School districts seeking to employ educators to teach out of field (not in the field in which the educator is currently licensed) will use the Additional Licensure Plan (ALP) to meet that need. School districts may use the ALP process to address unusual emergency situations when licensed educators are asked to. School districts may not exceed the six semester limit without possible penalty.

THIS AREA CANNOT BE ADDED BY TESTING ONLY.

Eligibility Guidelines:

- possess a standard Arkansas educator license,
- seek to add this area of licensure or endorsement, and
- be assigned to teach in this area

Educators assigned to work in this endorsement area must obtain a Master's degree or higher in Library Media Science or a Master's degree in an area of licensure. Individuals holding a Master's degree in another area of licensure must complete an ADE approved graduate, non-degree program of study in School Library Media Specialist. The application, when submitted, must bear the signature of the university's Licensure Officer verifying completion of the program of study. Passing scores on the required assessment and official transcript must be attached. The additional area of licensure will be added to the credential when all licensure requirements, including a Master's Degree in School Library Media, are successfully completed and an application is submitted with recommendation from the university.

Required Assessment:

- Praxis II: Library Media Specialist, test #5311, minimum score required: 148**

NOTE: Test at a Glance (TAAG) study guide booklets are available on line from www.ets.org/praxis. Any educator registering to take any Praxis assessment is strongly encouraged to obtain these study materials.

Recommended Content Background:

- Teach information literacy skills and strategies integrated with content learning and provide both technological and intellectual access in a climate that promotes literature appreciation, reading, and above all, student learning.
- Lead in establishing an integrated library media program by collaborating with classroom educators to use instructional design concepts in the planning and teaching of a standards-based curriculum. Grow as an educator who, through reflective practice, active
