

PRICING BREAKDOWNS

Carnegie Learning is committed to designing and delivering professional development that aligns with each Arkansas district's learning standards and educational goals. Based on each district's goals, the number of teachers, their respective needs, and schedules, our proposal will have several recommended professional learning offerings based on what is listed below. In consultation with each district, **Carnegie Learning** will architect a customized professional learning plan that is just right for each district.

This pricing includes our recommended package, which will be customized as a solution based on the number of campuses being served in each district. The pricing below relays the **lowest possible cost** per district for the scope of work. Font in red outlines where districts may add additional supports based on the size of the district.
