Consideration of 2006-2007 Renewal of Request for Proposals for Arkansas Better Chance (ABC) Programs

Paul Lazenby was recognized to present this item. Mr. Lazenby stated that the Board is required to review the ABC program application form prior to release. He noted that the primary purpose of this release is to continue current programs for the coming year; however, each site has to apply annually. Ms. Hillman inquired about potential funding for the coming year. Mr. Lazenby indicated that the agency was working with Governor Huckabee's Office to assure adequate funding for continuation sites.

Ms. Hillman moved approval of the application form as proposed. Ms Burrow seconded the motion. The motion was adopted unanimously.

Request for Final Approval of Proposed Amendments to Rules and Regulations Governing the Arkansas Better Chance Programs

Additionally, Mr. Lazenby requested a change in the administrative procedures for storage of personnel records.

Ms. Burrow moved final approval of revised Rules as proposed. Dr. Williams seconded the motion.

Request for Final Approval of Proposed Revisions to the Arkansas Department of Education Rule Governing the Non-Traditional Licensure Program (NTLP)

Beverly Williams was recognized to present this item. Ms. Williams reported that additional minor revisions are being proposed. She noted that these suggested changes are the result of deliberations regarding the NTLP program. Ms. Williams highlighted the revisions that were suggested as a result of public comment. She noted that all of the suggested changes were intended to better prepare teachers who enter classrooms under the provisions of this program.

Dr. Mays observed that he has good grasp of the program for secondary teachers, but has questions about the preparation for an individual who would be entering a primary or upper elementary classroom. Ms. Williams responded that the reading component was one attempt to address that concern.

Ms. Hillman stated that this program was one of the positive actions that the Board has taken in recent years and there are many talented teachers who have entered the professions through this program. Mr. Lawson agreed and supported revisions as suggested.

Ms. Burrow asked about those who have content skills, but lack "people" skills. Ms. Williams responded that once teachers are in the classroom, the principal or superintendent has some responsibility for monitoring and observing performance. She also stated that these are areas that can be addressed through the required professional development plan for those individuals.

Ms. Hillman moved approval of revisions as proposed. Ms. Burrow seconded the motion.

Dr. James stated that Arkansas was the only state that received an "A" rating in a recent education report for teacher quality.

The motion was adopted on a vote of 5 yes and 2 no. (Dr. Williams and Mr. Lawson voted no.)

Mr. Lawson moved approval of the removal from fiscal distress classification. Dr. Williams seconded the motion. The motion was adopted unanimously.

Request Approval of the Recommendation of Denial of Employment Eligibility for a Non-Certified Position: Ronald Kay Forte

Tripp Walter was recognized to present this item. Mr. Walter indicated that Mr. Forte was employed in the Monticello School District as a special education aide. A routine background check revealed a previous felony conviction which was expunged. Mr. Walter indicated that a telephone conversation with Superintendent Norman Hill was conducted and that Mr. Hill did not believe continued employment of Mr. Forte would be a problem. Mr. Walter reported that a letter from Mr. Forte was received requesting consideration of the Board for a waiver, which would allow him to continue in the position. Mr. Walter stated that the Board's options would be to deny the waiver, thus making Mr. Forte ineligible to continue employment or it could grant the waiver in which case he could continue to work in the district.

Ms. Hillman asked if the type of substance was known. Mr. Walter responded that the information was not contained in the documents due to the expungement.

Mr. Walter determined that Mr. Forte was not present nor was he represented. Mr. Walter did indicate that Mr. Forte came to the Department and met with the attorneys and the process for the hearing was discussed at that time. Reports

Review of Proposed Performance Rating System and Report from Standard Setting Session

Dr. Charity Smith was recognized to present this report. Dr. Smith stated that this report is based on work of an advisory panel pursuant to the requirements to provide a rating for each school as required in Act 35 of 2003 and its subsequent revision. The purpose of the report is to advise the Board of the need to set performance ratings for each public school. Elements of the system were described and the process for determining a rating was presented. Dr. Smith advised the Board that they will be requested to act on the recommended performance rating system at the May 8th meeting.

No action was taken.

Report of the Annual Review of the Imboden Area Open-Enrollment Charter School

Mary Ann Brown was recognized to present this report. Ms. Brown reported that this charter school was approved for a three-year renewal of the charter in 2005, but the Board made the renewal conditional on receiving annual reports on student performance, enrollment and financial status. Judy Warren, school administrator, was recognized to present the update.

No action was taken.

Report on the Financial Status of the Academics Plus Open-Enrollment Charter School in Monticello

Dr. Bobbie Davis was recognized to present this report. Dr. Davis reported that the school has experienced severe financial difficulties this year. She noted that the state revenue was decreased beginning in November due to a decrease in enrollment for the current school year. Dr. Davis stated that the school expended all its cash prior to March 1 and that patrons and businesses in the Maumelle area have collected funds that will allow the school to meet obligations through April and perhaps go into May. She also confirmed that at this time there is no assurance that the school can finish the year or have a balanced budget at the end of the school year.

In response to a question by Dr. Williams, Dr. James asked Scott Smith to review options that the Board has to respond to the financial conditions that exist. Mr. Smith suggested that the school could close early and the Board revoke the charter; the school could voluntarily surrender the charter; or funds could be raised to meet

obligations for the rest of the year. He then stated that some determination would have to be made regarding any continuation for 2006-2007 school year and beyond.

In response, the Administrator, Nancy Acre and a representative of the parent organization affirmed that fund raising was ongoing and there is some hope that funds can be raised to meet the payments for the remainder of the academic year. Also, they indicated that there was a challenge grant of \$75,000 pledged that would only be paid if the balance of funds needed were raised. It was stated that parents and students are working "around the clock" in an attempt to meet financial obligations.

Ms. Acre reported that the current enrollment is approximately 170 students. Since the financial difficulty, some parents have placed their children in other schools in the area.

Mr. Smith informed the Board that if the Board should decide to revoke the charter, it would have to give notice and conduct a formal hearing. For the Board to conduct a formal hearing, it must provide 30 days notice.

Dr. Williams asked about the amount of money that would have to be raised to meet obligations. Dr. Davis responded that just raising funds to complete this year is only part of the problem. She reminded the Board that if they operate next year, they will have to complete registration, and submit a budget that covers 2006-2007.

Dr. Williams moved that the Board provide notice to the Academics Plus Charter School that a formal hearing will be conducted on May 8, 2006, and at that time the Board will consider the additional information and make a determination for continuation. Ms. Tatum seconded the motion. The motion was adopted unanimously.

Scott Smith was directed to prepare a statement of notice and send to the Academics Plus Charter School administration and Board.

Ms. Hillman moved adjournment. Ms. Tatum seconded the motion. The motion was adopted unanimously.

The meeting adjourned at 2:20 p.m.

Ms. Williams responded that once teachers are in the classroom, the principal or superintendent has some responsibility for monitoring and observing performance. She also stated that these are areas that can be addressed through the required professional development plan for those individuals.

Mr. Lawson stated that he personally has received many questions from personnel around the state regarding this program. He stated it was his opinion that there was no difference between traditional and non-traditional preparation for entry into the program. He asked for clarification of how schools on block schedules counted the number of courses per day as required in the Rule. He also inquired about the need for a NTLP teacher to be full time in the school during the induction process. Mr. Lawson stated that there are people such as engineers or draftsmen who are accomplished with the CAD equipment who would be willing to spend one or maybe two periods per day, but could not spend all day for two years to meet the licensure expectations. He stated it was his opinion that these rules are setting up too many regulations and restrictions (burdens) on non-traditional teachers. He questioned why a person entering the program could not spend one or two hours a day and meet the licensure requirements.

> correction

Ms. Williams responded that with the rule the Department was attempting to reach a balance between schools of education and a level of quality teachers as they

function in the classroom. Mr. Lawson suggested that this program should be a way to get more teachers into the classroom, especially in these critical shortage areas.

Ms. Hillman moved approval of revisions as proposed. Ms. Burrow seconded the motion. Mr. Lawson stated that he believes there are areas that need edits and would suggest this item be tabled until edits are made and agreed to. There was no second. *correct*

Dr. James stated that Arkansas was the only state that received an "A" rating in a recent education report for teacher quality.

The motion was adopted on a vote of 5 yes and 2 no. (Dr. Williams and Mr. Lawson voted no.)
