Reports

Report-1 Chair's Report

Presenter: Sam Ledbetter

Report-2 Commissioner's Report

Presenter: Tony Wood

Report-3 Special Committee on Parent Communication

On April 10, 2014 State Board of Education Chair Brenda Gullett appointed a special committee including Ms. Mahony, chair; Ms. Reith; and Mr. Black to work with the ADE Communications Team to focus on parent communication. The Special Committee met June 13, 2014.

Presenter: Alice Mahony, Chair

Report-4 A Philanthropic Partnership to Enhance Educational Achievement in Arkansas

The Walton Family and Winthrop Rockefeller Foundations propose to use resources to work with the State Board of Education to develop a comprehensive plan to improve P-12 education in Arkansas. The comprehensive plan will contain specific recommendations for academically distressed districts and will be supported by data, best practices and models such as the Delaware Vision 2015 Plan led by the Rodel Foundation.

Presenter: Dr. Sherece Y. West-Scantlebury, President and Chief Executive Officer of the Winthrop Rockefeller Foundation; Cory S. Anderson, Vice-President of the Winthrop Rockefeller Foundation; and Kathy Smith, Senior Program Officer of the Walton Family Foundation

Report-5 Student Discipline Report

Act 1329 of 2013 requires the ADE to evaluate the impact of school discipline on student achievement and report findings to the State Board of Education and school districts. This report was produced by the Office of Education Policy using data from the ADE Data Center.

Presenter: Dr. Gary Ritter

Report-6 Update on Common Core State Standards, PARCC and School Improvement

This information is provided to keep the State Board of Education apprised of the Department's work activities associated with college and career readiness and school improvement.

Presenter: Dr. Debbie Jones

Minutes
State Board of Education Special Committee Meeting
Friday, June 13

The State Board of Education Special Committee on Parent Communication met Friday, June 13, 2014 in the Commissioner's Conference Room of the Department of Education Building. Chair Alice Mahony called the meeting to order at 1:10 p.m.

Present: Alice Mahony, Chair; Mireya Reith; and Joe Black

Absent: None

Work Session

Parental Communication in Arkansas

Ms. Mahony welcomed the guests and said the goal of the meeting was to find ways to better communicate with parents. She recommended all read the report, *How Schools Work and How to Work with Schools*, by NASBE.

Members of ADE, Arkansas PTA, Center for Artistic Revolution, BSW Consulting, ATOY, ASBA, APPP, AR Home Visiting Network, and AR Public Policy Panel attended the meeting. They shared recommendations for communicating with parents:

- Parents communicating with other parents.
- Put information in the power bill.
- Put information in the water bill.
- Collaborate with the local PTO
- Identify special target groups in the communities
- Identify key communicators and influencers
- What are potential topics, times/location for meetings
- Establish trust with parents
- Conduct outreach programs (outside of the school)
- Identify key organizations and religious organizations and work with the leaders
- IDRA – can work all over the state
- Community organizations
- Outreach through the media – what the parents are listening to
- Social media
- Newspaper
- Television – run script across the bottom of the screen
- Barbers and beauticians
- Bartenders
- Higher education

- Know the culture nuances – some parents have not had good experiences with schools
- Making schools user friendly – get students and parents into the school for times other than academics
- Go to other locations – churches, businesses
- Billboards
- Partner with the community alliance
- Town hall meetings centered around parent's questions
- School District websites need more contact information
- Outreach such as walking in community on Saturday so the community can see educators outside of the school building
- Public service announcements
- Send a letter home in the B Book
- Discuss tough issues
- School parent centers
- Need to ask parents how they want to be communicated with. And who needs to receive the communication.
- What training is available to parents
- Need resource directory of local and faith based organizations included in student handbook

The committee discussed how to systemize communication with communities. They discussed the need for a handbook on parent communication.

Ali Weimer, 2013 Arkansas Teacher of the Year, and Jonathan Crossley, 2014 Arkansas Teacher of the Year, will be reporting back to the committee on the Parent Academy in Kentucky and the Parents and Teachers Program in St. Louis.

The committee decided to meet Friday, July 11, 2014 from 1:00 – 3:00 p.m. in the ADE Auditorium to continue the conversation.

Adjournment

The meeting adjourned at 3:08 p.m.

Minutes recorded by Deborah Coffman.

A Philanthropic Partnership to Enhance Educational Achievement in Arkansas

Below are resources we believe may be helpful to Board members in preparation for our discussion on July 11th. The resources from the Rodel Foundation show how philanthropy can contribute to solutions to the problems that prevent too many students from learning and achieving to their full capacity and solutions to positively transform academically distressed schools. The Walton Family and Winthrop Rockefeller Foundations proposes to use its resources to work with the State Board of Education to develop a comprehensive plan to improve P-12 education in Arkansas that will contain specific recommendations for academically distressed districts. The comprehensive plan will be supported by data, best practices and models such as the Delaware Vision 2015 Plan lead by the Rodel Foundation.

GFE Case Study on Rodel Foundation

http://www.edfunders.org/sites/default/files/case_8_rodel.pdf

Delaware Vision 2015 Plan

<http://www.vision2015delaware.org/vision-plan/>

Delaware Vision 2015 Progress

Reports <http://www.rodelfoundationde.org/resources/issues-and-resources/>

Delaware Public Education at a Glance E-

book http://hollistercreative.com/e/Rodel_DePubEd2013.html

The Delaware Vision 2015 is one model among many. We thought this would be a good example to give the Board a framework for what could be done here in Arkansas with philanthropy as a partner.

Sherece Y. West-Scantlebury, Ph.D. | President and Chief Executive Officer

A. Background on Discipline

It is clear that schools must do what is reasonable to ensure the safety of students, teachers, and staff, and that in extreme cases, schools may need to remove a student from the campus. However, serious threats to safety are statistically rare, and school is often the safest place for a student to be during the day. What we are seeing, unfortunately, in schools across the country, is an over reliance on expulsions and suspensions that remove students from the learning environment, and ultimately lead to a host of negative effects.

No one can argue with the theory that lost instruction time and chronic absence have harmful effects on student performance and achievement. Students who are regularly removed from the classroom miss instructional time, may lose investment in schooling, and will likely perform less well than students who regularly attend school. A report on racial disparities in school discipline in Arkansas found that Arkansas schools too often rely on disciplinary measures that remove students from the classroom, thereby limiting their ability to learn.¹ Arkansas ranks 15th in the country in the use of out-of-school suspension (OSS) for all students, and 13th in the disparity between the use of OSS for black and white students.²

A 2014 report produced by the US Department of Education's Office for Civil Rights (OCR) presented racial disparities in discipline policies across all grade levels, including preschool.³ The report used the Civil Rights Data Collection (CRDC), data compiled from all 97,000 public schools in the country and all 16,500 school districts. Such disparities are often seen as a "school-to-prison pipeline" that disproportionately affects students of color and limits their educational opportunities. The report found that students that are suspended are more likely to have a host of negative results. They are more likely to be suspended again, drop out of school, and become involved in the juvenile justice system, and they are less likely to graduate on time. The statistics are staggering, even at the preschool level. According to the report, black students make up 18% of preschool enrollment but 48% of the students suspended more than once. In addition, students with disabilities were found to be more than twice as likely to receive out-of-school suspension (13%) than their peers without disabilities (6%). Furthermore, these disciplinary disparities do not stop at the school door. Black students represent 27% of students referred to law enforcement and 31% of students arrested for a school-related incident, even though they only represent 16% of student enrollment.

B. Act 1329 – An Act to Evaluate the Impact of School Discipline on Student Achievement

¹ Arkansas Advocates for Children and Families. (2013, February) Keeping Kids in Class: Fixing Racial Disparities in School Discipline. Retrieved from <http://www.aradvocates.org/assets/PDFs/K-12-Education/School-Discipline-Report-Web.pdf>

² Losen, D.J. and Gillespie, J. (2012, August) Opportunities Suspended: The Disparate Impact of Disciplinary Exclusion from School. Retrieved from <http://civilrightsproject.ucla.edu/resources/projects/center-for-civil-rights-remedies/school-to-prison-folder/federal-reports/upcoming-ccrr-research/losen-gillespie-opportunity-suspended-2012.pdf>

³ Retrieved from <http://www.ed.gov/news/press-releases/expansive-survey-americas-public-schools-reveals-troubling-racial-disparities>

In order to better understand and fix these issues, the Arkansas legislature, in the 89th General Assembly, passed An Act to Evaluate the Impact of School Discipline on Student Achievement; And For Other Purposes (Act 1329). The law amended the 2010 Arkansas Code § 6-18-507(b) which allows districts to suspend and expel students within the district's written discipline policies.⁴ One requirement of Act 1329 is for a report to be prepared by July 1 of each year, beginning in 2014, to include data on enrollment, disciplinary rates, and disciplinary disparity between subgroups, as well as the achievement status of districts and possible disciplinary strategies and resources Arkansas school districts can access. The hope of this report is that the Arkansas Department of Education (ADE) can track the progress of districts over time, identify districts that are showing improvement, and try to understand and share best practices with other districts.

While interpreting the data, it is important to take caution. First of all, as noted in Section 1(5) of Act 1329, "disparity in discipline rates does not necessarily indicate discrimination; it can result from an ineffective school climate or from cultural strategies that are not successful in engaging the academic efforts of all students."

C. Definitions of Discipline Rates, Discipline Rate Disparity, and Subgroup Classifications

Discipline Rate

Section 4(a)(1) of Act 1329 defines a "disciplinary rate" as the three-year average for each discipline measure of the number of students in a school district or the number of students in a subgroup in the school district who have at least one discipline measure divided by the corresponding total enrollment in the school district or the total enrollment in the subgroups."

Discipline measures, outlined in section 4(a)(2) were to include in-school suspension (ISS), out-of-school suspension (OSS), expulsion, corporal punishment, and referrals to law enforcement authorities. There are many limitations with this data. First of all, the discipline data are self-reported by school districts, and the categories were not a one-to-one match with the requirements of the reform. "Referrals to law enforcement authorities," for example, was not identified as a discipline action in the data, so we could not include this in the report. Despite this information missing, we were able to report on other categories (ALE, No Action, and Other) that were not required by Act 1329. The "Other" category could possibly include "referrals to law enforcement authorities."

Rate of Discipline Disparity

Section 4(a)(3) of Act 1329 defines the "rate of discipline disparity" as the disciplinary rate for a subgroup subtracted from the disciplinary rate for another comparison subgroup. Section 4b6 of Act 1329 defines the "rate of discipline disparity" as "the rate of disciplinary disparity for each discipline measure for each subgroup compared with the subgroup with the lowest disciplinary rate." The second definition is not a meaningful measure, because the group that a subgroup is compared against will vary by district (for example, in some districts, students

⁴ Ark. Laws §§ 6-18-507 to -515 and § 10-3-2102(a)(1)-(4)

without disabilities may have the lowest rate where as another district may have the lowest rate within students who scored proficient or above. Also, students may be included in more than one subgroup under this second definition.

Therefore, in this report, we show discipline disparities as the difference between one subgroup and their inverse subgroup, so that each group are mutually exclusive and opposites. The subgroup comparisons we make are:

Subgroup Classifications

- Non-white/white
- Low-income/non-low-income
- Students with disabilities/students without disabilities
- Students achieving basic or below basic on any test/students not achieving basic or below basic on any test

D. Limitations of the Data

There are many limitations with discipline data. First of all, the discipline data are self-reported by school districts, and the categories were not a one-to-one match with the requirements of the reform. “Referrals to law enforcement authorities,” for example, was not identified as a discipline action in the data, so we could not include this in the report. Despite this information missing, we were able to report on other categories (ALE, No Action, and Other) that were not required by Act 1329. The “Other” category could possibly include “referrals to law enforcement authorities.”

In addition, because the data are self-reported and unstandardized, we must interpret them very carefully. Unlike standardized test scores, discipline rates are not uniform across schools and districts. While we may think a high discipline rate is undesirable, a high discipline rate could be an indication that a school is addressing discipline issues rather than letting the issues interfere with the learning process. On the contrary, a low discipline rate could indicate that a school is not appropriately addressing discipline concerns, or that there is not appropriate documentation taking place. In other words, the discipline rate does not necessarily reflect the true incidence of discipline incidences and consequences in a school.

Also, each district has different issues to deal with on a daily basis; and schools have a variety of different resources. For example, some schools have a dean of students to deal specifically with behavior issues. Other schools have student resource officers (SROs) on campus that may act as deterrents of behavioral issues. Other schools may have smaller class sizes that could, on average, be easier for teachers to manage. The variation in resources and strategies that exist in schools may lead to incongruities in the number and types of discipline infractions reported.

Due to the complications with measuring and interpreting discipline data, one cannot conclude that a district with large number of actions is being unfairly harsh or discriminatory. Moreover, one cannot conclude that a district with a small number of actions is desirable. In addition, when we consider disparities in the disciplinary rates across different subgroups, as Act

1329 notes, “disparity in discipline rates does not necessarily indicate discrimination; it can result from an ineffective school climate or from cultural strategies that are not successful in engaging the academic efforts of all students.”

Furthermore, it is important to note that the discipline rate, as defined by Act 1329, is based on the number of students who have been discipline at least once, but does not record how many times they have been disciplined. For example, a student who has received ISS ten times will be treated the same as a student who has received ISS only one time.

E. Key Findings

Overall, the most widely used discipline measure is ISS (7.6% overall), followed by OSS (5.9% overall), corporal punishment (3.2%) overall, and “Other” (2.4%). Alternative Learning Education (ALE), Expulsion, and “No Action” are used rarely, having only been experienced by less than 0.3% of the students. See Table 1.

Table 1: ISS and OSS Average and Maximum Rates in Arkansas Schools, 2010-11 to 2012-13

	In School Suspension		Out of School Suspension	
	Max District	Rate	Max District	Rate
White State Avg		5.9%		3.6%
White District Avg		6.4%		4.1%
White Max District	Marmaduke	25.7%	Hughes	25.3%
Non-White State Avg		10.8%		10.2%
Non-White District Avg		9.2%		5.8%
Non-White Max District	Marmaduke	49.5%	El Dorado	29.7%
Low-Income State Avg		8.8%		7.3%
Low-Income District Avg		7.9%		5.4%
Low-Income Max District	El Dorado	30.5%	El Dorado	27.9%
Non-Low-Income State Avg		5.7%		3.7%
Non-Low-Income District Avg		6.5%		3.9%
Non-Low-Income Max District	Palestine-Wheatley	80.0%	Palestine-Wheatley	40.0%
Students with Disabilities State Avg		11.2%		10.0%
Students with Disabilities District Avg		10.6%		8.0%
Students with Disabilities Max District	Junction City	45.5%	Blytheville	33.1%
Students without Disabilities State Avg		7.2%		5.4%
Students without Disabilities District Avg		6.9%		4.4%
Students without Disabilities Max District	Hughes	27.7%	El Dorado	21.8%
Low Achieving State Avg		15.4%		13.0%
Low Achieving District Avg		13.3%		8.6%
Low Achieving Max District	El Dorado	48.5%	El Dorado	43.6%
Non-Low Achieving State Avg		5.9%		3.7%
Non-Low Achieving District Avg		6.2%		3.4%
Non-Low Achieving Max District	Hughes	30.6%	El Dorado	16.4%
Overall State Avg		7.6%		5.9%
Overall District Avg		7.3%		4.8%
Overall Max District	Hughes	28.3%	El Dorado	22.2%

Note:

“Low Income” is based on Free and Reduced Lunch (FRL) Status

“Low Achieving” rate is based on the number of students scoring basic or below basic on at least one exam, divided by the total number of test takers

Overall, the discipline rate disparity at the state level was the rate of “OSS” between white and non-white students (a 6.6% disparity rate). The disparity in the rate of “ISS” between

white and non-white students was 4.9% at the state level. A complete view of the disparity rates can be seen in Table 2. Some rates were essentially the same, such as the rate of “No Action” for white and non-white students, the “ALE” rate for students with and without disabilities, the “Expulsion” rate for low-income and non-low-income students as well as for students with and without disabilities. Part of this is due to the fact that the overall rates for these categories are also extremely low (0.1% to 0.2%).

Table 2: Arkansas school district rate disparity, 2010-11 to 2012-13

Discipline Measure	Rate Disparity in 3-Year Average Discipline Rates				
	Overall Rate	Non-White/ White Disparity	Low-Income/ Non-Low Income Disparity	Students with Disabilities/ Students without Disabilities Disparity	Low Achieving/ Non-Low Achieving Disparity
ISS	7.6%	4.9%	3.1%	4.0%	1.4%
OSS	5.9%	6.6%	3.5%	4.5%	2.6%
Expulsion	0.1%	0.1%	0.0%	0.0%	0.0%
Corporal Punishment	3.2%	0.0%	1.8%	1.9%	0.2%
ALE	0.2%	0.3%	0.2%	0.0%	0.1%
No Action	0.2%	0.0%	0.1%	0.1%	0.1%
Other	2.4%	1.3%	0.5%	1.3%	0.4%

While specific schools may have disparity rates that are much higher or much lower than the average, it is important to consider the limitations in this data, and to be careful about how we interpret it. As more transparency and clarity is built into the data set, these reports will become more useful.

F. Recommendations and Next Steps

With more standardized data, we would be able to do a more thorough analysis of what’s really going on in schools. We would recommend schools and districts be required to report when they refer students to law enforcement authorities as a disciplinary measure, as to build transparency into this practice. Along the same lines, schools should be required to limit the amount they classify infractions as “Other” and have a place to write in and explain what “Other” means. In doing so, it will help us understand some of the differences in how schools are reporting this data.

In addition, we believe there is potential for a lot more research and analysis on this data. We have provided district level data here, but we can aggregate this data at a school level and may want to compare between elementary, middle, and high schools, or across regions. We can do further analysis by different groups of schools, such as splitting the schools into quintiles by descriptive factors such as income, demographics, enrollment, student achievement. In addition,

we could take a look at the relationship between the infraction and the action taken, perhaps to get a view of the relative severity of act and consequence. We may also be able to do some regression analysis to see what factors in the discipline, demographic, and assessment data are the most highly related to student outcomes such as achievement on standardized tests, both at the individual and school level. Lastly, a thorough review of the literature can highlight potential resources and strategies to build positive school culture and to combat disparities in discipline.

G. Description of Appendices

Appendix A: Overall 3-Year Average Discipline Rates by District

Contains district level three-year average (2010-2013) discipline rates for each discipline measure (ISS, OSS, Expulsion, Corporal Punishment, ALE, No Action, and Other). Also includes three-year average district enrollment and 2011-12 and 2012-13 ESEA Status.

Appendix B: 3-Year Average Discipline Rates by District and Subgroup

Contains district level three-year average (2010-2013) discipline rates for each discipline measure (ISS, OSS, Expulsion, Corporal Punishment, ALE, No Action, and Other) by subgroup (white, non-white, low-income, non-low-income, students with disabilities, students without disabilities, test takers achieving basic or below basic on any test, and test takers not achieving basic or below basic on any test).

Appendix B also includes three-year average district enrollment, demographic districts (e.g. district % white, district % non-white), and 2011-12 and 2012-13 ESEA Status.

Appendix B consists of 7 sections:

- B1 – ISS 3-Year Average Discipline Rates by District and Subgroup
- B2 - OSS 3-Year Average Discipline Rates by District and Subgroup
- B3 - Expulsion Average Discipline Rates by District and Subgroup
- B4 – Corporal Punishment Average Discipline Rates by District and Subgroup
- B5 – ALE Average Discipline Rates by District and Subgroup
- B6 – No Action Average Discipline Rates by District and Subgroup
- B7 - Other Average Discipline Rates by District and Subgroup

Appendix C: 3-Year Average Discipline Rate Disparity by District

Contains district level three-year average (2010-2013) discipline rate disparity (the difference between the rate for two mutually exclusive subgroups) for each discipline measure (ISS, OSS, Expulsion, Corporal Punishment, ALE, No Action, and Other). Disparity analysis consists of comparisons between the following subgroups:

- Non-white/white
- Low-income/non-low-income
- Students with disabilities/students without disabilities
- Students achieving basic or below basic on any test/students not achieving basic or below basic on any test

Appendix C also includes three-year average district enrollment and overall rates for each discipline measure.

State Board of Education

Division of Learning Services

July 2014 Report

Dr. Debbie Jones

Curriculum & Instruction

Committees of teachers are working this summer to revise the curriculum frameworks for all areas of the fine arts and social studies, K-12. These committees are able to reference recently released work from national partner organizations that align states in terms of student expectations in each of these content areas.

The fine arts committee was able to review and study the National Core Arts Standards, which address dance, media arts, music, theatre and visual arts as they revised the Arkansas curriculum frameworks. The work was led by a writing team from over 25 states and 10 partner organizations. They are available at www.nationalartsstandards.org. Ms. Lana Hallmark, fine arts program advisor for ADE, engaged in this work and solicited State input on the draft standards and is facilitating the work for ADE.

The social studies committee was able to review the College, Career and Civic Life (C3) Frameworks for Social Studies State Standards. This document offers, "Guidance for Enhancing the Rigor of K-12 Civics, Economics, Geography and History." This work was facilitated by the National Council for the Social Studies and represents joint efforts of sixteen partner organizations. This document is permanently housed at www.socialstudies.org. Ms. Maggie Herrick, social studies program advisor for ADE, worked with these organizations on the development of the document including securing state input on the standards, and is facilitating the work for ADE. These documents will be checked for vertical and horizontal alignment and be ready to present to the State Board of Education for consideration of adoption in late 2014 or early 2015. Once approved by the State Board, these revised frameworks will be used by schools to develop curriculum beginning in the 2015-2016 school year.

Ms. Michele Snyder, science program advisor for ADE, will update the State Board on Arkansas K-12 Science Standards.

Assessment Updates

Dr. Pamela Byrd will update the State Board regarding performance on the National Assessment of Educational Progress (NAEP). Referred to as “the Nation’s Report Card,” performance is reported for individual states and by the nation as a whole, not by individual student or school district.

Ms. Melody Morgan will update the State Board regarding PARCC assessment procurement and/or state-initiated request for proposal details.

ACSIP Pilot

School districts were invited to participate in the pilot of a new Arkansas Comprehensive School Improvement Plan (ACSIP) process, which is designed to change the focus of ACSIP from compliance to school improvement. The pilot districts will utilize the same software as Priority and Focus schools use to submit plans.

State Board of Education

Dr. Debbie Jones, Assistant Commissioner

Division of Learning Services

Report: July 2014

Curriculum & Instruction

Standards serve as the roadmap for instruction in Arkansas schools. Therefore, revising Arkansas Curriculum Frameworks every six years is a priority of the Arkansas Department of Education (ADE)-Division of Learning Services and a requirement mandated by State Board rules. All curriculum framework revisions include Arkansas educators, input from higher education and the Arkansas Department of Workforce Education, a review of national and state standards from across the country and expert reviewers' of the final framework.

The ***Framework Revision Cycle (Appendix A)*** shows the framework revision continuum from the planning stage to implementation in the schools for each subject area. As noted on the chart for this summer, committees are working on revising Arkansas fine arts and social studies frameworks. Each group has worked one week in June and will meet again in July to complete the committee revision process.

Fine arts and social studies documents will be edited for vertical and horizontal alignment and presented to the State Board of Education (SBE) for consideration of adoption in late 2014 or early 2015. Once approved by the SBE, schools will implement these frameworks in the 2015-2016 school year.

Fine Arts

Facilitator: Lana Hallmark, Fine Arts Curriculum Advisor

A committee of forty-nine fine arts educators met June 16-20, 2014 to revise Arkansas Fine Arts Frameworks and write additional high school fine arts courses. The committee was divided between the four artistic disciplines of visual art, music, theater, and dance. They began their work by investigating fine arts standards from other states, studying new national arts standards, and discussing the Common Core State Standards and disciplinary literacy in fine arts classrooms. The committee will reconvene July 7-11, 2014 to finish their work.

The fine arts committee was able to review and study the National Core Arts Standards both before and during their committee work. The work was led by a writing team from over twenty-five states and was led by ten partner organizations. They are available

at www.nationalartsstandards.org. The national standards served as a tool to build upon in the committees' work. Lana Hallmark, fine arts program advisor for ADE, engaged in this work and solicited State input on the draft standards, and is facilitating the work for ADE.

Visual art and music frameworks have been revised on the regular six-year rotation, most recently in 2008. Theater and dance, however, have not been updated since the frameworks were written in 1994.

One goal of the committee is to make the Arkansas Fine Arts Frameworks consistent and user-friendly by using identical strands and content standards across disciplines and grade levels, before creating student-learning expectations that are specific to each discipline and grade level. The shared strands reflect the creative processes that form the basis of the new national standards.

Another goal of the committee is to provide one-semester courses in each of the four disciplines, including a survey course in each that will satisfy the half-credit of fine arts required for graduation. School districts have experienced difficulty accommodating students who only want to take the basic half-credit into the courses that were available in the past.

Social Studies

Facilitator: Maggie Herrick, Social Studies Curriculum Advisor

The social studies committee was able to review the College, Career and Civic Life (C3) Frameworks for Social Studies State Standards. This document offers, "Guidance for Enhancing the Rigor of K-12 Civics, Economics, Geography and History." This work was facilitated by the National Council for Social Studies and represents a joint effort of 16 partner organizations. This document is permanently housed at www.socialstudies.org. Maggie Herrick, social studies program advisor for ADE, worked with these organizations on the development of the document, including securing State input on the standards, and is facilitating the work for ADE.

In June, a committee comprised mostly of classroom teachers, but including higher education and community professionals, such as Economics Arkansas and Arkansas History Commission began the revision process. The committee will meet again in July to complete the revision process.

Science

Facilitator: Michele Snyder, Science Curriculum Advisor

The State Board of Education (SBE) endorsed Next Generation Standards in the April 2014 SBE meeting following a State committee's evaluation of the standards. Since the State committee's evaluation, Dr. William Penuel, University of Colorado and Dr. Philip Bell, University of Washington have been contracted by the ADE Division of Learning Services to review the current Arkansas Science Curriculum Frameworks for K-8, Biology, Chemistry, Physical Science, and Physics and to provide recommendations that will inform the K-8 and 9-12 committee work. A science committee will convene this month to evaluate the endorsed standards, expert opinion and instructional units. Edited and aligned science frameworks will be recommended to the SBE for approval mid-year 2015 with the goal of a gradual implementation: grades K-4, 2016-2017; grades 5-8, 2017-2018; grades 9-12, 2018-2019.

ASCIP Pilot

The current Arkansas Comprehensive School Improvement Plan (ACSIP) software system is reaching its capacity as the State has experienced technical problems with the software. Seeking a solution to replace the outdated system, school districts were invited to participate in the pilot of a new ACSIP process. This pilot is designed to change the focus of ACSIP from a compliance process to school improvement process and investigate improved software options. Thirty-five schools and two charter schools (**Appendix B**) were selected to participate in the pilot based upon the desire to provide a balanced representation of district size and location.

The pilot program participants will submit the district ACSIP and all building-level ACSIP plans using Indistar software, which is designed to decrease the amount of extensive paperwork and provide a focused school improvement plan. ADE began utilizing Indistar for Parental Involvement Plans in 2010 and expanded to Priority and Focus school ACSIP plans in 2011.

Assessment Updates

Arkansas NAEP Summary for Math and Reading 2013

The National Assessment of Educational Progress (NAEP) is the largest, nationally representative and continuing assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, U.S. History, and beginning in 2014, in Technology and Engineering Literacy (TEL).

NAEP provides results on subject-matter achievement, instructional experiences, and school environment for populations of students (e.g., all fourth-graders) and groups within those populations (e.g., female students, Hispanic students). NAEP does not provide scores for individual students or schools, although state NAEP can report results by selected large urban districts. NAEP results are based on representative samples of students at grades 4, 8, and 12 for the main assessments.

**Proficiency and Basic levels on NAEP are not comparable to the Proficiency and Basic levels identified on Arkansas Benchmark Assessments.*

GRADE	MATH	READING
4	<p>In 2013, the average score of fourth-grade students in Arkansas was 240. This was not significantly different from the average score of 241 for public school students in the nation.</p> <p>The percentage of students in Arkansas who performed at or above the NAEP Basic level was 83 percent in 2013. This percentage was not significantly different from that in 2011 (81 percent) and was greater than that in 1992 (47 percent).</p>	<p>In 2013, the average score of fourth-grade students in Arkansas was 219. This was lower than the average score of 221 for public school students in the nation.</p> <p>The percentage of students in Arkansas who performed at or above the NAEP Basic level was 66 percent in 2013. This percentage was not significantly different from that in 2011 (63 percent) and was greater than that in 1992 (56 percent).</p>
8	<p>In 2013, the average score of eighth-grade students in Arkansas was 278. This was lower than the average score of 284 for public school students in the nation.</p> <p>The percentage of students in Arkansas who performed at or above the NAEP Basic level was 69 percent in 2013. This</p>	<p>In 2013, the average score of eighth-grade students in Arkansas was 262.
