

CELEBRATING MIGRANT MOMENTS!

WHAT IS THE GOAL OF MIGRANT EDUCATION?

The goal of the Migrant Education Program is to ensure that all migrant students reach challenging academic standards and graduate with a high school diploma (or complete a GED) that prepares them for responsible citizenship, further learning, and productive employment.

MSIX for Parents

On the second week of March, we held Statewide Zoom meetings with Migrant parents about Migrant Students Information Exchange (MSIX) and how the system can benefit them as parents and how it can benefit their children.

In collaboration with the six Migrant Co-Ops, parents received a copy of their child's MSIX report, and they were able to see their child's progress, courses are taken and check for any spelling mistakes.

Before the meeting ended, parents expressed the meeting was most informative and helpful.

We want to thank the Specialist, the tutors, and everyone involved in helping us organize these meetings.

Thank you for your leadership!
