

With **Choices360**, Arkansas districts have access to an engaging, informative, and relevant set of tools and content to promote the success of all students – including but not limited to:

- ✓ Our highly capable and flexible **Arkansas Student Plan**, which students can complete on their own or in a classroom setting
- ✓ College and career readiness curriculum that works with assessments and activities within Choices360
- ✓ Four- and six-year course planning based upon each district's course catalog, graduation requirements and pathways
- ✓ Links to the best – and free – test prep available
- ✓ Deep and broad career profiles plus an extensive college database available for students to use either on their own or through activities (including goal setting activities)
- ✓ Research-backed and normed interest and ability assessments
- ✓ Customizable student and parent survey tools
- ✓ Robust reporting and evaluation tools for parents, educators and district administrators
- ✓ Awards, distinctions, and honors portfolio activities for tracking and use in scholarship applications
- ✓ Transition planning tools including online applications, college comparison tools, and more!

**Comprehensive support and training** is provided to Arkansas districts:

- ✓ **Public Webinars:** A series of live, instructor-led webinars that provides an orientation to getting started with Choices360.
- ✓ **Training Materials and Resources:** XAP has a library of user-facing training support materials that include: FAQs, Quick Reference Guides, Professional Manuals, Lesson Plans, Training Worksheets/Activities, Site Maps/System Indices and Recorded Webinars/Video available as on-demand, online tutorials.
- ✓ **Customer Support:** XAP customer support representatives are available via phone, email, and online chat from 7:00 a.m. to 7:00 p.m. CT, Monday through Friday (excluding holidays) to provide product guidance and troubleshooting assistance.

## Additional Options

Additional, included services that Arkansas districts can optionally select:

- ✓ **SAML SSO** – XAP supports SAML for authentication of users via the district identity management servers. XAP's SAML SSO Integration can work with or without XAP's Student Information System Integration enabling students and professionals to seamlessly sign into Choices360.
- ✓ **SIS Integration** – SIS integration includes the auto-creation of student, parent and professional accounts as well as the upload of student transcript information including course enrollment and course completion data with grades and course catalogs. XAP uses a

secure FTP site for data file transfers. The state or districts in Arkansas can automate the file transfer or submit the files via web interface.

- ✓ **AppDocs** – AppDocs provides integration of application workflow and document management for students and educators in support of the transition to college (high school-to-college transcripts and applications).
- ✓ **Train-the-Trainer Onsite Workshops** – Up to seven hours of interactive classroom training by a XAP trainer, for up to 30 participants. These workshops are aimed at those who will be training and supporting end users. Train-the-Trainer Workshops focus on training materials, best practices, training strategies, new features or enhancements and use of the software solution. Workshops are hosted at a location provided by the district.
- ✓ **Private Webinars** – Interactive instruction by a XAP trainer on topics selected from the Training Course Catalog. Users access custom webinars from their own computers. Sessions are 1-2 hours in length, based on customer needs and topics selected. Custom webinars are also recorded and made accessible via a link provided to the district.
- ✓ **Consultation** – A XAP subject-area expert will provide one-on-one help and support on a pre-defined area, like course plan management.

## Add-Ons

For an additional fee, Arkansas districts can purchase one or more of the following:

**Alumni Outcomes** – Through the integration of the separately licensed Student Tracker service from the National Student Clearinghouse, set-up and reporting tools in the Professional Center allow school-based professionals and administrators to track and analyze the postsecondary educational paths and achievements of graduates from the high school. Updated outcomes data is automatically added to the Professional Center three times each year. **Annual Pricing:** \$595.00 per school

### **AchieveWorks Assessments:**

- ✓ **AchieveWorks Personality** – AchieveWORKS Personality is an online self-discovery assessment based on the proven science of personality type that improves students' self-awareness about their personality and reveals valuable clues about a student's strengths and blind spots, recommends career paths and college majors, as well as provides tips for conducting the most effective career search. This personality assessment improves a students' self-awareness, helping them make more informed decisions about their future, and will report back to the student on:
  - Realistic scenarios
  - Recommended career paths and college majors
  - Career search tips
  - Career satisfiers
  - Strengths and blind spots
  - Preferred learning styles

- Interpersonal negotiating styles

Upon completion of the assessment, students receive a confidential report identifying a complete personality profile, including a student's preference in communication, social situations, and relationship strategies. (Normed for grades 9-12)

- ✓ **AchieveWorks Learning & Productivity** – Learning to learn is a key component to every student's success. Backed by over 30 years of research, this learning style inventory is used in the education community to diagnose students' unique learning styles based on an analysis of their personal preferences. It can help students increase their self-esteem through more successful learning and higher test scores. It can also improve study habits, attitudes, and behavior, getting under-achieving students back on track. (Normed and available for grades 3-5 and 6-12)
- ✓ **AchieveWorks Intelligences** – Educators know that not all students learn the same way, yet traditional education and performance indicators rely heavily on math and language. Multiple intelligences theory expands this restricted focus to nine distinct intelligences that are represented by different areas of the brain. AchieveWORKS Intelligences reveals students' intelligence strengths and challenges, and then provides suggestions on ways to develop all their intelligences. (Normed for grades 8-12)
