

## **How is childcare provided for my children?**

Once a family is determined eligible for the School Readiness Assistance Program, they must select a childcare provider that is licensed or registered by the Office of Early Childhood. The provider must be an active participant in the School Readiness Assistance Program.

Families may contact the Program Eligibility Specialist to request a list of childcare providers that participate in the School Readiness Assistance Program or call 1-800-322-8176. Families may also use the Search for Childcare located [here](#).
