## AGENDA <br> STATE BOARD OF EDUCATION

July 15, 2016<br>Arkansas Department of Education<br>ADE Auditorium<br>9:00 AM

I. Reception for National Board Certified Teachers (8:30 a.m. in the ADE lobby)
II. Call to Order
III. Recognition of National Board Certified Teachers

Presenter: Ivy Pfeffer, Assistant Commissioner for Educator Effectiveness and Licensure

## IV. Action Agenda

1. Consideration of Reallocation of ABC Grants 10

Pursuant to the authority granted to the State Board of Education, the
Division of Child Care and Early Childhood Education respectfully requests approval for the reallocation of the AR Better Chance funding for the purpose of expanding existing programs or the development of new programs. The funding for these grants resulted from programs either relinquishing their slots or being placed in recompetition.
Presenter: Mary Kaye McKinney
2. Consideration of ABC Payment to the Scholastic Academy - Summer Services

Presenter: Mary Kaye McKinney
3. Consideration of Little Rock School District Community Advisory Board Membership
Pursuant to Arkansas Code Annotated § 6-15-430 (2)(A) If the State Board determines that sufficient progress has been made by a public school or school district in academic distress toward correcting all
issues that caused the classification of academic distress, but the public school or school district has not yet resolved all issues that caused the classification of academic distress, the commissioner, with the approval of the State Board, may appoint a community advisory board of either five (5) or seven (7) members to serve under the supervision and direction of the commissioner.

Presenter: Commissioner Johnny Key
4. District Request for Waivers Granted to Open-Enrollment Charters: Barton Lexa School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. On January 14, 2014, the State Board of Education approved waivers for the Barton Lexa School District. Representatives of the district are appearing before the Board with another petition for waivers.

Presenter: Mary Perry
5. District Request for Waivers Granted to Open-Enrollment Charters: Bismarck School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Bismarck School District are appearing before the Board with a petition for waivers.

Presenter: Mary Perry
6. District Request for Waivers Granted to Open-Enrollment Charters: Brinkley School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Brinkley School District are appearing before the Board with a petition for waivers.

Presenter: Mary Perry
7. District Request for Waivers Granted to Open-Enrollment Charters: Glen Rose School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Glen Rose School District are appearing before the Board with a petition for waivers.
Presenter: Mary Perry
8. District Request for Waivers Granted to Open-Enrollment Charters:

Southeast Cooperative Districts
Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Southeast Cooperative are appearing before the Board with a petition for waivers on behalf of 13 districts served by the cooperative.

Presenter: Mary Perry
a. Cleveland County School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Cleveland

County School District are appearing before the Board with a petition for waivers.

Presenter: Mary Perry
b. Crossett School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Crossett School District are appearing before the Board with a petition for waivers.
Presenter: Mary Perry
c. Dermott School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Dermott School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry
d. DeWitt School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the DeWitt School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry
e. Drew Central School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Drew Central School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry

## f. Dumas School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Dumas School District are appearing before the Board with a petition for waivers.
Presenter: Mary Perry

## g. Hamburg School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Hamburg School District are appearing before the Board with a petition for waivers.
h. Hermitage School District ..... 157Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Hermitage School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry

## i. Lakeside School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Lakeside School District are appearing before the Board with a petition for waivers.
Presenter: Mary Perry
j. McGehee School District
Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the McGehee School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry
k. Monticello School District
Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Monticello School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry

## I. Star City School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in
the school district. Representatives of the Star City School District are appearing before the Board with a petition for waivers.
Presenter: Mary Perry
m. Warren School District

Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to openenrollment public charter schools that serve students who reside in the school district. Representatives of the Warren School District are appearing before the Board with a petition for waivers. Presenter: Mary Perry

## 9. Consideration of Adoption of English Language Arts and Disciplinary

 Literacy StandardsWhen charged with the task of revising the previous English language arts and disciplinary literacy standards, a group of qualified individuals from across the state came together to craft standards that were specific for the schools and students of Arkansas. The result of this work is the Arkansas English Language Arts Standards and the Arkansas Disciplinary Literacy Standards. Reflecting what Arkansas educators know to be best for students, these standards retain the same structure as the previous standards and work together to ensure that students are college and career ready and on track for success. The Arkansas English Language Arts Standards and Arkansas Disciplinary Literacy Standards are respectfully submitted to the State Board of Education for adoption.
Presenter: Stacy Smith and Sherri Thorne
10. Consideration of Embedded Courses

Act 421 of 2013 allows curriculum frameworks from two (2) separate courses to be taught in a single course, known as a combined or embedded course. Several school districts made application to the Curriculum and Instruction Unit for approval of a combined or embedded course and assured, in writing, that the curriculum frameworks for both courses will be taught fully in the
combined or embedded course. Arkansas Department of Education staff respectfully requests the State Board of Education to approve the embedded courses as attached with the understanding that when the curriculum frameworks for one of the courses are revised, a new course approval request must be submitted to the State Board of Education and approval must be granted before a school is allowed to offer the embedded course.

Presenter: Stacy Smith
11. Consideration for Final Approval: ADE Rules Governing How to Meet the Needs of Children with Dyslexia The ADE proposes revisions to these rules to bring them into compliance with Act 1268 of 2015 (codified at Ark. Code Ann. §§ 6-$40-601$ through 610). The proposed rules set forth a process for school district screening students for characteristics of dyslexia and providing services as appropriate. The State Board released these rules for public comment on January 14, 2016. A public hearing was held on February 2, 2016. Many comments were received during the public comment period, resulting in non-substantive changes to the rules. Department staff respectfully requests the State Board give final approval to these rules pending Legislative Council review or approval.
Presenter: Lori Freno
12. Consideration for Final Approval: ADE Rules Governing Creation of 771 School Districts by Detachment
Acts 372 and 947 of 2015 amended Ark. Code Ann. § 6-15-1501 et seq. regarding the creation of school districts by detachment. A public comment hearing was held on May 3, 2016. No public comments were received. The rules were approved by the Governor on April 14, 2016. ADE staff respectfully requests the State Board give final approval to these rules.
Presenter: Jennifer Davis
13. Consideration for Final Approval: Proposed ADE Rules Governing 787 Arkansas Highly Qualified Teacher Requirements

As a result of changes in federal law that eliminate highly qualified teacher status for all except special education, the ADE is recommending these rules to ensure that during the state transition to implementation of requirements of the Every Student Succeeds Act, all students have qualified teachers for core content areas when licensure is waived for charter schools or school districts, and for special education and alternative learning environment teachers. The rules were approved for public comment on May 12, 2016, and a public comment hearing was held on June 16, 2016. Public comments were received, but no substantive changes were made. These rules have been approved by the Governor in accordance with Executive Order \# 15-02. ADE staff respectfully requests the State Bard give final approval for these rules. Presenter: Jennifer Davis and Ivy Pfeffer
14. Consideration of Recommendation to Adopt the Praxis ${ }^{\text {TM }}$

Fundamental Subjects: Content Knowledge (5511)
As an additional option for educators to demonstrate content knowledge as required with Arkansas Qualified Teacher (AQT) rules, the Department seeks Board approval to use the Praxis® Fundamental Subjects: Content Knowledge (5511) as an assessment for special education teachers with a K-12 license and ALE educators, grades K-12, to use the Fundamental Subjects assessment as a means of demonstrating content knowledge in the area of qualification. If approved, ALE educators and K-12 licensed special education teachers who successfully pass this assessment would be qualified under AQT to teach multiple core subjects. This assessment would not be used for licensure endorsements or certifications but only for AQT in these circumstances.
Presenter: Ivy Pfeffer

## 15. Recommendations for Schools Classified in Academic Distress

Presentation of recommendations for schools classified in Academic Distress on April 14, 2016. ADE assigned a team of educators to conduct an onsite review and make recommendations to the State Board of Education, the superintendent of the school district, and
principal of the school. Once reviewed by the State Board of Education, the recommendations become binding on the district for implementation.

Presenter: Dr. Richard Wilde and members of the academic review team
16. Approval of Cut Scores for ACT Aspire 826

The Arkansas Department of Education requests the approval of the State Board of Education to use the ACT Aspire established cut scores for Arkansas students. This will allow Arkansas to have national comparisons with other states that are also assessed with the ACT Aspire, as well as provide schools with guidance about which performance levels will require an academic improvement plan. See https://www.discoveractaspire.org/act-aspire-technical-bulletin1/.

Presenter: Hope Allen
V. Reports

1. Chair's Report

Presenter: Mireya Reith, Chair
2. Commissioner's Report

Presenter: Commissioner Johnny Key
3. Learning Services Report

The ACT and ACT Aspire Report will be presented. The information will be uploaded as soon as the data reports are available.

Presenter: Stacy Smith and Hope Allen
4. Priority School 4th Quarter Progress Reports

ESEA Flexibility Waiver established that the State Board would receive quarterly progress reports related to Schools in Priority Status.

Presenter: Dr. Richard Wilde
VI. Adjournment

Round 1 - Arkansas Better Chance (ABC) Reallocation Grant Awards 2016-2017

Waiver Topic: To Remove Restrictions On Class Size And Teacher Loads
Statute/Standard/Rule to be Waived
Standards for Accreditation

- 10.02.5

ADE Rules

Rationale for Waiver

This wavier would be used to remove class size restrictions on vocational and senior seminar classes only. Student to teacher teaching loads for 7-12 teachers would be waved for all classes. Barton High School is currently on a 8 period day which means our teachers can teach up to 7 periods. The 150 number currently is not researched based and has not been updated since the 1980s. Technology has reduced the teachers grading load. We believe our teachers can teach more than 150 students if needed. Currently no teachers exceed that number for the 2016-17 school year.

## Waiver Topic: Flexible Classroom Time

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- 6-16-102
- 6-18-210

## Standards for Accreditation

- 10.01.4

## ADE Rules

- ADE Rules Governing Mandatory Attendance Requirements for students in grades nine through twelve.

## Rationale for Waiver

This wavier would be used to provide flexible instructional time for all 7-12 classes. The wavier is needed to develop internship, apprentice, and work programs. It can also be used to develop civic education as well as a new hybrid home-school education model. All above waiver request would be allowed from July 20, 2016-July 20, 2021.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

Pertaining to alternative learning environments

## Waivers from Other Rules:

ADE Rules Governing Uniform Grading Scales for Public Secondary Schools and for Optional Use in Public Elementary Schools

ADE Rules Governing Mandatory Attendance Requirements for Students in Grades Nine through Twelve
ADE Rules Governing the Superintendent Mentoring Program
ADE Rules Governing Educator Licensure
Section 4 of the ADE Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditures of those Funds (Pertaining to alternative learning environments)

ADE Rules Governing Public School Student Services
ADE Rules for Gifted and Talented Program Approval Standards
ADE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols in Arkansas Public Schools
Section 1-7 of ADE Rules Governing School District Requirements for Personnel Policies, Salary Schedules, Minimum Salaries, and Documents Posted to District Websites (not a waiver of website posting requirements)
Alternative Learning
Certified staff salary scale
Defibrillator devices
Discipline and school safety policies
Distance learning
Expenditure requirements
Junior Fire Marshal Program
Purchasing of instructional materials

## Regardless of any waivers granted, every charter school must always abide by the following requirements:

- All standardized assessments required by the state must be administered solely by licensed required by ADE Rules Governing the Arkansas Comprehensive Testing Assessment and Accountability personnel, as Program, Sections 5.02.4 and 5.03.2. Violations of ADE assessment procedures are subject to sanctions by the State Board, including without limitation sanctions pursuant to Ark. Code Ann. §§ 6-15-438 and 6.23.105.
- All teachers and school personnel, whether licensed or unlicensed, must submit to the criminal background and central registry checks required by law.
- Any teacher, whether licensed or unlicensed, who teaches a core academic subject area must meet the requirements of the ADE Rules Governing Highly Qualified Teachers Pursuant to the NO CHILD LEFT BEHIND ACT of 2001. Core academic subject are defined by federal law to include English Language Arts, Reading, Mathematics, Science, Foreign Languages, Social Studies, Music, and Art.

Section 4.03(c)(i) of the ADE Rules Governing Uniform Grading Scales for Public Secondary Schools and for Optional Use in Public Elementary Schools

## Regardless of any waivers granted, every charter school must always abide by the following requirements:

- All standardized assessments required by the state must be administered solely by licensed required by ADE Rules Governing the Arkansas Comprehensive Testing Assessment and Accountability personnel, as Program, Sections 5.02.4 and 5.03.2. Violations of ADE assessment procedures are subject to sanctions by the State Board, including without limitation sanctions pursuant to Ark. Code Ann. §§ 6-15-438 and 6.23.105.
- All teachers and school personnel, whether licensed or unlicensed, must submit to the criminal background and central registry checks required by law.
- Any teacher, whether licensed or unlicensed, who teaches a core academic subject area must meet the requirements of the ADE Rules Governing Highly Qualified Teachers Pursuant to the NO CHILD LEFT BEHIND ACT of 2001. Core academic subject are defined by federal law to include English Language Arts, Reading, Mathematics, Science, Foreign Languages, Social Studies, Music, and Art.

Mr. David Toilet, Superintendent
Barion-Lexa School District
Box 97
Barton, Arkansas 72312
Dear Superintendent ToIlet:
On January 14, 2016, the State Board of Education approved the following waiver requests to be effective for a period of five years, from July 1, 2016 through June 30, 2021, as requested by the Barton-Lexa School District:

- Ark. Code Ann. §6-10-106, to allow the school year to begin between August 1 and August 19;
- Ark. Code Ann. §6-17-114, to allow for a common planning time at the end of the day;
- Pertaining to teacher licensure for non-core classes only
- Ark. Code Ann. § 6-15-1004;
- Ark. Code Ann. § 6-17-308;
- Ark. Code Ann. § 6-17-401;
- Ark. Code Ann. § 6-17-902;
- Ark. Code Ann. § 6-17-919
- Section 15.03 of the ADE Rules Goveming Standards for Accreditation of Arkansas Public Schools and School Districts; and
- ADE Rules Governing Educator Licensure; and
- Pertaining to the library media specialist, except that there will be at least one certified library media specialist in the district,
- Ark. Code Ann. § 6-25-103;
- Ark. Code Ann. § 6-25-104;
- Section 16.02.3 of the ADE Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts.

Even with the waiver from the licensure requirements, the district is required to hire licensed teachers in core academic subject areas (English language arts, reading, mathematics, science, foreign languages, social studies, music, and art). Standardized assessments required by the state must be administered only by licensed teachers. All teachers and school personnel, whether licensed or not, must comply with all state laws requiring background checks. A waiver of teacher licensure requirements does not exempt licensed employees from the Code of Ethics for Arkansas Educators.

Please do not hesitate to contact me with any questions. I can be reached by phone, at (501) 683-4800, or by email, at mary.perry@arkansas.gov.

Sincerely,

Mary Perry, Coordinator
Division of Learning Services

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

PBA Only and EOY Only are not included in performance calculations.
Number of enrolled students with completed PBA only: 11
Number of enrolled students with completed EOY only: 15

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Name of Charter School(s) Attended by District Students <br> Arkansas Virtual Academy

## Waiver Topic: Personalized Learning for All Students

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann. § 6-16-102;
- Ark. Code Ann. § 6-18-210;
- The Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine through Twelve;
- Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts;
- The above waivers are being requested for a (5) five year period, through the 2020-2021 school year.

## Rationale for Waiver

The Bismarck School District seeks the opportunity to create a more personalized learning experience for all students. By enabling more flexibility in regards to the traditional classroom day, a student will have the option to complete an internship, attain paid employment, enroll in postsecondary training (college or technical courses), participate in job-shadowing, or participate in community projects (for scholarship purposes or college admissions).

By providing our seniors with up to 3 periods per day of these enhanced learning opportunities, we believe that student grades will increase, student attendance will increase, student discipline referrals will decrease, the achievement gap will narrow, and our graduation rate will increase.

Many seniors are currently taking elective credits just to fill the school day seat time requirements. We have experienced an increased number of failing grades in some upper level electives due to the students not putting forth an effort to do well since they do not need the credit to graduate. To quantify what the high school staff observed, the following data was gathered:
$66 \%$ of seniors attending Bismarck School District in the 2016-2017 school year, will need from one to four credits to graduate.
84\% of seniors attending Bismarck School District in the 2016-2017 school year, will need from one to five credits to graduate.

Anecdotal evidence indicates that students who drop out before graduation do so because they see very little value in the elective courses that do not interest them. By eliminating some of the required seat time, students will be less likely to drop out of school knowing that the ciasses they are taking are relevant to their future goals. They can attend fewer classes and be involved in other opportunities they value.

In early May, we surveyed students to gather data on whether they felt they would benefit from internship opportunities. $98.2 \%$ of the current 11 th grade students indicated that they would value the opportunity to gain real-world experiences in the career paths in which they are interested through an internship. Students will have more opportunities to obtain career and technical certifications during the school day, which would increase their employability. The students expressed that an internship would allow them the flexibility to pursue career interests, work to earn money, participate in student organizations, and complete their studies simultaneously.

## *Student Responses to the Survey:

By providing our school with the opportunity to work, shadow, or volunteer during school hours this would show students good work ethic, and let them see what they will be expecting in the real world. It is not for every student, but it would be a wonderful option to have. This would really help me out, because I would love to start getting the experience on the future job. I would be working at a Vet Clinic and this would benefit me. This oppotunity would also greatly benefit other students and help them develop a good work ethic.

Being able to check out of school earlier would allow me to go to work and still have time for course/ home work that I need to do instead of staying in school and taking elective classes that I do not need.

With this privilege, I would be able to either acquire a job and/or further pursue my college career.
Working during school hours would help me to make money that would go towards college. The more I work now, the less I have to work in college. I only need two more credits to graduate, yet I have to stay in classes all day long that I do not need. As of now, I cannot be at work until around 4:00 p.m. depending on traffic. This not only limits me to the amount of money I can make, but it also cuts the amount of time I have to do homework. If I could get out of school after I'm finished with my needed classes I could go make more money specifically for college and study for the classes that I actually need to graduate.

Being able to work during school hours would make it easier to balance work and school without being overly tired during the day, because I had to work a late shift. It would also make in easier to work because I would have more time available. I have a job at Olive Garden as a hostess so I spend a lot of time on my feet and when I get home I'm tired and don't want to do homework that late.

I am really interested in maturing with a job that I actually have to schedule around. I feel taking the same classes even after I have the credits I need to graduate are repetitive and unnecessary. That is probably why most seniors get "senioritis."

I will be taking two AP classes next year, so I will need at least 2 hours a night to study. Being able to go to work earier will allow me more study time so I'm not to tired to do it when I get home.

Attending school and taking an unnecessary elective class while I could be using the extra time to make more money to help support my family. As of right now, I am only able to work the weekends. Although the extra money is needed, I cannot work weeknights because I am an Honors student involved in extracurricular activities and wouldn't be able to get my homework done to the best of my abilities.

Currently I work during the summer. This program would allow me to gain skills through work throughout the entire year. Working year round would allow me to experience a full commitment of working and hefp me learn people and job skills that will get me ready for college and get me ready to enter the job force. Wasting time through unnecessary classes is pointless when students could be gaining real skills outside of High school.

I have a vehicle that I have to pay off and I need to work as much as possible, plus I need to make more money to put towards college. I also am not able to get to work until about 4:00 every day and I wouldn't get off and get home until 8:00-9:00 every night. With that being said I don't have much time to study and do homework as I would like to have so being able to get out of school at lunch everyday and being able to go to work, I would not only be able to work more hours, but I would have more time to study and do homework for school.

Rather than having to wait until I was out of school, I would have an easier time taking care of things that I wouldn't be able to take care of if I was forced to be at school. I am looking into Occupational Therapy. With this addition of time, I would have the opporturity to shadow someone who is already in this field of work. If I was required to be in school, I would have a limited amount of time to do this.

Perhaps if I got out of school say, two hours earlier, I'd be able to go to work at 2 p.m. rather than 4 p.m. This would allow me to work a standard 4 hour shift and get home at about 6:30 or 7:00 rather than 8:30 or $9: 00$. In this case I would be able to do homework/study for two additional hours and still get the recommended 8 hours of sleep at night which we all so crave. Therefore, to be denied this opportunity would be gross and unjustified. Additionally, this would provide students in Beta Club an opportunity to get their community service hours in during school even if they had an after school job of some sort. Honestly, not everyone is going to need 6 or 7 more credits their senior years, so 1 see no reason not to seriously consider this change.

Honestly, I would be able to pay for myself and not depend on my parents. It would teach students that had a job how to juggle work with school. It also teaches us how to be responsible.

Because I would be able to further learning what career i would like to go to. After i get out of school I have to go straight to work on the farm working cattle, fixing fences, etc., I would end up going to bed at 10 or 11 at night. I feet as though this opportunity would be very fulfilling in finding our future careers.
*Bismarck School District*
Possible Considerations When Determining Our Waiver Request:

## 1. How does the waiver support or complement the district's vision and/or strategic plan?

Bismarck Public Schools is a small, rural school district which seeks to provide diverse and creative learning opportunities for our students in order to not only provide a quality academic environment for our students, but also in order to remain a comparable option for parents when/if considering school choice. In order to remain competitive with the larger districts around us, we always strive to provide a challenging, innovative, and diverse learning experience for our students. Our high school currently ranks in the top $1 \%$ academically in the state based on last year's PARCC scores; and we feel that by providing an even more personalized education to our students, focusing on their personal and academic needs, we can continue that in the future.

2/a. What are the specific benefits to students if these waivers are granted?
This waiver will allow qualifying students the ability to complete required coursework in less than six hours and to enroll in postsecondary training (college or technical classes), which will enable them the opportunity to get a head start on their college career, or learn a trade that will greatly benefit them in the future.
This opportunity will benefit students by allowing those who may have a financial hardship within their family or who are self-supported to seek higher paying employment with more flexible hours. Bismarck is a rural community with limited employment opportunities. This program will allow students who have a financial hardship to seek employment in Hot Springs or Arkadelphia and have more flexible hours that will not require them to be out on the highway as late, which is a safety risk.
This waiver will benefit some of our students by giving them the opportunity to participate in community projects and increase their chances of earning some of the more lucrative scholarships.
This program will also be a great benefit to our at-risk students by helping them stay engaged in
meaningful and relevant courses instead of taking classes they see as "just filling seat time." By this, our hope is that these students will remain in school instead of dropping out.

## $2 / \mathrm{b}$. What are the expected academic gains to the students if these waivers are granted?

Many seniors are currently taking elective credits to fill the school day seat time requirement. Because of this we have seen a dramatic increase in absenteeism (especially among those who are 18) and many are failing simply because they do not see the need to put forth the effort, especially since the electives do not count towards graduation.
The high school counselor has examined attendance, failing grades, and credit denial data to identity students who may benefit from a flexible schedule. Our estimate from the data shows approximately 35 students who may be in this group.
By eliminating some of the required seat time, we believe students will be less likely to drop out of school knowing they're participating in a program that is relevant to their future goals. We also believe this program will help improve student attendance in the courses they do need and improve their grade point average and scholarship opportunities.

## 3. What are the specific plans to implement the waiver?

The counselor will meet with qualifying students and parents who are interested in participating in the program. To be eligible to participate in the program, students must be on track to graduate, one factor being based on having the required credits to graduate. For the 2016-2017 school year, these meetings will take place in the summer before school starts in August. For the subsequent school years the counselor will meet with qualifying students and parents during the annual CAPS scheduling conferences which are held in March.
Our target is for qualifying students to clock fifteen hours/week for the off-campus activities.
To ensure students remain on track during the duration of the program, contracts, monitoring documentation, and a culminating project will be required. The school counselor and parental involvement coordinator will maintain the documentation and follow up with the students. They will also maintain regular communication with the contact person for the business/organization/learning institution that the student is involved with throughout the year.
For those students with limited or no transportation, we plan to offer some internship opportunities within the district. These opportunities include, but are not limited to, job-shadowing and assisting our technology department, job-shadowing elementary teachers (especially for those who may be thinking of a career in education), etc.
Students will be required to complete an internship project at the end of the year. This will give students the opportunity for reflection that is necessary to understand what they learned from the experience and how it will help them make decisions concerning future career choices.
4. Is the waiver consistent with district policy?

Yes, the waiver request was presented to the Bismarck School Board on May 16, 2016. The board approved a resolution in support of the waiver request and is prepared to take any actions necessary to facilitate the waivers.
5. What is the fiscal impact of the waiver? Will there be additional costs associated with this waiver, and if so, what is the source of funding? If funds are saved, what are the planned uses for the savings?

Two existing staff members, in addition to building and district-level leadership, will monitor the program and students participating in the internships; however, no new hiring will be required.
6. What effects will the waiver have on current academic, fiscal, or facilities distress status? How will the waiver help the district to alleviate the distress issues? Will implementation of the waiver cause any distress issues?

The district is not under academic distress, facilities distress, or fiscal distress. The waiver will not cause the district to incur any of these issues.
7. Will the use of the requested waivers assist the district in resolving any accreditation issues? Will the use of the requested waivers cause the district any difficulty in complying with the Standards for Accreditation?

If approved, it will not cause any issues in regards to compliance with the Standards of Accreditation. The Bismarck School District is fully accredited and has no accreditation issues.
8. How has the charter school effectively applied for this waiver? How will the district ensure effectiveness?

Arkansas Virtual Academy is an online (virtual) charter school requiring students to log 30 hours per week. Arkansas Virtual Academy uses its waivers to allow students a nonconforming/non-traditional schedule within those 30 hours of required time.
9. Does the district's school board support the waiver requests? Did the board sign a resolution?

Yes, the waiver request was approved by resolution on May 16, 2016 (resolution attached). The board is extremely supportive and excited about the opportunities this could provide for our students.
10. Have school employees been notified that the district intends to request and implement these waivers? If so, what methods of notification were used, and how often were notifications sent or published?

Yes, the Bismarck High School Leadership Tearn discussed the waiver request on several occasions, and it was presented to each departmental PLC (Professional Learning Community) the week of May 9. 2016. The principal addressed the entire staff during a faculty meeting on May 24, 2016. It was also shared via social media using the District Twitter account and was posted to the Faculty Drive in the form of Board minutes from the May 2016 minutes.
11. Have parents and other members of the community been notified that the district intends to request and implement these waivers? If so, what methods of notification were used, and how often were notifications sent or published?

Yes, the parents and community members were notified through the Bismarck School District website, the District Twitter account, and it was published in a local newspaper. In addition, the counselor and parental involvement coordinator will meet with the identified students who are eligible to participate in the program if approved. Parents will be given the option of whether to grant permission for their child to participate in the program. A survey was also given to students for input.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/leaming-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary perry@arkansas.gov or by phone at (501) 683-4800.

## RESOLUTION OF THE BISMARCK SCHOOL DISTRICT BOARD OF DIRECTORS

WHEREAS, 66 percent ( $66 \%$ ) of seniors who will attend Bismarck School District in the 2016-2017 school year will need from one to four credits to graduate; and

WHEREAS, 84 percent ( $84 \%$ ) of seniors who will attend Bismarck School District in the 2016-2017 school year will need from one to five credits to graduate; and

WHEREAS, many seniors who attend Bismarck School District take elective credits that are not always of interest to them to fill the school day and seat time; and

WHEREAS, the Bismarck School District seeks the opportunity to individualize educational settings to create more personalized learning for all students and provide real life opportunities to help students determine career paths; and

WHEREAS, a student's ability to complete required coursework in less than six (6) hours per day would allow the student to enroll in postsecondary training (college or technical classes), participate in community service projects (for college admissions or scholarship purposes); and participate in paid/unpaid internships; and

WHEREAS, waivers of certain state laws and administrative rules would allow Bismarck School District to provide the aforementioned personalized learning opportunities for its students; and

WHEREAS, Act 1240 of 2015, codified at Ark. Code Ann. § 6-15-103, allows Bismarck School District to petition the State Board of Education for all or some of the waivers granted to an open-enrollment public charter school that draws students from Bismarck School District; and

WHEREAS, Arkansas Virtual Academy is an open-enrollment public charter school that draws students from Bismarck School District; and

WHEREAS, the Arkansas State Board of Education granted Arkansas Virtual
Academy a series of waivers, including waivers from: (1) the Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine through Twelve; and (2) Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts; and

NOW, THEREFORE, BE IT RESOLVED BY THE BISMARCK SCHOOL DISTRICT BOARD OF DIRECTORS, THAT:

1. Pursuant to Act 1240 of 2015 , codified at Ark. Code Ann. § 6-15-103, the Bismarck School District administration is hereby authorized to request the following waivers from the Arkansas State Board of Education:
a. Ark. Code Ann. §6-16-102;
b. Ark. Code Ann. § 6-18-210;
c. The Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine through Twelve;
d. Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts;
e. Section 16.01 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts;
f. Section 16.02 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts;
g. Any such other waivers as may legally be required and granted by the Arkansas State Board of Education to give effect to the personalized learning opportunities listed herein.
2. The Bismarck School District administration may seek these waivers to take effect beginning in the 2016-2017 school year.
3. The Bismarck School District Board of Directors agreed upon this resolution by vote on May 16, 2016, during an open, regularly scheduled meeting.

The Performance Based Assessment (PBA) component was given before the Find of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for FI A/Literacy and Math. CL ALitcracy ineluded writing effectively when analyzing text and research simulation. Math included solving muldi-step problems requiring abstract feasoning, precision. perseverance and stralegic use of tools.

The EOY assessment consisted of innovative. short-answer items including the following: ELAl iteracy reading comprehension: Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolicd students with completed PBA only:
4
Number of enrolled students with completed EOY only:
8

## Percent Tested: Source and Use of Enrollment

For pervent lested and schooldistrict performance calculations student enrollment files were downloaded from eSchool via TRUAND to establish the students expected to test. These files were downloaded May $15,2015$.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enroiment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an emrolment record that did nol match a test record the demographic values from the student's enrollment record were used in ISEA calculations.

Dear Members,
I am writing this letter as the principal of Bismarck High School, to express my support for the attendance waiver that is being sought for my students. This waiver will assist our school/students in many ways and allow us to create a more personalized learning experience for these students. Your approving this waiver will allow our students the opportunity to enroil in postsecondary courses, participate in job shadowing, complete an internship, or attain employment to help with tinancial needs within the family.

Currently we have many seniors who are taking elective courses just to fill seat time. Because of this, we have experienced an increase in absenteeism and failing grades due to the students not putting forth an effort to do well since they do not need the credit to graduate. We have also seen an increased number in our dropout rate and I believe this is due to the fact that many of these students need to work to provide for themselves (as many are self-supportive) or their family. Approving this waiver will allow these students the time they need to work and still complete the required course for graduation. Our hope is that this will also help these students see that we truly understand their needs and want to help them be successfu\} and graduate.

To quantify this need, I surveyed each of this year's juniors and the following data was gathered.
We surveyed 23 females and 34 males. Of this number $98.2 \%$ stated they would be interested in this program and felt they could benefit from it. $78.9 \%$ stated they would be interested in seeking employment during school hours, while $19.3 \%$ stated they would like to pursue a paid or unpaid internship. Many stated that they would like to work hours earlier in the day to allow them more time at night to study and participate in school activities in the evening, when they would otherwise be working. We also have several students who are planning to pursue a degree in education and have expressed an interest in shadowing some of our clementary teachers. I believe this will be very beneficial not only to the teachers but will also give these students a better understanding of the daily schedule and work that a teacher does. This firsthand experience will help them make a better decision concerning seeking education as a career choice.

To ensure the effectiveness of this program, our school counselor will identify those students who qualify and meet with them to create a schedule. We will then have our leadership team create a contract, monitoring documentation, and a culminating project that each participant will be required to complete. The counselor along with the parental involvement coordinator will monitor this program throughout the year to ensure its effectiveness and recommend the removal of students who are not fulfilling their obligation.

In conclusion, it is my sincere hope that you will approve this attendance waiver. I truly believe it will help ensure the success of our students.

Sincerely,

Larry Newsom
High School Principal

Arkansas State Board of Education
Four Capitol Mall
Little Rock, AR 72201

Dear Members:

The Professional Leadership Committee is writing this letter in support of Bismarck High School's request for a waiver to the Arkansas Mandatory Attendance Requirements. Our principal, Larry Newsom, presented this request to this committee and asked for our input.

Our committee feels the advantages this waiver would provide to our students are many. We have outlined these below.

- Many of the families in Bismarck are low-income families. Early dismissal would provide the opportunity for students to contribute to their family's financial needs.
- Many of our students work at various jobs with hours that range from 4:00 p.m. to 11:00 p.m. Highway 7, on which our students travel to work, has proven to be a very dangerous stretch to travel at night. Having the ability to go to work and travel home earlier would be much safer for our students.
- Academically, the waiver would provide some students time to further their education at the College of the Ouachitas (COTO) in Malvern. Many of our students already are taking classes at this institution. This waiver would allow them to stay on campus and take additional courses instead of returning to Bismarck's campus.
- Bismarck not only has students taking concurrent college classes at COTO, but also has students enrolled in COTO's Career Center. These students would then be able to take advantage of job shadowing, internships, and apprentice programs in the various areas the Career Center offers, such as mechanics, engineering, cosmetology, and criminal justice.
- The Bismarck community supports our students both in academics and extracurricular activities. Over 20 scholarships were provided to this year's seniors by the community. Given the time provided by this waiver, our students would have more opportunities to give back to their community.

This committee fully supports the efforts of the district in its request.

BismarckSchool District<br>11636 HWX 84<br>BISMARCK, AR. 71929-8170

May 26,2016

Arkansas State Board of Education
Four Capitol Mall
Little Rock, AR 72201
Dear Members:
I am writing this letter as a faculty member, the Parental Involvement Coordinator, the Personnel Policy Committee President, and as a parent for the purpose of supporting Bismarck High School's request for a waiver to the Arkansas Mandatory Attendance Requirements. When Larry Newsom, the high school principal, first mentioned the possibility of a waiver for our seniors, I felt this would have nothing but positive effects. As a high school teacher, I see students every day who struggie to attend a full day of school. These same students must complete assignments, work a job, help with their family, and volunteer in the community during a regular 24 hour day. This waiver would enable them to attend the classes they need to meet graduation requirements and have more time for a job, homework, helping at home, and volunteering.

Bismarck is a rural community and many of our families are low-income and students must have a job to help provide for their family. Many of the students have to drive to either Hot Springs or Arkadelphia to find employment. With the waiver, students would be able to work earlier during the day and still have time for studying and extracurricular activities. We have several farm families and students must help with crops and livestock.

Students would be able to take college classes that will help them toward their college requirements, or take part in job shadowing and internships that will provide them with invaluable experience in their chosen career field. These endeavors would have more practical meaning to the student than having to attend a class just to meet mandatory attendance requirements.

I am very much in favor and fully support the district in its efforts to attain this waiver.

Sincerely,
OnN6,

## Members:

On behalf of College of the Ouachitas, a comprehensive two-year college in Malvern, and as a parent of a student in the Bismarck school district, I am writing this letter to express my support for the district's request for a waiver to the Arkansas Mandatory Attendance Requirements. It is my belief that the granting of this waiver will ensure the local district has the authority to make educational decisions that are most beneficial to its students.

College of the Ouachitas continues to form partnerships with the secondary schools within its five county service area in an effort to provide districts with both vocational and post-secondary educational opportunities for their students. This waiver would provide the flexibility to expand our current offerings while also allowing for the possibility of internships and apprenticeship training.

College of the Ouachitas has long been a catalyst for secondary/post-secondary partnerships. We welcome the opportunity to develop new programs to better serve our constituents. The College stands ready to support the efforts of Bismarck Public Schools in this endeavor.

Sincerely,

Pat Simms<br>Vice President of Instruction College of the Ouachitas

Arkansas Department of Higher Education
Attn: Regional Workforce Grant
423 Main Street, Suite 400
Little Rock, AR 72201

Dear Regional Workforce Implementation Grant Review Committee:
Bismarck School District strongly supports the College of the Ouachitas proposed Regional Workforce Implementation Grant submission for "Plumbing and Electrical Apprenticeships." College of the Ouachitas has worked very closely with a group of partners which includes, a state recognized Apprenticeship Program/NCCER, Accredited Training Sponsors (Arkansas Construction Education Foundation), and area employers who represent critical shortage needs in our area, in addition to Bismarck, Poyen, Ouachita, Sheridan, Glen Rose, Magnet Cove, Malvern School Districts.

As a proud member of this partnership, we feel that College of the Ouachitas' role as lead applicant and fiscal agent indicates their mission of forming "partnerships with K-12 schools, other colleges and universities, businesses, industries, public agencies, and civic groups that support learning and promote the economic development of Arkansas."

Thank you for your consideration of this worthy proposal.
Sincerely,

[^0]

Dear Members:

The Professional Leadership Committee is writing this letter in support of Bismarck High School's request for a waiver to the Arkansas Mandatory Attendance Requirements. Our principal, Larry Newsom, presented this request to this committee and asked for our input.

Our committee feels the advantages this waiver would provide to our students are many. We have outlined these below.

- Many of the families in Bismarck are low-income families. Early dismissal would provide the opportunity for students to contribute to their family's financial needs.
- Many of our students work at various jobs with hours that range from 4:00 p.m. to 11:00 p.m. Highway 7, on which our students travel to work, has proven to be a very dangerous stretch to travel at night. Having the ability to go to work and travel home earlier would be much safer for our students.
- Academically, the waiver would provide some students time to further their education at the College of the Ouachitas (COTO) in Malvern. Many of our students already are taking classes at this institution. This waiver would allow them to stay on campus and take additional courses instead of returning to Bismarck's campus.
- Bismarck not only has students taking concurrent college classes at COTO, but also has students enrolled in COTO's Career Center. These students would then be able to take advantage of job shadowing, internships, and apprentice programs in the various areas the Career Center offers, such as mechanics, engineering, cosmetology, and criminal justice.
- The Bismarck community supports our students both in academics and extracurricular activities. Over 20 scholarships were provided to this year's seniors by the community. Given the time provided by this waiver, our students would have more opportunities to give back to their community.

This committee fully supports the efforts of the district in its request.

## DISTRICT ANNOUNCEMENT

Bismarck School District is looking into obtaining a waiver from the Arkansas State Department of Education to allow personalized learning opportunities for seniors who are on track to graduate. If approved for the waivers, these students would come to school only for the required core courses, then be involved in job-shadowing, internships, apprenticeships, college coursework, or employment in place of additional elective courses offered at Bismarck High School. Our goal for this proposal is to increase attendance, graduation rate, and reduce achievement gaps. For questions or comments, please contact Larry Newsom at 1501$] 2554541$.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only: 4
Number of enrolled students with completed EOY only:
8

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## DISTRICT WAIVER REQUEST FORM

District Name: Brinkley
Superintendent: Dr. Debbie Goodwin
Email Address: dgoodwin@btigers.org
Phone Number: 870-793-5000 Submission Date: 06/14/2016

## Name of Charter School(s) Attended by District Students <br> Arkansas Virtual Academy

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- 6-15-1004 Qualified teachers in every public school
- 6-17-309 Certification to teach grade or subject matter-Exceptions-Waivers
- 6-17-401 Teacher Licensure requirements
- 6-17-902 Definition of a teacher as licensed
- 6-17-919 Warrants void without valid license and contract

## Standards for Accreditation

- Section 15.03 of the Arkansas Department of Education Standards for Accreditation

## ADE Rules

- Arkansas Department of Education Rules Governing Licensure

## Rationale for Waiver

The Brinkley School District is located in Monroe County in the Delta Region of Arkansas. Many teaching positions remained unfilled last year in the Delta. This waiver would enable the district to offer a more varied curriculum for the students in tyhe district. The district rerquests this waiver be in effact for 5 years.

## Waiver Topic: Library Media Specialist

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- 6-25-103 Library Media Services program defined.
- 6-25-104 Library Media Specialist-Qualifications

## Standards for Accreditation

- Section 16.02 of the Arkansas Department of Education Rules Governing Standards for Accreditation.

## Rationale for Waiver

This waiver will allow the district flexibility in meeting ther library/media services in the best interest of the students in our district. The district requests this waiver be in effect for 5 years.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## 2015 ESEA DISTRICT REPORT

District: BRINKLEY SCHOOL DISTRICT
LEA: 4801000
Enrollment: 518

Superintendent: ARTHUR TUCKER
Attendance 93.79
Poverty Rate: 100.00

Address: 200 TIGER DRIVE
Address: BRINKLEY, AR 72021
Phone: (870) 734-5000

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

PBA Only and EOY Only are not included in performance calculations.
Number of enrolled students with completed PBA only: 12
Number of enrolled students with completed EOY only: 7

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

Waiver Topic: Requesting wavier for 5 years and requesting wavier begins August 1, 2016
Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- 6-16-102 School Day Hours
- 6-18-210 Definition of planned instructional time

## Standards for Accreditation

- Section 10.01.4 of the Standards for Accreditation (The planned instructional time in each school day shall not average less than six (6) hours per day of thirty (30) hours per week.)
- The Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine through Twelve

## Rationale for Waiver

AR Code 6-16-102, 6-18-210, standards for accreditation section 10.01.4 and the Arkansas Department of Education rules governing the Arkansas Mandatory Attendance requirements for students in grades nine through twelve.

The district seeks the opportunity to create more personalized learning for all students. A student's ability to complete required coursework in less than six hours a day could give the option for the student to enroll in postsecondary training (college or technical classes), participate in job shadowing, complete an internship / apprenticeship, or attain paid employment.
Evidence indicates that students who drop out before graduation do so because they see very little value in the elective courses that do not interest them. By eliminating some of the required seat time, students will be less likely to drop out of school knowing that the classes they are taking are relevant to their future goals.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

Pertaining to alternative learning environments

## Waivers from Other Rules:

ADE Rules Governing Uniform Grading Scales for Public Secondary Schools and for Optional Use in Public Elementary Schools

ADE Rules Governing Mandatory Attendance Requirements for Students in Grades Nine through Twelve
ADE Rules Governing the Superintendent Mentoring Program
ADE Rules Governing Educator Licensure
Section 4 of the ADE Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditures of those Funds (Pertaining to alternative learning environments)

## ADE Rules Governing Public School Student Services

ADE Rules for Gifted and Talented Program Approval Standards
ADE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols in Arkansas Public Schools
Section 1-7 of ADE Rules Governing School District Requirements for Personnel Policies, Salary Schedules, Minimum Salaries, and Documents Posted to District Websites (not a waiver of website posting requirements)
Alternative Learning
Certified staff salary scale
Defibrillator devices
Discipline and school safety policies
Distance learning
Expenditure requirements
Junior Fire Marshal Program
Purchasing of instructional materials

## Regardless of any waivers granted, every charter school must always abide by the following requirements:

- All standardized assessments required by the state must be administered solely by licensed required by ADE Rules Governing the Arkansas Comprehensive Testing Assessment and Accountability personnel, as Program, Sections 5.02.4 and 5.03.2. Violations of ADE assessment procedures are subject to sanctions by the State Board, including without limitation sanctions pursuant to Ark. Code Ann. §§ 6-15-438 and 6.23.105.
- All teachers and school personnel, whether licensed or unlicensed, must submit to the criminal background and central registry checks required by law.
- Any teacher, whether licensed or unlicensed, who teaches a core academic subject area must meet the requirements of the ADE Rules Governing Highly Qualified Teachers Pursuant to the NO CHILD LEFT BEHIND ACT of 2001. Core academic subject are defined by federal law to include English Language Arts, Reading, Mathematics, Science, Foreign Languages, Social Studies, Music, and Art.

# Glen Rose School District <br> Waiver Request <br> Arkansas State Board of Education <br> July 14, 2016 

## Name of Charter School(s) Attended by District Students:

Arkansas Virtual Academy
Each Law, Rule and/or Standard, with Corresponding Number(s) that the District wants to waive:
Pursuant to Act 1240 of 2015, codified at Ark. Code Ann. 6-15-103, the Glen Rose School District administration is hereby authorized to request the following waivers from the Arkansas State Board of Education:
A. Ark. Code Ann. 6-16-102; School day hours
B. Ark Code Ann. 6-18-211; Mandatory Attendance
C. The Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine through Twelve;
D. Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts.

The above waivers are requested for a five year period, through 2020-2021 school year.
How does the waiver support or complement the district's vision/strategic plan?
Vision: We recognize the uniqueness of each student and strive to provide an effective educational program designed to help each student develop his/her intellectual, social, emotional, moral, and physical potential. We believe the total learning process is a cumulative one, which is a parent-teacher-child responsibility. It is our educational system's responsibility to return to our community, citizens capable of functioning as contributing members in today's changing world. We believe that along with the basic skills, students should be taught thinking skills, decision-making skills, social skills, vocational skills, and any other relevant skill, which will enable them to achieve personal success. The curriculum will be designed to fit the needs of all students, the college-bound as well as those in need of the practical arts.

Mission: The mission of Glen Rose High School is to provide students with opportunities to develop personal growth and character, helping students to become responsible citizens, achieving academic and vocational success, and acquiring skills needed to succeed in a technology-oriented world.

The waiver will address the vision and mission by personalizing students' education to meet their academic and personal needs.

## 2/a. What are the specific benefits to students if these waivers are granted?

The district seeks the opportunity to individualize educational settings to create more personalized learning for all students. A student's ability to complete required coursework in less than six hours a day could give the option for the student to enroll in postsecondary training (college or technical classes), participate in community projects (for college admissions or scholarship purposes), participate in job shadowing, complete an internship, or secure paid employment. The student would take core classes on campus.

Students at-risk for dropping out are more likely to stay in school if they are engaged in meaningful and relevant educational opportunities that are related to their established goals for their future.

The opportunities to work as an intern or a volunteer would allow the Glen Rose School District to build and strengthen relationships with community members to facilitate understanding of the program and the benefits for students.

These waivers could benefit students in many different situations. Listed below are a few real examples we have collected from actual students:

Student A: This has been accepted into the apprenticeship program at COTO for electrician and plumbing. Student A will be taking classes at night through COTO apprenticeship program during the 2016-2017 school year. The waiver would allow this student to attend school in the morning for their core classes and then participate in COTO apprenticeship program in the afternoon and evenings.

Student B: This student is an expecting father with a child due in the fall of 2016. Student B has a part time job and needs to work to help provide for their child. The wavier would allow him to work more hours during the day instead of filling his schedule with electives that he does not need. An internship/apprenticeship would also allow him to learn and strengthen soft skills like workplace communication and professional behavior.

Student C: This student's father is a cancer patient. Student D provides transportation to doctor appointments and treatments for their father. The waiver would allow this student to be able to attend school in the morning for their core classes and help at home with their father in the afternoon.

In our vision, each participating student would have a personalized learning plan developed by the student, parent, principal and career coach. The student's school day would be guided by the plan. Students would attend Glen Rose High School campus for core classes and then spend the rest of the day at COTO (working toward a technical certification or taking college courses to go along with their high school diploma), participating in an apprenticeship, internship, job-shadowing, community service or gaining paid employment with businesses that have developed a relationship with Glen Rose Schools.

## 2/b. What are the expected academic gains to the students if these waivers are granted?

Many students are currently taking elective credits just to fill the school day seat time. We have experienced an increase in failing grades in some upper level electives due to the students not putting forth an effort to do well since they do not need the credit to graduate. Because the students did not need these classes to graduate they became apathetic and allowed themselves to fail.

The high school principal, counselor and career coach are examining attendance, failing grades and credit denial data to identify students who may benefit from a flexible schedule and more personalized learning.

By eliminating some of the required seat time, students will be less likely to drop out of school knowing they are participating in a program that is relevant to their future goals. They can attend classes needed to graduate, along with some electives, and also be involved in other opportunities they value. This will improve students' attendance leading to higher grade point averages.
3. What are the specific plans to implement the waiver (e.g., if the district is asking for
larger class sizes, how are you going to do this; what is the largest you want to allow)?

Beginning in the spring of a student's sophomore year, the high school principal and career coach will begin to identify eligible students who are interested in participating in off campus opportunities. They will meet and discuss individually with each student and their parent to review graduation requirements and opportunities for apprenticeships, internships, community service, employment, or post-secondary courses. In order to participate in the off campus opportunities a student must be in grades 11 or 12 and be on target to graduate.

During the spring scheduling process, the counselor and teachers will work with the identified students and their parents to ensure they have the required coursework and schedule they need to allow for other opportunities within the school day as previously listed. Our target is for students to clock approximately ten hours per week for the off-campus activities.

Contracts, monitoring documentation, and a culminating project will be required. The career coach will serve as an internship coordinator, and will maintain the documentation and follow up with the student, as well as the contact person for the business/organization throughout the year.

Potential employers and community volunteer agencies will be contacted for participation. A list of these businesses/agencies will be provided to the students and parents to assist in planning. However, the district will continue to add new businesses and agencies to the program. Also, we plan to offer some intern opportunities within the district that would not require transportation.

Students will be required to complete a culminating project, such as a video presentation, at the end of the school year. This will give students the opportunity for reflection that is necessary to understand what they learned from the experience and how it will help them in the future. In addition, many colleges are accepting student video portfolios as part of the application for admission. The technology specialist assisting the Library Media Specialist will support students as they create their culminating project.

By having a career coach on campus, we would not increase the workload for our school counselor, but shift some of the duties to the career coach. The Glen Rose School District would continue to maintain a certified counselor, however, any additional counseling staff that would be needed could be a staff member working in the capacity of the career-coaching model.
4. Is the waiver consistent with district policy? It is important to recognize that the State Board may allow a waiver for flexibility, but whether the district can exercise it depends upon district policy. In the end, it is up to the district to effectuate the waiver.

Yes, the waiver request was presented to the Glen Rose School Board on June 9, 2016. The Board approved the resolution in support of the waiver request and is prepared to take any actions needed to effectuate the waivers.
5. What is the fiscal impact of the waiver? Will there be additional costs associated with this waiver, and if so, what is the source of funding? If funds are saved, what are the planned uses for the saving?

One to two staff members will monitor students participating in the internship; however, we believe these positions can be covered by existing staff members and will not require hiring additional staff.
6. What effects will the waiver have on current academic, fiscal or facilities distress status? Will the waiver help the district to alleviate the distress issues, or hinder the district's progress? Will the waiver cause any distress issues?

The district is not under academic distress, fiscal distress, or facilities distress.
7. Will the use of the requested waiver cause any issues with the district's compliance with the Standards of Accreditation? Will the use of the requested waivers assist the district in resolving any accreditation issues?

If the waiver is approved, it will not cause any issues in complying with the Standards of Accreditation. The Glen Rose School District does not have any accreditation issues.
8. How has the charter school effectively applied this waiver, and how do you expect to implement that effectiveness into your district?

Arkansas Virtual Academy is an online (virtual) charter school. Students are required to log 30 hours per week. Arkansas Virtual Academy uses its waivers, in part, to allow students an atypical schedule within the required 30 hours.

Glen Rose High School has a traditional campus setting in which students attend classes on campus for six hours per day. The waiver would allow our students some flexibility of time
spent on campus. The students would be required to attend class on campus to obtain credits required for graduation.
9. Has your school board approved the use of the requested waivers? Do you have a board resolution?

Yes, the waiver request was presented to the Glen Rose School Board on June 9, 2016. The Glen Rose School Board approved a resolution for all waivers at the regular meeting on June 9, 2016. The resolution is attached.
10. Have you notified the staff that you intend to request and implement these waivers? If so, what methods of notification did you use, and how often were the notifications sent out/published, etc.? If you have not notified the staff, how and when do you plan on notifying them?

Yes, the Glen Rose School District leadership team discussed the waiver request on several occasions. It was presented to lead teachers, and it was discussed with various other teachers to gain their input.
11. Have you notified the parents and the community that you intend to request and implement these waivers? If so, what methods of notification did you use, and how often were the notifications sent out/published, etc.? If you have not notified the parents/community, how and when do you plan on notifying them?

Yes, the parents and community were notified through the Glen Rose School District website and social media. In addition, the program facilitator will meet with the identified students participating in the program. Parents will be given the option of whether to grant permission for their children to participate in the program.

GLEN ROSE SCHOOL DISTRICT

## Resolution of the Glen Rose School District Board of Directors

WHEREAS, twenty-two percent (22\%) of seniors who will attend Glen Rose School District in the 20162017 school year will need only English 12 credit to graduate; and

WHEREAS, fifty-six percent (56\%) of seniors who will attend Glen Rose School District in the 2016-2017 school year will need only two or less required credits to graduate; and

WHEREAS, seventy-eight percent (78\%) of seniors who will attend Glen Rose School District in the 20162017 school year will need only three or less required credits to graduate; and

WHEREAS, many seniors who attend Glen Rose School District take elective credits that are not always of interest to them to fill the school day and seat time; and

WHEREAS, the Glen Rose School District seeks the opportunity to individualize educational settings to create more personalized learning for all students and provide real life opportunities to help students determine career paths; and

WHEREAS, a student's ability to complete required coursework in less than six(6) hours per day would allow the student to enroll in postsecondary training (college or technical classes), and participate in paid/unpaid internships; and

WHEREAS, waivers of certain state laws and administrative rules would allow Glen Rose School District to provide the aforementioned personalized learning opportunities for its students, and

WHEREAS, Act 1240 of 2015, codified at Ark. Code Ann. 6-15-103, allows the Glen Rose School District to petition the State Board of Education for all or some of the waivers granted to an open-enrollment public charter school that draws students from the Glen Rose District; and

WHEREAS, Arkansas Virtual Academy is an open enrollment charter school that draws students from the Glen Rose School District; and

WHEREAS, the Arkansas State Board of Education granted Arkansas Virtual Academy a series of waivers, including a waivers from: (1) the Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine Through Twelve; and (2) Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts; (3) Teacher licensure requirement and certification to teach grade or subject matter

NOW THEREFORE, BE IT RESOLVED BY THE GLEN ROSE SCHOOL DISTRICT BOARD OF DIRECTORS, THAT:

1. Pursuant to Act 1240 of 2015; codified at Ark. Code Ann. 6-15-103, the Glen Rose School District administration is hereby authorized to request the following waivers from the Arkansas State Board of Education:
a. Ark Code Ann. 6-16-102;
b. Ark Code Ann. 6-18-210;
c. The Arkansas Department of Education Rules Governing the Arkansas Mandatory Attendance Requirements for Students in Grades Nine Through Twelve;
d. Section 10.01.4 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts;
e. Section 14.03 of the Arkansas Department of Education Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts; and
f. Any such other waivers as may legally be required and granted by the Arkansas State Board of Education to give effect to the personalized learning opportunities listed herein.
2. The Glen Rose School District administration may seek these waivers to take effect beginning in the 2016-2017 school year.
3. The Glen Rose School District Board of Directors agreed upon this resolution by vote on June 9, 2016 during an open, special scheduled meeting.

By:

Mr. Donnie Earnest, Board President

By:

Mr. Butch Jones, Board Secretary

Facebook, App, and Website:

Glen Rose School District is looking into obtaining a waiver from the Arkansas State Department of Education to allow personalized learning opportunities for juniors and seniors on track to graduate. If approved for the waivers, these students would come to school only for the required core courses, then be involved in job-shadowing, internships, apprenticeships, college coursework, or employment in place of additional elective courses offered at Glen Rose High School. Our goal for this proposal is to increase attendance, graduation rate, and reduce achievement gaps. For questions or comments, please contact Susan Blockburger at 501-332-3694 ext 5.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only: 1
Number of enrolled students with completed EOY only: 2

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

Report created on: 01/07/2016

## RESOLUTION OF THE SOUTHEAST ARKANSAS EDUCATION SERVICE CO-OPERATIVE BOARD OF DIRECTORS

WHEREAS, the Southeast Education Service Co-operative is a resource for 14 public school districts in its service area, which consists of school districts in Arkansas, Ashley, Bradley, Chicot, Cleveland, Desha, Drew, and Lincoln counties in the great state of Arkansas; and,

WHEREAS, the Southeast Education Service Co-operative and the public school districts in its service area recognize that teachers are the greatest single factor in the learning of the students; and,

WHEREAS, the public school districts and the Southeast Education Service Cooperative have enlisted many partners to assist in placing teachers in classrooms; and,

WHEREAS, the public school districts in the Southeast Education Service Cooperative are facing extreme challenges employing licensed teachers for all classrooms; and,

WHEREAS, waivers of certain state laws and administrative rules would allow the public school districts in the Southeast Arkansas Education Service Co-operative more flexibility in placing teachers in classrooms; and,

WHEREAS, Act 1240 of 2015, codified at Ark. Code Ann. § 6-15-103, allows public school districts to petition the State Board of Education for all or some of the waivers granted to an open-enrollment public charter school that draws students from the public school districts; and,

WHEREAS, Arkansas Virtual Academy is an open-enrollment public charter school that draws students from the Southeast Education Service Co-operative area and its member districts; and,

WHEREAS, the Arkansas State Board of Education granted Arkansas Virtual Academy a series of waivers, including waivers from the Arkansas Department of Education Rules Governing Standards of Accreditation of Arkansas Public Schools and School Districts, inclusive of section 15.03 and 16.02; and, Title 6 of the Arkansas Code Annotated, including: (1) Ark. Code Ann. § 6-15-1004; (2) Ark. Code Ann. § 6-17-309; (3) Ark. Code Ann. § 6-17-401; (4) Ark. Code Ann. § 6-17-902; (5) Ark. Code Ann. § 6-17-908; (6) Ark. Code Ann. § 6-17-919; (7) Ark. Code Ann. § 6-25-103, and, (8) Ark. Code Ann. § 6-25-104.

NOW, THEREFORE, BE IT RESOLVED BY THE SOUTHEAST EDUCATION SERVICE CO-OPERATIVE BOARD OF DIRECTORS, THAT:

1. Pursuant to Act 1240 of 2015, codified at Ark. Code Ann. § 6-15-103, the Southeast Arkansas Education Service Co-operative Board of Directors is hereby authorized to request the following waivers from the Arkansas State Board of Education:
a. Sections 15.03 and 16.02 of the Arkansas Department of Education Rules Governing Standards of Accreditation of Arkansas Public Schools and School Districts;
b. Ark. Code Ann. § 6-15-1004;
c. Ark. Code Ann. § 6-17-309;
d. Ark. Code Ann. § 6-17-401;
e. Ark. Code Ann. § 6-17-902;
f. Ark. Code Ann. § 6-17-908;
g. Ark. Code Ann. § 6-17-919;
h. Ark. Code Ann. § 6-25-103,
i. Ark. Code Ann. § 6-25-104; and,
j. Any other such waivers as may legally be required and granted by the Arkansas State Board of Education to give effect to the efforts to place licensed teachers in classrooms.
2. The school districts that are members of Southeast Arkansas Education Service Co-operative may seek these waivers for the 2016-2017 school year;
3. The Southeast Arkansas Education Service Co-operative Board of Directors agreed upon this resolution by vote on June 23, 2016, during an open, regularly scheduled meeting.

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann.§6-15-1004 Qualified teachers in every public school classroom
- Ark. Code Ann.§6-17-309 Certified to teach grade or subject matter-Exceptions-Waivers
- Ark. Code Ann.§6-17-401 Teacher licensure requirement
- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.§6-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

## ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

PBA Only and EOY Only are not included in performance calculations.
Number of enrolled students with completed PBA only:
1
Number of enrolled students with completed EOY only:

$$

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## STUDENT PERFORMANCE -- MATHEMATICS

## 2015 ESEA DISTRICT REPORT

District: DERMOTT SCHOOL DISTRICT
LEA: 901000
Enrollment: 415

Superintendent: MAURICE SMITH
Attendance 96.31
Poverty Rate: 100.00

Address: PO BOX 380
Address: DERMOTT, AR 71638
Phone: (870) 538-1000

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only:
Number of enrolled students with completed EOY only:
2

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann.§6-15-1004 Qualified teachers in every public school classroom
- Ark. Code Ann.§6-17-309 Certified to teach grade or subject matter-Exceptions-Waivers
- Ark. Code Ann.§6-17-401 Teacher licensure requirement
- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.§6-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## 2015 ESEA DISTRICT REPORI

District: DEWITT SCHOOL DISTRICT
LEA: 101000
Enrollment: 1257

Superintendent: WANDA DARDENNE Address: P.O. Box 700
Attendance 95.04
Poverty Rate: 61.97

Address: DEWITT, AR 72042
Phone: (870) 946-3576

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

PBA Only and EOY Only are not included in performance calculations.
Number of enrolled students with completed PBA only:
11
Number of enrolled students with completed EOY only:

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only:
Number of enrolled students with completed EOY only:

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann.§6-15-1004 Qualified teachers in every public school classroom
- Ark. Code Ann.§6-17-309 Certified to teach grade or subject matter-Exceptions-Waivers
- Ark. Code Ann.§6-17-401 Teacher licensure requirement
- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.86-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only:
Number of enrolled students with completed EOY only:

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

## ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only:
Number of enrolled students with completed EOY only:

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann.§6-15-1004 Qualified teachers in every public school classroom
- Ark. Code Ann.§6-17-309 Certified to teach grade or subject matter-Exceptions-Waivers
- Ark. Code Ann.§6-17-401 Teacher licensure requirement
- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.§6-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## 2015 ESEA DISTRICT REPORI

District: MCGEHEE SCHOOL DISTRICT
LEA: 2105000
Enrollment: 1164

Superintendent: THOMAS GATHEN
Attendance 96.65
Poverty Rate: 73.20

Address: 409 OAK STREET
Address: MCGEHEE, AR 71654
Phone: (870) 222-3670

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only: 12

Number of enrolled students with completed EOY only: 8

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.§6-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## 2015 ESEA DISTRICT REPORI

District: STAR CITY SCHOOL DISTRICT
LEA: 4003000
Enrollment: 1570

Superintendent: RICHARD MONTGOM Address: 400 EAST ARKANSAS AVENUF
Attendance 94.72 Address: STAR CITY, AR 71667
Poverty Rate: 60.89

Phone: (870) 628-4237

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only:
Number of enrolled students with completed EOY only:

4
16

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

## Waiver Topic: Teacher Licensure

## Statute/Standard/Rule to be Waived

## Arkansas Code Annotated

- Ark. Code Ann.§6-15-1004 Qualified teachers in every public school classroom
- Ark. Code Ann.§6-17-309 Certified to teach grade or subject matter-Exceptions-Waivers
- Ark. Code Ann.§6-17-401 Teacher licensure requirement
- Ark. Code Ann.§6-17-902 Definition (definition of a teacher as licensed)
- Ark. Code Ann.§6-17-908 Teachers' salary fund-authorized disbursement
- Ark. Code Ann.§6-17-919 Warrants void without valid certification and contract (the ability to pay a teacher's salary only upon filing of a teacher's certificate with the county clerk's office, if the requirement of a teacher's certificate is waived for such teacher)
- Ark. Code Ann.§6-25-103 Library media services program defined
- Ark. Code Ann.§6-25-104 Library media specialist-qualifications

## Standards for Accreditation

- Standards of Accreditation Section 15.03
- Standards of Accreditation Section 16.02

## ADE Rules

- ADE Rules Governing Educator Licensure

## Rationale for Waiver

The school districts in southern Arkansas, particularly those in the Southeast (SE) Arkansas Education Service Co-operative area, face a major challenge when attempting to hire certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach and that have the sincere desire to enhance student learning. This challenge is very important to each district because the districts recognize that the teacher in the classroom is the single most important factor that influences learning in the classroom.

There are many data points that illustrate the enormity of this challenge for this part of our state. First of
all, simply review the census data for this part of the state. You will find a decline in the population spanning many years, a decrease in the number of residents with a college degree, and a high rate of poverty, which makes obtaining teacher licensure a larger challenge. After reviewing data from the only 4 -year college in the SE Co-operative area, the University of Arkansas at Monticello (UAM), you will find that the number of candidates admitted to the teacher preparation program has decreased from 35 in 2011/2012 to 24 in 2014/2015. The number of students staying in the program and completing the Internship has decreased from 52 in 2011/2012 to 35 in 2014/2015 to 23 in 2015/2016 to 9 enrolled for the Fall 2016 semester. However, a silver lining for this part of the state is that the enrollment in the Master's of Art in Teaching (MAT) program at UAM has grown over the past few years. In 2012, the MAT program welcomed 43 students compared to 85 students in 2014. This online, statewide program has certainly assisted schools in attracting licensed teachers, but it has still not met all needs and isn't specifically working just with districts in southeast Arkansas. A roadblock to hiring UAM MAT teachers is the requirement for passing the Praxis II exam in the content area before they can be hired to teach with a provisional license. As of June 22, 2016, the MAT program at UAM has 3 secondary math teachers, 3 secondary business teachers, 1 biology teacher, 5 secondary English teachers, 4 middle level teachers, and 3 K-6 teachers that cannot be hired because they have not passed the Praxis II in their content area. All of these teachers are from southeast Arkansas and would accept a job in our area if they could be employed without consequences to the district. Additionally, the difficulty of scheduling and passing Praxis II exams in the time window offered has hampered this non-traditional program for teachers. The above data does not reflect the needs in the area of special education because of the federal requirements for these positions and the inability to waive requirements for special education. We depend on these non-traditional programs in our area of the state. We need these teachers desperately in our area of the state.

In Fall 2015, a series of meetings and discussions on the acute shortage of teachers in our area of the state began. One outcome of this meeting was the request for input, assistance and partnership with the Arkansas Department of Education, specifically the Division of Educator Effectiveness and Licensure, area legislators, UAM, and other partners in defining the issues and the roadblocks we face in our area of the state. This work continues and this conversation continues at monthly board meetings for the SE Arkansas Education Service Co-operative. Soon, it is anticipated that a formal partnership plan will be in place for recruiting educators for our classrooms.

The districts in the SE Arkansas co-op area have utilized many partners to assist in recruiting teachers. Districts work with the SE Arkansas Co-operative and their APPEL Program, the Teach for American Program, the UAM Teacher Preparation and MAT Program, the Southern Arkansas University MAT Program, the University of Central Arkansas MAT Program, the University of Arkansas Teacher Corps Program, as well as the Arkansas Department of Education for solutions to this dire situation. Each district utilizes their district website as a communication tool for employment needs as well as utilizing local print media, the SE Arkansas Co-op for job postings on their website, the UAM Education Renewal Zone (ERZ) job posting services, and statewide job boards. District personnel have attended job fairs across our region and some districts in the SE Arkansas Co-operative area have been able to implement the Teacher Cadet program in their high schools as a teacher recruitment tool.

In April of 2016, the 14 districts in the SE Arkansas Co-operative area posted 88 positions that would need to be filled for the 2016-2017 school year. As of June 22, 2016, the districts in the SE Arkansas Co-operative area still had 83 positions that need to be filled with certified teachers.

Despite the many efforts taken by the districts and partners in the SE Arkansas Co-op area, the need for certified teachers with the content knowledge and appropriate licensure to teach the subject area they are assigned to teach remains great.

By the time this request is presented each school district will have school board resolutions supporting this request. The above waivers are requested for a one year period for the 2016-2017 school year.

When the form is complete, email it with the waiver lists for the charter school(s) that serve district students to Mary Perry at mary.perry@arkansas.gov. Waiver lists can be accessed from the Arkansas Department of Education website at http://www.arkansased.gov/divisions/learning-services/ charterschools/open-enrollment-charter-school-waivers.

Questions should be directed to Mary Perry by email at mary.perry@arkansas.gov or by phone at (501) 683-4800.

## 2015 ESEA DISTRICT REPORT

District: WARREN SCHOOL DISTRICT
LEA: 602000
Enrollment: 1655

Superintendent: MARILYN JOHNSON Address: P.O. BOX 1210
Attendance 95.73 Address: WARREN, AR 71671
Poverty Rate: 72.02

Phone: (870) 226-6738

The Performance Based Assessment (PBA) component was given before the End of Year Assessment (EOY). The PBA consisted of extended tasks and applications of concepts and skills for ELA/Literacy and Math. ELA/Literacy included writing effectively when analyzing text and research simulation. Math included solving multi-step problems requiring abstract reasoning, precision, perseverance and strategic use of tools.

The EOY assessment consisted of innovative, short-answer items including the following: ELA/Literacy reading comprehension; Math short items that address both concepts and skills.

## PBA Only and EOY Only are not included in performance calculations.

Number of enrolled students with completed PBA only: 1
Number of enrolled students with completed EOY only: 8

## Percent Tested: Source and Use of Enrollment

For percent tested and school/district performance calculations student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 15, 2015.

When students' test and enrollment records were matched by school and student state identifier the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record and did not match an enrollment record the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record the demographic values from the student's enrollment record were used in ESEA calculations.

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The grade-level standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.
The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

| RL.K. 5 <br> Recognize common types of <br> text (e.g. storybooks, poems) |  |  | RL. 3.5 Refer to parts of stories, dramas, and poems when writing or speaking about a text, using terms such as chapter, scene, and stanza; describe how each successive part builds on earlier sections. |  |  | RL. 6.5 Analyze how a particular sentence, chapter, scene, or stanza fits into the overall structure of a text and contributes to the development of the theme, setting, or plot. | RL. 7.5 elements of a drama or poem (e.g., scene, stage direction, monologue, or stanza) fit into the overall structure and contribute to its meaning | RL.8.5 Compare and contrast the Compare and contrast the structure of two or more texts and analyze how the diff structure of each text structure of each text contributes to its meaning and style. |  |  |

Glossary
Arkansas English Language Arts Standards Grades K-12

| Collaborative <br> conversation | Talking jointly with others, especially in an intellectual endeavor (e.g., Think Pair Share, <br> Reciprocal Teaching, and teacher-led class discussion) |
| :--- | :--- |
| Collaborative <br> discussion | (synonymous with collaborative conversation) |
| Collegial <br> discussion | Discussing ideas, some of them contentious, with mutual respect for your colleagues even if you <br> do not agree |
| Dialect | A variety of a language that is distinguished from other varieties of the same language by features <br> of phonology, grammar, and vocabulary, and by its use by a group of speakers who are set off <br> from others geographically or socially ( http://www.dictionary.com/browse/dialect?s=t) |
| Domain-specific <br> Vocabulary | Terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, <br> trade route, explorer, density, time signature) |
| Fluency | The ability to read accurately, quickly, expressively, with good phrasing, and with good <br> comprehension. |
| Formal English | Particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or <br> words with origins in Latin and Greek as opposed to more informal vocabulary that commonly <br> involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses <br> without a relative pronoun, and ellipsis are avoided. Formal English is used when writing essays <br> for school, cover letters to apply for jobs, or emails and letters at work. |
| General academic <br> vocabulary | General academic vocabulary refers to words that can be used across the disciplines (e.g., <br> surface, determine) |
| Grade-appropriate | Texts, materials, resources, and activities that are rigorous enough to engage students in grade- <br> level content and concepts across all strands of the Arkansas English Language Arts standards, <br> Reading, Writing, Speaking and Listening, and Language, including Foundational Skills for <br> Grades K-5 |
| High frequency <br> words | Regular and irregular words that appear often in printed text (Teaching Reading Sourcebook by <br> Honig, Diamond, and Gutlohn p. 243) |
| Modal auxiliary | An auxiliary verb characteristically used with other verbs to express mood, aspect, or tense. In <br> English, the most common modal auxiliaries are can, could, may, might, must, ought, shall, <br> should, will, and would; also called modal (http://www.thefreedictionary.com/modal+auxiliary) |

| Multimedia | Varied techniques for digital formatting used to enhance a website, social media platform, or other <br> electronic resource such as text, graphics, animation (including interactive elements), audio, or <br> video |
| :--- | :--- |
| Nuance | A subtle difference or distinction in expression, meaning, response, etc. |
| Objective summary | A shortened version of an original text, stating the main ideas and only the important details of the <br> text with the same text structure and order of the original that is unbiased and based on facts and <br> does not include personal feelings, interpretations, or prejudice |
| Perspective | A particular way of viewing things that depends on one's experience and personality |
| Point of view | The position of the narrator in relation to the story (e.g., first person, third person); instrumental in <br> manipulating the reader's understanding of the narrative |
| Precise language | Specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion |
| Recount | Clearly sequenced, written or oral ordering of narrative events; more formal in stance than a <br> retelling; sets the context from the beginning and is told in either first person or third person <br> depending on the nature of the recount, but always told in past tense. The recount has closure, <br> perhaps evaluative or summative in nature, or may address the message, lesson, or moral of the <br> text |
| Register | The level of formality of language that a speaker uses in a particular social context |
| Retell | Oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we <br> speak, we may correct our thoughts and provide for that correction in our speaking |
| Standard English | Standard English is the English language in its most widely accepted form, as written and spoken <br> by educated people in both formal and informal contexts, having universal currency while <br> incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |
| Summary | A shortened version of an original text, stating the main ideas and important details of the text with <br> the same text structure and order of the original |
| Temporal | Of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as) |
| Theme | A main idea or an underlying meaning of a literary work that may be stated directly or indirectly |
| The author's attitude towards the subject, characters, or situation (e.g., amused, sad, angry, etc.) |  |
| Visual display | A presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, <br> line graphs, and pyramid area graphs) |

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The K-5 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR standards anchor the document and define general, cross-disciplinary literacy expectations that must be met for students to be prepared to enter college and workforce training programs ready to succeed. The CCR and the grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies, science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

## Kindergarten-Reading Standards for Literature

The grade-level standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

## Key Ideas and Details

## Teacher Note

## RL.K. 2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point-of-view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

RL.K. 3 With prompting and support, identify characters, settings, and major events in a story.

| Kindergarten-Reading Standards for Literature |  |
| :--- | :--- |
| Craft and Structure |  |
| RL.K.4 | Ask and answer questions about unknown words in a text. |
| RL.K. 5 | Recognize common types of text (e.g., storybooks, poems). |
| RL.K.6 | With prompting and support, name the author and illustrator of a story and define the role of each in telling the <br> story. |

## Kindergarten-Reading Standards for Literature

RI.K. 3 With prompting and support, describe the connection between two topics (individuals, events, ideas, or scientific concepts).

## Kindergarten-Reading Standards for Informational Text

## Craft and Structure

RI.K. 4 With prompting and support, ask and answer questions about unknown words in a text.
RI.K. 5 Identify the front cover, back cover, and title page of a book.

RI.K. 6 Name the author and illustrator of a text and define the role of each in presenting the ideas or information in a text.

| $\quad$ Kindergarten－Reading Standards for Informational Text |  |
| :--- | :--- |
| $\quad$ Integration of Knowledge and Ideas |  |
| RI．K．7 | With prompting and support，describe the relationship between visual images and the text in which they <br> appear（e．g．，what person，place，thing，or idea in the text a visual image depicts）． |
| RI．K．8 | With prompting and support，identify the details an author gives to support points in a text． |
| RI．K．9 | With prompting and support，identify basic similarities and differences between two texts on the same topic <br> （e．g．，in illustrations，descriptions，or procedures）． |

## Range of Reading and Level of Text Complexity

RI.K. 10 Actively engage in teacher-led reading activities with purpose and understanding

## Teacher Note

## RI.K. 10

It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11).

| Kindergarten-Reading Standards for Foundational Skills |  |
| :--- | :--- |
| Print Concepts |  |
| RF.K.1 | Demonstrate understanding of the organization and basic features of print. |
| RF.K.1.A | Follow words from left to right, top to bottom, and page by page. |
| RF.K.1.B | Recognize that spoken words are represented in written language by specific sequences of letters and that <br> print carries meaning. |
| RF.K.1.C | Understand that words are separated by spaces in print. |
| Teacher Note |  |
| RF.K.1.C <br> One way teachers can assess this understanding is to ask students to demonstrate one-to-one correspondence by <br> matching oral words to printed words. |  |
| RF.K.1.D | Recognize and name all upper- and lowercase letters of the alphabet. |

| Kindergarten-Reading Standards for Foundational Skills |  |
| :--- | :--- |
| RF.K.2 | Demonstrate understanding of spoken words, syllables, and sounds (phonemes). |
| Teacher Note |  |
| RF.K.2 <br> To assess the understanding of words, teachers might ask students to count words in spoken sentences. <br> Blend two individual words to form a compound word (e.g., star + fish...starfish). <br> Segment a compound word into its two individual words. (e.g., starfish...star_fish). |  |
| RF.K.2.A | Recognize and produce rhyming words orally. <br> RF.K.2.BCount, pronounce, blend, and segment syllables in spoken words. |
| RF.K.2.B <br> Some examples of segmenting and blending may be found at the following link: <br> http://www.corestandards.org/assets/Appendix A.pdf\#page=19 |  |
| RF.K.2.C | Blend and segment onsets and rimes of one-syllable spoken words. |

## Teacher Note

RF.K.2.C
An explanation of onset and rime manipulation in spoken language may be found at the following link http://www.corestandards.org/assets/Appendix A.pdf\#page=19

Additional information is available in a document by Louisa Moats which is found on page 4 of the Reading Rockets website: http://www.readingrockets.org/article/development-phonological-skills

| RF.K.2.D | Isolate and pronounce the initial, medial vowel, and final sounds (phonemes) in three-phoneme (consonant- <br> vowel-consonant or CVC) words. (This does not include CVCs ending with $/ \mathrm{I} / \mathrm{/r} /$, or $/ \mathrm{x} /)$. |
| :--- | :--- |
| RF.K.2.E | Add or substitute individual sounds (phonemes) in simple, one-syllable words to make new words. |
| RF.K.2.F | This standard begins in Grade 1. <br> Add or substitute individual sounds (phonemes). |
| RF.K.2.G | This standard begins in Grade 1. <br> Delete individual initial and final sounds. |

| Kindergarten-Reading Standards for Foundational Skills |  |
| :---: | :---: |
| Phonics and Word Recognition |  |
| RF.K. 3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| Teacher Note |  |
| RF.K. 3 <br> Each district will choose or create a phonics curriculum that is systematic and explicit, which aligns to the known research and uses evidence-based strategies. Guidance for selecting or developing a phonics program may be found at the following link on pages 20-22 and $37 \mathrm{http}: / / \mathrm{www}$. corestandards.org/assets/Appendix A.pdf\#page=20 |  |
| RF.K.3.A | Demonstrate basic knowledge of one-to-one letter-sound correspondences by producing the most frequently used sound for each consonant. |
| RF.K.3.B | Associate the long and short sounds with the five major vowel graphemes (a,e,i,o,u), using open and closed syllable types ( e.g., open-go, closed-got). |
| RF.K.3.C | Read common high-frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does). |
| Teacher Note |  |
| RF.K.3.C Districts s <br> Sight word 242). | ould consider sight words and high-frequency words when aligning their curriculum. <br> are any word recognized instantly. (Teaching Reading Sourcebook by Honig, Diamond, and Gutlohn p. |

| High-frequency words are "Regular and irregular words that appear often in printed text" (Teaching Reading Sourcebook <br> by Honig, Diamond, and Gutlohn p. 243). |  |
| :--- | :--- |
| RF.K.3.D | Distinguish between similarly spelled words by identifying the sounds of the letters that differ (e.g., hat, fat, <br> rat; cap, cup, cop; him, hip, hit). |
| RF.K.3.E | Decode CVC words. |
| RF.K.3.F | Decode one-syllable words (open and closed). |

| Kindergarten-Reading Standards for Foundational Skills |  |
| :---: | :---: |
| Fluency |  |
| RF.K. 4 | Read grade-appropriate texts with purpose and understanding. |
| Teacher Note |  |
| RF.K. 4 For stude guided rea <br> The ration http://www | ts to be on track to read on grade-level by Grade 3, students should be reading on a DRA level of 6 or a ding level $D$ by the end of Kindergarten. <br> le and research to support this recommendation can be found at: heinemann.com/fountasandpinnell/pdfs/whitepapertextgrad.pdf |
| RF.K.4.A | This standard begins in Grade 1. <br> Read grade-appropriate texts with purpose and understanding. |
| RF.K.4.B | This standard begins in Grade 1. <br> Read grade-appropriate text orally with accuracy, appropriate rate, and expression. |
| RF.K.4.C | This standard begins in Grade 2. <br> Use context in grade-appropriate text to confirm or self-correct word recognition and understanding, rereading as necessary. |

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

## Kindergarten-Writing Standards

## Text Types and Purposes

| W.K. 1 | Use a combination of drawing, dictating, and writing to compose opinion pieces in which they tell a reader the topic or the name of the book they are writing about and state an opinion or preference about the topic or book (e.g., My favorite book is...). |
| :---: | :---: |
| W.K.1.A | This standard begins in Grade 3. Introduce the topic and create an organizational structure when writing. |
| W.K.1.B | This standard begins in Grade 3. Provide reasons that support an opinion. |
| W.K.1.C | This standard begins in Grade 3. <br> Use linking words and phrases to connect opinion and reasons. |
| W.K.1.D | This standard begins in Grade 3. Provide a concluding statement or section. |
| WIK.1.E | This standard begins in Grade 6. <br> Provide a concluding statement or section that follows from an argument presented. |
| W.K. 2 | Use a combination of drawing, dictating, and writing to compose informative/explanatory texts in which they name what they are writing about and supply some information about the topic. |
| W.K.2.A | This standard begins in Grade 3. <br> Introduce a topic and group related information; include illustrations when useful to aiding comprehension. |
| W.K.2.B | This standard begins in Grade 3. |

|  | Develop the topic with facts, definitions, and detail. |
| :---: | :---: |
| W.K.2.C | This standard begins in Grade 1. <br> Use linking words and phrases (e.g., also, another, and, more, but) to connect ideas within categories of information. |
| W.K.2.D | This standard begins in Grade 3. Provide a concluding statement or section. |
| W.K.2.E | This standard begins in Grade 6. Establish and maintain a formal style. |
| W.K.2.F | This standard begins in Grade 4. <br> Provide a concluding statement or section related to the information or explanation presented. |
| W.K. 3 | Use a combination of drawing, dictating, and writing to narrate a single event or several loosely linked events and provide a reaction to what happened. |
| W.K.3.A | This standard begins in Grade 3. <br> Establish a situation and introduce a narrator and/or characters; organize an event sequence that unfolds naturally. |
| W.K.3.B | This standard begins in Grade 3. <br> Use narrative techniques, such as dialogue and descriptions of actions, thoughts, and feelings to develop experiences and events or show the response of characters to situations. |
| W.K.3.C | This standard begins in Grade 3. <br> Use temporal words and phrases to signal event order. |
|  | Teacher Note |
| W.K.3.C <br> Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as). |  |

| W.K.3.D | This standard begins in Grade 4. |
| :--- | :---: |
| Use concrete words and phrases and sensory details to convey experiences and events precisely. |  |
| This standard begins in Grade 3. |  |

|  |  |
| :--- | :--- |
| Kindergarten-Writing Standards |  |
| W.K.4 | This standard begins in Grade 3. <br> With guidance and support from adults, produce writing in which the <br> development and organization are appropriate to task and purpose. |
| W.K.5 | With prompting and support, respond to questions and add details to strengthen writing as needed. |
| W.K.6 | With guidance and support from adults, explore a variety of digital tools to produce some writing, <br> including in collaboration with peers. |
| Teacher Note |  |
| W.K.6 <br> Students should be given an opportunity to write using digital tools, but not all writing has to be produced digitally. |  |

| Kindergarten-Writing Standards |  |
| :---: | :---: |
| Research to Build and Present Knowledge |  |
| W.K. 7 | Participate in shared research and writing projects (e.g., explore a number of books on a specific topic and produce simple findings). |
| W.K. 8 | With prompting and support, recall information from experiences or gather information from provided sources to answer a question. |
| W.K. 9 | This standard begins in Grade 4. <br> Draw evidence from literary or informational texts to support analysis, reflection, and research. |
| W.K.9.A | This standard begins in Grade 4. <br> Apply Grade 4 Reading standards to literature (e.g., "Describe in depth a character, setting, or event in a story or drama, drawing on specific details in the text [e.g., a character's thoughts, words, or actions]."). |
| W.K.9.B | This standard begins in Grade 4. <br> Apply Grade 4 Reading standards to informational texts (e.g., "Explain how an author uses reasons and evidence to support particular points in a text."). |

## Kindergarten-Writing Standards

## Range of Writing

| W.K.10 | $\begin{array}{l}\text { With prompting and support write routinely over short time frames for a range of discipline-specific tasks, } \\ \text { purposes, and audiences. }\end{array}$ |
| :--- | :--- |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

| Kindergarten-Speaking and Listening Standards |  |
| :---: | :---: |
| Comprehension and Collaboration |  |
| SL.K. 1 | Participate in collaborative conversations with diverse partners about Kindergarten topics and texts with peers and adults in small and larger groups. |
| Teacher Note |  |
| SL.K. 1 <br> For information about oral language development see Appendix A, page 26, paragraphs 3 and 4 http://www.corestandards.org/assets/Appendix A.pdf\#page=26 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.K.1.A | Follow agreed-upon rules for discussions (e.g., listening to others and taking turns speaking about the topics and texts under discussion) |
| SL.K.1.B | Continue a conversation through multiple exchanges. |
| SL.K.1.C | This standard begins in Grade 1. <br> Ask questions to clear up any confusion about the topics and texts under discussion. |
| SL.K.1.D | This standard begins in Grade 3. <br> Explain their own ideas and understanding in light of the discussion. |
| SL.K. 2 | With prompting and support, ask and answer questions about key details to demonstrate understanding of a topic read aloud, presented orally, or through other media. |

## Teacher Note

## SL.K. 2

Confirm understanding of a topic (through read aloud, oral presentation, or through other media) by asking and answering questions about key details.

SL.K. 3
Ask and answer questions in order to seek help, get information, or clarify something that is not understood.

| Kindergarten-Speaking and Listening Standards |  |
| :--- | :--- |
| $\quad$ Presentation of Knowledge and ldeas |  |
| SL.K.4 | Describe familiar people, places, things, and events; provide additional details with prompting and support. |
| SL.K.5 | Add drawings or other visual displays to descriptions of familiar people, places, things, and events as <br> desired to provide additional detail. |
| Teacher Note |  |
| SL.K.5 <br> A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and <br> pyramid area graphs). |  |
| SL.K.6 | Speak audibly and express thoughts, feelings, and ideas clearly. |

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered
through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences

## (http://www.dictionary.com/browse/standard-english?s=t)

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 1 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Kindergarten-Language Standards |  |
| :---: | :---: |
| Conventions of Standard English |  |
| L.K. 1 | Demonstrate command of the conventions of standard English grammar and usage when writing or speaking as appropriate for Kindergarten. |
| Teacher Note |  |
| L.K. 1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. ## Kindergarten-Language Standards

## Vocabulary Acquisition and Use

| L.K.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on <br> Kindergarten reading and content. |
| :--- | :--- |
| L.K.4.A | Identify new meanings for familiar words and apply them accurately (e.g., knowing duck is a bird and <br> learning the verb to duck). |
| L.K.4.B | Use the most frequently occurring inflections and affixes (e.g., -ed, -s, re-, un-, pre-, -ful, -less) as a clue <br> to the meaning of an unknown word. |
| L.K.4.C | This standard begins in Grade 1. <br> Identify frequently occurring root words (e.g., look) and their inflectional forms (e.g., looks, looked, <br> looking). |
| L.K.5 | With guidance and support from adults, explore word relationships and nuances in word meanings. |
| L.K.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a <br> nuanced meaning: The girl was (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.K.5.A | Sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories <br> represent. |
| L.K.5.B | Demonstrate understanding of frequently occurring verbs and adjectives by relating them to their <br> opposites (antonyms). |

| L.K.5.C | Identify real-life connections between words and their use (e.g., note places at school that are colorful). |
| :--- | :--- |
| L.K.5.D | Distinguish shades of meaning among verbs describing the same general action (e.g., walk, march, strut, <br> prance) by acting out the meanings. |
| L.K.6 | Use words and phrases acquired through conversations, reading, being read to, and responding to texts. |

## Grade 1

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades K-5

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies,science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

| Grade 1-Reading Standards for Literature |  |
| :--- | :--- |
| Key Ideas and Details |  |
| RL.1.1 | Ask and answer questions about key details in a text. |
| RL.1.2 | Retell stories, including key details, and demonstrate understanding of their central message or lesson. |
| Teacher Note |  |
| RL.1.2 <br> The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": <br> (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/ |  |
| Retell vs. Recount <br> "Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we we <br> speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be <br> written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told <br> from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in <br> stance, sets the context for the recount from the beginning and is told in either first person or third person depending on <br> the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in <br> nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. <br> http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/ |  |
| Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the <br> same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, <br> Writing, and Test Taking(2006) Kissner (p. 8). |  |

RL. 1.3
Describe characters, settings, and major events in a story, using key details.

| Grade 1-Reading Standards for Literature |  |
| :--- | :--- |
| Craft and Structure |  |
| RL.1.4 | Identify words and phrases in stories or poems that suggest feelings or appeal to the senses (e.g., "soon <br> the round moon was shining" from "Owl and the Moon" found in Owl at Home by Arnold Lobel.) |
| RL.1.5 | Explain major differences between books that tell stories and books that give information, drawing on a <br> wide reading of a range of text types. |
| RL.1.6 | Identify who is telling the story at various points in a text. |

| Grade 1-Reading Standards for Literature |  |
| :---: | :---: |
| Integration of Knowledge and Ideas |  |
| RL. 1.7 | Use illustrations and details in a story to describe its characters, setting, or events. |
| RL. 1.8 | RL.1.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL. 1.9 | Compare and contrast the adventures and experiences of characters in stories. |
| Range of Reading and Level of Text Complexity |  |
| RL.1.10 | With prompting and support, read prose and poetry of appropriate complexity for Grade 1. |
| Teacher Note |  |
| RL. 1.10 It is critic do not re proficien | at children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who roficiently by the end of third grade are four times more likely to leave school without a diploma than ders" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11). |

| Grade 1-Reading Standards for Informational |  |
| :--- | :--- |
| Key Ideas and Details |  |
| RI.1.1 | Ask and answer questions about key details in a text. |
| RI.1.2 | Identify the main topic and retell key details of a text. |
| $\quad$ Teacher Note |  |
| RI.1.2 <br> The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": <br> (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/ |  |
| Retell vs. Recount <br> "Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we <br> speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be <br> written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told <br> from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in <br> stance, sets the context for the recount from the beginning and is told in either first person or third person depending on <br> the nature of the recount, but always told in past tense. | Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the <br> same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, <br> Writing, and Test Taking(2006) Kissner (p. 8). |  |

Example of identifying the main idea of a text and identifying how key details support the main idea:
A text about sharks can be found at the following link
https://www.ncsu.edu/project/lancet/third grade/sharks3.pdf
The main idea of the text is that sharks have unique characteristics. The first sentence in each paragraph provides a key detail about sharks.

- "Sharks are actually a type of fish."
- "Sharks have lots of teeth that are arranged in many rows rather than in just one row like people."
- "One of the things particularly special about sharks is they have been around a long time."

The standard asks students to look at a whole text and identify the main idea of the text and key details about sharks. The first sentence of every paragraph in every text will not necessarily contain a key detail, but it is true for this text.

| RI.1.3 | Describe the connection between two individuals, events, ideas, or pieces of information in a text. |
| :--- | :--- |

| Grade 1-Reading Standards for Informational |  |
| :--- | :--- |
| Craft and Structure |  |
| RI.1.4 | Ask and answer questions to help determine or clarify the meaning of words and phrases in a text. |
| RI.1.5 | Know and use various text features (e.g., headings, tables of contents, glossaries, electronic menus, <br> icons) to locate key facts or information in a text. |
| Teacher Note |  |
| RI.1.5 <br> Text features should be presented in a systematic way within an aligned curriculum. |  |
| RI.1.6 | Distinguish between information provided by pictures or other illustrations and information provided by the <br> words in a text. |

| Grade 1-Reading Standards for Informational |  |
| :---: | :---: |
| Integration of Knowledge and Ideas |  |
| RI.1.7 | Use the illustrations and details in a text to describe its key ideas. |
| RI.1.8 | Identify the reasons an author gives to support points in a text. |
| RI. 1.9 | Identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures). |
| Range of Reading and Level of Text Complexity |  |
| RI.1.10 | With prompting and support, read informational texts appropriately complex for Grade 1. |
| Teacher Note |  |
| RI.1.10 It is critic do not r proficien | that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who d proficiently by the end of third grade are four times more likely to leave school without a diploma than readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11). |

| Grade 1-Reading Standards: Foundational Skills |  |
| :---: | :---: |
|  | Print Concepts |
| RF.1.1 | Demonstrate understanding of the organization and basic features of print. |
| RF.1.1.A | Recognize the distinguishing features of a sentence (e.g., first word, capitalization, ending punctuation). |
| RF.1.1.B | This standard is taught in Kindergarten and should be reinforced as needed. Recognize that spoken words are represented in written language by specific sequences of letters and that print carries meaning. |
| RF.1.1.C | This standard is taught in Kindergarten and should be reinforced as needed. Understand that words are separated by spaces in print. |
| RF.1.1.D | This standard is taught in Kindergarten and should be reinforced as needed. Recognize and name all upper- and lowercase letters of the alphabet. |

| Grade 1-Reading Standards: Foundational Skills |  |
| :--- | :--- |
| Phonological Awareness |  |
| RF.1.2 | Demonstrate understanding of spoken words, syllables, and sounds (phonemes). |
| RF.1.2.A | Distinguish long from short vowels in spoken one-syllable words. |
| RF.1.2.B | Orally produce one-syllable words by blending sounds (phonemes) including consonant blends. |
| RF.1.2.C | Isolate and produce initial, medial vowel, and final sounds (phonemes) in spoken one-syllable words. |
| RF.1.2.D | Segment spoken one-syllable words into their complete sequence of individual sounds (phonemes). |
| RF.1.2.D | Teacher Note |
| Additional information is available in a document by Louisa Moats on the Reading Rockets website: <br> http://www.readingrockets.org/article/development-phonological-skills |  |
| RF.1.2.E | Delete a syllable from a word (e.g., say "remember," now say it without the "re"). |
| RF.1.2.F | Add or substitute individual sounds (phonemes) in simple, spoken words to make new words. |
| RF.1.2.G | Delete individual initial, and final, sounds (phonemes) in simple, spoken words (e.g., say "nice" without the <br> /n/, say "lamp" without the /p/). |

## Teacher Note

RF.1.2.G
The teacher might assess students by asking them to delete individual words from a compound word. (e.g. "cupcake" say it again, but without "cup" - child says "cake").

| Grade 1-Reading Standards: Foundational Skills |  |
| :---: | :---: |
| Phonics and Word Recognition |  |
| RF.1.3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| RF.1.3.A | Know the letter/sound correspondences for common consonant digraphs (e.g., th, sh, ch, ck) |
| RF.1.3.B | Know the letter/sound correspondences. <br> - silent e (e.g., a-e, e-e, i-e, o-e, u-e) <br> - vowel teams <br> vowel digraph (e.g., ee, oo, ai, ay, ea) |
| RF.1.3.C | Recognize and read grade-appropriate irregularly-spelled words. |
| Teacher Note |  |
| RF.1.3.C <br> "Grade-appropriate" is tied to text complexity. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 1 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum. |  |
| RF.1.3.D | Read words with inflectional endings. |
| Teacher Note |  |
| RF.1.3.D Informatio | on inflected endings may be found at the following link: |

## http://www.corestandards.org/assets/Appendix A.pdf\#page=22

| RF.1.3.E | Decode regularly-spelled one-syllable words that follow syllable types. |
| :--- | :--- |

- closed syllable
- open syllable
- vowel-consonant-e
- vowel teams
- Consonant-le
- vowel-controlled-r

## Teacher Note

RF.1.3.E
Information on syllable types may be found at the following link:
http://www.corestandards.org/assets/Appendix A.pdf\#page=21
RF.1.3.F $\quad$ Decode two-syllable words following basic patterns by breaking the words into syllables.

- Compound words (e.g., cup/cake, cow/boy)
- Consonant-le (e.g., can/dle, sim/ple, ri/fle, nee/dle)
- VC/CV (e.g., nap/kin, hap/py, stam/pede)
- V/CV (e.g., bo/nus)

Teacher Note

## RF.1.3.F

Information on syllable patterns is found at the following link:
http://www.corestandards.org/assets/Appendix A.pdf\#page=21

```
Timothy, p 15. http://files.eric.ed.gov/fulltext/ED483166.pdf).
```

| RF.1.4.A | Read grade-level text with purpose and understanding. |
| :--- | :--- |

## Teacher Note

## RF.1.4.A

It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11).

This research places emphasis on reading instruction and creates a sense of urgency that all children learn to read proficiently on grade level by the end of $3^{\text {rd }}$ grade.
The $2^{\text {nd }}-3^{\text {rd }}$ Grade Lexile band is 420L-820L; therefore, Kindergarten and Grade 1 must lay the foundation for success at this level. Students in Grade 1 should be reading in the Lexile range between 190L-530L. Districts choose the instructional materials for reading instruction. To maintain consistency in rigor and to allow for measuring growth, it will be helpful if a district maintains the same measures of texts over time for accurate comparability.

RF.1.4.B $\quad$ Read grade-level text orally with accuracy, appropriate rate, and expression on successive readings.

RF.1.4.C This standard begins in Grade 2.
Use context in grade-level text to confirm or self-correct word recognition and understanding, rereading as necessary.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

## Grade 1-Writing Standards

## Text Types and Purposes

| W.1.1 | Write opinion pieces in which they introduce the topic or name the book they are writing about, state an opinion, supply a reason for the opinion, and provide some sense of closure. |
| :---: | :---: |
| W.1.1.A | This standard begins in Grade 3. <br> Introduce the topic and create an organizational structure when writing. |
| W.1.1.B | This standard begins in Grade 3. Provide reasons that support an opinion. |
| W.1.1.C | This standard begins in Grade 3. <br> Use linking words and phrases to connect opinion and reasons. |
| W.1.1.D | This standard begins in Grade 3. Provide a concluding statement or section. |
| W.1.1.E | This standard begins in Grade 6. <br> Provide a concluding statement or section that follows from an argument presented. |
| W.1.2 | Write informative/explanatory texts in which they name a topic, supply some facts about the topic, and provide some sense of closure. |
| W.1.2.A | This standard begins in Grade 3. <br> Introduce a topic and group related information; include illustrations when useful to aiding comprehension. |
| W.1.2.B | This standard begins in Grade 3. <br> Develop the topic with facts, definitions, and details. |

| W.1.2.C | Use linking words and phrases (e.g., also, another, and, more, but) to connect ideas within categories of <br> information. |
| :--- | :---: |
| W.1.2.D | This standard begins in Grade 3. <br> Provide a concluding statement or section. |
| W.1.2.E | This standard begins in Grade 6. <br> Establish and maintain a formal style. |
| W.1.2.F | This standard begins in Grade 4. <br> Provide a concluding statement or section related to the information or explanation presented. |
| W.1.3 | Write narratives in which they recount two or more appropriately sequenced events, include some details <br> regarding what happened, use temporal words to signal event order, and provide some sense of closure. |
| Teacher Note |  |
| W.1.3 |  |
| Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as). |  |
| Whis standard begins in Grade 3. |  |
| Establish a situation and introduce a narrator and/or characters; organize an |  |
| event sequence that unfolds naturally. |  |

| Grade 1-Writing Standards |  |
| :--- | :--- |
| Production and Distribution of Writing |  |
| W.1.4 | This standard begins in Grade 3. <br> With guidance and support from adults, produce writing in which the development <br> and organization are appropriate to task and purpose. |
| W.1.5 | With guidance and support from adults, focus on a topic, respond to questions and suggestions from peers, <br> and add details to strengthen writing as needed. |
| W.1.6 | With guidance and support from adults, use a variety of digital tools to produce and publish some writing, <br> including in collaboration with peers. |
| Teacher Note |  |
| W.1.6 <br> Students should be given an opportunity to write using digital tools, but not all writing has to be produced digitally. |  |

| Grade 1-Writing Standards |  |
| :--- | :--- |
| W.1.7 | Participate in shared research and writing projects (e.g., explore a number of "how-to" books on a given topic <br> and use them to write a sequence of instructions). |
| W.1.8 | With guidance and support from adults, recall information from experiences or gather information from <br> provided sources to answer a question. |
| W.1.9 | This standard begins in Grade 4. |
| W.1.9.A | Draw evidence from literary or informational texts to support analysis, reflection, and research. |
| Apply Grade 4 Reading standards to literature. (e.g., "Describe in depth a character, setting, |  |
| or event in a story or drama, drawing on specific details in the text [e.g., a character's |  |
| thoughts, words, or actions]."). |  |

| Grade 1-Writing Standards for First Grade |  |
| :--- | :--- |
| Range of Writing |  |
| W.1.10 | Write routinely over short time frames for a range of discipline-specific tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

## Grade 1-Speaking and Listening Standards

## Comprehension and Collaboration

| SL.1.1 | Participate in collaborative conversations with diverse partners about Grade 1 topics and texts with peers <br> and adults in small and larger groups. |
| :--- | :--- |
| $\quad$ Teacher Notes |  |
| SL.1.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.1.A | Follow agreed-upon rules for discussions (e.g., listening to others with care, speaking one at a time about <br> the topics and texts under discussion). |
| SL.1.B | Continue conversations by responding to the comments of others through multiple exchanges. <br> SL.1.C <br> Ask questions to clear up any confusion about the topics and texts under discussion. <br> SL.1.D <br> SL.1.2 <br> Explain their own ideas and understanding in light of the discussion. |
| SL.1.3 | Ask and answer questions about key details in a text read aloud, information presented orally, or through <br> other media. |

## Grade 1-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

| SL.1.4 | Describe people, places, things, and events with relevant details, expressing ideas and feelings clearly. |
| :--- | :--- |
| SL.1.5 | Add drawings or other visual displays to descriptions when appropriate to clarify ideas, thoughts, and <br> feelings. |

## Teacher Note

SL.1.5
A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

SL.1.6 $\quad$ Produce complete sentences when appropriate to task and situations.

## Teacher Note

SL.1.6
See L.1. 1 for specific language expectations for Grade 1 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The
inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 1 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grade 1-Language Standards |  |
| :---: | :---: |
| Conventions of Standard English |  |
| L.1.1 | Demonstrate command of the conventions of standard English grammar and usage as appropriate for Grade 1 when writing or speaking. |
| Teacher Note |  |
| L.1.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.1.1.A | Print all upper- and lowercase letters with proper letter formation. |
| L.1.1.B | Use common, proper, and singular possessive nouns ( e.g., dog, Skippy, dog's or Skippy's). |
| L.1.1.C | Use verbs to convey a sense of past, present, and future (e.g., Yesterday I walked home. Today I walk home. Tomorrow I will walk home.). <br> - Use singular and plural nouns with matching verbs in basic sentences (e.g., He hops. We hop.). |

| L.1.1.D | Use personal, possessive, and indefinite pronouns (e.g., I, me, they, them, my, their, anyone, everything). |
| :---: | :---: |
| L.1.1.E | Use adjectives. <br> - Use determiners, noun markers, to add specificity (e.g., a book, the book). |
| L.1.1.F | Use conjunctions (e.g., and, but, or, so,). |
| L.1.1.G | Use prepositions (e.g., during, beyond, toward). |
| L.1.1.H | Produce and expand complete simple, declarative, interrogative, imperative, and exclamatory sentences in response to prompts. <br> - Use appropriate spacing to separate words in a sentence. |
| L.1.1.I | This standard begins in Grade 4. <br> Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
| L.1.1.J | Interrogatives (who, what, when, where, why, and how) are taught in Kindergarten and should be reinforced as needed. |
| L.1.1.K | Print all upper- and lowercase letters with proper letter formation. |
| L. 1.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as appropriate for Grade 1 when writing. |
|  | Teacher Note |
| L. 1.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer |  |

words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

| L.1.2.A | Capitalize the first word in sentences, the pronoun I, dates, and names of people. |
| :--- | :--- |
| L.1.2.B | Use end punctuation for sentences. |
| L.1.2.C | Use commas in dates and to separate single words in a series. |
| L.1.2.D | Use conventional spelling for words with common spelling patterns and for frequently occurring irregular <br> words. <br> $\bullet$ Spell untaught words phonetically, drawing on phonemic awareness and spelling patterns. |

| Grade 1-Language Standards |  |
| :--- | :---: |
| Knowledge of Language |  |
| L.1.3 | This standard begins in Grade 2. <br> Use knowledge of language and its conventions. |
| L.1.3.A | This standard begins in Grade 3. <br> Choose words and phrases for effect. |
| L.1.3.B | This standard begins in Grade 3. <br> Recognize and observe differences between the conventions of spoken and written standard English. |

## Grade 1-Language Standards

## Vocabulary Acquisition and Use

| L.1.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on <br> Grade 1 reading and content, choosing flexibly from an array of strategies. |
| :--- | :--- |
| L.1.4.A | Use sentence-level context as a clue to the meaning of a word or phrase. |
| L.1.4.B | Use frequently occurring affixes as a clue to the meaning of a word. |
| L.1.4.C | Identify frequently occurring root words (e.g., look) and their inflectional forms (e.g., looks, looked, looking). |
| Teacher Note |  |
| L.1.4.C <br> A chart with common discipline-specific roots may be found at the following link: <br> http:/www.readwritethink.org/files/resources/printouts/content-area-roots.pdf |  |
| L.1.4.D | This standard begins in Grade 2. <br> Use knowledge of the meaning of individual words to predict the meaning of compound words (e.g., <br> birdhouse, lighthouse, housefly; bookshelf, notebook, bookmark). |
| L.1.5 | With guidance and support from adults, demonstrate understanding of word relationships and nuances in <br> word meanings. |

| Teacher Note |  |
| :--- | :--- |
| L.1.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a <br> nuanced meaning: The girl was _(e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.1.5.A | Sort words into categories (e.g., colors, clothing) to gain a sense of the concepts the categories represent. |
| L.1.5.B | Define words by category and by one or more key attributes (e.g., a duck is a bird that swims; a tiger is a <br> large cat with stripes). |
| L.1.5.C | Identify real-life connections between words and their use (e.g., note places at home that are cozy). |
| L.1.5.D | Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, <br> scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting <br> out the meanings. |
| L.1.6 | Use words and phrases acquired through conversations, reading and being read to, and responding to <br> texts, including using frequently occurring conjunctions to signal simple relationships (e.g., because). |

## Grade 2

## Arkansas <br> English Language Arts Standards

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span．They correspond to the College and Career Readiness（CCR）anchor standards below by number．The CCR and grade－specific standards are necessary complements－the former providing broad standards， the latter providing additional specificity－that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1．Read closely to determine what the text says explicitly and to make logical inferences from it；cite specific textual evidence when writing or speaking to support conclusions drawn from the text．
2．Determine central ideas or themes of a text and analyze their development；summarize the key supporting details and ideas．
3．Analyze how and why individuals，events，and ideas develop and interact over the course of a text．

## Craft and Structure

4．Interpret words and phrases as they are used in a text，including determining technical，connotative，and figurative meanings；analyze how specific word choices shape meaning and／or tone．
5．Analyze the structure of texts，including how specific sentences，paragraphs，and larger portions of the text（e．g．， a section，chapter，scene，or stanza）relate to each other and the whole．
6．Assess how point of view，perspective，and／or purpose shape the content and style of a text．

## Integration of Knowledge and Ideas

7．Integrate and evaluate content presented in diverse media and formats．
8．Analyze and evaluate the argument and specific claims in a text，including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9．Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author（s）．

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades K-5

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies,science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

## Grade 2-Reading Standards for Literature

## Key Ideas and Details

| RL.2.1 | Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of <br> key details in a text. |
| :--- | :--- |
| RL.2.2 | Recount stories, including fables and folktales from diverse cultures, and determine their central message, <br> lesson, or moral. |

## Teacher Note

## RL.2.2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

RL. 2.3
Describe how characters in a story respond to major events and challenges.

| Grade 2-Reading Standards for Literature |  |
| :---: | :---: |
| Craft and Structure |  |
| RL.2.4 | Describe how words and phrases (e.g., regular beats, alliteration, rhymes, repeated lines) supply rhythm and meaning in a story, poem, or song. |
| RL.2.5 | Describe the overall structure of a story, including describing how the beginning introduces the story and the ending concludes the action. |
| Teacher Note |  |
| RL. 2.5 <br> In a ballad, each stanza tells the next part of the story. In a novel, the early chapters often establish the setting and provide foundational descriptions of characters who develop across the following chapters. In a play, one scene follows another as the action unfolds. When writing or discussing stories, dramas, and poems, students should refer to specific chapters, scenes, or stanzas when citing evidence to support their analysis. |  |
| RL.2.6 | Acknowledge differences in the perspectives of characters, including by speaking in a different voice for each character when reading dialogue aloud. |
| Teacher Note |  |
| RL.2.6 It is imp <br> Point of allow or techniqu wherein in the th | th to clarify the terms "point of view" and "perspective" for students. <br> is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can hold the reader access into the greater reaches of the story. Two of the most common point of view are the first person, wherein the story is told by the narrator from his or her standpoint and the third person narrator does not figure in the events of the story and tells the story by referring to all characters and place person with third person pronouns and proper nouns |

## (http://literary-devices.com/content/point-view).

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective).
In these standards and in an English class, the term point of view is used referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective is used when referring to a particular way of viewing things that depends on one's experience and personality. When analyzing literature, both terms are needed. For further clarification, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers define as perspective.

| Grade 2-Reading Standards for Literature |  |
| :--- | :--- |
|  | Integration of Knowledge and Ideas |
| RL.2.7 | Use information gained from the illustrations and words in a print or digital text to demonstrate <br> understanding of its characters, setting, or plot. |
| RL.2.8 | RL.2.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.2.9 | Compare and contrast two or more versions of the same story (e.g., Cinderella stories) by different <br> authors or from different cultures. |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RL.2.10 | By the end of the year, read and comprehend literature, including stories and poetry, in the grades 2-3 <br> text complexity band proficiently, with scaffolding as needed at the high end of the range. |
| Teacher Note |  |
| RL.2.10 <br> For information about how to enrich comprehension through read-alouds and independent reading, see <br> http://www.corestandards.org/assets/Appendix A.pdf\#page=27 |  |
| It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who <br> do not read proficiently by the end of thirr grade are four times more likely to leave school without a diploma than <br> proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#ppage=11). |  |
| Since districts use a variety of materials that have different quantitative descriptors, the Reading Level Correlation <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf |  |
| A chart with text complexity quantitative measures by grade band may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4 |  |

| Grade 2-Reading Standards for Informational |  |
| :---: | :---: |
| Key Ideas and Details |  |
| RI.2.1 | Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text. |
| RI.2.2 | Identify the main topic of a multi-paragraph text as well as the focus of specific paragraphs within the text. |
| Teacher Note |  |
| RI.2.2 <br> Example of identifying the main idea of a text and identifying how key details support the main idea: <br> A text about sharks can be found at the following link <br> https://www.ncsu.edu/project/lancet/third grade/sharks3.pdf <br> The main idea of the text is that sharks have unique characteristics. The first sentence in each paragraph provides a key detail about sharks. <br> - "Sharks are actually a type of fish." <br> - "Sharks have lots of teeth that are arranged in many rows rather than in just one row like people." <br> - "One of the things particularly special about sharks is they have been around a long time." <br> The standard asks students to look at a whole text and identify the main idea of the text and key details about sharks. The first sentence of every paragraph in every text will not necessarily contain a key detail, but it is true for this text. |  |
| RI.2.3 | Describe the connection between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text. |

## Teacher Note

## RI.2.3

Historical events are by their very nature grounded in time. However, time can be expressed moving forward or backward.
Example of describing a sequence of events using language that pertains to time:
World War II took place in the 1940's. Earlier in United States History, we engaged in the Civil War. More recently, our soldiers engaged in Operation Desert Storm. The use of the terms "earlier" and "more recently" show the relationship of these events in time; however, the events are not presented sequentially.

Example of describing a sequence:
When baking a cake, it is important to combine the ingredients in a particular order. The following is one example of a sequence for combining the ingredients of a cake. First mix the dry ingredients together. Then mix the wet ingredients together in a separate container. Finally, add the dry ingredients gradually to the wet ingredients, mixing constantly to make a smooth batter.

A list of time and sequencing words may be found at (https://lincs.ed.gov/readingprofiles/Signal Words.pdf).
Examples describing cause and effect:
Cause and effect relationships can be viewed from cause to effect or from effect to cause.
The effect of lumpy cake batter can caused by improperly mixing wet and dry ingredients.
Engaging in a war or conflict can result in many effects such as lost lives, strained financial resources within the government, and increased financial resources within the defense industry.

The effect of fatigue could result from one or more causes such as lack of sleep, improper diet, medication, and physical exertion.

## Grade 2-Reading Standards for Informational

## Craft and Structure

| RI.2.4 | Determine the meaning of words and phrases in a text relevant to a Grade 2 topic or subject area. |
| :--- | :--- |
| RI.2.5 | Know and use various text features (e.g., captions, bold print, subheadings, glossaries, indexes, electronic <br> menus, icons) to locate key facts or information in a text efficiently. |

## Teacher Note

## RI.2.5

Text features should be presented in a systematic way within an aligned curriculum.
RI.2.6 $\quad$ Identify the main purpose of a text, including what the author wants to answer, explain, or describe.

## Teacher Note

## RI.2.6

Although the words perspective and point of view are not in this standard, they are implied in the author's intention to answer, explain, or describe. Addressing point of view and perspective will help students develop an understanding of the author's purpose.

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns

## (http://literary-devices.com/content/point-view).

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective).
In these standards and in an English class, the term point of view is used referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective is used when referring to a particular way of viewing things that depends on one's experience and personality. When analyzing literature, both terms are needed. For further clarification, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers define as perspective.

| Grade 2-Reading Standards for Informational |  |
| :--- | :--- |
| $\quad$ Integration of Knowledge and Ideas |  |
| RI.2.7 | Explain how specific images (e.g., a diagram showing how a machine works) contribute to and clarify a text. |
| RI.2.8 | Describe how an author uses reasons to support particular points in a text. |
| $\quad$ Teacher Note |  |

|  |  |
| :--- | :--- |
| $\quad$ Range of Reading and Level of Text Complexity |  |
| RI.2.10 | By the end of year, read and comprehend informational texts, including history/social studies, science, and <br> technical texts, in the Grades 2-3 text complexity band proficiently, with scaffolding as needed at the high <br> end of the range. |
| $\quad$ Teacher Note |  |

## Grade 2-Reading Standards: Foundational Skills

## Print Concepts

| RF.2.1 | This standard is taught in Grade 1 and should be reinforced as needed. <br> Demonstrate understanding of the organization and basic features of print. |
| :--- | :---: |
| RF.2.1.A | Recognize the distinguishing features of a paragraph including that multiple sentences may be used to form <br> a paragraph and the author may indent or skip a line to signal a new paragraph. |
| RF.2.1.B | This standard is taught in kindergarten and should be reinforced as needed. <br> Recognize that spoken words are represented in written language by specific sequences <br> of letters and that print carries meaning. |
| RF.2.1.C | This standard is taught in Kindergarten and should be reinforced as needed. <br> Understand that words are separated by spaces in print. |
| RF.2.1.D | This standard is taught in Kindergarten and should be reinforced as needed. <br> Recognize and name all upper- and lowercase letters of the alphabet. |

| Grade 2-Reading Standards: Foundational Skills |  |
| :--- | :--- |
| RF.2.2 | Phonological Awareness |
| RF.2.2.A | Distinguish vowels (long, short, variant) in spoken single-syllable words. |
| Remonstrandard is taught in Grade 1 and should be reinforced as needed. |  |
| RF.2.2.B | Delete phonemes in the initial, medial, and final positions of spoken words including blends. |
| Teacher Note |  |

|  | words (e.g., say "nice" without the $/ \mathrm{n} /$, say "lamp" without the $/ \mathrm{p} /$ ). |
| :--- | :--- |

## Grade 2-Reading Standards: Foundational Skills

## Phonics and Word Recognition

| RF.2.3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| :--- | :--- |
| RF.2.3.A | Identify words with inconsistent but common letter-sound correspondences (e.g., doll/roll, <br> though//cough/rough, love/rove, have/save, some/dome, near/bear, soot/loot, were/here, shall/tall, <br> own/town, hour/tour, want/plant). |
| RF.2.3.B | Know the letter/sound correspondences, including distinguishing long and short vowel sounds. <br> - diphthongs (e.g., oi, oy, ou, ow) <br> - r-controlled vowels (e.g., er, ir, ur, ar, or) <br> additional common vowel teams (e.g., ei, ie, igh) <br> - regularly-spelled one-syllable words |
| RF.2.3.C | Recognize and read grade-appropriate irregularly-spelled words. <br> $\quad$ Teacher Note <br> RF.2.3.C <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualiltative, and reader and task for the Grades 2-3 text complexity band. The texts <br> should also be selected to include words for appropriate phonic, word study, and spelling development and should <br> have content and literary merit. The text must be rigorous enough to engage students in Grade 2 concepts across all <br> four strands of the English Language Arts standards. Text selection should be a priority consideration when developing <br> a rigorous grade-appropriate curriculum. <br> RF.2.3.DDecode words with common prefixes and suffixes. |

| Teacher Note |  |
| :---: | :---: |
| RF.2.3.D <br> A chart of prefixes and suffixes may be found at http://www.readwritethink.org/files/resources/printouts/content-arearoots.pdf |  |
| RF.2.3.E | Decode words that follow the six syllable types. <br> - closed syllable <br> - open syllable <br> - vowel-consonant-e <br> - vowel teams <br> - r-controlled <br> - consonant-le |
| Teacher Note |  |
| RF.2.3.E <br> Information on the syllable types may be found at http://www.corestandards.org/assets/Appendix A.pdf\#page=21 |  |
| RF.2.3.F | Decode regularly-spelled two-syllable words with long vow |
| Teacher Note |  |
| RF.2.3.F Decode re <br> - vc/ <br> - $\mathrm{v} / \mathrm{c}$ <br> - $\mathrm{v} / \mathrm{c} \mathrm{v}$ <br> - $\mathrm{vc} / \mathrm{v}$ <br> - $\mathrm{v} / \mathrm{v}$ | ularly-spelled two-syllable words using syllable types (e.g., can/teen, ad/here) <br> (e.g., a/pron) <br> (e.g., hu/mid) <br> (e.g., rap/id, riv/er, dec/ade <br> (e.g., cre/ate) |

## Grade 2-Reading Standards: Foundational Skills

## Fluency

RF.2.4 $\quad$ Read grade-level text with sufficient accuracy and fluency to support comprehension.

## Teacher Note

## RF.2.4

Fluency is the ability to read accurately, quickly, expressively, with good phrasing, and with good comprehension.
Students' fluency should be measured qualitatively by how well they demonstrate their ability to read grade-level texts accurately, quickly, expressively, with good phrasing, and with good comprehension.

Timothy Rasinski has studied and written extensively on the topic of reading fluency. The article cited below provides extensive guidance, including rubrics for reading fluency. Rasinski provides the following warning about the proper use of fluency assessments:
"Reading rate appears to reflect students' ongoing development of automaticity in their decoding, which can be developed through practiced and assisted readings (see Kuhn \& Stahl, 2000; Osborn \& Lehr, 2003). If teachers provide the kind of instruction in fluency that works, then fluency, comprehension, and rate will improve. If teachers choose instead to focus primarily on developing students' reading rate at the expense of reading with expression, meaning, and comprehension, students may read fast but with insufficient comprehension. Their goal may be to get from one point in the text to another as fast as possible, without understanding the nuances of meaning in the text. This would be a grave misinterpretation of the research related to reading fluency development and a disservice to the students. Similarly, teachers need to be cautious in using reading rate to assess English language learners (ELLs). Many ELLs can be deceptively fast and accurate in their reading, yet demonstrate little understanding of the text. Teachers cannot assume that such students are progressing well in reading based solely on their reading rate. Other issues such as vocabulary and language proficiency may impede the students' growth in reading and require instructional intervention" (Rasinski, Timothy, p 15. http://files.eric.ed.gov/fulltext/ED483166.pdf).

| RF.2.4.A | Read grade-level text with purpose and understanding. |
| :--- | :--- |

RF.2.4.B $\quad$ Read grade-level text orally with accuracy, appropriate rate, and expression on successive readings.
RF.2.4.C Use context in grade-level text to confirm or self-correct word recognition and understanding, rereading as necessary.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

| Grade 2-Writing Standards |  |  |  |
| :--- | :---: | :---: | :---: |
| W.2.1 | Write opinion pieces in which they introduce the topic or book they are writing about, state an opinion, <br> supply reasons that support the opinion, use linking words <br> and reasons, and provide a concluding statement or section. |  |  |
| Teacher Note |  |  |  |

| W.2.2 <br> See http://www.corestandards.org/assets/Appendix A.pdf\#page=23 for more explanation concerning text types. |  |
| W.2.2.A | This standard begins in Grade 3. |
| Introduce a topic and group related information; include illustrations when useful |  |
| to aiding comprehension. |  |

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

See http://www.corestandards.org/assets/Appendix A.pdf\#page=23 for more explanation concerning text types.
Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as).

| W.2.3.A | This standard begins in Grade 3. <br> Establish a situation and introduce a narrator and/or characters; organize an event sequence <br> that unfolds naturally. |
| :--- | :---: |
| W.2.3.B | This standard begins in Grade 3. <br> Use narrative techniques, such as dialogue and descriptions of actions, thoughts, and feelings to develop <br> experiences and events or show the response of characters to situations begins in Grade 3. |
| W.2.3.C | This standard begins in Grade 3. <br> Use temporal words and phrases to signal event order. |
| W.2.3.D | This standard begins in Grade 4. <br> Use concrete words and phrases and sensory details to convey experiences and events precisely. |
| W.2.3.E | This standard begins at Grade 3. |

| Grade 2-Writing Standards |  |
| :---: | :---: |
| Production and Distribution of Writing |  |
| W.2.4 | This standard begins at Grade 3. <br> With guidance and support from adults, produce writing in which the development and organization are appropriate to task and purpose. |
| W.2.5 | With guidance and support from adults and peers, focus on a topic and strengthen writing as needed by revising and editing. |
| W.2.6 | With guidance and support from adults, use a variety of digital tools to produce and publish some writing, including in collaboration with peers. |
| Teacher Note |  |
| W.2.6 Studen | should be given an opportunity to write using digital tools, but not all writing has to be produced digitally. |

## Grade 2-Writing Standards

## Research to Build and Present Knowledge

| W.2.7 | Participate in shared research and writing projects (e.g., read a variety of print and/or digital sources on a <br> single topic to produce a report; record science observations). |
| :--- | :--- |
| W.2.8 | Recall information from experiences or gather information from provided sources to answer a question. |
| W.2.9 | This standard begins in Grade 4. <br> Draw evidence from literary or informational texts to support analysis, reflection, and research. |
| W.2.9.A | This standard begins in Grade 4. <br> Apply Grade 4 Reading standards to literature (e.g., "Describe in depth a character, setting, or event in a <br> story or drama, drawing on specific details in the text [e.g., a character's thoughts, words, or actions]."). |
| W.2.9.B | This standard begins in Grade 4. |
| Apply Grade 4 Reading standards to informational texts (e.g., "Explain how an author uses |  |
| reasons and evidence to support particular points in a text."). |  |

| Grade 2-Writing Standards |  |
| :--- | :--- |
| Range of Writing |  |
| W.2.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames for a range of discipline-specific tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

## Grade 2-Speaking and Listening Standards

## Comprehension and Collaboration

## SL.2.1 $\quad$ Participate in collaborative conversations with diverse partners about Grade 2 topics and texts with peers and adults in small and larger groups.

## Teacher Notes

## SL.2.1

Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., Think Pair Share, Reciprocal Teaching, and teacher-led class discussion).
SL.2.1.A $\quad$ Follow agreed-upon rules for discussions (e.g., gaining the floor in respectful ways, listening to others with care, speaking one at a time about the topics and texts under discussion).

SL.2.1.B Build on others' talk in conversations by linking their comments to the remarks of others.
SL.2.1.C Ask for clarification and further explanation as needed about the topics and texts under discussion.

SL.2.1.D This standard begins in Grade 3.
Explain their own ideas and understanding in light of the discussion.
SL.2.2 Recount or describe key ideas or details from a text read aloud, information presented orally, or through other media.

## Teacher Note

## SL.2. 2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

In this standard, other media includes any other source of information presented orally (e.g., podcasts, audiobooks, videos). For the purpose of this Speaking and Listening Standard, the focus is on information that is presented orally; however, the general definition of media that is provided here is much broader.

Media is any format in which information is communicated. Examples: book, magazine, newspaper, e-book, emagazine, e-newspaper, video, streaming video, television, movie, audiobook, radio, cd, dvd, smartphone app, internet, cartoon, photograph, painting, etc.

SL.2.3
Ask and answer questions about what a speaker says in order to clarify comprehension, gather additional information, or deepen understanding of a topic or issue.

## Grade 2-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

SL.2.4 $\quad$ Tell a story or recount an experience with appropriate facts and relevant, descriptive details, speaking audibly in coherent sentences.

## Teacher Note

## SL.2.4

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. ## SL.2.5 Create audio recordings of stories or poems; add drawings or other visual displays to stories or recounts of

 experiences when appropriate to clarify ideas, thoughts, and feelings.
## Teacher Note

## SL.2.5

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and
pyramid area graphs).
SL.2.6 Produce complete sentences when appropriate to task and situation in order to provide requested detail or clarification.

## Teacher Note

SL. 2.6
See L.2.1 and L.2.3 for specific language expectations for Grade 2 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content.

The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 2-3 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 2 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grade 2-Language Standards |  |
| :---: | :---: |
| Conventions of Standard English |  |
| L.2.1 | Demonstrate command of the conventions of standard English grammar and usage as appropriate for Grade 2 when writing or speaking. |
| Teacher Note |  |
| L. 2.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.3.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.2.1.A | This standard begins in Grade. <br> Explain the function of nouns, pronouns, verbs, adjectives, prepositions, and adverbs in general and their functions in particular sentences. |
| L.2.1.B | Form and use frequently occurring irregular plural nouns (e.g., feet, children, teeth, mice, fish) and collective nouns (e.g., group). |
| L.2.1.C | Form and use regular and irregular verbs. |

| L.2.1.D | Use reflexive pronouns (e.g., myself, ourselves). |
| :---: | :---: |
| L.2.1.E | Use adjectives and adverbs and choose between them depending on what is modified. <br> - Use determiners, noun markers, to add specificity (e.g., a, an, the, many, few, each, every, this, that, these, those). |
| L.2.1.F | Use conjunctions to form compound subjects and predicates. |
| L.2.1.G | Use prepositions correctly. |
| L.2.1.H | Produce, expand, and rearrange complete simple sentences (e.g., The boy watched the movie. The little boy watched the movie in the afternoon. In the afternoon, the little boy watched the movie.). |
| L.2.1.I | This standard begins in Grade 4. <br> Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
| L.2.1.J | This standard is taught in Kindergarten and should be reinforced as needed. Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| L.2.1.K | Print all upper- and lowercase letters accurately. By the end of grade two, produce some cursive upperand lowercase letters. |
| L.2.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as appropriate for Grade 2 when writing. |
|  | Teacher Note |
| L. 2.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences (http://www.dictionary.com/browse/standard-english?s=t) |  |

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

| L.2.2.A | Capitalize holidays, product names, and geographic names. |
| :--- | :--- |
| L.2.2.B | Use an apostrophe to form contractions and frequently occurring possessives. |
| L.2.2.C | Use commas in greetings and closings of letters. |
| L.2.2.D | Generalize learned spelling patterns when writing words (e.g., cage, badge, boy, boil). <br> Reference spelling patterns chart to clarify types of spelling patterns. <br> Consult reference materials, including beginning dictionaries as needed to check and correct <br> spellings. |

## Teacher Note

## L.2.2.D

It would be helpful for teachers and students to co-create a chart of spelling patterns during instruction.

| Grade 2-Language Standards |  |
| :--- | :---: |
| L.2.3 | Use knowledge of language and its conventions as appropriate for Grade 2 when writing, speaking, reading, <br> or listening. |
| L.2.3.A | This standard begins in Grade 3. <br> Choose words and phrases for effect. |
| L.2.3.B | This standard begins in Grade 3. <br> Recognize and observe differences between the conventions of spoken and written standard English. |

| Grade 2-Language Standards |  |
| :---: | :---: |
| Vocabulary Acquisition and Use |  |
| L.2.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 2 reading and content, choosing flexibly from an array of strategies. |
| L.2.4.A | Use sentence-level context as a clue to the meaning of a word or phrase. |
| L.2.4.B | Determine the meaning of the new word formed when a known prefix is added to a known word (e.g., happy/unhappy, tell/rete/f). |
| L.2.4.C | Use a known root word as a clue to the meaning of an unknown word with the same root (e.g., addition, additional). |
| Teacher Note |  |
| L.2.4.C <br> A chart with common discipline-specific roots may be found at the following link: http://www.readwritethink.org/files/resources/printouts/content-area-roots.pdf |  |
| L.2.4.D | Use knowledge of the meaning of individual words to predict the meaning of compound words (e.g., birdhouse, lighthouse, housefly; bookshelf, notebook, bookmark). |
| L. 2.5 | Demonstrate understanding of word relationships and nuances in word meanings. |
| Teacher Note |  |
| L. 2.5 |  |

Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile).
L.2.5.A $\quad$ Sort words into categories based on multiple attributes (e.g. A large apple can be categorized by its color, size, and as a fruit.) to gain a sense of the concept that items can be categorized by more than one characteristic.
L.2.5.B Distinguish shades of meaning among closely related verbs (e.g., toss, throw, hurl) and closely related adjectives (e.g., thin, slender, skinny, scrawny).

| L.2.5.C | Identify real-life connections between words and their use (e.g., describe foods that are spicy or juicy). |
| :--- | :--- |

L.2.5.D

This standard is taught in Grade 1 and should be reinforced as needed.
Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the meanings.

|  | Lize, and as a fruit.) to gain a sense of the concept that items can be categorized by more than one <br> characteristic. |
| :--- | :--- |
| L.2.5.B | Distinguish shades of meaning among closely related verbs (e.g., toss, throw, hurl) and closely related <br> adjectives (e.g., thin, slender, skinny, scrawny). |
| L.2.5.C | Identify real-life connections between words and their use (e.g., describe foods that are spicy or juicy). |
| L.2.5.D | Thistinguish shades of meandard is taught in Grade 1 and should be reinforced as needed. <br> and adjectives differing in intensity (e.g., large differing in manner gigantic) by defining or choos, peek, glance, stare, glare, scowl) <br> meanings. |
| L.2.6 | Use words and phrases acquired through conversations, reading and being read to, and responding to texts, <br> including using adjectives and adverbs to describe (e.g., When other kids are happy that makes me happy). |

## Grade 3

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades K-5

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies, science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

## Grade 3-Reading Standards for Literature

## Key Ideas and Details

| RL.3.1 | Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis <br> for the answers. |
| :--- | :--- |
| RL.3.2 | Recount stories, including fables, folktales, and myths from diverse cultures; determine the central message, <br> lesson, or moral and explain how it is conveyed through key details in the text. |

## Teacher Note

## RL.3.2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

RL. 3.3
Describe characters in a story (e.g., their traits, motivations, or feelings) and explain how their actions contribute to the sequence of events.

| Grade 3-Reading Standards for Literature |  |
| :--- | :--- |
| Craft and Structure |  |
| RL.3.4 | Determine the meaning of words and phrases as they are used in a text, distinguishing literal from nonliteral <br> language. |
| Teacher Note |  |
| RL.3.4 <br> Nonliteral phrases are not just idioms but also include figurative language such as personification, hyperbole, simile, and <br> metaphor. The types of figurative language should be appropriate for the grade level and aligned across grades within a <br> building and the district. See related standard L.3.5.A. |  |
| RL.3.5Refer to parts of stories, dramas, and poems when writing or speaking about a text, using terms such as <br> chapter, scene, and stanza; describe how each successive part builds on earlier sections. |  |
| Teacher Note |  |
| RL.3.5 <br> In a ballad, each stanza tells the next part of the story. In a novel, the early chapters often establish the setting and <br> provide foundational descriptions of characters who develop across the following chapters. In a play, one scene follows <br> another as the action unfolds. When writing or discussing stories, dramas, and poems, students should refer to specific <br> chapters, scenes, or stanzas when citing evidence to support their analysis. |  |
| RL.3.6 | Distinguish their own perspective from that of the narrator or those of the characters, also distinguish the <br> difference between first- and third-person point-of-view narrations. |
| RL.3.6 <br> It is important to clarify the terms "point of view" and "perspective" for students. |  |

Point of view is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view).
Perspective is a particular way of viewing things that depends on one's experience and personality (http://dictionary.cambridge.org/us/dictionary/english/perspective).

In these standards and in an English class, the term point of view is used referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective is used when referring to a particular way of viewing things that depends on one's experience and personality. When analyzing literature, both terms are needed. For further clarification, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers define as perspective.

A pair of texts that provide an example of first- and third-person narration is "The Three Little Pigs" and "The True Story of the Three Little Pigs" by Jon Scieszka. (The True Story of the Three Little Pigs is from the perspective of the wolf.)

## Grade 3-Reading Standards for Literature

Integration of Knowledge and Ideas

| RL.3.7 | Explain how specific aspects of a text's illustrations contribute to what is conveyed by the words in a story <br> (e.g., create mood, emphasize aspects of a character or setting). |
| :--- | :--- |
| RL.3.8 | RL.3.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.3.9 | Compare and contrast the themes, settings, and plots of stories written by the same author about the <br> same or similar characters (e.g., in books from a series). |
| Range of Reading and Level of Text Complexity |  |

A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Grade 3-Reading Standards for Informational

Key Ideas and Details

## RI.3.1 <br> Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis

 for the answers.
## RI.3.2 Determine the main idea of a text; recount the key details and explain how they support the main idea.

## Teacher Note

## RI.3. 2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

Example of identifying the main idea of a text and identifying how key details support the main idea:

## A text about sharks can be found at the following link

https://www.ncsu.edu/project/lancet/third grade/sharks3.pdf
The main idea of the text is that sharks have unique characteristics. The first sentence in each paragraph provides a key detail about sharks.

- "Sharks are actually a type of fish."
- "Sharks have lots of teeth that are arranged in many rows rather than in just one row like people."
- "One of the things particularly special about sharks is they have been around a long time."

The standard asks students to look at a whole text and identify the main idea of the text and key details about sharks.
The first sentence of every paragraph in every text will not necessarily contain a key detail, but it is true for this text.
RI.3.3 Describe the relationship between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text, using language that pertains to time, sequence, and cause/effect.

## Teacher Note

## RI.3.3

Historical events are by their very nature grounded in time. However, time can be expressed moving forward or backward.
Example of describing a sequence of events using language that pertains to time:
World War II took place in the 1940's. Earlier in United States History, we engaged in the Civil War. More recently, our soldiers engaged in Operation Desert Storm. The use of the terms "earlier" and "more recently" show the relationship of these events in time; however, the events are not presented sequentially.

Example of describing a sequence:
When baking a cake, it is important to combine the ingredients in a particular order. The following is one example of a sequence for combining the ingredients of a cake. First mix the dry ingredients together. Then mix the wet ingredients together in a separate container. Finally, add the dry ingredients gradually to the wet ingredients, mixing constantly to make a smooth batter.

A list of time and sequencing words may be found at (https://lincs.ed.gov/readingprofiles/Signal Words.pdf).

Examples describing cause and effect:

Cause and effect relationships can be viewed from cause to effect or from effect to cause.
The effect of lumpy cake batter can caused by improperly mixing wet and dry ingredients.
Engaging in a war or conflict can result in many effects such as lost lives, strained financial resources within the government, and increased financial resources within the defense industry.

The effect of fatigue could result from one or more causes such as lack of sleep, improper diet, medication, and physical exertion.

| Grade 3-Reading Standards for Informational |  |
| :---: | :---: |
| Craft and Structure |  |
| RI.3.4 | Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a Grade 3 topic or subject area. |
| Teacher Note |  |
| RI.3.4 <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33) |  |
| RI.3.5 | Use text features and search tools (e.g., key words, sidebars, hyperlinks) to locate information relevant to a given topic efficiently. |
| Teacher Note |  |
| RI.3.5 <br> Text features should be presented in a systematic way within an aligned curriculum. |  |
| RI.3.6 | Distinguish their own perspective from that of the author of a text. |

## Teacher Note

## RI.3. 6

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view).
Perspective is a particular way of viewing things that depends on one's experience and personality (http://dictionary.cambridge.org/us/dictionary/english/perspective).

In these standards and in an English class, the term point of view is used referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective is used when referring to a particular way of viewing things that depends on one's experience and personality. When analyzing literature, both terms are needed. For further clarification, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers define as perspective.

| Grade 3-Reading Standards for Informational  <br> $\quad$ Integration of Knowledge and Ideas  <br> RI.3.7 Use information gained from illustrations (e.g., maps, photographs) and the words in a text to demonstrate <br> understanding of the text (e.g., where, when, why, and how key events occur). <br> RI.3.8 Describe the logical connection between particular sentences and paragraphs in a text (e.g., comparison, <br> cause/effect, first/second/third in a sequence). <br> $\quad$ Teacher Note  <br> RI.3.8 <br> Students could look for words that signal cause/effect or sequence in texts they are studying. Students can improve <br> their reading comprehension of informational texts, by combining their knowledge of the signal words with their <br> knowledge of text structures such as comparison, cause/effect, first/second/third in a sequence. They can predict the <br> type of information that will come next because they are able to identify the logical connection between sentences and <br> paragraphs in a text.  <br> Some examples of signal words and associated text structures may be found at <br> (https://lincs.ed.gov/readingprofiles/Signal Words.pdf)  <br> and (https://education.illinoisstate.edu/downloads/casei/3-01-04-handout\%20TextStructureResources\%201.pdf).  |  |
| :--- | :--- |
| RI.3.9 | Compare and contrast the most important points and key details presented in two texts on the same topic. |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RI.3.10 | By the end of the year, read and comprehend informational texts, including history/social studies, science, <br> and technical texts, at the high end of the grades 2-3 text complexity band independently and proficiently. |
|  |  |
| Teacher Note |  |
| RI.3.10 <br> For information about how to enrich comprehension through read-alouds and independent reading, see <br> http://www.corestandards.org/assets/Appendix A.pdf\#tpage=27 |  |
| It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who <br> do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than <br> proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdffpage=11). <br> Since districts use a variety of materials that have different quantitative descriptors, the Reading Level Correlation <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf <br> A chart with text complexity quantitative measures by grade band may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4 |  |

| Grade 3-Reading Standards: Foundational Skills |  |
| :--- | :---: |
| RF.3.1 | Phonics and Word Recognition |
| RF.3.1.A | This standard is taught in Grades K-1 and should be reinforced as needed. <br> Demonstrate understanding of the organization and basic features of print. |
| Recognize the distinguishing features of a paragraph including that multiple sentences may be used to form |  |
| a paragraph and the author may indent or skip a line to signal a new paragraph, |  |$|$

| RF.3.2.C | This standard is taught in Grade 1 and should be reinforced as needed. <br> Isolate and produce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words. |
| :--- | :---: |
| RF.3.2.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Segmenting spoken one-syllable words into their complete sequence of individual sounds (phonemes). |
| RF.3.2.E | This standard is taught in Grade 1 and should be reinforced as needed. <br> Delete a syllable from a word (e.g., say "remember," now say it without the "re"). |
| RF.3.2.F | This standard is taught in Grade 1 and should be reinforced as needed. <br> Add or substitute individual sounds (phonemes) in simple spoken words to make new words. |
| RF.3.2.G | This standard is taught in Grade 1 and should be reinforced as needed. <br> Delete individual initial and final sounds (phonemes) in simple spoken words (e.g., say "nice" without the /n/, <br> say "lamp" without the /p/. |
| RF.3.3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| Teacher Note |  |

```
two ways: (https://www.englishclub.com/vocabulary/suffixes.htm)
inflectional (grammatical): for example, changing singular to plural (dog }->\mathrm{ dogs), or changing present tense to past tense (walk }
walked). In this case, the basic meaning of the word does not change.
derivational (the new word has a new meaning, "derived" from the original word): for example, teach }->\mathrm{ teacher or care }->\mathrm{ careful
An explanation and examples of derivational suffixes can be found at
(http://www.corestandards.org/assets/Appendix A.pdf#page=22)
A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-area-
roots.pdf).
RF.3.3.B Decode words with common Latin suffixes.
    Teacher Note
RF.3.3.B
Changed to align to the Kindergarten language standards.
RF.3.3.C 
RF.3.3.D Read grade-appropriate irregularly-spelled words.
```

## Teacher Note

## RF.3.3.D

```
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 2-3 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 3 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing
```

## a rigorous grade-appropriate curriculum.

Irregular words - "[Words that] cannot be decoded by sounding out" : [permanently irregular words have] one or more sound/spellings in the word that are unique to that word or a few words and therefore are never introduced; [temporarily irregular words have] one or more sound/spellings in the word that have not yet been introduced" (Honig, Diamond, and Gutlohn 243).
Not all words found on sight word and high-frequency word lists are irregular.

| R.3.3.E | This standard is taught in Grade 2 and should be reinforced as needed. <br> Decode words that follow the six syllable types. <br> - closed syllable <br> - open syllable <br> - vowel-consonant-e <br> - vowel teams <br> - r-controlled <br> - consonant-le |
| :---: | :---: |
| R.3.3.F | This standard is taught in Grade 2 and should be reinforced as needed. Decode regularly-spelled two-syllable words with long vowels. |

## Grade 3-Reading Standards: Foundational Skills

## Fluency

RF.3.4 $\quad$ Read grade-level text with sufficient accuracy and fluency to support comprehension.

## Teacher Note

## RF.3.4

Fluency is the ability to read accurately, quickly, expressively, with good phrasing, and with good comprehension.
Students' fluency should be measured qualitatively by how well they demonstrate their ability to read grade-level texts accurately, quickly, expressively, with good phrasing, and with good comprehension.

Timothy Rasinski has studied and written extensively on the topic of reading fluency. The article cited below provides extensive guidance, including rubrics for reading fluency. Rasinski provides the following warning about the proper use of fluency assessments:
"Reading rate appears to reflect students' ongoing development of automaticity in their decoding, which can be developed through practiced and assisted readings (see Kuhn \& Stahl, 2000; Osborn \& Lehr, 2003). If teachers provide the kind of instruction in fluency that works, then fluency, comprehension, and rate will improve. If teachers choose instead to focus primarily on developing students' reading rate at the expense of reading with expression, meaning, and comprehension, students may read fast but with insufficient comprehension. Their goal may be to get from one point in the text to another as fast as possible, without understanding the nuances of meaning in the text. This would be a grave misinterpretation of the research related to reading fluency development and a disservice to the students. Similarly, teachers need to be cautious in using reading rate to assess English language learners (ELLs). Many ELLs can be deceptively fast and accurate in their reading, yet demonstrate little understanding of the text. Teachers cannot assume that such students are progressing well in reading based solely on their reading rate. Other issues such as vocabulary and language proficiency may impede the students' growth in reading and require instructional intervention" (Rasinski,

Timothy, p 15. http://files.eric.ed.gov/fulltext/ED483166.pdf).

| RF.3.4.A | Read grade-level text with purpose and understanding. |
| :--- | :--- |

RF.3.4.B Read grade-level prose and poetry orally with accuracy, appropriate rate, and expression on successive readings.

RF.3.4.C Use context in grade-level text to confirm or self-correct word recognition and understanding, rereading as necessary.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

## Grade 3-Writing Standards

## Text Types and Purposes

| W.3.1 | Write opinion pieces on topics or texts, supporting the opinion with reasons. |
| :--- | :--- |
| Teacher Note |  |
| W.3.1 <br> An opinion is a view, judgment, or appraisal formed in the mind about a particular matter; belief stronger than <br> impression and less strong than positive knowledge (http://www.merriam-webster.com/dictionary/opinion) <br> Note the learning progression: opinion writing is the foundation and and precursor for persuasive writing; persuasive <br> writing, based almost entirely on emotion and credibility, is a precursor to logically based argumentative writing. |  |
| W.3.1.A | Introduce the topic or text they are writing about, state an opinion, and create an organizational structure <br> that lists reasons. |
| W.3.1.B | Provide reasons that support the opinion. |
| W.3.1.C | Use linking words and phrases (e.g., because, therefore, since, for example) to connect opinion and <br> reasons. |
| W.3.1.D | Provide a concluding statement or section. |
| W.3.1.E | This standard begins in Grade 6. <br> Provide a concluding statement or section that follows from the argument presented. |
| W.3.2 | Write informative/explanatory texts to examine a topic and convey ideas and information clearly. |

| W.3.2.A | Introduce a topic and group related information; include illustrations when useful to aiding comprehension. |
| :---: | :---: |
| W.3.2.B | Develop the topic with facts, definitions, and details. |
| W.3.2.C | Use linking words and phrases (e.g., also, another, and, more, but) to connect ideas within categories of information. |
| W.3.2.D | Provide a concluding statement or section. |
| W.3.2.E | This standard begins in Grade 6. Establish and maintain a formal style. |
| W.3.2.F | This standard begins in Grade 4. Provide a concluding statement or section related to the information or explanation presented. |
| W.3.3 | Write narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear event sequences. |
| W.3.3.A | Establish a situation and introduce a narrator and/or characters; organize an event sequence that unfolds naturally. |
| W.3.3.B | Use narrative techniques, such as dialogue and descriptions of actions, thoughts, and feelings to develop experiences and events or show the response of characters to situations. |
|  | Teacher Note |
| W.3.3.B <br> Common narrative techniques relevant to style, or the language chosen to tell a story, include metaphors, similes, personification, imagery, hyperbole, and alliteration. Common techniques relevant to plot, which is the sequence of events that make up a narrative, include backstory, flashback, flash-forward, and foreshadowing. Common techniques relevant to narrative perspective, or who is telling the story, include first person, second person, third person, and thirdperson omniscient. |  |

| W.3.3.C | Use temporal words and phrases to signal event order. |
| :--- | :--- |
| Teacher Note |  |
| W.3.3.C <br> Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as). <br> W.3.3.D <br> This standard begins in Grade 4 <br> Use concrete words and phrases and sensory details to convey experiences and events precisely. <br> W.3.3.E Provide a conclusion that follows from the narrated experiences or events. |  |

| Grade 3-Writing Standards |  |
| :---: | :---: |
| Production and Distribution of Writing |  |
| W.3.4 | With guidance and support from adults, produce writing in which the development and organization are appropriate to task and purpose. |
| Teacher Note |  |
| W.3.4 <br> See W.3.1, W.3.2, and W.3.3 for specific language expectations for Grade 3 students when writing. |  |
| W.3.5 | With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing. |
| Teacher Note |  |
| W.3.5 <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grade 3. |  |
| W.3.6 | With guidance and support from adults, use technology to produce and publish writing (using keyboarding skills) as well as to interact and collaborate with others. |

## Grade 3-Writing Standards

## Research to Build and Present Knowledge

| W.3.7 | Conduct short research projects that build knowledge about a topic. |
| :--- | :--- |
| W.3.8 | Recall information from experiences or gather information from print and digital sources. <br> - Take brief notes on sources. <br> - Sort evidence into provided categories. |
| W.3.9 | This standard begins in Grade 4. <br> Draw evidence from literary or informational texts to support analysis, reflection, and research. |
| W.3.9.A | This standard begins in Grade 4. <br> Apply Grade 4 Reading standards to literature (e.g., "Describe in depth a character, setting, or event in a <br> story or drama, drawing on specific details in the text [e.g., a character's thoughts, words, or actions]."). |
| W.3.9.B | This standard begins in Grade 4. <br> Apply Grade 4 Reading standards to informational texts (e.g., "Explain how an author uses reasons and <br> evidence to support particular points in a text."). |

## Grade 3-Writing Standards

## Range of Writing

W.3.10

Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

## Grade 3-Speaking and Listening Standards

## Comprehension and Collaboration

| SL.3.1 | Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with <br> diverse partners on Grade 3 topics and texts, building on others' ideas and expressing their own clearly. |
| :--- | :--- |
| Teacher Notes |  |
| SL.3.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.3.1.A | Come to discussions prepared, having read or studied required material; explicitly draw on that preparation <br> and other information known about the topic to explore ideas under discussion. |
| SL.3.1.B | Follow agreed-upon rules for discussions (e.g., gaining the floor in respectful ways, listening to others with <br> care, speaking one at a time about the topics and texts under discussion). |
| SL.3.1.C | Ask questions to check understanding of information presented, stay on topic, and link comments to the <br> remarks of others. |
| SL.3.1.D | Explain their own ideas and understanding in light of the discussion. <br> SL.3.2Determine the main ideas and supporting details of information that is gained by means other than reading <br> (e.g., texts read aloud; oral presentations of charts, graphs, or diagrams; speeches). |
| SL.3.3 | Ask and answer questions about information from a speaker in order to clarify comprehension, offering <br> appropriate elaboration and detail. |

## Grade 3-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

\section*{| SL.3.4 | Report on a topic or text, tell a story, or recount an experience with appropriate facts and relevant, |
| :--- | :--- | descriptive details, speaking clearly at an understandable pace.}

## Teacher Note

## SL.3. 4

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1 st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

| SL.3.5 | Create engaging audio recordings of stories or poems that demonstrate fluid reading at an understandable |
| :--- | :--- | pace; add visual displays when appropriate to emphasize or enhance certain facts or details.

## Teacher Note

## SL.3.5

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

SL.3.6 Speak in complete sentences when appropriate to task and situation in order to provide requested detail or clarification.

## Teacher Note

SL.3.6
See L.3.1 and L.3.3 for specific expectations for Grade 3 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The
inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 2-3 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 3 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

| Grade 3-Language Standards |  |
| :--- | :--- |
| Conventions of Standard English |  |
| L.3.1 | Demonstrate command of the conventions of standard English grammar and usage as appropriate for <br> Grade 3 when writing or speaking. |
| $\quad$ Teacher Note |  |
| L.3.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. |  |
| Informal discourse is used with friends, children, and relatives. |  |
| L.3.1.A | Explain the function of nouns, pronouns, verbs, adjectives, prepositions, and adverbs in general and their <br> functions in particular sentences. |
| L.3.1.B | Form and use regular and irregular plural nouns. <br> e Use abstract nouns (e.g., childhood). |
| L.3.1.C | Form and use the simple verb tenses (e.g., I walk; I walked; I will walk). <br> e Form and use the past tense of frequently occurring irregular verbs. |

| L.3.1.D | Ensure subject-verb and pronoun-antecedent agreement. |
| :--- | :--- |
| L.3.1.E | Form and use comparative and superlative adjectives and adverbs, and choose between them depending <br> on what is to be modified. |
| L.3.1.F | Use coordinating conjunctions appropriately. |
| L.3.1.G | Explain the function of prepositions. |
| L.3.1.H | Demonstrate command of simple sentences and produce compound sentences. |
| L.3.1.I | Uhis standard begins in Grade 4. <br> This standard is taught in Kindergarten and should be reinforced as needed. <br> L.3.1.J <br> Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| L.3.1.K | Form all upper- and lowercase letters to write words legibly in cursive. |
| L.3.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as <br> appropriate for Grade 3 when writing. |
| Teacher Note |  |
| L.3.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter |  |

| words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. |
| :--- |
| L.3.2.A |
| L.3.2.B |
| Fapitalize appropriate words in titles. <br> Form and use possessives with and without apostrophes, as appropriate (e.g., girl's, boy's, her, his, their, |
| L.3.2.C |
| Use commas according to the conventions of standard English. <br> $\bullet$ <br> $\bullet$ <br> $\bullet$ <br> Use a comma before a coordinating conjunction in a compound sentence. |
| L.3.2.C <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. |
| L.3.2.DUse conventional spelling for high-frequency and other studied words and for adding suffixes to base words <br> (e.g., sitting, smiled, cries, happiness). <br> $\bullet$ Use spelling patterns and generalizations (e.g., word families, position-based spellings, syllable |

|  | patterns, ending rules, meaningful word parts) in writing words. <br> Consult reference materials, including beginning dictionaries, as needed to check and correct <br> spellings. |
| :--- | :--- |
| Teacher Note |  |
| L.3.2.D |  |
| Systematic instruction in spelling is important because spelling impacts comprehension of text. |  |
| One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and <br> assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic <br> Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary <br> Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are <br> from this text: |  |
| "Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; |  |
| Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of |  |
| spelling----how the system visually cues word meaning and the semantic relationships among words--also supports |  |
| students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998). |  |
| "Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194). |  |
| Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of |  |
| the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction. |  |
| In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, |  |
| provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students |  |
| through the learning continuum for spelling. |  |
| These suggested resources are offered to support districts but are not mandated. |  |

| Grade 3-Language Standards |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Knowledge of Language |  |  |  |  |  |  |
| L.3.3 | Use knowledge of language and its conventions as appropriate for Grade 3 when writing, speaking, reading, <br> or listening. |  |  |  |  |  |
| L.3.3.A | Choose words and phrases for effect. |  |  |  |  |  |
| $\quad$ Teacher Note |  |  |  |  |  |  |
| L.3.3.B | Recognize and observe differences between the conventions of spoken and written standard English. |  |  |  |  |  |
| L.3.3.B <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |  |  |  |  |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. | Grade 3-Language Standards |  |
| :--- | :--- |
| $\quad$ Vocabulary Acquisition and Use |  |
| L.3.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 3 <br> reading and content, choosing flexibly from a range of strategies. |
| Teacher Note |  |
| L.3.4 <br> Jeff Anderson's text Mechanically Inclined is a resource for language standards that is recommended by the English <br> Language Arts Revision Committee. |  |
| L.3.4.A | Use sentence-level context as a clue to the meaning of a word or phrase. |
| L.3.4.B | Determine the meaning of the new word formed when a known affix is added to a known word (e.g., <br> agreeable/disagreeable, comfortable/uncomfortable, care/careless, heat/preheat). |
| $\quad$ Teacher Note |  |
| L.3.4.B <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-area- <br> roots.pdf). |  |
| L.3.4.C | Use a known root word as a clue to the meaning of an unknown word with the same root (e.g., company, <br> companion). |

| Teacher Note |  |
| :---: | :---: |
| L.3.4.C <br> A chart with common discipline-specific roots may be found at the following link: http://www.readwritethink.org/files/resources/printouts/content-area-roots.pdf |  |
| L.3.4.D | Use glossaries or beginning dictionaries, both print and digital, to determine or clarify the precise meaning of key words and phrases. |
| L.3.5 | Demonstrate understanding of figurative language, word relationships and nuances in word meanings, as appropriate for the grade level. |
| Teacher Note |  |
| L.3.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was ___ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.3.5.A | Distinguish the literal and nonliteral meanings of words and phrases in context (e.g., take steps). |
| Teacher Note |  |
| L.3.5.A <br> Nonliteral language could include idioms, but may also include figurative language such as hyperbole, simile, metaphor, and personification, which should be taught as appropriate for the grade level. <br> See related standard RL.3.4. |  |
| L.3.5.B | Identify real-life connections between words and their use (e.g., describe people who are friendly or helpful). |

## Teacher Note

## L.3.5.B

One way to provide students with real-life connections between words and their use is through video. The teacher might show a video clip of a person walking across the street that could be described as ambling. The teacher might show another clip that shows a person striding across the street. The teacher could ask students to discuss the difference in the two words and what the word choice makes them think about the people who are walking in those particular ways.

| L.3.5.C | Distinguish shades of meaning among related words that describe states of mind or degrees of certainty <br> (e.g., knew, believed, suspected, heard, wondered). |
| :--- | :--- |
| L.3.5.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, <br> scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out <br> the meanings. |
| L.3.6 | Acquire and use accurately grade-appropriate conversational, general academic, and domain-specific words <br> and phrases, including those that signal spatial and temporal relationships (e.g., After dinner that night we <br> went looking for them). |

## Teacher Note

## L. 3.6

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 2-3 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 3 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade
route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

Spatial means of or relating to space (e.g., beside, nearby, adjacent to, left, right, above, below, between).
Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as).

## Grade 4

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades K-5

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies,science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

## Grade 4-Reading Standards for Literature

## Key Ideas and Details

| RL.4.1 | Refer to details and examples in a text when explaining what the text says explicitly and when drawing <br> inferences from the text. |
| :--- | :--- |
| RL.4.2 | Examine a grade-appropriate literary text. <br> $\bullet$ Provide a summary. <br> $\bullet$ Determine a theme of a story, drama, or poem from details in the text. |

## Teacher Note

## RL.4.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 4 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told
from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

RL.4.3 $\quad$ Describe in depth a character, setting, or event in a story or drama, drawing on specific details in the text (e.g., a character's thoughts, words, or actions).

## Grade 4-Reading Standards for Literature

| Craft and Structure |  |
| :--- | :--- |
| RL.4.4 | Determine the meaning of words and phrases as they are used in a text, including figurative language. |
| RL.4.5 | Compare and contrast the structural elements of poems (e.g., verse, rhythm, meter), drama (e.g., casts of <br> characters, settings, descriptions, dialogue, stage directions), and prose. |
| RL.4.6 | Compare and contrast the point of view from which different stories are narrated, including the difference <br> between first- and third-person narrations. |
| $\quad$ Teacher Note |  |
| RL.4.6 <br> It is important to clarify the terms "point of view" and "perspective" for students. <br> Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in <br> manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader <br> access into the greater reaches of the story. Two of the most common point of view techniques are the first person, <br> wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not <br> figure in the events of the story and tells the story by referring to all characters and places in the third person with third <br> person pronouns and proper nouns <br> (http://literary-devices.com/content/point-view) |  |
| Perspective is a particular way of viewing things that depends on one's experience and personality <br> (http://dictionary.cambridge.org/us/dictionary/english/perspective). <br> In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, <br> omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that |  |

depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| Grade 4-Reading Standards for Literature |  |
| :--- | :--- |
| RL.4.7 | Analyze the similarities and differences between the text of a story or drama and a visual or oral <br> presentation of the same text citing specific details. |
| RL.4.8 | RL.4.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.4.9 | Compare and contrast the treatment of similar themes and topics (e.g., opposition of good and evil) and <br> patterns of events in stories and traditional literature from different cultures. |
| Teacher Note |  |
| RL. 4.9 <br> Although not specifically mentioned, mythology falls under "traditional literature," and can be taught if the teacher <br> chooses. |  |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RL.4.10 | By the end of the year, read and comprehend literature, including stories, dramas, and poetry, in the <br> Grades 4-5 text complexity band proficiently, with scaffolding as needed at the high end of the range. |
| Teacher Note |  |
| RL.4.10 <br> For information about how to enrich comprehension through read-alouds and independent reading, see <br> http://www.corestandards.org/assets/Appendix A.pdf\#tpage=27 <br> It is critical that children are reading on grade-level. In 2011, sociologist Donald Hernandez reported that children who <br> do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than <br> proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11). <br> Since districts use a variety of materials that have different quantitative descriptors, the Reading Level Correlation <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf <br> A chart with text complexity quantitative measures by grade band may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4 |  |

## Grade 4-Reading Standards for Informational

## Key Ideas and Details

| RI.4.1 | Refer to details and examples in a text when explaining what the text says explicitly and when drawing <br> inferences from the text. |
| :--- | :--- |
| RI.4.2 | Examine a grade-appropriate informational text. <br> $\bullet$ <br> $\bullet$ <br> Provide a summary. |
| Determine the main idea of a text and explain how it is supported by key details. |  |

stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

Example of identifying the main idea of a text and identifying how key details support the main idea:
A text about sharks can be found at the following link
https://www.ncsu.edu/project/lancet/third grade/sharks3.pdf
The main idea of the text is that sharks have unique characteristics. The first sentence in each paragraph provides a key detail about sharks.

- "Sharks are actually a type of fish."
- "Sharks have lots of teeth that are arranged in many rows rather than in just one row like people."
- "One of the things particularly special about sharks is they have been around a long time."

The standard asks students to look at a whole text and identify the main idea of the text and key details about sharks. The first sentence of every paragraph in every text will not necessarily contain a key detail, but it is true for this text.

RI.4.3 $\quad$ Explain events, procedures, ideas, or concepts in a historical, scientific, or technical text, including what happened and why, based on specific information in the text.

| Grade 4-Reading Standards for Informational |  |
| :---: | :---: |
| Craft and Structure |  |
| RI.4.4 | Determine the meaning of general academic and domain-specific words or phrases in a text relevant to a Grade 4 topic or subject area. |
| Teacher Note |  |
| RI.4.4 <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33) |  |
| RI.4.5 | Describe the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in a text or part of a text. |
| RI.4.6 | Compare and contrast a firsthand and secondhand account of the same event or topic; describe the differences in focus and the information provided. |
| Teacher Note |  |
| RI.4.6 It is imp Point of manipula | to clarify the terms "point of view" and "perspective" for students. <br> is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader |

access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view).
Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective).
In these standards and in an English class, the term point of view is used referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective is used when referring to a particular way of viewing things that depends on one's experience and personality. When analyzing literature, both terms are needed. For further clarification, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers define as perspective.

| Grade 4-Reading Standards for Informational |  |
| :--- | :--- |
| RI.4.7 | Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, time lines, <br> animations, or interactive elements on Web pages) and explain how the information contributes to an <br> understanding of the text in which it appears. |
| RI.4.8 | Explain how an author uses reasons and evidence to support particular points in a text. <br> RI.4.9Integrate information from two texts on the same topic in order to write or speak about the subject <br> knowledgeably. |

| $\quad$ Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RI.4.10 | By the end of year, read and comprehend informational texts, including history/social studies, science, and <br> technical texts, in the Grades 4-5 text complexity band proficiently, with scaffolding as needed at the high <br> end of the range. |
| Teacher Note |  |
| RI.4.10 <br> For information about how to enrich comprehension through read-alouds and independent reading, see <br> http://www.corestandards.org/assets/Appendix A.pdf\#page=27 |  |
| It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who <br> do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than <br> proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11). <br> Since districts use a variety of materials that have different quantitative descriptors, the Reading Level Correlation |  |
| A detailed explanation of the three dimensions of text complexity may be found at the following link: |  |
| http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf |  |

## Grade 4-Reading Standards: Foundational Skills

| Phonics and Word Recognition |  |
| :---: | :---: |
| RF.4.1 | This standard is taught in Grade 1 and should be reinforced as needed. Demonstrate understanding of the organization and basic features of print. |
| RF.4.1.A | This standard is taught in Grade 2 and should be reinforced as needed. Recognize the distinguishing features of a paragraph including that multiple sentences may be used to form a paragraph and the author may indent or skip a line to signal a new paragraph. |
| RF.4.1.B | This standard is taught in Kindergarten and should be reinforced as needed. Recognize that spoken words are represented in written language by specific sequences of letters and that print carries meaning. |
| RF.4.1.C | This standard is taught in Kindergarten and should be reinforced as needed. Understand that words are separated by spaces in print. |
| RF.4.1.D | This standard is taught in Kindergarten and should be reinforced as needed. Recognize and name all upper- and lowercase letters of the alphabet. |
| RF.4.2 | This standard is taught in Grade 1 and should be reinforced as needed. Demonstrate understanding of spoken words, syllables, and sounds (phonemes). |
| RF.4.2.A | This standard is taught in Grade 2 and should be reinforced as needed. Distinguish vowels (long, short, variant) in spoken single-syllable words. |
| RF.4.2.B | This standard is taught in Grade 2 and should be reinforced as needed. Delete phonemes in the initial, medial, and final positions of spoken words including blends. |
| RF.4.2.C | This standard is taught in Grade 1 and should be reinforced as needed. |

|  | Isolate and produce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words. |
| :---: | :---: |
| RF.4.2.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Segment spoken one-syllable words into their complete sequence of individual sounds (phonemes). |
| RF.4.2.E | This standard is taught in Grade 1 and should be reinforced as needed. Delete a syllable from a word (e.g., say "remember," now say it without the "re"). |
| RF.4.2.F | This standard is taught in Grade 1 and should be reinforced as needed. <br> Add or substitute individual sounds (phonemes) in simple spoken words to make new words. |
| RF.4.2.G | This standard is taught in Grade 1 and should be reinforced as needed. <br> Delete individual initial and final sounds (phonemes) in simple spoken words (e.g., say "nice" without the /n/, say "lamp" without the /p/. |
| RF.4.3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| RF.4.3.A | Use combined knowledge of all letter-sound correspondences, syllabication patterns, and morphology (e.g., roots and affixes) to read accurately unfamiliar multisyllabic words in context and out of context. |
|  | Teacher Note |
| RF.4.3.A <br> A chart of prefixes and suffixes may be found at http://www.readwritethink.org/files/resources/printouts/content-arearoots.pdf |  |
| RF.4.3.B | This standard is taught in Grade 3 and should be reinforced as needed. Decode words with common Latin suffixes. |
| RF.4.3.C | This standard is taught in Grade 3 and should be reinforced as needed. Decode multi-syllable words. |

| RF.4.3.D | This standard is taught in Grade 3 and should be reinforced as needed. <br> Read grade-appropriate irregularly-spelled words. |
| :--- | :---: |
| RF.4.3.E | This standard is taught in Grade 2 and should be reinforced as needed. <br>  <br> $\quad$Decode words that follow the six syllable types. <br> - closed syllable <br> - open syllable <br> - vowel-consonant-e <br> - vowel teams <br> - r-controlled <br> - consonant-le |
| RF.4.3.F | This standard is taught in Grade 2 and should be reinforced as needed. <br> Decode regularly-spelled two-syllable words with long vowels |

## Grade 4-Reading Standards: Foundational Skills

| Fluency |  |
| :---: | :---: |
| RF.4.4 | Read grade-level text with sufficient accuracy and flu |
| Teacher Note |  |
| RF.4.4 <br> Fluency is the ability to read accurately, quickly, expressively, with good phrasing, and with good comprehension. <br> Students' fluency should be measured qualitatively by how well they demonstrate their ability to read grade-level texts accurately, quickly, expressively, with good phrasing, and with good comprehension. |  |
|  |  |
| Timothy Rasinski has studied and written extensively on the topic of reading fluency. The article cited below provides extensive guidance, including rubrics for reading fluency. Rasinski provides the following warning about the proper use of fluency assessments: |  |
| "Reading rate appears to reflect students' ongoing development of automaticity in their decoding, which can be developed through practiced and assisted readings (see Kuhn \& Stahl, 2000; Osborn \& Lehr, 2003). If teachers provide the kind of instruction in fluency that works, then fluency, comprehension, and rate will improve. If teachers choose instead to focus primarily on developing students' reading rate at the expense of reading with expression, meaning, and comprehension, students may read fast but with insufficient comprehension. Their goal may be to get from one point in the text to another as fast as possible, without understanding the nuances of meaning in the text. This would be a grave misinterpretation of the research related to reading fluency development and a disservice to the students. Similarly, teachers need to be cautious in using reading rate to assess English language learners (ELLs). Many ELLs can be deceptively fast and accurate in their reading, yet demonstrate little understanding of the text. Teachers cannot assume that such students are progressing well in reading based solely on their reading rate. Other issues such as vocabulary and language proficiency may impede the students' growth in reading and require instructional intervention" (Rasinski, Timothy, p 15. http://files.eric.ed.gov/fulltext/ED483166.pdf). |  |

| RF.4.4.A | Read grade-level text with purpose and understanding. |
| :--- | :--- |
| RF.4.4.B | Read grade-level prose and poetry orally with accuracy, appropriate rate, and expression on successive <br> readings. |
| RF.4.4.C | Use context in grade-level text to confirm or self-correct word recognition and understanding, rereading as <br> necessary. |

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

| Grade 4-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.4.1 | Write opinion pieces on topics or texts, supporting the opinion with reasons and information. |
| W.4.1.A | Introduce a topic or text clearly, state an opinion, and create an organizational structure in which related <br> ideas are grouped to support the writer's purpose. |
| W.4.1.B | Provide reasons that are supported by facts and details. |
| W.4.1.C | Link opinion and reasons using words and phrases (e.g., for instance, in order to, in addition). |
| W.4.1.D | Provide a concluding statement or section related to the opinion presented. |
| W.4.1.E | This standard begins in Grade 6. |
| W.4.2 | Write informative/explanatory texts to examine a topic and convey ideas and information clearly. |
| W.4.2.A | Introduce a topic clearly and group related information in paragraphs and sections; include formatting (e.g., <br> headings), illustrations, and multimedia when useful to aiding comprehension. |

| graphics, animation (including interactive elements), audio, video. |  |
| :---: | :---: |
| W.4.2.B | Develop the topic with facts, definitions, concrete details, quotations, or other information and examples related to the topic. |
| W.4.2.C | Link ideas within categories of information using words and phrases (e.g., another, for example, also, because). |
| W.4.2.D | Use precise language and domain-specific vocabulary to inform about or explain the topic. |
|  | Teacher Note |
| W.4.2.D <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a desired conclusion. <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33) |  |
| W.4.2.E | This standard begins in Grade 6. Establish and maintain a formal style. |
| W.4.2.F | Provide a concluding statement or section related to the information or explanation presented. |
| W.4.3 | Write narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear event sequences. |
| W.4.3.A | Orient the reader by establishing a situation and introducing a narrator and/or characters; organize an |

|  | event sequence that unfolds naturally. |
| :--- | :--- |
| W.4.3.B | Use narrative techniques, such as dialogue and description, to develop experiences and events or show <br> the responses of characters to situations. |
| W.4.3.C | Use a variety of transitional words and phrases to manage the sequence of events. |
| W.4.3.D | Use concrete words and phrases and sensory details to convey experiences and events precisely. |
| W.4.3.E | Provide a conclusion that follows from the narrated experiences or events. |

| Grade 4-Writing Standards |  |
| :--- | :--- |
| Production and Distribution of Writing |  |
| W.4.4 | Produce clear and coherent writing in which the development and organization are appropriate to task, <br> purpose, and audience. |
| Teacher Note |  |
| W.4.4 <br> Grade-specific expectations for writing types are defined in standards W.4.1, W.4.2, and W.4.3. |  |
| W.4.5 | With guidance and support from peers and adults, develop and strengthen writing as needed by planning, <br> revising, and editing. |
| W.4.5 Teacher Note <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grade 4. |  |
| W.4.6 | With some guidance and support from adults, use technology, including the Internet, to produce and publish <br> writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills <br> to produce writing in a single sitting. |

| Grade 4-Writing Standards |  |
| :--- | :--- |
| W.4.7 | Cosearch to Build and Present Knowledge |
| W.4.8 | Recall relevant information from experiences or gather relevant information from print and digital sources. <br> $\bullet$ <br> $\bullet$ <br> Take notes and categorize information. |
| W.4.9 | Draw evide a list of sources. |
| W.4.9.A | Apply Grade 4 Reading standards to literature (e.g., "Describe in depth a character, setting, or event in a <br> story or drama, drawing on specific details in the text [e.g., a character's thoughts, words, or actions]."). |
| W.4.9.B | Apply Grade 4 Reading standards to informational texts (e.g., "Explain how an author uses reasons and <br> evidence to support particular points in a text."). |

| Grade 4-Writing Standards |  |  |  |
| :--- | :--- | :---: | :---: |
| Range of Writing |  |  |  |
| W.4.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. |  |  |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

## Grade 4-Speaking and Listening Standards

## Comprehension and Collaboration

| SL.4.1 | Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with <br> diverse partners on Grade 4 topics and texts, building on others' ideas and expressing their own clearly. |
| :--- | :--- |
| Teacher Notes |  |
| SL.4.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.4.1.A | Come to discussions prepared, having read or studied required material; explicitly draw on that preparation <br> and other information known about the topic to explore ideas under discussion. |
| SL.4.1.B | Follow agreed-upon rules for discussions and carry out assigned roles. |
| SL.4.1.C | Pose and respond to specific questions to clarify or follow up on information, and make comments that <br> contribute to the discussion and link to the remarks of others. |
| SL.4.1.D | Review the key ideas expressed and explain their own ideas and understanding in light of the discussion. <br> SL.4.2Paraphrase portions of information that is gained by means other than reading (e.g., texts read aloud; oral <br> presentations of charts, graphs, or diagrams; speeches). |
| SL.4.3 | Identify the reasons and evidence a speaker provides to support particular points. |

## Grade 4-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

SL.4.4 $\quad$ Report on a topic or text, tell a story, or recount an experience to support main ideas or themes.

- Organize ideas logically.
- Use appropriate facts.
- Use relevant, descriptive details.
- Speak clearly at an understandable pace.

## Teacher Note

## SL.4.4

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Theme is a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).

SL.4.5 $\quad$ Add audio recordings and visual displays to presentations when appropriate to enhance the development of main ideas or themes.

## Teacher Note

## SL. 4.5

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

SL.4.6 Use standard English when speaking, differentiating between contexts that call for formal English and situations where informal discourse is appropriate.

## Teacher Note

## SL.4.6

See L.4.1 and L.4.3 for specific expectations for Grade 4 students when speaking and writing.
Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts,having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The
inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades $4-5$ text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 4 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

| Grade 4-Language Standards |  |
| :---: | :---: |
| Conventions of Standard English |  |
| L.4.1 | Demonstrate command of the conventions of standard English grammar and usage as appropriate for Grade 4 when writing or speaking. |
| Teacher Note |  |
| L.4.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.4.1.A | This standard is taught at Grade 3 and should be reinforced as needed. <br> Explain the function of nouns, pronouns, verbs, adjectives, prepositions, and adverbs in general and their functions in particular sentences.. |
| L.4.1.B | This standard is taught at Grade 3 and should be reinforced as needed. Form and use regular and irregular plural nouns. <br> - Use abstract nouns (e.g., childhood). |

| L.4.1.C | Form and use the progressive verb tenses. (e.g., I was walking; I am walking; I will be walking). |
| :---: | :---: |
| L.4.1.D | This standard is taught at Grade 3 and should be reinforced as needed. Ensure subject-verb and pronoun-antecedent agreement. |
| L.4.1.E | Order adjectives within sentences according to conventional patterns (e.g., a small red bag rather than a red small bag). |
| L.4.1.F | Explain the function of conjunctions and interjections in general and their function in particular sentences. |
| L.4.1.G | Form and use prepositional phrases. |
| L.4.1.H | Demonstrate command of simple and compound sentences, recognizing and correcting inappropriate fragments and run-ons. <br> - Use independent clauses and coordinating conjunctions when writing a compound sentence. |
| L.4.1.I | Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
|  | Teacher Note |
| L.4.1.I <br> An auxiliary verb characteristically used with other verbs to express mood, aspect, or tense. In English, the most common modal auxiliaries are can, could, may, might, must, ought, shall, should, will, and would. Also called modal. (http://www.thefreedictionary.com/modal+auxiliary) |  |
| L.4.1.J | This standard is taught in Kindergarten and should be reinforced as needed. Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| L.4.1.K | This standard is taught in Grade 3 and should be reinforced as needed. Form all upper- and lowercase letters to write words legibly in cursive. |

| L.4.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as <br> appropriate for Grade 4 when writing. |
| :--- | :--- |
| Teacher Note |  |
| L.4.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. |  |
| Informal discourse is used with friends, children, and relatives. |  |

## Teacher Note

## L.4.2.D

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 4 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Systematic instruction in spelling is important because spelling impacts comprehension of text.
One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:
"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

| Grade 4-Language Standards |  |
| :--- | :--- |
| Knowledge of Language |  |
| L.4.3 | Use knowledge of language and its conventions as appropriate for Grade 4 when writing, speaking, reading, <br> or listening. |
| L.4.3.A | Choose words and phrases to convey ideas precisely. <br> - Choose punctuation for effect. |
| L.4.3.B | Demonstrate through writing and speech the impact that audience and purpose have on how a message is <br> shaped (e.g., word choice, form). |

| Grade 4-Language Standards |  |
| :---: | :---: |
| Vocabulary Acquisition and Use |  |
| L.4.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 4 reading and content, choosing flexibly from a range of strategies. |
| L.4.4.A | Use context (e.g., definitions, examples, or restatements in text) as clues to the meaning of a word or phrase. |
| L.4.4.B | Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., telegraph, photograph, autograph). |
| Teacher Note |  |
| L.4.4.B <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-arearoots.pdf). |  |
| L.4.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 4 reading and content, choosing flexibly from a range of strategies. |
| L.4.4.A | Use context (e.g., definitions, examples, or restatements in text) as clues to the meaning of a word or phrase. |

Information about these vocabulary types may be found at <br> (http://www.corestandards.org/assets/Appendix A.pdf\#page=33) |  |

## Grade 5

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades K-5

To build a foundation for college and career readiness, students must read widely and deeply from among a broad range of high-quality, increasingly challenging literary and informational texts. Through extensive reading of stories, dramas, poems, and myths from diverse cultures and different time periods, students gain literary and cultural knowledge as well as familiarity with various text structures and elements. By reading texts in history/social studies,science, and other disciplines, students build a foundation of knowledge in these fields that will also give them the background to be better readers in all content areas. Students can only gain this foundation when the curriculum is intentionally and coherently structured to develop rich content knowledge within and across grades. Students also acquire the habits of reading independently and closely, which are essential to their future success.

## Grade 5-Reading Standards for Literature

## Key Ideas and Details

| RL.5.1 | Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from <br> the text. |
| :--- | :--- |
| RL.5.2 | Examine a grade-appropriate literary text. <br> • Provide a summary. <br> Determine a theme of a story, drama, or poem from details in the text including how characters in a <br> story or drama respond to challenge including how the speaker in a poem reflects upon a topic. |

## Teacher Note

## RL.5.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts should also be selected to include words for appropriate phonics development and spelling development. Texts should be strategically selected for phonics, word study, and grammar as well as content and literary merit. The text must be rigorous enough to engage students in Grade 5 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told
from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).
"Theme is defined as a main idea or an underlying meaning of a literary work that may be stated directly or indirectly" (http://literarydevices.net/theme/).

RL.5.3 Compare and contrast two or more characters, settings, or events in a story or drama, drawing on specific details in the text (e.g., how characters interact).

## Grade 5-Reading Standards for Literature

## Craft and Structure

| RL.5.4 | Determine the meaning of words and phrases as they are used in a text, including figurative language such <br> as metaphors and similes. |
| :--- | :--- |
| RL.5.5 | Explain how a series of chapters, scenes, or stanzas fits together to provide the overall structure of a <br> particular story, drama, or poem. |

## Teacher Note

## RL.5.5

In a ballad, each stanza tells the next part of the story. In a novel, the early chapters often establish the setting and provide foundational descriptions of characters who develop across the following chapters. In a play, one scene follows another as the action unfolds. When writing or discussing stories, dramas, and poems, students should refer to specific chapters, scenes, or stanzas when citing evidence to support their analysis.

RL.5.6 $\quad$ Describe how a narrator's or speaker's point of view and/or perspective influence how events are described.

## Teacher Note

## RL.5.6

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not
figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality (http://literary-devices.com/content/point-view)

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| Grade 5-Reading Standards for Literature |  |
| :---: | :---: |
| Integration of Knowledge and Ideas |  |
| RL.5.7 | Analyze how multimedia elements (e.g., text, audio, still images, animation, video, or interactive components) contribute to the meaning, tone, or beauty of that text (e.g., graphic novel, multimedia presentation of fiction, folktale, myth, poem). |
| Teacher Note |  |
| RL.5.7 <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video. <br> This standard is the introduction to the concept of tone. The foundation of understanding is built through analyzing the visual and auditory elements as they contribute to the text. Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| RL.5.8 | RL.K. 8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.5.9 | Compare and contrast stories in the same genre on their approaches to similar themes and topics. |
| Range of Reading and Level of Text Complexity |  |
| RL. 5.10 | By the end of the year, read and comprehend literature, including stories, dramas, and poetry, at the high end of the Grades 4-5 text complexity band independently and proficiently. |

## Teacher Note

## RL.5.10

For information about how to enrich comprehension through read-alouds and independent reading, see
http://www.corestandards.org/assets/Appendix A.pdf\#page=27
It is critical that children are reading on grade-level. "In 2011, sociologist Donald Hernandez reported that children who do not read proficiently by the end of third grade are four times more likely to leave school without a diploma than proficient readers" (http://www.aecf.org/m/resourcedoc/AECF-EarlyWarningConfirmed-2013.pdf\#page=11).

Since districts use a variety of materials that have different quantitative descriptors, the Reading Level Correlation A detailed explanation of the three dimensions of text complexity may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf
A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Grade 5-Reading Standards for Informational

## Key Ideas and Details

| RI.5.1 | Quote accurately from a text when explaining what the text says explicitly and when drawing inferences <br> from the text. |
| :--- | :--- |
| RI.5.2 | Examine a grade-appropriate informational text. <br> $\bullet$ Provide a summary. <br> $\bullet$ Determine the main idea of a text and explain how it is supported by key details. |
| Teacher Note |  |
| RI.5.2 <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. ## Grade 5-Reading Standards: Foundational Skills

## Phonics and Word Recognition

| RF.5.1 | This standard is taught in Grade 1 and should be reinforced as needed. <br> Demonstrate understanding of the organization and basic features of print. |
| :--- | :---: |
| RF.5.1.A | This standard is taught in Grade 2 and should be reinforced as needed. <br> Recognize the distinguishing features of a paragraph including that multiple sentences may be used to form <br> a paragraph and the author may indent or skip a line to signal a new paragraph. |
| RF.5.1.B | This standard is taught in Kindergarten and should be reinforced as needed. <br> Recognize that spoken words are represented in written language by specific sequences of letters and that <br> print carries meaning. |
| RF.5.1.C | This standard is taught in Kindergarten and should be reinforced as needed. <br> Understand that words are separated by spaces in print. |
| RF.5.1.D | This standard is taught in Kindergarten and should be reinforced as needed. <br> Recognize and name all upper- and lowercase letters of the alphabet. |
| RF.5.2 | This standard is taught in Grade 1 and should be reinforced as needed. <br> Demonstrate understanding of spoken words, syllables, and sounds (phonemes). |
| RF.5.2.A | This standard is taught in Grade 2 and should be reinforced as needed. <br> Distinguish vowels (long, short, variant) in spoken single-syllable words. |
| RF.5.2.B | This standard is taught in Grade 2 and should be reinforced as needed. <br> Delete phonemes in the initial, medial, and final positions of spoken words including blends. |

| RF.5.2.C | This standard is taught in Grade 1 and should be reinforced as needed. <br> Isolate and produce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words. |
| :--- | ---: |
| RF.5.2.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Segment spoken one-syllable words into their complete sequence of individual sounds (phonemes). |
| RF.5.2.E | This standard is taught in Grade 1 and should be reinforced as needed. <br> Segment spoken one-syllable words into their complete sequence of individual sounds (phonemes). |
| RF.5.2.F | This standard is taught in Grade 1 and should be reinforced as needed. <br> Add or substitute individual sounds (phonemes) in simple spoken words to make new words. |
| RF.5.2.G | This standard is taught in Grade 1 and should be reinforced as needed. <br> Delete individual initial and final sounds (phonemes) in simple spoken words (e.g., say "nice" without the /n/, <br> say "lamp" without the /p/. |
| RF.5.3 | Know and apply grade-level phonics and word analysis skills in decoding words. |
| RF.5.3.A | Use combined knowledge of all letter-sound correspondences, syllabication patterns, and morphology (e.g., <br> roots and affixes) to read accurately unfamiliar multisyllabic words in context and out of context. |
| Teacher Note |  |

| RF.5.3.D | This standard is taught in Grade 3 and should be reinforced as needed. Read grade-appropriate irregularly-spelled words. |
| :---: | :---: |
| RF.5.3.E | This standard is taught in grade 2 and should be reinforced as needed. <br> Decode words that follow the six syllable types. <br> - closed syllable <br> - open syllable <br> - vowel-consonant-e <br> - vowel teams <br> - r-controlled <br> - consonant-le |
| RF.5.3.F | This standard is taught in Grade 2 and should be reinforced as needed. Decode regularly-spelled two-syllable words with long vowels. |

## Grade 5-Reading Standards: Foundational Skills

## Fluency

RF.5.4 Read grade-level text with sufficient accuracy and fluency to support comprehension.

## Teacher Note

## RF.5.4

Fluency is the ability to read accurately, quickly, expressively, with good phrasing, and with good comprehension.
Students' fluency should be measured qualitatively by how well they demonstrate their ability to read grade-level texts accurately, quickly, expressively, with good phrasing, and with good comprehension.

Timothy Rasinski has studied and written extensively on the topic of reading fluency. The article cited below provides extensive guidance, including rubrics for reading fluency. Rasinski provides the following warning about the proper use of fluency assessments:
"Reading rate appears to reflect students' ongoing development of automaticity in their decoding, which can be developed through practiced and assisted readings (see Kuhn \& Stahl, 2000; Osborn \& Lehr, 2003). If teachers provide the kind of instruction in fluency that works, then fluency, comprehension, and rate will improve. If teachers choose instead to focus primarily on developing students' reading rate at the expense of reading with expression, meaning, and comprehension, students may read fast but with insufficient comprehension. Their goal may be to get from one point in the text to another as fast as possible, without understanding the nuances of meaning in the text. This would be a grave misinterpretation of the research related to reading fluency development and a disservice to the students. Similarly, teachers need to be cautious in using reading rate to assess English language learners (ELLs). Many ELLs can be deceptively fast and accurate in their reading, yet demonstrate little understanding of the text. Teachers cannot assume that such students are progressing well in reading based solely on their reading rate. Other issues such as vocabulary and language proficiency may impede the students' growth in reading and require instructional intervention" (Rasinski,

Timothy, p 15. http://files.eric.ed.gov/fulltext/ED483166.pdf).

| RF.5.4.A | Read grade-level text with purpose and understanding. |
| :--- | :--- |

RF.5.4.B $\quad$ Read grade-level prose and poetry orally with accuracy, appropriate rate, and expression on successive readings.

RF.5.4.C Use context in grade-level text to confirm or self-correct word recognition and understanding, rereading as necessary.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades K-5

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

| Grade 5-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.5.1 | Write opinion pieces on topics or texts, supporting the opinion with reasons and information. |
| W.5.1.A | Introduce a topic or text clearly, state an opinion, and create an organizational structure in which ideas are <br> logically grouped to support the writer's purpose. |
| W.5.1.B | Provide logically ordered reasons that are supported by facts and details. |
| W.5.1.C | Link opinion and reasons using words, phrases, and clauses (e.g., consequently, specifically). |
| W.5.1.D | Provide a concluding statement or section related to the opinion presented. |
| W.5.1.E | This standard begins in Grade 6. <br> Provide a concluding statement or section that follows from the argument presented. |
| W.5.2 | Write informative/explanatory texts to examine a topic and convey ideas and information clearly. |
| W.5.2.A | Introduce a topic clearly, provide a general observation and focus, and group related information logically; <br> include text features when useful to enhance comprehension. |

| W.5.2.B | Develop the topic with facts, definitions, concrete details, quotations, or other information and examples <br> related to the topic. |
| :--- | :--- |
| W.5.2.C | Link ideas within and across categories of information using words, phrases, and clauses (e.g., in contrast, <br> especially). |
| W.5.2.D | Use precise language and domain-specific vocabulary to inform about or explain the topic. |
| Teacher Note |  |
| W.5.2.D <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion. <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General |  |
| academic vocabulary refers to words that can be used across the discilines (e.g., surface, determine). Domain-specific <br> acords are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, <br> wexplorer, density, time signature). Information about these vocabulary types may be found at |  |
| (http://www.corestandards.org/assets/Appendix A.pdf\#page=33) |  |

| W.5.3.B | Use narrative techniques, such as dialogue, description, and pacing, to develop experiences and events or <br> show the responses of characters to situations. |
| :--- | :--- |
| W.5.3.C | Use a variety of transitional words, phrases, and clauses to manage the sequence of events. |
| W.5.3.D | Use concrete words and phrases and sensory details to convey experiences and events precisely. |
| W.5.3.E | Provide a conclusion that follows from the narrated experiences or events. |

| Grade 5-Writing Standards |  |
| :--- | :--- |
| $\quad$ Production and Distribution of Writing |  |
| W.5.4 | Produce clear and coherent writing in which the development and organization are appropriate to task, <br> purpose, and audience. |
| Teacher Note |  |
| W.5.4 <br> Grade-specific expectations for writing types are defined in standards W.5.1, W.5.2, and W.5.3. |  |
| W.5.5 | Develop and strengthen writing with guidance and support as needed from peers and adults, by planning, <br> revising, editing, rewriting, or trying a new approach. |
| $\quad$ Teacher Note |  |
| W.5.5 <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grade 5. |  |
| W.5.6 | Use technology, including the Internet, to produce and publish writing as well as interact and collaborate with <br> others with some guidance and support from adults; demonstrate sufficient command of keyboarding skills to <br> produce writing in a single sitting. |

| Grade 5-Writing Standards |  |
| :---: | :---: |
| Research to Build and Present Knowledge |  |
| W.5.7 | Conduct short research projects that use several sources to build knowledge through investigation of different aspects of a topic. |
| W.5.8 | Recall relevant information from experiences or gather relevant information from print and digital sources. <br> - Summarize or paraphrase information in notes and finished work. <br> - Provide a list of sources. |
| Teacher Note |  |
| W.5.8 <br> The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1 st-grade-to-2nd-grade/ <br> Retell vs. Recount <br> "Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/ <br> Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8). |  |
| W.5.9 | Draw evidence from literary or informational texts to support analysis, reflection, and research. |

| W.5.9.A | Apply Grade 5 Reading standards to literature (e.g., "Compare and contrast two or more characters, settings, <br> or events in a story or a drama, drawing on specific details in the text [e.g., how characters interact]."). |
| :--- | :--- |
| W.5.9.B | Apply Grade 5 Reading standards to informational texts (e.g.,. "Explain how an author uses reasons and <br> evidence to support particular points in a text, identifying which reasons and evidence support which <br> point[s]."). |

| Grade 5-Writing Standards |  |  |  |
| :--- | :--- | :---: | :---: |
| Range of Writing |  |  |  |
| W.5.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. |  |  |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades K-5

To build a foundation for college and career readiness, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner. Being productive members of these conversations requires that students contribute accurate, relevant information; respond to and develop what others have said; make comparisons and contrasts; and analyze and synthesize a multitude of ideas in various domains.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing
knowledge and have tightened their link to other forms of communication. Digital texts confront students with the potential for continually updated content and dynamically changing combinations of words, graphics, images, hyperlinks, and embedded video and audio.

| Grade 5-Speaking and Listening Standards |  |
| :--- | :--- |
| Comprehension and Collaboration |  |
| SL.5.1 | Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with <br> diverse partners on Grade 5 topics and texts, building on others' ideas and expressing their own clearly. |
| Teacher Notes |  |
| SL.5.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.5.1.A | Come to discussions prepared, having read or studied required material; explicitly draw on that preparation <br> and other information known about the topic to explore ideas under discussion. |
| SL.5.1.B | Follow agreed-upon rules for discussions and carry out assigned roles. |
| SL.5.1.C | Pose and respond to specific questions by making comments that contribute to the discussion and <br> elaborate on the remarks of others. |
| SL.5.1.D | Review the key ideas expressed and draw conclusions in light of information and knowledge gained from <br> the discussions. |
| SL.5.2 | Summarize information that is gained by means other than reading (e.g., texts read aloud; oral <br> presentations of charts, graphs, or diagrams; speeches). |
|  |  |

## Teacher Note

## SL.5.2

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

SL.5.3
Summarize the points a speaker makes and explain how each claim is supported by reasons and evidence.

Teacher Note

## SL.5.3

See Teacher Note for SL.5.2

## Grade 5-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

SL.5.4 $\quad$ Report on a topic or text or present an opinion to support main ideas or themes.

- Sequence ideas logically.
- Use appropriate facts.
- Use relevant, descriptive details.
- Speak clearly at an understandable pace.

## Teacher Note

## SL.5.4

Theme is a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).

| SL.5.5 | $\begin{array}{l}\text { Include multimedia components and visual displays in presentations when appropriate to enhance the } \\ \text { development of main ideas or themes. }\end{array}$ |
| :--- | :--- |

## Teacher Note

## SL.5.5

Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

SL.5.6 $\quad$ Adapt speech to a variety of contexts and tasks, using formal English when appropriate to task and situation.

## Teacher Note

## SL.5.6

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
See L.5.1 and L.5.3 for specific expectations for Grade 5 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades K-5

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening;
indeed, they are inseparable from such contexts.
Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 5 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grade 5-Language Standards |  |
| :---: | :---: |
| Conventions of Standard English |  |
| L.5.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or speaking as appropriate for Grade 5. |
| Teacher Note |  |
| L.5.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.5.1.A | This standard is taught in Grade 3 and should be reinforced as needed. <br> Explain the function of nouns, pronouns, verbs, adjectives, prepositions, and adverbs in general and their functions in particular sentences. |
| L.5.1.B | This standard is taught in Grade 3 and should be reinforced as needed. Form and use regular and irregular plural nouns. <br> - Use abstract nouns (e.g., childhood). |
| L.5.1.C | Use verb tense to convey various times, sequences, states, and conditions. <br> - Recognize and correct inappropriate shifts in verb tense. |

| L.5.1.D | Use relative pronouns whose, whom, who, which, and that. |
| :--- | :--- |
| L.5.1.E | Use the relative adverbs where, when, and why. |
| L.5.1.F | Use correlative conjunctions (e.g., either/or, neither/nor) and subordinating conjunctions (e.g., after, since, <br> because, when, etc.) appropriately. |
| L.5.1.G | This standard is taught in Grade 4 and should be reinforced as needed. <br> Form and use prepositional phrases. |
| L.5.1.H | Produce complex sentences using dependent clauses and subordinating conjunctions. |
| L.5.1.I | This standard is taught in Grade 4 and should be reinforced as needed. <br> Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
| L.5is standard is taught in Kindergarten and should be reinforced as needed. |  |
| Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |  |
| This standard is taught in Grade 3 and should be reinforced as needed. <br> Form all upper- and lowercase letters to write words legibly in cursive. |  |
| L.5.1.K | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as <br> appropriate for Grade 5 when writing. |
| Teacher Note |  |
| L.5.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer |  |

words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

| L.5.2.A | This standard is taught in Grade 4 and should be reinforced as needed. |
| :--- | :--- |
| Use correct capitalization. |  |$|$

## Teacher Note

## L.5.2.D

Systematic instruction in spelling is important because spelling impacts comprehension of text.
One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:
"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

## Grade 5-Language Standards

## Knowledge of Language

| L.5.3 | Use knowledge of language and its conventions as appropriate for Grade 5 when writing, speaking, reading, <br> or listening. |
| :--- | :--- |
| L.5.3.A | Expand, combine, and reduce sentences for meaning, reader/listener interest, and style. |
| L.5.3.B | Compare and contrast the varieties of English (e.g., dialects, registers) used in stories, dramas, or poems. |

## Teacher Note

## L.5.3.B

Dialect is a variety of a language that is distinguished from other varieties of the same language by features of phonology, grammar, and vocabulary, and by its use by a group of speakers who are set off from others geographically or socially. (http://www.dictionary.com/browse/dialect?s=t)

Register is any of the varieties of a language that a speaker uses in a particular social context.

## Grade 5-Language Standards

## Vocabulary Acquisition and Use

| L.5.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 5 <br> reading and content, choosing flexibly from a range of strategies. |
| :--- | :--- |
| L.5.4.A | Use context (e.g., cause/effect relationships and comparisons in text) as a clue to the meaning of a word or <br> phrase. |
| L.5.4.B | Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., <br> photograph, photosynthesis). |
| $\quad$ Teacher Note |  |
| L.5.4.B <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts <br> should also be selected to include words for appropriate phonics, word study, and spelling development and should have <br> content and literary merit. The text must be rigorous enough to engage students in Grade 5 concepts across all four strands <br> of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade- <br> appropriate curriculum. |  |
| See http://www.corestandards.org/assets/Appendix A.pdf\#page=22 for an explanation and examples of derivational <br> suffixes. <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-area- <br> roots.pdf). |  |
| L.5.4.C | Consult reference materials, both print and digital, to find the pronunciation and determine or clarify the <br> precise meaning of keywords and phrases. |

| L.5.4.D | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 5 <br> reading and content, choosing flexibly from a range of strategies. |
| :--- | :--- |
| L.5.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings, as <br> appropriate for grade level. |
| $\quad$ Teacher Note |  |
| L.5.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a <br> nuanced meaning: The girl was _e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.5.5.A | Interpret figurative language in context, including but not limited to, similes and metaphors. |
| L.5.5.B | Interpret the meaning of common idioms and proverbs. |
| L.5.5.C | Use the relationship between particular words (e.g., synonyms, antonyms, homographs, homophones, <br> homonyms) to better understand each of the words. |
| This standard is taught in Grade 1 and should be reinforced as needed. <br> L.5.5.D <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, scowl) <br> and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the <br> meanings. |  |
| L.5.6 | Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, <br> including transition words that signal contrast, addition, and other logical relationships. |
| Teacher Note |  |
| L.5.6 <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualitative, and reader and task for the Grades 4-5 text complexity band. The texts |  |

should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 5 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous gradeappropriate curriculum.

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words that can be used across the disciplines (e.g., surface, determine). Domain-specific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

## Grade 6

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades 6-12

To become college and career ready, students must grapple with works of exceptional craft and thought whose range extends across genres, cultures, and centuries. Such works offer profound insights into the human condition and serve as models for students' own thinking and writing. Along with high-quality contemporary works, these texts should be chosen from among seminal U.S. documents, the classics of American literature, and the timeless dramas of Shakespeare. Through wide and deep reading of literature and literary nonfiction of steadily increasing sophistication, students gain a reservoir of literary and cultural knowledge, references, and images; the ability to evaluate intricate arguments; and the capacity to surmount the challenges posed by complex texts.

## Grade 6-Reading Standards for Literature

## Key Ideas and Details

| RL.6.1 | Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the <br> text. |
| :--- | :--- |
| RL.6.2 | Examine a grade-appropriate literary text. <br> • Provide an objective summary. <br> - Determine a theme of a text and how it is conveyed through particular details. |

## Teacher Note

## RL.6.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 6 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in
nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text.
http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

Objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include personal feelings, interpretations, or prejudice.

Theme is defined as a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).

RL.6.3 Describe how a story's or drama's plot unfolds in a series of events as well as how the characters respond or change as the plot moves toward a resolution.

| Grade 6-Reading Standards for Literature |  |
| :--- | :--- |
| Craft and Structure |  |
| RL.6.4 | Determine the meaning of words and phrases as they are used in a text, including figurative and <br> connotative meanings; analyze the impact of a specific word choice on meaning and/or tone. |
| Teacher Note |  |
| RL.6.4 <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| RL.6.5Analyze how a particular sentence, chapter, scene, or stanza fits into the overall structure of a text and <br> contributes to the development of the theme, setting, or plot. |  |
| $\quad$ Teacher Note |  |
| RL.6.5 <br> In a ballad, each stanza tells the next part of the story. In a novel, the early chapters often establish the setting and <br> provide foundational descriptions of characters who develop across the following chapters. In a play, one scene follows <br> another as the action unfolds. When writing or discussing stories, dramas, and poems, students should refer to specific <br> chapters, scenes, or stanzas when citing evidence to support their analysis. |  |
| RL.6.6 | Explain how an author develops the point of view and/or perspective of the narrator or speaker in a text. |

manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the th ird person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality (http://dictionary.cambridge.org/us/dictionary/english/perspective)

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

## Grade 6-Reading Standards for Literature

Integration of Knowledge and Ideas

| RL.6.7 | Compare and contrast the experience of reading a story, drama, or poem to listening to or viewing an <br> audio, video, or live version of the text, including contrasting what they "see" and "hear" when reading the <br> text to what they perceive when they listen or watch. |
| :--- | :--- |
| RL.6.8 | RL.6.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.6.9 | Compare and contrast texts in different forms or genres (e.g., stories and poems; historical novels and <br> fantasy stories) in terms of their approaches to similar themes and topics. |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RL.6.10 | By the end of the year, read and comprehend literature, including stories, dramas, and poems, in the <br> Grades 6-8 text complexity band proficiently, with scaffolding as needed at the high end of the range. |
| Teacher Note |  |
| RL.6.10 <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf |  |
| A chart with text complexity quantitative measures by grade band may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4 |  |

## Grade 6-Reading Standards for Informational

## Key Ideas and Details

| RI.6.1 | Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from <br> the text. |
| :--- | :--- |
| RI.6.2 | Examine a grade-appropriate informational text. <br> • Provide an objective summary. <br> - Determine a central idea and how it is conveyed through particular details. |

## Teacher Note

## RI. 6.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate phonics, word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 6 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in
nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades 6-12

For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt. To be college- and career- ready writers, students must take task, purpose, and audience into careful consideration, choosing words, information, structures, and formats deliberately. They need to know how to combine elements of different kinds of writing--for example, to use narrative strategies within argument and explanation within narrative--to produce complex and nuanced writing. They need to be able to use technology strategically when creating, refining, and collaborating on writing. They have to become adept at gathering information, evaluating sources, and citing material accurately, reporting findings from their research and analysis of sources in a clear and cogent manner. They must have the flexibility, concentration, and fluency to produce high-quality first-draft text under a tight deadline as well as the capacity to revisit and make improvements to a piece of writing over multiple drafts when circumstances encourage or require it.

| Grade 6-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.6.1 | Write arguments to support claims with clear reasons and relevant evidence. |
| W.6.1.A | Introduce claim(s) and organize the reasons and evidence clearly. |
| W.6.1.B | Support claim(s) with clear reasons and relevant evidence, using credible sources and demonstrating an <br> understanding of the topic or text. |
| W.6.1.C | Use words, phrases, and clauses to clarify the relationships among claim(s) and reasons. |
| W.6.1.D | Establish and maintain a formal style. |
| W.6.1.E | Provide a concluding statement or section that follows from the argument presented. |
| W.6.2 | Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information <br> through the selection, organization, and analysis of relevant content. |
| W.6.2.A | Introduce a topic; organize ideas, concepts, and information, using strategies such as definition, <br> classification, comparison/contrast, and cause/effect; include text features (e.g., headings), graphics (e.g., <br> charts, tables), and multimedia when useful to aiding comprehension. |
| Teacher Note |  |
| W.6.2.A <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination <br> of this content can be used to enhance your website or social media platform. The five main categories are text, <br> graphics, animation (including interactive elements), audio, video. |  |

| Text features should be presented in a systematic way within an aligned curriculum. |  |
| :---: | :---: |
| W.6.2.B | Develop the topic with relevant facts, definitions, concrete details, quotations, and/or other information and examples. |
| W.6.2.C | Use appropriate transitions to clarify the relationships among ideas and concepts. |
| W.6.2.D | Use precise language and domain-specific vocabulary to inform about or explain the topic. |
|  | Teacher Note |
| W.6.2.D <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a desired conclusion. |  |
| W.6.2.E | Establish and maintain a formal style. |
| W.6.2.F | Provide a concluding statement or section that supports the information or explanation presented. |
| W.6.3 | Write narratives to develop real or imagined experiences or events using effective technique, relevant descriptive details, and well-structured event sequences. |
| W.6.3.A | Engage and orient the reader by establishing a context and introducing a narrator and/or characters; organize an event sequence that unfolds naturally and logically. |

| W.6.3.B | Use narrative techniques, such as dialogue, pacing, and description, to develop experiences, events, <br> and/or characters. |
| :--- | :--- |
| W.6.3.C | Use a variety of transition words, phrases, and clauses to convey sequence and signal shifts from one time <br> frame or setting to another. |
| W.6.3.D | Use precise words and phrases, relevant descriptive details, and sensory language to convey experiences <br> and events. |
| Teacher Note |  |
| W.6.3.D <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion. |  |
| W.6.3.E | Provide a conclusion that reflects on the narrated experiences or events. |

| Grade 6-Writing Standards |  |
| :---: | :---: |
| Production and Distribution of Writing |  |
| W.6.4 | Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. |
| Teacher Note |  |
| W.6.4 <br> Grade-specific expectations for writing types are defined in standards W.6.1, W.6.2, and W.6.3. |  |
| W.6.5 | Develop and strengthen writing as needed with some guidance and support from peers and adults, by planning, revising, editing, rewriting, or trying a new approach (e.g. Recognize variations from standard English in their own and others' writing and speaking, and identify and use strategies to improve expression in conventional language). |
| Teacher Note |  |
| W.6.5 Editing <br> Stand both fo (http:// <br> Forma words words avoide work. | r conventions should demonstrate command of Language standards 1-3 up to and including Grade 6. <br> English is the English language in its most widely accepted form, as written and spoken by educated people in mal and informal contexts,having universal currency while incorporating regional differences w.dictionary.com/browse/standard-english?s=t) <br> English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at |

Informal discourse is used with friends, children, and relatives.
W.6.6

Use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills to produce writing in a single sitting.

| Grade 6-Writing Standards |  |
| :--- | :--- |
| W.6.7 | Research to Build and Present Knowledge <br> when appropriate. |
| W.6.8 | Gather relevant information from multiple print and digital sources. <br> • Assess the credibility of each source. <br> Quote or paraphrase the data and conclusions of others while avoiding plagiarism. <br> $\bullet$ <br> Provide basic bibliographic information for sources. |
| W.6.9 | Draw evidence from literary and/or informational texts to support analysis, reflection, and research. |
| W.6.9.A | Apply Grade 6 Reading standards to literature (e.g., "Compare and contrast texts in different forms or genres <br> [e.g., stories and poems; historical novels and fantasy stories] in terms of their approaches to similar themes <br> and topics."). |
| W.6.9.B | Apply Grade 6 Reading standards to informational texts (e.g., "Trace and evaluate the argument and specific <br> claims in a text, distinguishing claims that are supported by reasons and evidence from claims that are not."). |

| Grade 6-Writing Standards |  |
| :--- | :--- |
| Range of Writing |  |
| W.6.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades 6-12

To become college and career ready, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner--built around important content in various domains. They must be able to contribute appropriately to these conversations, to make comparisons and contrasts, and to analyze and synthesize a multitude of ideas in accordance with the standards of evidence appropriate to a particular discipline. Whatever their intended major or profession, high school graduates will depend heavily on their ability to listen attentively to others so that they are able to build on others' meritorious ideas while expressing their own clearly and persuasively.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. The Internet has accelerated the speed at which connections between speaking, listening, reading, and writing can be made, requiring that students be ready to use these modalities nearly simultaneously. Technology itself is changing quickly, creating a new urgency for students to be adaptable in response to change.

## Grade 6-Speaking and Listening Standards

## Comprehension and Collaboration

| SL.6.1 | $\begin{array}{l}\text { Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with } \\ \text { diverse partners on Grade } 6 \text { topics, texts, and issues, building on others' ideas and expressing their own } \\ \text { clearly. }\end{array}$ |
| :--- | :--- | clearly.

## Teacher Notes

| SL.6.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |
| :--- |
| SL.6.1.A |
| Come to discussions prepared, having read or studied required material; explicitly draw on that preparation <br> by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion. |
| SL.6.1.B |
| Follow rules for collegial discussions, set specific goals and deadlines, and define individual roles as <br> needed. |
| Teacher Note |
| SL.6.1.B <br> Collegial discussion is defined by Jim Burke as follows: Collegial discussion refers to discussing ideas, some of them <br> contentious, with mutual respect for your colleagues even if you do not agree. |
| SL.6.1.C | | Pose and respond to specific questions with elaboration and detail by making comments that contribute to |
| :--- |
| the topic, text, or issue under discussion. |

## Teacher Note

In this standard, the teacher will address both point of view and perspective.
It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

SL.6.2 Interpret information that is gained by means other than reading (e.g., texts read aloud; oral presentations of charts, graphs, or diagrams; speeches) and explain how it contributes to a topic, text, or issue under study.

SL.6.3 Describe precisely a speaker's argument and specific claims, distinguishing claims that are supported by reasons and evidence from claims that are not.

## Grade 6-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

SL.6.4 $\quad$ Present claims and findings, sequencing ideas logically and using pertinent descriptions, facts, and details to accentuate main ideas or themes; use appropriate eye contact, adequate volume, and clear pronunciation.

## Teacher Note

SL.6.4
Theme is a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).
SL.6.5 $\quad$ Include multimedia components (e.g., graphics, images, music, sound) and visual displays in presentations to clarify information.

## Teacher Note

## SL. 6.5

Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

| SL.6.6 | $\begin{array}{l}\text { Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated } \\ \text { or appropriate. }\end{array}$ |
| :--- | :--- |

## Teacher Note

## SL.6.6

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
See L.6.1 and L.6.3 for specific expectations for Grade 6 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades 6-12

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The
inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 6 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate aligned curriculum.

| Grade 6-Language Standards |  |
| :--- | :--- |
| Conventions of Standard English |  |
| L.6.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or <br> speaking as appropriate for Grade 6. |
| $\quad$ Teacher Note |  |
| L.6.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. |  |
| Informal discourse is used with friends, children, and relatives. |  |
| L.6.1.A | Ensure that pronouns are in the proper case (subjective, objective, possessive). |
| L.6.1.B | Use intensive pronouns (e.g., myself, ourselves) correctly. |

| Teacher Note |  |
| :--- | :--- |
| L.6.1.B <br> Diferentiate between reflexive pronouns, which are taught in Grade 2 and intensive pronouns, which are taught in <br> Grade 6. |  |
| L.6.1.C | Form and use the perfect verb tenses (e.g., I had walked; I have walked; I will have walked). |
| Teacher Note |  |
| L.6.1.C <br> Review previously taught verb tenses as needed. |  |
| L.6.1.D | Recognize and correct vague pronouns (e.g., ones with unclear or ambiguous antecedents), as well as <br> inappropriate shifts in pronoun number and person. |
| Lhis standard is taught in Grade 5 and should be reinforced as needed. |  |
| Use the relative adverbs where, when, and why. |  |

| L.6.1.K | This standard is taught in Grade 3 and should be reinforced as needed. <br> Form all upper- and lowercase letters to write words legibly in cursive. |
| :--- | :--- |
| L.6.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as <br> appropriate for Grade 6 when writing. |
| Teacher Note |  |
| L.6.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. | L.6.2.A | This standard is taught in Grade 4 and should be reinforced as needed. |
| Use correct capitalization. |  |

## Teacher Note

## L.6.2.D

Systematic instruction in spelling is important because spelling impacts comprehension of text.
One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:
"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction. In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

| Grade 6-Language Standards |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Knowledge of Language |  |  |  |  |  |  |
| L.6.3 | Use knowledge of language and its conventions for Grade 6 when writing, speaking, reading, or listening. |  |  |  |  |  |
| L.6.3.A | Vary sentence patterns for meaning, reader/listener interest, and style. |  |  |  |  |  |
| L.6.3.B | Maintain consistency in style and tone. |  |  |  |  |  |
| Teacher Note |  |  |  |  |  |  |
| L.6.3.B <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |  |  |  |  |  |

## Grade 6-Language Standards

## Vocabulary Acquisition and Use

| L.6.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 6 <br> reading and content, choosing flexibly from a range of effective strategies. |
| :--- | :--- |
| L.6.4.A | Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a sentence) <br> as a clue to the meaning of a word or phrase. |
| L.6.4.B | Use common, Greek or Latin affixes and roots as clues to the meaning of a word (e.g., audience, auditory, <br> audible). |
| Teacher Note |  |
| L.6.4.B <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-area- <br> roots.pdf). |  |
| L.6.4.C | Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the <br> pronunciation of a word or determine or clarify its precise meaning or its part of speech. |
| L.6.4.D | Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning <br> in context or in a dictionary). |
| L.6.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings, as <br> appropriate for the grade level. |

## Teacher Note

## L.6.5

Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile).

| L.6.5.A | Interpret figures of speech (e.g., extended metaphor, personification) in context. |
| :--- | :--- |
| L.6.5.B | Use the relationship between particular words (e.g., cause/effect, part/whole, item/category) to better <br> understand each of the words. |
| L.6.5.C | Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., stingy, <br> scrimping, economical, unwasteful, thrifty). |
| L.6.6 | Acquire and use accurately grade-appropriate general academic vocabulary and domain-specific words and <br> phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or <br> expression. |
| Teacher Note |  |
| L.6.6 <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts <br> should also be selected to include words for appropriate word study, and spelling development and should have content and <br> literary merit. The text must be rigorous enough to engage students in Grade 6 concepts across all four strands of the <br> English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade- <br> appropriate curriculum. |  |

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domain-specific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at
(http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

## Grade 7

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades 6-12

To become college and career ready, students must grapple with works of exceptional craft and thought whose range extends across genres, cultures, and centuries. Such works offer profound insights into the human condition and serve as models for students' own thinking and writing. Along with high-quality contemporary works, these texts should be chosen from among seminal U.S. documents, the classics of American literature, and the timeless dramas of Shakespeare. Through wide and deep reading of literature and literary nonfiction of steadily increasing sophistication, students gain a reservoir of literary and cultural knowledge, references, and images; the ability to evaluate intricate arguments; and the capacity to surmount the challenges posed by complex texts.

## Grade 7-Reading Standards for Literature

## Key Ideas and Details

| RL.7.1 | Cite several pieces of textual evidence to support analysis of what the text says explicitly as well as <br> inferences drawn from the text. |
| :--- | :--- |
| RL.7.2 | Examine a grade-appropriate literary text. <br> - Provide an objective summary. <br> - Determine a theme of a text and analyze its development over the course of the text. |
| Teacher Note |  |
| RL.7.2 <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measures: quantitative, qualitative, and reader and task for the Grades 6 -8 text complexity band. The texts <br> should also be selected to include words for appropriate word study, and spelling development and should have content <br> and literary merit. The text must be rigorous enough to engage students in Grade 7 concepts across all four strands of <br> the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous <br> grade-appropriate curriculum. |  |
| Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased |  |
| Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text <br> with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better <br> Reading, Writing, and Test Taking(2006) Kissner (p. 8). |  |
| An objective summary is a shortened version of an original text, stating the main ideas and only the important details of <br> the text with the same text structure and order of the original that is unbiased and based on facts and does not include |  |

personal feelings, interpretations, or prejudice.
The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
RL.7.3 $\quad$ Analyze how particular elements of a story or drama interact (e.g., how setting shapes the characters or plot, how imagery affects the mood of the text, how characters' decisions affect the plot).

## Grade 7-Reading Standards for Literature

| Craft and Structure |  |
| :--- | :--- |
| RL.7.4 | Determine the meaning of words and phrases as they are used in a text, including figurative and <br> connotative meanings; analyze the impact of rhymes and other repetitions of sounds (e.g., alliteration) on a <br> specific verse or stanza of a poem or section of a story or drama. |
| RL.7.5 | Analyze how particular elements of a drama or poem (e.g., scene, stage direction, monologue, or stanza) fit <br> into the overall structure and contribute to its meaning. |
| RL.7.6 | Analyze how an author develops and contrasts the points of view and/or perspectives of different <br> characters or narrators in a text. |
| $\quad$ Teacher Note |  |
| RL.7.6 <br> In this standard, the teacher will address both point of view and perspective. <br> It is important to clarify the terms "point of view" and "perspective" for students. <br> Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in <br> manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader <br> access into the greater reaches of the story. Two of the most common point of view techniques are the first person, <br> wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not <br> figure in the events of the story and tells the story by referring to all characters and places in the third person with third <br> person pronouns and proper nouns <br> (http://literary-devices.com/content/point-view) |  |
| Perspective is a particular way of viewing things that depends on one's experience and personality |  |

## (http://dictionary.cambridge.org/us/dictionary/english/perspective)

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

## Grade 7-Reading Standards for Literature

## Integration of Knowledge and Ideas

## RL. 7.7 Compare and contrast a written story, drama, or poem to its audio, filmed, staged, or multimedia version, analyzing the effects of techniques unique to each medium (e.g., lighting, sound, color, or camera focus and angles in a film).

## Teacher Note

## RL.7.7

Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

| RL.7.8 | RL.7.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| RL.7.9 | Compare and contrast a fictional portrayal of a time, place, or character and a historical account of the <br> same period as a means of understanding how authors of fiction use or alter history. |  |  |  |  |  |
| Range of Reading and Level of Text Complexity |  |  |  |  |  |  |
| RL.7.10 | By the end of the year, read and comprehend literature, including stories, dramas, and poems, in the <br> Grades 6-8 text complexity band proficiently, with scaffolding as needed at the high end of the range. |  |  |  |  |  |

## Teacher Note

## RL.7.10

A detailed explanation of the three dimensions of text complexity may be found at the following link: http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf
A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Grade 7-Reading Standards for Informational

## Key Ideas and Details

| RI.7.1 | Cite several pieces of textual evidence to support analysis of what the text says explicitly as well as <br> inferences drawn from the text. |
| :--- | :--- |
| RI.7.2 | Examine a grade-appropriate informational text. <br> $\bullet$ Provide an objective summary <br> $\bullet$ Determine a central idea in a text and analyze its development. |

## Teacher Note

## RI. 7.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 7 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased
Summary is "a shortened version of an original text, stating the main ideas and [only the] important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

An objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include
personal feelings, interpretations, or prejudice.
The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
RI.7.3 $\quad$ Analyze the interactions between individuals, events, and ideas in a text (e.g., how ideas influence individuals or events, or how individuals influence ideas or events).

## Grade 7-Reading Standards for Informational

## Craft and Structure

| RI.7.4 | Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, <br> and technical meanings; analyze the impact of a specific word choice on meaning and tone. |
| :--- | :--- |
| Teacher Note |  |
| RI.7.4 <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| RI.7.5 | Analyze the structure an author uses to organize a text, including how the major sections contribute to the <br> whole and to the development of the ideas. |
| RI.7.6 | Determine an author's point of view, perspective, and/or purpose in a text and analyze how the author <br> distinguishes his or her position from that of others. |

## Teacher Note

## RI.7.6

In this standard, the teacher will address both point of view and perspective.
It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns

## (http://literary-devices.com/content/point-view)

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| Grade 7-Reading Standards for Informational |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| $\quad$ Integration of Knowledge and Ideas |  |  |  |  |  |  |
| RI.7.7 | Compare and contrast a text to an audio, video, or multimedia version of the text, analyzing each medium's <br> portrayal of the subject (e.g., how the delivery of a speech affects the impact of the words). |  |  |  |  |  |
| Teacher Note |  |  |  |  |  |  |
| RI.7.7 <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination <br> of this content can be used to enhance your website or social media platform. The five main categories are text, <br> graphics, animation (including interactive elements), audio, video. |  |  |  |  |  |  |
| RI.7.8 | Trace and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound <br> and the evidence is relevant and sufficient to support the claims. |  |  |  |  |  |
| RI.7.9 | Analyze how two or more authors writing about the same topic shape their presentations of key information <br> by emphasizing different evidence or advancing different interpretations of facts. |  |  |  |  |  |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RI.7.10 | By the end of the year, read and comprehend literary nonfiction in the Grades 6-8 text complexity band <br> proficiently, with scaffolding as needed at the high end of the range. |
| Teacher Note |  |
| RI.7.10 <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf |  |

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades 6-12

For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt. To be college- and career- ready writers, students must take task, purpose, and audience into careful consideration, choosing words, information, structures, and formats deliberately. They need to know how to combine elements of different kinds of writing--for example, to use narrative strategies within argument and explanation within narrative--to produce complex and nuanced writing. They need to be able to use technology strategically when creating, refining, and collaborating on writing. They have to become adept at gathering information, evaluating sources, and citing material accurately, reporting findings from their research and analysis of sources in a clear and cogent manner. They must have the flexibility, concentration, and fluency to produce high-quality first-draft text under a tight deadline as well as the capacity to revisit and make improvements to a piece of writing over multiple drafts when circumstances encourage or require it.

| Grade 7-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.7.1 | Write arguments to support claims with clear reasons and relevant evidence. |
| W.7.1.A | Introduce claim(s), acknowledge alternate or opposing claims, and organize the reasons and evidence <br> logically. |
| W.7.1.B | Support claim(s) with logical reasoning and relevant evidence, using accurate, credible sources and <br> demonstrating an understanding of the topic or text. |
| W.7.1.C | Use words, phrases, and clauses to create cohesion and clarify the relationships among claim(s), reasons, <br> and evidence. |
| W.7.1.D | Establish and maintain a formal style. <br> W.7.1.E <br> Provide a concluding statement or section that follows from and supports the argument presented. <br> W.7.2 <br> Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information <br> through the selection, organization, and analysis of relevant content. <br> W.7.2.A <br> Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information, using <br> strategies such as definition, classification, comparison/contrast, and cause/effect; include text features <br> (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aiding comprehension. <br> Teacher Note <br> W.7.2.A <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination |

of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

Text features should be presented in a systematic way within an aligned curriculum.
W.7.2.B $\quad$ Develop the topic with relevant facts, definitions, concrete details, quotations, and/or other information and examples.
W.7.2.C $\quad$ Use appropriate transitions to create cohesion and clarify the relationships among ideas and concepts.
W.7.2.D Use precise language and domain-specific vocabulary to inform about or explain the topic.

## Teacher Note

## W.7.2.D

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature).

Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a desired conclusion.

| W.7.2.E | Establish and maintain a formal style. |
| :--- | :--- |
| W.7.2.F | Provide a concluding statement or section that supports the information or explanation presented. |
| W.7.3 | Write narratives to develop real or imagined experiences or events using effective technique, relevant <br> descriptive details, and well-structured event sequences. |

| W.7.3.A | Engage and orient the reader by establishing a context and point of view/perspective and introducing a <br> narrator and/or characters; organize an event sequence that unfolds naturally and logically. |
| :--- | :--- |
| Teacher Note |  |
| W.7.3.A <br> In this standard, the teacher will address both point of view and perspective. <br> It is important to clarify the terms "point of view" and "perspective" for students. <br> Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in <br> manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader <br> access into the greater reaches of the story. Two of the most common point of view techniques are the first person, <br> wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not <br> figure in the events of the story and tells the story by referring to all characters and places in the third person with third <br> person pronouns and proper nouns <br> (http://literary-devices.com/content/point-view) |  |
| Perspective is a particular way of viewing things that depends on one's experience and personality <br> (http://dictionary.cambridge.org/us/dictionary/english/perspective). <br> In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, <br> omniscient, limited, exc., and perspective should be used when referring to a particular way of viewing things that <br> depends on one's experience and personality. Furthermore, students need to know that it is common practice for <br> disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English <br> teachers would define as perspective. |  |
| W.7.3.B | Use narrative techniques, such as dialogue, pacing, and description, to develop experiences, events, <br> and/or characters. |
| w.7.3.C | Use a variety of transition words, phrases, and clauses to convey sequence and signal shifts from one time <br> frame or setting to another. |

W.7.3.D $\quad$ Use precise words and phrases, relevant descriptive details, and sensory language to capture the action and convey experiences and events.

## Teacher Note

W.7.3.D

Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a desired conclusion.
W.7.3.E $\quad$ Provide a conclusion that reflects on the narrated experiences or events.

| Grade 7-Writing Standards |  |
| :--- | :--- |
| $\quad$ Production and Distribution of Writing |  |
| W.7.4 | Produce clear and coherent writing in which the development, organization, and style are appropriate to task, <br> purpose, and audience. |
| Teacher Note |  |
| W.7.4 <br> Grade-specific expectations for writing types are defined in standards W.7.1, W.7.2, and W.7.3. |  |
| W.7.5 | Develop and strengthen writing as needed with some guidance and support from peers and adults by <br> planning, revising, editing, rewriting, or trying a new approach, focusing on how well purpose and audience <br> have been addressed. |
| W.7.5 Teacher Note <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grade 7. |  |
| W.7.6 | Use technology, including the Internet, to produce and publish writing and link to and cite sources as well as to <br> interact and collaborate with others. |

| Grade 7-Writing Standards |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: |
| Research to Build and Present Knowledge |  |  |  |  |
| W.7.7 | Conduct short or more sustained research projects to answer a question, drawing on several sources and <br> generating additional related, focused questions for further research and investigation. |  |  |  |
| W.7.8 | Gather relevant information from multiple print and digital sources, using search terms effectively. <br> - Assess the credibility and acturacy of each source. <br> - Quote or paraphrase the data and conclusions of others while avoiding plagiarism. <br> - Follow a standard format for citation. |  |  |  |
| W.7.9 | Draw evidence from literary and/or informational texts to support analysis, reflection, and research. |  |  |  |
| W.7.9.A | Apply Grade 7 Reading standards to literature (e.g., "Compare and contrast a fictional portrayal of a time, <br> place, or character and a historical account of the same period as a means of understanding how authors of <br> fiction use or alter history."). |  |  |  |
| W.7.9.B | Apply Grade 7 Reading standards to informational texts (e.g., "Trace and evaluate the argument and specific <br> claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient to <br> support the claims."). |  |  |  |
| Teacher Note |  |  |  |  |
| W.7.9.A and W.7.9.B may be used individually or in combination. |  |  |  |  |

| Grade 7-Writing Standards |  |
| :--- | :--- |
| Range of Writing |  |
| W.7.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades 6-12

To become college and career ready, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner--built around important content in various domains. They must be able to contribute appropriately to these conversations, to make comparisons and contrasts, and to analyze and synthesize a multitude of ideas in accordance with the standards of evidence appropriate to a particular discipline. Whatever their intended major or profession, high school graduates will depend
heavily on their ability to listen attentively to others so that they are able to build on others' meritorious ideas while expressing their own clearly and persuasively.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. The Internet has accelerated the speed at which connections between speaking, listening, reading, and writing can be made, requiring that students be ready to use these modalities nearly simultaneously. Technology itself is changing quickly, creating a new urgency for students to be adaptable in response to change.

| Grade 7-Speaking and Listening Standards |  |
| :--- | :--- |
| Comprehension and Collaboration |  |
| SL.7.1 | Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with <br> diverse partners on Grade 7 topics, texts, and issues, building on others' ideas and expressing their own <br> clearly. |
| Teacher Notes |  |
| SL.7.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.7.1.A | Come to discussions prepared, having read or researched material under study; explicitly draw on that <br> preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under <br> discussion. |
| SL.7.1.B | Follow rules for collegial discussions, track progress toward specifically set goals and deadlines, and define <br> individual roles as needed. |
| Teacher Note |  |
| SL.7.1.B <br> Collegial discussion is defined by Jim Burke as follows: Collegial discussion refers to discussing ideas, some of them <br> contentious, with mutual respect for your colleagues even if you do not agree. |  |
| SL.7.1.C | Pose questions that elicit elaboration and respond to others' questions and comments with relevant <br> observations and ideas that bring the discussion back on topic as needed. |

| SL.7.1.D | Acknowledge new information expressed by others and, when warranted, modify their own views. |
| :--- | :--- |
| SL.7.2 | Analyze the main ideas and supporting details that are gained by means other than reading (e.g., texts <br> read aloud; oral presentations of charts, graphs, or diagrams; speeches) and explain how the ideas clarify a <br> topic, text, or issue under study. |
| SL.7.3 | Determine a speaker's argument and specific claims, evaluating the soundness of the reasoning and the <br> relevance and sufficiency of the evidence. |

## Grade 7-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

| SL.7.4 | Present claims and findings, emphasizing primary points in a focused, coherent manner with pertinent <br> descriptions, facts, details, and examples; use appropriate eye contact, adequate volume, and clear <br> pronunciation. |
| :--- | :--- |
| SL.7.5 | Include multimedia components and visual displays in presentations to clarify claims and findings and <br> emphasize the primary points. |

## Teacher Note

## SL. 7.5

Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and pyramid area graphs).

SL.7.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.

## Teacher Note

## SL.7.6

See L.7.1 and L.7.3 for specific expectations for Grade 7 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades 6-12

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content.

The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening; indeed, they are inseparable from such contexts.

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades $6-8$ text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 7 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grade 7-Language Standards |  |
| :--- | :--- |
| Conventions of Standard English |  |
| L.7.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or <br> speaking as appropriate for Grade 7. |
| $\quad$ Teacher Note |  |
| L.7.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. | :--- | :--- |
| L.7.2.B | Use a semicolon to join elements of a series when individual items of the series already include commas. |
| L.7.2.C | Use a comma to separate coordinate adjectives (e.g., It was a fascinating, enjoyable movie). |
| L.7.2.D | Spell correctly. |

## Teacher Note

## L.7.2.D

Systematic instruction in spelling is important because spelling impacts comprehension of text.
One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:
"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

| Grade 7-Language Standards |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Knowledge of Language |  |  |  |  |  |  |
| L.7.3 | Use knowledge of language and its conventions for Grade 7 when writing, speaking, reading, or listening. |  |  |  |  |  |
| L.7.3.A | Choose language that expresses ideas precisely and concisely, recognizing and eliminating wordiness and <br> redundancy. |  |  |  |  |  |
| L.7.3.B | Maintain consistency in style and tone, based on audience, purpose, message, and form. |  |  |  |  |  |
| Teacher Note |  |  |  |  |  |  |
| L.7.3.B <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |  |  |  |  |  |

| Grade 7-Language Standards |  |
| :---: | :---: |
| Vocabulary Acquisition and Use |  |
| L.7.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 7 reading and content, choosing flexibly from a range of effective strategies. |
| L.7.4.A | Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a sentence) as a clue to the meaning of a word or phrase. |
| L.7.4.B | Use common, Greek or Latin affixes and roots as clues to the meaning of a word (e.g., belligerent, bellicose, rebel). |
| Teacher Note |  |
| L.7.4.B <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-arearoots.pdf). |  |
| L.7.4.C | Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning or its part of speech. |
| L.7.4.D | Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary). |
| L.7.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings, as appropriate for the grade level. |

| Teacher Note |  |
| :---: | :---: |
| L. 7.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.7.5.A | Interpret figures of speech (e.g., literary, biblical, and mythological allusions) in context. |
| L.7.5.B | Use the relationship between particular words (e.g., synonym/antonym, analogy) to better understand each of the words. |
| L.7.5.C | Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., refined, respectful, polite, diplomatic). |
| L.7.5.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the meanings. |
| L.7.6 | Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression. |
| Teacher Note |  |
| L. 7.6 <br> "Gradecomple should and liter English appropr | propriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts so be selected to include words for appropriate word study, and spelling development and should have content y merit. The text must be rigorous enough to engage students in Grade 7 concepts across all four strands of the anguage Arts standards. Text selection should be a priority consideration when developing a rigorous gradee curriculum. |

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domain-specific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at
(http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

## Grade 8

Arkansas
English Language Arts Standards

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades 6-12

To become college and career ready, students must grapple with works of exceptional craft and thought whose range extends across genres, cultures, and centuries. Such works offer profound insights into the human condition and serve as models for students' own thinking and writing. Along with high-quality contemporary works, these texts should be chosen from among seminal U.S. documents, the classics of American literature, and the timeless dramas of Shakespeare. Through wide and deep reading of literature and literary nonfiction of steadily increasing sophistication, students gain a reservoir of literary and cultural knowledge, references, and images; the ability to evaluate intricate arguments; and the capacity to surmount the challenges posed by complex texts.

## Grade 8-Reading Standards for Literature

## Key Ideas and Details

RL.8.1 $\quad$ Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.

## RL.8.2 Examine a grade-appropriate literary text.

- Provide an objective summary.
- Determine a theme of a text and analyze its development over the course of the text, including its relationship to the characters, setting, and plot.

## Teacher Note

## RL.8.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 8 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased
Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

An objective summary is a shortened version of an original text, stating the main ideas and only the important details of
the text with the same text structure and order of the original that is unbiased and based on facts and does not include personal feelings, interpretations, or prejudice.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Theme is defined as a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).

RL.8.3 Analyze how particular lines of dialogue or incidents in a story or drama propel the action, reveal aspects of a character, or provoke a decision.

## Grade 8-Reading Standards for Literature

## Craft and Structure

| RL.8.4 | Determine the meaning of words and phrases as they are used in a text, including figurative and connotative <br> meanings; analyze the impact of specific word choices on meaning and/or tone, including analogies or <br> allusions to other texts when applicable. |
| :--- | :--- |
| Teacher Note |  |
| RL.8.4 <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| RL.8.5 | Compare and contrast the structure of two or more texts and analyze how the differing structure of each text <br> contributes to its meaning and style. |
| RL.8.6 | Analyze how differences in the points of view and/or perspectives of the characters and the audience or <br> reader (e.g., created through the use of dramatic irony) create such effects as suspense or humor. |

## Teacher Note

## RL.8.6

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns

## (http://literary-devices.com/content/point-view)

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| Grade 8-Reading Standards for Literature |  |
| :---: | :---: |
| Integration of Knowledge and Ideas |  |
| RL.8.7 | Analyze the extent to which a filmed or live production of a story or drama stays faithful to or departs from the text or script, evaluating the choices made by the director or actors. |
| RL.8.8 | RL. 8.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.8.9 | Analyze how a modern work of fiction draws on themes, patterns of events, or character types from myths, traditional stories, or religious works such as the Bible, describing how the original material is adapted. |

| Range of Reading and Level of Text Complexity |  |
| :--- | :--- |
| RL.8.10 | By the end of the year, read and comprehend literature, including stories, dramas, and poems, at the high <br> end of Grades 6-8 text complexity band independently and proficiently. |
| Teacher Note |  |
| RL.8.10 <br> A detailed explanation of the three dimensions of text complexity may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf |  |
| A chart with text complexity quantitative measures by grade band may be found at the following link: <br> http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4 |  |

## Grade 8-Reading Standards for Informational

Key Ideas and Details
RI.8.1 $\quad$ Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.

RI.8.2 Examine a grade-appropriate informational text.

- Provide an objective summary of the text.
- Determine a central idea of a text and analyze its development over the course of the text, including its relationship to supporting ideas.

## Teacher Note

## RI.8.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 8 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades 6-12

For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt. To be college- and career- ready writers, students must take task, purpose, and audience into careful consideration, choosing words, information, structures, and formats deliberately. They need to know how to combine elements of different kinds of writing--for example, to use narrative strategies within argument and explanation within narrative--to produce complex and nuanced writing. They need to be able to use technology strategically when creating, refining, and collaborating on writing. They have to become adept at gathering information, evaluating sources, and citing material accurately, reporting findings from their research and analysis of sources in a clear and cogent manner. They must have the flexibility, concentration, and fluency to produce high-quality first-draft text under a tight deadline as well as the capacity to revisit and make improvements to a piece of writing over multiple drafts when circumstances encourage or require it.

| Grade 8-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.8.1 | Write arguments to support claims with clear reasons and relevant evidence. |
| W.8.1.A | Introduce claim(s), acknowledge and distinguish the claim(s) from alternate or opposing claims, and <br> organize the reasons and evidence logically. |
| W.8.1.B | Support claim(s) with logical reasoning and relevant evidence, using accurate, credible sources and <br> demonstrating an understanding of the topic or text. |
| W.8.1.C | Use words, phrases, and clauses to create cohesion and clarify the relationships among claim(s), <br> counterclaims, reasons, and evidence. |
| W.8.1.D | Establish and maintain a formal style. |
| W.8.1.E | Provide a concluding statement or section that follows from and supports the argument presented. |
| W.8.2 | Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information <br> through the selection, organization, and analysis of relevant content. |
| W.8.2.A | Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information into <br> broader categories; include text features (e.g., headings), graphics (e.g., charts, tables), and <br> multimedia when useful to aiding comprehension. |
| Teacher Note |  |
| W.8.2.A <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination <br> of this content can be used to enhance your website or social media platform. The five main categories are text, |  |

| graphics, animation (including interactive elements), audio, video. Text features should be presented in a systematic <br> way within an aligned curriculum. |  |
| :--- | :--- |
| W.8.2.B | Develop the topic with relevant, well-chosen facts, definitions, concrete details, quotations, and/or <br> other information and examples. |
| W.8.2.C | Use appropriate and varied transitions to create cohesion and clarify the relationships among ideas <br> and concepts. |
| W.8.2.D | Use precise language and domain-specific vocabulary to inform about or explain the topic. |
| $\quad$ Teacher Note |  |
| W.8.2.D <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion. |  |
| W.8.2.E | Establish and maintain a formal style. |
| W.8.2.F | Provide a concluding statement or section that supports the information or explanation presented. |
| W.8.3 | Write narratives to develop real or imagined experiences or events using effective technique, relevant <br> descriptive details, and well-structured event sequences. |
| W.8.3.A | Engage and orient the reader by establishing a context and point of view/perspective and introducing <br> a narrator and/or characters; organize an event sequence that unfolds naturally and logically. |
| W.8.3.A |  |
| In this standard, the teacher will address both point of view and perspective. |  |

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality (http://dictionary.cambridge.org/us/dictionary/english/perspective).

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| W.8.3.B | Use narrative techniques, such as dialogue, pacing, description, and reflection, to develop <br> experiences, events, and/or characters. |
| :--- | :--- |
| W.8.3.C | Use a variety of transition words, phrases, and clauses to convey sequence, signal shifts from one <br> time frame or setting to another, and show the relationships among experiences and events. |
| W.8.3.D | Use precise words and phrases, relevant descriptive details, and sensory language to capture the <br> action and convey experiences and events. |
| Teacher Note |  |
| W.8.3.D <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion. |  |

| W.8.3.E | Provide a conclusion that reflects on the narrated experiences or events. |
| :--- | :--- |

| Grade 8-Writing Standards |  |
| :--- | :--- |
| Production and Distribution of Writing |  |
| W.8.4 | Produce clear and coherent writing in which the development, organization, and style are appropriate to <br> task, purpose, and audience. |
| Teacher Note |  |
| W.8.4 <br> Grade-specific expectations for writing types are defined in standards W.8.1, W.8.2, and W.8.3. |  |
| W.8.5 | Develop and strengthen writing as needed with some guidance and support from peers and adults by <br> planning, revising, editing, rewriting, or trying a new approach, focusing on how well purpose and <br> audience have been addressed. |
| W.8.5 Teacher Note <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grade 8. |  |
| W.8.6 | Use technology, including the Internet, to produce and publish writing and present the relationships <br> between information and ideas efficiently as well as to interact and collaborate with others. |

## Grade 8-Writing Standards

## Research to Build and Present Knowledge

| W.8.7 | Conduct short or more sustained research projects to answer a question (including a self-generated <br> question), drawing on several sources and generating additional related, focused questions that allow for <br> multiple avenues of exploration. |
| :--- | :--- |
| W.8.8 | Gather relevant information from multiple print and digital sources, using search terms effectively. <br> - Assess the credibility and accuracy of each source. <br> Quote or paraphrase the data and conclusions of others while avoiding plagiarism. <br> - Follow a standard format for citation. |
| W.8.9 | Draw evidence from literary and/or informational texts to support analysis, reflection, and research. |
| W.8.9.A | Apply Grade 8 Reading standards to literature (e.g., "Analyze how a modern work of fiction draws on <br> themes, patterns of events, or character types from myths, traditional stories, or religious works such as <br> the Bible, including describing how the material is rendered new."). |
| W.8.9.B | Apply Grade 8 Reading standards to informational texts (e.g., "Analyze and evaluate the argument and <br> specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and <br> sufficient; recognize when irrelevant evidence is introduced."). |

| Grade 8-Writing Standards |  |
| :--- | :--- |
| Range of Writing |  |
| W.8.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames <br> (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades 6-12

To become college and career ready, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner--built around important content in various domains. They must be able to contribute appropriately to these conversations, to make comparisons and contrasts, and to analyze and synthesize a multitude of ideas in accordance with the standards of evidence appropriate to a particular discipline. Whatever their intended major or profession, high school graduates will depend heavily on their ability to listen attentively to others so that they are able to build on others' meritorious ideas while expressing their own clearly and persuasively.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. The Internet has accelerated the speed at which connections between speaking, listening, reading, and writing can be made, requiring that students be ready to use these modalities nearly simultaneously. Technology itself is changing quickly, creating a new urgency for students to be adaptable in response to change.

| Grade 8-Speaking and Listening Standards |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: |
| Comprehension and Collaboration |  |  |  |  |  |
| SL.8.1 | Engage effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with <br> diverse partners on Grade 8 topics, texts, and issues, building on others' ideas and expressing their own <br> clearly. |  |  |  |  |
| Teacher Notes |  |  |  |  |  |
| SL.8.1 <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |  |  |  |  |
| SL.8.1.A | Come to discussions prepared, having read or researched material under study; explicitly draw on that <br> preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under <br> discussion. |  |  |  |  |
| SL.8.1.B | Follow rules for collegial discussions and decision-making, track progress toward specific goals and <br> deadlines, and define individual roles as needed. |  |  |  |  |
| Teacher Note |  |  |  |  |  |
| SL.8.1.B <br> Collegial discussion is defined by Jim Burke as follows: Collegial discussion refers to discussing ideas, some of them <br> contentious, with mutual respect for your colleagues even if you do not agree. |  |  |  |  |  |
| SL.8.1.C | Pose questions that connect the ideas of several speakers and respond to others' questions and comments <br> with relevant evidence, observations, and ideas. |  |  |  |  |

SL.8.1.D $\quad$ Acknowledge new information expressed by others, and, when warranted, qualify or justify their own views in light of the evidence presented.
SL.8.2 Analyze the purpose of information that is gained by means other than reading (e.g., texts read aloud; oral presentations of charts, graphs, or diagrams; speeches) and evaluate the motives (e.g., social, commercial, political) behind its presentation.

SL.8.3 Examine a speaker's argument and specific claims, evaluating the soundness of the reasoning and relevance and sufficiency of the evidence and identifying when irrelevant evidence is introduced.

| Grade 8-Speaking and Listening Standards |  |  |  |
| :--- | :--- | :---: | :---: |
| $\quad$ Presentation of Knowledge and Ideas |  |  |  |
| SL.8.4 | Present claims and findings, emphasizing the most important points in a focused, coherent manner with <br> relevant evidence, sound valid reasoning, and well-chosen details; use appropriate eye contact, adequate <br> volume, and clear pronunciation. |  |  |
| SL.8.5 | Integrate multimedia and visual displays into presentations to clarify information, strengthen claims and <br> evidence, and add interest. |  |  |
| $\quad$ Teacher Note |  |  |  |
| SL.8.5 <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination <br> of this content can be used to enhance your website or social media platform. The five main categories are text, <br> graphics, animation (including interactive elements), audio, video. |  |  |  |
| A visual display is a presentation of information that can be seen (e.g., drawings, bar graphs, 3D pie charts, line graphs, and <br> pyramid area graphs). |  |  |  |
| SL.8.6 | Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated <br> or appropriate. |  |  |
| Teacher Note |  |  |  |
| SL.8.6 <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. |  |  |  |

Informal discourse is used with friends, children, and relatives.
See L.8.1 and L.8.3 for specific expectations for Grade 8 students when speaking and writing.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades 6-12

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening;
indeed, they are inseparable from such contexts.
Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grade 8 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grade 8-Language Standards |  |
| :--- | :--- |
| Conventions of Standard English |  |
| L.8.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or <br> speaking as appropriate for Grade 8. |
| Teacher Note |  |
| L.8.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts, having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) |  |
| Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.8.1.A | Explain the function of verbals (gerunds, participles, infinitives) in general and their function in particular <br> sentences. |
| L.8.1.B | Form and use verbs in the active and passive voice. |
| L.8.1.C | Form and use verbs in the indicative, imperative, and interrogative mood. |
| L.8.1.D | Recognize and correct inappropriate shifts in verb voice. |

| L.8.1.E | This standard is taught in Grade 5 and should be reinforced as needed. Use the relative adverbs where, when, and why. |
| :---: | :---: |
| L.8.1.F | Place phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers. |
| L.8.1.G | This standard is taught in Grade 4 and should be reinforced as needed. Form and use prepositional phrases. |
| L.8.1.H | This standard is taught in Grade 7 and should be reinforced as needed. Produce a variety of compound complex sentences using dependent clauses, subordinating conjunctions, and coordinating conjunctions. |
| L.8.1.I | This standard is taught in Grade 4 and should be reinforced as needed. Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
| L.8.1.J | This standard is taught in Kindergarten and should be reinforced as needed. Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| L.8.1.K | This standard is taught in Grade 3 and should be reinforced as needed. Form all upper- and lowercase letters to write words legibly in cursive. |
| L.8.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as appropriate for Grade 8 when writing. |
|  | Teacher Note |
| L.8.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter |  |

words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

| L.8.2.A | This standard is taught in Grade 4 and should be reinforced as needed. Use correct capitalization. |
| :---: | :---: |
| L.8.2.B | Use an ellipsis to indicate an omission. |
| L.8.2.C | Use punctuation (comma, ellipsis, dash) to indicate a pause or break. |
| L.8.2.D | Spell correctly. |
|  | Teacher Note |
| L.8.2.D <br> Systematic instruction in spelling is important because spelling impacts comprehension of text. <br> One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond" by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text: <br> "Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding" (e.g., Leong, 2000; Smith, 1998). <br> "Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194). |  |

Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

| Grade 8-Language Standards |  |
| :--- | :--- |
| Knowledge of Language |  |
| L.8.3 | Use knowledge of language and its conventions for Grade 8 when writing, speaking, reading, or listening. |
| L.8.3.A | Use verbs in the active and passive voice to achieve particular effects (e.g., emphasizing the actor or the <br> action). |
| L.8.3.B | Form and use verbs in the indicative, imperative, and interrogative mood to achieve particular effects. |

## Grade 8-Language Standards

## Vocabulary Acquisition and Use

| L.8.4 | Determine or clarify the meaning of unknown and multiple-meaning words or phrases based on Grade 8 <br> reading and content, choosing flexibly from a range of effective strategies. |
| :--- | :--- |
| L.8.4.A | Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a <br> sentence) as a clue to the meaning of a word or phrase. |
| L.8.4.B | Use common, Greek or Latin affixes and roots as clues to the meaning of a word (e.g., precede, recede, <br> secede). |
| Teacher Note |  |
| L.8.4.B <br> A chart of prefixes and suffixes may be found at (http://www.readwritethink.org/files/resources/printouts/content-area- <br> roots.pdf). |  |
| L.8.4.C | Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both <br> print and digital, to find the pronunciation of a word or determine or clarify its precise meaning or its part <br> of speech. |
| L.8.4.D | Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred <br> meaning in context or in a dictionary). |
| L.8.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings as <br> appropriate for the grade level. |

| Teacher Note |  |
| :---: | :---: |
| L.8.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.8.5.A | Interpret figures of speech (e.g., verbal irony, puns) in context. |
| L.8.5.B | Use the relationship between particular words to better understand each of the words. |
| L.8.5.C | Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., bullheaded, willful, firm, persistent, resolute). |
| L.8.5.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the meanings. |
| L.8.6 | Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression. |
| Teacher Note |  |
| L. 8.6 <br> "Grade-a complex should a and liter the Engl grade-ap | riate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text asures: quantitative, qualitative, and reader and task for the Grades 6-8 text complexity band. The texts selected to include words for appropriate word study, and spelling development and should have content rit. The text must be rigorous enough to engage students in Grade 8 concepts across all four strands of nguage Arts standards. Text selection should be a priority consideration when developing a rigorous riate curriculum. |

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domainspecific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at
(http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

## Grades 9-10

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades 6-12

To become college and career ready, students must grapple with works of exceptional craft and thought whose range extends across genres, cultures, and centuries. Such works offer profound insights into the human condition and serve as models for students' own thinking and writing. Along with high-quality contemporary works, these texts should be chosen from among seminal U.S. documents, the classics of American literature, and the timeless dramas of Shakespeare. Through wide and deep reading of literature and literary nonfiction of steadily increasing sophistication, students gain a reservoir of literary and cultural knowledge, references, and images; the ability to evaluate intricate arguments; and the capacity to surmount the challenges posed by complex texts.

## Grades 9-10-Reading Standards for Literature

## Key Ideas and Details

RL.9-10.1 $\quad$ Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as implicitly.

## Teacher Note

## RL.9-10.1

The student skill here relating to 'implicitly' would be to infer.
RL.9-10.2 $\quad$ Examine a grade-appropriate literary text.

- Provide an objective summary.
- Determine a theme of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details.

## Teacher Note

## RL.9-10.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 9-10 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades 9-10 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text
with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking (2006) Kissner (p. 8).
An objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include personal feelings, interpretations, or prejudice.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

## Retell vs. Recount

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Theme is defined as a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).

RL.9-10.3 Analyze how complex characters develop over the course of a text, interact with other characters, and advance the plot or develop the theme.

| Grades 9-10-Reading Standards for Literature |  |
| :--- | :--- |
| Craft and Structure |  |
| RL.9-10.4 | Determine the meaning of words and phrases as they are used in the text, including figurative and <br> connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone <br> (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone). |
| $\quad$ Teacher Note |  |
| RL.9-10.4 <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. |  |
| Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| RL.9-10.5 | Analyze how an author's choices concerning how to structure a text, order events within it (e.g., parallel <br> plots, nonlinear plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, <br> tension, or surprise. |
| RL.9-10.6 | Analyze a particular point of view, perspective, or cultural experience reflected in a work of literature, <br> including works from outside the United States. |
| RL.9-10.6 <br> It is important to clarify the terms "point of view" and "perspective" for students. |  |

Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

## Grades 9-10-Reading Standards for Literature

## Integration of Knowledge and Ideas

| RL.9-10.7 | Analyze the representation of a subject or a key scene in two different artistic mediums, including what is <br> emphasized or absent in each treatment (e.g., Auden's "Musée des Beaux Arts" and Breughel's <br> Landscape with the Fall of Icarus). |
| :--- | :--- |
| RL.9-10.8 | RL.9.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.9-10.9 | Analyze how an author draws on and transforms source material in a specific work (e.g., how <br> Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by <br> Shakespeare). |
| $\quad$ Range of Reading and Level of Text Complexity |  |

A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Grades 9-10-Reading Standards for Informational

## Key Ideas and Details

| RI.9-10.1 | Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as <br> implicitly. |
| :--- | :--- |
| Teacher Note |  |
| RI.9-10.1 <br> The student skill here relating to 'implicitly' would be to infer. |  |
| RI.9-10.2 | Examine a grade-appropriate informational text. <br> - Provide an objective summary of the text. <br> - <br> Determine a central idea of a text and analyze its development over the course of the text, <br> including how it emerges and is shaped and refined by specific details. |
| $\quad$ Teacher Note |  |
| RI.9-10.2 <br> "Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text <br> complexity measurest quantitative, qualitative, and reader and task for the Grades 9-10 text complexity band. The texts <br> should also be selected to include words for appropriate word study and spelling development and should have content <br> and literary merit. The text must be rigorous enough to engage students in Grades 9-10 concepts across all four strands <br> of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous <br> grade-appropriate curriculum. |  |
| Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased |  |
| Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text <br> with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better |  |

## Reading, Writing, and Test Taking(2006) Kissner (p. 8).

An objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include personal feelings, interpretations, or prejudice.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize": (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Analyze how the author structures an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.

## Grades 9-10-Reading Standards for Informational

## Craft and Structure

| RI.9-10.4 | Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, <br> and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone <br> (e.g., how the language of a court opinion differs from that of a newspaper). |
| :--- | :--- |

## Teacher Note

## RI.9-10.4

Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.).

| RI.9-10.5 | Analyze in detail how an author's ideas or claims are developed and refined by particular sentences, <br> paragraphs, or larger portions of a text (e.g., a section or chapter). |
| :--- | :--- |
| RI.9-10.6 | Determine an author's point of view, perspective, and/or purpose in a text and analyze how an author <br> uses rhetoric to advance that point of view, perspective, or purpose. |

## Teacher Note

## RI.9-10.6

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

## Grades 9-10-Reading Standards for Informational

## Integration of Knowledge and Ideas

## RI.9-10.7 Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print

 and multimedia), determining which details are emphasized in each account.
## Teacher Note

## RI.9-10.7

Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video.

| RI.9-10.8 | Analyze and evaluate the argument and specific claims in a text, assessing whether the reasoning is <br> valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning. |
| :--- | :--- |
| RI.9-10.9 | Analyze documents of historical and literary significance, including U.S. documents when appropriate, <br> noting how they address related themes and concepts. |
| Range of Reading and Level of Text Complexity |  |
| RI.9-10.10 | By the end of Grade 9, read and comprehend literary nonfiction in the Grades 9-10 text complexity band <br> proficiently, with scaffolding as needed at the high end of the range. By the end of Grade 10, read and <br> comprehend literary nonfiction at the high end of the Grades 9-10 text complexity band independently <br> and proficiently. |

## Teacher Note

RI.9-10.10
A detailed explanation of the three dimensions of text complexity may be found at the following link: http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf

A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades 6-12

For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt. To be college- and career- ready writers, students must take task, purpose, and audience into careful consideration, choosing words, information, structures, and formats deliberately. They need to know how to combine elements of different kinds of writing--for example, to use narrative strategies within argument and explanation within narrative--to produce complex and nuanced writing. They need to be able to use technology strategically when creating, refining, and collaborating on writing. They have to become adept at gathering information, evaluating sources, and citing material accurately, reporting findings from their research and analysis of sources in a clear and cogent manner. They must have the flexibility, concentration, and fluency to produce high-quality first-draft text under a tight deadline as well as the capacity to revisit and make improvements to a piece of writing over multiple drafts when circumstances encourage or require it.

| Grades 9-10-Writing Standards |  |
| :--- | :--- |
|  | Text Types and Purposes |
| W.9-10.1 | Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning <br> and relevant and sufficient evidence. |
| W.9-10.1.A | Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an <br> organization that establishes clear relationships among claim(s), counterclaims, reasons, and <br> evidence. |
| W.9-10.1.B | Develop claim(s) and counterclaims fairly, supplying relevant evidence and commentary for each <br> while pointing out the strengths and limitations of both in a manner that anticipates the audience's <br> knowledge level and concerns. |
| W.9-10.1.C | Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify <br> the relationships between claim(s) and reasons, reasons and evidence, and claim(s) and <br> counterclaims; include commentary for support. |
| W.9-10.1.D | Establish and maintain an appropriate format, formal style, and objective tone within the norms and <br> conventions of the discipline. |
|  | $\quad$ Teacher Note |
| W.9-10.1.D <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| W.9-10.1.E | Provide an appropriate concluding statement or section that supports the argument presented. |
| W.9-10.2 | Write informative/explanatory texts to examine and convey complex ideas, concepts, and information <br> clearly and accurately through the effective selection, organization, and analysis of content. |

| W.9-10.2.A | Introduce a topic; organize complex ideas, concepts, and information to make important connections <br> and distinctions; ; includde appropriate text features (e.g., captions, headings), graphics (e.g., figures, <br> tables), and/or multimedia. |
| :--- | :--- |
| $\quad$ Teacher Note |  |
| W.9-10.2.A <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination <br> of this content can be used to enhance your website or social media platform. The five main categories are text, <br> graphics, animation (including interactive elements), audio, video. |  |
| Text features should be presented in a systematic way within an aligned curriculum. |  |
| W.9-10.2.B | Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete <br> details, quotations, commentary, or other information and examples appropriate to the audience's <br> knowledge of the topic. |
| W.9-10.2.C | Use appropriate and varied transitions to link the major sections of the text, create cohesion, and <br> clarify the relationships among complex ideas and concepts. |
| W.9-10.2.D | Use precise language and domain-specific vocabulary to manage the complexity of the topic. |
| Teacher Note |  |
| W.9-10.2. <br> Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a <br> desired conclusion. |  |
| These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General <br> academic vocabulary refers to words words that can be used across the disciplines (e.g., surface, determine). Domain- <br> specific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade <br> route, explorer, density, time signature). Information about these vocabulary types may be found at |  |

## (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

W.9-10.2.E $\quad$ Establish and maintain an appropriate format, formal style, and objective tone within the norms and conventions of the discipline.

## Teacher Note

## W.9-10.2.E

Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.).

| W.9-10.2.F | Provide an appropriate concluding statement or section that supports the information or explanation <br> presented (e.g., articulating implications or the significance of the topic). |
| :--- | :--- |
| W.9-10.3 | Write narratives to develop real and/or imagined experiences or events using effective technique, <br> well-chosen details, and well-structured event sequences. |
| W.9-10.3.A | Engage and orient the reader by setting out a problem, situation, or observation, establishing one or <br> more points of view/perspectives, and introducing a narrator and/or characters; create a smooth <br> progression of experiences or events. |

## Teacher Note

## W.9-10.3.A

In this standard, the teacher will address both point of view and perspective.
It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns

## (http://literary-devices.com/content/point-view)

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective).
In an English class, the teacher should use the term point of view when referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| W.9-10.3.B | Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to <br> develop experiences, events, and/or characters. |
| :--- | :--- |
| W.9-10.3.C | Use a variety of techniques to sequence events so that they build on one another, creating <br> coherence. |

## Teacher Note

## W.9-10.3.C

This explanation is not intended to be exhaustive but rather to provide clarification for this standard. A sequence of events can be organized in a variety of ways such as order of impression, order of importance, spatially, or temporally. Transitional words such as first, next, last, adjacent to, beyond, below, between should be used to connect the ideas as appropriate for the organizational strategy.

Temporal means of or relating to time (e.g., first, last, before, after, next, then, prior to, afterward, as soon as). See related standard

Spatial means of or relating to space (e.g., beside, nearby, adjacent to, left, right, above, below, between)

| W.9-10.3.D | Use precise words, phrases, and details, as well as sensory language, to convey a vivid picture of the <br> experiences, events, setting, and/or characters. |
| :--- | :--- |

## Teacher Note

```
W.9-10.3.D
```

Precise language is specific and non-vague language that spells out relationships between ideas, leading readers to a desired conclusion.
W.9-10.3.E $\quad$ Provide a purposeful ending that reflects on what is experienced, observed, or resolved over the course of the narrative.

| Grades 9-10-Writing Standards |  |
| :---: | :---: |
| Production and Distribution of Writing |  |
| W.9-10.4 | Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. |
| Teacher Note |  |
| W.9-10.4 <br> Grade-specific expectations for writing types are defined in standards W.9-10.1, W.9-10.2, and W.9-10.3. |  |
| W.9-10.5 | Develop and strengthen writing as needed by planning, revising, editing, rewriting, and/or trying a new approach, addressing what is most significant for a specific purpose and audience. |
| Teacher Note |  |
| W.9-10.5 <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grades 9-10. |  |
| W.9-10.6 | Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically. |
| Teacher Note |  |
| W.9-10.6 Updating | ng products includes providing a new document that has been revised or edited from a previous draft. |

## Grades 9-10-Writing Standards

## Research to Build and Present Knowledge

| W.9-10.7 | Conduct short as well as more sustained research projects to answer a question (including a self- <br> generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize <br> multiple sources on the subject, demonstrating understanding of the subject under investigation. |
| :--- | :--- |
| W.9-10.8 | Gather relevant information from multiple credible print and digital sources, using advanced searches <br> effectively. <br> $\bullet$ <br> $\bullet$ <br> $\bullet$ <br> • Issess the usefulness of each source in answering the research question. |
| W.9-10.9 | Draw evidence from literary and/or informational texts to support analysis, reflection, research, and <br> synthesis. |
| W.9-10.9.A | Apply Grades 9-10 Reading standards to literature (e.g., "Analyze how an author draws on and <br> transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid <br> or the Bible or how a later author draws on a play by Shakespeare]."). |
| W.9-10.9.B | Apply Grades 9-10 Reading standards to informational texts (e.g., "Delineate and evaluate the argument <br> and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and <br> sufficient; identify false statements and fallacious reasoning."). |

## Grades 9-10-Writing Standards

## Range of Writing

W.9-10.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades 6-12

To become college and career ready, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner--built around important content in various domains. They must be able to contribute appropriately to these conversations, to make comparisons and contrasts, and to analyze and synthesize a multitude of ideas in accordance with the standards of evidence appropriate to a particular discipline. Whatever their intended major or profession, high school graduates will depend heavily on their ability to listen attentively to others so that they are able to build on others' meritorious ideas while expressing their own clearly and persuasively.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. The Internet has accelerated the speed at which connections between speaking, listening, reading, and writing can be made, requiring that students be ready to use these modalities nearly simultaneously. Technology itself is changing quickly, creating a new urgency for students to be adaptable in response to change.

| Grades 9-10-Speaking and Listening Standards |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Comprehension and Collaboration |  |  |  |  |  |  |
| SL.9-10.1 | linitiate and participate effectively in a range of collaborative conversations (one-on-one, in groups, and <br> teacher-led) with diverse partners on Grades 9-10 topics, texts, and issues, building on others' ideas and <br> expressing their own clearly and persuasively. |  |  |  |  |  |
| Teacher Note |  |  |  |  |  |  |
| SL.9-10.1 <br> Collaborative discussion (conversations) should be collegial. Collegial discussion (conversation) is defined by Jim Burke <br> as follows: Collegial discussion refers to discussing ideas, some of them contentious, with mutual respect for your <br> colleagues even if you do not agree. <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |  |  |  |  |  |
| SL.9-10.1.A | Come to discussions prepared, having read and researched material under study; explicitly draw on that <br> preparation by referring to evidence from texts and other research on the topic or issue to stimulate a <br> thoughtful, well-reasoned exchange of ideas. |  |  |  |  |  |
| SL.9-10.1.B | Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, <br> taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual <br> roles as needed. |  |  |  |  |  |
| Teacher Note |  |  |  |  |  |  |
| SL.9-10.1.B <br> Collegial discussion is defined by Jim Burke as follows: Collegial discussion refers to discussing ideas, some of them <br> contentious, with mutual respect for your colleagues even if you do not agree. |  |  |  |  |  |  |

| SL.9-10.1.C | Propel conversations by posing and responding to questions that relate the current discussion to broader <br> themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge <br> ideas and conclusions. |
| :--- | :--- |
| SL.9-10.1.D | Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, <br> when warranted, qualify or justify their own views and understanding and make new connections in light <br> of the evidence and reasoning presented. |
| Teacher Note |  |
| SL.9-10.1.D <br> It is important to clarify the terms "point of view" and "perspective" for students. |  |
| Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in <br> manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader <br> access into the greater reaches of the story. | (http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift--from-1st-grade-to-2nd-grade/ |  |
| Retell vs. Recount |  |

"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Summary is "a shortened version of an original text, stating the main ideas and important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

| SL.9-10.2 | Integrate multiple sources of information that is gained by means other than reading (e.g., texts read <br> aloud; oral presentations of charts, graphs, or diagrams; speeches), evaluating the credibility and <br> accuracy of each source. |
| :--- | :--- |
| SL.9-10.3 | Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric, identifying any fallacious <br> reasoning or exaggerated or distorted evidence. |

## Teacher Note

## SL.9-10.3

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns (http://literary-devices.com/content/point-view).

Perspective is a particular way of viewing things that depends on one's experience and personality

## (http://dictionary.cambridge.org/us/dictionary/english/perspective)

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| Grades 9-10-Speaking and Listening Standards |  |  |  |  |  |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Presentation of Knowledge and Ideas |  |  |  |  |  |  |
| SL.9-10.4 | Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners <br> can follow the line of reasoning and the organization, development, substance, and style are appropriate <br> to purpose, audience, and task. |  |  |  |  |  |
| SL.9-10.5 | Make strategic use of digital media (e.g., textual, graphical, auditory, visual, and interactive elements) in <br> presentations to enhance understanding of findings, reasoning, and evidence and to add interest. |  |  |  |  |  |
| SL.9-10.6 | Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when <br> indicated or appropriate. |  |  |  |  |  |
| $\quad$ Teacher Note |  |  |  |  |  |  |
| SL.9-10.6 <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. |  |  |  |  |  |  |
| See L.9-10.1 and L.9-10.3 for specific expectations for Grades 9-10 students when speaking and writing. |  |  |  |  |  |  |

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades 6-12

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening;
indeed, they are inseparable from such contexts.
Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 9-10 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades 9-10 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| Grades 9-10-Language Standards |  |
| :--- | :--- |
| Conventions of Standard English |  |
| L.9-10.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or <br> speaking as appropriate for Grades 9-10. |
| Teacher Note |  |
| L.9-10.1 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in <br> both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer <br> words or words with origins in LLatin and Greek as opposed to more informal vocabulary that commonly involves shorter <br> words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a retative pronoun and ellipsis are <br> avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at <br> work. <br> Informal discourse is used with friends, children, and relatives. <br> L.9-10.1.AUse parallel structure. |  |
| L.9-10.1.B | Use various types of phrases and clauses to convey specific meanings and add variety and interest to <br> writing or presentations. |
| Teacher Note |  |
| L.9-10.1.B <br> Phrases and clauses have been taught in earlier grades; therefore, students should be held responsible for including the |  |

full range of these structures in their writing. While every paper a student writes may not include examples of every type of clause and phrase, the collective writing that students produce across the year should reflect their purposeful use of clauses and phrases for variety and effect. Various types of phrases include noun, verb, adjectival, adverbial, participial, prepositional, and absolute. Types of clauses include independent, dependent; noun, relative, and adverbial.

| L.9-10.1.C | Form and use verbs in the conditional and subjunctive mood. |
| :---: | :---: |
| L.9-10.1.D | Recognize and correct inappropriate shifts in verb voice and mood. |
| L.9-10.1.E | This standard is taught in Grade 5 and should be reinforced as needed. Use the relative adverbs where, when, and why. |
| L.9-10.1.F | Place phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers. |
| L.9-10.1.G | This standard is taught in Grade 4 and should be reinforced as needed. Form and use prepositional phrases. |
| L.9-10.1.H | This standard is taught in Grade 7 and should be reinforced as needed. <br> Produce a variety of compound complex sentences using dependent clauses, subordinating conjunctions, and coordinating conjunctions. |
| L.9-10.1.I | This standard is taught in Grade 4 and should be reinforced as needed. Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |
| L.9-10.1.J | This standard is taught in Kindergarten and should be reinforced as needed. Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| L.9-10.1.K | This standard is taught in Grade 3 and should be reinforced as needed. Form all upper- and lowercase letters to write words legibly in cursive. |
| L.9-10.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as appropriate for Grades $9-10$ when writing. |

| Teacher Note |  |
| :---: | :---: |
| L.9-10.2 <br> Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts,having universal currency while incorporating regional differences <br> (http://www.dictionary.com/browse/standard-english?s=t) <br> Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work. <br> Informal discourse is used with friends, children, and relatives. |  |
| L.9-10.2.A | This standard is taught in Grade 4 and Use correct |
| L.9-10.2.B | Use a colon appropriately to introduce a list, quotatio |
| L.9-10.2.C | Use a semicolon to link two or more closely related in when applicable. |
| L.9-10.2.D | Spell correctly. |
|  | Teacher Note |
| L.9-10.2.D <br> Systematic instruction in spelling is important because spelling impacts comprehension of text. <br> One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic |  |

## Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in

 Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

## Grades 9-10-Language Standards

## Knowledge of Language

| L.9-10.3 | Apply knowledge of language to understand how language functions in different contexts, to make <br> effective choices for meaning or style, and to comprehend more fully when reading or listening. |
| :--- | :--- |
| L.9-10.3.A | Write and edit work so that it conforms to the guidelines in a style manual appropriate for the discipline <br> and writing type. |
| L.9-10.3.B | Use verbs in the conditional and subjunctive mood to achieve particular effects. |
| Teacher Note |  |
| L.9-10.3.B <br> Information about conditional and subjunctive mood can be found at <br> https://web.cn.edu/kwheeler/grammar moods.html |  |

## Grades 9-10-Language Standards

## Vocabulary Acquisition and Use

| L.9-10.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grades <br> $9-10$ reading and content, choosing flexibly from a range of strategies. |
| :--- | :--- |
| L.9-10.4.A | Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a <br> sentence) as a clue to the meaning of a word or phrase. |
| L.9-10.4.B | Identify and correctly use patterns of word forms that indicate different meanings or parts of speech (e.g., <br> analyze, analysis, analytical; advocate, advocacy). |
| L.9-10.4.C | Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both <br> print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of <br> speech, or its etymology. |
| L.9-10.4.D | Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred <br> meaning in context or in a dictionary). |
| L.9-10.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings, <br> as appropriate for the grade level. |
| L.9-10.5 <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a <br> nuanced meaning: The girl was (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.9-10.5.A | Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text. |

## Teacher Note

## L.9-10.5.A

When aligning curriculum across the grades, figurative language and literary elements should be taken into consideration. Texts should be selected not only for their grade-appropriate complexity but also for the figurative language and literary elements that should be addressed at each grade level. The progression for instruction of figurative language and literary elements should be determined at the building or district level.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades $9-10$ text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades $9-10$ concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

| L.9-10.5.B | Analyze nuances in the meaning of words with similar denotations. |
| :--- | :--- |

## Teacher Note

## L.9-10.5.B

Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile).

| L.9-10.5.C | This standard is taught in Grade 6 and should be reinforced as needed. <br> Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., <br> bullheaded, willful, firm, persistent, resolute). |
| :--- | :---: |
| L.9-10.5.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, <br> scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting <br> out the meanings. |

| L.9-10.6 | Acquire and use accurately general academic and domain-specific words and phrases, sufficient for <br> reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge <br> when considering a word or phrase important to comprehension or expression. |
| :--- | :--- |
| Teacher Note |  |
| L.9-10.6 <br> These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General <br> academic vocabulary refers to words that can be used across the disciplines (e.g., surface, determine). Domain-specific <br> words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, <br> explorer, density, time signature). |  |

## Grades 11-12

# Arkansas <br> English Language Arts Standards 

2016

## Introduction

The Arkansas English Language Arts Standards for Grades K-12 have been developed to prepare students for success after high school. Students who are successful in college or careers have attained particular literacy capacities: They demonstrate independence; they build strong content knowledge; they respond to the varying demands of audience, task, purpose, and discipline; they comprehend as well as critique; they value evidence; they use technology and digital media strategically and capably; and they come to understand other perspectives and cultures. These broad literacy capacities are developed across the disciplines, not just in English language arts; therefore, a separate document, The Arkansas Disciplinary Literacy Standards, has been created for other content areas to address their unique literacy needs. The English classroom focuses on reading and analyzing literature and literary nonfiction, studying the English language, and writing.

The document includes the Arkansas College and Career Ready Anchor Standards for each strand of the standards: reading, writing, speaking and listening, and language. These anchor standards describe the knowledge and skills that are needed in the discipline of English language arts by high school graduates to acquire the literacy capacities. The gradelevel standards, which are aligned to the anchor standards, represent the progression of learning for each grade level from Kindergarten to Grade 12.

The anchor standards are placed before the grade-level standards for each strand to describe the bigger picture learning goals. The grade-level standards documents include teacher notes that provide explanations, definitions, and links to resources to support teachers as they implement the standards. Although the documents are organized by strandsreading, reading foundational, writing, speaking and listening, and language-the standards should be integrated during instruction. For example, students should be writing and studying language while they are reading. Students should be speaking and listening periodically as they are engaged in reading and writing. Texts can be used as examples to support developing writers. These examples describe only a few of many ways that the strands can be embedded naturally and effectively during instruction that is aligned to the standards.

The document focuses on literacy skills rather than literary content. Teachers have the opportunity to select gradeappropriate literary and literary nonfiction texts to teach the standards. Therefore, text selection is critical to successful
implementation of these standards. The texts must provide opportunities to teach all the strands at grade-level rigor. Three measures of text complexity should guide text selection: quantitative, qualitative, and reader and task. Teacher notes in the grade-level documents provide support for effective text selection.

Students acquire knowledge and skills at different rates; therefore, teachers are encouraged to become familiar with the standards above and below the grade level they teach. The standards below grade level will guide decisions for remediating students who do not have all the grade-level skills in place, and the standards above grade level will guide decisions for extending students who are ready to move ahead. In addition, familiarity with the K-12 standards will support developing an aligned curriculum that will create a smooth learning progression for knowledge and skills in English language arts from Kindergarten through high school graduation.

As students advance through the grades and master the standards in reading, writing, speaking, listening, and language, they continue to develop literacy capacities and increase their opportunities for success in the future.

## Arkansas Anchor Standards for Reading

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

## Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on Range and Content of Student Reading Grades 6-12

To become college and career ready, students must grapple with works of exceptional craft and thought whose range extends across genres, cultures, and centuries. Such works offer profound insights into the human condition and serve as models for students' own thinking and writing. Along with high-quality contemporary works, these texts should be chosen from among seminal U.S. documents, the classics of American literature, and the timeless dramas of Shakespeare. Through wide and deep reading of literature and literary nonfiction of steadily increasing sophistication, students gain a reservoir of literary and cultural knowledge, references, and images; the ability to evaluate intricate arguments; and the capacity to surmount the challenges posed by complex texts.

## Grades 11-12-Reading Standards for Literature

## Key Ideas and Details

RL.11-12.1 $\quad$ Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.

## RL.11-12.2 Examine a grade-appropriate literary text.

- Provide an objective summary.
- Determine two or more themes or central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to produce a complex account.

## Teacher Note

## RL.11-12.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 11-12 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades 11-12 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased
Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

An objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include
personal feelings, interpretations, or prejudice.
The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. The recount has closure, perhaps evaluative or summative in nature, or as in following the admonishment of the standards, may address the message, lesson, or moral of the text. http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/

Theme is defined as a main idea or an underlying meaning of a literary work that may be stated directly or indirectly (http://literarydevices.net/theme/).
RL.11-12.3 Analyze how characterization, plot, setting, and other elements interact and contribute to the development and complexity of a text.

## Grades 11-12-Reading Standards for Literature

## Craft and Structure

| RL.11-12.4 | Determine the meaning of words and phrases as they are used in the text, including figurative and <br> connotative meanings; analyze the impact of specific word choices on meaning and tone, including <br> words with multiple meanings or language that is particularly fresh, engaging, or beautiful. |
| :--- | :--- |
| RL.11-12.5 | Analyze how an author's choices concerning how to structure specific parts of a text (e.g., the choice of <br> where to begin or end a story, the choice to provide a comedic or tragic resolution) contribute to its <br> overall structure and meaning as well as its aesthetic impact. |
| RL.11-12.6 | Analyze a case in which grasping perspective and/or purpose requires distinguishing what is directly <br> stated in a text from what is really meant (e.g., satire, sarcasm, irony, or understatement). |

## Teacher Note

## RL.11-12.6

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality (http://dictionary.cambridge.org/us/dictionary/english/perspective)

In an English class, the teacher should use the term point of view when referring specifically to 1 st person, 3rd person,
omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

## Grades 11-12-Reading Standards for Literature

## Integration of Knowledge and Ideas

| RL.11-12.7 | Analyze multiple interpretations of a story, drama, or poem (e.g., recorded or live production of a play or <br> recorded novel or poetry), evaluating how each version interprets the source text. |
| :--- | :--- |
| RL.11-12.8 | RL.11-12.8 is not applicable to literature based on anchor standard CCRA.R.8. <br> Analyze and evaluate the argument and specific claims in a text, including the validity <br> of the reasoning as well as the relevance and sufficiency of the evidence. |
| RL.11-12.9 | Analyze how two or more influential literary works from the same time period address similar themes or <br> topics. |

## Range of Reading and Level of Text Complexity

RL.11-12.10
By the end of Grade 11, read and comprehend literature, including stories, dramas, and poems, in the Grades 11-12 text complexity band proficiently, with scaffolding as needed at the high end of the range. By the end of Grade 12, read and comprehend literature, including stories, dramas, and poems, at the high end of the Grades 11-12 text complexity band independently and proficiently.

## Teacher Note

## RL. 11-12.10

Over the course of Grades 9-12, students study American literature, British literature including Shakespeare, and world literature.

A detailed explanation of the three dimensions of text complexity may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf
A chart with text complexity quantitative measures by grade band may be found at the following link:
http://www.corestandards.org/wp-content/uploads/Appendix-A-New-Research-on-Text-Complexity.pdf\#page=4

## Grades 11-12-Reading Standards for Informational

## Key Ideas and Details

RI.11-12.1 $\quad$ Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.

## RI.11-12.2

Examine a grade-appropriate informational text.

- Provide an objective summary of the text.
- Determine two or more central ideas of a text and analyze their development over the course of the text, including how they interact and build on one another to provide a complex analysis.

## Teacher Note

## RI.11-12.2

"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 11-12 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades 11-12 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

Objective means not influenced by personal feelings, interpretations, or prejudice; based on facts; unbiased
Summary is "a shortened version of an original text, stating the main ideas and [only the ] important details of the text with the same text structure and order of the original" Summarizing, Paraphrasing, and Retelling Skills for Better Reading, Writing, and Test Taking(2006) Kissner (p. 8).

An objective summary is a shortened version of an original text, stating the main ideas and only the important details of the text with the same text structure and order of the original that is unbiased and based on facts and does not include personal feelings, interpretations, or prejudice.

The following link provides a discussion of the differences among the terms "retell," "recount," and "summarize":
(http://partnerinedu.com/2013/01/29/retell-or-recount-the-common-core-shift-from-1st-grade-to-2nd-grade/
Retell vs. Recount
"Retell implies an oral recapitulation of the narrative elements, probably best put in order but not necessarily; as we speak, we may correct our thoughts and provide for that correction in our speaking. On the other hand, recount may be written or oral and requires a clearly sequenced ordering of narrative events. Retelling is less formal and probably told from the point of view of the story's original narrator and in the tense the story was told; recounting, more formal in stance, sets the context for the recount from the beginning and is told in either first person or third person depending on the nature of the recount, but always told in past tense. | $\quad$ Integration of Knowledge and Ideas |  |
| RI.11-12.7 | Integrate and evaluate multiple sources of information presented in diverse media or formats in order to <br> address a question or solve a problem. |
| RI.11-12.8 | Delineate and evaluate the reasoning, premises, purposes, and arguments in texts such as works of <br> public advocacy or foundational documents. |
| RI.11-12.9 | Analyze documents of historical and literary significance, including U.S. documents when appropriate, for <br> their themes, purposes, and rhetorical features. |
| $\quad$ Range of Reading and Level of Text Complexity |  |
| RI.11-12.10 | By the end of Grade 11, read and comprehend literary nonfiction in the Grades 11-12 text complexity <br> band proficiently, with scaffolding as needed at the high end of the range. By the end of Grade 12, read <br> and comprehend literary nonfiction at the high end of the Grades 11-12 text complexity band <br> independently and proficiently. |

## Arkansas Anchor Standards for Writing

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and well-structured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## Note on Range and Content of Student Writing Grades 6-12

For students, writing is a key means of asserting and defending claims, showing what they know about a subject, and conveying what they have experienced, imagined, thought, and felt. To be college- and career- ready writers, students must take task, purpose, and audience into careful consideration, choosing words, information, structures, and formats deliberately. They need to know how to combine elements of different kinds of writing--for example, to use narrative strategies within argument and explanation within narrative--to produce complex and nuanced writing. They need to be able to use technology strategically when creating, refining, and collaborating on writing. They have to become adept at gathering information, evaluating sources, and citing material accurately, reporting findings from their research and analysis of sources in a clear and cogent manner. They must have the flexibility, concentration, and fluency to produce high-quality first-draft text under a tight deadline as well as the capacity to revisit and make improvements to a piece of writing over multiple drafts when circumstances encourage or require it.

| Grades 11-12-Writing Standards |  |
| :--- | :--- |
| Text Types and Purposes |  |
| W.11-12.1 | Write arguments to support claims when analyzing substantive topics or texts, using valid reasoning <br> and relevant, sufficient evidence. |
| W.11-12.1.A | Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the <br> claim(s) from alternate or opposing claims, and create an organization that logically sequences <br> claim(s), counterclaims, reasons, and evidence. |
| W.11-12.1.B | Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant evidence and <br> insightful commentary for each while pointing out the strengths and limitations of both in a manner <br> that anticipates the audience's knowledge level, concerns, values, and possible biases. |
| W.11-12.1.C | Use words, phrases, and clauses as well as varied syntax to create cohesion and convey logical <br> relationships among claims, evidence, and commentary. |

| W.11-12.1.E | Provide a concluding statement or section that extends from and supports the argument presented (e.g., articulating implications or the significance of the argument). |
| :---: | :---: |
| W.11-12.2 | Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content. |
| W.11-12.2.A | Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; when useful, include headings, graphics, and multimedia to aid in comprehension. |
| Teacher Note |  |
| W.11-12.2.A <br> Multimedia fall into one of five main categories and use varied techniques for digital formatting. One or any combination of this content can be used to enhance your website or social media platform. The five main categories are text, graphics, animation (including interactive elements), audio, video. |  |
| W.11-12.2.B | Develop the topic thoroughly by supplying the most significant and relevant evidence (e.g., facts, extended definitions, concrete details, quotations, or other information and examples) and by providing insightful commentary appropriate to the audience's knowledge of the topic. |
| W.11-12.2.C | Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. |
| W.11-12.2.D | Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic. |
| Teacher Note |  |
| W.11-12.2.D Precise langu specific and no | spells out relationship between ideas, leading readers to a desired conclusion. Precise language is vague. |

These standards refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General academic vocabulary refers to words that can be used across the disciplines (e.g., surface, determine). Domain-specific words are terms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, explorer, density, time signature). Information about these vocabulary types may be found at (http://www.corestandards.org/assets/Appendix A.pdf\#page=33)

| W.11-12.2.E | Establish and maintain a formal style, objective tone, and appropriate format within norms and <br> conventions of the discipline. |
| :--- | :--- |
| Teacher Note |  |
| W.11-12.2.E <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |  |
| W.11-12.2.F | Provide a concluding statement or section that extends from and supports the information or <br> explanation presented (e.g., articulating implications or the significance of the topic). |
| W.11-12.3 | Write narratives to develop real and/or imagined experiences or events using effective technique, <br> well-chosen details, and well-structured event sequences. |
| W.11-12.3.A | Engage and orient the reader by setting out a problem, situation, or observation and its significance, <br> establishing one or more points of view/perspectives, and introducing a narrator and/or characters; <br> create a smooth progression of experiences or events. |
| Teacher Note |  |
| W.11-12.3.A <br> In this standard, the teacher will address both point of view and perspective. |  |
| It is important to clarify the terms "point of view" and "perspective" for students. |  |
| Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in |  |
| manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader |  |

| access into the greater reaches of the story. Two of the most common point of view techniques are the first person, <br> wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not <br> figure in the events of the story and tells the story by referring to all characters and places in the third person with third <br> person pronouns and proper nouns <br> (http://literary-devices.com/content/point-view) <br> Perspective is a particular way of viewing things that depends on one's experience and personality <br> (http://dictionary.cambridge.org/us/dictionary/english/perspective) <br> In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, <br> omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that <br> depends on one's experience and personality. Furthermore, students need to know that it is common practice for <br> disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English <br> teachers would define as perspective. |
| :--- |
| W.11-12.3.BUse narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to <br> develop experiences, events, and/or characters. |
| W.11-12.3.C |
| Use a variety of techniques to sequence events so that they build on one another to create a <br> coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, <br> growth, or resolution). |
| W.11-12.3.C <br> Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.). |
| W.11-12.3.D |
| Use precise words, phrases, and details, as well as sensory language, to convey a vivid picture of the <br> experiences, events, setting, and/or characters. |

## Teacher Note

```
W.11-12.3.D
```

Precise language spells out relationship between ideas, leading readers to a desired conclusion. Precise language is specific and non-vague.
W.11-12.3.E $\quad$ Provide a purposeful ending that follows from and/or reflects on what is experienced, observed, or resolved over the course of the narrative when required by the task.

| Grades 11-12-Writing Standards |  |
| :--- | :--- |
| Production and Distribution of Writing |  |
| W.11-12.4 | Produce clear and coherent writing in which the development, organization, and style are appropriate to <br> task, purpose, and audience. |
| Teacher Note |  |
| W.11-12.4 <br> Grade-specific expectations for writing types are defined in standards W.11-12.1, W.11-12.2, and W.11-12.3. |  |
| W.11-12.5 | Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new <br> approach, focusing on addressing what is most significant for a specific purpose and audience. |
| Teacher Note |  |
| W.11-12.5 <br> Editing for conventions should demonstrate command of Language standards 1-3 up to and including Grades 11-12. |  |
| W.11-12.6 | Use technology, including the Internet, to produce, publish, and update individual or shared writing <br> products in response to ongoing feedback, including new arguments or information. |

## Grades 11-12-Writing Standards

## Research to Build and Present Knowledge

| W.11-12.7 | Conduct short as well as more sustained research projects to answer a question (including a self- <br> generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize <br> multiple sources on the subject, demonstrating understanding of the subject under investigation. |
| :--- | :--- |
| W.11-12.8 | Gather relevant information from multiple credible print and digital sources, using advanced searches <br> effectively. <br> e Assess the strengths and limitations of each source in terms of the task, purpose, and audience. <br> Integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and <br> overreliance on any one source. <br> • Follow a standard format for citation. |
| W.11-12.8 |  |
| Authoritative sources are a type of credible source. |  |
| W.11-12.9 | Draw evidence from literary or informational texts to support analysis, reflection, research, and/or <br> synthesis. |
| W.11-12.9.A | Apply Grades 11-12 Reading standards to literature. |
| W.11-12.9.B | Apply Grades 11-12 Reading standards to informational texts. |

| Grades 11-12-Writing Standards |  |
| :---: | :--- |
| Range of Writing |  |
| W.11-12.10 | Write routinely over extended time frames (time for research, reflection, and revision) and shorter time <br> frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences. |

## Arkansas Anchor Standards for Speaking and Listening

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media such as visual, quantitative, and oral.
3. Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric.

## Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence with organization, development, and style appropriate to task, purpose, and audience so that listeners can follow the line of reasoning.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

## Note on Range and Content of Student Speaking and Listening Grades 6-12

To become college and career ready, students must have ample opportunities to take part in a variety of rich, structured conversations--as part of a whole class, in small groups, and with a partner--built around important content in various domains. They must be able to contribute appropriately to these conversations, to make comparisons and contrasts, and to analyze and synthesize a multitude of ideas in accordance with the standards of evidence appropriate to a particular discipline. Whatever their intended major or profession, high school graduates will depend heavily on their ability to listen attentively to others so that they are able to build on others' meritorious ideas while expressing their own clearly and persuasively.

New technologies have broadened and expanded the role that speaking and listening play in acquiring and sharing knowledge and have tightened their link to other forms of communication. The Internet has accelerated the speed at which connections between speaking, listening, reading, and writing can be made, requiring that students be ready to use these modalities nearly simultaneously. Technology itself is changing quickly, creating a new urgency for students to be adaptable in response to change.

## Grades 11-12-Speaking and Listening Standards

## Comprehension and Collaboration

SL.11-12.1 Initiate and participate effectively in a range of collaborative conversations (one-on-one, in groups, and teacher-led) with diverse partners on Grades 11-12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

## Teacher Note

## SL.11-12.1

Collegial discussion (conversation) is defined by Jim Burke as follows: Collegial discussion (conversation) refers to discussing ideas, some of them contentious, with mutual respect for your colleagues even if you do not agree.

Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., Think Pair Share, Reciprocal Teaching, and teacher-led class discussion).

| Grades 11-12-Speaking and Listening Standards |  |
| :--- | :--- |
| Comprehension and Collaboration |  |
| SL.11-12.1 | Initiate and participate effectively in a range of collaborative conversations (one-on-one, in groups, and <br> teacher-led) with diverse partners on Grades 11-12 topics, texts, and issues, building on others' ideas <br> and expressing their own clearly and persuasively. |
| Teacher Note |  |
| SL.11-12.1 <br> Collegial discussion (conversation) is defined by Jim Burke as follows: Collegial discussion (conversation) refers to <br> discussing ideas, some of them contentious, with mutual respect for your colleagues even if you do not agree. <br> Collaborative conversations take place when students talk jointly with others especially in an intellectual endeavor (e.g., <br> Think Pair Share, Reciprocal Teaching, and teacher-led class discussion). |  |
| SL.11-12.1.A | Come to discussions prepared, having read and researched material under study; explicitly draw on that <br> preparation by referring to evidence from texts and other research on the topic or issue to stimulate a <br> thoughtful, well-reasoned exchange of ideas. |
| SL.11-12.1.B | Work with peers to promote civil, democratic discussions and decision making, set clear goals and <br> deadlines, and establish individual roles as needed. |
| SL.11-12.1.C | Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure <br> a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and <br> conclusions; and promote divergent and creative perspectives. |
| SL.11-12.1.C <br> It is important to clarify the terms "point of view" and "perspective" for students. |  |

Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

SL.11-12.1.D Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

## Teacher Note

## SL.11-12.1.D

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns

## (http://literary-devices.com/content/point-view)

Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1 st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

| SL.11-12.2 | Integrate multiple sources of information that is gained by means other than reading (e.g., texts read <br> aloud; oral presentations of charts, graphs, or diagrams; speeches) in order to make informed decisions <br> and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies <br> among the data. |
| :--- | :--- |
| SL.11-12.3 | Evaluate a speaker's perspective, reasoning, and use of evidence and rhetoric, assessing the stance, <br> premises, links among ideas, word choice, points of emphasis, and tone used. |
| Teacher Note |  |

## SL.11-12.3

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality

## (http://dictionary.cambridge.org/us/dictionary/english/perspective)

In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

Tone is the author's attitude towards the subject, characters or situation (e.g., amused, sad, angry, etc.).

## Grades 11-12-Speaking and Listening Standards

## Presentation of Knowledge and Ideas

SL.11-12.4 $\quad$ Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

## Teacher Note

## SL.11-12.4

It is important to clarify the terms "point of view" and "perspective" for students.
Point of view is the position of the narrator in relation to the story (e.g., first person, third person) and is instrumental in manipulating the reader's understanding of the narrative. In a way, the point of view can allow or withhold the reader access into the greater reaches of the story. Two of the most common point of view techniques are the first person, wherein the story is told by the narrator from his or her standpoint and the third person wherein the narrator does not figure in the events of the story and tells the story by referring to all characters and places in the third person with third person pronouns and proper nouns
(http://literary-devices.com/content/point-view)
Perspective is a particular way of viewing things that depends on one's experience and personality
(http://dictionary.cambridge.org/us/dictionary/english/perspective)
In an English class, the teacher should use the term point of view when referring specifically to 1st person, 3rd person, omniscient, limited, etc., and perspective should be used when referring to a particular way of viewing things that depends on one's experience and personality. Furthermore, students need to know that it is common practice for disciplines other than English to use the terms "point of view" and "perspective" interchangeably to mean what English teachers would define as perspective.

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer
words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

| SL.11-12.5 | Make strategic use of digital media (e.g., textual, graphical, auditory, visual, and <br> interactive elements) in presentations to enhance understanding of findings, <br> reasoning, and evidence and to add interest. |
| :--- | :--- |
| SL.11-12.6 | Adapt speech to a variety of contexts and tasks, demonstrating a command of standard and/or formal <br> English when indicated or appropriate. |

## Teacher Note

## SL.11-12.6

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.

## Arkansas Anchor Standards for Language

The standards on the following pages define what students should understand and be able to do by the end of the grade or grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements--the former providing broad standards, the latter providing additional specificity--that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

## Production and Distribution of Writing

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

## Note on Range and Content of Student Language Use Grades 6-12

To build a foundation for college and career readiness in language, students must gain control over many conventions of standard English grammar, usage, and mechanics as well as learn other ways to use language to convey meaning effectively. They must also be able to determine or clarify the meaning of grade-appropriate words encountered through listening, reading, and media use; come to appreciate that words have nonliteral meanings, shadings of meaning, and relationships to other words; and expand their vocabulary in the course of studying content. The inclusion of language standards in their own strand should not be taken as an indication that skills related to conventions, effective language use, and vocabulary are unimportant to reading, writing, speaking, and listening;
indeed, they are inseparable from such contexts.
Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences
(http://www.dictionary.com/browse/standard-english?s=t)
Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
"Grade-appropriate" is tied to text complexity. A wide selection of words will be found in texts that align to the three text complexity measures: quantitative, qualitative, and reader and task for the Grades 11-12 text complexity band. The texts should also be selected to include words for appropriate word study, and spelling development and should have content and literary merit. The text must be rigorous enough to engage students in Grades 11-12 concepts across all four strands of the English Language Arts standards. Text selection should be a priority consideration when developing a rigorous grade-appropriate curriculum.

## Grades 11-12-Language Standards

## Conventions of Standard English

## L.11-12.1 Demonstrate command of the conventions of standard English grammar and usage when writing or

 speaking as appropriate for Grades 11-12.
## Teacher Note

## L.11-12.1

Standard English is the English language in its most widely accepted form, as written and spoken by educated people in both formal and informal contexts, having universal currency while incorporating regional differences (http://www.dictionary.com/browse/standard-english?s=t)

Formal English is the result of particular choices of grammar and vocabulary whereby the speaker or writer uses longer words or words with origins in Latin and Greek as opposed to more informal vocabulary that commonly involves shorter words, or words with origins in Anglo-Saxon. Contractions, relative clauses without a relative pronoun and ellipsis are avoided. Formal English is used when writing essays for school, cover letters to apply for jobs, or emails and letters at work.

Informal discourse is used with friends, children, and relatives.
L.11-12.1.A $A p p l y$ the understanding that usage is a matter of convention, can change over time, and is sometimes contested.
L.11-12.1.B Resolve issues of complex or contested usage, consulting references (e.g., Merriam-Webster's Dictionary of English Usage, Garner's Modern American Usage) as needed.
L.11-12.1.C Form and use correctly the full range of verb tenses and moods.

| Teacher Notes |  |
| :---: | :---: |
| L.11-12.1.C Information about conditional and subjunctive mood can be found at (https://web.cn.edu/kwheeler/grammar moods.html). |  |
| L.11-12.1.D | Use appropriate shifts in verb voice and mood, and ensure subject-verb and pronoun-antecedent agreement. |
| L.11-12.1.E | This standard is taught in Grade 5 and should be reinforced as needed. Use the relative adverbs where, when, and why. |
| L.11-12.1.F | Place phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers. |
|  | Teacher Notes |
| L.11-12.1.F <br> Phrases and clauses have been taught in earlier grades; therefore, students should be held responsible for including the full range of these structures in their writing. While every paper a student writes may not include examples of every type of clause and phrase, the collective writing that students produce across the year should reflect their purposeful use of clauses and phrases for variety and effect. Various types of phrases include noun, verb, adjectival, adverbial, participial, prepositional, and absolute. Types of clauses include independent, dependent; noun, relative, and adverbial. |  |
| L.11-12.1.G | This standard is taught in Grade 4 and should be reinforced as needed. Form and use prepositional phrases. |
| L.11-12.1.H | This standard is taught in Grade 7 and should be reinforced as needed. Produce a variety of compound complex sentences using dependent clauses, subordinating conjunctions, and coordinating conjunctions. |
| L.11-12.1.I | This standard is taught in Grade 4 and should be reinforced as needed. Use modal auxiliaries (e.g., can, may, must) to convey various conditions. |

| L.11-12.1.J | This standard is taught in Kindergarten and should be reinforced as needed. <br> Understand and use question words (interrogatives) e.g., who, what, when, where, why, how). |
| :--- | ---: |
| L.11-12.1.K | This standard is taught in Grade 3 and should be reinforced as needed. <br> Form all upper- and lowercase letters to write words legibly in cursive. |
| L.11-12.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling as <br> appropriate for Grades 11-12 when writing. |
| Teacher Note |  |

## Teacher Note

## L.11-12.2.D

Systematic instruction in spelling is important because spelling impacts comprehension of text.
One source that provides research supporting the need for systematic spelling instruction, beyond simply assigning and assessing spelling words, may be found in Chapter 8, page 120 of "Vocabulary--Spelling Connection: Orthographic Development and Morphological Knowledge at the Intermediate Grades and Beyond by Shane Templeton in Vocabulary Instruction: Research to Practice edited by James F. Baumann and Edward J. Kame'enui. The two quotes that follow are from this text:
"Morphemes, or meaning elements in words, tend to be spelled consistently (Chomsky, 1970); Cummings, 1988; Venezky, 1999), and there is a growing body of research that suggests that systematic attention to this aspect of spelling--how the system visually cues word meaning and the semantic relationships among words--also supports students' vocabulary growth and understanding (e.g., Leong, 2000; Smith, 1998).
"Words that are related in meaning are often related in spelling as well, despite changes in sound" (1991, p. 194).
Table 8.1 "Spelling and Vocabulary: General Scope and Sequence, Intermediate Grades and Beyond" on page 124 of the Baumann and Kame'enui text provides general guidance for developing aligned system of spelling instruction.

In addition, Kathy Ganske's text, Word Journeys: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction, provides the Developmental Spelling Assessment along with explanation and vocabulary activities to move students through the learning continuum for spelling.

These suggested resources are offered to support districts but are not mandated.

| Grades 11-12-Language Standards |  |
| :--- | :--- |
| Knowledge of Language |  |
| L.11-12.3 | Apply knowledge of language to understand how language functions in different contexts, to make <br> effective choices for meaning or style, and to comprehend more fully when reading or listening. |
| L.11-12.3.A | Vary syntax for effect, consulting references (e.g., Tufte's Artful Sentences) for guidance as needed. |
| L.11-12.3.B | Apply an understanding of syntax to the study of complex texts when reading. |

## Grades 11-12-Language Standards

## Vocabulary Acquisition and Use

| L.11-12.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grades <br> $11-12$ reading and content, choosing flexibly from a range of strategies. |
| :--- | :--- |
| L.11-12.4.A | Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a <br> sentence) as a clue to the meaning of a word or phrase. |
| L.11-12.4.B | Identify and correctly use patterns of word forms that indicate different meanings or parts of speech (e.g., <br> conceive, conception, conceivable). |
| L.11-12.4.C | Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both <br> print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of <br> speech, its etymology, or its standard usage. |
| L.11-12.4.D | Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred <br> meaning in context or in a dictionary). |
| L.11-12.5 | Demonstrate understanding of figurative language, word relationships, and nuances in word meanings, <br> as appropriate for the grade level. |

## Teacher Note

## L.11-12.5

When aligning curriculum across the grades, figurative language and literary elements should be taken into consideration. Texts should be selected not only for their grade-appropriate complexity but also for the figurative language and literary elements that should be addressed at each grade level. The progression for instruction of figurative language and literary elements should be determined at the building or district level.

Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile).

| L.11-12.5.A | Interpret figures of speech (e.g., hyperbole, paradox) in context and analyze their role in the text. |
| :---: | :---: |
| L.11-12.5.B | Analyze nuances in the meaning of words with similar denotations. |
| Teacher Note |  |
| L.11-12.5.B <br> Nuance is a subtle difference or distinction in expression, meaning, response, etc. A single word choice can convey a nuanced meaning: The girl was $\qquad$ (e.g., petite, little, slight, skinny, emaciated, thin, bony, lean, lanky, fragile). |  |
| L.11-12.5.C | This standard is taught in Grade 8 and should be reinforced as needed. Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., bullheaded, willful, firm, persistent, resolute). |
| L. 11-12.5.D | This standard is taught in Grade 1 and should be reinforced as needed. <br> Distinguish shades of meaning among verbs differing in manner (e.g., look, peek, glance, stare, glare, scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the meanings. |
| L.11-12.6 | Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression. |
| Teacher Note |  |
| L. 11-12.6 <br> These standa academic voc words are ter explorer, den | ds refer to two types of vocabulary words. The terminology is based in Isabel Beck's work. General abulary refers to words that can be used across the disciplines (e.g., surface, determine). Domain-specific ms that are used within a particular discipline (e.g., personification, circulatory system, DNA, trade route, ity, time signature). |

## Introduction

The Arkansas Disciplinary Literacy Standards for Grades 6-12 describe the requisite knowledge and skills for reading and writing in history/social studies, science, and technical subjects. Although the standards are divided into Reading and Writing strands for conceptual clarity, the processes of communication are closely connected and should be integrated during instruction. The reading standards are further divided into Reading in History/Social Studies and Reading in Science and Technical Subjects.

The goal of these standards is to prepare students for success as they enter the workforce or higher education institutions. To be ready for college, workforce training, and life in a technological society, students need the ability to gather, comprehend, evaluate, synthesize, and report on information and ideas, to conduct original research in order to answer questions or solve problems, and to analyze and create a high volume and extensive range of print and non-print texts in media forms old and new.

The Arkansas Disciplinary Literacy Standards for Grades 6-12 are built from the same anchor standards as the Arkansas English Language Arts Standards, which supports alignment of the standards across the disciplines. While these standards support literacy (reading and writing), they do not take the place of content standards but rather support content acquisition and demonstration of learning. As each discipline teaches reading and writing as appropriate for its domain, literacy is a shared responsibility across all content areas. Disciplinary literacy should not be confused with the study of English Language Arts, which focuses on the study of the English Language, literature, and writing.

The Arkansas Disciplinary Literacy Standards allow flexibility for each discipline to define the types of texts and forms of writing that are unique and appropriate for the domains. For example, argumentative writing might take on the form of writing an explanation for an investigation in science, or writing an account of history that synthesizes and corroborates information from a variety of primary and secondary sources. The same type of differentiation is also true for reading. Texts in science might include articles from scientific journals, lab reports, white papers on scientific topics, diagrams, and data displays. Texts in history might include diaries, newspaper articles, maps, eyewitness accounts, and photographs.

## Arkansas Disciplinary Literacy Standards

## Arkansas College and Career Readiness Anchor Standards for Reading 6-12

The grades 6-12 standards on the following pages define what students should understand and be able to do by the end of each grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate

## Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

## Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings; analyze how specific word choices shape meaning and/or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view, perspective, and/or purpose shape the content and style of a text.

## Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats.
8. Analyze and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches of the author(s).

Range of Reading and Level of Text Complexity
10. Read and comprehend complex literary and informational texts independently and proficiently.

## Note on range and content of student reading

Reading is critical to building knowledge in history/social studies as well as in science and technical subjects. College and career ready reading in these fields requires an appreciation of the norms and conventions of each discipline, such as the kinds of evidence used in history and science; an understanding of domain-specific words and phrases; an attention to precise details; and the capacity to evaluate intricate arguments, synthesize complex information, and follow detailed descriptions of events and concepts. In history/social studies, for example, students need to be able to analyze, evaluate, and differentiate primary and secondary sources. When reading scientific and technical texts, students need to be able to gain knowledge from challenging texts that often make extensive use of elaborate diagrams and data to convey information and illustrate concepts. Students must be able to read complex informational texts in these fields with independence and confidence because the vast majority of reading in college and workforce training programs will be sophisticated nonfiction. It is important to note that these Reading standards are meant to complement the specific content demands of the disciplines, not replace them.

## Reading Standards for Literacy in History/Social Studies 6-12

| Grades 6-8 | Grades 9-10 | Grades 11-12 |
| :--- | :--- | :--- |
| Key Ideas and Details | RH.9-10.1 <br> Cite specific textual evidence to support <br> analysis of primary and secondary <br> sources, attending to such features as the <br> date and origin of the information. | RH.11-12.1 <br> Cite specific textual evidence to support <br> analysis of primary and secondary <br> sources, connecting insights gained from <br> specific details to an understanding of the <br> text as a whole. |
| RH.6-8.1 <br> Cite specific textual evidence to support <br> analysis of primary and secondary <br> sources. | RH.9-10.2 <br> Determine the central ideas or information <br> of a primary or secondary source; provide <br> an accurate summary of how key events <br> or ideas develop over the course of the <br> text. | RH.11-12.2 <br> Determine the central ideas or <br> information of a primary or secondary <br> source; provide an accurate summary <br> that makes clear the relationships among <br> the key details and ideas. |
| RH.6-8.2 <br> Determine the central ideas or information <br> of a primary or secondary source; provide <br> an accurate summary of the source <br> distinct from prior knowledge or opinions. |  |  |
| RH.6-8.3 <br> Identify key steps in a text's description of <br> a process related to history/social studies <br> (e.g., how a bill becomes law, how <br> interest rates are raised or lowered). | RH.9-10.3 <br> Analyze in detail a series of events <br> described in a text; determine whether <br> earlier events caused later ones or simply <br> preceded them. | RH.11-12.3 <br> Evaluate various explanations for actions <br> or events and determine which <br> explanation best accords with textual <br> evidence, acknowledging where the text <br> leaves matters uncertain. |

## Reading Standards for Literacy in History/Social Studies 6-12

| Grades 6-8 | Grades 9-10 | Grades 11-12 |
| :--- | :--- | :--- |
| Craft and Structure | RH.9-10.4 <br> Determine the meaning of words and <br> phrases as they are used in a text, <br> including vocabulary describing political, <br> social, or economic aspects of <br> history/social studies. | RH.11-12.4 <br> Determine the meaning of words and <br> phrases as they are used in a text, <br> including analyzing how an author uses <br> and refines the meaning of a key term <br> over the course of a text (e.g., how <br> Madison defines faction in Federalist No. <br> $10)$. |
| RH.6-8.4 <br> Determine the meaning of words and <br> phrases as they are used in a text, <br> including vocabulary specific to domains <br> related to history/social studies. | RH.9-10.5 <br> Analyze how a text uses structure to <br> emphasize key points or advance an <br> explanation or analysis. | RH.11-12.5 <br> Analyze in detail how a complex primary <br> source is structured, including how key <br> sentences, paragraphs, and larger <br> portions of the text contribute to the <br> whole. |
| RH.6-8.5 <br> Describe how a text presents information <br> (e.g., sequentially, comparatively, <br> causally). | RH.9-10.6 <br> Compare the point of view of two or more <br> authors for how they treat the same or <br> similar topics, including which details they <br> include and emphasize in their respective <br> accounts. | RH.11-12.6 <br> Evaluate authors' differing points of view <br> on the same historical event or issue by <br> assessing the authors' claims, reasoning, <br> and evidence. |
| RH.6-8.6 <br> Identify aspects of a text that reveal an <br> author's point of view or purpose (e.g., <br> loaded language, inclusion or avoidance <br> of particular facts). | and |  |

## Reading Standards for Literacy in History/Social Studies 6-12

| Grades 6-8 | Grades 9-10 | Grades 11-12 |
| :--- | :--- | :--- |
| Integration of Knowledge and Ideas | RH.9-10.7 <br> Integrate quantitative or technical analysis <br> (e.g., charts, research data) with <br> qualitative analysis in print or digital text. | RH.11-12.7 <br> Integrate and evaluate multiple sources of <br> information presented in diverse formats <br> and media (e.g., visually, quantitatively, <br> as well as in words) in order to address a <br> question or solve a problem. |
| RH.6-8.7 <br> Integrate visual information (e.g., in <br> charts, graphs, photographs, videos, or <br> maps) with other information in print and <br> digital texts. | RH.9-10.8 <br> Assess the extent to which the reasoning <br> and evidence in a text support the <br> author's claims. | RH.11-12.8 <br> Evaluate an author's premises, claims, <br> and evidence by corroborating or <br> challenging them with other information. |
| RH.6-8.8 <br> Distinguish among fact, opinion, and <br> reasoned judgment in a text. | RH.9-10.9 <br> Compare and contrast treatments of the <br> same topic in several primary and <br> secondary sources. | RH.11-12.9 <br> Integrate information from diverse <br> sources, both primary and secondary, into <br> a coherent understanding of an idea or <br> event, noting discrepancies among <br> sources. |
| RH.6-8.9 <br> Analyze the relationship between a <br> primary and secondary source on the <br> same topic. |  |  |

## Arkansas College and Career Readiness Anchor Standards for Writing

The Grades 6-8 standards for disciplinary literacy on the following pages define what students should understand and be able to do by the end of the grade span. They correspond to the Arkansas College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements-the former providing broad standards, the latter providing additional specificity-that together define the skills and understandings that all students must demonstrate.

## Text Types and Purposes

1. Write arguments to support claims when analyzing substantive topics or texts using valid reasoning and relevant, sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details and wellstructured event sequences.

## Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

## Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary and/or informational texts to support analysis, reflection, research, and synthesis.

## Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

## ARKANSAS DEPARTMENT OF EDUCATION RULES GOVERNING HOW TO MEET THE NEEDS OF CHILDREN WITH DYSLEXIA

August 2014

### 1.00 PURPOSE

1.01 These rules shall be known as the Arkansas Department of Education Rules Governing How to Meet the Needs of Children with Dyslexia.
1.02 The purpose of these rules is to establish guidelines for early screening, intervention and services to meet the educational needs of students with dyslexia.
1.03 Further clarification, guidance, and instruction regarding the applicable law and these rules is provided in the Arkansas Dyslexia Resource Guide, which can be accessed through the ADE's website.

### 2.00 AUTHORITY

2.01 These rules are enacted pursuant to the Arkansas State Board of Education's authority under Ark. Code Ann. §§ 6-11-105, Act 1294 of 2013 (codified at Ark. Code Ann. § 6-41-601 through § 6-41-610), Ark. Gode Anm. §§ 6-11-105, and 25-15-201 et seq.
2.02 NOTE: These rules set forth the procedures outlined in Act 1294 of 2013, codified at Ark. Code Ann. §§ 6-41-601 through 6-41-610 et seq., regarding screening, evaluation, and therapeutic services for students with dyslexia or characteristics of dyslexia who may or may not otherwise qualify for special education services under the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. $\S \S 1400$ et seq. Students may display additional factors that complicate their dyslexia and may require more support than what may be provided for in these rules. At any time during the administration of the procedures set forth in these rules, students may be referred for evaluation for special education services in accordance with IDEA. While these rules may use similar terms as set forth in IDEA, no provision of these rules is intended to supplant, or in any way conflict with, IDEA. If a student with dyslexia is referred for special education services, public schools shall follow the requirements of IDEA. Also, school districts must continue to follow all requirements and meet all obligations to its students under § 504 of the Rehabilitation Act, as amended, 29 U.S.C. § 794.

### 3.00 DEFINITIONS

3.01 "Dyslexia" means a specific learning disability that is:

### 3.01.1 Neurological in origin;

3.01.2 Characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit in the phonological component of language; and
3.01.3 Often unexpected in relation to other cognitive abilities.
3.02 "Dyslexia interventionist" means a school district or public school employee trained in a dyslexia program, such as a:
3.02.1 Dyslexia therapist;
3.02.2 Dyslexia specialist;
3.02.3 Reading interventionist;
3.02.4 Certified teacher; or

### 3.02.5 Tutor or paraprofessional working under the supervision of a

 certified teacher.3.03 "Dyslexia program" means explicit, direct instruction that is:
3.03.1 Systematic, sequential, and cumulative and follows a logical plan of presenting the alphabetic principle that targets the specific needs of the student without presuming prior skills or knowledge of the student;
3.03.2 Systematic, multisensory, and research-based;
3.03.3 Offered in a small group setting to teach students the components of reading instruction, including without limitation:
3.03.3.1 Phonemic awareness to enable a student to detect, segment, blend, and manipulate sounds in spoken language;
3.03.3.2 Graphophonemic knowledge for teaching the lettersound plan of English;
3.03.3.3 The structure of the English language that includes morphology, semantics, syntax, and pragmatics;
3.03.3.4 Linguistic instruction directed toward proficiency and fluency with the patterns of language so that words and sentences are carriers of meaning; and
3.03.3.5 Strategies that students use for decoding, encoding, word recognition, fluency, and comprehension.
3.03.4 Delivered with fidelity. "Fidelity" means the intervention is done as the author of the program intended.
3.04 "Dyslexia specialist" means:
3.04.1 A professional at each education service cooperative or school district who has expertise and is working towards an endorsement or certification in providing training for:
3.04.1.1 Phonological and phonemic awareness;
3.04.1.2 Sound and symbol relationships;
3.04.1.3 Alphabet knowledge;
3.04.1.4 Decoding skills;
3.04.1.5 Rapid naming skills; and
3.04.1.6 Encoding skills.
3.04.2 A dyslexia specialist shall be fluent in the Response to Intervention (RTI) process and provide training in administering screenings, analyzing and interpreting screening data, and determining appropriate interventions that are systematic, multisensory, and evidence-based.
3.05 "Dyslexia therapist" means a professional who has completed training and obtained certification in dyslexia therapy from a dyslexia therapy training program approved defined by the Arkansas Department of Education.
3.036 The terms "dDyslexia therapy" and "therapeutic services" means an appropriate specialized dyslexia reading instructional program specifically designed for use in a dyslexia program that is\%
3.03.1 Ddelivered by a dyslexia therapist; interventionist.

### 3.03.2 Explicit, direct instruction;

3.03.3 Systematic, multi-sensory, and research based;
3.03.4 Offered in a small group setting to teach students the components of reading instruction including without limitation:
3.03.4.1 Phonemic awareness to enable a student to detect, segment, blend, and manipulate sounds in spoken language;
3.03.4.2 Graphophonemic knowledge for teaching the lettersound plan of English;
3.03.4.3 The structure of the English language that includes morphology, semantics, syntax, and pragmatics;
3.03.4.4 Linguistic instruction directed toward proficiency and flueney with the patterns of language so that words and sentences are carriers of meaning; and
3.03.4.5 Strategies that students use for decoding, encoding, word recognition, fluency, and comprehension.
3.047 "Response to Intervention (RTI)" is the practice of:
3.04그 Screening all students to identify those needing extra support;
3.04․ 2 Providing high-quality instruction and appropriate interventions matched to student needs;
3.047.3 Closely monitoring progress to assess both the learning rate and the level of performance of individual students; and
3.047.4 Basing instructional decisions about the intensity and duration of interventions on individual student response to intervention.

### 3.08 "Program approved or defined by the Department" means any program a school district determines meets all required components set forth in Section 3.03.

### 4.00 REQUIRED SCREENING

4.01 A school district shall screen:
4.01.1 e-Each student each year in kindergarten, grade one, and grade two (K-2);
4.01.2 z A student in kindergarten, grade one, or grade two (K-2) who transfers to a new school and has not been screened during the same school year;
4.01.3 a $\underline{A}$ student in grade three (3) or higher who has difficulty, as noted by a classroom teacher, in any skills listed in 4.02 of these rules;
4.01. $\quad \mathrm{a} \underline{A}$ student from another state who enrolls for the first time in Arkansas in kindergarten through grade two (K-2) unless the student presents documentation that the student:
4.01.4.1 $\mathrm{h} \underline{\operatorname{Had}}$ the screening or a similar screening in the current school year; or
4.01.4.2 $\dot{\text { íI }}$ s exempt from screening as set forth in Section $4.04 \underline{5}$ of these Rules.
4.02 The screening of students shall be performed with fidelity and include without limitation:
4.02.1 Phonological and phonemic awareness;
4.02.2 Sound symbol recognition;
4.02.3 Alphabet knowledge;
4.02.4 Decoding skills;
4.02.5 Rapid naming skills; and
4.02.6 Encoding skills
4.03 Every school district shall ensure that students are screened using the Dynamic Indicators of Basic Early Literacy Skills (DIBELS) or an equivalent screener for phonological and phonemic awareness, sound symbol recognition, alphabet knowledge, and decoding skills, and by using an appropriate screener for rapid naming skills and encoding skills.

NOTE: DIBELS may indicate characteristics of a reading deficiency, which may include characteristics of dyslexia. DIBELS alone may be insufficient to determine the existence of dyslexia. Additional screening assessments will need to be administered to measure components that are not measured by

## DIBELS or the equivalent screener. Refer to the Arkansas Dyslexia Resource Guide for a list of screening instruments.

4.04 If the screener(s) used under section 4.03 shows that a student is at risk, or at some risk, then a Level I dyslexia screener shall be administered. The Level I dyslexia screening of a student shall be performed with fidelity and include the components listed under section 4.02.
4.04프 The following students shall be exempt from dyslexia screening:
4.04.1 Students with an existing diagnosis of dyslexia for whom the school district is providing interventions;
4.04.2 Students with a sensory impairment that prevents screening for dyslexia.

### 5.00 INTERVENTION AND SERVICES

5.01 If the DIBELS initial, Level I, or Level II dyslexia screening, or the screening for rapid naming and encoding skills, indicates that a student has exhibits markers for characteristics of dyslexia and needs intervention, the Response to Intervention (RTI) process shall be used to address the needs of the student.

NOTE: DIBELS may indicate markers for a reading deficiency, which may include markers for dyslexia. DIBELS alone may be insufficient to determine the existence of dyslexia. Refer to the Arkansas Dyslexia Resource Guide for a list of screening instruments.
5.02 If RTI indicates the possibility of dyslexia, the student shall be evaluated for dyslexia upon the notification and consent of the parents or legat guardians of the student.
5.032 If the dyslexia evaluation Level II dyslexia screening conducted by the school district indicates that a student is dyslexic exhibits characteristics of dyslexia, the student shall be provided therapeutic intervention services upon the notification and consent of the parents or legal guardians of the student.

NOTE: Refer to the Arkansas Dyslexia Resource Guide for a description of therapeutic services.
5.043 If it is determined the student has functional difficulties in the academic environment due to characteristics of dyslexia, the necessary
accommodations or equipment for the student shall be provided under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, and Title II of the Americans with Disabilities Act, 42 U.S.C. §§ 12131-12165, as they existed on February 1, 2013-, if qualified under the applicable federal law.
5.05 Therapeutic services may be provided by a tutor who is highly qualified and trained, as determined by the ADE and outlined in the Arkansas Dyslexia Resource Guide.
5.06 If a student's performance on the DIBELS screening, and the appropriate screening for rapid naming skills and encoding skills under Section 4.00, indicates a need for additional screening the student may receive additional testing by a trained professional using a norm referenced test.

### 6.00 INDEPENDENT, COMPREHENSIVE DYSLEXIA EVALUATION

6.01 If a student's performance on an initial screener, Level I screening, or Level II dyslexia evaluation screening under Section 4.00 of these rules indicates a need for dyslexia therapy intervention services, the student's parent or legal guardian shall be:
6.01.1 Notified of the results of the dyslexia evaluation;
6.01.2 Provided with information and resource materials including without limitation:
6.01.2.1 tThe eommon indicators characteristics of dyslexia;
6.01.2.2 aAppropriate classroom interventions and accommodations for students with dyslexia; and
6.01.2.3 $\ddagger$ The right of the parent or legal guardian to have the student receive an independent, comprehensive dyslexia evaluation by a:
6.01.2.3.1 Licensed psychological examiner;
6.01.2.3.2 School psychology specialist;
6.01.2.3.3 Licensed speech-language pathologist; өf
6.01.2.3.4 Certified dyslexia training testing specialist; or

### 6.01.2.3.5 Dyslexia therapist.

6.02 If a student's performance on a dyslexia evaluation under Section 5.02 of these rules indicates the need for dyslexia therapy services, the school district may perform a comprehensive dyslexia evaluation in addition to the required RTI under 5.02 of this Rule.
6.032 If a parent or legal guardian chooses to have an independent comprehensive dyslexia evaluation for the student, the parent or legal guardian shall:
6.02.1 Select an individual qualified under section 6.01.2.3 to perform the comprehensive dyslexia evaluation; and
6.02.2 Cover the cost of the comprehensive dyslexia evaluation.
6.03 the $\underline{A}$ school district shall consider the diagnosis from the independent comprehensive dyslexia evaluation and allow provide the student to receive direct intervention with interventions determined to be appropriate by the school district from a district dyslexia therapist interventionist. If the school district does not provide intervention based upon the diagnosis, it must notify the student's parent or guardian of its reasoning.

NOTE: Whether an individual is qualified to conduct an evaluation or provide a diagnosis is dependent upon their licensure.

### 7.00 INSTRUCTIONAL APPROACHES

7.01 Dyslexia therapy intervention for a student whose dyslexia evaluation Level I or Level II screening under Section 5.02 of these rules indicates the need for dyslexia therapy intervention services shall be provided with fidelity and may include the following instructional approaches, but shall include all services deemed appropriate by the district:
7.01.1 Explicit, direct instruction that is systematic, sequential, and cumulative and follows a logical plan of presenting the alphabetic principle that targets the specific needs of the student without presuming prior skills or knowledge of the student;
7.01.2 Individualized instruction to meet the specific needs of the student in a small group setting that uses intensive, highly concentrated instruction methods and materials that maximize student engagement;
7.01.3 Meaning-based instruction directed at purposeful reading and writing, with an emphasis on comprehension and composition; and
7.01.4 Multisensory instruction that incorporates the simultaneous use of two (2) or more sensory pathways during teacher presentations and student practice.
7.02 Until there are a sufficient number of graduates from a dyslexia therapy program established at the university level in Arkansas or from a dyslexia therapy program established at the university level in another state that is approved by the Arkansas Department of Education, the department shall allow dyslexia therapy to be provided by individuals who have received training and certification from a program approved by the $d \underline{D}$ epartment.

### 8.00 REPORTING BY SCHOOL DISTRICTS

8.01 The superintendent of a school district shall annually report the results of the school district screening required under Section 4.00 of these rules. Additional information concerning the manner of submission of the report may be found in the Arkansas Dyslexia Resource Guide.

### 9.00 DYSLEXIA SPECIALIST

9.01 No later than the 2015 fiscal year, the Department of Education shall employ at least one (1) dyslexia specialist who is a dyslexia therapist, licensed psychologist, licensed psychometrist, licensed speech language pathologist, or certified dyslexia training specialist-with a minimum of three (3) years of field experience in screening, identifying, and treating dyslexia and related disorders to provide technical assistance for dyslexia and related disorders to school districts across the state.

### 9.01.1 The dyslexia specialist shall:

9.01.1.1 Be highly trained in dyslexia and related disorders, including best-practice interventions and treatment models for dyslexia;
9.01.1.2 Be responsible for the accountability of screening results and the implementation of professional awareness required by Section 11.00 of these rules and
9.01.1.3 Serve as the primary source of information and support for school districts in addressing the needs of students with dyslexia and related disorders.
9.02 The Department of Education shall ensure at least one (1) staff member at each education service cooperative is trained as a dyslexia specialist to provide necessary information and support to school districts.
9.02.1 A dyslexia specialist shall have completed training and
received certification from a program approved by the
department. Additional information pertaining to training,
certification and program approval may be found in the
Arkansas Dyslexia Resource Guide.

### 10.0 DYSLEXIA INTERVENTIONISTS

10.01 No later than the 2015-2016 academic year, a school district shall have at least one individual to serve as a dyslexia interventionist. as defined in the Arkansas Dyslexia Resource Guide who are trained as dyslexia interventionists:
10.01. $\quad$ By the Department of Education; or
10.01.2 Using other dyslexia training programs approved by the department.

### 11.00 PROFESSIONAL AWARENESS

11.01 No later than the 2014-2015 school year, tThe Department of Education shall ensure that each teacher receives professional awareness on the following:
11.01.1 The indicators characteristics of dyslexia; and
11.01.2 The science behind teaching a student who isdyslexic evidence-based interventions and accommodations for dyslexia.
11.02 Professional awareness may be provided:
11.02.1 Online through Arkansas IDEAS;
11.02.2 At an education service cooperative; or
11.02.3 At another venue approved by the Department of Education.

### 12.00 EDUCATION IN TEACHER PREPARATION PROGRAMS

No later than the 2015-2016 school year, $\mp \underline{\text { the }}$ Department of Education shall collaborate with the Department of Higher Education to ensure that all teacher education programs offered at state-supported institutions of higher education include information on the identification of students at risk for dyslexia and related disorders provide dyslexia professional awareness of the:

### 12.01 Characteristics of dyslexia; and

12.02 Evidence-based interventions and accommodations for dyslexia.

### 13.00 DYSLEXIA RESOURCE GUIDE

13.01 The Department of Education shall maintain a committee for the purpose of developing and updateing the Dyslexia Resource Guide that is used as a guide for school districts, public schools, and teachers.
13.02 The committee shall be appointed by the Commissioner of Education and include one (1) representative who has experience working in the field of dyslexia intervention from each of the following organizations:
13.02.1 The Arkansas Association of Education Administrators;
13.02.2 The Arkansas Department of Education, Division of Learning Services;
13.02.3 The Arkansas Department of Higher Education;
13.02.4 The Arkansas Education Association;
13.02.5 The Arkansas School Boards Association;
13.02.6 An Education Service Cooperative Administrator; and
13.02.7 The Arkansas School Psychology Association.
13.02.7.1 The committee member from the Arkansas School Psychology Association must have at least three (3) years of experience in testing for dyslexia.
13.03 The committee also shall include three (3) professionals who have worked in public schools and who are knowledgeable in and have expertise in dyslexia screening and interventions.

# Stricken language would be deleted from and underlined language would be added to present law. Act 1268 of the Regular Session 

State of Arkansas
90th General Assembly

## 

Regular Session, 2015
SENATE BILL 788

By: Senator Elliott

## For An Act To Be Entitled

 AND ACT TO MODIFY THE REQUIREMENTS CONCERNING SCREENING FOR DYSLEXIA; TO CLARIFY THE REQUIREMENTS FOR SCHOOL DISTRICTS TO SCREEN STUDENTS FOR DYSLEXIA; and For other purposes.
## Subtitle

TO MODIFY THE REQUIREMENTS CONCERNING SCREENING FOR DYSLEXIA; AND TO CLARIFY THE REQUIREMENTS FOR SCHOOL DISTRICTS TO SCREEN STUDENTS FOR DYSLEXIA.

```
BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
```

SECTION 1. Arkansas Code § 6-4l-601(2), concerning findings, is amended to read as follows:
(2) Most children identified as having markers characteristics of dyslexia and related disorders can be treated successfully; and

SECTION 2. Arkansas Code §§ 6-41-602 - 6-41-604 are amended to read as follows:

6-41-602. Definitions.
As used in this subchapter:
(1) "Dyslexia" means a specific learning disability that is:
(A) Neurological in origin;
(B) Characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit in the phonological component of language; and
(C) Often unexpected in relation to other cognitive
abilities;
(2) "Dyslexia interventionist" means a school district or public
school employee trained in a dyslexia program, such as a:
(i) Dyslexia therapist;
(ii) Dyslexia specialist;
(iii) Reading interventionist;
(iv) Certified teacher; or
(v) Tutor or paraprofessional working under the
supervision of a certified teacher;
(3) "Dyslexia program" means explicit, direct instruction that is:
(A) Systematic, sequential, and cumulative and follows a logical plans of presenting the alphabetic principle that targets the specific needs of the student without presuming prior skills of knowledge of the student;
(B) Systematic, multisensory, and research-based;
(C) Offered in a small group setting to teach students the components of reading instruction, including without limitation:
(i) Phonemic awareness to enable a student to detect, segment, blend, and manipulate sounds in spoken language;
(ii) Graphophonemic knowledge for teaching the
letter-sound plan of English;
(iii) The structure of the English language that
includes morphology, semantics, syntax, and pragmatics;
(iv) Linguistic instruction directed toward proficiency and fluency with the patterns of language so that words and sentences are carriers of meaning; and
(v) Strategies that students use for decoding, encoding, word recognition, fluency, and comprehension; and (D)(i) Delivered with fidelity.
(ii) "Fidelity" means the intervention is done as
the author of the program intended.
(4)(A) "Dyslexia specialist" means a professional at each education service cooperative or school district who has expertise and is working towards an endorsement or certification in providing training for:
> (i) Phonological and phonemic awareness;
> (ii) Sound and symbol relationships;
> (iii) Alphabet knowledge;
> (iv) Decoding skills;
> (v) Rapid naming skills; and
> (vi) Encoding skills.
> (B) A dyslexia specialist shall be fluent in the Response to Intervention (RTI) process and provide training in administering screenings, analyzing and interpreting screening data, and determining appropriate interventions that are systematic, multisensory, and evidence- based;
(5) "Dyslexia therapist" means a professional who has completed training and obtained certification in dyslexia therapy from a dyslexia therapy training program approved defined by the Department of Education; and
(3)(6) "Dyslexia therapy" means an appropriate specialized dyslexia reading instructional program specifically designed for use in a dyslexia program that is -
(A) Delivered delivered by a dyslexia therapist interventionist;
(B) Systematic, multisensory, and research-based; and
(C) Offered in a small group setting to teach students the components of reading instruction, including without limitation: (i) Phonemic awareness to enable a student to detect, segment, blend, and manipulate sounds in spoken language;
(ii) Gxaphophonemic knowledge for teaching the
lettex-sound plan of English;
(iii) The structure of the English language that
includes morphology, semantics, syntax, and pragmatics;
(iv) Linguistic instruction directed toward proficiency and fluency with the patterns of language so that words and sentences are carriers of meaning; and
(v) Strategies that students use for decoding, encoding, word recognition, fluency, and comprehension.

6-41-603. Required screening and intervention.
(a)(1) A school district shall screen each student in kindergarten
through grade two ( $\mathrm{K}-2$ ) and others required by the Department of Education rule using the Dynamic Indicators of Basic Early Literacy Skills (DIBELS) or an equivalent screener.
(2) The screening of students shall be performed with fidelity and include without limitation:
(A) Phonological and phonemic awareness;
(B) Sound symbol recognition;
(C) Alphabet knowledge;
(D) Decoding skills;
(E) Rapid naming skills; and
(F) Encoding skills.
(3)(A) If the screener under subdivision (a)(1) of this section shows that a student is at risk, or at some risk then a level I dyslexia screener shall be administered.
(B) The level one dyslexia screening of a student shall be performed with fidelity and include the components listed under subdivision (a)(2) of this section.
(b) The Department of Education shall adopt rules to ensure that students will be screened using DIBELS or an equivalent screener:
(1) In kindergarten through grade two (K-2);
(2) When a student in kindergarten through grade two (K-2) transfers to a new school and has not been screened;
(3) When a student in grade three (3) or higher has difficulty, as noted by a classroom teacher, in:
(A) Phonological and phonemic awareness;
(B) Sound-symbol recognition;
(C) Alphabet knowledge;
(D) Decoding skills;
(E) Rapid naming skills; and
(F) Encoding skills; and
(4) When a student from another state enrolls for the first time in Arkansas in kindergarten through grade two (K-2) unless the student presents documentation that the student:
(A) Had the screening or a similar screening; or
(B) Is exempt from screening.
(c)(1) If the DIBELS initial, level I, or level II dyslexia screening
indicates that a student has markers for characteristics of dyslexia and needs intervention, the Response to Intervention (RTI) process shall be used to address the needs of the student.
(2) If the RTI process indicates the possibility of dyslexia, the student shall be evaluated for dyslexia.
(3)(A)(2)(A) If the dyslexia evaluation level II dyslexia screening conducted by the school district indicates that a student is dyslexic exhibits characteristics of dyslexia, the student shall be provided therapeutic intervention services.
(B) If it is determined that the student has functional difficulties in the academic environment due to characteristics of dyslexia, the necessary accommodations or equipment for the student shall be provided under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794 and Title II of the Americans with Disabilities Act, 42 U.S.C. §§ 12131-12165, as they existed on February 1, 2013, if qualified under the applicable federal 1aw.
(C) Therapeutic services may be provided by a tutox who is a highly qualified and trained interventionist.
(d) If a student's performance on the DIBELS screening under subdivision (c) (1) of this section indicates a need for additional screening, the student may receive additional testing by a trained professional using a norm-referenced test.

6-41-604. Additional Level II dyslexia evaluation screening and services = Parental notification.
(a) If a student's performance on $a$ an initial screener, level $I$ screening, or level II dyslexia evaluation screening under § 6-41-603(c)(3) 6-41-603 indicates indicate a need for dyslexia therapy intervention services, the student's parent or legal guardian shall be:
(1) Notified of the results of the dyslexia evaluation; and
(2) Provided with information and resource material, including without limitation:
(A) The common indicators characteristics of dyslexia;
(B) Appropriate classroom interventions and accommodations for students with dyslexia; and
(C) The right of the parent or legal guardian to have the

```
student receive an independent, comprehensive dyslexia evaluation by a:
                    (i) Licensed psychological examiner;
                    (ii) School psychology specialist;
                    (iii) Licensed speech-language pathologist; or
                    (iv) Certified dyslexia training testing
specialist-; or
                    (v) Dyslexia therapist.
    (b) If a student's performance on a dyslexia evaluation under § 6-41-
603(c)(3) indicates the need for dyslexia therapy intervention services, the
school district may perform a comprehensive dyslexia evaluation in addition
to the required Response to Intervention (RTI) process under & 6-41-
603(c)(2).
(c)(b)(l) If a parent or legal guardian chooses to have an independent a comprehensive dyslexia evaluation for the student, the parent or legal guardian shall:
(A) Select an individual qualified under subdivision (a)(2)(C) of this section to perform the comprehensive dyslexia evaluation; and
```

## (B) Cover the cost of the comprehensive dyslexia

``` evaluation.
(2) the \(\underline{A}\) school district shall consider the diagnosis from the independent evaluation and allow provide the student to receive direct intervention with interventions determined to be appropriate by the school district from a dyslexia therapist interventionist at the school district.
SECTION 3. Arkansas Code § 6-41-605(a)(l), concerning instructional approaches, is amended to read as follows:
(a) Dyslexia therapy intervention for a student whose dyslexia evaluation level I or level II screening under § 6-41-603(c)(3) indicates the need for dyslexia therapy intervention services shall be provided with fidelity and may include the following instructional approaches:
(l) Explicit, direct instruction that is systematic, sequential, and cumulative and follows a logical plan of presenting the alphabetic principle that targets the specific needs of the student without presuming prior skills or knowledge of the student;
```

SECTION 4. Arkansas Code § 6-41-607 is amended to read as follows: 6-41-607. Dyslexia specialist.
(a) No later than the 2015 fiscal year, the Department of Education shall employ at least one (l) dyslexia specialist who is a dyslexia therapist, licensed psychologist, licensed psychometrist, licensed speechlanguage pathologist, or certified dyslexia training specialist with a minimum of three (3) years of field experience in screening, identifying, and treating dyslexia and related disorders to provide technical assistance for dyslexia and related disorders to school districts across the state.
(b) The dyslexia specialist shall:
(1) Be highly trained in dyslexia and related disorders, including best-practice interventions and treatment models for dyslexia;
(2) Be responsible for the accountability of screening results and the implementation of professional awareness required under § 6-41-608; and
(3) Serve as the primary source of information and support for school districts addressing the needs of students with dyslexia and related disorders.
(c)(1)(c) The department shall ensure that at least one (l) staff member at each education service cooperative is trained as a dyslexia specialist to provide necessary information and support to school districts.
(2) A dyslexia specialist shall have completed training and received certification from a program approved by the department.
(d) No later than the 2015-2016 academic year, a school district shall have individuals to serve as dyslexia interventionists as defined in the Resource Guide for Specific Learning Disabilities (SLD)/Dyslexia who are trained as dyslexia interventionists:
(1) By the department; or
(2) Using other dyslexia training programs approved by the
department.

SECTION 5. Arkansas Code § 6-4l-608(a), concerning dyslexia professional awareness, is amended to read as follows:
(a) No later than the 2014-2015 school year, the Department of Education shall ensure that each teacher receives professional awareness on:
(1) The indicators characteristics of dyslexia; and
(2) The science behind teaching a student who is dyslexic evidence-based interventions and accommodations for dyslexia.

SECTION 6. Arkansas Code § 6-41-609 is amended to read as follows: 6-41-609. Dyslexia and related disorder education in teacher preparation programs.

The No later than the 2015-2016 school year, the Department of Education shall collaborate with the Department of Higher Education to ensure that all teacher education programs offered at state-supported institutions of higher education include information on the identification of students at risk for dyslexia and related disorders provide dyslexia professional awareness of the:
(1) Characteristics of dyslexia; and
(2) Evidence-based interventions and accommodations for

## dyslexia.

SECTION 7. Arkansas Code § 6-4l-610(b), concerning the dyslexia resource guide, is amended to read as follows:
(b)(l) The department shall maintain a committee for the purpose of developing and updating the Arkansas Dyslexia Resource Guide for Specific Learning Disabilities (SLD)/Dyslexia that is used as a guide for school districts, public schools, and teachers.
(2)(A) The committee shall include one (1) representative who has experience working in the field of dyslexia intervention from the following organizations appointed by the Commissioner of Education: (i) The Arkansas Association of Education

## Administrators;

(ii) The Arkansas Department of Education, Learning

## Services;

(iii) The Arkansas Department of Higher Education (iv) The Arkansas Education Association;
(v) The Arkansas School Boards Association;
(vi) The Arkansas School Psychology Association, with at least three (3) years of experience in testing for dyslexia; and (vii) An Education Service Cooperative administrator; and
(B) Three (3) professionals who have worked in a public school are knowledgeable in and have expertise in dyslexia screening and interventions.

/s/E1liott

APPROVED: 04/08/2015

## SUMMARY OF PROPOSED CHANGES TO THE ARKANSAS DEPARTMENT OF EDUCATION RULES GOVERNING HOW TO MEET THE NEEDS OF CHILDREN WITH DYSLEXIA

## Section

2.00 Removes Act 1294 of 2013 as authority for rules and replaces it with Ark. Code Ann. §§ 6-41-601 through 6-41-610, which incorporate Act 1268 of 2015.
3.00 Adds definition of "dyslexia interventionist," "dyslexia program," and "dyslexia specialist"; revises definitions of "dyslexia therapist" and "dyslexia therapy." All changes made to mirror definitions set forth in Act 1294 of 2015. Also adds definition of "program approved or defined by the Department."
4.00 Changes made to mirror language of Act 1268 of 2015. Allows school districts to use a screener equivalent to DIEBELS (Dynamic Indicators of Basic Early Literacy Skills), and adds that if the screener shows a student is at risk, additional screening shall be conducted.
5.00 Paragraph struck after section 5.01 ("NOTE") moved to section 4.00 with minor changes. Note under section 5.03 (now 5.02) struck because term "therapeutic services" no longer used in the law, having been replaced by "intervention" services. Language in 5.04 (now 5.03 ) added qualification language. The remainder of changes made to mirror language of Act 1268 of 2015.
6.00 Revisions made to mirror language of Act 1268 of 2015. Clarifies that a parent may request an independent, comprehensive dyslexia evaluation at their own cost, and actions a school district must take when presented with a diagnosis of dyslexia. Adds note clarifying that whether an individual is qualified to provide a diagnosis is dependent upon their licensure.
7.00 Minor language changes to mirror Act 1268 of 2015.
9.00 Mirroring language of Act 1268 of 2015, clarifies qualifications for a dyslexia specialist.
10.0 Minor language changes to mirror Act 1268 of 2015 (removed language defining and establishing training for dyslexia interventionist, which under Act 1268 now is defined section 3.00).
11.0 Minor language change to mirror Act 1268 of 2015, and removed dates that already have passed.
12.0 Mirroring language of Act 1268 of 2015, clarifies collaboration between Arkansas Department of Education and Arkansas Department of Higher Education related to teacher education programs.
13.0 Sets forth the membership of the Dyslexia Resource Guide committee, as set forth in Act 1268 of 2015.

## Post-Public Comment

The following non-substantive changes were made following public comment:
1.03 Language added to remind readers to refer to the Dyslexia Resource Guide for additional guidance.
2.02 Language added for clarification (e.g., to remind that Ark. Code Ann. § 6-41-601 et seq. does not relieve a school district of its obligation to meet the requirements of the IDEA or $\S 504$ of the Rehabilitation Act).
3.08 Removal of language that was intended to clarify but that caused confusion.
4.03 Language added to clarify that DIBELS or an "equivalent screener" might not alone be a sufficient measurement tool.
4.05 Language added to clarify that a student with an existing diagnosis of dyslexia is exempt from dyslexia screening only if the school district is providing interventions to that student.
6.03 Language added to ensure that if a school district decides against providing services based upon an independent comprehensive dyslexia evaluation, it must notify the student's parent or guardian of its reasoning. Also, the "NOTE" clarifies that whether an individual may conduct an evaluation (in addition to a diagnosis) is dependent upon his or her licensure.
7.01 Language added to clarify that a school district must provide all services it deems appropriate for the student.
guidance, and instruction regarding the applicable law and accompanying rules is provided in the Arkansas Dyslexia Resource Guide, which can be

| :---: | :---: | :---: | :---: |
| 1/19/16 | Mary Bryant, Ed.S, Nationally Certified School Psychologist, Arkansas Licensed Psychological Examiner, Arkansas School Psychology Specialist | Section 4.01.1: I believe that students should be screened each year in grades kindergarten, one, and two... each year. As skill levels increase and the demands on students grow each year it is essential to assess/screen if students are gaining the necessary basal skills for effective and fluent reading. The skills are very different from kindergarten compared to 2nd grade. Students who may have the skills down in kindergarten may not demonstrate that they understand or grasp the skills by $2 n d$ grade. It is important that they be screened each year in grades $\mathrm{K}-2$ to prevent reading difficulties which may lead to a retention, identification of a disability, increased dropout rate, etc. <br> Section 6.01.2.3: In terms of those professionals who are qualified and fully capable of conducting the independent comprehensive evaluation the following should be added to the list that parents can choose from. With the limited number of LPE's in the state of AR now (license of LPE no longer awarded after October 2013) it would be beneficial to parents to understand all of the professionals they may choose from. The list should include the following: School Psychology Specialist (SPS); Licensed Psychologist (LP); Licensed Psychological Examiner (LPE/LPE-I); Licensed Professional Counselor with Appraisal Specialization (LPC). Additionally, the license of Certified Dyslexia Testing Specialist is not a license recognized at this time in the state of AR. There is no governing body to define a scope of practice for this particular license. Additionally there is no governing body should a parent or school have an ethics complaint. This license should be stricken from the list until there is a licensing body that awards this credential in AR. <br> A Dyslexia Therapist should not be allowed to conduct independent "comprehensive" evaluations for dyslexia. The only professionals licensed to practice psychology (including psycho-educational evaluations) are licensed by the ADE, the AR Psychology Board and the AR Counseling Board. The Dyslexia Therapist license is not awarded by any of the three licensing bodies listed above. They should be stricken from the list of professionals appropriate for selection by parents to conduct an independent comprehensive evaluation. <br> The connotation that the independent evaluation will be "comprehensive" means that the evaluation includes a full assessment of intellectual abilities/cognition and other processing strengths and weaknesses which is a skill level relegated only to those in the list provided above; LP, LPE, | Regarding Section 4.01.1, this language closely mirrors Ark. Code Ann. § 6-41-603(a)(1), which provides that students (who do not fall within an exception) must be screened in kindergarten, grade one, and in grade 2. (emphasis added). <br> Regarding Section 6.01.2.3, this language mirrors Ark. Code Ann. § 6-41-604(a)(2)(C)(i)-(v) and includes only the individuals listed in the law. The "NOTE" following 6.03 revised to read that whether an individual is qualified to "conduct and evaluation" or provide a diagnosis is dependent upon their licensure. <br> Comments considered. Non-substantive change made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | SPS, and LPC with Appraisal. Typically a full comprehensive assessment would include individual intelligence (full battery), individual achievement (full battery), screening of communicative abilities, screening of socialemotional/behavioral issues, a thorough record review (education, development, behavior, etc.), summary, recommendations, and a determination of diagnosis. Parents should be aware of the credentials of the person they are choosing to conduct this evaluation and a disservice will be done to these children if unqualified and unlicensed individuals are conducting evaluations without extensive training in standardized test administration, interpretation, child development, literacy, and response to intervention. Multidisciplinary teams depend on reliable and valid data, which are properly interpreted, in order to make determinations regarding educational programming for children. It is the position of the Arkansas School Psychology Association that multidisciplinary teams use only assessment data provided by qualified examiners who are properly trained to both administer and interpret assessment results. This will help ensure that children and their families are provided services by professionals who are fully qualified to perform their assigned roles. This will also provide protection for school districts should an evaluation be challenged or taken to a due process hearing. |  |
| :---: | :---: | :---: | :---: |
| 1/19/16 | John Hall, Ph.D., Licensed Psychologist (AR), Licensed School Psychology Specialist (AR), Nationally Certified School Psychologist (NCSP) | Recent review of the Arkansas Dyslexia Resource Guide (2015) and Arkansas Department of Education (ADE) Rules Governing How to Meet the Needs of Children with Dyslexia (2014) has raised several serious concerns specific to the evaluation practices for dyslexia. These are addressed below. <br> First, the sections of these documents that address the independent evaluation for the condition state the evaluation must be conducted by a Licensed Psychological Examiner, School Psychology Specialist, Licensed Speech Language Pathologist, Certified Dyslexia Testing Specialist, or Dyslexia Therapist. It has long been understood that School Psychology Specialists, who are solely licensed by the Arkansas Department of Education (ADE) can only practice/deliver professional services in educational settings (i.e., preK-12 schools) associated with their employment through a school district or educational cooperative within the State of Arkansas. These practitioners are not licensed or eligible to provide any professional services independently including assessment/testing even though most would agree they are more than competent to conduct these types of evaluations. As noted on the current NASP website the scope of practice for School Psychology Specialists in Arkansas states these practitioners "are not permitted to practice in any other arena other than the schools." Currently, only a few states in the U.S. | Regarding Section 9.00, the term "psychometrist" already was removed in both the law and the proposed rules. <br> Regarding licensure comments, please see above the response to the 1/19/16 comment of Mary Bryant. <br> Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  | techniques provide, by unqualified persons in any way, <br> including teaching, sponsorship or supervision." |
| :---: | :--- | :--- | :--- |
|  | A fourth concern pertains to the designated practitioners in <br> Arkansas who may conduct dyslexia evaluations. Licensed <br> Psychological Examiners can provide assessment/testing <br> services independently and also in the schools in accord with <br> the psychology licensing law and their statement of intent. The <br> same holds true for Licensed Psychologists in terms of the <br> psychology licensing law and Licensed Professional <br> Counselors with the Assessment Specialization under the <br> counseling law however, these qualified and licensed |
| practitioners are for some reason not included in the dyslexia |  |
| guide, rules, or law. Should they not be included as qualified |  |
| practitioners to conduct these types of evaluations? |  |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | typically only offered through an advance accredited program of academic study at a university is a necessary prerequisite for this type of practice. Without this type of professional preparation the risk of negative side-effects associated with these evaluations for children/students and parents within the state may be high. Constructive changes in the ADE guide and rules are needed to correct the above concerns. |  |
| :---: | :---: | :---: | :---: |
| 1/19/16 | Karleen Sheets, Asst. Superintendent, Jonesboro Public Schools | Section 3.04.1. What "endorsement or certification" is required to be a "dyslexia specialist"? Is this a "qualified instructor"? Is the endorsement or certification from ADE? <br> Section 3.05. Is a "dyslexia therapist" as defined specifically talking about a Certified Academic Language Therapist (CALT)? Are there other certifications in dyslexia therapy to be a dyslexia therapist? <br> Section 4.01.1. Is every student in grades $\mathrm{K}-2$ required to be screened annually? If no characteristics of dyslexia are evident in the initial screening, is the student required to be screened in subsequent years? <br> Sections 4.03, 8.01 and 13.01. Due to the impact of the Dyslexia Resource Guide on the implementation of these rules, will there be an opportunity for public review and comment on the Dyslexia Resource Guide and revisions? <br> NOTE after Section 6.03. What licensure or credentials qualify an individual to provide a diagnosis of dyslexia? Which agency or organization are approved to provide the licensure or credentials to determine if an individual is qualified to provide a diagnosis of dyslexia? <br> Sections 7.01 and 7.01.1 are directly from the law; however, 7.01.2, 7.01.3 and 7.01.4 are not specified in the law. How is it determined if an instructional approach is "highly concentrated instruction methods and materials that maximize student engagement"? What is the definition of "meaning-based instruction"? How is it determined if the instructional approach is "directed at purposeful reading and writing"? It would be more clear if $7.01 .2,7.01 .3$ and 7.01 .4 were deleted and replaced with: 7.01.2 The district's dyslexia intervention program as defined in 3.03 . <br> Section 7.02. This should be deleted since it is not in Act 1268. District are not providing "dyslexia therapy"; therefore, there is no need for "dyslexia therapists". Act 1268 requires districts to have "dyslexia interventionists" who are trained in the district's dyslexia program. If 7.02 remains in the rules, will districts be required to hire dyslexia therapists? If so, when? Section 11.01. Are teachers required to receive professional awareness one time? annually? On the rotation cycle of state PD? <br> Section 11.02. If the professional awareness is offered by the school district, must this venue have prior approval by ADE? | Regarding Section 4.01.1, please see above the response to the 1/19/16 comment of Mary Bryant. <br> Regarding Section 6.03, please see above the response to the 1/19/16 comment of Mary Bryant. The "NOTE" after 6.03 is selfexplanatory: one must consult his/her individual licensure requirements or consult the appropriate licensure authority to make this determination. <br> Sections 7.01.2, 7.01.3, and 7.01.4 mirror the law. See Ark. Code Ann. § 6-41-605(a)(2)-(4). Likewise, the language in 7.02 mirrors the law. See Ark. Code Ann. § 6-41-605(b). <br> Suggestions for revisions to the Dyslexia Resource Guide may be sent to Vicki King (ADE Dyslexia Specialist) at vicki.king@arkansas.gov, or Mary Bryant (chair of committee that updates the guide) at mbryant@crmail.k12.ar.us. <br> Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

| 1/19/16 | Joan Simon, Ph.D., Licensed Psychologist, Associate Professor, UCA | 1. The following are not clearly defined: a. Level 1 dyslexia screener - seems to refer to the same screening described in 4.02, why do same screening twice? b. Level 2 dyslexia screener <br> 2. Under 3.04.1: "A professional at each education service cooperative or school district who has expertise IN TEACHING READING SKILLS (Simon comment - It seems that there are some key words missing here \& l've filled in an option. We want expertise in teaching reading, right?!) and is working towards an..." <br> 3. Under 3.05: "Dyslexia therapist"... I do not agree that it is sufficient for a dyslexia therapy training program to simply meet an ADE definition. If we are expecting these professionals to work with the children in our schools who most need of quality assistance, we need a better way to ensure that their training programs are of the highest quality. <br> 4. Under 3.04.7: "Response to Intervention (RTI)" is the practice of.... a. 3.047.2 - Replace "appropriate" with "research supported"; b. This is an excellent opportunity to help AR educators better understand the components of a quality school-based RTI system. Therefore, the components of RTI listed here are incomplete as they stand. i. Add: Universal screening and benchmarking numerous times per year; ii. Add: Ongoing professional development for teachers; iii. Add: School-based problem solving teams; iv. Add: Interventions for which the integrity is monitored regularly; v. Add: Parent involvement. <br> 5. Under 4.01.1: "Each student in kindergarten, grade one, and grade two;" This type of screening needs to happen three times per year in order to establish school-based norms and/or benchmarks against which future universal screening data can be compared. Screening should minimally occur once per year with the goal of increasing screening to $3 x$ per year. <br> 6. Under 5.00: Consider replacing "Intervention and Services" with "Dyslexia Program Implementation" because the only intervention is such a program. <br> 7. Under 5.02: Consider replacing "intervention services" with "dyslexia program" <br> 8. Under 6.00: "Independent, comprehensive dyslexia evaluation" consider replacing with "Screening and Evaluation for Dyslexia" <br> 9. Under 6.01.2.3.2: School Psychology Specialists are not licensed to practice outside of the purview of ADE. Therefore, without another license, they cannot conduct a psychoeducational assessment outside of the school setting. This may be an issue with the way the law is written, but it does currently seem to violate the psychology licensure law, ACT 129 (1955), "AN ACT TO REGULATE THE PRACTICE OF PSYCHOLOGISTS IN ARKANSAS, INCLUDING INSTRUCTIONS THEREIN; TO CREATE A BOARD TO BE | The language contained in Sections 3.04.1, 3.05, 5.02, 6.01.2.3.2, 6.01.2.3.4, and 6.01.2.3.5 closely mirrors the law. See Ark. Code Ann. §§ 6-41-602(4)(A); 6-41-602(5); 6-41603(c)(1); and 6-41-604(a)(2)(C)(ii), (iv), (v). <br> Regarding licensure comments, please see above the response to the 1/19/16 comment of Mary Bryant <br> Regarding Section 4.01.1, please see above the response to the 1/19/16 comment of Mary Bryant. <br> Regarding 13.02.7.1, the 3-year experience requirement mirrors the law. See § 6-41-610(b)(2)(A)(vi). <br> Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | KNOWN AS ARKANSAS BOARD OF EXAMINERS IN PSYCHOLOGY; AND TO FIX PENALTIES FOR VIOLATIONS OF ITS PROVISIONS." In Section 2: Definition of Practice of Psychology, it states (I have added the italics and underline for emphasis) ... A. A person practices as a Psychological Examiner within the meaning of this act when he holds himself out to be a Psychological Examiner, or renders to individuals or to the public for remuneration any service involving the application of recognized principles, methods and procedures of the science and profession of psychology, such as interviewing or administering and interpreting tests of mental abilities, aptitudes, interests and personality characteristics, for such purposes as psychological evaluation or for educational or vocational selection, guidance or placement. The Psychological Examiner practices the following only under qualified supervision; overall personality appraisal or classification, personality counseling, psychotherapy or personality readjustment techniques. <br> 10. Under 6.01.2.3.4: Certified dyslexia testing specialist is not defined elsewhere nor am I aware of any state license that would allow for such an evaluation outside of the public school setting. <br> 11. Under 6.01.2.3.5: Dyslexia therapist - not appropriate for this person to evaluate without a licensed to do so. <br> 12. Under 7.00: Instructional Approaches - why not just say "Dyslexia Program." <br> 13. Under 13.02.7.1: Why is this statement needed when no other professional in the group is defined in such a way? I suggest removing this statement. |  |
| :---: | :---: | :---: | :---: |
| 2/2/16 | Melinda Harris, Maynard School District | I think a rule should be added stating that a Dyslexia Interventionist or Therapist should not be expected to serve more students than is possible to ensure the fidelity of the program being used. I also feel that it should be a rule that the position of Dyslexia Interventionist or Therapist should be a full time position on its own. Dyslexia Interventionists and Therapists are being "added" but sometimes the job is being tacked onto an already full time position. For instance, at my school, the 4-6 Reading Teacher who has full classes for 6 periods out of a 7 period schedule each day, is being expected to also serve identified dyslexics (K-12) with interventions on top of this full-time schedule. This is not fair to either group of students. The 4-6 Reading classes or the students with dyslexia needing the interventions. It is also not fair to ask this of the teacher who isn't receiving any compensation other than her regular salary. There needs to be some way of ensuring that the needs of these students are being met. It should not be at the expense of other groups of students or teachers. | Comments considered. No changes made. |
| 2/9/16 | Tom Gattis, Superintendent, | I do believe the Dyslexia programs that were implemented in | Comment considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  | County Line School District | public schools last year are going to be beneficial for student success, however it is costing districts several thousands of dollars each year to implement these programs and we received only a modest increase in funding. |  |
| :---: | :---: | :---: | :---: |
| 2/12/16 | Maleah Bufford, SPS, LPE-1., NCSP and Amy Cunningham, SPS, LPE | Title, 1.01, 1.02, 2.02 Wording. Title, 1.01 "Children with Dyslexia," 1.02 "students with dyslexia," 2.02 "students with dyslexia" and "student with dyslexia." More appropriate wording to be consistent with other areas within this document (with the exception of under 6.00 Independent, Comprehensive Dyslexia Evaluation) would be "characteristics of dyslexia." The current wording implies diagnosis prior to comprehensive evaluation. The implication is that the screenings mentioned below will result in a diagnosis of dyslexia. It is never appropriate to make a diagnosis based on screening information. Not every student who does not perform well on the screenings has dyslexia. See also Arkansas Dyslexia Resource Guide (July 10, 2015 page 22) Level II Dyslexia Screening working "...documenting the characteristics of dyslexia." Sections 5.01, 5.02, and 5.03 of this document is worded "characteristics of dyslexia" <br> 3.02.5 Supervision. Are there any stipulations as to how the supervision is to be documented? <br> 3.04.2 Screening Defined. The dyslexia specialist will...provide training in administering screenings, analyzing and interpreting screening data...." Is this referring to initial screening, Level I, and/or Level II? Should the screening they are responsible for training others to use, etc. be clarified in conjunction with 4.03 and 4.04? As noted in the Arkansas Dyslexia Resource Guide (July 10, 2015 Appendix G) Level 2 Dyslexia Screener Test Battery list, it is noted that there are certain tests that require advanced examiner qualifications. Will the dyslexia specialist have the advanced qualifications needed for training others? For example, the Woodcock Johnson IV Tests of Achievement (WJ-IV ACH) manual indicates that "Competent interpretation of the WJ-IV ACH requires a higher degree of knowledge and experience than is required for administering and scoring the tests." "Graduate-level training in educational assessment and a background in diagnostic decision-making are recommended for individuals who interpret the WJ IV ACH." Graduate level training is further defined as at least "a practicum-type course covering administration and interpretation of standardized tests of academic achievement." (Mather, N. J., \& Wendling, B. J. (2014). Examiner's Manual. Woodcock-Johnson IV Tests of Achievement. Rolling Meadows, IL: Riverside. Other examples: <br> WRMT-III <br> -At least bachelor's level training in measurement and administration and interpretation of tests -understanding of testing statistics | Regarding Section 3.08, that language has been removed as it causes confusion (as opposed to clarity). The language in Section 3.05 mirrors the law. See Ark. Code Ann. § 6-41-602(5). <br> The ordering of the language in Section 6.00 mirrors the law. See Ark. Code Ann. § 6-41-604(a). <br> Commenter correctly recognizes that Psychologists are not included under the law. Consequently, they are not included under Section 6.01.2.3, which mirrors the law. See Ark. Code Ann. § 6-41-604(a)(2)(C)(i)-(iv). <br> Regarding licensure comments, please see above the response to the $1 / 19 / 16$ comment of Mary Bryant. <br> Comments considered. |  |  | believe this will be easily misunderstood by those in the schools. | be administered to measure components that are not measured by DIBELS or the equivalent screener. <br> Comments considered. Non-substantive changes made. |
| :---: | :---: | :---: | :---: |
| 2/2/16 (Public Comment Hearing) | Amber Jones | Concerned about words "specialist" and "therapist" in rules, and these people not being trained in Orton-Gillingham Program. Concerned that K-2 students are not being screened in a specific time frame; rules read sometime during year and it needs to be done prior to end of year, as there are students who have not yet been screened. Overall lack of knowledge by school staff about dyslexia even though purportedly had training. Overall lack of fidelity in OG programs implemented by school staff. Would like teachers to be board certified in the science of reading. Overall lack of enforcement by schools and ADE. Children are suffering needlessly because of this "watered-down" law. | The law does not vest the Arkansas Department of Education with enforcement authority. <br> Comments considered. No changes made. |
| 2/1/16 (Public Comment Hearing) | Scott Gann, Arkansas Dyslexia Support Group | Has dyslexic child who he needed to be pulled out of public school to get the proper services. This law is pretty good, but it is not being enforced. ADE tells parents it is not an enforcement agency and he does not understand when they enforce every other rule he seems to read about in the newspaper. Also concerned about Section 7.01 where fidelity was removed and uses words like "may include." These kids need help; not "may" need help. | Section 7.01 (which includes "may" and in which "fidelity" was removed) mirrors the law. See Ark. Code Ann. § 6-41-605(a). Regarding enforcement authority, please see above response to the 2/2/16 comment of Amber Jones. <br> Comments considered. No changes made. |
| 2/2/16 (Public Comment Hearing) | Dallas Green, Arkansas Dyslexia Support Group | Has nineteen-year-old son who has dyslexia. Since first grade one of largest schools in state told her they knew nothing about dyslexia. Law passed in 2013; too late for her son. College he attended that had dyslexia program did not work out; now he works two jobs. Discussed her interaction with school/teachers during her son's career. Graduated with a 2.8 GPA, but reads on a $3^{\text {rd }}$ grade level. Now in 2014 daughter, who is four, is in pre-K and something is "not right" with her. Mother asked preK teacher whether she thought her daughter was dyslexic; teacher said she doesn't know anything about dyslexia (although law has been passed). There is so much science out there on the issue. Said her group (Arkansas Dyslexia Support Group) travels to schools in Arkansas and they don't know when they'll do screen or what screen to use. Unorganized. Schools don't know what to do with students with dyslexia: no information going out; no training. Said a superintendent said can't diagnose dyslexia until there's an autopsy. We are 49 th in the country. Teachers have told her that it's her fault her kid can't read, but 70\% overall can't read on grade level. Excited about law but who is going to enforce it. Told the school is going to enforce it; do you think the schools are going to "kill" themselves? Many gaps: the school may or may not use fidelity. Who is going to enforce? Someone needs to tell psych | Department Response: Regarding enforcement authority, please see above response to 2/2/16 comment of Amber Jones. <br> Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | examiners to quit telling kids they are "retarded." That's what <br> psych examiners all around the State are telling kids. |
| :--- | :--- | :--- | :--- |
| 2/2/16 (Public <br> Comment <br> Hearing) | Sarah Jane Luckey, Retired <br> Arkansas Teacher | Still teaches children with dyslexia to read. Has worked with <br> kids who need to test in small settings; tested same kids year <br> after year, and wondered why the [special education] students <br> never were able to read the test. Dyslexia is "elephant in the <br> room." Must teach students in a way they can learn. Until <br> colleges start to teach teachers how to teach students with <br> dyslexia to read, we're still going to be 68\% below grade level. <br> ADE gives "lip service." Need to do whatever it takes to teach <br> our students with dyslexia to read. Visited one school where <br> staff member said screened students and turned in results but <br> hadn't heard a word. Another just finished a reading specialist <br> degree, but barely had word mentioned of dyslexia in her <br> training. Thirty-five dyslexia research centers associated with <br> universities that use our tax dollars; they know what to do and <br> "we" know what to do. We are not going to get there by <br> watering dyslexia law down; it must be beefed up. Leaving to <br> go to school that is dragging its feet by following the IDEA and <br> providing student with FAPE; our one in five students with <br> dyslexia are not getting FAPE. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | Appeal to ADE to follow its own rules and enforce them the best they can. |  |
| :---: | :---: | :---: | :---: |
| 2/2/16 (Public Comment Hearing) | Karen Marriott, Parent | Discussed her "story and struggles." Has a wonderful daughter who is 8 , as well as an adopted son. Also has been a foster parent. Starting in 2012, daughter started kindergarten. Doing great. Spring she was excelling and bright, but she was struggling. Started sight words and spelling words, and mother told teacher something not right; she was struggling. Asked teacher if she was dyslexic; teacher said no, she'll grow out of it. Same story in first grade. Second grade, doing DIBELS, did tutoring other children at school, tutors her own at home. Mother told teacher she saw a disconnect; teacher said intervention specialist would watch her and continue to test her. Child had problems with classes and homework, lack of focus, frustrated, caused "breakdowns." Mother paid to have daughter tested; found OTVs, sensory deficits, working memory problems, ADHD, dysgraphia, dyslexic tendencies; disconnect between oral and written skills. Met with school, they told mother they could not give child accommodations because she was too smart and would be an unfair advantage, even though she has a neurological disorder. Daughter is A-B student because of mother's tutoring. School put her into dyslexia intervention program where she is receiving Orton-Gillingham, and she is making progress. Interventionist tutors commenter so commenter (mom) can continue working with her daughter at home. Writing skills below average. Paid personally for various therapies. Rule is "skinny, itty bitty"; so much needs to be fleshed out and filled in. Accountability, fidelity, integrity. Needs to be enforced. | Comments considered. Although commenter considers proposed rules "skinny, itty bitty," further clarification, guidance, and instruction is provided in the Arkansas Dyslexia Resource Guide, which can be accessed through the ADE's website. For clarity, Section 1.03 added to rules to ensure that readers are on notice of the Dyslexia Resource Guide and where it can be found. <br> Comments considered. Non-substantive change made. |
| 2/2/16 (Public Comment Hearing) | Mary Beth Wallace, Harrisburg School District; Speech-Language Pathologist and Board Certified Teacher | Been on forefront in her district; wants to put forth the success of this law if done with fidelity. Son 7-8; good at math (95 ${ }^{\text {th }}$ percentile) but in $35^{\text {th }}$ percentile in reading. Paid for son to have tutoring he needed; son made 3 years growth in 6 months with the appropriate intervention. Has a good teacher, but she did not embrace multi-sensory education. Worked with 16-year-old in a juvenile detention center reading at a pre-primer level. Connections is better for younger kids, but recommended Barton for him (due to his age). It is not expensive; no excuse for "may be" multi-sensory. Do something (some program) with fidelity and integrity. The 16-year-old is now reading. Her son now reads with fluency after one year of intervention. Reaches out to ADE to put some structures in place because "they [school districts/teachers] are starting from scratch and building nowhere" and an accountability piece is falling through. Too much work for the one person doing it at her district. Her school is doing it with fidelity and committed to it. Not enough "feet on the ground"; not enough trained interventionists. "May" and "possibly" in | Regarding use of "may" in Section 7, please see above response to $2 / 2 / 16$ comment of Mary Beth. <br> Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | Section 7 need |  |
| :---: | :---: | :---: | :---: |
| 2/2/16 (Public Comment Hearing) | Joyce Elliot, Arkansas Senate | Every time something is stricken and replaced with other words, wants to make sure she understands why. Page 3, at top where talk about delivered with fidelity, that is reference to everything we do. Started working on this issue in 2010, law in 2011 not successful because fiscal impact showed between $\$ 4$ and $\$ 11$ million dollars; but it wouldn't be that much but for a huge lack of understanding. In drafting the current law, got everyone in room to figure out how can we do this and make sure kids learn to read within the confines of what we have now and not make excuses about we don't have the time or the resources. Everyone who is fighting the law now was in the room, and was agreeing to what was put on paper, but now there is an enforcement problem of people not doing what they are supposed to do. But main thing, whatever we agreed to do would be done with fidelity; that's why it appears so much throughout the law. In one place "fidelity" is stricken and in others it is not. Commenter is assuming that's because overall fidelity is intended. Would like clarification. See 3.03.4. Section 3.04.1, regarding person reading "a professional at each educational service coop or school district who has expertise and is working toward an endorsement or certification." Understands that's like what we do for provisional teachers or people working toward certification. Understand we don't have work force right now, but this is something we need to do with fidelity, which is make sure individuals are working toward getting the expertise and it's not just words on paper. If we don't do this with fidelity, we won't have people in four years. Parents are reporting nothing is happening, but other schools are going right ahead and doing it. Doesn't understand the disconnect between some schools saying they don't know how to follow the rules while others are getting it done. Many of the schools that are getting it done are often the smaller, more challenged schools. Have heard horrific stories from the larger schools that are not getting it done, and fidelity is a word they've never heard of. <br> Section 3.08: Ongoing problem. Definition of "programs approved or defined by the Department" means one determined by school district to meet all required components. Lovely idea, but something needs to be in rules giving someone the final say. Would hope every school district would do this but there is ample evidence that it won't. ADE needs to provide direction: does it need legislation to be an enforcer? Some school districts do only what they have to do; it is a significant problem. Wants ADE guidance; does there need to be another law? <br> Page 5: 4.02 notes has not marked out "fidelity," just noting that it is there. <br> DIBELS: Some districts where superintendents and | The term "fidelity" was stricken from the proposed rules only in those instances where it was removed from the law. See Section 7.01 ("fidelity" removed in Act 1268 of 2015, codified as Ark. Code Ann. § 6-41-605). The same is true with the term "may" in Section 7.01. <br> Regarding frequency of screening, please see above the response to the 1/19/16 comment of Mary Bryant (each student, who does not fall into an exception, must be screened in kindergarten, in the first grade, and in the second grade; beyond as well when a difficulty is noted). <br> Non-substantive change made to Section 4.05 to clarify that a student with an existing diagnosis of dyslexia is exempt only if the school district is providing interventions to the student. <br> Non-substantive change made to Section 6.03 to clarify that if a school district does not provide intervention based upon the diagnosis, it must notify the student's parent or guardian of its reasoning. <br> Non-substantive change made to "NOTE" in Section 2.02 to clarify that in addition to a school district's continuing obligations under the IDEA, it also must continue to meet its obligations under § 504 of the Rehabilitation Act, as amended. Both the IDEA and § 504 provide due process when parents/guardians disagree with a school district decision regarding the provision of services required under those laws. <br> Non-substantive change to Section 7.01 to clarify that although all interventions listed in Sections 7.01.1 through 7.01.4 need not be provided, services provided must include those the school district deems appropriate. <br> Regarding enforcement authority, please see above response to 2/2/16 comment of Amber Jones. <br> Section 8.01 refers readers to the Dyslexia Resource Guide, which instructs how to report through APSCN and what information must be entered. <br> Section 12.00 mirrors the law (see Ark. Code Ann. § 6-41-609). <br> Comments considered. Non-substantive changes made |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

| 2/2/16 (Public Comment Hearing) | Melissa Hannah, SpeechLanguage Pathologist and Certified Academic Language Therapist | Visited with school (third time) where a child is receiving dyslexia services. Thought meeting went well, but dyslexia interventionist decided student did not need Tier III intervention. Teacher doing everything she can, but feeling like a failure. Had unproductive meetings regarding child. Child had two comprehensive evaluations from two unrelated agencies confirming child had dyslexia, but school district required more testing. Today in third meeting, psychological examiner who attended third meeting thought child was receiving services recommended in the first meeting [move to Tier III], but child was not. Then notified student was receiving the right intervention, but why then were they meeting and another test being required? Not a quick fix, but have to recognize that what we're doing now is not right. Our programs-dyslexic and otherwise-are not supported with scientific data, but beliefs and opinions. Reading is not a natural process. Alphabetic writing system is not learned simply from exposure to print. Spoken and written language are different. Most important skill in early reading is the ability to read single words completely, accurately, and fluently. Context is not the primary factor in word recognition, only effective $10 \%$ of the time, yet it is the first strategy we teach. Interventions are very systematic, can't just "sprinkle in" some multi-sensory stuff. Teachers may attend an Orton-Gillingham training and "check, we meet the law." But then they aren't doing it with fidelity. Science of reading has proven three areas of brain must work together for a child to learn to read. Two of those area do not activate or underactivate for children with dyslexia, and unless they have the right multi-sensory intervention, they will not activate. The interventions we do now with RTI are a "little band-aid." When kids reach middle school, they fall all to pieces because they can't read textbooks. Such a gap in the amount of information teachers need; they do not know. Not teachers' fault, "we" failed the teacher because she doesn't have the knowledge or training she needs. Districts will only train teachers when "we" come and force the issue. Twenty percent of children are dyslexic, but we are failing $68 \%$ of students. If we would just provide the right kind of instruction, only the dyslexic kids would need intervention. When kids cannot read, their futures are limited. | Comments considered. No changes made. |
| :---: | :---: | :---: | :---: |
| 2/2/16 (Public Comment Hearing) | DeeDee Cain, Arkansas Dyslexia Support Group, UCA | Commenter is dyslexic, as are her mother, sister, and three-year-old child. We will not back down. This law will be enforced. "We" roll up into schools constantly, which schools tell parents to read to their kids. Public education system failed her daughter miserably. Her teachers were fantastic, because commenter hand-picked them all until she was in $4^{\text {th }}$ grade. Not diagnosed with dyslexia until $11^{\text {th }}$ grade. We have this law because special education was not doing what it was supposed to do. Commenter is special education teacher. Systemic | Comments considered. No changes made. |

Public Comments - ADE Rules Governing How To Meet The Needs Of Children With Dyslexia

|  |  | problem (across U.S.) is that it is a "wait to fill" program; you can never get out of a "wait to fill." Commenter never dismissed a child from SPED. Was never trained to teach these kids. Only way this will stop is at the university level. At UCA, students cannot graduate without learning the science of reading. Most other states require this. We got a "big fat zero" on the NAEP for not having a test for the science of reading. If you pay enough money and go to enough school you can call yourself anything. But if you don't know the science of reading, you cannot teach children to read. Reading recovery is not going to teach children to read. Have to know the science behind reading to teach all students, not only those with dyslexia. We are failing children. People can get a dyslexia endorsement in our universities without ever learning the science of reading. We need to quit blaming parents. We need to jump in and fix the problem. If you had cancer, would find a good doctor; you wouldn't have a janitor perform a mastectomy on you. No matter who you are or how many degrees you have, if you don't know the science of reading don't talk to me about teaching reading. Cuba's literacy rate is $97 \%$, so don't talk about the "poverty brain." The "poverty brain," like the "dyslexia brain," responds to intervention. We have to help the teachers whose hands are tied at their schools. It is so sad what has happened; we have to do better by our kids. It is embarrassing. There's a way to fix this, and we all have to be willing to admit that what we do is not right. |  |
| :---: | :---: | :---: | :---: |
| 2/2/16 (Public <br> Comment <br> Hearing) | Debbie Miller, Conway School District, Director of Instructional Services | Her school district has worked so hard over past years regarding dyslexia. We are working together. Needs teachers to have a master's degree in reading. At Rotary a man (15 years ago) was upset because students don't write well in the cursive, and that teaching reading is not "rocket science." She disagreed and said that it IS rocket science. We have children falling through the cracks, but her school district is working diligently. There are a lot of districts doing tremendous things. There is a gap in learning by teachers, administrators, speech pathologists, but they need time. Teachers have to be taught in the universities, such as foundational pieces of reading. This doesn't happen overnight. Let's work together. | Comments considered. No changes made. |

## ARKANSAS DEPARTMENT OF EDUCATION RULES GOVERNING THE CREATION OF SCHOOL DISTRICTS BY DETACHMENT June 2015

### 1.00 REGULATORY AUTHORITY

1.01 These rules shall be known as the Arkansas Department of Education Rules Governing the Creation of School Districts by Detachment.
1.02 The State Board of Education (State Board) enacted these rules pursuant to its authority as set forth in Ark. Code Ann. § 6-13-1501 et seq., and Ark. Code Ann. § 25-15-204, and Acts 372 and 947 of 2015.

### 2.00 GENERAL REQUIREMENTS

2.01 No school district shall be created with fewer than two thousand five hundred four thousand $(2,5004,000)$ students.
2.02 A new sehool district may be created by detaching territory from:
2.02.1 An existing sehool district; or
2.02.2 Two (2) or more existing contiguous school districts.
2.023 A school district created under Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules shall have all the rights, privileges, and responsibilities of other public school districts.

Source: Ark. Code Ann. § 6-13-1501 as amended by Act 372 of 2015

### 3.00 MINIMUM AREA AND ATTENDANCE REQUIREMENTS

3.01 A new school district may not be created in an area with fewer than two thousand five hundred four thousand $(2,5004,000)$ students in average daily membership.
3.02 An existing school district shall not be reduced by means of detachment to an area with fewer than two thousand five hundred four thousand $(2,5004,000)$ students in average daily membership.
3.03 A new school district to be created by detachment must only be made up of students from one (1) existing school district.
3.04 Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules shall apply only to school districts that:
3.04.1 Had an average daily membership of at least five fifteen thousand $(15,000)$ students but not more than twenty thousand $(20,000)$ students in the school year immediately preceding the detachment; or
3.04.2 Encompass a total area of seven four hundred and fifty square miles (700 $450 \mathrm{sq} . \mathrm{mi}$.) or more, now or in the future.

Source: Ark. Code Ann. § 6-13-1502 as amended by Act 372 of 2015

### 4.00 INITIATION OF DETACHMENT

Creation of a new school district by detachment shall be initiated by:
4.01 Resolution of the board of directors of each school district from which territory is to be detached; or
4.02 A petition that is presented to the State Board of Education pursuant to the provisions of Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules.

Source: Ark. Code Ann. § 6-13-1503

### 5.00 PETITION AND ELECTION

5.01 Not later than the thirtieth day after the date the State Board receives a petition or resolution for detachment under Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules, the State Board shall hold a hearing on the validity of the petition or resolution.
5.02 To be valid, a petition or resolution shall:
5.02.1 State the purpose for which the petition or resolution is being submitted;
5.02.2 Contain a plat or map of the proposed new school district;
5.02.3 Contain an independent feasibility study stating:
5.02.3.1 Cost of operation of the new school district and the ability to operate the new school district taking into consideration the tax base, debt service, and division of assets to the new school district;
5.02.3.2 A list of the public school assets to be transferred from the existing school district to the new school district;
5.02.3.3 The size of the new school district; and
5.02.3.4 The effect of detachment on court-ordered desegregation; and
5.02.4 Be signed by at least ten percent $(10 \%)$ of the number of voters in the area proposed for detachment who voted in the most recent general election.
5.03 If the State Board determines that the petition or resolution is valid and the petition or resolution does not conflict with Ark. Code Ann. § 6-13-1504(b)(2) and Section 5.03 of these rules, the State Board may, after complying with Ark. Code Ann. § 6-13-1504(b)(2) and Section 5.03 of these rules, order an election on the proposition of detachment to be held at the next annual school election or general election.
5.03.1 The State Board shall not order any creation of a new school district by detachment under Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules, or any other act or combination of any acts that hampers, delays, or in any manner negatively affects desegregation efforts of a school district or school districts in this state.
5.03.2 Prior to the entry of any order for election on the question of detachment, the State Board shall seek an advisory opinion from the Attorney General concerning the impact of the proposed detachment and creation of a new school district on the effort of the state to assist the affected school district or school districts in the desegregation of the public schools of this state.
5.03.3 The order for election on the proposition of detachment shall:
5.03.3.1 Contain a plat or map of the proposed new school district; and
5.03.3.2 Comply with all requirements and procedures set forth in Ark. Code Ann. § 6-14-101 et seq. that do not conflict with the provisions of Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules.
5.04 The State Board shall certify two (2) copies of the detachment order and convey one (1) copy to the county clerk and one (1) copy to the county election commission at least sixty (60) days prior to the date the commission sets for election on the question of detachment.
5.04.1 No later than forty-five (45) days prior to the election, the county clerk of each county affected shall identify all persons who reside within the area proposed to be detached, and the county clerk shall determine the names and addresses of all qualified electors residing within that area. The failure to identify all persons residing within the area proposed to be
detached or the failure to determine the names and addresses of all qualified electors residing within that area shall not invalidate or otherwise affect the results of the election.
5.04.1.1 All of the qualified electors residing within the territory to be detached shall be entitled to vote in the election.
5.04.1.2 The petitioners shall give notice of the election by publication of at least one (1) insertion in a newspaper having general circulation in each school district from which territory is being detached.
5.04.2 The county clerk shall prepare a list by precinct of all those qualified electors residing within the area to be detached who are qualified to vote in that precinct and furnish that list to the election officials at the time the ballot boxes and voting machines are delivered.
5.04.2.1 If the county clerk or the county election commission shall fail to perform any duties required, then any interested party may apply for a writ of mandamus to require the performance of the duties.
5.04.2.2 The failure of the county clerk or the county election commission to perform the duties shall not void the detachment election unless a court finds that the failure to perform the duties substantially prejudiced an interested party.
5.05 The ballot shall be printed to permit voting for or against the proposition in a manner similar to the following: "Creation of a new school district by detachment of property and territory that includes the following property and territory from the $\qquad$ School District: $\qquad$ ." The ballot description of the property and territory to be detached shall be sufficient to give general notice of the territory affected.

### 6.00 CREATION OF A SCHOOL DISTRICT

6.01 If all the requirements of Title 6, Chapter 13, Subchapter 15 and these rules are met and a majority of the votes are cast for the proposition, the State Board shall order the creation of the new school district.
6.02 At the time the order creating the school district is made, the State Board shall appoint a board of directors of seven (7) members for the new school district to
serve until the next regular election of members, when a board of directors shall be elected in compliance with Arkansas law.
6.02.1 Following the entry of the order creating the new school district, the new school district shall:
6.02.1.1 Be considered a school district under § 6-13-101 et seq. for all constitutional and statutory purposes, except as limited under this section;
6.02.1.2 Be considered a body corporate and may sue and be sued in the name of the new school district; and
6.02.1.3 After and the appointment of a board of directors for the new school district but prior to before the transfer of any assets, territory, property, liabilities, duties, or responsibilities, a new school district created by detachment from an existing school district that is a party to any court-ordered desegregation plan shall petition the court having jurisdiction in the desegregation matter and obtain any and all court orders or other relief necessary to ensure that the detachment will not cause the state or any affected school district to be in violation of any orders of the court or any consent orders or decrees entered into by the parties with regard to the desegregation plan.
6.02.2 Following the entry of the order creating the new school district, the new school district may:
6.02.2.1 Exercise the power of eminent domain; and
6.02.2.2 Borrow money and issue bonds for allowable purposes under Ark. Code Ann. § 6-20-1201 et seq.
6.03 Any A new school district created under Title 6, Chapter 13, Subchapter 15 of the Arkansas Code and these rules shall take be allocated the property assets of the school district from which the territory was taken, as the State Board shall deem proper, and or as agreed by the original school district and the new school district with the approval of the State Board.
6.03.1 The transfer or conveyance of the title of the assets from the original school district to the new school district shall be documented through deeds, assignments, or bills of sale as necessary to produce evidence of the transfer of ownership and the resulting rights and liabilities.
6.03.2 The new school district may be allocated transferred assets in exchange for payment or may assume liability shall be liable for that part of all the indebtedness of the original school district frem which allocable to the territory was taken within the new school district as agreed by the original school district and the new school district with the approval of the State Board or as determined, shall be assigned, or allocated to the new school district by the State Board.
6.03.3 In determining the value of the transferred assets or the amount of the indebtedness for which the new school district will become responsible, the new school district and the original school district shall either:
6.03.3.1 Agree upon an amount with the approval of the State Board; or
6.03.3.2 Allow the State Board to determine the amount if the new school district and the original school district fail to agree.
6.03.4 The allocation or assignment of indebtedness shall be structured in such a manner that does not cause the original school district to default under the documents authorizing the indebtedness, and shall not violate any tax covenants contained in the documents authorizing the indebtedness by the original school districts.
6.03.5 In determining foregoing allocations, all reasonable and fair methods of allocations shall be considered, including without limitation:
6.03.5.1 A third-party appraisal of the real property to be transferred to the new school district;
6.03.5.2 A ratio generated by comparing the number of students currently residing in the boundaries of the new school district to the total number of students in the original school district;
6.03.5.3 A ratio generated by comparing the assessed value of property within the boundaries of the new school district to the assessed value of property within the original school district;
6.03.5.4 A ratio generated by comparing the amount of the outstanding debt of the original school district that was incurred to finance property located within the boundaries of the new school district to the total outstanding debt of the original school district; and

### 6.03.5.5 Other reasonable and fair methods of allocation.

6.04 The millage ad valorem tax rate of the electors (or property) of the detached territory new school district shall remain the same as that of the original school district until an election may be is held to change the rate of taxation for the detached area in the new school district and a rate of tax is approved and shall be allocated in the same proportion between maintenance and operation and debt service as allocated by the original school district.
6.05 The new school district may use and pledge debt service millage to pay all or part of any indebtedness assigned or allocated to the new school district for payment of any other lawful indebtedness of the new school district, for maintenance and operation of the new school district, or for any other lawful purpose, until a different rate is approved by the qualified electors of the new school district.
6.06 In order to satisfy the payment obligations of a new school district with respect to the allocation of assets, or if the new school district assumes or becomes responsible for any indebtedness of the original school district, one (1) or more of the following methods may be used by the new school district to meet the new school district's obligations:
6.06.1 Borrow funds from the original school district as mutually agreed by both school districts;
6.06.2 Enter into lease purchase agreements, revolving loans, term loans, postdated warrants, or installment contracts pursuant to Ark. Code Ann. § 6-20-402;
6.06.3 Borrow funds from a private, governmental, or commercial lender;
6.06.4 Issue bonds; or
6.06.5 Use any other lawful method.
6.075 The State Board shall have the following rights and duties regarding creation of a school district by detachment:
6.075.1To form local school districts, change boundary lines of school districts, create new school districts, and perform all other functions regarding changes in school districts in accordance with the law;
6.075.2To transfer funds and attach territory that is in one (1) school district to other school districts as may seem best for the educational welfare of the children, including the loaning of funds to the new school district under
terms and conditions acceptable to the State Board; and
6.075.3To enact rules and regulations regarding the creation of school districts by detachment under Title 6, Chapter 13, Subchapter 15 of the Arkansas Code.
6.086 In its order creating the new school district under this section Title 6, Chapter 13, Subchapter 15 of the Arkansas Code, the State Board may allow a transition period of up to two (2) consecutive years to allow the new school district to become fully operational.
6.09 The new school district shall publish a projected budget of expenditures for the first anticipated operational school year at least sixty (60) days before the next annual school election for which notice can be lawfully given.
6.10 At the school election or any subsequent school election, a new school district may present to the qualified electors of the new school district a proposed ad valorem tax for the maintenance and operation of schools and the retirement of indebtedness.

Source: Ark. Code Ann. § 6-13-1505 as amended by Act 947 of 2015

### 7.00 TRANSITION PERIOD

7.01 If the new school district created by detachment was formed from an existing school district that is a party to any court-ordered desegregation plan, the State Board shall, prior to the transfer of any assets, territory, property, liabilities, duties, or responsibilities, to the new school district, allow for a time period sufficient to permit the parties to petition the court having jurisdiction in the desegregation matter to obtain any and all court orders or other relief necessary to ensure that the detachment will not cause the state or any affected school district to be in violation of any orders of the court or any consent orders or decrees entered into by the parties with regard to the desegregation plan.
7.02 If the State Board allows for a transition period as set forth in Ark. Code Ann. § 6-13-1505 and Section 6.086 of these rules, the State Board may allow a reasonable time period, not to exceed 120 days from the date the State Board issues the order creating the new school district, to allow the existing school district and the new school district created by detachment to develop and present to the State Board a written agreement concerning the following matters, without limitation:
7.02.1 A plan for the selection and employment of a superintendent or administrator for the new school district created by detachment;
7.02.2 A plan for the zoning and election of school board members in accordance with Arkansas and federal law;
7.02.3 A determination of the millage necessary to operate the new school district created by detachment;
7.02.4 A plan that specifically addresses the distribution of real and personal property, assets, liabilities (including debt), duties and responsibilities for the existing school district and the new school district created by detachment; and
7.02.5 A plan that specifically addresses the procedure by which the new school district will employ licensed and nonlicensed staff.
7.03 If the State Board allows for a transition period as set forth in Ark. Code Ann. § 6-13-1505 and Section 6.086 of these rules, and if the new school district created by detachment was formed from an existing school district that is a party to any court-ordered desegregation plan, the State Board may allow a reasonable time period, not to exceed 120 days from the date the presiding court issues all court orders or other relief necessary as set forth in Section 7.01 of these rules, to allow the existing school district and the new school district created by detachment to develop and present to the State Board a written agreement concerning matters set forth in Section 7.02 of these rules.
7.04 In the event that the existing school district and the new school district created by detachment are unable to agree upon any issue regarding the formation of a written agreement concerning detachment or upon the implementation of the final determination of the State Board concerning detachment, the school districts shall:
7.04. Jointly petition the Commissioner of Education or his or her designee to resolve the matter subject to final determination by the State Board as set forth in Section 7.05 of these rules;
7.04.2 Jointly select a mediator to mediate the matter subject to final determination by the State Board as set forth in Section 7.05 of these rules; or
7.04.3 Jointly petition the State Board to resolve the matter in accordance with Section 7.05 of these rules.
7.04.4 In the absence of an agreement regarding any of the options listed in Sections 7.04.1 through 7.04.3 of these rules, the matter will proceed directly to the State Board for resolution in accordance with Section 7.05 of these rules.
7.05 The State Board shall make the final determination concerning the distribution of real and personal property, assets, liabilities (including debt), duties and responsibilities for the existing school district and the new school district created by detachment.

### 8.00 FIRST YEAR OF DISBURSEMENT OF STATE FUNDING TO THE NEW SCHOOL DISTRICT CREATED BY DETACHMENT

Unless otherwise specified by law, rule, court order, or agreement between the parties approved by the State Board, the provisions in Section 8.00 of these rules apply only to the first year of disbursement of funding for the new school district created by detachment and the remaining original school district.

The provisions in this Section may be modified, in whole or in part, by a court order or an agreement between the parties approved by the State Board. Absent such an agreement, the following funding methodology shall be used:
8.01 To establish the prior-year three-quarter average daily membership for the new school district created by detachment:
8.01.1 Allocate the total prior-year three-quarter average daily membership of the original school district to the new school district created by detachment and the remaining original school district by calculating an enrollment ratio for each school district using current-year October 1 enrollment divided by the total current-year October 1 enrollment of the two school districts.
8.01.12 To allow for allocation and disbursement of funds pending receipt of October 1 current-year enrollment data, current-year July 1 enrollment shall be used to calculate an estimated enrollment ratio for each school district.
8.02 To the extent necessary for other purposes, a history of prior-year average daily membership shall be established for the new school district created by detachment, for the remaining original school district, and for the original school district using the current-year enrollment ratio.
8.03 The educational excellence trust fund obligation will be calculated for the new school district created by detachment and the remaining original school district, using prior-year three-quarter average daily membership from fiscal years 19911992 through 2015-2016 for the original school district multiplied by each school district's enrollment ratio.
8.04 To establish the prior-year October 1 national school lunch free and reduced lunch student counts and percentage for the new school district created by detachment and the remaining original school district:
8.04.1 Allocate the total prior-year October 1 national school lunch free and reduced lunch student counts for the original school district to the new school district created by detachment and the remaining original school district by calculating an enrollment ratio for each school district using current-year October 1 enrollment divided by the total current-year October 1 enrollment of the two school districts.
8.04.2 Both the new school district and the original school district will be excluded from the transitional national school lunch state categorical funding and will instead use the rate outlined in Ark. Code Ann. § 6-232305(b)(4)(A).
8.04.3 The new school district created by detachment and the remaining original school district will be eligible for national school lunch state categorical growth funding after sufficient history exists to complete the calculations. Eligibility for national school lunch state categorical growth funding requires a three consecutive year enrollment growth trend of $1 \%$ or more.
8.04.4 Any withholding of national school lunch state categorical funding under Act 1220 of 2011 results from analysis of expenditures and revenue from a fiscal year. The new school district created by detachment will be subject to Act 1220 of 2011 analysis once the applicable expenditures and revenue are available for analysis.
8.05 To allow for allocation and disbursement of funds pending receipt of October 1 current-year enrollment data, current-year July 1 enrollment may be used to calculate an estimated enrollment ratio for each school district.
8.06 The original school district will receive the amount of alternative learning environment (ALE) funding for which it qualifies based on eligible ALE students' full-time equivalents (FTE) in the previous school year as defined in Arkansas Department of Education (ADE) rules. To be eligible for $A L E$ alternative learning environment funding, the new school district created by detachmentshall have established an eligible $A L E$ alternative learning environment approved by $A D E$ the Department as being in compliance with Ark. Code Ann. § 6-48-101 et seq. and the ADE Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditures of Those Funds. The ALE funding, disbursed in the following year, shall be the amount authorized by
law multiplied by the new school district's eligible ALE students' full-time equivalents (FTE) in the previous school year as defined in ADE rules.
8.07 For a new school district created by detachment and the remaining original school district, declining enrollment and student growth funding will be calculated excluding any increase or decrease resulting from the detachment.
8.07.1 Declining enrollment funding equals the difference between the average of the two immediately preceding years' average daily memberships and the average daily membership for the previous school year multiplied by the amount of foundation funding set forth in Ark. Code Ann. § 6-20-2305(a). In the first and second years of disbursement of state funding to the new school district created by detachment, declining enrollment funding will be calculated based on the average daily membership of the original school district. The declining enrollment funding amount for one or both years may be prorated between the new school district and the remaining original school district using the current-year enrollment ratios for each school district (calculated in the first year state funding is disbursed to the new school district created by detachment).
8.07.2 In the first year of disbursement of state funding to the new school district, student growth funding will be calculated using the prior-year average daily membership of the original school district compared to the combined current-year average daily membership for each quarter for the new school district created by detachment and the remaining original school district. The student growth funding amount will be prorated between the new school district created by detachment and the remaining original school district using the current-year enrollment ratios for each school district.
8.08 Any adjustments for bonded debt assistance will be handled on a case-by-case basis.

## SUMMARY OF REVISIONS TO THE ARKANSAS DEPARTMENT OF EDUCATION RULES GOVERNING THE CREATION OF SCHOOL DISTRICTS BY DETACHMENT

A summary of the proposed rules are as follows:
Section 1.02 Updated to show the rules are being updated pursuant to Acts 372 and 947 of 2015.

Section 2.01

Section 2.02

Section 3.01

Section 3.02

Section 3.04.1

Section 3.04.2

Section 5.03.1

Section 6.02.1

Section 6.02.2

Section 6.03

Reduces the minimum number of students for the creation of a school district to 2,500.

Deletes language dictating where territory for a new school district may come. Remaining Section renumbered.

Reduces the minimum number of students in a newly created school district to 2,500 in average daily membership.

Reduces the minimum number of students that an existing district can be reduced by detachment to 2,500 .

Reduces the limits to which these rules apply to districts having an average daily membership of at least 5,000 students.

Reduces the limits to which these rules apply to districts with a total area of 450 square miles or more.

Clarifies the code sections to which these rules governing detachment apply.

This Section and following subsections outline the identification of the new school district following the entry of an order creating the new district.

This Section and following subsections outline the powers a new school district may exercise following the entry of an order creating the new district.

This Section and following subsections outline the allocation of assets of the original school district and newly created school district.

Section 6.03.1

Section 6.03.2

Section 6.03.3

Section 6.03.4

Section 6.03.5

Section 6.04

Section 6.05

Section 6.06

This Section outlines that transfer or conveyance of title be documented through deeds, assignments, or bills of sale as necessary to prove transfer.

This Section allows assets to be transferred in exchange for payment or assumption of liability.

This Section and its subsections provides for value determination either by agreement or the by the State Board.

This Section limits the allocation and assignment of indebtedness such that it does not cause the original school district to default or violate any tax covenants under its own indebtedness obligations.

This Section and its subsections outline the fair and reasonable methods of allocation of assets that shall be considered.

Provides for the same ad valorem tax rate for the new school district as the old school district until such time an election and rate of tax is approved.

Allows the new school district to use and pledge debt service millage to pay for all or part of any indebtedness assigned or allocated to it.

This Section and subsection outlines the abilities of the new school district to satisfy payment obligations including borrowing funds from the original school district or other entities, entering into lease purchase agreements, and issuing bonds.

Remaining Sections renumbered
Section 6.07 Includes rights of the State Board.
Section 6.07.2 Includes the loaning of funds to the new school district as a right and duty of the State Board.

Section 6.09
Requires the new school district to publish a projected budget at least 60 days before the next annual school election.

Section 6.10

Section 7.01
Section 7.02
Section 7.03
Section 8.00

Allows the new school district to present to the qualified electors a proposed ad valorem tax for the maintenance and operation of schools and the retirement of indebtedness

Technical correction - removed unnecessary comma.
Corrected internal reference citation.
Corrected internal reference citation.
Entire Section outlines a funding methodology for the first year of funding the new school district and the original school district. This Section allows for the districts to make an agreement, in part or in whole, to modify the funding methodology provided or adjustment for any law, rule, or court order that may modify the provided methodology. The funding methodology provided allows for the establishment of the prior-year three-quarter average daily membership (ADM) for use in allocation of foundation funding with a true-up period based on current year enrollment later in the year. This Section also sets the establishment of the prior-year October 1 national school lunch free and reduced student lunch count and percentage allocated to the new school district and the remaining original school district. The remaining Sections outline allocation methodology for alternative learning environments, declining enrollment and student growth, and bonded indebtedness.

## ARKANSAS DEPARTMENT OF EDUCATION <br> EMERGENCY RULES GOVERNING THE ARKANSAS QUALIFIED TEACHER REQUIREMENTS 2016

### 1.00 REGULATORY AUTHORITY; PURPOSE; APPLICABILITY

1.01 These rules shall be known as the Arkansas Department of Education Emergency Rules Governing the Arkansas Qualified Teacher Requirements.
1.02 The State Board of Education enacted these rules pursuant to its authority as set forth in Ark. Code Ann. §§ 6-11-105, 6-15-1004 6-17-309, and 25-15-201 et seq.
1.03 These rules apply when:
1.03.1 An educational entity is contracting with an individual for a teaching position in a core academic subject area for which licensure is otherwise required but the educational entity has obtained a legal waiver from licensure requirements (as defined herein); or
1.03.2 The individual teaches in special education or in an alternative learning environment.
1.04 These rules do not permit a waiver from the requirements for licensure in special education.
1.05 Upon final approval of the permanent Rules Governing Arkansas Qualified Teacher Requirements, the permanent rules will replace the ADE Rules Governing Highly Qualified Teachers and promulgated pursuant to the No Child Left Behind Act of 2001.

### 2.00 DEFINITIONS

2.01 "ARHOUSSE" means the Arkansas High Objective Uniform State Standard of Evaluation matrix attached as Appendices A-C to these rules.
2.02 "Core academic subject area" means English Language Arts, Mathematics, Science, Social Studies, Early Childhood (Elementary), Music, Art, and Foreign Language.
2.03 "Educational entity" means an entity that is identified by the Department of Education as a local education agency.
2.04 "Legal Waiver" means that the educational entity is:
2.04.1 A charter school that has obtained a waiver from the applicable requirement under a law allowing the waiver through the charter application process; or
2.04.2 A school district that has obtained a waiver from licensure under applicable law.
2.05 "Successful, relevant work experience" means employment in a specific field or occupation for at least one (1) year that required the educator to demonstrate knowledge and skills in the content area to be taught, as supported by two (2) professional letters of recommendation from the educator's employers or supervisors in the related industry or occupation.

### 3.00 ARKANSAS QUALIFIED TEACHER REQUIREMENTS

3.01 A teacher teaching in a core academic subject area at an educational entity that has received a legal waiver of licensure shall meet the requirements of an Arkansas Qualified Teacher.
3.02 Eligibility Requirements. To meet Arkansas Qualified Teacher requirements, the educator must have either:
3.02.1 Previously met highly qualified teacher status under the ADE Rules Governing Highly Qualified Teachers and promulgated pursuant to the No Child Left Behind Act of 2001; or
3.02.2 Obtained a bachelor's degree or an advanced degree and meets one (1) of the following requirements:
3.02.2.1 The bachelor's degree or advanced degree is in the content area in which the educator will teach;
3.02.2.2 The bachelor's degree or advanced degree contains a minimum of eighteen (18) college credit hours in the content area in which the educator will teach;
3.02.2.3 The educator has successfully completed a content area assessment approved by the State Board of Education for the content area in which the educator will teach;
3.02.2.4 The educator is a National Board Certified Teacher for the content area in which the educator will teach; or
3.02.2.5 The bachelor's degree or advanced degree is in any major and the educator has documented successful, relevant work experience in the teaching area;
3.03 For special education, an educator shall hold an Arkansas teaching license in special education or be teaching under an approved Additional Licensure Plan waiver for special education and either:
3.03.1 Meet one other eligibility requirement under 3.02; or
3.03.2 Demonstrate content knowledge in each of the areas he or she teaches using the ARHOUSSE matrix (see Appendices A-C).
3.04 For an alternative learning environment, an educator shall hold an Arkansas teaching license-unless waived by the charter for a public charter school, or by an approved school of innovation plan for a school of innovation, or by the State Board of Education for a traditional public school district-and either:
3.04.1 Meet one other eligibility requirement under 3.02; or
3.04.2 Demonstrate content knowledge in each of the areas he or she teaches using the ARHOUSSE matrix (see Appendices A-C).

### 3.05 Educational Entity Responsibilities

3.05.1 The educational entity shall determine that the educator meets the eligibility requirements for the content area in which the educator will teach.
3.05.2 The school district shall indicate in eSchool that the educator is an Arkansas Qualified Teacher, and shall maintain records of the educator's eligibility and content areas taught. The records shall be made available for Department of Education review.
3.06 The ARHOUSSE matrix attached as Appendices A, B, and C to these rules will be reviewed after the 2016-2017 school year, and revised as necessary to align with the state's plan filed with the United States Department of Education under the Every Student Succeeds Act.

Proposed Arkansas Department of Education Rules Governing the Arkansas Qualified Teacher Requirements

## Summary

The Rules Governing the Arkansas Qualified Teacher Requirements are new rules. The rules apply to educators teaching core content courses who are in one of the following categories: 1) employed by a charter school or a school district that has a waiver of licensure; 2) a special education teacher teaching one (1) or more core content areas; or 3) an alternative learning environment teacher teaching one (1) or more core content areas.

## Purpose:

The purpose in promulgating these emergency rules is to ensure that Arkansas has qualified teachers teaching core content courses for all students where licensure is waived, and for students in special education or alternative learning environments.

The United States Congress passed the Every Student Succeeds Act in December 2015, which removed the requirement that core content courses be taught by teachers who are licensed, degreed, and certified in content knowledge as highly qualified teachers. Because Arkansas's rules for HQT were dependent on the No Child Left Behind Act, they are now essentially moot.

It is anticipated that upon the final approval of the permanent rules, the Department will repeal the Rules Governing Highly Qualified Teachers and promulgated pursuant to the No Child Left Behind Act of 2001.

The rules will provide greater flexibility than the current HQT. Unlike the current HQT, these rules:

- Under Section 3.00 have more flexible options for qualifying as AQT, such as a bachelor's or advanced degree in the content area, a minimum of 18 hours in the content area within a bachelor's or advanced degree; National Board certification in the content area; or a bachelor's or advanced degree plus "successful, relevant work experience" in the teaching area. A teacher can still qualify using the AR HOUSSE matrix;
- Under Sections 3.01, 3.03, 3.04, impact only a limited group of teachers. ADE licensure ensures that teachers have the education, content area knowledge, so these rules need only apply to charter schools and school districts where licensure has been waived, as well as special education and alternative learning environment teachers; and
- Under Section 3.05 allow school districts to maintain AQT documentation locally without ADE approval of the AQT status. Districts will indicate on eSchool whether an educator falls under these rules, and the documentation will be available for review.

## Changes in Response to Public Comments:

Sections 1.03.2, 3.03 and 3.04 were clarified, in response to public comments, to ensure the rules allow for educators working under Additional Licensure Plans for special education and educators in alternative learning environments who have had licensure requirements waived by
the charter for a public charter school, or by an approved school of innovation plan or a school of innovation, or by the State Board of Education for a traditional public school district.

## Arkansas Department of Education

## Arkansas Qualified Teacher Designation Form (SINGLE SUBJECT)

An Arkansas qualified teacher (AQT) must have at least a bachelor's degree; must be appropriately licensed to teach; and must demonstrate content knowledge in the subject area. This form may be used by any Arkansas teacher for whichever AQT status is being sought.
$\qquad$ Date $\qquad$
School $\qquad$ School District $\qquad$

ARKANSAS
DEPARTMENT
OF EDUCATION

To: SBE<br>From: Michael Rowland<br>Cc'ed: Joan Luneau, Cheryl Reinhart, Melissa Jacks<br>Date: 7/15/16<br>Re: Content Area Assessment for AQT

## Arkansas Qualified Teacher (AQT) Assessment

| Current AQT Assessment: | Proposed AQT Assessment: |
| :--- | :--- |
| None | Praxis ${ }^{\circ}$ Fundamental Subjects: Content Knowledge (5511) |
|  | Recommended Cut Score: 148 |
|  | Effective Immediately |

## Rationale

As an additional option for educators to demonstrate content knowledge as required with Arkansas Qualified Teacher (AQT) rules, the Department seeks Board approval to use the Praxis ${ }^{\circledR}$ Fundamental Subjects: Content Knowledge (5511) as an assessment for special education teachers with a K-12 license and ALE educators, grades K-12, to use the Fundamental Subjects assessment as a means of demonstrating content knowledge in the area of qualification. If approved, ALE educators and K-12 licensed special education teachers who successfully pass this assessment would be qualified under AQT to teach multiple core subjects. This assessment would not be used for licensure endorsements or certifications but only for AQT in these circumstances.

In April 2016, Educational Testing Service (ETS) provided a test review for ADE staff of the Praxis® Fundamental Subjects: Content Knowledge (5511). In addition to reviewing a copy of the 5511, ADE staff also reviewed national test data from September 2014 to April 2016 for states using the 5511 (Alaska, Iowa, Maryland, Mississippi, North Carolina, and Pennsylvania):

- How each state uses the test
- Cut scores for each state
- Pass rates for each state disaggregated by undergraduate majors including special education
- Three states (lowa, Mississippi, and North Carolina) use the 5511 for Special Education highly qualified status or licensure

ADE staff also met again in May 2016. As a result of these reviews, ADE staff recommends 148 as the cut score for the 5511. A 148 represents a 96.3 percent pass rate of national test takers who are Special Education undergraduate majors and took the 5511 .

The Praxis® Fundamental Subjects: Content Knowledge (5511) assesses candidate skills and broad understanding across four subjects: English Language Arts, Mathematics, Citizenship and Social Science, and Science. The two-hour assessment contains 120 selected-response items covering four content areas: English Language Arts (30 questions), Mathematics ( 30 questions), Citizenship and Social Science (30 questions), and Science (30 questions).

As an optional content area assessment to meet Arkansas Qualified Teacher requirements for licensed K-12 Special Education or ALE teachers, the ADE recommends adopting the Praxis® Fundamental Subjects: Content Knowledge
(5511) with a cut score of 148 effective immediately. This test is not approved as a licensure assessment but only as an option to meet AQT requirements for these specific areas.

## 1. Learn About Your Test

## Learn about the specific test you will be taking

## Fundamental Subjects: Content Knowledge (5511)

| Test at a Clance |  |  |  |

|  | II. Mathematics | 30 | 25\% |
|  | III. Citizenship and Social Science | 30 | 25\% |
|  | IV. Science | 30 | 25\% |

## About This Test

The Fundamental Subjects: Content Knowledge examination assesses candidates' skills and understanding broadly across four subjects:

- English Language Arts
- Mathematics
- Citizenship and Social Science
- Science

Questions are arranged in the test book by subject. An index on the back page of the test book identifies the page locations where each subject can be found. Candidates may answer the questions in any order they choose.

The content of the examination is not predicated on the assumption that the candidates should be experts in all of the subjects. Since the examination's purpose is to assess knowledge and skills in subject matter that may lie outside an individual candidate's teaching specialization, the questions in each subject focus on key indicators of general knowledge and understanding, requiring test takers to utilize fundamental skills that are founded upon broad concepts in each of the subjects.

This test may contain some questions that will not count toward your score.

## Praxis ${ }^{\circledR}$ Fundamental Subjects: Content Knowledge (5511) Other State Cut Scores and Requirements ${ }^{1}$

Attachment C ..... Page 12
Attachment D ..... Page 15

## INTRODUCTION

The Arkansas State Board of Education took action on April 14, 2016, to classify twentyfour schools and three districts as meeting the definition of Academic Distress (attachment A). In accordance with the Arkansas Department of Education Rules Governing the Arkansas Comprehensive Testing, Assessment and Accountability Program (ACTAAP) and the Academic Distress Program (10.06.2 and 10.06.3) the Arkansas Department of Education (ADE) appointed teams to conduct on-site reviews of these schools and districts (attachment B).

Schools are classified in Academic Distress if less than 49.5 percent of the students assessed over a consecutive three year period score proficient. The reviewers visited fourteen high schools, nine middle school/junior high schools, and one elementary school. Seventeen of the schools were classified for a third consecutive year; three schools were classified for a second consecutive year; and four schools were newly classified. Twenty-two of the schools were also classified under the federal Elementary and Secondary Education Act (ESEA). Under the ESEA Flexibility Waiver granted to Arkansas, these twenty-two schools were classified as "Priority School". Two of the schools reviewed were not currently classified as Priority or Focus under the federal ESEA Flexibility Waiver.

Three districts/systems were classified in Academic Distress. Blytheville School District, Dollarway School District and the one-school charter system of Covenant Keepers were identified in Academic Distress. A school district or charter school system is classified in Academic Distress when less than 49.5 of all the students of that district/system score proficient on state assessments during a consecutive three year period.

The schools varied widely in student population ranging from approximately 100 students to over 1000 students. The schools classified had high percentages of students eligible for free or reduced lunch, all had high minority populations, and all reported high rates of discipline referrals. Teacher turnover or teacher attendance issues were identified by almost all as a substantial problem. Twenty-two of the schools were currently making efforts to implement Priority Improvement Plans and were receiving assistance from one or more ADE support units. Principals voiced concern that the review would result in a change of direction or numerous additional activities.

## RECOMMENDATION \# 1: PREVIOUSLY CLASSIFIED SCHOOLS

Because twenty of the schools were previously classified in Academic Distress, and two of the other four schools were classified as Priority, it was noted that they have goals and efforts currently in progress from prior ADE site reviews or technical assistance. Thus, the review team is recommending continuation of the Priority Improvement Plans established for school year 2015-16, but with modifications for greater clarity. ADE School Improvement Unit (SIU) staff will provide technical assistance to assist these twenty-two schools in integrating into their current plans three targeted goals that would be monitored monthly by the SIU. These overarching goals are:

1. The School Improvement Leadership Team will develop a clear and shared academic focus that will lead to removal from Academic Distress.
2. The School Improvement Leadership Team in conjunction with all stakeholders will develop a positive school culture conducive to learning and staff professional growth.
3. The School Improvement Leadership Team in conjunction with the District Improvement Leadership Team will develop a culture of continuous improvement.

These goals are attached and greater clarification of their meaning and purpose are provided (attachment C).

## RECOMMENDATION 2: NEWLY CLASSIFIED SCHOOLS

Two of the schools classified in Academic Distress are not currently working under goals and efforts identified by an ADE site review team. Thus, the review teams make the following recommendation:

By the first of October these two schools will develop a School Improvement Plan based on a comprehensive needs assessment and designed to address the three overarching goals identified in recommendation 1. The Needs Assessment will be done in collaboration with the ADE School Improvement Unit and the overall plan will be developed collaboratively by the school and district leadership teams with support from the ADE Fiscal Support Unit, the School Improvement Unit, Educator Effectiveness Unit, and the Assessment Unit. The school will report progress to the State Board of Education quarterly in the same manner as a Priority School.

These goals are attached and greater clarification of their meaning and purpose are provided (attachment C).

## RECOMMENDATION 3: DISTRICT WILL CLARIFY SUPPORT TO BE PROVIDED

It was noted during the site reviews that schools varied in the level of district support. No school reviewed by the ADE teams had a written document that outlined the level of support that a school would receive from the district.

It is recommended that by September 15, 2016, the District Improvement Leadership Team, in consultation with the School Improvement Leadership Team and other stakeholders, will submit for State Board of Education review a plan of support for each school in Academic Distress. The plan will detail the types of support to be provided to each school and will be inclusive of, but not limited to:

- The professional development plan of activities that will support the principal in becoming an accomplished turnaround principal (identifying specific trainings, readings, mentors, and timelines for activities to occur and the expected
outcome of each component of the activities). This plan shall include observation calibration training for Teacher Excellence and Support System (TESS) along with training in the use of the BloomBoard Insight Reports.
Further, district and school leaders will work with the ADE Educator Effectiveness Unit to align existing walk-through practices to be recorded as informal observations within the TESS (BloomBoard) process.
- A description of specific State and Federal Categorical (restricted funds) funding provided to the school. The funding description will clarify positions and programs purchased with categorical dollars; specify the amount of student improvement anticipated by the expenditure and how the effectiveness of the program or position will be evaluated in accordance with the anticipated student gains. The funds available and at the discretion of the School Improvement Leadership Team will be defined and the allowable use of the funds determined.
- The description of all assessments to be administered by the school and clear detail on how the assessments will be utilized by teachers, instructional teams, and the School Improvement Leadership Team. It is encouraged that the ACT Aspire Interim Assessments be used for progress monitoring. Post-unit assessments are to be developed by instructional teams specific to the units taught and may include both standards based questions and questions related to any foundational knowledge required as part of the units of instruction. Dates for assessments by grade level, expected levels of student achievement (SMART Goal), and clear use of each type of assessment will be detailed in the plan(s). It is encouraged that the school minimize assessment to Formative Assessments, Aspire Interims (or Aspire aligned interims), and Unit Assessments. Semester Exams may be substituted for the third Unit Assessment if all students at that grade level or subject area are administered the Semester Exam.
- The clarification of the decision making autonomy that each School Improvement Leadership Team will have, and the parameters within which the team must operate. Included will be a description of the discretionary money/resources available to the School Improvement Leadership Team to support teacher development as needs are identified.
- The description of how the district will attempt to retain effective teachers at the school, and how the district will support the building in recruiting qualified teachers when openings occur. This would include how teachers are incentivized to remain at the school as well as the monitoring of teachers for their "feelings or perceptions" of support on a quarterly basis (ADE developed instrument or ADE approved instrument).
- A description of the actions the district is taking to ensure that there is curriculum alignment in at least the areas of literacy and mathematics as assessed for accountability.
- The description of the supports to be provided to engage parents and community in the turnaround efforts. Specifically identify the activities that will
be offered, a timeline and how the school will maintain and analyze data related to parent participation. The analysis should contrast parents of proficient students in contrast to parents of non-proficient students with the intent of providing additional services and support to parents of non-proficient students.
- The description of the supports to be provided in creating a positive learning environment and positive school climate. It is encouraged that the district support the school in adopting a Positive Behavior Intervention System as well as other culture improvement strategies.

Recommendations are attached and greater clarification of their meaning and purpose are provided (attachment D).

## RECOMMENDATION 4: INFORMING AND DEVELOPING THE LOCAL SCHOOL BOARD

The local school board holds accountability for the progress of students. The National School Boards Association in conjunction with the Center for Public Education have identified characteristics of effective school boards. These include and require that school boards are data literate, allocate resources to needs, and maintain a focus on student achievement goals. To support the local school board in being effective, the review teams make the following recommendation:

In conjunction with the School Improvement Leadership Team, and the designated team from the Arkansas Department of Education, the District Improvement Leadership Team will present the school's required quarterly progress report to the local school board and discuss supports, actions, and/or trainings in which the local school board can participate to further support the school or schools.

To clarify the intent of this recommendation, each quarter following the submission of the quarterly progress report, the assigned ADE Team will meet with representatives from the district and school to develop and present a report of progress to the local school board. To the degree possible, the report to the local board will highlight the decisions made that either supported or distracted from the school's efforts. The District Improvement Leadership Team and the assigned ADE Team will then assist the local school board in identifying any trainings that would assist in their efforts to become more effective.

Recommendations are attached and greater clarification of their meaning and purpose are provided (attachment D).

## SUMMARY:

All review teams identified that every school was making efforts towards improving student outcomes. The degree of sophistication level of these efforts varied by the expertise and experience level of school and district leaders. It was noted that a majority of the school leaders were in the first three years of being assigned to a school
in Academic Distress. While each school staff had a general understanding of the Academic Distress classification, it was noted that in all schools reviewed that there was minimal understanding of specific efforts that the school was taking to advance beyond Academic Distress. The intent of these recommendations is to assist the district and school in maintaining the efforts currently underway, but adding a more defined focus on the specific grade levels and/or courses that are used to determine state accountability classifications. Further, it is anticipated that by the schools structuring their work under the recommended three overarching goals, they will be better able to communicate to all stakeholders the purpose of each action being taken to improve student outcomes.

## Attachment C

## SCHOOL GOALS

## BACKGROUND

Campus teams did not clearly articulate the components of accountability that would lead to the removal from Academic Distress, including the steps that need to be taken to improve student outcomes.

## GOAL 1

The School Improvement Leadership Team will develop a clear and shared academic focus that will lead to removal from Academic Distress.

## CLARIFICATION

The School Improvement Leadership Team ensures the development of a clear and shared focus involving all stakeholders. All stakeholders know the focus and how achieving the focus will lead to increased achievement, long range commitment to continuous improvement and specifically removal from Academic Distress classification. All stakeholders can articulate their role, and the role of interventions/innovations/programs in accomplishing the focus. The focus will be foremost in decisions related to support expenditures. All faculty will clearly understand the evidence that identify progress throughout the year. The School Improvement Leadership Team will provide an update of progress to the local school board quarterly.

## BACKGROUND

School staff interviewed as part of the site reviews communicated high turnover rates of teachers, difficulty recruiting qualified teachers, high number of discipline referrals, high teacher absenteeism, high failure rate and a high number of students entering secondary settings behind grade level.

GOAL 2
The School Improvement Leadership Team in conjunction with all stakeholders will develop a positive school culture conducive to learning and staff professional growth.

## CLARIFICATION

The School Improvement Leadership Team ensures there is a sense that educating students extends beyond teachers and staff in schools to include all educational stakeholders. Parents, as well as businesses, social service agencies, and community colleges/universities all know their role in this effort. Teachers, staff, students and stakeholders believe that all students can learn and are able to articulate a personal vision of success. The school has a safe, caring, healthy and intellectually stimulating learning environment where all
students and staff feel welcomed, supported and valued. The social-emotional, behavior and academic needs of students are addressed using a research based multi-tiered approach. Instruction is student-focused; teachers have high expectations of student learning and believe they can teach all students. Teaching and learning are continually adjusted based on frequent monitoring of student progress and needs. Teachers determine needed support and professional development that aligns with the school and district's clear focus and high expectations. The School Improvement Leadership Team will regularly assess school culture by utilizing ADE provided or approved student and teacher surveys and provide an update to the state and local school board quarterly.

## BACKGROUND

Campus teams did not articulate the plans and processes in place for creating a culture of continuous improvement. Various teams did not demonstrate an understanding of the comprehensive picture of a culture of continuous improvement.

## GOAL 3

The School Improvement Leadership Team in conjunction with the District Improvement Leadership Team will develop a culture of continuous improvement.

## CLARIFICATION

A culture of continuous improvement is one that involves assessing, planning and monitoring of school improvement indicators and making data-driven decisions toward achieving the shared and clear focus. All teams work collaboratively within and outside of their teams, have a clear and communicated written purpose, bylaws, and can articulate their role in achieving the focus.

The School Improvement Leadership Team has the autonomy to identify and attend necessary training to ensure they are capable of leading a turnaround effort. The School Improvement Leadership Team meets regularly and serves as a conduit of communication to all stakeholders in a way that enables the School Improvement Leadership Team to receive input. A schedule and description of all assessments to be administered will be created including detail of how the assessments will be utilized by teachers, instructional teams, and the School Improvement Leadership Team. It is recommended that the Aspire Interim Assessments and Aspire Classroom Assessments are used for progress monitoring as available. Post-Unit Assessments can be combined with Aspire Classroom Assessments to monitor both standards attainment and/or the learning of foundation knowledge. Dates for assessments by grade level, expected levels of student achievement (SMART Goal), and clear use of each type of assessment will be detailed in the plan(s). The School Improvement Leadership Team analyzes data in order to draw conclusions and make decisions about school improvement and professional development. The School Improvement

Leadership Team with support from the District Improvement Leadership Team seeks ways to retain effective teachers and how they will recruit and incentivize qualified teachers. This would include monitoring teachers for their "feelings or perceptions" of support on a quarterly basis.

The Instructional Improvement Team (otherwise referred to as PLC) works collaboratively with the empowerment to draw conclusions and make decisions based on data. Instructional Teams develop instructional units based on the curriculum standards and the local curriculum document. This unit typically encompasses three to six weeks of work. An assessment is administered prior to instruction to plan for differentiated instruction within the unit. Assessments will be administered following instruction in two to three week intervals to assess effectiveness of instruction and to identify students in need of instructional support or enhancement. The Instructional Improvement Teams use student data to assess strengths and weaknesses of the curriculum and instructional strategies. The Instructional Improvement Team reviews the results of assessments and uses the information to guide efforts to assure that every student masters the instructional standards taught in the instructional unit and reflect on personal effectiveness. The Instructional Improvement Teams use the results from multiple measures of data to plan for professional development, inform subsequent instructional unit plans and make adjustments to the curriculum.

## Attachment D

## DISTRICT RECOMMENDATIONS

## BACKGROUND for recommendation 1:

The ADE Review Team did not find a clearly articulated plan to support the school's turnaround effort.

## RECOMMENDATION 1: DISTRICT

It was noted during the site reviews that schools varied in the level of district support. No school reviewed by the ADE teams had a written document that outlined the level of support that a school would receive from the district.

It is recommended that by September 15, 2016, the District Improvement Leadership Team, in consultation with the School Improvement Leadership Team and other stakeholders, will submit for State Board of Education review, a plan of support for each school in Academic Distress. The plan will detail the types of support to be provided to each school and will be inclusive of, but not limited to:

- The professional development plan of activities that will support the principal in becoming an accomplished turnaround principal (identifying specific trainings, readings, mentors, and timelines for activities to occur and the expected outcome of each component of the activities). This plan shall include observation calibration training for Teacher Excellence and Support System (TESS) along with training in the use of the BloomBoard Insight Reports. Further, district and school leaders will work with the ADE Educator Effectiveness Unit to align existing walk-through practices to be recorded as informal observations within the TESS (BloomBoard) process.
- A description of specific State and Federal Categorical (restricted funds) funding provided to the school. The funding description will clarify positions and programs purchased with categorical dollars; specify the amount of student improvement anticipated by the expenditure and how the effectiveness of the program or position will be evaluated in accordance with the anticipated student gains. The funds available and at the discretion of the School Improvement Leadership Team will be defined and the allowable use of the funds determined.
- The description of all assessments to be administered by the school and clear detail on how the assessments will be utilized by teachers, instructional teams, and the School Improvement Leadership Team. It is encouraged that the ACT Aspire Interim Assessments be used for progress monitoring. Post-unit assessments are to be developed by instructional teams specific to the units taught and may include both standards based questions and questions related to any foundational knowledge required as part of the units of instruction. Dates for assessments by grade level, expected levels of student achievement
(SMART Goal), and clear use of each type of assessment will be detailed in the plan(s). It is encouraged that the school minimize assessment to Formative Assessments, Aspire Interims (or Aspire aligned interims), and Unit
Assessments. Semester Exams may be substituted for the third Unit Assessment if all students at that grade level or subject area are administered the Semester Exam.
- The clarification of the decision making autonomy that each School Improvement Leadership Team will have, and the parameters within which the team must operate. Included will be a description of the discretionary money/resources available to the School Improvement Leadership Team to support teacher development as needs are identified.
- The description of how the district will attempt to retain effective teachers at the school, and how the district will support the building in recruiting qualified teachers when openings occur. This would include how teachers are incentivized to remain at the school as well as the monitoring of teachers for their "feelings or perceptions" of support on a quarterly basis (ADE developed instrument or ADE approved instrument).
- A description of the actions the district is taking to ensure that there is curriculum alignment in at least the areas of literacy and mathematics as assessed for accountability.
- The description of the supports to be provided to engage parents and community in the turnaround efforts. Specifically identify the activities that will be offered, a timeline and how the school will maintain and analyze data related to parent participation. The analysis should contrast parents of proficient students in contrast to parents of non-proficient students with the intent of providing additional services and support to parents of non-proficient students.
- The description of the supports to be provided in creating a positive learning environment and positive school climate. It is encouraged that the district support the school in adopting a Positive Behavior Intervention System as well as other culture improvement strategies.

## CLARIFICATION of the recommendation:

The ADE will make Specialists available (upon request) to assist the district in the development of the plans. Specialists from Educator Effectiveness, School Improvement, Standards, Curriculum, Finance and Assessment may be accessed in July and August.

The turnaround principles are the basis of this recommendation:

- Providing strong leadership by ensuring the principal is capable of leading a turnaround effort; and Providing operational flexibility in the areas of scheduling, staffing, curriculum, and budget
- Using data to inform instruction and for continuous improvement, including providing time for collaboration on the use of classroom level data
- Establishing a school environment that improves safety and discipline as well as addressing other non-academic factors that impact student achievement such as social, emotional and health needs.
- Incentivizing effective teachers to remain at the school and preventing the transfer or hire of ineffective teachers.
- Increasing mechanisms for parent and community involvement

## BACKGROUND for district recommendation 2:

There was evidence of the required reporting of progress to the local school board. There was not clear evidence that the local board was receiving training in how their actions and decisions could influence or support the school improvement process.

## RECOMMENDATION 2 District:

In conjunction with the School Improvement Leadership Team, and the designated team from the Arkansas Department of Education, the District Improvement Leadership Team will present the school's required quarterly progress report to the local school board and discuss supports, actions, and or trainings in which the local school board can participate to further support the school or schools.

## CLARIFICATION of the recommendation:

Each quarter following the submission of the quarterly progress report, the assigned ADE Team will meet with representatives from the district and school to develop and present a report of progress to the local school board. To the degree possible, report to the local board will highlight the decisions made that either supported the school's efforts or distracted from the school's efforts. The District Improvement Leadership Team and the assigned ADE support team would then assist the Local School Board in identifying any trainings that would assist in their efforts to become more effective.

The National School Boards Association has published articles related to eight characteristics of effective school boards. In addition, the Center for Public Education has both an executive summary and a full report on the characteristics of effective school boards. This can be easily accessed at http://www.centerforpubliceducation.org/Main-Menu/Public-education/Eight-characteristics-of-effective-school-boards.

| 10 | $48 \%$ | $25 \%$ |

## Academic Improvement Plans (AIPs)

- AIPs would be assigned based on ELA, math and science scores
- Science AIPs would only be assigned based on grade 5, 7 and 10 scores; as the new standards are implemented, additional requirements for science remediation will be put in place
- Between 40 to 50 percent of students will require remediation

## Performance Levels

## Level

## In Need of Support

## AIP Assigned <br> vivoe

Ready
No AIP Assigned ᄂヘvecuily

## Request for Action

- The ADE requests the approval of the State Board to use the ACT Aspire established cut scores and readiness benchmarks. Scoring at or above the readiness benchmark in a given grade would be considered proficient student performance, and student Academic Improvement Plans would not be required.

## Updating ACT Aspire Norms

ACT Aspire started with the goal of reporting three-year rolling norms with equal weights to each student record. These were user norms, with a broad representation across the country. Beginning with fall 2015 reporting, the norm data have been statistically weighted to more closely match a national distribution in terms of selected student demographics and achievement in order to facilitate meaningful comparisons.

This section describes the development of ACT Aspire norms based on tests administered through spring 2015. First, the inclusion rules for the samples are described, followed by a description of a weighting methodology designed to produce nationally representative norms. Then, the updated ACT Aspire norm tables, summary statistics, and demographic information for the weighted samples are presented.

## ACT Aspire Norm Samples

For grades 3-8, the norm samples include students who took ACT Aspire on-grade subject tests in 2013 spring, 2014 spring, and 2015 spring, as consistent with the goal to include three years of rolling data.

For grades 9 and 10, the norm samples are restricted to students who took ACT Aspire in consecutive years. The grade 9 samples include students who took grade 8 ACT Aspire and grade 9 ACT Aspire subject tests approximately one year apart. Similarly, the grade 10 samples include students who took ACT Aspire in grade 9 and grade 10 approximately one year apart. As described later, these longitudinal samples are used to anchor the grade 9 and grade 10 norm samples to the grade 8 score distribution. Table 1.1 provides the sample sizes by grade level and subject area.

Table 1.1: Sample Sizes Used for Norm Establishment

| Grade <br> level | Subject area |  |  |  |  |
| :---: | ---: | ---: | ---: | ---: | ---: |
|  | English | Mathematics | Reading | Science | Writing |
| 3 | 102,213 | 176,117 | 176,128 | 73,337 | 89,557 |
| 4 | 100,592 | 173,117 | 173,383 | 74,618 | 94,322 |
| 5 | 100,037 | 172,635 | 172,437 | 99,966 | 93,023 |
| 6 | 98,838 | 172,865 | 172,723 | 72,081 | 94,949 |
| 7 | 103,297 | 179,967 | 179,501 | 104,468 | 99,005 |
| 8 | 112,999 | 190,450 | 190,086 | 89,559 | 107,996 |
| 9 | 3,875 | 4,149 | 3,925 | 3,877 | 3,364 |
| 10 | 6,436 | 6,634 | 6,600 | 6,172 | 4,862 |

## Weighting Methodology for ACT Aspire Norms

Students assessed with ACT Aspire are not representative of the national population of U.S. elementary and secondary school students. To support interpretations of nationally representative norms, weights are assigned to ACT Aspire-tested samples so that the weighted samples are similar to the national population of U.S. elementary and secondary school students on school affiliation (public vs. private), and race/ethnicity and academic achievement among public school students.

For grades 3-8, the weighting strategy first estimates the population of U.S. elementary and secondary public school students with respect to race/ethnicity and district mean achievement level. Then, the public school ACT Aspire-tested students are weighted to match on these characteristics. Finally, the weighted public school data is combined with the private school data with the final weighting reflecting the frequency of school affiliation (public or private) in the population. An important assumption of this
approach is that a district's mean achievement level can be measured by its mean ACT Composite score ${ }^{1}$, and that this measure reflects achievement in the lower grade levels. To examine this assumption, correlations between district mean ACT Composite score and district mean ACT Aspire scores in the lower grade levels are presented below (Table 1.2). For most subject areas and grade levels, district mean ACT Composite score is highly correlated with district mean ACT Aspire score. For Writing, the correlations are less consistent across grade levels and are generally lower. The correlations in Table 1.2 suggest that district mean ACT Composite score reflects achievement in lower grade levels.

Table 1.2: Correlation of District Mean ACT Composite Scores with District Mean ACT Aspire Score

| Grade <br> level | Subject area |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | English | Mathematics | Reading | Science | Writing |
| 3 | 0.69 | 0.61 | 0.72 | 0.52 | 0.51 |
| 4 | 0.61 | 0.70 | 0.74 | 0.57 | 0.08 |
| 5 | 0.63 | 0.69 | 0.73 | 0.66 | 0.59 |
| 6 | 0.74 | 0.65 | 0.68 | 0.58 | 0.62 |
| 7 | 0.70 | 0.79 | 0.66 | 0.71 | 0.38 |
| 8 | 0.73 | 0.81 | 0.58 | 0.66 | 0.26 |
| 9 | 0.79 | 0.79 | 0.73 | 0.72 | 0.61 |
| 10 | 0.72 | 0.74 | 0.66 | 0.70 | 0.47 |

Note: Districts with at least 50 ACT Aspire-tested students are included.

For grade 9, a sample of students tested with ACT Aspire in grades 8 and 9 is used. After the norms are developed for grade 8, the longitudinal samples (one for each subject area) are weighted to match the national grade 8 score distribution. The weighted score distribution of the grade 9 scores are then calculated. For grade 10, the same approach is used, but with the national grade 9 score distribution serving as the anchor.

The weighting procedure for grades 3-8 is described in detail below. In what follows, target population refers to the population of U.S. elementary and secondary school students. The following steps were taken to weight each ACT Aspire norming sample ${ }^{2}$ :

1) Determine the target population's relative frequency of students enrolled in public and private schools. ${ }^{3}$
2) Among public school students within the target population, determine the relative frequency by race/ethnicity and school percent eligible for free or reduced lunch (school FRL). Table 1.3 shows the categorizations of these variables and relative frequencies in the public school target population ${ }^{4}$.

[^2]3) Identify all public school districts that administer the ACT test to all $11^{\text {th }}$ grade students; we refer to ACT-tested students within these districts as the ACT state and district testing public school sample. Weight this sample to the public school target population on race/ethnicity and school FRL. Weights are determined by the ratio of the population and sample percentages of each combination of race/ethnicity and school FRL:
$$
\text { weight }(\text { Race }=x, \text { FRL }=y)=\frac{\text { Population } \%(\text { Race }=x, F R L=y)}{\text { Sample } \%(\text { Race }=x, \text { FRL }=y)}
$$

We refer to this weighted sample as the ACT public school population. The ACT public school population is nearly identical to the public school target population with respect to relative frequencies of race/ethnicity and school FRL groups (Table 1.3).
4) For each student in the ACT public school population, determine the mean ACT Composite score within their district. Categorize district mean ACT score ${ }^{5}$ and student race/ethnicity, and calculate the relative frequency of each combination of race/ethnicity and district mean ACT Composite score level (DMACT) within the ACT public school population.
5) For each ACT Aspire norm sample, determine public/private school affiliation and, for public school students, race/ethnicity and DMACT. For students enrolled in public schools, calculate the sample percentage for each combination of race/ethnicity and DMACT. Weight the sample to the target population on public/private school affiliation and, for public school students, race/ethnicity and DMACT. Weights are determined by the ratio of the population and sample percentages:

Public weight $($ Race $=x$, DMACT $=y)=\frac{\text { Pop. } \% \text { public }}{\text { Sample } \% \text { public }} \times \frac{\text { ACT Public Pop. } \%(\text { Race }=x, \mathrm{DMACT}=\mathrm{y})}{\text { Public Sample } \%(\text { Race }=x, \mathrm{DMACT}=\mathrm{y})}$
Private weight $=\frac{\text { Pop. \% private }}{\text { Sample \% private }}$

For an example norm sample (grade 5 English), the relative frequencies of the weighting variables are provided in Table 1.4 for the target population, the unweighted sample, and the weighted sample. The weighted sample is identical to the target population with respect to school affiliation, and the public school sample is identical to the public school target population on race/ethnicity and district mean ACT Composite score. As shown in Table 1.4, the weighted mean ACT Aspire grade 5 English score is higher than the unweighted mean. This is expected because the unweighted district mean ACT Composite score was lower than the target population's district mean ACT Composite score.

[^3]Table 1.3: Target Public School Population and ACT Public School Population

| Variable | Population of public U.S. elementary and secondary students | ACT state and district testing public school sample |  |
| :---: | :---: | :---: | :---: |
|  |  | Unweighted | ACT public school population ${ }^{6}$ |
| Race/ethnicity |  |  |  |

| Mean (SD) ACT Aspire score |  | 422.3 (7.1) | 423.1 (7.1) |

Note: Shading represents variables used in weighting.

[^5]Figure 1.1 summarizes the weighting procedure for the ACT Aspire norms. Tables $1.5-1.9$ present the demographic information on the weighted samples for each grade and subject test.

## Norm Tables and Summary Statistics

The norm table is defined as the cumulative percent of students scoring at or below a given score in the norm sample. A smoothing process was applied to the empirical cumulative percentages to reduce the sampling error and increase the precision of the norms. The norms tables are presented in Tables 1.101.14 for each subject respectively. The mean scale score values for students in each grade and subject test are given in Table 1.15. These represent estimated mean scores if all students in the target population (all U.S. elementary and secondary school students) were to take the test.

Figure 1.1: Conceptual diagram of chain-linked weighting strategy

Note: Variables used for weighting are included in boxes.
