PROCEEDINGS

CHAIRMAN SUTHERLIN: So, good morning. The
September 19, 2023, meeting of the Charter
Authorizing Panel is called to order. I'd like to
welcome everyone to the Department of Education, and
ask that you please silence all your electronic
devices. The goal is to facilitate a fair and
responsible hearing; so, therefore, I ask that each
person speaking please state your name and title for
the record. I ask that you continue to speak clearly
into the microphone throughout your presentation for
the benefit of the Panel, this audience, and the
viewing audience. This meeting is being livestreamed and recorded, and a transcript of the
meeting will be posted on the DESE website.

All right. Good morning. Good morning to our Panel. And I believe Mr. Davis is online.

CONSENT AGENDA

2.3

CHAIRMAN SUTHERLIN: We have a consent agenda before us today. If there are no questions, then I'll accept a motion to pass the consent agenda.

DR. WRIGHT-McMURRAY: So moved.

MS. SARACINI: Second.

CHAIRMAN SUTHERLIN: It's been moved and seconded. All those in favor?

1	DR. WRIGHT-McMURRAY: Aye.
2	MS. SARACINI: Aye.
3	CHAIRMAN SUTHERLIN: Mr. Davis, I'm not sure if
4	we can hear you.
5	Oh, here we go. So we'll try that one more
6	time.
7	All those in favor?
8	DR. WRIGHT-McMURRAY: Aye.
9	MS. SARACINI: Aye.
10	CHAIRMAN SUTHERLIN: Any opposed? Any
11	abstentions?
12	Did anybody see Mr. Davis's vote? I don't think
13	we could hear him.
14	Can you hear us, Mr. Davis? We're not able to
15	hear you just yet.
16	I know he's saying something.
17	MS. SARACINI: I know. He was saying something.
18	CHAIRMAN SUTHERLIN: Could we if we could put
19	him back up on the screen, what I can do is ask him
20	to give me a thumbs-up, if that's a
21	Mr. Davis
22	(COURT REPORTER'S NOTE: Mr. Davis gave a
23	thumbs-up.)
24	CHAIRMAN SUTHERLIN: Ah, there we go. There we
25	go. All right. Thank you very much. The motion

passes.

2.3

HEARING PROCEDURES

CHAIRMAN SUTHERLIN: All right. So, Ms. Haywood, if you'd like to come forward.

MS. HAYWOOD: Good morning. My name is Kalee
Haywood and I am a representative from Legal Services
with DESE. And today I'm just going to review our
general operating procedures for the action agenda.

As I'm sure you all already know, the applicant charter school will get 20 minutes to present their side. And if there are any opposing sides, they will get 20 minutes to present their opposition. And then if there is any opposition, the applicant charter will then get five minutes to respond to that opposition.

And so I think if you want to just swear in anyone who plans to present today, then we are good to begin.

1) CONSIDERATION OF RESPONSIVE ED ARKANSAS PREMIER HIGH SCHOOL

NORTH LITTLE ROCK AND PREMIER HIGH SCHOOL SPRINGDALE PUBLIC

CHARTER SCHOOL

MS. HAYWOOD: And first on our action agenda today we have the consideration of Responsive Ed Arkansas Premier High School North Little Rock and Premier High School Springdale Charter Schools. They

2.3

are specifically requesting to waive Arkansas code annotated 6-17-2403(f)(2)(A)(i), concerning utilizing an amount of state funds equal to 80% or more of the amount allocated for school-level personnel salaries, in order to qualify for additional teacher compensation funds under the LEARNS Act.

And so that is what's first on our agenda, if you want to get everyone sworn in, Chair.

CHAIRMAN SUTHERLIN: Thank you very much.

MS. HAYWOOD: Thank you.

CHAIRMAN SUTHERLIN: All those who are planning on speaking on behalf of the charter, if you'd please stand and raise your right hand. All right. Do you swear that the testimony you're about to give is the truth, the whole truth, and nothing but the truth?

(ALL SPEAKERS ANSWERED AFFIRMATIVELY)

CHAIRMAN SUTHERLIN: All right. Thank you very much.

MR. FELTON: Good morning. My name is Dennis Felton, Junior. I serve as the State Director of Premier High Schools of Arkansas.

So this presentation that I have up is actually for the next agenda item. And so if it's okay with the Panel, I just wanted to kind of talk through I guess our rationale. If you remember, House Bill 17-

[reverb] -- House Bill 1795, which required schools 1 to spend 80% of -- allocate 80% to schools of our 2 personnel salaries. And in that legislation, it also 3 gives the charter the ability to be able to waive it, 4 5 if it would negatively impact the students' safety, the fiscal stability, or education programs offered 6 7 by the school. And so if you've had a chance to look 8 in your packet, we submitted a couple of scenarios within our budget. And one showed you what does it look like with the LEARNS funding, and then what the 10 scenario looks like without the LEARNS funding. 11 so we think that's evident that it would impact our 12 13 fiscal stability, as well as the offer of education programs that we're trying to do at Premier High 14 15 School. 16 Other than that, I'll entertain any questions or 17 18 CHAIRMAN SUTHERLIN: Any questions, Dr. Wright-19 McMurray? DR. WRIGHT-McMURRAY: (Shaking head from side to 20 21 side.) CHAIRMAN SUTHERLIN: Ms. Saracini? 22 2.3 MS. SARACINI: No. 24 CHAIRMAN SUTHERLIN: Mr. Davis? Mr. Kim Davis? MS. SARACINI: 25 It looks like he's muted.

1	CHAIRMAN SUTHERLIN: Oh, we think you're muted
2	on your end.
3	So he can't hear us either? Maybe put it in
4	chat.
5	DR. WRIGHT-McMURRAY: He just said he can't hear
6	the sound.
7	CHAIRMAN SUTHERLIN: Oh, can't hear the Panel.
8	DR. WRIGHT-McMURRAY: Or moves in and out,
9	that's what the comments were.
10	CHAIRMAN SUTHERLIN: Yeah. It's stating they're
11	getting audio in and out on the Zoom.
12	DR. WRIGHT-McMURRAY: They're not saying
13	anything, but
14	CHAIRMAN SUTHERLIN: Yeah.
15	MS. MUNDELL: Try it now.
16	CHAIRMAN SUTHERLIN: Mr. Davis, can you say
17	something?
18	DR. WRIGHT-McMURRAY: He says that they're he
19	can't hear us.
20	CHAIRMAN SUTHERLIN: Mr. Davis says he can't
21	hear us. Test, test. Testing. Test, test.
22	Testing, one, two, three. Testing, one, two, three.
23	MR. DAVIS: Can you all hear me?
24	CHAIRMAN SUTHERLIN: Yes. Yes.
25	MR. DAVIS: Okay. I can hear you now.

1	CHAIRMAN SUTHERLIN: Great.
2	MR. DAVIS: Are you saying anything right now?
3	DR. WRIGHT-McMURRAY: No, we're not.
4	MR. DAVIS: Okay. Okay. It's going in and out.
5	It's a bit muddled, but it appears to be better.
6	CHAIRMAN SUTHERLIN: So did you have any
7	questions for Mr. Felton?
8	MR. DAVIS: I do not.
9	CHAIRMAN SUTHERLIN: Okay. Thank you very much.
LO	If there are no other questions, I'll entertain
L1	a motion.
L2	DR. WRIGHT-McMURRAY: I move approval of the
L3	amendment request.
L4	MS. SARACINI: I second.
L5	CHAIRMAN SUTHERLIN: So it's been moved and
L6	seconded. All those in favor?
L7	(UNANIMOUS CHORUS OF AYES)
L8	CHAIRMAN SUTHERLIN: All right. Motion passes.
L9	2) CONSIDERATION OF RESPONSIVE ED ARKANSAS DISTRICTS: PREMIER
20	HIGH SCHOOL OF ARKANSAS AMENDMENT REQUEST
21	CHAIRMAN SUTHERLIN: All right. Next item.
22	MR. FELTON: All right. Once again, I'm Dennis
23	Felton. I serve as the State Director of Premier
24	High Schools. We appreciate you all hearing us this
25	morning. As always

2.3

CHAIRMAN SUTHERLIN: Is it on, on the side? It doesn't look like -- oh, there you go. Let's try it again and see what happens. No?

MR. FELTON: We're having trouble with technology.

CHAIRMAN SUTHERLIN: Yeah.

MR. FELTON: All right. As always, I'm blessed to have my team here, Responsive Ed Arkansas, and be able to support our schools and our day-to-day operations.

Just to cover the two things that we're talking about today, our amendment request is to add additional Premier High School campuses in Russellville, Arkansas, and Fayetteville, Arkansas. And then as a result of that expansion, being able to increase our enrollment cap from 975 to 1225, to reflect that expansion.

At Premier High School, we continue to have the mission to provide hope to a group of students through a caring, mastery-based learning environment, that promotes a free society and cultivates moral and academic excellence.

Just reminding those that are familiar with

Premier High Schools or are new to Premier High

Schools who we serve, it is students that's seeking,

you know, a personalized learning environment; students who have already either become disengaged at their current high school or who are -- who dropped out of high school or are at-risk of dropping out of high school. We also see a trend of students who are working fulltime or part-time to support their home, as well as students who are already parents and have children of their own and need the flexibility.

And so as we continue to think about it, you may wonder why do we continue to expand and exist? And one of the things that we want to continue to do as a recognized best practice of personalized learning in Arkansas, is to continue to increase our impact across the state. As a result, we like to think that this decreases the dropout rate in communities, as well as increase the graduation rate in the communities that we serve. Ultimately, as Responsive Ed., we like to think that we're being responsive to our parents and students and the needs of those communities and just trying to replicate some of these best practices in Premier High School that we see in the communities that we already exist. And, most of all, Premier High School serves all.

So if you think about it right now, we're currently operating in Little Rock, North Little

Rock, Springdale, Fort Smith, Texarkana, and Premier High School Online. We're seeking to expand in Premier High School Russellville, as well as Premier High School Fayetteville.

2.3

So when you look at the district structure of Premier High Schools of Arkansas, currently there are four schools under that district. With the addition of Premier High School Russellville and Fayetteville, that will add two additional campuses to that district, which will total six campuses.

If you look at the enrollment cap breakdown -if you remember, I was with you all a few months ago
and we kind of -- we cut those caps down to make it a
little bit more realistic to the school size. And so
we've continued to increase our enrollment; so I made
this slide, in particular -- because if you look at
your enrollment packet, when I submitted this
amendment just over 35 days ago, there were 422
students served in this district -- and just note, it
doesn't include the two other Premier High Schools.
And then, within 35 days we've already seen almost
100 more students enroll in our schools. And so I
thought that was pretty cool to show you all that
even though I submitted this 35 days ago, we still
continue to see interest in Premier High School in

the communities across Arkansas.

21

22

23

24

25

So if you're looking at the proposed breakdown, we've just added Fayetteville, with 175, and added Russellville, with 75 to our enrollment cap. It gives us a total of 1225.

That just kind of shows you a timeline on the expansions. We're excited. We're celebrating 10 years here in Arkansas, and being able to make an impact of students. And you see over the years how we've been able to continue to expand and -- expand our mission and vision by making an impact in more and more communities in Arkansas. And so, if you remember, I came to you all a couple of years ago; we started this five-year plan that we wrote in our federal CSP application to be able to add these campuses and opportunities in Arkansas. And so when we're sitting here, talking about Russellville and Fayetteville, that is just the continuation of that plan to expand in Arkansas. And so the cool thing about it, we like to think that we'll continue to spread our impact and our mission and vision to touch different communities in Arkansas, as we grow and expand.

One small note, we're currently serving over 700 students across the state of Arkansas. And with this

21

22

23

24

25

expansion -- maybe I'm being optimistic, but I like to think that we'll be impacting 1,000 students within the next year.

So we look -- just going back to our 22-23 school year, we were blessed to be able to award 129 high school diplomas to students who otherwise may not even have that opportunity. We continue to be able to serve students who have previously dropped out of high school. We're excited about the CTE partnerships we have in which students are earning industry-based certifications. We implemented JAG in a couple of our schools last year, piloted. then, excited about seeing the results that we're seeing from JAG, as well as work-based learning. then those of you who are familiar with our charter know that community service learning hours is a requirement of our charter, and so we continue to see students serve their community and give back in the communities that they live in. And one of the highlights for me, this past May, was being able to attend six Premier High School graduations. And when I did my guesstimate of how many families were there, it was over 1800 families within those six graduations, which I think speaks volumes to the work that we do in the communities.

Looking at the schools in review, Little Rock graduated 14 students. We also implemented not only JAG, but a drone program there, as well as partner with a cosmetology school. That school was also -- participated in the PEER Grant Student Growth program that's authorized and governed by the State of Arkansas, in which basically the schools have NWEA MAP reading and math goals. And the school had to meet those goals in order to receive the PEER grant funding. So we're excited that North Little Rock and Little Rock were able to participate in that program and demonstrate those gains.

Fort Smith, first operation last year, graduated 20 students. And we're excited about our partnership with the PEAK Center in Fort Smith Public Schools, as well as University of Arkansas Fort Smith.

Texarkana, in this first year of operation, last year graduated six students. And we're excited about our partnership there with the University of Arkansas Hope/Texarkana and our JAG implementation.

Premier High School Online, which last year we graduated 37 students.

Our Springdale campus, we graduated 21 and we implemented the work-based implementation there. And then we're excited about the 23-24 school year

because we've just partnered with the EAST Initiative and we're offering the EAST program in our Springdale campus.

16

17

18

19

20

21

22

2.3

24

25

And then our North Little Rock campus, we graduated 31 students and we implemented JAG. And I spoke to what we did with the PEER Grant and the NWEA MAP scores.

And so one of the things that -- to kind of sum it up, our success, we're excited we're seeing improvements in student engagement and attendance. Because we know students -- the more they're at school, the better their attendance, the better we see improvement outcomes. We've talked about the NWEA MAP growth, which we seen last year, as well as we're proud of our state assessment participation. You guys remember, I guess this time last year we were here -- Dr. Sutherlin, you were a person that was leading that team -- and there was concern about our participation in the state assessment. And we're excited about seeing those results come out; we have schools that hit 100% this year, and the rest of the schools were in the 90th percentile. So we like to think that -- I would thank this team, as well as the principals in the building, the staff that -- they worked hard to meet those goals.

19

20

21

22

23

24

25

And then we continue to brag about our community partners, our CTE partnerships, and higher ed. partnerships we'll continue to explore.

And so thinking about these satellite campuses that we are opening, just kind of letting you know that we continue to offer our CTE opportunities and we continue to serve breakfast and lunch daily. We're finding out students in these communities like the smaller high school; they like the personalized learning approach. We complimented that with even going to the next level -- okay, how do we do innovative, what about the students who have jobs, what about the students who are looking for more flexibility. And so we've challenged ourselves on school start times; and so some students that need to come in to school later in the day, who are older, we've opened that opportunity. We noticed there's a trend of students who are working after-hours, and so we've got teachers and engagement specialists that are working after-hours to be able to support students who are no longer at the school, are at home learning.

To just remind you again, I talked to you a couple of years ago about Premier 2.0. And continuing this plan, in adding a school in

2.3

Russellville and Fayetteville, is continuing that vision of Premier 2.0. We're trying to continue to improve and sustain a high-quality school model; we want to continue to improve student outcomes by improving the student's experience; we want to continue to offer personalized learning with live instruction; that post-secondary support -- talking about what they're going to do after high school, start making those plans about after high school; offer concurrent credit opportunities through our partnership with Arkansas Tech; as well as the Minimester which is essential summer school, giving the students opportunity to earn those credits that they hadn't earned or to get caught back up to graduate on time.

I talked about, kind of, the EAST Program, the

JAG program we've implemented. We're still committed

to provide -- providing our staff with high-quality

professional development, building leadership

capacity, as well as growing and building our

teachers as well. And so I didn't mention, but a

part of that PEER Grant also gives us the opportunity

to be able to have the resources to recruit teachers.

At the same time, we have resources to be able to

empower them to put teachers in leadership roles and

give them leadership opportunities.

So, why Fayetteville, why Russellville?

Parent interest is still high in Premier High School. As you know, we have a campus in Springdale, so the word gets out about what's going on in Springdale, as well as the other communities that we serve. And so we want to continue to find our niche and reach this forgotten population of students who have given up on public education, who have given up on the idea of earning a high school diploma, and provide them with something that's small, something that's personalized, something that's geared towards their strengths and weaknesses, and that's providing the services and the support that those students need in order to be successful.

We anticipate -- we've had conversations with Arkansas Tech, University of Arkansas, NWAC, as well as we're seeking to be able to partner with Fayetteville Public Schools, as well as Russellville School District. And so you're kind of seeing the comparison. When students are kind of making some of these choices, and you're looking at a school that has 80 or 100 students, and comparing it to the bigger high school, you know, ultimately, these students and parents are seeking something that's

more innovative, something that's personalized and small. And so the parents do enjoy the staff knows the student's name; the students know all the staff's name; the parent knows who to contact as far as the campus principal goes and has that direct connection and correlation.

And so, once again, these communities have been identified by the federal government as opportunity zones. And so we want to be able to not only stimulate the economy in these areas by providing educational opportunities and employment opportunities, but be able to kind of bridge those gaps in some of these students that are falling through the cracks.

We touched on partners in Russellville. We're excited about Arkansas Tech and visiting with their Career Center, and offering some CTE courses and pathways through them. We work hand-in-hand in Russellville and Fayetteville; we're already having conversations with the individuals in the juvenile justice system. For those, we work hand-in-hand with your judges, your probation officers, as well as your truancy officers, to be able to identify this population of students that we serve.

Similar in Fayetteville. If you're familiar

with our Springdale campus, we already partner with Northwest Technical Institute to be able to provide CTE courses and industry-based certifications, and so we continue to want to grow that. We continue to want to be a part of the Chamber of Commerce, and that way we're a part of that business community as well as, as a nonprofit, being able to spread our mission and vision amongst the community as well.

So we've been excited about the meetings we've had with those individuals in the community. And as they learn about us -- some of them were a little bit familiar about us already, but they've learned more about our plans. It's very encouraging when you go and have these conversations with these individuals to find out their needs in their community and then how do they see a Premier High School benefitting.

And so long-term, you know, I'll see you guys here in about four months for our renewal for North Little Rock. We will -- we do plan on adding North Little Rock to Premier High Schools of Arkansas district. And then we're here today talking about adding the two campuses for next year. And then we do still have the outstanding campus, which is Springdale, which will eventually merge in this district as well. And so you kind of see here I have

a vision to be operating 10 Premier High Schools by 2028, and having an impact between 1500 to 1600 students.

And so long-term goals, we just want to continue to partner -- partner with the community, partner with school districts, partner with the state, as well as continue to strive to meet all of our charter goals, as outlined in the charter application. We want to provide quality assurance and adequate support for all of our schools located in Arkansas.

I want to let you know that whereas we did not build this in our budget -- these two schools are supported by a plan we submitted to the Federal government, and we've been awarded \$1.4 million to open up both of these schools that have been identified in these opportunity zones.

And so as you'll kind of see in your packet, we are actively engaged right now with kind of working out some leases and potential sites for the school campus. And so I just kind of give you the timeline on what we plan to do. Just for the record, just know whatever site we do choose, we will come back before you and you will approve that site when we have that lease fully executed. And so we plan to spend the next 10 months preparing the school

facility and getting things ready for the first day of school.

Ultimately, this benefits parents, students, and the community. It's not about us; it's about being responsive to families in the state of Arkansas, that want this model. It's about being responsive to students in the state of Arkansas, who need this model.

And so I'll wrap this all up and say, Y'all, it's been 10 years. It's been a fun ride and we continue to be able to grow across this state; we continue to be able to see the impact that we're having across this state. And so, whereas, I remember just 10 years ago we graduated our first 10 kids here in Arkansas, and I spoke to you all about graduating over 130 kids this past spring, and anticipate graduating over 300 students this upcoming May. At Premier High School, we want to continue to spread our mission and vision and continue to make our impact.

And so, to sum it up, I'll back-up, we're seeking to add a campus in Russellville, a campus in Fayetteville, and increase the enrollment cap to support that expansion.

At Premier High School, we continue to keep

students at the front of our mind and everything we do is geared around the success of students and aiming to be responsive to the needs of the Arkansas communities.

CHAIRMAN SUTHERLIN: Thank you very much.

Any questions, Dr. Wright-McMurray?

DR. WRIGHT-McMURRAY: Thank you for your presentation and the additional information. A couple of mine were answered as you went through.

First question I kind of wanted to go back to, the anticipated enrollment increase that you're having, and then you showed the slide of the numbers that are in Fayetteville and the number of students that are in Russellville, and then where you'd like to carve out your group of students. What's guiding you to those numbers?

MR. FELTON: Typically, so we've been doing this 10 years in Arkansas. And so when I look at my historical data, when I look at my high school and I look at the 9 through 12 high school enrollment within the community, typically it looks like Premiers represent about 3 to 3.2 percent. And so there are also communities that's a little bit -- it's a little higher. So when I think about like a Texarkana community, Texarkana has about 1100 kids,

and so we're higher up towards your 4% in that community. And so when you look at Russellville, kind of running those numbers, you hang around 50 to 60; when you're in Fayetteville, you run those numbers, you hang around 90. But I'll tell you this, you know, we opened up those schools last year and those schools are already almost exceed -- getting closer to 100. And so I think a lot of it too is people are being recognizing the work that we're doing, and so they're -- you know, word of mouth. We're seeing more traction. So that's kind of how we -- I guess a guesstimate, not having a school open, going off historical data and the interest that we see in the other communities.

DR. WRIGHT-McMURRAY: Okay. Thank you.

And then next question that kind of came up -and this is just a clarifying question, something you
mentioned. And so you are up for renewal in four
months on your -- which campus?

MR. FELTON: This is Premier High School of North Little Rock.

DR. WRIGHT-McMURRAY: Okay. And you said you're going to fold that into your Little Rock --

MR. FELTON: I'm going to add this to Premier -- I'm going to add that campus to Premier High Schools

Arkansas charter. Basically, I'm trying to 1 consolidate them all. So I've got -- I'll get North 2 Little Rock in, and then next year I'm going to try to get Springdale in. And so in a year-and-a-half, 4 5 all the Premier High Schools will be under one district -- which I know these guys are not going to 6 7 complain about. We operate three separate school districts right now, so you can imagine the work that 8 involves. DR. WRIGHT-McMURRAY: So if this application is 10 approved, these two additional schools, will they be 11 a part of this district? 12 MR. FELTON: Premier High Schools of Arkansas. 13 That is correct. 14 15 DR. WRIGHT-McMURRAY: Okay. So you're not going 16 to have to come back and then ask for those to be folded in at a later time? 17 18 MR. FELTON: I will not. DR. WRIGHT-McMURRAY: Okay. 19 20 MR. FELTON: I'm trying to save y'all some 21 votes. 22 DR. WRIGHT-McMURRAY: Okay. Okay. And then, 23 last question, so on one of your slides you mentioned 24 that you have JAG programs on the Hope and Fort Smith 25 campuses. Is that something that you're anticipating

1 doing or are you guys already operating those 2 programs? 3 MR. FELTON: So last year we piloted Little Rock and North Little Rock. 4 5 DR. WRIGHT-McMURRAY: Uh-huh. MR. FELTON: This year we're piloting Fort Smith 6 7 and Texarkana. And so, yes, the plan would be we 8 would try to implement JAG in Russellville and Fayetteville as well. DR. WRIGHT-McMURRAY: Okay. But you say as of 10 11 right now you are operating your Hope and Fort Smith 12 MR. FELTON: 13 We are. We're currently offering 14 it right now. 15 DR. WRIGHT-McMURRAY: Okay. 16 CHAIRMAN SUTHERLIN: Ms. Saracini? MS. SARACINI: Thank you for your presentation. 17 18 I may have missed it, but I could not find it. I know that we don't look at your student test scores, 19 but we look at your graduation rates. So could you 20 21 kind of talk to us about your graduation rates, and 22 what are they? 23 MR. FELTON: I don't have that in front of me, 24 but I'm familiar with our graduation rates enough to 25 know that there's areas of improvement. As I talked

22

23

24

25

a little about who we are, the graduation rate is based on a four-year cohort, which means that it follows the student from 9th grade and it follows the student to 12th grade. Operating schools in Arkansas that attract students who have already been retained or dropped out of high school, similar, to a certain degree, it's going to work against you when evaluating yourself on a graduation rate. And so, Ms. Saracini, how we kind of like to look at it, it's our completers. Because a lot of our students that we are graduating, they're out of their cohort which works against us. If you think about the intervention of it, we may have a student that comes over in 9th or 10th grade to get caught back up. Well, unfortunately, the way the graduation rate is set-up, we're not going to get credit for students that we're helping to get back on-track, that goes back to the high school to graduate with their friends. And so we'll -- go ahead.

MS. SARACINI: So since you don't know that -then, as I'm over Ed Prep Programs I'm very aware of
enrollment and completers for Title 2. So what's
your completer rate? Do you have that information?

MR. FELTON: I do not have that in front of me, but I can get that information to you all.

MS. SARACINI: I'd like that. Because this is so important to these kids; this is their second chance, and we need to make sure that we get them where they need to be in the workforce. And so I just want to look at some kind of data. Thank you.

MR. FELTON: No problem.

CHAIRMAN SUTHERLIN: Thank you.

Mr. Davis?

MR. DAVIS: Yes. First of all, I would agree 100% with Ms. Saracini. It would be great if we can get that data as part of the presentation.

You mentioned, you know, in a short period of time you have seen significant interest and I think you talked about over 100 students that were interested, and I'm assuming across multiple campuses. Can you dig into a little bit on why you think that is the case? It appears to be that interest has grown more than it's ever grown and I'm interested in trying to dig into why families -- or what is resonating with families that have expressed this amount of interest in your model.

MR. FELTON: Often, when I talk about what we are doing I always go back to the flexibility that we have. We are trying to be flexible with our families and students that we know they have different

challenges outside of school. Mr. Davis, when I think about the marketing aspect -- you guys know I do a lot of marketing and outreach and communication. But to me, that's kind of -- that's the bigger picture of it. I always -- I joke with my people and say it's one thing that we can offer -- or we can run an ad or we can put a flyer out, but nobody controls how people feel that you serve. And so, I'm going to say word-of-mouth. I look at this data often and I'll have people say, Hey, I heard it on the radio or I saw this ad. But nothing supersedes the word-ofmouth. And I like to think that when you take care of families, when you take care of students, they're going to talk about it; they're going to spread the word; they're going to spread the good. And so in some of these communities, when you look at it, they don't really have a lot of options either. And so when you start thinking about hope and what does that mean to some of these families that I've been told that, you know, I'm not being successful or this high school is not working out, then some -- to a certain degree, you can kind of lose hope. And then when you have another option or another choice in these communities, then, to me, what happens is it reignites that hope; it reignites that family feeling

20

21

22

23

24

25

1

like, okay, this is not the end of the world, we have this opportunity. And so we're blessed we have great leaders that run our schools. We have good people that care about kids, that care about kids being successful. And to me, that's what drives the interest, as well as the outcomes. Because you guys think about what I'm sitting here saying; I'm talking about kids that are not in high school and we're trying to get them back in high school. And then, let alone, not just back in high school but believing again they can earn a high school diploma. unfortunately, y'all, these kids sometimes are on nobody's radar because they're not in school; they don't fall in the accountability; nobody cares, because they were supposed to have graduated two years ago.

And so, to answer your question, Mr. Davis, I think the word-of-mouth and the experience that students and families are having within our schools. Because I like to think the people -- they vote with their feet. We're an open enrollment charter, and so people are applying, they're showing interest; they want to be a part of this.

MR. DAVIS: Well, thank you for that.

There are a couple of things that I'd like to

25

MR. FELTON:

1

I think Ms. Saracini's point in regard to the data and having that data available is even more important because you do provide such a flexible model. And it's important that we really work to insure that that model is delivering for families. This is just me; I firmly believe that you should have data that's supported by stories, and you should have stories that's supported by data. The stories alone just doesn't get us what we need, nor does the data alone get us what we need. So it would be helpful in this presentation if we had some data, or even in your answer that you just gave if we had some data, to go ahead to support the story you just talked about. Hope and all those things are critically important, and we should always try to think about the role that that plays in helping families move forward. But at the same time, the accountability and the measures that need to be put in place is also very critical. So I just wanted to -- you know, you sort of mentioned that you'll be coming before us next time; I hope to get those fantastic stories, but I hope that they're supported by data. And I hope that sometimes you lead with data and then you layer those stories on as well.

Thanks for that feedback, Mr.

Davis. I will have data, because I'm working on five 1 tables. 2 3 CHAIRMAN SUTHERLIN: Any other questions, Mr. Davis? 4 5 MR. DAVIS: No other questions from me. CHAIRMAN SUTHERLIN: Okay. Thank you. 6 7 MS. SARACINI: Can I ask -- may I ask one other? CHAIRMAN SUTHERLIN: 8 MS. SARACINI: I think you may need to tell your 10 story, too. What may help us and kind of give us some insight is maybe, when you're talking about 11 career and technical, maybe the number of 12 certifications your students are leaving with. 13 mean that helps tell the story as well. That might 14 15 be helpful, another piece of data. 16 CHAIRMAN SUTHERLIN: Any other questions? 17 If there are no other questions, I'll entertain 18 a motion. DR. WRIGHT-McMURRAY: Can we have discussion? 19 CHAIRMAN SUTHERLIN: 20 Sure. 21 DR. WRIGHT-McMURRAY: Okay. I'm sensing that there are some members of the Panel that would like 22 to have a little bit more hard data to be able to 23 review prior to making a decision. So I would like 24

to gauge to see if that's the direction that we're

25

going in or --1 2 CHAIRMAN SUTHERLIN: I would agree --3 MS. SARACINI: I agree. CHAIRMAN SUTHERLIN: -- as far as the data is 4 5 concerned, because I think it's important to have that piece to back-up the story. 6 7 MS. SARACINI: I would concur. MR. DAVIS: So is it possible to make a motion 8 that we invite Premier to come back at a subsequent meeting within the next 60 days and receive the 10 information necessary for us to make an informed 11 decision? 12 CHAIRMAN SUTHERLIN: 13 Yes. MR. DAVIS: So I'd like to make that motion that 14 15 we invite Premier Academy to come back within the 16 next 60 days, at a subsequent meeting, and provide us with some additional information in order for us to 17 18 make an informed decision. 19 CHAIRMAN SUTHERLIN: All right. I have a motion 20 by Mr. Davis. Do I have a second? 21 MS. SARACINI: Second. 22 CHAIRMAN SUTHERLIN: A second by Ms. Saracini. All those in favor? 23 24 (UNANIMOUS CHORUS OF AYES) 25 CHAIRMAN SUTHERLIN: All those opposed?

1 All right. The motion passes. Thank you very much. 2 All right. We're going to actually -- in full 3 transparency, we're going to fill out both of our 4 5 voting sheets, one for the first --DR. WRIGHT-McMURRAY: Do we have to do one for 6 7 the second one? 8 CHAIRMAN SUTHERLIN: We should. 9 DR. WRIGHT-McMURRAY: Okay. 10 CHAIRMAN SUTHERLIN: Yeah. DR. WRIGHT-McMURRAY: Okay. 11 CHAIRMAN SUTHERLIN: Yeah. 12 So we'll take a few minutes just to fill out both of those voting sheets 13 and we'll --14 15 MR. FELTON: I just want to -- since I'm taking some notes, as far as the data requested, I got 16 graduation rate, I got state assessment scores, 17 18 completion rate. Is there any other data that the Panel is requesting to review at this next hearing? 19 CHAIRMAN SUTHERLIN: What I'd like to know is as 20 far as -- I'm looking at Premier High School of 21 22 Little Rock, Premier High School of North Little 23 Rock, and Premier High School of Springdale. There 24 are classifications -- federal classifications of CSI 25 and MRI, and I'd just like to know what are the plans that the charter has for getting out of those classifications.

MR. FELTON: So we're -- we've been working with the State. We've also partnered with APSRC, and so we've been blessed to be able to provide a literacy -- a literacy specialist, as well as literacy coaches that's helping, you know, review curriculum, make sure curriculum was aligned with the standards.

We've also -- we're partnering with consultants to do leadership coaching, as well as kind of drive some of these data-driven conversations. So we're looking at our state assessment score, as well as our NWEA MAP as well, and then be able to kind of work with teachers on driving lessons that's geared towards those deficiencies.

CHAIRMAN SUTHERLIN: And I think by the time you come back you'll have this year's data from the last testing cycle, so that should be able to help. The one thing that we didn't do in our motion was to determine is it the -- are we wanting to have that in the next Charter Authorizing Panel meeting? Was that the intent, Mr. Davis?

MR. DAVIS: That was my intent, or the next two panel meetings, whichever it fits on an agenda standpoint.

1 CHAIRMAN SUTHERLIN: MR. DAVIS: The next one would be -- if that's 2 possible, that would be great. 3 CHAIRMAN SUTHERLIN: Okay. All right. 4 5 you very much. 6 All right. We'll take just a few minutes to 7 fill out those voting sheets. 8 (A FEW MINUTES OF SILENCE) CHAIRMAN SUTHERLIN: Is everyone ready? Dr. Wright-McMurray. And this is on the first 10 11 vote that we took. Okay. On the first vote 12 DR. WRIGHT-McMURRAY: 13 for Premier North Little Rock and Springdale, I voted 14 for. I support the amendment request to allow 15 implementation of the LEARNS Act. CHAIRMAN SUTHERLIN: Okay. Ms. Saracini. 16 17 MS. SARACINI: I voted for to -- I vote to 18 approve the waiver to insure implementation of the 19 LEARNS Act. 20 CHAIRMAN SUTHERLIN: Okay. Mr. Davis. 21 MR. DAVIS: Yes. I vote in favor of the waiver 22 to insure the implementation of the LEARNS Act 23 funding. 24 CHAIRMAN SUTHERLIN: And then I voted for, to 25 approve the waiver, to insure implementation of the

LEARNS Act funding and retain teachers in the charter 1 without creating a negative impact. 2 All right. And then our second vote. Mr. 3 Davis, I'll start with you. 4 5 MR. DAVIS: So I support the motion to invite Premier to return to the Charter Authorizing Panel in 6 7 the next 60 days to provide additional information, in order to make a more informed decision. 8 CHAIRMAN SUTHERLIN: Thank you. Ms. Saracini. 10 MS. SARACINI: 11 I support the motion to invite Premier High School of Arkansas to return to the 12 13 board with data to support the expansion. 14 CHAIRMAN SUTHERLIN: And Dr. Wright-McMurray. 15 DR. WRIGHT-McMURRAY: Okay. I voted for. I support the motion to invite Premier High School to 16 return with additional data to support the expansion 17 18 request. 19 CHAIRMAN SUTHERLIN: And then I voted for the 20 motion to invite Premier High School of Arkansas to 21 return with data to aid in telling the story of the charter and its contribution to the students of the 22 state of Arkansas. 23 24 Thank you very much. 25 MR. FELTON: Thank y'all.

CONSIDERATION OF THE PINECREST PREPARATORY ACADEMY 1 2 FAYETTEVILLE NEW OPEN ENROLLMENT CHARTER SCHOOL APPLICATION 3 REQUEST 4 CHAIRMAN SUTHERLIN: All right. Mr. Reynolds. 5 MR. REYNOLDS: Good morning. Stephen Reynolds. 6 I'm a staff attorney with the Department. 7 So next up on the agenda we have the Panel's consideration of the Pinecrest Preparatory Academy 8 Fayetteville, a new open enrollment charter school application request. They submitted an application 10 to establish a new open enrollment charter school 11 beginning in the 2024-2025 academic year. 12 charter will follow the college prep education model. 13 14 Do we want to do the legal review after their 15 presentation, or before? 16 CHAIRMAN SUTHERLIN: We can do it after the 17 presentation. 18 MR. REYNOLDS: Okay. All right. 19 CHAIRMAN SUTHERLIN: All right. Will all those 20 who plan on speaking on behalf of the charter please 21 stand and raise your right hand? MR. GERMAN: We have people online, so --22 23 CHAIRMAN SUTHERLIN: Oh, okay. So let's see. 24 MR. GERMAN: They're standing up.

CHAIRMAN SUTHERLIN: Okay, there we go.

25

1	MR. GERMAN: Do you need to see the people?
2	Like Richard Moreno is one of ours, and Alexandra
3	Prieto is one of ours.
4	CHAIRMAN SUTHERLIN: Yes. If we could just get
5	them on camera for just a moment.
6	MR. GERMAN: Okay. They're across the hallway.
7	CHAIRMAN SUTHERLIN: Yeah.
8	MR. GERMAN: Alex?
9	MS. SALAZAR: They have to find that little
10	button.
11	CHAIRMAN SUTHERLIN: Yeah.
12	MS. SALAZAR: We all struggle with that.
13	CHAIRMAN SUTHERLIN: Oh, yeah.
14	MS. SALAZAR: It's hard to find that little
15	button.
16	CHAIRMAN SUTHERLIN: Yeah. We can always swear
17	her in at that time. Okay. If you'll raise your
18	right hand all right. Do you swear that the
19	testimony you're about to give on behalf of the
20	charter is the truth, the whole truth, and nothing
21	but the truth?
22	(ALL SPEAKERS ANSWERED AFFIRMATIVELY)
23	CHAIRMAN SUTHERLIN: All right. Thank you very
24	much. And you may begin your presentation.
25	MR. GERMAN: Pinecrest?

CHAIRMAN SUTHERLIN: Pinecrest. Yes.

Technology is always the challenge, MR. GERMAN: so --

My name is Todd German. I am the founding board chair of Pinecrest. I'm also the chairman of Summerset Academy, which is a sister organization. I've been doing that for a number of years. I want to thank you guys. And it was pointed out to me the application process for this charter was quite straightforward. I mean it's massive, but we've done this in a lot of states and your processes was quite good, okay, in our humble opinion. And we can't thank the charter school resource center enough; they helped prep us with this and their stuff was very helpful, we hope. So I'm personally excited because for years I worked for Centennial Bank, so I have an Arkansas connection, from Florida. And then I have a physician daughter in Bentonville, and a little granddaughter. So this hopefully will allow me to see them even more.

We have a very diverse team here today. about everybody on the founding board is either a principal or a board member of another charter; so we have that. Our intention would be to gradually replace that with a more local board, but we've just

found you need experts to get things going.

I'm going to turn it over to Carlos Alvarez and Elaine Clemente to kind of give you an idea of Pinecrest and the model. I'll let Carlos explain who -- I'll let them explain who they are, when they do it. And hopefully we'll have a couple of minutes at the end and I kind of want to give you a feel for how we're different than most other charter schools in the country and sort of our scale and size. And I guess I'm going to -- I was asked to be the traffic director here, so let's see if our -- here's our thing.

Carlos, why don't you come on and -- you guys, you and Elaine introduce yourselves and start your presentation, and we'll try to flick the slides when necessary. And we had some travel things; they were all going to be here, so we apologize to the board.

MR. ALVAREZ: Thank you, Todd.

Can you hear me all right?

CHAIRMAN SUTHERLIN: Yes, we can hear you.

MR. ALVAREZ: Carlos Alvarez, board chair and president of Pinecrest Academy, Inc. And I'm joined also by --

MS. CLEMENTE: Hi, everybody. My name is Elaine Clemente. I am the principal of Pinecrest Academy

South, down in Miami. And I'm also the associate director of Pinecrest Academy, Inc. network.

MS. CARBAJOSA: Good morning, everyone. My name is Graciela Carbajosa and I'm the principal at Hialeah, here in Florida. And I'm also going to be part of this board for the school in Arkansas.

MR. ALVAREZ: So, you know, the vision -- the vision and kind of -- I'd like to start with the vision and the mission of our network. Right? So -so our vision is we look at every student's ability to accelerate and move forward at their own individual pace. And part of our vision that encompasses and supports that is by setting high standards. And really, the big part of that is supporting our students through the process and the goal is for them to not only have academic growth, but also to reach a level of achievement. Right? And we know that if we need -- if we reach that level of achievement, it will foster an environment of success. And (inaudible) I will say is that our mission, right, is the acronym for what Pinecrest stands for, which is Providing Individual instruction, in a Nurturing environment, Ensuring College and career readiness, using the three R's --Rigor, relevance, and relationships to Empower

Students to become Tomorrow's global leaders.

Pinecrest Academy, Inc. has a track record. It's one of the third largest networks within our ESP and we've been in operation for 20 years. remember, you know, 20 years ago, we opened our first campus in 2000, and we had 200 students and only eight classrooms. And from there, we've grown to 26 schools, spread out throughout three states and service -- serving over 18,000 students. states where students are being served are currently in the great state of Florida, Nevada, and Idaho. your presentation -- and I won't go through them all, but you will see the list of all the schools -- all the Pinecrest Academy, Inc. schools throughout the three states that we serve.

We are elated about the opportunity to come into the great state of Arkansas, and do some of the amazing things that we're seeing being done in these three current states where we serve children.

I also want it to be known that Pinecrest Academy, Inc. is recognized as a high-performing system in the Florida Department of Education. With that being said, we have two Blue Ribbon Schools of Excellence, and I love the diversity of that because these two national Blue Ribbon schools are in both

the state of Florida, and the state of Nevada -- and one being Pinecrest Academy North Campus and the other being Pinecrest Academy Inspirada.

We aim to progressively start with a K-3 -- I'm sorry -- yes, a K-3, a 6, and a 9, and in the next three years ramp up a grade level, with a goal of, by 2028-2029, being a fully operating K-12, as is listed in our charter application. And I just serve in the capacity of the board chair. One of the things that I love, in working with the team here in Florida, working with the team in Nevada, is the structure that Pinecrest Academy has. We have the ability -and not only do we have the ability, but we actually -- we make it happen, to plan at a national level. And why am I saying this? Right? Like, you know, I can see, you know, as a new applicant coming in and we're in different states, you know, will Arkansas get the same support as Florida. And it's a very valid question. Will they get the same support as So we have annual national Pinecrest Nevada. Leadership Coalition meetings. We plan professional development at a national scale. We meet quarterly to talk about educational trends, familiarize ourselves with what's happening in our different states, and really have like collegial conversations

22

23

24

25

between our principals and our leadership teams about education in our states. We're very forwardthinkers. We like and we enjoy sharing best practices. What we love about that most is we get to learn from one another. We feel that no state is better than the other. But we feel as a network and as an organization, when we work together, at the end of the day the why is for the best interest of kids. Right? This is what our calling is. And sometimes people lose touch of why is it that we do what we're doing. And then we get all our colleagues involved and have conversations multiple times through the year, via Zoom, in person, about best practices, what are going to be the outcomes. Right? The outcomes are going to be -- it's going to be better for kids, and that's why we're here. Right? That's why we do what we do, because our greatest goal is to serve students at the best capacity that we can and provide every single student that we serve the quality education that they merit, both at the elementary, at the middle, and the high school level.

I've had the honor to work with Ms. Clemente as an assistant principal, years ago. And now life brought us back together, years ago, when I started serving as the board chair and the president. And I

can't think of anyone better than our Associate Lead Principal to tell you a little bit more about what our model is about, what distinguishes us from the rest, and really some of the accolades that support the model, the curriculum, the initiatives, and (inaudible). So with that being said, I'll pass it to Ms. Elaine Clemente, our Associate Lead Principal for Pinecrest Academy, Inc.

MS. CLEMENTE: Thank you, Mr. Alvarez.

I'm thrilled to be talking to you, all of you about Pinecrest Academy. Very near and dear to my heart. I've been working for Pinecrest for nine years and I -- as a principal, and I've also been through the Pinecrest network as a parent. So that makes me very proud that my child was educated in this wonderful system.

Pinecrest prides itself in the belief that all students can learn with appropriate support.

Pinecrest believes in the push-and-pull philosophy.

We push our high achievers, and we pull those struggling students with intervention support and our high achievers through enrichment. We have an established record of exceptional outcomes, implementing best practices that have yielded fantastic results, and we have proven success with

all types of students -- the minority students and non-minority students. And I'm here to talk a little bit about how wonderful our system is.

I know Mr. Alvarez mentioned that Pinecrest is a high-performing system in the Florida Department of Education. But also the Pinecrest schools in Nevada are rated as a five -- they have the 5-star rating; they have the STAR rating system and it is five-star rating in the network of schools in Nevada, as well.

We do have two schools that are Blue Ribbon.

One of them is in Las Vegas, Pinecrest Inspirada, and we have one in Miami, Pinecrest North. And most recently, four schools -- four schools in Nevada in the top 10 -- in the top 10 in the state of Nevada.

There's Pinecrest Horizon, which took number seven in the top elementary schools in Nevada. And there's Pinecrest Inspirada; it took number nine, as a top nine school in the state of Nevada, and that was the elementary one. And then we have two additional schools -- St. Rose, which was the number three in the state of Nevada, and also Pinecrest Inspirada middle school took number four -- number four in the state of Nevada.

So we're very excited that we have all these wonderful accolades. We also are very, very proud to

^

say that we have 100% -- most recently, 100% graduation rate in -- across our campus network. We are part of an accredited system through Cognia, and we're working towards a schoolwide, nationwide separate accreditation as well through that organization. Pinecrest Academy middle/high was named one of America's Best by U.S. News and World Report.

And, moreover, I want to talk to you a little bit about our assessment -- annual assessment data as a network. We are really proud to say that 75% of our students in grades 3 to 5 in our elementary school are reading at a 75% proficiency. In math, we have our students in the elementary setting doing math at 79% proficiency. Our middle school data, our students are reading at 70% proficiency, and high school, at 68% proficient.

A little bit more about our additional programs

-- we are really big in STEM. And if you visit any
one of our campuses, you're going to see how
intentional STEM is across our network. STEM is a
really big part, as we head deeper into our 21st
century. We do offer project -- one of our
curricular pieces is Project Lead the Way. We offer
it across the board in all of our network schools, K-

25

12. This provides students with project-based curriculum across elementary, across middle, and And this curriculum exposes and connects high. students with the STEM curriculum and career years in the future. You can walk into any Pinecrest and you will see STEM infused throughout the school, whether it's Project Lead the Way, whether it's robotics -which some of our schools have participated in the VEX IQ Work Robotics Championship, multiple years. Just this past year, we were able to send four schools to Dallas, Texas, to compete with students from all over the world. It's an amazing experience for all of our students and it gives Pinecrest notoriety in the STEM world. We also provide coding classes and some of our schools are even into the flight simulation program and [audio cuts out].

Not only do we provide rigorous curriculum -- a core curriculum and supplemental, we are STEM focused, but we also believe in the whole child. And one of our programs that we use across our system is Project -- I'm sorry -- Positive Behavioral Intervention Support, PBIS. We believe in promoting a culture of support through a tiered framework. We want our students to be well-rounded and we want to develop the whole child, behaviorally, academically,

socially, emotionally, and for their mental health. When we use this program with fidelity, we know that we can improve social/emotional competence, academic success, and even your school [Zoom audio cuts out]. It's the expectation that all of our students across the Pinecrest network are safe, respectful, and responsible.

MR. ALVAREZ: Thank you so much, Ms. Clemente.

If we can move on, I just want to also elaborate a little bit more on the support for the Pinecrest network, if you'll go to that last slide.

So like I began earlier in the presentation, this is just a point that Pinecrest network provides to all the schools that we serve in all the states. Right? And I think the big word to share here is really the collaboration where no school and no state is on its own island, where there is a structure of promoting collaboration at all instructional levels, with mentors, instructional coaches, and really experienced leaders. So we have the Pinecrest Leadership Coalition, which is made up here in the state of Florida, and we also have it in the state of Nevada, that works with Idaho and northern Nevada as well. The Pinecrest Leadership Coalition meets after all our board meetings as well. Both agendas are

drafted by our leaders, by our principals, administration staff. And those colloquial discussions take place there. And, again, like I mentioned earlier, we were critical thinkers during those meetings, we're problem-solvers, and any one of our principals or any one of our school leaders may have a best practice to share to support their other colleagues.

We do a network-wide professional development, so I did want to talk about that a little bit. know, we rotate all the different regions that we serve students; so Pinecrest/Florida, and just recently, really, on multiple campuses. And I'm talking about all our school leaders in Florida. There's multiple campuses in Nevada, and that's part of -- that's the national piece. Right? wide agendas were put together by all the principals and the discussions take -- took place to really continue not to have even a deeper understanding, but continue to understand and stay up with what's happening in Florida, what's happening in Nevada. То me, it's very important in my capacity that I understand what's happening in education in Nevada, and the folks in Nevada understand what's happening with education in the state of Florida. Right?

vice-versa. And that goes for Idaho, as well. We've done the opposite, too, where Nevada has come to central Florida. And that's why we're here in Arkansas. Right? We want to extend that olive branch and reassure you that that network support will continue within its rotations and incorporating Arkansas, as well.

The professional learning communities throughout our networks, as well, we will provide that in Arkansas, as well. It's structured within our Topics for professional development are feeders. spoken about at the state level, and professional development opportunities are also discussed and implemented at the national level. And just most recently we did a national STEM training, as a lot of our schools already have been deemed STEM certified by Cognia. And some of our schools are looking to pursue that distinction. And here are some of the things that -- from the network level, we coordinate at the national scale to make sure that there is professional development pieces in place for all our schools within the references, within the initiatives that they're pursuing.

MR. GERMAN: Carlos, I'm going to have to ask you to wrap it up. I think we're right at time.

MR. ALVAREZ: I'm going to pass it to Todd.

Todd, it's all yours. Thank you for your time.

MR. GERMAN: Yeah. Thank you, guys, for being so generous.

And if I could wrap-up simply by saying and to add to where -- what Carlos was saying is that while this is an application for Pinecrest, it is absolutely focused on Pinecrest. One of our greatest strengths as an organization and what makes us unique is kind of our hybridization; you know, we're not for-profit, we're not -- there is a for-profit component that is our education service provider, the academic group, and then there's the charter school management organization, which would be Pinecrest or Summerset or Doral, Mater, SLAM; we have CIVICA. is not unusual at all for a principal from one to go to another, back and forth. They usually eat it within their own school budgets, and it's amazing, the collaboration. They do it -- as Carlos said, they -- each network has an annual thing. have a national leadership team-building thing, which is one of the most productive things you've ever And that's where when we were going through some of our practice things and talking to the administration here in Florida, I know we have some

pretty big asks on the table, and they see what happens when something goes wrong. And that is really where our strength comes. We've never had a school fail. We have not hit it out of the park every time, but we keep at it. We had one in Nevada — I mean Arizona that has been a struggle, but it is finally working. We have schools from 100 kids into the thousands. We have schools with thousands of kids on the waiting list. We will not fail you; we will make you very proud.

So we're ready for any questions you all may have, and we look forward to an approval. So -- CHAIRMAN SUTHERLIN: Thank you.

Would we like to do the legal review now? So, Mr. Reynolds.

LEGAL REVIEW

MR. REYNOLDS: Again, this is Stephen Reynolds, attorney with the Department.

So this part is going to be a little tedious, so bear with me. All right. So this is the final legal review for the charter application. I'm going to take these in chunks.

CHAIRMAN SUTHERLIN: Okay.

MR. REYNOLDS: So the first topic requirement is related to ALE. The charter is seeking to waive

Arkansas Code Annotated 6-15-1005(b)(5), 6-18-1 503(a)(1)(c)(i), 6-48-102, 6-48-103, Standard for 2 Accreditation 2-1.1 -- 2-I-1, and the rules governing Student Special Needs Funding, just Section 4. 4 5 Department doesn't have any legal concerns with that waiver. 6 7 So topic number two is the Board of Directors. The charter is seeking to waive Arkansas Code 8 Annotated 6-13-608, 6-13-611, 6-13-612(c), 6-13-613, 6-13-615, 6-13-616(a), 6-13-617, 6-13-618, 6-13-10 619(a),(c),(d)(2)(a)[sic],(d)(4), 6-13-620(5), 6-13-11 622(b), 6-13-630, 6-13-634, 6-13-635, 6-13-1303, 6-12 13 14-101 et seq., which just the whole subchapter. The Department doesn't have any legal concerns with any 14 15 of these waivers. I would make one note, 6-13-635 was repealed by 16 Act 3 -- or 418 of 2023, so that law doesn't exist. 17 18 So if the charter is okay with it, we'll strike that. MR. GERMAN: That's fine. Yes. 19 Okay. So we'll just amend that 20 MR. REYNOLDS: from the final application. 21 22 CHAIRMAN SUTHERLIN: And the topic for those 23 waivers -- I'm sorry, I must've --24 It's Board of Directors. MR. REYNOLDS: 25 CHAIRMAN SUTHERLIN: Board of Directors. Okay.

MR. REYNOLDS: Yeah. So topic number three is the Class Size and -- excuse me -- Class Size and Teaching Load. It's Arkansas Code Annotated 6-17-812, Standard for Accreditation 1-A.5 and 1-A.6, and the rules governing Class Size and Teaching Load. The Department doesn't have any concerns with those -- legal concerns with those.

Number four is the Flag Display and it's -- the charter is seeking to waive Arkansas Code Annotated 6-16-105 and 6-16-106. And the Department doesn't have any legal concerns with those.

Number five is the Leased Academic Facilities.

And the charter is seeking to waive Arkansas Code

Annotated 6-21-117(2) through (5). And the

Department doesn't have any legal concerns with

those.

Number six is Library Media Service and Specialist. And so the charter is seeking to waive Arkansas Code Annotated 6-25-103(3)(d) and 6-25-104, and as well as the Standards for Accreditation 2-D.1 and 4-F.2. And the Department doesn't have any legal concerns with those.

Number seven is the Personnel Policies - Duty Free Lunch Period. The charter is seeking to waive Arkansas Code Annotated 6-17-111. The Department

2 3

23

24

25

doesn't have any legal concerns with those.

Number eight is the Personnel Policies - Daily Planning Period. The charter is seeking to waive Arkansas Code Annotated 6-17-114. The Department doesn't have any legal concerns with those.

Number nine is the Personnel Policies - Non-Instructional Duties. The charter is seeking to waive Arkansas Code Annotated 6-17-117. Department doesn't have any legal concerns with those.

Number ten is the Personnel Policies -Requirements. The charter is seeking to waive Arkansas Code Annotated 6-17-201(c). And the Department doesn't have any legal concerns with those.

Number eleven, the Personnel Policies -Committee on Personnel Policies, the charter is seeking to waive Arkansas Code Annotated 6-17-203, 6-17-205, and 6-17-209. The Department doesn't have any legal concerns with those.

Number twelve, Personnel Policies - Grievance Procedure, the charter is seeking to waive Arkansas Code Annotated 6-17-208, 6-17-210. The Department doesn't have any legal concerns with those.

Number thirteen is Personnel Policies -

Employment of Licensed Personnel. The charter is seeking to waive Arkansas Code Annotated 6-17-301(a) and (b). The Department doesn't have any legal concerns with those.

Number fourteen, Personnel Policies for Classified Employees, the charter is seeking to waive Arkansas Code Annotated 6-17-2301(c)(1) and (d)(2), 6-17-2032 [sic], 6-17-20 -- 2303, 6-17-2304, 6-17-2405. The Department doesn't have any concerns with those.

Number fifteen, the Personnel Policies - Website Posting requirements, the charter is seeking to waive Arkansas Code Annotated 6-11-129(a)(1)(B); Standard for Accreditation 3-A.2, only to the extent that the classified salary schedule must be published on the school's website; and the rules governing Documents Posted to School District and Education Cooperative Websites, sections 5-01.4, 5.01.5, 6.01, and 6.02. And the Department doesn't have any legal concerns with those.

Number sixteen, the Principal, the charter is seeking to waive Arkansas Code Annotated 6-17-302, and Standard for Accreditation 4-C.1 and 4-C.2. And the Department doesn't have any legal concerns with those.

Number seventeen, Report Cards, the charter is seeking to waive Arkansas Code Annotated 6-15-903(a)(2). The Department doesn't have any legal

concerns with those.

2.3

Number eighteen, Required Instruction, the charter is seeking to waive Standard for Accreditation 1-A.1.3. The Department doesn't have any legal concerns with that one.

Number nineteen, Superintendent requirements, the charter is seeking to waive Arkansas Code

Annotated 6-13-109, 6-13-427, and Standard for

Accreditation 4-B.2, and the rules governing the

Superintendent Mentoring Program. And the Department doesn't have any legal concerns with those.

Number twenty, School Counselor, the charter is seeking to waive Arkansas Code Annotated 6-18-2003(a)(2)(A) and the Standard for Accreditation 4-E.1. The Department doesn't have any legal concerns with those.

Number twenty-one, Teacher Licensure, the charter is seeking to waive Arkansas Code Annotated 6-15-1004, 6-17-309, 6-17-401, 6-17, 418, 6-17-902, 6-17-908, 6-17-919, Standard for Accreditation 4-D.1, and the rules governing Educator Licensure, just Section 7. And the Department doesn't have any legal

concerns with those. I will point out, the statute 6-15-1004 is the AQT statute. So the AQT licensure requirements can be waived, but the rules governing Arkansas Qualified Teacher can't be waived; it's one of the prohibited waivers. So I just wanted to make

a point of that.

2.3

Twenty-two, Gifted and Talented, the charter is seeking to waive Arkansas Code Annotated 6-20-2208(c)(6), 6-42-109, Standard for Accreditation 2-G.1, and the rules governing Gifted and Talented Program Approval Standards. And the Department doesn't have any legal concerns with those.

And with that, I am done with the legal review.

CHAIRMAN SUTHERLIN: Thank you very much.

All right. Dr. Wright-McMurray, do you have any questions?

DR. WRIGHT-McMURRAY: Yes. So just a clarifying question on one of the waivers, so for School Counselor, in your statement -- and I'm hoping I have the correct copy -- that you're wanting the waiver so that you'll be able to hire someone that is in the process of trying to become a school counselor; they may not directly be already certified to do so. So is that limited to just those individuals or will this waiver allow hiring someone who is not? And so

is that language going to tie them to that or could 1 they potentially get someone who is not even in 2 process? Just trying to make sure I'm clear on that. 3 CHAIRMAN SUTHERLIN: Mr. Reynolds. So the 4 5 question is would the language that's here in the rationale tie them to hiring someone that is in 6 7 process --8 MR. REYNOLDS: Uh-huh. CHAIRMAN SUTHERLIN: -- of obtaining their counselor license or could they hire anyone based on 10 this waiver? 11 I'm not sure. I'll have to --12 MR. REYNOLDS: I'll have to look at the law and see. 13 14 CHAIRMAN SUTHERLIN: Okav. 15 MR. GERMAN: I guess we're saying if --16 obviously, we would -- it was explained to me, the intention, of course, is someone that's already on 17 the path. If -- we're saying if someone was to take 18 that job, we're, of course, going to make sure they 19 complete the path to get certified for it. We're not 20 going to put the janitor in the position. So --21 22 DR. WRIGHT-McMURRAY: So I guess my -- just for 2.3 my clarification --24 MR. GERMAN: Sure. 25 DR. WRIGHT-McMURRAY: -- as you're seeking out a

1	school counselor for your school and of the
2	applicants say there's someone that you really like
3	and want to be in that role, however, they're not on
4	the path to being a school counselor, would this
5	waiver still be used to hire that person that maybe
6	has the skills that you're looking for but not on the
7	path
8	MR. GERMAN: I think it's more of
9	DR. WRIGHT-McMURRAY: to the credentials?
10	MR. GERMAN: It sounds like a yes, but
11	MS. SALAZAR: (Speaking to Mr. German, not at
12	the mic)
13	MR. GERMAN: Okay. We're only going to hire
14	someone on the path.
15	DR. WRIGHT-McMURRAY: Okay.
16	MR. GERMAN: Okay.
17	MS. SALAZAR: They have to be on the path.
18	MR. GERMAN: All right. Thank you, Lili.
19	DR. WRIGHT-McMURRAY: All right. Thank you.
20	CHAIRMAN SUTHERLIN: Any other questions?
21	DR. WRIGHT-McMURRAY: On the waivers or
22	CHAIRMAN SUTHERLIN: On the waivers.
23	DR. WRIGHT-McMURRAY: Okay.
24	CHAIRMAN SUTHERLIN: Yeah. Ms. Saracini, do you
25	have any questions on the waivers?

I looked on the feedback, 1 MS. SARACINI: No. 2 because of the AOT, but it was explained there. So, thank you. 3 CHAIRMAN SUTHERLIN: Okay. Mr. Davis? 4 5 MR. DAVIS: No questions from me regarding the 6 waivers. 7 CHAIRMAN SUTHERLIN: Okay. Thank you. I do have a couple of questions on the waivers, 8 9 just for clarification. On the GT program, you're requesting a waiver of the GT program. And can you 10 11 sort of elaborate on how your program will provide those services? I know that in the rationale it 12 states that there will be a more rigorous curriculum 13 14 at your charter. So --15 MR. GERMAN: Let's find that. CHAIRMAN SUTHERLIN: -- what does that 16 programmatically look like? 17 18 MR. GERMAN: I'm going to put this on Lili. 19 She's our expert on that. Come on up, Lili. 20 MS. SALAZAR: Okay. Do I have to come up to the 21 podium? 22 Someone has got to come up. MR. GERMAN: 23 MS. SALAZAR: Okay. 24 MR. GERMAN: Lili Salazar. 25 MS. SALAZAR: Hi. Hi, everyone. How are you?

1 Okay. Yes, we did request a waiver. And my understanding is that we are going to be doing an 2 integrated model that focuses on the differentiated 3 instruction, where we're working with children that 4 5 have been found eligible for the Gifted program. 6 within our instruction we will insure that they are 7 getting the enrichment; because that is what's happening when we're working with children that are 8 gifted, we want to make sure that we are enriching. And that could be done a variety of ways, but we want 10 11 to make sure that, you know, the teachers had the Gifted strategies so that they can enrich the 12 students. 13 14 CHAIRMAN SUTHERLIN: Thank you. 15 MS. SALAZAR: Thank you. CHAIRMAN SUTHERLIN: And then, the next question 16 regarding waivers is, you know, are you planning on 17 18 having an RN to supervise your school nurse? 19 MS. SALAZAR: Yes. 20 CHAIRMAN SUTHERLIN: And I think that's all I 21 have on the waivers. DR. WRIGHT-McMURRAY: I did have another 22 2.3 question. 24 CHAIRMAN SUTHERLIN: Oh, you did. Okay. 25 DR. WRIGHT-McMURRAY: I'm sorry. I had another

note down here and I forgot to clean it up.

So my other question in regards to waivers is on the ALE. So it looks like that you're seeking a waiver that you have intention of having some, you know, more directed intense services to support those students. And then it states that your counselor is going to oversee this component. So can you explain ——

MR. GERMAN: Sounds like Lili here.

DR. WRIGHT-McMURRAY: -- that just a little bit more? And then, also, just I'm wanting to get a sense of with all the other responsibilities that your counselor will have in the school -- and then taking into consideration how we have the expectation that there's a 90/10 --

MS. SALAZAR: Correct.

DR. WRIGHT-McMURRAY: -- allocation, how is that going to be taken care of?

MS. SALAZAR: Sure. So when we're looking at our ALE program, we're looking through the lens of the RTI and of our tiers. And so, yes, our counselor would be responsible, but at the same time our administrators are always very much looking and working with all of our students that are in the tiered process to insure that they're making

So it is more of a team effort. 1 I want to 2 be clear. So I am absolutely in agreement with you; I know that Arkansas has a very strict rule on the 3 90% of the counselor doing their counseling duties, 4 and then the 10% of doing the additional. And 5 because we are aware of that, it would be an 6 7 administrative team effort when we're working with students that are in need. 8 Do you want a little more information about how we're going to be doing our tiers process? 10 11 want to over-talk. Well, I have some other 12 DR. WRIGHT-McMURRAY: questions about other structural pieces. 13 14 MS. SALAZAR: Okay. 15 DR. WRIGHT-McMURRAY: So we maybe can discuss 16 that when we get to the other place. Yeah. 17 MS. SALAZAR: Does that answer your question 18 though? 19 DR. WRIGHT-McMURRAY: It does. 20 MS. SALAZAR: Thank you. 21 CHAIRMAN SUTHERLIN: Thank you. 22 If there are no other questions on waivers, we 23 can open it up to other questions. Dr. Wright-24 McMurray.

DR. WRIGHT-McMURRAY:

Okay. Again, thank you

25

Richard

for your presentation and for those that are joining 1 us virtually for sharing. I guess, initially, if I 2 could get a little bit more clarification on, first, 3 how the grades are going to work. I'm just trying to 4 5 get a sense of how that's -- you're starting off with a -- is it K through 3rd? 6 7 MR. GERMAN: True. Yes. 8 DR. WRIGHT-McMURRAY: And then, a 6 and a 9? 9 Who wants to speak on that? MR. GERMAN: DR. WRIGHT-McMURRAY: So can you just walk us 10 through how -- what that's going to look like? 11 Yeah. Who wants to handle that? 12 MR. GERMAN: 13 Anybody? Or anybody online? Richard? Moreno, you out there? 14 15 MR. MORENO: Hello. Richard, explain -- to reiterate 16 MR. GERMAN: her question, we're doing K-3, and then we do 6 and 17 18 Explain the philosophy behind that or the theory. MR. MORENO: All right. So for the schools --19 the experience that Pinecrest has had over the years 20 is you have to have certain entry points in the grade 21 22 configuration. So usually those entry points are at 2.3 kindergarten, 6th grade, 9th grade. So when the school opens up, the idea is to get them into the 24 25 system. So you open up (inaudible) kindergarten, 1,

2 and 3, and then also into 6th grade. And as those 1 then roll out, you're basically just filling into the 2 enrollment of those lower grades. And then the kids all come into the program and basically grow with the 4 5 program over time. So that's the philosophy behind that growth. 6 7 MR. GERMAN: Does that answer your question? 8 And it builds year-after-year to develop a cadre of the kids. DR. WRIGHT-McMURRAY: Okay. All right. 10 Then --MR. ALVAREZ: And I just wanted to add that --11 12 MR. GERMAN: Go ahead, Carlos. 13 MR. ALVAREZ: Yeah. I just wanted to add that even for the middle school component, like Ms. 14 Clemente explained about the STEM initiatives, it 15 16 allows us during the incubation year, in year-one, to establish those solid community partnerships in 17 18 Arkansas, and really identify those folks and those corporate businesses that we can align to when we 19 start operating the STEM programming at the middle 20 and high school level. 21 22 MR. GERMAN: All right. Thanks. 2.3 DR. WRIGHT-McMURRAY: Okay. And then, my next 24 question -- one of the presenters spoke to there is 25 100% graduation rate. Is that correct?

2

3 4

5

6

7

8

10

11

12

13

14

15

16

17

18 19

20 21

22

23

24

25

MR. GERMAN: Yes.

DR. WRIGHT-McMURRAY: Okay. So that's extremely impressive, because typically you don't see 100% of, you know, students doing that. So could you share your processes of how we're getting to that 100% graduation rate?

MR. GERMAN: Sure.

DR. WRIGHT-McMURRAY: And then, also, as you're speaking to that, can you also share a little bit about your student demographics that are being served, that are a part of that outcome?

MR. GERMAN: Okay. Two totally different questions, so --

MS. SALAZAR: Elaine or Carlos.

MR. GERMAN: Okay. Elaine, why don't we do the graduation rate first? Who wants to speak to that?

MS. SALAZAR: Carlos.

MS. CLEMENTE: Hi, everybody. So, yes, we do have 100% graduation rate in our Pinecrest High We do that through our programming, through Schools. our -- very early on, we identify students that are essentially at risk for non-graduation. So that is when we take them and we provide them with interventions and support, as well as counseling, to be able to get them to that 100% graduation rate. In

3

5

6

7

9

10

11 12

13

14

15

16

17

18

19

20

21

22

23

24

25

our states, we have a requirement to pass a certain assessment to be able to get all of the credits to be able to graduate from the state of Florida or from the state of Nevada. So we work very closely with our counselors to be able to identify all of the credits that are needed for graduation. And if students that are struggling, they're not passing the required assessments needed for graduation, that is when the schools provide interventions, they provide support to make sure that the student passes those required assessments.

And I think to the point MR. ALVAREZ: Yeah. that Elaine just mentioned, there's something to be said about not only the tier one and the tier two support given at the Pinecrest Academy school. to her point, the tier three, right, when we -- we progress monitor all our students with baseline, midyear, and post assessments. And what we do is we provide -- and she mentioned, right, the pull-push method. We make sure early on, at the elementary level, through the middle school and the high school that we're providing that tier three instruction and support to make sure that we help and assist all our students. And I just said it, right -- I said that in our vision, we look at each student as an

individual, but to make -- to assure that we're giving that tier three support to get them at grade level or to work towards grade level. And when we start that at an early age, at the elementary level, and they continue to progress through the middle and high school, I think it's one of the contributing factors that put us in position -- in addition, really, to program as well with what we bring with engineering, robotics. I think students are very motivated with those type of programs. But I think the combination of both, by the time you get to the high school piece, puts students in position to passing statewide assessments and earning the credits necessary to graduate, to reach that 100% graduation mark.

MS. CLEMENTE: And I would also add the partnerships that we establish with our families, with our parents, making sure that the parents are aware of what those standards are and what those requirements are, so that we form a partnership for that ultimate need [audio is distorted] and graduate. That's what's happening inside the walls of the classroom in our schools, but it's also the extension at home or the support at home.

MR. GERMAN: Okay. Does that answer your

question?

2.3

DR. WRIGHT-McMURRAY: Uh-huh.

MR. GERMAN: So we don't -- we're not just juggling them, just around. We're very proud of it, and it builds on itself once -- the kids challenge themselves, as well.

So, on demographics, who wants to speak on demographics of Pinecrest and maybe look at the broad picture and then some of our schools? Because they're very different, as well. I think it's maybe somebody in Miami, who can -- who wants to start? And then, someone else can take over.

MR. MORENO: If somebody -- if I'm able to share a screen [Zoom audio distortion] that shows you all the Pinecrest schools, at least in Florida, and then the other ones around the country. But just, again, they're representative of the community that the schools are in; so some are 100% minority, other ones are less, but they're based on the overall community. So it's hard to give an average, because you do have it basically showing what the community is.

MR. GERMAN: And I'll say, Richard, I have a follow-up that might help. Because that's why it's tough, because we do have -- some are 100% minority and others --

1 DR. WRIGHT-McMURRAY: I guess my --CHAIRMAN SUTHERLIN: I'm trying to figure out --2 did I hear you say you would like to share your screen? 4 5 MR. MORENO: No. CHAIRMAN SUTHERLIN: 6 Okay. 7 MR. MORENO: [Zoom audio distortion] showing you 8 quickly what it looks like. CHAIRMAN SUTHERLIN: Yes. I think that she's getting that taken care of --10 11 MR. MORENO: Oh, there we go. CHAIRMAN SUTHERLIN: -- to be able to --12 13 MR. MORENO: I've got it here. CHAIRMAN SUTHERLIN: Okay. 14 15 DR. WRIGHT-McMURRAY: So I guess more so my 16 question is students that are choosing to attend your charters are those students -- and it sounds like 17 18 when you described how you're reaching your graduation rates was some of your students that are 19 coming to you that may have some barriers to 20 graduating on time with their peers. But is that 21 22 representative of the typical student that would come 2.3 to a Pinecrest school or are we seeing students that 24 are pursuing education at your schools that would

normally be high-achievers or have higher outcomes

25

than their peers in another school setting? 1 guess I'm trying to get a better sense of what type 2 of students are pursuing education at your schools. 3 MR. GERMAN: Who wants to -- Adriana, go ahead, 4 5 try. And I can go a little bit -- and I 6 MS. LIMA: 7 have the demographics of each high school, but these 8 are open enrollment schools that have a lottery 9 If you'd like, I can go into the network in process. 10 Florida is predominantly Hispanic. The high schools range between, you know, 65% free-and-reduced lunch 11 -- that's pretty much the norm. Here's another one; 12 13 that's 65 for the high. MR. GERMAN: I think, Adriana, you hit on the 14 15 point. We use a lottery system. 16 MS. LIMA: Right. MR. GERMAN: So I mean there is some -- the way 17 18 to entry is they have to apply. After that, it's Some have huge waiting lists, other ones 19 random. don't as much -- not as much. But we don't test, we 20 don't cherry-pick. 21 MS. SALAZAR: But the outreach is to all. 22 But 2.3 the outreach, I think, is to all the community. 24 MR. GERMAN: Absolutely. 25 MS. SALAZAR: And that is what you're looking

for. Because I do hear and understand where your question is coming from. But, however, the outreach is to all of our students in all of the communities that we are in. And we're very aggressive about our outreach. We want to make sure that there is an equal representation of all types of students in our schools, because that's just what makes the school even better, right, when you have so many different types of children there. And it makes the education process so much better.

So I think to answer your question, the outreach is there, but it is a lottery system and, therefore, you know, it's who does apply.

DR. WRIGHT-McMURRAY: Okay. And then, last question, related to your CTE, can you give a little bit more detail on what that looks like? I noted that you guys included in your application and you referenced PLTW. But are some other opportunities students would have to engage in our career and technical education?

MR. GERMAN: Again, it's Carlos, CTE.

MS. SALAZAR: And Carmen.

MR. GERMAN: Or Carmen.

MR. ALVAREZ: Yeah. Yeah, I'm here.

MR. GERMAN: Okay.

MR. ALVAREZ: Again, Carmen and I can attest to that.

MR. GERMAN: All right. Go for it.

MR. ALVAREZ: Again, in reference to CTE, it's not in the interest of the network to come in and dictate or decide what are the pathways that will be offered. We feel that there's a combination of different factors that go into that. One is stakeholder feedback; two is reviewing the Owen report that shares information on what will be the biggest job openings in years to come, particularly state by state; so, understanding and taking a deeper dive into that. I think where we come into it is we share the current pathways that we offer at our campuses -- you know, and to name a few, we have an engineering pathway that positions itself to earning an industry certification in that area; we have digital multimedia, as well, where, you know, it encompasses Adobe Bundle and industry certifications. We have law academies where you participate through mock trials and there is an associated legal professionals industry certification aligned to that. So really, you know, on some of our campuses, you know, very -- I think what I'm seeing -- what I see from my perspective, my lens, is that all of our

1

2

3

pathways are aligned to sciences, and really critical thinking and problem-solving skills is what you see. But we'd be happy to share what -- like, and, you know, this is just to name a few. But all our pathways that we offer throughout Pinecrest -- you know, there's one that we have in Nevada, that is in preparation for being a pilot and going in that pathway. So they vary by state. But, again, I think the final determining factor is looking at surveys, stakeholder input, reviewing the Owen report, and like an advisory board along with the team at Pinecrest Arkansas, making a conscientious decision of what will fit best there for that community and for the students that we're serving there.

DR. WRIGHT-McMURRAY: Okay.

MR. GERMAN: Does that help?

DR. WRIGHT-McMURRAY: Thank you.

MR. GERMAN: Okay. Thanks.

CHAIRMAN SUTHERLIN: Ms. Saracini?

MS. SARACINI: Thank you for the presentation.

I just want just a little bit more information. As we focus on literacy in Arkansas, the Science of Reading, I see that one of your interventions is using the Wilson system.

MR. GERMAN: Clint, come on up.

MS. SARACINI: So, would you kind of just speak
to that a little for those people that --

MR. GERMAN: We have an expert here.

MS. SARACINI: -- are struggling with your literacy?

MR. GERMAN: It's like we asked that question -- just this whole reason he came.

MR. DUVO: So, good morning. My name is Clint Duvo.

You know, when we look at literacy, especially at the younger ages, we do our diagnostic testing using our basic battery inventories to insure. Wilson is one of the programs that we use to insure phonemic awareness, that phonics instruction is being met for students who need support and the -- you know, either the orthographic or the phonological component to get to the next section. So the Science of Reading, you know, we really, you know, want to make sure that we're not teaching it in context, but really by skill-based, so kids get targeted skills. They go through the scope and sequence, you know, to make sure they're mastering those skills, that they're building the foundation; so that they're, you know, stretching out sounds and words and putting the relationship together between final ending sounds,

3

1 they get to the medial sounds, and then there's a lot there that goes on. 2 So that's kind of -- a little bit how we would 3 support the school districts here and the schools 4 5 here in Arkansas. MS. SALAZAR: And we are -- and we are open to, 6 7 you know, recommendations regarding to our systems. 8 So these are systems that we have used, the curriculums that we have used, but we are definitely open to other recommendations. I do know that 10 Arkansas provides a list when it comes to dyslexia as 11 12 well, which is very important. But when we're 13 thinking of the Science of Reading, we're thinking of just that, making sure the phonics, phonemic 14 15 awareness, the decoding, the fluency, you know, the 16 comprehension, the vocabulary -- making sure that those skills are actually, you know, very --17 18 MR. GERMAN: Systematic and explicit. MS. SALAZAR: -- specifically taught --19 MR. GERMAN: 20 Yes. MS. SALAZAR: -- so that, you know --21 22 MR. GERMAN: And tracked and progress monitored 2.3 24 MS. SALAZAR: Right. Absolutely. 25 MR. GERMAN: -- yes, through a tiered process.

1 MS. SALAZAR: Yes. 2 MS. SARACINI: I'm a Wilson fan, so --MS. SALAZAR: 3 Yes. MR. GERMAN: 4 Yes. 5 MS. SARACINI: -- I'm very excited. MS. SALAZAR: 6 Good. 7 MR. GERMAN: And there's, you know, Orton 8 Gillingham and other programs. 9 MS. SALAZAR: Yes. Yes. 10 MR. GERMAN: But, yes. MS. SALAZAR: Absolutely. 11 MR. GERMAN: Wilson is one I use in my own 12 school right now, Fundations, and my interventionists 13 use it, you know. And we see a lot of success in our 14 15 students in our K-3 so that, you know, the learning gaps are -- if they can be closed, if they're -- you 16 know, we're identifying students that may possibly 17 18 need additional support through a tiered process that may qualify for special ed. or they may not. 19 They might just need --20 MS. SALAZAR: They might need --21 MR. GERMAN: -- skills that they --22 23 MS. SALAZAR: -- possibly intervention. 24 MR. GERMAN: Right. So, in our schools we use, 25 you know, a strict method to implementing the Science

of Reading. 1 2 MS. SALAZAR: Yeah. It's all about that systematic explicit instruction. 3 MR. GERMAN: Yeah. 4 MS. SARACINI: That is so true. 5 6 MS. SALAZAR: Right. 7 MR. GERMAN: Yeah. 8 MS. SARACINI: Thank you. 9 MR. GERMAN: Okay. CHAIRMAN SUTHERLIN: Any other questions, Ms. 10 11 Saracini? MS. SARACINI: (Shaking head from side to side.) 12 CHAIRMAN SUTHERLIN: Mr. Davis? 13 14 MR. DAVIS: Yes. Just a couple of questions 15 from me. One, can you -- you have done this a few times now in regards to moving into other states. 16 Can you talk to me about what that process looks like 17 18 and how you go about engaging community, as you move into other areas -- what you may not have, sort of 19 20 some of the history of participation? 21 I guess we can answer it in a MR. GERMAN: 22 couple of parts. When you say like how are we 23 choosing where to go? 24 MR. DAVIS: No, but that is one other question 25

MR. GERMAN: Okay.

2

3

4

5

6 7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

MR. DAVIS: -- that I do have, which is why Arkansas, why now. But my first question really focuses on -- you know, every community is different. And, obviously, as you begin to think about moving into a community and engaging into a community to build an understanding around what you plan to offer to students, there are -- there may be particular ways in which you go about doing that. And so I guess I'm asking what that might look like. So, for example, you may say, We really focus on hiring local talent and local leadership that has been connected to the community for a while. All right. You may say, We spend a lot of time with our business community and, you know, we insure that they are aware and their employees are aware what's happening. You may say, Because we have a very strong, you know, Hispanic background in our schools in Miami, we've really found engaging, you know, you know, the Latino culture is something that we like to do. So I'm just trying to figure out what are the one, two, three steps you take as you think about moving into a community and what that might look like.

MR. GERMAN: Okay. Let me do some of the nuts and bolts. Richard, can you give us some of the -- I

guess the research we do in looking at a state and where to best place a school? And then, some of the real-wise is somewhat personal and there were people that were interested in us coming here. And, honestly, for me, because my daughter said, When are you guys going to bring a school here. So we started talking about it and then the more research we did, it seemed to be a good fit.

1

2

3

4

5

6

7

8

10

14

15

16

17

18

19

20

21

22

2.3

24

25

But, Richard, how do we -- tell us more about that process.

MR. MORENO: Yeah. And so the first -- it starts when somebody from that area reaching out to the organization, and that's what happened in this So they go in and say, Hey, it would be great -- we visited one of your schools; it would be great to have one come to our state. From there, we try to look at what is the areas of most need in that state, and it's a combination of both the growth and demographic needs in looking at that. So we have a pretty robust software that basically allows us to look at demographics, we look at traffic towns, we look at the school crowding. And we get the ideas where that growth and where we can meet a need and that's where the needs are of the local schools and to try and to do that. So that's kind of how we go

3

4 5

6 7

8

10

11 12

13

14

1516

17

18

19

20

21

22

23

24

25

And, Mr. Davis, does that answer your question?

MR. DAVIS: Sure. Sure. That's sufficient.

My next question --

through the process. And then from there we kind of just highlight a general area and where we think will be the most ideal. And then we partner with local partners to find the locations.

MR. GERMAN: One thing I can add, and it's more of a global thing; it's not directly to the question. But we met a few months ago with some administrative people in education here, and there was a real -- to be blunt, they said, Everybody wants in northwest Arkansas, but we need help in the southern part of the state. And we learned a lot about the southern part of the state. And I guess my answer then, and it's -- we've worked on it more, is that I think we absolutely can be a great partner in growing throughout the state and helping some of those areas. But we have to achieve some scale first. it's -- we would face the exact same challenge that you guys do in serving some of those underserved communities. And we've done it many times, but we've -- you've got to get a base first and then we can sort of go out from there. But once we're here our goal is to be a great partner with this.

2

4

5 6

7

21

22

23

24

25

MR. GERMAN: I think, if I -- I don't want to interrupt you, Mr. Davis, but Adriana stood up; she's got something to say. Yes.

MS. LIMA: I hope it's --

MR. DAVIS: Oh, sure.

MS. LIMA: Just to talk more locally about when we do work with the networks and to open a school, we try to do -- is get, you know, boots on the ground, reach out to churches, daycare centers, pre-K's, business partners. We look into community events that Pinecrest may sponsor or have a table at. There's still a lot of grassroots marketing going on with these schools. There is a big, you know, digital and online presence, and Pinecrest really has done a beautiful job of ramping up their brand. we know that it's a challenge, coming into a new community. So we would make all efforts really to get that -- to make that brand a name in the homes. And we do so, like I said, by reaching out to the community through, you know, Halloween events, holiday events, and going to churches and community centers. And then, specifically, in Fayetteville, we'd look into just different community business partners, whether it's in the healthcare industry. We do reach out to HR departments of different

2

4

5

6

7

a

10

11 12

13

14

15

16

17

18

19

20

21

22

23

24

25

businesses to let their employees know a school is coming to you. So there are quite a few different ways we reach out to the local community.

MR. ALVAREZ: And an extension of that grassroots campaign, like Adriana mentioned, is one of the things we always focus on at the beginning is connecting with our local municipality. Right? So I think that's key, with meeting with our elected officials, with mayors, with council members or commissioners, how that may be done there. And kind of, one, is get their foot in the door and get them to understand Pinecrest in Arkansas and what our model is and what our programs are offering. Right? And then, how can we be a humble servant of that community and give back to Fayetteville. Right? And we know the municipalities have multiple events throughout the year, and one common thing that we see really with incubation and start of schools is how the school is present at local municipality events, really supporting the municipality, but also connecting with the community that attends the municipal events, whether it be a Trunk-or-Treat or some sort of holiday initiative, whatever it may be -- whatever it may be -- a back-to-school drive. Right? So a lot of those common municipality events

that you see within the communities that we serve,
Pinecrest Academy in Arkansas will be very visible
and an active participant in those community events.

MR. GERMAN: Okay. Thanks, Carlos.

And, Mr. Davis, I know we got a little off your question. I apologize.

MR. DAVIS: No, no, that was fine. And, you know, I don't think I stated it, but my question then comes from really a place of understanding, not whether you are or aren't doing it. But when you have someone who's done it and appears to do it well, they have a track record in multiple areas -- we know that there will be others who may be coming to the state, so it gives us an opportunity to learn. So this -- my questions are actually coming from a very learning place, and I want you to know that.

With that being the case, here's another opportunity, I think, for us on the committee to learn. Talk about talent. Right? A critical, critical aspect of the work obviously is classroom, as well as educational leadership talent. How do you go about identifying that talent? How do you go about -- I know that there's a strong professional development component. But the original sort of identification of talent, what are you looking for

for those individuals, particularly those classroom teachers that are interested in helping you serve your mission? And how do you find that?

2.3

MR. GERMAN: Who wants to take that?

And also, Alex, if you want to jump in, we have a number of principals on here. But Alex has to swear in before she speaks, but --

MR. DUVO: I guess I ought to turn it up so I don't have to squat down.

MS. SALAZAR: Yeah, you're pretty tall.

MR. DUVO: You know, when teachers join our schools the first thing, you know, is really getting into the classrooms. You're going to see the leaders in the classrooms; you're going to see a structure of administrators, coaches, walking through classrooms on a daily basis to look for the vision and the mission that Pinecrest is looking in every classroom. There's an ongoing, constant feedback through formative assessment that also has more formal assessments throughout the year. And as we see strengths, we like to showcase that across the school. So we have peer observation going on, professional learning communities going on. There's just a rich plethora of transparency and openness for growth. Nobody is coming into our schools --

leaders, all the way down the whole system --1 thinking that they know all of it. They know what 2 the vision and the mission is. And to support that vision and mission we have to support each other. 4 5 have to look for everyone who's highlighting best practices, that the schools are held -- are holding 6 7 the teachers to, and getting that throughout the entire school. So it's a team effort. 8 MS. SALAZAR: And I want to add a little. 10 MR. GERMAN: Do you want to add? Yeah. MS. SALAZAR: Because he was specifically asking 11 12 about how we identify. So, through the observation. 13 MR. GERMAN: MS. SALAZAR: Yeah. Yeah, but even before that, 14 15 even before they come into our schools, they've got to love children. And that is a question --16 MR. GERMAN: Of course. 17 18 MS. SALAZAR: -- we ask, Do you love children. MR. GERMAN: Let me --19 20 MS. SALAZAR: Do you like to --21 MR. GERMAN: Let me also get to that part of it. MS. SALAZAR: Yeah. 22 MR. GERMAN: 23 Are we planning on -- will we find 24 local talent? 25 MS. SALAZAR: 150%.

MR. DUVO: Yeah.

2.3

MS. SALAZAR: We always -- and especially that's the beauty behind the community events, as well, and the outreach and the marketing. We're not only looking for students; we are looking for local teachers, because they -- you know, pedagogy is pedagogy, education is education. But understanding and knowing your community, especially if you've grown up in this community -- when you bring that into a classroom, that is a game-changer. And so, definitely, we will certainly be highly recruiting local teachers, as much as we can, working with the colleges, because we really want them in.

MR. DUVO: Yeah.

MR. GERMAN: Mr. Davis, does that answer that part?

MR. DUVO: I mean, yeah.

MR. DAVIS: Thank you for that.

MR. GERMAN: All right.

MR. DAVIS: No further questions from me.

MR. GERMAN: One -- since that gives me a little opportunity, one of our other affiliates, Dural College -- something we've done over the years is we have our own dual enrollment program with an accredited college. And I think the last couple of

1 years not only do we graduate hundreds of kids with AA's for free, we've now done the biggest need we 2 have and we're teaching -- we have four-year degrees for teaching. So we now have -- some of our students 4 5 have been with us kindergarten --MS. SALAZAR: Correct. 6 7 MR. GERMAN: -- kindergarten through college, 8 and they're now teaching in our schools. So we're growing our own. And we're a little ways, obviously, from doing that here, but they'll be able to do it 10 here and we'll absolutely have that program. 11 12 So, next question, please. You see the passion. 13 I'm sorry. We have to manage everybody here. MS. SALAZAR: We're all Type A personalities. 14 15 CHAIRMAN SUTHERLIN: I believe that Cassandra 16 Barnett is online and she had a question for you. MR. GERMAN: 17 Okay. 18 MS. BARNETT: Thank you. I am the Program Yes. Advisor for School Library. 19 So I'm just curious since you've been asking for 20 waivers for most of Library Services, but you have 21 said you're going to hire a school librarian -- I'm 22 2.3 just wondering how you're planning on using that 24 school librarian? 25 MR. GERMAN: Who wants to answer?

1 MS. SALAZAR: Can you ask that question one more time? 2 MR. GERMAN: We've asked for a number of waivers 3 without libraries. 4 5 MS. SALAZAR: Uh-huh. MR. GERMAN: But we are -- said we're going to 6 7 have the librarian. 8 MS. SALAZAR: Absolutely. 9 MR. GERMAN: What is that person going to do? 10 MS. SALAZAR: Okay. Absolutely. Yes. So we're going based on the library standards. Just give me 11 12 one moment so I can get to my notes. Here it is. 13 So we're going based on what the job description 14 15 16 17

18

19

20

21

22

2.3

24

25

and the explanation is when it comes to the Media

Specialist in the state of Arkansas. And therefore,
obviously, they will be running the library itself,
looking for -- working with our teachers in order to
insure that we have a sufficient plethora of books
that cover different areas. They will also be
helping our teachers understand the library standards
and make sure that the standards are being taught in
the classroom, because I know that Arkansas has very
specific library standards that we must be following.
But, basically it's all about just moving the love of
reading philosophy and movement, making sure that

there's books for our children to do so. Librarians
-- some of our librarians that work with us also are
very much involved in the accelerated reader program,
and that's where children are able to read -- they
read and they earn points and prizes. So those are
the types of things. But we would be adhering to
exactly what that role is here in the state of
Arkansas.

MS. BARNETT: Okay. So why did you ask for waivers then, if you're planning on following --

MS. SALAZAR: Right. We may not have a media center per se, but we will have a librarian. And so she will be able to provide her services, even if we have in the classroom, you know, books, because we plan on having books in the classroom.

MS. BARNETT: Okay. Thank you.

MS. SALAZAR: The standards, I mentioned that's really important -- the library standards here, and the studying and stuff like that is very important.

MS. BARNETT: In Arkansas, that school librarian is expected to be a co-teacher in the teaching of those standards. So I hope that's the approach your librarian will take. Thank you.

MR. GERMAN: I remember in discussions we were going --

1	MS. SALAZAR: Absolutely.
2	MR. GERMAN: to embed those standards
3	MS. SALAZAR: Uh-huh.
4	MR. GERMAN: in that curriculum.
5	MS. SALAZAR: Yeah. That's why I said I had
6	said earlier to really we understand that the
7	standards are extremely important and that she must
8	be working with the classroom teachers on it. Thank
9	you for clarifying for that, Ms. Barnett.
10	MS. BARNETT: Thank you.
11	CHAIRMAN SUTHERLIN: Any further questions?
12	DR. WRIGHT-McMURRAY: There's a question in the
13	chat.
14	CHAIRMAN SUTHERLIN: Oh, there is? Okay. Let
15	me take a look.
16	MR. GERMAN: Is that like someone from the
17	public?
18	DR. WRIGHT-McMURRAY: No. It's from
19	CHAIRMAN SUTHERLIN: So, Jerri Clark from Child
20	Nutrition.
21	MR. GERMAN: Nutrition?
22	CHAIRMAN SUTHERLIN: Actually, not Nutrition.
23	Health. Sorry.
24	MS. CLARK: I'm with School Health. I'm with
25	the School Health Unit here at the Department of Ed.

17

18

19

20

21

22

2.3

24

1

So when you guys addressed the waiver number five in your plan, you mentioned that you are going to hire a medical assistant to be present on campus to follow through with medical tasks that students might need. And I did hear someone earlier in the conversation ask -- I don't remember who it was -- if there was going to be supervising RN. But I wanted to just make a point that the plan to have a medical assistant on campus -- a medical assistant is really the equivalent of just a layperson, someone who does not have a medical license, to follow through with certain medical tasks. Some of the nursing services can be waived by the Department of Ed., but many of them cannot be. The Nurse Practice Act regulates the administration of certain controlled substances and certain medical tasks that cannot be delegated. my question is if you have a student that enrolls on your campus that needs a non-delegatable medical task or medication, what's your plan to address that, if you only have a medical assistant present on campus? MS. SALAZAR:

MS. SALAZAR: I apologize. The hiring is going to be of an LPN. So I apologize that that was not clear. And then we would have an RN supervising, Ms. Clark. I apologize for that.

MS. CLARK: Okay.

25

1	MS. SALAZAR: But we will have an LPN.
2	MS. CLARK: Thank you.
3	DR. WRIGHT-McMURRAY: So I guess just for my
4	clarification, in the application it doesn't state
5	that clearly, so or was that is that an update
6	to another application or
7	MR. GERMAN: Do we need to amend?
8	DR. WRIGHT-McMURRAY: or was that part of an
9	updated version?
10	MR. GERMAN: We're going to look. We'll look up
11	and see the
12	CHAIRMAN SUTHERLIN: Not LPN. So I'm going to
13	look back at it real quick.
14	MR. GERMAN: And we will too, if I can find it
15	quick.
16	DR. WRIGHT-McMURRAY: I think it was a medical
17	assistant or maybe I'm
18	MR. GERMAN: It was page 630.
19	DR. WRIGHT-McMURRAY: I think it may have been
20	
21	MR. GERMAN: A lot of pages.
22	DR. WRIGHT-McMURRAY: The language may have led
23	to maybe a CNA or it wasn't like an LPN.
24	MR. CAMPBELL: Possibly, I think originally we
25	may have had CNA, but then it was changed to an LPN.

1	But I'm trying to look it up now.
2	CHAIRMAN SUTHERLIN: It's under waiver number
3	five.
4	MR. GERMAN: We're certainly amenable to it, if
5	it's not written that way.
6	CHAIRMAN SUTHERLIN: Uh-huh.
7	MS. CLARK: I think an LPN would be appropriate.
8	We just didn't see I didn't see that in the
9	application that we reviewed, the initial application
10	with that waiver perhaps.
11	CHAIRMAN SUTHERLIN: Okay. Okay.
12	MR. GERMAN: Yeah. He's saying she probably
13	couldn't hear it. We believe this subsequent
14	application, that was amended to the LPN.
15	CHAIRMAN SUTHERLIN: And it's on the record that
16	
17	MR. GERMAN: Yes. Yes.
18	CHAIRMAN SUTHERLIN: it will be an LPN, so
19	MS. SALAZAR: Yeah.
20	MR. GERMAN: So, we've got it?
21	MS. SALAZAR: I think we had put Certified
22	Nursing Assistant.
23	MR. CAMPBELL: The waiver yeah, the waiver,
24	probably we updated the initial application and
25	MR. GERMAN: Okay. We're on the record, and if

1	it's if we need to
2	CHAIRMAN SUTHERLIN: Thank you.
3	MR. GERMAN: Sure.
4	DR. WRIGHT-McMURRAY: Thank you.
5	MR. GERMAN: That's why we're here. I mean,
6	these are helpful.
7	CHAIRMAN SUTHERLIN: Ms. Saracini, do you have
8	any other questions?
9	MS. SARACINI: No.
10	CHAIRMAN SUTHERLIN: Mr. Davis?
11	MR. DAVIS: (Shaking head from side to side.)
12	CHAIRMAN SUTHERLIN: Any discussion?
13	MR. DAVIS: No additional questions from me.
14	CHAIRMAN SUTHERLIN: Any discussion?
15	MS. SARACINI: Did Dr. Moore send any questions
16	about this particular one?
17	CHAIRMAN SUTHERLIN: She did. I've been
18	MS. SARACINI: Okay.
19	CHAIRMAN SUTHERLIN: I've been asking those
20	MS. SARACINI: Okay.
21	CHAIRMAN SUTHERLIN: as we go along.
22	MS. SARACINI: She's on her way.
23	CHAIRMAN SUTHERLIN: Okay. Good. Let me make
24	sure I've covered everything that she had on here.
25	She does reference that the application

references ELA performance for 11th graders taking the ACT, but does not reference math performance. So she's just wondering why.

MR. GERMAN: What was the question? I'm sorry.

CHAIRMAN SUTHERLIN: So it was -- it references

-- so the application references ELA performance for

11th graders taking the ACT, but does not reference

math performance. So she's just wondering why.

MR. GERMAN: For 11th grade.

MS. LIMA: I do remember that being a comment in the full review and we added ELA and math. But I'm trying to find the redline document so I can tell you what page it's on.

CHAIRMAN SUTHERLIN: Okay.

MR. GERMAN: We're working on it. This goes back to that -- what I mentioned, we like to process -- often, we get one shot and there's always going to be typos in such a gigantic thing. And then by being able to amend it, it makes this at least a little bit easier. We'll work on it. We'll find it. But they seem to remember adding that. That would be an obvious oversight anyway. We wouldn't do one without the other.

CHAIRMAN SUTHERLIN: Right. Right.

MS. SALAZAR: We can have Carbie to talk a

1	little bit or maybe Carlos talk a little bit about
2	how we use the ACT. Because I do know that they use
3	it for
4	MR. GERMAN: Well, before we get into
5	MS. SALAZAR: Yeah.
6	MR. GERMAN: I think they just want to know that
7	it is going to be addressed.
8	CHAIRMAN SUTHERLIN: Yes.
9	MS. SALAZAR: Yes.
10	MR. GERMAN: Correct?
11	MS. SALAZAR: Yes.
12	MR. GERMAN: Yeah. We don't have to
13	MS. SALAZAR: Oh. Oh, okay.
14	MR. GERMAN: Right. I'm not trying to keep
15	everybody from talking, but
16	MS. LIMA: It would be in ELA and math, yes.
17	MR. GERMAN: Yeah.
18	MS. SALAZAR: Yes.
19	MR. GERMAN: Okay.
20	MS. SALAZAR: Right.
21	CHAIRMAN SUTHERLIN: All right. I think that's
22	all of her questions.
23	So, any further discussion?
24	MS. SARACINI: I have none.
25	CHAIRMAN SUTHERLIN: Mr. Davis?

1	MR. ALVAREZ: And we couldn't hear you over
2	here. Can you please clarify the question again?
3	MR. GERMAN: Oh, Carlos, we're good. They
4	the word Math had been left off of maybe it wasn't
5	in the initial application and it looks like we
6	amended it. So, we're good.
7	MS. SALAZAR: We're good.
8	MR. GERMAN: Yeah.
9	MR. ALVAREZ: Okay. Thank you.
10	MR. GERMAN: Sure.
11	CHAIRMAN SUTHERLIN: So if there's no further
12	discussion, I'll entertain a motion.
13	MS. SARACINI: I make a motion that we approve
14	the application of Pinecrest Academy for a charter in
15	the state of Arkansas.
16	CHAIRMAN SUTHERLIN: And, Mr. Reynolds, do we
17	need a time
18	MR. DAVIS: I second.
19	CHAIRMAN SUTHERLIN:frame on that motion?
20	MR. REYNOLDS: No.
21	CHAIRMAN SUTHERLIN: No. Okay.
22	All right. So, Ms. Saracini has made the motion
23	and Mr. Davis has seconded. All those in favor?
24	(UNANIMOUS CHORUS OF AYES)
25	CHAIRMAN SUTHERLIN: No opposed.

1 So we'll go to our voting sheets and we'll fill 2 those out and we'll come right back to you. (A FEW MOMENTS OF SILENCE) 3 CHAIRMAN SUTHERLIN: All right. We'll start out 4 5 with Mr. Davis. 6 MR. DAVIS: Yes. I support the motion to 7 approve the application in order to provide families 8 in the state of Arkansas an additional high-quality school option. CHAIRMAN SUTHERLIN: Dr. Wright-McMurray. 10 11 DR. WRIGHT-McMURRAY: I voted for. I support 12 Pinecrest Preparatory Academy/Fayetteville application. I look forward to seeing similar 13 results and outcomes demonstrated in other states 14 15 replicated in Arkansas. CHAIRMAN SUTHERLIN: And Ms. Saracini. 16 MS. SARACINI: I voted for. I support the 17 18 approval of the Pinecrest Preparatory Academy in Fayetteville, beginning in the 24-25 school year. 19 Ι 20 look forward to seeing the impact on students in 21 Arkansas, as demonstrated in other states. CHAIRMAN SUTHERLIN: And then I voted for. 22 Ι 2.3 voted for the approval of the Pinecrest Preparatory Academy of Fayetteville. I believe their model will 24

make a great addition to the charter landscape in the

25

1	state of Arkansas.
2	So, congratulations.
3	All right. Mr. Reynolds.
4	Mr. Reynolds, we're going to take just a short
5	break.
6	MR. REYNOLDS: Okay.
7	CHAIRMAN SUTHERLIN: So we're going to take
8	about a 5-minute break.
9	(BREAK: 11:16 a.m 11:25 a.m.)
LO	4) CONSIDERATION OF THE CIVICA CAREER AND COLLEGIATE ACADEMY
L1	BENTONVILLE NEW OPEN ENROLLMENT CHARTER SCHOOL APPLICATION
L2	REQUEST
L3	CHAIRMAN SUTHERLIN: So we'll go ahead and swear
L4	everybody in that's going to speak on behalf of the
L5	charter.
L6	MS. SALAZAR: Are they back on?
L7	MR. GERMAN: Yeah. Zoom, hey guys. We've got
L8	to swear-in.
L9	CHAIRMAN SUTHERLIN: All right. If you'll
20	MR. GERMAN: First, we've got to swear in again,
21	everyone. Alexandria, if you're there this time
22	just in case.
23	CHAIRMAN SUTHERLIN: So stand, raise your right
24	hand. Is Alexandria on?
25	MR GERMAN: Alex Richard are you guys out

there? Yeah. Raise your right hand.

CHAIRMAN SUTHERLIN: Okay. Here we are. All right. Here we go. Okay. So do you -- those that are going to speak on behalf of the charter, do you swear that what you're about to say is the truth, the whole truth, and nothing but the truth?

(ALL SPEAKERS ANSWERED AFFIRMATIVELY)

CHAIRMAN SUTHERLIN: All right. Thank you very much. You may begin your presentation.

MR. GERMAN: Hello, again. I'm helping facilitate this application for CIVICA. As we say, we're very excited to be with you today. We -- to reiterate, we enjoy the process and I think, as we saw in the last, the back and forth with the State made it so much easier. And then, we're really looking forward to being in Arkansas, and working with you.

I'm going to turn it over to Carlos again, and he has a different role in this. And he's the Principal of a CIVICA high school, which is -- and I will -- from personal standpoint, an amazing thing. And I think I mentioned my daughter before -- and not to overdo that, but she's a physician. And when they asked her to be on the founding board in Benton- -- you know, for Bentonville, for CIVICA, we -- she came

down and took a tour with Carlos at his school. And it's absolutely amazing what he's done there. And I look forward to him explaining to you what they're going to recreate here in Florida. So with that, I'm just going to -- oh, in Arkansas. I say it the right way, too. No. Oh, she's not even here.

So, Carlos, tell us about CIVICA and what you're going to do here in Arkansas.

MR. ALVAREZ: Thank you, Todd, for the introduction. Carlos Alvarez, Principal at Premier Career and Collegiate Academy and the founder of the CIVICA network, and I also serve as president in that capacity for that network.

You know, one of the things that I -- that we had spoken about earlier is we've found that in education, to a certain capacity, in high school, we were failing kids. Right? And that's where my passion came for CIVICA. You know, we saw advanced programming. Right? We've had -- we saw AP courses or Cambridge or IB. We saw partnerships with colleges and universities and offering dual enrollment programs. Right? But then what happened to the student that -- what happened with a student that didn't qualify for AP, that didn't qualify for dual enrollment. Right? They just kind of passed

the buck and went through school and just earned a high school diploma, and then we sent them out into the real world and they had to figure it out. Right? So we changed that. Right? We felt that students were being underserved at the 6-12 level, and even in the K-5 level, but really leading to the high school piece. We had to offer programming for all students and to serve all needs. Right? And that's where CIVICA -- the birth of CIVICA came, where, through our CTE, through our robust CTE pathways, we have programs and academies for all students that we serve. Right?

So now we're looking at -- our goal is for students to graduate from high school with a skillset and also continue to offer the collegiate piece through the AP programming and the dual enrollment partnerships. And I want to elaborate a little bit about that. Right?

Our mission is really to strive for an environment for academic achievement, character formation, and college, and again -- and a big emphasis on career readiness. Right?

Our model is driven to identify pathways specific to the communities that we serve, specific to stakeholder feedback, specific to jobs and career

opportunities in those communities.

(COURT REPORTER'S NOTE: Panel Member Dr. Tina Moore arrived at 11:30 a.m.)

MR. ALVAREZ: And like I mentioned earlier, the CTE pathways, the Career and Technical Education -- our goal is to offer programming aligned to industry certification so when those students graduate from high school they're in a position to graduate with an industry certification, should they choose to apply to the real world, for job placement immediately after high school graduation. And to give you an example, right, some of the academy -- we call them academy CTE pathways.

We have Criminal Justice Academy that is piloted at some of our newer schools. And we offer it where we've aligned public service certifications, and also 9-1-1 communication where students are certified as 9-1-1 dispatchers. And when I said robust earlier is because it's not you take a course and a one-off and then you, you know, you sign up for industry certification. No, this is -- it is a true pathway where students declare a pathway and academy in the commencement of high school and take a progression of courses through 9th, 10th, 11th, and 12th grades, leading to a position for them to be certified in the

industry aligned to that academy.

14

15

16

17

18

19

20

21

22

23

24

25

And let me go back a little bit. In middle school, I think the key component is giving students the opportunity to explore the career wheels, like we like to call them. Right? How can I tell a student to declare an academy or to select an academy with no foundational information? So like you see some of the exploratory wheels in middle school that have music and dance and art, and we offer that. But we also offer the exploratory wheels that are aligned to the pathways that we offer. So students in 7th and 8th grade get to take those courses and electives to start kind of exploring, you know, this may be more something that I want to do. Is it something that is aligned? Is it something that I like? Is it something that I love? Is it something I want to learn about? Right? So kids going into high school have had the opportunity to take the exploratory career wheels where they develop a foundation about what these pathways entail and it's something that they want to declare among commencement of high school.

We have Fire Fighting Academy as well, right, and we line that up -- again, progressional courses.

Emergency Medical Responder certification -- now

with that certification, you are certified and licensed to provide basic life support in any type of ambulance company that is provided in your community. We also align it to Emergency Medical Technician.

The EMT program is one of the three certificates that you need to be a Fire Fighter, is EMT, Fire Academy, and Paramedic school.

We have Law and Legal Academy as well, whereas the aligned professional legal certification aligns to where you can get an entry-level job at a legal office. A lot of those skills in that industry certification is becoming very familiarized with Microsoft Office and all its programs.

We offer Mass Communications Academy where students get firsthand experience in the digital world. They manage the school's You Tube channel. They do the morning announcements. They edit -- on video, they edit and photoshop. They provide content for the school. And then with those certifications in the Adobe Bundle, like I mentioned, the Premier, and specific for our school, the photoshop, students have gotten positions and jobs in local networks, right, in our community.

And then we have the Medical Academy. Right?

And that has an emphasis on -- there is a demand and

there is a need in some of these entry-level jobs in Health Science where there's no applicants. Or if there are applicants, there's not a large enough pool to select from. So we offer a Phlebotomy industry certification, again, through a group of four courses. We offer an EKG Technician. Right? And our goal is, right, to be in these academies and these pathways. Students are more motivated, right. Students that are not in AP, not in dual enrollment are more motivated to be in school, more motivated to identify a pathway or possible career and it really attributes to the success of our program.

Our model is Honor, Respect and Loyalty -- and Ms. Carbajosa will talk a little bit about that. We are really -- have identified the Leader in Me program, I think, in education too. We've lost the fillers of character formation and values that students need in this country. And also our STEM program as well, that we've now changed into STEAM. That also provides that supplemental piece in building the whole child. Right?

We have two campuses currently open. Aside from Cohea, our home-base, and that's CIVICA Colorado, located in a very rural area, in Milliken, Colorado. That's currently a 6-11. They are in year-three of

operations. And kind of I want to share this because, if approved, this will be a brand-new school. The school is in its third year of operation. Its second-year data is already outperforming the school districts and its neighboring schools as well.

And some of the pathways that they offer are a Health Services Academy, Medical Terminology, Business and Information Systems, and Industries and Manufacturers. So they're focusing, too, on agriculture as well.

CIVICA Nevada, Las Vegas, does the Criminal

Justice program as well and the Community Health as

well; so those two pathways. Their high school just
got off the ground.

We currently just got -- not currently, but about a year ago we were approved to open in Ohio.

And just recently, this past summer, we got approved to open in South Carolina.

So I'll pass it to Ms. Carbajosa to tell you a little bit also about the collegiate piece. Right? Some samples of the advanced placement. Right? We want to make sure we service all kids. And she can talk a little bit to that.

MS. CARBAJOSA: Good morning, everyone.

So one of the -- I've been at COHEA for 15 years now. And one of the biggest joys that I have is being able to see our students -- my former students who come back and they serve our school and they stay in their community. And one of the -- that's very important. Because a lot of times, you know, young -- when you're young you want to achieve career goals but you feel that you cannot do it in your town or college, or they move to other places. So one of the biggest goals that we have is making sure those students do stay within our own community. And we desperately wanted -- we want to be able to replicate that, that sense of keeping our youngsters, keeping the family within our community, if that's (inaudible).

So in addition to the career pathways through CTE certifications, we also focus on post-secondary education in the form of us providing credits through advanced placement programs, through the College Board. We follow all the criteria for that. And in the different schools we offer the courses based on the interest of the students and also what is going to better prepare them for the different fields that they're going into.

For dual enrollment, we have partnerships with

local colleges, such as Doral College and Miami Dade College here in Florida, and AIMS College in Colorado.

We -- in the past graduation I believe 25 -- sorry -- 20%, 45 students, 20% of our graduates graduated with an associates degree. That means that students re receiving an associates degree, a college degree before they even get their high school degree in June. And when we open up the school, once again, we're looking to meet the needs of the kids so that they don't feel that they need to go somewhere else to better their talents and can best blossom in their careers here in our -- your -- their hometown.

And just the school initiatives, schoolwide initiatives, that only is about developing the work skills, the normal work skills everybody knows, the required certification. But also soft skills are very important. We work in a world where we have to be able to collaborate with others. And it's not so much about how it used to be in the past, where you could work, you know, isolated. No. Now, the market requires for collaboration to take place. And so, with initiatives, such as the STEAM program and Leader in Me, we hope to build those strong soft skills, such as problem solving through the

application of the engineering process and chose the Leader in Me. We're talking about The Seven Habits of Highly Effective People through the parent company, Stephen Covey, which is -- in the corporate world it's very -- you know, it's very -- it's very well-known. So it's the application of the teaching of the seven habits of the five paradigms at the school level. We're very proud to be one of the first high schools in Florida to be offered this program, and this program is also being offered network-wide. So all these schools in the network work with a coach to make sure that we are not only providing them with, you know, the regular curriculum skills, but also the soft skills.

MR. ALVAREZ: So, and I want to -- Adriana, you can go back to the -- I want to talk a little bit from our recent visit with Ms. German and Ms. Carbajosa. You can go back to the CIVICA Bentonville slide.

So a little bit more --

MS. LIMA: Here?

MR. ALVAREZ: Thank you so much.

So after our recent visit at Bentonville -- and I know we got to tour the community -- and thank you to Ms. German for really kind of taking us around and

helping us get a further understanding for that community. Some of the proposed academies for the growth and development that we see there is academies in Health Sciences, Business and Marketing, Economics and International Studies, Academy of Advanced Academics, and Computer Sciences. And it's not listed here but with one of my board members, that's to my right, you know, she was having a conversation with me this week and she wanted to talk a little bit about also another opportunity for a pathway that could be proposed and thought through. And I'll let her talk a little bit about that.

Ms. Morales.

MS. MORALES: Seeing as how Arkansas is big on the education, especially with literacy, I'm proposing a pathway for students to be able to learn how to be early childhood educators. That would definitely be something that would help with that initiative, seeing as how 35% of the Arkansas students are at their grade are reading at level. We definitely want to target that and help the students at our sister schools be able to get to where they need to be at an earlier age.

MR. ALVAREZ: And we provided in our presentation also some data, not only in our school

but some of our sister schools as well. So in yearone, we want it to be known that CIVICA Colorado,
after its year-one of operation, outperformed every
school and the school district in their Cymath
scores. The only school that did not outperform was
KQA, which is Knowledge Quest Academy, which has been
around for longer. And I do want to say after yeartwo of operations -- and if you look at year-one,
according to the Cymath's performance framework, we
were at 68.5 and Knowledge Quest Academy was at 72.7.
And, again, this is like a new school. Right?
(inaudible) year-three of operations.

Year-two, we're proud to say that we did outperform the other charter school and are the top-performing charter school in our district in Milliken, Colorado. In addition to that, also surpassing the school district and all the neighboring schools.

So one thing that I want to -- and I know -- I overheard the other conversation earlier, was, you know, you have to tie longitudinal data -- you can move that up -- longitudinal data to programming, right, and vice-versa. So one thing that we're very proud about -- and that's why we know this is working, and I want to explain this to the team in

4

3

6

5

7

9

10 11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

Arkansas. So our state -- part of our school grade, how we're assessed, there's a component called College and Career Readiness. And that percentage, that score that we get is based on your cohort -your cohort of seniors. And it's based on any student that has passed a dual enrollment course with a C or higher, passed an AP exam and a placement exam with a 3 or higher or have earned an industry certification. And we're proud to say that, since 2019, our scores in that College and Career Readiness component -- that's why we know that we're not failing kids. That's why we know that there's no child left behind. 99% college and career readiness in '19; 99% -- because we had pandemic and no school grade in 2020; 99% college and career readiness in '99 [sic]. In '22, 94% graduation -- college and career readiness. And in 2023, very proud to say that every single student passed an either industry certification, dual enrollment course, or AP exam 100%. But you need to connect that; right? that tie longitudinal to graduation rates? How does CTE pathways drive students to graduate from high school, aside from advanced programming?

Look at our data, and it doesn't -- you know, it speaks for itself. In 2017, 96% graduation rate;

2018, 97% graduation rate; 2019, 99% graduation rate; 2021, 98% graduation rate; 2022 -- 2022, 100% graduation rate; 2023, right, 97% graduation rate.

So we've never been, you know, 95%. And I truly feel that in our hearts it's a testament of offering programs and educational opportunities for all the students that we serve.

I do want to say that across-the-board and, you know, comparing our sister schools, we're assessed in 14 exams of proficiency. In those 14 exams, COHEA outperformed the school district and the state in 13 of the 14 exams. So not -- it's not only the CTE pathways, it's not only the college -- the collegiate piece with the partnerships, it's about the quality and the content areas. We're getting ready for Hispanic Heritage Month and our department chairs are all meeting together to do cross-curricular instruction -- how does ELA, how does math, how does science, how does social studies work together.

So, in closing, I want to thank you for the opportunity to present this application to you. We are excited and elated to come into Bentonville and really partner up. And I do think we have a video in closing, if we have time. If not, we can just go to the next steps.

MR. GERMAN: How long? How long is it?

2

MS. LIMA: About a minute-and-a-half.

3

MR. GERMAN: A minute-and-a-half. I don't know.

4

CHAIRMAN SUTHERLIN: Yeah, we can --

5

MR. GERMAN: Technology. It's not looking good.

6

CHAIRMAN SUTHERLIN: They may have to start it

7

from over there.

here.

8

MR. GERMAN: Well, we don't want to hold

9

everything -- we had a nice video. I'm not sure --

10

Carlos, I'm not sure if technically we can do it

11

12

MR. ALVAREZ: No worries.

13

MR. GERMAN: Okay. Yeah. And you see Carlos's

14

-- his passion. You see the school -- these schools.

15

You know, there are colleges right there. There's a

16

courtroom in the school. It's just -- it's amazing

17

how -- we were talking about career development

18

earlier. This is a great thing. And knowing

19

Bentonville very well, it is -- some schools are

20

focused on -- in America, always, we talk about just

21

college, college, but this gives other

22

opportunities as well. And with it growing so much

23

-- and I think that he'd mentioned the Farsi angle,

and that's something we're really going to explore as

24

well. Because it's -- there's a huge population

25

there that I think is very underserved by pretty much 1 any school in America, because it's relatively new as 2 an ethnic group, but it's very large. And they're 3 very insular, so it helps bring them into the 4 5 community. So I guess our closing -- everybody was here for 6 7 the last -- you know, we are a cohort; we all work together. CIVICA is a bit smaller, but they have no 8 9 less power than any of the others, because we're all here to help them and make sure they succeed. 10 So I guess it's time for the legal part, and 11 12 then we'll take questions. 13 CHAIRMAN SUTHERLIN: All right. Thank you very much. 14 15 MR. GERMAN: Sure. CHAIRMAN SUTHERLIN: Mr. Reynolds. 16 LEGAL REVIEW 17 18 The very exciting legal part. MR. REYNOLDS: All right. So this is the same process. 19 It's 20 going to take a minute. I'm just going to go in bunches. 21 22 So waiver topic number one, it's ALE. 23 charter is requesting the waiver of Arkansas code 24 annotated 6-15-1005(b)(5), 6-18-503(a)(1)(c)(1) --(c)(i), 6-48-102, 6-48-103, Standard for 25

Accreditation 2-I.1, and the rules governing Student Special Needs Funding, just Section 4. And we don't have any legal concerns with that.

Waiver topic number two, Board of Directors, the charter is seeking to waive Arkansas Code Annotated 6-13-608, 6-13-611, 6-13,612(c), 6-13-613, 6-13-615, 6-13-616(a), 6-13-617, 6-13-618, 6-13-619(a),(c),(d)(2)(A),(d)(4), 6-13-620(5), 6-13-622(b), 6-13-630, 6-13-634, 6-13-635, 6-13-1303, 6-14-101 et seq. And we don't have any legal concerns with that. I'll make the same note as I made on the other application, 6-13-635 was repealed.

MR. GERMAN: And we're fine with the law doesn't exist anymore.

MR. REYNOLDS: All right. So waiver topic number three, Class Size and Teaching Load, Arkansas Code Annotated -- the charter is seeking to waive Arkansas Code Annotated 6-17-812, Standard for Accreditation 1-A.5 and 1-A.6, and the rules governing Class Size and Teaching Load. And the Department doesn't have any legal concerns with that.

Waiver topic number four is Flag Display. The charter is seeking to waive Arkansas Code Annotated 6-16-105 and 6-16-106. And we don't have any legal concerns with that.

Waiver topic number five, Leased Academy -Leased Academic Facilities. The charter is seeking
to waive Arkansas Code Annotated 6-21-117(2)-(5).
And we don't have any legal concerns with that.

Waiver topic number six, the Library Media Service and Specialist -- the charter is seeking to waive Arkansas Code Annotated 6-25-103(3)(D), 6-25-104, and Standards for Accreditation 2-D.1, 4-F.1, and 4-F.2. And we don't have any legal concerns with that.

Waiver topic number seven, Personnel Policies Duty-Free Lunch Period. The charter is seeking to
waive Arkansas Code Annotated 6-17-111. And we don't
have any legal concerns with that.

Waiver topic number eight, Personnel Policies - Daily Planning Period. The charter is seeking to waive Arkansas Code Annotated 6-17-114, and we don't have any legal concerns with that.

Waiver topic number nine is Personnel Policies - Non-Instructional Duties. The charter is seeking to waive Arkansas Code Annotated 6-17-117, and we don't have any legal concerns with that.

Waiver topic number ten, the Personnel Policies
- Requirements. The charter is seeking to waive
Arkansas Code Annotated 6-17-201(c), and we don't

2 3

4

5

6

7

8

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

have any legal concerns with that.

Waiver topic number eleven is Personnel Policies - Committee on Personnel Policies. The charter is seeking to waive Arkansas Code Annotated 6-17-203, 6-17-205, and 6-17-209. We don't have any legal concerns with that.

Waiver topic number twelve, Personnel Policies -Grievance Procedure. The charter is seeking to waive Arkansas Code Annotated 6-17-208, 6-17-210, and we don't have any legal concerns with that.

Waiver topic number thirteen is the Employment of Licensed Personnel. The charter is seeking to waive Arkansas Code Annotated 6-17-301(a) and (b), and we don't have any legal concerns with that.

Waiver topic number fourteen is Personnel Policies - Classified Employees. The charter is seeking to waive Arkansas Code Annotated 6-17-2301(c)(1) and (d)(2). And we don't have any legal -- oh, and 6-17-2302, 6-17-2303, 6-17-2304, and 6-17-2405. And we don't have any legal concerns with that waiver.

Waiver topic number fifteen, it's the Website Posting Requirements. The charter is seeking to waive 6-11-129(a)(1)(B), the Standard for Accreditation 3-A.2 (only to the extent that the

classified salary schedule must be published on the school's website), and the rules governing Documents Posted to School District and Education Cooperatives Websites, Section 5.01.4, 5.01.5, 6.01, and 6.02. And we don't have any legal concerns with that.

Waiver topic number sixteen, the Principal requirements. The charter is seeking to waive Arkansas Code Annotated 6-17-302, Standard for Accreditation 4-C.1 and 4-C.2. We don't have any legal concerns with that.

Waiver topic number seventeen, Report Cards -the charter is seeking to waive Arkansas Code
Annotated 6-15-903(a)(2). We don't have any legal
concerns with that.

Waiver topic number eighteen, Required

Instruction -- the charter is seeking to waive

Standard for Accreditation 1-A.1.3. We don't have
any legal concerns with that.

Number nineteen, Superintendent requirements -the charter is seeking to waive Arkansas Code
Annotated 6-13-109, 6-13-427, Standard for
Accreditation 4-B.2, and the rules governing the
Superintendent Mentoring Program. We don't have any
legal concerns with that.

Waiver topic number twenty, School Counselor --

the charter is seeking to waive Arkansas Code
Annotated 6-18-2003(a)(2)(A) and Standard for
Accreditation 4-E.1. And we don't have any legal
concerns with that.

Waiver topic number twenty-one, Teacher

Licensure -- the charter is seeking to waive Arkansas

Code Annotated 6-15-1004, 6-17-309, 6-17-401, 6-17
418, 6-17-902, 6-17-908, 6-17-919, Standard for

Accreditation 4-D.1, and the rules governing Educator

Licensure, Section 7. I'll make the same note on

this application as made on the last one: we can

waive the licensure requirements for AQT, but we

can't waive the standards.

MR. CAMPBELL: Waive that one, right.

MR. REYNOLDS: So we don't have any legal concerns with that.

Waiver topic number twenty-two, Gifted and Talented -- the charter is seeking to waive Arkansas Code Annotated 6-20-2208(c)(6), 6-42-109, Standard for Accreditation 2-G.1, and the rules governing Gifted and Talented Program Approval Standards. And we don't have any legal concerns with that waiver.

CHAIRMAN SUTHERLIN: All right. Thank you very much.

MR. REYNOLDS: And that concludes the exciting

1 legal part. 2 CHAIRMAN SUTHERLIN: Thank you. 3 All right. We'll start on this end with Dr. Moore. Do you have any questions concerning the 4 5 waivers? DR. MOORE: Yes. So, and I apologize if I'm 6 7 redundant on anything that was asked on a previous --8 CHAIRMAN SUTHERLIN: Okav. 9 DR. MOORE: -- because they're similar. I had a commitment that I could not join until now. So some 10 of this may have been addressed with the Pinecrest 11 application, which was similar. But I did have 12 13 concerns, wanting to know about the --14 CHAIRMAN SUTHERLIN: Dr. Moore, if you'll pull 15 your mic down. DR. MOORE: 16 Oh, sure. 17 CHAIRMAN SUTHERLIN: Sorry; it's lifted. 18 DR. MOORE: All right. About the waiver discussion about GT programs, I'd like to know how 19 that will be implemented in a regular classroom for a 20 21 teacher who's having to teach everyone will be able to have such differentiated instruction for those 22 23 learners. 24 MS. SALAZAR: Yeah, absolutely. Thank you for

25

asking that.

I'm sorry -- oh, and I think I need to be sworn
in because I wasn't in here when we were sworn in.

CHAIRMAN SUTHERLIN: Yes. So if you'll raise your right hand --

MS. SALAZAR: So, my right hand. Yes.

CHAIRMAN SUTHERLIN: Okay. Do you swear that the testimony you're about to give is the truth, the whole truth, and nothing but the truth?

MS. SALAZAR: Yes, I do.

CHAIRMAN SUTHERLIN: Thank you.

MS. SALAZAR: Thank you.

Okay. So, basically, when we're doing Gifted, we're looking at it in regards to enrichment. And so, therefore, we're looking at different activities that the teacher will do when she's working with students and with groups of students to insure that the students that are identified as Gifted are getting enriched. A perfect example could be if there's going to be some type of project, maybe the children that -- or the students that are identified as Gifted might have a different little bit of a component of it; you know, for example, maybe do it more like a project-based learning activity. So, based on what the content is, what we do is we look at the group of children. Obviously, we identify who

the children are that have been -- that are eligible for Gifted and Talented, and then we think of ways that we can enrich what those activities are. In addition, we can also, during any type of differentiation of instruction time, if there's any type of groups coming in, you know, to the teacher, that's also an opportunity where we can always enrich. It's not about giving extra work; it's about just finding different activities to push that giftedness and the higher-order thinking of skills, you know, for them.

DR. MOORE: Okay. Thank you.

And then also on the waiver regarding the School Nurse I was concerned with the limited scope of practice of a CNA or Medical Assistant, and it says it will be under the supervision of an RN. And you may have addressed this with the previous --

MS. SALAZAR: No, but let's address it again. I'm okay with it.

DR. MOORE: I'll be voting this time; I want -- MS. SALAZAR: Yes, absolutely. Ask all the

questions. Yes, we -- that was a point of clarification. And we will be hiring an LPN.

DR. MOORE: Okay. Perfect.

MS. SALAZAR: Yes.

1 DR. MOORE: Perfect. All right. MS. SALAZAR: I'm sorry. Oh, yeah, yeah. 2 RN -- the RN has to be there, because the LPN is an 3 LPN and an RN is an RN. Yeah. 4 5 DR. MOORE: Okay. Thank you. MS. SALAZAR: 6 Okay. 7 CHAIRMAN SUTHERLIN: Ms. Saracini? 8 MS. SARACINI: I don't think I have any at this 9 time. 10 CHAIRMAN SUTHERLIN: Okay. Dr. Wright-McMurray? DR. WRIGHT-McMURRAY: No, I don't have any at 11 this time. 12 13 CHAIRMAN SUTHERLIN: Okay. Mr. Davis? MR. DAVIS: Not at this time. 14 15 CHAIRMAN SUTHERLIN: Okay. Any questions not 16 concerning waivers? Dr. Wright-McMurray? 17 DR. WRIGHT-McMURRAY: Not so much a question, 18 but a comment, I guess. I greatly appreciate in this presentation the clear explanation of how CTE 19 instruction was going to be delivered and 20 identification of the academies that will be offered, 21 22 as well. And I also appreciated the additional 23 information in regards to outcomes for students, because that clearly explained to me where you're 24 25 starting, where you got to in the process.

1 MR. GERMAN: Took advantage of having one presentation right after the other. 2 DR. WRIGHT-McMURRAY: Yes. So, no, but that was 3 So I just wanted to say that I appreciate 4 helpful. 5 you reiterating that and kind of clearing that up on the other end. And for those online as well, thank 6 7 you. 8 MR. GERMAN: Okay. You're welcome. 9 CHAIRMAN SUTHERLIN: Ms. Saracini? MS. SARACINI: I really don't have any --10 11 CHAIRMAN SUTHERLIN: Okay. 12 MS. SARACINI: -- comments, other than thank 13 you. And I appreciate his -- I understood more in the second presentation than the first. But it was 14 15 very thorough, and thank you. CHAIRMAN SUTHERLIN: Dr. Moore? 16 DR. MOORE: So, once again, these may be things 17 18 you've clarified previously, but if you could provide a little more information. It mentioned that ELA 19 performance would be one of your goals for 11th grade 20 21 on the ACT, but it didn't reference math. MS. SALAZAR: It would be ELA and math. 22 23 MR. GERMAN: It was a clerical error. 24 DR. MOORE: Okay. We've added it, and we made sure it 25 MR. GERMAN:

was on the record. And it is now on this one, as 1 well. 2 3 DR. MOORE: Okay. Great. And then, similarly, in the goals it mentions 4 5 student engagement but not a quantifiable measure for student engagement. It gives the measure, but not a 6 7 specific metric. It says it will be --I don't think we addressed that one 8 MR. GERMAN: specifically. MS. SALAZAR: No, we didn't on student 10 11 engagement. 12 DR. MOORE: Okay. So it says student engagement and it mentions it will be by monitoring attendance, 13 but it doesn't give any goal of whether -- you know, 14 15 that could be 10% attendance or 99. So, some quantifiable --16 MR. GERMAN: Well, now is our opportunity to 17 18 quantify that. What should -- where would the solution be? Go ahead. Someone online? 19 MR. ALVAREZ: We couldn't hear the question at 20 21 all on this end. It just came out very low. 22 DR. MOORE: Sure. So I was asking -- on your 23 goals for student engagement, it says that it will be 24 measured by student attendance. But it doesn't list 25 a specific number, like a percentage for that goal.

1	So what is a reasonable goal there that you're
2	seeking?
3	MR. GERMAN: Did you guys hear that one?
4	MR. ALVAREZ: Yeah, what's our goal.
5	MR. GERMAN: We're saying now let's just put
6	it to bed right now. Give us a reasonable goal and
7	
8	MR. ALVAREZ: And one of the things that we do
9	pride ourselves you know, students can be engaged;
10	but before that, students have to be in school. So I
11	would say a threshold would be, you know, 90%
12	attendance or above.
13	MR. GERMAN: Okay. That's pretty strong.
14	CHAIRMAN SUTHERLIN: And does that track with
15	the current data you have for your other schools?
16	MR. ALVAREZ: Yes, sir.
17	CHAIRMAN SUTHERLIN: Okay. Thank you.
18	MR. ALVAREZ: You're welcome.
19	MR. GERMAN: Okay.
20	DR. MOORE: Thank you.
21	CHAIRMAN SUTHERLIN: I thought that you had one
22	question about the meetings, the public meetings.
23	DR. MOORE: Yes. Yes. So I did have a
24	question. So I noticed that for both the meetings,
25	in Fayetteville and Bentonville, it said due to

1 inclement weather no one attended either meeting. I didn't know if the meetings were at the same time, 2 different times. The time of the Bentonville meeting 3 was stated as 4 p.m., and according to the weather in 4 Bentonville that day it didn't rain until after 6 5 So it was just odd that at neither place no one 6 p.m. 7 attended. So share more information on that. 8 MS. LIMA: Yeah. We did outreach digitally and we did, of course, the public notices in the 10 newspaper. It was raining later on in the day, and so -- but, you know, I don't know if that's 11 necessarily exactly why, but we did not have anybody 12 13 appear. But the intent of the applicants is to hold -- of course, upon and hopefully receiving approval 14 15 -- to immediately strike up having more community meetings and having people on the ground to host 16 events and attend events. 17 18 DR. MOORE: Okay. And it mentions social media. How was it publicized on social media? 19 MS. LIMA: We do Google Ads. So, Google 20 responsive ads. 21 22 DR. MOORE: Okay. And does it appear to have a 23 reach or are you seeing a reach with that? MS. LIMA: They were not on for long enough. 24 25 think typically what we see is -- you know, at least

So

1 three weeks is what you really need for these things to get traction; so we didn't really see much of a 2 reach. And so I think that kind of proves that -- to us, at least -- that what we really need to be doing 4 5 is more grassroots on-the-ground. DR. MOORE: Thank you. 6 7 CHAIRMAN SUTHERLIN: Any other questions, Dr. Moore? 8 DR. MOORE: No. Because my other question is about what do you mean by highly successful. But I 10 think the presentation --11 12 CHAIRMAN SUTHERLIN: 13 DR. MOORE: -- spoke to that. So that answered those questions. Thank you. 14 15 CHAIRMAN SUTHERLIN: Mr. Davis? MR. DAVIS: Yes. First of all, thank you for --16 the folks may not know, I kind of started -- I 17 18 started my education journey at the point in which I got involved with doing some of this work in 19 northwest Arkansas, with the Northwest Arkansas 20 Council, and trying to help business and schools come 21 22 together to create career pathways for students. 23 this is something that I'm really interested in. 24 We are -- remind me again -- we are looking at a 25 K-12 institution. Is that right?

MR. GERMAN: Yes.

MR. DAVIS: Yes. Yes. So I do have some questions, I quess, and I'd love to dive a little bit into kind of what I'm looking at in regards to the report cards in Nevada. And it appeared to me -- and folks -- you know, folks who know me know I'm really interested in growth, I'm really interested in closing the gap, so-forth and so-on. But it appeared that in the school in Nevada -- talk to me a little bit about -- it appears that there have been some challenges around growth, particularly on the elementary side, when I look at the growth indicator, and then, once again, when I look at the closing the gap indicator. Can we talk just a little bit about what's happening there, based upon the information I think it's the 2021-2022 sort of that's provided? report card, around accountability. Can someone speak to that for me, please?

MR. ALVAREZ: Yeah, yeah. Yeah. And I think

Alex Prieto and I will take this. A little bit -- a

little bit about that, we did have a change in

leadership. Alex Prieto is the Vice Chair of CIVICA

Nevada, and I'll let her talk to you a little bit

about what the support that we have been providing -
been providing this past year -- this last school

year and this year at CIVICA Nevada. They are a two-star school, but that doesn't mean you're going to be a two-star school forever. A two-star is better than one-star, and obviously our goal is to be a five-star school there. But really the level that Ms. Prieto and I have been involved with CIVICA Nevada, I think has put us in the proper posture for student growth and student achievement based on the (inaudible) this school year.

Alex, can you talk a little bit to that?

MS. PRIETO: Yes. Thank you.

With CIVICA Nevada, we have been assisting at the school now for I believe three years. Right, Carlos?

MR. ALVAREZ: Yes.

MS. PRIETO: Three years. We have, like most schools, have gone through having some difficulties finding teachers to be able to come in and stay. So, in Nevada, there's the ability to hire teachers with some certificates and different things like that.

And what they're going through with their teachers and their teacher shortage has been something that we've been trying to assist with and be able to provide as much help that we can and support. But I believe that that would be -- to your question, Mr.

Davis, what I think would be the biggest struggle with Nevada -- and in that area where CIVICA Nevada is located we do have -- this year, we took a different proactive approach in teacher hiring, and mostly in the timeline of when we started looking for teachers, seeing what was coming -- what was to come as they grow. Because now they are opening their 9th grade; we do have a 9th grade that we opened up this school year. So making sure that we did do some teacher shuffling within the teachers that are with us, and then making sure that we were hiring proactively for those positions that became available.

MR. ALVAREZ: And just to mention, Mr. Davis, so CIVICA does have an advisory board that -- we meet once a month, and it's a group of leaders that are educators. So it's a board member, it's an educator, which is Ms. Prieto; it's myself in the capacity of the president, as well. It's another local board member that's an educator, that's a Principal at Summerset; and then it's the Principal and their administrative team. You know, last year, we did not have any Assistant Principals or school support; it was pretty much the Principal running the show. He was a first-year Principal. Although we did provide

as much support and guidance as possible, he was understaffed. I think this year Alex and I, in the capacity of the advisory board, supported him with the interview process to identify Assistant Principals. And we are happy to say that we identified three Assistant Principals, along with the current Principal, to provide support to CIVICA Nevada. And there are ongoing currently monthly advisory board meetings, not to mention CIVICA network quarterly Principal meetings as well. We do -- Alex has a visit coming up now, in September, so --

MS. PRIETO: Actually, this month I will be there.

MR. ALVAREZ: That's great. You're ready to go this Monday, and for a board meeting. So the conversation there, it's a not-yet circle, but we are working diligently to make sure that we can turn the course for the better and for student growth and achievement.

MR. GERMAN: Yeah. And if I can add, Mr. Davis, this is -- your question brings to mind a real-world example of when one of our schools that may not be next-door has a challenge, we're on it and we stay with it until -- I mean, they're not doing this on

the phone; Alex is going there. And they -- we -- it is one of our -- it's one of the secrets to our -- our secret sauce; we're always trying to figure out what exactly it is. I think it is our support. So I hope that answered your question at least.

MR. DAVIS: Okay. And you're not finding -- yeah, it does. It does, and thank you for that.

You're not finding the same issue in the Colorado location, are you?

MR. ALVAREZ: No. That is -- it's a different -- it's a different -- definitely a different demographic.

MS. PRIETO: Exactly.

MR. ALVAREZ: We're talking about 100% free-andreduced lunch. We're talking about 12 of the
elementary neighboring schools are F and D schools.
We're talking about a very at-risk population and a
very high-poverty area. So we weren't afraid to go
there because we wanted to -- we did want to be that
beacon of light. We just knew that going into there
we had to roll up our sleeves and have all our
soldiers lined up to make sure that we are that
beacon of light for that community, because the
traditional public schools were pretty much failing
the kids. So it's a work-in-progress, but I trust in

the leaders that I work with and the support team that we're going to get that school where it needs to be.

MR. DAVIS: And I appreciate that. And I appreciate you making the commitment to those students and families.

All right. No other further -- no other questions from me.

CHAIRMAN SUTHERLIN: Thank you.

All right. I believe Cassandra Barnett has a question.

MS. BARNETT: Hi. Cassandra Barnett, DESE

Program Advisor for School Libraries. I have a
similar question to what I asked in the previous
application, which was you have a plan to hire a
school librarian but you've waived all of the
requirements for Library Services, pretty much. So I
would just like to know how you're planning on using
your school librarian at this particular charter
school.

MS. SALAZAR: Sure. The main job of the librarian will be to insure that they are -- that she is, or he is, implementing the library standards for Arkansas, as -- when we were reading about them, they're very important, as you had mentioned earlier

1	in the Pinecrest evaluation. A wonderful way that we
2	would be able to use her is for her to be co-teaching
3	those standards, as well. But also the librarian is
4	going to be working with all of the classrooms, also
5	to foster a love for reading; so whatever type of
6	that program is going to look like. Many of our
7	schools use the Accelerated Reader. We're also going
8	to be doing that. So definitely meeting most
9	definitely meeting the Arkansas library standards,
10	implementing those, assisting our teachers to be able
11	to implement those, and then also fostering the love
12	for reading.
13	MS. BARNETT: Thank you.
14	MS. SALAZAR: Thank you.
15	CHAIRMAN SUTHERLIN: Any further questions from
16	the Panel?
17	DR. WRIGHT-McMURRAY: No.
18	CHAIRMAN SUTHERLIN: Ms. Saracini?
19	MS. SARACINI: No.
20	CHAIRMAN SUTHERLIN: Dr. Moore?
21	DR. MOORE: No.
22	CHAIRMAN SUTHERLIN: Mr. Davis? Any further
23	questions, Mr. Davis?
24	MR. DAVIS: No further questions.
25	CHAIRMAN SUTHERLIN: Okay. Any discussion?

All right. I'll entertain a motion. 1 2 DR. WRIGHT-McMURRAY: I move approval of the application. 3 MS. SARACINI: I second. 4 5 CHAIRMAN SUTHERLIN: All right. I've got a motion by Dr. Wright-McMurray for approval, and I've 6 7 got a second by Ms. Saracini. All those in favor? (UNANIMOUS CHORUS OF AYES) 8 CHAIRMAN SUTHERLIN: All right. All those 10 opposed? 11 We don't have anybody. So, the motion passes. So we're going to fill out our voting sheets and 12 13 we'll get back to you in just a second. 14 (A FEW MOMENTS OF SILENCE) 15 CHAIRMAN SUTHERLIN: All right. We'll start with Mr. Davis. 16 MR. DAVIS: Yes. I support the motion to 17 18 approve the application in order to provide families in Arkansas an additional school model with career 19 20 pathways and to local community (Zoom audio cuts 21 out). 22 CHAIRMAN SUTHERLIN: Dr. Moore. DR. MOORE: 23 I support the application for this 24 school to open in the 24-25 school year. 25 program offerings, including robust CTE pathways,

will add to the existing rich learning opportunities 1 2 in the region to prepare students for both college and career. 3 CHAIRMAN SUTHERLIN: Ms. Saracini. 4 5 MS. SARACINI: I support the approval of this 6 academy in Bentonville, the application to open in 7 the 24-25 school year. I'm looking forward to seeing the opportunities afforded to the students in 8 Arkansas. CHAIRMAN SUTHERLIN: Dr. Wright-McMurray. 10 11 DR. WRIGHT-McMURRAY: I voted for. I support the Bentonville application to open academic year 12 2025. I'm excited to see their strong focus on 13 college and career readiness. I look forward to the 14 15 opportunities Arkansas students will receive from 16 this new charter school option. 17 CHAIRMAN SUTHERLIN: All right. 18 Congratulations. 19 ADJOURNMENT 20 CHAIRMAN SUTHERLIN: Is there any new business? 21 MS. SARACINI: I make a motion to adjourn. 22 DR. MOORE: I second. 2.3 CHAIRMAN SUTHERLIN: All right. All those in 24 favor? 25 DR. MOORE: I've been here so long.
