Focus Area:	<input type="checkbox"/> Traditional <input checked="" type="checkbox"/> Alternative Learning Environment <input checked="" type="checkbox"/> Virtual <input checked="" type="checkbox"/> College Prep <input checked="" type="checkbox"/> Credit Recovery <input checked="" type="checkbox"/> Other:

Provide a brief description of the purpose or emphasis of the school:

The Freedom Learning Academy's purpose is to fill a gap in Arkansas' educational services. There are two underserved populations. Though often on the opposite end of the spectrum, the homeschool students and the adjudicated students do not receive the services or resources that every student in our great state deserves. If willing, both populations would greatly benefit from a personalized education with specialists partnering with parents/guardians to provide a unique education not yet seen in Arkansas.

Upon approval by the state of Arkansas, FLA will operate a free Preschool-12th grade public charter school for students and families seeking a non-traditional educational setting utilizing blended education, individualized instruction provided across the state of Arkansas. We are determined to fulfill every student's individual potential by personalizing an educational plan that empowers families throughout their educational journey to achieve ideal student performance. Whether the student's goal is to enter the workforce, technical training or university, guidance will be provided through field trips, hands on experience, and community service along side a quality education. With resource centers located in various locations around the state, students will have access to high quality, Arkansas approved curriculum, face-to-face instruction with their instructors on a weekly basis, as well as PT, OT, Speech, Dyslexia, GT, SPED, literacy and high-impact tutoring services.
