## **2022 School, District, and State Report Cards Released**

**LITTLE ROCK** — The Arkansas Department of Education's Division of Elementary and Secondary Education released today the 2022 Report Cards for schools, districts, and the state. The reports reflect available school performance data for the 2021-2022 school year.

Report card data are pulled from school district certified cycle and graduation data submitted to DESE. These reports, which are required by state and federal laws, are released as data are available and serve to communicate a school's progress to the public. Colored indicators in the report cards reflect the current data status for each module. All modules will be completed and uploaded to the My School Info website by April 15, 2023.

The report cards serve as a communication tool to encourage dialogue and inform decisions within each school community. School-level improvement plans and district support plans may be updated as schools and districts review their data. All stakeholders are encouraged to participate in these discussions.

After exploring the report cards, stakeholders are encouraged to complete the following survey to provide feedback to DESE, as well as suggestions for improvement: <https://bit.ly/3FDxiPg> (English) and <https://bit.ly/3uY57FU> (Spanish).

The reports are available at the Report Card tab on the My School Info website: (<https://bit.ly/3V5WpjA>), Additional information about the report cards is available at <https://bit.ly/3hrfDm5>. To learn more about the different reports published by DESE, visit <https://bit.ly/3YrHGIQ>.
