**Provide a brief description of the purpose or emphasis of the school:**

The Virtual Preparatory Academy of Arkansas envisions a learning experience that combines the best of online instruction with its capacity for individualized flexible learning. Our statewide public charter school will feature an innovative and interactive curriculum fully aligned to the Arkansas Academic Standards and taught by talented Arkansas state-certified teachers.

Teacher-led instruction will include synchronous and asynchronous learning opportunities, one-to-one tutoring, organized peer interaction, and a focus on critical skills for success in college and the workforce. We will partner with our families to ensure they have the appropriate resources to support their student’s engagement and learning. This includes comprehensive student and parent onboarding programs to ensure students are ready to learn and parents are ready to support.

We believe a strong, personalized education is critical to each and every student we serve. For Arkansas to prosper, it must begin with the individual who has a solid educational foundation from which to pursue their goals, their dreams, their passions. VPA of Arkansas will serve grades K-12 and will be focused on providing an educational choice that creates an opportunity for students to succeed in academics and prepares them for college and careers.
