseminating and using data related to secondary transition (SPP Part B Indicators 1, 2, 13, and 14) to improve in-school transition programs for youth with disabilities. STEPSS training will be held in June 2015 with eight districts attending in order to pilot the program beginning in the fall of 2015.

Our website (www.arkansastransition.com) has recently been revamped with a new, colorful, easy to navigate template. New resources have been added, including a Transition Fair Toolkit and Guidance and Career Counselor's Toolkit for teachers and counselors; interactive IEP forms for students; healthcare transition information for parents; the TAGG online assessment for secondary aged youth with disabilities, their families and professionals; and updated agency resources by county.

The Arkansas Interagency Transition Partnership (AITP) will hold the third annual AITP Summer Connections as a way for district personnel around the state to learn about a variety of agency services. This year we will have three representatives from postsecondary education programs in Arkansas for students with intellectual disabilities. We will also include a panel of

employers of people with disabilities to discuss their experiences and expectations of working with people with disabilities. The AITP also developed and will soon print a Resource Guide to disseminate among school districts and agencies. These guides were developed for schools and agencies to give to parents as a way to help increase parental awareness of the importance of transition and resources to help with transition as early as possible.

In preparation for the 2015-2016 school year, the following training sessions are being offered this summer for the Great Rivers Education Cooperative, Crowley's Ridge Educational Services Cooperative, and Northeast Arkansas Education Cooperative: Toolkit Training, Student Directed Transition Planning, and Preparing Middle School Students as They Consider Going to College.

PROGRAM: Behavior Intervention

FUNDING AMOUNT: \$83,660

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne.

PERSONNEL:

BRADSHER, EMILEE	4	MSE	
ADKINS, JULIE	20	MCD,CCC,SLP,BCBA	Behavior Specialist

GOAL:

Increase the local capacity to implement research based interventions when addressing programming for behavior and autism.

PROGRAM SUMMARY:

The Arkansas Department of Education, in order that all students make educational progress in the least restrictive environment, provides regionally based behavior consultants. Upon referral by a Local Education Agency, parent or other agency, behavior intervention services are available for the following student populations:

Students most at risk for expulsion or repeated suspensions.

Students at risk of increasingly restrictive educational placements, including residential treatment, due to the student's behavior.

Students identified/suspected as having Autism Spectrum Disorder and are in need of programming to improve educational performance.

Students discharged from a psychiatric residential facility and recommended for ongoing school-based mental health interventions, including day treatment.

Students presently in a school-based day treatment program and in need of continued behavioral programming and support.

To access a Behavior Intervention Consultant for a student for one or more of these populations, the appropriate referral protocol via CIRCUIT through the ADE-SE website is completed.

Follow up services are provided for each referral on a 20 hour basis free of charge. Additional services are provided, which include ABA, assessment for autism, and structured teaching setup. A CIRCUIT data base with services provided and outcomes is kept at the state level, which is reviewed at the state level annually.

MAJOR HIGHLIGHTS OF THE YEAR:

Each co-op across the state now has a Behavior Consultant to serve their region, thereby increasing effectiveness in programming.

PROGRAM: Educational Services for the Visually Impaired (ADE ESVI)

FUNDING AMOUNT: \$5700

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, and Wynne. Other areas served not in CRESC include the following counties: Clay, Crittenden, Greene, Lawrence, Randolph, and Jackson County.

PERSONNEL:

LUCIUS, JUDY	Consultant for Visually Impaired
--------------	----------------------------------

GOAL:

To assist our school districts in fulfilling the needs of our visually impaired students

PROGRAM SUMMARY:

An Educational Vision Consultant/Certified Orientation and Mobility Specialist for the Visually Impaired (ESVI) provides consultation to assist with visually impaired school-age students in public schools and preschoolers ages 3-5 in any placement. This is provided free of charge through the Special Education Unit of the Arkansas Department of Education. Services are provided by trained professionals who are dually certified in vision education as well as orientation and mobility. Direct instruction in orientation and mobility is provided as needed.

MAJOR HIGHLIGHTS OF THE YEAR:

More students have been added to the program. Other programs and the Special Education Supervisors are finding and providing the needed input to ensure that visually impaired students are picked up/assigned to the caseload early. The earlier these students receive the needed help/instruction, the more gains these students will make, instead of falling behind their peers because of the lack of understanding of their needs.

PROGRAM: School Psychology

FUNDING AMOUNT: \$284,000

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Blytheville, Buffalo Island Central, Earle, East Poinsett County, Harrisburg, Manila, Marked Tree, Newport, Osceola, Rivercrest, Trumann, and Bay, along with Developmental Early Childhood

PERSONNEL:

BROADWAY, AMBER	0	BS	School Psychology Specialist Intern
BRYANT, MARY	14	MSE	School Psychology Specialist, NCSP
HORN, KERI .6 FTE 120 days	18	EdS	School Psychology Specialist
JONES, RITA	23	MSE	School Psychology Specialist
STOVALL, WENDY	16	EdS	School Psychology Specialist

GOAL:

To provide timely, accurate, reliable, and valid special education evaluations for the school districts listed above, according to Special Education and IDEA guidelines, including evaluations for students exhibiting characteristics of autism and dyslexia.

PROGRAM SUMMARY:

The role of the School Psychology Specialist is varied with many aspects. Services include conducting more than 650 individual comprehensive evaluations in accordance with state and federal regulations to assist LEA Special Education Supervisors and school personnel in determining eligibility and how to best meet the needs of the students. Also, consultation services with regard to curriculum-based measurement/progress monitoring as it relates to response to intervention efforts are provided. Consulting/teaming with school personnel to assist in the development of academic and behavioral interventions with struggling learners is another component of the role of School Psychology Specialist. We also provided specialized Dyslexia trainings to hundreds of teachers in the co-op area. In addition to personalized trainings as needed at each of our schools.

MAJOR HIGHLIGHTS OF THE YEAR:

Assisting Special Education Staff and Teachers with behavior intervention plans, providing professional development for teachers, leading and assisting school based teams with Response to Intervention (RTI), consultation services with regard to Curriculum-Based Measurement/Progress Monitoring (CBM/PM) as it relates to response to intervention efforts, and aiding other districts, including Wynne, Valley View, and Marion, when called upon.

PROGRAM: Career and Technical Education

FUNDING AMOUNT: \$455,471 \$50,000

FUNDING SOURCE: Federal - Carl D. Perkins State

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, East Poinsett County, Earle, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Westside, Wynne and schools outside CRESC include Hillcrest and Jackson County

PERSONNEL:

BROWN, DEBBIE	15		Administrative Assistant
McNeely, Carolyn	36	MSE	Career Educational Coordinator

GOAL:

The goal of Career & Technical Education is to prepare secondary students for entering the workforce, military or enrolling in post-secondary education after high school graduation. Formally known as Vocational Education, students are taught valuable technical skills in the areas of Agriculture, Business, Family & Consumer Sciences, Auto Mechanics, Medical Professions, Construction, Drafting and Design, Welding, etc. Ideally, we hope to prepare ALL students for the workforce, post-secondary education and/or military. Other indicators are proficiency in the literacy and geometry, technical skill attainment (CTE EOC Exams), high school course completion and graduation, placement, and nontraditional participation and completion.

PROGRAM SUMMARY:

The Career and Technical Education program of Crowley's Ridge Educational Service Cooperative coordinates the Carl D. Perkins Career and Technical Education Act of 2006 and the Arkansas Department of Career Education initiatives. This office serves as liaison between member schools and the Career and Technical education staff at the Arkansas Department of Career Education. The program serves twenty consortia districts: Armorel, Bay, Brookland, Buffalo Island Central, Cross County, East Poinsett County, Gosnell, Harrisburg (including Weiner), Hillcrest, Jackson County, Earle, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Osceola, Riverside, South Mississippi County, Valley View and Westside. Technical assistance is offered to non-consortia schools on developing the local Perkins projects, program

improvement and career planning services. The program serves these non-consortia schools in the cooperative area: Blytheville, Newport, Trumann and Wynne.

MAJOR HIGHLIGHTS OF THE YEAR:

Students were recognized through regional or district events this year. Twenty competitive grants were awarded to area schools in the amount of \$649,037.05

PROGRAM: Student Management Systems (SMS), Arkansas Public School Computer Network (APSCN) Field Analyst

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Westside, Wynne.

PERSONNEL:

RHOADES, PAM	APSCN Student Support
--------------	-----------------------

GOAL:

The field analyst provides end-user training and support to Arkansas public school districts using the statewide networked Pentamation Student Management System and provides technical assistance to school districts on-site to evaluate and resolve end-user problems in using the Pentamation Student Management System including state required reporting.

PROGRAM SUMMARY:

The field analysts are currently supporting the new student data reporting version, eSchoolPlus, which has been phased into all the school districts across the state.

PROGRAM: APSCN Business Field Specialist

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne, and all districts in Great Rivers ESC

PERSONNEL:

COOK, BARBARA	APSCN Financial Support
---------------	-------------------------

GOAL:

To provide end-user support to district finance users of the FMS statewide Finance Management System, Cognos, and meeting statewide guidelines.

PROGRAM SUMMARY:

The APSCN Business Field Specialist, housed at CRESC, assists schools within the Crowley's and Great Rivers Educational Service Cooperative areas. The field specialist is responsible for reviewing and explaining financial code changes each year and monitoring districts to make sure the changes are being made, as well as taking necessary steps to ensure accurate accounting of expenditures. The field specialist also helps with problem areas such as athletics expenditure tracking and pull back, categorical fund, and facilities project tracking. The field specialist continually assists and monitors progress of the districts.

MAJOR HIGHLIGHTS OF THE YEAR:

System changes

PROGRAM: Technology

FUNDING AMOUNT: \$75,000

FUNDING SOURCE: State

COMPETITIVE GRANT: YES _____ NO X

RESTRICTED NON-RESTRICTED X

PARTICIPATING DISTRICTS:

Armored, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

BROWN, LEON	12	BS CBU- ITM	Computer Tech
-------------	----	-------------------	---------------

GOALS:

Provide quality technology support for the cooperative and for the member schools.

PROGRAM SUMMARY:

- Support districts in their efforts to provide technology for teaching and learning
- Coordinate with districts and schools to increase access to AR IDEAS, AR iTunesU, and AR Digital Sandbox
- Develop Needs Assessment surveys for Teachers and Administrators across the state.
- Communicate directly with teachers and district techs via Email, site visits, phone calls, and quarterly tech meetings
- Maintain the cooperative and technology website
- Video and edit presentations for the cooperative and Region 2
- Provide Erate assistance for the cooperative and member school districts
- Maintain and keep Cooperative network at a high level
- Aid with tech plan writing and assistance to the cooperative and member school districts
- Provide support for Continuity of Operations Planning to the cooperative and member school districts
- Host meetings with district technology coordinators

ADE Services, Cooperation, and Collaboration:

AR iTunesU

AR Digital Sandbox.

Virtual Arkansas

EtherScope – Network Analysis

ACT Aspire Assessments – Technology Ready

NextGen Network – Internet Upgrade

PROGRAM: Digital Learning – Virtual Arkansas, Team Digital

FUNDING AMOUNT: \$75,000

FUNDING SOURCE: ADE Grant - Act

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL: Superintendent – Cathi Swan, State Coordinator of Digital Learning
Virtual Arkansas Director of Operations –Mike Lar
Virtual Arkansas Director of Operations – Junior Stormes
Virtual Arkansas CTE Campus Supervisor – James Malcolm
Virtual Arkansas Concurrent Credit Campus Supervisor – Ellora Hicks
Virtual Arkansas Core Campus Supervisor – Dionne Britton
Team Digital Members – Lisa Russell, Gerard Newsom, Rachel Schell, Evan Patrick, Sherry Kennedy, Dexter Miller

GOAL:

The mission of the digital learning program is to provide equitable, efficient, and effective learning opportunities for students and educators. These opportunities are offered utilizing digital solutions to extend learning where local access may not exist. The Arkansas Education Service Cooperatives support and provide resources to assist Virtual Arkansas and Team Digital.

PROGRAM SUMMARY:

Virtual Arkansas is an Arkansas-based program that is implemented through a partnership between the Arkansas Department of Education and the Arkansas Education Service Cooperatives. We provide an array of quality digital courses to public school students in Arkansas and utilize Arkansas licensed instructors. Virtual Arkansas serves approximately 200 districts and over 30,000 student enrollments. We are not an online high school or a diploma-granting institution but are a diploma-granting institution but are a resource for supplementing education for public school students. Students who are enrolled in a public school may be enrolled in Virtual Arkansas courses by the local school administration.

Virtual Arkansas is committed to developing the full potential of Arkansas students by providing access to quality online courses that incorporate interactive instruction to prepare students to be successful in their college and career educational pursuits and in the global economy. School districts “Power Up with Virtual Arkansas” for a variety of reasons. A district may face a

teacher shortage, want to provide additional course scheduling opportunities to their students, offer their students access to a digitally enriched curriculum, or broaden their course offerings beyond those mandated by the Standards for Accreditation of Arkansas Public Schools. Finally, districts that partner with Virtual Arkansas will be satisfying the requirements of Act 1280, the Digital Learning Act of 2013. www.virtualarkansas.org

Team Digital:

Team Digital works within a state team to support the planning, implementation, and evaluation of digital learning environments in Arkansas. Team Digital has expertise in emerging online teaching and learning practices that allow for active learning; effective content authoring and lesson design methods that best serve digital education; and strategies in helping educators transform system-centered practices into student-centered practices. Team Digital interacts with media production workgroups, learning management system consultants, technology solution experts, pedagogical experts, curriculum design experts, and educators around the globe. Team Digital also provides operational support to state projects, Arkansas Cooperatives, and public schools in the growing interest in blended and online learning. www.teamdigital.org

ARMOODLE:

Arkansas MOODLE is a digital platform where Arkansas educational agencies house digital resources and implement blended professional development. It supports 20,000 users and is managed by the Arkansas Education Service Cooperatives.

MAJOR HIGHLIGHTS OF THE YEAR:

- Hired and trained three Distance Learning Support Specialists that support Virtual Arkansas, Arkansas MOODLE, and Arkansas Education Service Cooperatives
- Implemented content-Only Services for Schools through Virtual Arkansas
- Trained schools in the new Virtual Arkansas Registration System
- Virtual Arkansas named by the Governor to provide computer science courses free of charge to public school districts
- Cooperatives hosted digital learning consultations for schools that were interested in offering more digital opportunities
- Transitioned and implemented ZOOM technology to replace CIV state-wide
- Trained content specialists on ZOOM and implementing blended professional development

PROGRAM: School/Community Health

FUNDING AMOUNT: \$11,000

FUNDING SOURCE: Arkansas Department of Health

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Riverside, South Mississippi County, Trumann, Valley View, Wynne

PERSONNEL:

COOK, LAURA	Community Health Nurse Specialist
-------------	-----------------------------------

GOAL:

CHNS focus on the health care of children in tobacco prevention, physical activity and nutrition as well as other child health issues. CHNS support school nurses with resources and technical assistance and also assist them with continuing education hours through trainings and provided updates from both the Arkansas Department of Education and the Arkansas Department of Health.

PROGRAM SUMMARY:

The Community Health Nurse Specialist (CHNS) are responsible for providing technical assistance, education and policy guidance to school district personnel, school nutrition and health committees, and community health coalitions.

MAJOR HIGHLIGHTS OF THE YEAR:

SPARK Equipment for Area Schools

SPARK is a research-based, public health organization dedicated to creating, implementing, and evaluating programs that promote lifelong wellness.

SPARK strives to improve the health of children and adolescents by disseminating evidence-based physical activity and nutrition programs that provide curriculum, staff development, follow-up support, and equipment to teachers of Pre-K through 12th grade students.

SPARK believes in fostering a positive working environment that values professional growth, upward mobility, and opportunities for people to work together toward common goals."

PROGRAM: State School Nurse Consultant

FUNDING SOURCE: Arkansas Department of Health

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne. In addition to CRESC districts, the State School Nurse Consultant provides assistance to all regions in Arkansas.

PERSONNEL:

SMITH, PAULA	State School Nurse Consultant
--------------	-------------------------------

GOAL:

The goal is to provide professional leadership for all Arkansas school nurses.

PROGRAM SUMMARY:

To accomplish the goal, the SSNC:

- serves as a liaison for school nurses with state agencies and other partners as well as an advocate for school health needs;
- encourages health promotion activities through community wellness programs;
- supervises the development of school health position statements, school nurse training modules, and the school health policies and procedure manual.

In addition, the SSNC establishes a system of continuing education for school nurses focusing on state mandated screenings, immunization requirements, state nursing standards and other school health related areas.

PROGRAM: Teacher Center (Make and Take)

FUNDING SOURCE: Base

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

COOK, LIZANNE	22		Teacher Center Clerk/Courier
---------------	----	--	---------------------------------

GOAL:

To provide the CRESC Education Cooperative and our 22 school districts with make-and-take services for preschool through the 12th grade.

PROGRAM SUMMARY:

The Teacher Center workroom is a source of many materials which teachers in the districts use on a regular basis. Many supplies are available to teachers, including a laminating machine, button maker, and book binder. The center also consists of close to 600 various die cuts and 8 cutting machines. One of the more popular items in the workroom is a poster maker. This machine is used by teachers, administrators, and co-op specialists when conducting workshops and showing examples of materials introduced in meetings and professional development workshops. The workroom also offers ready-made materials, such as letters and cutout designs. Folder games are a mainstay of the workroom and are very popular since time is saved by having the materials available for make-n-take. All of the above mentioned items can be purchased in the workroom or can be ordered by phone or online. The delivery system in place provides service as needed weekly to school districts.

MAJOR HIGHLIGHTS OF THE YEAR:

We continue to provide hands-on materials for classroom teachers to provide interactive instruction tools for the classroom.

PROGRAM: Media

FUNDING SOURCE: Base

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

COOK, LIZANNE	22		Teacher Center Clerk/Courier
---------------	----	--	---------------------------------

GOAL:

To provide the CRESC Education Cooperative and our 22 school districts with media and courier services for preschool through the 12th grade.

PROGRAM SUMMARY:

The Media room, which is part of the Teacher Center, has a catalogue of over 450 items for check out and delivery available to the school districts in our service area. We provide an on-line catalogue for teachers to browse through and check out materials. The media center has over 200 big books, math, science, history, literacy, health and professional development DVDs, VHS tapes, and educational kits.

MAJOR HIGHLIGHTS OF THE YEAR:

During the 2014-15 school year, the media clerk has continued to purge and update the system. As funding becomes available, the media's goal is to add new material to the catalogue.

PROGRAM: Professional Development

FUNDING SOURCE: Base and District Support

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS:

Armored, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

KNOWLES, TISH	18	EdS	Teacher Center Coordinator
MURRELL, CATHY	10	BS	Administrative Assistant
SWANSON, MELISSA	11	BA	Administrative Assistant

GOALS:

- to align professional development services with district and school needs to build capacity of all adult learners in order to provide a world class education system which graduates students who are college and career ready
- to provide adult learners with content knowledge and research-based instructional strategies to assist students in meeting rigorous academic standards and prepare adult learners to use various types of assessment results appropriately
- to improve the learning of all students by providing resources to support adult learning and collaboration
- to provide curriculum development assistance as schools transition from frameworks to CCSS
- to support school improvement initiatives generated by the ADE and enhance program integration through effective communication and technical support

PROGRAM SUMMARY:

The Teacher Center Coordinator has the primary responsibility for planning and carrying out the professional development programs for member districts. The professional development programs are, in part, identified by the results of the needs assessment and in collaboration with the Teacher Center Committee. A wide variety of workshops are provided for teachers and administrators throughout the year utilizing the expertise of regional, state, and national consultants to train school personnel to help them develop professionally. In the summer, we contract with Teachers of Excellence in our member districts to provide professional

development to their peers. CRESC is in collaboration with the ADE as a training site for the many state initiatives. Collaboration with the ADE, STEM, ASU-ERZ, ASU College of Education, ASBA, APSRC, regional Cooperative Specialists, and various ADE Units help provide professional development for all school personnel. Technology is supported through a variety of training sessions here and at the school sites.

MAJOR HIGHLIGHTS OF THE YEAR:

Major highlights of the year include training and participation in the Teacher Excellence and Support, Leader Excellence and Development System, and Arkansas Induction Mentoring Model. The other highlights include the Superintendents' Professional Development Institute, the Leadership Conference for all administrators, and School Board Member training. A full list of professional development is included in this report.

**PROGRAM: Arkansas Induction Mentoring Model (AIMM)
Training**

FUNDING SOURCE: ADE Grant

COMPETITIVE GRANT: Yes___ No x

RESTRICTED FUNDING x **NONRESTRICTED**
FUNDING _____

PARTICIPATING DISTRICTS: Armorel, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

KNOWLES, TISH	18	EdS	Teacher Center Coordinator
WINSLOW, TAMMY	21	MSE	Science Specialist
COBURN, SHARON	42	MSE	ABC/GT Coordinator
COFFMAN, DEBBIE	35	BSE	ABC Asst. Coordinator

PROGRAM SUMMARY:

Crowley's Ridge ESC held three trainings for Pathwise Project Director Updates during 2014.

AIMM trainers attended their initial training in March of 2014 and were recalibrated in May 2015. New mentor training provided understanding of the elements of the AIMM Mentor process and how to utilize the ATLAS online system for gathering and reporting information to the state. The mentors/mentees utilized the AIMM learning modules via Moodle. The AIMM Program at Crowley's Ridge Cooperative continued to support participating districts in creating and sustaining a successful mentoring program for new teachers in the profession.

GOALS:

- Become familiar with the Framework for Teaching (FfT) and the relationship between AIMM and TESS (Teacher Effectiveness Support System)
- Use the AIMM Orientation Guide
- Know and be able to implement mentor responsibilities
- Navigate a mentoring module in Moodle
- Identify effective coaching techniques for use in the mentoring process

PROGRAM: Reading Recovery

FUNDING AMOUNT: \$86,500

FUNDING SOURCE: State

COMPETITIVE GRANT: Yes___ No X

RESTRICTED: **NON-RESTRICTED:** X

PARTICIPATING DISTRICTS: Armorel, Cross County, Harrisburg, Manila, Trumann, Valley View. Outside CRESC region: Barton/Lexa in Great Rivers ESC and Westside in NEA ESC.

PERSONNEL:

BRASWELL, MELISSA	19	MSE	Reading Recovery Specialist
-------------------	----	-----	--------------------------------

GOAL:

The goal of Reading Recovery is to dramatically reduce the number of first-grade students who have extreme difficulty in learning to read and write and to reduce the cost of these learners to educational systems. Additional goals are to enhance teacher awareness and implementation of current best practices through high quality professional development, to meet the needs of students through integrated assessment and responsive instruction, and to ensure that all students are meeting the state and national standards in literacy.

PROGRAM SUMMARY:

Reading Recovery® is a short-term intervention of one-to-one tutoring for the low-achieving first graders. Reading Recovery professional development begins with an academic year of graduate-level study and continues in subsequent years through continuing contact with the Reading Recovery teacher leader. With the support of the teacher leader, Reading Recovery teachers develop observational skills and a repertoire of intervention procedures tailored to meet the individual needs of at-risk students. The specially trained Reading Recovery teachers provide students with a half-hour lesson each school day for 12-20 weeks. As soon as students can meet grade-level expectations and demonstrate that they can continue to work independently in the classroom, their lessons are discontinued, and new students begin individual instruction.

MAJOR HIGHLIGHTS OF THE YEAR:

CRESC site discontinuing rate was above the national average.

PROGRAM: Literacy

FUNDING AMOUNT: \$86,500/specialist

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division,
K-12 Literacy Unit

COMPETITIVE GRANT: YES _____ NO X

RESTRICTED X **NON-RESTRICTED** _____

PARTICIPATING DISTRICTS:

Armored, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

BANDY, ANGIE	17	MSE	(NBCT) Literacy Specialist
BESSEE, DAWN	24	EdD	Literacy Specialist
BRASWELL, MELISSA	19	MSE	Reading Recovery Specialist
JONES, KARLA	21	MSE	(NBCT) Literacy Specialist
NAYLOR, REBECCA	35	MSE	ADE Literacy Specialist

GOALS:

- To develop, provide, and support the implementation of scientific, research-based professional development for all schools in our cooperative region through staff development, technical assistance, and instructional support for all district educators.
- To assist schools in meeting state and federal standards through the development of effective strategies including explicit instruction, brain-based instructional strategies, differentiated instruction, formative assessments, and summative assessments.
- To assist schools and districts in the articulation, design, and implementation of campus-wide and district-wide literacy goals through collaborative data disaggregation, professional learning communities/teams, effective planning strategies, and effective grading practices.
- To provide individual teacher and classroom support (as requested) through collaborative standards analysis, lesson planning, modeling, and pre- and post-lesson observations and conferences; as well as individual instructional support for teachers' and administrators' implementation of professional development with rigor and fidelity.

PROGRAM SUMMARY:

The literacy program is designed to prepare for and support the literacy needs of all schools and districts in our region. This is accomplished through the delivery of scientific, research-based professional development, job-embedded training, and subsequent support in order for educators and administrators to implement effective literacy practices with fidelity and rigor. The Literacy specialists work with individual teachers, teams, and entire faculties as they work towards increased student achievement and meeting the developmental and cognitive needs of all learners. All trainings are based on the most current research available and are correlated to the state and federal learning standards with regards to the Common Core State Standards (CCSS) for English Language Arts, Science, History/Social Studies, and Technical subjects; as well as core content-specific standards for Arkansas. As per schools' and districts' requests, the Literacy specialists also provide additional support for those campuses that may be identified as needing improvement, focus, or priority schools.

Staff development is provided during the summer and throughout the school year, with additional support throughout the year. These trainings and support opportunities include, but are not limited to:

- Early Literacy Learning in Arkansas (ELLA) for grades K-1
- Effective Literacy (ELF) for grades 2-4
- Comprehensive Literacy for Adolescent Student Success (CLASS) for grades 5-12
- Reading Recovery (See previous page on Reading Recovery)
- Content Literacy instruction
- Curriculum mapping and alignment
- Literacy Design Collaborative (LDC) for secondary schools
- Differentiated Instruction
- Argumentative/Expository Writing across the disciplines
- Close Reading
- Vocabulary instruction
- Disciplinary Literacy

ADE Services, Cooperation, and Collaboration:

The Arkansas Department of Education (ADE), in conjunction with the Education Service Cooperatives, offers professional development that focuses upon the development of effective literacy practices in grades K-12. The current state initiatives being supported through the cooperative are as follows: Comprehensive Literacy in K-12, Content Literacy, and the Literacy Design Collaborative. The Literacy specialists provide additional support to schools as they implement these state initiatives, as well as provide technical assistance for schools with regards to aligning their curriculum to the CCSS. The Literacy specialists with Crowley's Ridge Educational Service Cooperative (CRESC) consistently make a concerted effort to communicate with all educators and administrators regarding the availability of these school support services and staff development.

Literacy Department areas of support for ADE initiatives:

- Data analysis
- Development and use of formative assessments
- Development and use of summative assessments
- District Leadership Team meetings
- Professional Learning Communities
- Curriculum planning using the backward design model
- Overview of CCSS and subsequent planning
- Cross-curricular units of study
- Research-based effective practices
- Instructional Facilitator Professional Development and support
- High-yield instructional strategies
- Site-Based Observation Trainings (SBOTs)

PROGRAM: Science

FUNDING AMOUNT: \$86,500

FUNDING SOURCE: Arkansas Department of Education, Learning Services
Division, K-12 Science Unit

COMPETITIVE GRANT: YES _____ NO X

RESTRICTED X **NON-RESTRICTED** _____

PARTICIPATING DISTRICTS:

Armored, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

WINSLOW, TAMMY	21	MSE	Science Specialist
----------------	----	-----	--------------------

GOALS:

- Promote and lead change in science education by facilitating conversations around the A Framework in Science Education K-12 document and the progression toward new Arkansas K-12 science standards.
- To develop, support, and promote effective scientifically researched-based science programs, which will impact learning for all students.
- To develop and provide staff development training, technical assistance, and instructional support as requested by ADE and/or CRESC member schools.
- To assist schools in meeting state science standards and CCSS English Language Arts Standards for Science and Technical Subjects by providing and modeling effective instructional strategies.

PROGRAM SUMMARY:

The science program strives to anticipate and meet the continuing needs of the twenty-three public school districts in the Crowley's Ridge Educational Service Cooperative area. The science specialist works with districts as requested to develop, support, and promote effective research-based science programs designed to encourage maximum achievement for all students. Professional development sessions and technical assistance opportunities are designed to enhance teachers' content knowledge and content pedagogical knowledge that will translate into classroom practices.

Science professional development opportunities are available to area schools throughout the year. Such science professional development opportunities included but not limited to:

- Preparing for New AR K-12 Science Standards
- A Framework for K-12 Science Education: Practices, Crosscutting Concepts, and Core Ideas
- Disciplinary Literacy:
 - Summarizing
 - Write to Learn
 - Close Reading
 - Argument Writing
 - Vocabulary Strategies
 - Questioning
- SIM: Strategic Instructional Model
- 5E/7E Model of Instruction
- Picture Book Science
- Problem Based Learning
- Kit-Based Science
- AIM: Activities Integrating Math and Science
- Sciences and Engineering Practices
- Science Notebooking
- Quirkles: Exploring Phonics Through Science
- Writing Science Mini Grants
- Classroom Management
- Cooperative Learning Structures
- TESS Teacher Training
- Arkansas Induction Mentoring Model (AIMM)

ADE Services, Cooperation, and Collaboration:

The Arkansas Department of Education, in conjunction with the Education Service Cooperatives, offers professional development focusing on science development for grades K-12. Science specialists provide technical assistance to schools as they continue aligning local curriculum with the current Arkansas Science Frameworks and CCSS English Language Arts Standards for Science and Technical Subjects increasing student success on state science assessments in grades 5, 7, and EOC Biology.

In addition, we are committed to continued collaboration by facilitating conversations and learning opportunities around the A Framework in Science Education K-12 document and updates regarding the state's decision to adopt New AR K-12 Science Standards.

Science Department areas of Support:

- District Leadership Meetings
- Lesson Planning

- Team Meetings / Professional Learning Communities
- Classroom Observations for content knowledge, instructional strategies, student engagement, and classroom management
- Classroom Walk-Through
- Providing feedback and Support
- Instructional Facilitator Professional Development and Support
- Data Analysis
- Teacher Support with TESS
- Administrator Support with TESS and LEADS

Technology professional development opportunities are available to area schools throughout the year. Such technology professional development opportunities include but not limited to:

- Arkansas Ideas
- Teachscape
- iPads in the science classroom,
- Dropbox
- Wikis
- Vernier Tools
- Thinkfinity
- Gizmos
- Google Hangout

PROGRAM: Math

FUNDING AMOUNT: \$86,500/specialist

Division, K-12 Science Unit

COMPETITIVE GRANT: YES _____ NO X

RESTRICTED X **NON-RESTRICTED** _____

PARTICIPATING DISTRICTS:

Armored, Bay, Blytheville, Brookland, Buffalo Island Central, Cross County, Earle, East Poinsett County, Gosnell, Harrisburg, Jonesboro, Manila, Marion, Marked Tree, Nettleton, Newport, Osceola, Rivercrest, Riverside, Trumann, Valley View, Wynne

PERSONNEL:

LEE, JAMES	16	MSE	Math Specialist
PARRISH, CHERYL	32	MSE	Math Specialist

GOALS:

To promote and support effective, research-based mathematics practices for all students by providing professional learning opportunities and technical assistance to teachers, math coaches, curriculum specialists, administrators, school improvement members, instructional assistants, mathematics interventionists, parents, SPED, and Title I math teachers in the area of standards-based mathematics curricula, instruction, and assessment.

PROGRAM SUMMARY:

James Lee worked with over 300 teachers developing CGI in their classrooms. James worked with the 4 teachers from our Co-op region that were selected to participate in the state CGI Leadership training. The teachers are now certified CGI trainers. Both Math specialists worked with Math Coaches and Math Leaders using the Understanding by Design (UbD) model.

Cheryl Parrish received training in Mathematics Design Collaborative from the Arkansas Department of Education and helped implement MDC at six schools during the 2014-15 school year while supporting former cohorts from previous MDC schools.

ADE Services, Cooperation, and Collaboration:

Cognitively Guided Instruction
Extending Children's Mathematics
Mathematics content at all grade levels and all traditional high school courses
Improve chances for students to be college and career ready
Instructional Facilitation Training
Assessment Preparation and Planning (formative and summative)
Model Lessons for Instructors with Pre- and Post- Discussion
Mathematics Design Collaborative for Various Grade-levels
Data Analysis
Data Modeling
Common Core State Standards Understanding
Understanding by Design Unit Planning

Program Name: Partnership for Assessment of Readiness for College and Career (PARCC)

Competitive Grant Yes ☐ No ☒

Goals and Description:

Crowley's Ridge Cooperative staff, including technology coordinators and teacher center coordinators, have provided support to district testing and technology personnel as preparations were made to implement online assessments in this initial year. Support included onsite visits within districts to aid in preparing technology infrastructure, provide multiple training opportunities for PARCC updates and assistance with preparation, and hosted PARCC workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

Crowley's Ridge Cooperative staff also provided support to classroom teachers and instructional leaders to ensure that the Common Core State Standards were taught in a manner that would prepare students for the PARCC. In addition to ADE presenters, cooperative literacy and math specialists provided face-to-face trainings on the PARCC resources that are available and how these could be utilized to strengthen the classroom teachers understanding of assessment requirements for students. Trainings will continue during the summer of 2015 and the upcoming school year.

Fingerprinting

Competitive Grant Yes ☐ No ☒

Goals and Description:

In an effort to help districts with changes in the law in the area of fingerprinting employees, ADE provided fingerprinting machines, along with proper training to Cooperative staff. Crowley's Ridge began fingerprinting in the summer of 2014, and continues to provide fingerprinting to all districts. There were 628 fingerprinted this year.

Program Name: *EtherScope Project*

Competitive Grant Yes ☐ No ☒

Goals and Description: In an effort to assist schools in preparation for online Common Core State Standards testing in 2014-15, ADE awarded a grant to the Co-ops for the purchase of

EtherScopes. There were EtherScopes purchased for each cooperative. All schools were evaluated to see if their networks are capable of connecting one computer to one student for the CCSS testing. When we visit each school, we save reports from the EtherScope for evaluation purposes and inform the school technology coordinator of the findings.

Program Name: *CGI-Cognitively Guided Instruction & ECM-Extending Children's Math*
Competitive Grant Yes ☐ No ☒

Goals and Description: Cognitively Guided Instruction (CGI) is a teacher professional development program that has teachers exploring a framework for how elementary school children learn concepts of number operations and early algebra. This knowledge is used to drive instruction. Years 2 & 3 of training builds upon the previous year's training—resulting in a true, long-term sustained professional development program. What teachers learn in a CGI institute enhances how they implement any curriculum or resource materials into their daily classroom instruction. ECM is for the upper elementary content math teachers. It includes fractions and fraction connections.

Program Name: *Enhancing Education Through Technology Grant (EETT) & Technology Infused Education (TIE) Project*

Competitive Grant Yes ☒ No ☐

Goals and Description: The purpose of the TIE project is to increase technology integration across the state of Arkansas. This program was originally funded when Southwest Arkansas Education Co-op wrote a comprehensive partnership EETT grant to develop a statewide professional development module system to embrace all forms of technology, meet the needs of teachers and administrators, and address State standards while enhancing instruction through integrated technology practices. The cooperatives and ADE have partnered to continue this funding. All education cooperatives across the state were offered the opportunity to train teachers from their area to become TIE Cadre members. There are currently approximately 100 TIE Cadre members impacting over 70 districts across the state. The focus of cadre training is to support technology integration in curriculum. Training includes a focus on Common Core Standards, unit planning and tools teachers can use. Cadre members then share this knowledge in trainings offered at the co-ops. They have conducted over 450 workshops across the state on 78 different technology modules. The trainings have impacted over 5,000 teachers and administrators. The modules are all project based and have been developed by teachers. Modules include trainings on things such as Common Core State Standards, Blogs, Classroom Wikis, High Yield Strategies with Technology, Internet Safety, Podcasting and Video Editing. Modules are housed on the TIE website at <http://lms.swsc.k12.ar.us>. By sharing these modules across the state, we are able to offer quality technology trainings. The cadre members not only train for the education co-ops in the summer but are also able to help train in their buildings and districts. Module development and professional growth are the focus of cadre trainings.

Program Name: Literacy Design Collaborative/Mathematics Design Collaborative (LDC/MDC)

Competitive Grant Yes ☐ No ☒

Goals and Description: The LDC/MDC is an on-going professional development process which consists of tasks aligned to the Common Core State Standards that target those skills needed in reading, writing, and mathematics. Formative assessment is used as a tool for monitoring what students are learning and identifying misunderstanding or skill weaknesses in students. These tasks work together to provide robust learning opportunities for students that are evaluated with a scoring rubric that helps educators across our state and nation calibrate high expectations. The LDC/MDC work is implemented in literacy, social studies/history, mathematics, science and career education classes for students in grades 9 and 10.

Program Name: Teacher Excellence Support System (TESS)

Competitive Grant Yes ☐ No ☒

Goals and Description: The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, software that provides new district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The Arkansas Department of Education provided training for administrators at each cooperative on coaching and Professional Growth Plans, Scripting, and Specialty Rubrics during the fall of 2014. Additionally, two representatives from each cooperative participated in an extended training that began in the fall of 2014 to support administrators through the coaching process for TESS. The ADE is currently scheduling additional sessions to extend the learning and support administrators and teachers as they fully implement TESS as the teacher evaluation system in the 2015-16 school year.

Program Name: Arkansas Leadership Excellence and Development System (LEADS)

Competitive Grant Yes ☐ No ☒

Goals and Description: The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being developed). Trainings for the LEADS program throughout the 2014-2015 school year included work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of Bloomboard for evaluation and artifacts, and other information, as needed in individual cooperatives.

TO: Arkansas' Educators

FROM: Ron Wright, Director

SUBJECT: 2015-2016 Annual Evaluation Report

The process of completing an annual report provides each Education Service Cooperative (ESC) the opportunity to identify and improve services provided to local schools within our six county area. Please find in the following report data that guide in our decision making process for the upcoming year. Dawson serves 23 school districts and the Department of Youth Services. The following counties are served by Dawson: Clark, Dallas, Garland, Grant, Hot Spring, Pike and Saline. In addition many of our staff and programs serve schools outside the ESC boundaries. These services are provided both on site in Arkadelphia and in local schools.

While most revenue streams for the Dawson ESC appear to be unchanged for the upcoming fiscal year we do have two areas of growth and potential growth. The HIPPIY program has grown and could continue that trend. Also, our preschool program has requested substantial increase in the number of slots needed for both 3 and 4 year olds. These slots requested are primarily for Garland and Pike counties and a response to our request should be made prior to the end of this fiscal year.

Dawson ESC is served by exemplary instructional and support staff. They provide professional development, instruction and accurate information to all customers. The Co-op also hosts a number of educational organizations. Examples of these organizations are instructional technology, transportation, principals, curriculum cabinet, counselors, gifted and talented and library media specialists. During each legislative session the Co-op hosts Legislators and Superintendents at the State Capitol Cafeteria for weekly meetings designed to exchange information needed in the legislative process. It is the goal of Dawson ESC to improve and increase quality service to all students, parents and educators.

Dawson Education Services Cooperative

Mission Statement

Our children are the promise of the future. The mission of the Dawson Education Service Cooperative is to help ensure each student's future by providing high quality services, resources, and programs to schools. By "Serving the Schools, Serving the Children" the cooperative helps teachers and administrators learn new teaching strategies and refine skills and practices that directly impact student achievement. We are in the teaching business!

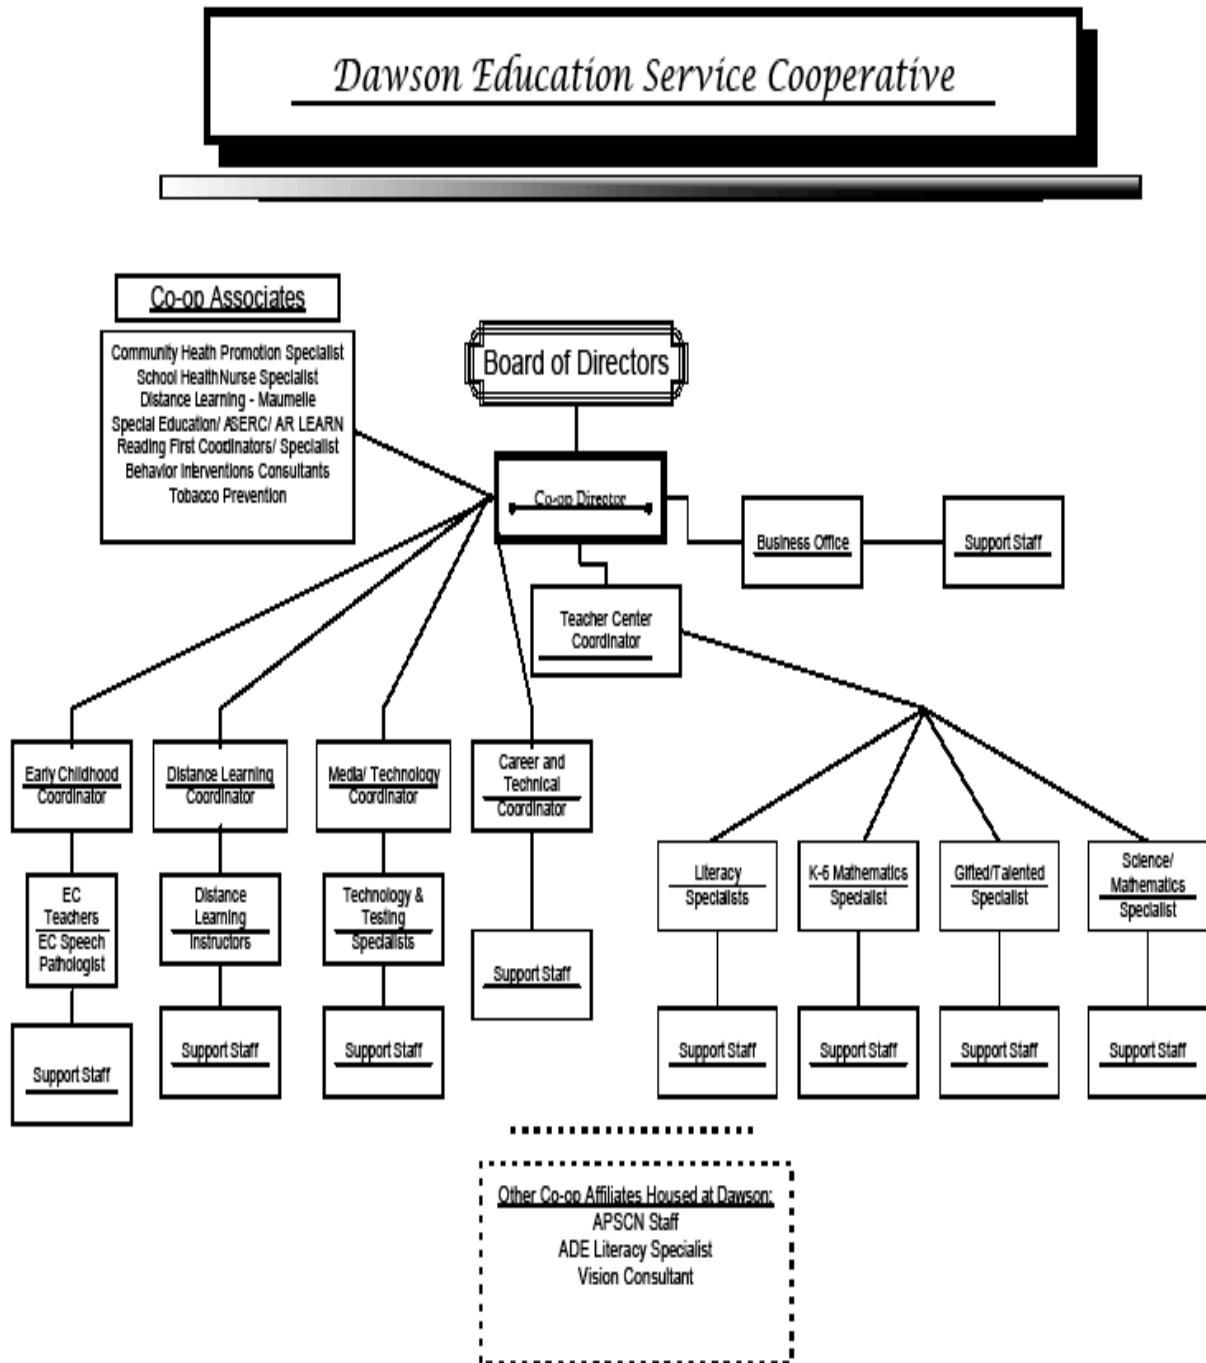

Arkansas Education Cooperatives

The Dawson Education Cooperative serves the area shaded in green on the map above. Dawson services the following counties:

- Clark
- Garland
- Hot Spring
- Pike
- Saline

- [X] Other (Please specify):
Early Childhood Special Education 3-5 years of age, Distance Learning, 15 teachers

VI. EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each educational service cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year:
For this number above, please provide the number in each of the following racial classifications:

White 2
African American
Hispanic
Asian
American Indian/Alaskan Native
Indian 1

Number of new females employed by the cooperative for the 2015-2016 school year:
For this number above, please provide the number in each of the following racial classifications:

White 9
African American
Hispanic
Asian
American Indian/Alaskan Native

TERMINATED

Number of males terminated by the cooperative during the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications:

White
African American
Hispanic
Asian
American Indian/Alaskan Native

Number of females terminated by the cooperative during the 2015-2016 school year:

2

For this number above, please provide the number in each of the following racial classifications:

White 2
African American _____
Hispanic _____
Asian _____
American Indian/Alaskan Native _____

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year: 2

For this numbers above, please provide the number in each of the following racial classifications:

White 2
African American _____
Hispanic _____
Asian _____
American Indian/Alaskan Native _____
Indian _____

Number of females seeking employment by the cooperative during the 2015-2016 school year: 12

For this number above, please provide the number in each of the following racial classifications:

White 10
African American 2
Hispanic _____
Asian _____
American Indian _____
Alaskan Native _____

Dawson Education Cooperative
DATE: June 2016

Program Summaries...

PROGRAM: ADMINISTRATION

FUNDING SOURCE: Base Funds

COMPETITIVE GRANT: Yes No X

RESTRICTED **NON-RESTRICTED** X

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Ron Wright, Director, B.S.E., M.S.E.

Beth Neel, Teacher Center Coordinator, M.S.E.

Trish Lamb, Business Manager

Veronica Nelson, Assistant Business Manager, B.B.A.

Tamra Dempsey, Business Office Assistant

Billie Garlin, Administrative Assistant

Brenda Malcom, Receptionist

Sandra Ankton, Professional Development Specialist, B.B.A.

Sue Newton, Secretary

GOAL:

The director of the Dawson Education Cooperative is employed by the Board of Directors to administer the programs and services of the organization. The director's duties also include maintaining and supervising both the licensed and non-licensed employees. The director works closely with the teacher center coordinator and the program coordinators to insure a seamless and productive work environment for all employees.

PROGRAM SUMMARY:

The Dawson Education Cooperative receives a state based grant each year. This base grant provides for a director, a teacher center coordinator, a business office, and other classified office personnel. The remainder of the co-op budget comes from grants and the local school districts it serves. The funds are "pooled" so that stronger programs can be returned to each of the member schools.

The director, who is hired by the Board of Directors, has the responsibility for general supervision of all cooperative programs. A Board of Directors that consists of a representative from each of the member school districts governs Dawson Co-op. The Board has elected to use an Executive Committee which is made up of one representative from each of the six counties, the Board President, the Board Vice-President, and the immediate Past President. The actions of the Executive Committee are submitted to the full Board of Directors for concurrence.

The educators in the twenty-two school districts Dawson serves guide the Co-op. Our schools' staff is the major source of input for direction of Co-op services. The Teacher Center Committee and facilitator groups are comprised of teachers and other staff from all member schools in the areas of literacy, math, science, social studies, counselor, drug education, career and technical,

technology, gifted and talented, principals, assistant superintendents, distance learning, etc. All of these groups ensure responsiveness to the needs of local districts by Co-op staff through their continuing input.

The Co-op is able to provide many additional services because of its collaboration between the Arkansas Department of Education and the institutes of higher education. Dawson is a part of the statewide co-op network, which meets regularly to discuss issues and concerns. The Arkansas Department of Education is a vital link for the Co-op in planning and implementing activities that enhance student learning. Henderson State University, Ouachita Baptist University, College of the Ouachitas, and National Park Community College are strong partners with Dawson Co-op. The Co-op also has strong community support, with staff members serving on committees for local, regional and state agencies. Dawson Co-op works closely with the Arkansas Legislature and believes in Governor Beebe's platform for success: "In Arkansas, Education and Economic Development go hand-in-hand."

MAJOR HIGHLIGHTS OF THE YEAR

Dawson Co-op continues to host a Legislative luncheon where superintendent's from our 22 districts were invited to attend and meet with our Arkansas State Legislature. This event is very instrumental in maintaining a positive relationship with those who are making the laws that govern our schools. Also, Dawson hosts an annual superintendent's conference to provide administrators with their required professional development hours.

PROGRAM:

ARKANSAS BETTER CHANCE FOR SCHOOL SUCCESS

FUNDING SOURCE: Arkansas Better Chance for School Success

COMPETITIVE GRANT: YES X NO _____

RESTRICTED X **NON-RESTRICTED** _____

PARTICIPATING DISTRICTS:

Bauxite, Benton, Bismarck, Centerpoint, Harmony Grove, Hot Springs, Jessieville, Magnet Cove, Malvern, Mt. Pine, Ouachita, South Pike County, and Poyen.

Part-time Substitutes – As needed – Sub Teach

GOALS AND OBJECTIVES:

- Provide high-quality, developmentally appropriate programs for preschool children
- Provide a safe and nurturing environment that promotes development and enhances the learning of each individual child in the program
- Establish relationships with families of each preschool child
- Collaborated with community members to deliver high quality services to preschool children and their families
- Provide a well qualified and trained staff

PROGRAM SUMMARY:

The Dawson Education Cooperative Arkansas Better Chance for School Success Program provides high-quality, developmentally appropriate preschool programs for educationally deprived children ages 3 and 4 years from families with gross income not exceeding 200% of the Federal Poverty Level.

MAJOR HIGHLIGHTS OF THE YEAR:

Scholastic Book Fair; Donuts for Dads; Muffins for Moms; Visits from Community Firemen; Dentists and Doctors; St. Jude Trike A Thon; Family Fun Day; Preschool Graduation

PROGRAM:

AR CO-TEACHING PROJECT & THE STRATEGIC
INSTRUCTION MODEL (SIM) PROFESSIONAL
DEVELOPMENT

FUNDING SOURCE: State Performance Grant

COMPETITIVE GRANT: Yes___ No X

RESTRICTED X **NON-RESTRICTED**___

PARTICIPATING DISTRICTS:

AR Co-Teaching Project:

The Arkansas Co-Teaching Project provides technical assistance to all districts in Arkansas interested in beginning or improving an existing co-teaching program. During 2015-16, the project formed a partnership with Johns Hopkins University's Center for Technology in Education (JHUY CTE) to provide Boundless Learning Co-Teaching, a yearlong blended professional development package, to interested schools. The following districts and schools participated: Bentonville (Cooper Elementary and Elm Tree Elementary), Crossett (Crossett High School), Mountain Home (Mountain Home Junior High), Pine Bluff (Jack Robey Jr. High, Pine Bluff High, and Belair Middle), Rivercrest (Rivercrest Junior High, Searcy County (Marshall High), and Osceola (Osceola High). The project also offered email and telephone technical assistance in the co-teaching model to all districts statewide. Onsite co-teaching model overviews were also provided on request.

Adolescent Literacy Intervention Project Strategic Instruction Model (SIM) Learning Strategies Professional Development Project:

The role of the AR SERC consultant was limited during 2015-16 to participating in SIM professional developers' activities and promoting SIM professional development activities.

PERSONNEL:

Rose Merry Kirkpatrick, Educational Consultant, Coordinator of AR Co-Teaching Project & Strategic Instruction Model (SIM) Professional Developer, B.A., M.S.E.

GOALS:

AR Co-Teaching Project:

The AR Co-Teaching Professional Development Project was designed to provide technical assistance and professional development to districts interested in beginning or improving a co-teaching program. Co-Teaching is, "an instructional delivery approach in which a classroom teacher and a special education teacher (or other special service professional) share responsibility for planning, delivering, and evaluating instruction for a group of students, some of who have exceptional needs" (Friend, Reising, and Cook). By adopting this model, schools were able to meet the highly qualified requirement and at the same time, students with disabilities were able to access the rigorous general education curriculum and receive their special education services in the least restrictive environment, the general education classroom. In addition to providing a solution to these regulatory issues, many early adopters of the model within the state reported academic and behavior gains for students with disabilities who previously had been taught in special education pull-out programs. Unfortunately, as more schools rushed to implement the model, not all met with the success they had anticipated. Upon closer examination, it was determined that the implementation practices of some schools were negatively impacting their results. The AR Co-Teaching Professional Development Project was created to assist districts and schools in improving the fidelity of implementation and the effectiveness of the co-teaching model.

Adolescent Literacy Intervention Project Strategic Instruction Model (SIM) Learning Strategies Professional Development Project:

The AR-SERC consultant also serves as a Strategic Instruction Model (SIM) Learning Strategy professional developer with the UCA Mashburn Center's Adolescent Literacy Intervention Project. The project provides professional development to interested special education teachers and intervention teachers in Arkansas involved in school based programs designed to improve academic outcomes for struggling adolescents including those with disabilities.

PROGRAM SUMMARY:

The AR Co-Teaching Project:

The AR Co-Teaching Project in partnership with Johns Hopkins University's Center for Technology in Education (JHU CTE) provided Boundless Learning Co-Teaching, a yearlong blended professional development package to interested schools across the state of Arkansas. The yearlong comprehensive package follows research based professional development practices. It includes a traditional face-to-face Kick Off session to provide basic information about the model and to acquaint participants with the online modules and the expectations for completing them, 6 online facilitated modules for co-teachers, electronic learning communities for co-teachers and building principals, online support meetings for principals, onsite coaching, a follow-up face-to-face session designed to deepen learning about effective co-teaching practices and to celebrate achievements of participants, and implementation evaluation. The professional development package activities began in the fall and continued until the end of the school year.

The project's team consists of the project coordinator, co-teaching professional developers from collaborating agencies and projects, independent state co-teaching coaches, the Boundless Learning Co-Teaching professional development team from JHU CTE, and Dr. Cynthia Pearl, University of Central Florida, national co-teaching researcher. As part of the efforts to adhere to current best practices in professional development, the project relies upon implementation evaluation data collected from participating schools to guide its planning and to provide direction to schools participating in its comprehensive professional development package.

In addition to the Boundless Learning Co-Teaching professional development package, the AR Co-Teaching Project team provided overview sessions in one half day to one full day formats to interested districts to provide basic information about the model as well as resources for continued learning. Schools interested in implementing co-teaching for the first time in 2016-17 were invited to participate in implementation planning sessions that included half or full day sessions, webinars, and conference calls. The project team also offered the following services to all interested districts and schools in Arkansas: presentations at the AR Council for Exceptional Children Conference, a co-teaching informational website, and email/telephone technical assistance.

Adolescent Literacy Intervention Project Strategic Instruction Model (SIM) Learning Strategies Professional Development Project:

As a SIM professional developer with the UCA Mashburn's Center's Adolescent Literacy Intervention Project, the AR-SERC consultant collaborated with Mashburn Center and Arkansas State Personnel Development Grant (SPDG) staff to promote professional development opportunities for schools interested in implementing SIM Learning Strategies to address the needs of struggling adolescents including those with disabilities. The consultant was also available to provide SIM Learning Strategies professional development as needed.

MAJOR HIGHLIGHTS OF THE YEAR:

AR Co-Teaching Project:

During the 2015-16 school year, the Arkansas Co-Teaching Project partnered with Johns Hopkins University's Center for Technology in Education (JHUY CTE) to provide Boundless Learning Co-Teaching, a yearlong blended professional development package, to a statewide cohort of 10 schools. The professional development package included traditional face-to-face sessions, facilitated online modules and web meetings, and onsite coaching.

Fidelity of implementation continued to be an important goal for the project. Each participating school was required to participate in the project's comprehensive professional development package. The package contained an implementation evaluation plan that measured change in system support (school practices) for the co-teaching model, application of the co-teaching model in the co-taught classroom, and the model's impact on students. Since this process is not completed until the end of the school year, the information included in this year's report does not include the analysis of the 2015-16 pre/post data. Instead, results from the work completed during 2014-15. At that time, schools participated in a yearlong package designed by the AR Co-Teaching Project that included a one-day foundational session on co-teaching by national co-teaching expert, Dr. Lisa Dieker; a one-day implementation planning session with the school's Co-Teaching Building Leadership Team (BLT); three webinars on differentiated instruction in the co-taught classroom; two webinars on implementation planning for the Co-Teaching BIPT; onsite coaching; and implementation evaluation.

The 2014-15 evaluation results included student outcome measures in the form of final grades of students from 12 schools. In the 43 co-taught classes of **1,004** students (218 students with disabilities and 786 students without disabilities), the following indicated:

92% of students with disabilities received passing grades

67% of students with disabilities received "C" or higher

Although the number of students with disabilities who received passing grades is comparable to previous years, the number of students who received "C" or higher grades is not. In comparing the results, it was noted that the mean average for both students with and without disabilities was lower than previous years. The number of students represented was also lower than previous years. One school did not submit grades, and another school did not plan to implement co-teaching until the fall of 2015. The high number of schools in Needs Improvement and Priority may also have impacted the grades.

Changes in school system practices are necessary in order to implement the co-teaching model with fidelity. Changes in system practices are measured by the Action Planning Checklist. The survey includes a list of 29 building support actions critical to a successful co-teaching program. The average participating school addressed 84.48 of the items to some extent by the spring of 2015. Co-teachers changes in instructional practices and collaborative relationship development with their partners was measured with the Colorado Assessment of Co-Teaching (CO-ACT) survey. At the conclusion of the yearlong professional development, a total of only 10 of the 42 items had means of less than 4.0 (agree) indicating that many of these teachers perceived that progress had been made over the school year.

Individual school evaluation results from 2014-15 were shared with the school's Co-Teaching Building Leadership Team (BLT) for their use in planning for 2015-16. The summary evaluation results were used by the AR Co-Teaching Project's team to capture the results of the

2014-15 professional development package. Implementation evaluation data the Boundless Learning Co-Teaching package for 2015-16 will be collected at the end of the school year. The data will then be compiled and analyzed and a final report provided to schools participating in the 2015-16 professional development package. This will provide the AR Co-Teaching Project with the data needed to compare the results of their previous package with the Boundless Learning Co-Teaching package.

Adolescent Literacy Intervention Project Strategic Instruction Model (SIM) Learning Strategies Professional Development Project:

The AR SERC consultant's role was limited to assisting with program review, professional developers' sessions, and promotional activities during 2015-16.

PROGRAM: ARKANSAS LOCAL EDUCATION AGENCY RESOURCE NETWORK (AR LEARN)

FUNDING SOURCE: State Performance Grant

COMPETITIVE GRANT: Yes___ No X

RESTRICTED Yes X **NON-RESTRICTED**__

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter-Morning Star, Fordyce, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lakeside, Lake Hamilton, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County in the Dawson Education Cooperative and all other school districts in the state of Arkansas.

PERSONNEL:

Sandra Ankton, Program Manager, B.S.

GOAL:

The AR LEARN mission is to promote sound research-based building and classroom educational practices to achieve the educational results required by the individuals with Disabilities Education Act (IDEA) and the Arkansas Department of Education.

It is the mission of AR LEARN to be able to respond to statewide needs as well as those of individual school districts. AR LEARN also provides customized technical assistance on-site by independent special education consultants who assist in helping any school district meet required IDEA State Performance Plan targets. ARLEARN is particularly interested in working with districts that have been determined by this office to be in the "needs assistance" category for full state and federal compliance.

Customized technical assistance is delivered on site by independent special education consultants who can assist in helping any school district meet required IDEA State performance plan targets, as the need arises.

PROGRAM SUMMARY:

The Arkansas Local Education Agency Resource Network (AR LEARN) is a local education network that partners with statewide public and private local education agencies and other educational entities to assist in meeting the challenges of providing 21st century special education services. The state wide professional development program is designed to build the capacity of local special education personnel and, to the extent appropriate, that of general educational professionals as well.

MAJOR HIGHLIGHTS OF THE YEAR:

AR LEARN offered "Educating Children with Asperger's Syndrome in the General Education Classroom, in all fifteen Arkansas Education Service Cooperatives. Mary Ann McIntyre, was the presenter. The workshop reached a total of 230 teachers/educators. AR Learn also sponsored the 2015 ADE Special Education Unit's Administrator's Academy.

PROGRAM: ARKANSAS TRANSITION CONSULTANT SERVICES

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes X No

RESTRICTED **NON-RESTRICTED** X

PARTICIPATING DISTRICTS:

Garland County: Cutter-Morning Star*, Fountain Lake, Jessieville*, Hot Springs, Lake Hamilton*, Lakeside, Mountain Pine* Saline County: Benton*, Bryant, Harmony Grove* Hot Spring County: Bismarck*, Glen Rose*, Magnet Cove, Malvern, Ouachita* Clark County: Arkadelphia*, Gurdon* Pike County: Centerpoint*, South Pike Co., Kirby*

*visited/met each LEA at their home Districts

GOAL:

Arkansas Transition Services is to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes.

PROGRAM SUMMARY:

The Arkansas Department of Education, Special Education Unit, funds a grant by which the consultant group, Arkansas Transition Services, works to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes, as mandated by the Individuals with Disabilities Education Act.

Arkansas Transition Services consists of six transition consultants across the state, including a State Transition Coordinator. All consultants provide district, regional and state-wide trainings and technical assistance throughout the year. Arkansas Transition Services develops and provides trainings based not only on Federal and State mandates, but also on the needs of school districts and transition teams in the area of transition. Some of these trainings include how to develop transition classes, transitions assessment trainings, involving the student in transition planning, compliance with transition indicators, and how to gain parental participation and how to establish local transition teams. We continue to work hard to build capacity in the districts through thorough reviews of transition plans, followed up with report findings and recommendations for additional training. This has been an effective and proactive practice that districts have participated in prior to being monitored by the Special Education Unit.

ATS also works with adult service providers around the state to share concerns and possible strategies to better connect with schools and their students. A collaborative effort is made among districts, agencies and ATS to hold Transition Fairs to increase the knowledge of agency services around the state. Agencies are also invited to participate in IEP meetings and on local transition teams. ATS maintains a leadership role in the Arkansas Interagency Transition Partnership, which works to bring agencies together to discuss issues and develop strategies to better serve schools and students in reaching positive post-school outcomes.

Arkansas Transition Services has worked with several technical assistance centers, including National Secondary Transition Technical Assistance Center, National Post School Outcomes Center and National Dropout Prevention Center for Students with Disabilities. These technical assistance centers now are under one project, National Technical Assistance Center on Transition

(NTACT formerly NSTTAC). NTACT is a national technical assistance center funded by the U.S. department of Education's Office of Special Education Programs and is focused on improving transition outcomes. Each year, at least two ATS representatives attend the NTACT sponsored, Capacity Building Institute as a state team, along with Arkansas Rehabilitation Services representatives, teacher representatives and IDEA Data and Research representatives. While at the meeting, we develop an action plan based on the transition needs in Arkansas in transition and our different perspectives. This plan is then carried out through our collaborative work with districts, students, parents and agencies during the year.

FILE REVIEWS PROVIDED TO:

Bismarck, Cutter-Morning Star; Glen Rose; Jessieville; Ouachita; Poyen; Prescott; Kirby; Gurdon

DISTRICT TRAININGS PROVIDED TO:

Harmony Grove; Bismarck; Glen Rose; Cutter Morning Star; Benton (pilot forms and PCP); Ouachita

CONSULTS PROVIDED TO:

Bryant; Cutter-Morning Star; Jessieville; Lake Hamilton; Harmony Grove; Malvern; Ouachita; Prescott; Arkadelphia

PROFESSIONAL CONFERENCES/SESSIONS PRESENTED/ATTENDED:

Arkansas Interagency Transition Partnership (AITP) – Goodwill, Little Rock
Video Modeling – Ryan Kellums
Study Apps – Tony Vincent
Arkansas Association of Educational Administrators Conference (AAEA)
Workforce Innovation and Opportunities Act Conference
LEA Academy – Little Rock Embassy Suites
State Toolkit for Examining Post School Success Focus Group (STEPSS)
AR Department of Education Standards Based IEPs (3 day training)
Oklahoma Transition Conference – Norman, OK
Person Centered Planning Training – AR Studies, Little Rock
Council for Exceptional Children Conference – Embassy Suites, Little Rock (presenter)
AR Transition CADRE – Hilton Garden, Little Rock
Google Docs Tech Training – Dawson
Autism Symposium – University of Arkansas at Fayetteville
Arkansas Rehabilitation Association – ARA, Hot Springs

MEETINGS ATTENDED:

LEA Area V; New Transition Paperwork Pilot District Trainings; Superintendents' Meeting; ADE-SEU Consultants Meeting; AR Rehab Services DM/VR Counselors Meeting; AR Workforce Partner Meeting (Central-West Region: Lonoke); Person Centered Planning Meeting; AR Promise; ATS Staff Meetings

IEP MEETINGS ATTENDED:

Jessieville; Benton

TRANSITION FAIR ATTENDED:

Cutter-Morning Star; Harmony Grove; Benton (Parent Night); College of the Ouachitas (COTO-Glen Rose); Texarkana

SPECIAL EVENTS ATTENDED:

Project SEARCH Tour (AR Children's Hospital); ACAP Tour (SouthArk Com. Community); Jackson House (Cutter-Morning Star); Civitan Services Tour (Bryant)

SUMMER PROFESSIONAL DEVELOPMENT TRAINING(S):

Transition Toolkit Training: July 18
Transition Practices for Post School Success: July 19
Transition Planning: Considerations for Students on the Autism Spectrum and Students with Intellectual Disabilities: July 19

MAJOR HIGHLIGHTS OF THE YEAR:

A Transition Summit is also held every other year for local transition teams around the state to meet and assess the needs of the team's area. (tentatively scheduled for October 19-20, 2016) These teams then develop a plan based on those needs to improve transition outcomes. A Summit was held in October 2014 with record-breaking attendance – 264 attendees (including 164 Special Educators, 44 Special Education Administrators, 11 agency members, 3 PT/OT/Speech Therapists, 4 parents and 38 other educators) and 53 teams from 48 districts. The focus was Student Focused Planning. We also held two Cadre meetings where the local teams came together to receive professional development in transition assessments, student focused planning, practice profiles and post school options. These events provided opportunities for continued team planning and networking, as well.

This year marks the 10th anniversary of College Bound Arkansas! This is another annual event held in collaboration with University of Central Arkansas. It is a three day residential program intended to increase student's knowledge of accommodations at the post-secondary level, assistive technologies, leadership skills, and other exciting aspects of college life. Parents and professionals are also invited to attend and learn about the possibilities for their children and students at the college level. This year we will introduce our "Freshman Fifteen", also at UCA campus, designated for current high school freshmen their parents, guardians or teachers. This one day introduction to college life will touch on fifteen topics to consider if students are thinking about attending college.

CIRCLES is an innovative approach to providing transition planning services. In CIRCLES, there is a School Level Team (SLT), made up of school staff and the caseworkers and case managers of each of the outside agencies who might be able to help our students make this transition successfully. There is also a Community Level Team (CLT), made up of agency and district administrators.

These two different teams meet separately to serve to different functions in the CIRCLES model of service delivery. There are currently two schools in Arkansas piloting the CIRCLES program.

The State Toolkit for Examining Post-School Success (STEPSS) is a web-based, data-based decision making tool designed to support state departments of education in disseminating and using data related to secondary transition (SPP Part B Indicators 1, 2, 13, and 14) to improve in-school transition programs for youth with disabilities.

Our website (www.arkansastransition.com) h. includes a wide variety of resources that are updated on a regular base. Some of those resources are closed captioned video; a quarterly newsletter; a Transition Fair Toolkit and Guidance and Career Counselor's Toolkit for teachers and counselors; interactive IEP forms for students; healthcare transition information for parents; and updated agency resources by county.

The Arkansas Interagency Transition Partnership (AITP) is a State Interagency team which includes a variety of stakeholders who are supporting youth with disabilities so they can have the best chance for success as adults. State interagency teams are comprised of representatives of all agencies involved in preparing, connecting and receiving youth with disabilities as they transition from secondary school to post-school environments. Many of the services available to students under IDEA end when the student leaves secondary school. Students with disabilities are significantly unemployed and underemployed upon leaving school compared to their peers that do not have disabilities. The AITP envisions a state that respects and values all individuals with and without disabilities who fully participate together in all life experiences. Our mission is to, through coordination and collaboration; improve lifelong outcomes for youth and young adults with disabilities. The AITP holds annually the AITP Summer Connections as a way for district personnel around the state to learn about a variety of agency services.

The AITP also offers a Resource Guide which offers some guidance to parents on activities they can do from ages birth to high school that will help in the secondary transition process. This durable folder can offer a "roadmap" of important things to look into activities to do at home, agencies to connect with and suggestions for becoming more involved in the transition process--- AND encouraging their children to become more involved. The folder contains contact information for valuable resources that can help in the secondary transition process. We have even coordinated some of the activities with agencies and resources that can offer assistance in many of the activities.

PROGRAM: DAWSON CAREER EDUCATION

FUNDING SOURCE: Carl D. Perkins Vocational and Education Act of 2006

FUNDING AMOUNT: 322,726.00

COMPETITIVE GRANT: Yes___ No_X__

RESTRICTED X **NON-RESTRICTED**__

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Bismarck, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, South Pike County.

PERSONNEL:

April Shepherd, Career Education Coordinator, B.S.E., M.S.E.
Janie Freeman, Career Education Program Assistant

GOALS:

To assist Dawson Perkins Consortia schools in meeting federal Carl Perkins IV Performance Indicators with program improvement and integration activities and working toward goals set in the five year local plan to meet Perkins IV law. The goals are updated annually based on ACE data to each LEA and Dawson Perkins Consortia.

To work as a liaison between ACE and the Dawson Perkins LEAs to implement Career Education (CE) programs and projects, i.e. ACE Technical Assistance Visits, WETesting at End of CE courses and reporting these test results back to each LEA, CTE completers and placement reporting, national certifications, assist with writing grants for program development, assist in program development and implementation of CTE student organizations, and work with each LEA to develop new/expanded Programs of Study.

Support professional development of career education to administrators, teachers and counselors within the Dawson Consortium. Provide professional development integration activities across all programs of study to meet the negotiated targets established by the Arkansas Department of Career Education; i.e. college and career readiness, modern workplace, teacher internships, career action planning, training for national certifications such as Adobe, IC3, NCCER, OSHA, FACS ServSafe.

PROGRAM SUMMARY:

Perkins IV was signed into law August 2006, and DESC Perkins Consortia works with the Arkansas Department of Career Education to meet the negotiated target goals set and approved by the state. The Perkins Indicator areas include Literacy, Geometry, Technical Skills Attainment, School Completion and Graduation, Placement and Non-Traditional Participation and Completion. In 2015-16, Dawson continued serving its schools in regards to providing assistance in the areas of school improvement with a goal of improving literacy and technical skill attainment in accordance with Perkins IV mandates. April Shepherd met on site with principals, curriculum leaders and teachers and discussed strategies for improving in these areas of improvement.

Dawson provides professional development opportunities in specific areas to assist federal and state mandates and to assist in the development, improvement and implementation for programs of study. Dawson assists school district in writing start up grants for new programs of study, prepare for technical assistance visits, suggest relevant research based learning opportunities to CTE administrators and teachers. Dawson assists the school districts in providing end of year reports for end of course data and district report cards in meeting the states negotiated targets.

Dawson works with College of the Ouachitas, National Park Community College, Henderson State University and the West Central WIOA Board to establish a partnership with business and

industry. This partnership establishes procedures to assist in the successful transition from secondary into post-secondary and the world of work.

Dawson provides subject specific professional development opportunities for administrators, teachers and counselors. Dawson attends meetings of professional learning communities to assist in program development with curriculum and state mandates. Dawson assists school districts in writing start up grants, provides assistance with funding issues and equipment, assists districts in preparing for state technical assistance visits and suggests research based learning opportunities for career and technical administrators and educators.

Dawson provides end of year reports for career and technical end of course testing, information on the school report card in meeting the state negotiated targets and approval of programs of study.

MAJOR INITIATIVES:

MITA —Microsoft Information Technology Academy—Dawson continued to provide training and resources in conjunction with ACE and Consortia schools to maximize the ability of schools to offer curriculum and testing opportunities needed for students to obtain national certifications. Dawson and AR Dept. of Career Education, working with PCG continued training for ACE EOC testing in Career Education courses to enhance test efficiency, providing complete, user friendly, and easily accessible test data for use by classroom teachers to provide assistance to students during the course. This system better meets the accountability required by the federal Perkins Indicator of Student skills attainment. PCG developed ways and means for more focused reporting appropriate to meet the cooperatives needs to utilize the system with summative data across the consortia.

CCSS and LDC/MDC is expanding and the Dawson Career Education Coordinator worked closely with ADE statewide trainers to enhance this initiative with a focus taken to Career Pathway classroom instructors of schools joining this initiative. Career Counseling has been enhanced with Career Coaches located at COTO in Malvern serving: Glen Rose, Ouachita and Poyen, SAU Tech in Camden serving Fordyce and Cossatot CC serving Kirby and Murfreesboro. Also, Career Development Facilitator (CDF) Open to all schools, 14 thus far have Career Coaches on-site, plus CDFs at COTO and NPCC.

Dawson Co-op's conducted the second annual CTE Regional Advisory Council Meeting with Business and Industry. Dawson's steering committee assisted in obtaining employment data for the geographic region. The steering committee looked at Labor Market Information to find top employment areas within the Dawson region. Based on this data, the committee invited representatives from eight focus areas to offer assistance, knowledge and expertise in helping prepare students for the world of work and post-secondary. The Superintendents, Principals, Counselors, Teachers, Students and representatives from Business and Industry were in attendance. Regional Advisory Councils are an equal partnership between schools, cooperatives, career centers, colleges and employers. This meeting should assist schools in reviewing labor market data, aligning secondary and post-secondary programs, offer dual and articulated credit where applicable, identifying extended learning opportunities for students, and determine training and skill sets needed from business and industry to assist students in obtaining employment in hard to fill areas. Working together, we will assist the needs of our students and employers which will benefit this region of the state economically. Another CTE Regional

Advisory Council Meeting was held in Hot Springs with many of the same goals, the panel for this meeting was composed of Human Resources specialists from the Dawson Co-op area.

Dawson sponsored a Modern Workplace training to educate administrators, teachers, and counselors about the new manufacturing principles entitled Lean 101. As a result of the Modern Workplace training, attendees participated in a teacher apprenticeship allowing them to work 40 hours in a business related to his/her field. Teachers obtained the necessary skill set to further educate students and prepare them for post-secondary and/or employment.

GOAL:

Working closely with the Arkansas Department of Education, the Arkansas Department of Career Education, and within the confines of Virtual Arkansas, the Dawson Center for Digital Learning provides a career focused curriculum addressing both the national and state career cluster standards. Students gain a solid foundation of career awareness and explore opportunities found within their chosen career pathway. The Dawson Center for Digital Learning provides classes in the following national career clusters: Arts, Audio Visual Technologies and Communication; Health Science; Information Technology, Law, Public Safety, Corrections, and Security; Marketing Sales and Service; Aviation-Pilot; and STEM.

The goals for Dawson Center for Digital Learning include: (1) Ensure that each student receives quality instruction from a licensed highly qualified instructor, (2) Maintain the academic

integrity of digital learning for students in grades 9-12, (3) Meet or exceed the AR Curriculum Frameworks, (4) Incorporate Common Core Standards within the Career and Technical Curriculum, (5) Prepare students for success within the world of work and/or the post-secondary environment.

PROGRAM SUMMARY:

In 2004, Dawson Education Cooperative received a grant from the Arkansas Department of Education to provide instruction to schools using compressed interactive video (CIV). The instructors delivered quality instruction to the schools and students from a central office located in Arkadelphia.

The Dawson Center for Distance Learning began with two teachers and seventeen students in 2004. In 2014-2015, Dawson transitioned to a focus on a digital learning model of instruction and expanded to include fifteen teachers and thirty course offerings. For 2015-2016, thirty-four courses were offered, including: Abnormal Psychology; Advanced Photography; Airport, Airspace and Weather Conditions; Arkansas Legal; Career Readiness; Career Ready 101; College and Career Readiness; Computerized Business Applications; Criminal Law; Fashion Merchandising; Forensics and the Law; Fundamentals of Flight; Fundamentals of Photography; Human Anatomy and Physiology; Human Behavior and Disorders; Intermediate Photography; International Travel; Introduction to Criminal Justice; Introduction to Hospitality; Introduction to Law, Public Safety, Security, and Corrections; Introduction to Medical Professions; Introduction to Travel and Tourism; Law and Order Career Intent; Marketing; Medical Procedures; Medical Terminology; Pathology; Private Pilots Operation; Programming I; Programming II; Spanish I; Sports Marketing and Entertainment; Travel Destinations; Web Design I. Each of the above listed courses met or surpassed the AR Frameworks. In all, 5,450 enrollments were serviced and received quality instruction through the Dawson Center for Digital Learning during the 2015-2016 school year.

MAJOR HIGHLIGHTS OF THE YEAR:

Three students from Highland High School attended SkillsUSA in 2016 and competed in the Photography Competition. A Senior Highland student won the top position at the competition, and as the gold winner, will compete at the national SkillsUSA competition in Louisville, Kentucky.

Dawson was granted approval from the AR Department of Career and Technical Education to pilot the first Aviation Program of Study within the state of Arkansas six years ago. A flight instructor from Henderson State University delivered instruction to thirty-one students from Arkadelphia High School and Lakeside High School during the 2015-2016 school year. During their first year of aviation classes, students are enrolled in Aviation I. Over the past two years, students have continued the program of study and graduated as completers in Aviation. Students receiving credit in the Aviation classes will be allowed to transfer a total of seven credit hours to Henderson State University once they have completed twelve hours of instruction there. A senior from Lakeside High School has enrolled in Henderson State University and is currently pursuing a major in the field of Aviation.

Several field trips were offered during the year to supplement the career and technical education curriculum. Students enrolled in a Photography course traveled to either the Little Rock Zoo or the Memphis Zoo to take pictures of the animals. The students entered a local competition

which made them eligible for entrance into the Arts Guild Competition. Students enrolled in Introduction to Criminal Justice visited the Washington County Detention Center.

The Health Science teachers, Becky Kinard and Kellye Wood, traveled to receiving sites to certify students in CPR and dissect sheep's hearts with students. There was 100% proficiency with students tested for CPR certification. 76 students received CPR certification through the Medical Procedures class.

PROGRAM: EARLY CHILDHOOD SPECIAL EDUCATION

FUNDING SOURCE: FEDERAL STATE

COMPETITIVE GRANT: Yes ☐ No ☒

RESTRICTED ☒ **NON-RESTRICTED** ☐

PARTICIPATING DISTRICTS:

Gurdon School District, Arkadelphia School District, Bismarck School District, Centerpoint

School District, South Pike County School District, Kirby School District, Magnet Cove School District, Glen Rose School District, Ouachita School District, Malvern School District, Benton School District, Harmony Grove School District, Bauxite School District, Fountain Lake School District, Cutter-Morning Star School District, Jessieville School District, Mt. Pine School District, Lake Hamilton School District, Lakeside School District, Hot Springs School District, Poyen School District

PERSONNEL:

Sandra Francis, ECSE Coordinator (M.S.E); Shannon Leathers, ECSE Teacher (M.S.E); Susan Fulton, ECSE Teacher (B.S.E); Nannette Kirksey, ECSE Teacher (B.S.E); DeAnn Hipps, ECSE Teacher (M.S.E); Melissa Thomason, ECSE Teacher (M.S.E); Rebecca Denson, ECSE Teacher (M.S.E); Mary Thompson, ECSE Teacher (B.S.E); Cathy Renae McGraw, ECSE Teacher (M.S.E); Rebecca Barnes, ECSE Teacher (B.S.E); Sharon Brogden, SLP (M.S.E, C.C.C); Brittany Matthews, SLP (M.S.E, C.C.C); Melinda Salloukh, SLP (M.S.E, C.C.C); Kimberly Rogers, SLP (M.S.E, C.C.C); Christy Shuffield, SLP (M.S., C.C.C); Teresa Warner, SLP (M.S.E, C.C.C); Shasta Pentecost, ECSE Behavior Specialist (M.S.E, L.P.C); Citronella Dixon, ECSE Program Specialist (B.S.E); Danette Jennings, ECSE Program Specialist (B.S.B.A); Alesa Lambert, ECSE Paraprofessional (C.D.A); Latasha Evans, ECSE Paraprofessional (C.D.A); Jennifer Coleman, ECSE Paraprofessional (C.D.A); Teresa Davis, ECSE Administrative Assistant; David Ashbaugh, ECSE Assistant; Amber Weems, ECSE Medicaid Billing; Abbey Smith, SLP (M.S.E.)

PROGRAM GOALS:

To provide special education and related services for children with disabilities from three to five years of age, to transition from Early Intervention into ECSE services and to transition from ECSE into school age programs.

PROGRAM SUMMARY:

The Early Childhood Special Education Services are provided in a manner which meets the individual development/educational needs of each child, which may include screening, evaluation, speech/language therapy, direct or consulting developmental instruction, counseling, physical therapy, and occupational therapy. Special Education services are provided in the child's natural preschool environment, which may include home, Head Start Centers, private and parochial preschools, Arkansas Better Chance Programs, or in the classrooms located on nine school district campuses. Special Education services are provided through written individualized education plans that address each child's unique developmental/educational needs with the ultimate goal of bringing their skills up to an age commensurate level so that they are prepared for success upon entering their school district's kindergarten program.

The Early Childhood Special Education Coordinator participates in and supports a Local Interagency Coordinating Council and a Special Education Advisory Committee. In addition, the program participates in transition from Early Intervention Programs, and transition into and transition from Developmental Disability Kindergarten Programs.

MAJOR HIGHLIGHTS OF THE YEAR:

The Early Childhood Special Education Department continued to lease a new building in Benton, AR to accommodate the families, teachers and therapists with a more central location. The Early Childhood Special Education Program received a \$500.00 grant to purchase and distribute educational materials to children during Arkansas Children's Week.

PROGRAM: FACILITIES SPECIALIST

FUNDING SOURCE: Local

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED ___ **NONRESTRICTED** X

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter Morning-Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, and South Pike County

PERSONNEL:

Leslie Dyess

PROGRAM GOALS:

It is the goal of the Facilities Specialist to advance the level of academic facilities for the Districts within the Co-op. This is accomplished by helping to identify the facility needs of the districts and by aiding with the development of a strategic plan for meeting those needs. The utilization of facilities standards, rules, and funding programs to meet said needs is essential to accomplishing this goal.

PROGRAM SUMMARY:

The Dawson Education Cooperative's Facilities Specialist provides support for the school districts and their staff in the area of facilities planning and construction compliance with Arkansas School Facilities standards/guidelines.

On a yearly basis, the Facilities Specialist will assist the School Districts with their 6 year Facility Master Plan updates. This update will take into consideration current facility conditions and student enrollment as it relates to space availability within the campus. During even numbered years, the Facilities Specialist will assist in preparing application submissions for Partnership Program funding of those construction projects previously determined by the Master Plan to be necessary in meeting the facility needs of the District.

It is the ongoing responsibility of the Facilities Specialist to discuss/evaluate the needs of each individual district within the Dawson Education Cooperative to determine what type of support can be offered.

MAJOR HIGHLIGHTS OF THE YEAR:

This program is now half way through its third year, and a significant amount of effort has been placed into updating/reconciling the state's required reporting tools. The accuracy of these reports will be vital to planning for the unique needs of each district as we move forward. Other milestones include submission of the state mandated 6 year Facility Master Plans, submission of 2017-19 Partnership applications, and funding approval of year 1 Partnership Projects with year 2 funding approval pending.

PROGRAM: GIFTED AND TALENTED

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED X **NONRESTRICTED** ___

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Cutter Morning-Star, Fordyce, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, and South Pike County

PERSONNEL:

Regina Prothro, Gifted and Talented Specialist, M.S.E. (part-time)
Sue Newton, Secretary

PROGRAM GOALS:

Striving to bring the very best opportunities for educators directly or indirectly involved with the area of gifted education. Such opportunities include differentiation, problem solving and critical thinking skills, Common Core implementation, and the increase of rigor across content areas.

PROGRAM SUMMARY:

The Dawson Education Cooperative's Gifted and Talented Program provides support for teachers of the gifted through professional development presented at quarterly meetings and during the summer.

At the request of the school districts, the following academic activities are provided annually:

- Quiz Bowl Tournaments
- Chess Tournaments
- Monitoring support/preparation
- Secondary content training
- Facilitates Pre-AP trainings

*These events were not limited to gifted children.

PROGRAM: HOME INSTRUCTION FOR PARENTS OF PRESCHOOL
YOUNGSTERS (HIPPIY)

FUNDING SOURCE: Maternal Infant Early Childhood Home Visiting Grant
(MIECHV)

COMPETITIVE GRANT: Yes ___ No X

RESTRICTED X **NONRESTRICTED** ___

PARTICIPATING COUNTIES:

Clark, Dallas, Garland, Montgomery and Pike and Hot Springs

PERSONNEL:

Mary Purtle, Coordinator
Temetria Harris, Home Visitor
Crystal Gibson, Home Visitor
Cathy Morgan, Home Visitor
Michelle Rorie, Home Visitor
Keia McMillan, Home Visitor
Silvia Hughes, Home Visitor

GOALS:

HIPPY's goal is to empower parents as primary educators of their children in the home and foster parent involvement in school and community life to maximize the chances of successful early school experiences. HIPPY helps parents empower themselves as their children's first teacher by giving them the tools, skills and confidence they need to work with their children in the home. The program was designed to bring families, organizations and communities together and remove any barriers to participation that may include limited financial resources or lack of education.

PROGRAM SUMMARY:

Home Instruction for Parents of Preschool Youngsters (HIPPY) is an evidenced-based program that works with families in the home to support parents in their critical role as their child's first and most important teacher.

HIPPY strengthens communities and families by empowering parents to actively prepare their children for success in school. Parents are provided with a set of carefully developed curriculum, books and materials designed to strengthen their children's cognitive skills, early literacy skills, social/emotional and physical development.

MAJOR HIGHLIGHTS OF THE YEAR:

One major highlight of the year was being able to expand our program to include Hot Springs County. Montgomery County and another Home Visitor for Garland Co . We expect to carry 108 families next year.

PROGRAM:

LITERACY

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division, K-12 Literacy Unit

COMPETITIVE GRANT: Yes__ No **X**

RESTRICTED X

NON-RESTRICTED__

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter-Morning Star, Fordyce, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Tammy Boyette, Literacy Specialist, M.S.E.
Robin Phelan, Literacy Specialist, M.S.E.
Karen Taylor, Literacy Specialist, M.S.E.
Gayanne Coleman, Literacy Specialist, M.S.E.

GOAL:

To enhance teacher awareness and implementation of current best practices through high quality professional development that will meet the needs of students through integrated assessment and responsive instruction. As Common Core State Standards are implemented it ensures that all students are meeting the state and national standards in literacy.

PROGRAM SUMMARY:

ELLA is a two-year professional development opportunity offered by the Arkansas Department of Education and the Arkansas Education Service Cooperatives. It is designed to assist K-1 teachers and K-12 special education teachers in the implementation of a comprehensive literacy program by increasing their knowledge and skills in the area of research-based, developmentally appropriate instructional practices. It focuses on teaching students along the continuum of literacy learning systems development, using appropriate assessments to inform systematic and explicit instruction, and the routines and procedures for classroom management. This professional development opportunity is aligned to the Common Core State Standards and research findings provided by the National Reading Panel Report.

Effective Literacy for Grades 2-4 is a two-year professional development opportunity offered by the Arkansas Department of Education and the state's education service cooperatives. It is designed to assist teachers in grades 2-4 and K-12 special education in the implementation of a comprehensive literacy program by increasing their knowledge and skills in research-based, developmentally appropriate instructional practices. It focuses on teaching students along a continuum of literacy learning progressions, using an assessment system to inform systematic and explicit instruction, choosing instructional strategies proven to prevent or remediate reading failure, and utilizing evidence-based practices for classroom management.

Content Literacy Professional Development is a group of literacy offerings for academic content area teachers and special education teachers of grades 5-12. These offerings are aligned to the Common Core State Standards for literacy in history/social studies, science, and technical subjects. Each workshop is designed to provide evidence-based instructional strategies to support students reading and writing in the academic disciplines. Educators may choose workshops specifically designed for their content area and/or grade band.

Capacity Building for Instructional Facilitators is a two-day professional development opportunity based on Diane Sweeney's work concerning student-centered coaching. It is offered through a partnership of the Arkansas Department of Education (ADE), the Arkansas Education Cooperatives, and the Arkansas STEM Centers. Instructional facilitators will be given the

opportunity to learn how to develop and sustain coaching cycles, design and implement learning labs, as well as monitor the impact of coaching on student achievement using the Results-Based Coaching Tool. This training is for anyone wanting to support teachers' implementation of student-centered classrooms.

Comprehensive Literacy for Adolescent Student Success (CLASS) is a two-year professional development opportunity offered by the Arkansas Department of Education and the education service cooperatives. It is designed to assist English language arts teachers for grades 5-12 in implementing a comprehensive, research-based approach to literacy instruction. This professional development opportunity is aligned to the Common Core State Standards for English language arts and emphasizes instructional strategies to integrate the four strands: reading, writing, speaking and listening, and language.

Moodle is a Course Management System (CMS), also known as a Learning Management System (LMS) or a Virtual Learning Environment (VLE). It is a free web application that educators can use to create effective online learning sites. Moodle courses are currently being developed that will be available in Fall 2012. These courses address the big shifts in the Common Core State Standards, and include the following courses:

Informative/explanatory writing (K-3)
Informative/explanatory writing (4-5)
Informative/explanatory writing (6-12)
Argumentative Writing (6-12)
Text Complexity (2-5)
Text Complexity (6-12)
Close Reading (3-5)
Close Reading (6-12)
Vocabulary (4-5)
Vocabulary (6-12)
Foundational Skills (K-5)
Phonics (K-3)

MAJOR HIGHLIGHTS OF THE YEAR:

The major focus in all the schools throughout this year has been the Common Core State Standards—unpacking the standards.

PROGRAM: MATHEMATICS

FUNDING SOURCE: Arkansas Department of Education, K-12 Mathematics Specialist Grant; matching grant from professional development funds

COMPETITIVE GRANT: Yes___ No X

RESTRICTED X **NON-RESTRICTED**__

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Carrie Barber, Secondary Mathematics Specialist, B.S.E., M.S.E

Cindy McAfee, Elementary Mathematics Specialist, B.S.E., M.S.E.

GOAL:

To promote and support effective, research-based mathematics practices for all students by providing professional learning opportunities and technical assistance to teachers, math coaches, curriculum specialists, administrators, school improvement team members, instructional assistants, mathematics interventionists, SPED, and Title 1 math teachers in the area of standards-based mathematics curricula, instruction, and assessment.

PROGRAM SUMMARY:

Dawson Education Service Cooperative, in partnership with the Arkansas Department of Education, administers the Mathematics Program for grades K-12, established by ACT 1392 of 1999, for the improvement of mathematics instruction throughout Arkansas. Assistance is provided to schools through professional learning programs for math content including the Common Core Standards for Mathematics, researched based pedagogy, interventions for struggling students, demonstration lessons, teacher observations, technical assistance, and teacher/administrator conferences in order to improve the teaching and learning of mathematics through increased content understanding and improved instructional strategies across the curriculum. Professional learning opportunities offered in 2015-2016 include the following:

Common Core Standards for Mathematics. With full implementation of the CCSSM in all grades, K-12, the math specialists continue to provide professional development on the content, the learning progressions of the various strands, and the standards for students' mathematical practice. This year, specialists also played a role in providing awareness of ACT Aspire as a resource for the upcoming assessments.

Mathematics Design Collaborative (MDC). This is a statewide initiative that also utilizes a research-based framework designed around junior high and senior high students and the use of formative assessments to drive instruction. The goal of the training is for teachers to learn how to effectively implement formative assessments to provide teachers with better insight into student learning needs and allow them to quickly adjust teaching strategies and emphasis on the student demand. They regularly analyze student work for student growth and reflection of teaching practice.

Cognitively Guided Instruction (CGI). This is a statewide initiative that utilizes a research-based framework designed around how elementary school children learn concepts of number, operations, and early Algebra. The goal of this training is for teachers to learn how to utilize this

framework to inform their mathematics instruction. Teachers learn to analyze and write mathematically demanding story problems and number sentences in order to further students' understanding of whole numbers and the properties of operations of whole numbers. Attention is also focused on how to recognize student responses in terms of cognitive development, facilitate discussions that will provide a window into children's thinking, strengthen children's ability to reason about arithmetic, and build students' capacity for algebraic reasoning.

MAJOR HIGHLIGHTS OF THE YEAR:

A fourth cohort involving three school districts within the coop service area participated in their first implementation year of Mathematics Design Collaborative with plans to continue participation. The four school districts that participated in the second cohort of MDC implementation continued participation at varying levels. A few of the five school districts that participated in the initial year of MDC implementation continued participation at varying levels. A new cohort of K-3rd grade teachers participated in their first year of Cognitively Guided Instruction. There was increased demand for on-site technical assistance with curriculum selection and design, and multiple requests were filled for on-site Common Core State Standards overviews, ACT Aspire overviews, grade band content study, grade specific content study, and instructional tasks supportive of the Standards of Mathematical Practice.

PROGRAM: MEDICAID

FUNDING SOURCE: Medicaid, AR Kids, ARMAC

RESTRICTED X **NON-RESTRICTED** _

PARTICIPATING DISTRICTS:

Gurdon School District, Arkadelphia School District, CenterPoint School District, South Pike

County School District, Kirby School District, Magnet Cove School District, Glen Rose School District, Ouachita School District, Malvern School District, Benton School District, Harmony Grove School District, Bauxite School District, Fountain Lake School District, Cutter-Morning Star School District, Jessieville School District, Mt. Pine School District, Lake Hamilton School District, Lakeside School District, Hot Springs School District

PERSONNEL:

Sandra Francis, Early Childhood Special Education Coordinator,
Amber Weems, Medicaid Billing Clerk

GOAL:

The Medicaid Program is a federally operated program to provide monetary reimbursement for evaluations, speech and language therapy, physical therapy, and occupational therapy.

PROGRAM GOALS:

To provide timely filing of Medicaid eligible claims for reimbursement on services rendered by the Early Childhood Special Education Department for speech and language therapy, physical therapy, occupational therapy, and vision and hearing screenings.

PROGRAM SUMMARY:

The Medicaid Program is a federally operated program that provides reimbursement for services for children with disabilities. The program affects children who are being serviced for hearing or vision screenings, speech, physical or occupational therapy evaluations and services and have met all requirements to be eligible for the Medicaid Program.

Upon receiving parental consent, the Medicaid staff submits records, including the Medicaid assignment number, completed IEP, reports, history and evaluations for each eligible student. After all information has been received the information is then presented to the child's physician for a physician's referral and prescription. The Medicaid staff must provide certification information on each therapist serving the students that are Medicaid eligible. After all files are completed, the billing is electronically submitted to EDS for payment by the Arkansas Medicaid Program.

MAJOR HIGHLIGHTS OF THE YEAR:

Medicaid staff updated our Medicaid Billing Program to increase ease of reimbursements. Medicaid reimbursements to the Early Childhood Special Education program for the 2015-2016 school year have increased.

PROGRAM: ARKANSAS INDUCTIVE MENTORING MODEL TRAINING (AIMM)

FUNDING SOURCE: ADE Grant

COMPETITIVE GRANT: Yes___ No_x_

RESTRICTED ☒ **NON-RESTRICTED** ☐

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fordyce, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, South Pike County

PERSONNEL:

Tammy Boyette, Project Director/Dawson Co-op

Regional Trainers

PROGRAM SUMMARY:

Dawson ESC held trainings for Pathwise Project Director Updates during the summer and fall of 2013.

AIMM trainers attended their initial training in March of 2014 and were recalibrated in May 2015. New mentor training provided understanding of the elements of the AIMM Mentor process and how to utilize the ATLAS online system for gathering and reporting information to the state. The mentors/mentees utilized the AIMM learning modules via Moodle. The AIMM Program at Dawson Cooperative continued to support participating districts in creating and sustaining a successful mentoring program for new teachers in the profession.

GOALS:

Become familiar with the Framework for Teaching (FfT) and the relationship between AIMM and TESS (Teacher Effectiveness Support System)

Use the AIMM Orientation Guide

Know and be able to implement mentor responsibilities

Navigate a mentoring module in Moodle

Identify effective coaching techniques for use in the mentoring process

PROGRAM: SCHOOL-BASED HEALTH

FUNDING SOURCE: Arkansas Department of Health, Master Tobacco Settlement

COMPETITIVE GRANT: Yes ☐ No ☒

RESTRICTED ☐ **NON-RESTRICTED** ☒

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Tommie Rogers, Community Health Nurse Specialist, R.N., B.S.N.

GOAL:

The goal of the Community Health Nurse Specialist (CHNS) is to improve the health of youth in Arkansas. Activities include advocating for implementation of tobacco prevention education, acting as a resource for the 22 school districts served by Dawson Co-op and linking school health and Hometown Health coalitions. The CHNS promotes and provided education to reduce the health consequences of tobacco, and educates youth about the health risks associated with tobacco use. The CHNS promotes programs to encourage persons who already use tobacco to stop by incorporating the Center of Disease Control's Nine Best Practices for a Comprehensive Tobacco Control Program. The CHNS also promotes and provides education on Injury Prevention. The CHNS offers technical assistance to the school's in their wellness endeavors such as promoting healthy eating and healthy moving, implementation of Coordinated School Health, and in the development of the Act 1220 mandated school Wellness Committees.

PROGRAM SUMMARY:

The Community Health Nurse Specialist (CHNS) is an employee of the Arkansas Department of Health (ADH), but housed in the education cooperative. The CHNS works with schools, community coalitions, health care providers, and the County Health Unit Administrators to improve the health of the community. The Division of Health provides supervision for Hometown Health and tobacco prevention/cessation related activities in the schools and communities. The CHNS abides by ADH policies and procedures. The education cooperative provides routine administrative supervision. and promotes school-based enforcement of state law prohibiting tobacco use on campus and promotes cessation activities as an alternative to suspension.

MAJOR HIGHLIGHTS OF THE YEAR:

The major highlights of the year included providing Vision/Hearing/Scoliosis/ BMI and other health related trainings to assist the school nurses in their specific job duties, collaborating with the schools and ADH to offer flu shots on the school campuses, providing technical assistance to all Dawson school nurses on a daily basis as needed, and participating in the Hometown Health Coalitions.

PROGRAM:

CONSULTANT FOR SCHOOL-BASED SPEECH-LANGUAGE
PATHOLOGY SERVICES

FUNDING SOURCE:

Arkansas Department of Education, Special Education Unit and
Arkansas Special Education Resource Consultants

COMPETITIVE GRANT: Yes___ No X

PARTICIPATING DISTRICTS:

All Arkansas school districts and early childhood programs

PERSONNEL:

Shelly Wier, M.S., CCC-SLP, State Consultant

Trevor Trietsch, B.A., Administrative Assistant

GOAL:

The State Consultant functions in many ways to support and improve the provision of speech and language services in Arkansas' schools. Previously housed within the Easter Seals Outreach Program (1998-2010), this program is now located within the Arkansas Special Education Resource Consultants and works in association with the Arkansas Department of Education, Special Education Unit.

PROGRAM SUMMARY:

Responsibilities and services provided by the state Speech-Language Pathology (SLP) consultant include 1) consultation and technical assistance to individuals (SLPs, parents, teachers, related service personnel), ADE program advisory staff, and districts on a variety of communication, regulatory and service delivery issues; 2) provision of continuing professional education information in the form of training, self-study materials, and announcements from other sources; 3) maintenance of a statewide communication system via website and email that provides professional news and information; 4) maintenance of a resource and materials loan program which includes professional texts, and assessment tools; 5) representation of school-based speech-language pathologists' interests within the ADE-SEU, and other relevant agencies; and 6) self-study of professional resources and attendance of local and national conferences and seminars to develop and maintain knowledge of regulatory guidelines, professional issues, and best practices in speech-language pathology.

MAJOR HIGHLIGHTS OF THE YEAR:

The SLP consultant, as part of State Systemic Improvement Plan (SSIP) activities, analyzed services this year in terms of the general, targeted, and intensive technical assistance provided, which revealed a need to expand intensive service opportunities for districts. As a result, the SLP consultant began research and development of a multi-year technical assistance project that will facilitate districts' selection and installation of telepractice as an additional speech-language service delivery option to address the shortage of qualified therapy providers in Arkansas. Guidance and structure for this project has been based on the implementation science research which was the focus of the AR Collaborative Consultants' community of practice for the past two years. The group's current community of practice topic is adult learning principles; information from which has been and will continue to be used to renovate and improve the consultant's approach to professional development design and delivery.

The SLP consultant has also begun to establish an advisory group, comprised of school-based SLPs from around the state, 1) to act as a link between local school-based SLPs and the SLP Consultant, 2) to provide input and guidance on local and state issues relevant to school-based SLP services, 3) to help form and facilitate work or focus groups as needed to analyze, develop, and/or troubleshoot specific services, materials or processes, 4) to serve as a sounding board for the SLP Consultant and offer a forum for SLPs and other stakeholders, such as administrators, supervisors, educators and related service/support personnel, to communicate opinions, share expertise, or coordinate services, and 5) to provide strategic information and contribute advice to assist the SLP Consultant with relevant concerns and areas of activity.

The SLP consultant also presented 15 workshops around the state on Syntactic Forms and Functions for SLPs with over 340 participants. Additional workshops, in-services, and consultations were provided by request on the topics of grammar, standards-based IEPs, SLI rules, regulations and processes, Medicaid eligibility, preventative/tiered service delivery options (RTI), assessment methods, and evaluation resources. Research and review of professional resources regarding dynamic assessment, scaffolding, progress monitoring, response to intervention, and collaborative phonological awareness instruction has been ongoing in preparation for professional development trainings to be provided during the remainder of this fiscal year and the next, with over 15 workshops scheduled by the end of August 2016.

Consultation via phone and email remained demanding with hundreds of requests for advice, technical assistance, and/or referral. The loan library of tests, texts, and equipment has been purged of outdated materials and a list of revised items for future purchase or donation request has been generated. In addition to continued involvement in the Medicaid Therapy Advisory Council (TAC), the State Education Agencies Communication Disabilities Council (SEACDC), the Arkansas Collaborative Consultants (ACC) group, and the Collaborative Partners Consortium (CAYSI: Children And Youth with Sensory Impairment and other disabilities), the SLP consultant has also been assigned to ADE's Early Childhood team (ECO DaSy 619 Powerful Data Cohort) to develop and integrate early childhood outcomes data for the purposes of identifying needs and improving special education services for the 3-5 population. Continuing education this year was primarily obtained online and focused on the topics of speech-language telepractice and service delivery, dynamic assessment, language sampling techniques and electronic analysis, the SLP's role in response to intervention, and collaborative partnerships for facilitating language and academic learning.

PROGRAM: SCIENCE

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes___ NoX

RESTRICTED X NON-RESTRICTED__

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fordyce, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Annette Brown, K-12 Science Specialist, B.S.E., M.S.E.
Co-team leader New Arkansas Science Standards Elementary Professional Development
Literacy Design Collaborative Trainer
Literacy Design Collaborative Core Team Member
SREB Problem Based Learning Lesson Author

GOAL:

The goal of the science department is to promote and support effective science practices for all students by providing in-service training and technical assistance to teachers, administrators, instructional assistants, science tutors, and parents in the area of standards-based science curricula, instruction, and assessment and to promote awareness of the Science Benchmark test to be given in 5th, 7th and the EOC for Biology.

PROGRAM SUMMARY:

Dawson Education Cooperative, in partnership with the Arkansas Department of Education, will work with the Arkansas Public School personnel in the following areas:

- Increase awareness of A Framework for K-12 Science Education and the new Arkansas Science Standards,
- Alignment of science curriculum with state and national frameworks and science classroom assessment with statewide science exams,
- Promote science instructional strategies that use inquiry and laboratory techniques,
- Provide professional development and implementation of science training, mentoring/coaching elementary and high school science teachers, and choosing standards-based science instructional material.
- Provide science and CTE teachers training and support in the writing and implementation of the Literacy Design Collaborative modules.
- Utilize technology to communicate and support schools and science teachers.

The Science specialist will also work with district teachers in integrating technology into science instruction, organizing and managing the operation of science laboratory equipment, creating a science laboratory environment including addressing the safety issues and working with ADE and ADHE and other specialists from across the state.

MAJOR HIGHLIGHTS OF THE YEAR:

Picture Perfect workshops were conducted throughout the 2014-2015 year. Technical assistance was provided to teachers working with Vernier science probes in their classrooms and training was provided to curriculum supervisors in the integration of science SLE's into math, reading, and writing classes. Teachers were provided with a list of the equipment they could check out for use in their classrooms from the science department. The Dawson Microscope Traveling Lab

continued to provide microscopes, cameras and a laptop to the teachers who have been trained in their use. The 21st Century Challenge competition (in conjunction with HSU) and the K-6 Science Fair were held for all the districts in the co-op area in May 2014. The 2015 K-6 Science Fair is scheduled to be held on May 18, 2015 at Henderson State University. The 21st Century Competition is planned for April 24, 2015 at Magnet Cove High School. Professional Developments which integrated CCSS and science were held over the summer of 2014. More integration workshops are planned for the summer of 2015. There will be professional development opportunities for teachers to help them integrate the three components of the New Arkansas Science Standards to help prepare them for implantation in 2016. There will be two different professional development opportunities for elementary and high school teachers this summer. Many more opportunities for teachers to become more familiar with New Arkansas Science Standards will be offered during the school year 2015-2016. The Science specialist will be working in schools with the science teachers helping them use the strategies from NGSS.

PROGRAM: SPECIAL EDUCATION/BRAIN INJURY

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes___ No X_

PARTICIPATING DISTRICTS:

Any district in the state may participate, if a student ages three to twenty-one resides or receives educational services in that district. This includes charter schools.

PERSONNEL:

Aleecia A. Starkey, M.S.P., CCC-SLP, CBIS
Trevor Trietsch, Administrative Assistant

GOAL:

The mission of the consultant for students with brain injury is to provide technical assistance and training to aid in ensuring students with acquired brain injuries receive a free appropriate public education (FAPE) in the least restrictive setting as required by IDEA. Furthermore the mission is to help school districts with Child Find activities in identifying students with acquired brain injury. This consultant works for the Arkansas Special Education Resource Consultants (AR-SERC) and in association with the Arkansas Department of Education, Special Education Unit.

PROGRAM SUMMARY:

The responsibilities of the consultant for students with brain injury involve providing presentations on best practices in the areas of identification, assessment and programming for students who have an acquired brain injury. This includes, but is not limited to students with post-concussion syndrome, mild to moderate brain injury, severe brain injury or who have another injury to the brain due to disease, infection or surgical procedure. These presentations may be in standalone workshops or seminars or as part of state level conferences. To determine how the most effective teaching strategies after a brain injury the consultant may also provide information or presentations on normal brain development and what areas of learning are compromised after an injury.

Many Arkansas students who acquire a brain injury did not have a primary handicap nor need special education prior to their injury, therefore one of the duties of the consultant is to provide information to the student, parent and/or school district about what special education or Act 504 services a student may need when returning to school after a brain injury.

Consultations by school/home visits, telephone and/or emails are provided at the request of the school district, and/or the parents of the student. Contact with school or parent may also be made at the request of a physician treating the student for the acquired brain injury. The number of school visits varies depending on the needs of the student and the amount of training needed by the school district.

The brain injury program utilizing both the consultant and the administrative assistant track the number of students referred to the consultant for students with brain injury, their school status, grade and type of injury. Information about the students is kept for several years, as the needs of students with injuries change as they move through the grades and cognitive demands increase.

One of the biggest areas of need is for the brain injury program to provide training to multiple disciplines about the needs of students with brain injury and to liaison between medical facilities

and the school districts where the students receive their education. The medical facilities may be local doctors and hospitals or specialty hospitals and/or clinics.

MAJOR HIGHLIGHTS OF THE YEAR:

Summer Workshop Schedule June – August 2015

Date	Workshop Title	Co-op	# Regist.	# Present	APR #
8/5	ABCs of Special Education	AFESC	35	32	3
7/28	Executive Function Dysfunction	WDMESC	42	39	3

CIRCUIT Status for July 2015 through May 2016

Pending: 8 students

Open: 42 students

Closed: 13 students

Provided support through phone calls, on-site consultations and attendance at due process annual review conferences, separate programming review conferences and evaluation conferences. Materials have been provided to schools and parent when requested.

Have provided input to Arkansas Children's Hospital through meetings with UAMS and ACH staff. Serve on the Arkansas Trauma Rehabilitation Counsel in connection with the Arkansas Department of Health and the Spinal Cord Commission.

PROGRAM: TEACHER CENTER

FUNDING SOURCE: Base Funds

COMPETITIVE GRANT: Yes___ No X

RESTRICTED X **NON-RESTRICTED**___

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter-Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lakeside, Lake Hamilton, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, and South Pike County.

PERSONNEL:

Beth Neel, Assistant Director/Teacher Center Coordinator, M.S.E.
Sue Newton, Teacher Center Assistant

GOAL:

The goal of the Dawson Teacher Center is to provide equipment resources to our member schools and universities.

PROGRAM SUMMARY:

Dawson's Teacher Center is located on Henderson State University campus in the Teacher Education building. The center is staffed by HSU and Dawson employees and is open from 8:00 a.m. until 5:00 p.m. Monday through Friday.

Dawson Education Cooperative and Henderson State University share in the purchase of equipment in order to provide patrons with a variety of options. Resources include computers, software, printers, cutout dies and cutters, a heat press, bookbinders, laminators, copy systems, paper cutters, an opaque projector, video and audio cassette recorders and a cassette editor, label makers, and a poster maker machine.

Dawson Education Cooperative also operates a Teacher Curriculum Center on-site. It is equipped with a large inventory—the above mentioned items in the Dawson/HSU Teacher Center are also available at Dawson Co-op. There are many additional items for curriculum and assessment support available to teachers/school districts and the math and science departments house materials specific to those content areas.

Dawson Co-op has an on-line ordering system for all items in the Teacher Center. Teachers may order supplies and Ellison cuts electronically and have them delivered via the Dawson media van. Because the cooperative is moving to a more digitalized system, the media van will operate on a district request basis in the future. Many video resources that required CD delivery in the past are now accessible via SnapStream and Dawson Cooperative has purchased an additional server to accommodate this growing demand for electronic video sharing.

Teacher Center Media Services Summary Usage:

HSU	8,593

PROGRAM: TECHNOLOGY/MEDIA

FUNDING SOURCE: Member School Districts, ADE Grant

COMPETITIVE GRANT: Yes X No ____

RESTRICTED __X__ **NON-RESTRICTED** ____

PARTICIPATING DISTRICTS:

Arkadelphia, Bauxite, Benton, Bismarck, Bryant, Centerpoint, Cutter-Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen and South Pike County.

PERSONNEL:

Tonia McMillan, Coordinator, B.S.E., M.S.E.
Michael Arnold, Network Administrator, B.B.A.
Chris Martinez, Technology Technician
Vince Herron, Technology Technician
Alex Reed, Technology Technician
Timothy Jackson, Technology Technician
Mike McCauley, Technology Assistant

GOAL:

The Instructional Technology Department goal is to provide all member school districts timely, efficient, and effective resources to help promote increased student achievement through the use of technology/media services. It is our mission to empower our learning community to communicate, innovate, integrate and collaborate by using existing and emergent technologies coupled with tried and true teaching. In addition, Dawson Educational Cooperative's Technology staff provides technical support, consultation, infrastructure management, desktop support, technology planning, funding procurement, E-rate application assistance, network security and professional development for area schools in our cooperative area. Monthly workshops/meetings for district technology coordinators are held so they may stay abreast of the latest advances in technology. In addition, there are 3 trainings held for school district instructional technology coaches to assist them in learning integration technology strategies. Professional Development courses for classroom technology integration are offered for teachers in the summer and throughout the school year. The Technology Dept. also works with Arkansas Department of Education (ADE) and the state's Department of Information Services (DIS) to make sure our schools are participating in any and all programs that can provide technological benefits to the districts, the teachers, and their students.

PROGRAM SUMMARY:

The coordinator provided the school districts with information and training concerning technology. This information was coordinated with the Arkansas Department of Education (ADE) and Arkansas Department of Information Systems (DIS). Information was also distributed from federal agencies and organizations such as Schools and Libraries Division (SLD) of the Universal Service Administrative Company that deal with E-rate for public schools. Other topics included network security issues as well as policies concerning legal use of the school network. Technology workshops were held on a variety of technology related topics. Technology in-service workshops were focused on classroom integration of technology to

improve student achievement that was consistent with the Arkansas Content Standards and ISTE Standards. An online automation program was used by schools to order technology/media equipment from the technology/media dept. The coordinator provided the school districts with information and training concerning media and current issues relating to media in education through a network consisting of media specialists from member school districts. This information was coordinated with the Arkansas Department of Education and Arkansas Library Associations. Dawson Education Cooperative continued to work with the Arkansas Department of Education and the Arkansas Education Cooperative Technology Coordinators. Meetings were held every two months and information was provided to Dawson school districts. Arkansas Department of Education video conference initiatives continued to be supported with duplication of tapes and other materials when requested by the schools. Videotapes and DVD's were purchased that supported ADE initiatives. The media center provided download services on CD/DVD for teachers upon request. In addition, Arkansas Dept. of Education CIV's are recorded and made available to member school districts through Dawson's website. School districts can also request Zoom webinar services.

MAJOR HIGHLIGHTS OF THE YEAR:

Administrators within the school districts were provided training on the use of technology equipment/software that would enable them to be more productive and efficient in their daily routines.

Instructional Technology Coaches (ICT) received 3 days of training to take back to their schools and disseminate. This training enabled schools to receive the most up to date training in instructional technology.

A major focus in the technology/media dept. was technology equipment and how it can be used effectively in the classroom. Teachers were able to check out equipment and be provided training on how it can be used effectively in the classroom. Equipment included, iPads, SMART tables, iPods, Senteo Response Systems, etc. In addition, a new group was established to fulfill the newest addition called Makerspaces and Computer Science. Makerspace participants received 3 days training on how to implement a Makerspace in their school. A Makerspace lab will be available through Dawson for schools to bring students that will enable them to work on innovative projects.

Dawson also received a Computer Science grant to train 62 teachers on the implementation of Computer Science in grades K-5. Training will continue into the 2016-2017 school year.

The DEC Technology Dept. worked closely with the school districts and made site visits to assist in ACT/Aspire support to prepare schools for online testing.

PROGRAM: COMMUNITY TOBACCO-FREE GRANT PROGRAM

FUNDING SOURCE: Arkansas Department of Health, Master Tobacco Settlement, Tobacco Prevention and Cessation Program

FUNDING: COMPETITIVE GRANT: Yes X No ___

RESTRICTED: Yes X

NON-RESTRICTED__

PARTICIPATING DISTRICTS:

Clark, Hot Spring, and Pike Counties At Large, that includes city and county governments/municipalities, businesses, industries, students, public and private schools, boys and girls clubs, 4-H clubs, etc. to reach the public.

PERSONNEL:

Pam Hutchins, Community Tobacco-Free Grant Coordinator

GOAL:

To assist businesses, nursing homes and rehabilitation units, multi-housing, city and local governments, and youth in adopting tobacco-free or smoke-free policies for parks, multi-housing, nursing homes, local businesses, and protecting youth through city Point of Sale ordinances. By doing this, it is necessary to educate others in the community that play key stakeholder roles. Through this process, relationships and partnerships will be formed to build a stronger tobacco-free community.

PROGRAM SUMMARY:

To plan, coordinate, partner, and implement Tobacco-free work plan activities through education, media communication, coalitions, groups, and the population at-large in Hot Spring, Pike, and Clark Counties, of Arkansas. This includes offering tobacco cessation services and resources through the Arkansas Quit-line, and tobacco prevention and education presentations to local business and industries, city and county governments and agencies/municipalities, and the communities at-large in all three counties.

MAJOR HIGHLIGHTS OF THE YEAR:

The Community Tobacco-Free Coordinator worked with city leaders, park directors, business owners, youth, and the population at large in all three counties outlined above to educate on the importance of adopting a tobacco-free policy or ordinance. Social norm with tobacco control begins at the policy and ordinance levels in all levels of the community. Tobacco control trickles down from policy that create a change in reduction of tobacco use, second-hand smoke prevention, and third-hand smoke residue.

Dawson Education Cooperative

DATE: June 2016

Special Projects...

PROJECT: TEACHER EXCELLENCE AND SUPPORT SYSTEM
TRAINING

COMPETITIVE GRANT: Yes - No - ☒ X

FUNDING SOURCE: ADE

PARTICIPATING DISTRICTS: Arkadelphia, Bauxite, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, South Pike County

PERSONNEL: Diann Gathright, regional trainer (ADE)
Beth Neel, Assistant Director (Dawson Co-op)

GOALS AND DESCRIPTION:

The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, software provided by ADE that provides new district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The cooperatives held the three hours Laws and Process training conducted by Beth Neel. The Arkansas Department of Education provided training for administrators at each cooperative on Summative Evaluation Process and Professional Growth Plans conducted by Diann Gathright. Arkansas Department of Education in conjunction with BloomBoard and cooperatives provided regional BloomBoard Universities. The purpose of the BloomBoard University was to showcase the insights and reports as well as the additional features available to schools. The cooperatives are currently scheduling additional on-site (by district request) sessions to extend the learning and support administrators and teachers as they continue to implement TESS as the teacher evaluation system in the 2015-16 school year. These sessions will be conducted by Beth Neel.

PROJECT: LEADERSHIP EXCELLENCE AND DEVELOPMENT
SYSTEM TRAINING

FUNDING SOURCE: ADE

COMPETITIVE GRANT Yes - No - X

RESTRICTED FUNING __X__ **NONRESTRICTED FUNDING** _____

PARTICIPATING DISTRICTS: Arkadelphia, Bauxite, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, South Pike County

PERSONNEL: Diann Gathright, regional trainer (ADE)

GOALS AND DESCRIPTION:

The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being piloted). Trainings for the LEADS program throughout the 2015-2016 school year included work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of Bloomboard for evaluation and artifacts, and other support, as needed in individual cooperatives.

PROJECT: ACT ASPIRE SUPPORT

COMPETITIVE GRANT: Yes - No - ☒ X

PERSONNEL: Tonia McMillan, Technology Coordinator
Beth Neel, Assistant Director

GOALS AND DESCRIPTION:

Dawson Cooperative technology coordinators and staff have provided support to district testing and technology personnel as preparations were made for the initial implementation of ACT Aspire in the spring of 2016. Support included onsite visits within districts to aid in preparing technology infrastructure, providing multiple training opportunities for ACT Aspire updates, and hosting ACT Aspire workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

The Dawson Cooperative also provided support to classroom teachers and instructional leaders to ensure Arkansas content standards were taught in a manner that would prepare students for the ACT Aspire. In addition to ADE presenters, cooperative content specialists provided face-to-face trainings on ACT Aspire resources and their use in strengthening the classroom teachers' understanding of assessment requirements for students. Trainings will continue during the summer of 2016 and the upcoming school year.

PROJECT: DYSLEXIA JOB-ALIKE GROUP

COMPETITIVE GRANT: Yes - No - ☒ X

PERSONNEL: Karen Taylor, Literacy Specialist

GOALS AND DESCRIPTION:

Dawson Education Service Cooperative has created a new job-alike group for the Dyslexia Interventionists in our area school districts. The goal of the group is to provide networking and efficient information sharing from the cooperative and the Arkansas Department of Education. The group will meet a minimum of three times per year—more if needed/requested.

PROJECT: ETHERSCOPE SUPPORT

COMPETITIVE GRANT: Yes - No - ☒ X

PERSONNEL: Tonia McMillan, Technology Coordinator
Michael Arnold, Network Administrator

GOALS AND DESCRIPTION:

The DEC Technology Dept. provides on-site assistance to member districts in network issues by providing Etherscopes to check technology infrastructure. Etherscopes can also be checked out by the district for on-going testing of bandwidth, fiber, etc.

PROJECT: TECHNOLOGY INFUSED EDUCATION (TIE)

COMPETITIVE GRANT: Yes - No - ☒ X

PERSONNEL: Tonia McMillan, Technology Coordinator

GOALS AND DESCRIPTION: The DEC Technology Coordinator, along with a team of 4 teachers, are members of TIE (Technology Infused Education) that provides professional development to school districts on instructional technology

PROGRAM: NOVICE TEACHER MENTORING PROGRAM

FUNDING SOURCE: ADE Grant

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED: X **NONRESTRICTED:** _____

PARTICIPATING DISTRICTS: Arkadelphia, Bauxite, Bismarck, Bryant, Centerpoint, Cutter Morning Star, Fountain Lake, Glen Rose, Gurdon, Harmony Grove, Hot Springs, Jessieville, Kirby, Lake Hamilton, Lakeside, Magnet Cove, Malvern, Mountain Pine, Ouachita, Poyen, South Pike County

PERSONNEL: Tammy Boyette, Projector Director/Dawson Co-op

PROGRAM SUMMARY:

ADE transitioned from Arkansas Induction Mentoring Model (AIMM) to the Novice Teacher Mentoring Program and all trainers were provided an up-date training.

The Novice Teacher Mentoring Program is designed to provide a novice teacher the support, assistance, and encouragement of a site-based, trained mentor in order for the novice teacher to learn the skills he or she needs to become an effective, knowledgeable teacher. District project directors were encouraged to share the mentor/novice teacher update video with previously trained mentors and novice teachers. The ADE provided electronic resources such as: the Mentor Notebook, Mentor/Novice Teacher Update Video and the Project Director Update Training Video in lieu of face to face trainings. New mentors were trained in the updated Novice Teacher Mentoring Program.

Dawson Cooperative provided 4 sessions in the Novice Teacher Mentor Program.

GOALS:

- Become familiar with the Framework for Teaching (FFT) and the relationship between Novice Teacher Mentoring Program and TESS (Teacher Effectiveness Support System)
- Use the Orientation Guide
- Know and be able to implement mentor responsibilities
- Navigate a mentoring module in Moodle
- Identify effective coaching techniques for use in the mentoring process

The cooperative provided districts ongoing support as needed.

TO: Arkansas' Educators

FROM: John Ponder, Director
DeQueen-Mena Education Service Cooperative

SUBJECT: Annual Evaluation Report 2015-2016

Dear Arkansas Educators:

In accordance with A.C.A.6-13-120, De Queen-Mena Education Service Cooperative has completed the 2015-2016 Annual Report to provide information concerning the various programs and services offered. Local district needs are constantly changing. As federal and state demands change, so must the cooperatives. We must be prepared to assist schools in meeting the many challenges they face.

This document represents a wide range of services and activities such as professional development, early childhood education, technology, career technical education, federal and state grant administration, etc. The intent of this report is to better inform the public on how DMEC is partnering with our local school districts to improve the educational process and meet the many demands of educators.

By reading this report, one will gain a better understanding of the many programs serving our schools. The development of partnerships between DMEC, local school districts and the Department of Education are a must if advances in education continue in Arkansas.

DeQueen-Mena Education Service Cooperative

MISSION STATEMENT

The mission of the DeQueen-Mena Education Service Cooperative is to assist the member schools in more effective and more equitable use of their shared resources and to provide shared services for the better education of their children and youth.

EDUCATION SERVICE COOPERATIVE (ESC) ANNUAL REPORT

DATE: June 1, 2016 **LEA#** 67-20 **ESC#** 9
ESC NAME: DeQueen-Mena Education Service Cooperative
ADDRESS: PO Box 110, 305 South Hornberg Avenue, Gillham, AR 71841
PHONE NUMBER: 870-386-2251

DIRECTOR: John Ponder
TEACHER CENTER COORDINATOR: Deb Young

NUMBER OF COUNTIES SERVED: 5
NUMBER OF DISTRICTS SERVED: 12
NUMBER OF STUDENTS SERVED: 12,721
NUMBER OF TEACHERS SERVED: 1,238

GOVERNANCE

- A. How is the Co-op governed?
Board of Directors X or Executive Committee
How many members on the Board? 12
How many times did the Board meet? 12
When is the regular meeting? Third Thursday of each month
Date of current year's annual meeting: June 7, 2016
- B. Does the Co-op have a Teacher Center Committee? Yes X No
If yes, then:
How many are on the Teacher Center Committee? 17
How many members are teachers? 10
How many times did the Teacher Center Committee meet? 3
When is the regular meeting? As scheduled (three times per year)
- C. When was the most recent survey/needs assessment conducted? Nov. 2015
- D. Have written policies been filed with the Arkansas Department of Education? Yes

STAFFING

Please list (or attach a list of) all staff members of the co-op (including those housed at the co-op and paid through other sources), their titles and the salary funding sources for the positions. Place an asterisk (*) beside those who are housed at the co-op only and whose salary does not flow through the co-op's budget.

- ☒ Music and Art
- ☒ Nursing services
- ☒ Occupational therapy and physical therapy
- ☒ Quiz Bowl
- ☒ Reading Fair
- ☒ Speech therapist
- ☐ Other (Please specify):

ANECDOTAL REPORTS

Leader Excellence and Development System (LEADS)

The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being piloted). Trainings for the LEADS program throughout the 2015-2016 school year included: work with the Danielson rubric; summative evaluations of principals, assistant principals and other administrators; use of Bloomboard for evaluation and artifacts; and other support as needed.

Destination Science Challenge

The Destination Science Challenge 2016 provided teachers, students - grades 4-12, and the community an opportunity to experience the importance of Science, Technology, Engineering, & Mathematics (STEM) education in their everyday lives. Destination Science challenges students to use creativity and imagination along with science, technology, mathematics, and mechanical ability to build or modify an apparatus that performs a practical function. Eight different apparatuses and four multimedia projects are designed, constructed, and competed for best performance. Competitions of this nature are deeply intertwined in the real world and in how students learn most effectively. Thirteen DeQueen-Mena consortium schools participated in the 2016 event including approximately 300 students, 30 teachers and administrators, and 50 support staff.

Literacy Design Collaborative (LDC)

During the 2015-2016 school year, the DeQueen-Mena Education Service Cooperative specialists assisted 15 teachers, four principals, two instructional facilitators, and one director of instruction with the implementation of the Literacy Design Collaborative in four consortium school districts. This assistance included six days of professional development training and six in-house visits including five scheduled classroom observations and post conferences. The LDC training provided schools an instructional design system for developing students' literacy skills in preparation for the demands of college and career. Teachers developed modules or units built from template tasks to create high-quality student assignments that develop reading, writing, and critical thinking skills in multiple disciplines. CoreTools is the digital platform teachers then used to create, store, and access their own modules, and also to access exemplar modules and mini-tasks of other educators for use with their own curriculum. Teachers having completed earlier cohort trainings in LDC serve as resources for new participants in their buildings and serve as part of the sustainability plan for their schools. The Arkansas Literacy Design Collaborative Summer Conference, for trained LDC educators, is also a sustainability piece scheduled for June 2016.

Mathematics Design Collaborative (MDC)

During the 2015-2016 school year the DeQueen-Mena Math Specialists assisted nine teachers, three principals, and one curriculum director with the implementation of the Mathematics Design Collaborative in three consortium school districts. This assistance included six days of professional development training and six in-house visits including five scheduled classroom observations and post conferences. MDC focuses on building student understanding of mathematics concepts by working through problems, rather than memorizing formulas and plugging them into a page of workbook problems. Teachers having completed earlier cohort trainings in MDC serve as resources for new participants in their buildings and serve as part of the sustainability plan for their schools. The Arkansas Literacy and Mathematics Design Collaborative Summer Conference, for trained MDC educators, is also a sustainability piece scheduled for July 2016.

Reading Fair

The fifth annual Regional Reading Fair provided students with the opportunity to share a favorite fiction or non-fiction book through a project board display or a presentation involving technology. The competition is separated into two divisions, one for students in grades 4-6, and one for students in grades 7-9. Both levels of competition include an interview before judges in which students were asked questions about their book projects. Thirteen DMESC schools, represented by 175 students and their teachers, participated in a successful 2016 event.

Battle of the Books

Battle of the Books is a yearly team competition between school districts for students in grades 1-12. Students are provided a list of books from which to read to prepare for the competition. Questions are asked and students buzz in to answer. The objective is to be the first to buzz in with the correct answer. Points are awarded to determine the winner in each grade level. Nineteen DMESC schools participated with 437 students participating in the 2016 event. This competition encourages reading as students look forward to attending the event.

EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each Educational Service Cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year: **2**

Please provide the number in each of the following racial classifications:

- 2 - White
- 0 - African American
- 0 - Hispanic
- 0 - Asian
- 0 - American Indian/Alaskan Native

Number of new females employed by the cooperative for the 2015-2016 school year: **11**

Please provide the number in each of the following racial classifications:

- 9 - White
- 0 - African American
- 2 - Hispanic
- 0 - Asian
- 0 - American Indian/Alaskan Native

TERMINATED

Number of males terminated by the cooperative during the 2015-2016 school year: **1**

Please provide the number in each of the following racial classifications:

- 1 - White
- 0 - African American
- 0 - Hispanic
- 0 - Asian
- 0 - American Indian/Alaskan Native

Number of females terminated by the cooperative during the 2015-2016 school year: **8**

Please provide the number in each of the following racial classifications:

- 8 - White
- 0 - African American
- 0 - Hispanic
- 0 - Asian
- 0 - American Indian/Alaskan Native

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year: **5**

Please provide the number in each of the following racial classifications:

- 4 - White
- 0 - African American
- 1 - Hispanic
- 0 - Asian
- 0 - American Indian/Alaskan Native

Number of females seeking employment by the cooperative during the 2015-2016 school year: **46**

Please provide the number in each of the following racial classifications:

- 41 - White
- 3 - African American
- 1 - Hispanic
- 0 - Asian
- 1 - American Indian
- 0 - Alaskan Native

PROGRAM SUMMARIES

PROGRAM: ADH Tobacco Prevention and Cessation Program

FUNDING SOURCE: Tobacco Prevention and Cessation Program- Master Settlement Tobacco Funds

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING** ____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, De Queen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount. Ida, Nashville, Ouachita River, Cossatot River

PERSONNEL: Cheryl Byrd, RN, Community Health Nurse Specialist
Sheila Holcombe, Secretary

FUNDING STATEMENT:

The Arkansas Department of Education and Arkansas Department of Health partnered to support the role of the Community Health Nurse Specialist. ADH funds the Community Health Nurse Specialist's salary, travel and reimbursement for nurse's office space. DMEC provides the necessary office space, secretarial staff, office phone and internet, and printing/copying of educational materials, as well as classroom facilities for in-services. Various equipment, prevention material, instructional aids, and promotional items have also been funded.

PROGRAM GOALS:

The goal of the Community Health Nurse Specialist is to provide technical assistance to schools for tobacco prevention and cessation; health promotion and disease prevention; act as a resource for school wellness committees; provide technical assistance to school nurses for health screenings, immunizations, injury prevention, disease prevention, chronic disease management and other school health issues; serve as a resource to communities for child health and public health issues; and to reduce health disparities through awareness.

The CHNS informs schools and communities of school health resources, available trainings and grant opportunities; provides certification training to school nurses for mandated health screenings; identifies and evaluates training needs of school personnel; and develops, coordinates, facilitates and conducts trainings for school personnel, local health units and community members.

CHNS maintains regular contact with school personnel, Hometown Health Improvement staff and local health units, acting as a liaison linking community coalitions, schools, local health units, community resources and healthcare providers; promoting public health through media venues and supporting local public health emergency response efforts.

PROGRAM SUMMARY:

CHNS is a collaborative research based effort between the Arkansas Department of Education and the Arkansas Department of Health to effectively address students' health, thus improving their ability to learn. Based on the 8 CSH component model, School Health addresses the risk factors determined by the CDC that have the most detrimental effect on children and adolescents to include: inadequate physical activity; unhealthy dietary behaviors; sexual behaviors that may result in HIV infection, STD's and unintended pregnancies; alcohol and other drug use; tobacco use and emerging tobacco product use; and behaviors that result in unintentional injuries.

MAJOR HIGHLIGHTS OF THE YEAR:

The focus for 2015-16 is Intentional and Unintentional Injury Prevention, Tobacco Prevention and Cessation, Flu Prevention, Sexual Health Education, Management of Chronic Disease in the School Setting, Promotion of Physical Activity and Healthy Nutrition, and Enhancement of School Wellness Committees.

Highlights of 2015-16 include:

- 5823 Flu vaccines administered to students and school personnel on all DMEC school campuses
- 14 CPR certification trainings resulting in 133 CPR certified school personnel
- 4 School Nurses trained as AHA CPR/First Aid Instructors
- 5 Suicide Prevention trainings to provide required Professional Development for approx.. 57 school/coop personnel
- Cohosted the statewide New School Nurse Orientation by partnering with ADE/ADH to provide training for 100 AR school nurses
- Provided new SN orientation for 5 DMEC nurses new to school nursing
- Provided certification trainings for DMEC school nurses to provide mandated screenings in the school setting
- Provide ongoing support and updates to schools re: Immunizations, sexual health promotion in the school, school health laws, school nurse roles and responsibilities, etc.
- Provide quarterly school wellness trainings to provide available resources to schools related to school health and wellness
- Host an annual school nurse update for approximately 35 school nurses serving schools at DMEC
- Host an annual food service workshop to provide needed professional development for 32 food service professionals including food safety, nutrition, injury prevention, etc.
- Provided Paraprofessional Training for Students with Special Healthcare Needs to 42 paraprofessionals/Early Childhood Educators and 2 School RNs. Topics included Standard Precautions, HIPAA/FERPA, Delegations, ASBN Roles and Responsibilities r/t UAPs.

PROGRAM: Arkansas Better Chance Program (ABC) Home Instruction for Parents and Preschool Youngsters (HIPPY)

FUNDING AMOUNT: \$3,986,010.00

FUNDING SOURCE: Arkansas Department of Education, Administered by the
Arkansas Department of Health and Human Services
Division of Child Care and Early Childhood Education

COMPETITIVE GRANT: Yes X No

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:**

PARTICIPATING DISTRICTS: Ashdown, Cossatot River, DeQueen, Dierks, Foreman,
Mena, Horatio, Mineral Springs, Mount Ida, Nashville,
Ouachita River

PERSONNEL: Diana Hicks, ABC Program Coordinator (MSE)
Kim Kennemore, Assistant ABC Program Coordinator (MSE)
Jessica Jones, HIPPY Coordinator (MSE)
Cheryl Green, EC Behavior Specialist (MSE)
Mike Richardson, Computer Technician
Andrea Cooley, Secretary

GOALS:

- Provide quality ABC preschool programs on behalf of participating local school districts for identified at-risk, three-through five-year-old children
- Collaborate with local early childhood partners, including Head Start, private early childhood providers and Special Education in order to provide seamless services and information to families and the community and to serve children in the most appropriate environments
- Coordinate efforts with other early childhood and service providers to provide a comprehensive, quality, early childhood program in the Co-op region
- Provide developmentally appropriate and individualized program to meet the needs of each student enrolled
- Provide home-based early childhood education readiness program using the age and developmentally appropriate HIPPY curriculum to 81 children in Howard and Sevier Counties to help children develop essential prerequisite learning skills

PROGRAM SUMMARY:

The ABC center-based preschool program provides free quality preschool services to 855 three- and four-year-old children in the co-op region. All programs operate on the local school calendar for 178 student interaction days. ABC preschools meet the core quality components as outlined by the Division of Child Care and Early Childhood Education which includes qualified staff, low student to teacher ratio, developmental screening and child assessment, meaningful parent and community engagement activities, quality approved curriculum, and well trained staff.

The ABC center-based program (ABC) employs 46 lead teachers, 44 paraprofessionals, five directors, one administrative assistant, and one computer technician. The ABC program has 46 classrooms housed at 16 different sites on school campuses in Ashdown, Cossatot River (3), DeQueen (3), Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, and Ouachita River (2).

ASSESSMENT:

Assessment data on every child is required for individual planning and for analysis of the long-term effect on children as they progress through entry into kindergarten and completion of fourth grade. Each child is assessed using the Work Sampling System, the instrument specified by DCCECE.

The Work Sampling System (WSS) is designed to help teachers learn about a child's skills, behaviors, and academic achievements in school.

Work Sampling gives teachers the information they need to work effectively with their children, by building child's motivation and self-confidence and for reporting student progress to parents.

The Work Sampling System focuses on seven areas of the curriculum:

- Personal and Social Development
- Language and Literacy
- Mathematical Thinking
- Scientific Thinking
- Social Studies
- The Arts
- Physical Development and Health

The Work Sampling System is composed of three interrelated parts:

Developmental Guidelines and Checklist – List of age or grade-level expectations that are used for guiding teachers' observations about child's achievements in school.

Portfolios – Collections of child's work to show progress and demonstrate special interest and talents as well as areas in need of development.

Summary Reports – A profile of child's school performance based on the Checklist observations and Portfolio collection. It includes brief comments from the teacher about child's

progress, strengths, and areas of concern and is sent home three times per year. The Summary Reports replaces report cards.

WSS data for four year olds indicated significant gains across all seven areas of curriculum with all four year olds performing at or above 88% proficient. WSS data for three year olds indicated significant gains across all seven areas of curriculum with all three year olds performing at or above 69% proficient.

All 46 ABC classrooms have met the criteria for becoming an “approved” Early Childhood program under the Arkansas Child Care Approval System Rules and Regulations. All staff has received required training for their job title in the following areas:

- Arkansas Early Childhood Frameworks (30 hrs)
- Pre-K ELLA (Early Literacy Learning in Arkansas, 30 hrs)
- Math/Science for Young Children (30 hrs)
- Social/Emotional Benchmarks for Young Children (45 hrs)
- Preschool children with special needs (6 hrs)
- Two day Work Sampling initial training
- Work Sampling refresher online (assessment instrument chosen by state)
- Child Maltreatment
- Parent Involvement
- Director Orientation (24 hrs)
- Dyslexia
- Common Core for Early Educators (6 hrs)
- CPR/First Aid
- Early Childhood Environmental Rating Scale
- COPA (Child Outcome Planning & Administration)
- Curriculum Planning (6 hrs)
- Child Care Orientation for new staff
- Developmental, speech, vision and hearing screening and referral procedures
- Paraprofessional training modules from ADE

The Home Instruction for Parents of Preschool Youngsters (HIPPY) Program is a 30-week school readiness –parent involvement program for parents of three and four year-old children. The program is staffed by a professional coordinator, administrative assistant, and three well trained home-based educators. Eighty-one children and families currently receive services in Sevier and Howard counties.

MAJOR HIGHLIGHTS OF THE YEAR:

- Better Beginnings (BB), the state’s Quality Rating Improvement System, administered by the Department of Human Service’s Division of Child Care and Early Childhood Education has been fully implemented and all 16 sites have achieved Level 3 rating

- The Program Administration Scale (PAS) for multiple uses: program self-improvement, technical assistance and monitoring, training, research and evaluation, and public awareness has been fully implemented at all sites
- Community-wide activities focused on “Imaginative Play” were held in each county to celebrate Arkansas Childrens’ week in April
- One lead teacher completed her Masters in Early Childhood Special Education, another completed her Masters in Educational Leadership, one teacher is pursuing her Masters in Early Education Childhood and one paraprofessional completed her Bachelors in Early Education to become P-4 certified
- HIPPY Coordinator and three home-based educators attended the HIPPY National Conference held in Florida
- Eight staff attended the annual Arkansas Early Childhood Association (AECA) Conference in Hot Springs
- ABC and HIPPY program collaborated with local Head Starts, DDS programs, school districts, county health departments, county extension programs, other licensed centers, DHS, community colleges, school nurses, local physicians, local dentists and private day cares to coordinate and help children benefit from an array of services
- Fourteen ABC staff completed an intensive 6 days of conscious discipline, a comprehensive classroom management program and social-emotional curriculum
- Ten staff completed PCM (Professional Crisis Management) training
- Ten staff completed PCM (Professional Crisis Management) re-certification training
- ABC staff attended Curriculum Connections to facilitate connections from work sampling assessment to curriculum used in the classroom
- Significant gains overall in the number of children leaving our program performing at or above proficient level in all areas of curriculum.

PROGRAM: Career and Technical Education

FUNDING AMOUNT: \$171,957.00

FUNDING SOURCE: Arkansas Department of Career Education (\$50,000)
Perkins Federal Funding (\$121,957.00)

COMPETITIVE GRANT: Yes No X

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING:** ____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Stacey Southerland, CTE Coordinator (MS)
Sheila Holcombe, CTE Secretary

GOALS:

- To provide students with exploration, guidance, support, and content knowledge through a secondary career pathway
- To provide Career & Technical Education teachers with access to professional development, supplies, materials, and equipment to enhance student achievement and to fully implement career pathways
- To ensure that the DeQueen-Mena Perkins Consortium is meeting targets for all Perkins Performance Indicators

PROGRAM SUMMARY:

The Career & Technical Education (CTE) program at DMESC supports Career & Technical Education at cooperative schools by developing Perkins projects and administering Perkins funding for DMESC Consortium member schools via the CTE coordinator. Projects are developed to address the Performance Indicators outlined in the Perkins Act of 2006.

The CTE coordinator collects and reports end-of-course test data, completers, placement for the consortium, and compiles accountability reports for Perkins. Technical assistance is provided to teachers and administrators in areas of:

- New program development
- Start-up grants
- Career pathways
- Programs of study
- Course frameworks
- Policy and procedure guides
- Planning and delivery of professional development
- Technology training
- Purchasing of specialized equipment
- Teacher licensure
- Literacy Design Collaborative

- Mathematics Design Collaborative
- Arkansas Works
- Regional Advisory Council Meetings

When requested, assistance is given to non-consortium schools with the above mentioned duties.

MAJOR HIGHLIGHTS OF THE YEAR:

The CTE Department has supported Career & Technical Education among consortium and non-consortium schools by:

- Supporting Programs of Study for Career Pathways to increase CTE completers at the Secondary Technical Centers
- Placing new technology and/or equipment in the consortium schools and providing applications for usage and support
- Use of Zoom technology to streamline collaboration and meeting time
- Disaggregation of End-of-Course test data for new project development
- Maintaining high performance for Perkins indicators: Graduation Placement, Program completion, Non-traditional placement and completion
- Carried out lessons in Literacy Design Collaborative (LDC) fashion at consortium high schools
- Delivered LDC professional development to science, literacy, social studies, and CTE teachers
- Providing training and collaboration with post-secondary institutions for Regional Advisory
- Organizing and facilitating two Regional Advisory Council Meetings to meet ACE requirements

PROGRAM: Commercial Driver License Third Party Testing

FUNDING AMOUNT: \$0

FUNDING SOURCE: Local Funding

COMPETITIVE GRANT: Yes ____ No **X**

RESTRICTED FUNDING: **X** **NON-RESTRICTED FUNDING:** ____

PARTICIPATING DISTRICTS: DMEC School Districts

PERSONNEL: James Davis, Bus Garage Manager, Mena Public Schools

GOAL: To reduce costs and travel of school districts when licensing bus drivers.

PROGRAM SUMMARY:

A need was identified by local school districts to provide a site and evaluator to conduct Commercial Driver License tests for public school bus drivers as required by law. A current Mena School District Employee received training and is now certified to perform as a Third Party Tester. After completing an application with the Arkansas State Police, DeQueen-Mena Education Service Cooperative now offers to its school districts a central location to conduct the driving portion of the CDL licensure at a reduced cost and travel time.

PROGRAM: Digital Learning – Virtual Arkansas, Team Digital, Arkansas MOODLE

FUNDING SOURCE: ADE Grant – Act

COMPETITIVE GRANT: Yes _____ No X

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS:

PERSONNEL: Cathi Swan, Superintendent – State Coordinator of Digital Learning, BSE, MSE
Mike Lar, Virtual Arkansas Director of Operations, BS, MBA, ED.D, ABD
Junior Stormes, Director of Technology, BS
John Ashworth, Virtual Arkansas Director of Academics, BSE, MSE
Lisa Russell, Team Digital Member, BSE
Gerard Newsom, Team Digital Member, BA
Rachel Scott, Team Digital Member, BS, MS

GOAL:

The mission of the digital learning program is to provide equitable, efficient, and effective learning opportunities for students and educators. These opportunities are offered utilizing digital solutions to extend learning where local access may not exist. The Arkansas Education Service Cooperatives support and provide resources to assist Virtual Arkansas and Team Digital.

PROGRAM SUMMARY:

Virtual Arkansas is an Arkansas-based program that is implemented through a partnership between the Arkansas Department of Education and the Arkansas Education Service Cooperatives. We provide an array of quality digital courses to public school students in Arkansas and utilize Arkansas licensed instructors. Virtual Arkansas serves approximately 200 districts and over 30,000 student enrollments. We are not an online high school or a diploma-granting institution but are a resource for supplementing education for public school students. Students who are enrolled in a public school may be enrolled in Virtual Arkansas courses by the local school administration.

Virtual Arkansas is committed to developing the full potential of Arkansas students by providing access to quality online courses that incorporate interactive instruction to prepare students to be successful in their college and career educational pursuits and in the global economy. School districts “Power Up with Virtual Arkansas” for a variety of reasons. A district may face a teacher shortage, want to provide additional course scheduling opportunities to their students, offer their students access to a digitally enriched curriculum, or broaden their course offerings beyond those mandated by the Standards for Accreditation of Arkansas Public Schools. Finally, districts that partner with Virtual Arkansas will be satisfying the requirements of Act 1280, the Digital Learning Act of 2013. www.virtualarkansas.org

TEAM DIGITAL:

Team Digital works within a state team to support the planning, implementation, and evaluation of digital learning environments in Arkansas. Team Digital has expertise in emerging online teaching and learning practices that allow for active learning; effective content authoring and lesson design methods that best serve digital education; and strategies in helping educators transform system-centered practices into student-centered practices. Team Digital interacts with media production workgroups, learning management system consultants, technology solution experts, pedagogical experts, curriculum design experts, and educators around the globe. Team Digital also provides operational support to state projects, Arkansas Cooperatives, and public schools in the growing interest in blended and online learning. www.teamdigital.org

Arkansas Connect2Digital:

Arkansas Connect2Digital is a digital platform where Arkansas educational agencies house digital resources and implement blended professional development. It supports 20,000 users and is managed by the Arkansas Education Service Cooperatives.

MAJOR HIGHLIGHTS OF THE YEAR:

- Held first ever workshop in the state for Teachers and Administrators on Blended Learning and Remix strategies.
- Implemented a technical assistant/will-call application to help participating schools solve issues within 24 hours.
- Presented at TICAL on the Future of Blended Learning.
- Held statewide school consultations on the planning and implementation of Blended Learning.
- Trained over a 100 High School counselor's around the state on Virtual Arkansas' registration process
- Attended the 2015 INACOL conference on Blended Online Learning
- Completed an Educational Cooperative Promotional Video
- Successfully implemented team visits to Virtual Arkansas' participating schools
- Named resource affiliate for ADE on school waiver process
- Completed a Virtual Arkansas Marketing/Promotional video for the Essentials of Computer Science and Computer Programming
- Presented at the 3rd Annual Data Conference

PROGRAM: Distance Learning

FUNDING AMOUNT: \$ 0

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUDNING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Adam West, Distance Learning Coordinator

GOALS:

- Assist member school districts in using video conferencing and online web-based distance education systems
- Provide technical support in troubleshooting hardware, software, and network problems

PROGRAM SUMMARY:

DMEC supports twenty H.323 and Session Initiation Protocol (SIP) conferencing systems in various schools. These systems enhance students learning and educators' professional development. The co-op coordinates and helps resolve issues with the state's distance learning providers for distance learning (DL) classes. Teachers and DL room facilitators are trained in using basic computer technology and management of systems.

General professional development for classroom technology integration is provided as well as network troubleshooting, engineering, design and architecture, and implementation. DMEC has renewed the Zoom license for each of its member districts face-to-face discussion without the travel.

MAJOR HIGHLIGHTS OF THE YEAR:

- Upgraded the Cooperative's devices including hardware and software
- Upgraded network and wireless system to support Software Define Networking (SDN) and Open Source Standards for security, video, IPTV, networking, and distance video learning
- Hosted a technology conference introducing current and new technologies to multiple schools and colleges in the state
- Created standardization of implementation of on premise technologies

PROGRAM: Early Childhood - Behavior

FUNDING AMOUNT: \$0

FUNDING SOURCE: Arkansas Department of Education, Special Education

COMPETITIVE GRANT: Yes: No: X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Cheryl Green, MSE, Special Education

GOALS:

- Provide quality behavior management/intervention services to all children ages three through five in each school district in the co-op region
- Assist and/or create behavior modification plans/techniques designed for each child
- Offer parental training to parents with a child that shows behavior related issues
- Provide quality professional development training to administrators, teachers, and other personnel in the co-op region
- Decrease the number of students requiring behavior intervention services upon entry to public school

PROGRAM SUMMARY:

The Behavior Specialist's services are available to all children ages three through five in the DMESC Co-op. Services have been provided to 80 children in the 12 school districts served by the co-op for the school year 2015-2016. Services were provided to the following programs: Arkansas Better Chance (ABC), CDI Head-Start, Home Instruction for Parents with Preschool Youngsters (HIPPY), Private Preschools under the direction of School Districts, Early Childhood, and private day care centers.

SCHOOL DISTRICTS AND BEHAVIOR REFERRALS

County	School District	# Behavior Referrals
Howard	Dierks	4
	Mineral Springs	8
	Nashville	12
Little River	Ashdown	7
	Foreman	5
Montgomery	Mount Ida	4
	Caddo Hills	2
Polk	Ouachita River	4
	Mena	9
	Cossatot River	3
Sevier	DeQueen	15
	Horatio	2
TOTAL		80

MAJOR HIGHLIGHTS OF THE YEAR:

- Assist in the development and implementation of behavior plans, behavior modification techniques, and classroom management techniques
- Perform additional testing (Autism Spectrum Disorder Screeners, Asperger's Disorder Screeners, Attention Deficit/Hyperactivity Disorder Screeners, and other Behavioral Screeners)
- Assist in the development of educational programs tailored specifically for a particular child's needs (such as: Applied Behavior Analysis programs, discrete trial, TEACCH programs, STAR programs, and On-Track programs)
- Provide a resource library for teachers/parents to utilize
- Offer summer in-service training: (Special Education Screenings and Referral, Behavior Referral 101, Parent Meeting Ideas)
- Provide parent training (individually or group)
- Received training on using new Autism evaluations (Autism Diagnostic Observation System)
- Used new Rethink Autism Training for materials and Functional Behavior Analysis and Behavior Plans
- Assisted Special Education Teachers in using Rethink
- Became part of Little River Hometown Health Coalition
- Member of Ouachita Spectrum Outreach and Support Group
- Worked closely with Project Play (State Program through UAMS: Partnering with early childhood professionals to promote social-emotional health of Arkansas' children)
- Was guest speaker at HIPPY parent meeting and Head Start parent meeting

PROGRAM: Early Childhood - Special Education (ECSE)

FUNDING AMOUNT: \$852,331.00

FUNDING SOURCE: State, Federal and Local Early Childhood Special Ed

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Diana Hicks, Early Childhood Coordinator (MSE)
Kim Kennemore, Asst. Early Childhood Coordinator (MSE)
Cheryl Green, Early Childhood Behavior Consultant (MSE)

GOALS:

- Locate, evaluate, and identify three through five year olds that are suspected of having a disability on behalf of each school district in the co-op region
- Collaborate in planning with the LEAs and superintendents in their districts for implementing activities to ensure the identification of eligible children
- Provide services to eligible children in accordance with individual education plans developed for children with the least restrictive environment being the primary concern
- Decrease the number of students requiring special education services upon entry to public school

PROGRAM SUMMARY:

Early Childhood Special Education (ECSE) has received and processed 270 referrals with 150 of them resulting in ECSE placement for 2015-2016. This is a 10% increase over the previous year. Local ABC Programs served 76%, Head Start Programs served 9%, licensed child care facilities served 10%, and appointments at various locations accounted for 5%.

MAJOR HIGHLIGHTS OF THE YEAR:

- Conducted 1,026 preschool developmental, speech, hearing and vision screenings throughout the cooperative area
- Children served with IEP's mastered 75% of their goals and objectives for the school year
- Early Childhood Behavior specialist completed training on the Autism Diagnostic Observation Schedule-Second Edition (ADOS-2) that is used to evaluate almost anyone suspected of having ASD from one year olds with no speech, to adults who are verbally fluent
- Implemented Conscious Discipline in more classrooms, a comprehensive social and emotional intelligence classroom management program that empowers both teachers and students in multiple ABC classrooms
- Professional Crisis Management (PCM) training was provided to 10 preschool providers with hands on training and procedures to use in crisis situations and 10 staff were re-certified in PCM

PROGRAM: Foster Grandparent Program

FUNDING AMOUNT: \$383,962.00

FUNDING SOURCE: Corporation for National and Community Service

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Booneville, Charleston, Clarksville, Cossatot River, County Line, DeQueen, Dierks, Foreman, Fort Smith, Hackett, Hartford, Horatio, Howard County Children's Center, Lamar, Magazine, Mena, Mineral Springs, Murfreesboro, Nashville, Ouachita River, Ozark, Paris, Polk County Development Center, Scranton, Van Buren, Westside.

PERSONNEL: Terri Williams, Project Director
Nelda Scoggins, Volunteer Coordinator
Ann Frachiseur, Volunteer Coordinator
Tara Cartwright, Secretary

GOALS:

- Enable men and women 55 years and over to remain active and find ways to serve their community
- Enable children with special needs to improve academically, developmentally, and socially

PROGRAM SUMMARY:

The Foster Grandparent Program is a federally funded program whose purpose is to offer Senior Citizens, 55 years of age and over, the opportunity to serve as mentors and tutors for children with special needs. These senior volunteers provide 15 to 40 hours weekly service to community organizations such as schools and pre-schools.

MAJOR HIGHLIGHTS OF THE YEAR:

- Eighty-nine Foster Grandparents tutored and mentored 402 students from pre-school-grade 9
- Ninety percent of students (End of Year Assessments received as of April 30, 2015) assigned to a Foster Grandparent showed marked improvement in their areas of delay
- Forty-eight hours of annual in-service was provided to each Foster Grandparent enrolled in the program
- Thirty-five Foster Grandparents attended the annual Arkansas Foster Grandparent Program's conference at DeGray Lodge in June, 2015
- Seventy-one Foster Grandparents and three staff made 73 blankets and delivered them to cancer centers throughout Arkansas for Martin Luther King Day

- Thirty-two Foster Grandparents read to 1246 students during the 9-11 Project Read to acknowledge the public service heroes in our communities
- We had four mayors in our service area that participated in the National Day of Recognition for Volunteers on April 4, 2015. They decreed a proclamation for that day for their cities

PROGRAM: Gifted and Talented Education

FUNDING AMOUNT: \$54,000.00

FUNDING SOURCE: Arkansas Department of Education, Local Districts

COMPETITIVE GRANT: Yes: ____ No: X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** ____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Horatio, Foreman, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Dana Ray, Gifted Ed. Specialist
Sheila Holcombe, Secretary

GOALS:

The goals of the Gifted/Talented Program are to provide consultant services to support and promote the education of gifted students in our area schools through program awareness, staff development, student identification and programming, curriculum development, program evaluation, technical assistance, and academic enrichment. Serve as a liaison between ADE, Office of Gifted and Talented and Advanced Placement, district gifted/talented program coordinators, and parent and professional organizations. Provide technical assistance to meet the State Standards for Gifted and Talented Education and Advanced Placement. Promote gifted education through public awareness and advocacy.

PROGRAM SUMMARY:

The Gifted and Talented Program at the DeQueen-Mena Education Service Cooperative serves approximately 1000 identified gifted students and provides assistance to district GT Programs. Technical assistance included: guiding GT Coordinators in the writing of the program, and updating policies and procedures necessary for compliance. Hosted regular GT Advisory Council meetings to disseminate ADE updates, current trends and issues in gifted education, discuss practices and procedures for program compliance, share ideas and student activities events and dates, and keep abreast of the activities of the professional organizations for gifted and talented (Arkansans for Gifted and Talented Education and Arkansas Administrators of Gifted Education Association). Assisted member schools with various student activities such as Quiz Bowl, Destination Imagination, Student Project Fair, and Chess. Provided professional development opportunities, including: Pre-AP Strategies, Curriculum Differentiation, Extending Student Thinking, Student Diversity, Effective Questioning, Assessment for Identifying Gifted/Talented, and Whole Group Enrichment using the Common Core Standards.

PROGRAM: Literacy

FUNDING AMOUNT: \$86,500.00

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division, K-12 Literacy Unit

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, and Ouachita River

PERSONNEL: Kim Brown, MSE
Lisa Schuller, MLA
Renee' Weed, Secretary

GOALS:

- To develop, support, and promote effective scientifically research-based programs for all students through staff development training, technical assistance, and instructional support to educators.
- To assist schools in meeting state standards through the development of effective and explicit instructional strategies including use of summative and formative assessments.
- To design and assist in the implementation of district and building level staff development programs as well as to provide assistance in meeting district-developed literacy goals.
- To model lessons and provide support as requested by service area schools.

PROGRAM SUMMARY:

The literacy program is designed to anticipate and meet the continuing needs of service area schools through the delivery of staff development training that supports and promotes effective literacy practices for all students through a network of learning opportunities and technical assistance for district educators. Literacy specialists work with districts as requested to develop literacy programs that are designed to encourage maximum achievement for all students. Training and assistance are provided to districts in the implementation of the Common Core State Standards. Literacy specialists deliver scientifically research-based professional development programs that are designed to enhance current, innovative, and practical teaching strategies in the classroom.

Staff development opportunities are available to area schools throughout the year. Such trainings and activities include but are not limited to:

- Adolescent and Content Literacy
- Battle of the Book and Reading Fair
- Curriculum Mapping and Alignment

- Dyslexia Support
- ACSIP Literacy Support
- School Accountability Support
- Instructional Facilitator Support
- Common Core State Standards Implementation
- Literacy Design Collaborative (LDC)

ADE Services, Cooperation, and Collaboration:

The Arkansas Department of Education, in conjunction with the Education Service Cooperatives, offers staff development focusing on literacy development for grades K-12. Support for current state initiatives is available as follows: Comprehensive Literacy, and Adolescent/Content Literacy and Literacy Design Collaborative. Literacy specialists provide technical assistance to schools as they move toward aligning local curriculum with the Common Core State Standards and meeting their Annual Measurable Objective (AMO). The DMEC literacy specialists work to ensure that area educators are made aware of these opportunities.

Literacy Department areas of support for the year:

- Data Analysis
- Formative Assessments
- Summative Assessments
- Lesson Planning
- Team Meetings/Professional Learning Communities
- Classroom Observations
- Classroom Walk-Through
- Research-based Best Practice
- ASCIP Planning
- Battle of the Books
- Instructional Facilitator Support
- Common Core State Standards Foundation overviews, mapping, etc.
- Job Embedded Professional Development: Literacy Design Collaborative, Literacy Instructional Strategies
- Reading Fair

PROGRAM: **Mathematics**

FUNDING AMOUNT: \$86,500.00

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division, K-12 Mathematics Unit

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:**

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Andria Miller, (MSE)
Renee Weed, Administrative Assistant

GOALS:

- To develop, support, and promote effective scientifically research-based programs for all students through staff development training, technical assistance, and instructional support to educators
- To assist schools in meeting state standards through the development of effective and explicit instructional strategies including use of summative and formative assessments
- To design and assist in the implementation of district and building level staff development programs as well as to provide assistance in meeting district-developed mathematics goals
- To model lessons and provide support as requested by service area schools
- To enhance teacher awareness and implementation of current best practices through high quality professional development

PROGRAM SUMMARY:

The mathematics program is designed to anticipate and meet the continuing needs of area schools through the delivery of staff development training that supports and promotes effective instructional strategies in mathematics. The math specialist works with districts as requested to develop math programs that are designed to encourage maximum achievement for all students. Training and assistance are provided to districts in the implementation of the Common Core State Standards. The math specialist delivers scientifically research based professional development programs that are designed to enhance current, innovative and practical teaching strategies in the classroom.

Staff development opportunities are available to area schools throughout the year. Such training and activities include but are not limited to:

- Cognitively Guided Instruction (CGI)
- Mathematics Design Collaborative (MDC)
- Curriculum Mapping and Alignment
- Common Core State Standards Implementation

- Instructional Facilitator Support
- Lesson Plan Support

MAJOR HIGHLIGHTS OF THE YEAR:

The Mathematics Department has supported schools in a variety of ways including:

- PD and classroom support for MDC participant schools and teachers
- Team Meetings/Professional Learning Communities
- Classroom Observations
- District Leadership Teams for School Improvement
- Data Analysis
- Formative Assessments
- Summative Assessments
- Lesson Planning
- Demonstration Lessons
- Research-based Best Practices
- Mentoring CGI Teachers
- Working collaboratively with specialists from other cooperatives to develop professional development with a focus on functions through real world mathematics in the high school classroom

PROGRAM: Media Center

FUNDING AMOUNT: \$4 per ADM with a cap of \$2,500

FUNDING SOURCE: Local School Districts

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUDNING: **NON-RESTRICTED FUNDING:** X

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Terri Williams, Head Media Clerk
Anita Bowren, Ellison Cutter Operator

GOALS:

- To improve student achievement by providing quality instructional materials
- To provide prompt, friendly service to all educators in the co-op area

PROGRAM SUMMARY:

The DMEC Media Center provides quality support to educators and students. Instructional materials are updated every year to assure that the most current are available.

The media van delivers to 64 stops weekly. This count includes delivery to twelve administrative offices and sixteen co-op preschools. Private preschools and Head Starts pick up their deliveries at designated sites. Teachers and administrators order media items via telephone, fax, email, and on-line. Ordering supplies and Ellison cuts on-line is considered a favorite among teachers and staff. It saves time and the co-op does the cutting for free. In addition, the co-op furnishes three sets of Ellison letters and holiday die that rotate to each building during the school year.

The DMEC staff collaborates with the Arkansas Department of Education (ADE) and other agencies to distribute materials to schools at a cost savings and in a timely manner. Materials include:

- Videos
- DVDs
- Content area materials (books, handouts, videos, etc.)
- Pamphlets
- Newsletters
- Schedules
- Big Books

Media items provided by the ADE are housed in the media center. This provides easy access of instructional materials and supplies to our districts. The Co-op delivers requested items weekly to schools.

PROGRAM: Novice Teacher Mentoring Program

FUNDING SOURCE: ADE Grant

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING :** ____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Brian Schuller, Science Specialist
Dana Ray, GT Coordinator
Kathy Heagwood, NT Trainer
Kim Brown, Literacy Specialist
Lisa Schuller, Literacy Specialist
Deb Young, Teacher Center Coordinator

GOALS:

- Become familiar with the Framework for Teaching (FfT) and the relationship between Novice Teacher Mentoring Program and TESS (Teacher Effectiveness Support System)
- Use of the Orientation Guide
- Know and be able to implement mentor responsibilities
- Navigate a mentoring module in Moodle
- Identify effective coaching techniques to use in the mentoring process

PROGRAM SUMMARY:

ADE transitioned from Arkansas Induction Mentoring Model (AIMM) to the Novice Teacher Mentoring Program and all trainers were provided a video training update.

The Novice Teacher Mentoring Program is designed to provide a novice teacher the support, assistance, and encouragement of a site-based, trained mentor in order for the novice teacher to learn the skills he or she needs to become an effective, knowledgeable teacher. District project directors were encouraged to share the video update with the mentor/novice teacher and with previously trained mentors. The ADE provided electronic resources such as the Mentor Notebook, Mentor/Novice Teacher Update Video and the Project Director Update Training Video in lieu of face to face trainings. New mentors were trained in the updated Novice Teacher Mentoring Program. At districts' request, DeQueen-Mena Cooperative provided one session of training for new mentors and ongoing support as needed.

PROGRAM: Professional Development/Teacher Center

FUNDING AMOUNT: \$100 Per Certified Staff Member

FUNDING SOURCE: Local School District

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Deb Young, Teacher Center Coordinator (MSE)
Crystal Willey, Administrative Assistant

GOALS:

- To align professional development services with district needs for administrators, teachers, and other support staff in order to increase student achievement and help students graduate college and career ready
- To support the Arkansas Department of Education's school initiatives
- To provide Response to Intervention (RtI) training and support districts working on improving their core instruction

PROGRAM SUMMARY:

This office has the responsibility of surveying, organizing, and providing K-12 professional development that supports school improvement for our twelve member districts. During the 2015-16 school year, DeQueen-Mena ESC offered professional development opportunities that aligned with district needs and state initiatives. A comprehensive list of professional development workshops is provided at the end of this report.

Each year DMESC provides a summer Administrator Institute for approximately 90 administrators. Required state trainings are presented at this three day institute along with other leadership training. The Arkansas Department of Education provides many updates on various programs/topics for our administrators.

This past year the cooperative brought in Dr. John McCook to assist districts with RtI. District teams met, identified an area that needed improvement based on their data, and developed a detailed action plan for improvement. DMEC specialists attended the three-day training in order to support districts going forward.

In addition, DeQueen-Mena had continued to focus on Teacher Excellence Support System (TESS), Leader Excellence and Development System (LEADS), and BloomBoard. The cooperative in conjunction with the ADE have provided trainings for teachers, principals, and superintendents. Recently, DMEC personnel were trained in BloomBoard in order to better support districts in the use of this technology.

PROGRAM: Science

FUNDING AMOUNT: \$86,500.00

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division, K-12 Science Unit

COMPETITIVE GRANT: Yes - No - X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, De Queen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Brian Schuller, MSE
Renee Weed, Secretary

GOALS:

- Ensure implementation of Arkansas K-12 Science Standards
- Ensure implementation of Next Generation Science Standards (NGSS)
- Foster a critical understanding of the role of technology in facilitating science teaching and learning
- Enhance an understanding in science disciplines
- Ensure that all students are meeting the state standards in science

PROGRAM SUMMARY:

The science program is designed to anticipate and meet the continuing needs of our service area schools. This is accomplished through the delivery of staff development training that supports and promotes effective science and inquiry practices for all students through a network of learning opportunities. The science specialist works with districts in developing science programs that are designed to encourage maximum achievement for all students. Training and assistance is provided to districts in the development of curriculum that is aligned with state framework guidelines. The science specialist delivers scientifically based researched professional development programs that are designed to enhance current innovative, practical teaching strategies in the classroom.

In addition to serving the De Queen Mena Educational Cooperative (DMEC) area districts, the following Science Technology Engineering and Mathematics (STEM) Centers and other Educational Cooperatives were also served this year:

- Dawson Education Service Cooperative
- Delta STEM Center (ASU – Jonesboro)
- Guy Fenter Education Service Cooperative
- Henderson State University STEM Center

The science specialist offered a variety of support in the following ways:

- Advised teachers and administrators in the implementation of Arkansas K-12 Science Standards
- Advised teachers on implementation of NGSS
- Collaborated on science strategies
- Conducted classroom observations
- Continued DMESC science WIKI
- Continued with mapping and aligning of curriculum
- Demonstrated lessons in area classrooms
- Facilitated regional science competitions (Dawson ESC – HSU STEM)
- Hosted regional science competition for over 350 students (DMESC)
- Participated in schools’ professional learning communities
- Partnered with other specialists in developing professional training
- Promoted a climate that facilitated improving science education
- Promoted STEM programs in schools
- Provided data analysis
- Provided instructional facilitator trainings
- Provided Literacy Design Collaborative training and support
- Provided professional development in instructional strategies
- Provided recommendations to enhance STEM education
- Served on ADE Arkansas Science Standards committee (K-4)

PROGRAM: **Special Education**

STAFF: Laura Bunch, LEA Special Education Supervisor, M.Ed.
Kelli Parson, LEA Special Education Supervisor, M.Ed.

FUNDING YEAR: 2015-2016

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING:**

FUNDING STATEMENT:

State grant and district supplements are the primary funding sources allocated to pay the salaries of the two (2) LEA Special Education Supervisors employed by DMEC serving six (6) cooperative member districts.

PROGRAM GOALS:

The special education supervisor's goal is to provide and facilitate consultative assistance in special education in the areas of: program standards, eligibility criteria, referral and placement procedures, evaluation and related services.

PROGRAM SUMMARY:

The DMEC employs two special education supervisors who provide services to six school districts in all areas related to special education. These consultative services include: technical assistance, due process records, instructional assistance, paraprofessional training, evaluation scheduling and information, in-service programs and training, budget preparation (including preparing bus purchase requests and stimulus packages, and grant proposals for individual districts' board approval), State and Federal reporting, development of advisory assistance to regular education teachers and modification suggestions for regular education classes for disabled and non-disabled students. Additionally, the LEA Special Education Supervisors locate and make arrangements for qualified related service personnel to provide occupational, physical, and speech therapies as well as making arrangements for school based mental health services. LEA Special Education Supervisors continue to be active participants on the districts' behalf regarding preschool transition conferences for students moving into kindergarten from a special education program at the preschool level.

2015-2016	Districts Served	Teachers/ SLP Served	Students Served
Laura Bunch	Mena, Mount Ida, Ouachita River	23	273
Kelli Parson	Dierks, Foreman, Cossatot River	18	249

ADE SERVICES, COOPERATION AND COLLABORATION

Special education reports for each individual district are submitted via APSCN or E-School at each appropriate data cycle. The ADE-Special Education Unit provides access to national downlinks providing in-service and training to administrators and special education teachers through satellite and Webinar technology. Child Find information, in collaboration with the Arkansas Special Education Resource Center, is disseminated to local agencies, districts, and private schools. A Child Find Committee has been established as a DMEC entity. Child Find Web access has been established to reduce travel and personnel time spent away from duties and continues to meet the requirements of Child Find update activities to pursue locating unidentified and under identified students. In accordance with state improvement performance goals, special emphasis has been highlighted in the area of Autism. Evaluation, programming, and in-service to both regular and special education administrators and staff was provided at no cost to each district. Additionally, summer professional development workshops have been set up and provided at both free and/or minimal costs to districts.

ADDITIONAL SERVICES:

AASEA Officer
CEC Board Member
CASE Board Member
(software) School Based Mental Health
Special Education Law Updates
Cooperative Purchasing of Software
& Equipment

INSERVICE TRAININGS OFFERED:

Alternate Portfolio Training
MRC (My Reading Coach)
SEAS (Special Education Automation
Paraprofessional Training (six topics)
RTI (Response To Intervention)
Reading Plus Software
ADE New Forms Training

PROGRAM: Behavior Support Specialist

FUNDING SOURCE: Behavior/Special Education (Federal)

FUNDING AMOUNT: \$110,000

COMPETITIVE GRANT: Yes No X

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING:**

PERSONNEL: Allison L. Mears, Behavior Support Specialist

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

GOALS:

- To provide technical assistance and support to local school district administrators and school personnel in the development and implementation of evidence-based behavior supports for students receiving special education services.
- To provide technical assistance and support to local school personnel in the identification and educational programming for students (emphasis in Autism).
- To provide assistance in conduction and development of Functional Behavioral Assessments and Behavior Intervention Plans.
- To provide professional development to local school district administrators and personnel for student specific needs, as well as large group trainings, that increase local capacity in evidence-based behavior supports.

PROGRAM SUMMARY:

The Behavior Support Specialist (BSS) position provides technical assistance in the area of behavior to all school districts within the DeQueen-Mena Education Service Cooperative. The BSS receives requests for technical assistance through the CIRCUIT online referral system. Once a request for services is received, the BSS works in conjunction with the Special Education Supervisor for the referring school district to identify and provide needed support for students with disabilities.

Services include:

- On-site consultation, student observation, record review, and written recommendations with follow up and training as needed
- Assistance with Functional Behavior Assessment (FBA) and Behavior Support Plan (BSP) development
- Assistance with Autism identification and programming
- Professional development opportunities on evidence-based interventions

The BSS also attends monthly meeting with the other cooperative BSS and the liaison from the Department of Special Education. Information presented at this meeting is shared with the Special Education Supervisors at their monthly meetings at DeQueen-Mena Education Service Cooperative.

MAJOR HIGHLIGHTS OF THE YEAR:

- Provided behavior support services to 12 school districts with over 200 hours of consultation provided onsite.
- Provided onsite consultation, student observation, record review, conference attendance, specialized evaluations, assistance with functional behavior assessment, behavior intervention planning for 27 (Categories of disabilities served include: Autism, Emotionally Disturbed, Mental Retardation/Intellectual Deficit, Speech Impairment, Specific Learning Disability, Other Health Impaired, and Unknown) with 32 cases closed with successful results and 11 currently open cases.
- Provided over 120 professional development hours on Autism, ADHD, Behavior Tools, and Professional Crisis Management (PCM) for 12 school districts, ABC Prek Program, and the Foster Grandparent Program. Upcoming professional development is scheduled for Emotional Disturbance, Data Collection, and Behavior Intervention Plan Development.
- Attended Area V Meetings with District LEA Special Education Supervisors, attended monthly meetings with Behavior Support Specialists and liaison from Department of Special Education.
- Received over 151 hours of professional development hours. Highlights: “ARMEA – Arkansas Mental Health in Education Association”, “LRP – National Institute of Legal Issues in Educating Individuals with Disabilities”, and the ADOS – 2 – Autism Diagnostic Observation Schedule – 2 revision, Advanced Training.
- Implemented a new statewide behavior referral system with specific forms and procedures for administrators to use to request behavioral assistance and help streamline the process across the state of Arkansas.
- Worked with Southwest Education Service Cooperative (SWESC) to provide training for their districts, as well as provided services for multiple students in the Southwest Education Service Cooperative, as well as Dawson Education Service Cooperative (DESC).
- Hosted a Professional Crisis Management (PCM) Instructor training for 11 of our districts. This course was available to other cooperatives/districts outside of our area. This allowed each district in our cooperative to have their own trainer on their campus for PCM trainings.
- Helped with Special Olympics (bowling, basketball, and track and field competitions), as well as organized two new teams from our cooperative area. Participated in the “Polar Plunge” to raise money for our local area Special Olympics teams.

PROGRAM: Special Nutrition Program

FUNDING AMOUNT: \$613,210.00

FUNDING SOURCE: Child and Adult Care Food Program

COMPETITIVE GRANT: Yes ____ No X

RESTRICTED FUNDING: X **NON-RESTRICTED FUNDING:** ____

PARTICIPATING DISTRICTS: Ashdown, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Kim Kennemore, Program Director

PROGRAM GOALS:

- Provide nutritious meals at no cost to the family of the participating children
- Provide all children in attendance at ABC Preschool sites the same meals with no physical segregation or other discrimination because of race, sex, age, disability, color, or national origin.
- Provide breakfast, lunch, and afternoon supplemental meals that meet all requirements of meal patterns for young children in child care programs.

PROGRAM SUMMARY:

Nutritious meals and snack are supplied to approximately 850 children in eleven school districts at 16 physical sites across the cooperative service area. Food service contracts are signed between school districts and the cooperative stipulating costs, delivery times, and billing procedures. The Project Director maintains records, documents periodic visits, monitors compliance, and submits monthly reimbursement claims to the Special Nutrition Program. Cooperation between the SNP Director, Preschool Directors and school district's Food Service Directors is necessary to prepare and submit the grant each year. Eligibility of families for 2015-2016 totaled: free 73%, reduced 14% and paid 13%.

PROGRAM: **Supplies**

RESTRICTED FUNDING: X **NON-RESTRICTED:**

PARTICIPATING DISTRICTS: Ashdown, Caddo Hills, Cossatot River, DeQueen, Dierks, Foreman, Horatio, Mena, Mineral Springs, Mount Ida, Nashville, Ouachita River

PERSONNEL: Terri Williams, Media Clerk
Tara Cartwright, Secretary

PROGRAM GOALS:

DeQueen-Mena Education Service Cooperative operates a successful supplies and materials service for school districts. These items are purchased from the Arch Ford Service Center where they solicit bids for the best prices, purchase in bulk, and pass the savings to other cooperatives. This allows the co-op to pass the savings to local school districts with the co-op attempting to break even on cost.

Supplies are delivered to schools via the media delivery service. Teachers and administrators continue to ask for this service and continue to be supportive. This is a major convenience that we offer to teachers. School personnel may order online and have supplies delivered on their weekly media delivery day.

PROGRAM: Technology Center Coordinator

FUNDING AMOUNT: \$75,000.00

FUNDING SOURCE: Arkansas Department of Education, Learning Services Division, Technology Department

COMPETITIVE GRANT: Yes - X No -

RESTRICTED FUNDING: X **NONRESTRICTED FUNDING:** _____

PARTICIPATING DISTRICTS: Mount Ida, Caddo Hills, Ouachita River, Mena, Cossatot River, DeQueen, Horatio, Nashville, Dierks, Mineral Springs, Ashdown, Foreman

PERSONNEL: Lisa Anderson, M.S.
Renee Weed, Secretary

PROGRAM GOALS:

- To meet the needs of the participating districts regarding technology requirements for student achievement and staff development
- To work with and assist the district technology coordinators in maintaining a network infrastructure that will accommodate network and bandwidth needs
- To assist member districts with ACT Aspire online testing

PROGRAM SUMMARY:

Recommendations and assistance were provided to districts regarding their network and infrastructure needs. Cooperative personnel attended technology meetings with the ADE in order to keep districts updated with current information on Aspire testing, resources, and other pertinent information.

Technology support was provided during Destination Science Challenge, Battle of the Books, and Reading Fair as well as to cooperative staff on their technology needs throughout the year. DMEC ensured that cooperative facilities such as computer labs, Smart Boards, Zoom technology, etc. were available to district teachers and staff. Classroom teachers were assisted with the implementation of integrated technology in the classroom and through workshops in the summer.

SPECIAL PROJECTS AND PROGRAMS

Program Name: **Cognitively Guided Instruction (CGI)**

Competitive Grant: Yes - X No -

Goals and Description: Cognitively Guided Instruction (CGI) is a teacher professional development program that has teachers exploring a framework for how elementary school children learn concepts of number operations and early algebra. This acquired knowledge is used to drive instruction. Years 2 & 3 of training builds upon the previous year's training—resulting in a true, long-term sustained professional development program. What teachers learn in a CGI institute enhances how they implement curriculum and resource materials into daily classroom instruction.

Program Name: **Literacy Design Collaborative/Mathematics Design Collaborative (LDC/MDC)**

Competitive Grant: Yes - No – X

Goals and Description: The LDC/MDC is an ongoing professional development process which consists of tasks aligned to the standards that target those skills needed in reading, writing, and mathematics. Formative assessment is used as a tool for monitoring what students are learning and identifying misunderstanding or skill weaknesses in students. These tasks work together to provide robust learning opportunities for students that are evaluated with a scoring rubric that helps educators across our state and nation calibrate high expectations. The LDC/MDC work is implemented in all content areas as well as career education classes.

Program Name: **Technology Infused Education (TIE) Project**

Competitive Grant: Yes - X No -

Goals and Description: The purpose of the TIE project is to increase technology integration across the state of Arkansas. This program was originally funded when Southwest Arkansas Education Co-op wrote a comprehensive partnership EETT grant to develop a statewide professional development module system to embrace all forms of technology, meet the needs of teachers and administrators, and address state standards while enhancing instruction through integrated technology practices. The cooperative and ADE have partnered to continue this funding. All education cooperatives across the state were offered the opportunity to train teachers from their area to become TIE Cadre members. There are currently approximately 100 TIE Cadre members impacting over 70 districts across the state. The focus of cadre training is to support technology integration in curriculum. Training includes a focus on Common Core Standards, unit planning and tools that serve as resources for teachers. Cadre members share this knowledge in trainings offered at the co-ops. They have conducted over 450 workshops across the state on 78 different technology modules. The trainings have impacted over 5,000 teachers and administrators.

Program Name: **Teacher Evaluation Support System (TESS)**

Competitive Grant: Yes - _____ No - X

Goals and Description: The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, a software provided by ADE that provides new district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The cooperative also provided the three hour training on Law and Process which deals with TESS.

The Arkansas Department of Education provided training for administrators at each cooperative on Summative Evaluation Process and Professional Growth Plans. Arkansas Department of Education in conjunction with BloomBoard and the Cooperatives provided BloomBoard University which was a regional training. The purpose of the BloomBoard University was to showcase the insights and reports as well as the additional features available to schools. The cooperatives are currently scheduling additional sessions to extend the learning as well as support administrators and teachers as they continue to implement TESS as the teacher evaluation system in the 2015-16 school year.

Program Name: **Arkansas Leader Excellence and Development System (LEADS)**

Competitive Grant Yes - _____ No - X

Goals and Description: The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being developed). Trainings for the LEADS program throughout the 2015-16 school year include work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of BloomBoard for evaluation and artifacts, and other information on an as needed basis.

Program Name: **EitherScope Project**

Competitive Grant Yes - _____ No - X

Goals and Description: In an effort to assist schools in preparation for ongoing online testing in 2015-16, DMEC used an EitherScope to evaluate schools in the cooperative to see if their networks are adequate for online testing as well as general network health and security. When a school requests a check, EitherScope reports are provided to the school and to the technology coordinator of their findings.

Program Name: **ACT Aspire**

Competitive Grant **Yes - _____** **No - X**

Goals and Description: DeQueen-Mena Cooperative technology coordinator and staff have provided support to district testing and technology personnel as preparations were made for the initial implementation of ACT Aspire in the spring of 2016. Support included onsite visits within districts to aid in preparing technology infrastructure, providing multiple training opportunities for ACT Aspire updates, and hosting ACT Aspire workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

DeQueen-Mena Cooperative also provided support to classroom teachers and instructional leaders to ensure Arkansas content standards were taught in a manner that would prepare students for the ACT Aspire. In addition to ADE presenters, cooperative content specialist provided face-to-face trainings on ACT Aspire resources and their use in strengthening the classroom teachers' understanding of assessment requirements for students. Trainings will continue during the summer of 2016 and the upcoming school year.

III. TEACHER CENTER

Please attach a list of all in-service training/staff development workshops offered through the co-op, including month offered, topic, number of districts participating, number of participants and location of workshops. Place an asterisk (*) beside those which provided curriculum assistance. Include a cumulative total of participants. See attached form.

A. Does the co-op provide media services to schools? YES [] NO [X]

If yes, then:

Approximate the number of titles in media center: 300

Does the co-op provide delivery to the districts? YES [] NO [X]

- On a as needed basis

How many districts participate in the media program? 0

How many titles (including duplicate counts) were provided to schools during this current year?
0

Do districts contribute dollars to the media services? YES [] NO [X]

Does the co-op operate a “make-and-take” center for teachers? YES [] NO [X]

IV. ADMINISTRATIVE SERVICES

Please check administrative services offered through the co-op:

- ☒ [X] Cooperative purchasing
- ☒ [X] Conduct Annual Needs Assessment /Planning assistance
- ☒ [X] Gifted and talented assistance
- ☒ [X] Grant writing assistance
- ☒ [X] Personnel application
- ☒ [X] Assist/support with Evaluation procedures (OSR, ACSIP Monitoring, GT Program evaluation, etc.)
- ☒ [X] Bookkeeping assistance
- ☒ [X] Technology training
- ☒ [X] Curriculum support (Arkansas State Standards)
- ☒ [X] Business Management training
- ☒ [X] Computer technician
- ☒ [X] E-Rate applications
- ☒ [X] Assessment data analysis
- ☒ [X] Instructional facilitator training
- ☒ [X] Math/Science/Literacy specialists
- ☒ [X] Professional Development opportunities for teachers
- ☒ [X] Administrators and Local Board Members Training
- ☒ [X] Community Involvement

V. DIRECT SERVICES TO STUDENTS

Please check the student services provided through the co-op:

- ☒ [X] Technology Showcase
- ☒ [X] Digital instruction
- ☒ [X] Quiz Bowl
- ☒ [X] Blended Instruction
- ☒ [X] Low incidence handicapped (vision/hearing)
- ☒ [X] Pre-School Handicapped Services

VI. ANECDOTAL REPORTS

Please attach three or four descriptions of activities which demonstrate partnerships, agreements or creative ways that the co-op has assisted local districts. The co-op personnel may write the reports, or the descriptions may be written by local schools served by the co-op. These reports may also include letters sent to the co-op or evaluations of a co-op activity.

- **Parent/Community Support:**

The Great Rivers Education Service Cooperative has conducted in-service training presentations for parents and community leaders. Additionally, the administrative service has provided support to the local school districts in their volunteer programs. The Cooperative provided in-service for the member schools and parent facilitators regarding parental involvement.

- **Educational Equity:**

Educational equity is a state priority that has been recognized by the Great Rivers Education Service Cooperative since its inception. Not only does the Cooperative recognize that educational equity entails minority and gender participation, but different levels of socioeconomic participation, also.

Policies and procedures are periodically reviewed to assure full access and opportunity in hiring practices and full participation.

- **General Administrative Services**

Great Rivers Education Service Cooperative provides administrative services to its member schools. While many of these services are part of the daily operation of the Cooperative, several have become full-scale programs and are as follows:

- **Higher Education Affiliation:** The Cooperative has maintained a close liaison with institutions of higher learning and has jointly offered courses in Educational Administration and additional licensure areas.
- **Information Sharing:** Recognizing a need to keep superintendents abreast of information, GRESC set up a memorandum referral file. All ADE Commission's memorandums are indexed and stamped for reference as needed. Likewise, information that the Cooperative receives concerning school and educational programs is filed for future reference.
- **Great Rivers has begun a Teacher/Administrator employee recruitment initiative to help area schools recruit subject area teachers.**

VII. EMPLOYMENT POLICIES AND PRACTICES

Act 610 of 1999 requires that each educational service cooperative report the following information:

EMPLOYED

Number of new males employed by the cooperative for the 2015-2016 school year:

For this number above, please provide the number in each of the following racial classifications:

White
African American
Hispanic
Asian
American Indian/Alaskan Native

Number of new females employed by the cooperative for the 2015-2016 school year: 3

For this number above, please provide the number in each of the following racial classifications:

White 3
African American
Hispanic
Asian
American Indian/Alaskan Native

TERMINATED

Number of males terminated by the cooperative during the 2015-2016 school year: 1

For this number above, please provide the number in each of the following racial classifications:

White 1
African American
Hispanic
Asian
American Indian/Alaskan Native

Number of females terminated by the cooperative during the 2015-2016 school year: 2

For this number above, please provide the number in each of the following racial classifications:

White 2
African American
Hispanic
Asian
American Indian/Alaskan Native

SEEKING EMPLOYMENT

Number of males seeking employment by the cooperative during the 2015-2016 school year: 1
For this number above, please provide the number in each of the following racial classifications:

White 1
African American
Hispanic
Asian
American Indian/Alaskan Native

Number of females seeking employment by the cooperative during the 2015-2016 school year: 14

For this number above, please provide the number in each of the following racial classifications:

White 8
African American 6
Hispanic
Asian
American Indian/Alaskan Native

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Administrative Services

FUNDING SOURCE: Base Funds

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Suzann McCommon	31	MSE	Director

GOAL:

- ***Student Achievement and Teacher Effectiveness:***

The overall objective of the Cooperative is to increase student achievement via improvement of teacher effectiveness. Targeted areas where heavy emphasis was placed included math and literacy. While the credit for these professional development opportunities belongs to the districts, teachers and students, it is believed that the Cooperative also played a large role in the endeavors leading to school improvement. As an added indicator the cooperative will begin using a new evaluation system instituted by Dr. D. Ayrotola, ADE Data Center Director. This system will allow Great Rivers Education Service Cooperative to more fully assess the effectiveness of our professional development while gathering inputs from teachers and colleagues.

- ***School Leadership and Organization:***

School leadership and organization have been identified as a need for the Great Rivers area school districts, impacted through several means sponsored by the Cooperative. The impact has been achieved primarily through professional development for administrators and dissemination of information, collaboration and partnerships via the Arkansas Department of Education. Additionally Great Rivers Education Service Cooperative and the area school districts have entered an agreement to cooperatively advertise and recruit teachers into GRESC's regional area.

PROGRAM SUMMARY:

Since the inception of Great Rivers Education Service Cooperative in July of 1985, many services and identified needs of the member schools have become a reality. The programs and models supported have become a fluid entity and not a static one size fits all approach. Some have been modified or changed as the identified needs have changes.

The Superintendents of each of the member schools comprise the Board of Directors. The ten member Board of Directors' sit as a full governing board. This Board usually meets the fourth Thursday of the month to conduct the overall policy making and management business of the Cooperative.

The stated goals of the Central Administrative Service are to positively impact student achievement by:

- Coordinating specific effective professional development opportunities for teachers, support staff and administrators.
- Providing services designed to assist members in saving time and money in the administration of schools' programs.
- Maintaining sensitivity to the disparity of needs among member district in providing services, activities and programs.

More specific objectives are outlined in the cooperative policy manual adopted by the Board of Directors' in addition to those objectives derived from the annual needs assessment and surveys.

Particular needs of emphasis addressed by the Educational Cooperative's Administrative structure include the following:

- A. Overall fiscal management;
- B. Specific activities that enhance the relationship between the cooperative staff and the Arkansas Department of Education such as disseminating information, scheduling facilities and providing workshops;
- C. Securing additional funds to provide necessary and identified needs;
- D. Provide liaison with post-secondary educational institutions;
- E. Employ personnel as an equal opportunity employer without regard to race, color, creed, sex, national origin, handicap or age.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Cooperative Purchasing

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Suzann McCommon	31	MSE	Director

GOAL:

To provide a mechanism for area school districts to collectively purchase common supplies and materials at a competitively lower price than if bided or purchased separately.

PROGRAM SUMMARY: Great Rivers Education Service Cooperative has provided purchasing for its member districts for several years. Based upon the needs and itemized specifications of the districts, GRESC submits a group bid to vendors. Included in the bidding are such items as copy paper, file folders, legal pads, wastebaskets, staplers and pencil sharpeners. Once the lowest possible bid is obtained, orders are placed and each district has its order drop shipped and is individually invoiced for the items. Cost savings, is of course, the primary outcome of this process. For example, the catalog volume on 8 ½ x 11 Xerographic copy paper is \$37.00 per case. Great Rivers Education Service Cooperative was able to obtain a bid, however of \$ 23.88 per case. At a savings of \$ 12.12 per case with approximately 3300 cases ordered, the overall savings on this item alone was \$39,996.00.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Professional Development

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Jimmy Lou Brandon	14	MSE	TCC/GT Specialist

GOAL:

- To align professional development services with district and school needs to build capacity of all adult learners in order to provide a world class education system which graduates students who are college and career ready
- To provide adult learners with content knowledge and research-based instructional strategies to assist students in meeting rigorous academic standards and prepare adult learners to use various types of assessment results appropriately
- To improve the learning of all students by providing resources to support adult learning and collaboration
- To provide curriculum development assistance as schools align with CCSS
- To support school improvement initiatives generated by the ADE and enhance program integration through effective communication and technical support

PROGRAM SUMMARY: Professional development opportunities target the focus areas as outlined by the Arkansas Department of Education. The PD sessions are offered to meet the requirement of law regarding the required 36 hours of professional development, as well as meeting the needs of schools, based upon needs assessment survey results and evaluations

from workshops data from the ten districts served. The Teacher Center Coordinator has the primary responsibility for reviewing, along with the Teacher Center Committee, the data sets from the districts in planning professional development to meet the major needs of the districts.

During the 2015-2016 school year a total of two hundred seventeen (217) professional development sessions were provided by the cooperative, with a total of three thousand seven hundred eighteen (3,718) participants in attendance. Four hundred sixteen (416) school sites visits were made in order to provide follow up and support for teachers in all districts.

Each year Great Rivers provides a summer Administrator Leadership Institute for administrators. This two-day institute offers updates from The Arkansas Department of Education staff. Various topics on relevant information are presented, as needed, such as updates on, RTI, ForwARd Arkansas, Legislation, Laws, Career Tech, New Science Standards etc.

Great Rivers has continued to focus with additional sessions on Leader Excellence and Development System (LEADS), Teacher Excellence Support System (TESS) and BloomBoard to give leaders and teachers the extra support needed to be proficient in the above systems.

HIGHLIGHTS OF THE YEAR:

1. School Board Member Training
2. Instructional Technology Workshops
3. Arkansas Induction Mentoring System (AIMM)
4. E-School Training and workdays
5. Administrator Training
6. Mathematics Training
7. Science Training
8. Literacy Training
9. ACT Aspire Support Training
10. Teacher Excellence and Support System Training (TESS)
11. Leader Excellence and Development System Training (LEADS)

12. Special Education

13. Behavior Management

14. Brainstorming with school leaders on involving the Community via ForwARd Arkansas

15. Career and Technical Education

16. BloomBoard Support Training

17. Response To Intervention Training (RTI)

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Gifted and Talented Education

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Jimmy Lou Brandon	14	MSE	Gifted & Talented Coordinator

GOAL:

The goal of the Gifted and Talented Program is to assist member districts in meeting the State Standards for Gifted and Talented Education and Advance Placement. Assistance is given in the areas of coordination, implementation, staff development, student identification process, program evaluation, technical assistance and improvement of local programs for gifted and talented students. The GT Specialist also serves as a liaison with the ADE Office of Gifted and Talented and Advanced Placement, parent and professional organizations, and other public and private agencies. The GT Specialist serves to promote gifted education through public awareness and advocacy.

PROGRAM SUMMARY: In order to meet these goals, Great Rivers provides a variety of opportunities and services. Included in those opportunities and services are:

- Scheduling Special Pre-AP workshops for Mathematics, Science and Interdisciplinary English and Social Sciences that provide strategies to empower teachers to add academic rigor to their instruction. (Pre-Advanced Placement workshops are offered in September to train teachers in more rigorous teaching strategies.)
- Sharing resources among cooperative area GT Coordinators and facilitators and their schools through monthly meetings
- Coordinating, training coaches, judges and moderators, facilitating, providing moderators, securing the location, providing trophies and certificates, providing study questions and

tournament questions, handling registration for three Quiz Bowl competitions for students in grades 4-12, Elementary, Jr. High and High School

- Coordinating “Beyond The Classroom” for grades 5-6. This consists of forty-five minute rotational sessions. Session titles were: Coding, Robotics, 3D Printer, Painting, Critical Thinking Math, Critical Thinking Science and Technology Skills.
- Facilitating and ensuring that each GRESC school district meets all of the ADE and GT Program standards, especially those districts slated to be monitored
- Scheduling technology specific workshops for GT coordinators and facilitators.
- Making on-site visits to local school districts to provide support and/or in-service
- Providing professional development opportunities, including: Pre-AP Strategies, Effective Questioning, Curriculum Differentiation, Whole Group Enrichment, STEM

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Teacher Center Program

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Jimmy Lou Brandon	14	MSE	Teacher Center Coordinator/GT Specialist

GOAL:

The Teacher Center functions to serve the needs of the local school districts as well as the priorities of the Arkansas Department of Education. All functions of the Teacher Center are determined by the Arkansas Department of Education mandates and needs assessment surveys as well as through communication with district personnel.

PROGRAM SUMMARY:

In order to accomplish the goal, the Teacher Center provides:

1. Curriculum development and alignment support
2. Professional Development in all core areas and non academic areas
3. Shared education services
4. School Improvement planning
5. Vocational and career education
6. Gifted and Talented education
7. Special Education Services
8. Shared teacher organization and planning
9. Testing
10. Technology Services

MAJOR HIGHLIGHTS OF THE YEAR:

- Continued support of a Cooperative-wide Classroom Management Model
- Trained and supported the implementation TESS and LEADS
- Continued support of state initiatives
- Continued support of embedded professional development through Professional Learning Communities (PLC) in all districts
- Created and supported an environment for adult learning
- Held summer training for teachers on the Teacher Excellence Support System (TESS with Shirley Hall/Charlotte Danielson representative) Three different locations for teacher accessibility
- Offered 3 separate 2 day Pre-Ap trainings in September to promote rigor in classrooms
- Offered additional support to 5 new GT Coordinators
- Hosted the Focus Meetings for districts in and out of our Cooperative area, as well as meetings for the Office of Intensive Support

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Teacher Excellence Support System (TESS)

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Patricia Smith	31	MSE	Assistant Director
Jimmy Lou Brandon	14	MSE	TCC/GT Specialist

GOALS AND DESCRIPTION:

The Framework for Teaching by Charlotte Danielson provides the foundation for the Arkansas Teacher Excellence and Support System (TESS). Teachscape partnered with Charlotte Danielson and Educational Testing Service (ETS) to develop FOCUS, software that provides district evaluators with comprehensive training and scoring practice, followed by a scientifically designed assessment of ability to accurately and consistently apply the Danielson rubric for teaching performance. The Great Rivers Educational Service Cooperative team continues to offer both collaborative and individual FOCUS support sessions for administrators requesting support. The Arkansas Department of Education, in conjunction with BloomBoard and cooperatives provided regional BloomBoard Universities. . The purpose of the BloomBoard University was to showcase the insights and reports as well as the additional features available to schools. Great Rivers is currently scheduling additional sessions to extend the learning, and support administrators and teachers as they continue to implement TESS as the teacher evaluation system in the 2016-2017 school year. The ADE is currently scheduling additional sessions to extend the learning and support administrators and teachers as they fully implement TESS as the teacher evaluation system in the 2016-2017 school year.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Literacy Instructional Specialist

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Vicki Smith	6	MSE	Literacy Specialist

GOAL:

- Provide differentiated technical support to participating districts
- Plan and deliver professional development and on-site support in literacy foundation skills in grades K-5 through the newly developed Implementing a Comprehensive Framework for grade bands K-1, 2-3, and 4-5, as well as integration of literacy research base/best practices in reading, writing, speaking and listening at all levels, and for all students
- Complete final cycle of ELLA and ELF with site based observations at the K-1 and 3rd grade levels
- Provide continued support as districts strive to deepen understanding of the Common Core State Standards, with awareness of upcoming revisions
- Grow professionally through personal study and participation in professional development that provides the most effective models for impacting student achievement and teacher effectiveness

PROGRAM SUMMARY: Implementing a Comprehensive Literacy Framework is a professional development opportunity developed by literacy specialists from the Arkansas Department of Education and education service cooperatives to provide guidance and support in building and sustaining a comprehensive literacy system at the local level. As a whole, the modules serve as a complete course of study for reading and writing teachings in the following grade bands: K-1, 2-3, 4-5, and 6-8. Each of the modules focuses on key components of a comprehensive system. Educators may register for individual modules to meet specific needs or complete the entire set of modules to gain in-depth understanding of all the components. The modules do not need to be taken in sequence; however, it is recommended that educators begin with the Overview Module if they intend to complete the full set of modules. Follow-up support and coaching for implementation is available.

The Overarching goals of Implementing a Comprehensive Literacy Framework are to enable K-8 educators to:

- Deepen their understanding of the essential elements of reading, writing, speaking, and listening instruction
- Apply knowledge of the Common Core State Standards for English Language Arts and Literacy in the disciplines to appropriate grade-level content in the appropriate grade-level classroom context.
- Analyze the data generated from student assessments to guide and adjust instruction to meet the needs of all students.
- Select the most appropriate evidence-based instructional strategies and practices to support diverse student populations.

MAJOR HIGHLIGHTS OF THE YEAR:

- Initiating and/or strengthening relationships with teachers, support staff and administrators in the Great Rivers Education Service Cooperative area, including a Spring Tour of all districts to promote summer professional development offerings and on-site possibilities
- Facilitating site based observations in the Palestine/Wheatley and Barton/Lexa School Districts to complete the final cycles of ELL and ELF
- Providing initial training in Implementing a Comprehensive Literacy Frameworks (ICLF) in grade bands K-1, 2-3, and 4-5 Modules 1 and 2
- Collaborating with co-op literacy specialist from across the state to provide feedback in the development of ICLF 2-3 Modules 3 and 4
- Providing the Text Dependent Questioning PD for 6-8 and 9-12 and follow-up leading to co-teaching for the day in a Social Studies class at Eliza Mille Elementary in the Helena-West Helena School District
- Working with Marvell/Elaine High School literacy teachers to begin the process of curriculum alignment
- Training volunteer tutors at Eliza Miller Elementary in the Helena/West Helena School District at the request of the sponsoring non-profit

- Providing information for improvement plans at Central Elementary in the Forrest City School District, as well as the Anna Strong Elementary in the Lee County School District
- Attending the Arkansas reading Association's annual conference
- Supporting instructional facilitator for Anna Strong and Whitten Elementary in the Lee County School District
- Providing intensive on-site support throughout the year at Palestine/Wheatley Elementary in grades K-6 as follow-up to ICLE Modules 1 and 2, by assisting in administering assessments, data analysis with implementation of a data wall and a monthly data meetings, grouping for instruction, progress monitoring, and classroom observations with feedback
- Providing on-site support at Stewart Elementary in the Forrest City School District initiated by a 3rd grade teacher's request for assistance in writing instruction, that led to analysis of writing samples, revealing deficits in encoding throughout the grade level, and implementation of differentiated instruction and progress monitoring in literacy classrooms
- Collaborating with the principal and instructional facilitator at Weaver Elementary in the West Memphis School District to devise a plan for on-site support, after test data revealed a need for training in word study beyond the second grade, resulting in study of the K-8 curriculum followed by teachers assessing developmental levels of spelling, planning for targeted whole group lessons and classroom observations with feedback and next steps
- Presenting the Implementing a Comprehensive Literacy Framework and possibilities to West Memphis School District's Literacy Leadership Team, resulting in a meeting with the incoming assistant superintendent and district literacy specialist to plan district wide training in reading process for grades 3-6, to be followed by site bases analysis of data to determine areas of need and next steps for the 16-17 school year
- Participating in a meeting with the ADE Professional Development Coordinator, the Great Rivers Educational Service Cooperative Director, the GRESC Professional Development Coordinator and specialists from GRESC to discuss differentiating professional development to the districts in our co-op area while maintaining the integrity of state initiatives
- Collaborating with the 6-8 ICLF trainer at GRSC to present the K-8 Word Study Continuum over four days to 14 participants, representing teachers in grades 1-6, from 3 districts, enabling them to meet the needs of all students in their charge, no matter what grade level they may be assigned to teach

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Literacy Instructional Specialist

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Constance Watson	6	MSE	Literacy Specialist

GOAL:

- Provide training, support and resources as districts implements the Common Core State Standards
- Provide on-site assistance to every district in our Cooperative area as requested using data and a differentiated approach
- To be a broker of resources for the schools in need of services that the Cooperative does not provide
- Plan and deliver content specific professional development and on-site classroom support as requested that will increase student achievement
- Attend professional development that provides the most effective models for impacting student achievement and teacher effectiveness that will allows the districts to build capacity within the district
- Provides individual and small group instruction for identified students
- Confers with the principal on the needs of the reading program

- Acts as a resource teacher in reading to regular classroom teachers by assisting them in organizing their reading program, selecting materials, suggesting teaching techniques and relating their instructional program to the special needs of students
- Gives demonstration lessons in the teaching of reading as requested or required
- Assists in the establishment and development of school and district reading curriculum
- Provides reading resources for teachers, aides and parents
- Other duties as assigned

PROGRAM SUMMARY: As Literacy Specialist it is my responsibility to provide quality professional development to Great Rivers Education Service Cooperative districts that will assist the districts in improving student achievement. Professional development in reading, writing and content specific areas that enhances student comprehension is provided. “Best Practices” are modeled in every workshop to enhance instructional practices that benefits all teachers in all subjects. Assistance in the districts in analyzing their data to identify root causes for specific areas of need and facilitate the process is also a service. As a result, classroom management continues to be in the forefront.

Classroom management was one focus for professional development trainings in our districts this year. Randy Sprick’s book served as a model, K-12, for the implementation. Instructional facilitators have had some experience with the model and it builds upon Jim Knight’s research. As always, a professional relationship with teachers and administrators is a top priority. Extra support was given to those districts’ choosing to implements using Sprick’s model.

Writing, planning and delivering professional development for peers, instructional facilitators and teachers has been a challenge, however, rewarding through the use of technology and AETN. Professional development has been taken to a new level.

MAJOR HIGHLIGHTS OF THE YEAR:

- Implementing a Comprehensive Literacy Framework (ICLF)
- Model Lessons for classroom teachers
- Supporting teachers with Literacy Standards/Strategies

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Mathematics Instructional Specialist

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Jeannie Rutland	4	MAT	Mathematics Instructional Specialist

GOAL:

- Work collaboratively with administrators and teachers to analyze student work, to identify students' level of understanding and/or proficiency, to interpret assessment information to inform the instructional program as well as to assist teachers in differentiating instruction
- Assist school personnel in evaluating, developing, and strengthening site-based mathematics programs
- Assist in developing, writing, and conducting training programs for trainer delivering professional development training in mathematics curriculum, instruction, assessment, and coaching strategies
- Obtain and provide mathematics-related information (data, materials, research, etc.) for public school personnel and others
- Assist school personnel in identifying effective interventions to achieve school improvement goals
- Provide technical support to school-based mathematics coaches (instructional facilitators) who perform a variety of roles

- Translate mathematics standards and research into classroom practice to support implementation of the Common Core State Standards for Mathematics
- Plan and facilitate professional development sessions to focus on the needs of staff members in the implementation of a high quality and challenging mathematics program for all students
- Provide ongoing support to teachers and administrators for Teacher Excellence Support System (TESS)
- Develop and facilitate Professional Learning Communities (PLC) to support teachers in the implementation of Cognitively Guided Instruction (CGI)
- Work collaboratively with building administrators and staff to plan, implement and evaluate mathematics programs that support the improvement of teaching and learning
- Support teachers in identifying, implementing, and refining the use of instructional resources and strategies through coaching, co-teaching, and modeling lessons
- Provide on-going assistance to new teachers, especially first year teachers and “career switchers” in mathematics content and pedagogy
- Provide targeted support mentors trained in the Novice Teacher Mentor Program

PROGRAM SUMMARY: As Mathematics Specialist, it is my responsibility to provide support to Great Rivers Education Service Cooperative districts that will result in an increase in student achievement. In order to effectively accomplish this, I differentiate the support I provide across the cooperative area. I assist districts in analyzing their school data (including walk-through data) to establish a goal for the needed support.

MAJOR HIGHLIGHTS OF THE YEAR:

- Established and maintained collaborative relationships with teachers and administrators in the Great Rivers Cooperative area
- Continued to grow teachers in the professional development program Cognitively Guided Instruction for Years 1 and 2
- Conducted specific site-based professional development focused on deepening teacher knowledge of Common Core State Standards at the request of three (3) specific districts

- Provided support to trained mentors for the Novice Teacher Mentor Model
- Facilitated PLC meetings for teachers trained in Cognitively Guided Instruction (CGI) in order to sustain the use of CGI in their classrooms
- Facilitated a grade level committee for the revision to the Common Core State Standards for Mathematics
- Conducted site based professional development focused on Number Talks at the request of one (1) district for six (6) elementary schools. Provided follow-up support for these six (6) elementary schools which included modeling lessons, observations and how to conduct a production PLC for Number Talks
- Provided specific site based professional development at the request of three (3) districts
- Assisted instructional facilitators with gathering analyzing information for ACT Aspire
- Collaborated with other Math Specialists to provide CGI Conference at the Arkansas Curriculum Conference
- Provided targeted assistant at the request of Instructional Facilitators and/or Principals for six (6) districts to meet the needs of each individual situation.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Science Instructional Specialist

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Nancy Hornor	2	BSE	Science Specialist

GOAL:

- Visit all schools in the Great Rivers Cooperative area and establish relationships with teachers and administrators
- Provide on-site assistance to science teachers in planning and carrying out scientific investigations using the Arkansas K-12 Science Standards
- Provide on-site support by delivering science materials and supplies
- Provide on-site support for those school incorporating Picture-Perfect Science into their science classroom
- Provide professional development on-site and at Great Rivers Cooperative on the Arkansas K-12 Science Standards
- Work collaboratively with other specialists at Great Rivers Cooperative to provide cross curriculum professional development and Ruby Payne's Understanding Poverty professional development.
- Increase my knowledge of ADE and my role as Science Specialist to better serve my schools

PROGRAM SUMMARY: This is an exciting time for science in the state of Arkansas and I feel fortunate and excited to help with the implementation of our new standards. As science specialist it is my responsibility to provide support to Great Rivers Education Service Cooperative districts that will assist each district in improving student achievement and success. This may take the form of assisting districts with implementation of the new Arkansas K-12 science standards by offering summer professional development on these standards and on-site professional development during the school year. I also provide science content specific assistance as well as effective instructional practices that benefit all teachers.

MAJOR HIGHLIGHTS OF THE YEAR:

- Visited schools within the Great Rivers Cooperative area and continued relationships and established new ones with various teachers and administrators
- Worked with other science specialist from across the state in developing a two-day state-wide professional development for 9-12 educators, *“High School Science – Grasping Phenomenal Science for Grades 9-12: Navigating from Standards to Instruction”*
- Provided information to all GRESC schools with a list of the summer professional development workshops that addressed the new Arkansas K-12 science standards that will be offered at various locations across several coop areas and within the GRESC area this summer
- Continued deepening my understanding of A Framework for K-12 Science Education and the new Arkansas K-12 Science Standards
- Worked with Forrest City Junior High in setting up and organizing their science lab along with providing professional development and notebooks for their science teachers
- Worked science teachers throughout the GRESC area in supplying science equipment, facilitating instruction and labs, planning hands-on investigation, and modeling classroom management
- Assisted Central High School in the Helena-West Helena area with continued support throughout the year during their times of vacancies in the chemistry, physics and physical science positions

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Literacy/Math/Science Facilitation

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Vicki Smith	5	MSE	Professional Development Specialist (Literacy)
Jeannie Pittman	3	MSE	Professional Development Specialist (Math)
Cindy Sibley	10	MSE	Professional Development Specialist (Literacy)
Constance Watson	6	MSE	Professional Development Specialist (Literacy)
Nancy Hornor	1	BSE	Professional Development Specialist (Science)

GOAL:

- Providing professional learning to assist Literacy/Math/Science Facilitators (Coaches) in maximizing the effectiveness of their work.
- Continuing positive impact of the instructional facilitator on student achievement.
- Facilitating in Arkansas is designed to support implementation of any new state-wide initiatives in Arkansas schools through professional learning at designated training sites alone with onsite support. The training will encompass the strategies and skills the Literacy/Math/Science Facilitators need to implement the variety of roles necessary to advance professional learning and to improve student achievement.
- Developing a deeper understanding of the many roles and components of literacy/math/science facilitating.

- Developing support to implement research-based & high yield instructional practices and assessment systems as aligned to the Common Core State Standards.
- Understanding the impact of change on adult learning theory
- Developing leadership skills for leading reform using communication strategies.

Training can occur at the cooperative throughout the school year as well as visits to participants' schools in order to support implementation.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Career & Technical Education

FUNDING SOURCE: Arkansas Department of Career Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
James Southard Jr.	3	BSE	Career & Technical Ed. Coordinator
Polly Hopper	8		Instructional Secretary

GOAL:

The goal of Career and Technical Education is to provide services to all students who are enrolled in Career and Technical Education programs in compliance with the Arkansas Department of Career Education which has the mission of providing leadership and contributing resources to serve the diverse and challenging career education needs of Arkansas youth, adults, and persons living with disabilities.

PROGRAM SUMMARY: The program is set up to provide services to all students who are enrolled in Career and Technical Education programs. The passage of the Federal Carl Perkins II Act on 1990 and the State Act of 980 directed vocational education to focus on assisting all students, not just special populations. Career and Technical Education also has a major objective of energizing the private sector as a partner throughout the nation. Cooperative efforts with the local school districts include the providing of:

1. An assessment of the interests, abilities and special needs of the student with respect to successfully completing the Career and Technical Education program;
2. Special services, including adaptation of curriculum and instructional equipment and facilities;

3. Guidance, counseling and career development activities provided by counselors, teachers, and the cooperative;
4. Career counseling services designed to facilitate the transition from school to post-school training and/or employment and career opportunities, and
5. Supplies, equipment and teacher training for the integration of academics and new technologies through sequential course offerings. These activities were limited this year due to major cuts in the Carl Perkins budget.

MAJOR HIGHLIGHTS OF THE YEAR:

1. During the 2015-2016 school year, the Great Rivers Education Service Cooperative's Career and Technical Education program provided in-service training to all area Career and Technical Education teachers.
 - a. In June and July of 2015, training was conducted to assist teachers in attaining the Keyboarding (419) endorsement. Two three day sessions were held at both the Great Rivers Cooperative and East Arkansas Community College. As a result of this professional development, 20 teachers earned the endorsement required to teach Career Development.
 - b. On October 21, 2015, a Career and Technical Education Regional Advisory Council meeting was held at A.S.U. Mid-South in West Memphis, AR. At this meeting, industry leaders were present with area educators to share information. The industry leaders explained what they were looking for in future employees and the educators explained what programs they were currently holding. The meeting was extremely successful in providing information to both groups. Future high school seniors should be better prepared to enter the workforce after graduation.
 - c. On October 22, 2015, a training session was conducted called Talking Numbers. Working with the Great Rivers Education Service Cooperative math specialist, Career Technology educators were trained on new ways to incorporate mathematics into their daily lessons, regardless of the class they are teaching.
 - d. Carl Perkins Reimbursement was made available to teachers attending C.T.E. specific training during the 2015-2016 school year. Five consortium teachers requested this reimbursement following qualifying C.T.E. specific training that they participated in during the summer of 2015.
2. As directed by the Arkansas Department of Career Education, the Great Rivers Education Service Cooperative C.T.E. consortium schools have been attempting to

- increase the number of non-traditional students in career and technical programs of study. Ten Dewalt 18 volt portable four tool combination sets (DCK425C) were purchased with Carl Perkins funds with five sets going to both Palestine-Wheatley and Brinkley Agriculture programs. These tools along with the included accessories with allow non-traditional and special needs students to increase their participation in building projects within this program area. The tools are lighter and have less torque than the normal power tools used. Extra batteries, battery chargers, bits, and blades were provided in addition to the actual tool kits. The will allow the tools to be put to immediate use in the classrooms.
3. In an effort to update business classrooms among consortium schools, 56 Apple Mac mini desktop computers were purchased to be placed at Barton-Lexa High School, Brinkley High School and Central High School within the Helena-West Helena School District. These computers have a dual boot capability, allowing them to be started as either an Apple computer or Windows computer, thus allowing students to have access to software in both operating systems, and allowing students to be better prepared to enter the office workforce after graduation. Students will work to become more familiar with both operating systems and the programs utilized in each. Six computers, were provided to Barton-Lexa, 25 computers were provided to Brinkley, and 25 computers were provided to Central High School.
 4. 40 Apple iPad Airs and 3 Brentford iPad carts were purchased for Clarendon, Palestine-Wheatley, and Central High School's Family and Consumer Science programs. These iPads allow for each of these school CTE teachers to have a full cart of iPads to use with their students and provide for increased security of the equipment in the classroom. The cart is a more practical method of charging the iPads during the day. Ten iPads and one cart were issued to both Clarendon and Palestine-Wheatley Family and Consumer Science teachers. Twenty iPads and one cart were issued to the Central High School Family and Consumer Science Teacher.
 5. Eight Dewalt 20 volt portable four tool combination sets (DCK592L2) were purchased with Carl Perkins funds with four sets going to both Barton-Lexa and Central High School's Furniture Manufacturing programs. These tools along with the included accessories with allow non-traditional and special needs students to increase their participation in building projects within this program area. The tools are lighter and have less torque than the normal power tools used. Extra batteries, battery chargers, bits, and blades were provided in addition to the actual tool kits. This will allow the tools to be put to immediate use in the classrooms.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Early Childhood Special Education Program

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Tina Grubbs	27	MSE	Early Childhood Coordinator
Anita Hoskins	17		Preschool Assistant/Medicaid Clerk
Yalanda Sheard	11		Preschool Assistant/Data Management
Laura Beth Felton	2	MSE	Psychological Examiner
Melanie Wilson	4		Early Childhood Behavior Interventionist
10 Early Childhood 11 Instruction Specialist			
8 Full-time Speech Pathologists			
2 Part-time Occupational Therapist			
1 Part-time Physical Therapist			

GOAL:

- Conduct Child Find Activities in the Cooperative area to identify, evaluate, and deliver services to preschoolers in need of Preschool Special Education services
- Create a collaborative structure that includes public and private preschool centers, Children's Health Management System centers, Head starts and Arkansas Better Chance classrooms to ensure a free and appropriate public education is provided for every preschooler
- Provide the transition of birth to three children in the preschool special education setting and children going to kindergarten into their school age special education setting

- Provide information and feedback to the Cooperative's ten districts in regard to the needs and achievement of their preschoolers
- Provide parents and caregivers with information regarding their child's education needs and options

PROGRAM SUMMARY: The Early Childhood Special Education program strives to provide preschool special services to children within the Cooperative area. The preschools along with the Cooperative are in a collaborative agreement to screen, evaluate, teach, and maintain due process records on children identified with preschool special needs. Great Rivers Education Service Cooperative's federal child count on December, 2015 was 399 children. The preschool cooperative staff serves preschoolers in a variety of settings. The Cooperative schedules professional staff development to ensure staff is trained and proficient in the latest teaching and behavior management techniques. Extended school year services are part of the preschool individual special education programming for those children who qualify. Some of the staff works in the extended school year program during June and July to carry out individualized education programs for children needing instruction during the school breaks.

MAJOR HIGHLIGHTS OF THE YEAR:

- Professional development included training on use of Technology, Behavior Intervention Techniques, Speech and Language Training, Pivotal Response Training, Social and Emotional Training and ABA techniques
- On-going professional development to enable preschool special education staff to meet the needs of all preschool children
- Monitoring by the Arkansas Department of Special Education for program approval
- On-going use of preschool therapy rooms on-site for preschoolers needing preschool special education service

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Behavior Intervention Consultant – Early Childhood

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Melanie Wilson	4 ½	B.S.	Behavior Intervention Consultant

GOAL:

- Increase awareness of Behavior Intervention Services to preschool children, parents, and preschool teachers
- Provide Behavior Management Intervention services to identified children through the Cooperative area
- Assist preschool teachers and parents in identification, evaluation, behavior plans and techniques in educating children with Autism and Behavior concerns

PROGRAM SUMMARY: The Behavior Support Specialist's services are offered to all preschool children in the Great Rivers Educational Service Cooperative area. The Behavior Interventionist services included identifying and setting up behavior interventions for preschoolers, assisting teachers and centers in setting up their environments to aid and include children with behavior needs and providing behavior strategies to parents and teachers.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Technology

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Tim Vent	19	AA	Technology Coordinator
John Dulaney	5	BSE	PC/LAN Technician

GOAL: To help member districts with educational technology integration, infrastructure implementation, and support as it is related to student achievement, staff development, ACT Aspire, Common Core, and Arkansas state initiatives including but not limited to Virtual Arkansas, iTunesU, the Arkansas Digital Sandbox, Teacher Evaluation Support System (TESS), Digital Act 1280, and Computer Science/STEM.

PROGRAM SUMMARY: The Great Rivers Education Service Cooperative Information and Technology staff provides technical support, consultation, design and engineering, technology planning, disaster recovery planning, funding procurement, E-Rate application assistance, and professional development for area schools in our cooperative.

MAJOR HIGHLIGHTS OF THE YEAR:

The Technology Coordinator worked directly with local area school district Technology Coordinators to get approved E-rate applications for Internet Access, Fiber optic networks, LAN switching equipment, and wireless upgrades totaling over 4 Million dollars. These funds will provide for the existing 1Gig fiber connections between schools to be upgraded to 10Gig as well as provide wireless access for every classroom.

The PC/LAN Technician and Coordinator provided on-site technical support on a day-to-day basis, which allows technology to be used seamlessly in the classroom. This support includes, but is not limited to hands on support with the teachers in their classroom, network equipment configuration and installation, surveillance system configuration and support, and wireless access point configuration and deployment.

Network preparation, traffic shaping, and traffic analysis was provided to schools so they could provide consistent and uninterrupted administration of digital on-line testing – both for intra-district formative assessment and for ACT Aspire.

Support continues on previous years' Fiber Optic projects which have laid and utilized over 400 miles of fiber optic cable throughout the Great Rivers area as well as provide additional High-Speed Internet access has proven very successful and vital to the area schools.

Upgrades were made to the existing server closet to re-locate it and turn it into a modern data center in which any member school can co-locate a physical or virtual server housed in a redundantly climate controlled, limited access, high availability environment. This is provided at no cost to the schools.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Behavior Intervention Consultant – Early Childhood

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Greg McElyea	2	M.S.	Behavior Intervention Consultant

GOALS:

- Increase awareness of K-12 Behavior Support Services to districts in service area
- Assist with development of Functional Behavioral Assessments (FBAs) and Behavior Intervention Plans (BIPs) when requested via CIRCUIT referrals
- Assist with identification of autism spectrum disorders when requested via CIRCUIT referrals
- Schedule training surrounding topics related to behavior

SUMMARY OF SERVICES PROVIDED:

The Behavior Support Specialist's technical assistance was offered for K-12 students receiving special education services, as well as for those in the referral process for receiving special education services, in the Great Rivers Education Service Cooperative area. The Behavior Support Specialist, as well as the Coordinators for K-12 Behavior Support Services, invited the Special Education Supervisors at the beginning of the school year and during the school year to submit CIRCUIT referrals in order to receive technical assistance for individual students. Behavior services were provided for 4 students in 3 of the 10 participating districts, as well as to many other students in neighboring ESC areas. Services included assisting in the development of Functional

Behavioral Assessments (FBAs), the collection of behavioral data, and the identification of appropriate positive behavioral interventions. In addition, trainings were provided for Special Education Supervisors, district and building-level administrators, teachers, and related personnel surrounding topics concerning behavior. Training topics this school year included an orientation to K-12 Behavior Support Services, behavioral data collection, principles of Applied Behavioral Analysis, and positive behavioral interventions.

Great Rivers Education Service Cooperative

2015-2016

Great Rivers Education Cooperative 2016-2017

PROGRAM: Facilities

FUNDING SOURCE: Cooperative Area Districts

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED:

PARTICIPATING DISTRICTS: Barton-Lexa, Brinkley, Clarendon, Forrest City, Helena-West Helena, Lee County, Marvell-Elaine, Palestine-Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Chad Davidson	8	BSC	Facilities Coordinator

GOAL:

The goal of the facilities coordinator position is to provide comprehensive and extensive facilities assistance and planning services to all public school districts, keeping them in compliance with the rules and regulations of the Arkansas Division of Public School Academic Facilities & Transportation (DPSAFT).

PROGRAM SUMMARY: The Arkansas Division of Public School Academic Facilities & Transportation requires multiple submissions from public school districts, regarding public school facilities. A mandated public school academic facilities master plan is due every February 1, with the even year submissions designated as new plans, where new years are added to the end, and these also contain 15 sections to be completed. Also, partnership funding program applications will be drafted and submitted in conjunction with the even year submissions. Odd-year, or preliminary, submissions are updates of the previous year's plan, as well as allowing for the updating and creation of all public school facilities projects. There are also multiple other document submissions required, as well as required meetings.

MAJOR HIGHLIGHTS OF THE YEAR (& IMPORTANT DATES):

February 1, 2016: Complete and full submittal of each district's 15-section facilities master plan, from extensive master planning sessions with districts.

March 1, 2016: Complete and full submittal of participating district facilities partnership applications, along with coordination from district support personnel and outside firms (i.e., architects, engineers), with regards to submittal of accompanying documentation.

May 25, 2016: Commission on Public School Academic Facilities & Transportation meeting, to release the funding list for approved Year 2 projects for the 2015-2017 funding cycle.

July 1, 2016: Closure and re-opening of new annual state mandated inspections through state's mandated CMMS (Computerized Maintenance Management System): SchoolDude (<http://www.schooldude.com>). Provided assistance to districts in coordinating the final closure of the annual report, and assisted multiple districts with scheduling of new annual PM schedules.

Late Summer, 2016: Not a hard date set, but historically, this is when the DPSAFT will release to individual districts, of Partnership 2017-2019 written project determinations, based on previously submitted applications.* (*see above & below for more information*)

September 1, 2016: Approval of previously submitted facilities master plans.

Mid-October, 2016: 2017 Odd-year, or preliminary, master plan update guidelines published (in master plan web tool, no hard copy, usually).

October 20, 2016: Deadline for submittal of approved year 1 Partnership 2013-2015 projects' signed construction contracts, ensuring the continuation of secured state share funding. Districts lacking this documentation were notified a minimum of 45 days in advance of this date, for all committed projects to be secured.

February 1, 2017: 2017 Odd-year, or preliminary, master plan update due (all will be completed).

May 1, 2017: Official publication of 2017-2019 Partnership approved and Year 1 funded lists.

July 1, 2015: Deadline for Year 1 (approved and funded) 2015-2017 Partnership program agreements to be executed (meaning both district and division signatures).

(More information on Partnership funding--)

*As funding was not yet secured, only approved square footage (SF) figures were provided, but based on the DPSAFT's most recent calculations for RS Means (their basis for project cost estimation), partnership cost estimation is possible. The DPSAFT approved 447,366 SF of either renovations or new space for the approved projects of the GRESC districts, who applied for the

Partnership 2015-2017 funding program. Based on current RS Means cost estimates from the Facilities Division, the estimated totals for possible qualifying project costs are \$26,092,710. This would potentially mean \$16,601,281.48 in partnership state share for these approved 2015-2017 Partnership projects, if funding is provided for all approved projects for the districts of the GRESC. As of this writing, Year 2 funding hasn't been released.

For comparison, in previous Partnership funding programs, for the 2013-2015 Partnership program, the Facilities Coordinator secured \$8,115,140.51 in state share funding, for \$14,209,661 in total qualifying project costs for the GRESC districts where we submitted and applied for eligible projects. With the 2009-2011 & the 2011-2013 Partnership programs, the amounts were a little less, at \$6,723,354.76 total qualifying project costs, and \$3,912,867.62 in state shares. That's a total state share amount of \$34,723,810.10 secured for GRESC districts over the last 8 years, with all applied for and approved Partnership projects. None of these totals account for any catastrophic funding, which might also have been secured, as needs arose.

With the 17-19 Partnership funding program, I made application for the participating GRESC districts to receive approximately \$39 million in state share from the Partnership funding list, but that's an estimation. No state share figures will be released until May 1, 2017.

Along with all of these Partnership projects, once the state share amounts are listed with the publication of the Partnership lists (around May 1st of every year), the DPSAFT requires multiple documents per project, as well. Those include the 8-page Partnership agreement, the agreement appendices (two documents, at various page lengths), and the construction approval form (CAF, to accompany plans, specifications, and contracts). Plus, the Facilities Coordinator also assists the districts in securing the state reimbursements, through reimbursement documentation.

There have also been many submissions that aren't on necessary or rigid timelines, but rather, that continually occur though-out the year. For example, all projects (minimum \$20,000 total cost), regardless of funding source, are required to have DPSAFT review, approval, and submission of each one's construction approval form documentation.

Along with the submission of many documents, there have also been a large number of meetings involving the DPSAFT, where the Facilities Coordinator has either represented the involved districts, or sat alongside the districts, assisting them with their facilities. This has typically occurred, not necessarily on a scheduled basis, but as the need has arisen.

The Facilities Coordinator is also involved with the selection and future work of district design professionals, from RFQs (Request For Qualifications) to, once they're selected, assisting with the design plans and specifications.

Lastly, there's a great deal of district correspondence, relating to any and all facilities, for which the Facilities Coordinator provides valuable insight and assistance.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Digital Learning – Virtual Arkansas, Team Digital, Arkansas Moodle

FUNDING SOURCE: Arkansas Department of Education Grant - Act

COMPETITIVE GRANT: YES NO X

RESTRICTED: Yes NON-RESTRICTED:

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Dexter Miller	13	BSE	Distance Learning Coordinator

GOAL:

The mission of the digital learning program is to provide equitable, efficient, and effective learning opportunities for students and educators. These opportunities are offered utilizing digital solutions to extend learning where local access may not exist. The Arkansas Education Service Cooperatives support and provide resources to assist Virtual Arkansas and Team Digital.

PROGRAM SUMMARY: Virtual Arkansas is an Arkansas-based program that is implemented through a partnership between the Arkansas Department of Education and the Arkansas Education Service Cooperatives. We provide an array of quality digital courses to public school students in Arkansas and utilize Arkansas licensed instructors. Virtual Arkansas serves approximately 200 districts and over 30,000 student enrollments. We are not an online high school or a diploma-granting institution but are a resource for supplementing education for public school students. Students who are enrolled in a public school may be enrolled in Virtual Arkansas courses by the local school administration.

Virtual Arkansas is committed to developing the full potential of Arkansas students by providing access to quality online courses that incorporate interactive instruction to prepare students to be successful in their college and career educational pursuits and in the global economy. School districts “Power Up with Virtual Arkansas” for a variety of reasons. A district may face a teacher shortage, want to provide additional course scheduling opportunities to their students, offer their students access to a digitally enriched curriculum, or broaden their course offerings beyond those mandated by the Standards for Accreditation of Arkansas Public Schools. Finally, districts that partner with Virtual Arkansas will be satisfying the requirements of Act 1280, the Digital Learning Act of 2013.

Team Digital: Team Digital works within a state team to support the planning, implementation, and evaluation of digital learning environments in Arkansas. Team Digital has expertise in emerging online teaching and learning practices that allow for active learning; effective content authoring and lesson design methods that best serve digital education; and strategies in helping educators transform system-centered practices into student-centered practices. Team Digital interacts with media production workgroups, learning management system consultants, technology solution experts, pedagogical experts, curriculum design experts, and educators around the globe. Team Digital also provides operational support to state projects, Arkansas Cooperatives, and public schools in the growing interest in blended and online learning.

Arkansas Connect2Digital is a digital platform where Arkansas educational agencies house digital resources and implement blended professional development. It supports 20,000 users and is managed by the Arkansas Education Service Cooperatives.

MAJOR HIGHLIGHTS OF THE YEAR:

- Held first ever workshop in the state for Teachers and Administrators on Blended Learning and Remix strategies
- Implemented a technical assistant/will-call application to help participating schools solve issues within 24 hours
- Presented at TICAL on the future of Blended Learning
- Training over 10 high school counselor's around the state on Virtual Arkansas' registration process
- Attended the 2015 INACOL conference on Blended Online Learning
- Completed and Education Cooperative promotional video
- Successfully implemented team visits to Virtual Arkansas' participating schools
- Named resource affiliate for ADE on school waiver process
- Completed a Virtual Arkansas Marketing promotional video for the Essentials of Computer Science and Computer Programming
- Presented at the 3rd annual Data Conference

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Response to Intervention (RTI) Specialist

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Cindy Sibley	11	MSE	Literacy Specialist

GOAL:

- To be the designated Dyslexia Contact Specialist at the Great Rivers Education Service Cooperative for the 2015-2016 school year.

PROGRAM SUMMARY

Arkansas State Legislature enacted Act 1294 of the 2013 regular session to ensure that children with dyslexia have their needs met by all Arkansas public School systems. This act was codified as A.C.A. §6-41-601. This code defines dyslexia describes required screening and intervention, and lists required actions of the state, education cooperatives, and school districts.

The Arkansas Department of Education (QDE) is also currently researching programs of study and certification for dyslexia therapists. No later than the 2015-16 academic year, a school district shall have individuals to serve as dyslexia interventionists meeting the needs of children with dyslexia in public schools. Act 1294 of 2013 and Act 1268 of 2015, the 2015-2016 school requirements are:

1. Choose a dyslexia program with explicit, direct instruction that is:
 - A. systematic, sequential and cumulative
 - B. multisensory and researched base

- C. offered in small groups
- D. delivered with fidelity as the author intended

2. Train dyslexia interventionists.

3. Screen and provide services.

- A. All K-2 students will receive initial screeners.
- B. Grades 3-12, any student experiencing difficulty as documented by the classroom teacher.
- C. Students performing at some risk on initial screeners will be given Level I dyslexia screeners. A Level II dyslexia screener will be administered to determine student's eligibility for accommodations.

As the RTI Instructional Specialist for the Great Rivers Cooperative, my main goal is to help each district develop and implement a comprehensive RTI program to serve the needs of our students. Response to Intervention (RTI) is a multi-component, general education model, designed to identify students who may be at risk for learning and behavioral challenges, offer support while continuing to monitor student's progress.

At the Great Rivers Cooperative, all of our districts decided to choose the same explicit, systematic, research-based reading program for Tier III Core instruction and intensive intervention. I also ensure that all interventionists are trained and following the Susan Barton Reading and Spelling Program to fidelity. I help establish school-based decision teams who analyze data and screener results, for students, to ensure the comprehensive RTI process is ongoing and serving students well.

MAJOR HIGHLIGHTS OF THE YEAR:

- As the RTI Instructional Specialist, I communicate with each district on the aspects of the Dyslexia law, along with the implementation of the RTI Arkansas Multi-tiered System of Support.
- Professional development for training interventionists in the Susan Barton Reading and Spelling System.
- Demonstrate interventions for tutors/interventionists.
- Professional development in Level II interventionists in the classroom designed to address skill deficits for students that compliments and supports the core instructions.

GOAL AND DESCRIPTION: Great Rivers Cooperative staff, including technology coordinators and teacher center coordinators, has provided support to district testing and technology personnel as preparations were made to implement online assessments in this initial year. Support included onsite visits within districts to aid in preparing technology infrastructure, provide multiple training opportunities for PARCC updates and assistance with preparation, and hosted PARCC workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

Great Rivers Cooperative also provided support to classroom teachers and instructional leaders to ensure that the Common Core State Standards were taught in a manner that would prepare students for the PARCC. In addition to ADE presenters, cooperative literacy and math specialists provided face-to-face trainings on the PARCC resources that are available and how these could be utilized to strengthen the classroom teachers understanding of assessment requirements for students. Trainings will continue during the summer of 2015 and the upcoming school year

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Arkansas Leadership Excellence and Development System (LEADS)

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Staff			Staff

DESCRIPTION:

The Interstate School Leaders Licensure Consortium (ISLLC) Standards provide the basis for the Arkansas evaluation and support system for all Arkansas administrators except superintendents (for whom an evaluation system is currently being piloted). Trainings for the LEADS program throughout the 2015-2016 school year included work with the rubric, summative evaluations of principals, assistant principals, and other administrators, use of BloomBoard for evaluation and artifacts, and other support, as needed in individual cooperatives. Additional trainings and support were offered by Great River throughout the year 2015-2016 to administrators.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Arkansas Inductive Mentoring Model (AIMM)

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

PERSONNEL:

Name	Years at Cooperative	Degree	Position
Jimmy Lou Brandon	14	MSE	TCC/GT Specialist
Jeannie Pittman	4	MSE	Math Specialist
Cindy Sibley	11	MSE	Literacy Specialist
Constance Watson	7	MSE	Literacy Specialist

Program Summary:

ADE transitioned from Arkansas Induction Mentoring Model (AIMM) to the Novice Teacher Mentoring Program and all trainers were provided update training.

The Novice Teacher Mentoring Program is designed to provide a novice teacher the support, assistance, and encouragement of a site based, trained mentor in order for the novice teacher to learn the skills he or she needs to become an effective, knowledgeable teacher. District project directors were encouraged to share the mentor/novice teacher update video with previously trained mentors and novice teachers. The ADE provided electronic resources such as: the Mentor Notebook, Mentor/Novice Teacher Update, Video and the Project Director Update Training Video in lieu of face-to-face trainings. New mentors were trained in the updated Novice Teacher Mentoring Program. Great Rivers Education Service Cooperative provided four (4) sessions in the Novice Teacher Mentor Program.

GOALS:

- Become familiar with the Framework for Teaching (FfT) and the relationship between Novice Teacher Mentoring Program and TESS (Teacher Effectiveness Support System)
- Use the Orientation Guide
- Know and be able to implement mentor responsibilities
- Navigate a mentoring module in Moodle
- Identify effective coaching techniques for use in the mentoring process

The cooperative provided districts ongoing support as needed.

2015-2016

PROGRAM: Arkansas Transition Services

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/WestHelena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Bonnie Boaz	15	MS	Coordinator
Jennifer Harte	3	BA	Administrative Assistant

Transition Consultant assigned to school districts in Great Rivers Education Cooperative, Northeast Education Cooperative and Crowley's Ridge Educational Services Cooperative areas: Jennifer Williams

GOAL:

Arkansas Transition Services is to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes.

PROGRAM SUMMARY: The Arkansas Department of Education, Special Education Unit, funds a grant by which the consultant group, Arkansas Transition Services, works to effectively assist students with disabilities, educators, parents, agency personnel and community members in preparing students to transition from school to adult life and reach positive post school outcomes, as mandated by the Individuals with Disabilities Education Act.

Arkansas Transition Services consists of six transition consultants across the state, including a State Transition Coordinator. All consultants provide district, regional and state-wide trainings and technical assistance throughout the year. Arkansas Transition Services develops and provides trainings based not only on Federal mandates, but also on the needs of school districts and transition teams in the area of transition. Some of these trainings include how to develop transition classes, transitions assessment trainings, involving the student in transition planning, compliance with

transition indicators, and how to gain parental participation and how to establish local transition teams. We continue to work hard to build capacity in the districts through thorough reviews of transition plans, followed up with report findings and recommendations for additional training. This has been an effective and proactive practice that districts have participated in prior to being monitored by the Special Education Unit.

ATS also works with adult service providers around the state to share concerns and possible strategies to better connect with schools and their students. A collaborative effort is made among districts, agencies and ATS to hold Transition Fairs to increase the knowledge of agency services around the state. Agencies are also invited to participate in IEP meetings and on local transition teams. ATS also maintains a leadership role in the Arkansas Interagency Transition Partnership, which works to bring agencies together to discuss issues and develop strategies to better serve schools and students.

- ▶ Arkansas Transition Services has worked with several technical assistance centers, including National Secondary Transition Technical Assistance Center, National Post School Outcomes Center and National Dropout Prevention Center for Students with Disabilities. These technical assistance centers now are under one project, National Technical Assistance Center for Transition (NTACT). NTACT is a national technical assistance center funded by the U.S. department of Education's Office of Special Education Programs and is focused on improving transition outcomes. Each year, at least two ATS representatives attend the NTACT sponsored, Capacity Building Institute as a state team, along with Arkansas Rehabilitation Services representatives, teacher representatives and IDEA Data and Research representatives. In March, we were notified that Arkansas had been selected to be an “Intensive State” with NTACT. We will receive assistance with the development and implementation of technical assistance/professional development plan based on the goals and outcomes we identified in our application. The goals we submitted in our application are as follows:
- ▶ To increase implementation and analysis of data collection practices at varying levels (district/school/student) to improve transition programs and student outcomes.
- ▶ To increase awareness of and capacity to assess and implement predictors of post school success using evidence based practices in the area of secondary transition based on district and state data available.
- ▶ To improve our provision of technical assistance services and capacity building strategies reaching more educators through varied opportunities.

The CORE team attended the Capacity Building Institute and began working on an infrastructure analysis of our groups who lead the charge of carrying out our plan. The State Implementation Team will be included on further plan development in June 2016.

Transition File Reviews were provided for the following districts: Osceola, Forrest City, Manila, Armorel, Riverside, Brinkley.

On site trainings/file review follow up were provided for the following districts: Osceola, Manila, Clarendon, Brinkley, Brookland, Valley View, Maynard, Harrisburg, Gosnell, West Memphis, Palestine-Wheatley, Marked Tree.

Monitoring follow up was provided for the Harrisburg school district.

2015 Summer trainings were provided for the Crowley's Ridge Educational Services Cooperative, and Northeast Education Cooperative: Toolkit Training, Student Directed Transition Planning, and Preparing Middle School Students as They Consider Going to College. Northeast Cooperative had 36 in attendance representing 10 districts. Crowley's Ridge had 39 in attendance representing 10 districts.

MAJOR HIGHLIGHTS OF THE YEAR:

A Transition Summit is held every other year for local transition teams around the state to meet and assess the needs of the team's area. These teams then develop a plan based on those needs to improve transition outcomes. We are currently planning for the 2016 ATS Summit. The focus will be Student Development. We also held two Cadre meetings where the local teams came together to receive professional development in STEPSS, evidence-based practices, transition planning for students receiving indirect services, assessments, post-school options, summary of performance, and agency information. These events provided opportunities for continued team planning and networking, as well.

College Bound is another annual event held in collaboration with University of Central Arkansas. It is a three day residential program intended to increase student's knowledge of accommodations, assistive technologies, leadership skills, and other exciting aspects of college life. Parents and professionals are also invited to attend and learn about the possibilities for their children and students at the college level.

CIRCLES is an innovative approach to providing transition planning services. In CIRCLES, there is a School Level Team (SLT), made up of school staff and the caseworkers and case managers of each of the outside agencies who might be able to help our students make this transition successfully. There is also a Community Level Team (CLT), made up of agency and district administrators.

These two different teams meet separately to serve to different functions in the CIRCLES model of service delivery. Forrest City School District is one of two districts who piloted the program in 2015-2016 ATS will continue to facilitate the districts' planning efforts for implementation in the fall of 2016.

The State Toolkit for Examining Post-School Success (STEPSS) is a web-based, data-based decision making tool designed to support state departments of education in disseminating and using data related to secondary transition (SPP Part B Indicators 1, 2, 13, and 14) to improve in-

school transition programs for youth with disabilities. A STEPSS training was held in June 2015 with eight districts attending including, Forrest City School District. We will be reviewing next steps with each district to use this data analysis tool to improve transition outcomes as we increase our efforts to recruit more districts' participation.

Our website (www.arkansastransition.com) is continually updated with new resources, including a new Transition Resource Guide (also in Spanish), Transition Fair Toolkit and Guidance and Career Counselor's Toolkit for teachers and counselors; interactive IEP forms for students; healthcare transition information for parents; the TAGG online assessment for secondary aged youth with disabilities, their families and professionals; and updated agency resources by county.

The Arkansas Interagency Transition Partnership (AITP) will hold the fourth annual AITP Summer Connections as a way for district personnel around the state to learn about a variety of agency services. This year we will have two school districts presenting their transition programs that include a work component. We will also have an interactive session on the Workforce Innovative Opportunities Act. The AITP has also partnered with Arkansas Rehabilitation Services, the Special Education Unit, and the Arkansas Mental Health in Education Association to host a one day workshop on Mental Health issues in transition-age students.

In preparation for the 2016-2017 school year, the following training sessions are being offered this summer for the Great Rivers Education Cooperative, Crowley's Ridge Educational Services Cooperative, and Northeast Education Cooperative: New Interactive Toolkit Training, Transition Planning: Considerations for Students on the Autism Spectrum and Students with Intellectual Disabilities, Transition Practices for Post School Success.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: State Personnel Development Grant

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: X NON-RESTRICTED:

PARTICIPATING DISTRICTS: State of Arkansas

Name	Years at Cooperative	Degree	Position
Jennifer Gonzales	6	M.S.	Grant Director
Debbie Fleming	4	M.S.	Educational Consultant
Rose Merry Kirkpatrick			Co-Teaching Director
Lorena Harper	8 months	B.S.	Administrative Assistant

GOAL: The State Personnel Development Grant (SPDG) is a five-year, \$1 million per year, grant from the U.S. Department of Education's Office of Special Education Programs (OSEP). The grant has four primary goals:

Goal 1 activities- will establish a statewide infrastructure to support professional development with LEAs, targeted for Improvement (NCLB) or triggering on an SPP Indicator (IDEA), at the Prevention, Strategic, and Intensive levels collaboratively through Education Service Cooperative ESC staff.

Goal 2 activities- will provide professional development and research-based literacy and math instruction and interventions at the Tier 1, 2, and 3 level in the schools/districts targeted by the ADE, ADE-SEU, and/or participating ESC's.

Goal 3 activities-will blend professional development and research-based Positive Behavioral Support System (PBSS) instruction and behavioral interventions with Goal 2 activities at the Tier 1, 2, and 3 levels in the same targeted Goal 2 LEAs. Parent involvement and attention to disproportionality, especially in high poverty schools, are infused into both Goal 1, especially in high poverty schools, are infused into both Goal 1, 2, and 2 activities.

Goal 4 activities- aggressive recruitment, training, retention, and capacity building strategies will ensure that all students with disabilities, especially in high poverty schools, are taught by highly qualified teachers utilizing scientifically-based literacy, mathematics, and behavioral

instruction and intervention strategies, who will remain in-field beyond their third year of teaching.

These goals have been accomplished by improving professional and personnel development systems for teachers, principals, administrators, related services personnel, paraprofessionals, and early intervention personnel using state agency, higher education, Education Service Cooperative and other partnerships, and by recruiting, training, and retaining highly qualified special education teachers. Improved student outcomes will result in greater staff, school and district success relative to NCLNB, IDEA, and state educational standards.

PROGRAM SUMMARY:

The Arkansas SPDG continues to build on the lessons and outcomes of the first Arkansas SIG/SPDG, and our experiences and accomplishments during the first five years of this grant, by implementing scientifically-based interventions and strategies in schools and school districts that are in School Improvement status or that need to enhance their services for students with disabilities. We are also systemically focusing on building the organizational, professional development, and instructional capacity of our regional Education Service Cooperatives (ESCs), districts, and schools in specific areas so that they are able to more independently provide the academic and social, emotional, and behavioral services, supports, programs, and interventions to students—along a multi-tiered continuum—who are at-risk, underachieving, unresponsive, and unsuccessful from kindergarten through high school.

Given this, the Arkansas SPDG has identified goals whereby SPDG staff are available to work with schools in Priority or Focus status, as well as self-identified ESCs, districts, and schools, in the implementation of scientifically-based strategies in the areas of leadership, literacy/reading and math, PBSS/social, emotional, and behavioral interventions, RtI²/Data-based Problem Solving, co-teaching, recruitment and retention, and other content areas. A summary of our First No-Cost Extension activities and progress related to the federal OSEP/SPDG Program Measures and Arkansas SPDG Project Measures is provided below.

Federal SPDG Program Measures

The AR SPDG has three initiatives within which evidence-based professional development is provided to support the attainment of specific competencies in the areas of effective instruction (especially for students with disabilities), literacy, and behavior: the AR Co-Teaching Project, Arkansas Adolescent Literacy Intervention Strategic Instruction Model (AALI SIM), and the Positive Behavioral Support System (PBSS) Facilitator PLC initiatives.

The AR SPDG also addresses teacher retention and recruitment. As such, this report includes data and narrative for SPDG Program Measure 4 in addition to reporting on Program Measure 1 (effective professional development practices), Program Measure 2 (implementation fidelity), and Program Measure 3 (ongoing TA activities) for the three initiatives cited above.

This SPDG Report provides the information and data requested by OSEP relative to these four Program Measures. Given that our project reported on the Program Measures in the past three annual reports, SPDG staff have updated the worksheets for Program Measure 1 to capture work completed during this reporting year. Worksheet responses for this year's report is supplemental to the materials submitted with the previous reports reflecting a cumulative evidence effort. Updated worksheets are in Appendix A, B, and C.

Highlighted Outcomes for the Arkansas SPDG Project Measures

Establishing an Integrated Statewide Professional Development Network

- Using Google analytics, hits, web traffic and data downloads were analyzed for the website (www.arstudentsuccess.org) from March 1, 2014 through September 1, 2015. In total, there were 72,580 pageviews in Year 6.
- Web analytics were also analyzed for the math interventions matrix (www.mathinterventions.org) from March 1, 2014 through September 1, 2015. There were 65,476 pageviews in Year six.
- The literacy intervention project has been completed at this point. The outcomes of this project are being used to provide professional development modules and workshops on how to unpack the Arkansas Common Core Standards, as well as a new K-12 literacy intervention tool that will update the current Literacy Matrix that is on the SPDG website.
- Professional development partnerships were established or maintained with 10 ESCs. These partnerships ranged from broad, overview presentations to some very specialized professional development requests.
- During SPDG Year 6, there were a total of 33 ESC training sessions involving 889 professionals.
- As of September 2015, a total of 25 parent mentors have been recruited and trained in target districts across the state. During Year 6, a total of 71 trainings were conducted by these CPRC/PTI trained Parent Mentors.

Strategic Monitoring, Planning, and Implementation of Scientifically-Based Interventions/Strategies to Meet Identified Needs of Target Schools

- During SPDG Year 6, there were a total of 19 LEA training sessions involving 585 local school district professionals.
- The RtI²/SPRINT process was part of the on-site consultation services provided to 1 participating LEA that completed a SPDG Request for Services and the follow-up Plan-for-Planning process.
- There were 12 co-teaching training sessions provided during Year 6 of the SPDG.

Recruitment, Training, and Capacity Building to Achieve 100% Fully Licensed Special Education Teachers and Increased Retention for Special Education Teachers

- During 2014 - 2015 school year, there were 4581 licensed special education teachers serving children with disabilities in Arkansas. Of these, 4196 (91.60%) were highly qualified and 385 (8.40%) were not highly qualified. This was an increase of .84% in the number of special education teachers that were highly qualified from 2013-2014.
- A total of 94 first or second year special education teachers attended sessions by SPDG staff in the areas of literacy, classroom management, accommodations/modifications, and differentiated instruction.
- Of the 25 special education teachers that attended the initial training session in February 2012, 15 are still teaching special education, one in general education, two are not teaching, and seven could not be located.
- Current data collected for the Spring 2013, Summer 2013, and Fall 2013 semesters from the Arkansas Department of Higher Education (ADHE) indicates there were 11 university teacher education programs that produced 258 individuals who completed programs of study in Special Education. This is an increase of 33% from last year.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: State Personnel Development Grant

FUNDING SOURCE: Arkansas Department of Education October 1, 2015

COMPETITIVE GRANT: YES NO X

RESTRICTED: X NON-RESTRICTED:

PARTICIPATING DISTRICTS: State of Arkansas

Name	Years at	Degree	Position
Jenifer Gonzales	6	M.S	Grant Director
Yvonne Furniss	8 months	M.S.	Educational Consultant
Lorena Harper	8 months	B.A.	Administrative Assistant

On October 1, 2015 the Arkansas Department of Education was awarded a new State Personnel Development Grant (SPDG) from the U.S. Department of Education Office of Special Education Programs. The SPDG will directly support the ADE SSIP targeted districts and build upon the Response-to-Intervention (RTI) Arkansas initiative, which is a multi-component, general education model designed to identify students who may be at risk academically or behaviorally, offer support, and monitor progress. The five-year grant will be used to develop RTI literacy and behavior resources and tools, including professional development and technical assistance, that co-ops, districts, and schools can utilize to assist all students, especially students with disabilities.

Grant Goals

- Develop statewide RTI literacy and behavior resources and tools.
- Increase the capacity of regional and district teams to deliver high quality RTI professional development and technical assistance to support implementation fidelity of evidence based instructional practices within schools.
- Improve educators' ability to implement evidence based literacy and behavior support practices.
- Improve literacy and behavior outcomes for students.

The SPDG will work with Little Rock School District for the entirety of the grant and will also scale up to additional districts in year two of the grant. The protocols and resources utilized and developed by the SPDG will align and support the implementation plans outlined in the ESEA Flexibility Plan for schools in school improvement. The SPDG has three main partners that will support the work in targeted districts:

- The American Institute of Research and will provide RTI support and resources
- Arkansas State University's Center for Community Engagement (CCE) will provide support to implement a multi-tiered system of support for behavior
- The Parent Training and Information Center will provide parents with an understanding of RTI and their role in supporting their child

Update on Statewide RTI Resource Development

- The SPDG in partnership with the ADE Curriculum and Instruction Unit has
 - created a statewide RTI Advisory Team. The purpose of the Advisory is to more
 - effectively address statewide RTI Implementation including identifying strengths
 - and barriers, guiding implementation, and supporting effective communication.
 - The Advisory met on March 1, 2016 and will continue to meet quarterly in Little
 - Rock. The Advisory will provide an opportunity for feedback on implementation
 - challenges, professional development, and guidance documents.
- Arkansas State University will develop three AETN Modules (Positive Behavioral Interventions and Supports (PBIS) Overview, PBIS Leadership, basic classroom management). They will also develop mini modules (short videos with resources) that guide districts through PBIS implementation.
- American Institute of Research is currently developing longer professional development modules. They are finishing an RTI Overview module that will be
 - used to train district implementation teams and other state level/regional
 - specialists. They are also working on a RTI screening module and a RTI
 - Leadership Module.
- SPDG is working on a role and function document for the State, Regional, and District Implementation Teams. This document will outline what the role and function of each team in regards to how they support RTI work through the SPDG.
- The SPDG is working closely with the ADE School Improvement Unit to align resources to support Little Rock School District (LRSD).

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: Community Health Nurse

FUNDING SOURCE: Arkansas Department of Education

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Cassie Lewis			Community Health Nurse

GOAL:

The focus of the position is population based health activities that impact children and communities. The CHNS works with schools, community coalitions, health care providers, and Hometown Health regional teams to protect and improved the health of the community. A key focus is working with schools and communities to incorporate the elements of CDC's Nine Best Practices for a comprehensive tobacco control program. Also, the CHNS provided technical support and assistance to implement CSH (Coordinated School Health) in schools. CSH programs are designed to meet the physical, social and emotional needs of all students, in order for students to become healthy and productive adults in their communities.

PROGRAM SUMMARIES: The CHNS (Community Health Nurse Specialist) is employed by Arkansas Department of Health and is housed at the Regional Health Office in Forrest City, Arkansas with office space also provided at the Great Rivers Education Service Cooperative in Helena, Arkansas. The position is funded through the Master Tobacco Settlement dollars initiated by Act 1. This is a collaborative effort between Arkansas Department of Health, the Arkansas Department of Education and Great Rivers Education Service Cooperative.

Five counties are serviced by this position. These counties include St. Francis, Lee, Phillips, Monroe and Crittenden counties.

In addition to focusing on the improved health of the community, the CHNS also:

- Provides technical support and health education to schools and communities on public health issues affecting the public
- Abides by the Arkansas Department of Health policies and procedures
- Works under direct supervision of the CHNS Supervisor with input from the Education Cooperative's Director
- Receives performance evaluation by the Arkansas Department of Health CHNS Supervisor

The CHNS collaborates with and works closely with the schools to provide technical assistance for integrating nutrition and physical activity into the overall curriculums, and offering guidance to the Nutrition Physical Activity Advisory Committees. Also, guidance and assistance is offered to schools that need assistance with School Index process. Health screening training is provided for new school nurses as needed. Other health related trainings are provided for all School Nurses serviced by the GRESC service area.

Great Rivers Education Service Cooperative

2015-2016

PROGRAM: ACT Aspire

FUNDING SOURCE:

COMPETITIVE GRANT: YES NO X

RESTRICTED: NON-RESTRICTED: X

PARTICIPATING DISTRICTS: Barton/Lexa, Brinkley, Clarendon, Forrest City, Helena/West Helena, KIPP Delta, Lee County, Marvell/Elaine, Palestine/Wheatley, West Memphis

Name	Years at Cooperative	Degree	Position
Staff			Staff

GOAL AND DESCRIPTION: Program Name: ACT Aspire

Competitive Grant Yes - No - X

Goals and Description:

Great Rivers Education Service Cooperative technology coordinators and staff have provided support to district testing and technology personnel as preparations were made for the initial implementation of ACT Aspire in the spring of 2016. Support included onsite visits within districts to aid in preparing technology infrastructure, providing multiple training opportunities for ACT Aspire updates, and hosting ACT Aspire workdays to help with data entry and test scheduling. Additionally, cooperative technology coordinators provided ongoing assistance through emails and phone conversations as problems and questions arose in districts.

The Great Rivers Education Service Cooperative also provided support to classroom teachers and instructional leaders to ensure Arkansas content standards were taught in a manner that would prepare students for the ACT Aspire. In addition to ADE presenters, cooperative content specialists, as well as the GT specialist, provided face-to-face trainings on ACT Aspire resources and their use in strengthening the classroom teachers' understanding of assessment requirements for students. Trainings will continue during the summer of 2016 and the upcoming school year.

Director's Annual Letter

The Guy Fenter Education Service Cooperative has served the schools of Western Arkansas for 33 years. I have recently completed my first year as the Director and I am thoroughly excited about all the ways in which we assist with the education of the students of Western Arkansas. I have been both pleased and excited to be involved in this outstanding program that assists local school districts with the education of their students and staff as well as assisting districts in the maximization of their limited funds through Co-op activities.

This report of activities was prepared by the Co-op staff for the purpose of informing our member schools, the ADE and others, about the services that are provided by the Co-op and to satisfy the requirements of Act 349 of 1985. I feel very confident that it satisfies those objectives.

Roy Hester

Director, GFESC

Guy Fenter Education Service Cooperative

Mission Statement

The mission of the Guy Fenter Education Service Cooperative is to assist the member schools in more effective and more equitable use of their shared resources and to provide shared services for the better education of their children and youth.

General Goals

Service desires of the local school districts shall be the paramount influence on the design of the cooperative's services programs. Such programs will also be influenced by the State Department of Education's desire to make services available to local districts through the cooperative.

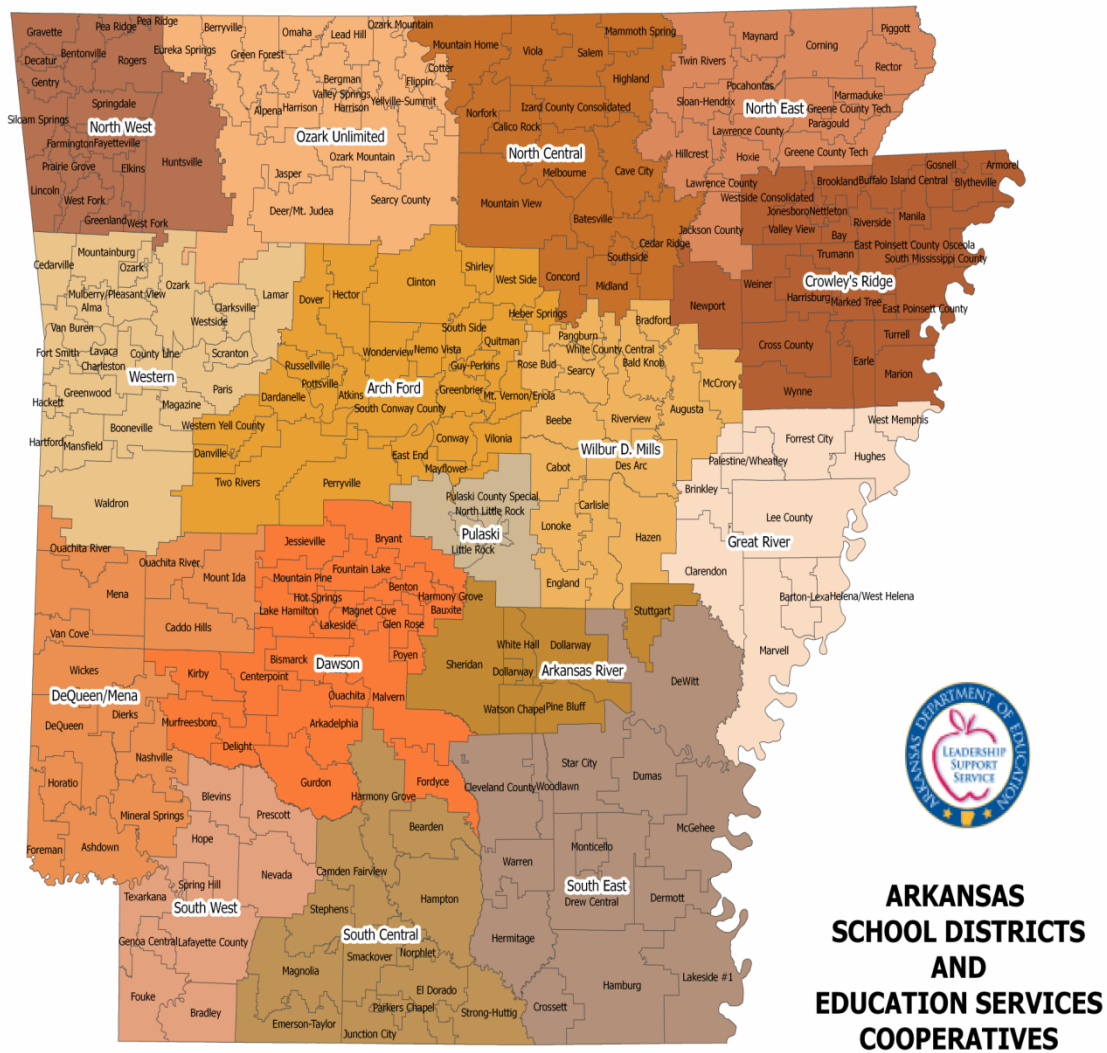

The cooperative shall endeavor to provide requested services more economically and/or more effectively than the same services could be provided on an individual district basis.

The cooperative shall strive to make services to all interested districts as equally accessible as possible.

Communications and Coordination

The cooperative shall work with its local school districts, with other cooperatives and the State Department of Education to improve communication and coordination through the Arkansas network of local school districts.

This cooperative shall constantly strive to reflect the wishes of the local districts' representatives in its operation, consistent with the applicable provisions of statutes and state regulations.

The Guy Fenter Education Service Cooperative serves the following counties:

- Crawford
- Franklin
- Johnson
- Logan
- Scott
- Sebastian
