

AIIM Arkansas Initiative for Instructional Materials

Building Pathways to High-Quality Instructional Materials

Arkansas HQIM Vision:

Will ensure that every student in Arkansas has equitable access to high-quality instructional materials, grade-level instruction, and responsive practices leading to opportunities to reach college, career, and life goals.

OERs: Open Educational Resources

These Open Educational Resources (OERs) are free tools which provide a process by which a district and/or school could build a system for adopting HQIM.

As a district and/or school explores the selection process for HQIM, the following OERs may be helpful. In the near future, DESE will provide opportunities for training for use of these OERs to facilitate the adoption process.

These resources are not required but can be used at the discretion of the district and/or school. Adoption of curriculum materials is a local decision.

“HQIM are essential tools that empower teachers to focus on doing what they do best: getting students excited to learn.”
